

## Is Mill Run a fire trap?

by Diane Miller

Does the potential of another Iroquois theatre disaster exist right here in Niles?

According to many Liberace fans who attended his sold out performance on Thursday, March 19, it does.

Witnesses attending the show noted that during the first part of Liberace's performance, smoke began coming from the lighting directly above the stage area. According to Mrs. Arlene Walsh of Niles, "Within seconds you could smell something burning and everyone was uneasy. People then started leaving the theatre and suddenly there was quite a panic and everyone started rushing to get out. People were pushing and trying to climb over their seats until an announcement over the public address system told the audience it was just a light bulb that had burned and everything was all right."

Mrs. Walsh reiterated further, "There are definitely not enough exits."

Pre-Election Buglebits.....

While we will not be making any endorsement for village or township offices we would like to call voters attention to two candidates for Niles Park Board. Though we are not familiar with all the candidates, we believe voters should give serious consideration to candidates Mary Marusek and Dan Kosiba.

Mary is a very bright young lady who, we believe, would make a valuable contribution to the park board. She served on the board two years ago. Kosiba has been involved in volunteer work coaching St. John Brebeuf teams for many years. He is the incumbent president of the park board. Marusek and Kosiba have both served the community selflessly, are outstanding candidates, and we believe are the type of candidates who would serve the community for its own sake, without ambition or any secondary motives.

No Letters To The Editor pertaining to the upcoming week's political elections are ever printed in The Bugle preceding elections. If they were published the letter-writers would have an unfair advantage over their adversaries who have no means of rebuttal prior to the election. This year we received 19 letters. We regret they are not being published.

## District 207 studies relocation of offices

At its March 9 meeting, the board of Education of Maine Township High School District 207 heard Donald Stillwaugh, Coordinator of Purchasing and Facilities for District 207, report that it would be feasible to relocate district administration offices to Maine South High School by 1984.

The administration offices are presently located in the Ralph J. Frost Administration Center, 1131 S. Dee, Park Ridge, just south of Maine South. By 1984, Stillwaugh said, the student enrollment at Maine South would have declined enough to open up adequate space to house the administration offices.

The Board had requested that Stillwaugh undertake the feasibility study following a recommendation by some members of the SEE (Secondary Education in the Eighties) Committee last year that the Frost

# Community outpouring aids in cleanup of Maine West library vandalism

When vandals went on a destructive rampage through Maine West High School in Des Plaines on Sunday morning, March 15, it was the unanimous outpouring of help from students, staff, parents and the community which helped correct the sick destruction of those early morning hours.

Recalling those hectic days Maine West Principal James Coburn said he arrived at the school about 4 a.m. that Sunday after being contacted by police. Surveying the damage he found a school library with 53 broken windows, approximately 20,000 card catalogue cards emptied from their drawers, 1,000 books thrown from their shelves and furniture and equipment overturned and damaged.

Additionally, vandals had entered the school auditorium and destroyed scenery to be used in the school musical just five days away from its scheduled opening. Also costumes had been strewn about and make-up poured on the mirrors, walls and floors of the dressing room.

After assessing the damage, Coburn's first act was to immediately call Maine West's Head Librarian Bill Lindeman and head custodian Herman Serone.

Arriving at the school, Lindeman began calling his library staff asking them to come in. "My main concern was that we get the students back into the library," said Lindeman.

Echoing Lindeman's feelings Coburn added, "The library is the nucleus of the school. To put the library out of commission hurts and affects the entire student body and faculty."

The nine library staff members began arriving at the school at 8:30 a.m. on that Sunday. Lindeman said they began the tedious job of sorting and re-filing cards and stacking books.

Also chief custodian Serone called in a full crew of 14 janitors to supplement the 2 janitors who usually work alone on Sunday. The janitors began arriving about 6 a.m. and immediately set about removing broken glass still inside windows, picking up glass from the floor, and setting overturned furniture and shelving right again.

Library staff members who rushed over on that Sunday morning also brought members of their families to help. A 16 year old student library assistant brought her mother and girl friend to help in the clean up. Other library staff members brought their spouses and children to lend a hand. A school secretary came with her husband, daughter and daughter's friend to assist.

Eunice Newport, a paraprofessional at Maine West was quoted as saying, "It's funny but when people came into the library, everyone automatically started working without being told what to do." Mrs. Newport came to assist with her husband.

Custodians continued cleaning up glass in the library as well as from broken glass display cases in the hallway. Also they began repairing chairs, shelving and study carrels which had been damaged by the vandals.

Additionally, Coburn said the two janitors from the night shift volunteered to stay on until 1 p.m. rather than leave when their shift was over at 7:30 a.m.

Many of the staff and volunteers continued cleaning into the evening on Sunday. Lindeman finally sent his son to bring chicken dinners in for those helping.

Arriving at the school at about 4 a.m. on that Sunday, Coburn and Lindeman report they both put in from 12 to 14 hours before returning home.

Maine West High School library head Bill Lindeman (center) worked with staff members and volunteers to reopen the school library after vandals caused \$10,000 damage on Sunday, March 15. Assisting in the re-filing of 20,000 catalogue cards are Marilyn Totermund (left) and Eunice Newport (right).

Monday morning, March 16, Des Plaines Public Library head Ben Openner arrived at the Maine West Library at 7:30 a.m. After being briefed on the extent of the destruction, he lent two public library staff members to the high school to assist with the card filing.

Also that morning word came that three staff members from the District 207 Technical Processing Center would be coming over to assist. Located at Maine East High School in Park Ridge, the processing center handles the buying and distribution of books for the four Maine high school libraries.

As school began on Monday, Principal James Coburn, using the public address system, told students and faculty members of the vandalism in the library and that the library would be closed for a few days.

The response from the students was both bewildered by such an act and a desire to help get the library opened again. "Many students came in and asked if there was anything they could do," said Lindeman. Coburn reports receiving offers of assistance from both student leaders and even those students usually not interested in school activities.

Additionally, teachers and some 15 students and parents worked along with custodians in trying to clean up and repair the damage done to scenery and costumes for the upcoming school musical. Because many costumes had been thrown about the dressing room, parents and students worked to check and repair all the costumes, many of which had been rented.

Also students swept up broken glass after make-up mirrors had been broken by the vandals. Furthermore, students scrubbed floors and mirrors to get make-up removed after vandals had poured liquid make-up throughout the dressing room.

