Let's recycle our Senior Citizens

There are two reasons senior citizens want to work: to maintain the feeling of being useful and to supplement their income. The changing age structure in the United States - the so-called "graying of America" - makes the disturbing plight of senior citizens a progressively pressing issue for everybody. Concern is already being centered on improving their economic position, social well-being, and physical health.

The best solution to the problem, one that would not require concessions, charity, or subsidies, would be to offer these forcibly sidelined people suitable employment to help sustain them in full and productive lives.

The Center of Concern in Park Ridge is actively engaged in helping seniors find jobs. Its "Employment for Seniors" program approaches the problem from both angles. A senior citizen who is looking for employment is interviewed and classified to determine the type of work for which the individual is best suited and would therefore be happy. At the same time it canvasses hundreds of employers in Park Ridge and surrounding area to learn what kinds of jobs are open, or could be opened up, for qualified senior citizens. For this comprehensive service there is no charge to either the applicant or the employer.

Senior citizens don't expect to take jobs away from other deserving workers, nor do they even ask to be hired for full-time work. They can be utilized in short-term jobs, a few days a week, a few hours a day, on irregular schedules, during off-filling in on assignments that regular workers shy away from.

Senior citizens who are looking for work that has been carefully checked out, and companies that are looking for workers who have been carefully screened, are invited to call or visit The Center of Concern, 1530 N. Northwest hwy., suite 4, Park Ridge (823-0463) and talk with Patty Stearns, coordinator of the program.

New transportation program for disabled

Making a joint announcement of a new program for the transportation disadvantaged citizens of Maine Township are (seated) Donna Anderson, Pk. Ridge, the Maine representative on Para-Transit Resource Center's Board of Directors, and (standing, l. to r.) Gayle Risch, Project Director of Para-Transit Resource Center which serves elderly and disabled residents in a seven township-wide system, Meryl Riverson, Maine Township Director of Welfare, and Paul K. Halverson, Maine Township Supervisor.

For information on eligibility requirements for the new system which is subsidized by the RTA, 6 participating townships and one municipality, call 255-3523 or 297-2433.

Property purchasers should notify County

Robert P. Hanrahan, Assessor of Niles Township would like to inform recent purchasers of property in Niles Township that at the time of closing they may be under the impression that the change of ownership will automatically be recorded in the Cook County records and that they will receive a tax bill without formally notifying the County regarding the change of ownership.

If the purchaser does not take care of filling out the appropriate card, problems regarding the receipt of future tax bills may develop.

This can be an expensive omission and produce a real inconvenience for new homeowners.

Through the cooperation of the Cook County Collector's Office these change of ownership cards may be obtained at the Niles Township Assessor's Office.

When the card has been properly completed the office will transfer it to the County Building if the purchaser wishes.

Urge Congressional vote for nuclear weapons freeze FREEZE supporters march on Washington

Nuclear weapons freeze supporters from Niles and Morton Grove were among the five thousand and more Freeze lobbyists who converged on Washington, D.C. on March 8 to urge their Representatives and Senators to vote for the Freeze. Since the House Foreign Affairs Committee had just voted 3 to one in favor of the Freeze Resolution, and it will shortly come to a vote on the floor of the House, the Citizens' Lobby was perfectly timed.

Dick Siewkowski of Niles, Jean Gump, son Joe Gump, and Isabel Condit of Morton Grove, and Pat Postel of Skokie joined about eight other constituents of the eleventh Congressional District in Representative Annunzio's office to deliver their proxy votes from friends and neighbors, and ask Congressman Annunzio, who is a sponsor of the Freeze, not to support any further funding of research, testing, or deployment of new weapons. Disappointingly, the Congressman was ill, and an aide took the message. However each participant plans to follow up the visit with a personal letter to re-enforce the message.

Ann Reed of Niles was one of a group of five students from Oakton Community College who came on the over-night bus to take part in the lobbying. She and her companions visited Rep. Henry Hyde of the Sixth Congressional District, to express their concerns about the dangers of the nuclear build-up and threat of war. They felt disappointed and somewhat put-down, since he told them that they were naive.

