

Niles store among seven robbed on Milwaukee Ave.

Birchway Drugs, 7503 Milwaukee Ave., was one of seven Milwaukee Ave. stores robbed on Monday night. The first six robberies occurred in Chicago with Birchway Drugs being the only Niles store robbed. All of the hold-ups took place between 6:30 and 7:39 p.m. According to Niles Police Sgt. Vito Loverde a man described as between 25 and 30 years old entered Birchway at 7:39 p.m. Ap-

proaching the 19 year old cashier the robber displayed a handgun and demanded the cash register be emptied. Taken from the drugstore was up to \$400 in cash as well as some personal checks, according to Loverde. Chicago Police were in touch with Niles Police after it was learned there had been six other armed robberies during the hour preceding the Birchway robbery.

Additionally, the description of the robber from the Birchway Drugs cashier matched that of the man who robbed the other retail stores. Police were looking Monday night for the robber and a possible accomplice seen driving east on Birchwood Dr. in a dark colored automobile. Police report the drugstore was empty during the robbery except for the cashier and a pharmacist.

Zoners approve carry-out restaurant

The Niles Zoning Board approved plans Monday night for the establishment of a carry-out chicken restaurant on Milwaukee Ave. in Niles. The still un-named restaurant will occupy a store at 9355 Milwaukee Ave. The store's current tenant, Fava Shoes, is vacating the store at the end of November. The carry-out chicken restaurant, will be owned by

Millbrook Associates, Ltd. of Bu-f-falo Grove. Millbrook Association requested a zoning code variation of 10 per cent to reduce the number of parking spaces in the center from 155 to 141 spaces. The zoning board granted the parking variance because the chicken restaurant will not have sit-down patrons so cars will move in and out of the lot rapidly. Continued on Page 27

Residents turn in bottles, Paramedics provided antidote

All Tylenol pulled from area stores

"It's been the number one topic of conversation," said Bob Pankau of Pankau Drugs. "Lots of calls about what to do about Tylenol." Since the first reported deaths due to cyanide poison, which was placed in a few Tylenol capsules in the northwest suburban area, the villages of Niles and Morton Grove and local drug stores have cooperated to remove the entire stock of Tylenol products from their shelves. Marnie Tucker, pharmacist at Sav Mor Drugs, said all Tylenol products, capsules, tablets, and

chewables were immediately pulled off all drug shelves. At Linden Drugs store owner Lou Sotonoff commended the village of Morton Grove for doing a very good job of seeing the products were removed from sales. Sotonoff said, like all stores, his received many telephone calls querying about all Tylenol products. Niles police sergeant Al Golbach told The Bugle Monday about 50 Tylenol bottles had been turned into the police department by residents walking into the Continued on Page 27

Unlike Richard Nixon the news media is always available to be "kicked around". It's common knowledge in undemocratic countries the news media is the first line of offense of any dictator. Adverse opinions coming from a free press usually are the first casualty in any dictatorship. Likewise, in wartime, even in democratic countries, the first casualty in reporting wars is often the truth. Propaganda and the twisting of the news is a part of every war emanating from both democratic, as well as undemocratic countries.

In today's Middle East war the media is taking an awful drubbing. It has been criticized for zeroing in on the bombings in Lebanon and for the many editorial opinions criticizing the conduct of the war. In their frustrations people worldwide are attacking the media for being "unfair and unbalanced".

Criticizing the media is always the "easy answer". When people are involved in conflicts which often do not have any answers, let alone clear ones, the easiest to attack is the one which is most exposed, the media.

It is the nature of the news to go where the action is. When Americans were held captive in Iran the nightly news zeroed in on the outraged Iranians, who demonstrated before the American embassy. One block down the street Tehran was a

NSF hosts lecture on teenagers

There is a new movement underway for parents to stand up for their rights. This movement is called "Tough Love" and is highly controversial. The goals of this organization are simple. Parents need to set limits on their teenagers and use whatever resources are around to keep these limits. Usually, that involves developing a supportive network of other parents who are facing similar problems with their own teenagers. The parents encourage each other to stick to the limits set and put the responsibility on the teenagers to line up to the limits or the rules.

