Would you like an opportunity to hear John Porter and Robert Weinberger debate each other in their race for Congress? Then come to Maine East High School (Dempster and Potter) on Sunday evening Oct. 19 from 8 to 9:30 and hear them explain their stands on issues and answer questions from the audience.

Maine East is accessible to the handicapped. This is the second of three debates sponsored by the League of Women Voters in the 10th district. The Maine East debate is co-sponsored by the Park Ridge, Des Plaines, and Morton-Grove-Niles Leagues. The moderator is Donna Schiller

of Barrington who is a past president of the Illinois League of Women Voters, and who is currently working for the "Committee on Courts and Justice." There will be timed opening and closing statements, a given number of minutes to answer. Continued on Page 25

## Zoners deny car wash petition

by Diane Miller

The Niles Plan Commission and Zoning Board of Appeals Monday evening denied a request to construct a 14 bay self-service car wash at 7303 W. Dempster. Steven Hirsh, chairman of National Pride Equipment Corp., sought approval from the zoners to construct the car wash on the

site which is 257 feet wide and 133 feet deep and located between ABT Television and the Ponderosa restaurant. While Hirsh presented his entourage of experts on traffic, real estate appraisal and land planning, the commissioners listened to side Continued on Page 25

Referendum vote moved to April 7

## Maine North closing set for Aug. '81

At Monday night's Maine high school board meeting, school board members voted to close Maine North High School August 15, 1981, and voted to change the referendum vote from Nov. 22 until April 7. Board member Tom Reuckert abstained from voting on the school closing.

The Maine North closing could have been delayed until after the 1982 spring semester. Monday night's decision to close in August will enable summer school students to complete their work. The decision to close the school had to be made now to prepare for the following school year. School officials must have almost a year's lead time to prepare

plans for students and classes for the next school year.

The closing of North will result in 400 students being transferred to Maine West and 700 students to Maine East. The present enrollment of Maine East is 2,700. With the transferring of North students the projected 1981-82 enrollment will be 3,200. The annual decrease in total students accounts for this final figure.

While attendance boundaries are just about settled a study of school district 64 students who live north of Oakton st. are still being studied. It is possible the annual 100 freshmen from this area will begin being transferred. Continued on Page 25

## From the LEFT HAND

by David (Bud) Besser

Buglebits

Jeanenne Oestreich, former District 63 school board member, dropped in Tuesday morning and told us of the need for keeping local control of our schools. JO noted if we do not pass upcoming referenda for our schools, the money will eventually come from the state. Accompanying the state money will come state control, according to this very bright young lady. She said curriculum and books will be chosen by some state bureaucrats reducing local input into our local schools. Jeanenne was very emphatic it is important we pass the local referenda to enable residents to control their own local schools.

The closing of Maine North by a 4 to 3 margin emphasizes the need for local representation on the high school board. Since a change of one vote would have closed Maine East, it is essential interested residents concern themselves about the future make-up of the high school board. By 1984 a new school board will decide whether to close Maine East, South or West. If the East Maine area does not have knowledgeable representatives on the high school board, it is quite possible Maine East will be the next school closed.

### Com Ed cites hazard of signs on utility poles

Election years are often hazard years for utility workers, according to Bob Reidel, District Superintendent of Commonwealth Edison Company.

Nails, staples and other hardware used to tack campaign posters to utility poles can cut workers' hands or cause them to slip and fall.

"At night, or during storm restoration efforts, this is especially serious," says Reidel. "Having to stop and inspect each pole takes time that could be spent restoring service."

Besides posing unnecessary risks to utility workers, the posters are often left to the mercy of the elements after the campaign ends, and end up in unsightly tatters.

## Layout of proposed Niles Health Club

The existing Grennan Heights Recreation Center, located at 8225 Oketo ave., has an atrium in the center of the building consisting of three glass walls, but no roof. In an effort to best utilize the recreational facilities available to the Niles Park District, it was determined that the open atrium should be enclosed and that the adjoining recreation room, because of such limited use, would lend itself very nicely to the establishment of a health club.

The Niles Park District has shown an increase in a variety of exercise classes that it has offered over the past few years. The Niles Park District has studied other Park District Health Club facilities and have found them to be very successful. It is the obligation of the Niles Park District to continue to expand recreational opportunities for our residents and to improve existing facilities. With the development of the Health Club the full recreational exercise needs of the community will be better met.

1. The proposed health club will be located inside the Grennan Heights Recreation Center, specifically the open atrium area and the existing game room.

2. The proposed health club will not interfere with the existing gymnasium playing surface.

3. The proposed health club will not alter the existing locker rooms.

4. The gymnasium will continue to be used for recreational programs such as basketball, gymnastics, open gym, volleyball, exercise classes, tumbling, floor hockey, Karate, physical activities, golf lessons, special events, as well as continuing to expand existing programs and offering new programs.

