Light voter turnout returns Niles incumbents to office

Unofficial returns from Tuesday's Niles village trustee election showed Ang Marcheschi led his fellow trustees with 2,538 votes followed by Bart Murphy, 2,588 and Orville Ottow, 2,482. The incumbent trustees were uncontested in the village race. Six write-in votes were recorded on Tuesday's village ballots.

Running under the banner of the Peoples Economy Party, the light turnout was due to the non-competitive race. This will be the 6th four year term for Marcheschi, first being elected to the board in 1963. Subsequently, Marcheschi opposed village president Nicholas Blase in the mayor's race.

Murphy and Ottow have both served on the village board since 1978. Orville Ottow was appointed to replace Ralph Bast and Bart Murphy replaced Richard Harczak, both elected officials who resigned during the 1978 year. In an after-election interview. Continued on Page 27

Gun control advocates score decisive victory

Action Party wins big in Morton Grove

by Bob Besser

Morton Grove trustees sent a message on gun control around the country some two years ago and Morton Grove voters reiterated that message Tuesday night as they decisively defeated an attempt to unseat the pro-gun control incumbent trustees. The race, which attracted national media attention to Morton Grove once more, pitted incumbent Action Party trustees Richard Hobs, Lewis Greenberg and Gregg Youstra against

challengers from the newly formed We, The People slate which included Roger Nolte, Seymour Primer and Richard Schnell. Unofficial figures Wednesday morning showed Action Party candidates Richard Hobs receiving 5,851 votes, Lewis Greenberg with 5,379 votes and Gregg Youstra with 5,184 votes. We, The People candidates Seymour Primer collected 3,175 votes, Roger Nolte received 3,169 votes. Continued on Page 27

Heinen, Beusse retain seats on Park Board

In Niles Park Board election Tuesday, incumbents Elaine Heinen and Walt Beusse were re-elected to four year terms. Unofficial returns reported Heinen was high vote-getter with 1,689 votes; Beusse had 1,194 votes; Bernard Skaja, Jr. totalled 925 votes; former park board member Steve Charnerski had 621 votes and Raymond Glon had 556 votes.

In the very quiet election, only Ray Glon among the defeated candidates had an active campaign during the pre-election period. Charnerski and Skaja did not submit any news releases to The Bugle and Charnerski did not overtly campaign as he did in past elections. It was reported Skaja did little active campaigning until the end of the election period.

Heinen, who unsuccessfully ran for Mayor in 1981, will begin her second four year term on the park board. Beusse, who has served on the park board for a total of 10 years, will be serving his second four year term as he enters his 11th year on the park board.

In the 3 openings for the six year terms, Irene Costello was the top vote-getter with 2,863 votes. Terry Spreckman Carman had 2,686 votes and Myles Dimand had 2,642 votes. Costello is the lone incumbent. Continued on Page 30

From the Left Hand

by Bud Besser

In days of yore (that's the way you write the day after an election) the messengers who brought bad news to the kings were often thrown over the cliffs. "Kill the messenger", ordered his highness, and the bad news bearer was quickly disposed of.

From Nixon to Seymour Primer and John Mitchell to Orville Ottow the message really hasn't changed much.

Tuesday night we started our round of visiting the political headquarters first stopping at the Maine Democratic headquarters on Milwaukee Avenue. Niles trustee Orville Ottow, slumped in a chair in Nick Blase's office, tolerated our presence for a couple of minutes and then implied whatever he said about his victory would be misquoted in The Bugle.

Jumping in the car we moved over to Action headquarters on Dempster St. in Morton Grove and then went across the street to the losing party's offices one block east. Losing trustee candidate Seymour Primer lashed out immediately. "The media made a mess of the campaign." Primer claimed the media distorted the campaign and overemphasized his group's exploiting the gun controversy. "It was the media that caused this," said Seymour. "and the Tribune man admitted I am right."

Back home we watched Peter Peters, Chicago Mayoral candidate Bernard Epton's cam- Continued on Page 27

Library Board to vote on million dollar expansion

By Eileen Hirschfeld

A one million dollar Niles library expansion is scheduled to be voted upon by members of the Niles Library board at an April 20 meeting. Expansion will be tied in with an attempt to gain one quarter of building costs from an Illinois State Library Construction fund.

With the State grant unexpectedly made available to qualified applicants, only 29 days remain for documentation to be presented by libraries applying for funds. Documentation is to be completed by April 25.

Recommendation for expansion will be made by an ad hoc committee of the library board meeting April 6. Tom Williamson, an engineer from Orput Assc., designer of the original library structure, attended to field questions from committee members. Members included

Declining enrollment reason for cutbacks

District 207 cuts 33 teachers from roster

Police calm melee at wedding parties

Police from Niles, Morton Grove and Glenview poured into the White Eagle Restaurant, 6839 Milwaukee Ave., following reports of a brawl during two wedding parties on Sunday, April 10.

The man reported people from two wedding parties had entered each others' receptions resulting in a fight. The Lombard man said when he went into a hallway he was attacked by about ten people from the other wedding party.

As the man was leaving the building enroute to Lutheran General Hospital, he pointed out

When school closes on June 9, there will be 33 fewer teaching positions in District 207. The teachers who will be looking for new jobs will be the victims of RIF or reduction in force -- teachers who are honorably dismissed based on economic necessity.

"Position cutbacks are a reality in times of declining enrollment and have been here in Niles since 1975-1976," said Dr. John Benka, assistant superintendent for general administration and personnel.

