## Niles to begin checking trucks for overweight

by Bob Besser  
The Niles Village Board approved on Tuesday night using \$50,000 in revenue sharing funds to purchase an industrial scale to weigh overweight trucks driving through Niles. The request for the scale, made by Niles Police Chief Clarence Emrikson, was

approved by the board unanimously. Trustee Peter Pesole was not present at the meeting. Emrikson said the scale will make overweight trucks avoid Niles streets which he hoped would result in a "tremendous" savings on road repairs caused

by overweight trucks. Emrikson added federal cutbacks will be resulting in more village money having to be used for road repairs in the future. The scale, which is 75 feet long, will be able to weigh trucks up to 100,000 pounds. Emrikson said

## Tax levy hearing set for tonight

# Resolution finalizes District 63 bond sale

Board members of East Maine School District 63 approved a resolution pertaining to the closing sale of \$5,300,000 in bonds as approved at a former special meeting. Action took place at Apollo Junior High School, 10100 Deerd., Des Plaines. They also approved the setting up of an escrow fund in order to refund the bond issue. The one issue of three bonds would include \$1,500,000 for the working cash fund, \$1,700,000 for school fire prevention as well as safety and energy conservation, and \$2,630,000 for refunding. Repairs or other alterations are necessary on the 11 district schools in order to conform to the State's life and safety regulations. A hearing on the proposed budget and tax levy increase is scheduled to be held at 7 p.m. Thursday, Sept. 24 in Apollo school. Sufficient taxes are necessary in order to fund bond interest as it becomes due. Board members also approved a tentative two-year contract with the East Maine Custodial Maintenance Assn., the custodians' labor union, subject to approval of the written contract. About 27 persons will be affected with an average monthly

## From the Left Hand

by David (Bud) Besser  
Over in Morton Grove the park board commissioners are getting a bit obstreperous with one another over advanced expense money given to commissioners for conventions. One commissioner, Nick Boznos, blew the whistle on the other commissioners who were expecting \$125 per day of expense money above and beyond their hotel expenses.

A comparative study showed no commissioners in 11 surrounding park districts allotted themselves more than \$25 per day for expense money. After the MG park board president chastized Boznos for "making fools of us", the board okayed \$50 for national conventions and \$25 for state affairs with additional reimbursement due if receipts are presented for payment.

While the MG park board seems to be using atrocious judgment, the bigger question concerns public officials attending conventions.

A few years back Niles trustees spent several days in Hawaii studying and attending seminars and discussions concerning municipal government. We twitted our friends from Niles since the entire "education" package cost taxpayers a few thousand bob. Everybody feigned a bit of embarrassment over the bit of noise we caused and then they quietly moved on to Atlanta, Las Vegas, Borneo and Afghanistan for their next "education" junkets.

### NI-Gas to give refund to customers

Northern Illinois Gas Company is refunding to customers a total of \$34.8 million including interest from NI-Gas of about \$1.4 million as a result of a recent U.S. Supreme Court ruling invalidating a Louisiana tax on natural gas transported through the state. The decision provides for refunds to be received by NI-Gas throughout the year and passed on to customers over 12 months. An average reduction of approximately .6 cents per therm in the purchased gas adjustment will be made to cover both the refund and interest. For the typical residential customer, billing for the next year will be reduced an estimated \$10 because of this decision.

## Bugle Digest Local News Briefs

Niles businessmen joined with Mayor Nicholas Blase last Friday, Sept. 15, as two busloads converged on the Daley Center for the filing of a lawsuit against the City of Chicago challenging the validity of the new 1¢ sales tax as it applies to places doing business outside Chicago. Judge Anthony Scollito of the Cook County Circuit Court set a hearing for 2 p.m. Wednesday, September 23 (after press time) on Niles request to block Chicago from penalizing merchants for not collecting the new 1¢ sales tax from buyers. Niles was joined in their suit by Alert TV, 7658 Milwaukee as representative of the suburban merchants who are required to collect the city tax.

In a meeting held on Sunday, September 20 at Centre East in Skokie, Senator Charles Percy told mayors from Skokie, Wilmette, Morton Grove, Niles and Lincolnwood that the Metropolitan Sanitary District has kept the Chicago suburbs from getting the much-needed federal funds for flood control by siphoning all available monies into the Deep Tunnel project. Niles Mayor Nicholas Blase told the group that we have been getting "a 20 year rain every 2 years" and while we have spent millions of dollars in our villages to provide adequate sewer systems, the outlets are jammed and the water is backing up in our basements. The North Branches of the Chicago and Des Plaines rivers are incapable of handling severe storms in a short period of time. Blase charged the State and Federal government with "shortsightedness" by not providing outflow in federal and state controlled river outlets.

The Village of Morton Grove's treasury could be fattened by approximately \$77,000 as various rights and options are sold to ABC. The TV network is currently negotiating with the village for a made-for-TV movie about the recent adoption of ordinances banning both the possession and sale of handguns in Morton Grove. If the deal is finalized Morton Grove Mayor Richard Flickinger said the village could make \$35,000 from movie rights and options while he and the board members could make approximately \$6,000 each. Flickinger and the board members have unanimously agreed they would not personally accept any money for the movie rights, but would turn their shares over to the village. These monies would probably be earmarked for a special project.

