Severe flooding reported in 3" plus-rainstorm

Bugleland deluged by storm

Up to 100 Niles residents reported their homes were flooded and numerous Niles streets had to be closed due to flooding following Sunday morning's mammoth rainstorm. The storm, which began before 7 a.m. and ended near 10 a.m., dropped over three inches of rain

on north suburban communities including Niles. While no exact amount of rain in Niles was reported, nearby Morton Grove received 2.64 inches of rain, Wilmette reported receiving 3.89 inches and Evanston measured 3.42 inches before the rain stopped.

Niles' Director of Public Works, Keith Peck, said Niles' sewer system was unable to handle so large an amount of water in such a short period, resulting in the flooding. Peck said up to four feet of water in the 8700 blocks of Oriole

If NORTRAN shuts down:

Niles buses will link to CTA

Niles trustee Ang Marcheschi reported at Tuesday night's village board meeting 3 additional buses will join the Niles free bus service in providing Nilesites transportation to the CTA line in Chicago in the event NORTRAN's bus service is forced to shut-down due to lack of funds. Marcheschi said Niles buses will go up and down Milwaukee Avenue for 2 hours in the morning and during the early evening hours at 15 minute intervals, connecting to the CTA, providing transportation into the

City of Chicago. He emphasized there would be no charge for the service and the park district might be called upon to use their buses if such an emergency develops. Trustee Bart Murphy, who has been sitting on an executive committee for NORTRAN, suggested NORTRAN should pull-out of the RTA and "go it alone". NORTRAN funds have decreased by 50%, from \$400,000 to \$210,000, necessitating \$161,000 in loans from member villages

Mid-Month Meanderings...

Former Niles park commissioner Steve Chameriski told us Tuesday \$650,000 or 50% of the purchase price for Little Tam golf course will revert back to the park district in 1984. The net cost of the golf course will be \$650,000. It was Steve's observation, the 1974 contract, which was first conceived back in the 60's, was one of the great purchases of all times. He estimated the TAM real estate may be worth as much as \$9 million dollars.

If you want to define what the term "clout city" means, drive down Golf Road to the intersections leading into the Village of Golf and one block east to the Glenview Country Club. Both intersections have stop lights, only one block apart. The traffic leading in and out of these two areas is negligible, yet, someone who knew someone must have maneuvered state officials into providing stop lights there.

Golf Road is a state highway. It is a long, enduring effort to get state officials to approve such lights. In Niles, we've seen efforts take several years to provide speed limit adjustments. And to have left turn signals takes many months of time and effort. Yet, the few hundred folks in Golf have a stop light for their town because the big boys in town know

Niles church sponsors benefit for asthmatic student

by Eileen Hirschfeld
A Niles church, St. John Lutheran, will sponsor the second in a series of two benefits for a 13-year-old student suffering from asthma. The benefit, a walk-a-thon and bike-a-thon, will take place at 1 p.m. Saturday, July 25 at the church, 7429 Milwaukee ave., with a rain date planned the following day.

Lisa Koller, a student at St. John Lutheran school, will be the recipient of the benefit. She is entering eighth grade and appears to be a normal teenager; bright, smiling, attractive and a little on the gangly side. She is going through what most parents indulgently call "that awkward age." But Lisa is different.

The asthma she suffers from has been termed by one doctor as "rare". It is a surprise Lisa is in a grade appropriate to her age considering much of the school year is spent in hospitals recovering from severe asthma attacks.

Lisa is also taking heavy doses of cortisone and adrenalin. Diane Pearson, Lisa's mother, said the youngster's body quickly uses the medication and leaves Lisa suffering from the medicines' after-effects. Pearson said, "Lisa spends many sleepless nights because of vomiting and nausea. I don't know what's worse - the medicine or the asthma."

Lisa's asthma, said her mother, seemed to be getting worse lately. Attention has been diverted from Pearson's job as well as Lisa's sister Kim, 11, and brother Donald, 14, also students at St. John Lutheran school. There was a camp Diane Pearson knew of in West Virginia which

the world it's nice to know there are people who care."
The camp Lisa is attending employs doctors, nurses and other specialists. Counselors are equipped with walkie-talkies, and a helicopter is available for a youngster's immediate placement in a hospital if necessary.

Lisa's doctor also provided the camp with a prescription change to enable its personnel to help remove some of Lisa's dependency on cortisone.

Diane Pearson said, "I feel freer. I feel more relaxed and I think my kids are too because they know what Lisa is going through. They are happy Lisa is enjoying herself."

At the most, this camp may help Lisa better cope with the asthma attacks. At the very least, this teenager will have a more normal summer. Lisa wrote to say she is having a good time. And that is what a teenager's summer should be all about.

First, the camp, Bronco Junction Camp for Asthmatic Children, was kind enough to take Lisa on the promise the money would be paid by the end of the session. But who would pay?

A friend of Lisa's mother, who is a musician, agreed to take part in a Christian rock concert sponsored by St. John Lutheran Church July 12. A free will offering following the concert resulted in \$300 collected for Lisa.

Diane Pearson cried after hearing about the church's plans. She said, "I think it was wonderful and I never expected it. With everything else that's going on in

the world it's nice to know there are people who care."

Niles All American Seniors Club

At a recent Niles All American meeting members were entertained by the "Small Fry Banjo Band", a band consisting of five young people ranging in age from 9 through 15. Mrs. Finnigan indicated that she directed the children in the group for several years for fun and as a learning experience. As a result, they displayed such wonderful talent that they eventually entertained in public. We were amazed and pleased to see these young people devoting their time and talent in being so creatively engaged in harmonious renditions of song and dance. We were delighted to hear such fetching numbers as Down by the Riverside, Man on the Flying Trapeze, Yes Sir, She's My Baby, Meet Me in St. Louis, Take Me Out to the Ball Game and many more melodious numbers.

We were an attentive and charmed audience and it was marvelous to note that these gifted young people were equally delighted and happy with their appreciative and receptive audience.

We can all attest that the Small Fry Banjo Band group and their Director, Pat Finnigan, are a credit to the musical field, and we appreciate their giving us the opportunity to hear them play.

The following Officers were elected and installed to serve during the 1981/1982 Club Year - Magda Erickson, President; Agnes Burkhardt, Vice President; Myrtle Stukay, Secretary; Ruth Matts, Treasurer; Irma Conrad, Corresponding Secretary; and Directors - Betty Clawson, James Davidson and John Wilkin. Officers, Directors and Club Members have all pledged to make the coming year successful, both socially and financially.

Congratulations and best wishes to Alfred and Evelyn Moberg on the occasion of their 50th Wedding Anniversary and to Lottie and Walter Krawczynski in celebration of their 54th Anniversary. May they have many, many more healthy, happy and wonderful years together.

Niles should have its own school district

Doesn't Niles deserve its own school district? I think this fact should be coming more obvious to the village residents with each school closing - first Ballard, then Oak, and now Jefferson, with Emerson possibly to follow. Must we be forever tied to the horse and buggy district set up by Abraham Lincoln? I think it is time for our schools and school districts to join the space-age!

