

Niles to ban minors from renting motel rooms

by Bob Besser
Meeting on Tuesday night, the Niles Village Board unanimously requested the preparation of an ordinance barring minors under 18 years old from renting motel rooms in Niles. Village attorney Richard Troy was asked to have the ordinance prepared for the

next village board meeting. Speaking in support of such an ordinance, Niles Police Chief Clarence Emrikson said the police have been repeatedly called to Niles motels due to disturbances caused by minors renting motel rooms. Often, according to Emrikson, a room ren-

ted by one teen is used for a party attended by 10 or 20 teens. Besides the extensive damage done to motel rooms rented to teens, Emrikson said such parties often spill out into hallways disturbing other guests. Emrikson added that of the

Free safety bussing to be eliminated

District 63 to readjust bussing fares

by Eileen Hirschfeld

Bussing students for safety reasons in East Maine School District 63 will probably be eliminated when the district receives new bids for bussing contracts by action taken at a regularly scheduled meeting Feb. 10 in Apollo School, 10100 Deer d., Des Plaines.

By consensus, board members indicated free bussing, except for special education, may be substituted for a system in which all students pay the same fare with the district subsidizing part of the costs.

Students formerly walked to school. With declining enrollment, four elementary "neighborhood" schools were

closed and various bussing zones set up. At this time, some children are bussed free, others pay a partial fare and a small group pays full fare.

Richard Smith, board president, said the district is no longer in a position where it can afford safety bussing. He said this bussing was an "appreciation" to parents of children whose schools had been closed.

Larry Solomon, board member, said parents with several children are writing out transportation checks for \$400 a year. He said "it is not only prohibitive, it is a crime." He indicated fares

From the LEFT HAND

by David (Bud) Besser

Getting inside Nick Blase's head isn't very easy. In past years, Niles' Mayor always seemed to be walking around with a political barometer attached to his political weather vane. He gauged the pressures of the times and then acted accordingly. But something has happened to Old Nick. He's become just plain unpredictable.

In days of yore you could give 8 to 5 on what Nick would do and be pretty sure of picking up the fiver. But as the man completes his 5th term in office, he's showing an indifference to the odds.

We used to say Nick knew where the votes were. He made sure the town ran on time. Every Nilesite knew his garbage pick-up was first class. And his snow clearance was par excellence. On more delicate subjects Nick played it more gingerly. When public housing was discussed, it was a code phrase for bringing in blacks. And this is where Nick was most political. On the one hand Nick took a leadership role which was most admirable. When the first black family moved into town, Nick stood 10 feet tall, scrupulously upholding the family's rights in the community. He wouldn't pander to the lowlights in Niles. When a reverend of questionable standards brought a bunch of rabble rousers into Niles in those early '60 days, Nick let them know in no uncertain terms the laws of the land would

Schiller Park. Two passengers in Cepl's auto, Linda Hagemann, 20, 7845 Octavia, Niles, and Marlene Gilszner, 20, 107 Prairie, Park Ridge, were also injured.

Police said the doors of both vehicles had to be pried open to remove the injured. Broccolino was pronounced dead on arrival at Lutheran General Hospital, Park Ridge, from the multiple injuries. Cepl suffered internal injuries and

Niles All American Seniors Club

A two-fold celebration on Feb. 5 was the first big event of the Club Year. The main event being the seventh anniversary of the Niles All American Club, and the other our annual St. Valentine's Day Party. Over one hundred and twenty members helped to celebrate this occasion in the Club's history, with three fourths of the group qualifying as Charter Members. The Welcoming Committee had a unique approach in greeting members as they signed the Roster and that was by waist measurement. A lot of laughter and comments resulted as members watched their slim or somewhat robust members being measured (Tops and Weight Watchers, take note). All members willingly submitted and paid a penny for each inch taped. This resulted in quite a number of pennies going into the kitty which eventually were converted into prize money for some twenty lucky recipients.

The morning resumed with the usual card games, pool and conversation with friends, interspersed with the raffling off of the prize money.

Promptly at noon the group enjoyed a delicious catered luncheon complete with a strawberry filled Anniversary Cake.

The highlight of the day was the music by Jerry Sullivan a member of the "We Three" group of Niles and Ken Real from the "Studio" in Morton Grove. These very capable and wonderful entertainers kept us enraptured with their singing, accordion combo and musical comedy entertainment. Among their medley of songs were - What A Day This Has Been, Kathleen, Alley Cat, Younger Than Spring Time, a Calypso number, I Left My Heart in San Francisco and many, many more fetching toe-tapping numbers. This hour of entertainment seemed all too short to our members who would have enjoyed listening hours more to Jerry Sullivan and Ken Real's musical entertainment. From the smiles and happy faces it was evident that all our seniors had a wonderful day.

SJB 6th grade cagers add two more victories

The 6th grade boys basketball team of St. John Brebeuf School captured 2 more victories by defeating the teams from St. Monica 46-47, St. Ferdinand 34-23, and St. Edwards 49-23.

The wins came after a heart-breaking loss to the boys from Our Lady of Perpetual Help. SJB was winning that game for 3 quarters until OLPB began to score on fast breaks and pulled ahead to a one point win. Joe Kumkowski gained 11 points for SJB, Glen Thompson had 9 and John Calarco had 8, but the loose defensive play in the final minutes cost SJB the game.

In the St. Monica game, Hans Bachmeier, John Calarco and Joe Kumkowski turned in outstanding defensive efforts which resulted in SJB holding their opponents to just 4 points in the first quarter as St. Johns rolled up 16 points - mostly on lay-ups. The game featured fine rebounding by Mark Mikowski and Tim Gambo who each pulled down 9 and Scott Dugan who grabbed 6 rebounds. John Calarco was high scorer with 12 points followed by Todd Lantz with 10.

According to coach Jim Mis, the St. Ferdinand game was "well played by both teams with SJB holding off any advance made by St. Ferdinands". Steve Hammer turned in an outstanding performance by grabbing 17 rebounds for St. Johns in spite of the fact that he was playing against a taller opponent. In addition to Steve, Hans Backmeier and Glen Thompson provided the defensive power for St. Johns. John Calarco and Joe Kumkowski were high scorers with 11 points a piece.

