There are times to go back into the trenches and make the good fight. And now is the time to gather up your combat gear and head for the front to take on the forces which may attempt to close Maine East high school.

Next Monday night at the Maine high school board meeting we've received conflicting reports concerning the superintendent's report regarding the closing of schools. This past Monday Park Ridge Manor resident Tom Tajiri, stopped to tell us Superintendent Murphy will air his recommendations at next Monday's meeting. But Tuesday morning Maine's public information officer, Karen Larsen, said she knew nothing about Murphy giving such a report next week. Since Murphy is out of town we can't confirm whether his report will be given Monday night.

During the coming months it's essential concerned residents begin monitoring the first-Mon-

"The Niles Lions Story"

"Help the Lions, help the blind," a most familiar chant, uttered by those yellow and blue vested volunteers you see on the street corners in October. Yes, helping the blind is one thing we do, one of many. Like that "Broomerama" we held back in 1954, where the funds that were raised went to help buy manually operated stop-and-go signal lights that were so desperately needed for all the school crossings in Niles, both public and parochial. A softball game with Lion Bill Wetendorf, a blind member, as umpire and a talent show helped raise the needed funds for this community project. Programs, always an important part of the club's meetings have bordered on the near great and then again we won't talk about those, but none have been

more varied than those presented by the Niles Lions. Just a sample of what has been put together includes a joint meeting with ALL the civic clubs in Niles under one roof, an inspirational film on Orchard School and a talk by Traffic Officer Leonard Baldi from WGN, you must remember him. More than just another social club, the Niles Lions have proven that doing things for the community and helping the handicapped, is not only the reason for our existence, it's our fun too. Taking kids on a picnic, or hosting a circus can be a rewarding experience. To men like Lion Ron Pankau, Lion Ted Leifer, Lion William Keating, Lion Ben Frankenberg, Lion Joseph DIMaria and Lion Joe Conti, our first Presidents, these things "were the things to do" and God bless their efforts. They laid the foundation we are so proud of

Do you think there might be a place for you in our ranks? Well, if you're a typical Nilesite who believes in Motherhood, Apple Pie, and the American Flag, we would love to have you in this, our 30th Anniversary year. This year we plan to work harder than ever, because Niles is no longer that struggling little town we live in, but a progressive community that wants for very little. The building of the "Blue Boy Museum", ok'd by the Village fathers will have it's ground-breaking early this spring. With the construction we are going to need all the volunteer help we can get. Our 30th Anniversary Dinner Dance hopefully will kick-off just part of the many fund raisers we will need to complete this project. "Make no small plans" has been and must continue to be the byword of the Niles Lions Club. Our contented little Village of Niles has only seen the tip of the "Wiles dome" iceberg. There remains much to be conquered to continue our progress of service for Niles.

We're proud of our past, but we continue to look to the future, for in the future lies the hope of seeing our dreams of sight and hearing conservation, bearing the fruits or ours, and your efforts. To see the handicapped, through research, being helped more and more and by working to raise the money needed, we will see this come to pass. There will be new and different local problems that will have to be solved, and to be sure, the Niles Lions will be there saying, "It's GREAT to be a LION".

Seek State \$\$\$ for library expansion

By Eileen Hirschfeld

A million dollar expansion and renovation of the main Niles library could begin as early as October, 1983 if a grant application for State Library Construction funds is obtained. Work on the structure, 6960 Oakton, Niles, could take one year.

Approval to send the grant application as completed by the library's interim administrator, an architectural firm and library consultant was given at a continuation of the April board meeting, Sunday, April 24. After review of plans presented by consultant Richard Thompson and architect from Orput Assc., four present board members voted approval. Absent were Margaret Rajski, Martin Hodes and Josephine Buck.

Professional services of Orput Assc. has also been retained for the expansion if the grant is obtained. A proposed expansion would be a ground floor addition to the north and west of the existing structure with a portion of the addition capable of supporting a second story, possibly built at a future date.

