### Kustra releases personal income: Nimrod clarifies unpaid tax report

by Bob Besser  
The 28th District's State Senatorial contest heated up on Monday as challenger Rep. Bob Kustra (R-4th) released his federal and state income tax returns as questionable reports spread that State Senator John Nimrod (R-4th) had not filed state income tax returns for the last two years. Also on Monday Nimrod said he had filed during those years and had photocopies of the returns which he made available to the public.

### Court status update on handgun ordinance

While Morton Grove Police Chief Larry Schey revealed that 7 handguns thus far have been turned into his headquarters in compliance with the new village ordinances prohibiting the sale and possession of such weapons, Village Attorney Martin Ashman updated the court status of these laws at Monday evening's meeting of the village board. In the U.S. Court of Appeals, briefs are to be filed by the plaintiffs by March 26, and the village by April 26. Ashman anticipates a decision by that federal court in the fall. On the state level, the court status of these

### Board approves parents' choice of morning or afternoon classes

## Dist. 63 ok's kindergarten class choice

by Eileen Hirschfeld  
In September parents of kindergarten students in East Maine School District 63 will have some flexibility in choosing either morning or afternoon classes for their children the entire school year. This would change board policy which now requires these half-day students to reverse morning and afternoon attendance at mid-term. Action was taken at a regular meeting Feb. 9 in Apollo school, 10100 Deer rd., Des Plaines, in response to a complaint by Larry and Phyllis Burg of Niles at a former meeting. The Burgs said some indication was given them before the first semester that their son would be able to attend morning kindergarten all year. Subsequently, they enrolled him in a private afternoon pre-school for which they paid tuition. Both the administration and board denied the Burg's request and their only recourse was to withdraw their son from a second semester of

### From the Left Hand

by Bud Besser  
Few people have the prescience to look into the future and see what's coming many years down the road.  
Back in the 30's, television was being exhibited at the '33-'34 Chicago World's Fair and again at the 1939 New York Fair. And while few may have spoken of television's future, it was not commonplace to foresee the TV boom which began in the late 40's.  
In those 1930's antebellum days I recall reading in the Reader's Digest about the coming boom in plastics. Again, a few soothsayers might have understood its potential but it was not common belief in those days our futures would be lined with oil-created plastics.

The tremendous boom in computers, which is taking place today, was predicted in the recent past by those on the inside of the industry. It is quite likely by the end of the decade all of our lives, both inside and outside our homes, will be affected by all sorts of computers.  
Last week Lerner newspaper's publisher, Lou Lerner, was quoted at a press meeting: "Cable TV may be the beginning of the end of suburban newspapers."

Lerner's comments were interesting. We don't recall the last time we heard anyone in any industry speak with such pessimism about their own industry. We rather admire Lerner for his candor. But we think his

We certainly named our January 17 party right, "Jack Frost" and "Jack Frost" it was 15 below-but, of course, that was outside. Inside it was warm and wonderful. Only proof of the cold inside was the table decorations of snowman centerpieces and the snowman decorations around the hall. Members inside were enjoying a great time. Food as usual was delicious and the music of Mario and his Society Orchestra kept our feet dancing to the old time melodies along with some of the modern ones.

Charles Palkoner, our new president, and his wife Wanda, new social chairman want to thank the 140 members who braved the cold and came out to make the party a success. Florence Lencioni stays on as Publicity Chairman for awhile longer.

Be sure to pay your 1982 dues to Louie Bassi as soon as possible, also make your plans for the Beer & Banjo Party coming up on Sunday, February 21, (Members only) Our club Photographer Gil Kaitis took some pictures at the Jack Frost party and you will see them in a future edition of The Bugle.

Glad to report that Ida Paoletti is home from the hospital. Pray for the speedy recovery of Gert Pollack, Anthony Litosar, Eleanor Benson and any other sick members. February 11 is our Business and Valentine Meeting. There will be a couple of surprises and if possible, wear something red.

## Bugle Digest Local News Briefs

Following the publication last week of harsh criticism of Morton Grove Trustee Joan Dechert by Morton Grove Mayor Richard Flickinger, it appears the two met to patch things up. A statement released on Friday by Flickinger's office said, "The Mayor stated that due to a mistake of fact he had made certain remarks to The Bugle regarding Trustee Dechert and he wishes to retract them." The statement quotes Flickinger as saying, "Joan and I have been friends for many years and we want to continue to be friends for many more years."