In the game against St. Edwards, SJB came away with a 49-23 victory. Again, it was the defensive efforts of Steve Hammer, Joe Kumkowski and Hans Backmeier which allowed St. Johns to pull away to a comfortable lead. Mark Mikowski added to the effect by pulling down 9 rebounds and stopping the shorter but determined St. Edwards team.

High scorers were Glen Thompson with 12 points and Mark Mikowski with 9.

ND grapplers prepare for championship

The Notre Dame grapplers used the previous weekend to tune up their talents as they approached the East Suburban Catholic Conference Championship weekend. The conference Championship was decided last weekend at Holy Cross High School. The Dons entered four meets over the previous weekend, against St. Patrick's High School on Jan. 30 and against Luther North, Lakeview, and Niles North on Jan. 31 and won them all with

authority. Many of the Dons were undefeated throughout the entire weekend, while the remaining matmen acquired only one or two losses. Of the 48 matches wrestled over the weekend, the Dons captured 37 victories. As the Dons prepared to enter the conference meet last weekend, they posted a 6-1 conference record along with many individuals who have been exhibiting signs of an "end of the

season fervor." The Dons will be competing in the Maine West District on Feb. 13 and 14. The two leaders in the Sophomore East Suburban Catholic Conference will meet Friday, Feb. 13 at 6:15 in the Notre Dame gym. The teams, Notre Dame and Marist, both hold 8-1 conference records. The Dons' only loss was to St. Joseph's, 61-60.

Notre Dame beat Carmel 54-47 on Jan. 30. Leading the sophomore Dons in scoring was Jim Heavey with 16. Scoring 8 apiece were Vince O'Connell, Marc Bartalota, and Jack Moran. Paul Marusek added 4 and John Mueller 3.

On Jan. 31, Notre Dame beat Maine East 58-49. Jim Heavey led the scorers with 15 points. Vince O'Connell added 10, John Mueller 9, and Jack Moran added 8. Marc Bartalota contributed 6, John Joyce and Bob Barrett added 4 apiece with Paul Marusek scoring 2.

The Dons are coached by Bruce Donash and Tony Amarino.

BEFORE WE SWITCHED TO A GLENVIEW STATE BANK NOW ACCOUNT, WE DID A LITTLE CHECKING AROUND.

Like most people we want maximum value for our savings and checking deposits. We were pretty excited when we learned that banks would start paying interest on checking accounts on January 1. When the new NOW Account programs were introduced, we made a comparison between the different programs offered by banks and savings and loans in our area.

With Glenview State Bank we only need to maintain a \$750.00 minimum balance in our account to keep our NOW Account absolutely free and we receive 5¼% on our average monthly balance. If our balance should drop below the minimum, we are charged only \$5.00 for that month or \$.25 per check, whichever is greater. Of course, we wouldn't let the balance drop below \$750.00, but it's nice to have the liquidity in the event an emergency did arise.

We're glad we switched our checking and savings accounts to Glenview State Bank. 60 years of checking experience is reflected in the Glenview State Bank N.O.W. Account. When you compare it to other programs, the difference in value is obvious as it is with most financial programs offered by Glenview State Bank.

If you do some serious checking, we think you'll see the advantages of the Glenview State Bank NOW Account, too.

On Sunday evening, Feb. 15, at 7:45 p.m. the Congregation will again be holding their annual

Jewish National Fund Roast this year honoring Doris & Ernie Smolen of Niles. Both Doris and Ernie have been extremely active members of the Sisterhood, Men's Club and Congregation.

Everyone is invited to attend this free, fun filled evening.

Niles Community Church

Activities at the Niles Community Church (United Presbyterian), 7401 Oakton st., on Sunday, Feb. 15 will begin with a meeting of the Men's Breakfast Group at 8:30 a.m.; the program will be a film of the 1980 World Series baseball games. The morning worship service will be held

at 10 a.m. Church School classes for three-year-olds through eighth graders will be conducted concurrently with the 10 a.m. service; care for two-year-olds and younger will also be provided. The Youth Musical Group will rehearse at 11 a.m. That afternoon, beginning at 3:30

p.m. the congregation will participate in a Valentine Progressive Dinner in the homes of various members and friends. Church meetings and activities during the week of Feb. 16 will include: Friday, 7 p.m. - Cub Scout Blue & Gold Dinner.

Roast to benefit Jewish National Fund

Ernie and Doris Smolen will be "roasted" by their friends at the Northwest Suburban Jewish Congregation in Morton Grove on Sunday, Feb. 15, 8 p.m. The affair is a benefit for the Jewish National Fund, one of the oldest Jewish organizations in existence.

Ernie Smolen has been vice president of the synagogue's membership committee for the last three years and was instrumental in organizing The Singles Scene and the Senior Friendship Guild. He is also the chairman of the Chesterfield Country Club.

Doris Smolen, a past president of the synagogue's sisterhood, is a graduate of the Mount Sinai Hospital School of Nursing. In addition to her sisterhood presidency she has also held the posts of treasurer, financial secretary, PTC vice president of

the Hebrew School and administrative vice president of the sisterhood at Northwest Suburban Jewish Congregation.

Married 28 years, the Smolens have three children; Renee, Lee and Alan.

The Jewish National Fund, beneficiary of the "roast," is the single entity most responsible for turning the barren wasteland that was Palestine into the verdant and viable state of Israel. The JNF has planted more than 150 million trees in Israel, and figures prominently in that nation's agricultural and economical development.

"Roasters" at the festivity include Masters of Ceremonies Sally and Mel Zuckerman, Rabbi Yechiel Eckstein, associate director of B'nai Brith's Anti-Defamation League, will be the guest speaker.

