Bacher petition figures near 1,000 mark

by Bob Besser

Nearly 1,000 Niles residents have signed petitions calling for Niles' new public works garage to be named for long time village employee Eddie Bacher. Petitions have been circulated at numerous senior citizen activities, area church activities and in

the Huntington senior citizen home, according to Niles resident Mike Provenzano. Niles Park Board President Elaine Heinen, who is also distributing petitions, said on Wednesday that the petitions will be presented at the Niles Village

Board meeting on April 24. Heinen said numerous people representing different organizations throughout Niles are currently circulating petitions. During his career in the village of Niles, Bacher worked in the

fiscal year is \$10,580,800

Niles budget appropriation increases 3%

At Tuesday night's Niles village budget meeting the appropriation for the upcoming 1984-85 fiscal year was repeated to increase about 3 percent to \$10,580,800.

The \$342,700 hike will not cause an increase in taxes since sales tax revenues are estimated to increase to \$304,000 for a total of \$5,000,000. Sales tax revenue for Niles accounts for 50 percent of its total budget.

The two-consecutive night budget meetings are held at Niles administration building. Village trustees hear department head review their budget needs for the year and hold an informal

discussion on proposed plans. Because it was a continued meeting actions approved Tuesday night were official.

Among the random topics discussed: The RTA reimburses Niles 25 cents per senior citizen rider on its municipal buses. Sixty percent of the riders on these buses are seniors. Niles receives about \$7,200 a month from the RTA for its bus system.

Blase coined the word "Molloycock" to describe the "tradition" police departments have of reimbursing policemen for their civilian clothing allowances.

Niles West Recycling a model project

Recycling Awareness Week which is April 22-28 has special significance to all residents of the North Shore, as it serves as a reminder of the impending landfill crisis and the important benefits that a successful recycling program has in minimizing that crisis.

Recycling municipal residential waste such as glass, cans, and newspaper reduces the amount of waste that we must dispose of in area landfills. Recycling has never been more important, as it not only saves large amounts of energy in some cases as much as 95% of the energy used in manufacturing new products but it also reduces Air, Land and Water pollution as well.

In the wake of the landfill

reduction and the belief in a new environmental ethic, the State of Illinois recognizes the achievements of several North Shore communities who have established recycling programs. Niles West High School operates one of the largest Environmental programs in the state. The high school program serves as a model program for the Illinois Department of Commerce and Community Affairs, in their efforts to promote programs throughout the state.

The Niles West High School Recycling Program is under the supervision of West-High Building Manager James Swanson and is directed by George Brabec. The program is operated entirely by students of

Thoughts on Man's Purpose in Life
by Admiral H.G. Rickover
at the Oakton Community College
Des Plaines, Illinois
Thursday, 5 April 1984

Voltaire once said: "Not to be occupied, and not to exist are one and the same thing for a man." With those few words he captured the essence of a purpose in life: to work, to create, to excel, and to be concerned about the world and its affairs.

The question of what we can do to give purpose and meaning to our lives, has been debated for thousands of years by philosophers and common men. "Let today we seem further from the answer than before. Despite our great material wealth, and high standard of living, people are groping for something that money cannot buy. As Walter Lippman said: "Our life, though it is full of things, is empty of the kind of purpose and effort that gives to life its flavor and meaning."

I do not claim to have a magic answer. But I believe there are some basic principles in existence, propounded by thinkers through the ages, which can guide us toward the goal of finding a purpose in life.

Among these principles of existence, responsibility is the one which forces man to become involved. Acceptance of responsibility means that the individual takes upon himself an

"To be an intellectual, one's mind must be in constant movement. A life of learning is a lifetime of all the excitement of a discoverer."

obligation. Responsibility is broad and continuous. None of us are ever free of it, even if our work is unsuccessful.

Responsibility implies a commitment to self which many are not willing to make. They are strongly attracted to accepting a course of action or direction for their lives which is imposed by an external source. Such a relationship absolves the individual from the personal decision-making process. He wraps himself in the security blanket of inevitability or dogma, and need not invest the enormous amounts of time, effort, and the thought required to make creative decisions, and to meaningfully participate in the governance of his life.

The sense of responsibility for doing a job right seems to be declining. In fact, the phrase, "I am not responsible" has become a standard response in our society to complaints on a job poorly done. This response is a semantic error. Generally, what a person means is: "I cannot be held legally liable." Yet, from a moral or ethical point of view, the person who disclaims responsibility is correct: by taking this way out, he is not responsible; he is irresponsible.

The unwillingness to act and to accept responsibility is a symptom of America's growing self-satisfaction with the status quo. The result is a paralysis of the spirit, entirely uncharacteristic of Americans during the previous stages of our history. An 1875 Jewish catechism asks: "What are the consequences of an inactive life?" and answers: "The consequences of an inactive life are disease, poverty and misery."

The task of finding a purpose in life calls for perseverance. I have seen many young men rush out into the world with their messages, and when they find out how deaf the world is, they withdraw, to wait and save their strength. They believe that after a while they will be able to get up on some little peak from which they can make themselves heard. Each thinks that in a few years he will have gained a standing, and then he can use his power for good. Finally the time comes, and with it a strange discovery: he

Program designed to help older or homebound residents Postal Alert Program to begin in Niles

Homeowners deadline extended
Maine Township Assessor, Roy H. Bergquist, announced that the deadline for filing Homeowners Application has been extended to May 31.

The Homeowner's Exemption now provides an annual property tax savings of up to \$350 to those who live in their own single family home, condominium, co-operative or apartment building, of six units or less.
This year the Homeowners Exemption has been raised from \$3,000 to \$3,500. It now eliminates up to \$3,500 of the increase in a home's tax value over what it was in 1977.

To be eligible for the Homeowners Exemption you must answer positive to two questions:
1. Did you reside on this property as of January 1, 1983?
2. Did you own this property as of January 1, 1983?

This exemption will reflect on the second installment tax bill mailed to you this summer.
Senior Citizens who will be receiving the 1983 Senior Citizens and or relatives. These cards are

kept on confidential file at the senior center. The Center will notify the post office of those persons in the program. Your letter carrier will then place a decal inside your mailbox. This decal will remind your carrier to watch your mailbox daily for uncollected mail. Only you and your carrier know the sticker is there.
If your carrier finds uncollected mail for a period of 2 mail delivery days, he will report your name to his postal supervisor who will in turn contact the Niles Senior Center. The staff at the center will try to contact you by phone to see if you need help. If unable to reach you, the staff will contact the neighbor or relative you have listed on the registration form. If your neighbors or relatives cannot be reached, a home visit will be made by the senior center staff.
One important reminder is that a person must notify the senior center and his letter carrier if he will be away from home for a few days and unable to collect his mail. Also, it will be important to notify the center with any changes in emergency program.
For more information regarding this program, please contact the Niles Senior Center, 967-6100, ext. 376.

