Curt Hockett, Executive Director of the Niles Chamber of Commerce and Industry announced Tuesday that a \$1,000 reward is being offered by the Niles Chamber for information leading

to the positive identification of the person who sexually assaulted the 3½ year old Niles boy on May 13. Hockett added that information received may lead to the arrest and conviction

of the offender.

The reward money will come from the Lt. John R. Christie Citizen's Award which is handled by a committee of the Niles Chamber and will be distributed

in cooperation with the Niles Police Department.

According to Niles Police, the 3½ year old boy and a friend were standing in the 8200-block of Elizabeth ave. when, at about 7

## Niles police seize Sears burglars

by Diane Miller

"They did it to us again and we caught them again!" was the comment heard from one of the Niles Police officers on the scene of the burglary of the Sears Roebuck and Company's Golf Mill store early Wednesday morning.

According to Niles Police Lt. Frank Stanowicz, 3 persons entered the Sears store by breaking a large plate glass window on the north side of the store near the Mill pond. A boulder from the pond, thought to have been used

### From the Left Hand

by Bud Besser

While the word "ombudsman" is a fairly new word in the American lexicon, people in Scandinavia have long lived with ombudsmen in their governments. He/she is the government official who investigates complaints of the citizenry against government officials and their functionaries.

We've always thought an ombudsman in all local communities would be very helpful. Residents who have problems, large and small, could have the ear of a person who could get back to the right officials and air the citizens' concern. It would be a most useful job for someone who is retired.

An ombudsman is certainly a good public relations figure for whomever he/she represents. In the days when Bill Veck was the man in charge of the White Sox, we often thought Bill might have 2 or 3 ombudsmen in two or three locations around the city who might hear complaints about the way "their" baseball team was faring. But Veck himself was so readily available (anyone could reach him by telephone), he was really his own ombudsman.

It would be a great gimmick for George Halas or for any of

by Eileen Hirschfeld

Parents of students in East Maine School District 63 will pay 20 per cent less for bus fees if youngsters are registered by June 19, according to action taken at a regular school board meeting last Tuesday in Apollo school, Des Plaines.

Dr. Donald Bond, district superintendent, said last year's fees were \$90 and will be reduced to \$80. If students do not register on time, busing fees will be \$120 each except for children who move into the district after the

June 19 deadline.

Students who register must pay a \$25 deposit with the remainder payable by August 29.

In other action, board members did not approve an administration proposal to purchase a heavy duty carpet shampoo machine after considering the argument of custodian Walter Maziarka. The machine would cost almost \$3,000 and be used to service all district schools.

Maziarka said the district

The recognition award will be presented to Ms. Moore on Friday, June 4 at the Ninth Annual North Shore Senior Center "Super Senior Day". The luncheon and awards presentation will be held in Winnetka.

Management. "After that first class, I was hooked," Ms. Moore says. She has since taken five other classes, and after a successful semester taking psychology she was asked by her instructor to become one of Oakton's peer advisors.

Ms. Moore works part-time in the OCC/Skokie College and Career Planning Center helping students of all ages plan their course selection.

"Cora Moore is a role model for people of all ages," says Patricia Handzel, director of Community Outreach. "She has not allowed her age to inhibit her desire to learn and experience new activities. Oakton is fortunate to have her as both a student and part-time employee."

## Bugle Digest Local News Briefs

What could be regarded as a sign of the times, according to Niles Police Chief Clarence Emrickson, is the fact the Niles Police Department thus far this year has 42 prosecutable cases of bad checks. "There were probably 10 times that amount of bad checks passed," he noted, "but we do have 42 cases that are prosecutable." He further stated that during the entire year of 1981, there were only 39 prosecutable cases of bad checks. Emrickson said it was now necessary for him to assign a full time police officer to handle what he termed "white collar crimes" which also include embezzlements. He further noted, "the paper work involved is tremendous and if it were not for the fact that our department is entirely computerized, we would have to retain additional manpower to handle it."

Bugle congratulations to Esther Larson of The Huntington who celebrated her 85th birthday on Saturday, May 22. Esther was honored at a party given by her daughter and son-in-law, Mr. and Mrs. Larry Burns of Morton Grove. During the evening she received congratulatory phone calls from her son, Dick in West Virginia and grandsons Larry of Houston, Tex. and Craig of New York.

