## Nursing home control given back to owners

Judge Richard Curry of the Cook County Circuit Court ruled last week that the Spring Meadows Nursing Home, 8333 Golf rd., Niles should be returned to its owner, the Jacob Graff partnership.

The home had been placed under the receivership of a Catholic priest, Rev. Lawrence Cozzi after its operating license was revoked

in April following the deaths of three residents. A 25-page inspection report filed by the health department revealed alleged nursing, sanitary and dietary violations existed in the nursing home.

Fred Uhlig, deputy director of the Illinois Department of Public Health said his department will appeal Judge Curry's ruling

which will delay return of ownership to the Graff partnership until the case is resolved.

The Cook County state's attorney's office objected vigorously to Curry's ruling and requested instead that the owner be forced to give up the nursing home. Asst. State's Attorney Stuart Sikes said Curry may not have had the authority to reinstate the nursing home's license.

## Brownstein leaves Niles Twsp. GOP group

Lester Brownstein left the Niles Township Regular Republican Organization (NTRRO) to join the Evanston Township Regular Republican Organization.

Brownstein, a resident of Morton Grove, and former Deputy Committeeman declined an invitation to accept a precinct assignment in the NTRRO and to

do financial field work. Brownstein was unsuccessful in the March primary against Committeeman Patricia Reis Handzel. He lost 2½ to 1 to a relative newcomer who ran on a reform platform.

The incumbent committeeman, William Kearney was removed from the ballot because he had assignment in the NTRRO and to

## 8.1% unemployed in Niles and Morton Grove

# Unemployment up in suburbs during July

by Bob Besser

College students accounted for the rise in Niles and Morton Grove unemployment figures during July, according to village officials.

Figures released by the Chicago Labor Market Bureau showed unemployment reached 8.1 per cent in both Niles and Morton Grove in July. Out of a work force of 14,771 in Niles, the state-operated Labor Market Bureau said 1,196 were unemployed. In Morton Grove

statistics showed 942 of the 11,651 eligible workers out of work bringing the Morton Grove unemployment figure for July also to 8.1 per cent.

Commenting on the figures Niles Village Manager Ken Scheel said the unemployment figures were "not completely accurate." Noting Niles 8.1 per cent figure is "liable to have a lot of college kids in it," Scheel maintained there has been no

"Who's watching the store?"

Every few weeks we seem to be pounding readers over the head with the same old message, "Get down to the public halls and begin watching the store."

When Maine Township residents got their quadrennial tax bills, they were walking around with bulged-out eyes and a pallor which indicated they were suffering from trauma. They were calling their public officials. They were phoning local newspapers long after the proverbial horse got out of the barn.

The time to holler and rant and stamp their feet was months previously when public bodies were deciding how much money they could ask for before knowing what their assessments were. By the time they received their tax bills the time for protest was long past. Had the callers been sitting in on school board meetings and reading their local papers more diligently, they would have known their time to control tax bills was months before when school boards, in particular, were upping their demands for maximum amounts of money.

Other than taxpayers, the only other community force which alerts the public is the local newspapers. Their efforts on pointing out problems to the community have mixed results.

In this week's Bugle a Niles Park District legal notice lists a

## Morton Grove man fails in bid for gun vote

William Blameuser, 24, of Morton Grove, an admitted Nazi sympathizer, failed in his bid to have a referendum placed on the Nov. 2 ballot on the village's handgun ban.

A three-member municipal election board consisting of Morton Grove Village President Richard Flickinger, Village Clerk Gerald Schurhke and Village board member Neil

Cashman voted unanimously Thursday, Aug. 26 that the number of signatures Blameuser had gathered were inadequate to place the referendum on the ballot. Blameuser had collected nearly 1,400 signatures on petitions calling for an advisory referendum on the prohibition of handguns. Blameuser said he felt Morton Grove residents are

## Hearing on elderly to be held in Niles

The Suburban Cook County Area Agency on Aging is one of thirteen independent planning, coordinating and funding organizations named by the Illinois Department on Aging to assure that older persons receive the benefits, programs and services they have earned throughout their lives.