5. The Niles Park District Board of Commissioners has passed a resolution stating that the tennis courts, playground and/or baseball diamonds at Grennan Heights Park will not be used for the purpose of providing a parking lot.

6. There will be incorporated in the new development of the facility additional supervisory area for the gymnasium and a lounge area for all users of the facility.

7. The health club will have the locker rooms, showers, lavatory, steam, sauna and whirlpool located in the open

Shown above is the layout of the proposed Health Club to be located inside the Niles Park District Grennan Heights Recreation Center. The proposed Health Club is that portion of the above drawing marked Locker Room, Whirlpool, Toilet Room, Shower Room, Steam Room, Sauna Room that is located in the center of the drawing, plus that area marked Exercise Room and Free Exercise Area. An additional office, lounge and storage will be located in-

atrium by enclosing the atrium and expanding into the lobby and hallway, and the existing kitchen and small storage room, off the game room.

8. The existing game room and storage area off the game room will be used for the exercise equipment which includes: An open exercise area, a variable Squat Machine, a variable Shoulder Press Machine, a variable Chest Press Machine, a Thigh/Knee Machine, a variable Leg Press Machine, a free-standing High Pulley Machine, an Arm Curl Machine, an Abdominal Board - Straight, an Abdominal Board with hump, a 2-way Ladder for Abdominal Boards, a Dip Bar, a Roman Chair, a Vertical Abdominal Raise, a Double Twister (Standing/Seated), two Pro Speed Bikes, a Multi-Exerciser, a Chin-up Bar, and a Scale.

9. The health club is an expansion of the ongoing recreational opportunities that the Park District offers the residents.

10. No resident will be turned away from any program in the Park District has offered in the past and will offer in the future as long as there is sufficient interest to offer that program.

11. The health club is simply utilizing one existing room for exercise equipment and exercise programs and, therefore, since the room already is part of a total recreational facility there should be no additional burden placed on the immediate neighborhood for traffic, parking, noise, or garbage pollution.

12. An architect has been hired to develop plans and lay-out of the facility and to develop cost estimates.

13. The estimated cost for completion of the project is \$175,000.

14. The health club will be a revenue producing facility intended to fully cover all operating expenses and repay the construction costs over a period of years so that there will be no burden placed on the existing tax revenues collected by the District.

side the Gymnasium, but will not interfere with the playing surface or Gym Programs. The existing Mens and Womens Locker Rooms remain exactly the same. The Health Club will be operated as a membership program, with the Gymnasium operating the same as in the past, where an individual can register for a Gym Program, participate in open gym or relax in the new lounge.

15. The health club will be operated as a membership facility in that when a member joins the health club, he or she will be issued a key and/or an identification card. The health club will be operated from 7 a.m. to 10 p.m. seven days a week with Monday, Wednesday, Friday and 1/2 day Sunday for women only and Tuesday, Thursday, Saturday and 1/2 day Sunday for men only. There will be a minimum of five hours per day of staff supervision in the health club for the purpose of working with new members and helping out in different exercise programs for the members. Whenever a new member would join the health club, he or she will be shown by the supervisor each piece of equipment and the proper methods of using each piece. The supervisor also will be available to assist the members in setting up programs, working on certain parts of the body, and for general assistance.

16. The fee for the health club will be based on operating expenses and a repayment of the construction costs over a period of years. The fees currently being reviewed are: an individual \$75, 2 per family \$125, 3 per family \$175, 4 per family \$200, 5 per family \$225. Based on a fee of \$75 per individual and an estimated operating expense of \$20,000, the Park District would break even when 287 members have joined the club.

17. The Niles Park District will limit membership to 200 men and 200 women and will hold that membership at 200 each until a

## Public hearing on noise control

Village of Niles Trustee Abe Selman, Chairman of the O'Hare Airplane Noise Control Committee, has announced that there will be a public hearing and meeting regarding the noise problem from aircraft landing and taking off at O'Hare Field.

The hearing will take place on Wednesday, Oct. 15 at 7:30 p.m. and will be held in the council chambers at 7300 Milwaukee ave. All concerned and interested citizens are requested to attend. The City of Chicago is presently planning to increase O'Hare airport operations by 25% which

will add tremendously to the existing noise problem.

Stated Trustee Chairman Selman, "We received positive reaction to our questionnaire that was published in the papers several months ago and this will be our first public hearing in an attempt to reduce the noise situation, which affects the citizens of our village. We urge all to attend so we may fight against the already alarming problem."

Shown above is Trustee Selman standing near of the "Jumbo Jets" that take off and land at O'Hare Field.

## NFS sponsors money management workshop

If it seems you have a nervous breakdown every time you pay the bills, this could be for you!

