Zoners OK eatery on Milwaukee

D-Lites franchise-restaurant was approved by the Niles Zoning Board Monday night on Milwaukee Avenue north of Golf Road.

The Advance Foods Corporation received approval changing zoning at 9631 Milwaukee Avenue from B-2 to B-2 Special Use for the construction of a local restaurant on the site north of the existing gas station.

The building will be 3,466 square feet and will be a masonry-type construction.

From the Left Hand

by Bud Besser

This is one of those little stories which seldom are published in the Metros. It concerns your neighbors. And it concerns the intensity of feelings which are often generated behind the scenes but seldom ever surface.

Niles had a Beautification Contest which culminated last weekend. Nick Blasse, his Gang of Five and Carol Panek thought it would be a good idea to award \$10,000 to Nilesites to spruce up their estates. Do a bit of planting. Paint up, Manicure the lawn and you could be awarded a prize up to \$1,000. Good idea? Well, Mr. B and his friends thought so. There weren't any angles. They would ask 16 garden club ladies and gents from outside of Niles to come in and do the judging. They were to go around the community last Saturday and choose the winners based on a criteria which certainly seemed fair.

Residents were asked to submit an application if they chose to be judged. Only those applicants would be eligible for the contest. Approximately 200 residents' home areas were subsequently judged.

While the winners were not officially announced or made known until Tuesday, villagers began calling the Scheel village hall Monday to find out who was the top win-

Niles police to subpoena Mulcahy's records

The Niles police are discussing with the Cook County State's Attorney's office the possibility of seeking to subpoena the business records of Mulcahy's restaurant, which was gutted by a fire on Monday, July 30.

Chief of Detectives Ray Giovannelli said on Tuesday his office "will sit down with (representatives of) the State's Attorney and see about getting subpoenas for certain records" from Mulcahy's.

Referring to the subpoena Giovannelli said, "The purpose of it is to determine the kind of business Mulcahy's was doing" prior to the fire.

Niles police, along with other local and state agencies, are conducting a routine arson investigation of the fire which

caused up to \$500,000 damage to the building.

The restaurant fire, described by Niles fire officials as one of the worst in memory, completely destroyed the restaurant in under one hour and a half.

Officials said on Tuesday that the origin of the fire was the floor of the dining area in an area free from natural gas or electrical wires.

CUB membership tops 10,000

Illinois' newest consumer advocacy organization, the Citizens Utility Board, today announced that it had recruited its first 10,000 members—just three weeks into its statewide membership solicitation drive. And, according to the group's interim President, CUB is well on the way toward meeting its goal of 100,000 members by year's end.

"With the tremendous response we've gotten in the first three weeks alone," said Howard Learner, "CUB has taken a giant step. It's a sure sign that Illinois consumers see membership in CUB as an effective way of fighting back against rising utility rates."

CUB kicked off its membership drive in late June, delivering to Illinois telephone companies 4.5 million brochures to be enclosed in the July bills of residential and small business phone customers. State law gives CUB unique authority to communicate with consumers with such enclosures in the bills of electric, gas, telephone, and water utility companies. CUB will begin a series of consumer messages on postcard bills in September.

Learner added that CUB has met another important goal. "Under state law, CUB must recruit 10,000 members within three years, or it must go out of business. We met that goal in three weeks. CUB will be in business for a long time. We're getting stronger every day," Learner said.

CUB members will vote for the permanent Board of Directors this December, with a Director being elected in each of Illinois' 22 Congressional Districts. Only CUB members are eligible to run for the Board, and only members may vote. Ballots will be cast by mail.

CUB is currently run by an 11-member interim Board, appointed earlier this year by the Governor and State legislative leaders. Membership in CUB costs five dollars per year, and those wishing to join should write to CUB at P.O. Box 1104, Glenview, Illinois 60025.

Orchard Village annual bake sale

Orchard Association for the Retarded/Orchard Village will hold its annual bake sale at the Skokie Farmer's Market at Oakton and Lincoln sts., on Sunday, Aug. 12.

Orchard Village is a community living facility for mentally retarded adults with a training program to develop independent living skills.

Anyone wishing to donate a favorite bread, cake, pie or cookies for this sale can call Cheryl Davidson at 967-1900.

Baked goods can be dropped off at Orchard Village, 7670 Mar-mora rd., Skokie on Friday, Aug. 10 and Saturday, Aug. 12. Proceeds from this bake sale will benefit the residents of Orchard Village.

