## More than 400 honor Hoelbl at testimonial dinner

More than 400 friends of Niles retired fire chief Al Hoelbl joined together in a testimonial dinner at the Chateau Ritz Wednesday, October 24.

Fire department Lieutenant Carl Fox was master of ceremonies for the evening and conducted a very smooth, warm and humorous evening.

Fox began the evening by

relating Hoelbl was a frail child causing his family to move from the city to "the country" in the early thirties. "The country" turned out to be the Milwaukee-Touhy area which was then the small town of Niles. Thirty years later Hoelbl became fire chief of a village whose population increased to 31,000.

### 9th Congressional District

In the Ninth Congressional District going up Dempster st. between Niles and Morton Grove, veteran Democratic Congressman Sidney Yates is being challenged by Republican Chicago physician Herbert Sohn.

Yates and Sohn differ on few issues as they try to capture the votes in this mostly liberal district going from Chicago's Division st. up Lake Shore dr. and winding through Skokie, Morton Grove, Niles and finishing in Northbrook.

Sohn favors decreasing public aid payments while Yates favors increasing them. Sohn favors increasing weapons expenditures while Yates favors decreasing these payments. Yates is in favor of increasing taxes on business

### From the Left Hand

by Bud Besser

Some of the community newspapers in the area try to ape their big cousins downtown by committing an act of presumptuousness which we find incredulous.

Every other year during the pre-election period, some of the journalism brothers have candidates for political offices trek down to the media office for a little discussion of the candidates' views. Then after hearing the candidates, these editorial persons go into their cerebral tanks and come up with endorsements of the candidates.

It's really silly time. The political types who've been out on the hustings for weeks and months and often many years presenting their views have now to give a private audience to some great minds who sit back and pass judgments in their publication offices which are supposed to have some measure of relevance.

It's all so dumb. Some kids, who only a few years ago were having their mothers put on their mittens, or wiping their noses, suddenly get out of journalism school, begin working on a local newspaper, and come up with some great profundities which their elders are supposed to read and hopefully be influenced by.

## County officers caught after firing revolvers

Niles Police apprehended two Cook County jail guards firing their service revolvers into the air in Niles during the early morning hours of Wednesday, October 17 and Cook County officials are now investigating the incident.

Police records indicate that Officer Don Leavitt was patrolling in the 8300 block of Milwaukee ave. when he hears 12 gun shots at 4:09 a.m.

Stopping the car which was traveling north on Milwaukee ave., Leavitt reportedly found a 23-year-old Skokie man and a 27-year-old Chicago man in the car. One of the men was reloading his gun when Leavitt stopped their car.

The men identified themselves as Cook County Sheriff's Correctional Officers and showed identification.

The correctional officers were taken to the Niles Police Department where, after documenting the incident, Niles police confiscated the spent shells and released the men without charges.

On Tuesday, Niles Police Sgt. Vito LoVerde reported the Cook County Sheriff's Internal Affairs Department was investigating

**THE MOODS OF TOPAZ**

Topaz is either calming or exciting, never neutral. It may be a soothing sky blue, a lively pink, a burnished gold or the blazing red of a summer sunset. The ancients believed that topaz could drive away sadness, strengthen the intellect and bestow courage. When mounted in gold and hung around the neck, it was believed to dispel enchantment. The powdered stone dissolved in wine was used as a cure for asthma, insomnia, burns and hemorrhages. It was claimed to calm angry tempers and prevent bad dreams.

For centuries topaz has been prized as a birthstone for November. It held the honor alone for hundreds of years. But in this century the golden quartz known as citrine was named an alternate for that month.

Topaz first gained notoriety during Marco Polo's lifetime (13th century). It enjoyed another surge in popularity in the 17th century during the reign of King Louis XIV. When the parures (matching sets) came into vogue in the 1820's, topaz was a favorite gemstone choice.

Topaz is a rich and thoughtful gift for anyone who appreciates the beautiful spectrum of topaz. It's especially meaningful as a birthday gift for a person born in November.

# Early delivery of Social Security checks

Monthly Social Security checks which are normally delivered on the third of November, will be delivered on November 2 instead, according to Marilyn Robertson, manager of the Des Plaines Social Security office.

"Benefit checks are mailed early when the usual delivery date falls on a Saturday, Sunday, or legal holiday", Robertson said. "In these instances, the checks are dated and delivered on the first day before the third of the month that is not a Saturday, Sunday, or holiday."

Robertson stated that this procedure helps reduce the problems that people have when they receive their checks and their banks are closed. These situations occur several times during the year, and Robertson advised that SSA would provide similar information about future early check delivery dates as they occur.

### A.B. Dick/Niles co-sponsor fire detector sale

One of Niles' largest industrial firms and the Niles Fire Department co-sponsored a fire detector sale to the company's employees and reportedly sold almost 200 of the units within Fire Prevention Week.

This was the first time that such a venture was tried, according to Niles Fire Chief Harry Kinowski, and it proved to be a huge success. The Niles Fire Department and the village have been selling smoke detectors for over a year.

The promotion was the brainchild of Stephen Masur and Paul Strub, fire and safety engineers for the A. B. Dick Company, 5700 W. Touhy ave., who were encouraged by the results.

Smoke detectors have reduced fire deaths in the United States almost in half since their introduction in 1969, according to Chief Kinowski.

### MG Legion seeks parade participants

Past Morton Grove American Legion Post #134 Commander Robert Perschon has once again been appointed chairman of the

group's yearly 'Veteran's Day' parade. To salute the men who served in the wars, the annual commemoration will take place Sunday, Nov. 11 with step off time from the Post Memorial Home, 6140 Dempster at 1 p.m.

Perschon has ably handled this function many times in the past, reports commander Donald Root.

Already many groups have asked for and been given permission to be included in this event. Perschon says he hopes as many as march will be multiplied in numbers lining the streets to watch the assemblage progress.

He is seeking additional scout groups, civic, fraternal, religious and other women's club and organizations as well as drum and bugle corps to join in honoring these men who served in the wars.

Perschon may be reached at 775-0907 for further information or to indicate desire to be included.