There are about thirty-five young people in the group and they have sung in Wisconsin, Indiana and all over the greater Chicagoland area. Little City Resale seeks donations

In these times of inflation, it's nice to know that you can still get a bargain and, at the same time, help someone else. The Little City Resale Shop at 5317 N. Clark St. had a winter cleanout and a great deal of new and good merchandise is now available.

Think Spring...help re-stock the Resale Shop by starting your housecleaning early, too. Now's the time to clean out your closets, basement and attic, at no expense to yourself. If you have items in good condition that you no longer need, the Little City Resale Shop will be happy to receive them. What especially is needed is clothing, jewelry, television sets, appliances, books, furniture, and household items. If you can't take the castoffs to the Shop between 10 a.m. and 4 p.m. Monday through Saturday, call 728-6166 and they'll be picked up. All donations are tax-deductible.

Men - they are all alike. All they want is sex, sports, and something to eat." I hear a lot of women say this. I also hear many men say, "Women, I never understand them - I'm damned if I do, and I'm damned if I don't." Wives/husbands, how well do you communicate with each other? Do you present a confusing and distorted picture to each other and also to your children?

Family Life

by Larry F. Renetzky, ACSW, AAMFT

Does your message make it?

I had a teenage boy who had been in and out of trouble say to me, "It doesn't matter. Mom and dad are never around anyway. They don't really care about me, or they would have been around when I needed them." You might say, "the ungrateful, spoiled, or thoughtless boy. Both of his parents working to give him things he wouldn't have otherwise." The boy's reply to this was, "They never asked me what was the most important. At least mom could have been around."

Or, is your love, attention, supervision and discipline more important and crucial? I recognize that some mothers need to work to help provide necessities for the family. What about you mothers who work to provide things like that fine home, second car, spiffy clothes, super-vacations and extra-special outings, toys, etc. Is it really worth it when most likely what your children and husband need more is your attention and love - just to know you are there, that you really care that much.

Be honest with yourself, your husband, and your children. If you women need a substitute for being just a wife and mother, then tell them. Don't pretend that you are working or your many other activities are just for your husband and children. Tell it as it is!

If you need to get away to find more meaning, purpose, and fulfillment for life, so be it, but be honest about it and do it in such a degree that your husband and children don't suffer too much.

Men and children, be thoughtful and appreciative of your wife, your mother. Perhaps if you let her know how much she really means to you as a wife and mother, then she might not have to find substitutes of a job, sports, other outside activities, or another man, or drugs such as alcohol, etc. Really try to understand her and let her know you truly appreciate her and you won't be as apt to say that you are "damned" at all, but instead really loved.

Wives/husbands, mothers/fathers, young people - let me know your feelings about this article, some of your experiences. I will try to address myself to them in future articles. Let me know if you found your substitute to be worth the cost, or what first caused you to seek out a substitute.

If you have an individual, marital, or family problem, call Niles Family Service at 692-3396, and talk with Madeleine Seltis, our clinical director, or come in to the Trident Center, 8060 Oakton Street, in Niles.

Mother charges MG police with lack of concern

Dear Chief Glauner:

My children are so very upset with their recent involvement with the Morton Grove Police Department that I felt compelled to write you personally.

On Sunday, Feb. 1, 1981, my sixteen year old daughter, her girlfriend, and my fourteen year old son with his boyfriend were returning home after attending a concert at the Granada Theater in Chicago. Having been raised all their lives in the northwestern suburbs, they unfortunately got lost on Sheridan Road. This situation was only complicated by the fact that the car was experiencing acceleration difficulties.

Everytime my daughter Colleen tried to accelerate, past twenty miles per hour, the car would die. When she arrived at the 5600 block of Dempster, the light had just turned yellow. She proceeded across the intersection, only to have the car die in the middle of the street. Naturally, by the time she was able to start the vehicle and proceed across the intersection, the light had turned red.

As fortune would have it, Officer Thalmann was present to witness these events. When he stopped my daughter, her initial reaction was one of relief. "Thank goodness, a policeman to assist me." WRONG!!!! Instead of assisting my distraught daughter with the disabled vehicle, Officer Thalmann proceeded to give Colleen a ticket for going through the red light. No consideration was given to the fact that there was a legitimate reason for not being able to go directly through the intersection; this fact has been substantiated by a \$700 repair bill for a new crankshaft. To add insult to injury, Officer Thalmann then proceeded to administer "curfew" tickets to all four of the children!

Again, a lack of consideration was given to the fact that the car was disabled and that the children had been temporarily lost en route home.

Chief Glauner, it is almost incomprehensible that any one officer can be so lacking in concern for children in distress. It is truly amazing how one encounter with Officer Thalmann has managed to undo all the good that the "Officer Friendly" program had accomplished with my children. Possibly as the Chief of Police, you should reiterate with Officer Thalmann the concept that policemen do have other jobs besides writing tickets. policemen can and do assist people when they are in need.

Sincerely, Pat McVeigh Arlington Hts, Ill.

Editor's Note:

Commenting on Mrs. McVeigh's letter Morton Grove Police Sergeant George Incedon said there was a difference of opinion over the events which occurred and it will be up to a judge to determine what actually happened. Incedon relates that according to the officers who issued the tickets, not only did the car not stall at the intersection but, after proceeding past the red light, continued a few blocks until pulled over by police. Additionally, Incedon said the auto had no difficulty driving to the Morton Grove Police Department where the children called their parents.

As for Mrs. McVeigh's statement that the officer was "lacking in concern for the children in distress", Incedon said that while the officer did issue tickets for curfew violation, he chose not to issue a third ticket for driving on an invalid license. According to the law a minor's driver's license is invalid when used after curfew. This would have constituted a moving violation and, if found guilty, would have gone against Mrs. McVeigh's daughter's driving record.

Park Ridger cites 'Left Hand' for not getting the facts

Dear Editor:

How 'right' you are about the "Old Drum-Beater" turning off a great many readers. We refer to your comments last week about a candidate running for the wrong reasons. We wonder, Mr. Besser, if you took the time to ask the candidate his reasons for running. It is quite possible you would find that the candidate's main concern is for all the people of Niles, especially the children.

