Niles Family Service seeks new members for board

Frankly, this is a letter of solicitation - but NOT for money. We are searching for thoughtful people to serve on the Board of Commissioners of Niles Family Service, which is noted as an "Agency With A Heart."

The Niles Family Service is a very unique agency in several respects. First, we are proud to be one of the very few mental health/family service centers in

Illinois run by a local municipality. Second, even though it is a department of the Village of Niles, it has an 11 member Board of Directors which sets policy, develops programs, evaluates the standards and makes recommendations regarding budget, etc. to the Village Board.

For more than 15 years, the Niles Family Service has been helped by the professional staff of

social workers, psychologists and psychiatrists. In addition, workshops, groups and lectures have reached hundreds, more with advice on marriage, family, single parenting, life coping skills, stop smoking clinics, and stress and money management, and pre-retirement. Successful youth and school projects have been instituted, as well as a new counseling

Niles man charged with public indecency

A 21-year-old Niles man was arrested for public indecency in Niles on Tuesday, June 19.

Police were notified at 11:20 p.m. on Monday, June 18 after a 15-year-old Niles girl reported the man had exposed himself in the hallway of her building located in the 6400 block of Dempster st.

The girl and her father chased the man, however, lost sight of him within blocks of the building.

The following day, June 19, Niles Police were contacted by Park Ridge police that a man matching the offender's description was appearing in Park Ridge court on charges of public indecency.

When the man was taken back to the Niles Police Department, the 15-year-old Niles girl identified him as the offender from the previous night.

Ballard-Greenwood rentals would be \$690-\$915

Zoners turn down 450 apt. units

The Niles Zoning Board unanimously turned down a 450 unit rental apartment complex on an 8.272 acre area at the southwest corner of Greenwood and Ballard, Monday night.

Commissioner Ginger Troiani said the 50 unit per acre density was much greater than Niles has previously approved and thought a 30 unit per acre plan would more likely receive approval. The traffic congestion in the area was another obstacle which the

project proponents, Marquette Properties, could not overcome. Two commissioners, Tom Biondi and Pat Feichter both live in the area and pointed out the tremendous back-up of traffic which now exists there.

The proposed project had an estimated cost of \$29 million which included plans to rent one bedroom apartments at \$690 and three bedroom apartments at \$915.

Egan's senior citizen package awaits Governor's signature

New laws directly affecting the pocketbooks of Illinois' quarter of a million senior citizens recently passed the General Assembly and now await the Governor's signature. According to the senior citizen package sponsor, State Senator Robert J. Egan (D-7), three major pieces of legislation will become law July 1st if Governor Thompson does not delay in putting his signature on the legislation.

Egan listed the following: License Plate Reduction. This measure offers a 50 percent reduction on the purchase price of license plates for Seniors 65 years of age or older, and the disabled whose household income is less than 12,000 per year (beginning in 1986). Egan emphasized that this legislation will help seniors on fixed incomes maintain their vehicles by lowering the purchase price of their license plates.

Circuit Breaker Age Adjustment would authorize individuals eligible for the Circuit Breaker Cash Grant program to qualify for that grant as soon as they reach their 65th birthday. Currently individuals must become 65 years of age before June 1st of the year in which they apply to qualify for the Circuit Breaker Cash Rebate. This legislation will enable more seniors to apply sooner and thereby benefit longer from this assistance program.

Social Security Disconnect Program will disconnect Illinois from federal laws requiring seniors who file jointly and earn \$32,000 per year or above (or at \$25,000 for individuals) to pay taxes on their social security benefits. If signed by the Governor this bill will eliminate this tax at the state level and save seniors thousands of tax dollars, Egan said.

Egan noted that another measure, designed to protect the physical welfare of seniors, is also close to passage. "Our Senior Citizens Abuse and Neglect Act would require physicians, social workers, nurses and dentists to report any and all suspected cases of abuse or neglect to the Department of Aging, the Coroner's office and the State's Attorney from the county in which the suspected abuse occurred," Egan explained. This measure is now on the third reading in the House. It is an important piece of protective legislation and I believe it will also be placed on the Governor's desk. Egan concluded, "The passage of this package marks another milestone in our efforts to help our elderly survive in an economy that continues to perpetuate outrageous inflation."

Medicare list of doctors available

People with Medicare can now find out which doctors and suppliers in the Des Plaines area have accepted assignment of medical insurance claims, Marilyn J. Robertson, manager of the Des Plaines Social Security office, said recently.

"Each Medicare carrier publishes a Physician/Supplier Assignment Rate List for the area it serves. All Social Security offices in the carrier's service area receive a copy of the list for people to use as a reference source," Robertson said. Medicare carriers are the insurance organizations selected by the Government to handle claims under the medical insurance part of Medicare.

The list shows how often each doctor and supplier accepted Medicare assignment in the preceding year. The names and addresses of each doctor and supplier are listed in alphabetical order. New lists will be published every year.

