## Hearing on District 63 detachment petitions March 9

by Diane Miller

A hearing on the validity of the count of signatures submitted on petitions to the Cook County Board by District 63 parents seeking detachment from the district to School District 34 will be held on Wednesday, March 9.

According to District 63 Superintendent Donald Bond, a hearing was held last July 19 by the Cook County Board which ruled the petitioners for detachment did not have enough signatures on the petitions which

they submitted to the board. They subsequently told the board they had 186 more signatures and sought to have these signatures added to their petitions. District 63 then took the case to court and

## Park reviews bids for pool filter system

by Bob Besser

Niles Park District officials are hurrying to accept a bid from numerous firms interested in installing a new filter system in the district's swimming pool. Officials said, during Tuesday night's board meeting, they must act now if the work is to be com-

pleted in time for the pool to open. The pool, located at 7877 Milwaukee Ave., has experienced filtration problems in the twenty year old system, according to Park Director Bill Hughes. Many of the pipes have rusted and seals

## Village divided into 3 sections for sales and hookup

# Cable TV begins in Niles homes

by Diane Miller

Approximately 200 Niles families have subscribed and are currently hooked up to the Cablevision network according to Ang Marcheschi, chairman of Niles Cable TV committee. In a meeting held Monday night, Cablevision rep Alan Kraus outlined the programming packages being offered by Cablevision salesmen and emphasized to village personnel that no 'hard sell' methods would be used. Kraus noted their sales people have undergone extensive training and will do everything they can to inform and accommodate the customer.

Niles Village Manager Ken Scheel told Kraus any complaints from residents received by the village will be referred to Cablevision. In addition, a Citizen's Inquiring Complaint form would be kept by the village and Cablevision would be expected to furnish a disposition of each complaint to Scheel's office. Scheel added that if complaints from Niles residents are received directly by Cablevision, he also expected a report on these inquiries. Kraus presented a map of the Village outlining the three sections

## Oakton operating within budget limits

by Susan Glowienke

Oakton Community College's budget is "doing better than expected," revealed OCC President Koehline at the first Board meeting of the new year.

One of the reasons for the healthy budget is OCC's only recording 95% of state apportionment revenue due to the anticipation of state budget cuts. However, actual cash receipts for the month were not sufficient to meet operating expenditures making it necessary to transfer funds from investments.

Oakton's investments are not doing as well as 1982 with the average yield down 3 percentage points, when compared with figures from last year. The average yield from fiscal year 1982-83 is 12.41% as compared to 1981-82 figures of 15.44%.

New Board member B. Diane Davis hopes to do some market

research regarding course selection for MONNACEP which has a fluctuating attendance number. "MONNACEP's attendance is vulnerable," said President Koehline, "because students enroll on impulse unlike the accredited programs." MONNACEP has spent 46% of its operating budget of \$1,535,000.

A series of budget transfers were approved for a total amounting to \$12,600. The bulk of this figure, \$12,000, was transferred from Site and Construction Maintenance to Site and Construction Equipment. The remaining \$600 was drawn from the Educational Fund and transferred into various campus services. To date, the total number of transfers Oakton has approved from the Education Fund amounts to \$134,615 with the legal limit being \$1,615,018. The

## Park Board honors Murphy

A moment of silence was called for during Tuesday night's Niles Park Board Meeting in memory of George Murphy, long time official of Niles Elementary School District 71. Murphy, who died Monday, Jan. 17, spent 30 years in the school district as teacher, principal and acting superintendent. As the first order of business during the Tuesday night meeting, Park Board President Walt Beusse called for the remembrance of Murphy. (Obituary on Page 3.)

## Library trustees answer charges leveled by resignee

by Eileen Hirschfeld

Both Irene Costello and Rita Breitbart, Niles Library District trustees, responded to charges in a letter of resignation by trustee Lois Grant, effective Dec. 30.

Both Costello and Breitbart have picked up petitions necessary to have signed and filed before running as a candidate in the April election. Grant especially cited, in her letter, board ineffectiveness

dealing with maintenance problems, delay in installment of computer terminals which are "lying around in crates" and ignoring her input into board meetings. The last seemed to be a charge leveled at Harry Pestine, board president.

Costello wrote a backlog of work took place when the former administrator, Mark Neyman,

## Niles Library seeks to fill Grant vacancy

by Eileen Hirschfeld

An appointee to fill the unexpired term of Lois Grant, Niles Public Library trustee, may be named with interviews conducted either Wednesday or Thursday, Jan. 19 or 20, if a regular board meeting can be scheduled with a quorum of trustees.

Four of the seven trustees make up a quorum. Absences, along with Grant, included two trustees said to have other engagements, Martin Hodes and Margaret Rajski, and Josephine Buck who is not in town.

Board president Harry Pestine cited the urgency for naming an appointee as soon as possible to aid in searching for a new administrator and asked all interested persons "To come forward". Pestine said he hoped for a "maximum amount of publicity (regarding opening) along with a minimum amount of time needed to appoint another trustee." Information will be available from

the Niles Library. Interim library administrator is Robert Young.

