Start planning for Niles Beautification Contest

Village of Niles residents are being reminded of the \$10,000 property beautification contest that will be held this coming summer. Since spring is now arriving, now is the time to plan on entering the beautification program.

In order to keep our community a desirable place in which to live and shop, Niles is sponsoring the

contest to give recognition to those people who have made their home and landscaping the most attractive in the village.

Overseeing the beautification contest is Niles Trustee Peter Pesole who stated, "Judging of all property (front and side portion where your home is seen by people passing by) will be made by an independent non-biased

horticultural society." Pesole further stated, "The contest is open to all who live within the boundary lines of Niles and is divided into two different categories: residential and commercial/industrial."

\$10,000 in cash prizes will be awarded, as follows:
Residential: \$1,000 - First prize.

Niles police apprehend home burglars

Two Morton Grove youths were arrested while burglarizing a Niles home on Easter Sunday, April 22.

The Morton Grove youths, according to Niles Police Department Chief of Detectives Lt. Ray Giovannelli, were seen by a neighbor as they kicked in the rear door of a home located in the 7900 block of Greenleaf St. at 8:45 p.m.

The neighbor alerted police of a burglary in progress. Five Niles policemen came to the home and, hearing the burglars inside, blocked off the home's two doors. After announcing that the house was surrounded and the youths should surrender, Giovannelli said the burglars escaped by jumping out of windows.

Electric service cut to thousands of homes

Gale-force winds hit Bugleland

by Bob Besser

Thousands of Bugleland area residents were temporarily without electricity following Monday's wind storm in which winds were measured at over 60 miles per hour, however, village officials said the damage to property was minimal.

By far the most serious problems caused by the wind storm were the power outages which began about midnight on Monday, April 30.

Commonwealth Edison Co. spokesman Bob Reidel said on

Tuesday the winds caused "a multitude of individual (home) interruptions," during the storm.

However, the large interruptions began about midnight to approximately 1,000 residents in the area surrounding the 9000 block of Milwaukee Ave. The power was restored by 4:30 a.m. in this section.

At 4:43 a.m. another 1,000 customers lost their power in the area near the 8200 block of Golf Rd. where an electric line burned

Niles library breaks ground for addition

At a brief ceremony Sunday morning Niles Library board held a groundbreaking ceremony as the first step in the construction of its \$1,000,000 addition.

The ceremony was not publicly disclosed until Thursday night when a special meeting was called to accept bids for the groundbreaking. According to Library president Harry Pestine, the quick meeting had to be called to fulfill time requirements to enable the district to get state funds for the construction.

Top bid for the initial groundbreaking was for \$29,000. LoVerde and Sons, Niles, was the approved bidder with a low bid of \$1,900. Pestine quoted LoVerde president, Joe LoVerde, saying the unusually low bid was part of

his contribution to the library district since his family are users of the library.

In addition to library board members, Rita Breitbart, chairman of the library ad hoc committee, state Senator Bob Kustra and Niles trustee Ang Marcheschi were included in the ceremony.

Orput Associates, Incorporated, are the architects. They were the original designers for the library building.

It is expected the new addition will be completed within a year.

From the Left Hand

by Bud Besser

The next few paragraphs might be entitled "intimidation by degrees".

In last week's Bugle Tony De Bartolo reported a narrow 4 to 3 vote approved sabbatical leaves for 1/2 professors at Oakton College. We listed one of the teachers as an associate professor which is the reason for the 1/2 professor.

What rankied my tax paying dollars for these semester "vacations" was the subject matter the Profs would be pursuing during their leaves.

A psychology professor was being paid to take off time so he could "gather first hand information and materials on an Israeli kibbutz". What it sounds (and reads) like is a freebie for a semester so he can bask in the land of milk and honey.

We have no expertise in the field of Psychology but if the Prof really wants to soak up knowledge about Kibbutz-living, he might drop over to the library and read Bruno Bettelheim's book on his studies on Kibbutz-living.

The last time we were in Israel we spent a few days on a kibbutz where Bettelheim did his work. The Israelis weren't too happy with the conclusions Bettelheim drew. But no one disputed the

A knife carrying robber made off with over \$200 cash and almost \$1,000 in video equipment from a Niles video store on Tuesday, April 17.

Police report the robber, described as a 25-year-old male weighing about 150 pounds, walked into Brand Video and Camera, 8035 Milwaukee ave., at 5:53 p.m. The robber indicated he was interested in purchasing a video cassette recorder. When a clerk went into a stock room to check on the price of a video recorder, the robber followed him. Paul V. Elarde

Army Reserve Pvt. Paul V. Elarde, son of Patricia L. and Victor J. Elarde of 7845 Odell, Niles, has completed basic training at Fort Jackson, S.C.

Maine Township senior citizens can expect a boost in their purchasing power when a new township-wide discount program takes effect, according to Maine Township Supervisor Paul K. Halverson.

The township has enlisted the support of the Des Plaines, Morton Grove, Niles and Park Ridge Chambers of Commerce in its effort to launch the program to provide senior citizens with a "universal" township-wide discount card.

Each Chamber has agreed to contact members to request their participation in the program by providing discounts on merchandise and services.