The Suburban Cook County Area Agency on Aging is not primarily a service provider, but a catalyst for assuring that in every community there are organizations capable of helping older persons with their questions,

concerns, or problems. The Area Agency is totally funded by federal and state government, yet it is an independently incorporated non-profit private agency. This independence permits a volunteer eighteen member Board of Directors, comprised primarily of persons age sixty and over, and a thirty-six member Advisory Council, which by law has fifty percent or more older persons to make all decisions for all of suburban Cook County.

In order to assure that the needs of suburban Cook County senior citizens are adequately

## Bugle Digest Local News Briefs

Maine Township High School District 207 spent \$390,000 during the 1981-82 year to maintain the empty Maine North High School. Maine North closed its doors to students in 1981 because of the declining student enrollment plaguing all area schools. The multi-million dollar structure had only been operating ten years when it was closed. District officials say the majority of the money spent on the vacant school last year was for utilities.

**Speaking of Maine North...**Lutheran General Hospital's Parkside Foundation still has not signed a lease to use Maine North as a Sports Medicine Center. Under original plans, Lutheran General was to lease 38,500 ft. at \$2.58 per square foot for the sports center. Area professional athletic teams were to use the Maine North facilities, however, the Chicago Bulls have recently bowed out of the plan forcing Lutheran General into postponing the lease signing.

A day care program for the impaired elderly is being offered to area residents by Lutheran General Hospital's Parkside Foundation. Located at Parkside's Life Fulfillment Center, 9375 Church St. in Des Plaines, the twice-a-week program includes group exercise, health education, arts and crafts, cooking sessions, discussion groups and field trips. Additionally, nurses and social workers are available to offer all assistance to the elderly during the day. For information call 696-7770.

Similar to a proposed law being discussed in Niles, the Cook County Board may soon pass a law making homeowners responsible for alcohol consumed by minors on their property. While the county law would only be applied in the unincorporated section of the county, it would carry with it a \$500 fine to adults allowing minors to drink in their private homes. This could lead to a legal loophole which for years has plagued police. Niles is expected to pass a similar ordinance during its September Village Board meeting.

Rev. Theodore Hesburgh, president of the University of Notre Dame and one of the nation's most acclaimed clergymen, will be the principal celebrant of a mass opening the school year at Notre Dame High School on Thursday, September 9. Hesburgh will be awarded an honorary diploma from the high school bringing to 90 the number of honorary degrees he has received.

Niles Township High School District 219 filed suit Monday to prevent seven Niles students from being admitted to Glenbrook High School District 225. At issue are residents of Niles Township seeking to disannex from the high school district who have enrolled their children in a Glenbrook High School. Niles Township is seeking a restraining order to prevent the students from making the move. The disannexation issue will be tackled by the Cook County Board of Regional School Trustees on October 4.

## Runners invited for Golf Mill 10K Benefit Race

On Sunday, September 12 at 9 a.m. sharp, runners are invited to participate in a 10K (6.2) mile run starting at Golf Mill Shopping Center and winding through the Village of Niles. This year's run is to benefit Niles own Olympic speedskating hopeful, Mr. Pat Moore. Pat, a 20 year old Niles resident, is a World Class Speedskater and is predicted by many to be the successor of Eric Heiden, the Olympic Gold Medal winner. United States athletes are not subsidized by this country and must compete against European and Russian athletes who are government supported. In order to reach olympic caliber, speedskaters must train six hours a day, 11 months out of the year at a cost of over \$10,000 per year. Obviously, these athletes face considerable obstacles in their climb to the top without help from businesses and other organizations. The Village of Niles has added to their slogan "The All American City...Where People Count." And in Niles people do count! Now everyone has the chance to show true sportsmanship by supporting this race. Each runner will receive a race packet which includes t-shirt (sponsored by Jerry Gleason Ford), a complimentary issue of The Runner magazine, a map of the race, a runners aid compliments of Debbie Temps in Niles, and their number. Entry fee for pre-registration is \$6, and \$8 registration fee the day of the race. Entry blanks available at Golf Mill stores or by phoning 296-8794.

With the controversy surrounding the independent candidacy of State Senator John Nimrod (R-Glenview) who is trying to prevent Rep. Bob Kustra (R-Glenview) from winning the Senate seat Nimrod held for ten years, little attention has been paid to Democratic Senatorial candidate Lou Black.