Pestine said an appointee would probably be named in executive session following interviews of interested persons. Also necessary are two reviews, for administrator search and candidate applications as well as routine business.

A board opening was caused when Grant sent a letter of resignation, effective Dec. 30, voicing concern for some board actions. Her letter cannot be accepted officially, outside of a regular board meeting.

A potential candidate, Heidi Majewski, came to view the meeting supposedly scheduled for Jan. 12. In answer to questioning, Majewski said appointment as trustee would enable her to give to the community. Majewski also said she could provide fresh input concerning library services. At least 6 other persons, including two incumbents, picked up information packets and petitions to be signed before filing as candidate.

Tentative candidates for library trustee are Jaroslawa Benko, 8447 Clara, Heidi Majewski, 7014 Niles Terr., John Sulla, 8445 Dempster St., Chris Stout, 9020 Capitol St., Terri Carran, 7743 Nordica Ave., and incumbents Irene Costello and Rita Breitbart.

Breitbart, acknowledging a late decision to run for reelection, said she feels responsibility for the library's needs although her work and family schedules are demanding.

## Agency to aid elderly services

Peg R. Blaser, Director of the Illinois Department on Aging, announced today that the Robert Wood Johnson Foundation of Princeton, New Jersey has awarded the Department nearly \$300,000 for the continuation of a model project which began serving elderly residents in Northwest Suburban Cook County in 1980.

"The project consists of a central agency that refers older persons to specific services which fit their needs. Instead of making several calls in an attempt to locate a visiting nurse, a hot meal or someone to do housework, older persons can now dial one toll-free number (800-942-1639) to find where they can be helped," said Blaser.

According to Blaser, the project involves eight townships of Northwest Suburban Cook County, including Barrington, Elk Grove, Hanover, Maine, Niles, Schaumburg, Palatine and Wheeling.

## District 63 studies redistricting options

The Board of Education of East Maine School District 63 has been considering possible options for the use of District facilities in order to best meet the needs of the changing student population.

At the meeting of the Board on Jan. 11, after reviewing 8 possible alternatives, the Board requested additional student projection figures so that its decision would provide for stability of student assignments over a long range period barring any drastic financial decreases. The 8 options being deliberated are:

OPTIONS	AREAS INVOLVED
1. Redistrict Nelson and Melzer Schools	These current parts of Nelson area will go to Melzer School: - Harlem to Suffield; Olander & Arcadia to Washington Road; Church to Greenwood to Golf and Washington.
2. Redistrict Nelson, Melzer & Washington	-Suffield/Arcadia area to Melzer School. -Courtland Park area to Washington School.
3. Redistrict Nelson, Melzer & Stevenson Schools	-Nelson changes as in #1 above. -Stevenson students East of Greenwood from Church to Dempster, to Nelson School. -Stevenson area south of Dempster go to Nelson School.
4. Redistrict Courtland Park area to Washington or Melzer Schools	-Courtland Park area.
5A. Redistrict Eastern Boundaries of Twain and Stevenson to Washington, Melzer & Nelson Schools	-Twain area bounded by Golf, Western, & Milwaukee to Washington School. -Courtland Park and Arcadia/Suffield area to Melzer. -Eastern Stevenson area as in #3 to Nelson School.
5B. Redistrict Stevenson & Nelson Schools	-Courtland Park to Washington School. -Twain area as in 5A stays at Twain. -Stevenson area as in #3 to Nelson School. -Suffield/Arcadia area to Melzer School.
6. Revised Boundaries for total district	-Courtland Park to Melzer; Arcadia/Suffield to Melzer. -Golf to Greenwood, Church to Western from Twain to Washington School. -Eastern section of Stevenson as in #3 above to Nelson.
7. Close Melzer School for the 1985-86 School Year	-Students go to Washington School.
8. Status Quo	-Maintain the present boundary structure.

The Board of Education will review the additional data requested and will discuss these issues at its next meeting on Tuesday, Jan. 25. A decision may be rendered at the Jan. 25 meeting. However, if additional discussion is necessary, a decision will be made no later than the Feb. 8 meeting of the Board. The Board meetings are held at 7:30 p.m. at Apollo School.

## District 71 principal - Murphy dies

George P. Murphy, described by his colleagues as a "true friend of the children, past and present, of District 71", died Monday, Jan. 17.

Murphy, who received both his bachelor and master's degrees from DePaul University, served Niles School District 71 for the past 30 years; he began as an eighth grade English teacher in 1953, and for the past 27 years, Continued on Page 23

The Morton Grove Plan Commission turned down a request by a Chicago arcade operator to set up a 100 game arcade in Morton Grove during Monday night's commission meeting.

At issue was a request by Bally Corp. of Chicago to establish a 100 game video arcade at the Village Plaza Shopping Center at Dempster and Harlem. Since current Morton Grove ordinances allow no more than 10 machines in a business it was necessary for Bally Corp. to petition the Plan Commission for a zoning variance.