"Many of these businesses already provide senior citizen discounts," Halverson said. "The township's program would replace the numerous cards seniors now have to carry, relieve local businesses of the burden of validating discount cards and enhance the business climate throughout the township."

Under the township's plan, senior citizens will receive a list of businesses participating in the discount program along with their identification cards.

"This will encourage seniors to patronize local establishments and stimulate business within the area," Halverson said.

The township currently issues senior citizen RTA passes and offers a senior citizens referral program.

"We already have the machinery in place to begin issuing these cards," Halverson said.

To qualify for the discount cards, senior citizens will be required to present proof that they are age 65 or older and a resident of Maine Township.

Businesses not affiliated with area Chambers that would like to participate in the program should contact Gracey Duffy or Meryl Rivenson at the Maine Township Town Hall, 297-2510.

THANKS, MOM

Mother's Day is set aside as a tribute to that one person whose love for us colors our lives in a very special way. There's nothing like a mother's love, and the favors, big and small, she bestows upon us all year long deserve a heartfelt thank you.

If you ask your mother how you can show your gratitude, she'll probably say, "A simple thank you will suffice." But you and I know she deserves more. Fine jewelry is a gift that serves as a lasting token of your affection, one of the most precious remembrances money can buy.

Your mother doesn't like jewelry, you say? Don't believe it. Mothers tend to be a little on the practical side and dissuade their children from spending money on "frivolous things." But once the act is done, they proudly show off their new necklace or bracelet or watch to all their friends. "See what my children bought me?" she'll say with a proud smile to everyone she meets.

A well-trained jewelry salesperson can help you find a suitable gift with just a few clues. At Rand Jewelers we're skilled at asking the right questions to discern a person's taste. We'd be delighted to show you special mother's rings, delicately carved cameos, pearl necklaces, diamond earrings or other fine pieces that are designed to bring pleasure and express love.

CHURCH AND TEMPLE NOTES

Messiah Lutheran Church marks 30th anniversary

Our dream for a church began April 22, 1951 when Sunday School opened in Park Lane Community House in Niles. The following October worship services began at that location with various lay speakers serving along with Dr. G.P. Rasmussen.

By 1952 a survey and a parish canvass had been taken. From October 5, both Sunday School and worship services were held in East Maine Public School auditorium with Rev. O. Milford Langehough serving on a part-time basis.

The following year, Shoreline Builders Company, owned by Mr. Godfrey Lindstrom, donated land to the Park Lane Lutheran Church which a few months later became known as Messiah Evangelical Lutheran Church. The first congregational meeting was held, a steering committee was organized, and plans for a church and parsonage were developed.

The eventful year of 1954 saw work on the parsonage begun and ground broken for the church building. On February 7, the Rev. Warren C. Weeg conducted the first service. On June 6 he was installed as pastor and served until September 18, 1962. The cornerstone was laid on June 27, and Messiah Lutheran Church was dedicated on November 28, 1964.

On January 17, 1963, the Rev. Luther B. Keay was installed as pastor and served until July 19,

1977. In the Spring of 1963, the need for additional Sunday School space was presented to the congregation. A committee was elected to develop and present a master plan to the congregation which would anticipate our present and future needs. The master plan was approved and construction started. On October 11, 1964, the Parish Education Building was dedicated. We now have a beautiful building in which to "Grow in grace and knowledge of our Lord Jesus Christ" as the inscription at the entrance to the building indicates.

At a congregational meeting in April 1965, it was voted to establish a Nursery School program of Christian education. The school officially opened its doors in the Parish Education Building on September 16, 1966.

In 1975, after inquiries from the community for such a service, a full day care facility was added to the Nursery School program. This new need of the community was a considerable undertaking, but the Messiah Day Care Center began operating on October 18, 1975, offering year-round day

care. In the year 1966, the congregation established the position of Director of Music to coordinate a full music ministry both within the congregation and in the community. As part of the expanded music program, Messiah dedicated a new organ on November 25, 1973.

Dr. T.A. Kreuger served as visitation pastor from February 1972 through March 1975. The Rev. Aaron Uthi was installed as Associate Pastor on April, 1975 and served until July 19, 1977.

On May 5, 1979, Messiah celebrated its twenty-fifth anniversary under the pastorate of Gaylen Gilbertson who began his ministry on September 1, 1978. In 1980 the congregation's Committee on Social Concerns reached out to the refugees of the world, and through the Lutheran Immigration and Refugee Service the congregation sponsored the Vien family, who are ethnic Chinese and had been forced to flee China and finally Viet Nam.

In December 1983, the congregation sponsored the Ciszewski family who had been forced to flee from Poland for political reasons. Both families are well on their way to being self-supporting.

On Sunday, May 6, a Festival Worship Service will be held at 10 a.m. in the Church Sanctuary. The Rev. Joseph Hulterstrum, executive assistant to the District President, will deliver the message. Special music will be provided by our choirs, under the direction of Tom Daniels.

At 5 p.m. a festive anniversary dinner will be served in the Fellowship Hall. At 7 p.m. the program, "Come and Hear! Go and Tell!" will be presented in the sanctuary. This will consist of a slide presentation and accompanying music selections. Miss Grete Schiodt's beautiful pictures combined with the special music of our talented choir and soloists will be a program well worth viewing.