The thousands of other lobbyists, coming from 43 states in all, and bearing tens of thousands of proxy votes from their Congressional Districts, were similarly meeting with their Representatives with their message of concern and plea for a vote for the Freeze. Following the meetings with Representatives came the much larger meetings with Senators. Two hundred lobbyists from Illinois crowded successively into two large areas, to meet first with Senator Dixon and then with Senator Percy. It was an impressive ceremony, as a representative from each of 24 Congressional Districts of Illinois came forward to present their proxies and make a statement. Following the presentations to each senator, there was a period of questions and statements. While the Senators were gracious

Circuit breaker tax forms in Kustra's office

Circuit breaker tax forms are now available in the office of Senator Bob Kustra (R-28th) in the Des Plaines Civic Center. Senior citizens and disabled persons are entitled to use these forms in order to reduce their tax burden. It is called a "circuit breaker" law because it works like the circuit breaker in the home's electrical system. When taxes begin to "overload" the elderly or disabled persons income, the Circuit Breaker Law becomes effective to provide relief.

All persons who are at least 65 years old or disabled, and whose annual household incomes are less than \$12,000, qualify for an \$80 grant, whether or not they are liable for property taxes. If these persons own or rent Illinois residences, they are also eligible for a direct payment of as much as \$650 from the State. The amount of payment is determined by household income and the percent of income being paid for property taxes.

Senator Kustra's office also makes available many other specialized tax forms. His office is located on the fourth floor of the Des Plaines Civic Center, 1420 Miner st. in Des Plaines. Office hours are from 8:30 to 4:30 on weekdays and from 9 to 12 on Saturdays.

Motor fuel tax

Illinois municipalities have been allotted \$8,554,560.00, as their share of motor fuel tax paid into the State Treasury during Feb., according to the Illinois Department of Transportation. Local allotments included: Des Plaines, \$47,857 and Niles \$27,125.

Morton Grove Senior Citizen News

CIRCUIT BREAKER TAX RELIEF

The Senior Citizens and Disabled Persons Property Tax Relief Act is designed to reduce the burden of taxes on senior and disabled citizens of Illinois, who generally have fixed or restricted incomes.

The Act is often called the Circuit Breaker Law because it works like the circuit breaker in the home's electrical system. When taxes begin to "overload" the elderly or disabled person's income, the Circuit Breaker Law becomes effective to provide relief. The law contains two tax relief programs.

PROPERTY TAX RELIEF

The law provides an annual grant for relief of property or mobile home taxes that senior and disabled persons pay on their residences, including rented residences that are subject to the property tax.

Qualifications - A person is eligible to receive relief from Illinois property taxes paid in 1982 if he or she:

- Was 65 years of age or older before January 1, 1983.
- Was a resident of Illinois in 1982.
- Is a resident in Illinois at the time he or she files the application for relief.
- Had a household income of less than \$12,000 in 1982.
- Resided in an Illinois residence in 1982 that was subject to the property or mobile home tax.
- Files an application postmarked on or before December 31, 1983.

BENEFITS - The amount of money you receive as your property tax relief grant is determined by a mathematical formula which takes into account both the amount you paid in property taxes and the amount of your household income. If you are a renter, the law defines your property taxes as 30% of the rent you paid in 1982.

Your property tax relief grant will be equal to the amount of property or mobile home tax you paid last year minus 3 1/2% of your household income for the year. However, you may not receive a grant larger than \$700 minus 5% of your household income.

ADDITIONAL TAX RELIEF

The additional tax relief grant is the second of the two Circuit Breaker grants. It is a grant of \$80 for relief from taxes other than property taxes. If you qualify for property tax relief, you automatically qualify for additional tax relief. Also, senior and disabled citizens who lived in residences which were not subject to property taxes may be eligible for additional tax relief if they meet the required qualifications.

For further information regarding the Circuit Breaker Grants call or drop in at the Department of Revenue Regional Office; Morton Grove Bank Building, suite 110, 8700 Waukegan rd., Morton Grove, 965-5100.

SLEEP EASIER WITH A SMOKE DETECTOR

Each year, almost 9,000 people die in fires in the United States. About three-fourths of the victims die where they live - in their homes or apartments. Most home fire deaths occur between midnight and 8 a.m. This is the time of greatest danger - when people are asleep and unwarned.