However, numerous residents voice their concern that such an arcade would result in community problems including being a gathering point for teens. Countering this frequently heard concern, attorneys for Bally Corp. said adults would carefully monitor the arcade to discourage loitering and prevent school-age children from using the games during school hours.

### MEALS-ON-WHEELS DRIVERS NEEDED

The Morton Grove Health Department has expanded the Meals-On-Wheels Program for our seniors who are unable to cook for themselves. Due to the expansion we are now in need of more volunteer drivers to deliver the meals. We still need a driver for Fridays and Tuesdays.  
Delivering the meals entails giving about 45 minutes of your time one day a week during the noon hour. The meals are picked up at Bethany Terrace Nursing Home and delivered to the people on your route.  
Delivering meals to the disabled and home-bound can become a pleasant part of your schedule. These people are quite appreciative and they love to see a kind face at their door at lunchtime. If you are interested in helping with this program please call Marcy Amstader at 965-4100.

### VISITING NURSE IS HERE TO SERVE YOU

Christine Frisoni, our visiting nurse through the Evanston Visiting Nurse Association, is available on Tuesdays from 8:30 a.m. until 3 p.m. She can make house calls to check on recovery from hospitalization or illness. She is also available to answer questions about your medications, nutrition and exercise. If you do not want Cris to come to your home to see you, by calling for an appointment, you can see her at the Village Hall in the Health Department. To make an appointment call 965-4100 ext. 254 on Tuesdays.

### SOCIAL SECURITY COUNSELING

The Social Security Administration in Glenview will once again be sending a counselor out to help answer any questions you may have concerning social security benefits. ### EMERGENCY HELP GIVES SENIORS INDEPENDENCE

The Lifeguard Emergency Response System, a computer-based system endorsed by the Illinois Hospital Association, helps maintain a new level of outpatient care for patients who are chronically ill or impaired.  
Patients who use the Lifeguard System, available through Parkside Human Services' Older Adult Services program in Des Plaines, are equipped with a portable transmitter that is activated by pressing a button in the event of a home medical emergency. This triggers an emergency response that is both reliable and quick. Patients can continue to live independently with the security of knowing they can summon help in an emergency.

Patients who use this system have usually been recently discharged from the hospital, live alone or spend a considerable amount of time alone while at home. The system is also used by persons who have chronic medical problems, are frail, or are impaired. These people include the elderly and those who have a history of medical problems such as heart disease, diabetes or emphysema.  
More information about the Lifeguard Emergency Response System is available from Older Adult Services, 9375 Church st., Des Plaines or by calling 696-7770. Older Adult Services is a division of Parkside Human Services, affiliated with Lutheran General Hospital, Park Ridge.

For further information about these and other senior programs, call the Morton Grove Senior Hot-Line, weekdays, 9 until noon at 965-4658, or Marcy Amstader, Senior Services Coordinator at the Village Hall, 965-4100.

## How Social Security treats noncitizens

News articles on unregistered aliens working in the United States have raised questions in many people's minds regarding how Social Security treats noncitizens. People have asked how noncitizens are able to qualify for Social Security or supplemental security income (SSI) benefits. Generally people who are in the country without permission also work without authorization. However, anyone who works long enough under a job covered by Social Security earns the right to Social Security benefits, whether or not he or she is a citizen. Thus an unregistered alien may qualify for Social Security benefits, although it is felt that few would risk exposing their status by applying for benefits.

Foreign visitors who are here on a temporary basis are subject to special work rules. Foreign students or exchange visitors are not allowed to work for pay or engage in business in this country unless given special permission.

When permission to work is granted, Social Security taxes are not withheld from wages because the services are considered as being performed to carry out the purpose for which the student or exchange visitor was admitted.

When the foreign student or exchange visitor applies for a Social Security number for work he or she is required to show such permission. Generally, this is a special permission in writing granted by the Immigration and Naturalization Service office.

Recently, however, we began issuing Social Security cards to such persons who need a number for purposes other than work which indicate that they are "not for work purposes."

In recent years, Social Security procedures for getting Social Security numbers have been tightened to prohibit unauthorized use by noncitizens. Present procedures require proof of age, identity and citizenship status.

Social Security also administers the supplemental security income (SSI) program which makes payments to needy people who are age 65 or older, blind, or disabled.

A permanent resident alien may qualify for SSI payments if:

he or she is 65 years old, or blind, or disabled, with limited income and resources. However people here illegally or on a temporary basis cannot qualify. Under a special provision, the income and resources of the immigrant's sponsor is deemed that of the immigrant when applying for SSI benefits during his or her first 3 years in the country. The special provision does not apply to immigrants who become blind or disabled after entering the U.S. or who are refugees or have been granted political asylum.

People who come in frequent contact with noncitizens or who have questions about how Social Security affects their status or that of someone they know who is a noncitizen should be sure to call the Social Security teleservice number, 823-0815.

