

Tuberculosis: A new threat from an old disease?

by Diane Miller

"If the public and the physicians are not made more aware of Tuberculosis, it could become the disease of the next decade." Those are the words of Dr. James B. Gallai, Clinical Director of Suburban Cook County Tuberculosis Sanitarium District.

According to Dr. Gallai, reported cases of TB have increased 15% in suburban Cook County in the past 2 years. He attributes the increase to the higher median age of suburbanites and the influx of Asians into the suburbs in the past few years.

Reported cases of Tuberculosis had been on a pretty even keel until 1960-61 when the sudden upsurge took place. In those two years, the Village of Niles had 10 reported cases, Morton Grove had 6 and Des Plaines had 19 cases. While the over 50 age group may be more susceptible to

Highlighting the evening will be a dramatic presentation of an interview with Dr. Helen Caldicott, president of Physicians for Social Responsibility. Fr. Saturday morning is one of the great days of the year. That 3rd Saturday in May is usually 80 degrees warm with nary a cloud in the sky. It's Niles Baseball League marching time and The Bugle will be there as it is every year.

We've been holding up the rear end of the parade each year. Our previous van was 10 years old when we began winding down the parade route from Oak School to Grenman Heights Park. Being somewhat over-cautious we preferred driving behind the last marching group. In case of a breakdown we didn't want to cause the parade to go askew. Our "new" 4-year-old truck is always in fine fettle. But since we started out in last place in the parade, we've decided during the ensuing years we would represent all of Chicago's professional teams by staying far behind the leaders. It's a Chicago tradition.

Behind us each year is one of Niles' finest driving one of the Niles police cars. We've always been suspect the gendarmes are not only the rear guard in the parade but are keeping a watchful eye on the trouble-maker which the police car is following.

We hope many of you will hie yourselves down to Notre Dame High School at 7:30 p.m. Sunday evening to hear the Pax Christi

Handgun ban vote unlikely in Morton Grove

Morton Grove Village Attorney Martin Ashman said Monday night it is doubtful the petition submitted on Tuesday, May 4 to have the controversial handgun ban ordinance voted on in a referendum is in conformity with state laws.

"It appears, at first reading, not in conformance..." said Ashman.

The petition, submitted by Morton Grove resident William Blameuser, had 1,500 signatures on it. Blameuser, who said he formerly was a member of an American Nazi movement, claimed that in order to place the referendum on the November

ballot, 1,500 signatures were needed which equal ten per cent of the votes cast during the March primary in Morton Grove.

However, Ashman said state law demands such a petition have no fewer than 25 per cent of the total registered voters. Ashman added that, after checking, authorities in the Illinois Department

damage to the house caused between \$10,000 and \$25,000 damage. Five fire vehicles responded to fight the fire which was struck out at 2:29 p.m.

The Homeowners Exemption can mean a savings of as much as \$300 in property taxes for owners of single family homes, condominiums, cooperatives and apartment buildings of six units or less. This exemption protects homeowners by eliminating from taxation any increase up to \$3,000 in equalized assessed valuation since 1977.

If you do not receive a Homeowners Verification Card in the mail by the first week in May, you can contact the Niles Township Assessor's Office at 5255 Maine st., Skokie for assistance locally. Now that the Spring weather appears to have become a reality we are looking forward to many fine trips and parties.

Skokie Mayor Albert Smith was the recipient of the 46th annual Merit Award of the Decalogue Society of Lawyers. Smith was presented with the award on April 21 at a dinner in the North Shore Hilton. He was honored for his lifetime of service, both in Chicago and throughout the world, through his organizational work, according to a spokesman for the group.

Former Maine Township Board candidates Barry Lipin and Carol Christenholz responded to the recent proposed budget of the Maine Township Board by stating that it sounded like "Reagonomics and Thompsonitis double-talk." They cited the board for their intention "to spend \$450,000 on an unnecessary building at a time when citizens are tightening their belts." In addition, according to Lipin, the Maine Township government proposes to increase their travel allowance from \$6,000 to \$13,000 which, he said, "is insulting to the community."

More than 150 persons attended the home sellers' seminar sponsored by the Village of Niles on Thursday, April 29. New financing methods were explained to the potential home sellers and Trustee Bart Murphy called the seminar "a tremendous success." Murphy said the sellers seminar was part of the Village's program to attract young homebuyers to the village. "We are showing Niles sellers how they can make it possible for the first-time buyer to move here."

The Unincorporated Maine Township Residents Association (UMTRA) will not hold a meeting this month. The general meetings are usually held in the multi-purpose room of Mark Twain School, 9401 Hamlin. All residents of unincorporated Maine Township are welcome to attend the steering committee meeting on June 2. For information call Jerry Weinberg at 299-3883.

