village manager Kenneth Scheel. Niles resident Len Borkowski said he and some 30 other Niles residents spent the past few weeks circulating petitions seeking to have the ad-

From the Left Hand

by Bud Besser

Sometimes these three day weekends seem forever. It's hard to get back in the catbird seat after escaping the rhythm of working everyday.

Tuesday afternoon we spoke briefly to Niles village president Nick Blase. He said the announcement of the new village manager will be forthcoming in the immediate future. While the new VM has been chosen, Blase intimates the final "t's" and dotted "i's" have not been completed on the contract for the new man. If we understood Blase, the costs of moving from New England to Niles have not been agreed upon, which may be temporarily holding up any movement. Nevertheless, Nick said he expects the new man to be at his post during the month of October.

Blase just recently returned from the Chinese mainland. He said he found the trip fascinating but spoke less enthusiastically about the food there. He spent time in Pusan in South Korea and in Japan. Unlike many Chinese visitors he arrived on the mainland after crossing the China Sea by ship.

Report Social Security changes

People receiving Social Security checks must report any events which could affect payment of those benefits, according to Marilyn Robertson, manager of the Des Plaines Social Security Office.

Reports should be made promptly to the local Social Security office. Failure to report could mean that a needed check might not arrive on time, or it could result in an overpayment a person can ill afford to pay, Robertson said.

Things everyone needs to report are: Change of mailing address, even if the person's checks are deposited directly into

earnings of more than the annual limit - \$6,600 for people 65 or over and \$4,920 for people under 65; if the person goes outside the U.S. for 30 days or more, if the person works outside the U.S., receipt of Government pension. In addition disabled persons must report: Any improvement in condition, any work, and receipt of or change in the amount of any public payments for disability, such as worker's compensation. Things dependents or survivors must report: Marriage, divorce, or annulment, adoption of a child, and child nearing 18 is a full time secondary school student.

Foot screening clinic for seniors

A free foot screening clinic for senior citizens over the age of 50 will be offered from 10:30 a.m. to 2:30 p.m. Wednesdays during the months of October, November and December at Older Adult Services' Life Fulfillment Center, 9375 Church St., Des-Plaines. The free clinics are a cooperative service of the Older Adult Services Program of Parkside Human Services, and the podiatry section of the non-profit Community Health Information Council.

Drs. Lawrence M. Rubin and David Kibrit, Morton Grove Podiatrists, will conduct the free foot screenings for senior citizens to identify foot problems and to detect symptoms of other diseases. "The foot is often the mirror of the body's health," says Rubin. "Very often the first symptoms of heart disease, diabetes, arthritis and other serious illnesses will appear in the feet."

One of the main objectives of the foot screening clinic is to give seniors the information they need to maintain healthy feet, so they can continue to lead active, productive lives. Seniors who are found to have foot problems that may indicate the presence of some medical illness will be referred to their own physician for follow-up care.

For more information or to schedule an appointment at the free foot screening clinic, call older adult services at 696-7770.

Walter Bialka was awarded a red ribbon for second place and Hank Kula a yellow ribbon for third place in the one mile walk. The basketball free throw produced several winners for Niles, also, with Hank Kula capturing first place, Frank Piotrowski fourth place, and Bill Zilmer (the men's exercise instructor) receiving fourth place in their respective age categories.

The Niles Senior Center is very proud of the gentlemen who participated in the Olympics, as the men decided as a group to enter the Olympics.

HEALTH AND EXERCISE CLASS
The Niles Senior Center will offer two senior citizen men's health and exercise classes. Mr. William Zilmer, a registered physical therapist will be instructing both classes.

One men's exercise and fitness course has been offered through the senior center for several years. The original course began with a very small enrollment and was taught at the senior center. As the class size expanded, it became necessary to move the class to the Niles Park District Grennan Heights Fitness Center, 8255 Oketo. The relocation of the class to the fitness center increased the students' enthusiasm, reflected in additional students and the formation of a fitness group calling themselves the "Grennadians," complete with group tee shirts with "Grennadians" emblems.

The ten week advanced class will meet on Thursdays at 9:30 a.m. beginning September 29. The ten week newcomer class will meet at 9:30 a.m. beginning October 11. Both classes require advanced enrollment with the Niles Senior Center.