While we're on the subject of movies, the showing of the movie "Skokie" has been rescheduled by CBS-TV from Oct. 13 to Nov. 17. The film which tells of the Nazis' attempted march on the village stars comedian Danny Kaye in his dramatic debut.

The State of Illinois is currently accepting bids for the widening and resurfacing of Austin ave. from Dempster st. to Beckwith rd. in Morton Grove. In addition drainage structures will also be installed.

With the resolution of the machine operators' strike, construction is once again starting on projects in the Village of Niles. The resurfacing of Courtland ave. from Milwaukee ave. to Church st. began Tuesday, Sept. 22. Storm sewers are also being installed on Courtland. Completion of the work, dependent on weather conditions, is expected this fall. In addition the storm sewer which has been dead-ended on the west side of Milwaukee ave. in front of Chateau Ritz is currently being brought across Milwaukee ave. for hookup with the storm sewers on the east side. Keith Peck, Public Works director said this should help residents in the Courtland Park area considerably with any problems they may have previously had with flooding. In addition Peck said the design of the intersection of Courtland ave. with Milwaukee ave. is being changed so that drivers can go onto Milwaukee ave. at right angles making it a safer situation at that corner.

East Maine School District 63 is planning to approve a tax levy for 1981 of \$10,178,905 after a public hearing which is planned for 7 p.m. tonight (Thursday, Sept. 24) at the Apollo School, 10100 Deer rd., Des Plaines. This is a 49 per cent increase over the last year. Jim Bowen, Business manager for District 63 qualified the tax levy by stating the district was uncertain how much the Maine Township's assessed valuation would increase after the quadrennial reassessment next year and for this reason, were setting the high tax levy. Niles Mayor Nicholas Blase sent a letter to District 63 School Superintendent Bond, Jim Bowen and the school board members noting the following information: "You are conducting a Public Hearing on September 24, 1981 to discuss your suggested increase of 49% on the amount of taxes to be levied in School District #63 for the coming year. Maine Township is going to be reassessed this year and if we accept the precedent of what happened last year in the Townships of Wheeling, Northfield, New Trier, and Niles, we can expect an assessment increase of over 30%. Therefore, if you levy a 49% increase in your property tax, it could well be that you will get all of the money that you are requesting, that being \$10,178,000, or an increase of \$3,361,700 over last year. This could raise property taxes on homes in our

## Press relations workshop at Oakton

It is one of those jobs you thought would be easy until you found yourself doing it. The first few years you spent working with a community organization, school board or church group someone else took care of publicity and press releases and promotion while you paid little attention. But this year you have been appointed publicity chairman and now you have to find ways to get your news and announcements in the paper.

It is for you and others like you in the same situation that Oakton Community College and MONN-ACEP schedule a workshop in press relations each semester. The next seminar, to be held Saturday, October 10 from 9:30 a.m. to noon at OCC/Des Plaines, 1600 E. Golf, will be conducted by members of the Northwest Press Club. They will help you learn how to put the who, what, where and why together into a cohesive press release.

The fee is \$3 - a small price to pay for anyone who wants to see his or her new releases end up in type rather than the circular file.

Are you seeking faith-answers to... science... democracy... nation... even 'religion'?

### Reach out and arrest someone

A 22 year old Chicago resident escaped from the Niles Police Department on Wednesday, September 16. However, he turned himself in after being advised to do so by police over the telephone. According to police, the man was arrested in Niles after being found driving without a driver's license and without license plates on his car. After being brought to the Niles Police Department, he was told to remain seated in the front of the reception area of the police department as he awaited help in raising the \$65 bond. However, he fled the department and returned home. When contacted by phone, Niles Police advised the Chicago man to return to the police station which he did. He was additionally charged with escaping from the police. After being processed, the Chicago man was assigned an October court date and released on \$1,000 bond.

### Arrested after traffic incident

A 27 year old Des Plaines resident was arrested after striking a driver with whom he had a traffic accident in Niles on Monday, September 14. According to police, the Des Plaines man was driving near Caldwell and Touhy aves. when, while changing lanes, he hit the back fender of the vehicle in front of him. After both cars stopped, the Des Plaines resident pushed and struck the driver of the vehicle he hit. Niles Police subsequently brought the Des Plaines resident to the Police Department where he was charged with battery. Following his processing the man was assigned an October court date and released on \$1,000 bond.

### Arrested for lifting underwear

After being detained the woman was brought to the Niles Police Department where she was charged with retail theft. The woman was assigned an October court date and released on \$1,000 bond. Store officials said the stolen garment was worth \$10.

### School safety tips

Walking to school - or anywhere - is serious business because each year over 2,400 children under 15 years of age are killed and over 12,000 children are injured while walking or biking to and from school. For safety's sake, your child should walk the route to school with you before doing it alone, and know his or her name, address, and phone number, plus your names.