Niles students attend three grade school districts and two different high school districts. Wouldn't it be nice if our children could go from kindergarten to high school with their friends? At present, some of our children attend grade school with one set of students, then go to a junior high with a second group, and finally attend a high school with a third. How many of you are still seeing people with whom you went to school with from first grade through high school? I still do. It is small wonder that our young people don't settle in this area since there is no sense of community loyalty or lasting friendships being built up. I would find it exciting to go to a concert of Niles students, see a play with actors from Niles and watch a sports event where the team is made up of Niles students.

My family and I have lived in Niles for 15 years and in that time we have found the Village of Niles progressive and even innovative. Since we moved here, the Niles Family Service agency came into being, a free bus program was initiated, a bicycle patrol was organized and the Village participated in the formation of a junior college district. Combine all this with a fine public works department, outstanding police and fire departments, great park programs, an expanding library - and you have Niles. All of these

Guest Columnist
An expression...an opinion...

things were accomplished as a result of the leadership of our mayor, village council and manager. With the guidance of such people, I believe that we could develop a great kindergarten through 12th grade school district.

Since we would be forging new trails for this area, the way wouldn't be easy and would take the time and co-operation of many people. Workers would be needed who would serve on committees, write letters, make phone calls, talk to their neighbors and friends, attend meetings and baby-sit for parents so that they could participate. Other people would be needed to help raise money to undertake all this. The co-operation of present school districts would have to be enlisted so that we could utilize the school buildings presently within the Village limits. Since a high school building would have to be obtained, what better use could there be for the now-closed Maine North?

The theme of this year's Fourth of July parade is "Freedom". I hope that in the near future there could be another parade celebrating the creation of a new Niles school district - a showcase for others, and a demonstration of what can be done through community spirit and co-operation!

I have been reading in the newspapers and heard at a recent Village board meeting that the Village wishes to encourage young families to locate in Niles. Helping with financing housing is certainly one way to do this. However, it seems to me that being able to assure them of a stable, locally-controlled school district would surely be another way.

Also, Niles requires developers to post a bond to cover all major repair bills for up to one year. This, too, would be eliminated by the state law. More Niles ordinances which would be eliminated would include Niles' prohibition on a condominium developer managing the condominiums for more than one year after the building has been covered. This law was enacted in Niles to prevent developers from adding on countless charges to condominium owners as the management firm. Niles Mayor Nicholas Blase called the bill "one of the dumbest I've ever seen." Blase said the bill may be unconstitutional since it excludes Chicago and unincorporated Cook County from state condominium laws.

Additionally, Blase said if the bill is allowed to become law, Niles will join with other municipalities to try and block the law in court.

Blase said he expects to know "within two weeks" whether Governor James Thompson will veto the bill, allow it to pass into law unsigned or sign the bill.

Blase said regardless of the Governor's actions, Niles will continue to enforce its strict condominium laws.

Rep. Aaron Jaffe (D-Skokie), calling the bill "a terrible thing", said he could not predict whether Governor Thompson would veto. Continued on Page 35

The Bugle's all wet!

Walking north on Shermer towards the Dempster st. intersection, two unidentified waders are shown heading towards The Bugle truck which is parked in the parking lot. The water which came about 18" under the front door of the newspaper office caused several hundred flooded basements in the Niles, Morton Grove and Skokie areas. A record rainfall was recorded in the North Shore suburbs in just a few hours early Sunday morning. (Photo by Jorie Gracen)

Fond farewell to the Halls

Nicholas B. Blase (c) bid a fond farewell to Corrine (l) and George Hall (r), long time residents of the Village of Niles. George has long been an advocate of the Senior Citizens and their problems. He was the president of the Golden Agers at St. John Brebeuf Church and was a candidate on the Maine Township Ticket for: Township Government.

George and his wife Corrine will long be remembered for their intense interest in the Village and the senior citizens, and most of all, George will be remembered as a member of the Maine Township Regular Democratic Organization.

We wish them the best of luck on their new destination in Florida—it will be our loss and Florida's gain.

"LITTLE KNOWN" FACTS ON SMOKING

The Federal Trade Commission, the agency that requires the warnings and cautions to be printed on the side panel of cigarette packs, have now come up with data showing that 31 percent of smokers are unaware that smoking greatly increases the risk of cancer. Considering that cigarettes are the number one most heavily advertised product in this country, with the top six companies spending \$1 billion a year in promotion, it is clear that the FTC is not getting the facts across. Other findings show that a third of smokers believe that people who only smoke low tar cigarettes are not greatly increasing their health risks, and about half of all teenagers believe that cigarette smoking is non-addictive. The following are taken from the recent Federal Trade Commission report on cigarette advertising:

- A two pack or more a day smoker decreases his life expectancy more than eight years; one pack or more a day, six years.
- Seventy to eighty percent of all emphysema and chronic bronchitis deaths each year are attributable to smoking.
- Overall, a smoker is seventy percent more likely to die at a given age than is a comparable non-smoker.
- There is a synergistic relationship between smoking and use of alcohol that greatly increases the risk of cancer of larynx, oral cavity, and esophagus for those who smoke and drink heavily.

A free self-test called "Why do you Smoke?" can be obtained by calling the Morton Grove Health Department at 965-4100.

SJB teens work with the poor of Appalachia

by Sandie Lindquist
In June of 1978, St. John Brebeuf added a welcomed addition to its staff. It was at this time that Vince Barlow undertook the position of youth ministry, with many bright ideas to broaden the minds and experiences of high school teenagers of the parish. His goal had been reached many times in the course of his ministry, but I feel it was accomplished the most during the week of June 14 of this year.

In 1977, Vince knew a priest who was an acquaintance of Sr. Therese Dush and Fr. Tom Smith who had begun a mission center in Pennsylvania called Young People Who Care (YPWC). This center had been founded in 1975 with the purpose of gathering youths from around the country to work with and experience the life of the poor in Appalachia. This idea appealed to Vince, so he brought a group down from Gannon College in Erie, Pennsylvania to take up this challenge.

When Vince arrived at St. John's, he decided this was an experience the teens of St. John Brebeuf parish should encounter. In 1979 he took a group with YPWC to Kentucky with a similar program, and later on that year he brought another group to the YPWC Center in Frenchville, Pennsylvania. The teens responded in a positive way so Vince continued to offer this trip in the summer of 1980, and again in June of this year. I have been fortunate enough to be a part of

Shown above are some of the 14 enthusiastic St. John Brebeuf teens loading their belongings into the van as they prepared to leave for the YPWC mission center in Pennsylvania.

Shown above in front of the YPWC Mission Center sign are the St. John Brebeuf teens and a group of teens from Minnesota who were also visiting the center at the same time. The two groups coordinated their efforts during the week and intermingled into work groups.

these last two trips.