Mr. Zilmer, a firm believer in fitness enjoys his work with the gentlemen and frequently remains after the class to shoot a few friendly games of basketball with his students. He and his students are particularly happy with their relocation to Grennan Heights because there they have access to the gymnasium, exercise mats, complete exercise equipment, and a locker room with shower facilities. Tuition, which is \$5 for either of the two courses covers admission to the fitness center throughout the course during scheduled class times. Additionally, some of the class members choose to purchase membership to the fitness center through the park district, although that is not necessary to participate in the classes only. For information on the annual fitness membership pass, please contact the Niles Park District, 7877 N. Milwaukee, 967-6100 ext. 376.

Legion wins awards at convention

The Morton Grove American Legion Post No. 134 received three large awards at their annual state convention held recently this year in Champaign-Urbana. A large contingent of delegates were present.

A plaque was presented for a first place award for the press book entry. This beautiful award will be placed in the Legion Home. It was presented for the best coverage of newspaper coverage. The articles were written by, and the book compiled for the past year of the public relations stories printed in the local newspapers by past Auxiliary president Lorry Nehart. In her role also as newsletter editor for the Post, the Morton Grove Legion was given a third place award for this entry of the monthly three page bulletin.

In addition, a plaque was presented for the 9th place in donations to the Gifts to the Yanks Who Gave Program. Under the direction of past commander Don Root, also a former First Division, American Legion commander, funds were derived from several sources this past year. This monetary contribution by individual posters is used to present gifts to former servicemen at appropriate times such as Christmas, as the name indicates. Morton Grove's large financial donation placed them in the top 1 percent of the state!

Seven Post Rifle Squad members also marched in the end-of-the-convention parade in the host city in a sweltering 94 degrees, a route that was quite long, more than two miles.

According to NORTRAN Chairman and Niles' Trustee, James A. Mahoney, the \$15,000 represents a 25% increase in August pass sales over the previous month, an increase which can be directly attributed to NORTRAN implementation of a pass by mail program.

NI-Gas assistance to needy families

Northern Illinois Gas' SHARING program continues to help families in need with gas bill payments. Donations from customers, employees, NICOR stockholders and suppliers have resulted in more than 1,600 grants awarded since the program's inception in December 1982.

SHARING is designed to help customers at or near the federally established poverty level with outstanding gas bills. Grants of up to \$100 are awarded to recipients ineligible for other energy assistance programs. SHARING is administered by The Salvation Army, which takes applications and is the sole determinant of eligibility. Funds are still available and applicants should contact their local Salvation Army office for more information.

NI-Gas is matching all contributions, up to \$1 million. Each dollar given will be distributed to the needy.

DIABETES SCREENING ("THE AGE OF KENNEDY")
On September 14, in the Morton Grove Village Hall Senior Center, 6101 Capulina, diabetes screening will be available to all senior citizens age 55 and over from 9-10 a.m. No appointments are necessary, but anyone wishing to be screened should not eat for two hours prior to their screening.

At 10 a.m., the documentary film portraying the presidential years of John F. Kennedy, entitled "The Age of Kennedy" will be shown. Both programs are free of charge and open to all seniors in the community.

MONDAY NIGHT FOOTBALL
Senior and junior citizens alike are invited to come to the Village Hall Senior Center for Monday Night Football with guest speaker, Ed McGrath. Mr. McGrath has coached football for more than forty years and is a former "pulling guard" for the 1926 to 1930 University of Illinois, Fighting Illini teams. Mr. McGrath will speak to football fans at 7:30 on September 19, just prior to the game between the Miami Dolphins and the Los Angeles Raiders. The game will be shown on the Center's large screen cable television and refreshments will be served at no charge.

RUN FOR YOUR LIFE
Run For Your Life is a brand new run/walk exercise program for those residents of Morton Grove who may work and who cannot find the time to maintain their own consistent fitness program.

Run For Your Life combines walking with jogging but is not exclusively one or the other, thereby reducing the incidence of injury yet increasing the likelihood of heart and lung development. This program is co-sponsored by the Morton Grove Health Department and the Morton Grove Park District, beginning September 19 and continuing for six weeks at 8:30 a.m. every Monday, Wednesday and Friday. For more information or to register, call the Health Department at 965-4100 or the Park District at 965-1200.

