Niles lays groundwork for Cable TV franchise

by Bob Besser
Niles officials approved the ground rules during Tuesday night's village board meeting which will result in the awarding of the Niles franchise to a cable television company. Passed unanimously by the Village Board was the Niles

Cable Communication Ordinance which, according to Trustee Carol Panek, outlines "the general provisions for cable television to operate in Niles." Panek has headed the village cable television committee for almost two years. She told the board her committee has worked on writing this ordinance for four months. Included in the ordinance are regulations the cable company will have to abide by, the ability of the village to regulate the rates and fees charged to residents by the cable company as well as the

Lab analysis indicates presence of asbestos in schools

Asbestos found in District 63

by Eileen Hirschfeld

Life and Safety funding from the state will be sought for improvements to 11 schools in East Maine District 63 including Washington and Melzer schools, which were found to contain asbestos in the ceilings. James Bowen, business manager of District 63, revealed the findings at a regular meeting May 26.

An earlier visual inspection of the schools determined no asbestos was present in the structures. Samples of materials submitted to a laboratory indicated the presence of asbestos.

Board members are seeking a clarification on the state's position of including all district schools in the safety survey although five buildings will include only tenants by September, 1981. Other items to be included in the safety survey report include emergency lighting at Melzer and new roofing for 10 schools.

A public hearing will be held 7:30 p.m. June 30 on a tentative budget and appropriation ordinance in Apollo school, 10100

You get an almost on-the-field-box-seat to the passing scene when you engage in newspapering in small communities. While the action on the field is often exciting, it's the people who make the action that give the game its excitement and exhilaration.

Among the people who passed our way this week were Jerry Sullivan, Father Flanagan and Wilbur Danielson.

Jerry Sullivan dropped into the office last week to report he'll be heading for the state of Washington. Jerry will be working in the nuclear field up in the northwest beginning in June.

We go back with Jerry many years. He ran unsuccessfully for village trustee on Ed Ciccone's ticket back in 1961, the year Nick Blase's group was first successful. By the mid-sixties Jerry was a park commissioner in Niles and was in the middle of a controversy concerning the "gold-gilded" swimming pool on Milwaukee Avenue. The controversy ensued over the cost of the pool, which in those halcyon days was perhaps one-third of what it would cost today. But we believe it was Jerry who was leading the charge against the excessive cost of the pool, which ruled the headlines for many

Park Ridge youth is Niles first traffic fatality

Niles' first traffic fatality in 1981 occurred Monday afternoon, May 25 when a 20 year old Park Ridge youth was killed after being thrown from his out-of-control jeep.

According to Niles Police, John R. Urquhart, 708 S. Prospect rd., was traveling north on Caldwell ave. when he apparently lost control of the opened top AMC Jeep he was driving just north of Woodrider dr.

Urquhart's jeep apparently shot across the oncoming southbound lanes hitting the west curb on Caldwell ave. Jumping up on to the parkway the jeep again was flung across traffic, crossing over into the northbound lanes and flipping over.

Urquhart was thrown from the jeep and the vehicle continued north on Caldwell ave. finally stopping after turning upright.

Carl Fox Behind the scenes in the news world

When Bud Besser called and asked me to write a Guest Column, I was flattered. After that feeling wore off in a few seconds, the next thought that entered my mind was what could I possibly write about that would interest anyone? After all, after spending 18 years as a firefighter, what else do I know? And furthermore, anything I could say about my job, guys like Dennis Smith of "Report From Eng. Co. 82" fame already have said it and made a million doing it.

While mulling over this dilemma, I happened to glance at the 10 o'clock news on one of the channels, just in time to hear one of our high-priced TV reporters make another one of the errors that have become commonplace in their reports. Now, I'm not talking about errors in reporting the facts. I'm talking about the little things, like referring to streets as avenues, mispronouncing sections of the city, and all of the little things they should have learned as good, hardworking street reporters.