The Great Race, Park Ridge's own 10,000 meter race along the Forest Preserve trails, is scheduled for Sunday, May 23 at 2 p.m. Runners will take off from Oakton Park, 2800 Oakton, Park Ridge. The Great Race is open to all. There is a \$5 charge for residents and \$7 for Non-residents. All runners must sign in by 1:15 p.m. on May 23. The gun for the Great Race will go off at 2 p.m. sharp.

23-year-old Thomas Testa of Park Ridge was sentenced to fifty (50) years in prison on May 4 for the 1980 rape of a Rosemont lounge singer. In handing down an extended sentence Judge Associate Judge Gerald S. Murphy called Testa "an ever present danger to the women of this community." Testa has a lengthy record of assaults on women including two convictions last year.

Porter will present a Congressional Update for Niles Business and hold a question and answer period following his formal remarks.

He has served in the United States House of Representatives since January, 1980. He is a member of the House Appropriations Committee and ser-

'Wait and See' on Mill Run's future

"Keep an eye on the building and you'll either see construction (of the fire escape) or you won't." With that statement Mill Run Theatre operator Jerry Kaufman left unanswered the ongoing speculation about the future of the theatre.

Following over one year of delaying Niles' demand that he construct a second floor fire escape, Kaufman has continually refused to commit himself on whether he would comply with the order.

Niles Mayor Nicholas Blase recently received word from Kaufman that the fire escape construction may become unnecessary as the theatre may go out of business.

In the latest development in the continuing controversy, Blase sent a letter to Kaufman on May 6 insisting the fire escape be constructed within 45 days or the theatre will be shut down.

"The Village of Niles has been Continued on Page 27"

Some thirty (30) streets will be repaved or reconstructed in Niles and Morton Grove this summer. Additionally, new street lights, sewers, curbs and stoplights will be constructed throughout the two villages during the next few months. Among the most ambitious of the summer projects which promises to create havoc at the busy intersection of Milwaukee Ave. and Oakton St. is the complete re-design of Milwaukee Ave. south of Oakton St.

With the enormous traffic demands on Milwaukee Ave. south of Oakton St. created by Jerry's Fruit Market, McDonalds and across the street, the Oak Mill Mall, Niles officials have long noted the higher than average number of traffic accidents in this area. Acting on plans approved during the winter months, Niles will reconstruct this area installing left turn lanes and traffic lights to allow motorists easier access to and from the businesses on Milwaukee Ave. south of Oakton St.

According to plans, the traffic lights will allow shoppers to cross Milwaukee Ave. between Oak Mill Mall and the Jerry's Fruit

Market - McDonalds stores. To keep traffic moving smoothly the new stoplights will be coordinated with the current stoplights at the intersection of Oakton St. and Milwaukee Ave. Additionally, Oakton St. from Milwaukee Ave. to Mulford Ave. will be resurfaced with new curbs and gutters.

Niles Village Manager Ken Scheel said area traffic on Oakton St. south of Milwaukee Ave. will be reduced to one lane in each direction during the construction. However, Scheel added that area shoppers will have access to Oak Mill Mall, Jerry's Fruit and Garden Center and McDonalds from Oakton St. as well as the existing Milwaukee Ave. entrances.

Scheel said he expects construction on this project to be completed by October and the redesigned street to be totally operational by the end of the year.

In Morton Grove major construction will begin soon on Beckwith Rd. from Central St. west to Lehigh Rd. The work will include widening the street to permit the construction of bicycle paths as well as installation of

Summer activities for Senior Men's Club

Forty-five members of the Niles Senior Center Men's Club (8060 Oakton in Niles) attended the April 19 meeting and were treated to a maze of developments including approval and adoption of a Men's Club constitution. All members were given copies of the constitution drafted by George Cauthier.

Prominent among the many upcoming events is a trip to Arlington Park Race Track, scheduled for May 28. Men's Club members and their wives have priority in registering for the outing. Cost per person is \$13.75 which includes bus transportation from the center to the park, admission and lunch. The bus will pick up devoted of the "Sport of Kings" and return time in estimated at 5:30 p.m.

The May 17 meeting will feature a gold demonstration by pro Joe Kovel and should be informative as well as illustrative. Judging by the interest level a golf tournament being arranged by Joe Cygnar and Chester Furmanski should be heavily attended. The May 17 meeting will be a luncheon and the center will provide coffee and cake. This meeting, as are all men's club meetings will begin at 10:30 a.m. and is open to all male Niles residents over age 62.

Flag day, June 14 is a banner day on which the men's club will provide a bar-b-que in which the men will do all the work of cooking and cleaning. Plans are in the making for some very exciting entertainment in the form of an afternoon of a music and comedy.

Program chairperson Gene Cierniak advises that the day July 19 is set aside on the social calendar. There will be a regular meeting of the men's club including guests from the Levy Senior Center Men's Club followed by a free luncheon and climaxed by an appearance of the Niles Senior Center Choral Group whose programs are always praised as being outstanding.