PREVENTING HEAT STRESS
Heat stress is a condition caused by the body becoming overheated, and it usually appears in the form of an increased number of heart attacks and strokes. During a heat wave of high temperatures during both the day and night, use air conditioning to keep the temperature below 90°F and humidity at a reasonable level. Keeping just one room of the home cool is an economic alternative to constant operation. Avoid alcohol entirely during heat waves. It can cause the body to lose important water and put a strain on the heart. Alcohol is a drug, and it can seriously interfere with the body's ability to fight the heat.

THE BLOOD PRESSURE FAD
Sphygmomanometers (blood pressure testing devices) are everywhere these days, waiting and willing to squeeze an arm and to produce two perplexing numbers. Many times, what is thought to be a normal blood pressure, may not in any way should look for more than just a normal blood pressure reading in evaluating their overall well being. For help on determining individual wellness, and interpreting blood pressure, seniors should call the Morton Grove Health Department's "Better Health Clinic" at 965-4100.

Board member welcomed

Park Ridge resident Dr. John S. Codd (r) has been elected to serve on the Board of Governors of St. Matthew Lutheran Home, a residential care facility for older adults located at 1601 N. Western in Park Ridge. Welcoming him is Will C. Rasmussen, administrator of the home.

A member of Edison Park Lutheran Church, Dr. Codd is a graduate of Northwestern University in Evanston, and is a current member of the Park Ridge Men's Club.

St. Matthew Home is a program of Lutheran Social Services of Illinois, a not-for-profit organization serving over 170,000 persons through more than 100 program locations in Illinois.

Edison offers Conservation Kits

Low-cost Energy Conservation Kits to help renters and homeowners save on energy costs are now available at more than two-thirds off the retail value as part of Commonwealth Edison's on-going lead management and conservation program.

The kits contain ten energy conservation products including a caulk gun, caulking, weatherstripping, duct tape, switch and outlet seals, and fiber-glass insulation. Although materials in the starter kit have a retail value of more than \$16, the kits are available for only \$5 at Edison offices and Saxon Paint & Home Care Centers throughout northern Illinois.

The kit includes a complete instruction brochure with coupons good for discounts on additional energy-saving products at Saxon stores. According to Maxson, "Everyone from a 'do-it-yourselfer' in an apartment to an experienced craftsman with a larger home can benefit from using the materials in the kit. It's a very inexpensive way to reduce energy costs."

Misericordia Family Festival

A Family Festival, open to the public and featuring food and entertainment for people of all ages, will be held Sunday, Sept. 11 from 11 a.m. to 7 p.m., at Misericordia North, 6300 N. Ridge.

This is the third year that a Festival has been held to raise funds for Misericordia South, North, and the new Heart of Mercy Village - which provides family-style residential living for disabled children and adults.

The Fest will include a wide choice of games and amusements: Bingo, sports contests, puppet

shows, face-painting, a flea market and a boutique.

Nine different types of ethnic food will be available and a beer garden also will be open.

There will be music for a wide range of tastes: country and western, rock, folk dancing, gospel, drum and bugle corps, and bag pipes.

Also on hand will be members of the Chicago Bulls and other local celebrities.

Last year, over 10,000 people attended the Fest, and this year's attendance is expected to reach or exceed last year's record.

Since last year's Fest, nine new homes in the Heart of Mercy Village have been built. In mid-April the first family began moving in, and 5 homes are now occupied with at least 12 family members in each.

Families include four adults who are the "houseparents" and from four to eight disabled persons. The goal of this living arrangement is to provide disabled persons with normal ex-

periences and to give them the responsibilities and job opportunities that suit their abilities.

Also part of the long-range plan

for the Village are shops where visitors buy goods provided by Village residents.

Tickets for the Festival are available at the entrance to the Fest or in advance in money-saving Family or Adult or Child-Senior packages. Each pre-paid pack includes admission and food/beverage coupons.

For more information, contact Misericordia North, 973-6300.

Bradford Exchange to expand headquarters

Plans to build a new \$2.5 million expansion to the office-trading floor-museum complex of The Bradford Exchange of Collector's Plates, Niles, were announced by J. Roderick MacArthur, chairman of the board of governors. MacArthur cited the growth and strength of the limited-edition collector's plate market as reasons for the expansion.

"When the Exchange moved to the Niles location in 1976, the number of collectors in the United States was less than 2 million," he said. "Today, there are an estimated 5.6 million collectors in the United States, another million in Canada and close to a million in Europe."

