Parents of 10 year old boy, who was beaten up and bike stolen by 3 teen-agers, may drop flyers door-to-door in Wisner-Dempster area, in the hope parents of teens may be aware of the theft and assault. Their notices in store windows offering a \$100 reward for positive identification of boys committing crime resulted in their receiving 5 telephone calls last week. One caller reported finding two helmets at the above location, which were described in the window bulletin. Four other callers swore at the father of the boy, and then hung-up, one caller denouncing the victim's father as "A jerk". Parents of the 10 year old boy praised Niles policemen's handling of the matter, showing great compassion.

Niles Village Manager Ken Scheel reports plans are underway to landscape the corner of Harlem and Milwaukee Avenues. The village is leasing this corner from the city of Chicago for \$1 per year for the next ten years beginning last January. Scheel said he hoped the landscaping would be completed by fall. However, landscapers will first have to clear away the foundation from the Sandtrap restaurant which burned down in the early 1970's. Scheel expects the final cost of the landscaping to cost between \$5,000 and \$10,000. This money will be provided by Revenue Sharing funds.

Arlington Height's village board's legal committee recommended postponing any action regarding the banning of hand guns from its suburbs until after legal remedies have been determined by the courts. More than 300 people jammed the Hendrickson Room of the local library Monday night in a replay of Morton Grove's historical gun-banning meeting. Last week Buffalo Grove's Mayor broke a 3 to 3 tie vote opposing any gun-banning action until after the courts reach their decision.

13 year old Lisa Koller, a member of St. John's Lutheran Church, 7423 Milwaukee ave., Niles will be able to spend 2 weeks at the Bronco Camp for Asthmatic Children in West Virginia because of the efforts of her friends at the Church. Two benefits were held by the church members during July which raised \$550 and an anonymous donor added \$200 to the fund. In addition, Rev. Harold Neuberger, church pastor said he hoped to have the total donation. **Continued on Page 32**

## Park appeals to residents to help curb vandalism

by Diane Miller

Niles Park Director William Hughes told The Bugle he is issuing an appeal to all Niles residents to be on the alert for vandalism in the parks and report all suspicious activities to either the Niles Police or the Park District offices.

In addition Hughes said all full time supervisors for the Park District have been asked to check on the parks during their working hours, both day and night, for any acts of vandalism.

Board commissioner Walt Besse reported at last week's meeting of the Niles Park Board that malicious vandalism had in-

creased this summer to a point where it has been more widespread and more destructive than ever before. Over \$700 worth of damage was done in Greenwood Park, 8600 Greenwood ave. where park playground equipment and trees were irreparably damaged. Other incidents of vandalism have occurred in Kirk Lane Park, Grennan Heights and Courtland Park. According to Hughes, between \$4,000 and \$5,000 worth of damages have been incurred in the parks this summer alone which, he noted, was "considerably over last year's figures." **Continued on Page 34**

### Race for Life

The Village of Niles has joined the American Red Cross and local television station WMAQ-TV in promoting a nationwide Cardio-Pulmonary Resuscitation (CPR) training program during the months of July and August. The program is called "Race for Life".

The American Red Cross has published a textbook that, in part, covers artificial respiration, one person CPR and clearing obstructed airways.

To join this life saving training program you must stop at the Niles Administration Building, 7601 Milwaukee ave. and fill out an application. After your application has been filed, American Red Cross will send you their textbook and instructions as to where the CPR Project sites are located.

Stated Niles Fire Chief, Albert Hoelbl, "The entire purpose of the program is to get more people involved in knowing what to do if they see someone having a cardiac arrest (from heart attack, drowning, etc.) or suffering from an airway obstruction (choking on

Shown with Fire Chief Hoelbl are Village of Niles employees Cathy-Ann Miller and Richard Albrecht. "Obviously," continued Chief Hoelbl, "the more people trained in CPR, the more lives can be saved."

## Trident Seniors take choral director 'literally'

The Niles Senior Center Choral Group obviously has never forgotten the meaning of obedience, literally. Following a

recent outing that was devoted more to levity than choral music, Director Evelyn Heidemann asked that the group come to the regular Tuesday rehearsal "in their working clothes."

Taking her at her word, members of the group came in clothing reflecting the working routine for Senior Citizens, such as gardening, painting, plumbing, washing windows, and a plethora of lesser and sundry tasks about the home. Director Heidemann, never at a loss for words, dropped her jaw as the members entered the Senior Center in janitorial regalia, and was completely nonplussed until the laughter subsided, then recovered her tongue and conducted the rehearsal which went beautifully.

Original idea for system born in Niles

Joseph F. Salerno

How observant are you?

Have you seen the difference? Probably not, if you are as observant as most of the people I have spoken to.

What in the world am I talking about? I am referring to signs, landscaping, parking lots, weeds and a variety of things that go into making a village an attractive or an unattractive place to live and shop in.

Now a bit of information as to what has happened, what is happening, and what will happen.

The first step to beautify Niles started in earnest in June of 1973. At that time the Village Board passed an ordinance called the "Niles Housing and Property Maintenance Code". The purpose of the code is to set minimum standards regarding the maintenance of homes, apartments and business properties. Under the leadership of Mr. Todd Bavaro, who heads that Department, we have seen (and have you noticed) parking lots repaired, paved, swept and generally updated. Todd has also been meeting with various townhouse and apartment owners to improve those areas as well.

In February, 1976, the League of Women Voters of Morton Grove and Niles submitted a study to our Village Fathers which stated in essence that the Village was well run, but there was room for improvement. The free bus, for example, is great, but we should improve the appearance of our community.

Guest Columnist

An expression...an opinion... a point of view...

Also in 1976 the Village Board commissioned a study for the purpose of beautifying Milwaukee Avenue as well as other commercial areas of our Village. This study was completed in June of 1977.

