

Zoners approve auto parts store over residents' objections

by Bob Besser

Over the objections of Seward Avenue residents, the Niles Plan Commission and Zoning Board of Appeals approved the application Monday night of an auto parts dealer to install an auto parts business in a vacant store at

Oakton St. and Milwaukee Ave. Representatives of Forest City Auto Parts, located in Park Ridge, had requested a zoning change to allow the auto parts business to be located at 8001 Milwaukee Ave. The application

had been heard during the Dec. 6 Zoning Board meeting at which time zoning commissioners requested detailed information from the auto parts store on the anticipated traffic and number of

Grant submits resignation; Hodes, Buck refuse to seek re-election

Library Board strife leads to resignation

by Eileen Hirschfeld

Internal strife between board members of the Niles Library District has led to the Dec. 30 resignation of Lois Grant and refusal to run for re-election this spring by incumbents Martin Hodes and Josephine Buck. At least two other persons expressed some unwillingness to remain board members. In her resignation, not yet accepted by the Library board, Grant indicated dissatisfaction with progress made toward programs and maintenance of

the library building. She has served the District more than four years. Grant said a computer system was purchased "instead of renovating the existing library which has multiple leaks in the roof, a dilapidated heating system and book collection which should be updated and expanded." According to her, committee and board meetings have not resulted, "in her opinion", with

From the Left Hand

by Bud Besser

Tuesday morning's obituary column carried the name of Henry Kolze Jr., 91, former operator of a picnic grove that is now Merrimac Park, died Friday in a Northbrook nursing home.

Kolze owned a sizeable amount of land in Niles including his residence which was on Caldwell Avenue next to a Touhy Avenue gas station at that intersection.

When industry and commercial property began encroaching on the Caldwell Avenue residences, Kolze was among the vanguard which resisted what then seemed the inevitable change in the area some 10 or 12 years ago. It was a bit ironic hearing him protesting about the encroachment of the next door gas station, listing its many liabilities. He owned the very successful Shell station just across the Niles border at Harlem and Milwaukee Avenues.

If you should drive down Caldwell Avenue, you might view the few residences on the east side of the street which successfully held off the industrial invasion. After Salerno-Megowen built their factory on that side of the street, it opened the way for additional commercial and industrial property.

The lovely homes were owned by some very high-powered people who had the megabucks to fight off the coming changes. The small legion of Caldwellites used to trek down to Niles village hall week after week and month after

Overheated light blamed for Glenview fire

Glenview Fire Department officials have tentatively determined that an overheated basement light fixture caused the fire that took the lives of a Glenview couple on Monday, Jan. 3. Helmut Schindler, 50, died with his wife Ingrid, 46, in their home at 924 Huber Lane in unincorporated Glenview after Schindler rescued his 16-year-old daughter, Heidi. The Schindler's home, which sustained \$250,000 damage, included an indoor swimming pool but had no smoke detectors. Friends, relatives and teachers at Resurrection High School have offered to take in Heidi, a junior at the school. She remains in good condition in Lutheran General Hospital in Park Ridge after treatment for minor burns and smoke inhalation. Her parents died of acute carbon monoxide intoxication, according to the Cook County medical examiner's office.

Swearing in ceremony

OCC Trustees honor retiring chairman

Bill Spaulding, newly elected chairman of the Oakton Community College Board of Trustees, presents a plaque to Raymond Hartstein, retiring chairman.

Bill Spaulding of Glenview has been elected chairman of the OCC Board of Trustees.

Spaulding, who has been active in school and community endeavors, joined the OCC board in April, 1980, and was vice chairman for the past two years. He succeeds Raymond E. Hartstein.

An employee of CNA Insurance, Spaulding has served as chairman of the Northfield Township High School District 225 Caucus, past president of the Henking School PTA, past president of the Springman Junior High School PTA, and chairman of the North Shore Community College Study Group, 1973 to 1975.