"To keep pace with this growth, The Bradford Exchange has increased the number of employees from 100 in 1976 to more than 400 today. We have also added a new computerized trading floor, expanded exhibit space in the museum and increased the number of offices," he added. The expansion will also permit Bradford to transfer 130 employees from its Morton Grove facility to the Niles complex.

The expansion will add 52,000 square feet and will be connected to the existing 40,000-square-foot building located at 9333 N. Milwaukee ave., Niles, near Golf Rd. Like the existing building, the expansion will feature a large interior-garden with trees, bushes, fountains and a skylight. The new facility is scheduled for completion in Spring, 1984.

"At that time," MacArthur said, "we plan to begin work on a

new multi-million dollar museum to display the firm's exhibits of limited-edition collector's plates. The collection, worth more than \$250,000, contains more than 1,200 collector's plates, made by some 60 producers from 12 countries."

Architect for the office expansion is Tom Hickey of Weese Hickey Weese Architects, Ltd., Chicago.

In addition to its headquarters in Niles, Bradford operates exchanges in Zug, Switzerland; Frankfurt, West Germany; London, England; London, Ontario, Canada; and Copenhagen, Denmark. The Bradford Exchange is the world's largest trading center for limited-edition collector's plates.

Niles Park District Champions

Soccer program expanding

Did you know that soccer is one of the fastest growing sports in America? Many consider it the sport of the future. To meet the popularity of this program, the Niles Park District is expanding its soccer program.

A special FREE SOCCER CLINIC will be held at 9:30 a.m. to 12 noon Saturday, Sept. 10 at Jozwiak Park. Instructors will give valuable insights to the game and help youngsters sharpen their skills. You may also register then for one of the soccer leagues.

PEE WEE SOCCER is for boys and girls in first and second grades. This introductory program combines 3 weeks of instruction with 5 weeks of games. Pee Wee Soccer is conducted Saturday mornings at Grennan Heights Park beginning Sept. 24. The fee is \$12 and includes a tee shirt.

YOUTH SOCCER LEAGUES are formed for girls and boys in grades 3-8. Many games will be scheduled for after school and evenings during the week between 4:30-8:45 p.m. Each league will be assigned some weekend games during the course of the program. Games will be played weekday evenings at Jozwiak Park and weekends at Golf Mill Park. The fee for each league is \$12 which includes a soccer jersey. Leagues begin Sept. 24 and continue through the early part of November. Special registration for all soccer programs will be 9:30 to noon Sept. 10 at Golf Mill Park, 7-8:30 p.m. Sept. 13 and 14 at the Rec. Center, 7877 Milwaukee ave. and 7-9 p.m. Sept. 15 at the Rec. Center.

Pictured here are the Niles Park District 12 inch softball team that suffered only one defeat in 13 games. At the beginning of the season they chose the nickname of Allstars - a "portent of things to come?" The heavy hitters on the team included Amy Gonka, Joan Marusek, Jennifer Pierski, Kim Swider, and Julie Flynn. These girls specialized in homers, triples and doubles. Excellent multi styled pitching was a key to the victorious season. The above girls are going to be 7th graders this year at St. John Brebeuf.

The other girls on this team are going to be 6th or 8th graders at St. John Brebeuf. Christine Mazik and Kelly Parlich made sensational catches with the bases filled or nearly filled in very close games. Celeste Cece was fearless on the basepaths; Paula Surace and Marlee Siewart the tiniest girls on the team got on base about 75% of the time they came up to bat. Heather Holohan and Jill Derbis were "heads up" players who played virtually every position on the field. They had a keen sense of what to do in crucial situations. Coaches Paul Tamillo and John Marusek took this team to play extra games against other Park Districts to test their mettle. They were undefeated in this enterprise. Rich Sheridan managed the team and the girls responded very well.

Figure skating registration

Registration for the first session of the Niles Sports Complex Figure Skating Lessons is UNDERWAY NOW until Sept. 16. Lessons are 45 minutes in duration, held once a week for 12 weeks.

Registration is held at the Ballard Sports Complex, 8435 Ballard rd. in Niles. Call 297-8011 for more information.

BEST FOOT FORWARD

By Dr. Leonard Pock

SMALL INCISION SURGERY
Many foot problems, including corns, bunions, and some calluses, can be caused by enlargement or change in position of the underlying bone. Therefore, removal of the growth may provide only temporary relief. If your foot problem and general health allow, your podiatrist may recommend a minor operation to provide long-term relief.

