### Niles West coach selected to Basketball Hall of Fame

Billy Schnurr, a coach and teacher in the Niles Township High Schools since 1956, has been elected to the Illinois Basketball Coaches Hall of Fame. Schnurr became head varsity basketball coach at Niles West in 1961, after coaching as an assistant at Niles East for five years.

During his sixteen years at the head of the Niles West program, Schnurr and his teams made their mark on the highly competitive Central Suburban League, as well as the downstate supremacy. Under the direction of Schnurr, Niles West teams compiled a record of 248 wins and

169 losses, advancing to super-sectional play in both 1973 and 1976. The 1976 team lost in the finals by a mere point to eventual state champions, Morgan Park. Over 30 players received all-conference, area or state recognition while playing for Niles West.

### New legislation takes tougher stand on drunk drivers

# New drunk driving laws take effect

by Bob Besser

Local officials have adopted a wait-and-see attitude as to what effect Illinois' tough new drunk driving laws will have on drunk drivers.

The laws, passed earlier in 1983 which became effective on January 1, give judges less flexibility in sentencing convicted drunk drivers. Also, the new laws allow the Illinois Secretary of State's office which issues drivers licenses to repeal the license of certain categories of drunk drivers. Lastly, the new laws are attacking the enormous problem of offenders driving even though their driver's license has been previously revoked or suspended.

In a written statement issued recently, Illinois Secretary of State Jim Edgar said, "Among the most important legislation passed by the General Assembly this year are five bills refining the state's two-year-old drunk driving law. These bills give additional tools to use in identifying repeat offenders and include tougher penalties for repeat drunk drivers and those who are convicted of driving under the influence and subsequently driving on a revoked license." Among the most important provisions of the new laws include mandatory sentencing of repeat offenders and restricting

### From the Left Hand

by Bud Besser

The name of the game is, "Keep the news local, Mr. Bugle, keep the news local!"

Last week's international news reported Spanish artist Joan Miro died at the age of 91. He was among the most famous artists of the 20th century and ranked alongside Picasso in his native Spain.

What's the local angle in this famous artist's passing? There is one, and it is a small but rather interesting story.

In 1978, Niles' Oak School art teacher Kent Silberman told a group of his students to send Miro their drawings. When he received them he acknowledged them by sending back a rather primitive line drawing. It seemed a simple gesture between this very famous man and the kids from Oak School. After exhibiting the prize the art teacher claimed the drawing belonged to him since it was first sent to Silberman and his art class.

When the school board members were told Silberman claimed ownership to the drawing, they blew the whistle on the art collector. The school board contended the district was the rightful owner of Miro's drawing. The school board noted the art teacher was acting as a teacher in

## Friendly visitors have value to aged

Mary, age 85 and blind, lives alone in a small garden apartment which she maintains herself except for a weekly housekeeping service. Her two children and their families live in other states. Her two sisters, also elderly, help Mary as much as they can with her grocery shopping, but they don't live nearby, and can't help out with emergency needs.

But Mary is not alone - not really. A friendly visitor from The Center of Concern calls her every day and visits her regularly, helps with grocery shopping and sometimes takes Mary special little treats.

Although the calls and visits are important and the food is needed, even more important to Mary is the knowledge that she has a friend who cares about her.

Mary is not an isolated case. There are many elderly, handicapped or incapacitated people in this area whose daily welfare, and even their lives, depend upon the compassion and help they receive through The Center of Concern's Friendly Visitors Program. Friendly visitors are volunteers who work with the Center's outreach worker, Sister Jean Ernest, in providing comfort and companionship to lonely, isolated or handicapped people. The visitors report their own satisfaction and happiness in being able to provide such vital assistance. The very human need to be needed by others is fulfilled. The Center of Concern could use many more volunteers to serve as Friendly Visitors. If you would like to volunteer, please call Sister Jean at 823-0453 or drop in to Suite 4 of the 1580 N. Northwest Hwy. Bldg. in Park Ridge. The coffee pot is always on!

### Free blood pressure testing

The Center of Concern offers free blood pressure testing on the fourth Saturday of every month in Suite 4, 1580 N. Northwest Hwy. Retired nurses Jerry Harmon and Phyllis Wagner perform the service, which takes only a few minutes.

High blood pressure is known as the "silent killer" because it has no symptoms. It is a major contributing factor to heart disease, stroke and kidney failure.

## Requirements for state energy assistance

Senior citizens, low-income families, and handicapped persons may be eligible for state emergency assistance, according to the House Republican Whip Penny Pullen (55th). Such persons should apply immediately to their township government. Advance appointments by telephone are required.