Perhaps best exemplifying the dedication of those involved in the clean up was the offer of a high school junior in charge of the set construction for the musical. After learning that a particular set containing stained glass windows had been damaged, she asked if a faculty member would stay with her so she could work through the night on Tuesday to assure the set would be repaired in time for the opening performance. However, that effort proved unnecessary as the student was able to repair the set during eight hours of work spread out over a few days.

Outraged businessmen contacted school officials on Monday and Tuesday asking if they could raise money for a reward. After getting the go-ahead from the district office, it was announced late Tuesday afternoon a \$500 reward was being offered for information leading to the arrest and conviction of the vandals.

Throughout the day Lindeman and Coburn reported receiving phone calls from people in the community wanting to help. And in some cases, if the callers had some experience in library work, the help was accepted.

However, it was when students had returned home after school that Coburn says he received the most calls. "Most of the calls were from parents who just wanted me to know they were prepared to do whatever the school needed..." including cleaning or filing cards, said Coburn.

Judging by the reaction of the Des Plaines Police, this was more than just another act of vandalism. Coburn reports that 2 youth officers and one criminal investigations detective were assigned to the vandalism investigation full time.

"Wonderful" is how Coburn described the work of the Des Plaines Police. Calling the efforts of the police "industrious and untiring", Coburn added, "I really respect the efficiency with which they have worked."

During the days immediately following the vandalism Sergeant Larry Zumbrock, who is coordinating the investigation, said up to 300 students and "people associated with Maine West" were interviewed by Des Plaines Police.

Original estimates of damage done to the library were placed at \$20,000. However, on Monday, March 23 Coburn said that figure had been reduced to a maximum of \$10,000 damage. Coburn said that figure included approximately \$8,000 for new windows.

Reflecting upon the destruction in the library, which was the most serious incident of vandalism ever at Maine West, Coburn said, "My reaction (to the vandalism) was one of shock and disappointment. The experience was like an invasion of privacy."

### Return Homeowners Exemption forms by April 10

Robert P. Hanrahan, Assessor of Niles Township, would like to advise residents that verification of occupancy is now required in order for them to be eligible for the Homeowners Exemption in Cook County and throughout the State of Illinois.  
The Homeowner's Exemption can mean a savings of as much as \$300 in property taxes for owners of single family homes, condominiums, cooperatives and apartment buildings of six units or less. This exemption protects homeowners by eliminating from taxation any increase up to \$3000 in equalized assessed valuation since 1977.  
If you have not received a homeowner's verification form in the mail, contact the Niles Township Assessor's Office at 5255 Main Street, Skokie for assistance locally. This form simply requires an affirmation of residence and a signature. It is to be mailed back to the Cook County Assessor's Office on or before April 10.  
Senior citizens who have already qualified for the Senior Homestead Exemption for 1980 will automatically receive this additional 1980 exemption. They do not have to apply for the Homeowner's Exemption.

Although I am only 52 years old, due to certain health problems, I have had to live on a fixed income of disability insurance. Therefore, I can readily relate to the problems that the senior members of our community (many of whom are also on fixed incomes) encounter in this period of staggering inflation and economic instability. Though all citizens have to deal with not only these inflationary problems but also the burden of higher property taxes, the elderly of our community are the most afflicted.

**Illinois State Police alert public of Arson Award Program**

Captain Hugh S. McGinley, Commander of District 15, Illinois State Police in Oakbrook, would like to make people aware of the Illinois Arson Award Program and "Arson Alert".

Each year thousands of arson fires in Illinois kill nearly a hundred people and cost millions of dollars in property loss and other costs. Nationally the cost of arson is greater than the combined total of all other violent crimes, killing thousands of people and destroying billions of dollars in property.

According to Illinois law, a person commits arson when he knowingly damages, by fire or explosive, any property valued at \$150 or more, of another without the owner's consent or with the intent of defrauding the insurance company. Arson is a class 2 felony punishable by a sentence of not less than 3 years and not more than 7 years.

When someone is killed, seriously harmed, or disfigured, or if a police officer or firefighter in the line of duty is injured as a result of such a fire or explosion, the crime is aggravated arson, which is a class X felony punishable by a sentence of not less than 6 years and not more than 30 years. Community and citizen involvement are essential to combatting arson. Until citizens become aware and concerned about the arson problem in their community, police and fire officials are limited in what they can do to prevent arson and put arsonists behind bars. By becoming aware and involved, you can provide valuable clues which can assist police and fire officials in detecting arsons and arresting arsonists. Call "Arson Alert" 800-252-2947 if you have any information which might prevent an arson, or lead to the arrest of an arsonist. The Illinois Arson Award Program may pay up to \$1000 for information leading to the arrest or conviction of an arsonist. Hopefully "Arson Alert" and the Illinois Arson Award Program will encourage citizens to help us in the war against arson. Together we can solve the problem.

A resident of the 6700 block of Church St. reported that unknown persons threw a brick through a rear window of his car on Saturday, March 28. The car was parked in front of the residence at the time of the damage. The replacement value of the window was placed at \$350.

Unknown persons, using a shotgun, shot out the rear window of a car parked on the 7400 block of Emerson St. on Saturday, March 28. The car owner estimated the cost of the window at \$300. Police report finding a discharged shotgun shell at the scene.

While several Letters to the Editor were received from political candidates and their supporters for publication in this week's edition, it has been the policy of The Bugle not to publish any letters dealing with politics in the last issue preceding the election. We feel this is a fair policy since such publication would not allow for any rebuttal.

**Flynn pledges open and honest administration**

Thomas Flynn, Niles Mayor Candidate, ended his campaign with a pledge for an honest and open administration. He said he would concentrate on programs that benefit people and especially seniors and teenagers.

Mr. Flynn said, "Judy Flynn, Rosemary Karvarik and Judy Early led 2,500 volunteers to a successful St. John Brebeuf Festival XII. They earned over \$71,000 for the school. We can bring that spirit to Niles and we can work together for a common good."

Mr. Flynn continued, "We have honest and decent village workers and dozens of volunteers. We will motivate them to work even harder for my philosophy of government. I believe it will be my job as Mayor to work for people at all costs."

He continued, "We can reduce taxes. We can improve senior programs and add ones for teenagers and young adults. We can provide services at less costs. We don't need an 18% increase in real estate taxes for 1981. We can bring younger families to Niles

and increase our share of income tax rebate, motor fuel taxes, sales taxes and Federal revenue sharing."