After nine months of the fiscal year, the Village of Niles Sales Tax revenue was \$2,711,429; this is \$33,570 or 1.2% less than was anticipated.

Gay Parker, director of facilities at Oakton Community College, reported that good progress has been made on all 5 projects underway on the Des Plaines campus. Construction on both the north and east wings is ahead of schedule and steel and masonry will be completed within the next 3 months, closing the buildings in by October. Construction of the drive and parking area on the south entrance will be completed before July 1; the microcomputer lab within the next week ahead of schedule. The maintenance building is complete with only TV cameras for surveillance to be installed. The south parking lot will also be paved within the next few years.

Tom Ferraro and Charles Laws (The Protection Group, Ltd.), both police/security veterans, have been appointed to serve as members of the Lt. John Christie Citizen's Award Committee for 1982 by Niles Chamber president Floyd Galanter. Both men were close personal friends of Lt. Christie and will serve as advisors to Chairman Bill Rand (Rand Jewelers) and Niles police liaison Lt. Ray Giovannelli.

The Niles Chamber of Commerce and Industry's new secretary to Executive Director Curt Hockett is Anne Grempka of Niles. Anne replaces long term Chamber secretary Lois Wordel and Jean Sauer who elected not to accept the full time position authorized by the Chamber's Executive Committee.

School District 63's Board moved a step closer towards selling Merrill school property and leasing Jefferson Junior High property at a meeting of the buildings and grounds committee held last week. The appraisals on the Merrill property were \$670,500 and \$225,000. The lower figure involved selling the building and property while the higher came with the recommendation that the district raise the building and divide the property into 27 lots for residential use. Dr. Raymond Hodson, District 63 superintendent, recommended against the sub-dividing of the property to the poor housing market.

The Maha-Niles Association of Special Recreation, a north suburban consortium of seven north and northwest suburbs organized to provide recreational opportunities to the physically and mentally handicapped, has filed suit in the Circuit Court of Cook County against the Village of Lincolnwood, Mayor John Forcillo and the Lincolnwood Recreation Board for breach of contract. The suit alleges that the Village is attempting to cancel its participation in M-NASR contrary to the Articles of Agreement entered into by Lincolnwood and the other member districts. The suit requests the Circuit Court to compel Lincolnwood to abide by the agreement for the current fiscal year so that the recreational needs of Lincolnwood's physically and mentally handicapped citizens will be fulfilled.

Plans are moving slowly for Venture to move into the old Treasury site at Gold and Milwaukee. According to the latest information, Venture hopes to have its Grand Opening by Thanksgiving. They will occupy 100,000 square feet of the building with the additional space possibly being leased by smaller shops.

## Cited for selling drug paraphernalia without license

# MG store charged with license violation

The owner of a Morton Grove store that sells drug paraphernalia has been cited and ordered to appear in the Skokie branch of Cook County Circuit Court on June 16 after being charged with selling paraphernalia and not recording the transaction in violation of a village ordinance.

If the misdemeanor citation is upheld in court, the Magical Mystery Tour, Ltd., 6010 Dempster st., could lose its business license and be fined as much as \$500. The Morton Grove village ordinance which was passed on March 22 was ruled to be legal by Judge Anthony J. Scillo of the Cook County Circuit Court last Thursday, May 28. The ordinance, based on the Hoffman Estates ordinance, was upheld by the United States Supreme Court. It prohibits stores from selling drug paraphernalia to customers less than 18 years of age and requires purchasers to register their names and addresses at the store.

In addition, the Morton Grove ordinance requires stores to have a special village license authorizing dealers to sell drug paraphernalia. Raymond Dreifuss, owner of the Magical Mystery Tour, Ltd. was charged after police determined he did not have a village license to sell paraphernalia. Dreifuss, in seeking an injunction, argued through his attorney, Arthur Gorov of Chicago, that he did not need a license because he sells "smoking accessories" such as pipes and cigarette papers and not drug paraphernalia. Last year several Morton Grove village officials, police and officials from Niles Township High School District 219 began a crackdown on the store after allegedly receiving several citizen complaints. Police Morton Grove Police Chief Larry Schey stationed a police officer outside the store in July, 1981, but was ordered to discontinue the practice by Judge Scillo after 5 days. Morton Grove Village Trustee Greg Youstra picketed the store briefly at that time.

Dreifuss insists the store is a form of "harassment" and insists he is not selling drug paraphernalia or breaking the law.