**5 MILLION DON'T KNOW**

It is estimated that five million Americans do not know that they have an elevated blood sugar condition known as diabetes. Diabetes can affect children as a condition known as insulin-dependent diabetes, but affects even a larger number of adults after age 40 and is known simply as non-insulin-dependent diabetes. Now that Mayor Flieckinger has proclaimed November as "Diabetes Awareness Month" in Morton Grove, residents of all ages can be screened for high blood sugar in a short, simple, and free test. Screening dates will be Tues., Nov. 6 between 9 and 10 a.m.; and Sat., Nov. 17 between 10 a.m. and noon in the Morton Grove Village Hall Senior Center. Pre-registration is required for screenings on Sat. the 17th by calling the Health Dept. at 965-4100, ext. 246. Two hours of fasting (no eating) must precede the test.

**REVIEW THE ROAD RULES**

A comprehensive and concise course for senior citizens known as the Rules of the Road Refresher Course, will be held between 12:30 and 3 p.m. on Tues., Nov. 6 in the Village Hall Senior Center for seniors who must review the road rules in preparation for their written drivers license examination. **AT WHAT AGE SHOULD YOU RETIRE?**

As most people know, the minimum age for mandatory retirement has been raised from 65 to 70, and of course voluntary retirement can be either much sooner or much later. A major factor in this decision is likely to be the size of one's Social Security benefits. Partial benefits begin at age 62 but the benefits will be permanently reduced to take account of the longer period of receiving them. Full benefits will be received when retirement is at age 65 but starting in 2000 the full benefit age will gradually increase until it reaches 67 in 2027. By working past age 65, benefits will be increased by 3 percent for each year benefits are not drawn. For those who reached 65 before 1982, the credit is 1 percent for each year. Starting in 1990, the credit will be gradually increased until it reaches 8 percent in 2008.

**Niles firefighter graduates school**

Niles Probationary Firefighter William T. Meier, 25, was among 25 area-wide firemen to recently graduate from the State of Illinois' Firefighter School at Arlington Heights.

The school, which is required of all full-time firefighters, was established to guarantee uniformity in training. During the six week course, all items of firefighting tactics and strategy are covered, and is culminated by the granting of a Firefighter II certificate. All firefighters must eventually achieve a Class III

certificate. There are several schools in the state.

The 25 graduates represented 16 departments in this area, including some from as far away as Zion and Waukegan. Meier is presently enrolled in an 82-hour Emergency Medical Technician Class, which will be followed by an extensive paramedic course. All Niles firefighters must become paramedics before the completion of their two-year probationary period, according to Niles Fire Chief Harry Kinowski.

**Lutheran Church of the Resurrection**

The Social Ministry Committee of the Lutheran Church of the Resurrection, 8450 N. Sherman, Niles, is sponsoring a number of projects during the month of November. One is the Lutheran World Relief (LWR) Clothing Drive, which will end on Sunday, November 4. Men's work clothes, sweaters and children's clothing are the most needed items. Any clean, useable clothing may be placed next to the coat racks in the lower level of the church before that date. Sunday, November 25 has been designated as Blanket Sunday. Useable blankets or a donation of \$5 for LWR to purchase a sturdy army blanket, will be collected on that day.

The Committee has an on-going project of collecting non-perishable food items for the American Indian Center in Chicago. The Committee would like to have many boxes of food to take to the Center before Thanksgiving. In conjunction with the continued concern for the American Indians in the city, Shirley Conchola will speak to the congregation during the worship service on Sunday, November 18. She will lead the Adult Discussion Group at 9:15 a.m. as well. Shirley has been active in Indian affairs for many years, and serves on the National Indian Lutheran Board. She has visited the church before and her talks have always been most enlightening.

Stewardship will also be emphasized during the month of November. Temple Talks by Karen Lipton on November 4 and Eileen Peterson on November 11 will encourage members of the congregation to think about their level of giving and explain why the money our congregation gives to benevolence is so important to the church as a whole. Sunday,

November 18, will be Pledge Sunday. On this day, members of the congregation will be given their Pledge Cards for 1985 to fill out and turn in at the altar. Attendance on Pledge Sunday by all members of the congregation will enable the Stewardship/Finance Committee to ready the budget for the coming year in a timely manner.

The Niles Clergy Association is again sponsoring a Thanksgiving Eve Service, Wednesday, November 22 at 7:30 p.m. at Our Lady of Ransom Catholic Church on Greenwood, between Dempster and Oakton. Rev. Bruce Anderson, Pastor of Lutheran Church of the Resurrection will be the guest speaker that evening. Refreshments will be served after the service.

**Serving Up Food & Fitness**

by Mark Krajecki & Cheri Wilcox

The oldest city on the Mississippi River, Natchez has a cuisine bearing the traces of its many masters: the highly civilized Natchez Indians, who taught the white man how to use herbs and cultivate corn; the Spanish, who brought with them the Mediterranean diet of Arabic herbs, olive oil, garlic, and rich wines; the French, who incorporated all they found into the time-tested tradition of haute cuisine; the English, Irish, and Scots, who routinely took their foods and customs with them wherever they went; and, lastly, the resulting Americans, who not only were a melting pot but also the mothers of invention.

No trip to Natchez would be complete without grits. When cooking grits it is difficult to do the dish ahead of time unless it is made into a casserole since the grits become hard when they stand.

**Irish Grits**  
(So-named because they are green)  
Serves 8-12

2 cups grits  
2 quarts water  
1 cup chopped parsley  
2 minced cloves garlic  
6 ounces grated Swiss cheese  
3 ounces finely-chopped Romano cheese  
1 stick (one-quarter pound) butter  
3 eggs, slightly beaten  
2 cups light cream

Cook grits in boiling salted water until done, the consistency of a thick cream sauce. Remove from heat. Stir in garlic, parsley, butter, and Swiss cheese. When cool, add cream and eggs.

Four grits into 2 greased casserole dishes. Bake uncovered in a 325 degree oven for 1 hour. Sprinkle with Romano cheese and broil until golden brown.

This dish can be prepared ahead but baking should take place just before serving.

**DIXIE'S SPOON BREAD**  
(Serves 10-12)

The origins of this dish are most definitely French with strong African overtones. As an accompaniment to roast beef, lamb, poultry, or pork, it is a wonderful alternative to rice or potatoes.