Kustra seeks public hearings before tollway hikes

State Senator Bob Kustra introduced legislation to require the Illinois Toll Highway Authority to hold public hearings before it can raise tolls. The bill is co-sponsored by four other suburban Senators whose districts are traversed by the tollway. The co-sponsors are Senator Greg Zito (D-Melrose Park), Senator William Mahar (R-Homewood), Senator Virginia MacDonald (R-Arlington Heights), and Senator George Ray Hudson (R-Hinsdale). State Representative Daniel Pierce of Highland Park will sponsor the bill in the House of Representatives.

Senate Bill 1244 requires the Toll Highway Authority to give prior public notice, hold public hearings and receive public testimony before it can raise tolls. As Kustra noted, "The current 33% increase in tolls from 30¢ to 40¢, was imposed without even a pretense of public discussion. The Authority let it be known that it is answerable to no one - and then proceeded to raise tolls without permitting any person to state reasons for objection. This procedure is simply unacceptable. The public that uses the tollways and pays its

For years, owners have engraved identification numbers on bicycles and silverware to inhibit theft and aid in recovery. Now there's a way to mark gemstones, too.

A subsidiary of the Gemological Institute of America has developed a laser technique for inscribing names or numbers on a diamond, ruby, or other stone, to personalize it or identify it.

The inscription is made on the girdle of the stone, its widest part, in tiny letters or numerals that are invisible to the naked eye, though they can be seen through a jeweler's loupe. Even a stone as small as 1/5 of a carat can be inscribed.

Any stone worth inscribing is worth insuring. The stone's grading is the key to its value appraisal, a must for scheduling in a personal articles floater.

Leaning Tower Senior Adult Center

A very special 'gift' that Leaning Tower Senior Center's Friendly Visitors give each week is 'time' to share with others. As Homebound and Nursing Home Residents unburden their problems to a sympathetic listener, they know that someone cares. Not every problem can be solved by the Friendly Visitor, but every effort is made to try to find answers that will ease the problems that exist.

With knowledge and sensitivity, each Friendly Visitor does 'case management' by following through on each detail. By their regular visits they are aware of any physical or personality changes. As an example, one Visitor, on one of his regular calls, noticed that his homebound friend was quite confused and listless. He immediately called the niece of the man and described his observation. The end result was emergency surgery that same evening for a blood clot which might have proven fatal if not taken care of right away.

Regular visits by the friendly visitors are reassuring to the homebound, providing them with a good friend who is supportive and understanding.

The Outreach Program at Leaning Tower Senior Adult Center under the direction of Shirley Spears and her Outreach Supervisors, Lenna Siens and Mildred Kaplan helps the community to work together. Through the wonderful funding from Niles Township, Leaning Tower Senior Adult Center's Outreach Program of Friendly Visitors can continue to meet the needs of the homebound and nursing home residents of the Niles Township area.

Leaning Tower Senior Adult Center

Muriel Goodfriend of Family Counseling Services of Evanston and Skokie Valley will be the guest speaker featured at the May 2 Coffee Talk at Leaning Tower Senior Adult Center. Mrs. Goodfriend holds these monthly sessions and is one of the popular guests who come out to talk to the seniors. Coffee Talks are Mondays at 11 a.m.

On May 9, Grace Carlson of Augustana Hospital will speak on "Arthritis". Mrs. Carlson's informal talks always insure a nice turn-out by the seniors of Leaning Tower Senior Center. There will be no Coffee Talk on May 16.

On May 23 Oakton Community College will be featured with an informative slide show. Because of the great interest of individuals going back to colleges for rebuilding education and specialized interests, representatives from Oakton College will introduce seniors to their newest programs and special services available.

The Senior Adult Center at Leaning Tower will be closed on Memorial Day, May 30. The May 23 Coffee Talk will close the season and Coffee Talks will be resumed in September.

Tax Appeals subject of Kustra legislation

State Senator Bob Kustra (R-28th) announced today that he has introduced legislation to require the Cook County Board of Tax Appeals to give taxpayers a written notice and a written explanation of its decisions.