A Maine Township man, Edward Ross, 49, 9744 Dee rd., Des Plaines was arrested after visiting his ex-wife's grave in Maryhill cemetery in Niles last week. Ross was indicted Tuesday, Feb. 2 by a Cook County Grand Jury in connection with the Nov. 4 shooting death of Betty Ross, 47, in his home. The couple had been married and divorced twice and Ross was attempting another reconciliation at the time of the shooting according to Cook County Sheriff's police. Ross is being held in Cook County jail in lieu of \$250,000 bond until his arraignment Friday in Cook County Circuit Court.

The decision to remove the name of Niles Township Republican committeeman William Kearney from the March 16 ballot has been upheld by a Cook County judge. Judge Joseph Schneider affirmed last Friday, Feb. 5 that Kearney's name should be removed from the ballot because he wasn't a registered voter in the township when he filed his nominating petitions in December. Schneider agreed with the Electoral Board that Kearney's listed address on the petitions of 6504 Waukegan rd., Morton Grove was an "address of convenience."

Niles Village Manager Ken Scheel reports the building on the property at Oakton and Milwaukee has been torn down. The property on the southeast corner of the intersection was recently purchased by the Village of Niles and is to be leased by the village to Jerry's Fruit and Garden Center for additional parking. The gas tanks which were removed from the property in recent weeks will be used by village departments for the storing of diesel fuel. Plans now call for the Fire Department and the Park District to take two of the tanks.

The Venture stores have submitted their plans to the Village of Niles to take over 100,000 square feet of the now-empty Treasury store at the corner of Milwaukee and Golf. According to Village Manager Ken Scheel, there are currently no plans for tenants for the remainder of the store.

A Cook County Circuit Court Judge refused Monday to force Chicago to collect 43 years of unpaid water bills totalling \$22 million from the Chicago Park District. Attorney Ronald Glink who represented Niles and 57 other suburbs in the water suit said he will continue to raise the issue in the suburban suit which contends Chicago charges its suburban customers too much for Lake Michigan water.

Morton Grove Girl Scouts are planning a parade on March 14 to celebrate the 70th birthday of the organization. Come on out, put on a pair of skates and give it a whirl, enjoying a good time out on the ice rink.

During recent Niles Village Board and Zoning Board meetings, Niles officials have spent hours haggling with Lawrencewood representatives over intricacies in Niles zoning laws. However, behind this facade of business-as-usual meetings is a red-hot conflict between the village and Lawrencewood. And at the core of the conflict is Lawrencewood owner Robert Krilich.

Krilich purchased Lawrencewood in 1960. Krilich, who thirty years ago was a Chicago-area construction worker, has been a successful developer and within recent years has consolidated his numerous companies to form the Developers Management Corporation.

In addition to owning Lawrencewood, Developers Management Corporation is currently working on projects in Illinois, California and in the Middle East. Developers Management is involved in the construction of a 2.2 million square foot office center and 322 room hotel in Oak Brook. In Naperville, Developers Management is planning to construct a conference center.

Additionally, Development Managers Corporation is working on a Niles medical office building at Ballard Rd. and Greenwood Ave. The offices will be sold as condominiums.

#### HOW'S YOUR HEARING?

The most common type of hearing loss is called catarrhal deafness. It may be caused by chronic infection of the sinuses, tonsils, and adenoids, infection or fluid in the middle ear, inflammation of the tube (Eustachian tube) connecting the throat and the middle ear, or perforation of the ear drum.

The conditions act as sound insulation and interfere with the conduction of sound waves through the middle ear to the inner ear, where the hearing apparatus is located. Although the hearing apparatus may be functioning normally, outside sounds cannot get to them.

If you can answer "yes" to four or more of the following questions, you should have your hearing tested.

- 1) Have you noticed people mumble more often than they used to?
  - 2) Do you sometimes hear but fail to understand?
  - 3) Do you often ask people to repeat what they've said?
  - 4) Are you having more and more difficulty hearing in noisy places?
  - 5) Have you been told you speak too loudly?
- Senior citizens can receive free hearing tests at these locations: Chicago Hearing Society, 6 E. Monroe, Chicago, 332-6850; Beltone Hearing Center, 1488 Waukegan, Glenview, 998-1730; North Suburban Hearing Center, 7627 Milwaukee, Niles, 966-0060.