Working in conjunction with the State of Illinois and the local businessmen in the 7600-7700 blocks of Milwaukee Avenue, Mr. Ken Scheel, our Village Manager, was able to complete the improvement of Milwaukee, Howard and Harlem. The total cost of that improvement was in excess of \$2,400,000. The local businesses contributed to the job by voluntarily removing their non-conforming pole signs in advance of the removal date. They also improved the access to parking areas in front of their stores which aided the beautification. (Have you noticed?)

In cooperation with the Niles Chamber of Commerce, sign company representatives and Village Board members, a new ordinance was proposed to assist in further beautification by regulating the size and placement of signs. After over a year's work on the new ordinance, which was passed in November, 1979, the enforcement of that ordinance began.

Since then, a total of 275 signs have been removed. Among that number were two billboards just north of the Brunswick Bowl, one at Tedd's Early Times Restaurant, one at the old Niles Post Office and four on Dempster Street just to the west of First Federal Savings and Loan. (Have you noticed?) We are presently working with other businesses to solicit their cooperation.

## SSI benefits for disabled children

Disabled children, including those who are mentally retarded, regardless of their age can be paid Supplemental Security Income (SSI) benefits. SSI is a federal program administered by the Social Security Administration. It makes monthly cash payments to people with limited income and resources who are 65 and over or disabled or blind. Money to make SSI payments comes from federal general revenues, not from social security (FICA) taxes.

To determine if a child under 18 is eligible, part of a parent's income and assets are considered to be the child's. Not all of the parent's income counts, however. There are allowances for work and living expenses and for other children who may live at home.

After a child turns 18, only his or her own income and assets count in deciding if he or she is eligible.

A child cannot receive both SSI and AFDC payments. If eligible under both programs, his or her parents or guardian can choose which ever payment best suits the family.

The basic measure of a retarded person's eligibility is his or her IQ. Other factors can be taken into consideration in some cases. Generally a child under 18 is considered disabled if his or her IQ is 59 or less. An adult 18 or over with an IQ of 49 or less is considered disabled. Other factors can be considered if the IQ is 10 or fewer points higher, however.

For more information about SSI for disabled or retarded persons of any age call any social security office. The people there will be glad to explain the program and to answer any questions. The special telephone number for the Des Plaines area is 823-0815.

## Morton Grove Senior Citizen News

**MEALS-ON-WHEELS NEED VOLUNTEERS**  
 Volunteers are needed to deliver meals-on-wheels to older residents in Morton Grove who are unable to prepare their own meals. The meals are prepared in the kitchens of the Bethany Terrace Health Care Facility and are delivered within the Village.

Volunteers are asked to donate an hour or so around lunchtime, a car, and the desire to help a neighbor. For more information contact the Morton Grove Health Department at 965-4100 ext. 269.

**VISITING NURSE ASSOCIATION**  
 The Visiting Nurse Association (VNA) offers health care in the home under physician's orders usually to people returning home from a hospital stay or to those who have an on-going acute condition. Such care has been provided in this community for more than 80 years. The VNA is not a nursing pool. It is a health care organization whose staff are fully trained, licensed and experienced professionals. One of those professionals is Christine Frisoni, a nurse specialist in the health problems of the older person. Chris will be available to Morton Grove residents Monday mornings between 8:30 and noon to answer questions, make home visits, and to conduct health education programs. Contact Chris at the Morton Grove Health Department, 965-4100 ext. 269 or the VNA main office at 677-6164.

**TRAVEL: ASK ABOUT DISCOUNTS**  
 With the summer and vacations in full swing, many seniors are traveling, and in fact the senior population is fast becoming the nation's largest travel market. The travel industry has responded by offering a wide variety of discounts. Once disallowed by law, airline travelers can now take advantage of substantial reductions for those individuals over age 65, with the average fare equaling 2/3 the cost of a regular one-way coach ticket. When making a reservation on any airline, be sure to ask about their discounts. Amtrak fares for seniors are discounted 25 per cent where the one-way ticket is \$40 or more. Greyhound, and Trailways buses give a 13 percent discount to senior citizen riders. A free lifetime permit for all U.S. parks, recreational areas, and monuments is attainable to anyone 62 and older by writing: Public Inquiries, National Park Service, Washington, D.C. 20240.

Keep in mind that travel within the Village of Morton Grove is available for just 35¢ on the American Cab or absolutely free on the Senior-Tran bus. For more information call 965-4658 weekdays nine to noon.

**THURSDAY CLUB AT PRAIRIE VIEW**  
 Expanding membership in the senior clubs meeting at the Prairie View Community Center has necessitated opening another day to accommodate Morton Grove seniors age 55 and older who would like to drop in to play cards or socialize. The new senior group will meet from 11 a.m. to 2:30 p.m. every Thursday. For further information contact Leo Provost at 965-4359.

**MEDICARE REMINDER**  
 The 28 million senior and disabled Americans who receive Medicare benefits are reminded of these recent adaptations to Medicare coverage. Patients no longer will have to spend three days in a hospital before being-eligible for Medicare's home care benefits. Also eliminated is the 100 day limit on home care benefits, to unlimited days (assessed by Medicare) of coverage. The \$50 deductible for home care is also dropped and occupational therapy is now covered by Medicare. To qualify for Medicare coverage, a senior or disabled patient must be under a doctor's care, be homebound and have a doctor's written order for home health care services. Occupational therapy joins skilled nursing, physical therapy and speech therapy on the list of approved Medicare services.

A special pamphlet entitled, Avoiding Problems With Medicare Claims, is available free, by calling the Morton Grove Senior Center, 6101 Capulina, 965-4100 ext. 269.

