District 63 Discusses New School Hours

by Eileen Hirschfeld

Dr. Donald Bond, superintendent of East Maine School District 63, reported to board members on teacher responses to a proposed change in the school day at a regular meeting Tuesday night in the Educational Service Center, 10150 Dec rd., Des Plaines.

Brought to the board at an earlier date were recommendations including a controversial

15 minute cut in the lunch hour which would reduce allotted time to 45 minutes. Board members questioned how 15 minutes a day could be used.

Bond said all district teachers responded to the question, "If we were to have a 45 minute lunch period instead of 60, how would the additional 15 minutes be used by teachers?"

The superintendent admitted

that a "majority of teachers" are satisfied with "the status quo." However, responses included suggestions for more time for teacher planning, skill development, all academic areas, specialized areas such as computer programming or physical education and academic-related areas such as current events or vocabulary building.

Utility tax deduction allowed on income tax

Sen. Bob Kustra, R-28, said today he is urging area residents to take advantage of a new deduction permitted on federal income tax returns for payments of Illinois utility taxes.

"It has always seemed unfair that utility taxes were not considered deductible," Sen. Kustra said. "Now the Illinois Department of Revenue has announced

that the Internal Revenue Service has agreed to regard Illinois utility taxes as a sales tax, and this can result in considerable savings for taxpayers."

Sen. Kustra explained that taxpayers can deduct from their gross income the utility taxes paid during 1984 along with sales taxes when they prepare and file

Niles threatens Cablevision

by Bob Besser

Following mounting complaints from Niles residents, two Niles trustees said Tuesday night they are prepared to recommend filing suit to revoke Niles' franchise agreement with Cablevision of Chicago unless service to residents improves.

Speaking during Tuesday night's Niles Village Board meeting, Trustee Angelo Marchesi said, following a recent survey of Niles' 3,200 cable subscribers he found residents angry

about the amount of time subscribers have to spend on the telephone when calling Cablevision customer service.

The Niles action follows two recent Bugle Newspaper columns by editor Diane Miller detailing the frustrations Niles cable subscribers have experienced with Cablevision of Chicago.

Additionally, residents complained about Cablevision servicemen not keeping their

A wife of a Niles Public Workman called last week to protest our suggestion the unincorporated area should be looked after by surrounding communities. She inferred we were asking Niles Public Works people to work the unincorporated area as well as its own community. During recent snow clearance periods she said she didn't see her husband through 24 hour periods or longer and she sure didn't want him away longer than that. We assured the lady our only suggestion was some of the sales tax money in the community might be contributed to the unincorporated area so it would have the wherewithal to clear its own streets. The money could be used to purchase trucks and hire personnel to maintain those streets.

The lady also complained the public works people are the orphans in town. She said the families of police and fire department employees receive a special discount from Sears, but Public Works employees' families are denied this extra. She asked, "Why this is?" We do too.

Hospice volunteer honored

In conjunction with National Hospice Month, the Lutheran General Home Care Hospice, a division of Parkside Home Health Services (P.H.H.S.), honored the hospital's hospice volunteers at a prayer service on November 28, 1984. Announce half-price fees for elderly

Many elderly and disabled residents may now qualify for half-price auto registration fees in Illinois, according to Sen. Bob Kustra, R-28.

Sen. Kustra said he is urging senior citizens and others who qualify for "circuit breaker" relief on property taxes to also apply for the new lower rate when they renew their auto registrations this year.

"With vehicle registration rates doubled this year, savings under the new plan can be substantial for those eligible," Sen. Kustra said. He explained that fees for small cars have increased from \$18 to \$36 this year and fees for larger cars have gone from \$24 to \$48. Next year \$48 will be the standard fee for both large and small cars.

Sen. Kustra pointed out that some 400,000 Illinoisans qualify for circuit breaker help under the Senior Citizens and Disabled Persons Property Tax Relief Act. "The new law helps these same people on their car licensing by trimming the cost by 50 percent," he said. For those who own more than one vehicle, only one will qualify for the lower rate.

Discount cards will be mailed in February to those who were qualified for circuit breaker assistance by Dec. 31, 1984, Sen. Kustra said. Others who qualify for the half-price registration can obtain necessary forms where they renew their registration.