Because of this, a simple fire warning system - affordable by practically everyone - is probably the single most important life-saving purchase an individual can make.

In most cases, death is not the result of flames. The primary killers are smoke and poisonous gases which overcome victims as they sleep. Fire and its deadly gases spread rapidly and sleeping persons often do not awaken in time to escape. Studies have shown that from the time a fire breaks out a person has an average of less than four minutes to escape the disabling effects of smoke and poisonous gases.

Growing awareness of these dangers and the development of relatively inexpensive and reliable warning devices have led many homeowners and apartment dwellers to install smoke detection systems that will wake sleeping occupants.

Mobile home and apartment dwellers especially benefit from an early warning smoke detector because of the usually limited exits from such residences in a fire emergency.

If you are considering a smoke detection unit or system (and everyone should be), you should select carefully. For complete guidance in the selection, location and installation of detectors, write to the National Fire Protection Association, 470 Atlantic ave., Boston, Massachusetts 02210.

BETTER HEALTH CLINIC

Participants will meet individually with Christine Frisoni, R.N., and an appointment is needed. There is no charge for any of these services. For more information or to make an appointment, please call the senior "hot-line", 965-4657, weekdays, 9 a.m. until noon.

For further information on these and other senior programs, call the Morton Grove Senior Hot-Line, weekdays, 9 until noon, 965-4659, or Marcy Amstadter, Senior Services Coordinator at the Village Hall, 965-4100.

Older drivers in insurance discount plan

Nearly two million Illinois drivers past the age of 65 are now eligible for a new program aimed at reducing auto insurance rates and increasing driving safety here, according to State Rep. Penny Pullen.

Under the new driving safety discount program, older drivers who successfully complete a driving "refresher" course will be given legal guarantees of lowered auto liability insurance rates.

Insurance companies are

required by the new law to provide a discount when such a certificate is presented. The discount, however, may vary from company to company so drivers should take time to compare discount rates offered.

Defensive Driving Programs, which meet the state requirements are offered by both the American Association of Retired Persons (AARP) and the National Safety Council. The cost of the course may vary but should be around \$20.

To qualify for the discount, drivers must successfully complete the course and must have a clear driving record for the past three years.

For more information about the program, contact the AARP, the National Safety Council or the program through its toll-free number 800-942-5937.

Would you hold up this train for \$500,000,000?

It comes from mines in Montana and Wyoming. Twenty-eight times a week. And the cargo it carries is coal. Low-sulfur coal. The fuel for close to half of the electricity northern Illinois runs on every day.

In case you don't think that's worth a whole lot, think about this. Using coal to make the other half would have cost an extra five-hundred-million dollars last year.

That's what we saved by using uranium instead.

The fact is, it takes a mountain of coal—over one-hundred-thousand tons—to equal the energy we get from just one ton of uranium.

If that's hard to picture, imagine a train ten miles long. Car after car after car after car. Nine-hundred-ninety-six cars in all, each filled to the top with coal. Versus just one car, empty except for one small corner of uranium.

In terms of savings, the difference is just as enormous. We weren't exaggerating. Five-hundred-million dollars last year alone. Or sixty dollars every year for a typical residential customer.

It's not chicken feed. But it's not enough either.

The more of those twenty-eight trains a week we can hold up, the more you can save.

New drunk driving law makes streets safer

Illinois' new drunk driving law, which was in effect all last year, has significantly improved our ability to apprehend and punish drunk drivers and made our highways and streets safer for everyone.

Working with the Illinois Motor Vehicle Laws Commission, the Illinois State Police and the Illinois Department of Transportation, I have proposed a legislative program to fine-tune

by Secretary of State Jim Edgar the new law.