But in District 207, a RIF letter doesn't have to mean the end of a teaching career. According to Benka, over the last two years, nearly 40 teachers who were rified from District 207 are teaching in other northwest suburbs, private schools, and school districts in the Midwest.

Because RIF is a reality in time of declining enrollment, Benka has developed a variety of approaches to assist staff members in planning for career transition during the past several years. According to Benka, some teachers want to believe that rifting just won't happen to them.

"I can understand that job displacement is a traumatic event, especially in the life of a teacher who has made a lifetime commitment to the profession," he said.

And other school districts sometimes contribute to teachers' skepticism about the whole system of rifting. "Other school districts may choose to terminate many more teachers than is necessary as a precaution," said Benka, who explained that state law requires that teachers be notified 60 days before the end of school if their position is to be eliminated.

"But we believe we have a responsibility to be as accurate in our forecasting as we can possibly be. Staff termination is unsettling enough. We don't want to add unnecessary burden to staff members by making them decide if the termination is real," said Benka.

"Our system for planning is solid enough that we are able to pinpoint the positions to be reduced rather than deliver many more RIF letters than are actually necessary," he said.

Thirty years is a long time, in any mans life, we all realize that. In a time when things seem to fall apart at the seams in record time and everyone talks about planned obsolescences, serving the community for thirty years is quite an accomplishment indeed. This is

exactly what a most dynamic group of men have done, under the name of The Lions Club of Niles. What is a Lion? Well, to answer that question you would have to dig deep into the background of the men who call themselves the Niles Lions. For

all intent and purpose they are not heroes, in their own minds, but in the eyes (an interesting simile) of those they've helped, well that's another story. They aren't, hold it, why am I wasting time telling you what they're not,

ELDERLY LIVE LONGER WHEN CARED FOR AT HOME

A study by Congress's General Accounting Office has revealed that older Americans who receive medical treatment at home live longer and more enjoyable lives than those in institutions. The study was released by Senator Orrin G. Hatch, of Utah, who is using it to drum up support for his bill to expand home health care to rural and inner-city areas where it is not available.

The report also says that expanded home health care probably wouldn't save the government any money because of the increased numbers of people who would be eligible. But Senator Hatch thinks that to deny home health care because of the cost would be "dollar-wise but people-foolish." Allowing more people to sign up he said, "can improve the longevity and well-being of aged people who want to live at home."

BABYSITTERS NEEDED

In the past few weeks I have gotten numerous calls for babysitters and we don't have any kind of network for babysitters in the Community. If anyone is interested in babysitting, either on a set schedule or whenever there is a need, please call Marcy Amstader at 965-4100.

MG Historical program on thimbles

However, when Dodee Cannely, newly installed president of the Morton Grove Historical Society, convenes the next meeting at 7:30 p.m. Tuesday, April 19 in the public library, a short business session will be followed by a program about collecting thimbles.

Evelyn and Marcy will inform us about the history and romance of this little household item. In years gone by, thimbles were used for advertising purposes and came in attractive containers, some of which will be shown by the two women.

The women, both Morton Grove residents, met just a couple of months ago through their mutual interest. Evelyn has been collecting them for about 10 years, while Marcy has been a collector for about two years. She will tell us about the thimble hallmarks and will show some slides. She learned that they date back to the

beginning of mankind. Evelyn advises that the thimbles range from those made by the Eskimos of walrus skin to some very expensive sterling silver ones.

Admission to this gathering is free. There will be doorprizes and light refreshments.

If you have a thimble and want to learn about its background, bring it along and the guest speakers will bring you up-to-date regarding its history.

Our transmission specialists who rebuild, repair or adjust your automatic or standard transmissions are master mechanics with many years of practical experience.

They know what they are doing and each of them take pride in their craftsmanship. And every job, major or minor, is thoroughly road-tested to insure top performance and years of satisfactory service.

We Care Not Only About Your Car ...

But About YOU!

Being locally based in Niles for more than 23 years and 32 years in our Chicago location, we could not have survived without repeat business and satisfactory testimonials from our thousands of satisfied customers.

An integral part of our "Customer ethics code" is to care NOT only about your car but about YOU.

For what you think about us, is the bottom line, about whether or not you will continue to let us care for your car.

Joseph J. Gambino, President

What Our Customers Say About Us Is More Important Than What We Say

During the past 23 years in our Niles location both we and BUGLE NEWSPAPERS have received scores of unsolicited letters of testimonial. Here are just a few excerpts of the many we have received and which the BUGLE NEWSPAPERS have published from time to time.

• "Another transmission company told me I needed a new or completely rebuilt transmission. When I took my car to you, Joe, you said: 'All you need is some new transmission oil, your filter cleaned and a new connection.' Total price \$24.50 and I had no further trouble for three years with my Chevy Nova."
A Niles resident of 15 years

"Because I neglected to have a periodic Transmission tune-up my transmission went out in my 74 Buick. You rebuilt my transmission and charged me \$175.00. You included in this price a transmission tune-up, because I was an old customer of yours. In 1982 I traded my car for a new Buick but during those years I drove it, I learned my lesson. I took my car in to your Niles shop every six months for the transmission special which you have advertised in the Bugle Newspapers during these years. Thanks to you and your integrity and honest "Care Car" policy I had wheels without trouble for many years."
A Niles resident for many years

• "When Ed Hanson, Bugle Columnist did the story of your life a few years ago, I was impressed. So I took my 78 Dodge to your shop for a complete overhaul. The dealer whom I purchased the car from wanted almost 3 times what you wanted. I had you do the work. Your estimate was the exact price I paid you. My car has worked fine ever since. Now that the interest rates have dropped I'm planning to trade it in on a new model. But YOU, Joe Gambino will continue to service my new car for me."
Thanks. A Morton Grove resident of 8 years.

