OCC Starving Artists Fair this weekend

A section of the Oakton Community College Starving Artists Fair will be open only to children 14 and under, with original art priced at \$3 or less, according to Nancy Adatto of Wilmette, coor-

dinator of the Children's Art Fair.

The 10th Annual Starving Artists Arts and Crafts Fair will be held on Saturday and Sunday, May 28 and 29, from 11 a.m. to 5

p.m. at OCC/Skokie, 7701 N. Lincoln Ave.

Ms. Adatto pointed out that children who attend the fair will have an opportunity to discover on their own what they really

like.

"Young people don't usually have much of an opportunity to explore their aesthetic tastes. By making their own decisions we hope they can develop their own individualized sense of appreciation. For this reason parents are not allowed to come in."

Village Board ok's Riggio's banquet hall

by Bob Besser

The Niles Village Board agreed Tuesday night to grant Riggio's Restaurant, 7530 Oakton St., permission to use its basement as a banquet hall despite protests from area residents concerned about increased traffic and noise.

Riggio's owner, Tony Riggio, had appeared in front of the Niles Village Board in February, 1982 with the same request. At that time Riggio had requested a significant increase in the number of patrons who would be able to use the restaurant.

The Village board denied the request when a coalition of neighbors and officials of U-Dot It, 8012 Milwaukee Ave., protested the expansion.

Riggio's new request included a pledge not to increase the number.

The drive will be held at St. John Brebeuf School, 8301 N. Five people were slightly injured following a four car accident on Oakton St. east of Greenwood Ave. early Tuesday morning. According to police, a 32-year-old Evanston man was traveling west on Oakton St. when he lost control of the van he was driving. After swerving into on-coming traffic he struck two autos driven by a Streamwood and Roselle resident. An additional car, driven by a Lombard resident, also was struck. Park Ridge paramedics had to cut a number of the occupants out of their cars. While all four drivers and one passenger were taken to Lutheran General Hospital, police reported no one was seriously injured. The Evanston man was charged with driving too fast for conditions and improper lane usage and will appear in court in June.

Board proposal places sheriff's deputies on merit system

The Advisory Committee on Employment Practices in the office of Cook County Sheriff Richard J. Elrod voted unanimously to support a proposal that all fulltime sheriff's deputies be placed under the Merit System, according to Daniel W. Weil, Chairman of the Committee.

The first meeting of the Advisory Committee took place on May 17, 1983. Members in attendance were Attorney Daniel W. Weil, who was elected chairman; James O'Connor, chairman and president, Commonwealth Edison; Earl L. Neal, chairman of the board, First Federal Savings and Loan; and Edward E. Hegarty, Special Agent in Charge, Chicago Division, Federal Bureau of Investigation. Patrick F. Healy,

executive director, Chicago Crime Commission, was represented by Jeanette Callaway, Associate Director, who informed Sheriff Elrod that Mr. Healy would be in favor of the resolution.

The passage of the resolution, which was supported by Sheriff Elrod, followed a presentation on present hiring practices in the Sheriff's Office and a review of recent publicity resulting from incidents involving fulltime deputy sheriffs. Sheriff Elrod emphasized that the incidents occurred while the deputies were off duty but stated the reason he appointed the committee was to improve professionalism in the Sheriff's Office.

At the meeting, each member was assigned an area of review as

Questionnaire to be mailed to 7,800 village homes

Cancer survey to begin in Morton Grove

by Anthony DeBartolo

Morton Grove Village residents should be receiving their cancer occurrence survey by this week's end, according to assistant Village Manager Jim Sloan.

All 7,800 village households will receive the survey in the supplied self-addressed stamped envelope, and they should do so promptly.

Although many village residents suspect some link between the reported cluster of cancer cases in east Morton Grove, and emissions from a nearby industrial park, epidemiologists are quick to point out a cluster of cancer cases alone does not necessarily point to some common environmental cause. Yet, if the results of this survey show clusters of the same types of cancer among residents of similar age groups, living within the same general area, some environmental cause will undoubtedly become suspect. But, as a spokesman for the American Cancer Society suggested, a more likely finding of this survey will merely reflect the fact that cancer is a very common disease, responsible for the deaths of 1 out of 5 U.S. residents each year.