### Morton Grove Senior Citizen News

**VOLUNTEER MONTH**  
Morton Grove Mayor, Richard T. Flickinger's proclamation of May as "Volunteer Month", should inspire many residents to participate in offering their own natural resources to those with needs in the community. Whether it be Little League, Girl Scouts, the Blood Program, or a nursing home, people need the attention and concern of other people.

The Village of Morton Grove's Health Department and Senior Citizen Services, could frequently use individuals willing to give their time and talents. Such jobs as meals-on-wheels delivery, friendly visiting, transportation, grocery shopping, household and yard chores, blood program helpers, and home hospice (assisting family members of a dying individual) are vitally needed by others in the community with these activities call the Morton Grove Health Department at 965-4100.

**PUBLIC HEALTH NURSE FOR SENIORS**  
Christine Frisoni, R.N. of the Morton Grove Health Department is available to assist seniors with the personal health and medical concerns when their physician is not available. Christine is a nurse specialist in the problems of the older person and is available to answer questions, make home visits and to conduct health education programs on Tuesday mornings. For additional information, call the Health Department, 965-4100 or the Visiting Nurse Association, 677-6164.

- GROCERY SHOPPING TIPS**
1. Maintain a list of the things you will need from the store. Watch for weekly sale items, coupons, and foods in season. Above all plan your meals for a healthful diet.
  2. Buy the quantity that fills your needs and desires. Most supermarket personnel have instructions to provide smaller quantities to accommodate seniors.
  3. Check to see that the advertised price is the price marked on the package. If not, insist upon being charged the sale price. Watch what you are being charged at the checkout counter.
  4. If the store runs out of a sale item, ask for a raincheck. Don't be bashful. It's not your fault they ran out.
  5. Generic foods nutritionally are the same as name brands and usually lower priced.
  6. Coupon shopping may save you money if you use them with common sense. Use the coupons to buy only those items you need and use regularly. Also, getting a few cents off on an overpriced item isn't a bargain.
  7. Buy the economy size if you can use all of it or if you can freeze it or store it in smaller amounts. But if part of it ends up spoiled or thrown out, it wasn't a bargain after all.
  8. Store brands are often the best buy. Compare with sale price of national brands and generics.
  9. Day-old bread is often marked down. Use it for toast, in stuffings, and in combination dishes. Buy reduced produce which is undamaged if you can use it immediately or in the next day or two.

**AGING IS A FAMILY AFFAIR**

**PROSTATE GLAND REPORT**  
In speaking last week at the Morton Grove Public Library's Health Night, Dr. Richard Berk of Northwestern University School of Medicine and Evanston/Glenbrook Hospital, explained some of the false facts about prostate gland disorders. He explained that prostate gland cancer is the third leading cause of death among men, and the likelihood of contracting the disease increases after age 50. Detection for prostate cancer is quite simple and relatively painless, yet many men are not aware of an enlarged prostate until signs appear. These signs include: weak or interrupted flow of urine, inability to urinate or difficulty in starting urination, need to urinate frequently, especially at night, blood in the urine, urine flow that is not easily stopped, painful or burning urination, and continuing pain in lower back, pelvis or upper thighs.

Dr. Berk also explained a trans urethral route (TUR) technique for removing cancerous cells in the prostate without causing sexual impotency. For further information call the North Shore Unit of the American Cancer Society at 328-5147.

For further information about these and other senior programs, call the Morton Grove Senior Hot-Line, weekdays, 9 until noon at 965-4658, or Bud Swanson, Senior Services Coordinator at the Village Hall, 965-4100.

## Parent/Adolescent Concerns

By Larry F. Renetzky, ACSW/AAMFT, Executive Director, Niles Family Service and James Cisek, Ed.D./AAMFT, Director of Community Outreach

"Do you think it will rain or snow?" is a simple question. Usually heard from November through March, the question causes men to search upward and scan the grey (over hanging) clouds in an effort to answer the query. No one knows for sure. The old man, wise in folklore and nature may be as frequently right as the weather forecaster armed with an impressive array of equipment and radar. The point I wish to make is that everyone has an opinion - and likes to express it once in a while.

Children are no different. They want adults to recognize that they have opinions too. They also want their opinion to be respected as much as any other. Only then will they begin to feel good about themselves and believe they can think for themselves. This is a key factor in success in life. We need to teach our children how to think - and show them we respect their ability to think for themselves.