According to Kustra, the Board of Tax Appeals "does not explain its decisions and does not notify taxpayers when reduced assessments are denied." The purpose of the legislation is to overcome these deficiencies. Kustra stated, "Taxpayers are entitled to know why and how assessment decisions are made."

Kustra explained that under

The twelve day Festival of Ridvan (April 21 to May 2) is the most important period of the year for members of the Baha'i Faith, for in the year 1863 in the Garden of Ridvan (Paradise), just outside of the city of Baghdad, Iraq Baha'u'llah, founder of their faith, publicly proclaimed that He was a Messenger of God, the latest in a line that has included Moses, Christ and Muhammad. Three of these twelve days are considered especially holy. The first when Baha'u'llah entered the Ridvan Garden, the ninth when His family joined Him and the twelfth, when He departed.

During the First Day of Ridvan, Baha'i communities around the world elect the nine members of the Spiritual Assembly, the local governing body. ASK YOUR ORTHODONTIST

BY DR. ALAN J. BLAS

Question: Dr. Blas, I've heard about a removable appliance which children can wear in their mouth only part of the day which straightens teeth without the need for metal braces, how does this work?
Answer: There are several different types of removable appliances which can straighten teeth. The type you probably are referring to is made of a clear flexible type of material which fits on the upper and lower teeth. There are spaces in this removable appliance into which the child's teeth are correctly guided as they grow into the mouth. The device is worn 1-4 hours during the day and while the patient sleeps. It may have to be worn from just a few months to over a year, depending on the problem being treated. It is used primarily in children in the 8-12 age group. In certain patients it may eliminate the need for full braces.

Question: Dr. Blas, what would I look for to determine if teeth require orthodontic correction?
Answer: Look and see if the teeth are crowded, rotated, or have gaps between them. Check to see if the upper front teeth completely cover the lower front teeth when the back teeth are closed. Also check to see if the upper teeth protrude severely. Any of these conditions may require orthodontic correction.

Against handguns in the home

Dear Editor,

I am a 17-year-old senior at Maine East High School in Park Ridge. I am also a resident of Morton Grove. I am faced with the fact that my community has accepted a hand-gun ordinance.

I am not against anyone owning a handgun or a rifle, but I feel everything has its proper place and guns do not belong in the home.

If a person gets his pleasure in hunting, belonging to a rifle club or participating in competition, fine. Let him leave his gun at the

club. A gun in the home in anticipation of trouble, can only cause trouble.

Too often these are easily accessible to members of the family that know nothing of its proper use.

If an intruder enters your home the probability of getting to your gun on time are very slim. The probability of a child finding the gun and accidentally shooting himself are very strong.

Sincerely,
Todd A. Becker

Egan clarifies position on Sheriff's office investigation

Dear Editor:

The March 31st edition "From the Left Hand" column accused myself and fellow democrats of playing politics with State Senator Bob Kustra's resolution which called for investigation of the Cook County Sheriff's office's employment of part-time deputies. I think the whole story should be told.

Since you interviewed me by phone before writing your column I was rather surprised that none of my comments appeared in the body of the article.

First of all, Mr. Kustra's resolution was misplaced and not properly developed. The function of the Legislative Investigating Commission as established in 1971 is to provide a continuing investigative capability to the General Assembly... on issues of major concern to the legislature and the people of Illinois. With

the type of evidence Mr. Kustra provided, newspaper clippings of alleged wrong doing on the part of holiday or part-time sheriffs, his rightful contact should have been with the State's Attorney's office whose job it is to prosecute offenders. Nor did Mr. Kustra obtain any written charges from local police.

The Legislative Investigating Commission's responsibility is to investigate "state-wide" issues of concern such as: landfills of hazardous waste, child abuse (as a result of studies conducted, a package of seven bills is now pending), and walk-a-ways from mental health centers (the committee will check every state institution to find the cause and prevention of such a problem).

Mr. Kustra's resolution did not propose investigation of all the 102 Sheriff's offices in the State of

Illinois-only one. Nor did he seem to feel strongly enough about his charges to put them into a "bill" for consideration by the General Assembly as a bona fide piece of legislation.