The men's club membership is open to all male Niles residents over age 62. Meetings are held on the third Monday of each month. The one half hour business meeting is followed by a program of the type described above, and either luncheon or coffee and cake. There are no dues or membership fees, and inquiries about the group may be directed to either Ralph Lieske (president) or Clarence Nelson (membership committee chairman) by calling the center at 967-6100 ext. 76.

DAY TO DAY WITH DIABETES

People with diabetes should clean their feet daily, dry them thoroughly, keep them soft with lotion, and check them for cuts or bruises. Toenails should be kept clean and smooth and cut straight across. Removal of corns, calluses or warts should not be attempted without special attention from a physician or podiatrist.

Skin should be kept clean and dry and bruises that are slow to heal should be reported at once to the doctor. Teeth and gums should be brushed twice a day with a soft-bristle brush and carefully flossed daily. Mouth sores or bleeding gums should be reported to a dentist, and dentists should be immediately informed of patients with diabetes.

Like most diseases, diabetes is made worse by stress. Sleep, rest, relaxation, and a regular schedule will help keep your digestive system functioning smoothly and your energy level steady. (excerpted from "To Your Good Health" by Robert J. Skeist, R.N.)

Niles Lions are selling brooms

The week of May 15 to the 22 is Lions' Broom Week! We shall be going house to house to our friends and neighbors asking you if you would help our cause by purchasing a broom, if needed.

The profit from the sale will be used to support our many free services. These services include the glaucoma screening, hearing tests, eye glasses and examinations for the needy. Also to support Camp Lions for the blind and hearing impaired children. Also to help community projects, and to aid in times of disaster.

This is one of our major fund raising activities. We, as Lions, enjoy the work we do for the less fortunate because it gives us great satisfaction when we can help make people's lives a little better.

LETTERS to EDITOR

Sister Irene expresses appreciation

Dear Editor: St. Benedict Home Residents, Sisters and Staff wish to take this occasion to express a general thank-you to the people of St. Juliana, St. John Brebeuf, St. Mary of the Woods, St. Tarcisus, and St. Ferdinand churches for sharing themselves so generously with us during the past year. The services they have performed were to numerous to mention, but they are all deeply appreciated.

We wish to thank, likewise, the Niles Public Library for bringing a series of programs to the Residents; the Niles Policemen's Auxiliary for a delightful party; the Boy and Girl Scouts of many schools in the area for visits, entertainments, and gifts; and many other groups and individuals to whom we are indebted for their kin thought of us.

A special thank-you goes to our public servants: the members of the Niles police and fire departments and of the Niles Public works, the personnel at the offices of the Village of Niles. We have received prompt and efficient service from all these agencies, and have become aware of a deep personal interest

in the Home on the part of many of these fine people. God will reward each of you and those you love. It is great to be a part of the family of the Village of Niles.

Sister Irene Sebó, OSB Administrator

Thank you Dear Editor: We wish to thank you for putting a picture of our son Robert Pisani in The Bugle the week of April 21. This unsolicited recognition of the honor he received was a very pleasant surprise.

New early blooming perennials available

There is an Exciting New Product available this Spring at Leading Garden Centers and Chain Stores in the Chicagoland area. "Iverson's Alpine Perennials" Short early blooming perennials will be introduced this May. They were chosen by Iverson's, one of the largest wholesale growers in the United States, for their short, bush compact growth habit, plus bright cheerful blooms.

Their low spreading growth makes them good garden neighbors with other Alpines or border plants because they don't overgrow their space. Alpines are perennials, so you know they'll be back every year, unlike annuals which die and have to be replanted annually.

Many Alpines have been garden favorites for a long time such as Primrose, Alpine Asters, Candytuft, Forget-me-not, Dianthus and Cerastium Silver Spreader. The New introductions, made this year by Iverson's are: Daisy Little Princess, similar to shasta

Recently the senior citizens took a tour with Munson's Discovery Travel to Washington-Williamsburg for nine days. Among the group were Pauline E. Pask and Jewel Moos from Niles.

On our visit to Arlington National Cemetery on the 17th of April, Munson's provided a wreath to be placed on the Unknown Soldier's tomb. Two persons were selected for this honor. One was Jewel Moos from Niles. Each was presented with a certificate after the ceremony.

Everyone on our tour thought this was a very thoughtful thing to do.

MaineStay Jog-a-thon fundraiser

Township Supervisor Paul K. Halverson announced plans for the first annual MaineStay Jog-a-thon to take place on Saturday, May 22 at Maine East High School. This event will raise funds for MaineStay, which provides free counseling and other youth services to young people in Maine Township.

James Pappas, MaineStay board member and Jog-a-thon chairman, stated that the Jog-a-thon is an opportunity for young people to participate in a project that will help Teens in their own communities.

"The Jog-a-thon is not a race, marathon or contest," he said, "it is a fun athletic event." Participants will be running, jogging or walking as many times as possible around Maine East's quarter mile track in one hour.