• "Joe Gambino of United Transmission has serviced my last two cars over a period of 8 years. A Maverick and a Chevy Nova. If you ever have a "beef" I shall check it out, just call me, 966-3900 or 647-1122."

ASK YOUR ORTHODONTIST

BY DR. ALAN J. BLAS

Question: Dr. Blas, what are the new invisible braces that people are talking about?
Answer: There are two types of braces which you are referring to. The first type is a clear plastic brace which is attached to each front tooth with a white adhesive. They are barely noticeable. The second type is a tiny metal brace, about the size of a small BB, which is attached to the tongue side of the teeth with a white adhesive. It cannot be seen because it is behind the teeth.
Question: Dr. Blas, can crooked teeth affect the health of my mouth?
Answer: Yes, teeth which are crowded or overlap are more prone to cavities and gum disease. This happens because crowded teeth are difficult to keep clean. Areas where crooked teeth overlap become traps for food particles. These teeth retain more plaque (bacteria and food debris). The bacteria and food debris cause both cavities and gum infections. Braces are often placed to align crooked teeth. This self-improvement results in a more attractive smile and an improved level of dental health for the patient.

Dangers of hydro-planning

By Secretary of State Jim Edgar Every Illinois motorist should be aware of the danger of hydro-planning, especially during rainy spring weather.

Hydro-planning, which can cause skidding, takes place when you're driving on wet pavement. At speeds of up to 35 mph, most tires "wipe" the road surface similar to the way a windshield wiper cleans the windshield. But, as speeds increase, tires ride up on a film of water like a set of water skis.

In a standard passenger car, partial hydro-planning begins at about 35 mph and increases with speed to about 55 mph, when the tires may be totally up on water.

In a severe rainstorm tires lose all contact with the road at 55 mph, and there is no friction available to brake, accelerate or corner. A gust of wind, curve in the road or slight turn can create an uncontrollable skid.

The best thing to do if you start to skid is to take your foot off the accelerator and let the car slow down.

Unsuccessful Burglary

A resident of the 9000 block of Maryland st. reported burglars were not successful when they tried to break into his house during the night of Friday, April 8.

A 20 year old Oak Park driver was arrested for drunk driving after being involved in an auto accident in Niles on Wednesday, April 6. The Niles man had stopped in the left lane in the 7100 block of Milwaukee ave. waiting to make a left turn when his car was struck. When police arrived on the scene they report the Oak Park driver had a strong odor of alcohol on his breath and was swaying. Additionally, when police went into the Oak Park car to retrieve two open beer bottles an 18 year old passenger in the car grabbed a policeman and began screaming that he could not go into the car. At the Niles Police Department the 18 year old passenger was charged with battery and obstructing a peace officer. The Oak Park resident was charged with driving under the influence of alcohol, driving too fast for conditions and transporting open liquor. "QUALITY THAT'S AFFORDABLE"

Mens Basketball League

Wells Lamont Gloves captured the post season tournament championship of the mens basketball league at Golf Maine Park District by defeating Schmitt 50-43 in a very exciting and intense game. Wells Lamont, who finished fourth in the regular season, came out with a very strong zone defense that stopped Schmitt's potent offense cold in the first half.

Wells Lamont's offense was patient and waited for inside shots in taking a 22-18 halftime lead. Marty Burns scored 8 first half points, and John Blaz 6 to pace Wells Lamont to the lead. Schmitt converted on 8 of 9 free throws in the first half to stay close.

Schmitt rallies in the second half as their offense came to life. Bob Schmitt scored 11 of his game high 19 points in the half to help Schmitt take a 41-40 lead with 3 minutes to play. Wells Lamont's defense then took over again and limited Schmitt to only 2 points the rest of the way.

Jim Dohn and Roy Bodett placed Wells Lamont in the second half by scoring 11 and 8 points respectively. Dohn iced the game for Wells Lamont by hitting on 5 of 7 free throws in the final minutes.

District 64 School Caucus

On Tuesday, April 19 at Field School, the members of the General Caucus of School District 64 will have their first opportunity to hear the candidates interested in serving on the school boards of Park Ridge and Niles for the elementary school district 64 and high school district 207. The Nominating Committee of the Caucus will present candidates for the upcoming five vacancies of the 64 Board and two vacancies of the 207 Board.

Delegates and alternates should register at 7 p.m. in order for the regular meeting to begin at 7:30 p.m. Because of the number of candidates to be heard, this meeting will be the first of a two part continued meeting as agreed to at the first regular meeting of the Caucus in January. Some of the candidates for both boards will be heard at this first meeting, while the remainder will speak at a meeting the following Tuesday, April 26 again

at Field school. The format of both meetings will be to have each candidate give a short introduction of themselves and their ideas followed by their response to questions asked from the floor. These meetings are open to the public, including the opportunity to ask questions of the candidates.

Regular delegates and alternates are required to attend both these meetings in order to retain final voting privileges. This will take place at the 3rd regular meeting on May 10. All candidates will be at this meeting and, in a panel format, they will again answer questions from the audience. A final vote of the Caucus membership will determine those candidates to be endorsed by the Caucus in the November elections. Further questions of the meetings or procedures should be directed to Justin Venetucci, 822-1937.