On June 14 at 6:15 a.m., Vince's van pulled out of St. John's parking lot with a group of 14 crowded, but enthusiastic teens, anxiously awaiting the days to come. By the time we arrived in Frenchville 12 hours later, the group's enthusiasm had dwindled somewhat, but that was soon to be changed. As we stepped out of the van, we were greeted by 12 staff members and a group of 22 teens from Minnesota. In less than an hour, it seemed like we were all good friends who "came from different parts of the country and ended up to be like family," as 18 year old Laura Lee

stated. This was especially true as the week progressed. The "Minnesota people" and the "Chicago people" as we were named mixed very well, and the unity these two groups established with each other as well as with the staff was great.

The night we arrived, we were divided into six different groups which we kept throughout the week. Each group chose a name and although it was a simple task, it helped to develop the team work which was very much needed later on.

Our days were tightly filled from the time we got up at 6:30 a.m. for breakfast until the time we went to bed at 11:30 p.m. Before we left the center to venture into the towns to work, we had a morning prayer service and study session to help us get through the day. Ruth Ann Madera, who assigned the duties to the various groups, tried to see that everyone worked on a different job every day.

One of the most popular services was a reading program established in two different areas. I worked at a housing project with a group of about 30 children. Education seemed to be of little importance to these youngsters, seeing they were more interested in love and affection than they were in learning. Patrick McAndrew 15 years old, said he "enjoyed sharing time, knowledge and love with children from low income housing projects. Spending time with them made their day (and his) more sunny." Janet Lee, 16, confirmed this thought by saying she felt she "guided them by showing them there was hope for a better life."

The second reading program was set up in the Marian Houses which are two houses owned by the center. Aside from the reading program, Sr. Therese plans in the future to make the houses a place for the underprivileged to live. Several of the teens worked there in the course of the week, helping to build and paint. 17 year old Tom Lesiowski felt that by building he "helped save the people who would be future residents of the Marian Houses."

The opportunities I enjoyed most were being able to do things I have never done before. One day I helped to clear a torn down building on an elderly couple's property and the following day, I hauled rocks to help construct a new building. I don't know if I would ever have these challenges at home. It made me feel good to know what little work I did affected people who really appreciated it.

Vince stated he wanted the teens of St. John's to experience different types of people, and that's exactly what happened. 14 year old Dan Marcotte was painting at a blind couple's home and said that he was "really amazed how much they were able to do considering they were blind." Laura Lee added that when she was working for a disabled man, she realized that "he wanted someone to listen to his interesting stories as much as he wanted people to repair his house."

One afternoon, several of us took the residents of a nursing home on a picnic. Jay Hill, 19, found it very rewarding to fish with some of the elderly men. He said he learned to relate to elderly people better. It was obvious the nursing home residents enjoyed the afternoon when they cried, laughed, hugged and kissed us at the picnic's closing. The teens shared this positive feeling as 15 year old Joe Lembeck expressed the happiness he gained from helping people.

A goal that had been set for us was to experience the poverty of the Appalachians. 17 year old Kevin Croke saw what it was "really like to live the simple life." Angela Re, 16, added that "working directly with the people helped her realize and appreciate what she has."

At the end of each working day, we would meet again at the center for dinner, evening prayer and a chance to discuss our experiences that day. During this time, our friendships with each other grew as we confided our thoughts. We also had a quiet time for an hour each day when we got to know ourselves and God.

Homestead Exemption discussion

Stanley Kaletta and Leroy Johnson from the Cook County Assessors' Office will speak at the Homestead Exemption on Friday, July 24 at 1:30 p.m. at the Niles Senior Center, 8060 Oakton. There is no charge to attend. This informational discussion.

The Homestead Exemption is available to senior citizens over the age of 65 years. It is a reduction in the assessed taxes which is reflected in the second in-

come tax. Our evenings were filled with crazy games, activities and singing around a bonfire. We all had an unexpected surprise when shower time came early the first evening. Pennsylvania had been having unusually heavy rain causing much flooding; therefore, our showers were very limited. We bathed several times in the river, and we washed up and brushed our teeth in wash pans outside. For many of us, this was our first time "roughing it!"

It was really difficult for us to leave our new-found friends from Minnesota and the center on Saturday, June 20, but we are keeping our unity through letters with the hope that we may someday come together again and serve the poor as we had done that week.

Although Vince is leaving youth ministry at St. John's to go into professional singing, some teens have decided to go back to Appalachia next summer individually to fulfill their own needs as well as the lives of others. It was agreed by the teens when we reached home that our trip to Pennsylvania was beneficial in that we encountered new friends and experiences that made our lives much richer.

Participating in this year's trip to Appalachia were Niles residents: Kevin Croke, Janet Lee, Laura Lee, Tom Lesiowski, Sandie Lindquist, Dan Marcotte, Jim Mizialko and Angela Re. From Mortar Grove were Mary Eriksson and Joe Lembeck. Glenview residents included Jay Hill, Jay McAndrew and Patrick McAndrew. JoAnne Mayer of Park Ridge also attended.

stallment of the real estate tax bill. This tax reduction is available only to homeowners. All are invited to attend this seminar. The Niles Senior Center has the Homestead Exemption forms and can assist with the applications. Individuals interested in filing the forms may call the Niles Senior Center at 967-6100 ext. 76 and schedule an appointment with Jean Stokes, the staff counselor at the center.

**Grandparents
Unlimited seeks
volunteers**

Grandparents Unlimited, a volunteer program at Oakton Community College for persons who act as "grandparents" in day care centers, is seeking men and women to start with the program late this summer or early fall.

Grandparents Unlimited, sponsored by the Office of Community Outreach at Oakton, supports a complement of human needs, according to Patricia Handzel, director of Community Outreach. She points out that an increased number of nurseries and day care centers in the community cope with many children's needs, but children also need one-to-one communication. "In a mobile society in which they have little or no association with grandparents, children need to know older people," she said.

What is more, the volunteers benefit as well. "Grandparents need these children in their lives," she adds. Since 1977 the OCC Grandparents Unlimited program has

been in full swing with volunteers lending their services to child care centers and nursery schools. Blanche Block, coordinator of Grandparents Unlimited, maintains a list of day care centers and nurseries in the area and tries to locate the volunteers close to their homes.

Volunteers come from all walks of life. One man never finished high school. Another has a doctorate. Some have been with the program for years. Ms. Block notes, "And the children adore them. The one drawback is there never are enough volunteers."

An important requirement of the job is the commitment by the volunteer. "The children expect them," Ms. Block says, "and there has to be some kind of continual communication. A volunteer can go away for vacation, but the child must know he or she will return."

For further information concerning Grandparents Unlimited, call Ms. Block at 635-1936.

**Holy Family has first
certified registered nurse**

Holy Family Hospital now has its first certified inpatient obstetric nurse.