In addition to coaching Glenview Park District basketball and Little League baseball and leading Boy Scouts, Spaulding has served on the Children's Board, Youth Board, and Executive Board of the Glenview Community Church. He and his wife, Corinne, director of the Westbrook Learning Center, Glenview, have four children.

Spaulding cites three major issues that the Board of Trustees will address in the year ahead - College facilities, MONNACEP, Oakton's continuing and adult education program, and service to Evanston residents.

"First we will have to determine the extent of the role of the Niles East facility after the imminent completion of Phase II construction in Des Plaines, when we will occupy the new facilities. Second, under the direction of Dr. Diane Davis, Oakton's new vice president for community and administrative services, we will see changes to promote even greater efficiency in the MONNACEP organization.

"Finally, we anticipate providing programming for the Evanston residents who are in need of the community college alternative." Spaulding added, "I am very optimistic about Oakton's role in meeting the educational needs of the district."

Bugle Digest Local News Briefs

Morton Grove official Jim Sloan reports Mayor Richard Flickinger is participating in village business from his home as he continues to recover from his recent heart attacks. Sloan said Flickinger stays in touch by phone with village officials and reviews reports and documents at home.

Niles Village Manager Ken Scheel reports the ambitious Oakton and Milwaukee renovation should be completed in March. Scheel expects McDonald's will move into their new building just east of their current location in February allowing for the old McDonald's building to be torn down for parking. Following the demolition of the building, the stop lights on Milwaukee ave. between Oak Mill Mall and McDonalds and Jerry's Fruit Market will be activated. These lights will be coordinated with the lights at Oakton st. and Milwaukee ave. Additionally, Scheel says Jerry's Fruit Market suffered only a 2 per cent loss in business during the current construction which made entering and exiting its parking lot difficult. Surprisingly, McDonalds had a 7 per cent increase in business during this same period.

The 30,000 square foot public works garage being built behind the Touhy ave. Niles Police Department is scheduled to be completed in May. The \$1,400,000 building will house the Niles free bus system, the village maintenance facilities and Niles Building and Grounds Division. Currently these departments are housed at the Touhy Ave. Public Works Department.

Area residents may have noticed the 140 foot antenna which has been erected just north of the Niles Village Administration building at Howard St. and Milwaukee Ave. Village officials report the antenna, erected by Cablevision of Chicago which was awarded the Niles cable television franchise, is now operative. The antenna, which will receive microwave signals from Cablevision's Oak Park headquarters, will tie into television cables throughout the village.

In other cable television news, Cablevision representatives are expected to begin door-to-door soliciting in Niles during mid-January. The first Niles neighborhoods which will be fully wired for cable will be between Howard and Oakton Sts. and Milwaukee and Harlem Aves.

The unseasonable warm weather has resulted in Niles using only eight tons of salt so far this winter from its 1,200 ton reserve. However, Village Manager Ken Scheel expects the village will use "close to our usual amount" by the end of winter. Scheel reports Niles purchases its salt for about \$22 per ton. By purchasing salt with other suburbs through the Northwest Municipal Conference, Niles receives a lower price than if they purchased it on their own. The salt is stored inside building in the Touhy Ave. public works area.

The Village of Niles has been allocated \$1,150,000 which will be distributed for home loans at 11 1/2% interest through the Growing Equity Mortgage Program of Cook County. Niles finance director Jeff Bell said that 3 area financial institutions have been approved by the county to handle the loan transactions. Bell also noted about 25 loans would be issued for Niles homes with the average being about \$50,000. Niles is one of 63 townships participating in the GEM program designed to provide monies for mortgage loans at below market rates.

Maine Township Supervisor Paul Halverson said bids will be let out by the end of January for the renovation work on the building which formerly housed the Good Shepherd Community Church, 2100 N. Home, Park Ridge. The building will soon become the new home of the Maine Township administrative offices. Township officials anticipate the work will be completed within a few months and they will then make the move from their present offices at 2510 Dempster, Des Plaines. A total of \$75,000 in federal revenue sharing funds was allocated in this year's township budget to cover the renovation work which, according to Halverson, should fall within the budgeted figure.