I've also noticed there seems to be a lot of technical errors being made, such as the wrong subtitle under the wrong picture, cutting away portions of the news for commercials, and other gaffs. I understand a lot of this is probably due to the increasing use of computers. But I remember one time, being especially interested in an editorial rebuttal on one of the channels by a Chicago Fire Department Paramedic during a recent controversy, where the paramedic was cut off at the most important part of his statement for a commercial on party hose or some other momentous announcement.

Guest Columnist

Now I don't want to infer these errors are rampant. But they are becoming more obvious. I base these observations on my own experiences over 25 years ago as a police reporter and rewrite man for one of the most famous news gathering organizations in the world. The Chicago City News Bureau, a little-known or heralded organization which is still operating.

If you wanted to be a newspaper reporter, City News was the place to go - if you could get in. The applicants were many and the openings few. Most of the large city dailies, and there were four at the time, hired their reporters from this group and some of the biggest names in journalism 'graduated' from City News.

The bosses were among the meanest, most demanding and intolerant men in the business. But they were also the best. Mistakes were made only once and no more. And woe to the fledgling reporter who referred to a police district, as they are known in Chicago, as a precinct. You learned real fast that precincts were political subdivisions usually headed by a local "Boss." And "Don't use 50¢ words when nickel words will do it!" was hammered home constantly.

Discipline was the byword. I spent three years covering police beats, Federal, City Hall, and County beats with men who would make Ben Hecht smile. One night, while working the midnight shift at Police HQ, I was told to call the Chief of Detectives at his home at 3 a.m. to check on any new developments in an ongoing political shooting investigation. I knew there was going to be hell to pay calling this guy. Even when he was in a good mood, he made a Doberman look like a charmer. But call him I did because I knew my night city editor had an uncanny way of finding out if you didn't.

Most everyone started out as a copy boy. I worked for one of the Chicago dailies for three years as a copy boy, before my stint with

Ferry service planned in event of RTA shutdown

Village prepares for free bus shuttle to CTA

By Bob Besser

Niles officials are preparing to use their free bus system to ferry Niles residents into Chicago in the event of a June 1 Regional Transit Authority shutdown.

Tentative plans call for using buses from Niles' Courtesy Bus system to run every fifteen minutes down Milwaukee Ave. from Golf Rd. to the Chicago Transit Authority bus stop on Milwaukee Ave. at Devon. Niles Village Manager Ken Scheel said the emergency system would probably run for two hours during the morning rush hour and two hours during the evening rush hour.

Scheel said there is about a "50-50" chance the Illinois Legislature will not approve the necessary funds to keep the RTA system running. Chicago officials have reportedly prepared contingency plans to keep the CTA running even if funds from Springfield are denied. The CTA receives funding through the RTA budget.

Scheel said he hoped the emergency bus plans would be ready for presentation to the Niles Village Board during the scheduled meeting Tuesday, May 26. Scheel said he expects the Village Board will approve the temporary system. "It will be an emergency," said Scheel, "and the Village Board is always good in an emergency."

Scheel said Niles officials would find the funds to finance the temporary bus program, however, he was unable to estimate how long the emergency bus system could be maintained by the village.

Scheel said the RTA stops running it is expected residents from nearby communities would come into Niles to take advantage of the free Niles hookup with the CTA.

Scheel said the village has not ruled out the possibility of charging Chicago-bound riders in the event of a prolonged RTA shutdown.

WHAT IS M.S.?

Multiple Sclerosis is a disease of the central nervous system, most often diagnosed in persons between the ages of fifteen and fifty. It has been compared to an electrical short circuit; the fatty coverings of the nerves become scarred, and messages to some portions of the body become scrambled so that motor control is impaired from time to time. No two people are affected the same, nor is the duration of symptoms the same. Double vision, unsteady gait, loss of balance, partial paralysis, hand tremors, slurring of speech are all signs of possible M.S., but these can also be symptoms of other nerve-related diseases. Anyone who experiences these symptoms should consult a physician as soon as possible.