In recent years, podiatrists have developed new procedures which allow work on the bone to be accomplished through a much smaller incision. For many this means no stitches, less discomfort and swelling, faster return to all activity.

Not all foot problems can be treated this way. However, if the discomfort and disability of an operation have you concerned, investigate the newer types of ambulatory foot surgery.

New Schedule at Notre Dame

A new class schedule was implemented this fall at Notre Dame High School for Boys, 7655 Dempster, Niles.

Classes begin at 8:05 a.m. and end at 2:50 p.m. The length of each individual period was increased from 45 minutes to 50 minutes.

According to Rev. David Tushar, C.S.C., principal, "The adjustments to the schedule were made for two reasons. The new school schedule will greatly reduce the number of potential scheduling conflicts which upperclassmen encounter when registering for courses, and the new schedule will provide an extra seventy-five minutes of instructional time per week for all students, time which will allow us to add and improve upon an already comprehensive college preparatory curriculum. We hope that by implementing such a change we can continue to provide the students with the highest quality educational opportunities possible."

Square Dance "A Little Night Music" at Lambs

Light Opera Works will present Stephen Sondheim's "A Little Night Music" on Thursday through Saturday, Sept. 8 through 10 at 8 p.m. and on Sunday, Sept. 11 at 2 p.m. at Cahn Auditorium, Emerson st. at Sheridan rd., Evanston. Tickets are \$11.50 to \$22.50, and are available by calling 869-6300.

"A Little Night Music," with music and lyrics by Stephen Sondheim and book by Hugh Wheeler, is a waltz-filled operetta based upon Ingmar Bergman's 1955 film, *Smiles of a Summer Night*. In a setting of the silver birch trees of turn-of-the-century Sweden, the operetta spins a fairy tale for adults that observes the wry loves of four discontented couples. The story follows the juggling of these ill-matched relationships until they fall into their blithely proper order.

"A Little Night Music" is the second production in Light Opera Works' 1983 season of operettas. The season concludes with a gala production of Victor Herbert's immortal *Naughty Marietta* on New Year's weekend, Dec. 29-Jan. 1. Tickets are now on sale for both productions. Group discounts are available.

For more information about "A Little Night Music" and Light Opera Works' 1983 season, call 869-6300.

SPORTS

Northwestern Stables wins

The Northwestern Stables "A" team completed two successful weeks of showing in late June and early July. The team attended the Capitol City Horse Show in Springfield from June 28-July 2, and they traveled to the Greater Milwaukee Horse Show, held in Waukesha from July 4-9. Both horse shows were rated National "A" by the American Horse Shows Association and drew top-notch competition from throughout the Midwest.

At Capitol City, Eric Bloom rode away with the most ribbons won by a Northwestern Stables rider, with 6-year-old Dana Partos close on his heels. Eric won eight ribbons in all, with five in the Equitation division. Up on "Trust Fund," a horse owned by Betsy Crown, Eric placed 2nd in the AHSA Medal, 3rd in Equitation over fences 15-17, 6th in the USSET Medal and 7th in the ASPCA Maclay. Riding "Sir Acorn," Maria Sidel's chestnut thoroughbred, Eric placed 3rd and 5th in the Illinois Hunter-Jumper Association classes over fences, and 2nd in Equitation 15-17 on the flat. Also, riding "Great Scott," Stephanie Stone's brand-new Canadian thoroughbred, Eric won 6th in a class over fences for Low Working Hunters.

Dana Partos showed her dapple-grey pony "Rosann Rosanna Dana" to win seven ribbons. In the Large Pony Working Hunter division, Dana won a 2nd, 4th and 5th in classes over fences, and a 4th in the Pony hack class. She

also rode in the AHSA Pony Medal equitation class to place 5th. In the Equitation classes for ages 10 and under, Dana picked up two 3rds—over fences and on the flat.

Stephanie Stone, riding her horse "Great Scott," placed 2nd in Pre-Green Working Hunters under saddle and 5th under saddle in Low Working Hunters. Maria Sidel rode her horse "Sir Acorn" to place 4th under saddle in Amateur-Owner Working Hunters. Jennifer Lesh riding "MS," a horse owned and trained by Frank M. Jayne Jr. of Northwestern Stables, placed 8th in Equitation 12-14 on the flat.