It is a fact that we adults do too much of the thinking for them. Yet life increasingly demands that our children learn to make decisions for themselves. Many decisions they will make may affect them for life. They may decide to take drugs as a way of feeling good. They may decide to get pregnant as a way of expressing their love. They may decide to act delinquent as a way of expressing their anger against an unfair world. How will they succeed in life will largely be determined by how well they learn to solve their problems and make good decisions.

Surprisingly, there is a relationship between asking "Do you think it will rain or snow?" and "success in life". I have a strong hunch that children who are asked for their opinion or thoughts have a better opportunity to learn decision making and problem solving. An adult who asks a child his or her opinion shows most strongly that a child's thoughts are valuable. We usually ask for something that is of some value to us. Asking a child's opinion proves his or her thinking ability is of value to us. It also helps the child to believe these thoughts are valuable to himself or herself.

We often forget to ask children if they think it is going rain or snow, or if the Chicago Cubs are going to win, or if Ronald Reagan is doing a good job. We simply don't show that we value their thinking ability. Obviously it is much harder for children to develop confidence in themselves if the important people in their life do not express any confidence in them. Don't pass up an opportunity to communicate that your children's opinions and thoughts are important and valuable. After all, that is essential to guide them through life. This ability to think for yourself just doesn't happen but it is developed and enhanced throughout life. Most of it is developed before the age of 16, but continues as a process through life.

There is a big difference between a parent who says or implies "when I want your opinion, I'll ask for it" and "Do you think it will rain or snow?" Whether or not the child is right is totally irrelevant. Many times the National Weather Forecasters are irrelevant. What is relevant, however, is the inclusion of your child's opinion. That means a lot to him or her. Ask a child if he thinks it will rain or snow today. Let him know you respect his thinking ability.

Incidentally, Niles Family Service is available to add our thoughts about what is happening in your life. Please call us if you recognize life would be better with some changes and we'll discuss how you can make these changes. Please call us or Madeleine Settles, Clinical Director at 692-3396 to make an appointment. You and your thoughts and concerns are important to us!

## Reynolds Aluminum Recycling expanding hours

Reynolds Aluminum Recycling Company is expanding hours at three of its metropolitan Chicago mobile unit stops and at its Maywood service center.

"More and more people are becoming conscious of the value of recycling," said J. Roger Hoffman, district recycling manager of the Reynolds Metals Company subsidiary. "We're seeing more new recyclers all across the country. They're getting more concerned about waste as well as energy savings. And they realize they're throwing money away every time they discard an aluminum can."

In addition to all-aluminum cans, Hoffman pointed out that Reynolds buys other clean household aluminum products such as pie plates, foil, frozen food and dinner trays, and dip, pudding and meat containers.

Reynolds also purchases other miscellaneous aluminum items such as siding, gutters, storm door and window frames, and lawn furniture tubing. These items should be free of any non-aluminum materials, cut to lengths not exceeding three feet, bundled, and not mixed with cans.

Hoffman said Reynolds also purchases and recycles aluminum castings including

## Oakton runners dominate Harper Invitational

Oakton Community College runners dominated the Annual Harper Track and Field Invitational held May 15, taking three individual firsts and the 1600 Meter Relay.

Jeff Turkin took both the 100 and 200 meter dash and placed second in the Long Jump. Mark McCormick won the High Jump. Steve Rosenblum placed second in the 1500 meter run. Adam Keno placed third in the 400 meters. Turkin, McCormick, Rosenblum and Keno combined for the winning 1600 meter relay team. John Terzaki rounded out the OCC scoring with a fifth place finish in the 200 meter dash.

Coach Pat Savage, pleased with his team's performance, said, "They all ran very well and it was a great way to end the outdoor season."

According to Savage, track conditions were poor, hot and muggy in the first half, a down-pour in the second half.

In the 100 meters, Turkin just nipped the reigning Illinois Junior College Champion.

Steve Rosenblum will run in the 5000 Meter Run at the National Junior College Meet in Texas.

### Emerson offers elective courses

Suzanne Chidester hollows out a bowl using the lathe in Woods II, an elective at Emerson School.

What do supermen and women of old, stuffed animals and mysteries of Edgar Allen Poe have in common? They are all subjects of elective courses at Emerson Jr. High School (Mythology, Sewing and Enjoying American Literature).