Members and friends of Messiah Lutheran Church are invited to participate in celebrating with us. Reservations are required for the dinner.

Brothers arrested during brawl

Two Niles brothers, ages 21 and 25, were arrested after fighting with employees of a local tavern on Wednesday, April 25.

The incident began, according to police, when a young woman came into Doc Weeds, 832 Dempster st., about midnight. Because the woman did not have identification to prove she was 21 years old, a guard told her she could not enter. However, she told the guard she just wanted to speak to some friends and she would leave.

When, after a few minutes she did not leave, the manager and a guard approached her and asked her to leave. The Niles brothers, who she was talking to, began yelling and became abusive. When the manager told the brothers to leave they began punching the manager and guard.

Police arrived as the fighting spilled over into the parking lot. Police report when they attempted

to arrest one of the brothers he attacked a policeman. However, he was subdued.

At the Niles Police Department the Niles brothers were charged with disorderly conduct, resisting arrest and battery.

They were each assigned a May court date and released after posting \$100 bond each.

\$900 theft

A Niles resident reported his garage was broken into during the night of Monday, April 23.

The resident, who lives in the 8200 block of Oleander st., said some time during the night a burglar entered his unlocked garage through a rear door.

Taken from the garage were numerous tools including a floor jack, tool box, sanding polisher and less expensive tools.

The total value of the stolen tools was reported to be \$900.

Arrested for possession of Coke

Four Grayslake residents were arrested after stealing cases of pop from a local distributing warehouse on Wednesday, April 25.

The men, ages 17 through 21, were seen by police at 1:20 a.m. as they were driving away from the Coca-Cola warehouse, 6801 Jarvis st.

Police stopped their car near Caldwell ave. where they found four cases of soft drinks inside the car.

The driver of the car told a Niles Police officer they had just dropped off a friend at Coca-Cola. Police brought the four men back to Coca-Cola where they repeated their story saying they had just dropped off a friend named Bob.

When the supervisor said there was no Bob working there, the men changed the name to Alvin but were again told no such person worked there. Lastly, according to police records, they changed the name to Brian but no Brian worked for Coca-Cola.

After being taken to the Niles Police Department the four men were charged with theft. They were assigned April court dates and released after posting bonds of \$100 each.

Peeping Tom travels light

A 25-year-old Niles man was arrested after being seen peeping into the window of a Niles apartment while he had no clothes on.

Police received a call at 9:07 p.m. on Friday, April 27, reporting a man was looking through a window at the rear of a building in the 7700 block of Nordica ave.

Three Niles policemen approached from different directions and confronted the man who was only wearing shoes and a hat.

The man tried to flee the area, however, he was apprehended by police. His clothes were later found in a nearby forest preserve.

At the Niles Police Department the man was charged with public indecency. He was assigned a June court date and released after posting a \$300 bond.

Marijuana arrest

An 18-year-old Niles man was arrested for possession of marijuana on Saturday, April 28.

Police were called to the 8400 block of Dempster st. at 1:44 a.m. because of a disturbance involving two youths. Then cautiously make the right turn.

Before turning right at a red light or stop sign, or at any uncontrolled intersection, it is a good idea to look down the sidewalks and past parked cars for pedestrians or cyclists.

While being questioned the youths were asked what was in their pockets at which time, according to police, the 18-year-old removed a bag containing marijuana.

He was charged with possession of marijuana and, following his being assigned a June court date, was released after posting a \$50 bond.

Injures guard during arrest

A 25-year-old Des Plaines man was charged with shoplifting and battery after being caught stealing from a local store on Saturday, April 28.

The man was shopping at J.C. Penney, 220 Golf Mill, when he was seen trying to leave the store without paying for a \$13 shirt he had concealed.

When stopped by two security guards the man reportedly struck one of the guards in the face and bit the other on the hand.

Arrest liquor thief

A 22-year-old Chicago man was arrested for stealing liquor from two area stores on Tuesday, April 24.

The man was first spotted in a Milwaukee ave. grocery store leaving without paying for two bottles of Canadian Club whiskey. An area resident followed the man as he then drove to Buy Low Liquor, 8900 Milwaukee ave., and police were summoned.

Niles and Morton Grove Police waited outside the liquor store and detained the man when he came out. Inside his pants were found two bottles of scotch.

After being taken to the Niles Police Department the man was charged with two counts of shoplifting. He was assigned a May court date and released after posting a \$100 bond.

Stunt driver arrested

However, the offender was eventually restrained and turned over to the Niles Police who charged him with shoplifting and two counts of battery.

He was assigned a May court date and released after posting a \$100 bond.

The security who was hit in the face suffered heavy bleeding and he, along with the other security guard, was taken to Lutheran General Hospital for treatment.

A 22-year-old Niles man was arrested for reckless driving after police saw him stunt driving his motorcycle in Niles on Tuesday, April 24.

Police reported seeing the driver at 5:25 p.m. heading south on Oketo st. on his motorcycle. As police watched the man allegedly drove the motorcycle on one wheel only and later drove through a stop sign at Monroe and Odell.

After being stopped the man was taken to the Niles Police Department where he was charged with reckless driving, ignoring a stop sign, assigned a May court date and released after posting a \$200 bond.