Niles "Nuggets" semi-pro baseball team

The "Nuggets", sponsored by Bennigan's, 8480 Golf rd. in Niles, have completed their season. Our final record for all games played in 1983 was 19 wins and 16 losses. We earned a third place position in the Greater Illinois League's "A" Division.

The Nuggets last two games were play-off games to determine the champion of both divisions of the Greater Illinois League. Because of our 3rd place standing in the North Division, our first match would be a 9 inning game against the 1st place team in the South Division, the Melrose Park Eagles. Well, it turned out to be a very exciting game indeed, with the Nuggets collecting the win 8-7. Lee Newlan pitched a super game, walking 2 and giving up only 3 earned runs in 9 innings. The Nuggets were ahead 8-7 going into the bottom of the ninth, with Melrose at bat. Lee had gotten himself in a pickle with Melrose getting 3 base hits in a row; however, they were little bloopers and Melrose couldn't score on them. Setting the scene, Melrose had their bases loaded with no outs and this was their last raps, the Nuggets have to hold them! The 4th batter popped up to the catcher, the Nuggets have 1 out. The next batter grounded out to our shortstop,

Nick Busija, who fired it home to our catcher, Gary Birr, for the force out, now the Nuggets have 2 out. The next batter smacked the ball into right center field, our right fielder, Scott Swierd, ran and ran, his legs went as fast as he could make them go, he dove while holding his mit up, caught the ball, saved the game and the Nuggets won! It was so exciting, the team and the fans went wild, we had beaten the first place team! The Nuggets all had hot bats this day, everyone had at least one hit. Brian Sherwin had a triple and 2 singles, Scott Madsen had 2 doubles, Dan Birr had a double and a single, Scott Swierd had a double and a single, Rich Schumacher had 2 singles, Bob Fergus had 2 singles, Lee Newlan, Gary Birr and Nick Busija had a single each. What a game, what a day!

The Nuggets final game of 1983 was an eleven inning thriller! Jim Prims and John Nigro teamed up to pitch this nail biter. The Nuggets were leading 11-10 going into the Monks half of the eighth inning, but the Monks managed to squeeze a run across the plate to tie the game at 11-11. The 9th inning was scoreless, and the 10th inning was scoreless and the Nuggets half of the 11th was scoreless. Now we are in the bottom half of the 11th, the Monks have 2 outs and our pitcher has 2 strikes on the batter, the next pitch is low, almost in the dirt, but the Monk's batter takes a golf swing and hits it over the fence for a homerun. The Monks won 12-11. It was a well played game. The Nuggets collecting hits were: Brian Sherwin with 2 singles and a homerun; Dan Birr, Rich Schumacher and Bob Fergus with 2 singles each; and Scott Swierd, Lee Newlan, and Nick Busija with a single each.

The Nuggets are pleased with their seasonal record and are already making plans for next year. We hope you all keep some Nugget Fever until next season!

Holy Family receives accreditation

Holy Family Hospital in Des Plaines and the Holy Family Ambulatory Care Center in Wheeling have been awarded a three-year certificate of accreditation by the Joint Commission on the Accreditation of Hospitals.

The reaccreditation was achieved following a thorough two-day, on-site visit of the hospital and Ambulatory Care Center this past June by a professional survey team of the Joint Commission's Hospital Accreditation Program. The team included a hospital administrator, physician and registered nurse.

The survey team applied JCAH standards to each of these functions, evaluated the findings and consulted with various professional staffs. This evaluation and consultation resulted in an educational process that assists the hospital staff in their pursuit of excellence in patient care.

Accreditation is a voluntary process and the decision to seek accreditation demonstrates to patients and the community Holy Family's commitment to maintaining high professional standards for quality patient care. The three-year certificate is the first Holy Family has received since it became eligible to participate in the three-year accreditation program when its two-year certificate, awarded in 1981, was scheduled for review this past spring.

Don't tamper with auto pollution controls

"Tampering with auto pollution controls and switching leaded for unleaded fuel result in poorer air quality and higher costs to car owners," says Bruce Johnson, air quality specialist for the Chicago Lung Association. "Both activities cause serious problems," he says.

Tampering means disabling or removing an auto's pollution control equipment. Fuel switching or misfueling is the use of leaded fuel in a car designed for unleaded fuel.