"A person can come into the Social Security office," Robertson said, "and look at the list to find out which doctors accepted assignment in the past year and about how often."

"But," Robertson said, "people should keep in mind that just because a doctor accepted assignment on a certain percent-

age of claims last year does not mean he or she will accept assignment on their claims. Doctors choose whether to accept assignment on a case-by-case basis."

"We keep the list in a readily accessible part of the office for the person's convenience," Robertson said. "And, if a person want a copy of part of the list to take home, we will be glad to provide it."

The Des Plaines Social Security office is located at 701 Lee St., Suite 420, Des Plaines, and the telephone number is 823-0815.

Edgar praises Senate for passage of 21-year-old minimum drinking age

Calling it "the single most important step that can be taken by Congress today to prevent drunk driving deaths and injuries," Sec. of State Jim Edgar praised the U.S. Senate Tuesday for passage of legislation requiring states to adopt a minimum 21-year-old drinking age or face loss of federal highway funds. As a member of the Presidential Commission on Drunk Driving, Edgar sponsored the recommendation that urged Congress to pass legislation requiring states to enact a 21-year-old drinking age or lose highway funding. The U.S. Senate Tuesday approved H4616 which gives states two years to adopt the 21-year-old standard. Those states refusing to do so would lose five percent of their interstate highway funds in FY87 and an additional 10 percent in FY88. The House has already passed the legislation.

This is the single most important step that can be taken today to reduce the carnage caused by drunk driving," Edgar said.

The existing hodgepodge of drinking age laws encourages young drivers to cross borders and drink in states with lower age laws. The best way to prevent the continuing slaughter of 5,000 young people each year in alcohol-related accidents is a national 21-year-old drinking age. Continued on Page 29

HYPERTENSE?

Blood pressure readings are measured as two distinct numbers. The first number of systolic reading is the pressure exerted by blood against an artery when the heart contracts. The second number of diastolic reading reflects the pressure exerted against an artery when the heart is relaxed. Generally speaking, for a person past 35 years of age, a hypertensive condition exists when the first number is at or above 160 or when the second number is at or above 94. The Morton Grove Village Hall Senior Center will conduct a free blood pressure screening clinic from 9 to 10 a.m. on Tuesday, July 12. All residents are welcome and no appointments are necessary.

Jeff Hay, on the left, holds the State Cup trophy which will move on to next year's state champion, Hans Bachmeier, on the right, holds the State Cup trophy which will permanently belong to the Chicago Kickers Soccer Club.

On June 17, the Chicago Kickers Soccer Club won the under 16 Illinois State Soccer Championship. This same team won the under-14 Illinois State Soccer Championship last year. The team consists of young men residing in Chicago and several of the northwest suburbs. Two Niles residents, Hans Bachmeier and Jeff Hay are members of the team.

Bachmeier, the left halfback, and Hay, the right fullback, have been with the Kickers Soccer Club for 7 and 4 years respectively. Both players played on Maine East's varsity soccer team as freshmen last fall.

The Kickers have compiled an impressive indoor and outdoor record of 58-4-1 since last Christmas. To win the state title, the Kickers defeated Park Ridge Orange, Hoffman Estates Blue, Hoffman Estates Red, Palatine Green, and Darien.

Last year the team traveled to Omaha, Nebraska and placed third in the Midwest Regionals. This year they go to Livonia, Michigan for the Midwest Regional play.

The Kickers participated in two

tournaments this spring. They won 5 games in Collinsville to win the championship. They recently lost a rematch to Darien in the Chicago Tribune tournament in the quarter-finals.

The Kickers are coached by Joe Kohberger of Chicago and Adolph Bachmeier of Niles. They coached the first Kicker team in recent history to win consecutive state championships in different age brackets.

This Marathon Championship was the third time in four years that OCC has placed among the top 10 teams in the country. In 1981, the team placed sixth. Last year the OCC team placed third.

Kustra passes bill to correct city sales tax problem

A measure to help prevent sales tax allocations going to the wrong communities has been approved by the Illinois Senate and House, according to Sen. Bob Kustra, R-28, sponsor of the bill.

"The need for this legislation was evident when allocations of sales tax revenues which rightfully belonged to Niles were given to Des Plaines," Senator Kustra said. "This went on for almost two years, and when the error became known, it wasn't easy for Des Plaines to pay back that money. Of course there was hardship for Niles too - doing without the funds all that time."

The bill provides that the Department of Revenue must submit to municipalities and counties each year lists of retailers registered there.

It also would require local officials to notify the Department of Revenue of any changes to the list. The department would be mandated to correct records promptly and to provide monthly updates with additions and deletions for each municipality.

An important provision of the bill would place a two-year statute of limitations on any misallocations discovered after the enactment date. However, this would change to a six-months statute of limitations after Jan. 1, 1986, Senator Kustra pointed out.