## Egan takes Meyer Dedication oath of office

State Senator Robert J. Egan (D-7) recites the oath of office in the Senate chambers during ceremonies on January 12 in Springfield. The entire Senate body was sworn-in at noon by Governor Thompson marking the beginning of the new 83rd General Assembly. Egan will begin his fourth term of office as State Senator after winning by the largest margin of victory in his political career. A champion of tax relief for homeowners and senior citizens and tough criminal code reform, Egan pledged to continue his work in these areas.

Skokie Rotary Club President Gilbert R. Weldy recently dedicated an oak and a maple tree in Lorel Park in memory of former Rotarian Wm. W. Meyer, Sr.

## Maine East January graduates

January 19-21 marks the last of high school finals for 78 members of the Maine East Class of '83, numbering 852, as they are designated "January grads."

Over the years at Maine East no formal January graduations were held. Not until 1973 was there a formal ceremony for these graduates. However, these ceremonies were discontinued in the late 70's because of weather conditions, making it difficult for those participating to attend.

Students who graduate in January have two choices. One is they can skip the graduation ceremony and receive their diploma through the mail. The other choice is they can wait for their diploma and participate with the rest of the Class in the annual June commencement ceremony, scheduled this year June 7.

Seniors who graduate early are still considered a part of the Class of 1983. They can take part in all class activities like Senior Breakfast, Senior Prom and Extra-Curricular activities.

Potential January graduates are Karen Abramson, Irene Afafati, Debra Bernstein, Scott Bernstein, Steve Brennan, Karen Cahoon, Martine Cholewa, Theresa Coldeway, John Colosi, Victoria Comita, Scott Coy, Wendy Deutsch, Penny Dubernat, Sharon Einspar, Perry Fox, Jeanne Gagliardi, Mary Gilgenbach, Deborah Giometti, Tamme Gluz, Madeline Gore, Karen Greenland, Laura Harver, Lisa Hoffman, Akiko Kimura, Dong Kong, Theresa Konwinski, Virginia Knowles, and Amilla Kotsios.

Also planning a mid-year graduation from Maine East are Janet Kottak, Effie Kouzoukas, Karen Krueger, Ron Lauesen, Julie Las, David Leganger, Kara Legenna, Sheryl Lindhorst, Marla Lucas, Loren Maack, Sonia Matus, Deborah McCarten, Maureen McEvilly, Tammy Matson, Myra Meyers, Charles Mierkiewicz, Sharon Molda, John

Molz, Jacqueline Muench, Terri Nathan, Maggie Nikitas, Nicholas Nikitas, Dennis Orlund, Nancy Panek, Christin Paul, and Richard Fratscher.

Concluding the list of 78 Maine East seniors who are graduating early are Robert Rieger, Pama Rosen, Timothy Ruecker, Carolyn Rutowicz, Adriana Santucci, Marcy Shapps, Reem Siwwail, Mariann Silver, Benjamin Sostrin, Venetia Soubasis, Alicia Spees, Lawrence Sternberg, Michael Stornello, Cheryl Surace, Kendra Svatos, Sandra Vacek, Holly Vana, Michael Vujica, Russ Walner, Donald Wermerkirchen, Karyn Willens, Hong Yi, Leslie Yuras, and Marla Zielke.

## District 67 Simulation projects for 4th graders

Two simulation projects are being introduced into the fourth grade curriculum. The first is a health unit called CHOW and the other is a social studies unit call Discovery.

Simulation is a method of teaching that utilizes research, role playing, team planning and learning. During the Chow simulation, students will learn the results of poor diet and study what foods are needed for good health. As a member of a team they will plan, shop and evaluate meals according to nutrients, price, and calories.

The Discovery unit recreates the mystery of exploration, the excitement of the discovery of a new land, and the hazards of colonization. Students will play the roles of leader, banker, mapper, trader or generalist. Colonial interaction will result in trading goods, forming alliances and sometimes - war.

The projects are being taught by Mrs. Elise Johnson and Mrs. Phyllis Conrad.

## SJB 5th grade girl cagers

Shown above 1 to 7, top row: Jill Derbes, Kim Stevens and Heather Holohan; bottom: Christine Mazik, Paula Surace, Kelly Parlich and Joan Marusek.

St. John Brebeuf's 5th grade girl cagers ended their season taking 3rd place in the Niles Park District tournament. In the opening round, they faced Our Lady of Perpetual Help. In the first half, the game remained close with O.L.P.H. taking a 5-2 lead. S.J.B.'s only scoring came on a basket by Paula Surace. But S.J.B.'s defense was tough. Christine Mazik, Heather Holohan and Ronnie McCall managed to stifle O.L.P.H.'s offense. Cathryn Shamrock, Jill Derbes and Kim Stevens provided a great rebounding effort. Contributing to S.J.B.'s scoring in the second half were Kelly Parlich with 2 points and Paula Surace with 8. St. John Brebeuf won 12-5.