#### NURSING HOMES

If the Reagan administration succeeds in its announced proposals to relax or repeal many of the federal rules that govern nursing home standards, services and staff qualifications, anyone seeking these facilities will be even more at the mercy of the operators than now. Approval of the proposals raises the possibility, if not probability, of a revival of the scandals that once smeared the industry. This is why it will become even more essential for people choosing quality nursing homes to be able to identify the good from the bad. Here's what to do to find good nursing home care:

—Compile a list of facilities in your area. (The Morton Grove Health Dept. has a complete list of recommended nursing homes.) Make preliminary calls to the homes, outline your needs, ask about participation in Medicare-Medicaid.

—Visit and meet the owners or administrators and tour the nursing home. Check to see that each facility's licenses and certificates are current.

—A guide called, "Nursing Homes: How to make an informed choice," is available by writing or calling: The Organization of the North East (ONE), 1105 W. Lawrence, Chicago, IL 60640, 769-3232.

#### Better Breathers Club

air in the lung tissues, on Thursday, February 18, at Holy Family Hospital, Des Plaines.

The session will be held in the Mount Prospect Room at the hospital, 100 N. River Road. To register, or to request more information, call 297-1800, extension 1174.

### TO SLEEP IS HUMAN. TO SLEEP DURING THE DAY IS DIVINE.

If you were in our shoes, you'd think so too. Because the way things are now, when nearly everybody's up during the day, it's not so divine. The cost of producing electricity goes up. You see, the eight million people we serve use an enormous amount of electricity before they go to bed. And our main generating stations, the ones that run on

coal and uranium, have an impossible time handling the demand. It takes our oil burners to pull us through. But oil is far more expensive than coal and uranium. So during the day, electricity costs far more to make. Up to four and a half times more. Of course, if half of us would volunteer to start sleeping during the day, it would hold down the demand.

Which would also hold down the amount of oil we have to burn, the number of new generating stations we have to build, and the size of the electric bills you have to pay every month. Since that's asking an awful lot, though, you'll be relieved to know there are other ways to get the job done. Nothing earthshaking. Just conserving a little more

in the daytime. Like not running the dishwasher till 9 or 10 p.m. Or the clothes dryer. Or other easy things like that. When enough people go along, they really can make a difference. All we have to do is do it together. That's the key. To keeping costs down. To getting some control over tomorrow. If we only wake up.

Don't take tomorrow for granted.

#### Safety hints for drivers

by Secretary of State Jim Edgar

Statistics show that driving at night is four times more deadly than day driving. If you drive frequently at night or only on occasion, please heed last week's suggestions being continued today:

- (1) Keep your windshield clean. You should have plenty of windshield washer fluid on hand, especially during the dirty winter months.
  - (2) Stay awake and alert. Do not drive if you are tired or sleepy. Frequent stops, fresh air, lively radio programs and similar measures can help avoid drowsiness and inattention.
  - (3) Watch carefully for highway signs. They are harder to see at night.
  - (4) Be especially watchful for pedestrians and vehicles stopped along the edge of the road.
  - (5) Do not stop on the roadway for any reason.
  - (6) Carry a red warning light for use when stops along the edge of the road are unavoidable.
- If you have any questions call our toll-free number (800-252-9800).

#### New Trier GOP endorses Kustra

State Representative Bob Kustra was endorsed in his race for the Illinois State Senate from the 28th district by the New Trier Township Republican Organization on Jan. 30. "I consider the New Trier endorsement a big plus for the campaign because it comes from an area that neither I nor my opponent has represented before. I believe that the endorsement will be most helpful to voters in helping them decide which candidate will make the best Senator."

Kustra has been endorsed by Maine Township Republicans and he received 60% of the endorsement votes of Northfield Township Republicans.

## Niles forms semi-pro Baseball team

Niles, a town which has always promoted participation in its locally sponsored activities, is expanding the town's Baseball program to include a semi-pro team.

The requirements for qualifying to be on the team are: You must be 18 years of age or older, you must desire to play league Baseball, and you must attend try-outs for the team (dates will be announced later.)

The team will play 32 games, 16 will be home team games and 16 will be visiting team games. The games will be played on Saturdays and Sundays during the

months of June and July. There are many talented people in the Niles area, some of whom have gone through the Niles Baseball League's program as youngsters, some who haven't. Our goal is to select a team which will represent Niles with talent, good sportsmanship, teamwork, honor, good character and a competitive spirit.