Who drives your car? Regular operators of your vehicle should be listed on your policy, particularly those who are under age. However, if a relative visits from out-of-town some weekend, you're covered if you let him drive.

Flood insurance is not covered on general homeowner policies. Only certain areas qualify for the federal National Flood Insurance Program. Check with your broker.

Some plastic body parts on cars can now be welded with a new hotair technique or with liquid welding. Fiber glass repair requires glass cloth and resins.

The newest travel insurance protects against rain on your holiday. One policy pays off if it rains 1/4 inch or more during 3 hours between 9 and 5.

Niles Assembly of God

Jesus is the solution to your problems! At face value that statement does not sound very profound unless you really know Him and what He is able to do for you and your family. That is why Niles Assembly of God exists. We are bringing to you the Gospel message and a chance to become a new creation. "Therefore, if any man be in Christ, he is a new creature; old things are passed away; behold, all things are become new." (2 Corinthians 5:17)

Come the Niles Assembly of God, the church where people count. We are located at the Niles Sports Complex at 8435 Ballard rd., where we meet in a lower level room on Sunday mornings at 10:30 a.m. Watch for the sign as you walk through the front entrance.

The next Home Bible Study is Friday, April 13, at 7:30 p.m. We meet together at 7731 W. Jerome st. (1/2 block south of Howard at Overhill). For further information call 794-1148.

The Church School students will bring in their One Great Hour of Sharing Offering to be dedicated with that of the adults as a part of their Lenten observance. Wed. Seelen, pastor, will speak on the meaning of Palm Sunday and the Sanctuary Choir will sing special anthems. At the end of the service, everyone present will receive a palm as a memento of the day. Earlier that morning, the Men's Breakfast Group will meet for a program on the Presbyterian Hunger Fund.

Church meetings and activities during the week of April 16 will include: Monday, 1 p.m.-Stewardship Committee; Wednesday, 10 a.m.-World Service Work-Day; Thursday, 7:30 p.m.-Maudy Thursday Communion Service (in all-purpose room, around tables); and, Friday, 7:30 p.m.-Good Friday Service (in Sanctuary).

Only "The Beginning," Worshipers traditionally leave the Sanctuary in silence at the close of the Service. The wooden cross, which stands at the Altar during Lent, is made from the trunk of one of the Church's former Christmas trees. On Easter morning, it will be covered with flowers and greenery - a beautiful reminder of the close relationship between the birth, death, and resurrection of our Lord.

Political undertones in zoning decision?

An open letter to Mayor Flickinger: We are responding to your "Mayor's Message" in the Morton Grove Exchange. We and most of our neighbors in the north east section of Morton Grove are adamantly opposed to the rezoning of the stable properties at Golf and Harms rds. The reasons for our opposition should be obvious to you. We are in a residential community. We purchased property here because of the nature of the area and have appreciated the quality of life that this kind of neighborhood affords.

Is the stable rezoning a detriment or a boon for the citizens?

Dear Editor: In making a decision on the proposed Harmswood Office complex site, (southeast corner of Golf and Harms rd. (Central), I am requesting that the Plan Commission consider the following questions before making their decision because of the immense revenue which would be lost to the Village of Morton Grove if the proposal is rejected.

1. When a community has almost 25% of its surrounding area in forest preserve, is it fair to ask it to supply more? 2. What is the difference in regard to aesthetics, between a well-structured attractive office building and the parking lots which occur on Golf rd. almost without interruption all day long. (The sleepy little Village of Morton Grove that existed when the Gardner Plan was initiated in 1959 is no longer). Morton Grove is a much more diverse community now than it was then. It is a metropolitan community with varied residents with individual problems and needs. The traffic flow on the Village main arterial streets bears this out.

Years ago, the horses that added charm and beauty to our Village have now become a momentous hazard. The horse stables which are on the opposite side of the road from the bridge paths necessitate the horses crossing both Golf rd. and Harms rd. in order to reach these paths. Some horse riders can control their horses and some can't; thus, creating a hazard each time a horse is taken out for a ride.

3. Will traffic be increased with an office complex on this property? It is assumed that because of the large populated areas to the west and north of the Village, people coming to an office at this site, many who work in the neighboring suburbs or downtown Chicago, would most likely be going past this location anyway. The only difference that I can see is that the Village would be compensated for the heavy flow of traffic that passes through our Village each day.

4. Will the office complex flood our basements? Since the plan submitted by the developers includes an on-site water retention basin, I don't think so.

5. Because of the open structure of stables, are they not a harborage for all kinds of rodents? Would not a well structured building such as is proposed, divert these rodents back to their natural habitat.

6. Are not our bicycle paths overcrowded with bicyclers, joggers, and walkers. Would it not be great if we had two paths, one for one way and the other for the opposite direction; thus, eliminating the occasion for accidents and making it more pleasurable and safer for all users, including many Morton Grove residents. (The bridge path now used for horses could be the other path).

7. Will the surrounding areas be rezoned? It has been verified by the Planning Department at the Village that only the land to be used for the office building will be rezoned.

8. Last, but most important, is it ethical and morally justifiable to place additional burdens on

Bacher deserves the honor!

Good morning, For the past 15 1/2 years, I've been a resident of the Village of Niles. During this time I've heard of, met and learned to respect Mr. Eddie Bacher Sr. It does seem appropriate and in good taste to name the new Public Works building in his honor. I think he deserves it!!!

DENTAL DIGEST
BY

GARY M. LaMANTIA, D.D.S.

People who habitually clench or grind their teeth (bruxing) often experience problems such as muscle soreness or headaches. Bruxism is also detrimental to the teeth, as this trauma can wear teeth down, damage the supporting foundation of the teeth, and can even ruin existing restorations. Over time this habit can have harmful effects on the temporomandibular joint (the jaw joint). To eliminate the harmful effects of bruxing, patients are fitted with a nightguard. This is a soft plastic appliance worn on the upper teeth. It is generally worn while sleeping, when bruxing may be most active. The nightguard acts as a cushion between the teeth and will protect them from the traumatic effects of bruxism.