One bill would require that records of all persons assigned supervision following an arrest for driving under the influence (DUI) of alcohol or other drugs to be reported to the Secretary of State's office so that first time and repeat offenders can be identified and appropriate progressive penalties be applied through the courts. Current Illinois law requires

Time for a change in MG administration

Dear Editor:

It's time for the citizens of Morton Grove to rid themselves of the dictatorial, expensive and calloused policies of our present administration. We gave them Home Rule when they asked for it, and they promptly raised our taxes and our water bills. They arrogantly forced gun control upon all of the citizens of Morton Grove while denying them their right to vote on it. They bought and remodeled an old school house, making it into a Village Hall that is far more grand and expensive than necessary. Of course they did this with our tax money. Never mind that they called it a grant, it's still tax money. They hired and retained a Village Architect and used his talents to beautify our village, again, with monies derived from taxation. They paid exorbitant wages for a Village Engineer that they really didn't need. They prided themselves on garbage taxes and snow removal, but it's our taxes that paid for it. Yes, they did all this and more with our tax money, and they did it without

really addressing our flood and sewer problems. That will be another tax for another year, or is that being too hard on them?? You be the judge.

The practice of hiring relatives and friends for public service jobs is not only costly, but it's unfair to those citizens who have no job and no clout. It's also a possible staging point for unresponsive and corrupt government, and should therefore be abolished.

I now pledge my vote to the most qualified candidates who will publicly condemn the use of our tax money for patronage purposes, and promise to do all in their power to abolish it from Morton Grove. Will you join me in this campaign for responsive and responsible public servants by not only voicing your opinion, but by voting in this coming election?

Sincerely,
Leo V. Meyers

Roses for Ed Hanson

Dear Editor,

I have been reading Ed Hanson's articles for many years. His columns are interesting and often funny, full of class and style. They are precise and deceptively simple. Mr. Hanson is certainly a writer of integrity with a voice of his own. I congratulate the Bugle gang for having such a writer of exceptional talent on their staff, who must be acknowledged in the company of great newspaper columnists of modern times.

Keep up Bugle.

Very truly yours,

Nilesite angry about sidewalk parking

Dear Editor,

You asked for pet peeves - Why are people allowed to park cars across the main sidewalks? There is no consideration for the person who wants to take a walk. You either walk all over their grass (which they don't like) or walk out in the street.

We suggest warnings be issued to offenders to clear up this injustice and if this fails, issue tickets. We feel cars belong on the street or driveway - not across the public walk.

Vote fraud not easy in Maine Township

Dear Editor:

In the Chicago Tribune of March 11, 1983, a column appeared headed "Vote Fraud Here Is As Easy As No I.D." The author, Anne Keegan, blames vote fraud to a large extent on improper registration of voters. She states, "For in registering to vote in Chicago, or anywhere in the state of Illinois, in fact, you do not have to show any identification...to prove your citizenship...It comes as a surprise to many that today no proof of your American citizenship...is at all required to sign up to vote in Chicago or in Illinois."

Miss Keegan is incorrect in her statements at least insofar as Maine Township is concerned. When a foreign-born person comes to the Maine Township offices to register to vote, he is required to show his naturalization papers. Even though the person has previously been registered elsewhere, we do

not register him in Maine Township without seeing his naturalization papers, for the very reason that the previous registration may have been improperly handled.

The Cook County voting registration form requires a foreign-born person to provide the date of naturalization and the name and location of the court issuing the papers, either for himself or for his parents. If the person was naturalized as a child through his parents' naturalization, his age at that time must be given. We do not believe that many people carry this information around in their heads, and therefore it seems reasonable to assume that the intent of the registration form was that the naturalization papers be presented.

Yours very truly,
Stephen J. Stolton
Maine Township Clerk

Marusek clarifies ND use of Grennan Heights

There was one point mentioned in the Left Hand column on the proposed Notre Dame lease that needs some clarification. It was stated that Notre Dame was offered the opportunity to use the Fitness Room at Grennan Heights at a cost of \$5 a student, whereas residents pay \$15 for a fitness pass.

Actually, the arrangement would have allowed the students to use the room under the supervision of their coach only for a specific period of time when the room is not normally open and only for a 3 month period. Under the arrangement the Park District would not have incurred the expense of providing supervision for the room during that period.

The \$15 resident pass provides the opportunity to use the room all year at any time during the normal scheduled hours. There is a difference in the cost of the 2 types of passes because there is a difference in the amount of use the participant makes of the pass.

I hope it is clear that the arrangement is not an example of resident paying more than others for the use of their own facility - rather the students with a \$5 pass and the residents with a \$15 pass are both getting their money's worth and the result is an increased use of the facility.