Arrest of accused molester shows public unprotected

by Bob Besser

A story appeared in some of the local newspapers last week about a 42 year old orderly at Niles' Miranda Manor nursing home, 8333 Golf Rd., who was arrested and charged with criminal sexual abuse.

As the news story goes, the orderly, Ramon Paramo of Chicago, was seen by another employee as he allegedly molested a 26 year old retarded woman patient.

The witness then contacted a supervisor who contacted police and the wheels of justice began moving resulting in the orderly's arrest.

Unfortunately, to a large degree, that scenario is a lie.

The real story, according to officials involved, shows appalling behavior by the nursing home, routinely slow action by the State's Attorney's office, and lastly, justice is not expected to be done as officials believe the orderly, who officials believe raped the woman, will be found innocent because of the weak evidence the State's Attorney's office will present in court.

The scenario unfolds like this:

Paramo was seen by another Miranda Manor employee allegedly molesting this patient on December 11 just past noon.

For reasons only she knows, the witness waited until the following day to contact her supervisor.

From the best police officials can determine, the supervisor then ran to additional administrators to decide what to do.

What was done was that the orderly was fired, and the next day, December 12, the Cook County State's Attorney's office was contacted.

Defending their delay in arresting the accused molester the State's Attorney's office said, "It is not unusual (for cases like this) to take two to three months...I won't apologize for this."

When Assistant State's Attorney Stuart Sykes was contacted by Miranda Manor officials it is reported he insisted the nursing home contact the police.

Police records show the police were finally called by the nursing home on December 13, some 50 hours after the reported molestation and possible rape occurred.

Never mind that a felony rape very well might have occurred. Never mind that the suspected rapist remained free on the streets.

Police officials said, in short, had they been contacted immediately, they would have quickly arrested the suspect as well as been able to collect physical evidence which might well have convicted the suspect.

"Had we been notified immediately there would have been sufficient probable cause to arrest the suspect that day," said Niles Police Chief of Detectives Ray Giovannelli.

Giovannelli said the normal procedure, which very well may have convicted the suspect, is that the 26 year old woman would have been immediately brought to Lutheran General Hospital for an examination at which time hair, fiber, blood, saliva and additional evidence showing the orderly had indeed made physical contact with her would have been collected by the hospital staff for use in court.

Niles Firefighters attend school on arson

Two Niles firefighters were among 30 area police officers and firemen to attend a state sponsored arson school recently.

They were Lt. Ron Derbes and Fire Inspector Edward Sosnowski. The 120 hour course was conducted over a three-week period at the facilities of the Hoffman Estates and Lisle-Woodridge Fire Departments. It was sponsored by the Office of Public Service, University of Illinois, Champaign.

The first two weeks were used to cover basic fire chemistry for those non-firefighters, and the last week was devoted to the causes and origins of fire, both accidental and arson inspired.

The students were instructed in how to take samples for laboratory examination, legal aspects of arson investigating, and a demonstration of explosive devices by the FBI.

A retired 80 year young volunteer at Leaning Tower YMCA is the Niles 1984 Citizen of the Year.

Ray L. Newman was honored last Friday at the annual dinner dance of the Niles Chamber of Commerce and Industry held at Brigantes on Dempster.

Newman devotes 12 hours each week to working with handicapped children ages 8 months to 14 years. These children are deaf, blind, cerebral palsied, autistic, mentally retarded, physically handicapped and learning disabled.

He has helped 12 of these children to walk for the first time. His students are able to achieve a measure of success in physical activities through his Conqueror's Program.

The new Citizen of the Year has been working with handicapped children for 31 years. He is considered a pioneer in the field of handicapped physical education.

He donates an additional 6 hours each week answering letters and phone calls from families of disabled children interested in his program.

He is a liaison with the special education schools and organizations in the Chicago area.

Because he is a volunteer, Newman is able to keep training costs to a minimum, making the program available to any interested family.

Donating his time is not easy for Newman since he does not drive. He must take public transportation to and from the Leaning Tower YMCA.

The new Citizen of the Year has received many awards for his work with handicapped children. Included are the Metropolitan Chicago Volunteer of the Year Award and the Chicago Senior Citizen's Hall of Fame Award.

LWV prize-winning cablecast on "Grandma"

Three future suburban cablecasts of a prize-winning videotape produced by members of the Morton Grove-Niles League of Women Voters may be viewed on a local cable network during the next two months said Niles resident, Pat Horn, LWV president.

