## Niles appoints committee to recognize citizens

The Niles Village Board has unanimously agreed to undertake a study of how to deal with memorials, and/or, recognition of retired or deceased Village Board members, Department Heads, and others.

Petitions have been recently submitted requesting buildings being renamed for persons that were involved in our community. We think that this is too serious a

matter to consider on an individual basis without an overall plan regarding this entire subject matter.

Therefore, a Committee will be appointed, chaired by Judge James Geocaris, 3rd District Circuit Court, members - Sister Irene Sebo, President of the Chamber of Commerce Curt Hockett, Niles Lions Club President George Kaufmann,

Betty Kazmerski and three members of our Board - Trustees Orville Ottow, Carol Panek, and Peter Pesole, with the charge that they determine an overall policy regarding this subject with recommendations back to the Board as to the proper way to proceed. Once this recommendation is made, we will determine our future course of action.

## School districts unite for fair funding from state

# District 63 joins in state suit

by Bob Besser

In an effort to force Illinois to return funds to local school districts, East Maine School District 63 formally joined with other school districts on Tuesday night to bring suit against Illinois.

During the Tuesday night school board meeting, District 63 Superintendent Dr. Donald Bond proposed to board members that they authorize a \$1,000 expenditure to assure their membership in a newly formed group consisting of school districts

calling themselves the Coalition On Fair Funding.

Bond said the group has retained Chicago attorney Allan Schwartz to begin drafting briefs claiming Illinois is not abiding by state law which states it is responsible for the primary funding of local schools. Bond said he, as well as school administrators state-wide, felt the law required state money make up 51 per cent of their budgets.

However, in District 63 in

## From the Left Hand

by Bud Besser

There's probably no quality of leadership at the top which is more exasperating than "arbitrary" decisions. These are often decisions which are capricious or whimsical based on individual judgment.

In Niles, three examples "seem" mindless, not well thought out, and not in the best interests of either the community or the persons involved.

The first example is the policy public employees must live inside the village. The implication is inside-residents will be more conscientious and concerned about their community, and more available in the case of emergencies.

The above reasons sound good but are fluff in logic. The inability of young people to find housing inside the village contradicts the logic to the arbitrary rule. Since the average home in Niles costs around \$90,000, it makes such policy absurd. Rental units in the village are limited but obviously are the main form of housing for Nilesites who begin jobs on the public departments. Unlike its neighbors, Niles' arbitrary rule stands alone among neighboring suburbs. It is not unfair to assume many well-qualified candidates go to these neighbors because they are not

### SIJ 55 Plus Club

St. Isaac Jogues Seniors spent a very enjoyable day on Friday, April 27. This was due to the efforts of President Stanley Zapski and his wife Vera. They arranged for two buses to pick up the 55 Plus Club members in the school lot at 9:45 a.m. The day was beautiful and the ride very pleasant. We arrived at the Holiday Park in Ingleside, IL about 10:45 a.m. and were ushered into the restaurant for a delicious meal which consisted of salad, homemade bread, beef, chicken, string beans, mashed potatoes and apple pie with coffee for dessert. A very pleasant feature was not having to leave our seats as The Apple Tree Theater was in the same room. The cast of the play entitled "The Happy Ending" was extremely good with lovely singing voices.

Many members bought goodies in the bakery to take home and we were on our way. In spite of just a few drops of rain, our trip home was just fine.

Many thanks to Stanley and Vera for a job well done.

## Township open forum on abuse and neglect

A panel of experts from area social service agencies will focus on abuse and neglect of children, adults and senior citizens at an open forum at 7:30 p.m. Thursday, May 17, in the Maine Township Town Hall, 1700 Ballard rd., Park Ridge.

Included on the panel will be Leslie Landis, director of LifeSpan, who will discuss adult abuse; Scott Badesch, director of the Northwest Service Coordination for the Health Impaired Elderly, and Pat Connelley of Oakton Nursing Pavilion, who will address senior citizen abuse and neglect; Roger Parnham, clinical director of MaineStay Youth Services, and Karen Hanas of The Harbour, who will discuss child abuse and neglect.

Halverson said, "Township staff members have been seeing increasing incidents of abuse and neglect due to economic and social stresses on the family. Child abuse is being seen more frequently at MaineStay Youth Services, a township-funded program. And, our general assistance office has noted a growing number of cases of adult abuse."

## NFS to repeat stop smoking clinic

Niles Family Service is pleased to announce another special workshop for the residents of the Village of Niles, their neighbors and guests. Due to the overwhelming demand, we are repeating the stop smoking clinic. Recent reports indicated that 3 out of 4 smokers want to quit, and some have quit many times - only to look down and find another cigarette in their hands.