Niles Family Service will present a workshop on Money Management at the Niles Trident

Center, 8060 Oakton St. The second workshop will be on Oct. 15 at 7:30 p.m. Don't miss this valuable opportunity.

The workshop leader, Jean Bischman, will discuss how to prepare a workable budget and begin to sort out some of the confusion and questions you might have. Ms. Bischman is supervisor of the Family Financial Counseling Program, United Charities of Chicago.

Unfortunately, our incomes aren't growing as fast as our expenses—largely due to double digit inflation. Ms. Bischman has a knack for making a dry subject like budgeting become interesting. Above all, you will be amazed at how much of a difference smart shopping, smart budgeting and money management can make. It's much better to have a paycheck breakdown rather than a nervous breakdown! Please bring your friends to this workshop—it's not only free, but could save you and them hundreds of dollars! For further information please call Dr. James Cisek at 692-3396.

## ComEd warns public of Con artists

Two sure signs of Fall are Mother Nature changing into her autumn disguise, and con artists posing as utility workers, offering refunds on electricity bills or unasked for inspections of household wiring or even light bulbs. Clearly, one sign is welcome, the other is not.

Sometimes bogus utility workers, who work alone or in small groups, arrive at the door, claiming the utility owes a refund, but they require change for a large denomination bill.

## Family Life

by Larry F. Renetzky, ACSW, AAMFT

### How many people are you close to?

"You May Give without loving, but you cannot love without giving."

I discovered this expression in a book entitled "Apples of Gold." I believe it summarizes beautifully and pointedly what a loving relationship can and should be. If you truly love one another, then you can spontaneously and freely give to one another.

Furthermore, I believe that this loving relationship can best happen within marital and family relationships. However, I want to stress that it can and does happen among friends, neighbors, coworkers, counselor-client, and others who feel close.

How Many People Do you feel close to - really close to? One? Three? Five?

Who? Your spouse? Daughter? Son? Mother? Father? Friend? The longer I live and work as a counselor, the more forcibly I am struck by how many lonely and unhappy people there are.

Too often I find that a person is having difficulty letting go and really being close to another human being. They say it is too painful, or they don't know how. What do you say?

One of my clients told me that he had determined never to love again - that it just wasn't worth it. He had experienced a great deal of pain as a child because he didn't feel that he was loved. He didn't feel a closeness to his mother or father. My client related how the only way he knew that his mother loved him was by the things she gave to him.

This man wanted so much to be close to his mom and dad, but neither really tried or knew how to be close. Therefore, he had suffered greatly both as a child and as an adult.

He had experienced the truism of the expression that "You may give without loving, but you cannot love without giving." Due to the lack of closeness with mom and dad, he had concluded that he was not loved. Furthermore, he had built up a nice wall to protect himself from being hurt. He described it like a turtle shell to protect him and to hide in.

Are you trying to hide behind some wall or inside some protective defense like a turtle shell?

Fortunately, this man discovered that he was making his spouse and children suffer, and he determined to do something about it. He decided that it was a greater risk not to love than it was to love and to be close to his spouse and children. It was an uphill climb. Several times he withdrew and just about gave up. Then, something would happen to remind him that the risk was too great not to try to love and to be close - to invest himself.

Slowly but surely, this client experienced the joy of being close and really loving another person. His marriage blossomed after more than 15 years.

Certainly, the spouse helped to make this possible as she really responded in a loving and giving way. The spouse was willing to invest herself in individual, marital, and family counseling.

How much are you willing to invest yourself as a spouse? As a parent?

Something I want to make very clear is this: To love someone and to be close doesn't necessarily mean that you never get mad, aggravated or upset.

It is very human and natural to disagree, and it is good to have a dialogue that clarifies how both of you feel. This includes husband-wife and parent-child, as well as neighbors, friends, supervisor-worker.

Too often we believe that loving and giving means that you never have any negative feelings or any disagreements.

Whenever anyone tells me that he never has an argument or disagreement, I feel that he is lying to me or it is a dead marriage or relationship. When one really lives the expression, "You may give without loving, but you cannot love without giving," then it frees a relationship to express how you really feel.

Take the risk, really try to be close - it is well worth your investment. It may not be easy but the return is worth it. Try it and see.

If you need help for this to come about, call Niles Family Service at 692-3396 or come in to Niles Trident Center at 8860 Oakton st., Niles.

### Maggie Kuhn to speak at suburban HSA meeting

According to those who know her well, she's a dynamo, logging over 100,000 miles every year as a speaker on aging, health and health care delivery. She's Maggie Kuhn, founder and national convener of the Gray Panthers. Recently turned 75, she's a tireless crusader for older citizens who have been victims of discrimination.