Rep. Pullen said the Illinois Home Energy Assistance Program (IHEAP) began accepting applications Dec. 1 from eligible households to help pay energy bills. Applications are taken by local agencies throughout the state who administer the program in cooperation with the Illinois Department of Commerce and Community Affairs and the U.S. Dept. of Health and Human Services.

Although no counties had used up their full allocations as of late December, Rep. Pullen said that some counties are nearing their maximum allocations and statewide, about half of the total grant allocation has been committed. Grants are made on a first-come first-serve basis to individuals and families who need income eligibility requirements.

## Center of Concern offers safety devices

Out of concern for the safety of women, the elderly and disabled citizens, The Center of Concern now offers for sale both whistles and shriek alarms. Thousands of people across the country are now carrying these alarms which have been instrumental in protecting lives and property, as well as in the apprehension of muggers who prey on the elderly.

Both can be used in the home as well as on the street. In one instance, an 80-year-old woman fell in her home and broke her wrist. When she blew the whistle she carried on a chain around her neck, a neighbor brought help. Homebound people are encouraged to have either a whistle or a shriek alarm with them at all times.

Cost of the whistles is \$3 and the shriek alarms are \$4. They can be picked up at 1580 N. Northwest Hwy, Suite 4, or call 823-9453 if you can't come in to the office.

### CATARACTS

Cataracts are cloudy or opaque areas in part or all of the transparent lens located inside the eye, and is a common eye disease that occurs with aging. Normally, the lens is clear and allows light to pass through. When a cataract forms, light cannot easily pass through the lens and this affects vision. The cause of these types of cataracts are unknown but may advance slowly over a period of years or may also occur rapidly during a matter of months.

Unfortunately, there are no warning signs of the formation of a cataract. Some remain small and do not seriously affect vision, but if a cataract becomes larger or denser, it can be surgically removed. Cataract surgery (in which the clouded lens is removed) is a safe procedure that is almost always successful. Cataract patients should discuss with their doctor the risks and benefits of this elective procedure. After surgery, vision is restored by using special eyeglasses or contact lenses or by having an intraocular lens implant (a plastic lens that is implanted in the eye during surgery).

Senior citizens should have a complete eye examination every two or three years since, as in the case of cataracts, many eye diseases have no early noticeable symptoms. The examination should include a vision (and glasses) evaluation, eye muscle and thorough internal and external eye health exams.

# Church & Temple Notes

## St. John Lutheran celebrates 125th anniversary

The oldest church in Niles, Saint John Evangelical Lutheran Church (Missouri Synod), 7429 N. Milwaukee ave., will celebrate its 125th anniversary on Sunday, the 15th of Jan. with special festival services at 8 and 10:30 a.m. Back in 1859, on Jan. 12th, the German Evangelical Lutheran Saint John Congregation of Niles was formally organized and is therefore regarded as the official birthdate of the Church.

During the early years, people

came to Niles for worship from far and wide: Wilmette, Wheeling, Des Plaines, Park Ridge and Chicago. Three daughter congregations were founded by St. John members: St. Matthew in 1895, St. Andrew, Park Ridge, in 1909, and Our Savior, Norwood Park, in 1921.

On Jan. 12, 1959 Saint John celebrated its Centennial commemorating 100 years of Divine Grace, Guidance and Faithfulness. However, one week later, a fire destroyed the interior of the 57-year-old suburban landmark.

The current house of worship was dedicated November 19, 1961. "Praise God from Whom All Blessings Flow" is the theme for the 125th celebration. The Anniversary Committee, under the guidance of Parish Secretary Mrs. Jean-Irene Ungar, has created a large commemorative display in the foyer of the Church. The Rev. Dr. Eugene L. Krentz, President at Concordia College, River Forest, is slated as the guest preacher on Anniversary Sunday. Coffee and cake will be served by The Ladies Circle at a Fellowship Hour.

### Extended Coverage

By Stephen Fallor

The start of a new year is a good time for taking stock of what you own. An annual inventory of your possessions may impress you with how much you've amassed—and warn you of insurance needs.

Even if you are fully insured, you'll want documentation of what you owned to jog your memory—and help you collect if you have to make a claim.

Photograph each room from different angles to include all furniture, artwork, and accessories. Then make notes to put away with the pictures: where did you buy what, for how much?

Video recorders are especially well suited to inventory, for you can verbally describe objects as you pan around a room, and you get instant results.

Whatever you own, be sure it's adequately protected by insurance. Talk it over with the experts at:

## letters to the editor

### Commends Niles police on Santa visits

Dear Editor: Too often people take the time to complain about almost anything. It is with great pleasure to write a letter to the contrary.

On Christmas Eve the Niles Police Department volunteered to have Santa appear to anyone's home who took the time to call for an appointment. Our family was surprised and thrilled to see Santa come to our front door and the screams of joy on our grandchildren's faces gave everyone the feeling of the excitement of Christmas. We wish to publicly thank the four people who gave our church activities during 1983. Such support undoubtedly contributed to the increase in our church membership and our ability to underwrite the largest operating budget in the 31-year history of our congregation.