The M.S. patient can remain independently active and productive by eating nutritiously, getting adequate rest, maintaining programmed exercise, and promptly treating infections; especially respiratory and urinary tract ailments. The Nesset Health Center, an affiliate of Lutheran General Hospital, tries to meet the needs of people and families with M.S. Every fourth Wednesday of the month people with M.S. and their families meet there. The group provides educational and emotional support for those who are going through similar experiences in adjusting to the disease. For more information about the M.S. support group, contact Maxine Roth at 696-5060.

How to select the right nursing home

We Americans are not just living longer, we're living more useful, productive lives.

But an increasing number of the chronically ill, the old, the convalescent, need some place other than the hospital and their home where they can receive personal health care, round-the-clock attention and the opportunity to continue to live their lives with meaning.

As your community nursing home, we want to help you make the right decision. Here are some guidelines, see your family physician to determine the kind of care needed; feel free to visit our facility; ask us for our costs in writing and examine all of our facilities; check our food quality; verify our safety features; and finally, observe how our residents spend their time.

There's a lot more to selecting the right nursing home. We want to help. If you have any questions. Please call or visit us.

Summer inquiry class to begin at Brebeuf

Becoming Catholic is a 15 session adult inquiry class which will begin June 4 at 8 at St. John Brebeuf Parish in Niles. This course is open to those who are "looking into" the Church, to lifelong Catholics who would like to be updated on what has happened in the Church since Vatican II, and to those who may have become inactive or opted out of a church affiliation and now want to take a more adult look at Catholicism. Sessions will deal with essential doctrines, Church teachings, Scripture, and the insights of current theologians. The focus, however, will not be on mere intellectual acceptance of a set of dogmas or compliance with certain practices. Rather Catholicism will be presented as a way of life which can be demanding but also richly fulfilling.

Sister Dorothy Schwendinger, adult education director and pastoral counselor at St. John Brebeuf Church will direct this series with the assistance of other staff and parish personnel. Sr. Dorothy explains, "Parishes today are recognizing more and more that the whole community must be involved in forming new members and sustaining the faith of those already initiated. In our parish preparation for entrance into the Church takes place in stages over a year but it normally begins for interested converts with our summer inquiry class. Among the topics to be considered in this series are, "Can I believe in a God Today?", "Who Is Jesus?", "Is the Bible Really Good News?", "What Ever Happened to Sin?", "What the Church Teaches About Marriage, Intimacy and Sex", and "How Should I Pray?"

Anyone interested in registering for this class is asked to call Sr. Dorothy at 966-8145 or 966-2528. Registration will also be taken at the door on June 4 in Room one. A ten dollar fee covers the cost of all needed materials for the course.

Private patrol service offers secure feeling

For suburban Councilman Richard Jankman (not his real name), the crime problem hit home with a vengeance.

Burglars broke into his modest tri-level home north of Chicago, and took away silverware, a stamp collection, two television sets, his wife's jewelry, his son's piggy bank - and his sense of security.

What Jankman and his neighbors did to bolster their neighborhood security is what suburbanites everywhere are doing in increasing numbers. They're renting their own protection, their own private guards, their own security. "A Supplementary Police Force," Jankman calls it.

Prompted by ever-increasing crime and reduced police protection because of the department's work-load, and the suburbs' fiscal austerity, in neighborhoods from Orland Park to Waukegan, from Evanston to Rockford, Chicagoland's private security firms have come to constitute a second army in the battle against crime.

The phenomenon is part of a larger story - the privatization of once-public services. The recourse to private schools has long been going on, so the swing to private police, ambulance service, messenger and even mail delivery should not be surprising.