On Tuesday, Oct. 28, in Oak Brook, Ms. Kuhn will keynote the annual meeting of Suburban Health Systems Agency, the federally designated health planning agency for suburban Cook and DuPage counties. Following cocktails and dinner, Ms. Kuhn will address the agency's board and advisory council members; committee and task force volunteers; general members, and interested citizens.

Suburban Health Systems Agency's annual meeting is also the occasion for election of 20 consumer and provider volunteers to the board of directors. In addition, six local organizations will receive awards as implementers of the agency's 1979-80 Annual Implementation Plan.

The implementation plan is a detailed report of activities expected to improve the health status of suburban residents and to ensure high quality health care at reasonable cost.

For information on Suburban HSA's annual meeting, call 524-9700.

### Meals on Wheels can use helpers

The Niles Senior Center offers a Meals on Wheels program to all Niles residents over the age of 62. The program was initiated about 3 years ago to help the homebound who are unable to prepare their own meals due to an illness or a physical handicap.

The purpose of the program is to help people remain in their own homes after an illness and not be confined to a nursing home. In the past, we have been very successful. We hope to continue this success. However, to do so we depend on our volunteers.

This would be a great opportunity for you to volunteer your time. We are in need of volunteer drivers Mondays through Fridays or on a substitute basis. The meals are picked up hot at 11 a.m. at Bethany Terrace Nursing Home, 8425 Waukegan in Morton Grove and delivered to the participants' homes. Total delivery time takes less than an hour. If you are interested in volunteering your time, please call the Niles Senior Center and ask for Kim Tate. The number is 967-6100, ext. 76.

The Running Raiders from Oakton Community College placed second in the seven-team Gateway Tech Invitational which was held in Parkside, Wisconsin on Sept. 24. Both the men and the women teams walked away with the second place trophies.

The men were led by Jukka Kallio, who broke the course record to take second place individually, and Carlos Montes, who placed fifth and also ran under the old course record. Dave Ghiardi and Brian Chapman placed thirteenth and fifteenth. Adam Keno completed the scoring for the men.

The women were led by Karen George who placed second individually. It wasn't until the last 1200 yards that Karen was able to pull away from the Triton run-

Replace your old gas furnace with...

The energy-saving Ambassador Mark II gas furnace from General Electric.

With automatic vent damper.

Save 16% on your gas usage.

Save when you replace your old standing pilot furnace with the new GE Ambassador Mark II spark ignition gas furnace with vent damper.

Now you can stay warm and conserve energy, too. Because General Electric's Ambassador Mark II gas furnace has energy-saving features your old furnace doesn't have.

**No standing pilot.** Gas is ignited electrically. So you only pay for gas when you want heat!

**Actual savings vary.** According to tests run using Dept. of Energy test procedures, combining electric ignition with a vent damper can cut gas consumption by about 16% yearly, compared to a standing pilot gas furnace. Of course, this is a national average. Actual savings depend on where you live and how the furnace is installed.

## Niles 5 ft. and over All-Stars

Late this summer the Niles 5 ft. and over All-Stars competed in two tournaments. In the Niles Tournament, Niles opened against River Grove. Niles won easily by a score of 8 to 1. DiNapoli, Ugel and Ciecko did the pitching for Niles allowing only two hits. Getting at least one hit each for Niles were Basso (2), Ugel (2), DiNapoli, Ciecko (2), Hickey, Giovanelli, Wagner, and Steiner.

Niles next faced a hard hitting team from Northbrook. Scott Ciecko went the distance yielding 5 runs but striking out eight. Niles scored 13 runs led by Fred Beyer who had 3 hits and 3 RBI's. DiNapoli also had three hits and Ciecko added two more. Other players hitting for Niles were Ugel, Hickey, Marcos and Wagner. Todd Kessel added several great plays on defense.

Niles faced Arlington Heights in the championship game. Nick DiNapoli and Scott Ciecko each pitched 2 innings. DiNapoli yielded 3 runs on 3 hits and Ciecko threw 3 no-hit innings. DiNapoli collected three hits to lead Niles. Beyer and Krueger added singles and Ciecko added a tremendous home run. Niles won easily 9 to 3 for the first place

trophy in the 5 ft. and over tournament. With the 5 ft. and over Niles All-Stars winning their tournament it gave Niles a sweep. In the three game tournament Niles stole 32 bases, 13 by Scott Ciecko.

The Championship team from Niles had a 15-man roster: Vince Basso, Fred Beyer, Scott Ciecko, Nick DiNapoli, Dan Gable, Art Krueger, John Giovesco, Scott Giovenelli, Frank Kahr, Paul Marcos, Jim Hickey, Bob Ugel, Scott Steiner, Tod Kasse and Brian Wagner.

**Park Ridge Tournament**

Niles finished 4th in this tournament but just as easily could have won it all. After beating Norwood Park and eliminating Park Ridge, who had won the Thillens Tournament, Niles lost two games by identical scores of 2 to 1.