Mary Marusek
Niles Park Commissioner

Questions Raffé's vote

Dear Editor:

I was shocked and dismayed recently to discover that the RTA Board had voted to increase Board President Louis Hill's salary to \$85,000, making him one of the highest paid public officials in the country.

I was further upset when I realized that our own Maine Township representative Phillip Raffé had not opposed this increase but had meekly voted to pass on this important issue.

In a time of recession, high unemployment, rising taxes and soaring transportation costs it appears to be a gross injustice to grant a public official a massive salary increase.

Mr. Raffé, our own local representative, should stand up and oppose such a disgusting waste of our tax dollars.

Sincerely,
Patton Feichter

Quick response to counselling needs

After many months of waiting lists, Orchard Mental Health Center has now the capacity to respond within a week to requests for counselling and psychotherapy.

The addition of five new professional staff in the last few months has made possible the expansion of programs. The use of brief therapy for selected persons who can benefit from a limited number of sessions has freed up more professional time. The expansion and refinement of Orchard Mental Health Center's Internship Program for advanced students in the fields of psychology and social work has increased the number of professionals available.

All of these factors have made possible a quicker response to community needs. Whether it be a long-standing or an immediate personal problem, an individual concern (such as loss of a relative) or a family conflict (marital crisis, difficulties with children, etc.), the professional help at the Center can be utilized. You can contact Orchard Mental Health Center by calling 967-7800.

"Soup"-er Sundaes at Niles South

Since September the students at Niles South in District 71 have been busy saving labels for the Campbell Product Labels for Education Program. Each classroom wanted to be the one to bring in the most labels. The winning class was Mrs. Selen's fourth grade. They collected a total of 1565 labels. As a reward, they enjoyed a "make-your-own sundaes" session. The ice-cream party with all trimmings resulted in goosy faces, sticky fingers and a good time for all.

At the South School, with grades kindergarten through fifth participating, over 10,000 labels were turned in. These were then redeemed for two tape player/recorders and a phonograph which will be kept in the media center for use by the classrooms.

There was a tie for 2nd place between the kindergarten and the third-grade room, 3B, with each room bringing in 1000 labels.

Maine East students plan ski trip to Vail

While some Maine East students are looking forward to sun and sand in Jamaica or Cancun March 26-April 3, thirty are looking forward to the slopes of Vail Village, Colorado, for spring vacation fun. Those participating will stay at the Vail Run Condominium Resort under sponsor James Farrell's supervision. Vail is often considered America's finest ski resort. It is located in the Rockies about 100 miles northwest of Denver. The size and number of runs is immense. Beginners and experts alike find it nearly impossible within the week to ski all the runs which Vail's three mountains and two bowl areas offer.

The thirty ski club members participating are Matt Argetsinger, Liz Ayesse, Tom Bender, Craig Bernstein, Ellen Brenner, Barry Cherney, Nick Dalmaso, Dale Davenport, Mike Glickman, Lisa Goldsand, Corey Grauer, Patricia Griesser, Don Hacke, David Hockberg, Lisa Hoover, Don Karp, Kim Klein, Phil Lefebvre, Ray Lefebvre, Kathy Lund, Greg Lynch, Larry Marturano, Gina Monardo, Tina Partipilo, Linda Raker, Ron Russell, Darrel Saperstein, Julie Shamburg, Marc Spellman and Sue Tomasic.

Res cagers take Regionals

Resurrection High School's girls' basketball team took the Resurrection Regionals against Maine East, beating them 34-29. In the obvious low scoring game, the quarter ended 6-4 in favor of Res. "It was a superior defensive game right from the start," commented Diane Mazur, assistant coach. "We stayed on the defensive boards, giving them only 1 shot a time." At the half the score was in Res' favor 15-11. They pulled away in the third quarter 27-17 and held

on to finish the game 34-29. Earlier in the week, the Bandits surprised Ridgewood 66-52 to move into the Regional Championship game against Maine East. In the Ridgewood-Resurrection game, the teams were tied 12 all at the end of the quarter. Res moved ahead to lead 33-24 at the half. They gained a safe distance at the third quarter finishing the quarter 47-36, then wrapped it up 66-52 by the end.