Perhaps Bob Kustra, whom I consider a friend and colleague, sincerely did not intend the matter to be political but when asked if he would include the Republican State Department of Law Enforcement because of their involvement, he refused, thus opening up the political question.

My record as a veteran in the Illinois Senate on local matters is replete with satisfactory accomplishments of which I am proud and I wish to continue with more. Please don't fry me without justification.

Sincerely,
Robert J. Egan

An Open Letter to the Maine Township District 207 School Board Members

QUESTION: Are the present Maine Township boundaries identical with the boundaries set when Maine East High School was built?

If the answer to that question is yes, take yourselves back in spirit to that time. Picture the township as it was at that time—prairies and farms and the beginnings of growing communities. Pretend you are on the committee charged with the responsibility of picking a site for a high school to service the township. Then ask yourselves this question: WHY was a high school built at Dempster and Potter?

ANSWER: Logistics, plain and simple logistics. The planners essentially chose a somewhat centralized location for the high

school to service the township.

Now, here you all are, more than a half century later, pondering a decision for the future. As you probably know, the right side of the brain deals with emotions and feelings. Future planning for High School District #207 requires more left brain thinking—the logical and rational side. Forget your Ohio study because a 2nd study is needed for comparison just as a 2nd opinion is advised when body surgery is recommended. Forget your emotions and think with the left side of the brain, think logically.

There are many reasons to keep Maine East High School open, but the 2 basic ones are:

- 1. Central location.

2. Architectural and historical significance of the original section of the building complex.

The decisions of the past should influence the present decision. After more than 50 years of student expansion, we are now in a period of student contraction. Plan on the future possibility of the need for only one(1) high school in the township. It simply makes good sense to retain the history of the area in a building which could possibly once again service all the students in the township.

The logical and rational decision is to keep Maine East High School open for the future students of the township.

Name withheld by request

An open letter to District 207 Board Members

I was one of many speakers at the April 11, school closing hearing. I would like to add a few more comments not stated on that evening.

When Maine North was closed in June, 1981 it cost the taxpayers \$350,000 to move equipment to be stored at Maine East. The other equipment and unwanted supplies less than 10 years old were sold at auction. To close Maine East in 1984 and re-open Maine North will cost the taxpayers \$650,000. Maine North does not have double sets of doors. When the outer and only doors are opened during the winter days, sub zero winds rush into the hallways. Maine North was and is of inferior construction and is inaccessible at the boundary of Maine and Northfield townships.

To duplicate the Maine East Center Court for Educable Handicapped at Maine West would cost the taxpayers \$4,700,000. In October 1982 the Maine Township government purchased the Good Shepherd Church on Ballard road for \$375,000. The ceiling and roof were not insulated. Now, in order to renovate this church with a new roof, floor and parking lot, it will cost the taxpayers from \$383,200 to \$618,913 (the lowest and highest of seven bids.)

Where is the fiscal responsibility of the Maine Township officials to the taxpayers? An elementary school building in the center of the township could have been leased (with possible future re-opening) and been of financial succor to Elementary School

Districts 62, or 63 or 64.

One of the number 207 Board members said that in the last year of operation of Maine North (1980-1981), it cost \$100,000 a year less to operate North as opposed to Maine East. Maine North opened in 1970 with an enrollment of 1,500 and reached a peak of 1,700 in 1975 and had only 1,200 students when it closed in 1981. Maine East had an enrollment of more than twice Maine North with an enrollment of just under 3,000. It also had a large evening school under MONNACEP (Maine, Oaktown, Niles, Northfield Adult Continuing Education Program.) You can not compare apples with oranges.

It is my belief that Maine East, Maine South and Maine West be kept open until the enrollment falls under 4,800 boys and girls.

Under the present plan of closing Maine East in 1984 and Maine North for a second time in 1990, it would leave the taxpayers with only one high school in northeast portion of Maine Township, namely a Catholic boys school Notre Dame of Niles. Presently the Notre Dame Swim Team shares pool time and workouts with the Maine East Demons. In 1990 the Notre Dame swimmers (their parents are taxpayers) would have to travel to Maine West or Maine South.