Anyone who desires more information may contact Stan Breitzman, the coach, at 698-2484. Please think about being a part of this exciting new program! We cannot make this program a success without you.

## Oakton athletes running

Oakton Community College placed three runners in the top six places of the two mile run at the recent University of Chicago Junior College Relays. Steve Rosenblum placed second in 9:35 and was closely followed by Jukka Kallio in third place. Mike Harrington ran under last year's winning time to record sixth place.

The indoor track team is practicing hard and running well in recent meets in preparation for the State Indoor Championships at the University of Illinois in Champaign.

At the Illinois Benedictine Track & Field Invitational the OOC Raiders were led by first place finishers Mike Harrington in the mile and Mark McCormick in the 440 yard dash. Steve Rosenblum was a surprise second place finisher in the 880 yard run while Jeff Turkin placed second in the 60 yard dash. Both McCormick and Turkin came back to record third place

finishes in their heats of the 220 yard dash.

Oakton Community College will be among 25 teams from the Midwestern area competing in the Parkland College Invitational on Sunday Feb. 14 in Champaign.

## Demon freshman grapplers

Although the 1981-82 wrestling comes to a close Feb. 26-27 with state finals, the freshman grapplers at Maine East have had a fine season under the direction of Coach Morrie Geselter. For example, the team had a 40-36 win over New Trier last month.

Members are (front, l. to r.) Jeff Kaplan, Floyd Koniarski, Bill Swinson, Jeff Hall, Robbie Mehrholz, Joe Madonia, and David Wojcik. (Second, l. to r.) Andy Wallace, Jim White, Adam

Slutsky, Brian Fisher, James Druszcak, and Coach Geselter. (Third, l. to r.) Andy Arnowitz, Mike Gennett, Jim Schlake, Joe Ca'aglio, Bruce Greenspon, Mike Restino, Mike Hammer, and Pate Arvanitis. (Top, l. to r.) Don Planetto, Jordan Rubin, Dennis Nikolopoulos, Rick Matas, Lee Rubenstein, Scott Grew, and Mark Pondell. (Not pictured) Joe Brogan, Gary Livingston, Andrew Richert, and Rick Jacobs.)

## SJB's 7-0 record leads NW Catholic Conference

The Lady Warriors from St. John Brebeuf travelled to Glenview to notch another victory, 37 to 6 against Our Lady of Perpetual Help. Coach Jim Jekot stated the team threw up a few bricks and played sloppy at times as evidenced by the near record 26 turnovers. Cathy Bratek and Krista Eshoo were named as "Co-stars of the Game". Cathy led all scorers with 14 points. Krista scored 9 points and had a career high 11 steals.

Janet Rzepiela scored 8 points and had a season high 22 rebounds. Karen Beefink tallied four points. Stacie Jakobi had two points. Kathy Lake and Kris Gotshall played a good floor game but failed to score.

It may have been the coldest day ever in Chicago and it may have been cold in St. Juliana's gym but the SJB players were hot shooting-wise. It was a coach's dream in that everyone played and everyone scored. SJB won the game 56-9. The 56 points tied the season high established against St. Edwards. The team record is 66-28 last season against Divine Providence.

"Star of the Game" was Karen Beefink. She scored 8 points, which tied her career best. Coach Jim Jekot used superlatives when asked about Karen's play. "She comes to play and is a very

determined young lady. Karen may give away height to every opponent but she battles for those rebounds and plays a good scrappy defensive game every-time", he said.

Joining in on the scoring parade was Krista Eshoo with 16 points. Janet Rzepiela scored nine and had three blocked shots (her career high). Cathy Bratek had players all over her in effort to stop her but she still managed to score seven points. Linda Strauss scored six and had a career high four assists. Linda also pulled down 10 rebounds, her season high. Kathy Lake scored six points and Kris Gotshall averaged four points.

The 7th graders from SJB rode into St. Monica's gym and came with a 47 to 16 victory over the Mustangs. The Gold unit had St. Monica 32 to 0 and the Black unit posted a 19-16 mini victory to run the Black's record to 8 wins, 17 losses and one tie. This season the Black unit has lost 7 of their mini games by 3 points or less.

Kathy Lake was the unanimous selection as "Star of the Game". Kathy scored a career high 12 points and pulled down 13 rebounds. She played superb defense, including one blocked shot; she was 6-0 in jump ball situations.