Ken Scheel Drive?

Dear Bud,
A couple of weeks ago a suggestion was made by one of your readers to name a park after Ken Scheel as a memorial. I thought this was an excellent suggestion and certainly more fitting than the one made by our village board to name a garage after him. A Ken Scheel Park or a Scheel Park would be a constant reminder to everyone of the dedicated service that he contributed to the Village of Niles. I never had the pleasure of knowing Ken Scheel, I wished that I had, however from the accounts written about him and talking to many that did know him I found that there was a person that everyone liked. Apparently he was not a publicity seeker since rarely if ever a picture appeared in our local papers. He left this to the local Village politicians that needed

Mr. Miller, This is 1983!!

Dear Editor:
In regard to the Letter to the Editor which appeared in the April 7 edition of the Bugle from Mr. Joe Miller, I would like to make the following reply:
I was totally shocked to learn of the "current burning issue" of pornography on Cable TV in Niles. FOR SHAME! FOR SHAME! Mr. Miller, this is 1983. This is a free Country. You say you are "confident that the majority of citizens in Niles" agree with your position on the exposure. He was too busy running the village. All the progress Niles has made was a result of Ken Scheel's planning. His accomplishments have been many and he will be sorely missed. Too bad we couldn't name the Milwaukee ave. portion of Niles Ken Scheel Drive.

Roses for Niles Public Works

Dear Editor:
I would like to thank Mr. Terry Gendola and the Niles Public Works Department for resurfacing Aldi's Food Store parking lot (Lawrencewood Shopping Center), on Friday, March 18.
To borrow a line in a recent "Left Hand" column, "there's no reason why residents who don't know what's going on in their town shouldn't know about it," the same line rings true here, too. There is an east and westbound roadway in the Aldi Food Store parking lot that is bounded to the north by the Niles Public Elementary School and to the south by Aldi's Food Store lot. This east and westbound roadway originates from the Forestview Townhouses. Intersecting this east-westbound roadway is a north and southbound roadway originating from Oakton St. (north) and ending at the late Goldblatt's Store (south). At the northeast corner of this particular parking lot intersection is a stop sign which has faithfully stood for 21 years. In February, 1983 that stop sign was knocked down to the ground. Just 2 weeks ago, that stop sign was stolen or missing.
Because of this problem, my car was almost hit from the driver's side while I was peacefully driving southbound at 15 mph. on March 10 morning to

Local Girl Scouts regret Michigan incident

Dear Editor,
The Illinois Prairie Girl Scout Council regrets the unfortunate misunderstanding which occurred in Michigan when a Brownie was unable to collect all her cookie sale money. We would like to clearly state that each Girl Scout Council establishes its own safety standards, guidelines and policies for product sales, and each handles problems differently.
The Illinois Prairie Council and the National Girl Scout organization agree that girls may never be expelled from a troop, nor are girls required to sell cookies or participate in fund raising activities. These standards are explained to leaders during their initial training.
Money problems rarely arise in this Council's product sales. However, when a situation does occur it is handled by the volunteer product sale managers in each community.

Edison fuel adjustment credit continues

For the seventh time in as many months, Commonwealth Edison Company customers will see a fuel adjustment credit on their April bills. This credit will bring the total seven-month savings of a typical residential customer using 500 kilowatt-hours to \$5.16 in Chicago and \$4.95 outside of Chicago.
Edison officials attribute the credits to reduced fuel costs made possible by the extensive use of low-cost nuclear fuel. Coal, which is the company's next most economical fuel, is four to five times as expensive as nuclear fuel, and oil is about 10 times as expensive.

District 207 ...

The one exception is special education where positions are directly related to state and federal funding thus requiring blanket notifications to non-tenured teachers, according to Benka. "Except for unusual occurrences, such as unexpected resignations, leaves or unexpected enrollment fluctuations, we haven't recalled more than two teachers in a year. In fact, even in years of severe declining enrollment of 600-700 students, we have been able to take teachers to tenure in departments where enrollments have not decreased at a rate equal to district decline, such as business education. This is because we complete our reduction-in-force study course by course and section by section," said Benka.
"When a teacher receives a RIF notice in District 207, he also receives information about activities in which the teacher can participate with the district as the teacher looks for new employment," said Benka.
What does District 207 do to help the rifed teacher? Department chairmen, building administrators, and Benka don't wait for a teacher to get a RIF letter to offer their help. "Throughout the year I confer with teachers who are interested in securing another area of certification. In some instances, we can make some 'educated' predictions about district staff needs out to the late '80's. For instance, we might counsel a woods teacher about needs in auto mechanics which we believe will occur," said Benka.
Benka also coordinates information about job vacancies in the northwest suburbs. "I am a member of the Northwest Suburban Personnel Administrators group which includes 18 neighboring school districts. When a vacancy exists anywhere in this area, we are often able to recommend candidates immediately. Over the years, I have notified a number of our staff members of vacancies even before vacancy announcements were posted," he said.
Benka's office staff also assembles a booklet of resumes for teachers who wish to have that information sent to 125 districts in Illinois. Benka receives phone inquiries from districts that are looking to fill positions and notifies teachers of those contacts. Often, teachers are contacted directly by those districts who receive the booklet, according to Benka.
District 207 also offers career reassessment workshops to rifed staff. These workshops have been conducted annually since 1979. Ms. Murel Stone, director of placement at the University of Illinois-Chicago, conducts a four-hour session in the district for non-tenured teachers focusing on self-assessment, the job market, and transfer skills. For tenured teachers, Dr. Ed Dunkelblau, director of human services for Hoffman Estates, offers a variety of experiences and activities aimed at helping the teacher to prepare for a new career in two four-hour sessions. Both Stone and Dunkelblau have consented to assist teachers in follow-up to the district workshops.
Summer mailing of vacancies both in District 207 and in surrounding districts have also been helpful. Benka's office sends monthly mailings to teachers who request such information and to all rifed teachers.
As enrollment in District 207 continues to decline, staff