Mr. Flynn ended, "The programs I outlined in weekly news releases can be attained with limited expense. I made no promises I could not keep. I have not tried to deceive anyone with phony gimmicks, false statistics or fancy colored brochures. We will succeed by working together and for the common good of each other."

**Top math students**

**Provenzano understands the needs of the people**

While candidates are making promises about senior citizens and youth, Michael Provenzano, candidate for Niles Trustee and is still working with senior citizens and youth in Niles. He is program chairman and active at St. Isaac Jogues 55 Plus Senior Citizens (people with experience) club and a member of St. John Brebeuf Golden age club, also a member of the Illinois Associations of Senior Citizens, Inc.

Mike organized in his parish and was appointed Big Brother Chairman, designated to represent the Archdiocesan officer of youth activities in its program of correction, aimed at rehabilitation of delinquent youth in his parish. Provenzano is active in many religious, civic and political organizations. His over 30 years of experience in government offices will help the taxpayers in Niles. He is the kind of person who will view each dollar as an investment that must be spent in the most efficient and effective manner.

Provenzano doesn't talk about platforms or promises, he works daily in improving things that are vitally important in the everyday event of a person's life. He is close enough to the community that he understands the need for a responsive and ongoing line of communication to the people of Niles.

Provenzano stresses the importance of voting on Tuesday, April 7, from 6 a.m. to 7 p.m. at your local voting place. If you want good government, punch number 65 for Michael Provenzano on the automatic machine.

**Petrillo lists experience and goals**

Michael Petrillo, Independent candidate for trustee of the Village of Niles resides at 8745 N. Elmore. Petrillo has been a Niles resident for 15 years, married 32 years, is the father of 3 children, and proud grandfather of 6 year old twin girls.

He is a former Local Union Financial Secretary-Treasurer UAW Elected Delegate-UAW Convention-11 years Lab-or/Mgmt. relations experience. He worked 8 years in Industrial Engineering, specializing in Pre-determined Element Time Standard Systems.

He also has worked at jobs such as Ready-Mix truck driver, Local 786 Vulcan Materials Co. and Niles Public Works, Building and Grounds Division.

**TIP candidates charge incumbents with 'cover up'**

Seymour J. Primer, Trustee Candidate on the Taxpayers Independent Party slate this week charged the incumbent Morton Grove administration with an attempt to 'cover up' the 112% in Morton Grove taxes with evasions and smears.

When Taxpayer Party Mayor candidate Eunice Conn attempted to bring this situation to light, her efforts were met with cries of "liars", "night-riders" and even "goofy". We think such issues as the collapse of the public works building which was not insured, and the weakening of the once-efficient paramedic program are indeed issues which deserve answers, not smear tactics.

"In the face of declining population, we are not getting demining taxes, only declining services at vastly higher taxes," charged Trustee Candidate Mel Little. "Throughout our campaign the people have told us they want less government and less taxes. Yet, we have gotten a 112% increase in the past three years, and more to come."

No current village employee has any fear from us of losing his job," said Charles N. Anderson, TIP candidate for Village Trustee. "Rather, our attack will

be on such scandals as the \$50,000 wasted on 'planning and engineering' and the \$135,000 wasted on 'surveys' to tell Morton Grove residents what they already know, that traffic on Dempster Street is heavy.

Confusion reigns in Village Hall in spite of, or perhaps because of, the nearly one million dollars in surveys and plans charged Village Clerk candidate Joe Hedrick, a part-time real estate sales person with a local realty firm. At the March 9 Board Meeting, opposition Trustee Schneider said, "this administration would never tear down any house". At the March 25 meeting of the Dempster Street Commercial Strip Study and Analysis Committee, it was revealed the study recommends demolishing the houses on Naragansett between Dempster and Hennings Court for commercial development, "among others". In the light of these revelations, we ask who should be called "liars".

"Over the past four years, we have seen a sorry record of waste, excessive taxation, deteriorating services and nepotism far exceeding that which has been charged in another local race. Administration friends and family members are finding a well paid resting place on the village payroll, all at your expense. The time is now to rise up and throw out the most deceitful and wasteful administration in the history of the Village," Mrs. Conn concluded.

**Debate competition**

Jack Mabley (Chicago Tribune) wrote in 1972 that Mayor Blase was waging the dirtiest campaign in Illinois Congressional history against Congressman Abner Mikva.

Mike Royko (Chicago Sun-Times) wrote in 1972 that Tom Flynn was the most HONEST and best informed candidate in Illinois for state office.

The secret of Mayor Blase is using good people and then discarding them as waste if it is to his benefit. Consider:

Mayor Blase was quoted (on tape) by Milton Rakove that woman joined his Democratic Organization to fool around on their husbands.

Tom Flynn fought the closing of Grennan Heights field house. My reward was bullet through my office window, death threats, police protection and threats against my wife and children.

Mayor Blase has become one of the richest mayors in Cook County through skillful use of his office.

Tom Flynn has had the rich experience of serving on the Girl Scout Board, Kids in Need Board, Consumer Fraud Office, Maine Township Summer Job Program for Youth and dozens of projects for St. John Brebeuf Church.

## Niles Park Candidates pledge community betterment

Candidates for Niles Park Commissioner, Jim Pierski, Dan Kosiba and Mary Marusek, met recently with over 50 people who will be combining their efforts to work for the 3 candidates.

The friends and supporters of the candidates heard the three again emphasize their commitment to a financially stable district, programming to meet the needs of all age groups, and a desire to represent the wishes of the residents when considering the issued before the board.

By sharing their resources, the 3 candidates are pledging themselves to work for the residents of Niles, not for special interest groups, and to reach decisions which are best for the community as a whole on the basis of residents wishes and the financial well being of the district.

Although Pierski, Kosiba, and Marusek have, on many occasions, declared that they consider the proposal for a health club at Grennan Hts. to be a dead issue, opponents have continued to suggest that they would, at some date in the future, try to resurrect the issue. All three, Pierski, Kosiba, and Marusek, reject that suggestion as totally untrue. They are opposed to ever again considering a health club at that location. As Kosiba stated, "the residents in the area have spoken". Marusek opposed the idea from its inception and spoke publicly against it and Pierski has consistently indicated that he would not consider a health club there. Their positions could not be more clear.

## Marusek pledges concern for Park's finances

When speaking at a recent meeting with supporters, Mary Marusek, candidate for Niles Park Commissioner, stated that board decisions must be made on the basis of what is best for the financial well-being of the district and after considering the needs and wishes of the park district residents.