We only ask your continued interest in what we are attempting to do as a part of this community.

Sincerely,  
Dr. D. Douglas Seelen, Pastor  
Niles Community Church  
(Presbyterian, USA)

### Radio staff member

Daniel R. Fath, 9134 Lincoln, Des Plaines, is a member of the 1983 WMMX radio station staff at Lake Forest College.

Fath, a sophomore, is a 1982 graduate of Maine Township High School, South.

### Appeal for letters on Harczak's behalf

To the benefactors of Richard Harczak:

In the December 15 issue of the Bugle, Bud Besser devoted his left hand column to the problems of Richard Harczak with suggestions that letters be written in Richard's behalf regarding his contributions as a concerned citizen. I would like to echo that statement by further adding that there must be many organizations and hundreds of

individuals who have, in one way or another, been helped by him.

The holiday season is the time when we all express good will toward men and what better time than now for us to extend our appreciation for his many good deeds by writing a few lines stating same. Don't put it off until tomorrow! Do it now!

Angelo Marcheschi  
Village Trustee and friend of  
Richard Harczak

### Appreciates Bugle coverage

Dear Editor,

This is to express appreciation for the fine coverage you gave our church activities during 1983.

We only ask your continued interest in what we are attempting to do as a part of this community.

Sincerely,  
Dr. D. Douglas Seelen, Pastor

### Learn a new "weigh"

Losing weight is demanding, but keeping it off is an even greater challenge. On Monday evenings, starting January 16 at 7:30 p.m. and on Tuesday mornings, starting 9:30 a.m. at the Mayer Kaplan Jewish Community Center, 5050 W. Church st., Skokie, Deanna Rudich will conduct weight control classes which will emphasize behavior modification. The class(es) will suggest how to change behavior patterns in an effort to lose and maintain weight loss.

The instructor was plagued by a pattern of weight gain and loss until she learned correct eating patterns by joining and then working with weight control groups for nearly a decade. She uses a sense of humor to conduct her classes and shows her classes that learning a new "weigh" can be enjoyable by giving out low calorie recipes. Contact the H & PE Department for registration information.

### An end to yo-yo dieting

If you've successfully "dieted," but find your self moving back up on the scale, don't blame yourself - **BLAME THE DIET.** Since many diets use gimmicks focusing only on food, not behaviors, the result is weight loss followed by weight gain. Beginning the week of Jan. 16, The Center for Nutritional Counseling will be conducting a 10-week program, "Group Weight Management - More Than a Diet," led by a dietitian featuring presentations by a physician, psychologist and exercise physiologist. ## Weight control instruction at Parkside

Educated weight control instruction-teaching persons why they overeat in order to teach them how to diet-is available through outpatient nutrition services at Parkside Human Services, Park Ridge. Parkside Human Services is affiliated with Lutheran General Hospital.

The weight control sessions are offered in small, personal groups. Two ten-week classes for adults will begin on Monday, Jan. 9 and Tuesday, Jan. 10, either days or evenings for one hour every week.

Prior to the first class, a registered dietitian counsels each participant individually. Diets are geared towards the working and eating habits of the individual and the family and their amount of daily activity.

"Weight control is not as simple as saying, I'm going to eat less," says Kathy Schmid, registered dietitian at Parkside's outpatient nutrition office. "Food touches all parts of our lives-family gatherings, work and happy and sad occasions," she adds. Ms. Schmid tries to keep the groups small, with a maximum of 15 persons per session. Pre-enrollment is necessary in order that an individual diet can be designed for each participant before the actual sessions begin.

For more enrollment and fee information, phone Parkside's outpatient nutrition services offices at 696-6138. Persons also may sign up for individual diet counseling without enrolling in the course.

## Off the NILES POLICE BLOTTER

### Drunk driver arrested after accident

A 31-year-old Wilmette man was arrested for drunk driving after being involved in a traffic accident in Niles on Thursday, Dec. 22.

Police report the Wilmette driver slammed into the rear of a car driven by a 17-year-old Park Ridge youth at the intersection of Dempster and Oleander St.

When police arrived on the scene they reported the driver had a strong odor of alcohol on him and had four empty beer cans in the front of the car.

At the Niles Police Department

the offender was charged with driving under the influence of alcohol, driving too fast for conditions and failure to reduce speed to avoid an accident. He was assigned a January court date and released after posting a \$100 bond.

### Safety hints

A properly tuned car is your best defense against a frigid winter, according to the AAA-Chicago Motor Club. After a tune-up, your car will run smoother.