Marcella Edwards, who recently earned the title of certified registered nurse (RNC), is the first Holy Family staff member so far to take and pass the rigorous test given by the Certification Corporation of the Nurses Association of the American College of Obstetricians and Gynecologists.

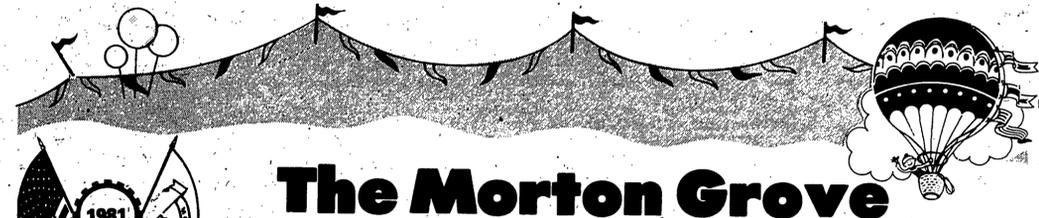

"Marcella's certification means that she is meeting high standards in the area of obstetrics and gynecology," says Charlene Taylor, RN, Assistant Director, Nursing. "It's the

crowning achievement in her specialty."

To prepare for the certification test, which was offered at 24 sites across the United States and Europe, including Chicago, Mrs. Edwards says she studied two or three hours every day for six months. Mrs. Edwards was among the 72 percent who passed the test. A total of 278 inpatient (hospital) obstetric nurses took the examination.

To remain certified, Mrs. Edwards, an obstetric nurse at Holy Family for 14 years, must take the examination every three years or earn 45 continuing education credit hours.

Safety Council offers tornado precautions

The tornado season is here, says the Greater Chicago Safety Council, which reports that tornadoes in the United States claim about 100 lives a year and result in hundreds of millions of dollars in damage.

Tornadoes can occur any place in the U.S. at any time of the year, but happen most frequently in the midwestern, southern and central states from March through September, says the Council.

A tornado "warning" is issued when a tornado has actually been sighted in an area or indicated by radar. When a tornado warning is issued, persons in the path of the storm should take immediate safety precautions.

The Greater Chicago Safety Council offers the following information and advice to stay safe in a tornado:

- Relatively safe places for shelter from a tornado include: modern steel-reinforced office buildings, storm shelters, tunnels, caves, root cellars, sub-basements, bank vaults, underground parking facilities, basements, interior corridors and subways.

- Dangerous places for shelter from a tornado include: near windows, in auditoriums, in gymnasiums, in structures with large, poorly supported roofs; on upper stories of office buildings, in house trailers and near parked vehicles.

- Staying in a car can be better than no protection at all. It is safer to seek protection indoors or by lying flat in the nearest depression, such as ditch.

Police warn danger of closed car temperature

The temperature in a closed car on a hot sunny day can easily reach a life-threatening 130 degrees Fahrenheit. Illinois State Police remind motorists - don't leave children or pets alone in a closed car!

"Children left in cars while mom or dad run errands have been known to start engines, shift gears or suffer heat stress," stated Captain William Burt, Chicago, District Commander. "Children become dehydrated more quickly and unlike adults, cannot avail themselves of a cooler place."

Doctor Kenneth B. Roberts, Associate Chief of Pediatrics at Sinai Hospital in Baltimore, made a study of the effects of car heat on children. On an 83 degree F day in September, Dr. Roberts found temperatures within closed parked cars to rise to 110 degrees F in just 15 minutes - even with the front windows cracked 2 inches.

The Cragin Short-Term Note.

More certain than money market funds. More flexible than savings certificates.

Now there's a short-term, high-interest investment you can really count on. The Cragin Short-Term Note.

The Short-Term Note is available right now at Cragin Federal Savings for amounts from \$20,000 up to, but not including \$100,000. And you don't have to worry about tying up your funds in a long-term commitment. Because unlike savings certificates, the Note matures whenever you choose—from 1 to 89 days. So if you need a specific amount of cash in the near future—to close a business deal, match the maturity of another investment, or to make a move in the market—the Note keeps that money working for you in the meantime. You can feel secure in your investment, too. Because unlike money market funds, the Note offers you a fixed rate of interest which does not fluctuate. And although neither the Cragin Short-Term Note nor money market funds are insured, only the Note lets you know ahead of time that at maturity you'll receive your principal, plus the earnings stated in your Note agreement. So there's no guess-

letters to the editor

A former Nilesite expresses his community pride

Dear Diane:
We have moved! Yes, we have moved our bodies and our furniture to Florida, but we have not moved our hearts. They will stay in that beautiful Village of Niles.

In almost 22 years of living there among every ethnic group of people, we found only love and happiness from them. First of all, we joined the Church (St. John Brebeuf) where we always felt so proud to be members. The Clergy there were always kind and considerate. The Village Fathers were always establishing some new program for the enjoyment of the citizens...the free bus, the Trident Center, and many forms of beautification...the best fire department in the country...a police department we were proud and happy with...a Park District that kept pace with the best...a very beautiful library and the Trident Center, which was a haven for its Senior Citizens.

And about the Senior Citizens of which we were a part. There were so many fine clubs, three of which we were privileged to be part of: "The Golden Age Club" of St. John Brebeuf Parish, The Maine Township Senior Club and the 55 Plus Club of St. Isaac Jogues Parish. Each gave us many days of happiness and a chance to make so many friends.

Giving up all this was quite a price to pay for what I hope will give this old man a few more years on this earth. Yes, it is hoped by my wife Corrine and I that the warmer climate of Florida will do that.

In fact, there is even more sacrifice. We will miss the activities of the Knights of Columbus and its Ladies Auxiliary. The Maine Township Democratic Organization also made us many friends we can't forget. Yes and for all the other organizations where at one time, Corrine and I were privileged to have been a part of, we say and hope God keeps His blessings on you and all the people in the Village of Niles. So long to all not goodbye! We say this because it will be our hope to return for a visit sometime.

One consolation is the fact we will hold our subscription to the "Bugle". By this we will feel a bit closer to home. Your homey and newsy paper will be sure to do that.

And a special thanks to Diane, Bob and all that wonderful staff of the Bugle for publishing all the stories that I submitted to your newspaper over the years.

With love and respect, I remain,
George Hall

Commends Skokie's Information Fair

Mr. Al Bernstein
Public Information Officer
5127 Oakton - P. O. Box 309
Skokie, Illinois 60077

Dear Mr. Bernstein:
Please forgive this late response to the "Information Fair"

Dear Editor,
Recently Leonard Gail and Jeffrey Galkin, members of the Maine East Debate Team, finished in Second Place while representing the State of Illinois at the National Debate Tournament in Salt Lake City, Utah.

We wish to thank the Park Ridge Rotary Club, local banks, and individuals whose financial assistance enabled these boys to compete in this tournament.

It is unfortunate that Maine Township High School District 207 refused to give any financial aid to defray the cost of traveling to this tournament. Although there were three other teams from Illinois, the Maine East debaters had won the State Championship and the honor of representing Illinois at the National Tournament.