A little bit of Washington, D.C. came to Maine Township Sunday, July 29, when U.S. Rep. Henry Hyde presented Township Supervisor Paul K. Halverson with a flag that had flown over the Capitol.

More than 200 township residents watched as Hyde made his presentation at the dedication of the new Maine Township Town Hall, 1700 Ballard rd., Park Ridge.

"We are very proud to have this tie between local government and Washington," Halverson said. "The grass roots function that township government performs by serving people in their home communities is the essence of American democracy."

The flag will be placed in the building's council chambers, a large meeting hall that is available to community groups free of charge, Halverson said.

The new Maine Town Hall is housed in a spacious remodeled building, formerly a church designed by Lloyd Wright, son of renowned architect Frank Lloyd Wright. Purchase of the building and its remodeling were funded entirely with federal revenue sharing monies.

Township offices were moved to the new facility last Jan. 16, from cramped headquarters at 2510 Dempster st., Des Plaines. Since then, more than 14,000 people have passed through the doors of the new town hall to take advantage of a variety of township services, Halverson said.

Also addressing the crowd Sunday were Des Plaines Mayor John Seitz, State Sen. Bob Kustra, State Rep. Penny Pullen and George Miller, Executive Director, Township Officials of Illinois.

Niles student receives MSD award

Commissioner Voss in presenting the awards said, "It's young people like Noel who are the hope of the future for our environment. He and his parents - who have supported and encouraged him - deserve our thanks in addition to the award."

Each year the MSD honors future scientists with a special ceremony. This year the honors were followed by a boat trip to the West-Southwest Plant, and a tour of the MSD's Tunnel and Reservoir Plant (TARP) Mainstream Pumping Station.

DO YOU KNOW PERIDOT?

Peridot (pear-uh-doe) has long been recognized as the official birthstone for August. It is blessed with beautiful color and brilliant sparkle, calling to mind a dew-kissed meadow glimmering in the morning sun.

The first mention of peridot in history seems to be in connection with the island of Zebaret in the Red Sea. The Egyptians closely guarded the lively green gemstones they found here. It is said that the island was infested with poisonous snakes which had to be destroyed before the treasure could be recovered.

The ancient admirers of peridot called it "gem of the sun." They believed it could dispel enchantment and drive away dark, evil spirits and terrors of the night.

Some of the best peridot in the world comes from the state of Arizona. It is also found in Mexico, Burma, South Africa and South America.

A healthy supply of fine quality peridot makes this a very affordable gemstone. It is appropriate for all lovers of green, whether born in August or not. It is a rich accent for the fashion shades of red and khaki that are always popular for autumn and are current perennial favorites.

We carry an attractive selection of peridot jewelry as well as loose stones that can be set into a mounting of your liking. Peridot offers a very affordable way to add sparkle to your life.

The program is unique in that it offers nurses theoretical and clinical practice, such as community health nursing, while appreciating the knowledge and experiences registered nurses bring with them to classroom and clinical settings.

"Clinically experienced registered nurses have needs that are specific to the adult learner, needs that greatly differ from those of the generic nursing student," states Ms. Kozio. Allstate Media Producer dead at 54

Socrates Chris Kaitson, age 54, died at his home in Niles, after a long illness. He was the son of Christ M. and Vagia Kaitson of Chicago, both deceased.

Mr. Kaitson, a Media Producer for Allstate Insurance Company, was nationally known as a photographer, cinematographer, and producer. "His productions set a standard of professionalism that has gained Allstate's AV Division top recognition throughout the industry," according to William J. Jacobson, Chris's manager.

Before the onset of his illness last fall, Chris co-produced Allstate's 1984 Marketing Kickoff film in Lake Placid, N.Y., then flew immediately to London to direct a unique agent motivation film. The week before his death Chris received an Award for Creative Excellence for the London production from the U.S. Industrial Film Festival.

AV Department head Steve Mulligan was not surprised by the award. "I have always had the highest regard for Chris," said Mulligan. "He was the consummate professional in everything he did - warm, friendly, and a joy to work with."

Chris's professional affiliations included the Professional Photographers of America, Inc.; Society of Motion Picture & Television Engineers; Association for Multi-Image International, Inc.; International Television Association; and the Mid-State Industrial Photographers Association.

His work was honored by awards from the Information Film Producers of America, Inc.; the International Film & TV Festival of New York, and many others. In 1982, he earned for his company the coveted CINE Golden Eagle Award for The Reliable Air Bag, "selected for its excellence to represent the United States in international competitions."