Started as a program about 7 years ago to enhance learning opportunities, electives are courses that students choose to take in addition to their regular "core" subjects of Math, Social Studies, Language Arts, Science and Reading. Dr. Hale, principal at Emerson, maintains that one reason for the program's popularity is that it allows students to be where they want to be and take classes they enjoy. The program also encourages good behavior and thereby reduces discipline problems at the Jr. high level.

Teachers have been enthusiastic about the class selection and many have developed courses of study in their own areas of interest or expertise.

One of the most popular classes continues to be photography. Under the direction of Donald White, students learn to "see" things in a new perspective, how to use a camera and develop the film, make prints through the use of the enlarger and critique their work. About 150 students per year are able to enroll in photography since it is a trimester course.

Other courses include such interesting topics as earth science, creating music, industrial arts, typing, calculator math, chorus, foods, sculpture and ceramics, wilderness living and plastics to name a few. As many as 20 different courses of study are offered per grade level. Since most are trimester courses, students can choose from 6 to 9 classes per year.

It is through exposure to these interesting and varied courses that students have the opportunity to develop interests and expand their knowledge in a variety of areas. Many of them maintain these interests and skills as lifelong hobbies or continue their education in a particular area because of this initial introduction.

**Nilesite lauds 'harmonious' Park District Board**

Dear Editor: The Niles Park District has had a rearranging of the guard. I would like to congratulate the old board under Dan Kosiba for a job well done in the past year.

The board seems to be working harmoniously together and the result has been policy making that is benefiting the district.

I have been a witness to most board meetings and some committee meetings and much work goes into their deliberating that makes for a smooth running group.

The input of each member, no matter how much, makes for a team that shows much dedication and care.

With the back up of a hard working administrative staff under Bill Hughes, and able attorney in the person of Gabe Berrafato, a fine board secretary Grace Johnson and a dedicated board treasurer in Jeff Arnold, the district stands on a firm footing overall.

I congratulate the new president Walt Beusse and vice president Elaine Heinen. Knowing their background in park district work and their dedication, we the citizens of Niles, can look forward to

keeping the high standards of the Niles Park District.

**With A New Gas Efficient Climatrol**

**DON'T WAIT - IT MAY COST YOU MONEY**

**DESCRIPTION**

These spark ignition gas furnaces are designed for reliable efficient and quiet operation, as well as easy installation and application versatility. Upflow, counterflow and horizontal models are available. All are A.C.A. design certified for natural gas. Upflow models are also C.G.A. approved.

A spark-to-pilot ignition system in place of the conventional standing pilot thermocouple and safety shut-off unit. The pilot is ignited directly by a high voltage spark. A reduction-type gas valve is supplied for main burner control and is used on all models. The system is controlled from a low-voltage thermostat and incorporates a flame sensor that safeguards against loss of pilot flame for any reason.

The entire line is equipped for air conditioning blowers and drives have been saved to easily handle the heated cooling capacities.

High-grade carbon steel heat exchangers are used in all furnaces. Steel burners are specially protected to resist corrosion and provide quiet, efficient operation. The flame is readily visible to simplify quality adjustment.

The cabinets have hot faced fiberglass insulation to reduce jacket loss to a minimum and further provide quiet, economical operation.

**DON'T SPEND SUMMER SPINNING YOUR WHEELS.**

Northern Illinois winters taught us to make the most of northern Illinois summers. But you have to work at it. Because the minute the air conditioner goes on, those little dials on the meter start moving faster. Sending most electric bills higher than in any other season of the year. Partly, because air conditioning naturally eats up a lot of electricity. And partly, because summer rates are higher than in any other season of the year.

It's been that way since 1979, when we stopped using the old, uniform, year-round rates. Raised it in the four summer months when electricity costs more to make. And lowered it the other eight to compensate.

Obviously, one of the big benefits was getting you to conserve. To help cut back on the growing demand for electricity every summer.

It's not impossible. Far from it. Those little dials don't have to move so fast. In fact, we know of at least a hundred things you can do to slow them down.

They're listed in our Waste Watcher's Guide, which is yours free.

(Write: Department AV, Box 767, Chicago, IL 60690.)

It'll help you conserve electricity, so you can save your money.

And spend your summer.

Chicago's sports teams. Sports fanatics have spent an inordinate amount of time second-guessing the teams they root for. It's part of the joy of being a sports rooter. If there was a central office available in Chicagoland, we're sure Cubs, Sox, Bears, Hawks, Sting and Bulls fans would make good use of the office to sit around and air their great thoughts with the teams' sports representatives.