Black, Clerk of Niles Township, has been a regular on the local political scene for nearly 25 years. Formerly a Republican, Black broke with the Niles Township Regular Republican Organization and became a Democrat in 1974 after running unsuccessfully against Nimrod for the Republican Commit- teeman post. Black was elected Clerk of Niles Township in 1973. Since the Senatorial campaign began, Black has successfully remained apart from the in-fighting of Republicans Kustra and Nimrod during the past month. Issues, said Black, are what the campaign is about. Referring

to the fighting between Kustra and Nimrod, Black noted during an August 24 interview with The Bugle, "Any time they talk dirt I'll walk away."

## Niles finds jobs for local youths

At a time when college aid is being reduced and summer jobs are almost impossible to come by, the Village of Niles found jobs for up to 250 young people.

For five years, the Niles Youth Service Department has been running a job exchange service which has won great acceptance among area employers. Businesses which have summer or full time and part time jobs check with the Village on available young applicants when they have openings. Teenagers in search of a job list their experience and vital statistics with the Village.

In fact, the Village carries the process one step further by actually contacting more than 900 businesses in the area each summer, reminding them of the Village service, and suggesting possible qualified applicants.

While most students get jobs with restaurants, supermarkets, as stock clerks and inventory clerks, many Niles students are matched with jobs which fit in perfectly with their career plans. Bart Murphy, Village Trustee noted.

For instance, Debbie Esbornson, 19, is a sophomore at the University of Illinois at Champaign. When Cook Electric Company of Morton Grove asked the Village for a student who would be qualified to work this summer in the company's finance department, the Village made the match.

Shown above, in left photo, is Mark Braidman showing Youth Services Director Carol Chaconas the type of work he does at X-L Engineering Co., in Niles.

Shown above, in right photo, is Jim Wade working on machines at X-L Engineering Co., in Niles. Carol Chaconas, Director of Youth Services, looks on.

"I'm learning a great many things which will be applicable to my major and which will be helpful in my future career as an accountant," Debbie said. "I could have hunted for 4 years on my own and not landed a job this well suited to my needs and the company's needs."

Another good match was X-L Engineering Company, Niles, and 19 year old Dan Goldberg. Dan had car payments and rent to pay. He had been looking for a

job on his own for several months "and was getting kind of desperate". He finally turned to the Niles Youth Service which turned up the perfect job for him. It offered an opportunity to apprentice in the machine shop and the company would pay for night school for additional skills. Dan stated that he really had no idea when he contacted the Youth Service Department that this kind of thing was available right

### Rules of the road to follow if you're involved in traffic accident

by Secretary of State Jim Edgar  
Good drivers are aware of the possibility of being in a traffic accident, but many do not think seriously about it. Illinois Department of Transportation statistics show that 437,321 accidents involving personal injury or property damage were reported in Illinois in 1981.

Traffic safety includes not only safe driving but knowing what to do if you are involved in an accident.

If your vehicle is still in operating condition, stop immediately at a safe location.

Assist the injured, but don't attempt first aid unless you have been trained in the proper techniques. Try to make the victim comfortable, but move an injured person only if it is absolutely necessary. Protect the victim from traffic and, if the in-

jury appears to be serious, try to get a doctor or call an ambulance.  
Station someone at a safe place to warn approaching drivers. Use flares if they are available. Exchange names, addresses and license numbers with the other drivers involved in the accident and stay at the accident scene.

Notify the police as soon as possible and send an accident report to the Department of Transportation.

If you have any questions about the Secretary of State's office, please feel free to use our toll-free telephone number (800-252-8980).

A copy of the Rules of the Road will be sent to you upon request. Write to Jim Edgar, Secretary of State, Springfield, IL 62756.

### State police tell drivers to buckle up

To wear seat belts or not to wear seat belts - that is the question. The Illinois State Police believe the answer is simple!

There were 437,321 reported accidents in Illinois in 1981. That's one accident every 72 seconds. Why take a chance and risk injury? Seat belts may not only save your life, but they help reduce crippling and disfiguring injuries caused by automobile accidents.

In every accident there are two collisions. The first occurs when your vehicle strikes an object. The second occurs when your body is thrown forward. Seat belts protect you from this second collision.

#### School safety program begun

Start of another school year marks the 62nd anniversary of the School Safety Patrol program, now international in scope, which was pioneered by the AAA-Chicago Motor Club.