Respectfully submitted,
Thomas M. Tajiri

Niles Art Guild program on restoration

The Niles Art Guild will present Ross Utter in a program on preservation and restoration techniques at 8 p.m. Wednesday, May 4, at the Niles Recreation Center, 7877 Milwaukee ave. Utter is a member of the Des Plaines Art Guild, Park Ridge Art League and a life member of the Chicago Art Institute. He is active in various work groups and serves on the faculty of the MONNACEP program. Through extensive research on his own, he has become know-

ledgeable about art history and has experimented with many different media. Mr. Utter's craftsmanship in art restoration came about quite by accident. While working as a chief engineer and experimental research engineer for a Chicago radio station, he was asked to restore an old picture of Stonewall Jackson. If you have an old oil painting you wish to restore, bring it in and Mr. Utter may be able to advise you how to go about it.

ISU applications deadline

State Senator Bob Kustra (R-Glenview) announced that Monday, May 2 will be the deadline for filing applications for freshman admission at Illinois State University. On that date, a waiting list for applications received after the deadline will be established. Additional admission into the freshman class will not be granted until a more current assessment of available space is made.

Senator Kustra has been asked by ISU to urge interested students to apply immediately. "Because of enrollment limitations and budgetary restraints," said Kustra, "it is necessary to set a date for closing of the regular application process. I sincerely hope that students from this district who want to apply to this fine State University will be sure to submit their applications in time." Oakton Baseball Team wins five in a row

Between the rain and the cold and the darkness of night, the Oakton Community College baseball team's pitching and hitting delivered them from a dismal 0-7 start. The Raiders put together a seven game winning streak, and 5-0 in conference, raising their record to 7-7, since returning from a spring trip south.

Beginning with an 11-4 and 3-1 doubleheader sweep of Morton College on Tuesday, April 12, OCC went on to take Elgin Community College 13-7 on Saturday, April 16, dominated Sauk Valley College 8-0 and 12-1 on Sunday, April 17, and swept Waubesa Community College 5-6, and 8-1 on Tuesday, April 19.

"We've been playing pretty good baseball lately," said Raiders coach Rich Symonds. "We have a .327 team batting average and now that our starting pitching has come around, we are winning games. The biggest problem has been finding enough work for our pitchers in this bad weather."

Oakton has lost 15 games to the weather, of which only three Conference games will be made up. But, despite lengthy layoffs between starts, Raider pitching has come through. Four of the five different winning starters pitched complete games to go along with three saves from the bullpen staff.

Mike Karnowski allowed one run on only one hit in OCC's 9-6 win. Oakton starter "Jim" Ceh didn't quite have it, but we still had the lead going into the fifth inning," said Symonds.

Bill Meek (pictured) three-hit shutout of Sauk Valley College on

Joe Cavalier, first baseman Jim Kaepflinger and third baseman Dennis White each contributed two RBIs each in the romp.

The day before, Jim Prims and Marty Oddo combined for the win over Elgin in a 13-7 slugfest. But the real story was the Raider's bats. Catcher Borko Kainovic opened things up with a two-run homer to cap a three run first inning, then designated hitter Vince Dentamaro hit consecutive home runs in the third and fourth inning to put the game out of reach.

The second game of the double against Elgin was postponed to a later date, because like our spring, it was literally snowed-out.

Oakton began this five game winning streak with an impressive sweep over Morton. Jim Ceh went the distance in an 11-4 opening win, while Mike Karnowski and Don Voigt combined for a 3-1 victory in a darkness shortened five-inning game.

Borko Kainovic went 4-1 in the first game, hitting two triples and knocking in five runs. First baseman Pete Schwegel and right fielder Max Semler each added two RBIs.

Close through the first four innings of play, OCC exploded for five runs in the fifth. The key blow: Kainovic's two-run single to open up the flood gates.