When questioned concerning the use of district facilities by non-residents, Marusek stated that although the district profited financially by non-resident use, "the residents of Niles Park District are the ones that should have priority use of facilities. The district must first and foremost serve the needs of the residents."

Marusek, a 15 year resident of Niles is a mother of 3 and has been actively involved in her community. A former president of the League of Women Voters, she has also served on the Oakton Community College Outreach Committee and presently is a member of the Niles Sign Board of Appeals. She also claims considerable experience in park district matters on the basis of her service as finance chairman while she was on the board, her service as observer to park board meeting for the League of Women Voters, and her involvement with the district as a pre-school teacher.

Pledged to work for improvements in the programming and appearance of district property, Marusek has joined with the two candidates who most closely share her goals for the park district. She will be combining her election efforts with those of candidates Jim Pierski and Dan Kosiba to seek election as a team pledged to work for all the residents.

## Elaine Heinen cites need for new direction for Niles

"This will be my final opportunity to address the residents of Niles via the media," stated Mayoral Candidate Elaine Heinen. "I won't take up valuable space to argue programs or to complain about the tactics of my opponents, who in the face of groundswell support for my election have ignored issues, and taken to nitpicking in the news and letters columns."

As she stated at the beginning of her campaign, the one, overriding issue facing Niles is that well enough is no longer good enough. "The mayoral campaign, if nothing else," she pointed out, "has brought to the surface many problems previously ignored. The solutions to these problems have become the candidates' goals; however, the difference is in the approach each would take."

The basic problem will still remain in the present administration is returned to office. "We cannot continue to react to problems," Mrs. Heinen said. "We must anticipate them; we must invest the time in reading and interpreting signals received. And then we must act

before the problems become unmanageable."

As mayor, Mrs. Heinen would invest that time and investigate thoroughly all areas that would affect Niles residents as well as its business and industry. "I would be a full-time mayor," she pointed out, "since I have stated that I would resign my job in order to devote myself fully to the office of mayor. I will have no outside interests to distract me. I have no personal business that would stand in the way of, or profit from, my position as mayor."

She concluded, "I believe I am qualified to be mayor. In the two years as Park Commissioner I have demonstrated the leadership qualities needed. In addition, my other civic activities plus many years of parish work have laid a good foundation for such a position. I believe the citizens of Niles want their village to progress, to have their quality of life improved rather than just maintained at its present level. Actually, such 'maintenance' is a falling backwards because of the rapid changes occurring in the

economic, social and political areas.

"Therefore, I urge Niles voters to take a new path on April 7, to progress again through Heinen and punch No. 32 on the ballot."

## Legion District dinner in Skokie

The 7th Dist. American Legion Auxiliary will hold their annual Membership Dinner at the Skokie Post #320 at 8212 Lincoln, Thursday, April 2. Representatives of the 10 units whose confines are within the north shore suburban and Chicago areas will attend the function.

Donation is \$7.50. Chairman is district Vice President-Membership Chairman Mrs. Marian Szymanski of Evanston, 325-6441. She reports the units in the district are doing a tremendous job this year in recruiting new members and resigning former ones. Each unit's president and delegates also have as their guest the post commander from their group.

Delegates from each unit routinely attend the monthly meetings of the 7th District which are rotated throughout the area with each unit performing the hostess duties.

A festive event, the social portion is followed by presentation of awards and commendations to the various high membership by percentage and total amount units and various other necessary business is transacted.

Current 7th District president is Mrs. Connie Manke of Morton Grove, a past president of Unit #134 in that suburb.

## Maine tax breakdown

Holding a graph showing what a small portion of the typical Maine Township property owner's tax dollar goes to support the Township government services, General Assistance and Road and Bridge Funds, Trustee Harvey Frindt is speaking to various groups throughout the township about the need to re-elect the incumbent Republican administration on April 7.

"The Republican slate represents 80 years of experience in Maine Township government," Frindt states, and points out that the combined tax rate of Maine Township is the fifth lowest out of the 30 townships in Cook County, and the budget is balanced. "This should put an end to our opponents' false claims about waste and inefficiency in our administration", the five-term Trustee and Niles resident concludes.

## Kustra calls for all-out effort in MIA/POW search

Reacting to recent sightings of Americans in Southeast Asia, State Representative Bob Kustra (R-4th District) introduced a resolution in the Illinois General Assembly calling on the Reagan Administration to increase its efforts to account for the missing in action and prisoners of war in Vietnam, Laos, and Cambodia. The resolution passed unanimously on Thursday, March 5 and will now be sent to the President, key Cabinet officials and all members of the Illinois Congressional delegation.

Kustra said that there are as many as 900 reports from Indonesian refugees that live Americans were seen, crash locations spotted and grave sites discovered in Southeast Asia.

"With so many reports, and with so little known, it is clear to me that more can be done to find information about our men," Kustra said.

The resolution calls on Secretary of State Alexander M. Haig, Jr. and Secretary of Defense Casper W. Weinberger to increase the effort to establish how many prisoners are alive in Southeast Asia, to determine the precise terms of an agreement which would ensure release of all U.S. personnel and the fullest possible accounting of those not returned, plus the repatriation of the remains of those who died serving their nation.

"Although the State of Illinois cannot deal with foreign govern-

ments on matters of this nature we can remind our elected representatives in Washington that we have not forgotten," Kustra remarked. "There are at least 50 families in Illinois who have men missing who have never been accounted for."

The sister of one of those men missing in action, Mrs. Mary Martindale of Glenview, has been active in the National League of Families of POW/MIA's in Southeast Asia. She is responsible for bringing the subject to Kustra's attention and asking that the Illinois General Assembly express its concern that something be done. Mrs. Martindale's brother, Navy Lt. Commander Thomas H. Pilkington was flying from an aircraft carrier over North Vietnam on September 19, 1966 when he did not return to ship. For fifteen years, Mrs. Martindale and her family have been trying to get more information.

Commenting on his first official act as a member of the Illinois General Assembly, Kustra said, "We are all glad the Vietnam war is over, but the recent hostage crisis reminded us that there were some who never came home from Southeast Asia. It is time that our government gives to these men who served their country honorably the same diplomatic initiative and attention which it gave to the former hostages in Iran."

## SJB boy cagers on winning streak

The 8th grade boys basketball team of St. John Brebeuf recently won six of their last seven games. In the process, they captured second place in a tournament hosted by St. John Brebeuf. To reach the championship game, the SJB boys beat St. Catherine of LaBoure by one point at the buzzer.