Home break-in

A Niles home was burglarized on Saturday, April 21.

Police report that some time between 1 p.m. and 3:30 p.m. burglars broke into a house located in the 8300 block of Monroe st. The burglar reportedly gained entry to the house by kicking in a side door leading into a garage and then kicked in a door leading from the garage to the house.

Once inside the burglar reportedly ransacked bedrooms stealing jewelry, clothes and cash. The total loss was placed over \$1,200.

Money stolen at wedding

An area woman had \$170 stolen from her purse while at a church wedding in Niles on Saturday, April 28.

Police report a 32-year-old woman was attending a wedding at St. Isaac Jogues church, 8101 Golf rd., when some time between 3 p.m. and 4:15 p.m. unknown persons stole the money from her purse which she had left in a rear room during the ceremony.

"Right turn on red" law

by Secretary of State Jim Edgar

The "right turn on red" law helps traffic move more smoothly and saves time and fuel. However, many drivers abuse the law and risk accidents by turning right on red without coming to a complete stop.

The law states that a right turn is permitted at a red light under certain conditions. Come to a full stop, look for traffic on the street you are entering and yield the right of way to any approaching vehicles or pedestrians in the adjacent crosswalk. Then cautiously make the right turn.

Before turning right at a red light or stop sign, or at any uncontrolled intersection, it is a good idea to look down the sidewalks and past parked cars for pedestrians or cyclists.

Watch for and obey "no turn on red" signs at intersections where making a turn at a red light is prohibited.

Making a left turn after stopping at a red light is permitted from a one-way street to a one-way street heading left. But remember to first yield the right of way to other drivers, pedestrians and cyclists before making the turn.

If you have any questions about the Secretary of State's office, please feel free to use our toll-free telephone number (800-252-8980).

(A copy of the Rules of the Road will be sent to you upon request. Write to Jim Edgar, Secretary of State, Springfield, IL 62756.)

Sheriff's Police move from Niles offices

Cook County Sheriff's Police have moved from their home since the mid-1920's to new offices in the Second District Courthouse, 5600 Old Orchard rd., Skokie. Movers take the last of the files and other pieces of furniture from the building that saw every aspect of law enforcement through the County Highway Police and later the Cook County Sheriff's Police housed within its walls. Although the county bought the building in 1922, it is considered possible that the cornerstone engraved "A.D. 1923" and the "Cook County Police" engraving above the front door were done at the same time.

The home of the Cook County Sheriff's Police north divisions since the County Highway Police were organized in 1925 has moved from the more than 60-year-old building on Milwaukee ave. in Niles to new offices in the Skokie courthouse, 5600 Old Orchard rd.

Sheriff Richard J. Elrod said since the days of the County Highway Police, the building at 8970 N. Milwaukee ave., Niles, has been occupied by various divisions of the Sheriff's Police and its predecessor, the County Highway Police, serving the northern area of suburban Cook County.

The new offices of the CCSPD North Investigations Unit are in Room 145, on the main floor of the Second District Courthouse in Skokie. Other Cook County offices that occupied the Milwaukee ave. building until recently have also moved - the Medical Examiner's Office to the Skokie Courthouse also and the Adult Probation to 1420 Minor st., Des Plaines.

According to officials with Cook County, the building was purchased by the county in 1922. However, the cornerstone reads "A.D. 1923." The sign above the door says "Cook County Police."

Some research shows that the County Highway Police was formed in 1925 under the county purchasing department and was transferred to the Sheriff in 1926. Then Sheriff Charles E. Graydon, who served from 1926 to 1928, became the first Sheriff in Cook County to administer a police department.

The highway police at the time of formation had one sergeant and twelve officers, all patrolling on motorcycles.

Later, each officer used his own motorcycle for patrol and a lieutenant and a sergeant used their own cars. They were reimbursed \$25 per month for the maintenance and fuel for the motorcycles and \$35 to \$40 per month for the cars.

Ed Bacher, who is retired from the Niles Public Works Department, said the building was originally the location of a telephone exchange prior to the

Maine East girls' soccer

Maine East suffered their second defeat at the hands of undefeated Hinsdale South, 4-2, Wednesday evening. This extended East's season record to 1 win, 1 tie and 2 defeats.

Hinsdale South scored in the first quarter off of a penalty kick due to a hand ball in the penalty area. Goalie Kathy West got her hands on the ball, but could not quite deflect it out of the goal. Hinsdale got their final three goals all in the 2nd quarter while the East girls could only get 1 goal. East's goal came as a result of an indirect kick from Vita McInerney to Jill Pollacci with a great pass to Janine Sitkiewicz. This was Sitkiewicz's 2nd goal of the season. With a half score of 4 to 1 against the Lady Demons, East stayed with their same offense and defense and held Hinsdale South scoreless the entire 2nd half. Maine East scored in the 4th quarter off the strong foot of McInerney on a penalty shot. She is leading all of East's players with 3 goals.

letters to the editor

Time to examine our defense posture

Dear Editor,

While the administration pays lip service to serious intentions and lofty aspirations for peace, its actions regularly belie its words. The most recent example of this pretense has been the president's commitment to proceed with an arms race in space because a treaty banning such weapons would be difficult to negotiate.