Dr. Ron Martin will lead another stop smoking clinic on May 15 and 22 at 7:30 p.m. here at the Agency (8060 Oakton). He uses the very effective techniques of hypnosis, encouragement, and stress reduction. His technique has been developed over several years and many workshops. The evaluations of the many people who have attended this workshop indicate that this is one of the most effective workshops they have ever attended. The cost of the workshop is \$25. This is less than one month's cost of cigarettes. Truly this is a small amount to pay in return for a lifetime of better health.

Unfortunately, enrollment is limited to the first 10-12 people who sign up and pay the fee. For further information or to register, please call Dr. James Cisek at 692-3396.

## 12,000 square feet to be constructed

# Niles Library breaks ground for addition

### Public meeting of road upgrading

A public meeting will be held on the proposed improvement of Devon, Caldwell, Central and Lehigh aves. at the Milwaukee rd., northeast of Harwood Heights, the Illinois Department of Transportation said today.

The site is located west of Lincolnwood, south of Morton Grove and southeast of Niles.

The meeting is scheduled for 7:30 p.m. Monday, May 14, in the Edgebrook Community House, located on the Edgebrook Golf Course, 5900 N. Central ave., some two blocks south of Caldwell ave.

Proposed is the study of prospective channelizing of intersections, modernizing of traffic signals and improving at-grade railroad crossings.

Also proposed is an investigation of the feasibility of providing one or more grade separations with the Milwaukee rd. at Devon, Central and Caldwell aves.

The purpose of the public meeting is to describe the objectives of the study, to explain the schedule, to introduce those involved and to obtain comments and answer questions.

Niles Public Library District held ground breaking ceremonies Sunday for the new construction and renovation of the Main Library at 6060 Oakton st. The construction will provide for an addition of 12,000 sq. ft. which includes a new and larger children's services department, expanded floor space for the adult collection, a highly visible new book and materials display/exhibit area, a public computer learning laboratory, and greatly expanded business and general reference areas.

The construction is made possible with a State Public Library Construction Grant of \$250,000, the largest dollar amount program through the grant program. In awarding the grant last Valentine's Day to board president Harry Pestine, Secretary of State and State Librarian Jim Edgar remarked, "Release of these funds marks the first time the State of Illinois has provided funding for public library construction. The grant recognizes the state's strong commitment to its local public libraries and to activities that encourage economic growth in this community."

Residents of the community attending the ceremony were invited to sign in and take part in the event. Each of them took their turn breaking ground with the "gold shovels."

Officializing at the ground breaking ceremony, board president Pestine complimented the library staff which has worked under very difficult conditions for many years and praised Bob Young who, as the library's interim administrator during the planning stages, helped develop the plans for the new facility. "I am exceptionally pleased," said Pestine, "that long last we will have a building large enough to meet the needs of our district; that we will be able to expand our business and general reference services; provide enlarged quarters for a beautiful children's library; make available a full computer learning laboratory for our residents; and provide additional space for leisure reading for our senior citizens for whom the library is such an important part of their lives."

Senator Bob Kustra, in assisting with the ceremonies, said that he "was pleased to be able to support funding of the first construction grants for libraries in Illinois history and that Niles Continued on Page 37

## How to produce the perfect fashion show

Are you in Paris, Milan, or in New York? No, you are at the Ray-Vogue College of Design's annual fashion presentation, now in its 48th year. Models glide across the stage in original designs before an audience of 1400. The music, lights, and the flashing of cameras create an air of excitement. It is all so perfect from the opulent designs of the sleek models, with sophisticated hairstyles, dazzling makeup and up to the minute accessories.

Now, how does all this happen?

The Ray-Vogue College of Design begins preparation for their annual fashion show, held at the Westin Hotel, Wellington Ballroom, during the final week of May, when the ballroom is reserved for the next year's presentation. The 1984 show is scheduled for May 21.

Back at school student designers can hardly wait to begin working on sketches, pattern drafting, draping in muslin, fabric selection and construction of garments in preparation for the next year's gala.

On January 2, a call is sent out for student and semi-professional models. Over 300 nervous models crowd into the Fashion Design Department. They bring pictures, fill out forms with their measurements and telephone numbers, and then with music blaring, walk and pivot for the panel judges. From the 300 applicants, approximately 75 models will be chosen to be part of the production.

Now the designers scramble to engage the models they prefer. For the designer it is most crucial that the model and design blend to create a work of art. A jury of faculty members convenes and eliminates over 150 designs. When the list of accepted garments is read in a room of over 100 designers the silence is only broken by an occasional cry of disappointment or a sigh of relief.

Now each designer consults with faculty members to perfect the overall look of the garment. No detail is too small; perhaps a chunky necklace or scarf is added.

Now the Fashion Director of the College, Mary Bernard, and Show Director, Mercedes Evans, meet to group the garments by category. Commentator tryouts take place at Woodfield and at the downtown campus. Approximately eight students are chosen.