In the second round St. John Brebeuf faced a taller, tougher 6th grade team. Although they played hard they succumbed to a

35-7 loss to Maple. And in the final round the contest involved a match between St. John Brebeuf and St. Juliana. Christine Mazik scored for S.J.B. in the first quarter and Kelly Parlich added another 2 in the second. At half time the two teams remained tied 4 all. Kelly Parlich and Paula Surace each contributed a basket in the third making the score 8-7 in favor of S.J.B. Heather Holohan and Joan Marusek did some fancy footwork and managed to cause needed turnovers. Kim Stevens and Jill Derbes once again provided rebounding power in the fourth quarter, Kelly Parlich added a basket and made 2 out of 3 free throws and Paula Surace hit 3 out of 4 from the charity stripe. It was an exciting conclusion with S.J.B. winning 15-11!

## SJB gal cagers win two games

## Enforcement of new drunk driving law

Illinois has recently completed one full year under a new and improved drunk driving law. The new law introduced January 1, 1982 made enforcement less time consuming, increased penalties, and covered both drugs and alcohol.

Captain Hugh S. McGinley, Commander of District 15, the largest State Police District in Illinois explains, "The enforcement efforts expended by Troopers on the road against the drunk drivers has made such a tremendous impact on the public that the fear of being caught 'driving under the influence' is an everyday topic."

## Renew your driver's license early to avoid bad weather

By Secretary of State Jim Edgar

If your driver's license expires during the winter, you can avoid the ice and snow by joining the many Illinois motorists who renew their licenses early in warmer weather.

All drivers should receive their renewal notices approximately 30 days before the license expires, but you may renew your license up to one year before the expiration date.

This means that if your birthday is during a bad weather month you no longer are at a disadvantage when it comes time to renew your license. Even if a road test is not required for renewal, you must drive to a facility for a photo, but you don't have to travel under hazardous road conditions.

This alternative was designed to give every Illinois driver the opportunity to renew their license under ideal weather and road conditions.

If it is too late for you to renew your license in warm weather this year, the 30-day grace period before your license expires will give you a chance to go to your nearest facility on a nice day.

This renewal service also is helpful to persons who usually are out of town when their licenses expire.

If you have any questions about the Secretary of State's office, please telephone to use our toll-free telephone number (800-252-8980).

## Traffic deaths decrease on Illinois highways

Traffic deaths on Illinois highways have decreased for the 5th consecutive year! Illinois may be the only state in the nation able to make that statement.

Illinois State Police provisional figures indicate 1,652 people died as the result of traffic accidents on Illinois roadways in 1982. That's 200 fewer than in 1981! The state has not recorded fewer than 1,700 fatalities since 1946.

Think about this...In 1982, Illinois motorists traveled 65.26 billion miles. In 1950, motorists traveled 27.5 billion miles. Although motorists traveled 37.76 billion more miles in 1982 than in 1950, there were 321 fewer fatal accidents in 1982 than in 1950.

Superintendent R.J. Miller of the Illinois State Police stated, "We are more than pleased with the continued reduction in highway fatalities. Our statistics show that efforts put forth by the Illinois State Police, other law enforcement agencies, and an improved highway environment, are paying off in fewer fatal accidents."

"Our Policing For Results (PPR) policy is proving to be a valuable concept. Lowered fatality rates are the results we have been looking for," Miller continued.

The State Police believe that by utilizing troopers in numerous federally funded programs, administered by the Illinois Department of Transportation, they are able to put more officers on the road, at optimum times, in areas with high accident rates. Troopers are hired back on their days off, holidays, and vacation to participate in the accident reduction programs. The strict enforcement of the new drunk driving law, continuous efforts in speed

In 1982, 1,718 drunk driving arrests had been made on the Illinois Tollway System, an area patrolled by Troopers from District 15. "This is more than double the amount made in 1981, with 944 arrests being made on the North Tri-State, a popular area with teenagers heading for Wisconsin and the younger drinking age," McGinley added.

"Arresting drunk drivers and reducing the severity and number of accidents goes hand in hand. These have been two of our goals in our Policing for Results Program we have been participating in during 1982," Captain McGinley stated.

This alternative was designed to give every Illinois driver the opportunity to renew their license under ideal weather and road conditions.

If it is too late for you to renew your license in warm weather this year, the 30-day grace period before your license expires will give you a chance to go to your nearest facility on a nice day.

This renewal service also is helpful to persons who usually are out of town when their licenses expire.

## Winners of Milwaukee Inn's Las Vegas Contest

by Ed Hanson

Last Monday evening the following three (3) lucky people were chosen as the WINNERS of the Milwaukee Inn contest: **FIRST PRIZE:** Las Vegas Trip for 2 - Mr. & Mrs. E. Golubski, Chicago. **SECOND PRIZE:** Las Vegas Trip for 1 - E.F. Welsh - Chicago. **THIRD PRIZE:** June Wlezien - Chicago.

Contest entries poured in at the Milwaukee Inn, 6474 Milwaukee Ave. and the drawing of the lucky winners was supervised by genial John, the owner, in this manner: each customer who entered the restaurant on Jan. 17 received a number and these numbers were then drawn. The person having the highest number drew the winning ticket, thus, three dif-

ferent customers picked at random drew one of the three prizes: 1st prize, Las Vegas Trip for Two, 2nd prize: Las Vegas Trip for One, 3rd prize: \$150 Voucher towards a Las Vegas Trip.