Lutheran General to use birth defects computer

Lutheran General Hospital (L.G.H.) announced today that it has been awarded a grant to cover the cost of using a special birth defects computer that can diagnose some 1,000 different birth defects. The access to the computer, called the Birth Defects Information System (B.D.I.S.), is paid for by a grant from the March of Dimes to the hospital in cooperation with the Center for Craniofacial Anomalies at the University of Illinois.

Part of a national network, B.D.I.S. has three applications. It retrieves up-to-date information about known birth defects, it can assist in the diagnosis of a birth defect, and it serves as a national registry for unknown birth defects.

It is estimated that 250,000 children (seven percent of all deliveries) are born with birth defects of varying severity.

While this computer is in no way intended to take the place of a physician, it can help a doctor accurately diagnose a patient's condition.

"Some birth defects are statistically so rare that a doctor is not likely to see an example in his or her entire career," explains Dr. Celia Kaye, co-director of the

Discussion on Cardiac Arrhythmia

"Cardiac Arrhythmia" will be discussed by Dr. V. Ramesh, Cardiologist on staff at Holy Family Hospital at the Tuesday, May 1 meeting of the Northwest Suburban Counter Attack Club.

The lecture will provide greater understanding of cardiac rhythm. Information about the basic function of the heart including the electrical and mechanical functions of the heart will be discussed.

Holy Family's Cardiac Rehabilitation staff will be available at 7 p.m. for free blood pressure screenings. The meeting begins at 7:30 p.m. in the hospital's Auditorium. For more information or to register, call 297-1800, Ext. 1174.

L.G.H. Genetics Section. "In addition, there are hundreds of birth defects which can occur singly or in combination. The findings of one syndrome frequently resemble the findings of others. All this makes it difficult, at best, for the average physician to accurately diagnose a syndrome."

In order to assist in making a diagnosis, a geneticist or genetic counselor enters the patient's history and physical findings into the computer. The computer then may return a series of questions. Finally, the geneticist is given five or six possible diagnoses, ranked and scored according to degree of likelihood.

B.D.I.S. was developed by the Center for Birth Defects Information Services at Tufts-New England Medical Center. Stored in the system are clinical, demographic, and epidemiologic pieces of information.

Enjoy Tax Savings Today At The Morton Grove Bank.

Earnings the taxman can't touch...

The IRA is the ideal tax shelter plan for every wage-earner. Every dollar you contribute can be deducted from your taxable income on Federal and State income tax returns. This can put you into a lower tax bracket and result in even greater tax savings. And the interest you earn accumulates and remains tax deferred until you begin withdrawing the funds at retirement.

Every wage-earner can contribute up to \$2,000 annually or 100% of their earned income, whichever is less. A spousal IRA allows the working spouse to contribute up to \$2,250 annually, and working couples filing joint returns can contribute up to \$4,000 annually.

Choose the savings plan that's right for you...

Fixed Rate Plans — For greater flexibility, The Morton Grove Bank offers three types of fixed rate IRA savings plans. Choose from the 6-month, 18-month or 30-month certificates. The plans can be opened with a \$500 minimum and they earn at a high rate of interest that remains fixed for the length of the certificate.

Variable Rate Plan — This plan is designed for the investor who chooses to make deposits periodically to the account. The 18-month plan can be opened with a \$500 minimum and additional deposits can be made automatically from another bank account or at teller and drive-up windows.

Corporate IRA Payroll Deduction Plan

The Morton Grove Bank offers this plan to companies with 10 or more employees participating in the program. The minimum deduction is \$40 per month per employee, and there is no minimum for opening the account. If your company does not currently offer such a plan, call us for further information. We'll be happy to make a visual presentation at no charge.

Withdrawing from your IRA...

You can begin withdrawing funds from your IRA at age 59½, either in a lump sum or periodically as you need the money. The withdrawals are taxed as ordinary income at retirement, but because you'll probably be in a lower tax bracket, you can enjoy additional tax savings. Early withdrawals are allowed, but Federal laws do require a substantial penalty, except in the event of the owner's death or disability.

The IRA... a smart investment for your future.

We specialize in flexible IRA savings plans that offer competitive interest rates and are backed by FDIC Insurance. For more information, stop in today and see one of our highly trained IRA specialists. We'll be glad to provide you with a free IRA calculator, so you can see how your contributions will accumulate and grow substantially in an IRA savings plan at The Morton Grove Bank.

NOW IS THE TIME TO TAKE ADVANTAGE OF A YEARLY TAX SHELTER, WHILE YOU BUILD A SOLID, RISK-FREE INVESTMENT FOR YOUR FUTURE.

Citicorp Savings announces \$200-million mortgage lending program

Citicorp Savings of Illinois, formerly known as First Federal Savings and Loan Association, today announced details of a new \$200-million adjustable rate mortgage lending program to begin April 7, 1984.

Under the program, Citicorp Savings will guarantee current mortgage interest rates for the first loan year on all adjustable-rate, 30-year, first-mortgage loans closed before Sept. 1, 1984. The application deadline is July 15.

The program will continue until Sept. 1 or until \$200 million has been committed, said Barry C. Burkholder, chairman of Citicorp Savings.

"This is an example of the innovative products at competitive rates that we will be offering to consumers," he added. "The \$200 million, earmarked for this one mortgage program is double the amount of mortgage loans made by this association during all of 1983."

Borrowers will have their choice of three adjustable rate mortgage (ARM) options in financing single-family houses, as well as qualified condominiums and townhouses:

An initial interest rate of 9.875 percent, plus a 3 1/2 percent service charge, with the rate adjusted annually thereafter to a level 2 1/2 percentage points over the current average one-year

Treasury Bill rate. However, the rate cannot move up or down more than 2 percentage points in any 12-month period, or more than 6 percentage points over the lifetime of the loan.

As an example, a 30-year mortgage loan closed today in the amount of \$70,000 with the initial interest rate of 9.875 percent will have monthly payments of \$607.84 during the first loan year. (Because of the 3 1/2 percent origination fee and the variable interest rate after the first year, however, the effective Annual Percentage Rate would be 12.35 percent.)

An initial interest rate of 10.875 percent, plus a 1 1/2 percent service charge, with the rate adjusted annually thereafter to a level 2 1/4 percentage points over the current average one-year Treasury Bill rate. However, the rate cannot move up or down more than 2 percentage points in any 12-month period, or more than 5 percentage points over the lifetime of the loan.