The Niles Library is extending its search to a nationwide basis for a new administrator. Former administrator Mark Neyman resigned the post last September for health reasons. Originally trustees were looking for applicants from Illinois, but decided to expand the search area in order to get more feedback. The requirements for the \$23,000 a year post include a master's degree in library science, five year's experience in library administration and some supervisory background.

Majewski to be awarded Eagle Badge

William B. Majewski, of Troop 175, will be awarded Scoutings highest honor at the Eagle Court of Honor Sunday, Jan. 9, at 2 p.m. at St. John Brebeuf School, Flanagan Hall, 8307 Harlem ave., Niles.

The Eagle Scout Badge represents accomplishments in Scouting skills and requires teamwork as a member and a leader. Bill's scouting spirit and strength of character is evident in his willingness to be of service to the troop. His interest in understanding the needs of our community and nation makes the leadership of Troop 175 very proud as they extend their warmest congratulations.

The Eagle rank is achieved by about 1 per cent of all boys in Scouting each year.

Larry Gomberg and Barry Lipin, two community activists in unincorporated Maine Township, announced the formation of the Citizen's Action Committee. The primary focus of this committee will be to seek, aid, and run local candidates for local elective offices. The committee would like to hear from interested candidates and plans to raise funds as well as solicit volunteers to aid these candidates in their respective races.

Volunteers needed to deliver meals

Older Adult Service's Home Delivered Meals program needs volunteer drivers to help deliver meals to homebound senior citizens in the Park Ridge and Des Plaines area. Volunteer drivers can donate as few as one hour each week. They pick up the meals at the Life Fulfillment Center, 9375 Church, Des Plaines (corner of Church and Potter) and make the deliveries. Meals are packaged in easy-to-carry, lightweight, thermal containers. If you cannot volunteer every week, you can still volunteer on an "on-call" basis. Phone the director Pat Cohen at 696-7763 for information about becoming a volunteer. Older Adult Services is a division of Parkside Human Services, affiliated with Lutheran General Hospital.

Warren Nugent of Kenilworth, RTA (Regional Transportation Authority) Chairman Lewis W. Hill, Skokie Mayor Albert J. Smith, NORTRAN Trustee Walter B. Flintrup of Skokie, Judge Harold W. Snow and ice control

The Village of Niles plans well ahead for the winter months for snow and ice control. The winter preparation of salt spreaders, snowplows, snow blowers, and front-end loaders begins with painting the vehicles and replacing worn out blades. A snowplow rehearsal is staged. Drivers familiarize themselves with their specific piece of equipment and assigned area. All equipment is inspected thoroughly, especially the hydraulic system. Drivers must become familiar with their

terrain, checking for high manholes and broken curbs. During icy and slippery conditions, Public Service supervisors and organized crews go to their designated areas for salting. Patrolling policemen will also inform salting crews of ice intersections and streets. Priorities under the Village's Snow and Ice Program are to salt all main highways, then snow and bus routes and finally any other hazardous road conditions reported.

What is a Friendly Visitor Program?

A friendly visitor program is an organized plan for volunteer service in visiting the community's lonely or shut-in persons. Volunteers for friendly visiting accept the responsibility for regular, consistent visits to an individual in need of someone to take a personal interest in him.

Visits should be made at least once a week and, if both the volunteer and the older person would like, more frequently. A visitor can provide stimulation and enhance the person's interest in life and the outside world. He can aid in reestablishing or maintaining the person's links to the community in various ways.

For the individual who, because of age, chronic illness and disability, cannot get out and

make friends, the friendly visit brings relief from loneliness, isolation and fear. It can restore the give-and-take companionship of normal life, the enjoyment of being wanted and liked, the pleasure of having a friend who is interested enough to call regularly.

The activities which take place during the visit are often less important than the fact that someone is offering continuing companionship to the person who would otherwise be isolated or lonely. The visitor's presence shows that somebody cares. Regardless of the activities that are shared, the fact that someone came may be the single most important happening in the homebound person's day or week.