I had dinner at MILWAUKEE INN last SUNDAY, after the Super Bowl Tournaments were over, and I certainly enjoyed the complete dinner of Prime Rib of Beef, the Barley Soup, the crisp tossed salad, the potatoes, corn on the cob and creamed carrots, and the luscious ice cream chocolate sundae for dessert, plus that wonderful new bread, and the unusually large portions of creamy butter.

John consistently advertised this Las Vegas contest in all five BUGLE newspapers and received a tremendous response.

So, to the WINNERS: I say, "WIN A MILLION on your FREE TRIP to Las Vegas....."

**ED HANSON**  
"Playoffs" or "Prayoffs"??  

Last Saturday and Sunday instead of watching the Pro Football "Playoffs", I was in Church watching the "Prayoffs". In this way, I could use the medium of prayer for one of the three pro football teams, the L.A. Raiders, Dallas Cowboys or the Washington Redskins to win the "SUPER BOWL".

And, the medium of prayer is far more powerful than the medium of television. In fact, I've succeeded in harnessing this "POWER" that required more than 50 years of study, to such an extent, that I can use it for any worthwhile purpose.

My, my, the L.A. (nee Oakland) Raiders were eliminated by the New York Jets in a photo finish. They were my Number 1 pick to WIN Super Bowl XVII, but I still have Dallas and Washington left.

If the L.A. Raiders had won I'd be in the Golden seat because I would have had one American Conference and two National Conference teams left.

However, I still get odds of 5-1 if Dallas wins the Super Bowl, and even better I get 6-1 odds if Washington wins, so I'll bet half of my anticipated winnings on either one that survives to win it all.

If either the Jets or Miami wins I'm dead. I still think I've got a good shot with Dallas or Washington to win all the marbles. Miami is an excellent team but still green and the Jets are "in and outers" and can fold when the 'pressure' is on.

The pressure is off of me too, and I don't care which National Conference team WINS, at least I'll be in the Super Bowl. So, I'm still alive and well.

I have a positive feeling Dallas or Washington will WIN Super Bowl XVII. And, after the Super Bowl on Jan. 30, I shall go to SULLIVAN'S and have a couple of those SUPER SANDWICHES, which Party Sandwiches, a branch of G.M. Parties, Inc., prepares with loving care for SULLIVAN'S.

I'll ask that terrific young lady bartender, Colleen, how much that \$2.86 Rib Eye sandwich is.

And Colleen will say, "How do you want it?"  
"Medium", I'll reply.  
"Sorry," Colleen will say, "They only come in one size."  
"Okay," I'll say, "but serve the coffee in two cups."  
And Colleen will say, "Sorry, we don't have teacups."  
"Oh, heck, Colleen - just draw me a beer."  
"With pencil or chalk", Colleen will say.

P.S. How do you like those apples DAN BRONSON. (I wonder if this guy could be a brother to the actor Charles Bronson.) Naw, maybe not, because Charles is much better looking.....

**Niles Cable...**

Cont'd from Niles-E.Maine P.1

tors for sales and installation of cable television. Area 1, where selling is now taking place, is the section west of Harlem to the east side of Washington Street. Area 2 where sales are expected to begin in February, is west of Washington Street to the village limits and north of Oakton. Area 3, where sales are expected to begin in March, is south of Oakton and east of Harlem.

The sales procedure will involve door hangers being placed on residents' homes with a letter of introduction from Cablevision and a guide to familiarize residents with programming. Within a few days after receiving the door hanger, residents can expect a salesman to arrive and explain the program packages. All Cablevision salesmen will wear badges, carry a large red portfolio and be registered with the Niles police so people will recognize them. Their objective is to get both the husband and wife home at the same time and they will make appointments for convenience.

The programming packages are basically as follows: (1) Community Channel 3 which involves a \$25 hookup charge, but no monthly charge. (2) Basic Service which has no installation charge but a \$4.50 monthly charge and adds approximately 20 additional channels to the viewer's television including children's programming, arts channel, Atlanta WTBS channel, sports channel, USA network, news channels, swap and shop and comparison shopping channels, etc. (3) Rainbow package consists of the movie channels of HBO (\$7), Showtime (\$7) and Cinemax (\$9). The combined monthly charge for the three would be \$25.50 including the Basic Service and Community Channel plus a \$25 installation charge. (4) Rainbow Plus would include all the previous program packages in addition to Bravo (a Fine Arts product), a choice of either Playboy channel (adult-oriented) or Home Theatre Network (family-oriented) and Family Cable consisting of 24 hour weather, news, music, health and satellite programming. This would be \$39.95 monthly.

**Stevenson art project welcomes students**

Under the direction of Mrs. Harriet Judy, art teacher, Stevenson School, five students have completed a permanent three dimensional wall picture depicting "welcome" in 27 languages. This project came into being because the student body at Stevenson School represents children born in at least 20 different nations of the world. Team VI students who worked on the project with Mrs. Judy were Ara Bell, Salina Mehta, Margaret Nowakowski, Craig Sivka and Kathy Swem. Even within this small group three different nations and two racial groups are represented.