2 cups milk  
2 cups light cream  
2 tablespoons butter  
1 teaspoon salt  
2 teaspoons sugar  
One-half cup yellow corn meal  
One-half cup white corn meal  
2 teaspoons baking powder  
6 eggs, separated

Slowly bring milk, cream, and butter to a boil. Add salt, sugar, and corn meal. Continue to stir until the corn meal becomes soft. Remove from heat and whisk until it cools. Add baking powder. Beat egg yolks. Add them one at a time, mixing well after each. Fold in stiffly-beaten egg whites. Bake uncovered at 400 degrees for one-half hour in 2 greased 2-quart baking dishes.

**HOTEL NATCHEZ BREAD PUDDING WITH BOURBON SAUCE**  
(Serves 8-10)

The cooks of Natchez learned the secret of bread pudding; stale French bread and a good whiskey sauce. During the Yankee occupation of the city, many a Northern heart was stolen by this treat.

1 loaf French bread  
1 quart milk  
3 eggs  
2 cups sugar  
3 tablespoons vanilla  
One-half cup chopped pecans  
1 cup raisins  
1 tablespoon oleomargarine

Soak bread in milk and work with back of a wooden spoon until it is well mixed. Add beaten eggs, sugar, vanilla, pecans, and raisins and combine well. Pour melted margarine in bottom of a heavy 7" x 11" oblong cake pan. Bake at 350 degrees for 1 and one-half hours or until very firm. Cool. Slice into squares. Top with bourbon sauce.

**Bourbon Sauce** ...  
One-half cup butter  
1 cup sugar  
1 egg  
3 tablespoons bourbon whiskey

Cream butter and sugar together and cook in the top of a double boiler until the mixture is very hot and the sugar dissolves. Pour into a blender and add egg at top speed so that egg doesn't scramble. Cool. Add bourbon just before serving. Spoon sauce over bread pudding. Heat under broiler.

# Egan blasts opponent on unethical campaign practices

State Senator Robert Egan, candidate for re-election, today strongly criticized his opponent for unethical campaign practices and for "seriously distorting" the facts about his record. Egan said, "I am truly disappointed in the unethical tactics my opponent has chosen to use. I have set my legislative priorities over the years and I have a record of achievement on which I am very proud to base my re-election campaign. Because my opponent is unable to attack my good record directly on any of the major bread and butter issues, he has chosen miscellaneous obscure votes, seriously distorting them, in seeking to misrepresent my record. "I can only emphasize that if he is less than honest in his campaign, how would he service his community?" said Egan. Distortions sighted by Egan include accusations in his opponent's literature that Egan is for drunken drivers on the road and that he opposed collective bargaining for police. "These are outright lies," Egan said. "During the last General Assembly I supported Senate Bills 125, 173, 174, and 175 which strengthened drunk driving laws imposing among other things mandatory sentencing for persons convicted of drunk driving and persons driving on a license revoked for drunken driving." On the issues of police collective bargaining, Egan cited his support for the Fraternal Order of Police endorsed collective bargaining bill, Senate Bill 467. Egan indicated that he was one of the original sponsors of the Police Officers Bill of Rights. "My consistent support of police has earned me the endorsement of the Fraternal Order of Police," Egan said. Egan stated that his opponent had also misrepresented his record on inheritance tax relief and hospital cost containment. "Let me set the record straight: I have always supported and on numerous occasions sponsored legislation to provide inheritance tax relief. This is public record. On the specific legislation abolishing the tax, I supported the bill on final action, thereby guaranteeing its passage," Egan said.

# Pucinski calls for Deep Tunnel completion

Aurelia Pucinski, Democratic Candidate for Commissioner of the Metropolitan Sanitary District, renewed today her call for the completion of Deep Tunnel, otherwise known as TARP (Tunnel and Reservoir Program) in Cook County. "In many of the communities in Cook County, flooding continues to be a serious problem. In a complex and highly populated area the alternatives of basement flooding or opening the locks to Lake Michigan to ease storm flooding are both unacceptable. Deep Tunnel is still the most viable solution to the problem. Where heavy rains flood sewers the water has to go somewhere - and it should be either a reservoir where the land is available, or a holding tank under ground in highly populated areas," Pucinski said. "Deep Tunnel, when completed will mean a significant improvement in the livability and property values of our communities with older, combined sewer systems, and I believe it should be completed as quickly as possible," Pucinski added. "Those communities which are having difficulties raising the funds to 'hook-up' to Deep Tunnel should be assisted by the MSD in some way—either through lobbying with the State and Federal legislatures for extended funding, or perhaps through bonding authority," Pucinski concluded.

## Packing hints from the experts of the Package Depot

Newly opened in the Millbrook Shopping Plaza, "directly across from Golf Mill", and next to Minnesota Fabrics, The Package Depot, 9363 N. Milwaukee ave., Niles, provides area residents and businesses with package drop-off and professional packing or crating services for shipment via UPS, Greyhound Package Express, Federal Express, and other couriers, nationwide or local same-day messenger. The Package Depot offers the following suggestions for "do-it-yourself" packages that are to be shipped:

1. Packages need to be packed properly if they are being shipped because improper packing can obviously result in damage, and an insurance claim made on an improperly packed parcel may well be denied.
2. Use cartons in good, rigid condition with all flaps intact. It should be large enough to permit packing materials to be placed on all six sides of the item. UPS recommends that packing materials should be 2 inches thick on all sides; and don't forget the top and bottom.
3. When you pack your carton,

items should be isolated from the corners of the carton because the corners take the most abuse.

4. Each item should be wrapped separately and placed in the center area of the carton, away from the sides, top and bottom. If a delicate or fragile item fits the carton exactly, the carton is too small.

5. Save professional-type materials from shipments you have purchased or received. They can be reused.

6. Proper closure of a package is as important as proper packing materials. We want to remind you that masking tape or cellophane tape does not provide the strength necessary for good closures. If you use water activated paper tape, use a minimum of a 3 inch width for proper carton sealing. UPS recommends a 6-strip method for sealing cartons. This means 6 strips of tape across the top and bottom; 3 strips in one direction and another 3 strips in the opposite direction.

7. Do not interlock the 4 top or 4 bottom carton flaps. Interlocking may be adequate for "storing," but it is not adequate for "shipping".

8. Another recommendation from UPS is to "double-box" a fragile item. The inner box is suspended within the outer box by the packing materials placed between them. Additional packing materials are still necessary within the inner box to keep the contents from moving around, and to provide proper cushioning.