## Unclaimed guns destroyed by Sheriff

Sheriff Richard J. Elrod views more than 300 firearms recently on display in his Daley Center office prior to their court-ordered destruction. The weapons consist of rifles, pistols and shotguns taken into custody by deputy sheriffs, primarily during evictions throughout the county. When a gun is encountered by a Sheriff's Eviction Crew and the owner is either not available or cannot produce required state and local permits, the weapon is impounded. It can be reclaimed when the owner appears at the Sheriff's Office with a State of Illinois Firearms Owner's Identification Card and a local permit, if required. Sheriff Elrod noted that the various police agencies within Cook County confiscate and destroy thousands of illegally possessed or abandoned guns every year.

## Seat belts are life insurance

Strict enforcement of the 55 miles per hour speed limit has cut Illinois' traffic death toll to 1049 fatalities for the first seven months of 1981 from 1083 for the same period last year.

Captain Hugh S. McGinley, Commander of State Police District 15, would like to cut that death toll even more and knows how it can be done at no cost to the motorists. Statistics indicate that a national death toll of over 50,000 traffic deaths per year and a state toll of 1994 per year could be cut from 25 to 50% if all motorists would only use their seat belts. At present only 9% of the people riding in motor vehicles use seat belts. Here in Illinois that could save 499 to 997 lives per year," McGinley stated.

People always seem to find some excuse why they won't wear their seat belts. The most popular one is the misconception of being trapped inside the vehicle in case of fire or falling into the water. Accident records show that less than one percent of those who die in traffic accidents are trapped in the vehicle. In most cases the victims have been knocked unconscious by impact with the windshield or some other part of the car interior.

Another excuse is that I might be saved if I'm thrown clear of the car in an accident. Wrong! The fact is that your chances of being killed are almost 25 times greater if you are thrown from your vehicle.

Captain McGinley added, "In times when costs are rising daily,

I'm surprised that people don't take advantage of the free life and accident insurance by just fastening their seat belts."

## Tighten laws on drunk drivers

On August 20, 1981, Governor James R. Thompson signed Senate Bill 457 into law. The new legislation makes numerous changes in the Driving Under the Influence and Implied Consent laws. These changes will simplify the processing and prosecution of subjects arrested for Driving Under the Influence. The new provisions of the law will go into effect on January 1, 1982.

How is the Illinois State Police preparing itself? Training sessions will be held during the months of November and December to appraise all sworn personnel of the new procedures that will be followed. Plans are being made to streamline the DUI process. Copies of the new enforcement sections were sent to all personnel so they can familiarize themselves with it.

"The enforcement of this law will be a very high priority of the State Police. The passage of this legislation by an overwhelming vote, its strong support by the citizens of Illinois and the Governor's charge to us clearly makes vigorous enforcement of this law a mandate," stated Ronald J. Miller, Superintendent of the State Police.

### Maine East Homecoming activities

The theme for this year's Homecoming at Maine East September 25-26 is "It's A Small World," but the annual celebration will be no Mickey Mouse affair. The Demons will take on the Waukegan East Bulldogs the evening of September 25 as the main attraction.

The festivities begin Friday, morning with a pep rally in the cafeteria before school. Friday is also Blue and White Day and all students should get out and wear the school colors. After school in the administration parking lot from 4-6 p.m. classes and clubs will be decorating cars for the evening parade. The sophomore football game starts at 6 p.m. in the stadium and then, before the varsity game at 8 p.m., the decorated cars will be paraded around the track. During half-time of the varsity game, the 1981 Homecoming King and Queen will be crowned.

Saturday, September 26, Maine East's soccer team takes on Waukegan East. The sophomore game starts at 9:30 a.m. and the varsity begins at 11 a.m. Finally, on Saturday evening starting at 8 p.m. is the Homecoming dance, sponsored by the senior class. Network will provide entertainment. Tickets for the dance are \$7 per couple and will be sold in the cafeteria during the lunch periods on Friday, September 25.

### Car wash for Park Ridge YMCA

Is your car filthy? Are there little "wash me" signs scribbled in the dust of your car's exterior? Then take notice! The Park Ridge YMCA Leaders Club is sponsoring a "pre-frost" car wash on Sunday, September 27 from 11:30-3:00 p.m. The cost is \$1.50 and you don't have to bring anything but your car and a smile! The car wash will be located at the YMCA, 1515 W. Touhy in the west parking lot. For more information contact Jill Tenehats at 825-2171.

Maine East's Homecoming king nominees (l. to r.) Pete Varco of Park Ridge, Mike Overbeck of Niles, Pete Szoke of Park Ridge, and Alan Breithart of Niles. (Not pictured: Mike Coglianes of Niles and Dan Redig of Niles). During half-time of the varsity game on Friday evening, the 1981 Maine East king and queen will be announced.

## Niles Athlete keeps a busy schedule

Pat Berrigan of Niles is maintaining a fast pace during his last year at Maine East - he's busy with homework, running, and working. And run he does - Pat's a returning cross country letterman as well as participating on the track team.