While other teams were able to devote their time preparing for Nationals, Lenny and Jeff were forced to divide their time and attention between preparation for the debate and trying to raise money to get to Salt Lake City.

conducted by you and your staff on May 21 at the Devonshire Center.

The people who made special presentations were well qualified and made understandable suggestions. The materials which were used as samples are easy to adapt to most of our organizational needs.

I want to commend the people who attended both for their decorum, behavior and the response to each portion of the program.

I feel you should know that this is the response of the four people who attended from the newly formed "Skokie Area Chapter" American Association of Retired Persons.

Very truly yours,
Hyman W. Rubin,
Public Relations Chairman

Legion Auxiliary expresses thanks for publicity

Dear Editor:
Our organizational year has fast come to a conclusion, and retiring president Julie Karsten wishes to extend a profound thank you for all the assistance and fine cooperation we have received from your newspaper this past year. You have featured our many programs via releases in prominent locations to alert the community to the various endeavors with which we engage ourselves in, and we sincerely appreciate this opportunity to advise the citizens of our ongoing projects.

Since we are so closely identified with the American Legion, many readers otherwise would not realize the Auxiliary performs special services in their own right. Thank you for all your courtesies.

Lorry Nehart,
public relations chairman

Debaters' parents grateful for donations

Unlike most school districts that encourages students to compete at the national level, District 207 has consistently refused to provide any financial aid for teams to enter national competition. This year alone Lenny and Jeff competed in and won four national tournaments including: The Glenbrook Round Robin (Northbrook, Illinois), Northwestern University (Evanston, Illinois), Harvard University (Cambridge, Massachusetts), and The Superbowl of Debate (Milwaukee, Wisconsin). In addition the boys finished better than Fifth at six other tournaments with national competition. Although the trophies and awards are proudly displayed at Maine East, the bills for air fares and living expenses were shouldered by the boys and their families. Even the teacher, Ms. Leisa Hannan, who coached the team to victory, was forced to pay her own expenses.

Although we as parents have been willing to finance the cost of these tournaments, it seems grossly unfair that while other school districts financially support their teams, District 207 absolves itself of all responsibility.

Again we wish to thank all those who helped, for without them, the Illinois Debate Champions could not have been there to bring the honor they brought the state.

Mr. and Mrs. David Gail
Mr. and Mrs. Jordan Galkin

A grateful Little Leaguer

Dear Editor,
I would like to publicly thank Mr. Eichman, the manager of the White Sox Little League team, for making me feel a real part of the team. I broke my leg earlier in the year and had to be dropped from the roster. Even though I couldn't play I attended all the games and practices and Mr. Eichman always included me in the activities. I was even asked to be in the opening day parade and made all the trips to Moloney's for ice cream.

I am very happy for my team which won all 16 games, but I am even happier I was part of the White Sox team.

Thanks again

Dear Editor:

Thank you for this very nice and enlightening neighborhood newspaper. It affords me with many hours of entertainment. It reminds me of the Old Lincoln-Belmont Booster. But I left Chicago in 1958. I feel like this paper is a friend and always so welcome!

And thank you for the Senior Citizen discount!

Dear Sir:
I want to express my sincere appreciation to the people that phoned me or stopped by to give me their approval and comments on the Guest Column article published in The Bugle July 9. Their comments included thanks for expressing their views.

Friedrich Greenbrier Hi-Boy Gas Furnace

Description
• Greenbrier top-of-the-line, extra care design and construction assure the utmost in quality of manufacture and years of dependable performance. Efficiency, quietness, versatility and dependability are hallmarks of these eleven gas furnaces.
• Greenbrier gas furnaces get the most heat from fuel and fuel dollars with baffling built into uniquely designed heating elements. The baffling slows down combustion gases as they pass element walls, creating a zigzagging SWIRL-FLO action. The hot gases are forced into greater, longer contact with walls, so more heat is transferred to the air which circulates through the home.
• All quiet, attractive Greenbrier Hi-Boy gas furnaces are certified by the American Gas Association for use with either natural or LP gas.

Discussion series for young adults

Many college-aged people who are home for the summer find themselves in an awkward predicament. They are no longer regular members of the household, yet still part of the family. In response to this dilemma, Jewish Family and Community Service will offer sessions entitled "Too Old To Be A Kid - Not Yet On Your Own." Issues relating to future plans, as well as getting along with one's family will be addressed.

The group will meet at the Mayer Kaplan Jewish Community Center building, 5050 Church, Skokie, from July 16 through August 6, from 7 to 8:30 p.m. The cost will be \$14 for the series.

If interested, call Phyllis Kravitz Greenbaum or Susan Levy at 675-2200, ext. 204.

Anniversary surprise party

When Erman G. Kramer, First National Bank of Skokie, Chairman and Chief Executive Officer, arrived at the bank's Community Room on July 6, he was expecting a piece of cake and cup of coffee to note his 20th anniversary with the Bank. Instead, he found tables of hors d'oeuvres and special dishes prepared by staff members together with punch, a brief program of recognition and special gifts.

Mr. Willard C. Galitz, Chairman Emeritus, pointed out the growth of the bank from 47 million to over \$275,000,000 during Kramer's 20 years of

With staff members looking on, Thomas F. Monahan, President and Chief Operating Officer, joined Galitz in presenting special gifts from the Officers and staff members to Kramer.

Kramer (l.) is shown being presented with an enlarged laser photography picture of a western State mountain and horse grazing scene by Galitz (center) and Monahan (r.).

New shoe store for workmen opens

Larry Menconi, manager of the Red Wing Shoe Store, 8858 Milwaukee ave, has announced formal opening of his new store that will offer footwear for the workman.

The store features an extensive line of workshoes with styles for almost every conceivable occupation. They also have a complete line of sportboots and footwear for rugged, outdoor activity.

"We're here to provide special service for the workman. The man who spends most of the day working on his feet needs footwear that is designed to give more comfort and more wear," said Menconi. "It's important that he has the right shoe for his work. That's why we carry over 50 Red Wing Shoe styles in stock. Our emphasis is on proper fitting, so we have size runs from 6 to 16

and widths from AAA to EEEE," he added.

Menconi attended special training sessions at the Red Wing Shoe Company, Red Wing, Minnesota, where he studied shoe construction and materials, proper shoe fitting and occupational footwear requirements.

The store itself has also been designed with the workman in mind. "We wanted it comfortable, but not plush," said Menconi. "When a man stops by in his workclothes, we don't want him to feel out of place or to worry about dirt on his boots."

The manufacturer of the shoes, Red Wing Shoe Company, has specialized in men's workshoes since 1906. Their bright Red Wing trademark is familiar to most workmen, and their "Irish Setter Sport Boot" is known by sportsmen around the world.