9. Only use professional packing materials. Newspaper is not considered adequate packing material for fragile or delicate items.

While several Letters to the Editor were received from political candidates and their supporters for publication in this week's edition, it has been the policy of The Bugle not to publish any letters dealing with politics in the last issue preceding the election. ## The Missing Minority

Americans are proud of our history and we like our heroes. We know as much about Daniel Boone as George Washington. However, we seem to have forgotten they became heroes trying to give us a living democracy. Democracy lives today because others died for it in the past.

St. Boniface cemetery has a small section of grave stones for some Civil War soldiers who died in an 1862 battle. Their small monument partially reads, "One Nation Under God." Today, some people want God out of the classroom and his name off our coins.

Rosehill cemetery has a monument to Spanish-American War Sailors who died to free Cuba and the Philippines. Today, Cuba is a communistic dictatorship and the Philippines are under military dictatorship. What would your right to vote be worth in either country?

The Political Action Committee's (PAC's) contributed over \$200 million in the past four years to buy votes legally in Congress. They will spend \$100 million alone this year. Can they really buy the government of the United States? I am very thankful they don't vote but you do.

Unfortunately, only 28% of you actually registered and voted four years ago. Perhaps, Congressman Newt Gingrich

was correct when he said in Mother Jones magazine that he didn't need any of us because he had the PAC's supporting him.

The ironic thing is the largest non-voter is not the Black or Latino voter of newspaper and television myth. It is the White Ethnic American. The middle class people who pay the taxes, obey the law, go to the churches and synagogues, marry only one

woman or man, serve in the Army and worry about crime, unsafe and unstable neighborhoods and their home values.

You are not mentioned in the columns, mentioned in the polls or interviewed on television. However, you don't have to be missing on election day. It only takes five minutes to vote.

## District 63 receives many dollars by labeling students 'special ed'

Dear Editor:  
All parents should be aware of how East Maine School District 63 is identifying and changing the procedure of regular education students into special education.

District 63 is doing this by the simple use of a form with Maine Township Special Education Program's (MTSEP) name on it. If a regular education student is identified for speech, the

therapist sends a form home on MTSEP's stationary and checks off Multi-Disciplinary Conference (a special education term). If a parent meets with her on this basis, the parent is acknowledging MTSEP's jurisdiction and is subject to special education law, which is not enforced fairly by the State Board of Education.

If a parent should delay or cancel the conference, she sends out a Related Services Agreement form with MTSEP's name and a letter on school stationary. A parent is told that services cannot start without their signature, but this is not correct.

On the back of the Related Services Agreement form are rules relating to due process hearings (a special education term) which gives a parent 10 calendar days to answer whether or not they object to the proposed change in placement.

However, on the front of the form is a date, and the date speech therapy is to start, which is 5 days later. District 63 is perverting the "emergency" law of placing children in special education by starting therapy 5 days after the form is dated.

This means that whether or not a parent signs the Related Services Agreement form that they agree or disagree, if a parent doesn't acknowledge the form, and if a parent objects to the therapy, their child is placed in special education. The only way out is for a parent to write a letter (do not fill out the form) stating they will obtain therapy privately and hand deliver the letter to the Superintendent's office, before the date therapy is to start, and get a receipt with the date and time. But, a parent must obtain the therapy no matter how minor the problem in order to eliminate the issue.

The District has already changed a student's placement when it decides to send out the Maine Township Special Education Program form. Even the State Board of Education

sends out a letter stating a parent must sign the Maine Township Special Education form whether they agree or disagree. This procedure is illegal. It is immoral. The civil rights of parents and students are being violated by the District, the School Board and the State Board of Education by allowing MTSEP to act illegally like a District when it is only a Joint Agreement.

With the approval of the State Board of Education, District 63 is fraudulently obtaining Federal and State funds meant for handicapped children. As special education students are required to have Speech and Language evaluations, Psychological evaluations, and/or psychiatric evaluations (regular education students are not), it is an opportunity to generate more staff and to purchase outside services.

Out of District 63's total enrollment, 25% (or 894 students) are labeled special education, 250 of these students have been placed into speech. The District appears to be benevolent in that it is acting in the best interests of the child, but if it really cared, it wouldn't trick parents into signing special education forms. It would provide therapy as part of regular education, as it once did five years ago. With a special education label, a student cannot even get into a private school.

In our handicapped daughter's case, District 63 refused to provide the needed special education services and was cited by the Office For Civil Rights for not addressing her needs for speech and language therapy, for my not being a participant in her Individualized Education Program and for the District withholding her school records from me.

District 63 and the State Board of Education receive a tremendous amount of dollars in labeling students "special education." The reimbursement to the District receives is only part of the costs of these support service people. The rest of the cost of these support people comes from your increased taxes. Now you begin to see why educational expense is ever-increasing in spite of declining enrollments. And, yet, Governor Thompson is already saying taxes will have to increase again for education.

Sincerely,  
Joan T. Johnson,

## President's decision on office turnover will cause dilemma

Dear Editor:  
President Reagan wants to turn the Office For Civil Rights over to the States, claiming that the States can enforce their own civil rights laws.

This is not true. When I disagreed with Park Ridge School District 64 and the Maine Township Special Education Program (MTSEP)

Continued on Page 18

## letters to the editor

Continued from Page 18

about my son's placement, they took me to a Due Process Hearing. The Hearing Officer agreed with the District. I appealed and the State Board of Education disagreed with the District and Hearing Officer, but sent it back to the District to resolve. District 64 and MTSEP then wanted to place him in a diagnostic placement, even after he had been in their school system for the past five years.

I went before the District 64 School Board and the MTSEP School Board and they both refused me the right to speak. At that time Richard Smith, School Board member of 64, was also Chairman of the Maine Township Special Education Program School Board.

In August of 1983, we met with Sen. Bob Kustra and Rep. Penny Pullen and Rep. Pullen tried to help me as much as she could.

However, Sen. Kustra refused to do anything to help. I later learned that he is a teacher himself. He has not only publicly defended the school districts' illegal bookkeeping system (a complaint I filed), but Kustra wants to legislate for the school system to continue doing so. Kustra also did not inform me that while Richard Smith of 64 was Chairman of MTSEP, that Smith was his largest campaign contributor.