His academic schedule includes Accounting, Government, Woods III, and Auto Mechanics, and next fall he plans to take business courses as well as run cross country and track in college.

Pat became interested in cross country his freshman year. He said, "My freshman year I was a sprinter, and all the sprinters ran a half mile. Coaches Eck and Sazonoff then encouraged me to come out for summer cross country. I liked it and I've been participating ever since." Also, Pat related that his father was active in high school athletics and "that's probably another reason I stayed out for cross country because he encouraged me a lot throughout the years and helped me get through the hard spots."

### Fishing license fees going up in Illinois

Governor James R. Thompson has signed a bill increasing the fee for fishing licenses, with the new revenue going toward support of the state's fish hatchery system.

"This measure, even though it involves a fee increase, is supported by major sport fishing groups across the state because it will improve the stocks of fish in our state's water system", Thompson said.

Under House Bill 197, resident sport fishing licenses will increase from \$5 to \$7 while non-resident licenses will be hiked from \$6 to \$12. The combined hunting and fishing license will be increased from \$11 to \$13. All of the fee increases will not take effect until April 1, 1982.

The Governor said the increases will generate about \$1.5 million, with that revenue to be used for operating and maintenance expenses of the new fish hatchery system.

### Niles West runners win Township Championships

Both the Varsity Boys and Varsity Girls Cross Country Team dominated the Township Cross Country Championships as they ran to perfect scores of 15 points. The 1.9 Mile race was run thru the streets of Skokie on September 5 under very sunny skies.

The varsity boys were led by senior Mike Lee who just edged out West sophomore Jim Woodier by less than a second. Close

The bill, which received overwhelming legislative support, also creates a distinction between wholesale and retail minnow dealers, establishing a \$25 license fee for wholesale dealers and \$5 for retail minnow dealers.

In addition, it allows commercial mussel fishermen to use Scuba diving gear to harvest mussels.

The measure was sponsored by Representative Joseph Ebbesen, DeKalb, and Senator John Groberg, St. Charles.

behind were sophomore Dan Sullivan, senior Lou Gross, and senior Paul Wilm. Junior Lee Serola was the first runner from Niles North as he placed sixth in the varsity race.

The West Varsity Girl's team ran as a pack during most of the race with senior Jenny Weiss just edging out senior Laura Friedlander for the individual title. Not far behind was junior Robin Telengater, sophomore Jennie Campbell, and junior Sue Rosenblum. Sophomore Karen Kuehn was North's first runner as she placed sixth overall.

Both the West varsity boys and girls teams scored only 15 points to North's 46 points. Both Coach Savage of the boys and Coach Sloan of the girls were very elated with their athlete's running and winning. Coach Savage was especially pleased with the leadership shown by senior Miie Lee with Coach Sloan was very pleased with the way the girls ran as a pack for most of the race.

## AN OFFER YOU CAN'T REFUSE TAX-FREE INTEREST AND \$20

### NORWOOD'S ALL SAVERS CERTIFICATE

#### The Certificate

The All Savers Certificate is a one-year savings certificate which pays 70% of the yield on one-year U.S. Treasury bills. It is especially attractive at this time because savers can exclude interest from income subject to federal taxes. The maximum tax exclusion is \$1,000 on single tax returns and \$2,000 on joint returns.\* For many, this is the first decent tax break they'll receive. Check the table below for sample yields. Certificate may be opened with \$500 or more.

\*This is a one-time tax exclusion. Substantial penalties required for early withdrawal.

#### The Offer

Because we feel this certificate is beneficial to savers and to Norwood Federal, we will give you \$20 when you open one of these tax-free certificates with \$5,000 or more. We think it's an offer you can't refuse—tax-free interest plus \$20 in cash.

#### Other Benefits

- This tax-free certificate is fully insured by the Federal Savings and Loan Insurance Corporation, money market funds are not.
- This certificate affords an excellent one-year return for a low minimum deposit.
- Even in lower tax brackets, the effective yield is boosted by the tax-free dollars savers are not required to give the government.

Stop by and open an All Savers Certificate today. Or, if you would like more information call 775-8900 and we will be happy to mail you a detailed brochure. **Niles**

**Karate classes at Niles Park District**

Karate-the Japanese art of self-defense, is being taught at the Niles Park District on Tuesdays and Saturdays starting the week of October 5.

What can Karate do for you? "A lot," according to Niles instructor John DiPasquale, a member of the A.A.U. U.S. Karate team. "Besides learning self-defense, you achieve confidence, discipline, agility and physical fitness."

"Self-defense especially is important for females in case they are attacked. Confidence will help anyone in work or a school situation. A lot of children don't like school or sports because their classmates pick on them. This is very serious because it can foster a poor education."

"Discipline is an attitude that students acquire after a period of time. You would be surprised at the change after six months of lessons."

"Really, no matter how young or old, flexibility and agility exercises of Karate help. No matter if you're an athlete or a bookworm, these exercises also are great for physical fitness."

What is special about Karate compared to other sports? "For one, no matter how good or bad someone is, he still can participate. Whereas in some organized sports, the best players see the majority of playing time."