### Shoplifter arrested

A 63-year-old Niles woman was arrested for shoplifting in Niles on Saturday, Jan. 31.

Police report the woman was shopping at Sears Roebuck and Co., 400 Golf Mill, when she was seen leaving the store without paying for four wallets, three scissors, two spatulas and one bottle of Tylenol. After detaining the Niles resident she was taken to the Niles Police Department where she was charged with shoplifting, assigned a January court date and released after posting a \$100 bond.

Store officials said the stolen merchandise was worth \$105.

### Drunk driver arrested

A 24-year-old Wooddale man was arrested for drunk driving in Niles on Thursday, Dec. 29.

Police report the Wooddale man was first observed pulling out of a driveway in the 8100 block of Monroe St. The car reportedly was skidding out of control causing a passing motorist to slide into a snow bank to avoid being hit.

When police arrived on the scene they reported smelling a strong odor of alcohol on the man and, at the Niles Police Department, a breath test determined the man was intoxicated.

The offender was charged with driving under the influence of alcohol, assigned a January court date and released after posting a \$100 bond.

### Home burglarized

A Niles home was burglarized on Tuesday, Dec. 27.

Police report burglars gained access to the home, located in the 8600 block of National Ave., some time between 8 a.m. and 5:45 p.m. Burglars entered the home by prying open a front window. Taken from the house was a stereo, two bed spreads, one pillow, one sheet, one pair of pants and a sweater.

Police did not list the value of the stolen merchandise.

### Garage break-in

A Niles resident reported his garage was broken into some time between Dec. 26 and 28.

The resident, who lives in the 6900 block of Madison St., said unknown persons broke into his garage and stole a snowmobile motor. The motor was valued at \$450.

### Radar detector stolen

A Niles resident reported his car was broken into while parked in Niles on Thursday, Dec. 29.

The resident said the car, a 1984 Volkswagon Rabbit, was parked in a lot at 9118 Elmwood St. Sometime between 11 a.m. and 7 p.m. unknown persons broke into the car by smashing a window. Taken from the vehicle was a police radar detector valued at \$250.

### Safety hints

Take advantage of comparatively warm winter days to visit a car wash. AAA-Chicago Motor Club says the build-up of white film on the car is corrosive road salt residue. The longer you leave it on the car, the more likely it will start rusting away the car's finish.

A car's windshield washing reservoir always should be filled with an anti-freeze solvent during the winter, says the AAA-Chicago Motor Club. Check the level often and carry an extra gallon in the trunk in case you are running low.

Strange noises have become so annoying on city streets in Thailand that the police have banned vehicle horns that trumpet like elephants, chirp like birds, or feature other unusual sounds. What about noisy mufflers?

### Winter driving safety hints

Winter weather creates special hazards for motorists. If you start to slide when attempting to make a sudden stop on an icy road, traffic safety experts advise against pumping your brakes.

Squeeze the brakes with a slow, steady pressure, advises the National Safety Council. When you feel the wheels about to lock, release the pedal until the wheels are rolling again. Then repeat the procedure.

Disc brakes on most automobiles today do not release as fast as the old drum brakes. When you pump disc brakes, there is a good chance they will not release, but will lock up and throw your car out of control.

Squeezing the brakes allows you to maintain better control of your vehicle, is more effective than pumping, and works equally well on drum brakes.

Putting extra weight in the trunk of your car may help slightly, but steering can be adversely affected. The distance it takes to stop the car also can increase.

Never reduce tire pressure to increase traction on snow, ice or mud. This not only won't work, but it could affect steering and tire wear will increase.

If you have any questions about the Secretary of State's office, please feel free to use our toll-free telephone number (800-252-8960).

### Inform teens of drinking dangers

Before teenagers are given permission to use the family car on a Friday or Saturday evening, especially during the holiday season, their parents should discuss with them the dangers of drinking and driving a motor vehicle.

Talk with your children, don't lecture them, the Illinois State Police advises. The essential element is good communication based on sympathetic understanding of the special problems of adolescence.

Another approach is explaining the designated driver program. In this program, one person, the designated driver, remains sober all evening and is responsible for seeing that everyone gets home safely. It is said that this approach may appeal to your teenager because it shows respect for their maturity and sense of responsibility.

Above all make sure your teenager knows you consider their well being to be more important than getting the car home, and as far as you are concerned, no conceivable circumstances could ever justify driving after any amount of drinking.

# Introducing the Cragin Federal Tax Saver CD, the tax-deferred account that could mean \$900 tax-free interest to you

## 10%

### Who qualifies for tax exemption?

Qualification for full tax exemption depends largely on how you handle your finances in 1985. But like millions upon millions of other Americans, you are likely to qualify for part, if not the full, exemption—\$900 for families filing joint returns, \$450 for single taxpayers.