Before joining Allstate, Chris served his country in the U.S. Army Signal Corps, then was an industrial photographer for several years for the film of A.B. Dick.

In his personal life, as in his profession, Chris lived his creed. A loving husband and exemplary father, he gave just as generously of his time and considerable talents to the community. He was a devout member of St. John the Baptist Church, Greek Orthodox, of Des Plaines; a member of Hellenic Lodge 1084 of the Ancient Free & Accepted Masons of Illinois; and AHEPA, American Hellenic Educational Progressive Association, a cultural and community action group.

Chris is survived by his loving wife Helen (nee: Kourakis), sons Kris (22), Michael (21), and Paul (15); a sister, Mrs. Helen Meine, Westchester, IL; a sister-in-law, Mrs. Rita Kaitson (husband Martin, deceased) of Crawfordsville, Indiana, and several nieces and nephews.

Arrangements were handled by Skaja Terrace Funeral Home, Niles. The funeral service was Monday, July 23, at 9:30 a.m. at St. John the Baptist Church, Des Plaines. He was interred at Elmwood Cemetery.

Serving Up Food & Fitness

Most of us tend to forget so often what good nutrition is all about. The average American's diet is probably making oneself overweight and unhealthy. One reason for this is the diet normally contains, for the most part, too many calories, too much fat, a lot of sugar and salt consumption, and not enough fiber added to the diet. Adding all these and without enough and the right forms of exercise, Americans have developed many serious health problems.

To those of us out there who do not eat sensibly and exercise regularly, there is still time to change this unhealthy habit. The first step on the road to recovery is a physical checkup at the doctor's office. He or she is the best qualified individual to determine the proper diet for you and also advise you on what exercise(s) you should do pertaining to your health status.

As one's weight increases there is a greater risk of hypertension, diabetes, gallbladder disease, joint disease, and cardiovascular disease. Weight reducing and control is a lifetime commitment with nutritious foods and proper exercise. This will reward one with a better physical appearance, a longer life span and all in a happier life.

DIETING TIP
Keep busy between meals, at least the first few days of your diet. It will help you in breaking those poor leisure-time snacking practices which are more habit than hunger.

Here is a recipe to try that is very nutritious, filling, and quick to fix.

Sesame Chicken Stir-Fry Serves 4

- You need:
- 1 lb. Chicken Breasts, boned & cut into strips
 - 1 small zucchini, cut into sticks
 - 2 med. carrots, sliced on the bias
 - 1 small onion, sliced
 - 2 stalks celery, cut on bias
 - 2 lbs. sunflower oil
 - 2 lbs. Sesame seeds
 - 1 clove garlic
 - Soy Sauce to taste

Cut garlic clove in half. With one half rub skillet or wok bottom and sides. Discard that half. Put the oil in the skillet with the other half clove of garlic minced. Heat over high flame, then add chicken and onions, constantly stirring until the chicken is cooked on the outside. Lower flame and cover for 5 minutes until the onions are transparent. Uncover, raise the flame and add the carrots and celery. Again you must keep stirring to get everything evenly cooked. When the carrots start to get tender, add the zucchini and the sesame seeds. Season with soy sauce. Keep stirring until zucchini is tender. Serve with steamed rice.

Auxiliary past presidents meet

Under the hosting of Mrs. Howard Karsten of Morton Grove, the past presidents of the Morton Grove American Legion Post #134 Auxiliary recently met for their bi-monthly meeting.

Mrs. Karsten chose the Morton House Restaurant for the location of this session.

Former leaders of the organization rotate between the meetings performing the arranging duties, furnishing prizes for the cards that are played after luncheon and sending out the meeting notices.

Julie Karsten served the Unit as 1981 president.

She is active with the Auxiliary as advisor to the Junior Auxiliary, and also the Veterans Craft Chairman, handling these items at fish fries and other occasions for the disabled vets.

A former Illinois Bell Telephone Co. employee, Mrs. Karsten who is now enjoying her retirement, spends even more time in the volunteer field. She visits on an almost weekly basis such institutions as the Hines VA, assisting wherever necessary in the comfort and recreation of the former servicemen. While racking up many hours of volunteerism, the telephone company saluted her, even after her retirement, with a dinner naming her their Volunteer Extraordinary and presenting a plaque.