**YOU CAN CONTROL THE RISK OF CANCER**  
 Habits, medical history, health practices, and workplace can all be contributing factors to the mystery of cancer invasion. Yet cancer is not as mysterious as it once was, the American Cancer Society continues to pursue answers to questions surrounding this disease. At 7:30 p.m. on Monday, August 24, the Morton Grove Health Department will show the new Cancer Society film, "You Can Control the Risk of Cancer". Discussion on cancer topics as well as free literature will be available after the film. This free program is open to all residents and will be held at the Morton Grove Library's Baxter Auditorium.

For more information about these and other senior programs, call the Morton Grove Senior Hot-Line, weekdays, 9 a.m. until noon, 965-4658, or Bud Swanson, Senior Services Coordinator/Health Educator at the Village Hall, 965-4100.

**'Fast Aid' packets for emergencies**

Hoping to help save lives when a medical emergency occurs in the home or car, the Holy Family Hospital Auxiliary is sponsoring a program called "Fast Aid".

When a sudden disaster like a fire strikes, medical treatment can be expedited if police and fire officials have immediate access to the victim's medical background. Fast Aid, developed in cooperation with Des Plaines paramedics, insures that they do.

Under the Fast Aid program, participants fill out form that include crucial medical information—such as allergies and location of medications—as well as practical details such as type of insurance coverage. In addition, a photograph of the participant is attached to aid in identification.

The forms are placed in small, plastic pouches that are fastened to the upper right-hand inside wall of the user's refrigerator and automobile glove compartment, where it will be immediately noted. Des Plaines paramedics will be on the lookout for the Fast Aid's 's'ickers.

"One group that we're really trying to help is the senior citizens. They often live alone and are more handicapped in being able to help themselves," says Lois Hain, Auxiliary president. "But no matter what your age or situation, you could be the victim of a fire or explosion or some other medical emergency where you need Fast Aid."

The Fast Aid packets are available free of charge in the lobby of Holy Family and in Room 602 of the Des Plaines Civic Center, 1420 Miner st.

**OCC degree nursing program to open**

Oakton Community College will accept applications for the new degree program in Registered Nursing after Oct. 1, 1981, according to Kathleen Arns, assistant vice president for vocational curricula.

The two-step LPN/RN degree program, which recently received final approval by the Illinois Community College Board and Illinois Board of Higher Education, is scheduled to begin in the fall, 1982 term.

Of Particular interest is the ladder approach designed into the curriculum, Dr. Arns said. Completion of the first half of the program gives a student eligibility to sit for state board examination for practical nurses. Completion of the entire program qualifies the student to take the registered nurse licensing examination.

Currently practicing LPN's can, with the addition of some prerequisite courses, enter the program at the second level and complete an RN degree.

"We have been working toward approval of this degree for some time and are particularly pleased to receive it at a time when RN's are in critical demand in this area," Dr. Arns noted. "We expect the two-step LPN/RN degree to fill quickly given the current RN shortage in the Chicago area," she added.

Applications are available at both OCC/Skokie and OCC/Des Plaines. For further information interested students should contact the Admissions Office, 655-1703.

**Porter urges conferees to maximize student loans**

Congressman John Porter (R-Ill.) has strongly urged all the House and Senate conferees on the budget reconciliation package to support government-backed loans for all students.

The Reagan administration has proposed implementing a "needs test" to screen students who don't truly need a low-interest loan. Porter agrees with this proposal but also contends that loans, at market interest rates, should be available to students who can't meet the "needs test" requirements.

In a letter to the conferees, Porter said, "I strongly believe all qualified individuals who want a higher education should be able to obtain one. Those who are economically disadvantaged should receive loans with interest subsidies; those who are not should still be able to obtain a loan, but should have to pay the going rate of interest without government subsidy."

"If loans were granted at market rates," Porter explained, "the problem of students who do not need them borrowing just to take advantage of the low interest rate would disappear."

The Congressman also emphasized that his proposal would

### Chicago Motor Club suggestions for drivers

With summer's heavy rains, driving can be more like boating. Dave Bufka, AAA-Chicago Motor Club Emergency Road Service director, has some suggestions for what to do when you're confronted by a "lake" in the low point of a road or under a viaduct.

If water is reaching above the bumpers of other cars, don't proceed. At that depth, water could defeat the exhaust system by creating exhaust back pressure, water could be pulled into the carburetor, or moisture could short the spark plugs.

Any time the water level is higher than the middle of the hubcaps, exercise extreme caution, according to Bufka. Put the car in low or first gear, and proceed slowly. Putting the transmission in neutral could reduce the engine speed, and thus fail to cool the engine properly.

Once you make it to "shore," pump the brakes several times to dry the shoes or discs. Do this again at the first stop sign or stop light.

Driving too fast through water could engulf the engine compartment, drowning out spark plug wires, coil or distributor. Then you may stall, necessitating a push to dry land.

The drying out process could take four hours or longer, according to Bufka, who said the time could be shortened by wiping moisture from the plugs, wires and coil and the inside of the distributor cap with a dry rag.

### Safety hints for drivers

Every once in a while a law is passed which is hailed by motorists for easing the task of driving. One such law is the "right turn on red after stop."

The law was enacted to help move traffic safely, particularly in slow periods, with the responsibility on the driver making a right turn from a red light. Unfortunately, this has turned into one of our most abused traffic laws. Many motorists think the law allows them to slow down at a red light, take a quick look at a merge into the traffic flow.

The law reads: "A right turn is permitted at a red light under certain conditions. You must come to a full stop, look for traffic on the roadway and to pedestrians in the adjacent crosswalk. You may then proceed cautiously to make your right turn."

Captain William Burt, State Police Chicago District Commander, announced, "One of the major concerns of the Illinois State Police is traffic safety and accident reduction. An effective plan of action to achieve this goal is through high visibility and strict enforcement of traffic laws."