As an example, a 30-year mortgage loan closed today in the amount of \$70,000 with the initial interest rate of 10.875 percent will have monthly payments of \$660.02 during the first loan year. (Because of the 2 1/2 percent origination fee and the variable rate after the first year, the effective Annual Percentage Rate would be 13.28 percent.)

Oliphant ave., Chicago, with Services at the usual hours of 7:45, 9 and 10:45 a.m., with special music by the choirs and direct broadcast over WOPA-AM, 1490 kh., from 9:30 to 10 a.m. The sermon theme will be "One in Suffering and Death." Palm fronds will be distributed after each Service. As usual, the children will come forward to the front of the Church to listen and participate in the Children's Sermon.

During the Palm Sunday Services, twelve men and women of Edison Park Lutheran Church will be commissioned as Stephen Ministers. These lay ministers have received over fifty hours of Stephen Series training, along with Bible Study and prayer and have made a two year commitment to assist the pastors in the caring ministry of the congregation. Their twenty weeks of training include such topics as feelings, listening, assertiveness training, confidence, crisis, theory and intervention, telecare, use of prayer and the Bible, the "small step" approach, other specialized needs and topics on grief, divorce, depression, older persons, stress and more.

The Stephen Ministry is a well-developed method of training and organizing lay persons with the congregation for caring ministry. It is people ministering to other people who may be lonely, depressed, strangers in the area, new parents, ill, hospitalized, shut-in, dying, or experiencing grief or loss in any situation, to name only a few. The Stephen Minister is trained to do this and receive referrals from the Pastors and Parish Worker.

It is called Stephen Ministry after the first Deacon in the early church, Stephen. What many people do not know is that Stephen, besides being a martyr, was commissioned by the apostles to do acts of caring ministry, reaching out to those in need in the Christian community of his time.

Future producer hosts WMTH morning show

If you are ever up at 7 a.m. and are in the mood for some good music, turn your radio dial to Maine East's own WMTH Morning Show.

The Morning Show is hosted by one of Maine East's most ambitious students, Jay Smith, who is a 16-year-old junior living in Morton Grove.

Many things inspired Jay to try and host the Morning Show, but he says the main reason is because "of my desire to entertain people through the air waves."

Another reason that inspired him to do the Morning Show is, "I wanted to be the first person to have their own daily show before 9 a.m."

Besides hosting the Morning Show, Jay is also actively involved in announcing Demon football and basketball games

both for WMTH Radio and WMTH Television. He also serves as News director for WMTH-FM.

Even though Jay likes both football and basketball very much, his favorite sports are boxing and baseball. Jay admires many boxers, but he says he admires lightweight contender Bobby Chacon the most because "he is the most determined fighter I have ever seen and will never give in to anyone." Jay also admires many baseball players but one that stands out most for him is Chicago White Sox first baseman Mike Squires because "he knows his role on the team and does whatever he is told to do so it will benefit the team."

Another challenge for Jay is being an umpire for the Morton

Grove Little League. This past summer was Jay's first season as an umpire, and he says that he would like to do it again next season. Jay says that "I enjoy umpiring because it lets me make important decisions without the help of others."

Having such a busy schedule, Jay rarely finds much free time. When he does, he likes to go to the movies or see his girlfriend C.J., who is a junior at nearby Niles North High School.

Even though Jay does not know where he will attend college, he plans on majoring in communications and hopes one day to be a television or movie producer or director, but right now Jay is content with "doing it in the morning," at 7 a.m. on WMTH 88.5 FM.

Big Brothers/Big Sisters benefit dance

Sheriff Richard J. Elrod has announced that a Chicago community leader and philanthropist will be honored by the Big Brothers/Big Sisters of Metropolitan Chicago.

Howard C. Medley, Sr., a member of the Board of Directors of the Big Brothers/Big Sisters program, will be honored at a dinner at 8 p.m. Tuesday, April 10 in the Grand Ballroom of the Conrad Hilton Hotel.

Sheriff Elrod, who is vice

president of the volunteer program and who is chairman of the dinner, said Medley was being honored for the many years he has devoted to improving the welfare of children.

Big Brothers/Big Sisters is a private, not-for-profit social service agency which matches adult volunteers with children ages 7-16 from single-parent homes on a one-to-one basis.

Contributions to the \$100-a-

plate fund raiser honoring Medley will help support the program, which receives no funding from United Way. Tickets are available by contacting Big Brothers/Big Sisters at 427-9631.

Medley is president and chief executive officer of Medley's Seaway National Bank; vice chairman, Chicago Transit Board of Directors; and former commissioner, Cook County Board of Election Commissioners.

Maine East junior sings way to stardom

There are many ways to touch the heart and soothe the soul, but who better to obtain this colossal talent than Maine East Junior Karen Olson.

This talented young lady has been singing since infancy. Yes, she went from humming, "Mary Had A Little Lamb" to "Evergreen," which she so intimately sang at this year's V-show.

The poet Montequier once said, "Talent is a gift which God has given us secretly, and which we reveal without perceiving it." Singing has been Karen's life if not on stage then in her free time. Karen's goal in life after Maine East is to go onto college, one that can offer her the best schooling in; "Theatre Arts, Stage Musicals, and a basic foundation for a future career in the recording industry."

Karen has been in several school musicals, including a solo in "Oklahoma" at Apollo during 8th grade and then the musical "King and I" during Karen's sophomore year.

A performer has that special feeling before he endures another performance. Some emotions felt before a performance explains Karen are, "Nervousness, just plain nervousness." Although she has been in the limelight for years now, she says, "Every show must be conquered individually."

This Spring not only brings flowers, April showers, and sunny days but the musical "Hello Dolly." Karen plays Irene Molly, a major role second to Mrs. Dolly Levi played by Kim

Niles West band heads south

Geography lessons are not usually a part of high school music education. But, at Niles West, the music department has been doing its best to provide these during more than ten years of music tours. Throughout that time, students have visited and performed in localities ranging from Canada to Louisiana, and Colorado to New Jersey.

This spring, the music students, the Orchestra dance troupe, and twelve chaperones will head south to Disney World and Epcot Center on April 10 for five days. During that time, the 152 students will lead the Mickey Mouse character parade at Disney World, give a concert at Epcot Center, and also perform at a junior high school, and in a shopping center. The concerts will also include performances by the Orchestra dance troupe, which will present selections from its recent dance concert, "Diversitarian Tactics."