Car thief arrested

Police arrested a 28-year-old Chicago man on Friday, August 3, after he was observed stealing an auto parked in Niles. An employee of Sears Roebuck and Co., 400 Golf Mill, called the police when he saw the man and a companion inside a parked car near the store. The employee said it looked like the men were tampering with the car's ignition. When the car, a 1970 Chevrolet Chevelle, started, one of the men ran to his own car and drove south on Greenwood ave. followed by the Chevelle. When Niles Police arrived they immediately radioed a description of the stolen vehicle. Morton Grove police stopped the Chevelle in the 8600 block of Waukegan rd. At the Niles Police Department the offender was charged with theft, possession of a stolen vehicle and driving with a suspended driver's license. He was assigned an August court date and held in lieu of \$1,000 bond.

A Niles resident surprised burglars who were inside her apartment on Friday, August 3. According to police, the woman, who resides in the 6900 block of Jonquiere, returned to her apartment at 1:10 p.m. Approaching her rear door she saw a window had been broken and immediately ran to a neighbor to call the police. At about the same time two teenage men and a teenage woman ran from the house to a waiting car. One of the youths carried a pillowcase from the apartment presumably filled with household items. When police arrived they put out a description of the vehicle for area police departments.

Flees after writing bad check

An unknown woman ran from a local jewelry store on Friday, August 3, after the owner tried to call the bank to verify a check she had just written. The check later turned out to be stolen. Officials of Candlelight Jewelers, 7900 Milwaukee ave., said a woman came in and purchased a gold chain and pendant with a check for \$278.

Jean thief arrested

A 35-year-old Hillside man was arrested for shoplifting in Niles on Wednesday, August 1. The man was reportedly shopping at Sears Roebuck and Co., 400 Golf Mill, when he was seen placing three pairs of blue jeans into a bag and leaving the store. After security guards detained the man he was taken to the Niles Police Department. The offender was charged with shoplifting and, after being assigned a September court date was released after posting a \$100 bond. The stolen jeans were valued at \$179.

Home burglarized

A Niles home was burglarized during the night of Monday, July 30. Police report the home, located in the 8500 block of Ozark st., was broken into by a burglar who pried open a locked bedroom window. Once inside the house the burglar ransacked the bedrooms and dining room. The owners told the police they would supply a list of missing items to the police.

Safety hints for moped drivers

Mopeds, or motorized pedalcycles, have become a popular and economical form of transportation for many people during the five years they have been on Illinois roads. However, mopeds have a motor, can reach speeds of up to 30 mph, and are potentially dangerous if used properly. Pedaled like bicycles or moped like motorcycles, mopeds are subject to all traffic laws and some special regulations. For example, drivers cannot carry passengers unless the moped is designed to carry two persons. These mopeds must have a seat, permanent handgrips and footrests for the passenger. Although helmets are not required for either the driver or passenger, wearing them can prevent serious injuries if the moped skids and overturns. For night driving, a moped must have a headlight that emits a white light visible for at least 500 feet. A red reflector on the rear must be visible from 100 to 600 feet when directly in front of the lower beams of another vehicle's headlights. Since a moped is a motor vehicle, both the moped and driver must be licensed. Mopeds have an annual \$16 registration fee and a \$3 title fee. One license plate is issued that is displayed on the rear. Anyone with a current drivers license may operate a moped.

Stress tests for runners at Bethesda Hospital

Bethesda Hospital, 2451 W. Howard st., sponsor of the North Town Community Council 4th Annual Run on Labor Day weekend, is offering a price reduction on its stress test during the month of August. The test, in which the individual being tested walks on a treadmill at incrementally increased speeds and grades, may be taken by calling 761-6000 for an appointment. During the test the subject is monitored for blood pressure and heart rate and significant changes in heart rhythm on an

EKG screen until he or she arrives at 85% of maximal heart rate. The treadmill stress test is performed under the careful supervision of experienced medical personnel who are constantly observing for changes in the heart's activity throughout the test.

According to Bethesda's Director of Cardiac Imaging, Roy Redman, the screening is given only by doctor's prescription; however the hospital will arrange for an appointment with a physician for those who request it.

Blue Demon MVP

Barbra Atsaves, the all-time leading scorer for DePaul University's women's basketball team, was named the Lady Blue Demons' Most Valuable Player for the 1983-84 at the university's annual athletic awards banquet.