I then went to Rep. Henry Hyde and he referred my son's placement issue to Governor James Thompson.

Governor Thompson's office wrote and referred me back to his appointees, the State Board of Education. Governor Thompson has the authority to pardon criminals, but he won't direct his appointees to place a student in the appropriate program and teach him.

Even if you go to the Illinois Attorney General, Neil Hartigan, there is a dilemma to governmental structure. The Illinois Attorney General is required to represent the State Board of Education and the People of the State of Illinois. He is hard pressed to serve two masters fairly.

We must have Federal regulations due to the injustices and poor organization of our State educational and governmental agencies.

So, when President Reagan turns over the Federal Office For Civil Rights to the States, who is going to enforce the rights of the People when they have a complaint against the State?

## Tucker vows No state tax increase

Mannie Tucker, Republican candidate for Representative in the 56th District, today issued a statement which strongly opposed current Representative Aaron Jaffe's call for an increase in the state income tax.

"Raising taxes seems to be indigenous to all Democrat campaigns this year," Tucker quipped. "I remain absolutely against any increase in the Illinois Income Tax. Illinois has a balanced budget, and our current flat tax treats all taxpayers equally. It is fair to all."

### Forde cites opponent as 'big spender'

"Is your State Representative fiscally responsible?" John P. Forde, Republican Candidate for the State Representative in the 13th District asks. "Let's look at the record. Since my opponent

has been in office, the State of Illinois' budget has increased over 300%. This fiscal year, the budget is over 17 billion dollars. These figures are well above the national rate of inflation," Forde says.

And who is responsible for this inflationary rate of growth? "People of this area have to look no further than to our local incumbent legislator." The National Taxpayers United of Illinois, a taxpayer watchdog group has rated him a "Big Spender."

Forde said, "It is time voters not just vote along party lines, or for a familiar name, but examine the incumbent's record to see if they are truly being represented. The issue is clear-cut. Taxpayers who are weary of the heavy burden put on them by the incumbent can get representation by voting for John P. Forde on November 6."

### Endorsements for Amirante

Sam Amirante of Park Ridge, Democratic candidate for the Illinois Senate's 28th District seat, recently received endorsements from two statewide groups.

The Equal Rights Amendments Political Action Committee (ERA PAC), a group advocating passage of the Equal Rights Amendment to the U.S. Con-

stitution, and the Illinois Federation for Right to Life, an organization opposed to abortions, recently threw their support behind Amirante.

According to Kathy McKusker, a spokesman for the right to life group, Amirante was endorsed because of "his stands on behalf of unborn children." The ERA group, meanwhile, backs

Amirante due to his "public support for passage of the ERA," according to Patricia Bergman, president.

"I'm highly honored to receive the endorsements from these two fine groups," Amirante said. "I think that it demonstrates that I can strongly represent the interests of a lot of groups with divergent viewpoints."

### Janecek lunches at White House

Lenore Janecek, candidate for State Representative, 1st District, attended a briefing for Republican women at the White House recently, which included lunching with President Reagan.

### Amirante seeks stiff penalties for gun sales

Sam Amirante, Democratic candidate for the Illinois Senate's 28th District, is preparing to author a bill that would provide stiff penalties for gun store owners who fail to conduct thorough background checks on their customers.

Amirante, who opposes a statewide ban on guns, believes that statewide gun control legislation should be directed against illegal sales of the guns.

"Too often," Amirante said, "we're seeing people with criminal backgrounds and other psychological problems being able to easily purchase guns because the store owner failed to conduct a thorough enough background check of the individual."

"My position is that the merchant must demonstrate that he made a good faith attempt to check a person's background with the Illinois Department of Law Enforcement or with the FBI," Amirante said. "If it's proven that the merchant failed to check a person's background, and as a result, a criminal was able to purchase a firearm, then the store should be closed. We should monitor and license the activities of gun shop owners in the same manner as we do people who sell liquor."

"What is needed is for the state to set up standards to be followed by the merchants and enforced strictly," he said. Amirante also said that while he opposes a statewide ban on the ownership of handguns, he supports the right for individual communities (such as Morton Grove) to ban their sale and ownership if they see fit.

Amirante added that while his opponent, incumbent Sen. Bob Kustra of Des Plaines has said he supports a statewide handgun ban, nothing in Kustra's record demonstrates such a position. "I'm not really certain of Kustra's position because he has never introduced or supported any legislation on gun control," Amirante said.

## The President's Perspective

By Eugene J. Rudnik, Jr., President Peerless Federal Savings

The future of the economy and the general direction of interest rates are matters of concern for all of us and, often times, the topic of conversation at PEERLESS. When a customer asks which way interest rates are headed, we attempt to draw upon the expertise of the nationally-recognized economic experts in formulating our prediction. Unfortunately, there generally is a wide divergence among these experts. For example, in January of this year, the Wall Street Journal asked twenty well-respected economists to predict the rate on 3-month Treasury Bills as of June 29, 1984. These predictions ranged from 8.25% to 10% with only four of the "experts" within .5% of the June 29th rate of 9.90%. The predictions by this same panel for December 31, 1984, range from 8.50% to 12%.

Despite the uncertainty in the economic fraternity, each of us must make our own prediction as to the course of the economy and interest rates when we are making our investment decisions. Based upon the available economic data, it is our opinion that interest rates will trend higher over the next 6-9 months. This opinion is based on the assumptions that money supply will continue to be held in check, that stronger consumer credit demands will subside, that the federal budget deficit will be a continuing problem and that the flow of foreign money into the U.S. will continue at a record pace. We don't believe that a dramatic rise in interest rates is on the horizon; nevertheless, a balancing of the above factors seems to point toward gradually rising interest rates. However, an unpredictable event, a change in government administrations, or a deviation from the expected behavior of the consumer, business or government sectors could soon render our forecast obsolete.

As I pointed out in the Summer 1984 PEERLESS NEWSLETTER, the federal budget deficit could potentially have a devastating effect on the U.S. economy. The deficit problem must be addressed if our economy is to continue to grow in a low-inflation environment. Therefore, we continue to urge you to let Congress know that deficit reduction is the key election year issue in 1984.

## Citicorp to hold mortgage lottery

Citicorp Savings of Illinois today announced it will hold a lottery drawing on Nov. 7 to dispense approximately \$10 million dollars in funds from an Illinois Housing Development Authority mortgage lending program. The Citicorp lottery is in addition to the 1984 Series A Mortgage Program announced by IHDA in September.