State Troopers participating in the Concentrated Speed Enforcement Program (CSEP) and the Concentrated Traffic Enforcement Program (CTEP) are working toward that end. These are federally funded programs which "hire-back" Troopers on their off duty time.

An example of the work accomplished for June: 655 arrests, 615 written warnings, 1,373 hours and 19,048 miles.

### MG residents victims of 'shameful waste'

Dear Sir:  
Talk about a blatant taxpayer rip-off, the recent disclosure by Morton Grove Park Commissioner Bozmos that elected officials and staff are spending \$7,000 annually to attend a "5 day

cocktail party" convention is absolutely ludicrous. Not only is the \$125 a day allowance preposterous, compared to surrounding villages which pay about \$20 a day expenses, if they attend at all, but to

spend this amount of money is a shameful waste of our tax dollars.

The park board just revealed their new budget calling for a \$40,000 increase over last year. What the board should do in all good conscience, is cancel the convention trip and apply the \$7,000 towards the increase being approved. This would reduce the increase a whopping 17%. We taxpayers need REDUCED taxes, NOT increases every year. Doesn't any elected official, park board or village, have any regard for us poor taxpayers anymore?? Seems like holding an elected office gives these people such a heady, self-serving feeling they forget they are still human beings elected to serve OUR interests, NOT theirs.

Hooray for Mr. Bozmos. He's the only elected official that has his head on straight these days. I hope other citizens will put enough heat on the park board to cancel this expense. Sincerely, John Hilkin, MG Tax Limitation Committee

### Nilesite commends paramedics and police

Gentlemen:  
People are prone to call in complaints about village services, but this is an exception. Wednesday, July 22 at approximately 2:15 p.m. I had the unhappy experience of having Roy Rollins, an over-the-road truck driver stagger into my salesroom during a heart attack. I immediately phoned the paramedics and within three to five minutes, the Niles Fire Department was there followed by a Niles ambulance. Never have I seen a more efficient, clean and knowledgeable group of men do their job.

With the assistance of the police, they attended Mr. Roy Rollins and were on their way to Lutheran General Hospital in approximately 20 minutes. I phoned the hospital Thursday and learned Mr. Rollins of Pontiac, Mich. was out of danger. I wish to commend the paramedics, fire and police departments.

Cordially,

### OCC offers basic real estate course

Oakton Community College is slating two weekend sections of Real Estate Transactions this fall. The basic course required to obtain an Illinois real estate license will be taught at OCC/Des

Plaines on Saturdays and Sundays beginning Aug. 29 and 30 and running through Nov. 21 and 22. RE 121-OW1 is scheduled to be taught from 9 a.m. to 12 noon on Saturdays and RES 121-OW1 from 1 to 4 p.m. on Sundays in the Weekend College.

"Many of the students who enroll in Real Estate Transactions are consumers from the community who would like to have more information in the subject area and are not necessarily people interested in licensing," John Mikulski, coordinator of Oakton's Real Estate program, said. "Others are preparing for the future in hope of an active sales period in real estate."

Final walk-in registration will be held on Aug. 17 and 18 from 10 a.m. to 12:30 p.m. and 5:30 p.m. to 7:30 p.m. at OCC/Skokkie, 701 N. Lincoln ave. and OCC/Des Plaines, 1600 E. Golf Rd. Other real estate courses are offered week nights. For more information call Mikulski, 655-1776.

### Marillac Music Scholarship recipients

Ten Marillac students received Cynthia Wright Music Scholarships at the school's annual Award Ceremony, May 27. Six girls merited partial scholarships, and four will receive full funding for their music lessons during the next academic school year.

Complete scholarships were awarded to Eileen Dolen (Niles), Mary Kay Pasquest (Glenview), Jackie Sledz (Park Ridge) and Peggy Miemer (Northbrook). The six receiving partial financial aid are Betty Jean Goodman (Des Plaines), Kathy and Theresa Sanford (Des Plaines), Shannon Schumacher (Glenview), Margie Sitko (Morton Grove), and Laura Lee Tracey (Glenview).

Miss Bonnie Bernstein and Miss Kristen Mackie of the Performing Arts Department made the presentations. The scholarship is named after Cynthia Wright, who died in an auto accident in 1971 when she was a junior at Marillac. Because of her interest in singing, her parents funded this scholarship which is awarded annually to girls who manifest interest, ability and dedication to music.

# Some comments regarding Niles by a successful businessman

by Ed Hanson

"I've had my own business in the Village of Niles for more than 20 years. And, I've worked here and have been a property-owner during that period of time."

The speaker was Joe Gambino, owner of UNITED TRANSMISSIONS, 7460 Milwaukee Ave., Niles, and 2740 N. Kedzie, Chicago. He is one of many Niles and area businessmen who I am interviewing about their feelings toward the community in which they do business.

"Can you tell me, Joe, after more than 20 years of experience in doing business in the Village of Niles, just what your feelings are about this community?"

"From the standpoint of my own knowledge and experience here, I say without hesitation that I would recommend to anyone starting out on their own or moving in an established business that you couldn't find a better community than Niles anywhere in suburbia."

"Specifically, why?" I asked. "I give a great deal of the credit to the way that the Village of Niles is run by its Mayor, Nick Blase, and its team of village administrators. Looking at the overall picture for more than the past 20 years, I wouldn't know where to find a better run town than Niles."

"Better run in what way, Joe?" "Well, it's a combined effort of excellent public administrators,

an excellent police, fire and paramedic service, and their response, of my own personal knowledge, is fantastic. The Public Works Department is also top drawer. Now, this is something that affects my business right in the pocketbook. Snow removal or flooded streets; the action is quick and effective. Repairing chuck holes, making the street safer for motorists, the placement of traffic stop signs and replacement of traffic lights and the repairs thereof, are quick. If a stop and go light blinks out, a cop is quickly dispatched to control the flow of traffic."