Committees are formed from every department of the College: Ushers, Tickets, Accessory, Dressers, and Backstage Assistants. Visual merchandising students form the prop and staging crew.

The final jury competition is about to take place. Chicago's outstanding designers and fashion coordinators will come to the College in the second week of May to eliminate approximately another 75 garments and pick this year's award winners in each category - and the College's overall design winner.

Student designers will not hear the outcome of the award winners until the show's conclusion. This information is top secret.

## Niles Nuggets semi-pro baseball team

It's time once again to catch some of that Nugget Fever! The Nuggets will be opening their 1984 season on Saturday, May 26 at 12 noon at Notre Dame High School. The Nuggets games will be played on Saturdays and Sundays during the summer season, they will start at noon and will be one nine inning game. Our first practice will be held on Sunday, May 6 at 1 p.m. at Notre Dame. We have men returning to the team, some for their third season. We are proud of the men who have played for the Nuggets in the past and know we will be equally proud of this year's team.

The Nuggets have been busy preparing for the season's ballgames, but we do have a problem. No one has come forward to be the sponsor of the team as of this date. If we do not find someone who desires to be a full sponsor of the Nuggets, then we must have small contributions from several of the businesses in our area. We cannot field a quality team like the Nuggets without community support. The Nuggets represent themselves and the community with talent, good sportsmanship, dignity and the men that are chosen to play for the Nuggets are of the finest moral character. We are a team which plays to be competitive in the "A" Division of The Greater Illinois Baseball League.

If you would like to sponsor the Nuggets or care to make a contribution to the team, please contact Stan Breitman at 698-2484. Thank you to all those who have supported the team in the past both morally and financially. We need you.

## OCC runners battle snow and wind to win relays

The Running Raiders on the Oakton Community College Track & Field Team had to battle snow, wind, sleet, and very cold weather to win at the Annual University of Chicago Relays. OCC dominated the distance events as the Raiders won half of the contested events. Teams from the College of DuPage, Triton, Kennedy-King, Wright, and the University of Chicago along with Oakton were entered in the meet.

Jesse De La Fuente was voted "Ironman of the Meet" as he won three in Gold Medals in winning the 3000 Meter Steeplechase, the 2 Mile Run, and anchoring the victorious 2 Mile Relay! Freshman Don Hennessy won the 110 Meter High Hurdles and the Triple Jump.

The Distance Medley Team of Chris Walsh, Jesse Bozman, Jim Rubey, and Tony Paul easily outdistanced the field to win handily! The winning 2 Mile Relay Team consisted of Rubey, Paul, Walsh and De La Fuente. OCC also won bronze medals in the Sprint Medley Relay (Bozman, Hennessy, Paul and Rubey) and in the 1 Mile Relay (Rubey, De La Fuente, Hennessy and Bozman).

Although no official team scores were kept, Oakton unofficially won the meet. Coach Savage was very pleased with the performance of his athletes.

 Saturday, April 28  
 Maine East 1—Glenbrook South 0

Maine East Girls' Soccer team extended their record to 3 wins—2 losses and 1 tie with 2 wins over the weekend. They are undefeated in conference play with 2 wins and 1 tie.

The Lady Demons defeated Maine West, playing in a 50 mile an hour wind and under a tornado warning, with a score of 2 to 1. Both goals were scored by freshman left wing Julie Glunz. Assists came from Michelle Morgan and Jill Pollacci. Goalie Kathy West did a super job

making 8 hard hit saves. With the wind in their face, East's defense did an excellent job in the 2nd and 4th quarters, shutting out the Warriors in the last quarter. Karen Scheel, Sheila McCarrick and Janine Sitkiewicz playing fullback, continually turned the Warrior offense back. Pollacci and Maureen DeChaud also continued their fine play at midfield. Due to her strong foot, Pollacci and directs kicks. One of her direct kick scores was overruled when East was called off sides.

Saturday at Glenbrook South the wind had died down a little, but East still had to be tough on defense. With substitute goalie Bettina Wachter making 6 saves and the same fullbacks playing well, East shut out the Titans 1-0. Julie Glunz again scored off of an unselfish assist from Jill Pollacci. Kathy Lund and Val Petray played exceptionally well at Midfield. East had 13 shots on goal to Glenbrook's 6 shots. Maureen DeChaud and Pollacci continued to lead the team defensively and also by setting up the offense. Janine Sitkiewicz was called upon to play a sweep fullback and a wing due to her superior abilities.

Julie Glunz, for her 3 goals and Bettina Wachter, for her 6 saves were nominated as "Soccer Players of the Week".

Jeremy Galfield, a Team VI member at Stevenson School, Des Plaines, was selected to be the White Sox Baseball Team's bat boy on Friday, May 11 in their game with the Texas Rangers. Jeremy won this privilege through the efforts of his parents in a charity auction recently held in Chicago.