Niles defeated Norwood Park 6 to 2 in the opener. The Niles All-Stars scored 6 runs on 11 hits to win their first game of the Tournament. The game was highlighted by fine defensive play and outstanding pitching by DiNapoli, Hickey, Wagner, and Ciecko.

River Park defeated the Niles team 2 to 1. Again Niles had excellent pitching from DiNapoli and Ugel. But the once mighty bats from Niles were unusually quiet. Still, Niles would have won with any luck at all. With one out in the River Park fifth, and runners on 2 and 3, a fly ball was hit

to medium centerfield. But a partly cloudy day suddenly turned into a partly sunny day and the ball was lost in the sun. Two runs scored and Niles lost 2 to 1. Niles hits were by DiNapoli, Marcos, Lietz and Basso.

Niles lost the consolation game by the same 2-1 score. Again, the Niles bats were quiet. Niles fourth place finish was disappointing but the victory over Park Ridge made up more of that disappointment.

Some statistics for the Niles team: Nick DiNapoli led the team with 12 hits. Fred Beyer had the highest average batting-.571. Some other leading batting averages were: Scott Ciecko at .529; Nick DiNapoli at .522; Bob Ugel at .389; Art Krueger at .333; Brian Wagner at .333; and Paul Marcos at .316.

## Support our schools through local property taxes

Dear Mr. Besser: Your Left Hand column of last week (Oct. 2) made several excellent points concerning the referenda coming up in October and November for School Districts 63 and 207. Both districts have made efforts to be fiscally responsible. Closed buildings and cut programs are not sufficient to keep either district in the black, however.

It is now necessary to ask the taxpayers for the additional monies to maintain our educational system. As you pointed out, if the taxpayers refuse to vote the additional money in property tax the state legislature will have to step in with monies raised through other taxes — taxes voted by the legislature, not by the individual taxpayers. So we have a choice — which way to support our schools.

I would extend the points that you made and argue for support of our schools through local property taxes rather than state imposed taxes for one reason — local control. We have learned and relearned the lesson of what happens if the state controls the money — they also control the schools. If we want to limit the state imposition of further directives upon us concerning mandatory programs, textbook selection, teacher employment,

bussing, curriculum, etc., we will have to accept the responsibility to fund education from our property taxes and not from general revenue funds of the state.

Inflation and recession made it very difficult to decide to tax ourselves further. But the education of our children must be of top priority in our plans for the future, whether it's our own children or those down the block, they must get the best education possible. Locally elected officials, living in our community with children in our schools are in a better position to make decisions about our school district than legislators from downstate Illinois or Chicago. Let's keep our priorities straight.

Sincerely yours,  
Jeanenne Oestreich  
Former District 63  
Board Member

## Does Mayor Blase support the health club?

Dear Editor:

The Left Hand column on Tom Flynn and the Grennan Heights problem was unusually informative. It is always interesting to see yourself as others see you. If Mr. Besser was correct in his assessment and I was too emotional and overbearing then I hereby offer my apology to the Park Board and citizens of Niles. However, I still oppose the health club at Grennan Heights.

Tom Flynn and his problems over the health club are not important enough for a Left Hand column. The important questions are (1) Should the health club be located at Grennan Heights when over 1,200 people publicly expressed their opposition to the location (2) Should a tax supported building be used for a private club (3) Do local citizens have a right to object to a project that may create a flooding, parking, children's safety, noise and garbage problem in their immediate neighborhood and (4) What rights, if any, do citizens have in how their elected officials take actions that adversely affect the citizens' environment?

There is also another question that should be answered. What rights, if any, do citizens have in determining their future neighborhood environment, the use of public property, and simply how they will live in their own homes? How should local elected officials react to citizens' concerns? It seems to me that Niles citizens have little if anything to say about any of these things.

Mayor Blase was in Europe and the Black Sea when this problem came up and coincidentally he was in Florida last year when the McDonald's problem was voted on. Does Mayor Blase support the health club at Grennan Heights? No reporter has asked him!

Steve "fighting mad" Chameriski recently told me he asked Mayor Blase for support in 1981. He also told me that Mayor Blase told him he would support Arnold, Kostiba and Louella Preston, a former Board member, and not support Chameriski. If this is true then how can our Park Board vote in the best interests of the people and not in the best interests of Mayor Blase? The answer is very obvious where their loyalty lies.

I don't believe this decision should be made by Mayor Blase, Tom Flynn or any one person. The Board should listen to the people and right now 1,200 Niles citizens have publicly said they do not want the health club at Grennan Heights. When you read this the Park Board will have made their decision. The only thing you can do is not forget and organize yourselves for the April 1981 Village and Park District elections.

Sincerely,  
Thomas W. Flynn  
Niles, Ill.