The plans for deploying the MX, our 1.7 trillion 5 year defense build up, the missile deployment leading to the breakdown of the nuclear arms reduction talks and now the policy directive to proceed with the development of Star Wars weapons - and on and on, these all make a sham of Mr. Reagan's protests of our peaceful intentions.

That such a system/systems can be developed at all is doubtful. The fact is that we are being ethically repelled and financially pressed to provide for a system of national security that leaves us more vulnerable than we were. The arms race has taken on a life of its own and is sapping our strength - morally and economically.

The time is long overdue that we examine our defense posture and change our direction. We should not be guillible, but neither can we afford to be hysterical and paranoid about the Soviet threat. The rhetoric that deals with nuclear conflict can be abstract and detached; the reality that looms as we approach the edge is bloody and charred.

Sincerely,
Janet Svatos

Commends Bugle on campaign coverage

Dear Editor:

I'd like to thank the Bugle for your willingness to cover the issues of the primary campaign, which was held in March. I would also like to take this opportunity to publicly thank the many people who cast their votes for me in the March Primary. Although I ran unopposed for the position of Democratic candidate for the State Senate from the 28th Legislative District, I was encouraged to learn I received more votes than did the two Republican candidates combined. I am most grateful to the people of the 28th District for this demonstration of support, and I'll take measures to be sure I can continue to warrant that trust.

I'm a private citizen, as most voters are. My primary concern in politics today is credibility in office. I believe the time has come for politicians to be accountable for their promises. I won't

GOP delegate candidate expresses thanks

Dear Editor:

As a candidate for Republican delegate in the recent election I'd like to congratulate our friend and ally, Dexter Ostergren, for his stunning upset in the delegate race against the regular GOP party bosses.

While our underfunded volunteer efforts were incapable of electing all of the alternative conservative candidates to support the President and his platform at the Republican convention, Ostergren's victory shows that a sincere grass-roots effort by conservatives can succeed against the long time party pros.

I'd also like to thank my fellow conservative candidates; Tom Faber, Jean Pawlikowski and

make any promises during the campaign that I can't keep in office. I intend to run an open campaign, addressing those issues that concern people in the 28th Legislative District. I will constantly endeavor to be able to answer and answerable to those people I represent. My phone number is 823-0175 or 692-7803.

In November, I will be facing the incumbent Senator, and will need the continued support of the people of this community to make sure our voice is heard in Springfield.

I hope the Bugle will continue its fine coverage of the issues of this campaign, in order to keep the people of Niles informed and educated. I look forward to working with all the people of the 28th Legislative District to make it as strong as possible.

Very truly yours,
Sam L. Amirante

Cook County Board election process

Dear Editor:

Many of your readers may be aware that a major petition drive on the issue of how we elect commissioners to the Cook County Board is underway. The petition drive has been organized by a coalition of highly respected community organizations throughout the county. If successful, that effort would give the voters this November a chance to decide if they want Cook County Commissioners to be elected from individual, rather than at-large, districts. The voters' decision would be binding on the Cook County Board.

Under the present system, commissioners are elected from two at-large districts—the City of Chicago and suburban Cook County. Ten commissioners are elected at-large from the city and seven are elected at-large from the suburban area. The following points illustrate why that system deserves modification:

- Since all ten or all seven commissioners represent the entire citizenry within their respective at-large districts, it is very difficult for citizens to know which commissioner "represents" them in a particular area.

- If a citizen wishes to communicate with his or her commissioner, a letter must be written, or a phone call must be made, to all ten or all seven commissioners.

- Given the virtual invisibility that at-large representation affords an incumbent, it is difficult for citizens even to know how well (or how poorly) commissioners have been representing citizens' interests.

- Since the slating of candidates to run for the position of commissioner does not have to consider geographic representation, several areas of the city and suburbs have had no county commissioner who resides there.

Having tried on three separate occasions to move the board toward single-member districts (including a proposal to form a special committee to merely study the issue and make recommendations to the board), I am convinced that only the voters have the wisdom and courage to

compel the board to make the change for better, more accountable county government.

Of course, the process of re-districting must be protected against self-serving attempts to gerrymander districts. I am committed to work for such protections by proposing specific standards and criteria to be used in the re-districting process.

Other considerations, such as the number of districts, and whether suburban districts should be separate from their counterparts in the city, will have to be decided by the Board of Commissioners. I believe that a special commission consisting of county commissioners and representatives of community organizations such as the League of Women Voters, Common Cause, the Better Government Association, and others would be essential for developing a re-districting proposal that is both legal in the eyes of the courts and fair to the citizens of Cook County.

I hope your readers will join us in a most worthy campaign for accountability on the Cook County Board. If they will circulate a petition for two among their friends and neighbors, we will be able to reach our goal of 300,000 signatures by mid-August. Then the question can be placed on the November ballot.

Petition sheets can be obtained by calling the local League of Women Voter's office, or my office—443-4400. In addition, if a community group would like to discuss the pros and cons of single-member districts, I would be happy to address the issue at the organization's next meeting.