Of the \$10 million dollars, \$6.5 million is allocated to the City of Chicago under state guidelines. The remaining funds will be distributed outside of the city.

Richard Linyard, Citicorp's senior vice president-lending, explained the money became available from the IHDA 1983 Series B. Mortgage Program when various housing projects that the money had been earmarked for were cancelled.

The program, which is limited to first time home buyers, offers 30 year, fixed-rate mortgages at interest rates of 10.7%—more than three percentage points below the fixed rates being offered in the Chicagoland area.

To qualify for a mortgage, a borrower's gross household income cannot exceed \$50,000 a year, have a signed purchase contract, make a down payment of at least 5% and must plan to live in the dwelling.

Applicants can register for the Nov. 8 drawing at nine branch locations through Nov. 6 at 4:30 pm.

No phone or mail-in registrations can be accepted and only one application per sales contract is permitted. For further information mortgage seekers may call the Citicorp Mortgage Phone Center at 977-5040.

Amateur photographers who best capture a slice of their community can win \$100 and top honors in the Skokie Federal Savings' "Community Reflections" photo contest sponsored by the financial institution.

Participants are urged to use imagination and creativity in selecting subjects such as architectural landmarks or natural elements which reflect the flavor of their neighborhood.

The color prints should be 8" x 10" mounted and submitted to any Skokie Federal office by Thursday, Nov. 15. Negatives can be enlarged and mounted for \$2 at four participating camera stores. These are: Skokie Camera, 7933 Lincoln ave., Skokie; Glencoe Photo Service, 651 Vernon, Glencoe; Total Image Studios, 134 Center st., Grayslake; and, Hornsby, 332 S. Eastwood, Woodstock.

Entry blanks are available at any Skokie Federal office, limited to three per person. Winning photographs will be exhibited in Skokie Federal lobbies. Further information can be secured by calling Linda Sudendorf at 676-5547.

### Dudycz meets with President Reagan

During a recent campaign appearance in Chicago, President Ronald Reagan took time out of his busy schedule to meet with Walter Dudycz, candidate for State Senator from the 7th Legislative District. The brief meeting was held at the downtown Hyatt Regency Hotel where the President expressed his concern for the working people on Chicago's northwest side.

"The President related that he shares our traditional values and will continue to work with us to maintain a stable government with a healthy and growing economy. It was truly an honor to have been one of the very few who were allowed to meet and speak with the President," said Dudycz.

### Reynolds Aluminum Recycling opens

Reynolds Aluminum Recycling Company, which encourages cleaner communities and reduced landfills by buying recyclable aluminum from the general public, has opened two more centers in metro Chicago.

The newest centers, where a Reynolds employee will weigh and purchase all-aluminum beverage containers and a variety of miscellaneous aluminum from the public, are at 1650 W. Irving Park rd. in Hanover Park, and 6211 N. Lincoln ave., in Lincolnwood.

To provide for the additional buying locations, Reynolds has altered the hours of its Niles convenience center at the Lawrencewood Plaza, Oakton and Waukegan rd. That center will now operate mornings only.

New and revised hours include: Hanover Park, 9:30 a.m. to 12:30 p.m. and 1 to 3:30 p.m.; Niles 9:30 a.m. to 12:30 p.m., and Lincolnwood 1:30 to 4:30 p.m. All three locations are open five days a week, Tuesday through Saturday.

Within the past six months Reynolds has more than doubled the number of recycling centers it operates in the metropolitan Chicago area and increased buying hours more than 200 percent.

In addition to purchasing the all-aluminum beer and soft drink cans, Reynolds buys and recycles clean pie plates, foil, frozen food and dinner trays, dip, pudding and meat containers.

The company also purchases other items such as siding, gutters, storm door and window frames and lawn furniture tubing. Aluminum casting such as pots, pans, power lawn mower housings, transmission housing, carburetor manifolds and barbecue grills are purchased. Reynolds also recycles aluminum venetian blinds and bicycle frames.

For more information on other Reynolds' locations, current prices or information on how groups can start recycling projects, area residents can call (312) 344-8215 or write Reynolds Aluminum Recycling Company, 1310 S. Fourth ave., Maywood, Ill.

### OCC announces plans for Koehnline Endowment

The William A. Koehnline Endowment for the Arts and Humanities has been established by the Oakton Community College Educational Foundation as a tribute to the former OCC President's 14 years of service to the College and community.

Funding for the Endowment has been established with \$2,000 allocated by the Foundation. Additional contributions are being sought to bring the Endowment to a minimum amount of \$5,000. The Foundation will make one or more annual cash scholarship awards of \$500 from the interest earned on the Endowment. The scholarship will be awarded to outstanding OCC graduates who plan to continue studies in the Arts or Humanities at four-year institutions.

Persons interested in contributing to the Endowment should contact the OCC Office of College Development, 635-1893.

Last year, Chapter 2 funds from the federal government were used to purchase the South Schools' first computer, an Apple III.

This year, the Niles District 71 P.T.A. financed the purchase of a second computer which will be a mobile unit available for classroom use.

### Nelson students in reading program

Two programs designed to improve students' reading skills are being used in the Reading Center at Nelson School to supplement the basic reading curriculum.

During a nine-week session in the Reading Center, Elsie McAvoy, the School Reading Coordinator works with 4th and 5th graders 4 days a week for 30 minutes a day to improve the reading comprehension, inferential skills and motivation. Students are first asked to read a high interest story second half of the story at a predetermined rate while it is projected on a screen.

This forces the students to gradually increase their reading rate by teaching them to abstract ideas rather than concentrate on individual words. The philosophy of the program is not on giving a grade or competition but on positive reinforcement. It has proved to be stimulating and challenging for the students and reinforces skills that they learn in the classroom. It helps the students to check for facts and

use inferential skills. The third graders are using a strategy called Directed Reading, Thinking Activity (DRTA). This technique increases active participation so that comprehension improves. Students become predictors and hypothesize about what will happen next. The 3rd graders meet with Mrs. McAvoy, the reading coordinator, who guides them through a questioning process, encouraging them to raise questions before they read. This reading program is integrated with the development of writing skills. The students learn to anticipate the structure of a narrative or content story; and in the narrative story, they discover the story's character, setting, problem and solution.