Your Editorials have long given the impression that the Ballard Sports Complex is a little used facility. Have you ever once thought or written about why it is losing money? A few families in Niles have some good reasons why, and have written to you about it, invited you to come see for yourself, and sent you a copy of a recent proposal to the Park Board giving ideas for producing profit and utilization of a building that has cost taxpayers a lot of money. But, Mr. Besser, you don't mention these facts in your

paper or come to see for yourself. We have read about your concerns regarding Niles Park Board's idea to purchase Tam-O-Shanter, a defunct indoor tennis facility, for \$850,000.00. Your negative attitude over the years about the Sports Complex leads us to wonder why you didn't reserve your comments until after the structure was purchased. After all, then it would be something for you to write about for the next few years.

You usually come right to the point, Mr. Besser, and we guess people like to read that. But next time, why don't you get all the facts first? Especially when a lot of people are trying very hard to give them to you.

A 10 year old's view on the hostages?

Dear Editor,

My name is Michael Rosenberg, I am ten years old and I'm in the fourth grade at Edison School in Morton Grove. I think this hostage bit really is the pits. Let me tell you why. I don't think they are really heroes; what they are, are victims of circumstance. Who I think were the heroes in this terrible situation were the eight men who died in the attempt to rescue the hostages.

This is merely a cheap trick by our country to coverup a mistake that should have been handled fourteen months ago. We allow our country to be out maneuvered by a sick and demoralized country of the likes of Iran. I'm sick of our government not taking charge of their mistakes and covering up like a child denying that he spilled his cup of juice on the floor. Do we need another Watergate?

I think it is about time for all of us to be very careful about our priorities. Are we a weak country that will stand up for its rights?

Millions of children throughout the country today have been taken out of their schools for no reason.

Very truly yours, Michael Rosenberg A citizen of the future who will be heard

Editors Note:

Because we did not have a home address for the writer, we checked with the Edison School people to make sure as to the identity of the alleged writer. We were told by them the 10 year old boy said he wrote the letter but his Mother typed it.

A challenge to debate

Come out, come out, wherever you are!

This letter represents an open invitation to our opponents to debate Maine township issues in a public forum. Why not? The residents of Maine township deserve to hear discussions of issues that involve taxation, revenue sharing, consumer advocacy, public transportation, and local control.

Political campaigns must be run in a public manner. The voters certainly deserve the opportunity to make choices based on open debate.

Let's put the incumbent township "record" up to public scrutiny. Could there be some reason why this shouldn't be done?

Come out, come out, wherever you are!

Carol Christenholz Democratic Candidate Clerk of Maine Township

Flynn challenges Blase to public debate

Dear Editor:

The people of Niles are at a crossroad in time. They can permit one man to continue to use his power for personal benefit or they can say it is time for a change. We can all join together and work for a better future or worry only about ourselves.

I believe the people of Niles want to hear a real discussion of the important issues facing us in Niles. The only way for the issues to be discussed is through public debates. The citizens have a right to hear the candidates for Mayor and Trustee defend their records and explain their proposals for the future.

I hereby challenge Mayor Blase to a series of public debates to be held throughout Niles. I suggest that the League of Women Voters, several Church organizations and social and community clubs hold public debates in the public interest. To that end I will be writing several of these organizations and asking them to hold the debates on a weekly basis for the last six weeks before the April 7 election. I also publicly ask Mayor Blase to respond to my challenge.

Sincerely, Thomas W. Flynn Niles Mayoral Candidate

Fannie May would like to remind you that February 14th is this Saturday.

When stopped at the door, the women ran back to the clothes racks and threw the concealed clothing onto the floor. After being brought to the police station, they were released on \$1,000 bond each and assigned a February court date. The value of the clothing taken by the Chicago women was placed at \$335.

Arriving at the home the son found the house had been ransacked and jewelry, silverware, and valuable figurines had been taken. Police determined that burglars gained access to the home by punching a hole in the thermopane sliding door, moving aside a steel bar in the door track and then forcing open the door. The victims, who had been on vacation, indicated they would submit a complete list of missing items to the police.

Grandparents Unlimited fulfills expectations

Three and a half years ago Grandparents Unlimited was just another good idea. But since then the volunteer program at Oakton Community College has passed the idea stage to productive reality.

The idea of Grandparents Unlimited was born of the advisory board to the Child Care Services department at Oakton. The board, consisting of directors of child care centers and nursery schools, suggested that there should be a volunteer program in which elderly people could lend their services to these institutions.

You are being watched!

Did you ever have the feeling you were being watched? That's precisely the setting created by the Illinois State Police and the Concentrated Speed Enforcement Program.

The program is federally funded. Troopers are "hired back" on their off-duty hours to provide increased enforcement of the nationally imposed 55 MPH speed limit.

Troopers make use of the following different ways to monitor vehicle speeds: Hand Held Radar, Moving Radar, Aircraft, Vascar, and Pacing.

The CSDEP patrols for the northern end of Cook County including the entire length of the Edens Expressway (I-54) both northbound and southbound.

Captain William P. Burt, Chicago District Commander, released the following figures. For the month of January, Troopers issued 47 written warnings and made 274 arrests. A total of 314 hours were worked and 3,963 miles driven. This represents the work of 38 sworn personnel.

"I have a list of day care centers and nurseries in the area and I try to get the volunteers located in facilities near their homes," said Ms. Block. "We get volunteers from all walks of life. One of our most diligent workers is a man who never finished high school. Another has a doctorate." Some of the volunteers have been with the program for years, Ms. Block said, and the children adore them. "The one drawback," she said, "is there are never enough volunteers." The main prerequisite of the job is a volunteer has to commit himself for a while, Ms. Block

ED HANSON

A Petite Model

Petite isn't his real name. It's Pete. Petite is his silly pseudonym he inscribes upon his masterpieces. "Masterpieces", is a misnomer, too, for Petite will never gain the immortality of a Da Vinci or Renoir. But he earned an excellent livelihood from "Girle" magazine editors.