Leaning Tower Swimmer Awards

Park Ridge YMCA swim classes

It's not too early to think about your children learning to swim. The Park Ridge YMCA will be offering lessons to beginner swimmers from kindergarten thru 6th grade the week of March 28. Five lessons for \$1. The Begin To Swim program will be held Monday thru Friday at the following times: Kindergarten and 1st grade - 10:15-11 a.m.; 2nd and 3rd grade: either 1:30 to 2:10 p.m. or 4 to 4:40 p.m.; 4th thru 6th grade: either 2:15 to 3 p.m. or 4:45 to 5:30 p.m. Registration has begun and class size limited. For further information contact the Y at 825-2171 or stop in at 1515 W. Touhy in Park Ridge.

Swimming is often thought to be synonymous with the YMCA. Recently, at the 2nd Annual Swimmers' Award Night on February 21, long distance swimmers and their families gathered at the Leaning Tower Family YMCA to celebrate their accomplishments. The top 5 female and male swimmers were: Ginny Conrady - 603 Miles, Carol Walsh - 571.5 miles, Pat Cozza - 560 miles, Eleanor Dominowski - 322 miles, Jane Pawluk and Nancy Rude - 290 miles; Russ Neary - 346 miles, Tony Aberding - 319 miles.

William Stielow - 205 miles, Jack Dickstein - 201.5 miles, Joel O'Shanna - 195 miles. These swimmers received complimentary trophies. Other swimmers wishing trophies were able to order them and were also presented with their trophies. All other swimmers were presented with certificates of achievement.

Co-hostesses Carol Walsh and Eleanor Dominowski served refreshments, which were contributed by the swimmers and included a variety of crackers, fresh vegetables, dips, cakes, breads and cookies. A most attractive treat was a cake baked by Carol Walsh and decorated with the "Y" logo.

Fran Falter, of the Seuba Divers Club, showed slides of Truck Island, an area in the Pacific, occupied by the Japanese Military during World War II; which now serves as a graveyard for tons of Japanese ships, jeeps, etc. which were used during war time.

Swimming is a great way to stay fit. The Leaning Tower Family YMCA is open for swimming from 6:30 a.m. to 10 p.m. Monday through Friday; 7 a.m. - 9 p.m. Saturday and 1:30 - 6 p.m. on Sunday.

Stevenson students help Statue of Liberty

Members of the Stevenson School Student Council, Des Plaines, are conducting fund raising events to obtain money for restoration of the Statue of Liberty. Along with Ellis Island, the world famous statue has become in serious disrepair in recent years. The situation has grown so extreme that President Reagan has formed a national committee chaired by Mr. Lee Iacocca, Chairman of the Chrysler Corporation, to help raise money for this restoration project.

Under the direction of Mrs. Vivian Channon, Faculty Advisor, the Stevenson students are organizing a popcorn sale to be held on Wednesday, March 9. In addition to fund raising activities, the council members are making posters to inform the community of the problem with our Nation's symbol of liberty. And, council members are studying the history and symbolic importance of Ellis Island and the Statue of Liberty in the history of the U.S.

Any community members or business leaders who would like to contribute in some way to this project may call Mrs. Vivian Channon at Stevenson School (827-6231) during the regular school day. Help is needed for the statue. As one of the Stevenson foreign born students said, "I saw pictures of the Statue of Liberty before I came to America and it's important to me."

Washington School wins Battle of the Books

On February 24, Washington School students were victorious in their competition in the Battle of the Books with St. John Brebeuf School at the Niles Public Library.

The final score was Washington, 149 - St. John Brebeuf, 77.

The Battle of the Books is a competition sponsored by the Niles Public Library to encourage quality reading among 4-6 grade children and to foster cooperation among the public and school libraries.

The team members from Washington School were Monica Herzog, Stacey Lambden, Jeff Strauss, Karen Tatz, Heidi Brill, Dawn Bizar, Michelle Goldfine, Lisa Jericho, Scott Lazerwith, Lynn Ottlinger, Russell Lundberg, Mark Rosen, Becky Schoenberg and Michelle Zatin. The alternates were Jenny Ricciardi and Reuben Schoenberg. The time was kept by Stratos Gavas and Archie Kohn. Scores were recorded by Scott Delvitt and Jody Ginger.