Participants will find sponsors to pledge \$5, \$10, \$20 or more per lap for the number of laps the participant can complete in an hour. The participants do not need to collect pledges from sponsors. Instead, MaineStay will notify the sponsor by mail informing them of the total laps completed. A self-addressed en-

velope will be enclosed for sponsors to return with their donation.

All participants with at least ten sponsors receive a free official Jog-a-thon T-shirt, the day of the event.

District 207 High Schools and area Junior Highs are cooperating in the Jog-a-thon project. Students will have the opportunity to help by either participating in the event themselves or finding sponsors for their school's "athletes in action." These are popular faculty members who have agreed to participate in the event and help the MaineStay cause. An award of appreciation will be given to the school whose students bring in the greatest number of sponsors.

Supervisor Halverson encourages participation from local businesses that employ youth. "Youth who participate in the Jog-a-thon representing local businesses will see their name and the business' name in a thank you ad appearing in local papers after the event," he said.

More information and Sponsor Forms can be obtained by calling MaineStay Youth Services at 823-0650.

Statistics on DVI arrests

When are most driving under the influence arrests made? Illinois State Police statistics indicate Fridays and Saturdays between the hours of 11:00 p.m. and 2:00 a.m. Is it a coincidence then that most accidents occur on Saturdays between the hours of 12:30 a.m. to 1:30 a.m.?

One of the most important objectives of the Illinois State Police Policing For Results Program is reducing the number of investigated/reported accidents involving alcohol and/or drugs.

One way to combat the problem is through the arrest of drivers under the influence.

The State Police has strategically positioned patrols during the times and days described. What have the results been?

In January Troopers arrested 420 drivers, in February 510 drivers and in March 803 drivers under the influence.

The safety of the motoring public is the expected result of all State Police activities.

National Police Week observance

The Illinois State Police and law enforcement agencies throughout the nation will be observing National Police Week May 9 through May 16. Additionally, May 15 has been designated as "Peace Officers Memorial Day."

Since 1960, 2,000 police officers have been killed in the line of duty. An additional 40,000 are injured yearly. In 1981, 91 law enforcement officers were slain in the United States alone. Of those, 22 were killed in connection with robberies and burglaries and 16 while attempting other arrests. Nineteen officers were slain while handling disturbance calls, 12 while enforcing traffic laws and 10 while investigating suspicious persons. Nine were slain in ambush situations.

Records also show that of the 91 officers killed, 86 were slain by handguns.

Superintendent R.J. Miller noted that no Illinois State Troopers have lost their lives in the last two years. Miller has directed State Police District Commanders to have all officers wear the official black mourning band across their star on May 15. Also on that day, the official flag of mourning will be flown at all State Police facilities from 8 a.m. to 5 p.m. in lieu of the State of

Illinois flag. Said Miller, "I believe that this is the very least we can do for our fellow officers who have fallen in the line of duty in their quest for providing peace and safety for all of the people who live in this country."

Black to hold headquarters Grand Opening

Residents of the 28th Legislative District are invited to attend the Grand Opening of the headquarters of Louis Black, Democratic Candidate for State Senator, on Sunday, May 16. The festivities will be held from 4 to 8 p.m. at the headquarters, 3750 Dempster, Skokie.

The event is sponsored by "The Citizens Committee to Elect Louis Black." Serving as host for the Grand Opening is Herman Rockowitz, a Skokie Chairman for the Niles Township Democratic Organization.

Black, a Skokie resident, has been Niles Township Clerk for nine years. He is looking forward to meeting persons from all over the newly-formed 28th district, which includes portions of

Skokie, Morton Grove, Niles, Park Ridge, Des Plaines, Golf, Glenview, Wilmette, Mount Prospect and Elk Grove Village.

Rockowitz commented: "This is the peoples' opportunity to meet Louis Black and learn about the fine representation he has given to Niles Township and is willing to expand to the 28th district."

"We want the people to come to the same conclusion we have—that Lou is the person who should occupy the 28th District Senatorial seat after the November election."

Rockowitz said that volunteers who want to help elect Louis Black to the Senate will be able to sign up on May 16.

Kustra bill adding suburban representation passes committee

State Representative Bob Kustra (R-Glenview) announced this week that his bill increasing the size of the Cook County Board of Appeals from two to three members passed unanimously out of the House Revenue Committee last week. The Cook County Board of Appeals hears appeals on property tax appeals and it can revise assessments made by the County Assessor.

The bill provides for one member of the Board to be elected from the City of Chicago, one member elected from suburban Cook County, and one member elected from the county at large.

According to Kustra, "The bill will for the first time establish specific suburban representation. The existing two-member Board elected at large are Democrats and usually represent the interests of the City of Chicago. My bill will give suburban taxpayers the representation they deserve on the Board."

