by Deby Eisenberg
A 32 year old Glencoe man being held in the Maryland State Penitentiary has become a possible suspect in the September, 1979 slayings of two teenage girls in Morton Grove. Morton Grove Police Chief Norman Glauner received information from Prince George County, Maryland officials that Randolph Gaul admitted to killing two girls in a community outside Glencoe, which he could not identify specifically. Gaul has begun serving a 15 year sentence for the murder of a 13 year old girl in Maryland.

According to Glauner, there are some similar patterns between the Morton Grove slayings and the Maryland murder, where the girl was beaten up, disrobed, and had a brick placed on her head. When questioned by Maryland officials on Page 27

District 63 vows to keep Washington School open

by Eileen Hirschfeld
School board members of District 63 voted unanimously to keep Washington School, 2710 Golf rd., open at least four more years. The resolution is probably intended to defuse a movement of Washington school parents who are encouraging disannexation from the district in favor of years. Continued on Page 27

Blase initiates drive in Maine Township municipalities

Niles seeks control of utility rates

by Bob Besser
The Niles Village Board unanimously endorsed a proposal on Tuesday night to strip the Illinois Commerce Commission of its authority to regulate the rates charged by public utilities to residents of Niles. The endorsement, which was presented as a resolution, supports a drive initiated by Niles Mayor Nicholas Blase to invoke a provision in the Illinois Public Utilities Act of 1921 allowing municipalities to take back the rate making authority over public utilities from the ICC. Blase has asked the village boards in the municipalities that make up Maine Township to support such a move and on Monday night the Morton Grove Village Board endorsed a similar resolution. Blase said he is initiating this action because in recent months

Niles Mayor candidate Elaine Heinen officially put her show on the road Monday night. At her Courtland Avenue headquarters about 75 people were present when she made her opening remarks which she hopes will lead her to the Mayor's chair April 7. It could be guesstimated 150 to 200 people wandered in and out of the campaign quarters during the 3 hours open house. When the clock struck 9 Ms. Heinen welcomed her many friends and then began talking like a campaigner. The lady is pretty uninhibited so hold on to your hats and we'll try to set down the issues as she sees them. Since more than half the people present were Seniors Elaine first said there is a need in Niles for more services for Seniors. She struck a note for a Huntington II, a second Senior Citizens high rise, which she said would result in opening up many of Niles homes for younger people. She noted Niles would be a ghost town before the end of the 80's if we didn't try to attract younger people to Niles. She said businesses go where the people go and she predicted businesses in Niles would evaporate and move away to where the younger people are. Continued on Page 27

Niles Health Director retires

The Village of Niles Director of Community Health and Licensing, William Hlavacek, was recently honored at a dinner after announcing his retirement. Mr. Hlavacek, a registered sanitarian, was a village employee for 13 years and, in addition to his duties as Health and License Officer, he was the guiding force in promoting the free blood program, that assures every resident free blood when needed at any hospital in the United States. Mr. Hlavacek was also instrumental in the Village free blood pressure testing

program, which has helped many Niles residents in discovering a blood pressure problem, that, prior to the testing, had gone unnoticed. Stated Niles Mayor Nicholas Blase, "We are deeply sorry to see Bill leave, he will be missed, but the programs he fostered will continue, which in the end will be of benefit to all Niles residents." Shown above are Nicholas Costantino of the Health and Licensing Department, William Hlavacek, Mayor Nicholas Blase and former Niles Health Officer Anthony Guarnaccio.

Dems charge Maine GOP with illegal expense accounts

by Bob Besser
Democratic candidates for Maine Township supervisor and clerk charged last Friday that the present Maine Township officials have supplemented their salaries through the allocations of large monthly expenses for themselves. Also the Democratic challengers said the township board of trustees has illegally held closed door sessions and conducted business in a frivolous, unbusinesslike manner. Speaking at a Friday press conference at Maine Township

Maine Demos host Free Bingo Party

Chairman Nicholas Costantino announces that Nicholas B. Blase and the Maine Township Regular Democratic Organization will host the Senior Citizen Free Game Party on Wednesday, April 1. It will be held at the House of the White Eagle, 6845 Milwaukee ave., Niles and the doors will open at 1 p.m. Refreshments will be served, prizes for games played and the King and Queen will be selected to reign over the festivities. Ben Mankowsky honored in Florida

Former Nilesite Ben Mankowsky was honored by a proclamation from the officials of Fort Myers, Florida, which proclaimed Jan. 19 "Ben Mankowsky Day" in that city. Fort Myers Mayor Ellis Solomon presented a proclamation to Mankowsky citing him for his hundreds of hours of volunteer work with the Crime Prevention Unit of the Fort Myers Police Department. Mankowsky was former Niles Housing Director until his retirement in August, 1979.

Niles Family Service plans

Niles Family Service is pleased to announce another 8 week parent education workshop at the agency, 8060 Oakton st. in Niles. The session will run for 8 consecutive Mondays starting March 2, from 8 to 9:30 p.m.