A game that was close all the way. St. John's called 3 times out in the last 11 seconds in an effort to control the final seconds of the game. With a few seconds left, the SJB controlled a jump ball. The entire team shouted for a time out with 2 seconds left on the clock. Coach Dan Kosiba set up a new out of bounds play with 2 SJB players at the right low post

and 2 SJB players at the left high post. At a signal, the players vacated their positions in 4 different directions. Greg Patton broke from the low right post position to the left high post and received a pass from out of bounds. He turned and sunk a bank shot to give SJB a one point lead as the crowd rose to their feet cheering.

The team also placed third in a tournament sponsored by St. Monica's by easily beating the team from Immaculate Conception.

Starters for the SJB team include Dave Piekarz, Eric Perkins, Mark Mizialko, Greg Patton, and Jim Elenz. Jim Hickey was a super sixth man. The team also includes Peter Balke, Joe Magnelli, Tony Musso, Brian Early and Richy Spears.

The 8th grade boys team along with the 8th grade girls and the 6th and 7th grade girls and boys basketball teams from St. Johns were awarded the traveling trophy at the St. Monica's tournament for "The Best Combined Performance by 8th, 7th and 8th grade Boys and Girls". The trophy the teams earned is on display at the school library.

## Erickson selected 'Player of the Week'

Connie Erickson, a 5'6" guard from Morton Grove, is the MNUR/Millennium Records "Wildcat Player of the Week" for her performance in Northwestern University's women's basketball loss to Stephen F. Austin 88-67 Wednesday in the AIAW National tournament.

Erickson, a sophomore transfer from Southern Illinois University, scored 20 points on 7-14 field goal and 6-7 free throw shooting, pulled down five rebounds, dished out five assists and had three steals in the Wildcat's defeat.

Erickson, a Niles West High School graduate and Niles Olympic Committee nominee for the 1984 Olympics, received the WNUR/Millennium award for the third time this season. With Northwestern's tournament loss, Julie Calahan ends the year with six player of the week awards, Amy Prichard had three and Patience Vanderbush took weekly honors once.

Millennium Records presents the latest in music to each week's award winner as selected by WNUR. WNUR-FM concludes its basketball broadcast season, having carried 14 Northwestern University women's games and 20 Wildcat men's contests. The Wildcat women end the 1980-81 season with a 22-12 record.

## SJB 5th graders finish with 15-10 record

The St. John Brebeuf 5th grade boys basketball team ended their season successfully with a 15 and 10 record. They finished in third place in the Northwest Suburban Catholic Conference. The SJB boys also finished second in several tournaments.

Starting for the team were Rob Porzycki, Mike Belmonte, John Belmonte, Shawn Parlich and Brett Dugan. The team also included Wally Blase, John Cygnar, Danny Tomczak, Keny Thompson, Steve Fonti, and Tom Wolshon. The 5th grade boys are coached by Ted Bieniek and John Jekot.

The highlights of the season for this outstanding team included playing in several championship games and beating the first place team, Mary Seat of Wisdom. Coach Bieniek related that, although the team was composed of only 5th graders, they used a very effective full court press. They also carried on the SJB tradition of fast breaking at every opportunity. He emphasized that the team didn't depend on the "star system". It was an exceptionally well balanced team with scoring and rebounding statistics well dispersed. He stated that "they were an exciting team. They sometimes acted goofy, but I still loved them and I'm sure the fans loved to watch them play."

The 2500 features electronic control that gives you more flexibility and control over dishwashing than ever before plus solid state reliability. Cycle selections wash everything from fine china to pots and pans with just the touch of your finger. Another touch adds rinses to match the amount of food left on your plates; light, medium or heavy soil. A drying option gives you another choice. And speaking of energy, this dishwasher has its own energy monitor that shows the relative energy usage for each washing combination you've selected. There's a digital readout to tell you how many minutes until your dishes will be done. Plus an exclusive self-diagnostic system that reveals certain problems like household power failures or clogged drains... so you don't call for service when you don't need it. ### Flickinger says ACT-ON is tax-reducing party

Mayor Richard Flickinger, ACT-ON Party candidate for reelection, declared today that the ACT-ON administration has provided the most responsible, cost-effective government in Morton Grove history, and that as a result of his administrator's foresight, Morton Grove has been revitalized and local taxes have leveled off and are on the way down.

Flickinger explained, "We took bold investment action early in our administration to prevent raging inflation from crippling our efforts to overcome the previous years of neglect of our predecessors."

"We inherited a real mess when we took office. Within a very short period of time we had to make some hard decisions to put a halt to the prior administration's irresponsible disregard of Village needs that was threatening the stability and safety of the Village and the value of property in our community."

"We converted the abandoned Grove School into a 'Police-

Administration Building, the pride of Morton Grove, at a savings of over \$2 million—and helped the neighborhood around it at the same time. We replaced dangerously antiquated 1963 and 1956 fire trucks, added a paramedic ambulance and a public works building. We also instituted the most modern productive business methods for village government. All of these steps, approved by municipal government experts, required considerable expenditures.

"Our opposition fought us on all of these issues every inch of the way. Their concept of progressive government, far different from ours, included elimination of the entire fire department to save money! We refused to cave into their demands, because they were wrong."

"If we had waited, inflation would have increased costs astronomically and forced a huge, continuing rise in taxes. If we had not acted at all, Morton Grove would be an unsafe, deteriorating community today.

It may not have been the best

political move to make, but it was the right one—and we chose to do what the people mandated us to do—give them leadership and dependable government in Morton Grove.

"What happened was a very temporary increase in taxes resulting from all of this necessary concurrent capitol improvement. Those taxes have already leveled off and are on the way down. Inasmuch as there will be no need for further major improvements in Morton Grove for more than a decade, taxes will not increase measurably from now on. Despite the increase during this past period, Morton Grove residents always paid less and still pay less today in total taxes than do residents of other nearby suburbs."

Flickinger continued, "We are proud of the policies of our administration that have ensured the personal and financial investment we all have in Morton Grove. That's how responsible, effective government is supposed to function. I have every confidence that people who live in Morton Grove are wise enough to understand what we've done and will give our ACT-ON Party their vote of approval on April 7 for continued sound government."