"Those are good points, Joe—anything else?"

"Oh sure. There's lots more. My customers, many of which today are the sons and daughters of those who did business with me when I first started repairing transmissions and providing complete automotive car-care, tell me things about the Village of Niles."

"Give me a few instances, Joe..." "Well, taxes, for example. The low taxes of Niles are a matter of public record. And, they also tell me some of the other things they like."

"For example?"

"Well, the concern for the small, local businessman, providing free, adequate parking

## Drew S. Bohne

Marine Pvt. Drew S. Bohne, son of Diane Bohne of 3091 Patton dr., Des Plaines, has reported for duty with Marine Wing Headquarters Squadron One, Marine Corps Air Station, Futenma, on Okinawa.

Lou Malina of Lincolnshire was recently honored at a reception given by St. Matthew Lutheran Home's board, staff and service league upon his retirement as administrator of the Home located at 1601 N. Western in Park Ridge.

During Malina's 14 years with St. Matthew's, the Home grew from an 85 bed facility to a 176 bed facility offering sheltered, intermediate and skilled nursing care. St. Matthew's is owned and operated by Lutheran Social Services of Illinois (LSSI).

At the reception, the Rev. Donald M. Hallberg, president of LSSI, presented Malina with a plaque recognizing his years of service to St. Matthews. While presenting the plaque, Rev. Hallberg told the audience about Malina's special concern and respect for the older people. He also recounted to them a question the former administrator always asked of prospective employees, "Do you love older people?"

In addition to a plaque, Malina received a watercolor rendering of the Home. The painting was a gift from the St. Matthew Lutheran Home Service League.

The Rev. Marvin J. Raymond, pastor of Holy Spirit Lutheran Church, where Malina and his wife Beth are members, was also present to comment on Malina's work with older adults and to thank him for his years of service to the congregation. St. Matthew Lutheran Home is

one of four homes throughout the state that the Lutheran Social Services of Illinois owns and operates for older adults. The continuum of care provided at these facilities ranges from independent living to skilled nursing care. Programming for older adults is just one facet of the agency's network of social services.

## CTA to start service for disabled

Persons who want information on this program should telephone 664-7200, Ext. 3394, between 8 a.m. and 4:30 p.m., Mondays through Fridays, or write to CTA Special Services, Consumer Services Department, P.O. Box 3555, Chicago, 60654.

## A.B. Dick racer finishes 4th in Michigan 500

Bill Alsop piloted the A.B. Dick Pacemaker to an exciting 4th place finish at the Norton-Michigan 500 on Saturday, July 25, despite suffering a flat tire near the end of the race. Bill was challenging front runner Al Unser for first place much of the race until the flat forced him to make an unscheduled pit stop.  
The A.B. Dick name received a tremendous amount of national TV exposure as Bill was continually among the finest runners and a live TV camera was telecasting from the nose of the Pacemaker. This marked the first time a TV camera was mounted in an Indy car and provided TV viewers with exciting footage.  
Bill and the Pacemaker will compete next Saturday, August 2, at the A.B. Dick/Tony Bettenhausen Classic in Milwaukee.

## Talent search for Family Festival

The Family Festival committee is recruiting talent for the September 12 event which will be a potpourri of games, prizes, rides, food concessions, farmers' market, novelty gift items, crafts exhibits, and entertainment for the whole family.

"The entertainment will be varied enough to appeal to the whole family," explains Edie Eisenberg, who is chairing the Family Festival. "Musical entertainment can include classical, folk, swing, jazz, or even new wave. Other forms of entertainment we are looking for are magicians, jugglers, mime acts, clowns, comedians, story tellers, puppeteers - we want all styles of performers that we can gear to different generations. We are looking for talented young people and adults who would like to showcase their talents in a format that we can describe as family entertainment, adds Eisenberg.

"We will have different areas relating to different age groups, for example, for the Teens we plan to have a game room with pinball and video games, and a band playing 'new wave music'." For the younger children we will set up an area for storytelling, games, kiddie rides, cartoons and entertainment pertaining to that age group. Adults can enjoy the farmer's market, gift and craft concessions, as well as the wide choice of eateries. And again, we would like to have entertainment relating to that age group. There will be something for everyone - from pre-schoolers to grandparents."

The Festival Committee will also be renting space to food and craft vendors. "Whereas Mayor Byrne recently held the "Taste of Chicago", we will be sponsoring a "Taste of the North Shore", states Eisenberg. "Admission is free and we're expecting thousands of families to attend. The Festival will be held on rain or shine because we have an indoor and outdoor facility. It's going to be a one-day event from 12:30 p.m. to 6:30 p.m., packed with fun and excitement for the whole family."

The Family Festival, sponsored by the Young Men's Jewish Council, will be held on the grounds of the Immaculate Conception School, at 770 Deerfield Rd., Highland Park.

For information on the talent search and space rental at the Family Festival call or write: Family Festival, YMJC, 9301 Gross Point Rd., Skokie, IL 60076 (312) 679-8490.

### Submarine sandwich parlour opens in Morton Grove

Alan Katz, owner of the Sub-Pub Restaurant, 9412 Waukegan Rd., Morton Grove, has announced the formal opening of his new store that will offer a tempting array of made-to-order submarine sandwiches. The rather complete menu offers a variety of submarine sandwiches available in 6" or 12" lengths. In addition to submarine sandwiches, the Sub-Pub serves salads, soups, chili and a wide variety of side orders. "We prepare all our menu items in the old traditional way with only fresh ingredients and plenty of it," Katz sees his

restaurant as a refreshing alternative to the hot-dog-hamburger routine. "Our sandwiches are healthy, hearty and low in calories," said Katz. The store itself is also a departure from the typical fast food restaurant. Earth tones dominate throughout, and lots of greenery. "I designed the store to be comfortable and pleasing to the eyes and ears," noted Katz. Designed originally as a carry-out, the Sub-Pub has plenty of room for those desiring to eat in. Summer hours are Monday thru Thursday 10-9, Friday 10-12, Saturday 10-1, and Sunday, 11-4.