The short questionnaire will ask four general questions: name and address, if name has been experienced in the household, and if so, the type and date of the diagnosis, and the age and sex of the afflicted. Only those households having experienced an incidence of cancer should

Homeowners exemption deadline

Cook County Assessor Thomas C. Hynes is reminding homeowners who have not applied this year for their Homeowner's Exemption to please do so by the May 31 deadline.

The Homeowner's Exemption can save qualifying homeowners up to \$300 in property taxes.

"I urge any homeowner who has not yet returned their application for this year to please call our office as soon as possible," said Hynes. "It

means money saved on a homeowner's property tax bill."

The residential properties that qualify for the exemption include single-family homes, condominiums, cooperatives and small apartment buildings up to six units. The current, or previous, homeowner must have lived on the property as of January 1, 1982.

For homeowners to benefit they must reapply for their exemption each year. The savings comes as a deduction from the second-installment property tax bills, due out this summer from the County Treasurer's Office.

Boating is one of the safest recreational activities. Injuries and fatalities are low and dropping lower. Safety on the water calls for care and good seamanship.

The most frequent cause of boating accidents is collision with another boat or with a fixed or floating object.

Rule number one, even if you CAN swim, is to stay with the boat longer as long as it is afloat. Every boat should be equipped with a Coast Guard approved life preserver for each person aboard. Fire prevention is vital. Fuel systems should be leakproof and vapor tight.

Necessary safety equipment includes fire extinguishers and a manually operated pump. Distress signals and radio are a good precaution.

Insurance, too, is a must for the wise boat owner, to cover damage to the boat and liability for other people and their property. Talk to us about it:

FOOT ORTHOSES

An orthosis is a straightening or balancing device, appliance or mold, to align the foot in its most efficient functioning position to decrease abnormal weight distribution and promote normal postural health.

Perfectly constructed feet are exceptionally rare. If buildings had foundations as out-of-alignment as the human skeletal system, on the average, they would topple over. Actually, our feet can be likened to tires on a car. If they are considerably out of alignment, then wear and tear will occur.

After a complete biomechanical and foot examination of the feet, and consideration of the patient's weight, occupation and general health, the foot specialist may prescribe an orthotic device best suited for his individual needs.

some outrageous rate increases. All cable subscribers should also be up arms since it's going to cost us a lot of additional money needlessly, in the years to come for a poorly conceived franchise ordinance adopted, in late, by our illustrious Morton Grove village board. Oh, but we had to be the first village in the area to have cable TV, didn't we???

Can you imagine Board members being so dumb as to enter into a 15 year closed end franchise deal, with no safeguards against indiscriminate fee increases?? And to top if off they even tied the rates to the Consumer Price Index!! What in God's name does the CPI have to do with a lucrative (for Continental) long term contract like this one?? I'll never be able to figure that one out.

You certainly don't see other villages getting hoodwinked into such a serious blunder as Morton

Former Nilesite compliments village boards & departments

Dear Editor:
I couldn't resist writing some nice things about that great village I had to leave.

I still subscribe to the local papers of Niles and always will, and so I am kept well informed with most everything going on. I only left because of the need for the warmer climate in Florida.

Now that your elections are over in the village for the park district and Village Board of Niles, I see that the people have made their usual best choices, in spite of some uncomplimentary

remarks about the ones elected before the voting took place.

Elaine Heinen is a great lady who is and always will be greatly concerned about the village, the parks and all the people.

Walter Beusse is one of the same. He has done much for the village and for its people.

Now the newly elected board of trustees and all the members therein with that great lady, Carol Panek, all of whom I have been associated with are great, and will always be concerned about operating the village as one of the best in the country.

You just lost one of the best village managers in Kenneth Scheel and surely, I can give good mention to your fine mayor Nicholas Blase with whom I also had many good years of association and has proven his great love and concern for the village and all its people.

Niles Village Departments, fire, police and Public Works are all in good hands and surely could not be topped in their skill and know-how.