The parent education workshop will be co-led by Dr. James Cisek and Mary Ann Jung, ACSW. Both have been a part of the agency for a total of 11 years. Dr. James Cisek has conducted extensive research into teaching our children how to be responsible, become better problem solvers and handle all the frustrations, disappointments and challenges of life. Mary Ann has had many years of experience in leading women's groups, support groups and also teaching parent education courses.

Together they will be blending in their experiences and common sense suggestions to help you become a better parent. They will use the format of the program, Systematic Training for Effective Parenting (STEP), but will provide many opportunities for individual discussion around your issues and concerns. The major goal of the STEP program is to show how parents can communicate better with their children, avoid punishment and replace it with natural and logical consequences, and understand better the purposes of a child's misbehavior. The fee for this workshop series is \$25 for Niles residents, \$40 for non-Niles residents. The spouse will be included at no additional charge. (We want to encourage couples to attend.) The fees include all material and a STEP parent's workbook. If the fee is an obstacle to your participation, please call Dr. James Cisek to discuss other arrangements at 692-3396.

A Winning Number?

Niles' mayoral candidates have more in common than they probably realize. The old adage of "What's in a name?" comes to mind when you think about the 2 contenders and the incumbent. We have:

- Tom Flynn
Elaine Heinen
Nick Blase

Taking the initials of their first names, we find they spell TEN, a word that stands for perfection in today's terminology. At that rate it's too bad we can't elect all three. Niles would then have the "ultimate" in village governments.

For those of you who would like to hear these candidates and those running for the village and park boards, the Niles-Morton Grove League of Women Voters is having a "Meet the Candidates" program on Sunday, March 15 at the Recreation Center, 7877 Milwaukee Ave. at 2 p.m. Each candidate will be given time to make a statement to the audience followed by a question and answer period and a summation. Each of us has stock in our village and are always quick to complain when something rubs us the wrong way, so why not get out and listen to those running for public office. It could be very enlightening and would certainly make you more knowledgeable when you go to the polls on April 7.

Festival Fun

While we will be trekking over to St. John Brebeuf Friday evening to enjoy another year of top entertainment, reports are already filtering our way with nothing but praise for this year's productions. It's hard to believe this group of dedicated entertainers can top their previous shows, but each year they seem to come up with hilarious shows and timely entertainment. The 7 cabaret shows provide continuous entertainment for the entire evening beginning at 8 p.m. and lasting until the early hours of the morning. For a \$7.00 ducat which is indeed a bargain today, stop over at St. John Brebeuf Friday or Saturday evening. Treat your friends to an evening of fun they'll long remember.

What's Wrong With The 'Good Old Days'?

We find when you reminisce about the good 'ol days, it's a definite sign of aging. While we are of the opinion that 'age' is a state of mind, and will continue to think that way for years to come, there were certain things about the yesteryears which we wish could be revived if we could turn the clock back.

What happened to the days when salespeople treated customers with courtesy? Sure, there are a few nice ones left, but they are the exception, not the rule, today. The majority of them act like you're infringing on their free time when you have to ask for some help with merchandise in a store.

While we're on the subject of merchandise, what ever happened to 'quality' merchandise? Today we have 'quality' in prices only and 'inferiority' in merchandise. Whether you buy appliances, clothing, or cars, nothing seems to work right when you get it home. Everything requires at least one trip back to the store or one service call to take care of defects that should have been checked by the manufacturer. Evidently quality control is one of the phases of manufacturing that was eliminated when costs were cut.

And when you do require a service call, why can't the work be done right the first time? And even if it's not, why does the serviceman come in through the door leering at you when he has to return to complete a job he didn't do right the first time? And all this kind attention only costs you \$75 for the service call and labor to replace a 25¢ part.

And why don't tradesmen take pride in their work like their fathers did before them? We recall a friend of ours, a carpenter for 40 years, who told us he just cringed when he worked on jobs shortly before his retirement. He noted he always took pride in stepping back after he completed a job and admiring his work. He said, "They aren't interested in quality work anymore. All they want is quantity." And most of the time, it looks like it.

Yes, we do reminisce about the 'good old days', not because times were so great, but people's attitudes were sure different.

*Today they have to jump back so it doesn't fall on them!

Maine East gymnasts capture district title

The Maine East Demon machine is off to a good start on the way to the Girls' Gymnastics State Meet, according to coach Betty Axelson. Maine East chalked up a 108.95 point total, as well as qualifying most of their competitors in the four individual events. The star of the meet was captain Lisa Wax, taking 3 first places, along with Amy Katz (pictured), who qualified for the State meet sectionals in every event plus the All-Around. Of course, added coach Axelson, "Our team is not made up of just a few good gymnasts. We have a good solid 3rd and 4th competitor in every event, and hopefully these girls will raise their scores at sectionals to get us up past 110 where we need to score to get to the State meet."