Johnson maintains car owners tamper in a misguided attempt to improve their auto's performance or fuel economy. He notes, however, that research indicates the opposite effect may actually occur, especially in late model cars. "Automakers design modern vehicles to optimally balance performance, fuel economy and emissions," he says. "Tampering will alter this balance and result in poorer performance or reduced gas mileage."

Some car owners use leaded gas wrongfully because it saves them a few pennies at the pump, Johnson offers. He claims the savings are more than offset by having to replace spark plugs, engine oil and exhaust system components more frequently than when unleaded fuel is used.

Moreover, putting leaded fuel in a car designed for unleaded disables the catalytic converter. Of the many pollution control systems on an automobile, the catalyst is one of the most important.

Tampering and misfueling can occur without a car owner's knowledge. Recent United States Environmental Protection Agency investigations have shown that

some unscrupulous auto repair shops remove and sell the catalytic converter to scrap metal dealers. Government officials have also found that a number of gasoline distributors in the Chicago area have delivered leaded gasoline into unleaded storage tanks.

Pollution from an automobile can increase by 20 to 800 percent as a result of tampering and misfueling. According to the Illinois EPA, these excess emissions could hamper Illinois' ability to meet the national air quality health standards for ozone and carbon monoxide. Both pollutants can cause serious health problems, especially for individuals with chronic breathing problems or heart disease.

Fuel switching and tampering are forbidden by law. Federal pollutants can cause serious health problems, especially for individuals with chronic breathing problems or heart disease.

Government is acting to curtail these illegal practices. According to Johnson citizens can help too. How this is done is described in an informative brochure available, free, from the Chicago Lung Association at 1440 West Washington, Chicago, 60607, or dial (312) G A S P I N G (427-7464).

To obtain the brochure or the lead test kit, write the Chicago Lung Association at 1440 West Washington, Chicago, 60607, or dial (312) G A S P I N G (427-7464).

Social Security ceases for some prisoners

Recent legislation enacted by Congress requires the suspension of all types of Social Security benefits to any person confined to a prison or other correctional facility due to the conviction of a felony offense.

Previously, such suspensions applied only to prisoners receiving disability benefits. Effective May 1983, the new law extends the suspensions to include retirement, survivor and auxiliary benefits.

The suspension of benefits applies only to the incarcerated felon. Payments will continue for eligible dependents of the prisoner, such as spouses and children. Benefits will also continue for disabled prisoners who are participating in a court approved rehabilitation program. Those prisoners covered by Medicare will retain their coverage if they continue to make their premium

payments. The prisoner will be billed for the premiums. More information concerning benefits for prisoners can be obtained by calling the Social Security Administration at 823-0815.

Parent/Adolescent Series

by Larry Renetzky, ACSW/AAMFT Executive Director, Niles Family Service

and James Cisek, Ed.D./AAMFT Director of Community Outreach

The last article in this series discussed letting children and adolescents experience the consequence of their choices. One of my examples was the typical morning scene in which the mother has to pry the adolescent out of bed, choose the appropriate clothes for him or her and gather up all of the necessary school supplies, finally to propel the lazy and overly tired adolescent in the direction of school. Of course I identified that the mother pays a horrible price for all this service. She has to take all the verbal abuse from a teenager being compelled to do something he or she doesn't want to do. She has made it less likely that her son or daughter will start to take responsibility today.

Several parents have come to me since that article and have expressed a major obstacle to letting their children experience the consequence. Their adolescents, the parents reported, would be absolutely delighted if their parents would get off their backs - and they would be absolutely delighted to spend the whole day in bed. Some consequence! "What do we do then?" they all ask.

I certainly recognize that some adolescents learn to act like small children - and do some very irresponsible things. Even at the risk of their education and future. This situation simply doesn't have a simple and effective answer. The question of standing by and watching them "go down the tubes" or continuing to protect and support them is very difficult. Before a decision is made, it may be helpful to look at what the adolescent is saying when he or she acts irresponsible. Are they saying that they want you to continue to cover up for them while they enjoy their irresponsibility and immaturity? Or are they demonstrating that they are just giving up on life and are overwhelmed with the problems of growing up? Or have they learned that they can be most powerful when they present themselves as too weak to cope with life's challenges and frustrations?