In its role as sponsor of the campaign, the AAA-Chicago Motor Club again has mailed thousands of posters to municipalities in its Illinois territory to be placed in prominent areas to call attention to the resumption of classes.

AAA-CMC President Nels L. Pierson welcomed the support of Gov. Thompson and urged motorists to exercise caution whenever children are present - not only during the first week of school but throughout the entire year.

Pierson emphasized the need for parental responsibility for child pedestrian safety, urging that children be shown the safest route to and from school.

Children also should be taught to cross the street only in areas attended by members of the school safety patrol, an adult crossing guard or a policeman, Pierson said.

Captain W.P. Burt, Commander for the northern Cook County State Police District, stated, "A survey conducted by researchers at the Insurance Institute for Highway Safety found that teenage drivers, use seat belts far less than older drivers and they are more frequently involved in motor vehicle crashes than adults. The results of this study provide further indication that people at greatest risk of being involved in crashes are least likely to have the protection from injury provided by seat belts."

There are many excuses for not wearing seat belts - but there are no valid reasons. The answer is simple - buckle up!

### Holiday driving safety hints

by Secretary of State Jim Edgar  
During Labor Day weekend, the last three-day holiday of the summer, many motorists take advantage of the extra time off and good weather to visit out-of-town relatives.

The key to a safe trip, especially when traffic is heavy, is to drive defensively. Expect the unexpected. Be alert for other drivers who might suddenly enter your lane without signaling their intentions. If you are driving on an expressway, watch for vehicles on entrance ramps and speed-change lanes.

At all times, be prepared to take evasive action to avoid accidents and protect yourself, your passengers and others, no matter who is at fault or how badly the other person drives.

If a collision is inevitable, don't panic. Try to steer your way out of it. Do anything to keep from hitting head-on. If you have to hit another vehicle or object, try to do it at an angle. If there is a choice, run into the softest thing available, possibly a ditch. Disaster sometimes can be avoided by deliberately throwing your vehicle into a skid.

Celebrate the holiday, but don't drink and drive. Drunk drivers are the major cause of traffic fatalities. If you have any questions about the Secretary of State's office, please feel free to use our toll-free telephone number (800-252-8980).

Thank you for your publications and cooperation! The Niles Park District has maintained the fields at Notre Dame beautifully.

#### Kustra refutes letter writer's statement

Dear Editor:  
In a letter to the editor last week, James Stack suggested that my commitment to property tax reform was soft because I held back a bill which I sponsored from being called for a vote. As I stated on numerous occasions, Democratic Minority Leader Michael Madigan prepared a "hit list" of property tax relief bills which Chicago Democrats wanted killed. My property tax reform bill was on that list and I have that list for anyone who wants to see the duplicitous ways of Democratic legislators from Chicago. Because the Chicago Democrats had just killed another property tax reform bill of mine giving suburbanites representation on the Cook County Board of Appeals, I counted the votes and realized that my bill could not pass.

With no possible chance of passing the bill, I saved it from a third reading defeat by asking that it be placed on the Interim Study Calendar. This keeps the bill alive for action this fall,

hardly an effort to kill the bill. I would welcome a call from Mr. Stack of any of your readers to discuss my property tax reform package.

Sincerely,  
Bob Kustra  
State Representative

The Nuggets played a total of 32 games, winning 22 and losing 10.

The following is a recap of the Nuggets last 3 games: Nuggets 5-Dogers 1. Ken Gast pitched well in this playoff win against the Dodgers. Nugget hits came from: Ken Nehlsen a double, Bob Fergus a single, Scott Swierad a triple, John Gembro had two singles, and Rich Schumacher had a single. After 4 1/2 innings of play, the heavens opened and the rains came. The umpires ruled it a complete game and the Nuggets moved on to the divisional championship game.

Division Championship - Nuggets 3-Astros 8. This was not to be the Nuggets day. Even though we had 9 hits, we only managed to score 3 runs. Art Scher did a fine job of relief pitching, but the Astros already had a good lead and were able to hold it. Nugget hitters were: Lee Newlan with 2 singles, Chris Piazza a single, Bob Fergus a double, Scott Swierad a double and a single, John Gembro a single, Rich Schumacher a single, and Art Scher a single. The Nuggets had a second place division finish.