The Maine East vaulters came through again in true winning tradition, with Lisa Wax taking 1st with a 9.0, Amy Katz 2nd with a 8.65, and Lori Greenberg and Christy Schachte tying for 4th place with 8.5. On Beam, Maine East qualified 3 girls on to the sectional meet - Lisa Wax was 1st with an 8.4, Patti Lehman took 4th with an 8.1, and Amy Katz qualified at large with a 7.75. On Bars, Amy Katz took 2nd with an 8.2 and Christy Schachte was 3rd with an 8.15. In Floor Ex, Lisa Wax performed a stunning 9.0 floor routine for a well-deserved 1st place, and Amy Katz took 2nd with an equally beautiful routine that scored 8.65. Freshman Christy Schachte also qualified for the sectional with her 8.2 for 5th place. Coach Axelson was ex-

remely pleased with the floor ex routines, since all the girls showed a great deal of improvement. "Christy improved her dance tremendously, as did soph. Kris Panke. Kris had a fall on her full twisting back and still scored a 7.65, so I know by sectionals she'll be scoring up in the 8's where she belongs."

In the District All-Around competition, Maine East took the top 2 spots - Lisa Wax had an 8.55 average, for 1st place, followed closely by Amy Katz with an 8.31 average, thus taking 2nd place. At the CSL Division championship, Lisa took 2nd and Amy took 3rd in the All-Around, thus boosting the Demons to a 1st place tie with Glenbrook South. Individual event winners in the CSL meet were: Vaulting - Christy Schachte - 1st place, 8.9; Amy Katz - 3rd, 8.4; Lisa Wax - 4th, 8.6; Bars - Christy Schachte - 2nd place, 8.35; Floor Ex - Lisa Wax - 2nd, 8.65; Amy Katz - 4th, 8.55.

OCC runner wins award

Dave Valentine, a student at Oakton Community College, was awarded the prestigious "Best Newcomer" award last week by the Chicago Area Runners' Association.

The award, given to Valentine at the association's annual awards dinner at the Chicago Public Library Cultural Center, recognizes him as the newest runner to make his name known in the Chicago area.

Valentine's wins at the Skokie Spirit Run and the 8th Annual Fell Run earned him a near unanimous selection.

A graduate of Glenbrook North High School, Northbrook, Valentine attended Northern Illinois University before transferring to Oakton.

Valentine will be running on the 1981 Oakton cross country team and hopes to lead the Running Raiders to the state championships and a place among the top ten teams in the nation.

Meanwhile, other Oakton runners have been in the limelight. Carlos Montes put on a great kick in the last 800 yards to come from behind and win the 9.6 mile Riis Park Road Running Invitational in Chicago recently. Montes trailed in third place through most of the race before taking the lead with 200 yards to go and won by five seconds.

Karen George won the women's division of the 4.8 mile race. Leading all the way, George was never seriously challenged.

Valentine and Jukka Kallio, captain of Oakton's cross country team last fall, placed first and second in the First Annual Glenview Striders One Hour Winter Fun Run.

Nordica Townhouse group receives charter

A new group has been formed in Niles and is known as the Nordica Townhouse Association. They are incorporated under a State of Illinois charter as a not-for-profit organization. The group includes both renters and owners in the 170 townhome complex. Their purpose, basically, is to "clean up" the area, both literally and figuratively. They are working very hard right now for membership and recognition. They have just elected their first officers and board of directors. So far this year, they have met with the Niles Police Dept. to solve some of their local problems. They also petitioned the Village Board for more traffic control in the area, and thus far have been granted an additional stop sign, and a sign that prohibits turns onto their street from westbound Howard st. between the hours of 4 p.m. and 6 p.m.

Ceisel of Niles, and Michael Timothy Laethem, son of Mr. and Mrs. Francis Laethem of Fairgrove, Michigan, were married at St. Juliana Church on Jan. 18, 1981. Father Laurence Dunn officiated the ceremony. Laura Witzak was the soloist and was accompanied by Andy Lidgus on the organ and piano.

The bride wore an ivory taffeta and chiffon gown with an old-fashioned look, reemphasized with Alencon lace and Belgian embroidered lace with a cathedral train. Her bouquet was of ivory and wine colored silk roses, dusty pink and ivory stephanotis, complimented by fresh babies breath and ivy.

Beth Ceisel, sister of the bride, was maid of honor. The bridesmaids were Maria Ceisel, sister-in-law of the bride, Mary Laethem, Kathy Laethem, Carol Laethem, sisters of the groom. Amy Ceisel, niece of the bride, and Nancy Laethem, sister of the groom, were junior bridesmaids. All wore wine colored silk dresses with an ivory venice lace yoke, giving the wedding an old-fashioned look. Their bouquets were of dusty pink, plum and wine colored silk roses, forget-me-nots and bell cups with fresh babies breath and ivy. Johanna Ceisel, niece of the bride, was the flower girl.

Attendants to the groom were best man, Joseph Laethem, brother of the groom, and groomsmen were Mark Laethem, brother of the groom, Michael Ceisel, John Ceisel, Alan Ceisel, and David Ceisel, brothers of the bride. Nilesites commend alert mailman

Dear Editor:
As Niles residents, we would like to personally thank John Roenna, a Niles postman, for being alert to a potentially dangerous situation at our residence. While delivering our mail on Feb. 19th he smelled gas on the side of our house. He informed my husband and I about the situation and we proceeded to call the Gas Company. They immediately came out and found

the problem and told us how lucky we were to have it discovered. Since we've lived in Niles, we have always found it to be a community of concerned people. John Roenna is a prime example of a concerned and dedicated Niles servant and resident.