These recipes are included in their cookbook which is available at Friedman's for \$4.50.

Can the microwave oven replace the wok? YES, according to the Hong Sisters-Lily Hong Mow and Mary Hong Saunders - authors of the first microwave Chinese cookbook in the United States, "The Hong Sister Microwave to the Orient!"

**ED HANSON**  
"Bubble Bath"

Again, to my dear, dear, feminine readers, I have some more fatherly advice. But, first, I wish to express my deepest appreciation and heartfelt thanks, to the nice lady (who did not identify herself) who changed my picture into a pig and wrote me that nice letter. (But, more about that subject at the end of today's interesting and informative column.) The divorce rate in Japan is only 9 per cent. Here, in the U.S.A., it's almost 41 per cent. Why? The basic reason according to the many marriage counselors (and other professionals (myself included) is that the Japanese woman is much more concerned with the welfare of her husband (or, as she expresses it, her "lord and master") than the American woman is. Let me give you an example. On a cold morning the Japanese wife will lie down on the floor, face down, by her husband's side of the bed, so that he can step on her back as he gets out of the bed. This she does so that his bare feet need not step upon the cold floor. And, then there is the thing that Japanese wives are famous for and very adept at — THE HOT BATH. When their husband arrives home, tired, perhaps from working or chasing their young secretaries around the desk, the Japanese woman first bows to her "lord and master" and then removes his shoes. Then, she helps him off with his clothes and she starts scrubbing him down with scented soaps and oils. After this ritual is completed, only then will she permit him, with her help, to ease down into the tub. She has made sure that the water is just the right temperature, not too hot, not too cold. Then, after bathing him, she dresses him while he sips his favorite cocktail which she has prepared for him. Now she serves him his favorite dinner, which she has spent many hours preparing. Then, he leans back at the table, relaxed and smiling while she tells him about the kids, and what the relatives are doing. Now compare this with the greeting which many American wives give their husbands. First, they snarl, "You're a half-hour late, Buster — Where the hell were you!" Then, they give cold shoulder, or something out of a can. And, finally, they'll say, "You can't bowl tonight, my mother's sick and we gotta bring her some chicken soup (this is also out of a can). Now, I don't say ALL American wives act like this — just the vast majority. You see, they're so concerned with their own welfare they don't think about their husbands. —Efforts to Americanize the Japanese woman have failed. Their divorce rate is so low because their personal consideration of their "lord and master" is so high. Of my own knowledge, I can say the Japanese woman is far superior to the American woman, in knowing and using more ways to please her husband. I've had two American wives, but I've known about 4,000 other American women. I've only

known one Japanese woman, and aside from the fact she was a "living doll", (and Besser can verify this because I once introduced him to her) I place this one woman far above the other 4,002—WAY ABOVE!!

While students will be evaluated differently for each area of interest, all will either audition or show portfolios to a committee comprised of five experts including the coordinator of the art, music, dance or theatre department. ## Royal Chicago Scots Band

Chicago's favorite community band, The Royal Chicago Scots Band, have been invited to play at the Illinois State Fair in Springfield, Ill.

The Fair is from Aug. 6-16 and the Royal Chicago Scots Band will be playing Saturday night, Aug. 15 and open the festivities on Sunday noon, Aug. 16.

Gov. Thompson is expected to appear and if plans work he will be made an official Royal Chicago Scots Band member. The governor has marched in the front of The Royal Chicago Scots Band the last three 4th of July parades.

The Royal Chicago Scots Band have become very popular in the Chicago area lately. They play for all kinds of public gatherings, concerts, parades, etc. but the thing that makes them really special is they have their own school of music. Although they invite musicians from the area to play in the band, one does not have to know how to play an instrument to join. The aspiring musician can enroll in the Royal Chicago Scots Band Academy and learn to play any band instrument. Since it is a Scottish style band, some of the members learn to play bagpipes. Others learn brass, woodwinds or drums. The best part is these lessons are provided FREE and many instruments are also provided free.

The Royal Chicago Scots Band enjoy good times all through the year by going to shows, concerts, dinners and many great parties. Some are even provided by the band treasury.

If you are interested in joining, seeing, playing in, or learning in the Royal Chicago Scots Band, call the Chief Instructor, Sgt. Maj. Virgil Wilk at 237-8525. The next class begins approximately Sept. 15, so call now.

The Muscular Dystrophy Association (MDA) needs volunteers to help with the Jerry Lewis Labor Day Telethon in the Chicago area. The 2 1/2 hour television benefit will begin at 8 p.m. Sunday, Sept. 6 on WGN-TV (Channel 9).

Volunteers are needed to answer pledge phones, tabulate pledges and other tasks important to the success of the telethon.

Jerry Lewis, MDA's national chairman, will again host the event, which will originate from Del Webb's Hotel Sahara in Las Vegas. Now in its 18th year, the marathon will be seen live on a

nationwide "Love Network" of more than 200 stations, including outlets in Hawaii, Alaska and Puerto Rico.

Last year's telethon raised more than \$32 million in pledges toward the fight against muscular dystrophy and related neuromuscular disorders.

"We're going to top that record figure this year," says Lewis, "because people of all ages support us in this fight and give whatever they can to help 'my kids'."

Those interested in volunteering for the telethon should call 965-8900.