Atsaves, who graduated with a bachelor's degree in communications in June, scored 1,794 points during her four-year DePaul career. The Lincolnwood resident is pictured with her college coach, Ron Feiereisel, and University President Rev. John T. Richardson, C.M.

Niles Nuggets

Semi-Pro Baseball Team

The Nuggets had to win their last 2 conference games to earn a position in the play-offs, and they did! Nugget Fever was in the air for these games! The Nuggets ended their regular season with an 11 win-8 loss record and a third place standing in the North Division of the Greater Illinois League.

Nuggets 11-Dodgers 8
 Lee Newlan pitched a super game against the Dodgers. The Dodgers can never seem to get the best of Lee and the Nuggets. Lee has pitched 7 winning games against them in the past 3 seasons. Marty Oddo finished them off in the last 2 innings. The Dodgers are not above causing trouble on the field to try to win, so the Nuggets have nicknamed them the "Dirty Dodgers". This was another game for them to walk away talking to themselves. Nugget batters collected 14 hits!!! Scott Madsen had our only extra base hit, smacking a triple over the center fielder's head bringing in 2 runs and later in the game, Scott layed down a perfect bunt on the first base line, beating it out for a base hit. Nick Busija hit the ball hard for 3 singles and collected himself 4 RBI's. Paul Minasian and Angelo Christopher each had 2 singles.

MS patients help each other

The Multiple Sclerosis Support Group, Park Ridge chapter, was organized in 1978. The group meets at the Nessel Health Center, 1775 Ballard rd., Park Ridge, on the fourth Wednesday of the month, with the exception of August. When this group was formed six years ago there were only two other chapters in the area; since then, many other groups have been started.

In an atmosphere of mutual support and understanding, members can find comfort in discussing problems with others who experience similar problems and lifestyles. Programs vary each month. Guest speakers such as psychologists, researchers, and neurologists have spoken at past meetings.

Maxine Roth, coordinator of the Multiple Sclerosis Support Group at Nessel, states "The group's Main function is to illustrate and exemplify that a quality lifestyle can be maintained and that is spite of an illness, life can be enjoyed to its fullest."

Family members and friends are also invited to attend the meetings. Their awareness of the illness and its progression can aid them in better understanding the needs of patients.

For more information about the Multiple Sclerosis Support Group and their programs, please contact Maxine Roth at 696-5060.

Niles podiatrist explains laser surgery techniques

You've felt a slight pinch as a local anesthetic is injected into your foot. You lie back as a thin beam of intense red light is focused on a painful lesion you've suffered with for years. There is no pain. The doctor steps on a foot pedal, and, snap, you're done. In less than ten seconds, the lesion and your pain is gone.

That's laser surgery and Dr. James Elipas, a Chicago podiatrist, is so convinced of its value that he will be bringing it to his new clinic at 111th and Fairfield ave.

"It's just an amazing surgical tool," he says. "With the speed and precision of a laser replacing the scalpel, I can provide absolutely the best treatment known to modern podiatry."

According to Dr. Elipas, the laser, unlike conventional

scalpels, vaporizes the cells and seals blood vessels as it creates an incision. That means no blood loss and very little damage to surrounding tissue.

"We've seen almost no swelling, faster healing and no infection. The innate property of a laser excision sterilizes the area as it removes the damaged tissue."

While it may not seem too important in foot surgery, Elipas adds, there is also no scarring. After training intensively with laser surgeons in Arizona, Elipas invested in a \$25,000 carbon dioxide laser. It arrived last

week, and he is busily installing it between his appointments with patients at the Niles Podiatry Center. When installation is complete, he will be one of three podiatrists in the Midwest to offer laser surgery procedures.

Persons interested in Elipas' laser surgery techniques are urged to call him at his offices for an appointment. Dr. James Elipas has been practicing podiatry in the Chicago area for five years. He graduated from Scholl College in 1979, and is affiliated with St. Mary of Nazareth Hospital in Chicago.

DENTAL DIGEST

BY RICHARD C. MAZANEK, D.D.S.

One of the newer innovations in dental filling materials is the development of plastics for back teeth. They are called posterior composites. These materials have advanced to the point where they are as strong as amalgam (silver) fillings.

The posterior composites are tooth colored, so that once a filling is placed it blends in with the natural tooth. They are also radiopaque, which means they can be seen in x-rays. This is useful information for the dentist.

Although posterior composites are very strong and effective as filling materials, they are not the material of choice for every decayed back tooth. In some cases, amalgam is still the preferred filling material.