Too bad all these nice things you have had to be placed in such a small area. So many more people could enjoy them!

Congratulations to all you good people in the Village of Niles and

may God keep his blessings on you.

In Memoriam..

As the high powered automobiles scream around the track at Indy . . . or as the Church picnic gets under way in the grove . . . Sometime during this Memorial Day, let each of us pause and reflect

on how lucky we all are to have so much . . . and how grateful we are to those no longer here.

Memorial Day is, after all, a day we set aside to honor those who have made the ultimate sacrifice . . . given their lives that we might live ours in freedom.

Memorial Day

On Memorial day, we want to take a moment to remember all the brave men and women who have given their youth, risked personal safety and comfort to preserve what we, Americans, know as our way of life.

On this day, May 30th, 1983, we will be honoring their memory with lasting tribute, saluting them for their struggle in maintaining our peace and liberty. And let us commemorate the departed most fittingly by continuing in the pursuit of that peace.

**Free Polka Lessons
by Happy Hearts Fan Club**

by Ed Hanson

Recently, as a guest of Mr. & Mrs. Ray Knick I attended the "We Love To Polka" spring Dance which was held at Belmont Turner Hall, 6625 W. Belmont ave., Chicago. This spring dance was sponsored by Joe Walega & the Happy Hearts Orchestra, honoring Emily Mucha Pinter

and Leon Kozicki, The Administrators.

The HAPPY HEARTS FAN CLUB, which has a membership of more than a thousand, a great many of whom are concentrated in the Niles and Main Township area, meets every third Wednesday of each month, at some popular eatery and spa, like Jan's MILWAUKEE AVENUE INN, at Milwaukee Ave. and Inlay.

After their meeting is concluded, anyone from ages 3 to 83 is given FREE POLKA DANCING lessons without any

obligation whatsoever.

At their Spring dance, which was the first of these affairs I've ever attended, they had a very large turnout. I, frankly, enjoyed myself, and was particularly impressed with fine caliber of people that make up this club. The music which was provided by Joe Walega & the Happy Hearts Orchestra, put a "beat in your feet" and even the young children were so neat, nicely dressed, and orderly and it restored my faltering faith in humanity.

Everyone seemed to be having a wonderful time and enjoying themselves immensely.

Joe Walega, (pictured) appears regularly on weekends at Jan's Milwaukee Ave. Inn, 6474 N. Milwaukee Ave., at 10 p.m., following Marion Joseph's delightful dinner music.

VACATIONS: What you need after you take one.

Vegas vacation: get tanned and faded at same time.

Scottish vacation: stay home and let your mind wander.

Vacations for the middle classes are two weeks of playing, 50 weeks of paying.

Senior citizen vacation: master skate boards in two weeks. It will provide cheap transportation for you the other 50 weeks. (Your local social security office will supply free skate boards.)

Gambler's Vacation: Spend your two weeks vacation pay in one day at beautiful Arlington Park.

Cheapskate's Vacation: get a flock of travel folders from a Travel Agency. Could this be a trip-tease?

August is the top month for vacations. And, for marriages (not June). Nowadays, they're both about the same duration.

Educational Vacation: Knowing where to stay away from next year.

Saver's Vacation: "Save your money for the rainy days," that come during your vacation.

Motorist's Vacation: Don't get caught on the Dan Ryan expressway during rush hour. You might spend your two weeks vacation in the White Sox's world's largest parking lot.

Con Artists Vacation: Bank your vacation pay at 10% interest. Tell your boss you're ill, and get your sick pay.

Four Flusher's Vacation: Spend your vacation at out of town expensive posh joints. Throw the dog around while you go broke impressing strangers you can't.

Nature Lovers Vacation: Mosquito bites on top of poison ivy over sunburn at premium prices.

BASEBALL: The Great American Game. President Reagan loves it. All red-blooded Americans (except Indians) love it. It's as traditional to this country as apple pie, grits, graft, and the great American dream.