### Legion holds dinner for blood donors

Following the last blood drive which was the Morton Grove American Legion Post 134's semi-annual drive to assist the village, a dinner was served at the Legion Memorial Home to those who donated, as well as those donors of the previous month. The evening was planned by blood donor chairman, past commander Tad Kimura, long-time chairman of this committee for the local legion.

His wife Susie assisted in serving the meal, and others lending their talents were Auxiliary Unit blood donor chairman, Millie Hoffman and Auxiliary past president Alyce Campanella and her husband Jim. Tending bar for the pre-meal cocktail hour was post past commander Bill Kramer.

Special thanks go to Jim Campanella who was responsible for the donation of the potatoes that were served as well as all the salad ingredients.

Kimura indicates that the Post has hit quota in their donations, however, each month loyal Legionnaires turn up at the Molloy School to give life's blood in the regular program which was originally a Post 134 function before the Village of Morton Grove began their monthly program.

The February donors were: Richard Baehr, Bob Connelly, Mel Hayes, Joe Schmidt, August Di Grazia, Rich Mendels, Frank Goro, Stanley Kubas, Will Chambliss, Ed Bielecki, Bob Dyslin, Mel Little, George Godeman, Charles Anderson, Joe Hedrick, Joe Paczosa, Don Huber, Marge Huber, John Slater, Adolph Prorok, Ralph Hintz, Kimura himself, Bill Harrer, Tom Eckmann, Irene Baitly, Harry Broeker, Ray Lynch, Tony Bartik, Bob Perschon, Bill Schmidt, Dorothy Schmidt, Al Weinstein, Raoul Smoczynski, Dale Carr, Julie Baitly, Mel Baitly, Maureen O'Malley, Don Root, Nancy Root, Richard Pope and William Pope.

## Maine Dems urge voters to go to polls

"The Maine Township election is April 7, and we urge all township voters to go to the polls," said Barry C. Lipin, candidate for supervisor. "The voters have a clear choice. The incumbents have doubled the township tax rate in the last two years. THERE IS NO JUSTIFICATION FOR THIS. THERE ARE NO NEW SERVICES."

"There are only increased payments to township officials," said Whitey Daniel, candidate for highway commissioner. "We have charged the incumbents with condoning and accepting undocumented reimbursement of expenses. A lawsuit was filed to recover the funds."

"It's especially significant that the republican slate uniformly talks about economy in government," observed Dennis L. Posen, candidate for trustee. "They raise the tax rate by 100%, pay themselves extra amounts for 'expenses' and then cry austerity. Isn't it funny that a Republican candidate for trustee plans to eliminate 'frills' if elected. The Republicans have had the offices for over 100 years. If they haven't found the frills in that time, they either cannot or will not."

The Republican have responded to our charges of waste and mismanagement by ignoring issues; phony issues are raised to distract the voters from the real ones," charged Cynde L. Feichter, candidate for trustee. "Their latest play was to file a complaint

with the State Board of Elections challenging the accuracy of our Committee's financial reports. They timed it to be about two weeks before the election, even though they questioned a January filing."

"To expedite the processing by the Board, we voluntarily submitted to its jurisdiction for a preliminary hearing," stated Ellen Kane Munro, an attorney and candidate for assessor. "We waived statutory notice and will appear at the hearing on less than 24 hours notice. We presented documentation that proved conclusively that our reports were correct and complete as filed."

It comes down to a question of getting your money's worth," said Terry Shevelenko, candidate for collector. "The Democratic slate pledges to provide just that to township residents. Given the failure of the incumbents to answer charges against their administration, what can the voters expect from them if they are returned to office - just business as usual....."

**M.H.S. officers**  
Heading the Maine Historical Society for 1981 at Maine East will be Neal Aizenstein of Niles. Working with Neal to organize the group's second semester activities are Joel Liberson of Morton Grove as vice-president, Bill Loebbacka of Morton Grove as treasurer and Laurie Clement of Morton Grove as secretary.

## Wearable art at Mindscape Gallery

If your idea of wearable art is a transfer on a tee shirt, you have a closet full of surprises waiting at Mindscape Gallery, 1521 Sherman ave., Evanston. Their BODYWORKS show, originally scheduled thru March 31, is displaying artforms as intriguing on the body as they are on the wall thru April 26. The exhibit includes handpainted silk caftans, batik and tie-dyed tunic/banners, appliqued and embroidered kimonos, woven wearable wall pieces and more. They're designed to hang almost anywhere - except in the closet.

If you're already out of drawer space and your hangers are full, it's time to see the new wearables - the fastest growing medium in contemporary American crafts. BODYWORKS are available for browsing Tuesday - Saturday 10-6, Thursday, 10-9 and Sunday 1-4.

## TAXPAYERS OF NILES! LEND US YOUR EARS!

- Thomas Flynn Mayor Of Niles
- Ronald Loris Trustee Of Niles
- Patricia Alexander Trustee Of Niles

### The facts of the Blase-Heinen promises and records:

Mayor Blase says Niles has one of the lowest tax rates in northern Cook County.

Fact: The combined utility tax & real estate tax gives Niles one of the highest tax rates in all Cook County. Also, the 5% cable TV fee is a tax.

Elaine Heinen says she will abolish the utility tax.

Fact: She cannot abolish it without raising your real estate tax \$1,250,000.

Mayor Blase says he kept taxes low and property values high.

Fact: Mayor Blase never lowered taxes once in 20 years and added taxes such as the utility tax. He also remained silent when Oak & Ballard schools closed and property values fell 5% to 9%.

Elaine Heinen says she will build a \$3.5 million senior building, buy a \$850,000 tennis club and spend about \$350,000 for a new community center.

Fact: There is NO Federal grant in existence for senior buildings, we don't have \$850,000 for "tennis anyone" and we have the Trident Center NOW.

Mayor Blase takes credit for the Free Bus and Consumer Fraud Office.

Fact: Walt Bousse, Park Commissioner started and ran the free bus for 2 years until Mr. Blase refused for political reasons to give the Park District any part of revenue sharing money and took it over.

Tom Flynn began and ran the Niles Consumer Fraud Office for 2 years without any help from Mr. Blase.

Elaine Heinen has promised hot meals to Niles seniors.

Fact: Niles has over 5,000 seniors and at a cost of \$1.00 per meal, five meals a week for 50 weeks the total cost is over \$1,250,000 a year.

We honestly don't know where Elaine Heinen is going to get these millions of dollars but we do know she is making promises she cannot keep in order to get your votes.