As bat boy, Jeremy will be given an official White Sox uniform to wear, will have an opportunity to obtain autographs from the players, and, of course, see the game on the 11th from one of the best seats in the house.

Jeremy reported that he was excited about this coming event, an understatement for a student who has been a White Sox fan since first grade and has never missed a season opening game of the team. He promised to tell his classmates all about the players when returning to school after his chance to be a White Sox team helper.

## Tucker opposes proposed legislator pay raise

Mannie H. Tucker, Republican candidate for the State Representative 56th District today condemned Senator Kenneth Hall's (D, East St. Louis) proposal for a pay increase for State Legislators as obscene. "Even thinking about a pay raise at a time when unemployment in the state took a serious leap upward is irresponsible," Tucker said. "The Democratic House and Senate leadership should be concentrating on improving the business climate of the state so that jobs are created which put people back to work rather than increasing legislator's salaries. Many people have a hard time believing they (Legislators) earn what they get now," Tucker added.

Tucker, chief pharmacist at Sav Mor Drugs in Niles, says many of his customers live in the 56th District and many are still unemployed. "I realize there has not been a pay raise for legislators in many years, but I have spoken with too many of my customers who have not worked for almost two years to have any sympathy for 'underpaid' members of the legislature," Tucker said. "I disagree with the theory that you need high salaries to

draw competent people into elected office. I personally know many candidates running for House seats because they are dedicated to good government and not for the money. In all instances they could earn more in a private sector."

Tucker in his primary campaign constantly stressed the need for creating jobs and reducing government waste and irresponsible spending. "This pay raise is contrary to everything I talked about during the primary," Tucker said. He concluded by adding that "a pay raise will not do one thing to improve the dismal performance of the Democrat controlled House and Senate. Too many of these people have been in Springfield too long and are out of touch with what their constituents want and think. Their office is just another job to them and they are convinced that their political organizations will keep electing them no matter what they do."

Tucker is challenging the 14 year Democratic incumbent in the 56th District. The district consists of the Northern half of Skokie, Morton Grove and Niles as well as parts of Des Plaines, Wilmette and Glenview.

## Capparelli supports mandatory auto insurance

State Rep. Ralph C. Capparelli (D-13th) is supporting legislation (H.B. 2545) to require all motorists to carry auto liability insurance and believes that this bill is sorely needed.

"It is estimated that more than one-million motorists have no auto insurance," said Capparelli. "This is unfair. About 80 percent of Illinois' motorists carry insurance, but they are increasingly burdened by uninsured motorists who take little responsibility for the cost of accidents. Why should some motorists be allowed to drive without insurance?"

The bill provides for uninsured motorists to be taken off the road because, without proof of insurance, they could not obtain vehicle registrations. A card, as proof of insurance, would be issued by the insurance companies to all motorists carrying insurance.

Under the bill, drivers would be required to carry the card with them and allow police to check for the card in the same manner they request a motorist's drivers license. Administrative costs of the bill could be as much as \$600,000 annually, but insurance premiums are not expected to increase.

Capparelli said the bill provides for a \$250 fine and three-month driver's license suspension for the first offense and a \$500 fine and six-month suspension for subsequent convictions. "This measure is nearly identical to a mandatory insurance bill the House approved last year," he said. "The Senate blocked the proposal then so our effort will need to be doubled. A total of 33 other states already have mandatory insurance laws and the Illinois proposal is modeled after the best of the other statutes. This bill is needed and should become law."

The bill passed the House Insurance Committee by one vote and will now be considered by the House.

## Legislative update luncheon

The Tool & Die Institute in Park Ridge is sponsoring a luncheon where issues of concern for metalworking companies in the Chicago area will be updated. State Minority Whip, Penny Pullen, will be a guest speaker. Her district includes Park Ridge, Niles, Des Plaines and Mt. Prospect. She serves on the Human Services & Rules Committee and has a Presidential Appointment to the National Council on Educational Research. Another guest speaker will be John Vernardos, President of Associated Employers of Illinois, who is currently serving on Governor Thompson's Unemployment Insurance Task Force.

The Luncheon will be held May 14 at Knicker's Restaurant in Des Plaines at a cost of \$12 per person. This is the perfect opportunity for area business people to get an insider's view of the business climate in the General Assembly. For additional information, contact Jay Foersterling at the Tool & Die Institute, 825-1120.

## Janecek opposes legislative pay raise bill

Lenore Picker Janecek, Republican candidate for State Representative in the 1st House District, said she is "unalterably opposed to any effort to increase legislators salaries."

Janecek's comments were prompted by Sen. Kenneth Hall's (D-E. St. Louis) introduction of a series of bills to give lawmakers a \$10,000 pay raise. State legislators now receive \$28,000 per year and under Hall's proposal their pay would increase to \$38,000 per year by 1998 under a phased-in schedule.