Police neither encourage or discourage private security firms. One suburban chief privately called them "An elitist form of protection because poor neighborhoods cannot afford them." He was quick to note, however, that a family or neighborhood that has been victimized may not care about appearances but only about regaining their sense of home security. The chief was quick to acknowledge that private security police improve community morale, are effective when properly equipped and, most of all, they're another uniform presence on the street. The evidence is that where they have operated crime has been reduced drastically.

A problem for communities using private security police is the so-called "Double Payment." I pay taxes for public services, why should I have to pay again for private security?"

The answer may be in the form of legislation allowing tax credits

for neighborhoods that provide for contract security service - an idea already being considered by the New York State Legislature.

Tom Ferraro, CEO of the Protection Group, LTD., a Niles-based private security firm said his company is providing neighborhood, block, and even single residence patrol service in the north and northwest suburban area with great success.

"Some of these neighborhoods and condominium sections have their residents pay as little as \$20 a week each for nighttime patrol, which includes guards, getting out of the marked patrol car and physically checking a residence where the family is obviously not at home, or where we have been notified that they are on vacation, etc."

Ferraro, whose company provides security for the Niles Park District, several schools in the area, and has a regular business patrol, says his residential patrol is up 50% over 1980. He claims great success, stating not one of our covered residential

patrol areas has suffered a burglary or vandalism problem.

Ferraro may be onto something - the FBI's recently released crime index figures shows an alarming, even frightening, increase in crimes against people and property in this area.

S.P.I.N. cites 'Left Hand' as "King of One-Siders"

Dear Mr. Besser:

In response to your biased, convoluted and "left-handed" article, published on May 21, 1981, I say it would be nice if you knew what the right hand was doing. The phenomena that you speak of, "one-issuers", is nothing new. When you have a gripe it usually is one issue. When you solve that problem then you bring up another issue.

Our major concern is for the destiny of the Ballard Sports Complex. Our group feels that the Complex can run on a profitable basis and we will be a thorn in the Park District's side until the Complex turns into a profitable facility. The Ballard Sports Complex is the second highest revenue getter in the Niles Park District, and it should be run efficiently. Where do you get your false information? We know you've been present at Park Board meetings. This is the first I've heard that S.P.I.N. owes the Park District money. S.P.I.N. has been paying in full for all of its activities within the Complex from the time of its conception. I would appreciate a retraction of several of your statements in the

article until you are capable of obtaining the facts, then, in all fairness to the people of Niles, reprint the correct information.

It is true that the Ballard Sports Complex has lost money in the past, but it was due to mismanagement for many years. We have helped to improve management.

S.P.I.N. has already proven to the Park Board that year-round ice would be far more profitable in 12 months than it would in six or seven months. We like to keep our home in Niles; we are proud of our successful skaters; we are taxpayers to the Niles Park District; we want to support our facility.

In the meantime we are forced to support other parks such as Glenview, Skokie, Franklin Park or even Northbrook. Our skaters have made a name for themselves and they represent Niles. We do want a year-round home for our kids to practice and preserve the good Niles reputation. We also care about the Niles community - young and old - a lot of them skaters - check the revenue at the Complex.

Mr. Besser, you have not even

acknowledged my past letters of December and March. It is in poor taste to publish such a one-sided story with such inaccuracy. Isn't it ironic that you have never tried to get our side of the story? Yet, you can publish in your paper this new phenomena called "one-issuers".

Mr. Besser, you are the king of "one-siders". As in many of your Left-handed editorials you failed to get the other side of the story!

Jerry Newman
S.P.I.N. President

Editor's Note:
You Spinners are masters of obfuscation. Before last week's board meeting, S.P.I.N. and the park board came to a settlement on \$442 which S.P.I.N. owed the park district. There was also an outstanding debt of \$300 for food which park people said your group consumed at a concession stand you had run. Through some labyrinthine financial actions, The Bugle was told there was an assumed settlement of half this figure which the park district never received.