For the friendly visitor, the program fills leisure hours with new satisfaction, offers the reward of helping others, enriches life through new interests and provides a friend who needs and appreciates companionship.

Please call or drop in at the center, 1580 N. Northwest Hwy, Park Ridge, or call 823-9453.

Hazards of teenage drinking and driving

In the next two weeks high school will be closing for the Christmas Holidays, and many teenage men and women will not be returning after the beginning of 1983, not because they don't want to, but because they will be dead.

Nearly 8000 young Americans are killed each year in accidents involving young people and alcohol and 40,000 more are disabled.

Captain Hugh S. McGinley, Commander of Illinois State Police, District 15, comments, "Our sons and daughters can be victims whether or not they themselves drink responsibly, to excess, or even not at all. It is always possible that one of their friends or acquaintances who has been drinking will be behind the wheel, placing your children at risk of a serious accident."

"With the holiday season approaching, I cannot stress enough the importance parents must put forth in communicating with their children the hazards of mixing alcohol and driving," McGinley added.

Illinois State Police remind teenagers: "You must be 21 years of age to consume an alcoholic beverage in Illinois. Never be afraid to say, 'No thanks, I'm driving,' when offered a drink. If the driver of the vehicle you are riding in has been drinking, have the good sense to get out. Don't be afraid to call your parents for help."

Oakton — A warm, friendly atmosphere for learning

After I began school at Oakton my attitude about myself changed. I developed the self confidence to become successful and I graduated with honors.

Today I tell people who are considering going back to school what a warm friendly atmosphere exists at Oakton and that people do care. The quality of education is excellent and every course I took at Oakton transferred to the National College of Education.

First Federal announces income tax service by Tax Masters

First Federal of Chicago today announced that it is accepting appointments for an income tax preparation service which will become available at over thirty First Federal offices located throughout Illinois on January 24. The service will be provided by Tax Masters, a subsidiary of Beneficial Management Corporation that specializes in preparing income tax returns for the customers of financial institutions. Tax Masters is the second largest U.S. income tax preparation service, in terms of volume and locations.

First Federal also announced that Tax Master customers will receive a 10% discount on their tax preparation fee when they deposit \$500 or more into a First

Federal retirement plan, such as an Individual Retirement Account. Although the funds must be deposited into the plan by January 29, the customer may apply the Tax Masters discount whenever they have their taxes prepared (by April 15, 1983). Discount is good up to \$10.

"Tax Masters brings with it a proven national reputation for experience and technical competence in tax preparation," said Chester B. Myszkowski, First Federal product development manager. "Our customers throughout Illinois will find their services convenient, affordable, and a valuable addition to First Federal's wide range of financial services."

Myszkowski also noted that

Central Telephone files for increase

Central Telephone Company of Illinois (Centel) filed a formal application today with the Illinois Commerce Commission (ICC) to seek an increase in local service rates that would generate additional annual revenue of \$15.7 million.

The request is the first general increase Centel has asked for in Illinois in 13 years. The previous application had been filed by the company in December, 1969 with new rates going into effect in September 1970.

If the present request is approved as filed, it would represent an overall increase in annual revenue of approximately 16 percent, and would take effect approximately 11 months from today.

"The fact that we haven't asked for a general rate increase for 13 years is evidence of our ongoing effort to manage expenses carefully," said Donald U. Adkisson, general manager regulatory/planning for Centel-Illinois. "But it's also evident

that the cost of virtually everything, other than local telephone service, has risen dramatically over the same period of time.

"Today we're looking at operating expenses that are significantly greater than they were a decade ago. In addition, we've been investing millions of dollars since 1978 to provide all of the areas we serve in Illinois with many improvements.

"This is an effort that is continuing, and it is bringing many of our customers new services like digital switching, call waiting and call forwarding, and speedier processing of local and long distance calls, to name only a few. Of equal importance, we also are looking at announcing some new programs next year through which our customers will be able to reduce their bills."