## St. John Brebeuf "X" team

The St. John Brebeuf "X" team, comprised of 6th and 5th graders is "on a roll" with five straight victories to lead a 6th grade league hosted by the Glenview Park District.

Thirty plus St. John Brebeuf 5th and 6th-grade girls play basketball on St. John Brebeuf traveling teams. The St. John Brebeuf "X" team is one of these three teams. The five game winning streak increased their season games won total to 12. Last Sunday they defeated the Henking Hustle by 11 points. Erin Gotshall was "star of game." She was the smallest girl on the court but she easily penetrated the toughest defense that Henking could muster. Dana Callero led both teams in rebounding in this battle for first place, although Henking girls towered over her. The Henking girls were taller than the St. John Brebeuf girls by an average of 4 to 5 inches. Speed and intensity were the difference. The St. John Brebeuf girls trapped them at half court. Carol Ann Barrett was the leading scorer as she was in the 15 point victory over Pleasant Ridge School. She dominated play at both ends of the court.

These girls have won each of these last five games by margins of between 10 and 15 points. All of the girls played about equally. Each of the games had different starting lineups. Coach John Marusek related, "These girls have worked so hard that I can't have the same starting lineup over there game after game. It really doesn't seem to make much difference who is on the court; they have all been playing as all-stars lately." Members of the St. John Brebeuf "X" team also include Maria Sodendorf, Nicole Mariotti, Cathy Beierwaltes, Amy Gonka, Colleen McCauley, Sandy Watson, Karen Casacchia.

### Baxter Ltd. hosts home buying seminar

Shown above from left to right, Tom Zmich, Debbie Guending, Joe Gallo, Valerie Schwartz, Wolf Ritter and Eva Ritter.

Baxter Ltd. Realty Group gave a seminar for First Time Home Buyers and what a success it was! Several couples came to the seminar to gain knowledge on the current facts in buying a home. Many young couples are disillusioned about purchasing a home because they lack the knowledge of the many ways this can be achieved. From the seminar we learned that they are very eager to buy, but need the knowledge and trust that only realtors can instill in them.

Original plans called for the seminar to commence at 8:00 p.m. and adjourn at 9:30 p.m., but it was well after 11:00 p.m. before the session ended. The enthusiasm and response was overwhelming, stated Bob Baxter.

As Debbie Guending put it so aptly, "The prospect of buying a home was very frightening to us and after attending this seminar, I am no longer afraid and I feel that I have been very informed." Eva and Wolf Ritter enjoyed it immensely and they feel they are adequately prepared now to go

### What kind of Republican is Nimrod?

Dear Editor:  
In a Dec. 6, 1979 article in the Chicago Tribune, John Nimrod asked about Congressman John Edward Porter, "What kind of Republican is that?" I guess Republicanism is in the eye of the beholder.

I, for one, have not been very impressed with Nimrod's brand of it. For a man who first went to the Senate handpicked by committeemen rather than through a primary election, he sure forgot in a hurry the value of unity in the Republican Party.

He ran for Congress in 1976 against former Congressman Sam Young and Dan Hales. Maine Township endorsed Young but Nimrod told the Trib that "half the precinct captains (were) backing him."

In 1979, he made an eleventh hour attempt to beat John Porter out for the same congressional seat. Porter had the endorsement of every Republican organization in the district but Nimrod charged on, blasting the Republican Party and party "bigwigs" all the way. All the way to defeat.

In the 1980 presidential primary, Mr. Nimrod and his wife ran as delegates to the national convention. Were they endorsed? No, they ran against the Republican-endorsed slate once again.

Mr. Nimrod now has his name on the ballot for State Central Committeeman of the 9th District, and his opponent has been endorsed by all the Republican Organizations.

If Mr. Nimrod uses "Republican" on his campaign brochure, I sure hope he puts it in quotes.

### Kustra will be a leader

Dear Editor:  
Bob Kustra is an outstanding Republican candidate for the State Senate and I support him 100%. I've been around politics for a long time and I've seen politicians, good and bad, come and go.

Representative Kustra should replace John Nimrod as Senator of the 28th District because he works hard, he's smart, he's accessible, and his word is good as gold.

I have no doubt that he'll become a leader in Springfield.