In fact, even in years of severe declining enrollment of 600-700 students, we have been able to take teachers to tenure in departments where enrollments have not decreased at a rate equal to district decline, such as business education. This is because we complete our reduction-in-force study course by course and section by section," said Benka.
"When a teacher receives a RIF notice in District 207, he also receives information about activities in which the teacher can participate with the district as the teacher looks for new employment," said Benka.
What does District 207 do to help the rifed teacher? Department chairmen, building administrators, and Benka don't wait for a teacher to get a RIF letter to offer their help. "Throughout the year I confer with teachers who are interested in securing another area of certification. In some instances, we can make some 'educated' predictions about district staff needs out to the late '80's. For instance, we might counsel a woods teacher about needs in auto mechanics which we believe will occur," said Benka.
Benka also coordinates information about job vacancies in the northwest suburbs. "I am a member of the Northwest Suburban Personnel Administrators group which includes 18 neighboring school districts. When a vacancy exists anywhere in this area, we are often able to recommend candidates immediately. Over the years, I have notified a number of our staff members of vacancies even before vacancy announcements were posted," he said.
Benka's office staff also assembles a booklet of resumes for teachers who wish to have that information sent to 125 districts in Illinois. Benka receives phone inquiries from districts that are looking to fill positions and notifies teachers of those contacts. Often, teachers are contacted directly by those districts who receive the booklet, according to Benka.
District 207 also offers career reassessment workshops to rifed staff. These workshops have been conducted annually since 1979. Ms. Murel Stone, director of placement at the University of Illinois-Chicago, conducts a four-hour session in the district for non-tenured teachers focusing on self-assessment, the job market, and transfer skills. For tenured teachers, Dr. Ed Dunkelblau, director of human services for Hoffman Estates, offers a variety of experiences and activities aimed at helping the teacher to prepare for a new career in two four-hour sessions. Both Stone and Dunkelblau have consented to assist teachers in follow-up to the district workshops.
Summer mailing of vacancies both in District 207 and in surrounding districts have also been helpful. Benka's office sends monthly mailings to teachers who request such information and to all rifed teachers.

Edison fuel adjustment credit continues

For the seventh time in as many months, Commonwealth Edison Company customers will see a fuel adjustment credit on their April bills. This credit will bring the total seven-month savings of a typical residential customer using 500 kilowatt-hours to \$5.16 in Chicago and \$4.95 outside of Chicago.
Edison officials attribute the credits to reduced fuel costs made possible by the extensive use of low-cost nuclear fuel. Coal, which is the company's next most economical fuel, is four to five times as expensive as nuclear fuel, and oil is about 10 times as expensive.

Students cited for leadership

Christine Conti, Lincolnwood and Suzanne Rosentreter, Niles, were recently inducted into Omicron Delta Kappa, national leadership and scholarship honor society, at Elmhurst College.

District 207 ...

The one exception is special education where positions are directly related to state and federal funding thus requiring blanket notifications to non-tenured teachers, according to Benka. "Except for unusual occurrences, such as unexpected resignations, leaves or unexpected enrollment fluctuations, we haven't recalled more than two teachers in a year. In fact, even in years of severe declining enrollment of 600-700 students, we have been able to take teachers to tenure in departments where enrollments have not decreased at a rate equal to district decline, such as business education. This is because we complete our reduction-in-force study course by course and section by section," said Benka.

THE BUSINESS PICTURE

Hard work pays off for Mappa

Is it possible to succeed in business without really trying? Sanford Mappa, of Sanford L. Mappa & Assoc., Inc. in Glenview, doesn't think so.

A representative of Chubb Securities Corp., Mappa recently won a 10-day, all-expense paid Caribbean cruise aboard S.S. Norway. In 1981 he won a similar cruise to Japan, Hong Kong and China.

"After working hard all year, it's good to get away. Besides, the price is right," said Mappa, 41.

He credits his success in the financial planning field to his hard work and philosophy of putting the client's interests first.

"I get a lot of referrals. Even this poor economic climate hasn't affected my business," said Mappa, who usually charges an hourly consultation fee rather than a commission.

In the financial planning business for 12 years, Mappa has spoken at seminars on the topic, and appeared on radio and television.

Next year's top salesperson will receive an all-expense paid trip to Rome.

"I've already started working on that campaign," Mappa said.

The President's Corner

by Timothy P. Sheehan, President
Peerless Federal Savings

In our last newsletter, I discussed our cautiously optimistic outlook for the nation's economy, in general, and for the housing industry, in particular. Since that time, we have seen positive signs in our nation's leading economic indicators, including a decrease in first-time claims for unemployment compensation, an increase in home sales, and an even lower rate of inflation. Short-term interest rates have ranged between 7.6% and 8.4%, while single-family mortgage rates have ranged between 12.0% and 13.5%. We expect the economy to continue to rebound, but we recognize that this recovery could be blunted if Congress fails to control federal spending.