The qualification standards are not stringent at all, and are formulated to encourage saving, rather than buying on credit. If the interest you earn from savings is greater than your interest expense (excluding mortgage and business interest), then you qualify for a tax exemption. The more your interest from savings exceeds your interest expense (this includes expenses such as credit card interest, auto loan interest, etc.), the larger your tax-free exclusion. The exclusion is based on 15% of your net interest income (interest income less interest expense). In other words, a single taxpayer would merely have to earn \$3,000 in 1984 net interest income to qualify for maximum exemption in 1985; joint-return taxpayers, \$6,000 in net interest income.

If you have your money in a money market fund, your dividends do not qualify for an exemption in 1985. Why not move your money to a Cragin Tax Saver CD?

You can qualify for the 1985 interest tax exemption whether you use the regular 1040 long form or the short form.

Those of you who opened an All Savers Account back in October of 1981 remember it as one of the wisest investments you ever made. After all, it earned up to \$2,000 tax-free interest at remarkably high tax-free rates.

The Economic Recovery Act of 1981 contains another very special tax break for Americans. It will provide up to \$900 tax-free interest to families filing joint tax returns (\$450 for single returns) for the year 1985.

To allow you to take advantage of this tax break, Cragin Federal has come up with a very special savings plan which defers all your interest to taxable year 1985—the first year in which you and millions of Americans can qualify for tax-free interest on your savings.

How the Tax Saver Account works

The Cragin Federal Tax Saver Account is a special, federally insured, one-year certificate of deposit paying 10%. The interest your account earns will be credited to your account on the last day of its term—intentionally in 1985. This lets you take advantage of the \$450 or \$900 interest exclusion when it is first available.

In short, you can make a shrewd financial move right now that will avoid federal income taxes in 1984 and most likely save you tax dollars in 1985.\*

### Take advantage of tax deferral alone

Don't think of the tax-free feature as the only benefit of this CD. It could very well serve your interest to deposit more, as much as you can afford. Why? Because the more you deposit, the more interest you'll put off to 1985. The longer you defer income, the later you'll have to account to Uncle Sam for it. In this case, not until April 15, 1986! So, whether you qualify for the tax-free exemption or exceed the interest income needed for your maximum, you'll certainly benefit from simple tax deferral.

### Sign up now—for maximum 1984 tax savings

The sooner you open your Cragin Tax Saver Account this year, the more taxes on interest you can defer. For example, if you had put \$20,000 in a Tax Saver Account at the beginning of this year, you'd have deferred paying taxes on \$2,000 in interest until taxable year 1985. Let's say, for purposes of comparison, you wait until July 1 to open your account with a \$20,000 deposit. Then you'd only be able to defer taxes on \$1,000 in interest, thus losing the benefit of avoiding paying taxes on \$1,000. So, the longer you wait to open your account, the more of your earned interest will be taxable in 1984.

And remember, the more you put in a Tax Saver Account now, the more taxes on interest you can defer until 1985.

### Free tax guide plus a gift

Open a Cragin Federal Tax Saver CD now and receive absolutely free your copy of "1984 Personal Income Tax Guide," a 54-page book published by Prentice-Hall and packed with valuable information which specifically addresses the 1983 tax laws. You'll also get your choice of 31 gifts, either free or at substantial savings.

### Let your Cragin counselor help you

A message from Adam A. Jahns, Chairman of the Board and President

Our Cragin 1-Year Tax Saver Account is the most convenient way to defer as much savings interest to the time when it can do you the most good—to when the tax laws work in your favor.

Naturally, you'll have questions about this simple and innovative plan. We invite you to drop into any Cragin Financial Center to sit down with a Cragin counselor, and discuss all aspects of the Tax Saver Account.

I urge you to act on this remarkable program in the same way smart savers joined our All Savers program in 1981. And, as in the case of All Savers, the earlier you act, the more you benefit.

\*The Tax-Free exclusion is based on current federal tax laws.

## Scuba at Leaning Tower YMCA

Scuba at Leaning Tower Y is a very popular program enjoyed by men and women of all ages, and the 4 enthusiastic instructors are a major reason for this popularity. They are Dick "Moose" Musielewicz, John Palatine, Bob Michaels, and Bob Ramcke. What do these four men have in common? All four love the underwater world and want to share that experience with their many students. They are all Certified "Scuba" instructors and have been working together at Leaning Tower Y for several years.