Thanks again

District 71 commends Thompson for school busing veto

Editor's Note:
The District 71 Board of Education approved Governor Thompson's action in recently vetoing the non-public school busing bill and sent the following letter to him.

The Honorable Governor James Thompson
Executive Mansion
Springfield, Ill. 62777

At a recent meeting of the Board of Education, Niles

Candidate questions salary for non-existent assessor

Dear Editor:
What does the Maine Township Assessor do to justify a five-figure salary? The Republicans pay over \$12,000 for this part-time job, and I think the taxpayers are entitled to know why!

Too bad we cannot ask the assessor. Maine Township has none! The Republicans have reserved the office for my opponent (who holds another township office), so the vacancy has not been filled.

I join with the Committee to Elect a Democratic Township in deploring the common practice of the incumbents of supplementing their salaries with undocumented expense reimbursements. It amounts to a welfare system for

Elementary Schools, District 71 board members directed Dr. Clarence E. Culver, Superintendent, to write and thank Governor Thompson, on behalf of the Board, for his recent action in totally vetoing SB1812, the non-public school busing bill.

Mr. William Meier, President of the School Board, stated that "Governor Thompson's action is greatly appreciated by all public school administrators, board members and parents. The Governor has remained consistent with his previous statements regarding fiscal responsibility and his veto of this bill reflects his deep concern over the financially bleak condition of the state's economy."

According to Superintendent Dr. Clarence E. Culver, public education is underfunded and will continue to be underfunded by the State. "This places a terrible burden on the local taxpayers as the cost for State and Federal mandates continue to escalate. The present transportation mandates have been underfunded by over \$20 million the last two years. This shortfall must be made up from our local taxes which might otherwise be used for educational programs. To have signed SB1812, at a cost of \$12 million for 20,000 private school students, would have amounted to \$600 per pupil which is more than many public school districts receive per student under the State Aid Formula for their total education." Mr. William Meier, board member, said "The State has no constitutional obligation to pay for private education and is in no condition to subsidize two systems."

Sincerely,
Dr. Clarence E. Culver

Hall expresses concern for seniors

Dear Editor:
One of my main interests in running for Trustee in the Maine Township Election April 7, 1981 is my concern for our senior citizen population.

I am a senior citizen myself and enjoy many of the benefits provided for us. I think there is still much more to be done, especially in our Maine Township. For instance, programs sponsored by government agencies should be widely publicized and made available to all, rather than to just a few.

I have been a senior representative for the Maine Township Democratic Organization for the past 4 years, a member of three fine senior clubs and President of one. So this is where and how I learned how I could be of more service to seniors.

The Democratic slate running with me is in accordance with this thought and support it 100%.

Sincerely,
George Hall

MG police officer responds to Bugle letter writer

Dear Editor:

I am writing in reference to a recently published letter by Pat McVeigh regarding an incident on Sunday, Feb. 1, 1981. Although my name is not mentioned in the letter, I was assigned with Officer Thalmann on that night.

I am not writing this letter to justify our actions as police officers, but it seems a shame that the entire burden of "The bad guy" reputation is placed on our shoulders. Our job as police officers is to enforce laws, not to judge offenders.

To re-tell the facts stated in the first letter would be futile and

misleading, for there are truly two sides to every story. There are excuses for all violations from jay-walking to robbery, some are valid, some are invalid.

The facts are, we as police officers are trained to observe many situations and act on our observations along with the facts as they are related to us. We enforce laws that are drafted by the legislators, the same legislators you elect.

Approximately 95% of all traffic violations are unknowingly committed, for that in itself would be a crime. We enforce

Dixieland Band members achieve notoriety

In order to listen to Dixieland music, it's not necessary to live down South. Annie Finnegan and friends play in a Dixieland children's band. Band members, ranging in age from 9 to 15, play not only Dixieland music, but contemporary and 1920's music as well.

Four agents book them for political functions, banquets, parties, and fund raisers. The band started in 1979 when it first performed for a school variety show. Since then the band has played on "Bozo's Circus," stopped traffic at State and Madison downtown, performed at both the Chicago Civic Center and the First National Plaza, and was the subject of a segment on Harry Porterfield's "Someone You Should Know" on Channel 2.

The band includes Joseph Finnegan, (age 12) on the washboard, vocals, and trombone, Anne Lynch (age 15), who dances and plays piano, Kevin Campbell (age 9) on the banjo and vocals, Brian Metzger (age 15) on trumpet, and finally, Annie Finnegan, a Maine East sophomore, on tuba.

Although Annie enjoys her tuba playing, she has many other interests too. She spends much of her time drawing or painting, and last year she won a blue ribbon for a block print she did here at Maine East. She also has a great interest in writing and hopes to be a journalist when she gets older. But for now, Annie Finnegan is a tuba player who does her best to bop, bounce, and bubble at every performance.

If you were to go to a performance, you would see a 45 minute potpourri of musical entertainment, including dances, "sing-alongs" and perhaps a tuba solo.

In '81 the Cubs will be number one!

FLASH: The Chicago Cubs in '81 will be ONE-derful. They'll win it ALL. Their division pennant, playoffs and the World Series.