OCC night class for science majors

Science majors who are unable to attend daytime classes can take Organic Chemistry (CHM 201) on Monday and Wednesday evening during the fall semester at Oakton Community College, according to Jerome Maas, professor of chemistry.

CHM 201, 202 is a two-semester sequential course and is designed for students planning to enter pre-med, pre-vet and pharmacy studies, as well as for biology, chemistry and chemical engineering majors, notes Dr. Maas. Those students taking 201 should also take CHM 202 to complete the entire course.

The course is not designed for those who wish to take a one-semester course in organic chemistry, however. The one-semester course, CHM 207, will be scheduled both during the week and on Saturdays in the spring semester.

OCC fall semester classes begin the week of August 27. CHM 201 will meet from 6 to 7:15 p.m. for lecture, and from 7:30 to 10:20 p.m. for lab, both Monday and Wednesday evenings, at OCC/Des Plaines, 1600 E. Golf rd. For further information concerning the course, call Dr. Maas at 635-1897.

North marching band works through summer

Although it is still summer, Niles North High School band director Elton Eisele strikes up the band two nights a week when 35 student musicians rehearse in anticipation of the 1984 football season. "There is so much genuine enthusiasm among our students that we are going to field our largest and best prepared band ever," says Eisele.

A newcomer to Niles North last September, Eisele has worked throughout the year to enlarge the band program. The new summer sessions have attracted almost half of the 133 band members, and, recently, 20 students attended the University of Whitewater Marching Bands of America summer camp. "The participants learned a great deal there in terms of marching skills and techniques, and North's band may be selected as a demonstration group at the nation-wide camp next summer," says Eisele.

One of the band's favorite summer activities was the opportunity to lead the Skokie 4th of July parade this month. "The students work together in a grand spirit of fun and corporation,"

says Eisele who has also recruited and trained the school's first flag team. Last year's fledgling flag squad took 8th place in state competition after performing together only a few times. "We need more flag team volunteers and hope that incoming freshmen will decide to participate," stresses Eisele.

All four North drum majors also attended the Whitewater camp program. They include seniors Holly Copeland and David Kaplan, and juniors Gary Mines and John Bartels. Their portion of the camp program stressed leadership skills and the development of self-confidence. One new highlight of the Niles North marching band season is the All-Conference Marching Band Show on October 14, which Eisele describes as a "gigantic half-time show without a football game." Bands from all high schools in the North Suburban Conference are now being invited to participate in the concert which is intended to demonstrate the wide range of music excellent bands can produce.

According to Eisele, the concert is partially a fundraiser for band programs, and donations are being solicited for a raffle to be held in conjunction with the program.

Tucker accuses Jaffe of "flim-flamming" voters

Mannie Tucker, candidate for State Representative, 56th District, today said, "I was incensed when I read Rep. Aaron Jaffe's (D-56) press release in the July 26th issue of the local papers." Referring to a release Jaffe issued concerning his vote on a Workmen's Compensation bill, Tucker continued, "I had no intention of getting into issues this early in the campaign, but I cannot let the incumbent get away with this fraud against the voting public."

"The only factual parts of Jaffe's press release," Tucker continued, "is that Jaffe did vote for the bill, and that SB 1070 concerns Workmen's Compensation. It does none of the things our present representative claims."

The bill passed in the 1983 part of the session. At the time of passage it was termed the AFL-CIO's major workmen's compensation act because of the unusually strong effort and pressure exerted by the union lobbyist. At the same time the National Commission on Compensation Insurance estimated the bill would increase the cost to Illinois employers by \$20 million. "Mr. Jaffe is confused when he says this bill will help bring new industry into Illinois. How can the prospect of spending \$20 million more in operational costs entice new business to move into Illinois?" Tucker asked.

"Rather than being a pro-business bill it is just the opposite, pro-union, and goes along with Jaffe's 14-year record of pro-union, anti-business philosophy," Tucker charged, and continued by saying "This bill was opposed by every major business association in the state including the Illinois State Chamber of Commerce (ISCC)." The ISCC is the recognized spokesman for business in Illinois and had SB 1070 targeted as a MUST bill to defeat. They used the bill as one of 19 in their annual legislative rating system. A vote for the bill, according to the ISCC rating guide, was a vote against business.