Exhibition game - Nuggets 9-Dukes 6. The Nuggets enjoyed their last game of this year. Chris Piazza pitched in this winner. The Nuggets are hoping Chris will do more pitching next season. Our hits came from: Mike Veltri with 2 singles, Chris Piazza a single, Phil Raffin a single, Bob Knuerr a single, Nick Busija a single, Lee Newlan a single, and Bob Van Kast had a triple with 3 men on base!

The Nuggets held their season's end celebration at Benigan's. Mr. Frank D'Angelo, Benigan's manager, made everyone very comfortable and the food was excellent! Everyone attending had a great time and enjoyed the speeches made by coaches, Stan Breitman and John Gallatz. We are pleased to say that Mr. Frank D'Angelo announced that Benigan's would be sponsoring the Nuggets again next year.

## Acting Up sponsors playwriting contest

Acting Up!, the Oakton Community College senior adult performing troupe, invites writers to submit one-act plays for a fall playwriting contest it will sponsor. Winning scripts will be considered for performance by the troupe.

Vivian Mitchell, OCC special community programs assistant, said that plays must concern issues directly relating to older persons.

"The scripts will be judged based on the reality of the characters' freshness and originality. We are looking for positive messages about aging, and potential for production as a full dramatic work," she noted.

Although the main theme should pertain to aging, younger

characters and intergenerational issues can be included, she observes.

"We are looking for realistic characters in realistic situations. In conjunction with the Acting Up! philosophy of breaking the myths of aging, we ask that stereotypes of older persons be avoided."

The contest deadline is January 1, 1983. A panel of professionals in drama and the arts will judge the contest. Plans for a staged spring 1983 reading are under consideration. All manuscripts must be typed.

For further information call Ms. Mitchell, 635-1977, or send scripts to her at Oakton Community College, 1600 East Golf Rd., Des Plaines, Illinois, 60016.

## Illinois Bell to pay back taxes

Legal action by the Cook County State's Attorney's Office has resulted in Illinois Bell Telephone Co. being ordered to pay the county more than \$25 million in back taxes and interest.

"This ruling means that Illinois Bell will finally have to pay its fair share of supporting the county," said State's Attorney Richard M. Daley. "If the phone company didn't pay its share, then all the other taxpayers in the county would have to make up the difference."

It terms of the county budget, the \$25 million represents more than three times the cost of operating the Cook County Juvenile Temporary Detention Center (Audy Home).

An Illinois Appellate Court ruling, handed down Aug. 11, should be the end of a long legal battle between Illinois Bell and the county over a disputed tax bill, said Assistant State's Attorney Thomas McNulty, head of the Tax Division.

Illinois Bell had refused to pay \$18 million of its \$45 million 1978 corporate personal property tax bill.

The company sued the Cook County Board of (Tax) Appeals and the Cook County Treasurer over the state multiplier applied to the bill. The State's Attorney's Office then countersued the phone company to force payment of the taxes.

The 1978 taxes were due in August, 1979, and interest has been accruing since then at the rate of 1 percent a month until September, 1981, when the penalty rose to 1.5 percent a month.

McNulty said the \$25 million would be distributed among all 808 taxing bodies in Cook County. He predicted that school districts would be the major beneficiaries.

Since the State's Attorney's Office began a crackdown on uncollected taxes in March, 1981, more than \$4.4 million in corporate personal property taxes have been collected.

More than \$1.1 million in back real estate taxes have also been collected, depositing a total of more than \$5.5 million in delinquent taxes in county coffers, McNulty said. The Illinois Bell ruling will swell the total to more than \$30.5 million.

The money owed by Illinois Bell was for the last year that corporate personal property taxes were assessed. The tax was later replaced by an increase in corporate income taxes.

## Local realtor giving free seminars

Ken Welter, Broker of Century 21 Welter Realtors, and partner in Century 21 Welter Investment Equities Corp., has been helping several hundred individuals to understand the ins and outs of Real Estate investment.

"Selling is educating," says Welter, "and with yields on money market instruments coming down the way they have in recent weeks, investors will be taking a much closer look at Real Estate."

"Real Estate has the unique feature of providing an investor with cash flow, equity build-up, tax shelter, as well as capital appreciation," says Mr. Welter. "The new tax laws have greatly favored Real Estate giving the investor even greater tax shelter, and lowering the tax liability at the time the property is sold."