"This should make for an easy transition to the new and more efficient procedure," he said.

The bill was sponsored in the House by Rep. Judy Topinka, R-Berwyn, and Rep. David Harris, R-Arlington Heights. It has

Tucker supports individual's choice

Do you "buckle up for safety"? Do you buckle up at all? If Rep. Aaron Jaffe (D-56) has his way, you'll buckle up or be fined \$25.

Legislation which recently passed the Illinois House of Representatives with one vote against all adult drivers and passengers found not wearing seat belts while riding in a motor vehicle.

Mannie Tucker, Republican candidate who is opposing Jaffe in November, has labeled this law as "unnecessary" and "an unwarranted intrusion into an individual's life."

"I have no quarrel with the claim that seat belts save lives," said Tucker, "but if an individual chooses not to wear a seat belt it's his business, not the government's."

"Lawyers tell me that this law, which is now pending in the Senate, would shift blame in many car accidents. If you are hit by another driver without being at fault, the fact that you're not wearing a seat belt will place some of the responsibility on you for your injuries."

"While I don't view this bill as a major campaign issue, it is an indicator of Mr. Jaffe's philosophy," Tucker said. "For Jaffe, good intentions are enough to justify intrusive and unenforceable laws."

The endorsement of the Department of Revenue, the Illinois Municipal League and the Illinois Retail Merchants Association: It now goes to the governor for approval.

Suburban Republicans name directors

The final results of area elections of directors for the Suburban Republican Organization of Cook County were announced today by its chairman, County Commissioner Carl R. Hansen.

All elected are Republican township committeemen. Five of those named were approved by area, and two by action of the board of the group.

Elected were David E. Brown, Kenilworth (New Trier Township), Elmer W. Conti, Elmwood Park (Leyden Township), Evelyn DeRoss, Orland Park (Orland Township), Robert Gorman, Homewood (Thornton Township), Herbert V. Huskey, Oak Lawn (Worth Township), Henry Pawlik, Country Club Hills (Bremen Township), and Bernard E. Pedersen, Palatine (Palatine Township).

Also announced was the appointment of George Townsend of Park Forest, Rich Township Republican Committeeman, as Registration Drive Coordinator for the suburban area. Townsend will work with the Reagan-Bush Committee and all 30 Republican township organizations in pushing the 1984 voter registration campaign.

Kustra claims victory for killing suburban food tax

State Senator Bob Kustra (R-28th) claimed victory last week as the suburban restaurant tax was dropped from the World's Fair funding package. Kustra, who appeared at a Park Ridge Chamber luncheon last week and publicly announced his intention to fight the tax on suburban Cook, called the scaled-down version of the World's Fair funding package "a good start until we can verify the World Fair authority's estimate on the projected costs and revenues. This will delay a final decision on the Fair, but taxpayers must be assured that the Fair does not wind up an albatross around the state's neck. That's what seems to be happening with the New Orleans fair."

The compromise Fair funding package includes a statewide hotel-motel tax increase of 1% and a 1% restaurant tax on the City of Chicago. Kustra, who supported the plan, pointed to the revenues which the state would generate from sales and income taxes as a result of the increased economic activity brought on by the Fair. "In the long run, this increased economic activity will help us finance our schools, mental health centers and prisons, which need our help more than ever. Because the City of Chicago and its restaurants will benefit most from the Fair, a Chicago restaurant tax is a fair tax to levy."

Kustra applauded an independent financial and engineering feasibility study to evaluate fair operations and activities as well as projected costs and revenues to assure that revenues do not ex-

ceed expenses and that investments from the public and private sectors will be paid back. Speaking to the issue on the Senate floor, Kustra said, "Too many of my constituents are suspicious of the optimistic projections of Fair attendance and subsequent revenues. This independent study we have authorized will give me the information I need to make a final decision next year on the Fair's future."

The scaled-down Fair funding plan also gives McCormick Place the financial backing it needs to expand McCormick Place so Chicago remains the premier convention capital of the world. According to Kustra, "My local

Chamber of Commerce people tell me that the city's economic well being is tied to us out here in the suburbs. What's good for Chicago's economic activity will help us in the suburbs."

Kustra also praised the plan for funding \$10 million for tourism and advertising. "I'm sick and tired of turning on my TV to Michigan, Wisconsin, Indiana and Ontario telling me how wonderful life is there. Illinois has fine tourist attractions as well and we do not sell ourselves in our neighboring states. These new tourism dollars will bring more visitors to Illinois and that will increase our revenues and lessen the burden on the taxpayers."

Amirante supports collective bargaining for police

Policemen who every day put their lives on the line for the protection of the citizenry should not be treated like second-class citizens, state senatorial candidate Sam L. Amirante declared today.

Amirante, a Park Ridge Democrat who is challenging incumbent state Sen. Robert Kustra (R-Glenview) for the 28th District seat in the November election, expressed support for pending legislation in the General Assembly that would bar strikes by police, but would allow for collective bargaining.