"Moose" Musielewicz, Prime Instructor and Scuba Program Coordinator says, "I took my basic scuba course in 1963. A friend spent over a year trying to talk me into it. I had no intention of becoming a diver, I just filled in some spare time with lessons. I felt that what I was learning was worth my money even if I never dove. My open water check-out changed that! I absolutely fell in love with the underwater world and have been actively diving and teaching ever since. I enjoyed diving so much that I wanted to help others learn the sport, so I returned to classes as a helper to the instructors. In October 1964, I attended an institute and was

certified as Leader/Examiner. In October 1965 I attended another institute and received my Scuba Instructor rating and have been teaching ever since. I am a Certified Ice-diving Instructor also and hold courses in the Winter. I have helped organize and run countless instructor's institutes over the years. I have made many friends and we are still active divers...some for over 20 years!

If you are interested in exploring the beautiful underwater world, contact Laurie Guth at LTY 647-8222 and she will help you get started on that exciting new adventure. Registration is now being accepted. New classes start Jan. 10.

## Marillac volleyball wrap up

The junior varsity tourney was won by sophomores, Julie Masciopinto, Morton Grove, Carrie Cieslak, Des Plaines and Carol Trail, Glenview.

## Marillac volleyball

The Marillac varsity volleyball team, the Northstars, ended their season with an overall record of 18 wins and 8 losses, undefeated in the GCAC North Division, placing second in the Prospect Tourney and fourth in the Girls Catholic Athletic Conference.

Top spiker for the Northstars was senior captain, Joan Wallenberg and top setter was senior captain, Michelle Webber, both of Morton Grove. Other starting outside hitters were: juniors, Mimi O'Rourke, Bannockburn; Lisa Berens, Glenview; Suzanne Klatt, Morton Grove; and sophomore, Rita Miller, Des Plaines. Back row defensive specialists were: seniors, Peggy Tardif, Northbrook and Eileen Hicks, Glenview; and junior, Lauri Cieslak, Des Plaines.

Sophomores, Keri Kane, Niles and Cathy Stanley, Des Plaines, were gaining experience substituting while senior, Rosemary Maher, Northbrook, was out most of the season with an ankle injury.

Players that had acres from their tough floater serves were Wallenberg, Webber, Tardif and Maher. Wallenberg was named Chicago Tribune "Athlete of the Week" after serving 12 consecutive points that included 7 aces to upset top-ranked Maria High School.

Third-year coach, Janice Brandt from Chicago's Northwest side said, "With only two returning starters, my team members needed a lot of experience to catch up with the veterans of varsity ball.

## Pullen endorsement

U.S. Senate candidate Tom Corcoran, a west suburban congressman who will face incumbent Charles H. Percy in the March GOP primary election, was endorsed Wednesday, Dec. 21 by State Representative Penny Pullen of Park Ridge. The 56th district legislator hailed Corcoran's commitment to Republican principles.

Making her position known at Corcoran for Senate headquarters in Des Plaines, Pullen is the fifth state legislator to publicly back the fourth-term lawmaker for Percy's seat. In his campaign, Corcoran has used a "scorecard" designed to show that Percy's votes are contrary to Illinois Republicans' views, an enlarged version of which is seen in the background.

He has been endorsed by the 13th District Republican Committee.

During the hectic 1980 campaign Forde personally visited with thousands of voters. ## Niles North students announce revue cast

"Help! I'm Caught in a Threadmill and Don't Have Gumboots," is the engaging title of the Niles North High School's Norsecapades, an annual, original student production. According to advisor/producer, Jerry Profit, the school's play production class is responsible for the scripts and music.

The "Second City" style review touches a variety of issues relating to contemporary life. "Five Minute Madness" reveals the superficiality of teenage relationships, while "Clichee Clan" and "The Brady Bunch" depict two rather different family situations.

Off the wall zaniness develops when the going gets hot for a bunch of kernels beginning survival techniques in "Kamakazi Kernels." The show continues a paradoxical view on the world of

music. "Freshman Blues" treats the problems of the first year of high school; "Nuclear War" deals with changes in the neighborhood; and "Inflation Shuffle" brings out new teaching techniques in economics.

Students Allison Anderson and Jamie Davidson are co-directing Norsecapades. Other production staff members include Lena Akelian, assistant director; Kip Helverson and Carolyn Schubert, co-choreographers, Audrey Becker, musical director; Wayne Gordon, combo director; Kathy Fritchie, technical director; Jordan Sigale, business manager. Mr. Frank Mayfield is technical advisor.

The cast includes seniors Elaine Bauer, Lisa Blumberg, Cathy Klashin, Cindy Sadkin, Alene Zohn, Ching Wa Lee, Danica Katz, David Morse and

And Russell, juniors Mark Applebaum, Richard Sugarman, Matthew Lerner, Nancy Sangerman and Joan Friedman; sophomores Steve Dieter, Joey Meyer, Robert Katz, Tracy Paige, Susan Sommers, and Lisa Bany; and freshmen Dan Sigale, Scott Hirschman, Ed Mussman, Steve Singer, Jacki Greenberg, and Jenny Berman.