Mr. Welter is one of fewer than 75 Illinois Realtors holding the coveted CCIM (Certified Commercial Investment Member) designations of the National Association of Realtors. A Realtor since 1970, Mr. Welter is a senior instructor for Century 21

of Northern Illinois and 1982 President of the Century 21 International Investment Society. Next seminar: Wednesday, September 8, from 7-10 p.m., 9501 W. Devon ave. (O'Hare East Exit), Rosemont. Please call Vince Scarpelli or Ken Welter at 631-9600 for reservations.

Thousands of people try to stop smoking each day. Many succeed, but some only for a short time. They begin smoking only to try to quit again. For these smokers, a desire to quit smoking often is not enough - they need outside assistance.

St. Francis Hospital of Evanston offers an additional service to those who want to quit smoking. Paul A. Peterson, Ph.D., clinical psychologist, will conduct a "Stop Smoking Through Hypnotism" program at the Hospital, 355 Ridge ave., Evanston, at 4:30 p.m., 5:45 p.m. or 7:30 p.m. on Tuesday and Thursday, September 7 and 9, or Monday and Wednesday, September 13 and 15, as well as Monday and Wednesday October 4 and 6 or Tuesday and Thursday, October 12 and 14.

"I Quit" smoking workshop. A five-day "I Quit" Smoking Workshop in September will help area residents kick the habit once and for all.

Blood drive scheduled. There's a chronic shortage of blood in this region. You can help reduce the shortage so commonly seen during the summer months by donating blood during the Friday, September 10, blood drive at St. Francis Hospital of Evanston, 355 Ridge ave., Evanston.

The blood drive is held in affiliation with the North Suburban Blood Center, the sole supplier for blood in this region. Anyone in good health, between the ages of 17 and 65 and over 110 pounds can safely give blood.

Call 492-2255 for an appointment.

### Black... Continued from Page 3

unemployment, education, women's rights, seniors' rights, crime, environment, transportation and the nuclear freeze are all issues Black says he will address.

Regarding a bill to create more jobs in Illinois, Black said, "I'd support any program that would increase jobs and get people off relief rolls."

On crime, Black vows, "I'd reform the court system, end bail abuse and deal effectively with habitual criminals."

Regarding the inability of senior citizens to pay for costly medications, Black said, "If they don't have money (for medications), they should be able to get it."

However, in reviewing his positions, Black is quick to say, "I don't have the solution to all problems, but as a senator," Black vowed, "all my votes would be what I think would be good for people of the district."

Additionally, faced by screaming taxpayers, Black noted, "We must have tax reforms. The state taxpayers have suffered enough."

Black points with pride at his fiscal record as Clerk of Niles Township, claiming to be the only taxing body in Illinois which has cut its taxes in half. Black says the township government has been able to continue operating with less funds because he has "paid attention to details and the budget."

Speaking of his campaign strategy, Black described the spread-out 28th Senatorial District as "10 per cent to 14 per cent ultra-conservatives and 10 per cent to 14 per cent ultra-

liberals with the vast majority of the voters in between." Black's apparent strategy includes talking about Nimrod and Kustra together as opposed to dealing with them separately. Calling both Republicans "party hacks", Black said his campaign strategy has not changed since Nimrod became an independent candidate.

"They're both ultra-conservatives... their records prove it," stated Black. "I'm running against two Republican ultra-conservatives."

Commenting on the repeated assertions that Black can win to split the Republican vote, he said, "The experts have not looked at this district correctly. We expect to have more votes than both (Kustra and Nimrod) put together."

Political experts believe Black, a Skokie resident, will do well among voters in heavily Jewish Skokie. However, Black rejects all references to such ethnic issues. "I treat all voters as Americans," he said. He bristles at references to the religious make-up of the district. "The voters are all the same to me."

Trying to put the religion issues out of the window, Black said, "I wouldn't want to win or lose on that issue."

Black maintains his strong point is "working with people." As Niles Township Clerk, he has had to closely work with area residents on numerous problems.

He hopes he will get that same chance as State Senator. However, if he loses, he will be able to return to his position as Clerk of Niles Township.

### Youth jobs... Continued from Page 3

here in the Village. X-L also hired two other Niles college students, Jim Wade and Mark Braiddman, as summer workers, stated Carol Chaconas, Director of the Youth Department.