It is in this cautiously optimistic climate that we, at Peerless, begin our 56th year of operation, a year that promises to continue the deregulation of the financial industry and to further blur the differences among savings and loans, banks, and other providers of financial services. At Peerless, we now offer Money Market Deposit Accounts and 2 1/2, 4 and 6 year Certificates of Deposit without government regulatory rate restrictions; we have introduced secured personal and auto loan programs for our customers, at a very competitive cost, the services of Mr. Frank Hiank, a well-respected financial consultant and analyst. Indeed, the changes in the financial industry have already been monumental. One thing that will not change at Peerless, however, is our determination to provide our customers with consistently competitive rates and personalized service, and with a wide range of financial products.

Savings Notes

By Eugene J. Rudnik, Jr.
Executive Vice President

Recently, many of our savings customers participated in a nationwide survey conducted by the U.S. League of Savings Associations. The results of that survey have now been compiled and distributed to the member savings and loan associations, and a number of interesting facts have been revealed.

It seems that despite heavy outlays of advertising and promotional dollars, a significant majority of Americans have yet to open either tax-deferred Individual Retirement Accounts (IRA's) or interest-bearing checking accounts (NOW's). An IRA for 1982 can still be opened if the individual has yet to file his or her 1982 income tax return, and, if necessary, the IRA contribution can be borrowed. For 1983, the IRA contribution can either be made in a lump sum payment or a convenient monthly installment program can be established.

As for NOW accounts, it amazes us that so many people have not yet transferred from a non-interest bearing checking account to an interest-bearing account, especially since, in many instances, the minimum balance requirement and/or any service charges are less. Peerless' NOW account requires a minimum balance of only \$250, has no service charge as long as that minimum balance is maintained, can be accessed at over 180 Jewel Food Store Money Centers via our YES Card, and can have automatic or telephone transfers to or from other Peerless accounts, including our Money Market Deposit Account. In addition, the first 200 checks are free.

If you're among the majority of Americans that have yet to open an IRA or a NOW account and would like to change that situation, Peerless would be pleased to accommodate you. Just ask any of our Savings Counselors or Branch Managers for assistance.

Withholding on interest bill passes Senate

Senate Bill 98 which provides that there be no withholding for Illinois income tax purposes on interest or dividend income, passed the State Senate last week.

Senator Bob Kustra (R-Glenview), who co-sponsored the bill, commented, "The federal government will be collecting a 10% federal withholding tax on interest and dividends beginning July 1, 1983. Since Illinois withholding is directly tied to the Internal Revenue Code, Illinois would similarly begin such a tax at a 2 1/2% rate. This legislation is necessary to 'de-couple' us from the new federal tax."

"A tax on interest is a burden to the financial institutions required to collect it and would be costly to administer," said Kustra.

BEST FOOT FORWARD

By Dr. Leonard Pook
OVERWEIGHT AND YOUR FEET

About 120 percent of your body weight is transmitted through your feet each time it hits the ground. Overweight adds to this foot abuse, and may cause painful foot problems. You may walk unsteadily or unevenly. Muscles become fatigued. Bones change shape and joints may be thrown out of kilter. This may lead to "wear-and-tear" arthritis, often one of the problems of overweight.

Discuss any foot problems or postural defects with your podiatrist. Often an orthotic device (foot appliance, shoe insert, plate, mold or even arch support), prescribed and designed especially for your feet after a thorough biomechanical exam, will provide normal function for your feet and legs to help maintain the anatomical angular relationships between segments of each foot and leg, and distribute weight more evenly.

What Caused the Cubs Loss Syndrome?

In a word... **WOMEN!**
 Since the Chicago Cubs started a "Ladies Day" promotion, 38 years ago, they haven't won a pennant. My research ties the decline and fall of the Chicago Cubs to this historical and significant event - FREE admission (just tax) for all ladies.
 The Cub management at that time wanted to create more women baseball fans and they decided to offer FREE admissions to all women each Friday. At that time Cub games were not telecast but were broadcast on radio. And, as radio expanded interest in baseball, even among men, the addition of women would ultimately mean many more paid admissions.
 When television followed, a few years later and when women could see "their heroes" in black and white women "fans" increased with leaps and bounds. And when color TV came, they could now see the color and curl of their "Heroes" hair, and the color of their eyes and skin. This, caused many ladies to sigh and say, "Isn't Dave Kingman cute". And, although, even today women don't know too much about the game, it gave them a chance to invade that which was once the private turf of the male gender.
 To digress, when I was a 6 year old kid (66 years ago) my old man would once-in-a-while take me to watch the Cubs and every Sunday he'd take me to watch the Logan Squares. Hardly ever did you see a woman at the ball park, in those "good old days."
 After the game my old man would take me into an old saloon at Milwaukee Avenue and Central Park for a soda pop for me and a few "boltermakers" for himself.
 These saloons had a FREE lunch, sawdust on the floors, slot machines against the wall, and plenty of men but no women save for a stray shady, overpainted lady now and then who wanted to drum up some new clients. For man created the bar not to meet women but to get away from them and enjoy some sociability with his men friends. Play some cards, talk sports, tell dirty jokes, while their wives or girl friends were at home.
 While it is true that the other major league teams have a "Ladies Day," all of them play night baseball. The Cubs don't. And, this tells the tale because at Wrigley Field, at the height of the season, when its warm there is a big distraction that takes place in the stands and bleachers. The distraction is these scantily clad screaming females putting on their own show in the stands and it interferes with the ball player's concentration. While it is true that this is as fair for the visiting team as it is for the Cubs, the opposing team scores many victories playing night baseball.
 The iris of the eyes of the Cub team is attuned to day ball and cannot adjust as readily as those other teams that all play night ball and some day ball.
 I believe the Cubs developed a conditioned reflex or "habit of losing" since "Ladies Day" came to Wrigley Field.
 This year it is particularly bad for the Chicago Cubs because their top stars average over 36 years of age while the rest of the team are mostly very young raw recruits fairly bursting with vitality. The "old" stars, (some are almost old enough to collect social security) will by mid-season suffer the ravages of the aches and pains of "old age" and become known as the "over-the-hill" gang whereas, the young'uns will become so distracted and subject to nervousness and "heavy breathing" by all those young females in the stands and bleachers, that when they leave home to play night ball they'll probably fall asleep in the outfield or infield.
 For this reason I pick the Cubs to finish last in their division. The only hope for the Cubs is to play night ball at home. Or else eliminate "Ladies Day". Or, better still eliminate Lady patrons.