In a test vote last week in the Senate - which fell four votes short of approval - Kustra failed to vote.

"We need a state senator who fights for his people," said

Amirante, "not one who operates in fear of alienating political big wigs at the expense of the protection of the people of the District."

Amirante said the proposed legislation would ensure that police protection of the public would continue, even in the event of a labor dispute between policemen and their employers.

"If we want first-class police protection, we can't treat police officers like second-class citizens," he warned. The bill would permit policemen to engage in collective bargaining through organizational representation, and would substitute binding arbitration procedures for the right of policemen to walk off their jobs in the event of an impasse with the towns that employ them.

Voss seeks MSD re-election

Dennis Voss, Republican candidate for re-election as Commissioner of the Metropolitan Sanitary District, at a packed-house fund raiser held to kick off his campaign warned Cook County residents against treating the race for commissioners as a minor election item, and called on them to reverse 20 years of Democrat control of the district.

Voss-speaking before a bipartisan group of more than 700 at the House of the White Eagle in northwest suburban Niles-stated that the Metropolitan Sanitary District (MSD) controls over 9 Billion Dollars, and has a yearly budget of over 440 Million Dollars.

"That's more than most third world countries have as their Gross National Product for one year," said Voss. "What's even more important, is that all this money is controlled by a group that represents only half the population of Cook County--namely the Democrats."

Voss-who was appointed Commissioner by Governor Jim Thompson-is one of two Republican members of the nine member board.

Voss warned that for the MSD to work for all the people-it has to represent all the people. And that means that one-sided, one party control must go.

"As a banker/developer I've seen the effects of 30 years of land development," declared Voss. "And I can tell you that the most progress is made when the opinion of all people-Republican and Democrat alike-come into play. Control by any one group is bad. Control by bad government. It is for this reason I have chosen to run for Commissioner on the MSD."

Missing child recovery act passes House

Legislation that would enable local law enforcement authorities to act immediately on reports of missing children passed today (May 29) the Illinois House by a 114-0 vote, announced House Majority Whip Ralph C. Capparelli, sponsor of the bill.

"This legislation (H.B. 2775) deals directly with the problem of locating and recovering missing children by requiring the Department of Law Enforcement to establish and administer a computerized 'data network' which would receive, organize and communicate information on missing children to local law enforcement agencies," said Capparelli.

At present, the Law Enforcement Data System (LEADS) gathers police information of all types. Data on missing persons is among the items stored by LEADS but oftentimes reports on lost, missing or runaway children are thrown in with all other reports and are not easily attainable by local authorities.

"A computer system dealing only with missing children will allow local police quicker access and detailed reports of similar disappearances in neighboring towns and counties around the state," said Capparelli. "Better information, on a timely basis, may be the key to successful recovery of many missing children."

Salespeople top half million mark

Joe Des Parre

ERA Callero & Catino Realtors honored Sandy King and Joe Des Parre for both exceeding the \$500,000 mark in residential sales for the month of June.

It is considered an exceptional accomplishment for a residential salesperson to break the half million mark in a single month. To have two people at that level during one month, especially in

Sandy King

spite of rising mortgage interest rates, is quite unexpected, and shows a great deal of competence on the part of both Sandy and Joe. "After having a 116% increase in sales in 1983, Sandy and Joe are two of the top qualified salespeople who are helping us achieve another record year in 1984," stated Bill Alston, Residential Sales Manager.

Centel to charge for directory assistance calls

Effective July 1, Centel has been directed by the Illinois Commerce Commission (ICC) to charge 30 cents for directory assistance calls in excess of two each billing period.

"The directory assistance charge applies to calls placed to '411' as well as '555-1212' within your area code," said Dale Cross, general customer services manager for Centel. The same rates already are in effect for calls to "555-1212" outside your area code, but within Illinois.

The ICC directed Centel, as well as all other telephone companies in Illinois that are currently charging for directory assistance, to comply with the new Illinois standard of 30 cents per call after two free calls.

The charge is based on the handling cost incurred by phone companies when a call is placed to directory assistance. "With this type of charge, the costs of providing directory assistance are recovered more evenly from those who use the service as opposed to those who do not," Cross said.

Many of the changing rates in the phone industry are based on "usage sensitive" pricing and charges that more closely reflect the actual cost of providing specific services, he added.

Calls to AT&T directory assistance operators in another state are provided for under Federal Communications Commission guidelines effective since May 25, 1984. The FCC ruled that the charge for each call to out-of-state directory assistance is 60 cents. Two numbers may be requested with each call.