Employers get a good deal too, she points out, in terms of obtaining reliable, motivated workers. "Two other college students were having a tough time looking for summer jobs. They registered with us and got jobs with Ruben R. Donnelley Co., unloading telephone directories from trucks to small delivery vans.

"The company liked their work and their enthusiasm so much that what was supposed to be a two week job lasted the rest of the summer."

Employers use the service "because we try hard to match our young people with employers' requirements, they have come to trust us to send them good applicants," she added.

The Youth Department also helps prepare its young job pool applicants for employment by teaching them how to fill out applications, obtain required references, and most importantly, how to conduct themselves during a job interview.

It's tough for an inexperienced teenager to find a job when the competition is so intense," Bart Murphy said. "So when the Village can help a young man or woman find a job, it is also helping him to a sense of usefulness, competence and responsibility. That's the most satisfying aspect of the whole program."

### From the LEFT HAND

Continued from Page 1

payment of \$5,479.32 to Louis Glunz. Because Glunz is a beer, wine and booze dispenser, we called the park district to ask about the allocation. Pat Swanson told us the alcohol is used at the TAM golf course.

We know park districts are not allowed to serve alcohol on park premises, but being a non-golfer, we were not sure if TAM was the recipient of the alcohol. When it was confirmed this was where the Glunz products were distributed, we felt we'd done our duty in "watching the store".

Last week in our many school stories we reported one parochial school in the area had decreased enrollment which was contrary to the trend of all other private schools in the area. We received several calls from members of the church criticizing our publishing what they felt was a matter which should have stayed within their church. It seemed a rather innocuous one line of print which they objected to. In this case they believed our so-called "watching the store" was none of our business nor the business of our readers and we should have

censored the line we printed. The callers expressed a belief what goes on inside the church shouldn't be subjected to print. It really is none of the public's business.

Many years ago one local church booted out its minister who was much too liberal for many of the flock. During the time when Niles' first black family moved into town, his views were not welcome by many of those who paid his salary. So he got the boot.

We deliberated for some time before deciding not to publish the story. Feelings were intense and we backed away from a story which should have been written. But we knew inside any private church or organization, its members feel strongly against publishing any matters pertaining to its workings. It went against our better instincts but we refrained from publishing the story.

There are times when the natives expect us to watch the store for them, but only when it's not their private store.

### MG Lions battle blindness from Glaucoma

Glaucoma has a voracious appetite. Every year, in the U.S. alone, it gobbles the sight of 4,000 people.

More than 1,000,000 people, age 35 or more, are losing their sight from glaucoma right this moment without knowing it. You might be one of them.

It is easy, simple and painless to find out. And, although glaucoma is not preventable at this time, it is controllable if caught in the early stages. Early detection is the goal of the Morton Grove Lions Club.

The Morton Grove club will provide a visit of the Screening unit on Tuesday, Sept. 21. The unit will be located at the American Legion Home, 6140 Dempster from 6 to 8:30 p.m.

"Many people are blinded by glaucoma needlessly," said Thomas Rodkin, Club President. "We hope the adults in our community will take advantage of this FREE screening."

The incoming commander and president of the Morton Grove American Legion Post #134 and its Auxiliary Unit has selected the pair who will perform installing duties each for the newly elected heads of the organization. Formal ceremonies to install Roland Keppen and Mrs. Joyce Senf will take place at 7 p.m. on Saturday, Sept. 11 at the Legion Memorial Home, 6140 Dempster.

Keppen has selected past commander Donald Root, Sr. as his installing officer. Root is also a past commander of the First Division, American Legion (Cook County). The installing sgt. at arms for the evening will be Howard Karsten.

Mrs. Senf has nominated Mrs. Nina Bartholmy to be the Auxiliary installing officer. Mrs. Bartholmy is not only a past president of the Unit, but also served as Seventh District American Legion, Auxiliary President. Unit past president Mrs. Evelyn Ross will perform the installing sgt. at arms role for the Auxiliary Unit.

Lions Club, working with the Lions Foundation of Illinois, the non-profit, charitable arm of the Illinois Lions Club.

On Sunday, August 29, the three Catholic parishes of Niles asked their parishioners for the names of younger people with families who might want to move into the Village.

The joint effort, called Village Sunday, was part of a campaign by the village to attract younger families as homeowners and to make it easier for older residents to sell their homes.