Displayed permanently near the school's office, teachers are now taking groups to the mural to learn how "welcome" is written and said throughout the world. Mrs. Judy commented on the smiling faces seen within the various groups when a particular child saw "welcome" written in his language on the mural.

munty. "Stability has finally come to District 63. I want to extend thanks from the community as well as the Board for recognizing your dedicated services to all of the East Maine community."

Dr. Bond accepted the Board's unanimous vote of confidence and commented, "I want to thank you very much. It has been a challenging assignment and a rewarding experience for me. I look forward to three more productive years."

A brief summary of the accomplishments of Dr. Bond's administration includes the development of a three-year Program of Work encompassing district goals in the areas of personnel, financial concerns, and building and grounds improvements. Among the new programs which Dr. Bond has established to date are:

**Personnel Program**  
-Development and implementation of an administrator evaluation program.  
-Update of the Board's Policy Manual.

-Successful teacher negotiations and other activities to foster improved staff morale.

**Curriculum and Instruction Programs**  
-Receipt of a State Grant for the implementation of a Basic Skills Program.

-Completion of curriculum studies on several topics.

-Adoption of new program in the area of Civics, Science and Social Studies, and a current project on Language Arts.

-Microcomputer programs for grades 6, 7, and 8 have been developed and instituted. To better prepare students for life in our modern society, a computer has been placed in each sixth grade classroom and a computer lab is functioning effectively for all junior high students at Gemini School.

-Dissemination of above average student achievement scores demonstrating effective instructional practices. Research reports to the Board of Education and to the public on this and various other topics have been given.

**Financial Concerns**  
Many measures have been undertaken to improve the district's fiscal position. The district is in better financial condition with the elimination of deficit projections through the 1985-86 school year.

A modest cash balance was available this year and is projected for the next several years. Given the improvement in the financial picture, Dr. Bond received approval from the Board to enhance the music, library and physical education programs for the children. The Board has also approved a more favorable pupil-teacher ratio of 25-1.

**Buildings and Grounds**  
A strong leasing program is in effect in the five closed school buildings with 15 tenants paying more than \$50,000 in lease fees. Extensive work has been done on all property including new roofs, energy conservation programs, safety additions, boiler improvements, and ground beautification.

Dr. Bond has received high marks for his adept handling of difficult issues. He has worked effectively with the community in the district-wide referendum, the closing of Apollo Junior High School, and the detachment group of Washington School.

Dr. Bond received congratulations from Board and staff members who offered good wishes on his new contract.

## Dist. 63 detachment...

Continued from Page 1

Bond noted that since the petitions were not properly submitted in the first place, "the whole thing was over and should be thrown out."

A hearing has been set for March 9 at which time, Bond said, a decision will hopefully be made on the numbers. "No decision will be made on the merits of the case at this time," he added. The case will then go back to the County Board for disposal.

It was erroneously reported last week that a decision had been reached on the District 63 detachment petition. The detachment petition which actually had been approved in a 4-2 vote was the petition by the Village of Golf and the Golf Acres subdivisions in Glenview to leave Niles Township High School District 219 and join Glenbrook High School District 225. District 219 will lose approximately 20 students and about \$200,000 in tax money yearly because of the switch which was approved on Monday, Jan. 10.

District 63 superintendent Bond told The Bugle, "That decision could impact anything we are doing in our district on detachment."

Niles Township District 219 school board member Lowell Ruffer agreed with Dr. Bond not to "think the decision establishes a dangerous precedent."

An Illinois Supreme Court decision last February allowed the same Golf-Golf Acres areas to leave Niles Township School District 67 and join Glenview Elementary District 24. The residents cited as their reason for seeking detachment the fact that they had more in common with Glenview than Morton Grove where their children were being bused to school.

District 63 parents seeking detachment District 34 are also citing a need for a stronger sense of community and noting a more common bond with the village of Glenview.

An IBM high performance 3375 disk drive went to the highest bidder, Computer Express of Plymouth, Minnesota, who will buy the equipment for a total of \$12,675.

New carpet will be rolled out and installed to welcome students in the Phase II building for the sum of \$26,750. The new carpet will match the same as installed in Phase I.

The Board approved a new administrative position, Director of Institute for Business and Professional Development. This position will be responsible for contacting various organizations to develop training recommendations. The Board anticipates a 2 month search before the position is filled.

Classified staff was granted a paid holiday for July 4 due to efforts of Board member Jan Juckett. Oakton runs on a four day work week in the summer months thus saving an estimated \$5,500 per week in administrative costs and \$1,100 in energy and electrical bills.

The Medical Record Technology Program at Swedish Covenant Hospital in Chicago will continue for the next two years due to approval of the Board. The Physical Therapist Assistant Program will also continue at Memorial Hospital of DuPage County and Therapeutic Consultants in Elgin which are two new facilities.

around the joints no longer prevent water from leaking. The Niles Park Board will examine numerous bids opened Tuesday night during a Friday evening committee meeting.