"On Golden Pond" at Lincolnwood Library
 The recent and outstanding film, "On Golden Pond," starring Henry Fonda, Katherine Hepburn and Jane Fonda, will be shown at the Lincolnwood Library, 4000 W. Pratt, in two free programs, 4 p.m. and 7 p.m. on Friday, April 15.
 The 1981 Academy Award Winner for Best Actor, Best Actress and Best Screenplay Adaptation, was the first Fonda-Hepburn match, and the late Henry Fonda's final film performance. The film chronicles an aging couple, focusing on their relationship with each other, with other family members, and with themselves.

Deaf children to perform Wizard of Oz

A children's theater of the deaf will put on performances of "The Wizard of Oz" Friday, April 15, and Saturday, April 16. The event begins at 7 p.m. and continues until 1 a.m. at St. Peter School, 8140 Niles Center Rd., Des Plaines.

Dorothy's adventures "over the rainbow" will be performed in sign language, a manual equivalent to speech used by the deaf. Hearing persons will be "voices" for actors on stage as they sign both words and songs in graceful hand motions.

Actors in "Oz" are members of "The Traveling Hands Theatrical Troupe", one of two dramatic groups sponsored by the Center on Deafness, Des Plaines.

An April 15 benefit performance will take place at 10 a.m. for youngsters who are handicapped and members of non-profit organizations. A second showing will take place 1:30 p.m. April 30 for general audience attendees.

Troupe members are: David and Amy Altman, Buffalo Grove; Scott Chandler, Des Plaines; Pam Hartman, Palatine; David and Ari Hirschfeld, Niles; Lori Murray, Niles; Steve Rank, Evanston; Judy, Abbey and Lloyd Roin, Wheeling; Andy Ross, Buffalo Grove; Beth Sherwin, Palatine; Christine and Caroline Strejc, Hillside; Gloria Terrell, Des Plaines; and Lauretta Wenzell, Glendale Heights. Director is Katherine Scherer, Des Plaines.
 For more information, call the Center at 297-1022.

"Heavy Manners" debuts on cablevision

Chicago-Heavy Manners, Chicago's favorite reggae/ska band, is being featured throughout April on Cablevision's "Community Channel 3," in a concert recorded late last year in the fashionable Park West nite club. "HEAVY MANNERS IN CONCERT" combines the bands unique danceable music, soul-searching lyrics and personal interviews into a one-hour landmark for local cable.

"HEAVY MANNERS," who debuted their current "Politics & Pleasure" EP last fall in a soldout performance at Park West, hold the attendance record at the venue. Now, the band will extend their audience to over 4,000 homes in 22 Cablevision franchises surrounding Chicago.

Esposito's plans 25th Anniversary celebration

Esposito's restaurant is celebrating its 25th Anniversary beginning Friday, April 15. Located at 9224 Waukegan Rd. in Morton Grove, Esposito's has always been a family operated business.

When Esposito's was opened on April 15, 1958 by Nick and Josephine Esposito, they had only 5 tables and 5 stools. In July, 1959, they installed a new deep fryer which was defective, and a fire broke out which destroyed the restaurant.

But they rebuilt Esposito's, and with the partnership of Anthony and Julia Garreffa (Mrs. Esposito's sister and brother-in-law), made the restaurant larger. By 1969 Esposito's seated 100 people.

The family has always strived to keep their tradition of home made specialties of utmost importance in operating Esposito's.

'Four Orchids, Waltzing' to open at Front Row Center

The Front Row Center dinner-theatre in Niles will present award-winning playwright and Chicago native, Larry Maraviglia's latest madcap comedy, "Four Orchids, Waltzing," opening on Friday, May 6 at 8 p.m., for an indefinite run.

A roaring rib-tickler for all audiences, "Four Orchids, Waltzing" has a zany plot that provides the framework to keep laughter going all evening—a skill at which Maraviglia is quite adept. He currently has a hit play in Los Angeles, entitled "Old Friends and Whines," has been nominated for the L.A. Drama Critics' Award.

The colorfully eccentric characters brought to the stage by Maraviglia are reminiscent of his personal life. Before he turned playwright as a full-time profession, Maraviglia performed in over 200 plays opposite such acting greats as Ray Milland, Boris Karloff, Joan Bennett, George Hamilton and June Havoc.

Continuing a writing career that began at the age of 18, Maraviglia presently resides in Burbank, CA, though he still considers Chicago his home.