Cablecasts of the tape, "Grandma Was A Suffragette," are scheduled to be shown on Continental Cablevision, channel 21, at 10:30 a.m. Thursday, Jan. 24, and on two Saturdays, 4 p.m., Jan. 26 and 6 p.m., Feb. 2. "Grandma" recently won first place as an entry for public access productions in a contest sponsored by Women In Cable

(WIC). The contest theme was "Made in America."

The tape portrays the American woman's struggle for the right to vote and includes a plea from the letters of Abigail Adams to formation of the League of Women Voters following successful passage on the 19th amendment in 1920.

Public access users are those citizens interested in producing their own shows and who graduate from a cable-TV course provided by a local franchise. The WIC contest included public access users from the Chicago area.

Seven League members took part in the taping. They are

"Grandma," Karol Verson, and production team; Barbara Blonz, Joan Goldberg, Eileen Hirschfeld, Marilyn Kramer, Sue Kravits and Monalu Meyers.

Others taking part in the production included cast members: Irv Albert, Ann Berry, Cara Blonz, Judy Curcio, Karen Gold, Joyce Stern Greenberg, Donna Kravits, Miriam Lobstein, Marilyn Miller, Mary Payne, Anita Phillip, Ruth Richmond, Ginette Schrieber, and John Shelton, as John Adams' voice. To add to the authentic look of the scenes, three locations other than the studio were used. They were at Rosary College, River Forest, a Chicago attic, and a century-old house, Oak Park.

Also, authentic period dress was loaned to League members by a Glenview resident, Rachelle McClaren.

DENTAL DIGEST

BY GARY M. LAMANTIA, D.D.S.
The sound of people chewing ice cubes. Besides wearing away the tooth enamel and opening the door to decay, this habit can lead to fractured teeth and broken fillings.
Other harmful habits include: biting on pipes, or thread, chewing on pencils, and using the teeth to hold hairpins, nails or straight pins.
In addition to these types of mechanical trauma, there are also chemical elements that erode the enamel and lead to decay. For example, people who suck on lemons or chewable vitamin C tablets create a highly destructive environment for their teeth. Surprisingly, even some sugarless candies are acidic.
Many times it is not decay alone that can be harmful to teeth. Our seemingly innocent habits can be detrimental to oral health.

MEALS & SNACKS

Some older people (especially men who live alone) lose interest in eating because they have problems buying and preparing food. A poor diet can result in lack of energy, malnutrition, and bad health. Meals should be enjoyed in a relaxed manner. An attractive table and music can help make mealtime appealing. Other ideas may be:
-Invite a friend for lunch or dinner. It's more fun to cook for someone else, and the invitation may be returned.
-Eat in a different place, such as the living room or outside on the porch.
-Join or start a "pot-luck" club where everyone brings a prepared dish.

-Community centers, churches, and schools provide congregational meal sites where food is nutritious, inexpensive, and where new people can be met.

Many people enjoy a snack between meals. But some snacks add extra calories or salt to the diet, with few vitamins and minerals. Fruit, vegetable sticks, nuts, yogurt, cheese and crackers, bread, and cereal eaten in moderate amounts are better snack choices than candy, cake, cookies, potato chips, pretzels, and similar items.

Conference for single parents

Single parents may increase parenting skills and gain a deeper understanding of a healthy parent-child relationship at the "Parenting-Apart-From-A-Partner" Conference on Jan. 26, at St. Isaac Jogues Parish, Niles from 9 a.m. to 4:30 p.m.

"Parenting apart from a partner is both a struggle and a joy. Poor self worth surfaces and communication becomes difficult. Rules that once worked are questioned. A parent wonders what values are still appropriate to instill in their sons and daughters. These and similar issues which face the divorced, separated, widowed and never-married will be explored," said Sr. Linda Kaliker, of the Archdiocesan Office for Family Ministries, which is sponsoring the one-day conference.

The day is designed for both the custodial and non-custodial parent. For information call 751-8351.