They will amaze everyone and startle the sports world. They'll score the largest number of wins in the history of major league baseball. And they will WIN the World Series in four-straight games.

They'll break every major league record for pitching, hitting and fielding plus the all-time team home run record.

Their pitching staff will compile the lowest E.R.A. in the history of organized baseball and they'll also break the all-time record for stolen bases.

Yes, on-the-bases, this season the Cubs will be ACES. By mid-season they'll have clinched the pennant in the division and the last half they'll just keep smashing record after record.

Yep, Addison and Clark will be the happiest place in Chicago this year and in October Cub fans will be dancing in the streets.

It's a whole new ball game this year. I further understand, that Cub World series tickets are already on the printing presses. A blank space will be left for the opposing team they face. Cub fans will write in the opposing team themselves.

I have this information on the best of authority. But, even though I flatly refuse to divulge my source of this inside information, I will elaborate upon it later.

Bet the Cubs this year - YOU can't lose!!!

Maine East's Blues Brothers are great showmen

There's a unique group of musicians at Maine East--the Blues Brothers. The name ring a bell? Well, it's not Belushi and Ackroyd, but a fantastic facsimile.

Mr. David Jeffers, the head of the speech/drama department, sponsors this group of talented people. Jeff Kroll (Elwood Blues) and Joe West (Jake Blues), donned in their dark glasses and white collars, croon tunes into the microphone while the rest of the group provides the musical back up. Alan Goldman on bass, Bill Engerman on drums, Ben Teitelbaum on alto saxophone and the group's musical arranger, Laura Stendel on electric guitar, Mike Skrypchak on baritone saxophone, Todd Kaline on trumpet, and Ken Rice as announcer.

The group was organized by Alan Goldman who decided to put some good talent to use by recreating the Blues Brothers that flashed across the screen this past summer.

The group received its first recognition at "The Gong Show" sponsored by Student Council during Homecoming. They took first prize. Then it was V-Show, where the group again, was a great success. The V-Show was taped and played on cable TV. Their popularity has become so great, in fact, that recently they were hired to play at one of the Chicago Hustle's games at Alumni Hall. Most recently there was a "Blues Night" at Apollo Junior High where the band performed some of their songs. These included "Sweet Home Chicago," "Gimme Some Lovin'," "Peter Gunn Theme," and "Almost." The band is planning on playing at Sally's Stage in Chicago in the near future. They practice once a week and are available for bookings.

If the sounds of the Blues Brothers has not reached your ears yet, it's well worth your while to sit down and listen.

Marionette show

Don't miss out on the enjoyable and fun-filled antics of the Fred Putz Marionettes! The giant marionettes perform a humorous variety show. Some of the acts include a dancing hippo, clowns, an ostrich, ballerina, trapeze artists and can-can dancers! Each individual skit is sure to entertain. Puppetry is one of the oldest forms of children's theater. It's alive and well and entertaining young and old alike.

And best of all, it's right here in town. This marionette show will be presented live, on Sunday March 15, at the Grennan Heights Gymnasium, 8255 Oketo ave. Tickets can be purchased at the Rec. Center, 7877 Milwaukee ave. Show time is at 2 p.m. and the prices for residents are \$2, for adults and \$1 for children under 12 yrs.

Glenview District 34 gets detachment approval from District 207

The Cook County Educational Service Region Board of School Trustees has approved the boundary change which will detach the Glenview School District 34 area from Maine Township High School District 207 and annex it to Glenbrook High School District 225.

The decision by the Board of School Trustees was made at a special meeting of the Board on February 9. The decision was unanimous and came swiftly as there was no opposition to the

petition for the boundary change, which was jointly requested by both District 207 and District 225.

The request for the detachment/annexation grew out of the District 207 School Board decision to close Maine North High School in August, 1981. Last October, representatives from the District 34 area within Maine North's attendance boundary area presented the District 207 School Board with a petition signed by 1,100 residents requesting the detachment/annexation so that students from the area could attend Glenbrook South instead of Maine East, which is further from the Glenview area than Maine North.

The District 225 School Board was presented with a similar petition. The support of both school boards for the request led to a joint petition being taken to the Board of School Trustees, which has the authority to establish changes in boundaries between school districts.

of School Trustees waived testimony by District 207 and District 225 officials because of the lack of opposition to the boundary change. However, Attorney Leo Athas, representing the two school boards, presented trustees with approximately 75 letters supporting the joint petition. The letters were in response to a memo sent by District 207 to every resident in the District 34 area informing them of the February 9 hearing and the background surrounding the proposed boundary change. District 207 received only one letter objecting to the boundary change.

According to Donald Kenney, Assistant Superintendent-Business, District 207, the detachment/annexation will become effective on July 1, 1981. He said that the District's legal counsel is in the process of drafting an order for the boundary change to be signed by the Board of School Trustees.

Flynn promises new Senior Citizen Commission

Thomas Flynn, Niles Mayoral Candidate, said today he will create a new Senior Citizens Commission in Niles. The Commission will develop a comprehensive program of activities to utilize the skills and life experiences of Seniors.