Karate does have tournaments for the competitive minded person," says Mr. DiPasquale.

Mr. DiPasquale should know, he competes all over the country in tournaments, having just recently placed third at the A.A.U. Nationals in Boston, Mass. Mr. DiPasquale has had a successful year on the tournament circuit, having placed in every tournament he has entered.

He will try his luck at U.S. team Karate Championships and International Goodwill Tournament on October 10 and 11 at Prospect High School in Mt. Prospect. Tickets are on sale at Niles Park District. For further information regarding classes or the tournament call Niles Park District, 967-6633, or John DiPasquale, 466-2011.

**We'll pay you 20% to get a head start on tax-free savings**

When it comes to savings, it's not the interest rate but what's left after taxes that really counts.

Congress thinks so too! A new law effective October 1, allows tax-free savings, something we all could use. The Skokie Federal tax-free AllSaver account lets you exempt a full year savings interest from federal income tax. That's up to \$2000 tax-free interest on a joint return or \$1000 on an individual return. You could invest up to \$20,000 and not pay a penny in taxes.

Because it's tax-free, it could be the highest yield you've ever earned! If you're in the 40% tax bracket, you would have to earn at least 21.00% (all year long) to equal the return of the tax-free AllSaver account. If you're in a higher bracket, your equivalent yield would be even higher.

Your yield is stable and your deposit is fully insured. The yield on the Skokie Federal tax-free AllSaver certificate is fixed for the entire term of the certificate — one year. And it is fully insured by an agency of the U.S. Government — unlike the money market funds.

Here's what you'd have to earn to match 12.61% tax-free:

If your family gross income is:	Your tax bracket probably is:	The yield is equivalent to:
\$50,000 or more	50%	25.22%
35,000	40%	21.00%
25,000	30%	18.00%
20,000 or less	25%	16.81%

Interest rate of 12.61% is equal to 70% of average investment yield on one year U.S. Treasury Bills at most recent auction. Figures above are approximate and based on 1981 tax tables.

You can get a head start bonus! We think tax-free savings are so important, we've designed a head-start program with a bonus. If you have a certificate coming due any time between now and October 1, bring it to Skokie Federal Savings. We'll pay you 20% simple interest in a special Cash Builder holding account and then transfer your savings into the tax-free AllSaver certificate October 1.

You won't wait in lines or parking lots, you won't miss a day's interest, you will get a tax-free certificate and an interest bonus — automatically.

The minimum deposit is low — only \$500. Congress intended a tax-free account for every saver and we agree. You can start your tax-free AllSaver certificate with as little as \$500.

Skokie Federal Savings locations are convenient and local. Your tax-free AllSaver certificate may be opened at any Skokie Federal office in person, by phone or by mail. There's a Skokie Federal branch open six days a week during hours that are convenient to you. For additional information call 674-3600 or any branch office.

# AMUSEMENT GUIDE

## 'The Front Page'

Theatre First, Inc., a not-for-profit community theatre company, opened its door in January 1967 with a production of *Our Town*. The company's intention was to offer Chicago-area residents quality dramatic and musical entertainment at affordable prices, and to provide Chicago actors with a training ground in which they could display their talents, continuing this tradition, this year Theatre First is celebrating its 25th season with a "Salute to American Theatre", beginning with a production of "The Front Page."

Written by Ben Hecht and Charles MacArthur and originally staged by George S. Kaufman, "The Front Page" is a fast-paced, uproarious comedy of

newspaper life in Chicago in the late twenties. The story revolves around Hildy Johnson, a reporter with ink in his veins who is torn between covering the biggest story in Chicago politics for his ruthlessly funny managing editor, and the pleas of his sweetheart to give up the newspaper game for the life of respectability.

Join Theatre First for an evening of classic American comedy entertainment at the Athenaeum Theatre, 2936 N. Southport, where Lincoln, Southport and Wellington intersect. Performance times are 8:30 Friday and Saturday evenings; 2:30 Sunday afternoons, October 2-18. For information call 792-2226.

An unveiling ceremony of world-famous sculptor Carol Marks' newest creation, "Heritage," the latest addition to the array of Metropolitan Chicago art treasures will take place at 2 p.m., Thursday, September 24, 9700 Gross Point rd., Skokie.

"Heritage" is a six-foot bronze sculpture commissioned by the Elizabeth Bumagin Memorial Fund and the Victor Bumagin family, in memory of their daughter, "Libby."

The six bronze limbs which elegantly shape the human forms reaching out -- a celebration of life. The Bumagins wanted to commemorate their daughter in a way people remembered her - lively and energetic.

## Teleprompter - In The Public Interest

### Soon, a trip from Kennedy Center to Centre East may take just a twist of the dial.

Teleprompter's proposed cable system for Skokie could take you from Carnegie Hall to the Hollywood Bowl, from the Metropolitan Opera to Centre East without leaving your home. You will be able to see premier cultural events from the best seats in this house - your own.