Some \$2,300 is sitting in a reserve bank account earmarked for Niles policemen interested in purchasing bullet proof vests. Of this money, \$2,300 was donated by Jake Joseph of Jakes Restaurant, 7740 Milwaukee Ave., who ran a promotional campaign with the public to raise the money. An additional \$500 was donated by an anonymous contributor. The Village of Niles had earlier pledged to pay half, of \$60, for each bullet proof vest.

Who says you can't fight City Hall? Niles Park Commissioner Elaine Heinen is plenty angry that it took the Cook County Treasurer's Office one year to send out a \$101,119 check for 1981 park district taxes collected by the county from Niles residents. The recently received check, which Heinen spent months trying to locate, may cost the county more than they had anticipated. Heinen has requested Niles Park District Attorney Gabriel Berrafato to investigate whether the County Treasurer's Office can be charged interest on the late check.

Niles residents may be eligible for 12 per cent home mortgage loans guaranteed by Cook County. The special program, called the Growing Equity Mortgage Program of Cook County, is open only to area residents who have not owned a home for the last three years. Loans apply to single-unit homes with a maximum purchase price of \$73,890 and existing units with a maximum purchase price of \$64,170. Officials say after the three year period the loans will increase 3 per cent annually and be applied against the remaining principal balance.

The shopping center at Dempster St. and Waukegan Rd. in Morton Grove is being renovated and plans call for the addition of numerous new stores. The center, to be renamed Prairie View Plaza, has plans to add such new stores as B. Dalton Bookellers, Minnesota Fats, Royal Optical and Breyer's Ice Cream. Plans for the vacant Goldblatt's Department Store include creating specialty clothing shops and housing a Chicago Health Club. The existing stores, including Dominick's Foods, have indicated they will remain in the center. The \$1.5 million renovation plan is expected to be completed by early 1984.

A blood donor mobile will be held at Niles College, Touhy and Harlem aves. on Wednesday, Oct. 20 between 3 and 8 p.m. Anyone wishing to attend should call the Blood Program Coordinator at 967-6100 for instructions.

Village of Niles tree care program

It is the responsibility of the Niles Public Services Forestry Division to maintain the health and appearance of all trees in the public parkways. A tree care program involves many activities including the removal of unsafe, diseased or dead branches, trees, and stumps.

Emergency situations are first priority, all storm damaged trees and branches which are a safety hazard for passing pedestrians and motorists are removed. Each activity requires careful planning and programming. Unforeseen weather conditions and seasonal changes are considered when scheduling all tree care activities.

Requests to remove low hanging branches are accepted until June 1 of each year. Those requests taken after June 1 are placed on a waiting list until the following spring. Branch requests, prior to June 1, are scheduled for removal by zoned area between spring and fall. Requests are done by zoned area in order to be more productive and save time and fuel.

There are eight zone areas. Each zoned area is scheduled for certain spring and/or fall months.

- Zone 1 & 2 - east of Harlem; April and May
- Zone 3 & 4 - west of Harlem, Dempster south to Oakton, Oketo east to Harlem, south of Oakton to Howard; Harlem to Oriole; June
- Zone 5 - west of Oketo to Milwaukee, Oakton to Dempster; July and August
- Zone 6 - Oakton to Main, Washington to Milwaukee, September
- Zone 7 - Oakton to Dempster, Washington to Western; October
- Zone 8 - Dempster north to the northern village limits; November

Requests to remove dead or diseased trees are accepted until June 30 of each year. Free requests prior to June 30, are scheduled for removal during the months of June and July. Those requests taken after June 30 are

Park Ridge is repaid in full by NORTRAN

Only two months ago Park Ridge received 25 per cent of the principal and all of the interest due on a \$20,000 loan made by the City to the North Suburban Mass Transit District (NORTRAN). On September 20 NORTRAN was able to pay the debt in full.

A check for \$15,249.66 was presented to Park Ridge Mayor Martin J. Butler by John Heerman, a member of the City Council, on behalf of NORTRAN Trustee R. Jackson Kinzel.