Such an idea would be even more meaningful at government levels. If Mayor Byrne were to open such an office and keep it free from her cronies, it would garner plenty of votes for her. The ombudsman would have to be on the side of the citizenry, and not just a hack of the Mayor's

political machine.

Here in Bugleland, local governments could serve their people better if they had an extra arena of communication where they could get input from the people they represent.

We have often had it suggested we hold a weekly koffee klatsch in our office to give residents a chance to be heard. If their problems merit help from government officials, they would have such meetings set-up to aid them.

It may be just a puff of an idea. Again, it may have merit. We invite your comments on the setting up of such an ombudsman plan.

## Niles bids...

Cont'd from Niles-E. Maine P.1 addition, the building will garage all Public Works equipment and the Courtesy buses. Bids will be opened on Monday, June 21 at 2 p.m. at the Niles Village Hall.

In other business the board denied a request from Harcourt Brace Jovanovich, Inc., 7555 Caldwell ave. for permission to erect an 8 foot high fence with a 2 foot barbed wire top at the south and east end of their property. Mary Ann Likvan, 7038 Hamilton, Niles presented the company's request before the board stating that while they had not had particular problems other than the loss of some electric typewriters, their New York office suggested they have the high fence installed. Niles Mayor Nicholas Blase told Likvan that if the only reason for the fence was based on a corporate office request, he did not feel it was sufficient to permit the installation.

Board approved "no parking" signs on the north side of Foster Lane from Washington to the west boundary of the street. "No Parking" signs are now located on the south side of the street and petitions from neighbors to the village lead to the approval of additional signs.

A check for the Village Art Award purchase was presented by Mayor Blase to Claudia Anderson who was the Niles Art Fair winner. Her water color "Adole Memories" will be hung in the Niles Village Hall.

Opened bids for the asphalt repaving of Niles streets this summer. Cutler Repaving, Inc. submitted a bid of \$161,240 for the project while Monarch Asphalt of Skokie submitted a bid of \$151,040. Streets Committee members Peter Pesole and Ang Marchesini were asked by Blase to review the bids submitted for specifications and report back to the board.

Bids will be advertised for 1982 MFT Roadway Improvement Program which will include Oak Ave.-Grace Ave. to Cumberland Ave., Ozanam Ave.-Dempster St. to Park Ave. and Madison Ave.-Greenwood Ave. to Cumberland. Bids will be opened June 22.

## Honda announces new HRA21 rotary mowers

Northwest Honda, 8880 Milwaukee Ave., Niles, has announced availability of the new Honda HRA21 series rotary mowers. This series of mowers is 100 percent in compliance with the stringent new Federal Safety Standards, effective June 30, 1982. These self-propelled mowers feature design innovations to meet not only these new standards, but to answer the demands for durable, dependable and easy handling equipment in the Honda tradition.

The new HRA21 series features the Roto-Stop™ cutting blade control system pioneered by Honda in 1978 for the current HR series to minimize hand and foot injuries," said Laszlo Klisko, Mgr. "This system is the heart of the Honda rotary mowers. To engage the HRA21's cutting system, the hand is simply placed on a lever, a safety release button pushed with the thumb and the lever is released, the rotor blade stops within a few seconds while

the engine continues to run - no need to stop the engine." The two-step action to engage the mower's blade brings the HRA21 series into 100 percent compliance with the federal standards.

Standard features include Honda's four-stroke engine, with the easy starting system, a dual element type air cleaner to minimize engine wear and a redesigned steel cutter house for strong vacuum action. The new series is available in rear bag and side discharge models.

The Honda HRA21 series rotary mowers, 100 percent in compliance with Federal Safety Standards, are available at Northwest Honda, 8880 Milwaukee Ave., in Niles.

Ten Maine East students have been named finalists in the forty-eighth annual United States Constitution Contest, sponsored jointly by the Mel Tierney Post No. 247 of the American Legion and the Maine East history department.

This tradition is believed, according to history teacher Paul Carlson, to be the longest running contest of its kind in the United States.

The finalists are Dana Baumeister, Amy Chang, Ron Ellis, Nick Gatsis, Jackie Johnson, Marshall Lachman, Marcie Rosenberg, Urvi Sheth, John Vuksas, and Maureen Wilt.