Unfortunately, there's no major league baseball being played in Chicago land. There's a facsimile on the north and southside. The northside Cubs, ("Dubs" would be more apropos), should sell their franchise and move the team to Poland for 10 pounds of Polish sausage and a half dozen Kolacky. Pressure from our State Department, plus a loan in either grain or money to Russia, might induce the Soviets to build a baseball stadium in Warsaw and get the Poles, particularly the young un's, interested in baseball. This, in turn, would help the Polish economy, plus reduce hostilities, some of which energy could be vented upon the diamond. American baseball has produced many great Polish stars, even super stars who are in baseball's Hall of Fame.

Now the southside White Sox showed great promise last year of becoming major leaders. But, this year they are horrendous. The Sox must be suffering what I would diagnose as a Symptomatic sympathy syndrome (Doctors are familiar with this term) whereby "misery loves company". If it continues, perhaps, the White Sox franchise and team should be transferred to the

"Take Me Out To The Ballgame" someday may be sung in fifty different languages.

If the Sox do play iceball at the South Pole, in skates or snowshoes there might be two interesting developments. One, in a year or so, the White Sox will probably be able to pick up Ron Cey or waivers, from the Cubs. At the south pole, "The Penguin" will finally find a home. And,

For the time you read these words of wit and wisdom, the flat racing season at spacious, gracious ARLINGTON PARK will be in full stride.

For almost half a century, this is the place where I get my spring and summer cleaning done.

Ah, in my humble opinion, the greatest athlete

of all is the thoroughbred race horse. The best ones have a stride of about 25 feet and can ex-

celerate from zero to 40 miles per hour in four seconds. And, this 1,000 pound plus beast is sup-

But they are very STRONG! They can take

President Sheehan of Peerless looks for defeat of interest withholding regulations

Timothy P. Sheehan, President of Peerless Federal Savings, stated that "All savers do business with banks and savings and loans and who receive dividends, can feel fairly assured that the U.S. Treasury Department's scheme for withholding from savings will be repealed."

Sheehan further stated "With the passage by the Senate, by a vote of 91 to 5, to postpone withholding on interest and dividends for four years, and with the predicted action by the House of Representatives in completely repealing the section on withholding interest and dividends, it will make for a Conference Report which probably will completely do away with any withholding on interest and dividends."

"The U.S. Treasury Department, in the early part of this year, told the Congress that the withholding on interest and dividends would raise \$26 billion over the next five years. Congressional critics pointed out the fact that this was a gross overestimate and April 4, the Treasury's Office of Tax Analysis admitted that withholding over the next five years would only result in bringing in collections of \$12.6 billion. Several weeks ago Senator Robert Dole (R-Kansas), author of the withholding idea admitted during Senate debate that the compromise proposal would raise only \$8.2 billion over five years without forcing with-

holding on savers and investors."

"Even using the Treasury Department's own inflated figures," Sheehan noted "the net effect of repealing or delaying the withholding would amount to just over \$4 billion during the next five years. On the other hand, the Office of Management of the Budget is estimating that the net effect of the withholding of the Senate Bill would only be \$1.9 billion over five years. There is no question of the fact that the cost to businesses, taxpayers and the federal government in putting this withholding scheme into effect would vastly exceed the cost of the possible income derived."

"To the best of my knowledge," said Peerless' President Sheehan "the greatest majority of savings depositors in areas such as the Northwest Side of Chicago paid their income taxes and do not try to defraud the government of what is justly due income taxes and do not try to defraud the government of what is justly due income taxes. For many years, all of the savings and loans and banks have filed with the Internal Revenue Service, showing how much interest was paid to savings depositors. It seems that if the government can't organize itself properly to take advantage of all the information supplied to it, it certainly should not be making more onerous rules and regula-

tions for the average American family, who saves money in order to get interest in order to supplement their income."

"The House of Representatives has agreed to take up a vote next week on killing this issue, which should then go to the Conference Committee between the House of Representatives and the Senate and, at the present time, it seems most likely that this repeal legislation will be passed with substantial majorities."

Harriet B. Dalaskey has been named vice president of brokerage operations for The Bradford Exchange, it was announced today by Kevin McNeely, executive vice president for the Niles-based Ex-