According to research conducted at the Center for the Study of Reading at the University of Illinois, good readers use their own knowledge to create meaning from the text. This involves integrated use of many skills which must be taught.

### District 71 parents learn computer use

After introductory lessons on using a computer, about a dozen parents have volunteered to work with the students at Niles Elementary South School. The computer-assisted instruction program was begun last year in the media center.

The parent volunteer group has been assisting the 200 students in grades Kindergarten through 4. Parents who have signed up to donate time on a weekly basis are: Barbara Blickman, Judi Boyesen, Marge Fischer, Martha Harpling, Pam Hrajnaha, Madelyn Lullo, Jack Marchisotta, Paula Misale, Judy Rinker, Carol Sliva, and Jan Sosnowski. They are helping students learn to use the computer keyboard and to use computer programs to improve skills in reading, language arts

and math. All students are scheduled for computer time on a rotating basis, giving each student as many opportunities as possible to use programs geared to his/her age and skill level. Students in the enrichment program are also learning to program their own graphic designs.

Last year, Chapter 2 funds from the federal government were used to purchase the South Schools' first computer, an Apple III.

This year, the Niles District 71 P.T.A. financed the purchase of a second computer which will be a mobile unit available for classroom use.

### Outstanding Legislator Veterans Day observance

State Senator Robert J. Egan (D-7) accepts the plaque signifying his designation as an "Outstanding Legislator" from Kenneth Boyle of the States Attorney's Association. Richard M. Daley, incumbent candidate for Illinois States Attorney offers his congratulations.

Presentation of the plaque was made at a fundraiser held for Senator Egan at Faces on September 21.

### Private industry funding allows "Sunshine" to continue

Since 1977, more than 250 high school dropouts have been able to drop back in thanks to Sunshine, an educational and employment program sponsored jointly by the Maine and Niles Township High Schools and administered by Oakton Community College through its MONNACEP program.

Recently, when it looked like the sun was going to set on Sunshine because of inadequate funding, a grant of \$160,890 was received from the Job Training Partnership Act through the Northern Cook County Private Industry Council that will keep the program going from Nov. 1, through June 30, 1985.

Sunshine is an accredited education employment program for youth 16 to 21 years of age who have dropped out of regular high school systems and various other alternative secondary education programs. On the average, persons entering the program are 17-years-old, have been out of school for more than six months, have an unsatisfactory work record and are dependent upon others.

The students who enroll in the program earn academic credit toward their diploma for both academic and employment training. As part of the employment training, each student is required to work in the private sector for a minimum of 15 hours a week.

### From the Left Hand

Continued from Page 1

The reasons why people vote as they do are many. Unfortunately, why they vote as they do is less reasonable. If your Mommy and Daddy have been life-long Democrats, it's quite likely you are too. If your ethnic background is of a certain persuasion, it's more likely than not you will vote predictably. If your pocket-book is jingling, you can forget all about your background. You will be voting for more jingles. And if your purse is jingling less, you're going to want to throw the present bumps out.

If you were in college in the 60's, your outlook is quite different than if you were a late seventies or early eighties collegiate. And if you scrapped and scraped for the unions in the 30's and 40's, your outlook might be quite different than many of today's union members who didn't have to endure the battles with the guards of Pinkerton and The National.

If you soldiered in the 40's in what we used to say was "the big one," you're heading for social security and pension time. By now the wounds of those days have been healed over by time. But if you were in Viet Nam in the 60's or 70's, you're young and perhaps bitter and your approach to the polling place isn't quite the same as the GI's who antedated you.

If you're very religious, you would be surprised how similar your vote would be with the many other very religious people of different persuasions. And if you're a member of the PTA, the scouts, a teachers association

and a zillion other groups, you will be pulling the same levers as your sisters and brothers throughout the country who have like interests.

When you read your local newspapers this week, remember the selections by the editorial boards of these papers are the selections of liberals, conservatives, reactionaries, radicals and moderates who believe they have discovered the word. It matters little that their life experiences may not extend beyond Friday night's singles bar, or may be limited to a person who mindlessly explores shopping centers on the weekend.

The corporate newspapers in our communities (one is changing ownership for the third time in five years) have no connection with their communities other than the need to extrapolate dollars to feed their corporate overseers. They hire people with no community involvement and with no background or experience in their communities. Yet, these same people are sitting in judgment of candidates who've worked and sweated their way through years of community work and who have contributed handsomely to their communities' welfare.

It's dumb and it's lopsided and it's meaningless. Take the time to gather your own information about next week's elections. And remember, the editorial writers who are telling you how to vote today may have been delivering your newspaper to your doorstep yesterday.

### Voting information...

Sanitary District in 1982, is a conservative Republican who opposes increased gun control laws, advocates stiffer penalties for convicted criminals and says money collected from the lottery should be used for education.

#### 11th Congressional District

In the Eleventh Congressional District Republican attorney Charles Theusch is challenging Democratic veteran Congressman Frank Annunzio.

Theusch has campaigned using control of crime as a major concern. He says he supports federal crime control bills and believes the federal government should set the tone in fighting crime.

Annunzio believes major issues in his district include decreasing noise from O'Hare Airport, reducing pollution in local rivers and streams, reducing interest rates, and working for the equalization of foreign trade.

#### 6th Congressional District

In the Sixth Congressional District Democrat Robert Renshaw is opposing Republican Congressman Henry Hyde.

Hyde has campaigned on issues of reducing high interest rates and as a way of lowering the deficit. He also has repeated his concern for the noise caused by aircraft from O'Hare Airport as well as air pollution problems caused by these airplanes.

#### 28th Senate District

Incumbent Republican State Senator Bob Kustra faces Democratic attorney Sam Amirante for the 28th District State Senate seat.

Kustra, who has repeatedly been cited as best freshman legislator in the House and Senate, has stressed his work in education and transportation committees as evidence of his concern for his constituents.

Amirante says he supports the establishment of an elected Illinois Commerce Commission, collective bargaining for policemen, mandatory driver's insurance and "reasonable and responsible apportionment" of state tax dollars.

#### 7th Senate District

In the Seventh Illinois Senate District incumbent Democrat Robert Egan is being challenged by Republican Walter Dudyecz.