As a somewhat gifted commercial artist he had the 'knack' of transferring feminine mystique and voluptuousness to canvass in an unending variety of provocative poses.

Month after month the flamboyant ladies of the artist Petite adorned the covers and inside pages of many of the popular "Girle" magazines. A discerning eye could see that all of Petite's charming and curvaceous young ladies bore a striking similarity and that really only the ingenious poses varied. Nevertheless, editors of "Girle" publications loved them and promptly sent Petite checks, which increased both in frequency and size as time went by.

I've known this artist from the time he was a struggling young tyro, until his pictures began to sell. I also knew the secret of his success and his weakness as a creative artist.

His success began the day he returned home from a trip to Paris 15 years ago. He brought back his success with him in the form of a young bride, named Renee. She was a petite, charming French model he met in Paris. She was years younger than Petite and just as beautiful as he was portly, bearded, and balding.

But, at heart, Renee was a simple bourgeoisie, and she loved her husband as much as he adored her.

Petite's success began when he painted his new bride and model. For while Petite was a good craftsman, he knew and I knew that he was unimaginative. Petite always said, "My hand is a slave to my eye. I can only paint what I see."

So, it was really Renee who invented the ingenious poses and whose special creative points made Petite's pictures commercially successful in his specialized field. Petite never used another model - he just painted Renee over and over again.

Thru the years I occasionally visited with them. A happier, more devoted couple could not be found. Then, as frequently happens among friends, I did not see them for several years. I did continue to follow Pete's career thru the pages of popular men's magazines to which I also occasionally contributed some fiction.

Time went by and some months ago, while "browsing" these same periodicals, I was shocked to discover there were no "Petite models". For several months, every time I had the opportunity I again searched for "Petite models" but, like Lydia Pinkham, they had vanished.

What ever had happened to them?

I drove to a nearby suburb that serves as Petite's home and studio and there he was at his easel painting assiduously. Renee, wearing tight Toreador pants, was posing on the divan holding a red rose between her teeth. Petite nodded to me and said to Renee, "Let's take a break, dear."

After Renee left the room to prepare some sandwiches and coffee, Petite said, "I'm washed up, Ed. My paintings don't sell anymore. What's wrong?"

My first glance when I came into the studio told me what was wrong. The model was wrong. Oh, Renee still possessed a pretty face and piquant smile, but she must have put on at least 35 pounds since I last saw her. Renee was not petite anymore. And, alas, her poor husband, with his lack of imagination, try as he might, could not change her lines. His hand was still the slave to his eye.

Later, out of earshot of Renee, I told Petite what was wrong. "It's Renee. She's not petite", I said simply. "She's too fat. People in their mirrors do not always see themselves as others see them", I further explained to Petite.

"I know, exclaimed Petite dejectedly. "But what can I do? To replace her would be cruel!"

Between us came a bright idea! Taking one of the best of his old paintings he tacked it so that it would be just above Renee's head. Then, Petite, the unimaginative artist, painted the eyes and piquant smile of his wife. But, unbeknownst to the posing Renee, he carefully drew the slender form of the body from the old picture above her head.

When the picture was finished, Petite showed it to his wife.

"Oh, it's alright, Cheri," she said, "but I don't think it flatters me."

MG sculptor to appear at Historical Society meeting

A famous native son of Morton Grove, Joseph A. Burlini, sculptor, will appear at the next meeting of the Morton Grove Historical Society. The meeting will be at 7:30 p.m. on Tuesday, Feb. 17 in the auditorium at the Public Library, 6132 Lincoln Ave., Morton Grove. The public is invited. Admission is free.

Mr. Burlini is to present a demonstration and exhibit of some of his original masterpieces in metal, which he turns out in welded-steel with all kinds of wheels, antennae and splashes of bright, fired-enamel colors. Many of his pieces move in air currents in order to be effective.

A whimsical young man who loves what he is doing, Joe is a fifth generation sculptor in his family. His father, Alfred, still resides in Morton Grove and does small pieces in bronze that find their way into private collections. His brother, Alfred, is a graphic designer, and his son, Christopher, age 11, would rather sketch and create than cast.

Joe attended St. Martha's school and St. George's high school, and the school of the Art Institute in Chicago. He was a product designer for Sears for five years before devoting full time to work on sculpture. However, he does not think of it as work—he simply does what he likes to do most. He says he keeps regular business hours at his studio and now resides in Arlington Heights with his wife, Sue, and their three children, Jennifer, Christopher, and Melissa.

The Morton Grove Women's Club commissioned Mr. Burlini to do the metal sculpture out of Cor-Ten steel that is in front of the Prairie View Community Center, Waukegan and Dempster Morton Grove. This piece denotes athletes who seem alive with action, particularly at night, when floodlights cast their shadows on the building.

Joe also has been commissioned for such diverse places as the Standard Oil Building, Chicago; McDonald's Hamburger University; Temple Judea Mizpah, Skokie; Todd Hall and Lincoln Hall schools, Lincolnwood; the Northbrook Library; Allgauer's restaurant in Northbrook. Most recently, he's done a 5-story high bronze at the Galleria, an enclosed shopping mall, White Plains, N.Y.; a 15 foot motorized clown welded steel, Shannon Shopping Center, Atlanta, Ga.; a 15 foot stainless steel balance machine, executed for the Morton D. May outdoor collection, St. Louis, Mo.; and a 6 foot nickel/silver balanced machine for the St. Louis Art Museum.

At present, Mr. Burlini is working on another commission for the McDonalds Corp., Oak Brook, Ill.

His work has been featured at many of Chicagoland's outdoor art fairs and was part of the display called "Rockets to Rainbows" at the Museum of Science and Industry.

DINING & ENTERTAINMENT

Northwest Symphony Orchestra concert

The Northwest Symphony Orchestra, under the direction of Perry Crafton, will hold the second concert of its twenty-ninth season on Sunday, Feb. 15, at 7:30 p.m. at the Maine North Auditorium, 9511 Harrison Street, Des Plaines.