MG Park swim team victories

With the tenacity of David, the Morton Grove Park District Swim Team has slain two "Goliaths". On June 24, River-trails Park District (an "A" conference team) fell 218 to 306 to the "B" conference Morton Grove Team. Similarly, Elk Grove Park District lost by a 290 to 268 margin in Morton Grove's first conference meet of the year. Coaches Luanne Albanese, Andi Mazon and Steve Kueller were quick to site the outstanding performances of many of their swimmers. Top swimmers in the June 24th & July 1st meets were: Nancy Dunn, Andi Mazon, Chris Martin and Barb Buckley taking first place in the girls 15 and over freestyle and individual medley relays. Top swimmers in the Boys 15 and over relays were Jim Krozel, Andy Appleton, Jim Sues and Rob Drag. Other outstanding swimmers were Boys 8 and under P. Huang, R. Gonzalez, C. Dunn, E. Gonzalez, 9-10 girls R.

Minkley, J. Gonzalez, M. Huang, 11-12 Boys and Girls J. Wendell, N. Bloomfield, S. Lehw, 13-14 Boys and Girls R. Gonzalez, M. Wendell, C. Kwon, M. O'Brien, D. Minkley. Last year the Morton Grove Park District Swim Team took second place in their conference. Head Coach Albanese commented "we may not be the largest team in the conference, but we try the hardest". She added "we expect to do as well or better than last season." The Park district's diving team lead by Head Coach Erin Sweeney has been doing well by taking mostly firsts and seconds in their meets. Ms. Sweeney notes that the team is doing very well and is led by Karina Doyle, Stefani Ivicic and Carlos O'Brien.

Any swimmers or divers interested in competing this summer are encouraged to call the Park District Office at 965-1200 or Oriole Pool at 966-5663.

Niles Library

Martin Hodes, board member, said the library deficit was due to a shortage of funds in previous years. He said the library's one variable, the book fund, was borrowed from because board members never had the deficit "brought to their attention". He said, "Over a 15-year period, the library has been short-changed in collection of taxes about \$60,000.

Rita Breitbart, finance chairman, said board members only took the action knowing they would be about eight per cent short of the tax levied due to insufficient payment of taxes. She said, "All services have to be covered with what we can levy."

Breitbart said judicious deposits earned the library about \$65,000 in interest last year. She said, "We have tripled our services. All this has been done on a minimal budget," said Breitbart.

now serviced by the company. Niles has lent the NORTRAN \$20,000.

Murphy said the company is presently paying only wages and fuel costs and is drifting towards a shut-down which may come around August 25.

Murphy noted the 22-member area serviced by NORTRAN contributes 35 million dollars toward the service through a 1¢ sales tax. NORTRAN receives about 10% for its use. Murphy contends "we're paying double for the service and we're getting the short end."

Trustee Pete Pesole disagreed with Murphy contending Niles shouldn't pull-out from the RTA. Without having any answers Pesole said local representatives should all sit down and try to do something about the transportation crisis. He admitted the RTA is dominated by Chicago and the suburbs have had their budget cut in half while the city continues to receive full revenues.

Village president Nick Blase said "we're supporting others more than they are", contending local suburbs are paying a disproportionate share for public transportation. Blase concluded the discussion by stating, "NORTRAN will call all of us together and we will just have to wait and see what happens."

...Recommended \$100 license fee for precious metal dealers. Presently, there is no Niles ordinance. It will be similar to a Des Plaines ordinance.

...Annual license fee will be increased from \$13 to \$15 per bed for nursing homes which will put Niles in compliance with Evanston Inspection Bureau.

Director of Public Works, Keith Peck, made the recommendation while acknowledging there was a lower bid for \$122,000 though it was not the right process the village desired for repaving.

Nimrod cites train fare increases as unreasonable

Senator John J. Nimrod, R-Glenview, said today he remains optimistic that a long-term solution will be found so that trains and buses will continue to operate in the Chicago area with riders paying reasonable fares. "The problem is," said Senator Nimrod, "that the City of Chicago simply refuses to face facts. The CTA Board has made little or no effort to reduce costs. Everyone knows that Chicago is in desperate financial straits and it seems apparent that Mayor Byrne is making every effort to raise funds for the CTA, the Chicago School Board and for running the city at the expense of suburban Cook County and the collar counties."

"Chicago wants more money without bringing about economy and efficiency in the operation of the CTA—which brought about the high fares in the first place. The excessive salaries for RTA-CTA employees are still being paid to literally hundreds of persons. CTA bus drivers continue to be the highest paid in the nation—one-third higher than New York City—with no effort being made to renegotiate escalating contracts."

"Suburbanites are the ones who are being hit for the huge increase in fares which should not be tolerated. We simply cannot continue to have the RTA Board impose these exorbitant fares upon the suburban commuters. The temporary fare increase is for 90 days. If the inequities continue for more than 90 days I intend to attempt to get the legislature and courts to stop this."

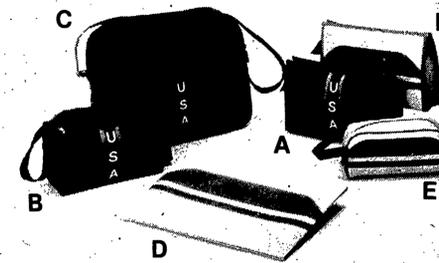

"It seems quite obvious that the Chicago plan for transportation for the suburbs and the collar counties was to do nothing. Every time we came close to an agreement for giving the RTA-CTA a state subsidy, Mayor Byr-

ne would demand more money. Yet, she apparently has no intent to reform the inefficient and overly-expensive system."

MAKE THIS THE SUMMER OF 78°.

Every degree you raise the temperature of an air-conditioned space means a 5% savings on the operating cost. Or put another way, every degree you lower it adds 5% to the cost. Most people are comfortable at 78°. Most people are comfortable with the money they save at that temperature too.

AN AIR CONDITIONER IS ONLY AS GOOD AS ITS SEER.

The machine's Seasonal Energy Efficiency Ratio (SEER) tells you if it makes good use of the energy it consumes. Be sure to compare numbers—the higher, the better.

DIRT CAN HURT.

The filter on your air conditioner has done a good job if it's dirty. But a dirty filter makes it harder for the machine to do

a good job. Check your owner's manual on how to clean or replace the filter. Then do it regularly.

KEEP THE HEAT OUT.

Don't let it in in the first place. Pull the shades or curtains in rooms that receive direct sunlight. There'll be less work for the air conditioner to do.

MAYBE IT'S TIME FOR A TIMER.

You can come home to a nice cool house without leaving your room air conditioner on the whole time you're out. Turn it off when you leave, but set a timer—one made specially for air conditioners—to turn it on an hour before you return. You'll be just as cool, but you'll use a lot less electricity.

DINING & ENTERTAINMENT

"South Pacific" orchestra members are varied group

When Ted Hill, Niles East graduate and John Hopkins University freshman, strikes up the orchestra, on July 26, over 40 musicians will come together to play the overture to Theatre 219's production of "South Pacific." The musical's orchestra members include high school and college students, as well as professionals from many walks of life.