Whatever the reason, the point needs to be made that postponing and consequence makes the final confrontation that much more difficult to accept. If a child learns early that there are negative consequences for poor decisions, maybe the painful consequences in later years don't be avoided. If a child learns early that mother and father won't automatically bail them out, they won't need to be "bailed out one more time" as an adolescent. Maybe they won't present you with the dilemma of watching them go "down the tubes" or having to bail them out again.

It is important to remember that no one just starts to miss "punching in on time" at work. Usually they miss getting up on time as a student. Usually they miss being prepared for school, etc. Each time you protect your adolescent from experiencing a consequence, you make the dilemma described above more of a possibility. Adolescence is not too late for you to teach responsibility. They need to understand that what happens to them is a result of what they do. That may be best taught by letting them see what happens without your intervention.

If you would like additional suggestions about your adolescent, don't hesitate calling or writing Dr. James Cisek or Larry Renetzky at Niles Family Service, 800 Oakton. We're here to help with your individual, marital and family concerns. We're here to help you! Also, let us hear from you regarding your experiences with your teenager. Your name will be kept confidential.

In East Maine school district 63 there's no turn-around from the downward enrollment trend which has been going on since 1968-69.

School superintendent Donald Bond told us Tuesday, last year the administration projected in October this year's enrollment figure would be 2,818. When heads were counted this year, the figure was 2,818 (these guys and gals should be working on the stock exchange).

Bond said this year the decline in student population was 161 less than last year. Two years from now he expects the decline will be less than 100. Divided into the five schools in the district, that would mean a drop of about 20 students per school.

In the 1985-86 year Bond projects a figure of 2,678 students. The following year the figure drops to 2,595. While the decline becomes less each year he could not foresee a point when student population would head back up.

District 63 reached a high of 7,345 students in the 1968-69 school year. There were 9 elementary schools and 2 junior high schools in the district. It now is down to four lower grade schools and one junior high school.

donors and how to sign a donor card, talks by kidney and liver transplant recipients and a question/answer period. Additionally, Marcia Rosenberg, a Skokie resident who is waiting for a liver transplant, will be introduced.

Mrs. Rosenberg is the driving force behind "Donor Week in Skokie." It was after meeting her that Mayor Smith made his proclamation, the first such proclamation in the state.

Many Skokie businesses, in addition to the Village of Skokie, the Skokie Park District and Skokie Valley Community Hospital, will be placing donor cards in employees paychecks during September. Others will be displaying donor cards for the general public. Several civic groups have requested speakers from the Illinois Transplant Society, which also is providing the donor cards.

The Illinois Transplant Society, Inc. is a not-for-profit group composed of the six university-affiliated medical centers currently performing kidney transplantation in Illinois. The Society maintains contact with every transplant center in the country and works with the retrieval and transplantation of all suitable tissues and organs.

Further information on "Donor Week in Skokie," donor cards and public speakers are available by contacting the Society at R-E-C-Y-C-L-E (732-9253).

College Night...

Continued from Page 1

More than 200 colleges from throughout the United States will participate in the program, including all state universities in Illinois; community colleges such as Oakton, Harper, and Triton; and many other public and private two and four-year colleges. Highly selective schools including Ivy League, the University of Chicago, and Northwestern will be represented as well as colleges with a flexible admissions policy, according to Reese. Representatives from area hospital schools of nursing, service academies and ROTC programs will also attend.

A financial aid information program will be presented twice during the evening. "Selecting a college requires careful planning and evaluation of information," said Reese. "College Night on September 28 is a good way for students to begin the process of gathering up-to-date information."

are: First National Bank of Skokie, Skokie Federal Savings and Skokie Trust and Savings. These institutions will make loans to eligible homeowners (Village pays interest) and will waive all filing fees and other fees that might otherwise drive up the cost of a loan.

To become eligible for the program you must own and reside in a single family home in Skokie and meet income limits set by the Federal Government. Homeowners wishing to receive a weatherization grant or loan must first have an energy audit conducted on their homes. Home repairs eligible under the program include all weatherization work, roof repairs or replacement, tuckpointing, exterior painting, furnace repair or replacement and major structural repairs. Normal home maintenance or improvement procedures such as interior painting, carpeting, kitchen remodeling or decorating are not fundable under the program.

Households that participate in this program will also receive a free safety inspection by the Village's Housing Services Division. For more information on how to apply for this program, please call the Village at 673-0500, ext. 259.