"Why would Jaffe talk about a bill passed almost a year ago?" Tucker wondered, adding "Jaffe must think words will change his record. I won't let that happen. For almost 14 years he has been able to hide his record, flim-flam the voters, and run only on his

President signs Polish Veterans Charter Bill

The President of the United States signed into law the Annunzio-Murkowski bill on July 23 granting a Federal Charter to the Polish Legion of American Veterans, U.S.A.

"This is a great day for the Polish Legion of American Veterans," declared Congressman Frank Annunzio (11th Dist-Ill.) for these veterans have finally received the official recognition they richly deserve."

Annunzio was chief sponsor of the legislation in the House of Representatives, and worked relentlessly to get it passed. When the bill came in the House of Representatives on his bill on November 14, 1983, it was passed unanimously by a vote of 404 ayes and 0 noes.

Subsequently, on June 27, 1984, an identical bill sponsored in the United States Senate by Senator Frank A. Murkowski of Alaska, passed by voice vote, and thereafter, was forwarded to the President for final enactment into law.

"Polish-American war veterans have a long history of service to the United States, both in war and in peace, and I know of no group which is more worthy of Congressional recognition," said Congressman Annunzio.

Amirante supports stand on O'Hare noise

Sam Amirante of Park Ridge, Democratic candidate for the 28th District Illinois Senate seat, said he "wholeheartedly" supports Park Ridge Mayor Martin Butler's effort to block the planned expansion of O'Hare International Airport until noise problems are addressed.

The Suburban O'Hare Commission, of which Butler is chairman, has long maintained that the proposed expansion project does not adequately address the problem of aircraft noise in communities near the airport, and Amirante agrees.

"I really believe that further study is needed to discover ways in which the tremendous noise levels can be reduced," Amirante said. "From an economic standpoint, the expansion makes sense because of the potential for additional jobs. But it's likewise important that the FAA and City of Chicago concurrently think about providing some peace and quiet for people who live in the immediate O'Hare area."

Amirante added that the Illinois Environmental Protection Agency might take a more active role in the monitoring of noise levels at O'Hare. "The state EPA officials are closer to the scene than federal officials, and would therefore be more responsive to the needs of Illinois citizens," Amirante said.

Premier Banks announce cash give-away

The Premier Banks have announced the kick-off of a \$3,000 cash give-away promotion focused on usage of their shared automatic banking system, Premier 24 Teller. According to Larry L. McGregor, Chairman of the Board of The Premier Bank Group, the customers of each bank will have until August 31, 1984 to perform as many deposits, withdrawals, transfers and payments as they wish. Any of the seven Premier 24 Teller automatic banking machines located throughout Lake and in Cook counties may be used.

Customers will then have until September 15, 1984 to bring their transaction receipts into their Premier Bank. At 2 p.m. on September 15, each bank President will draw at random three winning transaction receipts from those submitted by their customers. Each bank will award a first prize of \$300 cash, a second prize of \$200 cash, and a

third prize of \$100 cash. "We want our customers and the people in our market areas to realize the real convenience of automatic banking with Premier 24 Teller," McGregor said. "Premier Banks have offered automatic banking since 1980, and with each additional location customer acceptance has grown. With 24 hour availability, 365 days a year, it's the kind of service that once you try it, you wonder how you ever got along without it." Premier 24 Teller has recently been linked with MONEY NETWORK, an electronic banking system of over 120 automatic banking machines located in Illinois and in over 180 Chicago area retail stores.

The Premier Bank Group consists of Golf Mill State Bank, Grayslake National Bank, Libertyville National Bank, First National Bank of Mundelein, and The Premier Bank of Vernon Hills.

Theusch Committee opens main headquarters

The Theusch for Congress Committee announced today that it will be holding its grand opening for its main headquarters on August 11 from 2-5 p.m. at the headquarters offices, 4257 N. They will be in the 40th Ward, Niles Township and Leyden Township.

Present at the opening will be various state and local elected party officials. The Theusch campaign has picked up momentum in light of recent substantial financial support from the National Republican Congressional Committee in Washington, D.C. ner. Some of our more colorful thinkers might express it, "At that moment—the broccoli hit the fan", and telephone callers have been expressing themselves with exquisite rhetoric ever since. They announced such moderate phrases as, "They're a bunch of crooks", to the more elegant stylized whose sentences started, ended and were intertwined with four letter words.