Adkisson emphasized that there are many aspects to the formal application Centel filed with the ICC. If the proposal is

approved as submitted, here are some of the changes it would bring about:

- The charge for making a local call on a coin-operated telephone would be increased from 10 to 20 cents.
- A late charge of 1 1/2 percent per month would be assessed on any outstanding balance due after a missed monthly bill payment.
- A charge for directory assistance would be established, but it would not apply to the first eight calls per month to directory assistance. After the first eight calls the rate would be 20 cents per call.
- A charge would be established for customers who wish to obtain a detailed printout of message units (Chicago area) at the rate of \$8 for the first page each month, and 40 cents for each additional page. (As usual, such lists would continue to be available for inspection in the business office at no additional charge.)

month, in their attempts to head off the industrialists. It seemed a futile fight but the small band persisted. We recall one very soft-spoken lady, whose husband was a big game hunter in Africa, who fought the lonely fight week after week. And while churches, medical centers and industry bought up several of the surrounding homes, she refused to budge, and still lives there. Kolze, too, was part of the troops who took on the industrial bigwigs.

During that same period Kolze was also down at the village hall regarding his trailer park which was located on Milwaukee Avenue north of Dempster Street. It was quite an eyesore on Niles main street and Niles village officials were glad when the MEMCO store eventually took over the property. Subsequently, Eagle foods (Lucky Stores) took over the MEMCO store and now it is the residence of the McDade store. We were told the Kolze family is the recipient of a 99 year

lease on the property. You might conclude there is nothing like "old money" (though the new stuff isn't so bad either). Back in 1885 the 91-year-old Kolze's father founded a park at Irving Park and Narragansett Avenues. From the 1920's until 1949, Henry, Jr. operated the Electric Park there. In 1950 the park was sold to the Chicago Park District.

One-hundred years ago Kolze senior bought the park and it was passed on to his son. Henry Junior's son took over the highly successful Shell gas station at Milwaukee and Harlem Avenues which is now operated by the Shell Company. It is quite possible the land under this station might be leased by Shell from the Kolze family. Now, the McDade property has a 99 year lease which still has about 9 decades to go on it. It is quite possible as many as 6 generations of Kolze's will have lived off "the fat of the land". It is a phrase which should not be taken lightly.

Niles library... Continued from Page 1

"constructive" programs. In a charge apparently aimed at board president Harry Pestine, she said, "No matter what input I offered, it seemed to be over-riden or ignored."

At least two other board members concurred with Grant's statements. Both said the library should receive better maintenance. Also, in separate interviews, each claimed to have input either ignored or quashed by Pestine. Martin Hodas, a 13-year board member, told The Bugle he will not run for re-election in April. He formerly served as board president, representative to and board member of the North Suburban Library System and finance chairman. He claimed of being "stripped" of important positions five years ago.

Hodas, highly critical of many board moves, said their budget of one million dollars could be used more efficiently. He said the library had a budget of only \$500,000 when he was president and before a working cash fund and two per cent levy were made available. He suggested that present board accumulation of funds may be used to expand the library without a public referendum being passed.

Another board member criticized several board moves from delayed replacement of broken windows, inefficiency of dealings with vendors, improper maintenance and frustration in attempting to present ideas.

Grant's resignation, dissatisfaction of other board members and an out-of-town journey of another person may result in less than four board members, or a quorum, of the seven to attend to this month's business. Irene Costello, board secretary, said the library's attorney has been asked to check which board activities, if any, may be conducted without a quorum.

Chicago man and he was staggering. Additionally, police said they found three cans of beer, including one open can, on the Chicago man's front seat as well as a half full bottle of whiskey. When asked for identification the man pulled out four traffic tickets including the drunk driving violation from three hours earlier.

When asked for identification the man pulled out four traffic tickets including the drunk driving violation from three hours earlier.

At the Niles Police Department the offender was charged with driving under the influence of alcohol, improper lane usage, transporting open liquor and possession of alcohol by a minor. He was assigned a January court date and releases after posting a \$300 bond.