1981 Theatre 219 musicians include violinists Nancy Wegener, Chris Dina, Mike Oliver, Harold Neihaus, Mary Wolfe, Lori Holst, Kathy Matz, Kathy Killian, Eva Kim, Marc Frischer, Arell Gotlieb, and Fernanda Caullieres. Lisa Nimz, Anne Hartzel, Melissa Gregory, and Miriam Silverman play the violas, while Linda Lobben, Stefan Adam, Linda Sohn, and Ross Erlebacher are featured on the cello. Beth Handzel plays the bass.

Mary Chamberlik and Debbie Pauls are on the flute and piccolo, while Richard Hirsch and

Carolyn Anderson play the clarinet. Helaine Silver plays the oboe and the English horn, and Joan Brody plays the bassoon. On the French horn are Chris Kunior, Craig Johnson, and Howard Kaplan, while Sharon Jacobsen, Steve Hartzen, Randy Steinberg, and Joel Kaplan play the trumpet. Bruce Alpen and Steve Bain take the trombone, while Marshall Fox plays the tuba. Chuck Heftman and Mike Parcell are responsible for the percussion, while Ken Wisner, the show's accompanist, plays the piano and celeste.

According to conductor Hill, some of the finest amateur musicians in the area are playing in the "South Pacific" orchestra this year. For instance, violinist Chris Dina, a Niles West High School senior, plays with the Summer Civic Orchestra. Trombonist Bruce Alpen will be playing with another kind of band, when he leaves for the army next December. Harold

Neihaus, the group's resident "adult," learned to play the violin at the age of 46 and now plays with the Skokie Valley Symphony. "I've never stopped taking lessons," says Neihaus, who is a stock broker in real life.

Many students fill the orchestra's ranks. For instance, Nancy Wegener is a Niles West High School senior, while Craig Johnson studies chemistry at the University of Chicago, and Rich Hirsch goes to Northern Illinois University. University of Michigan senior and drummer Chuck Heftman is planning to become a commercial pilot.

"South Pacific" will be presented July 24, 25, 26, 31, and Aug. 1 in the Niles West Theatre, Oakton st. at Edens, Skokie. ED HANSON 12 Ways to Keep Your Husband HAPPY DURING THE BASEBALL STRIKE

1. Understand since the baseball strike, the divorce rate nationally dropped 11.8%.

Men are staying home more, but enjoying it less. The tavern business has dropped off sharply, particularly Saturdays and Sundays.

This 11.8% divorce rate drop was due primarily to women, not men, who hate baseball and most other sports. But, because opposites attract, (they say) it seems that men who got the "hots" for sports somehow marry women who got the "hates" for sports. So, many of the spouses of these guys, rather than become sports widows, file for divorce.

However, don't be misled by the current drop in the divorce rate. It's apt to react like a delayed bomb because millions of men are reacting just like a kid when you take his lollipop away. They're getting madder and madder, 'meaner and meaner, while they suffer in silence. And, they're due to erupt like a time bomb and those divorce statistics may be buried by an explosion of new divorce proceedings initiated by the male.

As a public service and because I love to help my fellow-women, I hereby, provide the following FREE advice:

12 WAYS TO KEEP YOUR HUSBAND HAPPY DURING THE BASEBALL STRIKE

1. Ask him questions about baseball and other sports he enjoys.
2. Listen, (don't you talk) while he talks about his favorite sports. (You'll pick up some info to keep the conversation ball rollin')
3. Admire that tiger he sees in the mirror.
4. Be diplomatic (diplomacy is seeing another person as they see themselves.)

5. Serve him breakfast in bed Sunday morning (and, be damn sure you butter his toast.)

6. Make yourself available to him, at any time, for anything his little heart desires.

7. Don't voice any dogmatic opinions. (If he wants your opinion, he'll give it to you.)

8. Be reasonable, do everything HIS way.

9. If you're a working wife and he handles the money, give him your paycheck unopened. If you handle the money (which is more probable) buy him a nice gift, like a bowling ball or a new, expensive set of golf clubs, out of your money, or the pouch you got socked away which you pilfer from the grocery money. Take HIM OUT TO DINNER AND YOU PAY THE CHECK OUT OF YOUR DOUGH.

10. Remember, every male likes some solitude. If he likes to bowl, play poker, or horses, or go to a tavern, He Don't Want You Along, and even if he asks you, make some excuse and stay home and take care of the kids or wash out his socks.

11. Every night before retiring tell him how much you love him and how much you respect him as a man.

12. If you suspect he might be fooling around with some other chick, don't you let on! (If he's past 40, let him fool around a little with other women. After all, he probably did with more chicks than you can count before he married you. Just watch your weight, keep yourself clean, hygienic and attractive, if necessary go to Bon Wit Teller and get the "works" out of your money. You'll become a "new" ravishing you, and he'll quickly forget about those other passing faces, and you'll not only save your marriage but your meat ticket as well!

P.S. See you next week, Angie.

Soon, you'll be able to watch the CHICAGO CUBS play nite ball at beautiful Wrigley Field on ARVEY'S big, perfect picture TV with a beer or cocktail... and that house cocktail will cost YOU only one dollar.

Storm . . .

Continued from Pg. 1
St. and Olcott St. resulted in these streets being closed. Additionally, the intersections of Kedzie and Odell St., as well as Dempster St. and Sherman Rd., were closed because of flooding.

Telephone dispatchers at the Niles Fire Department, who handle calls for Niles, Morton Grove, Glenview, North Maine and Glenbrook, reported receiving 130 calls during the rainstorm from people with flooded basements. Additionally, the Niles Police Department counted 70 calls during the storm from residents reporting flooded streets and homes.

Niles Fire Department records showed numerous residents reported lightning striking electric transformers atop electric poles during the storm. After checking each transformer firemen contacted Commonwealth Edison officials.

Peck said many homeowners on Maynard St. reported their basements being flooded with up to four feet of water in some cases. Also, Peck said homes which had not flooded in over 14 years reported taking in water.

Peck noted Niles Public Works had 12 employees throughout Niles on Sunday erecting barricades and assisting residents with flooded homes. The situation was much the same in Morton Grove during and after the storm, according to Jim Dahm, Morton Grove's Director of Public Works.

As sewers quickly filled with rain water, Dahm said Morton Grove's problems were compounded by the closing down of the water pumping station at 8820 National St. when the area temporarily lost electricity, and less efficient gas generators had to be used.

The pumping station remained without electricity for six and a half hours. Additionally, Dahm reported the storm caused a water main break at the intersection of Harlem Ave. and Beckwith St. further complicating an already bad situation.

Dahm said up to 2.64 inches fell in Morton Grove during the storm with the east end of Morton Grove receiving even more. Many homes were flooded after a power failure in the area turned off basement sump pumps. Up to 20,000 suburban residents were without power during the storm, according to Bob Reidel, District Superintendent at Commonwealth Edison Co.