Mr. Crafton and the orchestra will open the program with the Prelude from Humperdinck's well-known fairy-opera "Hansel and Gretel" followed by the graceful Intermezzo from "The Jewels of the Madonna" by Wolf-Ferrari. Next, Diana Horban of Barrington, and the orchestra will perform the Flute Concerto No. 1 in G Major by Mozart. Organized into three delightful movements, this concerto, written in 1777, is another example of the composer's perfection of style structure, and musical expression.

With its restless passions, grandeur of conception and exultant episodes, this work is in some ways influenced by the symphonic poems of Liszt to whom the symphony was dedicated. Every trick of the trade is used by Saint-Saens to pile up an exciting climax towards the end, producing a grandiose effect. Season tickets for the remaining three concerts: \$9.00 per person; single tickets, \$4.00 for adults and \$2.00 for senior citizens and students may be reserved by calling Vicki Steinbach, 823-2311. Children under 12 accompanied by an adult will be admitted free of charge. Tickets will also be available at the door. This program is partially supported by a grant from the Illinois Arts Council, a state agency.

Norwood Federal supports increase in tax-free interest

Norwood Federal Savings and Loan Association is participating in a ballot box program sponsored by the Savings and Loan Foundation during the months of February, March and April. The American public is urged to voice their opinion on the issue of tax incentives for savings by completing an official ballot. The specific question posed to the public on this ballot is "Should the first \$1,000/\$2,000 of interest on savings be tax-free?" The Foundation and its member Associations strongly support raising the limit on tax-free interest to a more realistic amount of \$1,000 for individuals and \$2,000 for joint returns, from the 1981-82 limit of \$200/\$400. Consider the following figures. On the average, Britons save 13% of their disposable income, West Germans save 15% and the Japanese, 26%. Americans save only 4.5%.

Ballots are available at all Norwood Federal offices. Your opinion can make a difference. Write today at 5813 N. Milwaukee Ave., 6205 N. Northwest Hwy. or 115 W. Devon in Chicago; 980 N. Northwest Hwy. in Park Ridge; 3220 W. Glenview rd. in Glenview; or 666 S. Meacham rd. in Elk Grove.

Skokie Federal assets at record heights

Year end assets rose to record heights for Skokie Federal Savings according to association president, John R. O'Connell. Consolidated assets grew to \$535 million, representing a 32% increase over the previous year. While other Chicago area S&Ls experienced modest savings growth, Skokie Federal's net savings balance was \$324,278,980, a 29% yearly increase. Over \$28 million in interest was paid to customers in 1980.

Despite tight mortgage money and fluctuating loan rates, the association made \$74 million in mortgage loans. The year also saw Skokie Federal open two new offices. One at 200 E. Main Street in Barrington and the other at 4747 W. Peterson in Chicago. The \$550 million institution has offices in Skokie, Glenview, Kenilworth, Round Lake Beach, and Woodstock.

ERA Callero & Catino announces home buying solutions

Frustrated home buyers unable to afford a high down payment or soaring interest rates may soon find relief in the Partnership Mortgage Plan, an exclusive new financial program to be offered by ERA Real Estate Brokers in all 50 states, according to ERA Callero & Catino, 7800 N. Milwaukee Ave., Niles, Illinois.

The new plan was announced last week at the 9th annual ERA national convention in Kansas City, a three-day meeting attended by over 3700 brokers and sales associates from all 50 states, including Bill Alston, representing Callero & Catino.

According to Bill Alston, (shown) the ERA Partnership Mortgage Plan is designed to help home buyers purchase a home with little or no down payment, or purchase a home with the equivalent of lower interest rate than the current rate. The first of the two plans provides the home buyer with a silent partner who pays a portion of the current mortgage interest rate (up to 4 percent or more) so that the home buyer can qualify for a more desirable home at reduced monthly payments.

"The ERA Partnership Mortgage," Alston explained, "is based on a tenancy-in-common ownership in which the investor shares the cost of the home in consideration for a share of the annual tax deductions and equity appreciation. In most cases, the investor assists by making part of the monthly mortgage principal, interest and tax payments for the first five years, which not only helps the buyer qualify, but also makes the monthly payments lower."

"After the five-year period when the buyer is more likely able to afford the monthly payment increase, the payments go up by application of the current mortgage interest rate."

If the buyer decides to sell the property, the buyer and investor share in the appreciated value of the home, if any," he added.

"An ERA Partnership Mortgage with no down payment is also possible," Alston said. "As the name implies, it enables a qualified home buyer to purchase a home with no down payment. It is also based on a tenancy-in-common ownership in which the buyer and investor share in the cost of acquiring the property. The investor provides the down payment, and the buyer makes the monthly payments. As with the first plan, the buyer and investor share in the tax deductions and equity appreciation."

ERA Real Estate, Inc., headquartered in Overland Park, Kansas, is an international real estate marketing company with almost 4000 offices in all 50 states. As a Member Broker, ERA Callero & Catino offers many consumer services including the exclusive Buyers and Sellers Protection Plans and a computerized photo-by-wire to view photographs and descriptive data of homes available in their new hometowns.

POLITICAL NEWS

Provenzano files petitions

Michael Provenzano (standing) independent candidate, filed his petitions for Niles Village Trustee with Frank Wagner, Jr., Niles Village Clerk.

Provenzano has a progressive outlook for Niles' future. He said, "nothing just happens - things must be made into reality by people concerned and he is vitally concerned and involved." When talking about the future he stated the youth of Niles are part of the future and we must help curb juvenile delinquency by encouraging them to keep busy as idle hands and idle minds have a way of getting into trouble.

Sports and hobbies are a safety-valve for youthful energies and when elected Trustee, Provenzano will work with the Niles Park Commissioners. This is part of a concerned trustee's interest in the future of Niles.

As a former Niles Park Commissioner and a Big Brother Counselor for the Archdiocese of Chicago active in youth activities aimed at rehabilitation of delinquent youth, Provenzano is concerned. He is also concerned about neighborhood problems, senior citizens, and personal communication with the people of Niles who have village problems.