The FCC ruling also provides for two "complimentary" calls to out-of-state directory assistance, if a customer also places two out-of-state telephone calls during the same billing month. The complimentary call allowance

King Richard's Faire opens this weekend

The king and queen reigning over this year's King Richard's Faire in Kenosha enjoy the calm before the proverbial storm of festivities awaiting some 200,000 people for seven weekends from July 7-8 through August 18-19. King Richard, newly portrayed by Ray Nelson, founder of Chicago's Puppet Place, and Queen Katherine, Barbara Burinski, reign over hundreds of performers, craftspeople and food purveyors who make King Richard's Faire an exciting experience.

Visitors to the Faire can watch a Shakespeare festival, marvel at the exploits of stiltwalkers and jugglers, participate in song and games, witness the drama of men jousting on horseback, look into the future with its two famous psychics (Irene Hughes and Phyllis Campbell) and delight in delicious food. King Richard's Faire is located at 194 and Russell rd. on the Wisconsin-Illinois border. Hours are from 10:30 a.m.-7 p.m. Parking free.

Amy Jo Serpe, 7510 Jonquil terr., was one of four performers chosen from recent auditions for a part in the upcoming original comedy revue "Staring Back", to be performed at The Second City September 10 through October 3.

Written by Susan Nussbaum and Lawrence Perkins, "Staring Back" depicts life experiences of disabled people and their unique sense of humor in a Second City comedy style. The revue, sponsored by Schwab Rehabilitation Center, will be performed by a cast made up of able-bodied and disabled actors.

Serpe, who is legally blind as a result of having been born with cataracts on her eyes, worked for the Department of Rehabilitation Services as a teacher of daily living skills for blind and visually impaired children and adults before quitting last September to pursue a career in the theater.

She graduated from Rockford College in Rockford, Illinois in 1976 with a Bachelor of Fine Arts in Theater. Serpe has performed in several high school, college and community theater productions. She played Annie Sullivan in Mount Prospect Community Theater's production of "Miracle Worker" and she played Polly in the North Shore Community Theater's performance of "The Gingerbread Lady".

Felician College Art Fair Sunday

From break dancers to square dancers and marionette theater to the Chicago Police Dog and Horse Show, entertainment will be as varied as the art at the Felician College 12th Annual Arts and Crafts Festival, Sunday, July 8.

Unlike most art fairs, the festival treats crowds to a double feature: an extensive exhibit of art and crafts by local and regional artists, plus continuous entertainment on the adjoining campus grounds. Food and refreshments also are available.

Included among 12 entertainment acts, from noon to 7 p.m., are the National Marionette Company of Chicago, the "1871 Hot Timers" square dancing troupe, the "Chicago Street Rockers," a break-dancing troupe; the Krakowiak Polish Dancers; and the AnimART Puppet Theater.

The break dancers are a group of agile north side youngsters sponsored by State Representa-

tive Jessie White. Chicago Police Horse Patrol and Canine units will demonstrate their animals' skills on the campus lawn at mid-afternoon. At another location, there will be story tellers, Far Eastern dancers, and the four-piece band, "Rolling Thunder."

Also featured will be a singing group of Felician Sisters and two north side soloists - Juanita Darling, presenting popular musical and light opera songs, and folk singer Julia Kamish.

"They're Playing Our Song" auditions

Open tryouts for the first of three musicals to be presented in the 1984-85 season by the Des Plaines Theatre Guild are scheduled for Monday and Tuesday, July 16 and 17, at 7:30 p.m. at Guild Playhouse, 620 Lee St. in Des Plaines.

The show which will open DPTG's 39th consecutive season in September is "They're Playing Our Song." It will be directed by Mary Jo Willis, head of theatre at Harper College in Palatine, and produced by DPTG board member Don Collignon of Mt. Prospect. Music director is Diane Maheras Johnson of Des Plaines, and choreographer will be Monica Torretto of Arlington Heights.

"They're Playing Our Song" concerns an established composer and his relationship with an aspiring young female lyricist - roles based on the talented duo

who wrote the music and words for the show - Marvin Hamlisch and Carol Bayer Sager. The book is by Neil Simon.

Songs from the score include the title number, "They're Playing Our Song," "If He Really Knew Me," "When You're in My Arms," "Just For Tonight," "I Still Believe in Love," "Fill in the Words," "Working It Out," and "Fallin'."

The musical will be presented for four weekends, September 7 through 30, at Guild Playhouse. For further information call 296-1211 (noon to 8 p.m.).

Summer activities at LTY Senior Center

Summer activities are in full swing at Leaning Tower Senior Adult Center, 6300 W. Touhy Ave., Niles. The Senior Center under the direction of Shirley Spears is open to seniors 60 years and older.

The most popular activity, of course, is swimming. Senior members may swim from 11 a.m. to 4 p.m. on Monday, Tuesday, Wednesday and Friday. There is also a special Senior Exercise Class that meets 3 days per week from 9 a.m. to 10 a.m. A doctor's report is required for this class.

The Senior center itself is open 4 days per week from 10 a.m. to 3 p.m. There are over 1,100 members and almost as many men as women.