Sincerely,
Jeanne P. Quinn

Oak Park citizens thank MG for handgun laws

Dear Editor:

As the Coordinator of the Oak Park Citizens Committee for Handgun Control, I write to express my appreciation and gratitude to the Trustees and People of Morton Grove for the courageous leadership you gave the country by banning the private possession of handguns back in 1981 and supporting those who did so. Because of what you did and because the courts have been upholding the constitutionality of what you did, you made it a little bit easier for other communities to follow in your footsteps. Thanks in part to your efforts, we in the All-American Village of Oak Park also have enacted a handgun ban.

Someday it will play in Peoria too, and Springfield and Washington. It might take a while. But, when that day started. And people will recall, remember and celebrate the fact that it got started in a Village called Morton Grove, in the Land of Lincoln, a great man who, like so many other Americans, was tragically killed with a handgun.

On behalf of my children and my children's children yet unborn, I thank you. You have reason to be proud.

Sincerely yours,
Christopher G. Walsh, Jr.

Sears begins major remodeling of Golf-Mill store

Sears will begin converting its Niles store in the Golf-Mill shopping center next week into a Store of the Future as part of a \$1.7 billion program, it was announced today by Clifton F. Hooks, general manager of Sears stores in the Chicago metropolitan area, northwestern Indiana and southern Wisconsin.

The Store of the Future utilizes new sales floor layout and merchandise presentation concepts, moving product lines within departments and adding new computer-aided customer service systems.

The 24-year-old store will remain open during construction which is scheduled to require six months, Hooks said. As part of the project, an addition will be added to the west side of the store, to facilitate the consolidation of three facilities located outside the main store - installed home improvements, catalog sales, and customer pickup of catalog and major merchandise items - into the main store.

In addition, the existing home improvement sales annex on the west side of the store will be removed and additional parking created. Plus, the customer parking lots adjacent to the east and west sides of the store and an

automotive service center will be resurfaced. Completing the top-to-bottom remodeling of the store will be a new roof on the structure. "This is the most extensive remodeling of the store in its history, and we know the improvements in shopping convenience will be welcomed by our customers."

The remodeling is part of a \$1.7 billion, five-year remodeling and expansion program, with emphasis on converting some 600 existing stores into the com-

Lutheran General plans for 25th Anniversary

Hundreds of silver and white balloons will mark the path to the front door for the 800 guests attending Lutheran General Hospital's Silver Anniversary Celebration on Saturday, September 15, at the corporate headquarters of Baxter Travenol Laboratories, Inc. in Deerfield.

Guests of the Silver Anniversary Celebration for the Park Ridge hospital will dance to the strains of The Dick Judson Orchestra and enjoy hors d'oeuvres and dinner by George Jewel Caterers.

"Currently, we are seeking business community sponsors to help underwrite the party," explained Mrs. Donald (Lora) Clark of Palatine, co-chairman for the event. "Lutheran General Hospital is such a valuable resource to the community, I'm sure business leaders will want to be a part of this special event."

"Plans for the party are falling into place beautifully," remarked Mrs. Craig (Susan) Penrith of Northfield, co-chairman. "Even though black tie is optional, the Silver Anniversary Celebration will be quite an elegant affair as is befitting the important institution we

are honoring."

Sub-committee chairmen for the event are as follows: Decorations - Mrs. Merrill (Sandee) Main, Park Ridge, chairman, Lutheran General's Service League; Program - Lawrence A. What is a Drum & Bugle Corps?

The Cavalier Cadets Drum and Bugle Corps would like to offer local area boys," said Doug Heitman, manager of the Cavalier Cadets. The Growing Federal Deficit

by James A. Guzik
Vice President/Director of Marketing
Peerless Federal Savings

"Our representatives in Washington must be made aware of the fact that the projected federal budget deficits are matters of concern for all Americans, not just the Wall Street brokers," said Eugene J. Rudnik, Jr., President of Peerless Federal Savings, as he announced Peerless' participation in the 'Fix the Deficit' campaign, a national effort cosponsored by the U.S. League of Savings Institutions and The Foundation for Savings Institutions.

The purpose of the campaign is to increase individual recognition of the magnitude of the deficit problem and of its potential consequences if those deficits are allowed to remain unchecked. Once the awareness of the electorate is raised, campaign participants are confident that concerned individuals will take the time to notify their representatives of that concern by signing a petition available in magazine and newspaper announcements and at participating savings institutions such as Peerless Federal.

The crux of the deficit problem, according to Mr. Rudnik, is that federal borrowing or taxation removes dollars from the economy that otherwise would be available for private or corporate borrowing or investment. When there are insufficient dollars available to satisfy the needs of both the government and the private sectors, either the interest rates or inflation or both will increase. "We all remember the devastation which record high inflation rates and then record high interest rates caused a few short years ago," stated Mr. Rudnik, "And we cannot allow these continuing budget deficits to wipe out our recent gains in combating unemployment, in reducing inflation and in revitalizing the economy."

The 'Fix the Deficit' campaign does not place blame for the cause of the deficit, nor does it urge congress to enact any specific deficit reduction measures. Mr. Rudnik conceded, however, that he personally prefers reductions in domestic and defense spending to increased taxation, pointing out that taxation removes just as many dollars from the economy as does government borrowing.