In Sunday's nightcap, Tom Banahan breezed to a 12-1 victory in a darkness shortened five-inning game. Giving up only three hits, Banahan had the game locked up before he even picked up the ball, when Oakton blew the game open with nine runs on six singles and five walks in the first. Irgang, center fielder

Sunday was the best of the string. Backed up by shortstop Bob Irgang two-RBI single in the three-run second inning. It gave Meek the working margin he needed in the 6-0 win.

District 71 students review bicycle safety rules

Warm weather brings out bicycle riders, and with this in mind, Mr. Bill Hogan of the Cook County Highway Division came to Niles South School on April 19. His main objective was to review bicycle safety. The students in grades 3, 4 and 5 listened attentively as Mr. Hogan talked about rules for bicycle riders. He stressed the importance of obeying all traffic signs and looking both ways before riding into traffic.

A short movie was shown which made the point that since a bicycle weighs 30 pounds and a car weighs about 3,000 pounds, the bicycle rider will be hurt badly in a collision.

The movie and discussion were good reminders to the students that bicycling is a fun activity, that will be much safer if all rules are followed. Fifth-grader Diane Wolak put it best by saying, "It's better to be safe than sorry."

Theatre 219 celebrates 10th Anniversary

The magic of "Camelot" appropriately completes a decade of Theatre 219 musicals begun nine summers ago with magic - the transformation of the Cockney flower girl, Eliza Doolittle, into Professor Henry Higgins' "My Fair Lady." Subsequent shows included "George M," "Applause," "Oliver," "Hello Dolly," "The Music Man," "Fiddler of the Roof," "South Pacific," and "Brigadoon."

The reunion of past staff and cast members for the coming summer is expected to contribute its own enchantment to the anniversary celebration. "Many people have worked during the past nine years to make the theatre as successful as it is today. We hope that this summer will bring them together once again," says Theatre 219 director, Robert Johnson.

The gathering of past participants has already begun with the selection of the staff for "Camelot." Rita Stewart, who designed the costumes for the fir-

st four Theatre 219 productions, and Josie Berns, who choreographed the first three, are returning to the staff for the summer. They join Johnson and publicity director Kathy Burkell, who have both served the theatre since its beginning, the business manager Susan Moon and assistant to the director, Enid Silverman, who missed only the first two productions. Edward Moon will be the technical director for the third time, and Cynthia Philbin will take her third turn as director of group sales. Clem and Barbara Fleming, well-known music instructors in the community, will take responsibility for the instrumental and choral music of "Camelot." It is their first time with the theatre.

Johnson hopes to stage a reunion of former cast members as well this summer, beginning with auditions scheduled for May 31, June 1 and 2, at 7 p.m. at Niles West High School. Details will be available in a few weeks, he says.

Niles West Thespians in "Plaza Suite"

The happenings inside the "Plaza Suite" will be re-created by Niles West High School students May 5-7 at the school. The Neil Simon comedy consists of three short episodes unified by the fact that they occur in the same location.

In the Niles West version, each vignette is cast separately to get as many students involved as possible, according to director James Batts. The Visitor from Mamaroneck segment describes what happens when a middle aged man, unable to deal with growing older, checks into the suite to have an affair. Cast in the segment are seniors Hope Ross, Steven Korol, and Keven Swerdlow, and juniors Neil Tobin and Sue Peiser.

The second segment, Visitor from Hollywood, stages a reunion between a rising Hollywood star and an old flame from high school days. Seniors Mitch Gitelman and Cindy Schwartz, along with Tobin will portray the characters of this vignette.

"Plaza Suite" will begin at 8:15 each of the three evenings in the school theatre, at Edens Expressway, Skokie. Admission is \$3 for adults, \$2 for students and senior citizens. Tickets can be purchased at the door.

Postcards with students' names were attached, and prizes will be given for the balloons that travel the farthest.

After the launch, Mr. Volkman spoke to the students regarding the many aspects of weather, and the science of predicting and recording it.

Mr. Volkman gave a slide presentation about Clouds and Weather to the Kdg-5th grade students at the South School. (Right photo) Using clever anecdotes and weather-drenched puns, he kept the rapt attention of the children to take home and plant.