Fourth grade teacher, Nancy Robinson and PTA member, Marilyn Strauss, have been working with the students in preparation for The Battle of the Books.

Washington School is located at 2710 Golf rd. in Glenview and is one of five elementary schools in East Maine School District 63.

Nilehi administrators cited for service

Dr. Romyne Baker, director of student services at Niles North High School, and Jim Swanson, building manager at Niles West, received citations from the Junior Achievement organization "in recognition of outstanding service to American youth in the Junior Achievement Learn by Doing business program, and leadership in inspiring respect for our American Economic system." The citations were presented to Baker and Swanson by their principals during their respective administrative team meetings.

The two District 219 administrators provided opportunities for the Junior Achievement representative,

John Stottfregan, to describe the JA program to Niles North and Niles West students during homerooms. As a result of this contact, approximately 95 District 219 students, the majority from Niles North, participate in this community program. "We try to make all sorts of educational opportunities available to our students, and the Junior Achievement program has always been a very worthwhile one for them," says Baker.

Niles West welcomes Easy Street dancers

This time, when Marla Lampert and Gretchen Witte dance on stage at Niles West High School, they will be surrounded by other professional dancers rather than their Niles West classmates. The two are the founders of the "Easy Street" dance troupe performing in concert at the school on April 8 as a part of the Niles West Creative Arts Series.

Only two years old, the troupe, consisting of eight men and women between the ages of 19 and 30, has already performed in many local clubs including Faces and 1,2,3 Disco, at Daily Plaza and Illinois Center, and on the WTTW "Soundstage." "We perform dances from the charleston and jitterbug to jazz and the new wave," set to the kind of music

that keeps toes tapping and fingers snapping," say Lampert and Witte.

The group's concert at Niles West will sample country, western, jazz, flamenco, tap, and several other styles of dance. Highlights are a roaring twenties piece performed to "All that Jazz" from the movie by that name, a physical fitness number to "Chicken Fat" and Barbara Streisand's "Body Shop," a 40's medley of swing to music by Benny Goodman and Glenn Miller, and a street jazz number to "Chrystal World" by Chrystal Glass. Another six numbers complete the program.

The "Easy Street" concert begins at 8:15 p.m. on April 8 on the Niles West stage, Oakton at Edens Expressway, Skokie. Admission is \$3 or the Creative Arts Series pass. Seating is unreserved. Please call 966-3800, ext. 1190, for further information.

Lambs plan Easter festivities

A Giant Easter Egg Hunt with prizes for children, lunch with the Easter Bunny and custom-made Easter Baskets distributed by "Mr. Bunny" in person will highlight The Lambs' Annual Easter Weekend festivities, April 2 and 3.

The Giant Easter Egg Hunt will be held Saturday, April 2 at 3 p.m. in The Lambs' outdoor shopping mall. There is no charge to enter this contest, which features 130 prizes and 2,000 eggs each with a surprise inside. Three separate races will be held for children of different age groups up through age 11. More than 500 youngsters participated in last year's Giant Easter Egg Hunt.

The Easter Bunny will host both breakfast and lunch in The Lambs' Country Inn restaurant Saturday, April 2 and Easter Sunday, April 3 from 9 a.m. to 3 p.m. A personal visit at your table by the Bunny will make your Easter meal a special occasion to remember.

All of The Lambs' Country Shops are open daily, year round, from 9 a.m. to 5 p.m. Proceeds from purchases made in the shops directly benefit The Lambs' program, a private, not-for-profit organization offering residential, vocational and social support services to over 150 mentally retarded adults. The Lambs is located at the junction of I-94 and Route 176, two miles east of Libertyville.

Stratford Festival trips

The five-day excursion will begin on July 11 and on August 8. Each package includes four plays and one concert, transportation via deluxe air-conditioned coach bus, choice of accommodations, pre-trip seminars, kosher box luncheon on trip north, day-long excursion to Toronto and a visit to Kitchener's Farmers Market of the Amish and Mennonites.

For a detailed brochure, call Minna Davis, 761-9100 or Pearl Karp, 583-1550.