East Maine teacher selected for trip to Japan

Helen Reiter

Helen Reiter, a long time teacher at Mark Twain School in Niles, has been selected to represent East Maine School District 63 in the U.S. Teacher to Japan Program. This honor is being bestowed upon a few area teachers by the Japanese Chamber of Commerce and Industry of Chicago.

Mrs. Reiter and the other faculty members at Mark Twain School are very pleased at this outstanding opportunity. Mrs. Reiter teaches second grade and has worked with quite a few Japanese students. She has enjoyed the challenge of working with students who have newly arrived at our shores and has given them extra time as they adjust to their new language.

To gain a deeper understanding of some of her students, Mrs. Reiter attended, on two separate occasions, "Open House" at the Chicago Futabakai Japanese School. These sessions, conduc-

ted for teachers in Chicago area public and parochial schools, were designed to give a brief overview of that school's programs and some of the culture to American educators. Mrs. Reiter then shared her experiences from the "Open house" with the Twain faculty.

After the trip, Helen Reiter will give her report to the Japanese Chamber of Commerce and Industry of Chicago, staff members and students.

Walter Sikierski, Mark Twain Principal, said that he believes the following quote from Mrs. Reiter's letter stating her interest in the trip best sums up why she was selected:

"I am sincerely interested in learning more about their (Japanese) culture, thus enabling me to be of greater service to future students and to better communicate with the Japanese parents."

GSU sets info meeting at Dempster Center

Persons who have some college education but stopped short of a degree can find out how they can earn a bachelor's degree under a special program at the Governors State University Dempster Development Center, Mt. Prospect.

A meeting is scheduled for Wednesday, May 9, at 7 p.m. to explain how previous college credits, other nonacademic learning experiences and enrollment in courses offered at the Dempster Center can be combined to earn an accredited BA degree.

The Board of Governors of State Colleges and Universities

(BOG), the governing body of GSU, authorized this special program. It is designed for mature persons who have a minimum of 60 hours of college credit but have job and family commitments which prevent them from returning to a traditional college setting to finish a degree.

A major characteristic of the program is the recognition that not all learning takes place in the classroom. Many adults have acquired a large amount of knowledge through personal and professional experiences which may well equate to college level

learning. Through the BOG program, this experience is evaluated and academic credit is assigned where appropriate. Consideration is given to such things as independent study, television courses, seminars and workshops, extension courses, proficiency examination and other nontraditional learning experiences.

Another feature is the flexibility of the program. Each individual prepares a portfolio to be evaluated for previous learning and submits transcripts for previous college work. Based upon the amount of credit ac-

cumulated, the student and a counselor work out a program to meet the student's needs and to fulfill the degree requirement of 120 credit hours of study. At least 15 credit hours must be taken at Governors State or one of the other four universities in the BOG system—Northwestern Illinois, Chicago State, Western Illinois and Eastern Illinois.

Persons interested in learning more at the May 9 meeting should visit the Dempster Development Center at 420 W. Dempster, Mt. Prospect, or call Marge LaBrot, coordinator, at 439-7550.

division university serving junior, senior and master's level students. It is accredited by the North Central Association of Colleges and Secondary Schools.

Wind storm... Continued from Page 1

Peck said that overall, the trees that were brought down during the wind storm seemed to have been trees which were weak to begin with.

Morton Grove Public Works Director Jim Dahm said his department was "swamped with calls" to clean up branches and trees. However, he said the majority of those calls came from homeowners who had trees down on private property which public works does not handle. However, Dahm said public works would go onto property if a tree had fallen onto a house.

Morton Grove Fire Department Chief Bernard Brady said damage was minimal in Morton Grove. However, he did report that an evergreen tree was uprooted and went through the window of a residence in the 5800 block of Carol St.

Brady said his department received 13 wind related calls during the storm including a number of calls about downed power lines.

He stated the fire department would go to the scene of downed lines, put up barricades and contact Commonwealth Edison Co. Firemen would not stay at the scene unless the downed power lines were dangerous.

Dahm said he expected public works employees would be working on clearing downed trees and other debris for the rest of the week.

Niles Fire Department Chief Al Hoelbi said his department only received a few wind related calls.

Hoelbi did say that the Niles Fire Station at Cumberland and Dempster St. did not have power for two to three hours and had to rely on a natural gas-powered generator for the duration of the blackout. Hoelbi thought this was the longest the fire department ever had to use the generators which performed flawlessly, according to the chief.

Niles Police Captain William Terpin said the police department was notified about "a lot of damage to cars" caused by the high winds. Additionally, numerous calls broken windows were reported.

An additional 1,000 customers lost their power near the 8100 block of Monroe St. at 5:28 a.m. when the breaker fuses in a substation on Golf Rd. east of Milwaukee Ave. opened. Reidel said this was caused by wires coming down near Milwaukee and Maryland Ave. Power was restored to these customers, however, by 6:30 a.m.

The only power outages in Morton Grove were reported near the Niles border. Residents in the 7400 block of Foster St. and in the 7900 block of Lyons St. were still without power until as late as 3 p.m. Monday according to Reidel.

The only other major damage in Morton Grove was caused by the wind storm was to the roof of Gemini Jr. High School, Ballard Rd. and Greenwood Ave., Niles.