In the committee deliberations, Kustra was asked if the bill was an attempt to add a new member now that independent Patrick Quinn had won the nomination for the Board of Appeals on the Democratic ticket. Kustra responded that his bill was drafted a year ago and was not meant to be a partisan piece of legislation. Kustra added, "This is a taxpayer bill and it is a bill

that's designed to control the ever-increasing taxes on real estate."

SB 1521 would amend the Revenue Act of 1939. It would freeze property tax extensions at the 1981 assessment year level for tax extensions from 1982 to 1984 in taxing districts outside Cook County, and at the 1980 assessment year level - plus the increase due to an increase in assessments for 1981 and 1982 in the first and second quadrants distributed evenly among all 4 quadrants for taxing districts within Cook County.

"Homeowners are going to be very upset this August," said Senator Nimrod, "when they receive their tax bills. In some areas of Cook County, property owners will be faced with a \$100 tax increase because of the state-wide multiplier PLUS an

other 40% increase due to the quadrant reassessment. It's obvious to me that the only way to stop the tax-eaters - that is all governmental units - from constantly increasing taxes is to freeze those taxes at the present level. The only exception would be if the voters - by referendum - approved an increase in extensions beyond the freeze level."

Replace Your Old Furnace ... Now

With A New Gas Efficient Climatrol DON'T WAIT — IT MAY COST YOU MONEY

DESCRIPTION

These spark ignition gas furnaces are designed for reliable, efficient and quiet operation, as well as easy installation and application versatility. Upflow, counterflow and horizontal models are available. All are A.G.A. design certified for natural gas. Upflow models are also C.G.A. approved.

A spark-to-pilot ignition system replaces the conventional standing pilot thermocouple and safety shut-off unit. The pilot is ignited directly by a high voltage spark. A redundant type gas valve is supplied for manual burner control and is used on all models. The system is controlled from a low-voltage thermostat and incorporates a flame sensor that safeguards against loss of pilot flame for any reason.

The entire line is equipped for air conditioning. Blowers and drives have been sized to easily handle the listed cooling capacities.

High-grade carbon steel heat exchangers are used in all furnaces. Steel burners are specially protected to resist corrosion and provide quiet, efficient operation. The flame is readily visible to simplify quality adjustment.

The cabinets have foil faced fiberglass insulation to reduce jacket loss to a minimum and further provide quiet, economical operation.

tributions that public work officials make every day to our health, safety and comfort.

Flickinger noted the Public Works Department is responsible for Morton Grove's sewers, streets and highways, public buildings, solid waste collections, snow removal and water.

In other business, Trustee Joan Dechert reported on the two week police report from April 22 through May 10. During that period, Dechert said there were 671 calls for police assistance from citizens. Additionally, there were 76 auto accidents, 658 traffic tickets issued and 26 felony misdemeanor arrests.

Reporting on fire department calls during the period of April 26 through May 7, Dechert said there were 76 fire department assistance calls. These calls included 43 ambulance calls and 33 fire calls.

Also, Dechert said Morton Grove will begin advertising to receive bids for a new air conditioning and heating unit for Fire Station 1, 8250 Lincoln Ave. Dechert said bids will be opened on June 7.

Trustee Richard Hobs reported all silver and maple trees on residents' parkways have been sprayed this spring to prevent the outbreak of diseases.

Trustee Don Snieder told the Village Board in the April report from the Morton Grove Health Department there were 75 food service inspections and 13 environmental inspections. Food service inspections take place in all Morton Grove restaurants, businesses, and other areas, including rooms with vending machines, where food is served.

Also Snieder said the Animal Control Office responded to 66 calls for assistance during April. Snieder notified the Village Board the Health Department will be sponsoring a lecture at the Morton Grove Library on May 17. An Evanston Hospital doctor will speak on men's health issues.

Snieder reported Continental Cable Television sent the village a check for \$11,855 as payment of the 5 per cent of its total revenues for the quarter ending March 31. Continental reported taking in \$237,100 from its Morton Grove franchise during the first quarter of this year.

Finally, a Morton Grove resident requested the village enforce existing ordinances to require residents of her neighborhood to maintain their homes. Specifically, the resident said homes in her neighborhood suffered from paint chipping, lawns not mowed and light poles and flag poles on the ground.

The resident also complained that, contrary to Morton Grove ordinances, residents of her neighborhood were bringing their garbage cans out for trash collection days before the scheduled trash pick-up.

At the request of Flickinger the resident said she would supply a list of those neighbors whom she claimed were in violation of village ordinances. Flickinger said the village would check to verify that violations had occurred and citations could be issued.

Legion prepares for Poppy Day

The Morton Grove American Legion Post #134 and their Auxiliary Unit will be found on various street corners and at local businesses offering the red May memorial flower, the poppy, on Thursday, May 20. Each year the Legion Posts and Auxiliaries throughout the nation conduct their annual drive to raise funds for the many rehabilitation and hospital projects which they engage themselves in.