The Niles West band is one of 12 such high school groups selected to perform at Epcot this spring from among approximately 160 applicants. "We are very pleased that our students were selected for this honor," said William Koch, the school's band director.

When not performing, the students will explore Epcot, visit Kennedy Space Center, and take advantage of other local attractions.

"We believe that our students gain maturity and self-confidence through these tours, as well as a broader understanding of people in other communities," said Jack Lorenz, the director of fine arts at Niles West.

Culver Concert Band wins First Place

The Culver Elementary School Concert Band won a First Place rating at the Illinois Grade School Music Association District Band Contest held on March 17, at Nichols School in Evanston. Ten school bands participated in the contest. Each band performed three selections and was rated by three judges. The selections performed by the Culver Band are "The Original Thirteen Concert March" by James Ployhar; "Great Lakes Overture" by Jerry Nowak; and "Novena" by James Swearingen.

Mrs. Jacqueline Tillis directs the Culver Concert Band and teaches the woodwind and percussion students. Mrs. Donna Bressler is the brass instructor. The 39 band members are: Flutes-Lori Yetter, Mindy Shif-

Community Concert performances

The New York Light Opera Company, Max Morath Quintet, and "Toccatas and Flourishes" are the three special attractions to be offered by the Community Concert Association during its 1984-85 season. These concerts, which should appeal to all members of the family, and individuals, are scheduled for the fall and spring at either Maine Township High School East (Park Ridge) or Maine High School West (Des Plaines), on Sundays.

The New York Light Opera Company will feature four singers combining their flawless musicianship with the finest and most delightful works of the extensive operetta repertoire - Victor Herbert, Romberg and many others. Using few props, lots of humor and a touch of class, the Company has won rave review wherever they appeared.

The Max Morath Quintet offers an evening of "Pop Goes the Music!" American popular music and how it got that way, including ragtime, and well-loved music by Irving Berlin, the Ger-

shwms and numerous other composers. With genial Max Morath leading at the piano, other include virtuosos on guitar/banjo, saxophones, clarinets and percussion.

Max Morath's programs for PBS on ragtime and popular music have become classics over the years. Here is an opportunity to see this group in person.

Sounds of pageantry and grandeur fill the air when "Toccatas & Flourishes" appear on stage. The team of Richard Morris, organist, and Raymond Mass, trumpeter, continue to be one of the most popular duos currently performing. They bring classical music and unique humorous insights to their captivated audiences.

Tickets for the three concerts are available only by season ticket. The price for individual tickets is \$15 for the three programs. Family memberships are \$37.50, and Student memberships are available at \$7.50. For information, call 825-2982 or 824-2677.

Pianist in concert at Maine East

Pianist Constantine Orbelian will be featured at the final concert of the Community Concert Association's 1983-84 series, Sunday, April 15, at 7:30 p.m., in the Maine East High School auditorium, Dempster and Potter, Park Ridge.

Mr. Orbelian recently completed his musical studies at the Juilliard School of Music. At the

age of eleven, he made his debut as soloist with the San Francisco Symphony. The talented pianist has given recitals in major cities in the United States, Canada, England and France, and has won numerous awards and competitions.

Current non-subscribers will be admitted free to this musical event, if they sign up for the new 1984-85 series of concerts.

Three outstanding musical programs have been scheduled, including appearances by the Max Morath Quintet (ragtime and other popular music), frequently seen on PBS; The New York Light Opera Company; and "Toccatas and Flourishes", with organist and trumpeter. All concerts will be held either at Maine East High School, Park Ridge, or Maine West in Des Plaines, on Sundays.

St. Patrick High School for Girls reunion

On Sunday, April 29, Marillac High School in Northfield will welcome the Alumnae of old St. Patrick High School for Girls (724 W. Adams St., Chicago) for a reunion from 2-4:30 p.m. Sister Fidelis Malloy, registrar at Marillac and an alumna of St. Pat's, is sponsoring the get-together.

Old St. Patrick's was closed in 1970, after almost 100 years of providing elementary and secondary education to thousands of pupils from all over Chicago, to make way for the Kennedy expy. The Daughters of Charity, who presently staff Marillac High School also taught at St. Patrick's; the Northfield school is happy to offer its facilities each year to the former students of St. Pat's.

This year's get-together will be the eighth reunion at Marillac. Each year approximately 350 graduates attend, representing grade and high school classes from 1914 to 1970. Anyone interested may call Sister Fidelis at 446-9106 during the day or at 441-9130 in the evening and on weekends.

Rickover... Continued from Page 3

has lost his horizon of thought. Ambition and a sense of responsibility evaporate without perseverance.

Another important principle which gives purpose and meaning to life is excellence. Because the conviction to strive for it is a personal one, its attainment is personally satisfying. Happiness comes from the full use of one's power to achieve it. Life is potentially an empty hole. There are few more satisfying ways of filling it, than by exercising excellence.

This principle is one which Americans seem to be losing, and, at a time when the nation stands in need of it. A lack of excellence implies mediocrity. And, in a society that is willing to accept mediocrity, the opportunities for failure are boundless. Mediocrity can destroy us, just as surely as perils far more famous.

It is important that we distinguish between what it means to fail at a task, and what it means to be mediocre. There is all the difference in the world between the life lived with dignity and style, which ends in failure, and one which achieves power and glory, yet is dull, unoriginal, unreflective, and mediocre. What matters is not so much whether we make lots of money, or hold a prestigious job; what matters is that we seek out others with knowledge and enthusiasm - that we become people who can enjoy our own company.

In the end, avoiding mediocrity gives us the chance to discover that success comes in making ourselves into educated individuals, able to recognize that there is a difference between living with excellence, and living with mediocrity.

Creativity is another of the basic principles of existence which helps to give purpose in life: The deepest joy in life is to be creative. To find an undeveloped situation, to see its possibilities, to decide upon a course of action, and then to devote the whole of one's resources to carrying it out is a satisfaction in comparison with which superficial pleasure are trivial.

To create you must care. You must have the courage to speak out. The world's advances always have depended on the courage of its leaders. A measure of courage in the private citizen is necessary to the good conduct of the state. Otherwise, men who have power through riches, intrigue, or office, will administer the state at will, and ultimately to their private advantage.

To have courage, means to pursue your goals and to satisfy your responsibilities, even though others stand in the way, and success seems like a dream. It takes courage to stand and fight for what you believe is right. And the fight never ends. Sir Thomas More wrote: "If evil persons cannot be rooted out, and if you cannot correct habitual attitudes, you must not therefore abandon the common wealth. You must strive to guide policy indirectly, so that you make the best things, and what you cannot turn to good, you can at least make less bad."