The Second Annual Nelson School Balloon Lift-off was held on Tuesday, April 19th at 11 a.m. Over 700 helium balloons were individually launched from the school yard by excited students, faculty and parents. day-of-the-month Maine high school meetings. The importance of keeping open Maine East cannot be overemphasized.

The closing of elementary schools, particularly in the Maine Township areas of Niles and Morton Grove, could seriously hamper the well-being of these communities in the coming years. Without schools in the areas, residents moving to the areas could quite likely shun our towns. Why move here to an area without schools when they can move to a next door community which has local schools?

The closing of Maine North high school left our communities with only one Maine high school near our areas. If Maine East was to close, it would create one more negative reason for potential residents to move elsewhere. If the communities do not have local elementary schools nor local high schools, certainly many future residents would prefer other communities.

The scorecard of the school board members presently indicates 3 board members favor keeping Maine East open and one board member favors closing East and re-opening Maine North. Board president Tom Rueckert and board member John Flavin initially supported a consultant's recommendation to close Maine East and re-open Maine North. But Rueckert now contends he is worried such a move would be only temporary and eventually Maine North would be closed. Flavin was con-

cerned bus transportation to Maine North would be inadequate and believed the special education program in center Courte at Maine East could be hurt by moving it to Maine West.

The consultant's report recommended the district operate 2 schools in 1987-88. The consultant believed it would save the district \$1 million annually operating two schools rather than three.

Rueckert now believes the district should sell the administration center before next fall, move to Maine South and begin leasing extra space in the schools.

Flavin said he would move at the upcoming meeting to sell Maine North and Rueckert said he would support Flavin's effort.

Board members Ann Evans and William Schaeffe, former supporters of the consultant's recommendation to close Maine East and re-open Maine North, said they are no longer sure. Evans noted if the district operated only 2 schools, Maine East and Maine West should remain open. But if 3 schools remain open, the board would have to weigh Maine East's proximity to East Maine 63 students versus the likelihood the school could more easily be sold and for more money.

Schaeffe agrees if 2 schools remain open, Maine East and Maine West should be the two

schools because of their central locations. However, he would prefer 1,500 students in three schools. If enrollment dropped below 4,500 then it would no longer be practical to keep open 3 schools. Presently, enrollment is about 7,800.

Board member William Tornrose, who heads the building and grounds committee, will ask fellow members Flavin and Schaeffe if they want to change their recommendations to close East and open North.

Two board members living in the East Maine area, Howard Blassman and Arlynn Warmack, have equally critical roles in this determination. Blassman favors keeping open Maine East and believes East and West should be the two schools remaining open. He thought more students could be served and offered more educational and extra-curricular programs. Warmack has said she is still undecided about school closings and when a decision should be reached.

One of the consultants, William De Jong, said Maine East could be worth up to \$13 million if the campus was sold, the school razed and the land redeveloped. Maine West would be worth about \$7 million and North about \$8.5 million under the same conditions. If South was sold and retained for another purpose, it could be worth up to \$12 million.

Board members approved, in essence, a resolution forwarded by the Illinois Association of School Boards to support the State in a 10 per cent reduction in school allocations because of the ailing economy.

Dr. Gibbs ...

Cont'd from Skokie-L'wood P.1 requested by calling the District public relations office at 673-8222, ext. 1184. Reservations are essential, and must be returned by May 7.

"We hope that many of Dr. Gibbs' friends in the community will join us on May 24, to pay tribute to a man who has spent 35 years in this community educating the young," said Archibald.

Clean up Week ...

Residents will also be urged to pay close attention to Village ordinances regarding trash disposal and storage, rodent control, "Doggy etiquette" littering, and weed control during the clean-up effort. Village law and health enforcement officers will be keeping an especially close watch for violators during clean-up week.

school, board members discussed problems of declining enrollment and excess space in the district. At that time, the committee will consider recommendations made by the Council of Educational Facility Planners (CEFP) and community reaction to those recommendations.