The Golf Mill Merchant's Association officers for 1982-83 were installed at the Annual Meeting held Jan. 26 at the Bradford Exchange. The board members were elected as follows: Bill Rand of Rand Jewelers, president; Al Smith of Hearing Aid Center, vice president; David Maikon of Baker's Shoes, secretary; Mel Sobel of Mr. Marty's, treasurer; and Earl Caudill of J.C. Penney immediate past president. Other directors include: Erna Eilman, Today's Woman; Robert Loesch, Sears Roebuck & Co.; Penny Marks,

Wit N Wisdom; Joyce Rabin, Lytton's; Al Serstad, Little Miss & Mr. Shop; Mary Myers, Paul Harris; and Pat O'Shea, Manager of Golf Mill Shopping Center.

Golf Mill Manager, District Managers, and Store Owners were entertained by a 'Year in Review', a slide presentation capturing the highlights of 1981, produced and narrated by Robert Brandt, Robert Brandt Advertising, Inc. Guest speakers for the affair included Ken Scheel, Village Manager of Niles, and Curt Hockett, Executive Direc-

tor, Niles Chamber of Commerce and Industry, who discussed what to expect in 1982 as it relates to the village and the center.

Although 1982 will be a competitive year, the merchants are optimistic about Golf Mill.

## Students experiment with baseball and music

"Strike Out," an original, student written and produced musical, will be presented by the Niles North High School Music and Theatre Departments, on February 25, 26, and 27. The offering differs from the traditional student variety show. No-secapades, in that, for the first time, the students will present a full-length, original show with a continuous story line.

The musical, which features seventeen musical and dance numbers, was conceived and written by 16 students under the guidance of Mr. Jerry Proffitt, North theatre director. The students all participated in a new course entitled "Play Production."

The plot follows the actions of Lorraine Pratt, a young sports commentator, who finds out that

the Pioneers, a successful Midwestern baseball team, are about to be taken by the SOD Corporation; a successful Midwestern syndicate. When Lorraine, played by senior Janice Angelaccio, tells Kent Sturgeon, her fellow commentator and lover, played by senior Ira Strongin, he laughs at her. Lorraine, still determined to save the park, contacts the coach of the Pioneers, played by senior Stan Slovin and is again laughed at. Finally, Joan Hart, a concerned Pioneer fan, played by senior Erin Kern, reveals that she, too, knows of the plot, and the two join forces to overcome the evil SOD Corporation.

They are assisted by a singing Andy Fran Choir, the Pioneer Park grounds crew and many others, all portrayed by the thirty-eight cast members under

the direction of Matthew Silver and his assistant director Kathleen Barry, both seniors.

During the play specialty numbers are performed by seniors Jay Lazar and Jay Lehrfeld. The orchestra is directed by senior Alan Zerkowicz and Barry Rocklin, also a senior, taught the songs to the cast. Senior Jeff Summer will choreograph and junior Jeff West will direct the fifteen member technical crew.

"Strike Out" is scheduled for 8 p.m. on Thursday, Friday, and Saturday, February 25, 26, and 27. Tickets which are on sale now, are \$2.50 or \$3.50 and are available at the door. For better seating, they may be ordered in advance by calling 673-6900. Senior citizens may attend a special free performance on Thursday, February 25 at 1 p.m.

### Niles-Krilich...

Continued from Page 3  
Niles officials and former Lawrencewood tenants maintain that Krilich has "milked" anything he can get out of the large maintenance staff as Golf Mill. Everything has been maintained."

However, Niles Village Manager Ken Scheel, who has dealt with Krilich since 1959, claims to understand the reason for Niles' problems with Krilich. Referring to large developers such as Krilich on the booming 1950's and 1960's, Scheel said "All those people fall in the same mold. The big thing is how much money can I make on a project? The things that happen are not for the betterment of the village. All those big builders are the same way...all they can see is the bottom line. I feel if you're going to stay in the village, you should do something that's a credit to the village."

With Krilich, claims Scheel, "there's never a clean cut deal. He knows the laws and he's always bending (them)...and bending means he can make a bigger buck...How many times has he promised to do things but there's always a hassle!" Referring to the large developers of the post-war era, Scheel said, "They do the least

### District 63...

kindergarten. District Superintendent Donald Bond cited reasons for this changed policy as being the increase of working parents, easier bus scheduling, and a more even "time frame" for youngsters in each half of the day than previously. A parent's preference may not be a final decision because of a need to balance class size.