Doctors have indicated it is of therapeutic value for the former servicemen to fashion these little flowers. In addition, the Dept. of Illinois here in this state, pay the ex-servicemen a pittance to enable them to derive some financial assistance, in some cases, the only opportunity they have of making some sort of living.

Post commander Ralph Hintz has appointed Ronald Daum and Richard Hellestrae as co-chairmen for this important phase of Legion operation. They have performed this unselfish duty in the past and will, therefore, lend much expertise to the successful conclusion of the program.

Meanwhile, Auxiliary president Lorry Nehart has likewise appointed a chairman who has handled this function in the past for many years and will assist the men in the day-long poppy day effort. The Auxiliary chairman is Mrs. Nina Bartholmy, who herself served as president of the Unit.

Volunteers will be served a light meal at the Post Home during the day coordinated by Mrs. Bartholmy and Ms. Nehart.

Metropolitan Youth Symphony Concert

The Metropolitan Youth Symphony Orchestra, under the direction of Pamela Overstreet Culley, will close its twenty-third season with a performance at Orchestra Hall, 220 S. Michigan Ave., Chicago. The concert will take place at 8:15 p.m. Wednesday, May 26. Tickets, \$4 each, will be available at the box office.

Bob Sanders is well-known to the Chicago radio listeners. He was joined by his wife Betty at the WBBM News Radio 78 anchor desk where they have become the popular mid-day anchor team for ten years. They are the first and only married news team on any all-news station and have attracted broad appeal among listeners. This is Bob's first appearance with a symphony orchestra at Orchestra Hall.

The Metropolitan Youth Symphony Orchestra is a training ground for young, talented musicians from the Chicagoland

area. Many of the former orchestra members are now playing in symphony and opera company orchestras throughout the United States.

Pamela Overstreet Culley, the orchestra's conductor, is a faculty member of the DePaul University School of Music, a teacher of violin and the Director of strings and orchestra for the Niles Elementary Schools.

The Orchestra Hall concert is the culmination of a successful season which included concerts in Chicago, Skokie and Peoria.

This program is partially supported by a grant from the Illinois Arts Council, a state agency.

The following players from this area include: from Niles; Connie Anderson, Karen Hildebrand, Kathy Jung, Susan Tengesdal, and Debbie Ziegelski; and from Lincolnwood; Georgette Bartholomew, Eric Bodi, and Elisa Leberis.

In addition, the party will include light refreshments and a cash bar at a cost of \$5 per person.

Tuberculosis...

TB, the reported ages of those afflicted with the disease in Niles, Morton Grove and Des Plaines ranged from 15 years to 89 years.

"The incidents of TB rise with the over 50 age group since the level of immunity usually decreases with age," stated Dr. Gallai. "TB was the largest cause of death in young adults 33 years ago," he noted, "but today we have very effective drugs which, if taken as prescribed, can cure TB in 9 to 18 months."

Symptoms usually displayed are a chronic cough, sudden weight loss, night sweats, depression and fatigue. "We have to alert not only the public of these symptoms," said Dr. Gallai, "but most of our doctors today were not around 33 years ago and their medical training was not extensive in Tuberculosis since it was considered a controlled disease."

He further noted the United States Department of Immigration and Customs is entering the country on a permanent visa to have complete health records, but those visiting here on temporary visas are not required to produce these health records. "The Immigration Department is not consistent in their requirements," said Dr. Gallai, "and really should change their system so we can prevent these diseases from being carried into the country."

Tuberculosis is a bacteria that must be inhaled to be caught by anyone. It is transmitted airborne by an infectious person who coughs or sneezes.

While it cannot be contracted from anyone who has TB and handles food such as workers in restaurants or food stores, migrants and immigrants are prevalently found working in business establishments such as these. Since so many of these people are infectious or have active cases of TB, this is the best place to begin a program on curbing the further spread of tuberculosis in the suburban communities, according to Dr. Gallai.

In checking with Bonnie Burnett, Health Administrative Assistant for the Village of Niles, she noted that while village health inspectors did check restaurants and food stores for unsanitary conditions, the village did not have a specific program requiring persons working in those establishments and having so much contact with the public to have TB tests.

A State law requiring employees working in food establishments to have TB tests was dropped approximately 2 years ago, according to Dr.

contract or may elect, upon notice to Seller within ten (10) days after the expiration of the thirty (30) day period, to take title as it then is with the right to deduct from the purchase price liens or encumbrances of a definite or ascertainable amount. If Purchaser does not so elect, this contract shall become null and void without further action of the parties.

- K. If owner financing is desired, bidder shall submit a specific plan as a part of the bidder's offer. Said plan shall be considered by the owner in its determination of the highest responsible bidder.

- L. Additional information may be obtained from Mr. James Bowen, Secretary of the Board of Education of East Maine School District No. 63, 10150 Dee Road, Des Plaines, Illinois, (312) 299-1900.