These principles of existence - responsibility, perseverance, excellence, creativity, courage - must be wedded with intellectual growth and development, if we are to find meaning and purpose in our lives. It is a device of the devil to let sloth into the world. By the age of twenty, some of us already have adopted a granite-like attitude which we maintain throughout life. Intellectually, we must never stop growing. Our conscience should never release us from concern for the problems of the day. Our minds must be forever skeptical, questioning. We must strive to be free from that failing so common to man and deplored by Pascal in the "Pensees," of filling our leisure with meaningless distractions, so as to preclude the necessity of thought. To be an intellectual, one's mind must be in constant movement. Learning is discovery. A life of learning is a lifetime of all the excitement of a discoverer.

Aristotle believed that happiness was to be found in the use of the intellect. In other words, ignorance is not bliss; it is oblivion. The inspired prayer does not ask for health, wealth, prosperity, or anything material, but says, "God, illumine my intellect." Man cannot find purpose in his life without expanding and using his intellectual qualities and capacities. Liberal learning is a primary source of these qualities. By liberal learning, I refer to discerning taste; wise judgment, informed and critical perspectives that transcend specialized interests and partisan passions; the capacity to understand complexity, and to grow in response to it. You don't go to heaven if you die dumb.

A cause of many of our mistakes and problems is ignorance - an overwhelming national ignorance of the facts about the rest of the world. A nation, or an individual, cannot function unless the truth is available and understood. No amount of good by our leaders or the media will offset ignorance and apathy in the common citizen. Since the United States is a democracy, the broad answer is that all of us must become better informed. It is necessary to learn from others' mistakes. You will not live long enough to make them all yourself.

Reading is one method of becoming better informed. A house without books is like a room without windows. No man has a right to bring up his children without surrounding them with books. It is wrong to his family. The love of knowledge in a young mind is almost a warrant against inferior excitement of passions and vices. By spending a few dollars for a book, the thoughts and life's work of a great man are available to us. "In books," Bacon said, "we converse with the wise, as in action with fools."

As a reader, man is unique among living things. The ability to read - and more broadly, the ability to express complete ideas through language - distinguishes him from all other life forms. Without language, complex thought is inconceivable, and the

mind remains undeveloped. And without the use of language, life is a meaningless dumb show. The inability to speak and write imprisons thought. In the same vein, sloppy, imprecise thinking begets sloppy, imprecise language. Language and thought are interconnected, and the written word is the vehicle which best advances both.

Therefore, I count reading, and its associated skill, writing, among the most significant of all human efforts. Good writing is simply the result of enormous reading, detailed research, and careful thought. It means studying to gain a good vocabulary, and practicing how to use it. These kindred skills should be developed and nourished from the very first, if many is to grow intellectually. And unless he can express his thoughts well, he can exert little influence on his fellowmen.

A final principle of existence, essential to man's purpose in life, is the development of standards of ethical and moral conduct. God has made a remarkable job of the physical universe, but has not done quite so well with the spiritual element. There is abundant evidence to conclude that morals and ethics are becoming less prevalent in people's lives. The standards of conduct which lay deeply embedded in accepted thought for centuries, no longer are absolute. Many people seem unable to differentiate between physical relief and moral satisfaction; they confuse material success in life with virtue.

We are now living on the accumulated moral capital of traditional religion. This is running out, and we have no other consensus of values to take its place. This is partly so, because man can now obtain on earth what previously was vouchsafed him in heaven.

In our system of society, no authority exists to tell us what is good and desirable. We are each free to seek what we think is good in our own way. The danger is that where men compromise truth and let decency slip, they eventually end up with neither. A free society can survive only through the men and women of integrity. Fortunately, there still exist human beings who remain concerned about morals and ethical values, and justice toward others. These are individuals who provide hope of the ultimate realism that marks a society's capacity to survive, rather than to be eventually destroyed.

It is important also to recognize that morals and ethics are not relative; they do not depend on the situation. This may be the hardest principle to follow. The ends, no matter how worthy they appear, cannot justify any means. Louis Brandeis, who was deeply convinced of the importance of standards, said: "One can never be sure of ends - political, social, economic. There must always be doubt and difference of opinion." But Brandeis had no doubt about means. "Fundamentals do not change; centuries of thought have established standards. Lying and sneaking are always bad, no matter what the ends."

This is an enabling statement. Life is not meaningless for the man who considers certain actions wrong. They are wrong, whether or not they violate a law. This kind of moral code gives a person a focus, a basis, on which to conduct himself. Certainly, there is a temptation to let go of morals in order to do the expedient thing. But there is also a tremendous power in standing by what is right. Principle and accomplishment need to be incompatible.

A common thread moves through all the principles I have discussed: it is the desire to improve oneself and one's surroundings by actively participating in life. Too many succumb to the emotional preference of the comfortable solution, instead of the difficult one. It is easy to do nothing. And to do nothing is also an act; an act of indifference or cowardice.

A person must prepare himself intellectually and professionally, and then use his powers to their fullest extent. This view is well expressed in two extracts from *I Ching*, the confucian book of changes:

- The superior man learns and accumulates the results of his learning; puts questions, and discriminates among those results, dwells magnanimously and unambitiously in what he has attained to; and carries it into practice with benevolence.
- The superior man nerves himself to ceaseless activity.

To find a purpose in life, one must be willing to act, to put excellence into one's work, and to have concern for what is right, ahead of personal safety. Life must be felt, not observed. But to do so means applying oneself to the task daily. Ralph Waldo Emerson said: "God offers to every mind its choice between truth and repose. Take which you please - you can never have both."

No professional man has the right to prefer his personal peace to the happiness of mankind; his place and his duty are in the frontline of struggling men, not in the unperturbed ranks of those who keep themselves aloof from life. If a profession is to have its proper place in the development of society, it must be increasingly dissatisfied with things as they are. If there is to be any exaltation in one's work, one must learn to reach out, not to struggle for that which is just beyond, but to grasp at results which seem almost infinite. As Robert Browning wrote, "Ah, but a man's reach should exceed his grasp, or what's a heaven for?"