Thanks for publicity

Dear Editor:

As my 4 years as Publicity Chairman for the S.I.J.'s Women's Club ends on June 2 with a new chairman taking over, I would like to thank The Bugle for the wonderful publicity and pictures. This was a big, big help in making our events and activities so successful in the past and I know the new chairman will get the same help and courtesy that I did from every one at The

Bugle. I would like to say I enjoyed every minute of the four years and I met and made many wonderful friends. I hope that in my small way I was able to make the publicity job successful. Thank you.

Sincerely,
Florence Lencioni

Leaning Tower Y Day Camp

"Leaning Tower YMCA Day Camp is a fun place to be this summer," says Laura Humbert, Day Camp Director. "We have many exciting activities planned for our campers this year." "Some of the favorite activities will take place again this summer," says Laura. "For example, our field trips to Phil's Beach, Santa's Village, Wendella Boat Ride & Axle Roller Rink are ready and waiting for us to arrive."

"The camp itself is based at beautiful, wooded Bunker Hill Forest Preserve, just south of Touhy on Caldwell ave.," says Laura. "By 9 a.m. weekday mornings, Site 5 is jumping with campers anxious for their day at camp." Daily activities include: "swimming in the YMCA heated pool, parachute games, softball, relay races, hikes, arts and crafts, treasure hunts and much more because campers are

involved in the planning." "And once a week we have a cook-out day which is one of the most creative days," says Laura. "The campers help in the preparation & cooking of their meals such as hot-dogs, hamburgers, tacos, spaghetti, fresh fruit salad, corn on the cob and desserts like popcorn, s'mores and even homemade ice cream!"

"So, Parents, if you're looking for a fun place for your children to spend time this summer, consider Leaning Tower YMCA Day Camp," Laura says. It's also low cost, a safe environment and an educational experience.

Leaning Tower Day Camp offers four, two-week periods beginning June 22 thru Aug. 14 for children completing Kindergarten through 11 years old.

Drop by the "Y" at 6300 W. Touhy, Niles or call 647-8222 for further information and ask for Laura Humbert.

Entertainment Guide

MONNACEP tours coming up

MONNACEP's Chicagoland Tours will cover two different parts of Illinois in June. A tour to Galena and Dubuque will be offered along with a nostalgic return to Chicago's Jewish neighborhoods remembered.

The trips are part of MONNACEP's continuing Chicagoland Tours series. MONNACEP is the adult education element of Oakton Community College, in cooperation with Maine, Niles, and Glenbrook high schools.

The tour to Galena will be via

luxury coach, across northern Illinois to the historic river-front town on Saturday, June 13. Stops will be made at the oldest stone house in Illinois, the home of Galena's first lawyer, and the home of President U.S. Grant.

There will also be a tour of the Galena Historical Society and a pause for antique browsing on Main Street.

From there, travelers will cross the Mississippi River to Dubuque and take a 1 1/2 hour cruise aboard an air-conditioned paddle-wheeler. On the way home there will be a stop for an exceptional buffet at Bishop's in Rockford.

The fee for the trip is \$36 (food not included), \$35 for residents of the Oakton district who are 60 or over.

Travelers will board the bus at 7:30 a.m., in the west parking lot of Niles West High School, Oakton Street at the Edens Expressway, Skokie, or at 7:45 a.m., in the east parking lot of Maine West High School, 1755 South Wolf Road, Des Plaines. The bus will return by 9:30 p.m.

MONNACEP Chicagoland Tours will also make a sentimental journey on Sunday, June 14, for Jewish culture enthusiasts to Maxwell Street, Lawndale, Humboldt Park, Logan Square, and Albany Park. There will be stops at such places as a former synagogue converted to a Greek Orthodox Church 50 years ago, Hull House, and the Ark.

The cost of the trip is \$12 (\$9 for Oakton district residents who are 60 or over) and will be from 1 to 5 p.m.

The bus will leave from the north parking lot of Niles North High School, 9800 Lawler Ave., Skokie. For further information about these and other Chicagoland Tours, call 967-5821.