Bridge classes for summer have been very well attended this season. There are beginners, and advanced and a duplicate bridge class and seniors who take these classes use the rest of the day to practice as well as enlarge their circle of friends and play with a number of different people.

Leaning Tower Senior Center has its own chorus, The Tower Tones, who rehearse at the Y every Wednesday morning at 10 a.m. throughout the year. Any member interested in singing may join. The Tower Tones are very popular in the Niles Township area and they not only entertain for Leaning Tower Seniors, but at various other Senior Centers in the North Shore area.

They also entertain regularly at Niles Township area Nursing Homes whose residents look forward to these concerts. Sometimes special concerts are given at Leaning Tower for these Nursing Home residents, who are bussed over for an outing.

Tuesday mornings at 7:30 a.m. will find the Leaning Tower Men's Golf Group at Edgebrook Golf Course from the time the snow melts in the spring until the bad weather in the fall. There is also a bowling League complete with bowling luncheon and trophies. Members are invited to join when the new group meets in the fall.

Friday is Showtime at Leaning Tower Senior Center. Merle Rosenblatt of Niles Public Library has arranged for full length movies or travelogues each week at 12:45 p.m. These movies are free of charge and open to the public. Come and enjoy an afternoon of fun.

In addition to these activities there is an annual picnic during the month of August and Leaning Tower Center offers at least one "In-Town-Trip" each month. This summer's trips include a day at Arlington Race Track, and Shady Lane Playhouse in Marengo. Each month there is a birthday party for all members who have birthdays during that month. Interesting entertainment is featured and refreshments are served. These are but a few of the over 80 activities of-fered at Leaning Tower Senior Adult Center. For information call the center at 647-8222, ext. 52 or visit the Leaning Tower, any Monday, Tuesday, Wednesday or Friday between the hours of 10 a.m. and 3 p.m.

Disabled Transportation Task Force

Continuing their search for ways of providing subsidized transportation for the disabled in Maine Township, this group met recently to help tabulate surveys collected from the 80 people who attended the meeting for disabled held at Maine Township Town Hall on May 22. Two areas of activity are currently being pursued by the taskforce: (1) generating private carrier proposals to provide transportation services for the disabled, determined by the CTA and RTA to be more cost-effective than using mass transportation carriers, and (2) continuing involvement with the existing paratransit program in the township to be sure it fulfills its mandate.

Apple II. In addition, the Lab periodically offers three-hour workshops entitled "College Survival Skills," designed to help students learn note-taking techniques, good study habits, test-taking skills and effective time management.

In the Lab, students may receive either individual or small group tutoring in math (developmental through calculus), English (Communications), accounting, and English as a Second Language/Speech. "Peer tutors" and professionals from the community who are experts in particular areas of study are available for tutoring.

While most students have only a temporary need for the Lab's services, several students have succeeded in overcoming great learning difficulties through ongoing contact, Roen said. She cited one student who was unable

to write a complex sentence when he first came to the Lab. He became attached to a particular tutor who took a special interest in him, providing ongoing academic help and emotional support. Eventually, he was able to become a student aide in the Lab. He is currently enrolled at a four-year college as an English major.

The Learning Lab is located in Room 269 of the west wing and is open during the summer session from 8 a.m. to 5 p.m. Monday and Thursday, and from 11:30 a.m. to 9 p.m. Tuesday and Wednesday. "We have so much to offer that I would like to see even more people make use of our services," Ms. Roen said. "We want people to know that the Lab has something for all students."

For more information, students are encouraged to stop by Room 269 on the Skokie campus, or to call the Lab at 636-1434.

Suburbanites become gang members for 'West Side Story'

The Latin street gang members spotted around Niles West High School lately are really middle-class, suburban young men and women posing as street gang look-alikes for the upcoming production of Theatre 219's West Side Story.

It's not easy to shed years of suburban polish to become Latin and street-wise, according to Denise Drucker and Gloria Camilli, two of those chosen to portray members of the Sharks street gang for the musical.

"First you have to try to empty your mind of your own personality," says Camilli. "Then you draw upon the traits unique to your character to build a new personality," adds Drucker.

Pamela Klier, another cast member portraying a Shark, draws upon her dance training to convey certain body positions typical of Latinos. "I also think about being proud and seductive," she says, a viewpoint that is shared by Alissa Greenman.

Others in transition from suburbanites to Sharks are Dominick Basso, as their leader, Alyson Harris as his girl, Marlon Schneider as his girl, Paul Guerrero as his friend, Earle Greenberg, Mitch Speck, Michael Brody, Michael Margolis, Michael Guerrero, Michael Irpino, and Mitch Gitelman. The Shark girls also include Nikki Rich, Kathy Feingold, and Julie Moltz.