Man's work begins with his job; his profession. Having a vocation is something of a miracle, like falling in love, I can understand why Luther said that a man is justified by his vocation, for it is a proof of God's favor. But having a vocation means more than punching a time-clock. It means guarding against banality,

Culver student takes second in Spelling Bee

Traci Bianchi, Dennis Bernabe, Ansa Qureshi, and Jackie Santiago represented Culver School at the Niles West High School National Honor Society Spelling Bee, Saturday, March 24.

Traci spelled her way to second place at the high school competition, which includes top spellers from Fairview South, Lincoln Hall, Lincoln Junior High School, Parkview and Culver. We can honestly say that Traci shared the championship with the winner, because when only four students remained, Traci was

Traci Bianchi

defending Culver against three Lincoln Junior High students. She had to spell three times as many words as any one of them. When only two girls remained, each had to spell 44 words before there was an error. We are very proud of Traci and the entire Culver team. SSSSSSuper Job!

Nelson School holds talent show

The Nelson School Student Council sponsored an all-school talent show, which was presented to the student body on March 19.

After preliminary try-outs in their classrooms, the student participants auditioned for a teacher selection committee which consisted of Sandy Charet, Elsie McAvoy, Ruth Kabele, Mary Tito, and Joyce Gurolnick. Students participating were four piano players, Michael Dorfman, Alice Lee, Eileen Song, and Nora Chen. There were three violin players, Amy Lipka, Brad Newman, and Donna Sanno. Donna had just received a plus 1, highest rating given to any performer in the Illinois North Grade School Music Association. Natalie Tomich sang a solo song from "Annie." The following students did dance skits: Lisa Matocha, Samantha Benson, Jenny Talkowsky, Lisa Lobodzinski, Jennifer Zajdel, and Diane Katsoulas. Marlana Naegele, Amy Burns, Sandy Campuzano, Amy Bernabei, Dawn Kupperman, Cindy Dudgeon, Jennifer Dudgeon, Trisha Lerner, Holly Colicchia, Jarilva Chengcharoen, Kim Klein, Becky Pestine, Janet Reindl, and David Halley did a skit to a record.

The hour-long talent show began and ended with a number of choral selections sung by the Nelson School chorus, under the direction of music teacher, Ruth Kabele.

Nelson School is located at 8901 N. Ozanam ave., in Niles, and is one of the six schools in East Maine District #63.

Senior attends Soroptimists' Youth Seminar

Maine East senior Rachel Rosenberg of Morton Grove has been selected to represent the Des Plaines Chapter of Soroptimists International at a regional youth seminar in Ohio on April 14. Rachel was selected because of her talents in leadership, creative thinking and self-expression.

In addition to earning high honor roll status, Rachel has been an active participant in Maine East's extra-curricular activities. These include being on the school newspaper staff four years and acting as editor-in-chief during both her junior and senior years. She has also been a member of Maine East's honorary reading society, Sigma Chi Sigma, for four years and served as the group's president during her junior year.

Lutheran General School of Nursing re-accredited

The Lutheran General Hospital School of Nursing has been re-accredited for eight years by the National League for Nursing (N.L.N.) Board of Review of the Council of Diploma Programs.

The N.L.N. is the official agency of accreditation of nursing programs for the U.S. Office of Education. Participation in the accreditation process is voluntary, but is required in order for a school to receive federal aid, in some instances, state funds.

In informing the School of Nursing of its decision, the N.L.N. Board of Review for Diploma Programs secretary Marilyn Burkart said, "The board of review congratulates the administrative personnel and faculty of the school of nursing for their continued endeavors to offer a quality education program in nursing."

"This is one of the most thorough accreditation processes

that exists," explained Erna Rueggeberg, director of the Lutheran General Hospital School of Nursing. "We are proud to have this highly regarded national organization endorse the excellence of our program."

Lutheran General Hospital School of Nursing was founded in 1925 and since that time has graduated over 1,400 nurses. It is a three-year, licensed, hospital school of professional nursing,

which is affiliated with George Williams College. The college offers a bachelor's degree in nursing for graduates of the School of Nursing and also to other hospital-based and community college nursing program graduates.

Lutheran General Hospital is a not-for-profit, 713-bed, tertiary care, teaching hospital located on the 63-acre campus in the Chicago suburb of Park Ridge.

When police chief Clarence Emrickson explained detectives receive \$1.50 per day clothing allowance for their "civil" clothes; Blase used a few expletives to describe this tradition which he thought was absurd.

Trustee Ang Marcheschi was a minority of one in suggesting the village should consider installing a second sail storage bin at the north end of the village. He thought with the traffic problems going north and south in the village it might be more economical to have a second bin at the north end of Niles. Blase noted it would require a purchase of land and Public Works head Keith Peck did not consider the plan feasible at this time.

Peck reported the contract with the garage company is "stable" and didn't anticipate raises this year.

Peck said the sewer system would begin to be "T.V.'d" to seek out problems there.

It was reported the first of the eight new buses are expected Monday. They are being purchased from a company in Kansas and will be Chance buses.

Village president Blase objected to a \$18,000 figure for a person to clean the police station. He said most of the cleaning is in the courtroom and it could be

done three hours a day. He thought the budgeted figure excessive.

Blase announced the village should undertake a physical fitness program for its public departments. A \$4,000 exerciser will be the first machine bought. He suggested possible shower rooms and regular exercise programs should be undertaken for all three departments.

\$7,000 has been budgeted for a animal shelter. Blase will be told Wednesday why all public buildings are not receiving gas and electric free. He assumed all Niles buildings were part of an agreement the village has with the utilities.

Tr. Pete Pesole objected to the \$40,000 truck-car wash facility which will be installed at the new public works facility. He was the lone dissenter contending private use of the facility would take place.

Finance head Jeff Bell defended the estimated billing procedure of the water department. Marcheschi objected to residents paying estimated bills. He was told by Bell and Tr. Abe Selman the exact amount could be paid by going to the village hall with the correct figures. They defended the policy saying the estimates eliminates one extra mailing and reduces handling of the accounts. Bell said the estimates are based on the history of water users' bills over three years for the period billed.

Peck did not think "zberating" the new buses was necessary. He said steaming and washing the trucks was preferable. Blase noted while estimating sales taxes for the upcoming year might be difficult, he was optimistic about the future revenues. He said the construction at Golf Mill might inhibit revenues. However, he said a new Candy Man store will be going at the K Mart store in the Golf Glen Center. Blase reported nothing new has been heard from Lawrencewood despite rumors he has heard about improvements there.