## Physicians warn of football danger for very young boys

Little Johnny learned to play football to be a man. But he never made it.

Stories of torn muscles, ripped ligaments, broken bones and even death from tackle football are all too common among youngsters and physicians warn parents about the danger of starting too soon.

The risk of permanent injury from tackle football before bones are set is very great.

An alternative might be indoor flag football at the YMCA. Played under the watchful eyes of trained YMCA leaders, flag football features many elements of tackle football with fewer risks.

Flags are placed in the belts of all ball carrying players - backs and ends. Play ends when a defensive player grabs one or both flags. "One flag stops play with our 5th & 6th grade kids," said Jim Kohler, Program Director, at Leaning Tower YMCA in Niles.

To find out more about YMCA indoor flag football, call the YMCA at 647-8222.

## Jake's to undergo complete remodeling

by Ed Hanson

Almost as earth-shaking in news value as the marriage of the Prince of Wales to Lady Diana Spencer is the fact that JAKE'S Restaurant of Niles is starting to completely remodel and refurbish their popular eatery as of NOW!

In addition to the brand "NEW" look, there will also be a new and completely different menu. For example, JAKE'S will offer a brand new line of pancakes and waffles smothered with all sorts of delicious fresh fruits. The entire list of entrees will also be changed and new and different sandwiches will also be offered, the likes of which, according to JAKE JOSEPH, owner of JAKE'S Restaurant, have never before made their appearance in this area.

The entire look and atmosphere of JAKE'S Restaurant will possess both charm and practicality for better service, lower prices and better seating arrangements.

WATCH FOR THE IMPORTANT ANNOUNCEMENT OF JAKE'S NEW FACILITIES, which will be tied in with his two day 11th ANNIVERSARY CELEBRATION. All BUGLE newspapers will carry this message with full page ads heralding the exact date of this gala event.

And, then as NOW, JAKE'S big 20% discount - the largest in the area - will be available to ALL senior citizens from 2 p.m. to 4:30 p.m. Monday thru Fridays.

WATCH FOR THE BUGLE'S BIG ANNOUNCEMENT ADS...

NICOR Inc. today reported net income of \$104.9 million for the six months ended June 30, 1981 compared with \$96.1 million the same period a year ago. Earnings per share were down to \$4.83 from \$5.10 for the earlier period due to a 16 percent increase in average common stock outstanding.

According to C.J. Gauthier, NICOR chairman and president, the increased income was due primarily to increases in the

nonutility segments particularly in the contract drilling business. He stated that nonutility net income rose by 50 percent to \$20.6 million from \$13.7 million a year earlier.

For the 12 months ended June 30, 1981 earnings per share were \$5.12 on net income of \$110.3 million compared with \$4.89 on net income of \$94.0 million and 2.4 million fewer shares a year earlier.

## Students complete courses in Action Learning Center

The Niles Township high schools Action Learning Center (ALC) recognized twelve seniors on June 6 for having met all requirements of the ALC and of District 219. ALC teachers Bill Robinson, Jim Olsen and Pat McGuinness recognized Mark Goodman, Debby Salomon, Lori Alpert, Victoria Jacobs, Kim Leahy, Liz Cook, Greg Vaughn, Barry Kaplan, Mark Trykowski, Gary Siegel, Rich Robbins and Wendy Rittenberg. These students also received diplomas

from either Niles North or Niles West, and could participate in their home school graduation ceremony.

The ALC is District 219's alternative high school program that offers sophomores, juniors and seniors an option that emphasizes experiential, hands-on learning through association with community businesses and service agencies, as well as through small, informal and individualized classes at the ALC building on the Niles West cam-

pus. For example, students learn about law by working as aides in law offices, courts and police departments, where they are taught skills and procedures, but also observe the practitioners in action and discuss the field with them.

The Center has been in operation since 1973, enrolling 40-50 students each year. Graduates traditionally continue their educations in four-year or junior colleges or in vocational schools

## Jerrold Brim co-chairing key awards

Jerrold Brim, a partner in the Skokie-based architectural firm of Brim/Braun Associates, is co-chairman of the "Key Awards 1981," the prestigious competition sponsored by the Home Builders Association of Greater Chicago.

The competition, now in its 10th year, determines the most attractive and best-built residential housing -- both new and rehabilitated, single or multifamily -- in the Chicago area. Categories are subdivided according to type of housing and price. New divisions for custom homes, developers, architects, interior designers and landscape architects have been added for the first time this year.

All HBAGC builders and associate members in good standing are eligible to enter the competition, according to Brim. Awards to be presented at a special annual dinner on Oct. 9 include the coveted Gold Key, Silver Key and Merit Awards.

This year's professional judging team is composed of experts involved in each field. They include a builder/developer, architect, land planner, landscape architect, interior designer, display center designer and sales/marketing individual. Entries are judged by this team alone according to their excellence of design, construction and marketability.

Brim is a Morton Grove resident, and Brim/Braun has offices in Skokie.

departments, there had been a 2 year process of equalizing the wages of department heads.

Hilkin and the board carried on their usual exchange of accusations with trustees alluding to the past board as allowing village buildings to deteriorate and failing to seek federal funds and grants. At one point Mayor Richard Flickinger admonished Hilkin, "You've had your speech; now get out of here."

The appropriation ordinance won unanimous acceptance from the village board. Greenberg stated they had no idea at this point what the tax rate would be, as assessed valuations have not yet been announced.

Regarding other litigation in which the village is involved, village corporation counsel Martin Ashman was granted permission to defend a second citizens' lawsuit stemming from the board's decision to ban the sale and possession of handguns in Morton Grove. This lawsuit names as plaintiffs Robert Stengel, Martin Gutenkauf, Walter Dutechak, Alice Gutenkauf, and Geoffrey La Giola. In the same manner as Victor Quilici vs. Morton Grove, Jenner and Block will aid in the defense, with fees paid by the National Coalition to Ban Handguns.