Campanella and Susie Kimura are coordinating the meal. Post Commander Roland Keppen says liquid refreshments will also be available. Auxiliary president Joyce Sent reports the Auxiliary ladies will bake goodies for dessert and also supply home made salads for the meal.

The Hines Hospital Bloodmobile will visit various veteran's and other groups to receive donations in the future. This will insure the patients having ready access to this most vital substance.

It will also supply the blood without any handling or other financial cost to the former servicemen.

The Morton Grove American Legion is most happy to cooperate; and were the leaders in the financial drive because they work for and with the veterans to such a large degree and know the importance of blood. The Auxiliary Unit, too, visit the hospitals on a routine basis supplying comfort and necessary items, articles for the veterans not only for holidays but regular occasions, holding recreational activities and furnishing extra refreshments, door prizes and game prizes. The Hines VA in Hines, Ill. is one of the local Chicago-land veterans administration hospitals visited regularly.

of cancer among residents of the three blocks. Dechert said this included numerous types of cancer affecting residents of all ages.

Dechert said there have been six diagnosed cases of cancer among five homes on one block.

Trustees approved requests by the village to seek funds from Cook County for numerous community improvement programs.

The village accepted the low bid for the roof repair of the public works building. The low bidder was S and F Roof Maintenance, Inc. of Buffalo Grove at \$74,175.

The village board also approved a request by the Morton Grove American Legion for a

the program which would total about \$870,000. In other business trustees approved a resolution to spend for the improvement of Davis Street from Courtland Avenue to Washington Street.

Approved a 3.3% increase for Glen Golf Refuse Company. Otow reported the increase was based on raising the cost from \$5.78 to \$5.94 per Niles residential landfill cost increased from \$3.90 to \$4.35 and wages were also increased by the company. He said the village received a 25¢ per gallon of gas credit due to decreasing costs. Otow said Glen Arthur Michaliche the village would like to see the list of improvements for the contract between Glen Golf and Niles.

Designated Trustee Carol Panek to serve as Niles liaison at the Northwest Municipal Conference meetings. Panek reported there is a 3.8% increase in dues to \$300 annually. She noted the group cited solid waste as a major problem in the immediate future for conference members and is working for a legal entity to set-up a solid waste district.

Kustru...

Continued from Page 3 same time we get "crocodile tears" about how bad things are."

Kustru also introduced legislation to forbid the Illinois Toll Highway Authority from financing the construction of new tollways with tolls paid to use existing tollways. According to Kustru, this bill will prevent both inequities and the payment of tolls "in perpetuity." Citing the extension of the East-West Tollway from Aurora to Rock Falls as "one of the greatest boondoggles in Illinois history," Kustru stated that he wanted "to eliminate this type of abuse."

By saddling the entire system with the cost of the extension, users of the Tri-State and Northwest Tollways have to pay the expense incurred by a tollway almost no one uses. The adult constituents in my district will pay tolls the rest of their lives because of that extension. Prior to its construction the entire system was due to be paid off by 1984. Instead of a celebration, we get a toll hike!

Now we estimate that tolls will retire the existing bonds by the year 2020. In the meantime maintenance costs soar, but because of the system charges tolls, federal funds cannot be used to maintain the system. And so, tolls go up."

"My constituents subsidize mass transit in Chicago and freeways in Downstate Illinois while having to pay special tolls to travel to and from work. By requiring future additions to the tollway system to finance themselves, we can at least assure that our grandchildren's grandchildren may someday drive from Oak Brook to Northbrook - toll free!" Kustru concluded.

Area residents are being called upon to assist a Morton Grove resident currently battling leukemia.

Ross Verdin, 19, 5809 Keeney St., is being treated at the University of Illinois Hospital where he is being charged \$40 per pint for processing the blood he uses. Blood donors who go to the University of Illinois Hospital to give blood can help bring the processing price down to \$12 per pint by donating blood in Verdin's name.

Residents interested in participating in this program are urged to contact Roger Nolte after 6 p.m. at 966-8546.