At each of the Masses on Village Sunday, priests from the parishes asked for names of younger friends or relatives who would possibly be interested in making their homes in the village. The parishes, St. John Brebeuf, St. Isaac Jogues, and Our Lady of Ransom, provided a pamphlet produced by the village on the advantages of living in Niles and raising a family there. At all three parishes, parishioners were asked to fill out cards with the names and addresses of possible new Niles residents.

The coordinated Village Sunday effort was aimed at helping solve a problem which is shared by most mature suburban communities built close to large metropolitan areas after World War II.

That problem: the average age of families is increasing as fewer young couples with children move in and fewer older couples with grown children move out.

According to Village Trustee Bart Murphy, the young families who moved to Niles in the fifties and sixties have, for the most part, remained in Niles after raising their families. High mortgage rates, combined with high home prices, have kept the population turnover low and made it difficult in recent years for young homebuyers to move in.

opposed to the handgun ban and should be allowed to express their wishes freely in a referendum.

The board in its ruling noted that in upholding the challenge to the petitions filed by Morton Grove resident Beulah Anthony, 25% of the village's registered voters of 3,570 names are required to place a referendum on the ballot.

Blameuser, who concedes he has had no legal training, said he had misread the state statutes concerning referendums and felt he had obtained signatures equal to 10% of the amount of voters in the last election. Instead state statutes require 10% of the amount of registered voters to have a referendum placed on the ballot.

Blameuser asked for and received a continuance of his suit until Oct. 22. At that time he noted he intends to focus his complaint to the election board and its decision to reject such petitions. Observers predict such a move is highly unusual and will be thrown out of the courts.

unemployment dramatically." Additionally, Flickinger said he has heard no reports of large lay-offs at two of Morton Grove's largest factories, Avon and Baxter Labs.

Flickinger did say he has heard of Morton Grove residents who have been cut back to four days per week.

Scheel said he suspects the hardest hit sector of the local work force may be women in general and housewives in particular.

Scheel said the area economy has also shown no signs of large scale unemployment in Niles. Ironically, sales tax revenues are holding at past levels because of the poor economy. "People are reverting from shopping at Marshall Fields and Carsons and having their necessity items at Sears and K-Mart," explained Scheel.

Niles currently has not only Sears Roebuck and J.C. Penney providing sales tax revenues but also two K-Mart stores.

Noting that Morton Grove is not a single-industry town, Flickinger said, "When you don't have large industry that controls jobs, it's very hard to increase

### Niles parishes unite with Village to attract young families

On Sunday, August 29, the three Catholic parishes of Niles asked their parishioners for the names of younger people with families who might want to move into the Village.

The joint effort, called Village Sunday, was part of a campaign by the village to attract younger families as homeowners and to make it easier for older residents to sell their homes.

At each of the Masses on Village Sunday, priests from the parishes asked for names of younger friends or relatives who would possibly be interested in making their homes in the village. The parishes, St. John Brebeuf, St. Isaac Jogues, and Our Lady of Ransom, provided a pamphlet produced by the village on the advantages of living in Niles and raising a family there. At all three parishes, parishioners were asked to fill out cards with the names and addresses of possible new Niles residents.

High mortgage rates, combined with high home prices, have kept the population turnover low and made it difficult in recent years for young homebuyers to move in.

As the average age of the Niles population has increased, the school-age population has decreased. The decline has been felt in the public elementary schools, and in the three Catholic elementary schools in Niles - St. John Brebeuf, St. Isaac Jogues, and Our Lady of Ransom.

Father Edward Duggan, Pastor of St. John Brebeuf, said the school's capacity is 1000, compared to its current enrollment of 600. At St. Isaac Jogues, enrollment currently is 350 and John Brebeuf, St. Isaac Jogues, and Our Lady of Ransom, provide subsidies of \$200,000 and \$175,000.

Parents also seem willing to pay the \$80 tuition charged for one child in grades one through eight by St. John's and the comparable fees and tuitions charged by the other two schools.

"People in the parish just don't move away. They are satisfied with their homes, with their parish life and with the village and its services," Fr. Duggan said. "But often, when their children have grown, they don't move to an apartment or retire to Florida, they stay right here."

"Younger families would like to move into the parish, but we believe that many of them are discouraged by high home prices and interest rates," Fr. Duggan said