DATED: This 6th day of May, 1982.

Gallai and it has been the local communities' responsibility to carry on that requirement.

Clark McIntosh, Acting Health Director of Des Plaines and Jim Huber, Health Director for the Village of Morton Grove both told The Bugle they have no active program at the present time in their towns, but would be inclined to start a program if the incidents of TB cases continued to rise.

On the other hand, Nancy Yiannias, Health Coordinator for the Village of Elk Grove stated her community passed an ordinance last summer requiring all persons working in food service-related businesses to be tested for tuberculosis. This is accomplished by giving a Mantoux inoculation which is an injection of tubercular protein directly under the skin on the arm. The injection, according to Ms. Yiannias, is checked three days later for redness which denotes a positive reaction.

"We felt that since we have such a large food industry in our village and so many Latino and Indonesian workers here, it was the best place to start to take controlled measures," she said.

Five clinics have been held so far in Elk Grove and all restaurants and grocery stores are notified of the date of the clinic.

Approximately 600 persons have been tested in these five clinics, according to Ms. Yiannias, and 30 positive cases have been found. A positive reaction, she stated, does not mean they have an active case of TB, but just could be infectious. Persons with positive reactions to the inoculations are directed to physicians for treatment and their cases are followed up by the Elk Grove Health Department to make sure they are remaining on the prescribed medication.

Ms. Yiannias also told The Bugle the communities of Arlington Heights and Palatine are in the process of instituting the same inoculation program in their towns.

"It is ironic," said Dr. Gallai, "that 33 years ago, 50,000 young adults died in the United States from TB and we did not have an effective treatment at that time. Today we have very effective drugs which can cure TB in 9 to 18 months. Now if we can only alert the public to its danger and the physicians to properly diagnosing cases of TB, we can control it from becoming an imminent threat to our society."

And although a few Baha'is have been released from prison during the recent amnesty, many more Baha'is have been arrested and imprisoned, including nine in Qazvin, seven in Shiraz, five in Tehran, seven in Sari and one in Zanjan. Scores of Baha'is remain imprisoned throughout Iran, most of them being held without charges or trials.

MG Legion to hold five day carnival

Many residents are beginning to make summer vacation plans and the Morton Grove American Legion Post #134 would like to take this opportunity to advise the dates of their annual fun filled carnival as many members of the community work around the dates to enable them to treat their families to the rides, games, delicious food and beverages served, etc. which are offered each year.

Post Commander Ralph Hintz indicates the Legion will hold their carnival once again on the Legion grounds, 6140 Dempster. This year's festival, however, will run five days instead of the normal four days.

Set to coincide with the village's 4th of July celebration, the Legion event will begin on Thurs., July 1 and be open on Friday, the 2, Saturday, the 3, Sunday the 4 of July and also Monday the 5, which will be commemorated as a holiday, making a long weekend.

More details will be announced in the near future. The planning committee has been hard at work for many months already devising the best possible ideas for the enjoyment of the whole town.

Baha'is of Niles

The Baha'i community received word here today of still more acts of persecution directed against the religion's followers in Iran, including another execution. The execution of Ihsanullah Khayyami, a man described by Baha'i officials as "a person of humble means," was carried out on April 12 in the village of Urumiyeh, in Western Iran.

According to Michael Carr, Media Representative of the Baha'i Community of Niles, Khayyami had been imprisoned for three months prior to his execution, during which time he had been under intense pressure to recant his faith.

Khayyami was executed when authorities became convinced that he could not be coerced to deny his religion, according to Mr. Carr. His execution brings to 114 the number of Baha'is known to have disappeared since the current Iranian regime began its systematic campaign of persecution against the 300,000-member Baha'i religious minority there.

After that the group will appear again at the Ebenezer Lutheran Church at 1650 W. Foster, Chicago. An appearance here has become a yearly event and always has been appreciated not only by the Church members, but by the Choral Group as well. This program will be performed May 20.

program concerning the nuclear Freeze movement. It's worth your while to spend the couple of hours gaining information concerning the nuclear arms race.

Monday night we dropped over to St. Martha's Church in Morton Grove where 15 persons turned out for the initial Freeze program there.

A former businessman and naval officer, Bob Cleland, was the main speaker at the 2-hour program. What the Freeze movement is attempting is to freeze the production of nuclear weapons at its present levels, both in the United States as well as in the Soviet Union.

There are many questions to be asked concerning the nuclear arms race. Most of us wonder how we can trust Russia in such an agreement. But listening to the arsenal of weapons both countries have, you may begin to understand the need for such a Freeze.

Guest speaker Cleland mentioned the United States has about 9,200 nuclear warheads ready for action. He said 53% of our weapons' arsenal is installed

in our submarines. At all times we have 20 subs with missiles out in the water. Each sub has 10 tubes where the missiles can be launched. And each missile has 16 warheads (MIRVs) for a total of 160 separate nuclear warheads per submarine. Since we have 20 missile-launching subs at the ready at all times, we have 3,200 "bombs", each capable of spewing many times the TNT tonnage the bombs at Hiroshima and Nagasaki had. The 3,200, representing one-third of our nuclear arsenal, can devastate every major city in Russia several times.