The adoption of a uniform drinking age is particularly important in Illinois because of the many alcohol-related deaths and injuries that occur in Illinois counties bordering Wisconsin and Iowa, which have lower drinking ages. Young Illinois drivers are enticed by these laws to drink across the border. When they drive home, they end up killing or injuring themselves or others," Edgar said.

He said since Illinois' enactment of a 21 year minimum age in 1980, alcohol-related fatalities have decreased significantly except in counties bordering Wisconsin, which have seen an increase of 25 percent.

Of the 20 states that considered raising drinking age laws in 1984, only four passed the legislation. Twenty-seven states have minimum drinking ages under 21.

Haupt-Yehl fund drive off to fast start

The drive to save the historical Haupt-Yehl house in Morton Grove got off to a fast start last weekend when more than \$14,500 in donations was collected.

The funds were contributed by some 500 people Friday and Saturday at the First National Bank of Morton Grove, which is assisting the Morton Grove Historical Society in saving the 96-year-old community landmark.

The money is needed to move the Haupt-Yehl home from its original site at 6025 Lincoln, Morton Grove, to a permanent new location in Harrier Park. The house is destined to be demolished if it is not relocated.

The expense of moving and renovating the building is estimated at \$50,000, of which \$25,000 in cash and pledges has been raised by the society. The \$22,000 balance must come from public donations.

Biggest contributor to the \$14,500 total was First National of Morton Grove, which donated \$2,500 in certain matching funds in addition to absorbing other costs. Other donations ranged from \$1 to \$1,000.

"Now that the general public has responded to this worthwhile community cause, we need a boost from local business and industry to help put us over the top," said bank president Randall J. Yenerich.

Contributions are being accepted during regular business hours in the bank's main lobby at 6201 Dempster.

The co-chairmen would like to hear from exhibitors at their earliest opportunity. They say as in previous years, space will be assigned in the order that reservations are received.

The annual Legion Flea Market has become widely known throughout the north shore area. Every year attendance increases.

The number of exhibitors has steadily climbed each year also. The merchandise to be displayed may be new or used.

Niles Zoners ... Continued from Page 1

Amenities for the project include a clubhouse, a waterscape lake, a two-level underground garage, pool, cabana and landscaping which would cost about \$500,000.

The present owner, Robert Krillich, would sell the land to Marquette if it received an okay from Niles.

In addition to the objections from the board, Donald Rudd, a condominium attorney representing a neighbor of the project, Ballard Point Condominiums, cited traffic density of apartment units, the hazards of the proposed 10 to 15 foot lake, fencing around the water and the proximity to the Ballard Point recreation center, as reasons for their concerns. Approximately 75 residents from Ballard Point, an unincorporated project directly west of the proposed project, were present at the four hour meeting. Resident Joseph Feldman, a retiree living at Ballard Point, also voiced objections to the project citing the density of apartments, traffic congestion and the anticipated problems of the schools which he said would be "unmanageable."

School district 63 attorney Phil Gerner said the district was concerned about the safety and welfare of its students, pedestrian access at that intersection, the widening of Ballard Road, the dangers caused by the water hazard and the flooding which he said affects Gemini Junior High School across the street from the proposed project.

Marquette Properties estimate annual revenues generated by the apartments would be \$60,000 for the village of Niles, \$87,000 for elementary school District 63, \$257,000 for high school District 207, \$24,000 for the Oakton College district and \$24,000 for the Golf Maine Park District. Marquette projected more than \$1 million of tax money would be generated annually from the apartments compared with the present \$14,892.22 for the vacant land and an estimated \$653,120.99 for offices and restaurants for which the property is presently zoned.

In recent years the court reversed Niles and allowed zoning for offices and a restaurant for the area. Previously, owner Krillich had been turned down when he sought to build multiple dwelling units there.

One of the owners of Marquette Properties, Bruno Botarelli, said they needed the 450 units to spread the cost for the project. He said more than 50% of the land would be open space; it would be quality construction (all brick with cement block backing); there would be two-level underground parking; it would be a strong revenue base for the schools. It was estimated by the builders 37 students would come from the apartments and would attend the elementary schools and 15 students would attend Maine East high school. Both districts would receive in excess of \$180,000 above and beyond the cost of educating these students.

There would be six buildings with 75 units in each. Included would be 90 one bedroom units, 312 two bedroom units and 48 three bedroom (two bedrooms and a den) in the project.

Other plans presented by the experts, representing the builders, noted the buildings would work in two building tandem with the underground garages connected to two buildings. There would be 580 spaces underground and 90 street surface parking locations. Each building would have two elevators and the three bedroom units would be on the top floors. Cathedral ceilings would be included with these top floor apartments. All apartments would have balconies.

An engineer, Joe Michalek, said drainage channels would run through the property and a 10 foot pond or lake would be in the center of the six building project.

Traffic consultant Paul Box gave figures for autos passing the Ballard-Greenwood intersection. He said 42% of the traffic is westbound between 7:30 a.m. and 8:30 a.m. and 58% was eastbound on Ballard Rd. He said 180 cars leave the area during this period.