The show will be presented January 20-21 at 8 p.m. Tickets, priced at \$3.50 for reserved seats, will be available at the door or by calling 673-8900. Niles North High School is located in Skokie, immediately west of the Old Orchard Shopping Center. Senior Citizens are invited to a free performance on Thursday, Jan. 19, at 1 p.m.

## North auction raises funds for Variety Club

Last month's biggest holiday question was, "Where can one purchase a 'Lady Bullworker' from The Video King, a genial lunch with Niles North High School Principal Galen Hostler, a Total-Waistline Tightener Wheel from Fitness Awareness and a batch of teacher Dave Jackson's homemade fudge and, simultaneously, raise \$1,500 for a group of children's charities and hospitals?"

The answer was the annual Niles North High School Student Congress Auction held in December for the benefit of The Variety Club of Chicago's charities. These include, in part, The Neediest Children's Fund, Little City's Karen Kupciet Center, and Children's Memorial Hospital.

In the months preceding the auction, Student Congress mem-

bers, under the direction of students Allison Anderson of Niles and Bonnie Slagel of Golf, solicited area businesses as well as their teachers and administrators for donations. On auction day itself, bids were submitted over a six hour period. "Some of the most popular items were Principal Hostler's luncheon which sold for \$36 and Spanish teacher Steve Rosenzweig's own gourmet dinner for four which brought in \$110," explains Slagel.

The students will present their check during the Variety Club's first annual television on WGN-TV, Channel 9. The television is scheduled from 10 p.m. on Feb. 11 through 6 p.m. on Feb. 12. The North students will probably appear between 9 and 11 Sunday morning.

### CitizensBank increases savings rate

Sherman E. Peterson, President and Chief Executive Officer of Citizens Bank & Trust Company, has announced that beginning January 1, 1984 the bank will increase its passbook and statement savings rates by 1/4% to 5-1/2%. Interest will be compounded daily to provide customers with an effective annual yield of 5.65%.

The increase in savings rate is the result of action taken by Federal regulators earlier this year to remove the savings account interest rate differential favoring Savings & Loan Associations. Interest rate

ceilings on virtually all other deposit accounts were removed on October 1, 1983.

"We are very pleased to announce this change to our customers. Commercial banks, including CitizensBank, have worked long and hard to have the interest rate differential removed, and our customers are being rewarded for our efforts," stated Mr. Peterson.

CitizensBank, Located in Park Ridge, has total assets of over \$400 million, making it one of the largest banks in the Chicago suburbs.

### The President's Perspective

By Eugene J. Rudnik, Jr., President  
Peerless Federal Savings

For some time now, we have been touting PEERLESS as your "Full Service Family Financial Center." This is not designed to be a catchy-but-meaningless phrase; rather, it is the guiding force in our decision making process.

With the advent of de-regulation in the financial industries, each financial institution could begin to determine the clientele it wished to serve and could develop products, services and marketing techniques to best meet the needs of that chosen clientele. It was the analysis at PEERLESS that our roots lie in the local communities in which our various offices are located. For almost fifty-six years PEERLESS has made successful use of its limited regulatory authority in serving these communities, and it is our belief that our future success in a de-regulated environment will be enhanced by continuing to serve these local communities. In doing so, we must concern ourselves with the needs of the individuals, the families, and the small businesses which comprise the communities.

In attempting to meet those needs we have developed new products on both our lending side and on our savings side. In the lending area, we now offer first mortgage loans, home improvement loans, home equity loans, secured personal loans, and auto loans, and we will soon have a student loan program available. In the savings area, we have products ranging from demand accounts to six-year certificates, all of which carry a market rate of interest. They are designed to meet the needs of practically any potential customer from the teenager saving for college expenses to the young family budgeting for their first house to those starting to plan for retirement to the retired who are living on social security, pension, and interest. For many of the small business entities, we can provide interest bearing checking accounts, investment accounts, Simplified Employee Pension Plans and payroll deduction I.R.A. and/or savings plans for their employees.

Beyond the familiar savings and lending areas of our business, we have expanded into other service areas as well. For example, we have been offering financial planning services at a very competitive cost and have offered investment shares in real estate limited partnerships. Recently, PEERLESS became a member of the automated clearing house, which will enable many of our customers to have their payroll, pension, dividend and other regular payments deposited directly into their PEERLESS account.

I hope it is evident in all of the communities served by PEERLESS that we are dedicated to service your needs, that we are developing products to do so, and that we are being transformed into your "Full Service Family Financial Center."

### Peerless' Philosophy

By Timothy P. Sheehan, Chairman  
Board of Directors  
Peerless Federal Savings

During PEERLESS' 56 years in the savings and loan business, one of our foremost business philosophies, constantly stressed by our Directors and Officers, has been to personally know as many of our customers as possible.