Editor's Note: Steve Chameriski said: "I never talked to Nick Blase in the last 4 years." Chameriski said when he talked to Flynn, Tom asked Steve to run for village trustee on a Flynn ticket in next year's village election. Flynn also suggested to Chameriski park commissioner Elaine Heinen would be a good candidate for village clerk.

In Flynn's reference to Mayor Blase and the health club, Blase told The Eagle, "I support anything which is park oriented so, thus, I support the health club. As far as the location of the club, I would not get into that." He implied it was not prudent to get involved in where the health club should be located.

## LWV expresses concern over access to polls for handicapped

Dear Editor:

The League of Women Voters of Illinois supports development and implementation of legislation to make buildings, curbs, and transportation more available to the handicapped. Since 1977 it has placed particular emphasis on the ease of access to polling places.

The LWV of Morton Grove-Niles is especially concerned about the accessibility of our local polling places. If you are

aware of a polling place that is not accessible to the physically handicapped, please call the village clerks who are responsible for all elections. They are Jerry Schurke, 965-4100, Morton Grove; and Frank Wagner, 967-6100, Niles village clerk.

For further questions about the November 4 election, call the League of Women Voters of Morton Grove-Niles at 966-7743. And don't forget YOUR VOTE DOES MAKE A DIFFERENCE.

## Comments Niles Lions

Dear Editor:

This letter is to thank Mr. Russ McAndrew and Mr. Ang Marcheschi, members of the Niles Lions Club, for all the help they gave me on Saturday, Sept. 6, regarding food, lodging and the presentation of the Lions Club Banner to the team from the Philippines. We here in Niles can really be proud of the Lions Club, its members and these two gentlemen. A special thanks to Mrs. Barb Zinn for leading me in the right direction.

Thank you,

## Safety Hint

The AAA-Chicago Motor Club offers these tips for night driving:

- check and clean all lights
- keep windshield and faces of dashboard gauges clean
- dim your headlights for oncoming traffic and when you close in on a car ahead
- should the oncoming driver fail to dim his lights, guide yourself by the right edge of the highway
- when dusk comes, use headlights, not parking lights.

## Provenzano named GOP Senior Citizen Rep

Michael Provenzano of Niles has been appointed Senior Citizen Chairman of Maine Township Regular Republican Organization for the Illinois Republican State Committee in Springfield, Ill.

A lot of Senior Citizens are unhappy and it's pretty easy to understand why. Rampant inflation threatens the ability of Senior Citizens, who are on a

fixed income, to take care of their needs. We will be the deciding vote in electing our next public officials. We must pull together, we can make a change for the better.

If you would like to help, write Michael Provenzano, Maine Township Regular Republican Organization, 1566 Miner St. Des Plaines.

• Greenbrier gas furnaces get the most heat from fuel and fuel dollars with baffling built into uniquely designed heating elements. The baffling slows down combustion gases as they pass element walls, creating a zigzagging SWIRL-FLO action. The hot gases are forced into greater, longer contact with walls, so more heat is transferred to the air which circulates through the home.  
• All quiet, attractive Greenbrier Hi-Boy gas furnaces are certified by the American Gas Association for use with either natural or LP gas.

**Resurrection Moms Pinning Ceremony**

The annual Pinning Ceremony for Freshman Mothers will highlight the Oct. 16 meeting of the Mothers' Club of Resurrection High School in the Little Theater, 7500 W. Talcott ave., at 7:30.

The business meeting will be followed by the Living Rosary and homily given by Rev. Patrick O'Brien, C.M. of DePaul University. During the distribution of pins by father the Concert Choir of Resurrection H.S. will sing. Sister Bonita Marie, Campus Minister, will also address the Mothers.

A coffee hour, hosted by the Senior Mothers, will follow, and a bake sale will be held at this time. Cakes and other baked donations may be brought to the cafeteria before the meeting.

**Marillac Mothers' Club plan programs**

At the September meeting of the Marillac Mothers' Club, President Pat Revord (Glenview) outlined the year's events. Some of the activities planned include a freshman mother-daughter box lunch, mothers' afternoon bridge, the Christmas pot luck dinner, and a spring mother-daughter luncheon.

The following mothers serve on the Marillac Mothers' Club board: Carolyn Mitchell (Glenview), Pat Higgins (Northbrook), Maureen Smith (Chicago) and Katie Lane (Northbrook).

Some of the mothers have formed a bridge group. Calling themselves the Friends of Marillac bridge group, they meet on the third Tuesday of each month in the Mothers' Club room at Marillac. Although several women gather for conversation and cards, Chairman Mimi Flando (Deerfield) and her co-chairman Peg Murphy (Niles) report there is always room for interested bridge players.