"A pay raise is simply not justifiable," Janecek said. "Illinois has still not fully recovered from the recession and we still have too many neighbors out of work. Our tax dollars should be used to provide the

educational and other services citizens require and not to finance higher salaries for legislators.

"It is ironic that this bill was introduced only weeks after a House Republican Policy Committee study documented numerous cases of financial abuse by legislative commissions. I think House Republicans should be given a chance to clean up legislative practices before other members try to push a pay raise through the legislature," she said.

## New issue of Openers

"Mad's good for them," says long-time Mad Magazine editor Al Feldstein in the new issue of Openers, "because it teaches them to think, to start reading between the lines, to be skeptical of what's pitched at them." In a provocative, humorous cover story, Openers talks with Feldstein and DC Comics' Joe Orlando about America's addiction to comics.

For the more literary minded, Openers' regular look at recent fiction and nonfiction, "The

Reserve Shelf," reviews new works by Barbara Tuchman, Pauline Kael, and John D. MacDonald, and more.

The spring issue of Openers also includes interviews with science fiction master Ray Bradbury, and America's Number One woman gymnast, Dianne Durham.

And, just in time for spring, Openers features America's favorite outdoor hobby: Gardening with an interview with Bob Thompson, host of PBS's The Victory Garden.

For a look at what's great to read, pick up a copy of Openers, America's library newspaper, at Niles Main Library, 6960 Oakton st. and Niles Branch Library, 8320 Ballard rd.

## OCC Piano Ensemble marks "Homecoming"

In the photo (l to r) Glenna Sprague, director of the piano ensemble, Doris Stockton, Des Plaines and Mike McLaughlin.

Who says you can never go home again?

When Doris Stockton performs May 12 with the Oakton Community College Piano Ensemble, it will mark her return to the stage—a place that was "home" to her for 30 years when she played marimba with the likes of Liberace, Guy Lombardo, Wayne King and Leopold Stokowski at places such as the Hollywood Bowl and Carnegie Hall.

"I think piano really was my first love, but I didn't realize it," the 62-year-old Oakton student said. "I never had time to get a degree, but I decided to pursue my education in music composition with piano as an instrument. I figure I can get my doctorate by the time I'm 75, if I keep going," she added.

Ms. Stockton, a Des Plaines resident, said she has been encouraged to pursue her piano interests by Glenna Sprague, OCC assistant professor of music and director of the Piano Ensemble.

"Most people will say that I've had my career and it's over," she said. "Glenna isn't like that, she treats me like an 18-year-old with my whole life ahead of me. I've been reluctant to perform on the piano because I lacked the confidence, but Glenna has helped me overcome that. Of all the teachers I've had in my lifetime, Glenna stands out—she's one in a million. She really knows how to get the best out of her students."

Getting the most out of her students is exactly what Ms. Sprague attempts to do during the one or two years she has them at Oakton.

"I just want them to do their best," she said. "I also want to make it a very exciting and positive experience for them. Everytime you perform, you should enjoy it."

Felician College students observed the pre-Easter season by collecting food and clothing for the needy and demonstrating concern for peace and justice in the world.

They delivered a truck-and-van load of donated goods collected since March 7 to Mother Teresa's Missionaries of Charity mission at St. Malachy's Church on West Washington Blvd.

Said Sister Mary Beth Bromer, a student and campus ministry assistant: "This was our way of doing something tangible for peace and justice, by sharing what we have with others."

The students also organized and participated in a Mass for Peace and Justice on the campus,

## District 207 receives North Central accreditation

John A. Murphy, District Superintendent, has announced that North Central Association accreditation has been extended to Maine East, Maine South and Maine West through the 1983-84 school year following the review and approval of annual reports from the schools at the association's annual meeting.

Accreditation by the North Central Association is for one year at a time and must be renewed annually.

Dr. John S. Kemp, NCA State Director at the University of Illinois, congratulated the three District 207 high schools on their continued accreditation for 1983-84. "The accreditation should be a matter of pride and satisfaction to the schools and to the Maine Township community, for it provides assurance that the schools meet those preconditions for effective education established by the association.

Through this voluntary membership in the NCA, the Maine Township high schools and the people in District 207 have committed themselves to the pursuit of quality in education," said Dr. Kemp.

## Oakton College Starving Artist Fair

Oakton Community College will hold its 11th annual Starving Artists Arts and Crafts Fair May 26-27, from 11 a.m. to 5 p.m., at OCC/Skokie, 7701 N. Lincoln ave. The Fair will feature affordable arts and crafts, with no single item costing more than \$50. Most items will be priced considerably lower.

This is the original "Starving Artist" Fair in the Chicago area, and over the past eight years it has attracted some of the finest artists and craftsmen in the Midwest. Far from being a "local" show, more than half of the artists are from outside the Chicago area, some coming from as far away as Florida and Colorado. A jury panel views slides of representative work submitted by the applying artists.