Bravo!, a national fine and performing arts channel and ARTS, a new cultural channel from ABC-TV, would be your tickets to events such as Broadway plays, ballet, plus the finest orchestras and symphonies. You could sit in on jazz festivals, piano recitals, and other popular musical events... or watch the latest modern dance or traditional opera.

Locally originated programming on Skokie Encore! would bring you first class live and recorded productions from Centre East and throughout the community. Among the programs envisioned are drama, dance and musical concerts, and discussions with local performers, writers, directors and critics.

Along with the cultural events, Teleprompter's proposed 104 channel system would also bring you sports, first-run movies, local news, religious programs, 24-hour continuous newscasts and programs on comparative shopping and consumer affairs.

You can find out about all the possibilities of cable television by asking for a free copy of *Cable Television For Skokie*. Just call 673-9036.

## FNBS Doughboys bomb Cannonballs

The regular First National Bank of Skokie softball team, the one that plays in the N.I.I.A. league, holds practice and even wears uniforms...is annually challenged by a pick-up team of other bank employees who spend most of the year scoffing and ridiculing organized team play.

This annual classic of titans' game took place at Oakton Park amidst much hooting, hollering and flailing the wind with ball bats the ultimate result being that the regularly constituted team of FNBS Doughboys routed the rag taggle pick-up team with a trouncing that consisted of a one run victory.

In picture above Tom Monahan, President of the quarter billion dollar First National Bank of Skokie and pitcher for the challenging team, stated that his team took a solid second in the one game series while the regulars could only manage to come in next to last. Rick Stearns and Carl Rath took on as Monahan scorches a strike across the plate. Two enthusiastic fans who could not control their anxiety are seen walking across the outfield.

# tax-free interest

at  
**First Federal Savings of Des Plaines**

**THE ALL SAVERS CERTIFICATE**  
If your savings aren't earning enough, you should consider the new ALL SAVERS CERTIFICATE. It's a good way to save!

**HIGH TAX-FREE INTEREST**  
Interest earned on the ALL SAVERS CERTIFICATE is exempt from federal income taxes up to a lifetime \$2,000 for a joint return or up to \$1,000 for an individual return. The rate of interest available is determined every four weeks based on the yield of 52-week Treasury Bills. That annual rate of interest will be 12.61% on October 1, 1981.

**GUARANTEED RATE**  
The rate available at the time you open your account will remain fixed for the entire period of the certificate. You need not worry about a fluctuating interest rate.

**LOW MINIMUM, SHORT TERM**  
The ALL SAVERS CERTIFICATE has a maturity of one-year and can be opened with \$500 or more.

**INSURED SAFETY**  
Your savings are insured safe up to \$100,000 by the Federal Savings & Loan Insurance Corporation, an agency of the United States Government.

**HOW MUCH WILL I REALLY EARN?**  
To answer this, you should estimate your taxable income (your total income less your deductions). This figure places you in a certain tax bracket, and the higher your bracket, the greater the advantage. The following chart should be helpful.

TAX-FREE RATES COMPARED TO TAXABLE RATES		
Taxable Income (Joint Return) Bracket	Tax	Taxable Interest Rate Necessary to Earn Same Amount as 12.6% Non-Taxable
\$24,601 - \$29,900	32%	18.5%
\$29,901 - \$35,200	37%	20.0%
\$35,201 - \$45,800	43%	22.1%
\$45,801 - \$60,000	49%	24.7%

NOTE: Above figures are based on 1980 federal income tax schedules. A substantial penalty is required for early withdrawals.

## District 63 special milk program

The East Maine Public Schools, District #63 today announced its policy for Free Milk or Meals for children unable to pay the full price of milk served under the Special Milk Program for the following schools:  
Emma S. Melzer School  
Viola H. Nelson School  
Adlai E. Stevenson School  
Mark Twain School  
Washington School  
Local school officials have adopted the following family size and income criteria for determining eligibility:  
**FAMILY INCOME**  
**FREE MEALS AND FREE MILK**  
FAMILY SIZE Sept. 1, 1981-June 30, 1982

1	\$5,600
2	7,400
3	9,100
4	10,900
5	12,700
6	14,570
7	16,370
8	18,160
Each additional Family Member	1,790

Children from families whose income is at or below the levels shown are eligible for Free Milk or Meals.

Application forms are being sent to all homes in a letter to parents. Additional copies are available at the principal's office in each school. The information provided on the application is confidential and will be used only for the purpose of determining eligibility. Applications may be submitted at any time during the year. To discourage the possibility of misrepresentation, the application forms contain a statement above the space for signature certifying that all information furnished in the application is true and correct. An additional statement is added to warn that the application is being made in connection with the receipt of Federal funds, that school officials may, for cause, verify the information in the application, and that deliberate misrepresentation of information may subject the applicant to prosecution under applicable State and criminal statutes.

In certain cases foster children are also eligible for these benefits. If a family has foster children living with them and wishes to apply for free milk or meals for them, the family should contact the school. If a family member becomes unemployed or if family size changes, the family should contact the school to file a new application.

All children are treated the same regardless of ability to pay. In the operation of child nutrition programs, no child will be discriminated against because of his/her race, sex, color, or national origin.