Bond said a preponderance of parents requesting the same time may lead to those chosen on a "first come-first served" basis meaning all registration and medical forms must be completed.

Board members expressed some doubts concerning the plan's workability but agreed to attempt the new policy. Board members also authorized two appraisals of amount they can do. Good builders can't compete with these guys. He's not any different than any of them. If he weren't like that, I don't suppose he could be as big as he is."

And Scheel disagrees that Niles officials have been unfair to Krilich. "We have never pointed to him and said we were out to get him."

The Niles Village Board is soon expected to hear Krilich's representatives as they request zoning variations which will allow them to implement their Lawrencewood renovation plan. However, as long as the intense mistrust between Krilich and Niles continues, all future dealings are likely to bare few results.

Nathanson school at a cost not to exceed \$1,500 each. The school is now being rented by Parkside Services, an auxiliary of Lutheran General Hospital. The hospital formerly indicated an interest in purchasing the school.

Bids for extensive repairs caused by flooding to Gemini school will be put out and scheduled for completion by April. Repairs will include elimination of improper water drainage, a flood control unit, removal of pressure from the drainage tiles as well as sod and pavement restoration. Repairs for roofing of Melzer school were also approved under an emergency basis on a cost not to exceed \$20,000. Work done on an emergency basis does not require bidding.

Dr. Lenore Page reported a Basic Skills Standards book has been developed to indicate each child's development in mathematics, language arts and reading throughout his grade school years.

Dr. Bond reported a French program could be restored to the junior high school program with little extra cost to the district because a teacher of three classes of Spanish would be able to convert one of those units to French. Board members did not approve of the plan. French was cut from the program in a former move by the district to cut costs.

toward establishing firm boundaries for the commercial area, encouraging new development, and insuring proper care and maintenance of commercial buildings.

Traffic circulation along Dempster was designated as a major problem, and specific recommendations to alleviate this include adding left turn lanes at signal intersections and coordinating traffic signals.

New off street parking lots are targeted for key locations, as well as the addition of street angle parking, and the improvement of private parking lots. Also envisioned are design and appearance changes for the Dempster Street Corridor. Eventually the street will boast new landscaping and planter boxes, new signs, trash receptacles, and appropriate sidewalk repairs.

A 5 year implementation schedule was presented in the program, scheduled to commence in 1982. While no overall cost of the improvements has been calculated, the committee met with the Illinois Department of Transportation, which assured revenue sharing funds would be applicable to approximately 70% of the costs.

Trustee Gregg Youstra questioned if Reagan's cutbacks would affect these figures. The consulting firm representative said that there might be some impact on the plans especially after projected budget curtailments in 1984. He admitted that without state and federal funding, this program would be "an awkward burden" on the village.

He added that the village should work toward following the recommendations of the program, whether or not it takes up to 9 years to complete.

While village trustees passed a resolution to accept the direction of the program, they are not at

this point allotting any specific funds for its implementation, suggesting that "if we can take, handgins away from citizens, why can't we take a vehicle away from a drunken driver." He proposed impounding a vehicle for a full year to "stick it to 'em good and proper." Both Mayor Richard Flickinger and Trustee Richard Hols criticized Schrader for equating the two issues and cautioned against beginning a vendetta on every moral issue.

Attorney Ashman did say however that he would research the legality of impounding a vehicle.

Also at Monday evening's board meeting, Trustee Hols reported on the tremendous snow costs, including salaries, fuel and salt of the '82 winter thus far. In little over a month, \$103,959 has already been spent. Total 1981 winter costs amounted to \$71,297.

Trustee Don Sneider revealed that Continental Cablevision's quarterly report set the village's 5% share at \$11,698.49.

Mayor Flickinger reappointed 4 members to the Advisory Commission on Aging, naming Frank Sensindorf, of 7930 Lotus, as a new member. The village board also concurred on the reappointment of Bill Heine to a 4 year term as Nortran representative.