Revenue sharing will be approved. Among projects used for the money include \$5,000 to the Niles Park District for a van to be used for Specially Educated children; \$10,000 for the Niles beautification contest; \$30,000 for Christmas street decorations; A new Opticom intersection system; a sidewalk improvement project west of Washington St. on Golf Rd., part of the revenue will be used for the Sherman Rd. improvement; a walk at the Dutchman Point landscape sculpture at Touhy and Milwaukee; \$5,000 for the downspout disconnection program (after June tickets will be issued to residents not disconnecting); \$100,000 to be used for Niles Courtesy Buses.

Recycling... Cont'd from Skokie-L'wood P.1 district 219 and is now entering its 13th year of operation. The program has been recognized several times by the President's Environmental Protection Agency for its outstanding achievements in promoting environmental education. The program's primary objective is to impress upon the students as to the importance of resource management through recycling and conservation practices. The center serves as an illustration of a practical community program and provides students with the experience of marketing materials they collect for recycling and reintroducing them into the manufacturing stream.

The recycling program accepts Glass Bottles and Jars, Steel and Aluminum Cans, Newspapers, Magazines, and Phone Books. The center is located at 7929 N. Austin ave., behind the West-High football stadium. Residents may contribute materials to the program every Wednesday through Saturday, 8 a.m. through 5 p.m., year 'round. For further information on location and material preparation please call 470-0242.

ineptitude, incompetence, and mediocrity. A man should strive to become a locus of excellence.

Most of the work in the world today is done by those who work too hard; they comprise a "nucleus of martyrs." The greater part of the remaining workers' energy goes into complaining. Employees today seldom become emotional about their organization or its output; they are interested in making money or getting ahead. And many organizations are killing their employees with kindness, undercutting their sense of responsibility with an ever-increasing permissiveness. This is a fatal error. For where responsibility ends, performance ends also. Man has a large capacity for effort. But it is so much greater than we think it is; few ever reach this capacity.

We should have the faculty of knowing what we ought to do, and having the will to do it. But knowing is easy. It is the doing that is difficult. The critical issue is not what we know, but what we do with what we know. The great end of life is not knowledge; it is action. Theodore Roosevelt expressed this concept well in his "Man in the Arena" statement:

It is not the critic who counts, not the one who points out how the strong man stumbled, or how the doer of deeds might have done them better. The credit belongs to the man who is actually in the arena, whose face is marred with sweat, and dust, and blood; who strives valiantly; who errs and comes short again and again; who knows the great enthusiasms, the great devotions, and spends himself in a worthy cause; who, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who know neither victory nor defeat.

The man in the arena has found a purpose in life. He daily experiences Emerson's declaration that nothing is achieved without enthusiasm. He knows that men seldom come within shouting distance of their hopes for themselves. Yet he does not quit in resignation as have those who have taken trouble with nothing except to be born. In his work he is buffeted from two sides, challenged by his own ideas, which revolt at the compromises of reality, and assaulted by reality which fights the ideas. He spends himself in that struggle, and he wins by a constant renewal of effort in which he refuses to sink either into placid acceptance of the situation or into self-satisfaction.

I believe it is the duty of each of us to act as if the fate of the world depended on him. Admittedly, one man by himself cannot do the job. However, one man can make a difference. Each of us is obligated to bring his individual and independent capacities to bear upon a wide range of human concerns. It is with this conviction that we squarely confront our duty to posterity. We must live for the future, not for our own comfort or success. William James said, "The great use of life is to spend it for something that will outlast it."

For anyone seeking meaning for his life, a figure from Greek mythology comes to mind. It is that of Atlas, bearing with endless perseverance the weight of the heavens on his back: Atlas, resolutely bearing his burden and accepting his responsibility, gives us the example we seek.

To seek and accept responsibility; to persevere; to be committed to excellence; to be creative and courageous; to be unrelenting in the pursuit of intellectual development; to maintain high standards of ethics and morality; and to bring these basic principles of existence to bear, through active participation in life - these are some of my ideas on the goals which must be met to achieve meaning and purpose in life.

Lastly, the board approved by a 6 to 0 vote, an ordinance modifying the traffic signs along Ozark Avenue between Dempster and Churchill Streets.

The existing stop sign on westbound Greenwood at Ozark will be removed and a new sign reading "Cross Traffic Does Not Stop" will be installed on southbound Ozark.

In addition, a new stop sign on southbound Ozark at Sunfield will be installed.

Although the original ordinance proposed by Susan Best, the village traffic and safety engineer, called for the removal of the stop sign on southbound Ozark, the board decided to keep the sign for the same reason it was installed in the early 1970's; as a speed control measure.

Late registration for MONNACEP courses

Spring term MONNACEP classes get under way April 16, with registration accepted during that week on opening nights on a space available basis. In addition, because the Niles Township High Schools are closed the week of April 16, courses at Niles North and West will begin the week of April 23. A variety of later starting courses also get under way that week at Maine and Glenbrook high schools.

"Word Processing and Data Processing courses are our best sellers this term," states Stan Harris, assistant director of MONNACEP. "So most of those are filling rapidly, and you may have to take a different schedule than the one you preferred. But we'll find room for as many as we can in every course we offer."

More than 750 classes are listed in the brochure mailed to all homes in the Oakton Community College district. Brochures also are available at local public libraries. Courses range in length from one two-hour session to 8 weeks of 3-hour sessions. Many meet on evenings at local high schools, with a considerable number held on Saturday at Oakton College in Des Plaines and Skokie.

For information, call 282-9888. MONNACEP is the adult education component of Oakton Community College in cooperation with the Maine, Niles and Glenbrook High Schools.

Speakers from Families Anonymous (FA) and Alcoholics Anonymous (AA) will share first-hand knowledge and experience, followed by an open question-and-answer session. First Federal of Chicago is now Citicorp Savings.

Our change to Citicorp Savings means more than just a new name for First Federal. It means a new strength. And a whole new look at the financial services we offer.

As Citicorp Savings, we'll have the strength of over \$134 billion in assets behind us. What this means for you is an updated choice

of savings plans, loans and checking accounts. More competitive interest rates. And, in general, a more knowledgeable and helpful way of doing business.

Of course, we'll continue to offer the security of FSLIC insurance. As well as the convenience of making transactions at any one of

our 60 offices across the state, 28 Electronic Banking Centers, and 180 Jewel Food Stores via the YES Network.

At First Federal, we look back on the last 50 years with pride. But we're also looking forward to an exciting future as Citicorp Savings. It's a change for the better.