Reidel said three 34,000 volt power lines were knocked out of service after being struck by lightning. Also, 16 feeder lines were rendered useless during the storm. In addition, 15 electric transformers burned out during the storm.

Parents are example for teen drivers

Many parents are angered when their teenage son or daughter is convicted of a moving traffic violation. They're even more disappointed if the teenager loses his or her drivers license after too many convictions.

They sometimes fail to realize that a youth's bad driving record can be a reflection on their bad driving habits.

An observing child knows what the speed limit is, and when he or she sees a parent or guardian exceeding the limit, the apparent lack of concern for the law is remembered for a long time.

Parents who run stop signs or race through intersections when the yellow light is on have failed in their obligation to show their youngsters the value of following the rules of the road.

Traffic laws, signs and signals must be observed. Parents should realize that the few seconds or minutes they might gain by speeding or cheating at intersections may some day result in their serious injury or death of their teenagers because they may have copied their parents' bad driving habits.

This should be a sobering thought for all parents. Please

the bill. Jaffe, who voted against the bill, said he would support any move in court to block the state condominium law. Said Jaffe, "I think it's terrible that the law was passed."

Referring to the powerful real estate lobby which strongly supported the bill, Jaffe said, "The real estate lobby drafted it. It's their bill from beginning to end."

Besides Jaffe, State Representatives Penny Pullen (R-Park Ridge) and Robert Kustra (R-Glenview) also opposed the condominium bill.

Son Dethrones Father, As Woodcutting Champ

Nineteen-year-old Roy Booth Jr. really was a chip off the old block when he defeated his father, Roy Booth Sr., 47, the defending champion, and eight other finalists to win the world chain saw cutting championship and a record \$5,000 in the Homelite Tournament.

The new champion, youngest contestant in this year's contest, broke a tie in the speed cutting final by cutting through a 20-inch poplar log in 24.33 seconds, nearly two seconds faster than the second place finisher, Bren Canfield, 44, of Queensland, Australia. The former high school star quarterback, who fell trees with his father in the Oregon mountains, used explosive strategy by scoring a record perfect ten points in three events—tree felling, stepchase and speed cutting.

The elder Booth, world chain saw cutting king in 1978 and 1979, finished fourth, six points behind, his son. At the next tournament, September 25-26, 1981, the chips may fall in his favor again.

somebody. And next door the same type of big boys got their stop light.

While the proletariat has to sit and wait, the bourgeoisie money people get their little conveniences. It would be a small bone but at least these powerful people might ask the state to time the lights so we little guys don't have to make 2 stops within one block.

We were very impressed with last week's Niles park board committee meeting which decided against creating an all-year-round ice program in Niles. Park director Bill Hughes gave a very impressive presentation. It was so convincing the parents seeking the summer ice program agreed with Hughes and the board an all-year-round program was not feasible at this time.

We found it a rather interesting confrontation. The parents were part of a 37-family group which sought the additional ice program. They fought hard for the program thru these past months. But at last week's committee meeting they bowed out rather graciously. We had reports their past tenaciousness was almost reckless. But at the park board meeting last week they bowed out with much style.

When Hughes' figures showed an all-year-round program would require \$200,000 of improvements, everybody was in agreement the money wasn't there and the borrowing of the money was excessive.

The ice skating parents thought their activity was as important as other park functions. They questioned why the ice program should be looked upon differently than other park programs which also cost money to operate. When they were told the ice rink was created by voters who approved revenue bonds for the rink, which meant the rink is self-supporting depending on revenue taken in to pay for the ice program, they understood the distinct problems surrounding the ice rink program.

We have always looked somewhat askance at the ice rink. Hughes reported there has been a \$107,000 deficit at the rink and \$200,000 of debts have been written-off. That means other areas of the park budget had to be used to cover the ice rink losses.

It has always been our one-man opinion Niles is just not the town to support an ice rink. Much of the ice time utilized comes from people who live outside the area. Thus, Nilesites had to cover losses accrued at the rink while outside residents enjoyed the activities at the ice center.

Perhaps, Park Ridge and Northbrook are communities which can afford such a luxury. Creating ice hockey teams and leagues are very expensive activities. There aren't many local residents who care to foot such expensive bills for their wunderkind.

Niles has one of the best and most extensive baseball programs among all suburbs. It is enjoyed by many hundreds of youngsters and its costs are within reason.

Niles is a bread and butter baseball town, and a swimming pool town and other low-cost mass-sports town. Ice rinks and ice programs are quite elitist. They belong in Park Ridge and in Northbrook.

MG Board . . EXPO '81 . .

immediately challenged by gun advocates and a legal battle which may end up in the Supreme Court is anticipated.

A television movie entitled "Skokie" will be aired in the fall, and now the Hollywood moguls set to work on immortalizing Morton Grove.

There was reason for emotion and fervent applause though at Monday evening's village board meeting, and it was unrelated to the gun ban issue. Police Chief Norman Glauner revealed he has tendered his resignation to the board, effective September 18.

Glauner, who has been with the department for 27 years, will be retiring to Northern Wisconsin. Speaking before the village board, he said, "I set my goals; I think my record speaks for itself. Crime has always been reduced and accidents have gone down."

Trustee Joan Dechert, who served as President pro-tem in the absence of Mayor Flickinger, praised Glauner for his work.

In other business at the board meeting, an ordinance amending the village's solicitor and peddler statutes was passed. Since an outright ban on time of solicitations has been declared unconstitutional by the courts, Morton Grove's time limitations have been repealed.

Signs are available at the village hall for residents however, which read "no solicitors or peddlers invited," or "no solicitors or peddlers invited unless registered with the village of Morton Grove", or "no solicitors or peddlers invited after 7:00 p.m." (the time to be filled in by the homeowner).

Once a solicitor has been asked to leave by a homeowner, he must "immediately and peacefully depart" or face arrest.

Trustees also voted to advertise for bids for the installation of a fence around the new public works property at 7840 N. Nagle.

There has been a problem with people coming on the property and helping themselves to stone and sand, according to village officials. Friday, July 24 will be the bid opening.

Other EXPO '81 chairmen are Nick Marino, Century 21-Marino Realtors, Booth Space chairman; Mike Brenner of Flickwick Papers, Ad Book chairman; and William Simkins, Jr., Door Prize chairman.

will be utilized for the hot air balloon again this year and there will be plenty of parking in Harrer Park.

There are also hundreds of valuable prizes to be given away during the day including 40 large beautiful hanging plants, a grand prize of a \$500 Savings Bond and also money-saving coupons from various merchants are featured in the EXPO '81 ad book.

EXPO '81 Chairman Steve Kropp of Kropp Insurance Agency and his co-chairman Tom Kropp invite all the residents of Morton Grove and their friends to join them for a day of excitement and the opportunity to get acquainted with their local business friends and the merchandise and services which are available to them within the Village of Morton Grove.