Egan, a Chicago lawyer, has served in the State Senate since 1974. Egan has stressed his legislative record as a Senator. He points to his sponsorship of the homeowner's real estate homestead exemption and a similar exemption for senior citizens.

Dudyecz, a Chicago police detective, has sharply criticized Egan's record claiming he is closely tied to liberal Chicago Democratic philosophy. Dudyecz also criticized Egan's support of the 1983 temporary income tax increase.

#### 56th Legislative District

Democratic incumbent Aaron Jaffe is facing Republican challenger Mannie Tucker in the 56th Illinois House election.

Jaffe, who was first elected to the Illinois House in 1970, has built a solid record as a liberal legislator. He has been a leading voice in increased funding for education, prison reform, rape legislation and traditional Democratic social welfare concerns. Tucker, who ran unsuccessfully for the Metropolitan

Sanitary District in 1982, is a conservative Republican who opposes increased gun control laws, advocates stiffer penalties for convicted criminals and says money collected from the lottery should be used for education.

#### 55th Legislative District

The race in the 55th Illinois House District is a repeat of the 1982 election when Republican incumbent Penny Pullen ran against Democratic challenger Diana Burgess Sheffer.

Pullen, who is seeking her fifth term, opposes collective bargaining for public employees, opposes any increase in the state income tax and generally views herself as a conservative Republican.

Sheffer, a Chicago school teacher and active union member recommends supporting schools by phasing out property taxes and replacing it with revenues from state income taxes. Additionally, Sheffer supports an increase in spending on assistance programs throughout the state.

Both candidates agree the voters of the 56th district have well defined ideological choices as espoused by the two candidates.

Both candidates are long-time Park Ridge residents.

#### 13th Legislative District

In the 13th Illinois House District located on the Niles-Chicago boarder incumbent Ralph Capparelli is running against Republican John Forde.

Capparelli has campaigned on the issue of being in touch with the views of his constituents. He says he has repeatedly opposed an increase in real estate taxes, supported reductions in state spending and favors a balanced budget.

Forde has consistently accused Capparelli of voting for virtually every bill increasing state spending and of holding down two County jobs while being a representative in Springfield.

Forde says his major campaign issue remains state fiscal responsibility and fighting crime.

#### Tax referendum

A controversial referendum will be on Tuesday's ballot which would allow veteran's organizations and other "patriotic" organizations to have their property declared tax-free as churches, school and other such property currently is.

The proposed change to the Illinois Constitution has been highly controversial since the vague wording might allow many organizations to avoid paying property taxes by declaring themselves a "patriotic" group.

### Hit and run...

Cont'd from Niles-E. Maine P.1

The witness told police that Case did not stop his car following the accident.

Kosiba was taken to Lutheran General Hospital where he never regained consciousness.

Through information provided by the witness, a Schaumburg resident, Niles Police Detective Dennis McEnerney found Case's car parked at Niles' Motel Six, 6450 Touhy ave., where Case lived. He was arrested at the motel.

As Kosiba was still alive at the time of the arrest Case was only charged with drunk driving and leaving the scene of an accident.

Case, who was employed as a car salesman at Highland Park Volvo, was charged with reckless homicide on Monday. His bond was set at \$50,000 and later reduced to \$25,000.

As he could not raise the money for the bond, he is being held in Cook County Jail.

The International Red Cross contacted and later flew Kosiba's brother from Poland to take charge of his dead brother's remains.

Case will appear in court in Niles on Friday at 10:30 a.m. for a preliminary hearing.

If convicted of reckless homicide, and if no prior convictions on related charges are found, Case could be sentenced to a maximum three years in jail.

State law allows for Case's sentence to be cut in half, however, for good behavior in jail.

### Hoelbl...

Continued from Niles-E. Maine P.1

In noting Hoelbl's success Fox said Hoelbl's fathering many children was an early signal Hoelbl was an achiever.

Niles village president, Nick Blase, spoke about the high regard the community has always had for the fire chief. He affectionately wished Hoelbl a good retirement and closed by telling him how much he was loved by those who know him.

One fire chief's association presented Hoelbl with a crown and staff which they said symbolized his behind-the-throne actions which made other fellow members heads of the organization. They nicknamed Hoelbl "the kingmaker" symbolizing the name with the awarding of the crown.

Other presentations were made by Joe Salerno, representing the Italian-American Club who presented him with a plaque; Sister Irene Sebo of St. Benedict's, who gave him a personal envelope; New Fire Chief Harry Kinowski, who presented the outgoing chief with a retirement badge; Police Captain Bill Terpinas, who gave him a plaque of appreciation and noted the cooperation between the police and fire departments; Eric Nesheim, who gave Hoelbl a plaque as chairman of the Niles Chamber of Commerce; Sam Bruno presented a plaque from the fire and police board and Dr. Walter Zinn, who presented Hoelbl with a plaque from the Niles Lions Club.

Zinn told a little known story about Hoelbl's heroic efforts in a fire out west where Hoelbl was vacationing. Zinn said a man was trapped in a second floor room when Hoelbl came on the scene. When Hoelbl saw others were disorganized in attempting to rescue the man, Hoelbl told them he was a fire chief and would take command. He then got hold of a rope which he threw up to the second floor and told the

man to place it around his waist. After he did this, Zinn related how Hoelbl then "rescued" the man by pulling on the rope until he pulled him from the fire. Zinn told the hoax seriously and not until the surprise ending did the audience recognize Hoelbl's heroics were a bit mythical.

Fire chiefs from many association also honored Hoelbl. Representatives spoke from the Lake County Fire Chiefs Association, Illinois Fire Chiefs Association, the Northwest Fire Chiefs Association and the International Fire Chiefs Association.

At the culmination of the evening the retiring fire chief received a match set of Wilson golf clubs, golf bag and golf cart from the men of the Niles Fire Department.

In accepting the testimonies for the evening Hoelbl gave 32 answers to the question, "What will he do after retirement?" They were light-hearted answers which included visiting and eating, and seeing more of the grandkids, as well as stopping in on old friends in the village.

Concluding his speech, Hoelbl said "man is never successful by his own doing but only by the support, assistance, guidance and counseling of his close friends, family, employers, employees and peers." He thanked everyone in attendance, as well as local groups and organizations in the community, and gave special thanks to his family and wife of 37 years.