We also strive for growth; however, in growing, we do not want to lose the personal touch with our customers. Have close to \$140 million in assets, PEERLESS ranks in the upper 25% in size nationwide in our industry.

Yet, many of our customers who have done business with the big downtown banks and savings and loans, as well as many outlying depository institutions with over \$400 million in savings, tell us about the impersonal attitude and coldness of the employees of these larger institutions. Their customers seldom ever get to know a teller or person who contacts the savings customer, let alone a first-time Officer or Director.

Here, at PEERLESS, our key Officers and Directors personally know a great number of our customers and, as a matter of company policy, we are always available to any customer who wants to talk with us.

At our Main Office, and especially at our branches, our personnel receive a tremendous number of compliments because they know and service our customers so well, and because we actively work for and engage in community activities.

How many of the large institutions can point with any pride to such a record? As a matter of PEERLESS' personal philosophy, we never want to grow so large that we lose the personal touch and will always continue to personally know and be helpful to our customers and our local community.

### Chicago Women in Cable

Joan M. Etten, program manager for Group W Cable, Skokie, was selected 1984 President of the Chicago Chapter of Women In Cable, a national organization comprised of local chapters across the United States.

As the new President, Etten will lead the 120 member chapter in monthly meetings, organize a membership drive, prepare an operating budget for the organization and encourage joint meetings between Women In Cable and broadcast and advertising organizations.

Etten, who served as the 1983 Vice President of Women In Cable, wants to involve both men and women working in the cable industry and related fields to become active in the organization. Etten hopes to encourage additional membership from those in customer service and technical staff positions. "I am hoping to attract professionals of both sexes who want to further Women In Cable with the goal of increasing our visibility in the industry," Etten said.

Etten has been active in Women In Cable for three years and was co-founder of the "Women In Cable Award" (WIC Award) for excellence in cable television production.

Etten received both a Master of Arts in Radio-TV-Film in 1980 and a Bachelor of Science in Speech in 1979 from Northwestern University. Prior to her appointment at Group W Cable, Etten was supervisor of television programming and production at Triton College in River Grove.

Women In Cable offers its members the opportunity to develop and practice leadership and organizational skills. Monthly meetings focus on issues and experiences that broaden industry knowledge and further professional development.

school district 63 and was  
representing the district.

The drawing was a simple  
one. Business manager Jim  
Bowen told us he thought it  
looked like it was drawn by a  
first grader. But what do  
business managers know?  
Their favorite kind of art has  
surrealistic blue ledger sheets  
as background to large "S"  
strokes which have vertical  
lines piercing their centers.  
The more artsy among us  
might call Miro's drawing a  
form of primitive art. If it was  
not "primitive" then certainly  
it was "primary"...for kids in  
the primary grades.

The school teacher refused  
to relinquish the drawing. He  
said he initiated the action  
which brought the drawing to  
the district and he felt he was  
the rightful owner of the art  
work.

In came the lawyers (you  
know, these guys will get their  
fingers in the pie somehow)  
and they began their  
"whereases" and "on behalf  
of's" and it soon got out of the  
hands of the kids it was intro-  
duced for. After much pushing

and pulling and a lot of  
jawboning, the drawing  
wound up at the Northern  
Illinois Foundation for its art  
department where it would be  
displayed for its students and  
the general public.

The lawyers had teacher  
Silberman and the school  
district sign away their rights  
to the drawing and it was  
transferred to the De Kalb  
campus for public view.

It ended a sour chapter to  
the holiday season. Miro had  
written, "Merry Christmas  
To The Oak School Eleme-  
ntary School of Niles".

Today, the youngsters in  
those art classes are probably  
in high school. The Oak School  
has been shuttered. And the  
kind Joan Miro has passed on.

It's not much of a story. But  
we hope Miro's kindness  
might have left a small mark  
on the children who received  
the drawing. And we hope  
Miro never heard about the  
battle over who owned the  
drawing. It certainly  
destroyed the spirit in which it  
was given. And it didn't do  
much to add to the spirit of the  
season.

Schnurr, and his team won four  
CSL conference championships,  
four regionals and two sectional  
championships. "Billy's strength  
lies in his knowledge of the game,  
and his analysis of individual  
player strength," says Jerry  
Turry, the Niles West High  
School athletic director. "His  
teams were earmarked by  
aggressive defense and strong  
self-discipline," Turry adds.

Since resigning as head  
basketball coach in 1977, he has  
been the head baseball coach for  
three years, and has continued  
coaching soccer. For ten years,  
the first ten he spent in the  
district, Schnurr also coached  
football, either as an assistant  
varsity or a lower level head  
coach. During the 1975-76 school  
year, he held coaching positions  
in three sports.

"Mr. Schnurr's record carries