Mr. Flynn said, "The skills and experiences of Seniors are often wasted in retirement. We want these accomplishments to be used by Seniors to benefit younger citizens of Niles."

Mr. Flynn went on, "We will develop a foster grandparent program in Niles to bring together Seniors and children with no grandparents or from single parent homes. We will conduct workshops that enable Seniors to pass on their skills and life experiences to Niles children and teenagers."

Flynn continued, "We will work with Oakton Community College's MONOCEP to bring specialized short duration programs to Niles designed to use Senior's time beneficially. Photography, Art, Clock Repair, Wood Working and other skills can be easily learned by seniors to fill their time usefully."

Sidewalk Repair Program in Niles

The Village of Niles is offering a sidewalk replacement program for residential, commercial, and industrial area participants that will pay half the cost to repair cracked public sidewalks in front of their property.

The Engineering Department is handling the program, which allows the Village to repair the sidewalks at half price to participants. A minimum of two sidewalk squares must be repaired for each property to participate in the program.

To apply, simply fill out the application below and send it to Niles' Engineering Division of Public Services Department, 6849 W. Touhy Ave. Applications must be in by March 15, 1981. For more information on the program, call 967-6100.

Loris cites revenue loss in self service approval delay

Candidate for Niles Village Trustee, Ronald J. Loris noted in these hard economic times, it becomes the additional function of local government to save the people money whenever possible not only curb wasteful spending.

This has not been done by your present Niles administration. After several years of consideration, it wasn't until February, 1981 that the present Niles trustees voted to allow self-serve gas stations in Niles. Gas stations that save you, the consumer (and voter), five cents per gallon. In addition, Niles lost 1% sales tax revenue for every gallon of gas not bought in Niles.

Most of the local newspapers expressed surprise at why the Niles Board of Trustees suddenly, after all those years, approved self-serve gas the last week in January, 1981. The answer is obvious. The week before, the Flynn-Loris-Alexander Reform Party announced they favored self-serve gas and that it would be one of its platforms and first matters of business.

Mr. Flynn concluded, "We will develop a video cassette history of the lives of the oldest Seniors in Niles. These recollections on video tape of WWI, the Depression, and WWII can be used by younger people to understand the daily struggle of life in past eras in American history. We younger Americans cannot progress unless we understand our own recent history. The Seniors of Niles can give us that insight into our own roots. Senior Citizens are too valuable to be wasted any longer and we intend on bringing them back into the mainstream of Niles life."

AEP cites reasons for neighborhood stability in Niles

The Village of Niles Achievement With Economy Party incumbents Mayor Nicholas B. Blase, Village Clerk, Frank C. Wagner, Jr. Trustees A. Selman, Peter A. Pesole and Carol E. Panek reassured their conviction that stability and property values of our neighborhoods must be maintained at the same high level they are now. Speaking on behalf of the Achievement With Economy Party, Mayor Blase stated "The vitality of a community and the desire for people to want to live in our village is due to three basic factors - the village tax rate, services and the stability of our neighborhoods."

How are property values maintained at such a high level in the Village of Niles? Several years ago the present administration established a Housing Department and inspection program to see that all properties were properly maintained and kept at a high standard level. The Housing Department's function is to look for potential problem

areas that could be deteriorating. The inspector would see that those properties that were not being properly maintained were brought up to standard before they affected other properties in the neighborhood. In addition to on-going inspections, all dwellings that become vacant, both commercial and residential, are inspected before occupancy is re-established.

The Achievement With Economy Party will strive to continue to provide the three most important reasons to live in the Village of Niles - low property taxes, the best in services and stability of our neighborhoods with high property values. April 7 is an election day in the village vote to keep property values high in Niles-re-elect the incumbents Mayor Nicholas B. Blase, Village Clerk Frank C. Wagner, Jr., Trustee, A. Selman, Peter Pesole and Carol Panek. If you wish to help the Achievement With Economy Party, call Mayor Blase at 692-3388.

Pierski seeks Niles Park board seat

Jim Pierski, of West Johanna Drive, announced his candidacy for the position of Commissioner of the Niles Park District on Jan. 19th, after six years of service to the residents of Niles.

Jim began his active involvement in the community in 1975 as a leader for the St. John Brebeuf Cub Scout Pack, helping six boys prepare for "graduation" into the Boy Scouts of America. Since then, he has given much of his time to the Village of Niles.

Jim was a team manager for the Niles Baseball League for six years, serving as secretary, vice-commissioner, and finally commissioner of the League. He also served on the League's Rules Committee for three years and was on its Board of Directors for one year. In 1978, Jim became a member of the Niles Days Committee (presently being reorganized into the Niles Events Committee) as the delegate from the Niles Baseball League. He was later elected to the Committee's Board of Directors, on which he continues to serve as vice-chairman. Jim chaired the St. John Brebeuf Festival Rental Committee in 1979, 1980, and will do so again this year, as well as appearing on stage. He was the assistant football coach for the Junior Varsity team at St. John Brebeuf School in 1979-80, and is presently vice-president of the St. John Brebeuf Athletic Board.