ever, a wide variety is available to meet the needs of many different tastes... Cable's ability to provide a broad scope of programming stems from the diversity of programming resources. Cable television draws from basically five different sources; satellite programming, distant and off-air broadcast signals, local origination and public access programming. The combination of these resources enables Teleprompter to offer the greatest diversity of channels and programs currently available... Satellite services are those which are received by Teleprompter through the use of dish antennae positioned towards a particular communications satellite traveling through space at exactly 22,500 miles above the equator. Programming produced anywhere in the world can be sent via signals to the satellite and then "beamed" down to the dish antennae in Skokie... It is through the technology of satellites, that programs such as ESPN, the 24-hour sports channel; Cable News Network and Satellite NewChannel, the 24-hour news services; USA Network, the channel with Madison Square Garden Sports and other entertainment; Cinemaria, the adult channel and Nickelodeon, the commercial-free young people's channel will come to the Village cable subscribers... Premium movie and entertainment services including Showtime, Home Box Office (HBO), The Movie Channel, Cinemas, the Entertainment Channel, PBS Cable and The Disney Channel also are available through the technology of geo-synchronized satellites... In addition to specialized entertainment channels, signals from WOR, New York and WTBS, Atlanta will be brought to Skokie via satellite. These superstations bring sports programs such as the Knicks, Nets and Hawk's basketball, Islanders hockey and Mets and Braves baseball. WTBS also offers up to 80 hours per week of movie and country western music programming... A distant advantage of cable is its capability of bringing subscribers improved reception of local off-air broadcast signals. Teleprompter's cable system will include all channels broadcast in Chicago... Programs produced within Skokie, called local origination and access, are the final two sources of cable programs. Local origination programming produced by Teleprompter will cover a range of interests like real estate, home maintenance, politics and financial matters.

remarks are a bit out of kilter and his opinions may be warped by the poor economy which is affecting all newspapers from the Philadelphia Bulletin and London Times to the suburban newspapers... We're not smart enough to guess exactly where Cable TV will fit into our future lives. But we're not willing to admit any visual electronic medium will replace the written word, newspapers, magazines or books... Lerner began to have an exaggerated view of Cable TV some time back. He quickly had his representatives immersed in Cable TV and he subsequently overextended his efforts in local communities which boomeranged. Morton Grove officials are appalled at the Lerner methods for seeking Cable TV rights in their town. And an article in the Sun-Times by TV critic Gary Deeb likely prevented Lerner from getting Cable TV rights in his newspaper's suburban hometown of Skokie... The Lerner papers, not unlike many other big chains, have been cutting back for some time. The high unemployment rate has played havoc with their classified sales, which comprise about 40% of their total sales. In light of these problems Lerner has taken a rather blown-up position on the future of Cable TV... Lerner papers, which have their strongest base in Chicago, have been very close to Richard Daley in recent years. We expect

### Kustra-Nimrod...

Continued from Page 1

In releasing his tax returns during a morning press conference, Kustra issued a statement stating: "I am releasing my federal and state income tax returns today because I believe that the people of the 28th Senate District have a right to know their elected officials have fulfilled this basic obligation of citizenship. When candidates ask for the trust of the people, they must show in every way they are worthy of that trust." Referring to the news stories about Nimrod, Kustra said, "Recent news stories alleging that government officials have not complied with the law make this even more essential." Kustra said though Illinois law requires only minimum financial disclosures by elected officials, he would make public his entire tax returns from 1978 thru 1980. Filing a joint return with his wife Joyce, Kustra's returns show his family's highest earnings as \$48,842 in 1979. From 1978 thru 1980 Kustra was an aide to U. S. Senator Charles Percy. In a statement released this week, Nimrod said he paid over \$500 in state taxes during each of the years in question. Nimrod listed his income for the years in question with \$31,188.44 being his highest income earned in 1980. In his statement Nimrod said, "The State Department of Revenue questioned whether it had been paid, because the State's own W-2 form was illegible. A new W-2 had to be obtained from Comptroller Roland Burns to replace the defective one his office had issued, and was recently delivered to the Revenue

### Best Foot Forward

By Dr. Leonard Pock MARCH FOOT

"March foot" is an occupational problem of soldiers who are often required to march long distances at a rapid pace with little or no opportunity to rest. Extreme fatigue and continued stress can lead to spontaneous fractures. Even civilians may have this condition if they abuse their feet in some way. If you trudge wearily mile after mile in improper shoes such as high heel pumps or cowboy boots, the constant pounding may cause swelling and pain. The pain becomes severe, with spasms in the muscles between the toes and the metatarsals. If you persist in walking, the metatarsals will break. To treat this condition, the doctor of podiatric medicine will have you rest the foot with a supportive appliance to ease weight-bearing and hold the bones in place while they heal.