Under the provisions of the policy, Patricia A. Kolvek, **Elmhurst College graduates**

The local 1981 Elmhurst College graduates who completed requirements for a Bachelor of Arts, Bachelor of Music or Bachelor of Science degree during the recently completed summer session were Jolyn Marie Barc of Des Plaines and Thomas Hassenplug of Niles.

The dividend is payable on September 15 to First Des Plaines Corporation shareholders of record on September 14. Webster also announced that the First National Bank of Des Plaines was the successful bidder for the property formerly occupied by the defunct Des Plaines Bank, Lee and Oakton streets. "Pending the formal approval of our bid by the Federal Deposit Insurance Corporation," Webster said, "we will submit our application to the Comptroller of the Currency to open a facility at this location. Once legal and regulatory requirements are fulfilled, the existing building will be remodeled to bring it up to our high operational standards. Our decision to bid for the property was based on the fact that the area is in need of a solid financial institution and is an excellent site for a limited service branch banking facility," Webster added. "It will help alleviate congestion at our existing branch

**OCC Weekend College enrollment up**

The OCC Weekend College, a program started in 1978 for students unable to attend classes during the week, has continued to expand this fall semester with its enrollment growing to more than 800.

Nearly three-quarters of those students attend OCC/Des Plaines with the remainder attending OCC/Skokie.

Data Processing courses account for 46 per cent of the students, comprising the single largest group. Business related subjects make up 24 percent of enrollment, with the remaining 30 per cent in other transfer and vocational classes. Tom Zimanzl, dean of Learning Cluster 5 and coordinator of the program attributes the growth of the college largely to the efforts of Carol Davis, dean of Cluster One, and Bill Isaacs, coordinator of data processing. They institute a second data processing lab at OCC/Skokie which provides services for 67 per cent of the students there. Zimanzl said that plans are already being made to expand the OCC/Skokie Weekend program.

In the case of the village trustees they receive a stipend for meetings they attend. In Niles, village trustees upped their fee to \$2,500 per year after previously receiving a separate per meeting payment. Nick Blase went up \$1,000 to \$4,000 during the past year. On the other hand school board members and park board commissioners get zilch. In exchange for their weekly or bi-weekly efforts they get the glory of being called park commissioners or school board members and at times receiving a great deal of public abuse.

We've always felt park and school people should be entitled to a couple of these conferences a year. They make a tremendous effort over a 12 month period and should be entitled to a week's fluff along the streets in old Manhattan or amidst the sun-drenched palms of Bali. If they sign-in for a 15 minute movie or attend a brief lecture on How To Be a Better Board Member, and then skip the rest of the programs, they've still earned their keep for their week in the sun.

Village board members' \$2,500 a year puts them in a different class. Their lollygagging among the pleasures of life during convention time, while ole Joe Taxpayer foots the bills, seems beyond the realm. The 2,500 big ones means they're being paid for their services. Skimming off a couple thousand more on those hokey junkets means they're hitting the taxpayers for an add-on to their annual salary.

We're sure many public people do attend many of the formal sessions at these conventions. And for them, they may think we're way off-base in discoloring their efforts. But it's our rather skeptical view conventions were created by hotel, restaurant and booze people who wanted to sell their wares and found a way to

our own park district," and chastised Boznos for "making us look like a bunch of fools." He then proposed that his board be advanced expense monies of \$25 per day for state conventions and \$50 per day for national conventions, with members reimbursed for receipts over that amount. Voting in favor of the motion were Commissioners Eileen Coursey, Joan White and Piper, with Boznos opposed. Commissioner Dodee Connelly was absent.

Previous to the vote, Boznos had come under personal attack in letters read at the meeting. Mrs. White had sent a letter to Theodore Flickinger, Executive Director of the Illinois Association of Park Districts, where she described one board member as being discourteous to the others by surprising them with his position. She enclosed newspaper accounts of the on-going battle and asked for written support from Flickinger, which she received.

Mrs. Coursey had written a strong letter to the park board condemning Boznos for "pitting commissioner against commissioner," "speaking only when the press is present," and "probably seeking further office" through the publicity.

Boznos, saying "I feel I have a right to rebuttal since I am accused," read a prepared statement regarding the earlier correspondence.

Boznos said, "I was surprised that in her (Joan White's) letter she failed to mention the issue of the \$125 a day expense money which is my major objection to the convention appropriations."

"She also wrote that I have a 'record' of signing up for seminars, etc." and not attending. The exact number. I have missed since my election is one... due to an unexpected business situation.

"This weekend I spoke personally with Mr. Flickinger and clarified my position in regard to these matters and he assured me there would be a further letter to

form a partnership with Uncle Sam, who allowed write-offs which made conventioning so much more palatable.

the park district at a later date." In response to Mrs. Coursey's accusations, Boznos said that although she says she feels intimidated, "perhaps what she feels is embarrassment" and he hoped that "her conscience would guide her."

Boznos said he felt he took the issue as far as he could and he would not pursue it further.