Jim has been a member of the Blood Donor Program for four years, and received his Gallon Donor Certificate in July of 1980. Jim is employed by Swap Shop, Inc. as its general manager, where he supervises the operations of five business sites and a staff of over thirty part-time workers, many of them teenagers. His business and administrative skills, coupled with the drive and energy he has shown in his commitment to

community projects, will make him an effective leader in developing efficient and well-planned programs for the Niles Park District that will be based on a balanced budget, and in ensuring that the Park District's programs will be responsive to the needs of all of the residents of Niles.

"Parks mean people," says Jim, "and we must reach out to every age group so that we may all enjoy and be proud of our parks."

The lady candidate then said we need a Youth Center and also a place for citizens from 21 to 50 years to congregate. My friend Joe Miller pointed out she ignored the Over 50 crowd who as yet have not reached Senior Citizen status.

Ms. Heinen got very harsh about the "little thieves" who hang out on Norlica Avenue. She said 11 and 12 year olds are stealing radiators out of cars, and then ringing doorbells and demanding money to return them. She said vandalism in Niles is "terrible." You can no longer park your car in a shopping center without it being ripped off. She emphasized there is a need for a build-up of the Niles police department.

Noting the department is staffed by 54 persons she called for increased forces to combat vandalism. She also noted Niles homes are being more frequently entered into and ransacked.

While Elaine called for increased policepersons she said she wouldn't touch the fire department. Her implication is all is well down at the old firehouse.

Ms. Heinen said Niles gets more than \$1,000,000 from utility taxes and she asked what happens to all that money. She noted Niles also gets \$300,000 in federal revenue sharing. She attacked Mayor Blase by saying he lives off the "fat of the land." We assume she was referring to these large revenues which she was questioning. She noted Niles needs lights on side streets which she felt some of this money should go for.

The lady Mayor candidate said, "It is a disgusting thing" Milwaukee Avenue hasn't been improved since 1977. She noted Niles does not have any pillars on Milwaukee Avenue with signs proclaiming the name of the town, only small signs at the entrance to the town. She decried Milwaukee Avenue's poor looks and demanded the village should be beautified.

Lashing out at the slippery streets in Niles during its recent snowstorm, Ms. Heinen said, "By cracky, in Chicago she (Mayor Byrne) may be a nut, but she sure had her streets clean!"

Elaine said when she becomes Mayor, Niles will be the most beautiful town in the area.

Heinen noted the town needs a "woman's point of view. Men don't care about bushes and beautifying...women want to beautify. We want to get back to the All America City like it used to be."

She lashed out at Nick Blase regarding cable TV. She said it would bring in \$100,000 a month and the village is dragging and dragging its feet, noting surrounding towns long ago had cable TV franchises. "Mr. Blase doesn't know which way he's going." Noting the village attorney has an interest in one of the companies under consideration, she said there was an obvious conflict-of-interest. "Mr. Blase is so stupid," said Ms. H., adding he should back-out from having Troy representing the village on this matter.

In closing her opening campaign speech Elaine noted Blase has been "in power for 20 years", has lots of business in town and forgets the village. Ms. Heinen claims she has no outside interests and "will be with the people". Reaching for a grand finale Elaine said, "there's no job too big for me. Tonight I know I could win. I'll be the next Mayor of Niles."

Noting the first President's birthday "yesterday", which she considered a coincidence, or perhaps an omen, the lady candidate said she would be the first woman Mayor of Niles.

"I love my village", claimed the Mayor aspirant, "I intend to keep the campaign clean and I'll be ringing every doorbell in Niles during the next weeks."

Niles Board...

Cont'd from Niles-E. Maine P.1 he has received more complaints from residents about soaring utility rates than any other issue. In a written statement released by Blase during a press conference on Friday, Feb. 20, Blase charged that the ICC "has lost contact with the needs and ability of the public to pay increasing utility rate bills." Blase added the "utilities must become more conscious of rates and the ability of the public to pay them."

Blase said a large number of Niles residents are retired and on fixed incomes, making them particularly vulnerable to rising utility rates. Among those utility rates which increased recently, Blase cited the 31 percent increase the ICC granted to Commonwealth Edison last year as well as the 11 percent increase Com Ed is now seeking. Also, Blase noted Illinois Bell Telephone has requested a 300 percent increase in the cost of installing phones despite the record breaking profits last year of Bell's parent company AT&T. Overall, Blase said utilities in the Chicago area had a 50 percent increase in earnings in 1980.

According to the Illinois Public Utilities Act of 1921, said Blase, the process for stripping the ICC's authority in Niles includes collecting approximately 1,100 signatures on a petition calling for a referendum. The exact number of signatures required is 25 percent of those who voted in the last mayoral election.

Following a successful petition drive, a referendum would determine by a simple majority vote whether the citizens of the village are in favor of assuming the rate making responsibilities for the public utilities.

Blase said members of the Maine Township Democratic Organization would be circulating the petitions. Also Blase said he will solicit volunteers among Niles residents to assist in the petition drive.

In effect, according to Blase, if Niles takes this action it will become an active part in the decision-making process necessary for public utilities to receive rate hikes. Representatives of the utilities will be required to appear before a public body in Niles to justify requests for rate hikes. While the ICC will still be able to override Niles and grant utilities rate hikes, the village will be able to appeal these hikes in court as a member of the decision-making process.