Board members Biondi and Feichter both noted the figures were based on traffic counts after school and closed for which he said it would take a month to accumulate figures which would include school children traffic for that time period.

Job Support... Cont'd from Niles-E.Maine P.1

1983 mainly because of the depressed job market," explained Dr. Grossman. "We've had about 60 people who have come to the group. Some come once or twice and others have been coming for months."

The purpose of the job support group is two-fold, she continued. "It's a real support system for the people who come and it also provides them with information about finding and holding jobs."

Many a Pleva has been attending job support sessions since the end of March. She was dismissed from her job in the publishing field and currently is trying to find an editorial position.

"It really is a good support system," Ms. Pleva said. "After coming to the session, I realized that other people are in the same situation. I've also got some helpful hints about the job market. Most people aren't trained to look for a job. After working for a company for a number of years it can be very traumatic to go through the process of trying to find another job. And you already feel

terrible because when you lose a job it's like being dumped in the middle of the ocean. I've learned things here that will help me when I do get a job."

Josephine Rogan attended her first job support group meeting in December after losing her job as a software support specialist in microcomputers.

"I wasn't ready for this kind of thing when I came," she said. "My first reaction was, 'who needs this?' I came back in April when I felt ready. There's a lot of good that comes out of this group, and a lot of it comes from giving."

Ms. Rogan said she gets a great deal of satisfaction from what she's been able to give to others in the group. "We don't just sit around and hold hands," she said, "but everyone can be a big help to others in the group. There are certain stages you go through when you're unemployed and you can see others going through the same stages and you can understand how they feel."

Dr. Grossman said that people can talk about "whatever is bothering them" when they come to the job support sessions.

"One of the things most people feel when they lose a job is anger," she said. "Sometimes anger prevents you from doing anything, but a lot of people don't openly show their anger. It's important to be able to express anger here. Feelings are easy to discuss in this group."

Dr. Grossman said persons between the ages of 25 and 60 have come to job support meetings, though the majority have been middle-aged persons who have lost career-type jobs. Sessions are open free to anyone who is out of work.

"We do what we can to help people here," she said. "We had one person come in who was told he was unemployable by someone who interviewed him. Well, we shot that down so he didn't believe it himself, and he had a job a month later."

OCC Theater to present 'Play It Again Sam'

Tickets are on sale for the Oakton Community College Theater Association production of Woody Allen's "Play It Again, Sam," scheduled for July 19-21 and 26-28 in the performing arts center at OCC/Des Plaines, 1600 E. Golf Road, Park Ridge.

The light-hearted comedy centers around Allan Felix and his attempts to understand himself and form a relationship with a woman—any woman. He's guided along the way by the dream producer of Bogart, who Alan believes really knew how to treat a woman, along with his best friends Dick and Linda Christie who, it turns out, are having troubles of their own. We meet along the way Allan's ex-wife, who divorced him on the grounds of insufficient laughter, and we come in contact with a variety of women who have in common their disinterest in and quick rejection of Allan.

The cast includes OCC theater technician Chuck Doolittle of Highland Park, as Allan; Ann Berry, of Park Ridge, as his ex-wife Nancy; Dan Rosenberg, of Chicago, as Bogart; James and Mary Payne, of Park Ridge; Dana Kerwin, of Des Plaines, as Dream Sharon and Vanessa; Karin Sachs, of Des Plaines, as Sharon Lake and Flashdance Girl; and Karen Hinkle, of Northbrook, as Gina, Intellectual Girl and Barbara.

"Play It Again, Sam" is being directed by Karol Verson, who also is the director of Acting Up!, OCC's touring senior theater ensemble. The assistant director is Stewart Groves of Park Ridge.

Tickets for the show are available at the OCC Theater Box Office at OCC/Des Plaines, from noon to 3 p.m., Monday through Thursday. Prices are \$4 in advance and \$5 at the door. Students, OCC faculty, staff and seniors can purchase tickets for \$3. All performances begin at 8 p.m. For ticket information call 635-1900.

Tollroad deaths linked to drunk drivers

Concerned about the sharp increase in Highway fatalities on the Tollroads last week, Captain Hugh S. McGinley, Commander of District 15 State Police in Oak Brook, is looking at ways to halt the surge. The five highway deaths last week, all from separate accidents, brought the total fatalities for 1984 to twelve. This equals the total for all of 1983. Captain McGinley stated; "Seven of our last eight fatalities have involved D.U.I. drivers. This figure supports my previous position that we have to remove the drunk drivers from our high ways for everyone's sake."

Gayle M. Franzen, Executive Director for the Toll Highway Authority is issuing instructions to his toll collectors to notify the State Police when suspected drunk drivers enter their toll lanes.

"Many collectors have been doing just that," McGinley added, "but the additional effort the other collectors make will help