As an independent, without commitments, he speaks for himself and would like to speak and represent you on the Niles Village Board.

Trustee candidate ordinance for low interest loans

Ronald Loris, Niles Trustee Candidate, has proposed that Niles pass a Bond Ordinance for low interest residential real estate loans. The Bond Ordinance would result in substantially lower interest rates for home buyers. Loris said that present interest rates are about 16 to 18% but that a Niles Bond Ordinance would make mortgage money available at between 10 to 12%.

The Ordinance would not cost Niles taxpayers one penny. Mr. Loris said, "The present Niles Trustees could have passed a Bond Ordinance such as Morton Grove and Skokie any time in the past few years. They failed to take any action. The result is that Morton Grove and Skokie have sold virtually all of their available homes at interest rates of 8 to 11% while Niles has had substantially fewer sales of homes and buyers paid interest rates as high as 18%."

Mr. Loris went on, "The Federal government has now passed a law that restricts local governments in issuing such Bond Ordinances. The failure of the Niles Trustees to pass an Ordinance by January 1, 1981 makes it more difficult but not impossible. Additionally, I believe the Federal law is an unconstitutional regulation of local government and I will propose joint legal action by Niles and other villages and cities to declare this law unconstitutional."

Mr. Loris ended his comments with, "I moved to Niles six years ago because of Oak School, Grennan Heights Park, St. John Brebeuf and most importantly the people. Oak School is gone and Grennan Heights Field House was almost closed. However, my Church and the people are still here. We must all join together and work for the future and I pledge to honor that commitment to the people of Niles as your new Trustee."

Kustra to award college scholarships

State Representative Bob Kustra (R-4th District) has announced that his office will award eight one-year college scholarships to qualified district residents. Four scholarships are for the University of Illinois and four of the scholarships apply to any of the other nine state universities in Illinois.

Candidates will be judged on financial need, scholastic standing and leadership qualities. Scholarship candidates must reside in the 4th legislative district of Illinois and be accepted by the University of their choice. The deadline for filing these applications is March 15, 1981.

Commenting on the program, Kustra said, "Because I teach in the college classroom, I will be taking a special interest in awarding these scholarships to our most promising students in the district. I will appoint a Scholarship Advisory Board of 4th district citizens to help me evaluate the applications on a fair and equitable basis."

For further information, phone Representative Kustra's legislative office, 299-5646 or write State Representative Bob Kustra, Des Plaines Civic Center, 1420 Miner st., Suite 404, Des Plaines, IL 60016.

See the Township Board in Action!

"Go to a Maine Township Board meeting!" urged Barry C. Lipin, Democratic candidate for Maine Township supervisor.

"You'll see for yourselves how carefully the republican board carries on the business of the township."

"I attended the last board meeting," added Lipin, "and Maine Township residents would be astounded to observe the lack of professionalism in the conduct of the meeting. No agenda was presented to those present. Minutes of several previous meetings were belatedly adopted without being read. In short, it was not a performance any public official should tolerate, and the voters should not permit it to continue."

Pat Galla, Democratic candidate for trustee of Maine Township, was incensed. "I attended the last board meeting, too," she said, "and I could not believe that the board would - and it did - pass an ordinance without reading it aloud. They could not read it, apparently, because not one of them had a copy of it! It was voted in solely on the recommendation of the present collector, who is not even a board member. The sponsor of the ordinance was present and never said a word! To add insult to the injury of the observers, the board then discussed the ramifications of the ordinance in question, as though thoroughly familiar with its contents! It is definitely time for a change in township government," added Pat.

Terry Shevelenko, Democratic candidate for Collector, also attended that meeting.

Flynn proposes abolishment of Niles Police/Fire Commissions

Thomas Flynn, Niles Mayoral Candidate, has proposed sweeping changes in the operations of Niles Departments and Commissions. He said he would abolish the Police-Fire Commission and replace it with a Public Safety Commission responsible for the Police, Fire and Public Works Departments. Flynn said this would end the political interference in these departments immediately.

Mr. Flynn said, "Mayor Blase has organized every Department and appointive Commission to serve his best interests. We must break this connection immediately. The Public Safety Commission will draft a new civil service plan, institute professional promotion, training and hiring procedures, review manpower needs and uses and finally study the feasibility of creating a new volunteer Civil Defense Department."

Flynn went on, "I will eliminate the fat in the budget, establish new priorities, establish standards and qualifications for all appointive Commissions and actively communicate with Niles residents through their homeowner, condominium, Church, Temple and social organizations. I promise to place two paramedics on each ambulance instead of the present one paramedic."

Conn cites MG tax increase as 'astronomical'

Eunice Conn, Taxpayers' Independent Party candidate for Mayor, declared today that residents of Morton Grove could no longer afford the continuance of one party government in the village.

Calling an "astronomical" increase in taxes (112% over the last three years) Conn decried the absence of a system of checks and balances within the current Village Board.

"Without the two party system, no official dissent may be registered when reckless spending programs are proposed and enacted," Conn stated.

The Mayoral Candidate went on to say that "the books will be open for all to see prior to any Board action when I am Mayor."

Running with Conn on the Taxpayers' Independent ticket are Seymour Primer, Mel Little and Charles Anderson for Trustees and Joe Hedrick for Village Clerk.

be upheld, and dismissed their rumblings. But when talk of public housing might be headed for Niles, Nick fought against any such infringement. His arguments were couched in phrases aimed to obscure. But they all added up to, "we don't want any of those poor people in Niles". Poor people meant blacks.

But the new Nick is now defying predictability. As an election approaches he suddenly gives the green light to the return of electronic games in town. The guy who rode into office fighting pinball machines now is allowing these new machines a trial period in Niles. The old Nick would have waited until after an election. But the new unpredictable one does not seem to be weighing any political backlash. He's letting the machines in without weighing what might go on in the voting booths.