"Four Orchids, Waltzing" will be directed by Harry Lee Rodgers, multiple Joseph Jefferson Award-winner, who has numerous Broadway, television and film credits to his name. His

directorial work has most recently been seen in Chicago and Front Row Center and in several productions at the Mill Run Theatre.

Front Row Center, Chicago's newest dinner-theatre, is located in the Golf Mill Shopping Center, Niles, and features an intimate setting that enhances each production.

The performance schedule for "Four Orchids, Waltzing" is as follows: Tuesday through Friday evenings at 8:30 p.m.; Saturday evening at 9 p.m.; Sunday evenings at 7 p.m.; Wednesday and Thursday matinees at 2:30 p.m.; and Sunday matinees at 2 p.m. Theatre patrons must arrive at Front Row Center two hours prior to curtain time to fully enjoy the meal.

Tickets are now on sale at the Front Row Center box office or by phone reservation, and are priced as follows: Tuesday through Thursday evenings and Sunday evening - \$23.95; Friday and Saturday evenings - \$26.95; and Wednesday, Thursday and Sunday matinees - \$19.95. Prices include dinner or lunch, the show, two complimentary cocktails, tax and gratuity, and parking.

The number to call for phone reservations (Mastercard and Visa accepted) and further ticket information is 299-7171. Information on group sales is available by calling 299-7174.

Group W Cable plans programming seminar

SKOKIE, April 8 - Group W Cable's free seminars on local cable programming on Wednesday, April 20, will feature "The Cable Connection," a video tape overview of cable television, plus excerpts of programming done by residents in various Group W Cable systems. The seminars are scheduled for 1:30 p.m., with a repeat session at 7:30 p.m., at the Skokie Public Library, 5215 Oakton St.

The purpose of the seminars is to inform community residents and non-profit organizations and

institutions how to utilize cable television access channels.

The seminars will include an explanation of Group W Cable's public access training courses, studio facilities, mobile van and portable equipment. Representatives from Group W Cable will be available to answer questions.

Seminar space is limited. Reservations must be made no later than Friday, April 15. To reserve a space, call Group W Cable from 8:30 a.m. to 5 p.m., Monday through Friday, at 674-4600.

Openings for Alpine Europe tour

Openings are still available for the Oakton Community College 1983 Alpine Europe study tour, according to Frank J. Fonsino, professor of history, and Rudy Maglio, professor of mathematics.

The professors will conduct an exploration of the social and political climate that fostered Mozart, Freud and Marx, from May 29 to June 13 in Germany, Austria, Italy and Switzerland.

Emphasizing the culture, history and geography of the region, the tour group will view such locales as Bavaria, the historical Brenner Pass, the Black Forest, Dachau, Innsbruck, Mad Ludwig Castle, the Rhineland, Lake Lucerne and the Alps.

Participants can earn six semester hours of credit in History of Western Civilization from 1815 (HIS 102) and Introduction to Geography (GEG 120). Cost of approximately \$1,800 includes round trip airfare, land travel, hotels and two meals a day. Students will be charged the low in-district tuition rate of \$16 per credit hour, \$8 for senior adults, whether or not they reside in the district.

To register or obtain additional information, call Dr. Fonsino at 635-1829, or Dr. Maglio, 635-1686.

paign manager lash out at the press. Peters said the press distorted the report on the number of people who were turning out for rallies for Epton and he reeled off a litany of press vices he claimed resulted from covering his man Epton.

We would call all this sour grapes, "Ho Hum Time", except when it's repeated over and over again the repetition seems to give it validity in many people's minds.

Many years ago we were blistered by a Morton Grove trustee who didn't like something we had written: He said our report wasn't true and it was distorted. Some time later he wound up in jail after being caught with his finger in the till.

Back in 1970 we briefly had a newspaper in Wheeling. Similarly, one trustee there castigated us for what he had read in our Wheeling newspaper. He too wound up in jail after being on the receiving end of a zoning payoff in that town.

President Nixon, in one of his inglorious moments of self pity, told the press, "You won't have Nixon to kick around." He had just lost the governor's race in California and was feeling like a bit of press baiting when he held that memorable press conference after his defeat. And it was President Johnson who was forever implying press critics of the Viet Nam war were unpatriotic and was forever haranguing the press during his years in the White House.

We understand it's always the easy answer to vent a bit of spleen at the media. Primer's

The Amana Energy Command furnace sets a new standard of gas heating efficiency: 94% to 95%. That compares to 54% to 67% for most ordinary gas furnaces. Homeowner's Exemption date extended

Robert P. Hanrahan, Assessor of Niles Township would like to advise residents that verification of occupancy is now required in order for them to be eligible for the Homeowner's Exemption in Cook County and throughout the State of Illinois.

The Homeowner's Exemption can mean a savings of as much as \$300 in property taxes for owners of single family homes, condominiums, cooperatives and apartment buildings of six units or less. This exemption protects homeowners by eliminating from taxation any increase up to \$3,000 in equalized assessed valuation since 1977.

The Cook County Assessor's Office has extended to May 31, 1983 the filing period by which the Homeowner's Exemption Cards must be returned. If you have not received a verification card in the mail, contact the Niles Township Assessor's Office at 5255 Main st., Skokie for local assistance. The form simply requires an affirmation of residence and a signature. It is to be mailed back to the Cook County Assessor's Office on or before May 31, 1983.

Senior citizens already qualified to receive the 1982 Homestead Exemption will automatically receive the 1982 Homeowner's Exemption.

Therefore they were not mailed verification cards and do not have to apply for it.

For further information, please call: Niles Township Assessor's Office: 673-9300.