The loan was originally made to NORTRAN during its financial crisis in the summer of 1981 and enabled them to continue their operations. Although Trustee Kinzel was unable to attend the City's Board Meeting, he expressed his gratitude to the community for the faith it placed in the District and the service it provides.

NORTRAN is a RTA funded carrier.

Now that winter is approaching, the Niles Housing Department is once again offering to all Niles residents, free carbon monoxide testing for all heating units. Carbon monoxide can be dangerous, especially since there is no way to detect it except by monitor.

Some of the signs that indicate carbon monoxide emission are headaches, dizziness, skin discoloration and nausea. A 16 to 20 second test of your furnace will determine if you are in danger of carbon monoxide emission. The Niles Housing Department has the 210 Ecoalyzer tester that is the latest and most efficient tester available.

Also available is the inexpensive "Easy Test Carbon

Monoxide Kit" which is a remarkable safety product particularly for the homeowner whose heating plant generates carbon monoxide. The kit is a simple badge-like monoxide detector that may be placed anywhere in the home and serves as an "early warning system". These kits may be purchased at U-DO-IT Products at 8012 Milwaukee ave. and Frank J. Turk and Sons, 7136 Touhy ave.

In order to have your furnace inspected, stop in the Niles Administration Building, 7601 Milwaukee ave. and complete an application form to set up an inspection time. If you have any questions, please call the Niles Housing Department at 967-6100.

SLEEP BETTER LIVE BETTER

TROUBLE SLEEPING?
If you are one of those people who have occasional trouble sleeping, the Better Sleep Council offers these tips for better rest:

— Don't drink coffee within a few hours of going to sleep since caffeine can disturb your sleep; the same is true of alcoholic beverages, especially in excess.

— Try to go to bed and get up at the same time every day; a regular schedule is conducive to good sleep.

— Make sure that your bed is in good condition and provides proper support for your shoulders and hips. It should also be large enough for you to stretch out and change positions easily.

— Do everything you can to promote restful sleep. Sleep in a cool, darkened room and try to block out or eliminate noise.

For a Guide to Better Sleep, send \$1 to the Better Sleep Council, P.O. B., 275, Burtonsville, MD 20730.

Nilesite elected to Manx board

Russell Gawne, 8605 N. Merrill, Niles, was elected to the executive board of the N.A.M.A.

The North American Manx Association was formed in 1920 by emigrants from the Isle of Man to assist their newly arriving fellow islanders, the society has evolved into an organization concerned with keeping alive the traditions and heritage of a tiny, but unique culture.

The 331 square Isle of Man has the oldest continued parliament in the world. The legislative form of government formed when the Vikings controlled the Island in 800 A.D. The Island has been controlled by the Scots and British, but has been self governing for a long time.

NSF lecture...

Cont'd from Niles-E. Maine P.1
Another major part of this organization is that the consequences of teenager's behavior must be allowed to happen if the teenager is to learn about life.

Join us for a very interesting evening discussing parents' rights and helping your teenagers to understand love means having to say no just as many times as saying yes.

The discussion will begin with Dr. James Cisek discussing parents' rights and the situation of a rebellious teenager. At 8 p.m. Beverly Grabow will speak about "Tough Love" and will be available to answer questions or distribute information. The lecture is at the Niles Public Library on Oct. 14 and is free. For further information, please call Dr. James Cisek at 692-3396.

normal city. But in the area in front of the embassy the shouting students were pictured night after night. It was a distortion of the news. But the yelling mobs were where the story was and the cameras showed this nightly picture. To show autos calmly driving down the street a few blocks away was a once-in-a-while picture. But it really was not the story in Iran. The shouting mobs were.

Before the turn of the century the Hearst papers were accused of creating the Spanish-American War. Hearst himself manned a gunboat in the Caribbean. Headlines and extra pages were major sources of revenue for those lawdy journals and often 5 or 6 daily editions were printed and hawked on the streets.