## Garage Sale...

Continued from MGP.1 interested may contribute household or personal items by bringing them to the Cleveland st. address during the week. Ways and Means Chairmen Artemis Sotern and her committee will appreciate any donations.

The profit from this Garage Sale will not only make it possible to operate the club for another year, but Viola Felber, Finance Chairman states that without successful Ways and Means projects, the club would find it hard to continue its many varied scholarship programs. Each year the MGWC, which is affiliated with the Illinois Federation of Womens Clubs, sends several Morton Grove young people to Art, Music and Conservation camps. Other projects covered by this money are aid to hospitalized Veterans, Indian Center, and many other local charities.

In this day of government cut backs, it is more important than ever to support clubs such as this in their philanthropic activities as they pick up the slack in many areas. The Morton Grove Womens Club, presently under the direction of new president Mrs. Edwin Kachan, has in the last twenty five years provided services and items to both assist and beautify the Village, such as the sculpture in front of the Community Center, and Welcome to Morton Grove signs seen on major streets entering the town. All unsold items in this area have requested a percentage increase considerably lower than what you are requesting. At a time when schools are being closed, the public will not accept the fact of such a huge raise.

I urge you to reconsider your request and that you keep in mind that the #1 problem that faces all suburbanites is the real estate property tax."

## Orchard Village makes top staff changes

At the Annual Meeting of Orchard Association for the Retarded-Orchard Village, Ray Hartstein, President, announced two key changes in its top staff.

Hartstein said, "We have been studying our organization for the past year, and it became obvious to us that if we are to move ahead in the 80's and provide the services for the retarded that are needed in this community, it is essential to enhance our administrative effectiveness and bolster our funding base."

The Association therefore embarked on a search for a top administrator. Executive Director Robert (Bob) Adams, former Executive Director of Hull House, one of Chicago's most prestigious and largest social agencies, is to assume the position of Managing Director effective October 1. He will be responsible for the overall management of the Association.

Mr. Adams, a long time Evanston resident, is a trained social worker. Having directed Hull House for 12 years, he brings a new dimension of expertise to OAR that will expedite its development plans.

## NFS-Niles Seniors co-sponsor pre-retirement planning workshop

Registration for the upcoming pre-retirement planning workshop offered by the Niles Family Services and the Niles Senior Citizen Services is currently in progress. Registrations for the eight week workshop can be made in person at the Niles Senior Center or at the Niles Family Service Office, both located in the 8660 Oakton Niles. Telephone inquiries can be addressed to the Family Services Office 692-3396 or to the Senior Center 967-6100 ext. 76.

The registration fee for the entire eight week session is \$20.00 for an individual and \$25.00 for a couple. The registration cost covers a hardcover manual "Retirement Planning Seminar" published by Action for Independent Maturity. The workshop is open to the general public. It is designed for those who are approaching and/or planning for their retirement, as well as those who have recently retired.

The workshop will be conducted on a weekly basis, each Thursday evening beginning at 7:30. The seminar will run from October 1 through November 19. Each of the eight sessions will be conducted by a discussion leader and have several resource authorities and specialists available to answer questions. Each week a different topic will be addressed. The topic slated for the opening introductory night October 1, will be "The

Challenge of Retirement." The discussion will be led by Ron Martin, Ph.D. of Niles Family Services. "Health and Safety" will be covered by Bonnie Burnett, the Public Health Nurse for the Village of Niles. "Housing" is the topic slated for the October 15 session. "Legal Affairs" will be covered on October 22 by Fred Hasselton, a private attorney.

Ron Martin, Ph.D. of the Niles Family Services will be covering the topic slated for October 29, "Attitude and Role Adjustment." Mr. Edward Jennett and Ms. Karen Hansen, M.A. will cover the area "Meaningful Use of Leisure Time" scheduled for the November 5 session. "Sources of Income" will be covered in the November 12 seminar by Terri McGhee of the Social Security Office. The final session will cover "Financial Planning" on November 19.

The impetus for the program came from a recognition of community needs. It is a joint venture between the Niles Family Services and the Niles Senior Center. Those most involved in planning the program, Larry Rentzky, Director of Niles Family Services, Dr. Ron Martin, also of Niles Family Services, and Mary Kay Morrissey, Director of the Niles Senior Center believe that this retirement planning workshop is a most valuable service to offer the general public. A growing awareness of the fact that a happy and suc-

cessful retirement does not just occur provided the impetus for the eight week workshop. Sociological and psychological research indicates that a happy and fulfilling retirement requires planning. Good planning takes time. Due to scientific and medical advances, individuals can anticipate longer life spans. Additionally, there has been a trend toward planning for earlier retirement. As a result of these factors, an individual may spend a full one quarter to one third of their lives in retirement. Planning for such a substantial portion of one's life might well be considered an investment in the future.

Planning for retirement should involve the members of the entire household. Therefore, single individuals and couples are strongly encouraged to attend. Inquiries and requests for brochures on the workshop can be addressed to either the Niles Senior Center 967-6100 ext. 76 or the Niles Family Services 692-3396. The staff at either office will be happy to provide additional information and brochures on this workshop.