In other business, the Niles Village Board approved an amendment to the recently enacted self service gasoline ordinance prohibiting local service stations from selling gasoline by the liter rather than the gallon. Trustees said consumers would be unnecessarily confused if they had to buy gasoline by the liter.

The amendment passed 5 to 1 with Trustee Carol Panek dissenting. Panek said school children were learning the metric system and the federal government was encouraging citizens to begin to use the internationally accepted metric system.

Trustee Abe Selman announced the Village of Niles would be participating in a study along with 15 other communities on the planned expansion of O'Hare International Airport. Additionally, Selman said the study would look into problems created by the excessive noise of air traffic facing municipalities near O'Hare.

noted while a recent Commonwealth Edison rate increase of 31.2% left Chicago with the fourth highest charges of any major American city, Com Ed is once again before the ICC for an additional 11% hike.

And Illinois Bell, which is a subsidiary of AT&T with the highest earnings of any American corporation in history, is currently petitioning for a 300% increase for phone installations.

"I agree with those citizens who say that enough is enough. I feel our village board is more in touch with the needs and ability of the public to pay charges - much more than the ICC," said Flickinger. "I wish the circulators of these petitions good luck and God speed."

Also at the Feb. 23 meeting of the Morton Grove village board, trustees voted to draw up an amendment to create a "special use permit" in village commercial parking requirements. Leonard Bloomfield, chairman of the village plan commission, felt that easing parking requirements under certain circumstances would "give us the opportunity to keep the business area viable." A deficiency in parking spaces would not be detrimental to certain types of businesses, according to Bloomfield.

joining Glenview School District 34.

Board members also perceived the motion as a move toward stability in a district where four elementary schools and one junior high school have been closed in the last few years.

A lengthy discussion preceded the vote concerning wording of the original resolution introduced by Anne Sostrin. Joan Futterman, board member, said she would not like to bind future boards in a decision they may have to change. She said, "If we are forced to make a resolution to pacify a group of people, then we are no longer running the district."

Anne Sostrin said, "What is surfacing here is long-range planning. This is not placating, it is clarification."

Dr. Donald Bond, superintendent of schools, recommended the resolution be passed saying Washington school could be made easily. Bond also said, "In two years, enrollment at Melzer will be small enough so the school population can be absorbed elsewhere."

Bond also said he could present a 3 or 4 year program regarding all school facilities in about one and a half months.

In other action, Bond said board members could consider 3 other options in sale of the Harrison street property. In a former sale attempt, no bids were made. Bond said board members could lower the minimum bid, hire services of a real estate broker or wait and see what will take place in a different financial climate.

Dr. Lenore Page, director of Curriculum and Instruction, gave a report on items teachers thought were necessary to include in training.

Patricia Kolvek, assistant business manager, said the state guidelines on free or reduced rate lunches have been revised so as to eliminate about 8 or 9 children from the program.

The board passed a resolution rebating a total of \$15,976.51 in excess payments on special assessments. Mayor Flickinger noted that no past administration has attempted to clear the records on these matters, while this is the third time in the past year that his board has done so. Most of these special assessments dealt with paving and curbing and date back to the late 1950's and the '60's. Residents who qualify for these rebates will be notified.

Democratic Headquarters, 8070 N. Milwaukee Ave., Democratic candidate for Township Supervisor, Barry Lipin, and candidate for Township Clerk, Carol Christenholz, charged that the general way our township runs government shows a blatant disrespect for the people who elected them."

Describing various practices of the current township board, Lipin and Christenholz outlined "misuse, abuse, and violations of public trust..." which included questionable procedures and behavior in township government.

Christenholz said she and Lipin had reviewed the past two years of township meeting minutes. Following their review of the minutes, the Democratic candidates documented alleged improprieties they had found.

Among the allegations, Lipin and Christenholz charged township board members were paying themselves \$50 for each meeting they attended which included meetings outside the township. An example was cited where one trustee was paid \$250 during one month for attending meetings outside the township. Lipin and Christenholz stressed that the area townships they surveyed, only Maine Township paid its supervisors for such outside meetings.

Additionally, Lipin and Christenholz charged Maine Township Trustee Harvey Frindt was appointed office manager of the township offices and received \$3,800 for 18 months work. Lipin and Christenholz said not only was there no job description for such a position but there is no evidence that Frindt worked any type of regular hours. Also, Maine Township Democratic Chairman Nicholas Blase said Frindt's being employed by the public body he is a member of was a conflict of interest and "highly improper."

When contacted Frindt said there had never been any question whether his appointment violated Illinois law. "We just assumed that it wouldn't," said Frindt. Additionally, Frindt said Township attorney Roy Berquist raised no objections to his being hired.

Frindt said the creation of the township office manager position, and his appointment, was "an experiment to see if we could get better coordination between the departments" which make up the township government. Frindt said he tried to coordinate the activities of the township assessor, clerk, and supervisor.

Frindt said the hours he worked varied from the week to week. Asked if the position of township office manager had proven successful, Frindt said, "yes and no." After Frindt concluded his 19 months as office manager no successor was chosen by the township board.