Toastmasters Club openings

The Niles Toastmasters Club has only four openings remaining in the Speechcraft Seminar being offered to Niles and neighboring communities for a nominal fee. Speechcraft, held on the 4 consecutive Mondays in January from 7-9 p.m. beginning January 10, helps people learn better communication skills. Call Jan Stojack at home 775-9815 or at work 972-2356 for further details.

Caucus candidates... Continued from Page 1

In District 207, there are also five seats up for election. The District 64 Caucus will select and endorse one candidate for a four-year term and one candidate for a two-year term.

During the late fall, announcements of Caucus plans and requests for delegates went out to 71 civic, church and school groups. An orientation for new delegates was held on January 4 to acquaint these organizational delegates with the purpose and method of operation of the Caucus process. The first general meeting of the Caucus is scheduled for January 11; the presentation of candidates by the nominating committee will take place on April 19, with the endorsements to be voted upon on May 10. An organization's delegate or alternate must be present at each of the two prior meetings to be eligible to vote on May 10.

Organizations that did not select delegates or wish to participate for the first time should contact the credentials chairperson, Bonnie Svensson, at 825-2051 or the secretary, Valerie Green, at 696-3767.

The School Caucus activities are directed to ensuring that persons of ability and character are candidates for vacancies on local Boards of Education. The Caucus promotes the candidacy of non-political school board members to seek election without

the time and expense of a usual election campaign. The first District 64 Caucus was conducted in the 1930's, when the Mel Tierney American Legion Post called together representatives of churches and civic groups from Park Ridge and Niles, to select and endorse qualified school board candidates. Since the 1930's, the Caucus has operated under its own charter, funded by the dues of its constituent organizations, and through the efforts of its volunteer officers and committee members. Membership in the Caucus is open to civic, community and church organizations which have at least 25 members residing in District 64. All Parent-Teacher organizations of schools located in the district are also eligible for membership.

The 1983 chairman of the Caucus is Justin Venetucci, 823-1937; the chairman-elect is Kitty Stokes, 825-0529. Other Caucus officers include Lella Selen, vice-chairman, John Prochaska, treasurer; and Sue Manrose, credentials vice-chairman.

Individuals desiring to forward nominations to the Caucus should contact any of the Caucus officers. Individuals desiring to run for either District 64 or District 207 should contact the Caucus officers. Mail for the Caucus can be sent to the District 64 school board offices.

Niles Zoners... Cont'd from Niles-E-Maine P.1

customers expected at the proposed store.

The study claimed that traffic at the store would be minimal and the number of customers served hourly would also be small. Commissioners Thomas Biondi, Sydney Mitchell and Louella Preston confirmed these figures when they told of visits they made to other Forest City Auto Parts stores.

Niles resident Edward Majka, 7451 Seward, presented the Zoning Board with a petition signed by 33 residents representing 19 families in the Seward Ave. area. The petition requested that the Zoning Board not allow an auto parts store to be given a license at the Oakton and Milwaukee location.

Majka told the board that area residents feared there would be an increase in litter from the store as a result of people servicing their cars around the auto parts store.

Additionally, Majka brought pictures of excessive garbage caused by the Oakton St. 7-Eleven Store and Foremost Liquors on Milwaukee Ave. which exits onto a back alley bordering Seward Ave.

Representatives of Forest City Auto Parts told the Zoning Board their employees would regularly police the parking areas around their store to pick up after customers. Also, the auto parts officials said they would post signs and ask customers not to work on their autos near the store.

However, another area resident, Patricia Anderson, 7450 Seward, told the board that many of her neighbors objected to the store coming into the area because it would mean an increase in traffic in the alley running behind the store as well as on the nearby side streets. "The traffic problem is terrible in our area on the side streets and in the alley," said Mrs. Anderson.

Following the discussion the Zoning Board voted five to one to approve the zoning request by the

auto parts store. Commissioner Angelo Troiani was the only Commissioner to vote against the auto parts store's establishment. The Niles Village Board will consider for final approval the zoning change during its January 25 meeting. It is expected the Seward Ave. residents will again be present to state their objections.