## OCC pilot summer session begins

Oakton will start a pilot six-week summer session on May 18. The new schedule will be particularly convenient for students transferring from other colleges for the summer, says Harvey S. Irlen, vice president for curriculum and instruction at Oakton.

"These students will be able to start summer school right after their spring semesters instead of having to wait until Oakton's regular eight-week session starts a few weeks later," says Irlen.

Students will also be able to complete course work in six weeks and still have another six weeks left for work or vacation, Irlen adds.

The pilot session is a prelude to two six-week sessions Oakton plans to begin in the summer of 1982.

This summer Oakton will also have a four-week session—starting May 18—and its regular eight-week session—beginning June 15—in addition to the pilot six-week session.

For further information about the new summer scheduling, call OCC/Des Plaines at 635-1700 or OCC/Skokie at 635-1975.

Stunned into silence

I had just started to write what I hoped would be a rather humorous piece about the three-way race for Mayor of the Village of Niles when the shocking news of the attempt upon President Reagan's life came over the wire.

The news took all the humor out of me and practically put me into shock.

Feeling sick all I can say is it's about time something is done about 'Gun Control' and done quickly.

### HERE ARE A FEW QUESTIONS I DIDN'T HAVE THE OPPORTUNITY TO ASK MAYOR BLASE AND ELAINE HEINEN BECAUSE THEY REFUSED TO DEBATE ME...

- Who are the real owners of Niles condominiums whose names are hidden in secret land trusts?
- Should Mayor Blase & his Trustees attend winter meetings in Miami Beach or Hawaii at taxpayer expense?
- Should Mayor Blase's Park Commissioners convert Grennan Heights field house into a private health club for dues paying members only? (A vote for Nick Blase is a vote to close Grennan Heights.)
- Do you agree with Mayor Blase and Trustee Panek that Niles should not fund a teenage center to fight vandalism, drug and alcohol abuse?
- Do you honestly believe that some bingo games, a few dances and 15 people receiving a hot lunch is a viable Senior Citizen Program?
- Do you really want more condominiums in Niles and especially in light of the tragedy in Florida?
- Did you agree when Mayor Blase legalized pin ball machines especially because restaurants and fast food store now want pin ball machines?
- Do you honestly believe there is no political interference in Niles government and that all those people who have been writing to the Bugle all these years don't exist?

## Maine Township High School District 207

Maine Township High School District 207 is asking for a 40 cent increase in the educational fund tax rate from \$1.63 to \$2.03 per \$100 equalized assessed valuation. The average increase in a homeowner's tax bill would be a \$50 per year according to school officials.

## District officials point out that

the increase will be offset by a reduction in the bond and interest fund, which will be retired by 1987, making the net tax rate increase 5 cents instead of 40 cents.

Officials also noted that the closing of Maine North High School in August will not have any effect on the projected \$10 million deficit or the need for the tax increase. If Maine North is sold the money must be placed in an escrow account to pay off the outstanding bonds on the school; the money would not become part of the District's general education fund.

## Polls will be open from 6 a.m. to 7 p.m. on Tuesday, April 7.

(Continued from Page 2) as though someone had broken into a home.

However, Coburn was quick to add that the outpouring from students, staff and the community had been a "fantastic reaction." "One good thing resulting from this terrible act was the tremendous cooperation between the school and community."

Looking back at the incident Lindeman said, "I really appreciate the efforts and concerns of the students." Referring to the time and money being used to repair the library, Lindeman added, "I am disappointed this money, that should go for educational purposes, has to be diverted for non-educational purposes."

And Principal James Coburn, summing up the feelings of perhaps all the school and district officials, said the work of so many people and the concerns and offers of help by the community "gave me a warm feeling to know how much people care."

Is experience and knowledge concerning Cerebral Palsy necessary? No! You need only to bring your enthusiasm, and the will to work so others may enjoy. Duties of the volunteer staff range from timers, statisticians and judges, to bowling score keepers, and set up crew. But most of all your duty is to have fun and help others to have fun.

The Illinois Regional Cerebral Palsy Games will be exciting and challenging for all. For more information on becoming a volunteer for the C.P. Games call Leslie at Maine-Niles Association of Special Recreation, 966-5522.

but this policy is the only one which is equally fair to all candidates.

Letters have come from village, park and township candidates, as well as from residents and a homeowners' association. They include accusations and endorsements and reasons from several of the candidates why we should vote for them. We even received a letter from a just-decided candidate who contends he is a write-in candidate for Mayor of Niles.

Despite being through so many elections during the past 24 years, we never cease to feel the excitement of election day and night, as well as experience the amazement of seeing the optimism and naivete of the candidates.

As the candidates head into their final week of campaigning, it's clear some of those expecting to win are going to take a political bath. Yet, others who also lose by a large margin will still find something in the results which tells them they did well, even though they lost.

Back in 1961 there was a Niles Mayoral candidate named Ed Ciccone whose campaign workers used to meet at a local water-hole, The Lone Tree Inn. As election day approached, each one of the precinct workers would march into the Inn and declare he had 500 votes in the bag for his candidate. He had complete control of the voters in Oakton Manor and Grennan Heights, ad finitum. In those pre-computer days, it still wasn't difficult to count the number of votes the Ciccone workers said they had pledged for their man. By election day Ciccone's people claimed at least 6,000 votes.

On election night we stopped at Ciccone election headquarters in the 8000 block on Milwaukee Avenue, and the Ciccone people read with disbelief their forces only marked up 500 votes on the large tote board.

The Bugle had backed other candidates who upset the incumbents then in office. When we arrived at Ciccone headquarters, Chuck Giovannelli caught us entering the door, practically picked us up off the floor, and lodged us outside the door. Chuck said the troops inside were so beside themselves they'd like nothing better than to grab a newsperson, and attempt to dislodge and disorient him.

In subsequent years we've seen similar nights of dismay and gloom and anger.

After so many months of work and effort, it's difficult to accept political defeat. But Tuesday night we will again see similar disappointment.

Administration Building should be sold and administration offices moved into a school building.

Stillwaugh reported to the Board that two locations in Maine South would be adaptable for administration offices. He said that the best choice would be a 17,800 square foot area on the first floor of the high school, near South's administration offices.

Stillwaugh estimated that it would cost approximately \$470,000 in 1984 to remodel the school building to house the district offices. He also stated that appraisals on the amount of money the district might receive for sale of the administration center have not been made. He noted that the site is zoned for single family residential use.