This was one message we received Monday night. We would like to know more about the Freeze program before we consider supporting the program. But as we wrote last week, there is a groundswell of support coming from the townhalls and the small villages throughout the world which are demanding the nuclear arms race be frozen. It behooves all of us to find out more about the arms race. And there's no better place to begin understanding than by attending Sunday night's Pax Christi program at Notre Dame High School at 7:30 p.m.

Niles Senior Center choral group

Members of the Niles Senior Center Choral Group have been tuning themselves for what promises to be a busy summer and fall schedule. Each Tuesday they have been practicing under the super-critical baton of director Evelyn Heidemann whose penchant for weeding out undesirable notes and chords has become legendary. Before getting into the meat of upcoming programs, however, it has been decided to indulge in a bit of levity.

Initiating the activities will be a luncheon for members of the group to be held at the Chambers Restaurant May 18. This has been the site of earlier rewards for the solid efforts of the group and has always ended on a high note, both musically and gastronomically. Arrangements for these festivities have been made by the Assistant Director Rosyana Salerno; Secretary Dorothy Carrothers and Rose Gabriele.

Church leaders and members from all of the Niles churches will receive a special invitation to this evening event as will Niles civic leaders. Pax Christi hopes to take initiatives toward building a community coalition for peacemaking and is collaborating with the National Nuclear Weapons Freeze Campaign toward organizing grass roots support. Announcements will be made on May 16 for those interested in joining such a follow-up program of prayer, reflection, and action.

Anyone interested in more information about this evening or about Pax Christi initiatives is asked to call Fr. Solazzo at SJB rectory (966-8145) or SJB Pax Christi at 967-6120.

A primer in cable television local programming has been added as a special feature for the third annual Skokie Information Fair on Thursday, May 20 at Devonshire Center, 4400 Grove.

The fair, which starts at 7:30 p.m., will now include a presentation by Margaret Ann Behrends, program manager for Group W Cable. Behrends will talk about Skokie's local programming possibilities and offer two video tapes that explain cable television.

Group W Cable (formerly Teleprompter) is now beginning the process of wiring Skokie and will be providing a \$700,000 local studio at Centre East for use in access and local organization programming. "The advent of cable television adds an important and very effective communications outlet for local groups and organizations, and we want to start educating people to the possibilities," said Al Bernstein, Skokie's Public Information Officer.

The fair will include talks on radio and print media and a packet of information on the most effective ways to do public relations for a group or organization. There is no admission charge, but to reserve a seat call 673-0500, ext. 257. The reservation deadline is 5 p.m. on May 17.

Mill Run... Continued from Page 3

diligent in its pursuit of Mill Run placing a fire escape on the outside of its building for the safety and general welfare of its patrons," wrote Blase. "To this date we have not received a satisfactory commitment regarding the placement of the fire escape."

Blase added the theatre would be closed if the fire escape is not installed by June 19. Said Blase, "...there will be no further theatre performances at Mill Run until the fire escape is fully in place."

However, in agreeing to wait until the middle of June, Niles officials have assured Kaufman that he can finish the season uninterrupted. Mill Run does not offer performances in July and August which could result in Niles officials not learning until September about the future of Mill Run.

Indeed, the possibility the fire escape will never be constructed remains a possibility. Niles business and village officials speculate that Mill Run may be having financial difficulties because, among other reasons, the 1,800 seat theatre is not large enough to accommodate the large crowds necessary for top entertainers.

Kaufman, according to Blase, has repeatedly told him that Tiffany Productions, which runs Mill Run and is headed by Kaufman, is considering closing permanently.

The controversy involving installing a fire escape began in early 1981 when a stage light burst during a performance at Mill Run. A limited amount of smoke came from the light and some patrons sitting in the upper section of the theatre momentarily

panicked. According to patrons attending the performance, some people were seen climbing over theatre seats to try and reach an exit.

The smoke quickly dissipated and the patrons returned to their seats. The entire incident started and finished so quickly that the performance was only delayed for a moment.

Letter writers to The Bugle who had witnessed the incident questioned the lack of a fire escape which would assure quick escape from the building. Within months of the incident Niles officials attempted to receive assurances from Kaufman that an outdoor fire escape would be built. When Kaufman would not commit himself Niles officials finally ordered the fire escape be built.

However, one year later, the fire escape still has not been constructed. During the past year Mill Run officials have delayed the construction claiming they could not get the materials they needed and later said they were tied up in other construction projects which were delaying the fire escape work. Finally, Mill Run said it could not do the work during the winter months.

The fire escape is expected to cost between \$10,000 and \$15,000 to construct.