On another matter which has many megabucks involved, Niles is getting ready to pick a cable TV company which will have a 15 year franchise in the village. Figuring half the community will subscribe to the service at a minimum \$20 per month, the take would be worth a gross of \$100,000 monthly for the favored cable outfit, indeed a sizeable sum. Again, unpredictable Nick comes back onto the scene. Niles has been painstaking in its effort to choose the company which will best serve the community. It has joined with many northwest communities in studying the matter. As of Monday their choice has been narrowed to 4 companies. In the coming weeks the final choice will be made.

At the many meetings of the northwest communities jointly studying the many cable companies, the attorneys of the villages joined with each other in studying the problems. The one community which did not have its attorney at the meetings was Niles. And the reason Niles attorney, Dick Troy, was not included, was because he has an obvious conflict of interest in the matter. Troy has an interest in Continental Cable TV. And the Northwest communities refused to allow anyone with any interest in any one company to be a part of their group.

The time has now come for the village attorney in Niles to draw up an enabling ordinance and a franchise agreement. They will be sent to the four finalists which are still in the running for Niles' franchise rights. One of the companies receiving the Troy-written ordinances will be Continental, in which we said Troy has an interest.

Back to square one! The very political Nick Blase would never have let Niles get in such a bind in the past. Unlike neighboring Morton Grove, which chose Continental without carefully studying other companies, Blase and his cohorts have correctly taken their time and studied about 20 companies. But after at least a year of exhaustive studies, Niles now has a conflict which doesn't make sense. Their attorney, who is drawing up the final ordinance and agreement, has an interest in one of the companies he's writing the agreement for.

In bygone years the younger Nick would not have tolerated such a situation. He would have excluded the village attorney from taking part in such an action. But the 5-term Mayor candidate, who is seeking a 6th term, is blithely allowing this situation to continue.

At a Monday committee meeting we asked the trustees on the committee if they've broached this obvious conflict of interest. None of them admitted to discussing the matter. It's exasperating! Niles has an excellent village board manned (and womaned) by fine representatives. But, as in the case of the past police department imbroglio, none of the trustees will confront Nick. He still runs the show and Niles trustees back-off from him.

While Nick runs the show he seems to be doing it today with a rather cavalier indifference he never used to show. He would weigh, measure, and very accurately calibrate his actions before they came to the public fore.

Someone suggested Nick is getting tired of the village president job. After 20 years the job is beginning to wear thin. They may be right. Perhaps Nick is sending all of us signals his New Era is coming to an end, if not this term, certainly after the next 4 years.

the activities and programs for the water, sewer, and street departments throughout 1980, and gives cost comparison figures from 1979. The public works department has recently relocated to the former Oakton Community College site.

should be more equitably priced. Board members will make a final decision after bids are received for bussing. They did approve about 5.2% of about \$26,000 in corporate personal property taxes to be added to the Transportation Fund.

John Robinson, representing Orput Assoc., Inc., presented a survey to the board members of roofing for energy conservation of schools in the district. He said costs for roofing seven schools would be about \$1,222,000, about 20% to 30% more than an estimate prepared in 1977.

Board members agreed the roofs needed to be repaired but disagreed as to whether or not Orput's survey was sufficient. Robinson said, "There are schools in this district where the insulation is like a sponge."

Dr. Donald Bond, district administrator, agreed with a recommendation by James Bowen, business manager, that work on the roofs should proceed as soon as possible. Board members agreed to ask for a second opinion concerning the approach to take.

In other action, Bond asked for board approval of a contract with the Evanston Band and Orchestra program subject to review by the attorney.

Also, board members approved the early retirement of teachers Shirley Barry, Vivian Casey, Margery Dick, Jeanne Keese, Helen Peterson, Bernell Ross, Noah Tapley, Ivan Cerny, Edward Haschak and Joseph Scaccio.

Board members also authorized an increase in the mileage rate for use of personal vehicles on School District Commission from 15 to 20 cents per mile.

teens who rent motel rooms for parties, "95% of the kids are not Niles residents." Additionally, Emrikson said the police are at a disadvantage when called to area motels to quell disturbances caused by teens because minors are usually placed in supervision of adults rather than charged with crimes.

In other actions the village board agreed to eliminate cable television companies Storer and Warner Amex from consideration in the on-going process of awarding the Niles franchise to a cable television company. Storer and Warner Amex were the only companies among the five Niles had been considering for the franchise not to submit written answers to questions asked by the Village Board.

Mayor Nicholas Blase said village attorney Richard Troy is preparing the necessary agreements and ordinances pertaining to cable television. Once these documents are adopted by

the village board, negotiations will begin to determine which cable television company will receive the Niles franchise.

In a zoning matter the village board unanimously voted to file an objection with the Cook County Zoning Board over a restaurant proposed to be built on Golf Rd. west of Greenwood Ave. Niles Director of Building and Zoning, Joe Salerno, recommended the village board file the objection because plans for the restaurant included parking spaces more narrow than required by the zoning code. Also, Salerno said the restaurant would not have enough parking spaces for the number of patrons and employees the restaurant could hold. The objection will probably result in the restaurant reducing the number of seats available to patrons so they can comply with parking lot regulations.

Roma Brenner, and Burt Dubeo seek board approval of a contract with the Evanston Band and Orchestra program subject to review by the attorney.

Also, board members approved the early retirement of teachers Shirley Barry, Vivian Casey, Margery Dick, Jeanne Keese, Helen Peterson, Bernell Ross, Noah Tapley, Ivan Cerny, Edward Haschak and Joseph Scaccio.

Board members also authorized an increase in the mileage rate for use of personal vehicles on School District Commission from 15 to 20 cents per mile.

The committee worked hard on recommendations to update and upgrade the definitions," Schreck said. "As a result, Morton Grove can continue to meet zoning challenges from developers or others who may want to change the tone of this residential community."

The committee's recommendations have been presented to the Village Board of Trustees and relayed by the Board to the Plan Commission for further consideration.

The Zoning Ordinance Review Committee and the Plan Commission will work together in reviewing the remainder of the ordinance. While Morton Grove has been successful in resisting a number of incompatible developments during the past few years, processing of these cases indicated the need for some amendments or revisions to the existing ordinance.