Niles Park District official Debbie Nelson said the firm which will receive the nod to install the system will first have to build it according to specifications for the Niles pool. The entire process, according to Nelson, could take up to 4 months.

Park officials hope the filtration system will be completed by May 15 followed by the pool opening on June 15.

The system will cost between \$40,000 and \$100,000 to be replaced.

In other business, it was reported that the accounting firm of Robert F. White will be handling the park district payroll beginning within weeks. White will charge \$1,407 per year for distributing payroll checks as well as tax forms to employees.

Park officials said it was costing the park district \$1,100 for a part-time employee to handle the payroll, which did not include overtime.

...Park Board President Walt Beusse said the park district is considering installing acoustical as well as carpeting at the Recreation Center, 7877 Milwaukee Ave. However, the issue is still being discussed in committee.

...Also Beusse reported that CCH Computax of Niles, which signed a lease to allow its employees to park their cars in the vacant TAM parking lot during the winter months, asked to break the lease as they have found parking closer to their building. Beusse said the park district would not allow the company to break the lease.

...Beusse also informed the board that 33 trees and bushes have recently been planted around park district facilities by the park maintenance department.

...Commissioner Elaine Heinen

told the board she expects park department heads to have turned in their budget requests to Director Hughes by mid-February.

...Additionally, Heinen said the park district is continuing to pursue the possibility of acquiring a computer system. Heinen said a Des Plaines based computer firm will soon meet with park officials to try and assess what the computer needs of the village are.

Also, responding to recent criticism suggestions that the park district share the computers the village owns, Beusse said, "It's not that we weren't trying to get on the village computers. It just doesn't seem feasible."

...Commissioner Dan Kosiba said the park district has applied for a \$5,000 grant from revenue sharing funds distributed by Niles Township. Kosiba said the money would be used for repairing and replacing ice skates used at the ice rink.

...Commissioner Mary Marusek told the board she is currently discussing with officials of Niles College and Notre Dame High School the possibility of the park district using the school baseball diamonds.

...Also, Marusek said progress is continuing to be made in establishing a program in which area juveniles convicted of various crimes could be sentenced to perform various park district maintenance and office work. Marusek said the State's Attorney's office, as well as local judges, are enthusiastic about the project.

...Commissioner Jim Pierski said during the weeks area children were out of school for their winter vacation there was an increase in the amount of vandalism at park facilities.

...Lastly, Pierski said the park district is now accepting bids from individuals or businesses interested in patrolling the park facilities to prevent vandalism and loitering. The Niles based Protection Group, Ltd., which has held the contract the past two years, is among those businesses which have submitted bids.

## Murphy...

served in the capacity of principal of both the North and South buildings, respectively. On various occasions, he filled the position of Acting Superintendent, most recently holding the post from September 1981 through December 1981.

Throughout the years, Murphy advanced professionally through college courses, which he took at regular intervals. He also held membership in the following professional organizations:

National Association of Secondary School Principals, National Association of Elementary School Principals, Illinois Principals' Association, American Association of School Administrators, Phi Delta Kappa, Association for Supervision and Curriculum Development, Niles Township Principals Association, and Niles Township Articulation Committee.

Mr. Murphy innovated various educational programs for the district as well as initiated an annual school picnic for grades kindergarten through fifth along with the Chicago Trip for eighth graders.

He supported vigorously the arts, music and foreign language programs.

Mr. Murphy, however, will be remembered by everyone associated with District 71 most fondly for his consistent and genuine concern for the children. He knew each and every student by his/her first name, and loved to be with the children.

Albert Liska, longtime colleague, said of Murphy, "He consistently looked for the good within each child and always found it. Working with the children was the most important part of his school day."

Ray Blank, social studies teacher for 27 years, mirrors this opinion: "Mr. Murphy's concern was always for the students; he constantly sought improvements in the educational programs toward this concern."

Kathleen DeNicolo, while serving as Acting Principal, once asked Murphy why his office was filled with Lincoln memorabilia and statues of Cervantes. He replied, "I like them; they were public servants." George Murphy certainly excelled as a public servant.

Murphy is survived by his wife, Dorothy, five children and nine grandchildren. Funeral services are being held today (Thursday) at 10 a.m. from the Klemundt Funeral Home, 3313 W. Irving Park Road, to our Lady of Mercy Church, mass 10:30 a.m. with interment at Maryhill Cemetery.

In other business, Huber said the Morton Grove Park District had accepted a bid from Moto Heating to replace two furnaces at the National Park fieldhouse. Moto's bid, which was the lowest received, was for \$1,700. Huber said this was a fair price considering the Morton Grove Park District paid \$1,400 for just one furnace last year.

The new furnaces will replace furnaces which are nearly 20 years old, according to park officials.

Also, Huber announced the inside of the park maintenance garages were recently painted for the first time in 17 years.

Huber said the park district is starting to flood ice skating rinks at area parks.

Lastly, Commissioner Joan White reported the park district currently has a \$22,000 balance in its checking account and \$325,000 in investments.