Television news, particularly on the national level, is highly responsible. The depth of the news is often superficial, but it is the nature of the time allotted, and the commercialization of the medium, which limits its scope. If you watch the Ted Koppel interviews and the Sunday morning David Brinkley shows you'll be seeing television journalism at its best. And if you really are a news junkie, and care about reading accurate news in depth, pick up the New York Times. It is the best in the world at what it does.

You might not like the opinions on the editorial pages. And you might not like the news pages with their stories which don't fit your point of view. Well, give 'em hell! Let them know you disagree in letter and by phone. And because they're always so close by you can even kick them around a bit. But don't ever try to kill the messenger. The message he brings is too important. Without "him" and without "it", it wouldn't make "us" any different from "them".

The presentation of the news in America today is better than it's ever been. The people in the news media are better educated and more informed than their counterparts of days gone by. The Ben Hecht-Charles McArthur "Front Page" newspaper

Coffee... Cont'd from Skokie-L'wood P.1
Skokie Mayor Albert Smith and all the Village Trustees will be on hand to talk informally with new residents. Top Village staff will also be there to answer questions about Skokie's government. Informational material on services within Skokie will be passed out to all who attend.

To reserve a spot at this coffee, call 673-0500, ext. 257.

Zoners...

Cont'd from Niles-E. Maine P.1
In other business, the Zoning Board unanimously rejected the request by a Niles resident to construct a carport next to his house.

The resident, Otto Bachmeier, had requested permission to build a 34 foot long carport to cover two cars end to end. The planned carport was to be 13 feet six inches wide.

However, Zoning Board members objected to the plans because the foundation for the carport and the overhead gutters would be closer to the next door house than is allowed by the village code.

Zoning Board member Angelo Troiani said the problem was that the house, constructed before Niles had a zoning code, was too close to neighboring houses resulting in any addition to be built on the side violating zoning codes.

station. He said the capsules would be turned over to the State Crime Laboratory in Joliet.

Niles Health Inspector Cathy Burnett told The Bugle she and Nick Costentino had re-checked all stores Monday to make sure the products were removed from shelves. She said Thursday several village employees including Niles policemen quickly covered the village to make sure no Tylenol products were available for public consumption.

In Morton Grove the police department reported about 250 bottles had been turned in by Monday afternoon including liquids and tablets as well as capsules. The manufacturer was scheduled to pick up the bottles.

Niles Paramedics received training Monday at St. Francis Hospital. The village was able to purchase two cyanide antidote kits at a cost of \$57 each. One kit is provided for each ambulance.

Duty Chief Harry Kinowski told The Bugle Tuesday the kits had to be sent by air freight from Missouri on Monday. Chicago's fire department had utilized all available kits in the Chicagoland area.

Kinowski said the symptoms of the toxic poisoning are similar to carbon monoxide poisoning.

Morton Grove's firefighter-paramedic Bob Haas said Morton Grove's two ambulances both were provided with the antidote kits from St. Francis Hospital. He said instructions for their use were provided by the hospital's representatives.

Selecting is offered in more than 30 neighborhood sites during February, March and until April 15. This required over three years of hard work by Freehill and volunteers.

Molenaar, in presenting the AARP Tax-Aide Service Award to Freehill, stated that "Freehill leaves big shoes to be filled."

Persons interested in serving as Tax-Aide consultants may write or phone the AARP Area V Region Office, 2720 Des Plaines Ave., Des Plaines, 60018 - 298-2852.

placed on a waiting list to be removed by early fall of the same year. Removals are done by area concentration to save time and fuel.

Once a name is placed on the tree removal list it also is automatically placed on the stump removal list. There is no need to call a second time to be added to the stump removal list.

Stump removals are scheduled in March and November and progress northward by area concentration.

Unfortunately these carefully scheduled tree care activities can be delayed due to weather conditions, such as a severe wind storm or a tornado. It is understandable in these situations that emergency removals of branches and trees will be handled first. Thus scheduled requests for branch removal in a zoned area could possibly be delayed by a few weeks.

We hope this information about the Village's tree care program has created a better understanding of how and when these services are delivered.