**Notre Dame Seniors attend Divorce Court**

The senior religion classes of Notre Dame High School, 7655 Dempster st., Niles, attended Divorce Court on Tuesday, Sept. 23. The students attended Post-Decree and Pre-Trial Motions of Judge Rene Goier, Judge Robert Chapman Buckley, and the Trial Court of Judge Monica D. Reynolds and Judge John C. Crown.

The field trip which is part of the religion curriculum is for students to observe the procedures that a Judicial System goes through when a couple files for divorce, to experience the problems that some couples have when they present their case to the Judge, to understand some of the problems that people have in married life.

Ed Lisowski, religion teacher, said, "The field trip is to understand the judicial process, and to explore the psychological difficulties of going through division, to take action to change this problem in their own life, and to share personal problems on divorce and share their own life experience."

Students participating were Frank Avino, Mark Biewald, Mike Bush, Joe Catalano, Mike Coughlin, John Cuneo, John Daddono, John Day, Bob Dietz, Chris Drehobl, Al Fullone, Bill Gajewski, John Gibbs, Mike Horcher, Todd Kane, Tim Kozeny, Scott Latin, Mike Maguire, Marty McAleer, Ken Mizialko, Art Montouri, Virgilio Moreno, Tom Naughton, Jim Nennan, Mike Paluch, John Rooney, Jim Ryan, Paul Stahlberg, Mike Steiner, Brian Tobias, Frank Tubikane, Chuck Ugel, Mike Vonstein, Tony Zumpano.

**Culver commends minimum salary bill veto**

On Friday, Sept. 19 Governor Thompson vetoed HB 3153, the so-called minimum salary bill. Local school board members and school administrators see this action as a solid victory for education, local control, and the taxpayers.

According to Dr. Clarence E. Culver, Superintendent of School District 71, "The board and community worked very hard to defeat this bill. We appreciate the Governor's veto. He was under intense pressure to sign this bill into law." HB 3153 would have set minimum salaries and future raises for teachers, as well as ex-

panding the personnel to be included in collectively bargained contracts.

"We are very grateful to Governor Thompson," said Mr. William Meier, President of the Board of Education of School District 71. "All too often the state has intruded into the collective bargaining process, and this bill would have been particularly harmful." School board members and school administrators say they will again work within their communities as well as with the Governor's office to oppose any attempt to override Governor Thompson's veto of HB 3153.

**Immunization records required by Oct. 15**

Parents of Maine Township high school students who have been notified that their children's immunization records are incomplete should act promptly to do whatever is required to complete these records. Students who fail to meet the new requirements of the Illinois Department of Public Health regarding immunization may be excluded from attending school after Oct. 15.

In the past few weeks the school district has sent letters to parents informing them that their children's immunization records are incomplete according to new state requirements. Within a few days school nurses will be contacting parents who have not responded to the letters and asking them to supply the missing information as soon as possible.

Illinois law requires that all school children be immunized against polio, diphtheria, tetanus, whooping cough, measles and rubella. With the new state regulations requiring that all immunization dates must be listed, not just the last booster shot, many students' records, require updating.

"While District 207 meets the 1980 compliance level of 80% properly immunized students so that we do not have to be concerned about any loss of state aid, we are very concerned about the possible need to exclude students from school because their immunization records are incomplete," Joel Morris, Assistant to the Superintendent of District 207, reported.

He added: "We will be doing everything within our power to avoid these very serious consequences for students."

**District 63 referendum**

A meeting was held at Apollo Junior High School on Sept. 22 for the purpose of organizing committees to work for the passage of the District #63 Referendum. The vote on the referendum will be held on Sat. Oct. 25, from 12 p.m.-7 p.m. at the operating elementary schools.

Dr. Donald Bond, Supt. of Schools, addressed the group of approx. 75 people, and explained the financial needs of the district. Local citizens and educators feel this is a crucial time for a YES vote in order to maintain the high quality of education District #63 affords its students as well as support services to the private schools.

According to realtors, homes locally have been increasing in real value on the average of 10% per year the past few years; while the total tax bill for the elementary school district, since 1972, has increased about 1% per year for many home owners.

More people are still needed to work on the following committees-the Telephone Committee and the Election Committee. Please call Rich Buckman at 297-0473 (eves.)-Chairman of Operation Education for further information.

### From the LEFT HAND

Continued from Page 1

We are sounding a bit provincial in promoting well-informed people from our area to move onto the high school board. But the expected battle over Part II in the closing of Maine high schools should be considered now, not when the vote comes up in '84.

It is obvious each area in the high school district will be having representatives both on and off the school board touting their area-school remain open. If the East Maine area is under-represented, there is a strong likelihood there will be no Maine high school north of Oakton street.

Ms. Oestreich, from paragraph one, would be an excellent candidate for such a post. We would hope she would give consideration to running for the high school board.