Only top-quality original works are displayed—no resale items, kits, imports or work made from commercial molds can be sold. Thousands of handcrafted items will be on sale including paintings, lithographs, photography, on-the-spot portraits, jewelry, ceramics, wood carvings, macramé, leather work, stained glass, wooden toys and many more unusual types of art.

The Children's Art Fair again will be a featured part of the Fair. In this area, children will be allowed to choose and pay for arts and crafts pieces by themselves without parental help. This special grouping of works was created for children by the Fair's artists, and nothing is priced over \$3.

Area restaurants will be selling ethnic food. Admission to the Fair is free and ample free parking is available. For further information, call Fair director Jay C. Wollin at 635-1959.

"The accreditation should be a matter of pride and satisfaction to the schools and to the Maine Township community, for it provides assurance that the schools meet those preconditions for effective education established by the association.

Through this voluntary membership in the NCA, the Maine Township high schools and the people in District 207 have committed themselves to the pursuit of quality in education," said Dr. Kemp.

The North Central Association, which was founded in 1895,

Dr. John S. Kemp, NCA State Director at the University of Illinois, congratulated the three District 207 high schools on their continued accreditation for 1983-84.

"The accreditation should be a matter of pride and satisfaction to the schools and to the Maine Township community, for it provides assurance that the schools meet those preconditions for effective education established by the association.

# Maine East senior in Argonne program

Michael Pravica of Des Plaines, a senior at Maine East High School, has been chosen to participate in the 1984 pre-college program at Argonne National Laboratory. Pravica, who will work at Argonne from June 12 to August 3, will be involved in the heavy ion research program in the physics division.

Pravica was one of the 30 students who were selected from more than 300 applicants. He has been in the honors math and science program at Maine East for four years. Pravica, who will enter California Institute of Technology in Pasadena, California, in the fall, hopes to become a research physicist.

Last year, Pravica won an American Chemical Society Scholarship in competition with several hundred other students. As a freshman, Pravica participated in the National Science Foundation Student Science Training Program in computers. During his participation, he won

the annual bridge building contest in which he had to engineer and construct a model bridge that would successfully meet stringent stress qualifications.

## LEGAL NOTICE

VILLAGE OF NILES  
PUBLIC NOTICE  
DESIGN APPROVAL RECEIVED

Notice is hereby given to all interested persons that on April 15, 1984, Design Approval for the improvement of Shermer Road from Waukegan Road to Dempster Street has been received from the Illinois Department of Transportation. In addition, the Illinois Department of Transportation concurred on April 5, 1984, that this project is categorically excluded from further N.E.P.A. processing.

The proposed improvement will involve the removal of the existing pavement and the construction of a new pavement. The new pavement from Waukegan Road to approximately 160 feet south of Greenleaf Avenue will be constructed to a cross-section of 44 feet face to face of curb and gutter. Parallel parking will be permitted on both sides of the pavement. The new pavement from approximately 160 feet south of Greenleaf Avenue to approximately 160 feet north of Carol Avenue will be constructed to a cross-section of 61.5 feet face to face of curb and gutter. Parallel parking will be permitted on the west side of the pavement and 45° angle parking will be permitted on the east side of the pavement. A separate 12 foot backing lane will be provided for the 45° angle parking. The new pavement from approximately 160 feet north of Carol Avenue to Dempster Street will be constructed to a cross-section of 46 feet face to face of curb and gutter. Parking will be prohibited on this section.

The proposed improvement includes a left turn lane at the intersection of Shermer Road and Dempster Street. This left turn lane will be for traffic eastbound on Dempster Street making a left turn to go northbound on Shermer Road.

The proposed drainage system for Shermer Road will include provisions for a complete storm sewer system with the segmented areas flowing to the respective sewers. A series of storm sewers and inlets including curb and gutter will drain the proposed roadway.

New sidewalk will be constructed to provide continuous sidewalk on both sides of the roadway. Wheelchair ramps will be provided at intersecting streets.

Shermer Road will be closed to all but local traffic during the construction period and will require the provision of a detour route. Detoured traffic will be directed to use Dempster Street and Waukegan Road. Traffic with a local origin and destination will be able to use the local street network for ingress and egress. Vehicular access to local properties for businesses will be maintained to as great an extent as possible during construction. Critical and emergency services which would normally use Shermer Road will be notified prior to closing the street.

A Project Report which summarizes engineering and environmental studies, as well as maps, drawings and other information developed by the Village of Niles through their engineering consultants in conjunction with this report, and any written views received as a result of coordination with other agencies are available for public inspection and copying at the Niles Village Hall, 7601 North Milwaukee Avenue, Niles, Illinois, on Monday through Friday from 8:30 A.M. to 5:00 P.M. and on Saturday from 8:30 A.M. to Noon. ## Volunteers play active role at Nelson

The students at Nelson School have enjoyed the many programs arranged by the school Volunteer Coordinator, Karen Hillman. The kindergarten children were able to talk on telephones and learn the proper way to make a telephone call. This program was furnished by Illinois Bell Telephone's Telezonia Department.