Down at the village hall, Doris Downs said she had to hang up on one resident when she was verbally abused with the four letter stuff. Here, at The Bugle, a very nice lady dropped by and was infuriated because her landscaping didn't get the top prize. The lady, putting it mildly, was ticked off. She said she didn't sleep Monday night she was so angry. She contended she spends up to 35 hours a week tending her garden and she had little doubt she should have been the winner. "It's not the money," she began. "It's the principal of the thing". She then said she thought Niles officials were getting back at her because she hadn't been cooperative in the past when the Cablevision company wanted to dig up some of her lawn. She said she was told her application was misplaced. She was one of the \$100 winners but she implied it was thrown to her as a bone after she claimed her house was not judged.

People who know this lady reported she spends many hours outside tending her flowers and shrubbery. Donning big boots she's out there digging and planting and making her house a true beauty spot.

Other complainants burned up Bugle telephone lines Tuesday. Editor Diane Miller reported one caller said, "I worked my kazoo off and I got Zip". One lady said she had a

Panda bear with bamboo shoots in an enclosure in her front garden. She spent \$250 on some white stone marble, some "Wyoming white marble". In the background her husband yelled they also added nine rose plants to their garden. And they got Zip.

Other dissidents complained the Aunt of one of the village employees lives in one of the winner's homes implying the "fb" was in. Another complained the winner's home was on a dead-end street, indicating dead-enders shouldn't be eligible.

All this hub-bub is not going to have us wax some profound conclusion. But these little eruptions are not uncommon when you hit people close to their homes.

Diane Miller reminded us about a senior citizen imbroglio which brought irate seniors to our offices over what seemed a minor matter. Diane said some of the oldsters were so upset they were popping nitro pills into their mouths while they were getting riled up about what seemed a small matter.

Despite the catcalls and bemoaning Nick Blase thought the program was a success and intends having another contest next year. Nick, sensitive to the natives braying, said honorable mention awards will do to all residents who did not receive money prizes.

Next year we'll publish the news releases which will announce the 1985 contest. And we'll add a sentence to the end of the releases which will read, "Any person who has a complaint will call the telephone number, 692-3368. The guy who answers the phone will know, "He never promised anyone a rose garden".

Farmer's Market... Con't from Skokie-L'wood Page 1 and success in its six year history. This year has been the most successful year so far, according to Market Master Larry Anderson. Started in late June and ending on October 28, the Market has averaged about 8,000 people every Sunday, revealed Anderson.

Besides the produce vendors, one charitable organization is allowed to participate in the Market every Sunday in hopes of raising money for a good cause. In addition, the popcorn wagon from the First National Bank of Skokie makes an occasional visit.

Rotarians... Con't from Skokie-L'wood Page 1 Part of the problem, he said, stems from laws passed some 50 years ago that enables unlimited discovery, a process by which attorneys can ask for and review any number of the opposing side's documents that are considered to be relevant to the case. "This, plus often unnecessary pre-trial interrogation of potential witnesses, consumes considerable time, which leads to increased legal fees as well as other expenses," he continued.

A third petition for Special Use zoning and a parking variation was continued for the Oriental Deli at 9142 Golf Road.

Arson...

Continued from Page 1

The building, a house zoned for business use, had formerly been the offices of Antoine's Poodle Coiffure.

The building had been sold at the beginning of July to Phillip Toofanfar, a dental technician who owns Too-Fan Dental Labs, 9018 Milwaukee Ave. The building was being remodeled as a dental lab at the time of the fire and was completely empty except for construction tools, according to Niles Fire Department Duty Chief Gordon Michalsen.

Michalsen said a routine arson investigation is underway to determine if the fire may have been intentionally set. He added the Niles Police Department is conducting an investigation and samples of the debris have been sent for analysis to determine if an accelerant such as gasoline or kerosene was used to set off the blaze.

Up to 13 Niles firemen were on hand during the fire. Additional firemen from Morton Grove were sent to the scene as were Chicago firemen.

Michalsen said that a passing motorist sighted the fire and, crossing over into nearby Chicago, contacted the Chicago Fire Department.

Since the location of the fire was so close to the Chicago border Chicago firemen responded to the fire. However, Chicago fire officials simultaneously contacted the Niles Fire Department to report the blaze.

Michalsen had nothing but praise for the Chicago firemen who stepped aside when Niles firemen arrived.

Calling the Chicago firemen "very courteous and very helpful" Michalsen said the Chicago firefighters "stood by till we took over."

The arson investigation will include Niles Police detectives performing background checks on all parties involved with the building.

Michalsen set the damage figure at between \$5,000 and \$10,000.