East Maine School District 63 spokesman James Bowen said on Tuesday that shortly before school was to begin on Monday, two sections, measuring about 10 feet by 20 feet and 5 feet by 10 feet came loose.

Bowen said the 800 school children were sent home as a precautionary measure so they would not be exposed to pieces of roof debris outside the building. Additionally, parking lots were blocked off at the school because of the flying debris.

Roofers were repairing the junior high school roof on Tuesday, according to Bowen.

Bowen said the only other problems caused by the wind storm were two schools were left without electricity or heat, however, classes were still held.

The wind storm most seriously affected the public works departments in Niles and Morton Grove which were responsible for cleaning up area streets.

Niles Public Works Director Keith Peck said on Tuesday his department received "10 or 15 wind related complaints." But Peck added "it could have been worse."

He noted public works employees were involved in tree removals on Merrill St., near Waukegan and Birchwood and in the Chesterfield area.

Additional damage occurred when a bus shelter at Milwaukee and Harlem Ave. fell during the wind storm.

towards Maryhill Cemetery where he was apprehended following a foot chase by Officer Bill Christie.

Giovannelli praised Christie's capturing the 16-year-old who was described as a high school athlete.

The 17 years old, surrendered immediately, according to Giovannelli.

Officers on the scene included Patrolmen Bill Christie, John Fryksdale, Donald Matuszak and Marty Stankowicz Jr. The senior officer at the scene was Sgt. Geoffrey Wilson.

Giovannelli said on Monday the 16-year-old has already been found guilty of burglary in juvenile court and has been placed on one year probation.

The 17-year-old has been assigned a May 25 court date and, if found guilty of burglary, faces a three to seven year sentence.

Firefighter's Recognition Week

The 14th Annual Firefighter's Recognition Week will soon be underway. The Rouse Randhurst Corporation and the Mt. Prospect Fire Department will co-host this annual event May 7 through May 12.

A Children's Fire Safety Festival will take place on the mall from 9 a.m. to 8:30 p.m. daily throughout the week. The festival will be in cooperation with "Sesame Street" and will be a learning experience for fire escape survival. Many local fire departments, including the North Maine Fire Protection District, will be involved in the festival. Smoke detectors, early awareness of fire, rolling out of bed, feeling doors, crawling below smoke, escaping from windows and to "stop, drop and roll" if clothing should catch fire, will all be emphasized and practiced by all visiting children.

All pre-school children are welcome to participate, no matter where your school is located. This should make a good tour for pre-school child care centers and givers. If your school is planning to attend, please notify Morris J. Farberman, Fire Marshal, North Maine Fire Department. The telephone number is 297-5020.

Host families needed for Summer exchange students

You can extend the hand of friendship around the world as an American host family for a summer foreign exchange student. These homestays are often the beginning of lifelong friendships.

The students are sponsored in this country by Bendall International, which works exclusively with friendship, culture and educational exchanges.

Students will come for four, five, or eight weeks during the summer. Most will arrive in early July, a few in early August. They range in age from 13 to 18. All will speak some English, although a good sense of humor may be needed during communication for the first few days.

Students live as fully participating members of the family, not as guests in the home. It is an opportunity for American families to share their home and life with someone from a different culture and learn something of the language and customs of the homeland of their new family member.

You can help to make a dream come true for a teenager from another part of the world while you enjoy an unforgettable cultural adventure.

For more information about hosting a summer student, contact Bendall International at 11650 River Moss rd., Cleveland, Ohio 44136. Or phone (216) 238-3711.

Strong rhetoric programs at the junior college level would be much more significant in most students' programs. At Northern Illinois University, they're cutting back on their journalism program because too many students are taking journalism as a minor program without intentions of pursuing this field. In our day it was a sorority course for the Betty Coeds who didn't want to work too hard. The third sabbatical leave was approved for another Communications Professor who proposed "to complete a book-length manuscript that I have written, get editing feedback from outside readers, and finally to write an article on what I have learned about the writing process to bring back and share with Oaktown."

Chicago psychologist's credentials nor the seriousness of his work. We're sure the Oaktown College teacher could learn more in his school library than he ever could "living among the natives."

The Associate Professor of Communications will be taking leave "to engage in activities to advance the journalism program at Oaktown."

Through the years many Ph.D. types pass our way. And while we don't like to hang out our prejudices in public, we've found many of the Ph.D.'s would be better classified "Mispdhs". They have been living a cloistered life, away from the frills and fops of the every day world.

Many just do not understand what it is like to do an honest day's work. They often put around their college campuses, in and out of a couple of classes per week, attend a few committee meetings, which these college types are famous for, and shamelessly accept their paychecks for work WPA workers would feel guilty about. They wear suede patches on their sweaters, wear jeans and beards and smoke pipes emitting a haze of Ph.D. poppycock which they categorize under fancy words like "erudition".

We've really no objection to their restricting their shell game to their campuses. Like an/ inmates, so long as they remain there, they can't do too much harm. But when they want to get out and travel the world on freebies paid for by guys and gals who sweat for a living, it's time someone blows the whistle.

If the teachers want to be more scholarly, send them to the libraries. It might be necessary for many of them to apply for library cards but it will be a good learning experience for them.