Ms. Linda Bieschke, the "play lady" at Lutheran General Hospital, showed the first graders a slide presentation of the hospital.

The McDonald's Corporation provided the movie "Home, Safe Home," which was viewed by the second grade team.

In conjunction with Dental Health Month, Team 3 welcomed Dr. Leo Morton. The children learned proper dental care and received their own toothbrush kit.

Mr. Scott Warko, presented the "Eye Spy" program to Team 4. The human body was discussed by Dr. Beth Alexander, from Lutheran General Hospital, with

the fifth grade team. These students also enjoyed visits by Dr. Taub, who discussed good nutrition, and Mrs. Coleman, a blind psychologist.

Exercise and good nutrition were the topics presented to Team 6 by Julie Davidson, R.N. and Mr. Lou Malter.

Mr. Ron Cohen gave an uplifting and inspiring talk about goal achievement, and the Middle East was discussed in great detail by Mrs. Erica Yeger.

The 4th, 5th, and 6th grade teams also enjoyed speakers from the Cook County Forest Preserves, the RTA, and a kite demonstration by Anita and LeRoy Hoover.

Future volunteer programs will include a slide presentation about the Lyric Opera, a visit by the Cook County Law Mobile, and a program presented by New Trier's American Foreign Exchange students.

# District 63... Continued from Page 1

recent years, the percentage has fallen from 48 percent of the budget to 38 percent. In real dollars, said Bond, in a five or six year period state monies have decreased from \$2.8 million annually for District 63 to \$700,000.

Speaking of the proposed law suit, Bond said, "Perhaps if we say we're going to take this to court it will wake some people up."

Thus far, according to Bond, only 15 other school districts have joined in the suit. However, he added that letters have been sent to 800 school districts in the state and he was hopeful at least 50 or 60 other districts will join.

Bond said he hoped within six months the final briefs will be completed and the preliminary court motions will be filed.

However, Bond told the board that the action of suing the state was, in fact, a "political resolution" which he hoped would pressure lawmakers into meeting what he considers their obligation to increase school funding.

## Youth jobs... Cont'd from Niles-E. Maine P. 1

Niles Trustee Abe Selman. For employers, the goal of this service is to find and refer the kind of applicant that is requested and one that will do a good job. Every effort is made to make the best match possible.

For the teens, the job placement seeks ways to eliminate many of the barriers and serves to find ways of improving young persons' perception and abilities in locating work. Increasing work and community service options permits young people to demonstrate their capacity to contribute to the community.

Jobs are available for full time, part-time and summer employment in the areas of office, factory, stores, stock and inventory, cutting lawns, babysitting, party help, light housekeeping chores, cleaning garages and basements, fast foods, nursing homes, etc. Age 15 and under youths are eligible for jobs that are considered odds and ends around residents homes, 16 and older teens can enter into the actual labor market and become gainfully employed in local business and industry.

The youth employment service has placed many full time positions for young people over age 17 and continues to become a major source of contact for business and industry when they are looking for full time help.

Businesses are encouraged to call when they have job openings and residents, especially senior citizens and the handicapped find an extra helping hand most useful for their needs around the home.

recent years, the percentage has fallen from 48 percent of the budget to 38 percent. In real dollars, said Bond, in a five or six year period state monies have decreased from \$2.8 million annually for District 63 to \$700,000.

Speaking of the proposed law suit, Bond said, "Perhaps if we say we're going to take this to court it will wake some people up."

Thus far, according to Bond, only 15 other school districts have joined in the suit. However, he added that letters have been sent to 800 school districts in the state and he was hopeful at least 50 or 60 other districts will join.

Bond said he hoped within six months the final briefs will be completed and the preliminary court motions will be filed.

However, Bond told the board that the action of suing the state was, in fact, a "political resolution" which he hoped would pressure lawmakers into meeting what he considers their obligation to increase school funding.

**Pre-school benefits parents**

Animals, safety, health, and foods are just a few of the themes learned about in the pre-school program at Maine East High School. The program meets Tuesday through Friday from 9:15 until 11:15, and is supervised by Mrs. Margaret Wicherts.

Under the supervision of Mrs. Wicherts, child care aides consisting of juniors and seniors plan and teach the lessons to the children. Mondays are used for the aides to plan lessons and decorate the room for that particular week's theme. This year the program has a total of ten aides: Lisa Banks, Kim Buenger, Wendy Culotta, Michele Dessimoz, Laurie Elsingher, Stella Friss, Beth Jacobson, Dawn McCarthy, Tammy Potrue, and Jill Wegener.