### Spanish Scholarship winners

Six Maine East Spanish students, all seniors, have been awarded Spanish scholarships through the Maine East Spanish Club. They are Julie Burros of Niles, Rochelle Dolgoff of Des Plaines, Dawn Fritze of Niles, Julie Gorsline of Des Plaines, Andrea Mork of Glenview, and Sim Sorphan of Niles.

## Stenographic prize awarded to North student

Niles North High School senior, Michelle Caccamo recently returned from the 16th annual Office Education Association's National Leadership Conference with a third place award in Stenographic and Related Skills. Previously, Michelle had been awarded first place in the state in the same category.

According to her teacher, Ms. Mary Howell of the Niles North Cooperative Vocational Education department, Michelle's accuracy in stenography is flawless. "She richly deserved her first in state and third in nation award," Ms.

Howell added. 2,800 students from throughout the United States, Puerto Rico and Mexico participated in 150 categories at the national conference which was held in Nashville.

Michelle has also been named best girl student in Business Education. Ms. Howell presented this award to her at North's Awards Night program on May 12.

## Nelson students help Muscular Dystrophy

The Nelson School Student Council, East Maine School District 63, under the direction of teacher, Sandy Chast, sponsored a paper drive on April 26, 27 and 28. The student council voted to have a paper drive to raise money for "Jerry's Kids" - Muscular Dystrophy. Students, teachers and parents brought newspapers to fill a 40-foot trailer. Student council members worked on the van to load newspapers before school as well as during the lunchtime.

Student council members represent grades 3 through 6 with members and alternates attending meetings and sponsoring a variety of school projects. This year the student council has sponsored a toy collection drive in conjunction with the U.S. Marine Corp. "Toys for Tots" program, a school wide clean-up and beautification campaign, a school spirit campaign, and the "First Great Nelson School Balloon Lift Off".

pulled into the vehicle by the stranger. The child was subsequently sexually molested and then released by the offender.

A composite drawing of the suspect was reproduced in The Bugle last week. He was described as Latino, 25 to 35 years old, 5'8" to 5'10" tall, weighing between 170 and 180 pounds, having black hair combed back and a full black mustache. Additionally, he was wearing a (possibly) blue coat, light blue shirt, white pants (besoy type) and brown shiny shoes. He also spoke with a Spanish accent. The vehicle was described as a full size blue Ford

with a blue interior and possibly some type of ornament hanging in the front seat.

Niles police did apprehend a subject shortly after the crime who answered the description of the offender, but according to Police Chief Clarence Emrikson, "he denied any involvement in the crime and was turned over to the Immigration authorities for deportation." Emrikson noted, "he could have very well been our man, but that is something we will never know." In the meantime police are still conducting an investigation into the case and checking all possible leads.

Stankowicz told The Bugle that Niles Police with assistance from area departments surrounded the building. A foot chase ensued and two suspects were subsequently found hiding in the bushes outside the store and were apprehended by police.

Taken into custody were a 22-year-old man and a 27-year-old woman, both from Chicago. While they did give police their names, Niles Police Lt. Ray Giovannelli told The Bugle, at press time, that a facsimile was

should buy less expensive machines and place one in each school. He said, "Moving the machine from building to building is ridiculous."

Teachers from Washington School, Ft. Ridge, presented a statement questioning results of the school's proposed detachment from District 63 and admittance into District 34. Some parents formerly filed a request for detachment and petitions are being reviewed by attorneys, said one board member.

Teachers said, "We wish to express our deep regret and disappointment in that segment of Washington School's community that feels a need to disregard the positive educational programs and experiences, not only of their own children but the educational life of all District 63 students." Names, according to the report, may be removed from petitions by calling the District 63 administration building for information.

Board members approved an addition of teaching personnel to the tentative budget. Positions are 1.5 librarian, 2.5 vocal music, 5 multi-lingual, 1 aide multi-lingual and stipends for teachers conducting sessions of Newspaper Club and Student Council.

Two proposals concerning string instrumental lessons were delivered by a representative of the Evanston Band and Orchestra program which now conducts lessons for District students. About 15 students take part.

A textbook for Spanish lessons was approved and will be used in all Township schools.

Also, bids were awarded for physical education supplies, audio-visual supplies, elementary art supplies, classroom supplies, office supplies, Junior High art supplies and office paper supplies.