Board President Charlotte Storer requested that the feasibility report receive further study by the Buildings and Grounds Committee, chaired by Board Member Thomas Rueckert.

exits and the ones that there are all empty into the lobby with the exception of the one which goes to the Millionaires Club. There are no outside exits from the upper level of that theatre. Why aren't there fire escapes from the upper level for use in case of such an emergency? Then everyone wouldn't have to go down the stairs into the lower level to get out of the building."

"Our grandparents were seated on the main level on chairs because Grandpa is on crutches and could not climb the stairs. He was moved by people when they were rushing to get out of the theatre and he couldn't possibly get out of his chair. The audience was mostly senior citizens and I'm sure most of them would have been trampled to death. I feel this is a terrible situation and am sure not many could survive a fire in this theatre."

Mrs. Walsh completed her letter by noting "the other hazard is the smoking facilities in the lobby. There is only a small area, without carpeting where people may use four or five ashtrays affixed to the wall. I saw people throwing cigarettes on the carpeting which is also a fire hazard.

She concluded, "I hope in the interest of all concerned that something will be done immediately before some tragedy occurs and lives are lost."

Mrs. Burdette Melberg of Rockford wrote that the tickets to Mill Run for the Liberate show had been a gift from her children and she had looked forward to the evening for many months. She and her husband were seated in the last row at the top of the theatre when she noticed "smoke descending" from the center ceiling directly above Liberate. People began to get up and move to the exits on the lower level and those of us on top had no place to go. There is not one exit sign at the top level of that theatre. The steps down from that level are too narrow." Mrs. Melberg also noted in her letter that "Mill Run is a lovely facility that we would like again to visit, but until our concern is satisfied, we will wait to attend."

Mrs. Jean Walsh of Chicago wrote, "As soon as we saw the smoke and smelled something burning, everyone around us started standing and pushing into the aisles. We could hear everyone say that there's a fire in here. All they could think of was getting out and I was too petrified to move. Someone finally came on the mike and tried to calm the people. He said it was just a light over the stage and some gel had melted and it was burning. The smoke was really thick by this time, but it cleared in a few minutes. After everyone settled down, I sat and checked the exits and found they were not very well placed. I wonder how that building stands on fire safety? If there was a major fire, how many people would be trampled in the mad rush to clear the building?"

John Burkhardt of Chicago also wrote, "I noticed that this theatre has no overhead sprinkling heads and lacks proper direction for exits. I was scared for the moment of a stampede. A lot of people could have been badly hurt."

Captain Gordon Michelson of the Fire Prevention Bureau of the Niles Fire Department told the Bugle the Mill Run Theatre which was constructed in 1964 met all the requirements and was approved by the State Fire Marshall at the time. Regular periodic checks are made by the Niles Fire Department to make sure all the exit signs are properly lighted and the hardware on the doors is in good condition so that they open and close easily.

Michelson also stated there is exiting for 2,400 people from the theatre judging the number of exits and it has seating for 1,800. When asked by The Bugle if the Fire Department had ever determined by actual test how long it would take to evacuate 1,800 patrons from the theatre under normal circumstances, Michelson said they had not. He also agreed that if many senior citizens were involved or panic ensued, many could be injured.

### Niles Lions . . .

Cont'd from Niles-E. Maine P. 1

Lions Clubs and guest speaker for the event. "Blind and deaf-blind people all over the world are gaining the courage and the knowledge for productive, independent existence."

Mr. Murakami praised Hadley School, which offers free correspondence courses to 4,000 blind and deaf-blind persons in 55 countries, and noted the long-standing relationship between the school and the Lions Clubs. Lions in Hadley's home state of Illinois have provided financial support to the school for decades. Lions Clubs all over the world now also support the school.

"Our partnership is more than one of support," Murakami said, "it is one of purpose. That purpose is to serve others. Blindness and deafness know no boundaries. There is beauty in every person. Together let us work to free that beauty in everyone."

The 33,000 members of the Illinois Lions Clubs are part of the International Association, which is the world's largest service organization. In Illinois, major Lion support for Hadley comes from the Lions through the Lions of Illinois Foundation, the clubs' charitable arm.

The structure does not have a sprinkler system or outside fire escapes, but, according to Michelson, "they are within the code." He also told the Bugle the code has been updated considerably since Mill Run was built and they would not be able to put up a similar structure today in the Village of Niles without having a sprinkler system and outside fire escapes. He also stated all carpeting and curtain material used in the theatre is of a flame retardant fabric.

A few years ago, Mill Run sought to put an addition on the building which would have increased their seating capacity by 800 seats. But their request was denied by the Golf Mill Merchants Association, due to the lack of parking facilities. According to Capt. Michelson, if they had received the approval of the Merchants' Association, they would have had to bring their complete structure up to the present village code. A new sprinkler system and 4 fire escapes would have been required by the Fire Department.

When asked by the Bugle about the attitude of Mill Run management, fire department personnel said they were "not very cooperative."

Jerry Kauffman of the Mill Run theatre told The Bugle that he was unaware of the March 19 incident and it had not been reported to him by the theatre personnel.

When asked about the placement of outside fire escapes on the building as a safety precaution, Kauffman said he was only a tenant of the theatre and any structural changes or suggestions from the fire department would have to be handled by the Golf Mill Corporation. He also added he did not anticipate there would be any problem stating, "they are very cooperative in matters of that sort." Kauffman said he has four years left on his lease with Golf Mill for the theatre.

Chief Al Hoelbi of the Niles Fire Department noted that double doors had been installed by Mill Run in the lobby exit area after much prodding by the Fire Department. Hoelbi said he felt the installation of these doors permitted quicker and safer exiting from the theatre.

Hoelbi also said that because of the March 19 incident at Mill Run and the several inquiries by patrons who attended that performance, it was possible time to "make a complete study and survey of the theatre."

We are assured that the Niles Fire Department is constantly monitoring the Mill Run Playhouse for safety infractions and they are trying to keep it safe for all patrons, but we also feel that if the building could not be constructed today in Niles without a sprinkler system and outside fire escapes it should not be allowed to continue to operate without them.

Evidently our updated fire code was initiated because it was agreed that these safety features were necessary for the preservation of lives should a disaster occur.

We feel these safety features, especially fire escapes should be installed so that persons exiting at the upper level of the theatre can go directly outdoors without having to go back downstairs into the lobby of the theatre.

It certainly makes more sense to take precautionary measures before a disaster occurs than reactionary ones after lives are lost.