Junior Michele Dessimoz enjoys the children because "they give me a sense of responsibility, and the kids will make my day by coming up to me, right out of the blue, and give me a kiss or tell me I look nice." Tammy Potrue, also a junior, enjoys "Teaching the kids new activities and watching them learn." Pint-sized junior Stella Friss, "likes playing and being with the kids."

The children learn various skills including socialization skills, pre-kindergarten skills, functioning within a group, and letter, number, and color recognition. Each week has a theme in which stories and lessons follow. Some themes are Holidays such as Valentine's Day, Easter, and Halloween. Transportation and community helpers are themes that have also been studied. The children are currently learning about Spring and Easter.

The children follow a schedule that is basically the same everyday. Free play, stories, activities in the gym or outside, lessons, art, and a snack are all part of a day in the pre-school program.

Maine East is not the only school that offers a pre-school program. Maine West and Maine South have similar programs. For the 1984-1985 school year, the program will also offer an afternoon session beginning at 12:30 and ending at 2:30. The pre-school program was made a part of the home economics curriculum in the early 1970's and has been very successful.

compelled to live in their tents.

A second arbitrary decision which has little merit is the decision regarding not naming the new Public Works building after 40 year-employee Ed Bacher.

On May 27th, the new building on Touhy Ave. will be formally dedicated and it is likely it will not be named after anyone. It has to be one of the dumbest decisions ever made in Niles. The formal dedication takes place only once and it will be in two weeks. But because Niles village president Nick Blase has decided against the naming, it will be designated Niles Public Works building.

The argument against naming the building after Bacher is there are many former Nilesites who might be considered for the honor. Thus, no one will be so honored.

How much more logical it would be to dedicate a building for someone who is still here to enjoy such an honor. And because Bacher was a most dedicated worker, heading the Public Works

was able to receive those funds." Rita Breitbart, co-chair of the Citizens Ad Hoc Committee for the expansion of the library said "This is an important step forward not only for library development but for all cultural needs of the community."

The waiting for the grant has been long, the preparation for construction arduous but with ground breaking, our goal is in sight," remarked Irene Costello, Secretary, Board of Library Trustees. "That goal since the beginning has been better service to the citizens of the Niles Public Library District, which has been nearly impossible with our cramped situation. Now all sorts of exciting avenues can be developed."

Terri Spreckman Carman, Library Trustee, believes that "with each shovel full of dirt the library's past will lead us to the library's future."

Library trustee Jaroslava Benko "...was delighted when we recently received a state library construction grant. The groundbreaking today is the first step toward the realization of a long awaited and much needed expansion which will benefit the patrons of the Niles Public Library District."

The test will be given Thursday, May 10, from 6 to 9 p.m. at OCC/Des Plaines, 1600 E. Golf rd. and May 16, from 6 to 9 p.m. at OCC/Skokie, 7701 N. Lincoln ave. Cost of the test is \$10.

To register for the test, call the OCC Student Services Center at 635-1723 (Des Plaines) or 635-1417 (Skokie).

**Parkside's full-day kindergarten accepting registrations**

Parkside Human Services' (PHS) full-day kindergarten in Des Plaines is now accepting registrations for the 1984-85 school year. The kindergarten, part of PHS' state-licensed Children's Day Care Centers, is located in the Life Fulfillment Center on the corner of Potter rd. and Church st. in Des Plaines. It is open to children who will be five by December 1.

The kindergarten calendar runs from September 10 to June 14 (1985). Hours are 9 a.m. to 3:30 p.m. Before- and after-school care is available at the Day Care Center from 6:30 a.m. to 6 p.m. Children who arrive before 8:30 a.m. will receive breakfast, and all children receive a hot lunch and an afternoon snack each day. A small student-teacher ratio of 1:15, well below the state requirement of 1:25, ensures that children will receive individual attention. It also allows for a more personalized daily curriculum that meets each child's particular needs and interests.

**Students learn tornado safety practices**

On Wednesday, March 21, Lt. Morrie Farberman of the North Plaines Fire Department, conducted a series of meetings for the students of Stevenson School focused on safety practices during a tornado alert situation. Lt. Farberman's program included a film produced by the State of Illinois, a lecture with examples on how students could protect themselves at school and in their homes, and a question period. Stevenson students met with Lt. Farberman in groups of approximately 120.

Lt. Farberman's program was one of a series he conducts throughout the school year all designed to give children additional information and procedures that will help to protect them during emergency situations. He conducts programs for the students focused on fire emergencies, practices to protect them at home or school during inclement weather situations, and procedures to obtain help if an emergency occurs. His work with the students is one part of an on going program that includes "First Aid for Little People" presented by the American Red Cross and various District 63 sponsored drills. All of these programs give students the opportunity to learn how to deal with serious situations that sometimes occur.