Cablenet's Community Access Center

The Community Access Center in Arlington Heights staff includes Jim Mitchell of Mt. Prospect, Producer/Director; Peggy Busch of Park Ridge, Studio Technician; and Kevin Corcoran of Des Plaines, Regional Production Manager. They will assist area residents with the planning, development and production of community access programming.

The official opening of Cablenet's Community Access Center in Arlington Heights took place on Friday, March 18. This is the first of six such facilities Cablenet plans to operate throughout its franchise area.

Each Access Center will be open to residents of Cablenet communities to develop and produce community access programming. The Arlington Heights Center is located at 112 N. Belmont, the building formerly occupied by that community's Public Library. Cablenet completely renovated the building to include offices, a reception area, and a 25'x30' studio.

Production equipment totalling nearly \$150,000 was purchased for the center from Video Images of Elk Grove Village. The list features state-of-the-art video and audio equipment which will enable users to produce "broadcast" quality programming.

Studio equipment includes two Hitachi FP-21 color video cameras; three cycloramas, and a full complement of lighting equipment. The control room, or editing booth, features an eight channel audio board, a video production switcher with video effects, an editing system, and a character generator. The center also will loan out portable remote production equipment to certified "Community Producers."

Major exhibits at Columbia Galleries

Two photography exhibits of a socio-documentary nature will be displayed in the Columbia College Galleries, 600 S. Michigan ave., Chicago from March 21 through April 23.

In The Fields examines the life and labor of the California agricultural field worker through the photographs of Ken Light, Roger Mimick and Reesa Tansey. Originally published in 1982 by Harvest Press as a book of 30 photographs, Columbia Galleries Director Steven Klindt has expanded In The Fields into a 100 print exhibit.

In an essay for the book version

of In The Fields, historians Paul Schuster Taylor and Anne Loftis have written "these photographs) take us back to the source, beyond the supermarket, to the long rows of lush plants, vines, and trees, and to the human beings who harvest the field."

The Lower Level Gallery will present We'll Never Turn Back, a photographic history of the events of the American civil rights movement from 1955 to 1966. The exhibit was organized by the Smithsonian Institution Travelling Exhibit Service and Howard University. The exhibit

presents 130 photographs by Tamio Wakayama, Maria Varela, Elaine Tomlin, Charles Moore, Danny Lyon, Julius Lester, Matt Herron, Doug Harris, Dee Gorton, Roland L. Freeman, Bob Fletcher, Bob Fitch and Diana J.M. Davies.

In the Gallery of the Chicago Center for Contemporary Photography exhibits of work by Lynn Sloan-Theodore (March 7-30) and Steve Saunders (March 31 - April 6) will be presented.

The Columbia College Galleries are open Monday through Friday from 10 a.m. - 5 p.m. and Saturdays from 12 noon to 5 p.m. There is no admission charge for the exhibits. For further information, phone 663-1600, ext. 104.

Glon calls for citizens' alertness

Throughout his campaign, Ray Glon, has emphasized that his discussions with park district residents show an overriding concern for park safety. At the March 13 Candidates' Forum sponsored by the League of Women Voters of Morton Grove-Niles, Glon presented his plan for promoting park safety.

"Skate-Town U.S.A." promises to be a spectacular evening of entertainment with a variety of musical and group precision numbers. Call 297-8011 for information on this colorful event.

One comment Glon made on park security is, as an example, why would you want to spend \$30,000 to save \$2,500? What he is saying is that if your annual cost of security far exceeds your anticipated, uninsured annual loss, you expend these excess funds? The Park District could self-insure for far less.

The first four weeks of the program will consist of instruction for skill sharpening. Teams will then be formed and coaches assigned to each team for controlled games. During these games, play will be stopped in order to emphasize proper team work.

Registration is being accepted at the Park District office, 7877 Milwaukee ave., Niles. Resident fee is \$12 and includes any child attending a school which serves Niles children. Non-resident registration is \$24. Call 967-6633 for information.

Most citizens do not confront the person or persons committing these acts out of fear of repercussions. My program would involve an anonymous call-in to the Niles Police Department. The police would then take appropriate action. This, Glon stated, would be augmented by a part-time "park-ranger" staff.

The park-rangers would patrol the parks during the hours of normal usage to assist in preventing potentially dangerous situations from occurring. The rangers would have minimal authority limited to verbal re-