In other business before the July 29 meeting of the Morton Grove village board:

Sterling Codfysers Inc. has been granted a contract for \$7,828 for the extensive task of recodifying village ordinances, to make them easily accessible to the public and law enforcement personnel. Sterling will provide forty, 650 page books with a charge of \$12.50 per page for extra pages added to keep these books current.

Stables compliance with health and safety regulations and have accepted proprietor Frank Jayne's 30 day deadline for further clean-up.

Trustee Gregg Youstra announced a series of street lights will be installed on School Street from Lincoln to Dempster and on Capulina from Ferris to Austin. Federal bioc grants funds will be paying for the work.

Affordable Roofing of Glenview has been awarded the contract for reroofing a section of the roof at the public works facility, 7840 Nagle. The board voted to go out for bids on the rest of the roof now.

A fence costing \$6,563 will be constructed around that building by United States Steel Company. Charles Klehm and Sons nursery of Arlington Heights was the low bidder at \$6,045 for the 50/50 tree planting program.

H & H Electric was low bidder on the contract for maintaining street lights and traffic signals for \$25,170.60. A master agreement has been signed with the state which will reduce Morton Grove's share of the traffic signal maintenance bill from \$14,000 to \$3,500.

### Niles Parks...

Cont'd from Niles-E. Maine P.1

Hughes also told The Bugle that progress on regular park projects has been slowed down due to the fact their maintenance crews are spending most of their time repairing the damages to the equipment.

When asked if the park intended to increase the security patrols by the private security firm of Protection, Ltd., Hughes said this would be a matter for the Park commissioners to review. Protection, Ltd. which was hired this year by the Park District patrols the parks for 35 hours per week. According to a spokesman for the firm, two separate patrols cover the facilities: one from 6 p.m. to 11 p.m. and the other from 6:30 p.m. to 11:30 p.m. each night.

In previous years the park hired college-age youths who were on duty for 56 hours a week. Protection, Ltd. said the majority of the vandalism was occurring either before they came on duty at 6 p.m. or after they completed their patrols at 11:30 p.m.

In addition the patrol service said they had donated 2 CB radios which were installed in park vehicles so that their patrols could maintain contact with CB'ers in the Chesterfield Garden area and be kept abreast of any illegal activities in that area. The service also noted several letters of commendation had been received by them from grateful residents.

Park Director Hughes also reminded parents that under Niles law, parents of young vandals are liable for the cost of repairing any damaged equipment if they are caught and positively identified. In addition, anyone caught drinking in the parks were previously warned and told to leave the area.

Park personnel now feel a 'get tough' policy is necessary since most of the offenders are between the ages of 12 and 16. Hughes concluded, "Not only is it illegal for minors to drink beer, it is also illegal for any alcoholic beverages to be brought into a Niles park and stricter enforcement of this law will be instituted."

Important dates under the new law are: Saturday, Aug. 29: last day for filing objections to nomination papers in the office of the local election official.

Wednesday, Sept. 9: last day for candidates to withdraw for nomination.

Further information on becoming a candidate in the November 3rd board election may be obtained by contacting Vincent Bugarin, 6935 Touhy ave., Niles.

### RED System...

and Glenview met to explore the idea of sharing some expenses such as emergency dispatchers and training of firemen.

The original idea for the system, however, was proposed by Kinowski and Niles Fire Chief Al Hoelbl. Ken Scheel, Niles Village Manager recalled, "They came to me with this idea and we began brainstorming and eventually tried to sell it."

Prior to the establishment of RED, area fire departments purchased major fire fighting equipment based only upon their own needs. Today, the participating fire chiefs from the five fire departments meet to discuss, among other things, the equipment they have and, before buying new equipment, check and see what each other already have. Thus the RED fire departments are no longer purchasing duplicate equipment and that should be good news to taxpayers as the cost of new fire engines is now more than \$100,000, noted Kinowski.

Also participating fire departments often buy each other used equipment when one department wants to sell unneeded equipment.

Other areas in which the fire departments will eventually be saving money will be in the joint purchasing of equipment. Just in the initial stages, RED fire departments are looking into the collective purchases of fire hoses, uniforms, fire prevention literature and even buying a radio maintenance contract jointly.

An example of how RED has already saved Niles taxpayers money is the establishment of the joint dispatchers. Kinowski stated, "In 1978 when we went to share-costing, Niles had budgeted \$80,000 for emergency dispatchers. Today Niles' share of this expense is \$68,500."

Another cost-saving benefit of RED is the dramatic reduction of off-duty personnel being called in when firefighters are battling a major fire. Before RED was established, area fire departments would have to call in off-duty firemen to man the department when on-duty firemen were at a major fire. Now fire departments are able to spread their manpower among other RED fire departments and do not find themselves in need of off-duty personnel as often as before RED.

Kinowski foresees the day when the RED fire departments will provide mutual maintenance of all fire equipment instead of each department doing its own mechanical work as is presently done.

Born in Niles and developed by local officials, the RED idea clearly is the path suburban communities around the country will be traveling in the future. And as Niles continues to develop its RED program with surrounding villages, residents will continue to see their tax money saved.

Now what will be happening to our community in the future?

I see all of our progress continuing, and, in fact, picking up momentum if you help. We need your assistance by asking you to tell the businessman who has improved his store, parking lot or signs that you have observed his improvement and appreciate his efforts. We need your help by reporting anything that distracts from a pleasing appearance. We need your help by offering suggestions on how we may upgrade our appearance. But most of all, we ask you to please observe what is happening to our community and to have a hand in making it a better place to live. Take care of your property because it will increase in value if we make our Village a desirable place to live, work, and shop.