In our letters-to-the-editor column this week, Niles Mayor Nick Blase says he supports a health club in the Niles park district. But Nick emphasizes he does not have any choice as to its location, implying this is a park board matter. Well spoken by a candidate for next year's Mayoral election, who is not out to offend any of the natives.

If we read the park board correctly, the vote to place the health club in Grennan Heights is shaky. Park board president Dan Kosiba and park board vice president Jeff Arnold are in favor of the GH location. But the necessary third vote may not be there.

Park board commissioner Steve Chamerki suggests the club be constructed at the ice rink building on Ballard rd. Obviously, it would not cause the conflict which has surrounded the Grennan Heights dilemma. We have no idea whether or not such a plan would be feasible. But if it would be, it might take everyone off the hook. The ice rink complex would become more profitable, the Grennan Heights residents would be appeased and the park district would have its health club.

The entire conflict is unfortunate. The park board commissioners were doing their jobs in trying to present one more activity for residents. They could have just sat there on their collective duffs and continued running the district without this additional problem. But they chose to do what they were elected for, to plan and improve park activities.

Niles park district, like its big brother, Niles village, is rolling along at a handsome clip. It has money in the bank and is drawing substantial interest on its reserve. But rather than allowing it to accumulate, the board and its director continue to do what's expected of them... not increase its park reserves, but provide more and better services for the people they represent.

The entire health club imbroglio got out of hand. Its idea is well intentioned. It is a shame the well intentioned should have gotten their noses caught in the proverbial ringer.

Cont'd from Niles-E.Maine P.1

remarks from approximately 50 area residents who objected vehemently to the car wash. Hirsh agreed to a "right turn only" out of the car wash when arguments arose over the dangerous traffic situation on Dempster st. and also to shorter operating hours to appease those concerned with the added noise from the operation. But after almost 2 hours of testimony and questions, the board unanimously denied the petition. Hirsh was then told by Zoning Board chairman John Frick his recourse was to seek a hearing from the Niles Village Board and suggested he call and be placed on their agenda if he so desired.

...In other business the board heard a continuation of the request for a zoning change from B-1 to R-4 with a 10% variation for condominiums to be constructed at 8747 Touhy ave. The petitioner, Development Research Corp., is seeking to construct a 3-story building with ten 2-bedroom, 2-bath condo units to be sold at prices beginning at \$110,000. Michael Lavin, attorney for the petitioner, told the board he felt the construction of this building would be beneficial to the Village of Niles both through taxes and beautification. The lot presently is the site of a vacated Clark Oil station.

William Merc, architect for the Development Research Corp. presented plans for the proposed

Notice is hereby given, pursuant to "An Act in relation to the use of an Assumed Name in the conduct or transaction of Business in the State", as amended, that a certification was filed by the undersigned with the County Clerk of Cook County, File No. K72760 on October 2, 1980. Under the Assumed Name of LaMarsh and Associates with place of business located at 7409 Davis St., Morton Grove, Ill. 60053. building to the commissioners whereupon Commissioner Angelo Troiani noted the 2-bedroom, 2-bath units had a den which also contained closet space. When Troiani questioned Merc on this, Merc refused to change the plans so as to incorporate all closet space in the bedrooms and not in the den. "The closet in the den makes it readily accessible to be used as a 3rd bedroom," said Troiani. "If these units are then indeed 3-bedroom units, you do not have enough square footage for the building according to Niles Zoning laws." Merc still refused to consider an alteration in the plans and when asked by Chairman Frick if they wanted another continuance to reconsider, attorney Lavin conferred with his client and sought the continuance to Monday, Nov. 3.

In a third action the board heard a petition from Riggio's Inc., 7530 Oakton, for the expansion of B-1 Special Use to permit banquet facilities in their basement. John Duffy, attorney for the petitioner, told the board his client was seeking a 90-seat banquet facility to accommodate requests for larger parties.

Sylvester Netti, a traffic engineer presented modified plans for remarking the parking facilities on the former KingsGuard property at Oakton and Milwaukee, which Riggio's purchased some time ago. The plan called for 2 exits onto Oakton st., one of which would be 25 ft. off the corner. All the commissioners agreed this could be hazardous on such a busy intersection. Netti also testified on the results of 2 traffic surveys he had taken in July of this year.

Anthony Riggio presented the board with a lease he had with Avondale Savings and Loan in the Oak Mill Shopping Center across the street from Riggio's which allowed him 25 parking spaces for his employees. Area residents John Hummel and Barry Fronczak presented the board with a petition containing 24 signatures opposing the restaurant expansion. They were unified in their testimony that there would be more traffic which would seek spaces on Oriole if the restaurant lot was filled. They also felt there would be more noise and rowdier crowds from banquets than from the regular restaurant facilities. After considerable discussion the zoning board decided to present the proposed parking lot plans to the Niles Police and Engineering Departments for their perusal and continued the hearing to the Nov. 3 meeting.