Criticizes township snow removal

Dear Editor:
As both a resident of unincorporated Maine Township and a taxpayer, I was appalled during our recent snow storm with the lack of snow removal and the inefficiency displayed by our Township Highway Department and its appointed leader, Bill Fraser.
For several days following the storm the streets were filled with snow and ice and cars after cars needed assistance to get out of the ice and snow ruts. We need to really re-think the value of our tax dollars that are being used to maintain and clean the unincorporated area roads. Such gross inefficiency by Mr. Fraser and his crew seems to further demonstrate the total

lack of concern for human needs and problems that our Maine Township government has consistently displayed. I cannot believe that the Township would send a press release praising their own snow removal efforts that were obviously found lacking. Surrounding towns seem to do a much better job of handling a major snow storm. What is wrong with our Maine Township Highway Department? Why do they try to fool us into believing that our pot-holed packed, snow clogged streets are being efficiently maintained and cleaned?

Yours very truly,
Shirley Siedel
Unincorporated Maine Township

Seeks anecdotes on Eisenhower

Dear Editor:
Since the birth of this nation, many great leaders have emerged. One of these men came forth during World War II to lead the combined Allied Forces to a glorious victory. He later became one of the greatest presidents the United States has known. His name, of course, is Dwight David Eisenhower.
The Eisenhower Society was formed 15 years ago at Gettysburg, where the Eisenhower home and farm is located. Society members are deeply involved in perpetuating Eisenhower's leadership qualities by collecting biographical information and by instituting a Chair and scholar-

ship program in his name at Gettysburg College. Eisenhower touched many lives during his time. We here in Gettysburg would like to enlist the help of your readers by asking them to send us personal stories, recollections, or anecdotes they might have about Eisenhower.
If you or your readers can help us with this request, please respond to: Mr. LeRoy E. Smith, President, The Dwight David Eisenhower Society, Box 1990, Gettysburg, PA 17325.
Thank you.

Sincerely,
LeRoy E. Smith
President

Seeks compassion from school and police

Dear Editor:
Today I received a ticket for illegal parking in the schoolyard on Oakton st. I will pay for the ticket. So why am I angry?
I have lived on Oakton and Nordica for 15 years and never received a ticket for parking before. Monday evening I came home from work. The wind chill was about -20. The closest parking spot available was two blocks away. I figured as long as I am gone before the kids go to school, nobody will bother me. By the way the ticket was written at 8:50 p.m.

It would be neighborly if the school would allow us to park in their yard as long as we are out there before 7 a.m. (I left at 6:45 a.m.).

I also think that the officer who wrote the tickets, there were about 6 of them, could have used some common sense and said the

heck with it. It is cold, and as long as they are gone before they bother the kids, let them get away with it.
Yes, I was illegally parked and I am guilty of that, and I will pay the fine, but the school behaves unneighborly and the police in this case did not use any human feelings or common sense.
Hoping for some understanding,

sincerely,
Joe Koek,
6837 Oakton Street
Niles, Illinois

Snowed-in sidewalks create problems

Dear Editor:
The Village of Niles should be commended for its vigilant snow plowing and salting of the village streets. However, the plowed snow ends up on the sidewalks of the major arteries (e.g. Dempster). Store owners clear up their parking lots. Nothing else. So if you drive everywhere you go in Niles you'll encounter no real problems. If you try to walk (the reasons could be oil conservation, exercise, etc.) you'll find yourself in a dangerous position - out in the streets with the cars. Good luck!

Phillip Nash

Warning signals of carbon monoxide poisoning

by Secretary of State Jim Edgar
Carbon monoxide is poisonous

and if allowed to seep into your vehicle can cause accidental deaths. When having your car, truck or recreational vehicle winterized this fall, have it checked for a faulty muffler or leaks in the exhaust system.

Warning signals of carbon monoxide poisoning are weariness, yawning, dizziness, nausea, headache and ringing in the ears. The only way to fight this deadly gas is to stop the engine and get plenty of fresh air.

Four simple precautions will help avoid carbon monoxide poisoning:

1. Have the exhaust system checked for leakage regularly.
2. Leave a window partially open when starting the engine, driving the vehicle, and running the engine while parked.
3. Do not start your vehicle or warm up the engine in a closed garage.
4. Do not let children have access to your car keys. Their games often include imitating adults. Pretending to drive the car can have deadly results if a child accidentally turns on the ignition of a vehicle in a closed garage.

If you have any questions about the Secretary of State's office, please feel free to use our toll-free telephone number (800-252-8900).

A copy of the Rules of the Road will be sent to you upon request. Write to Jim Edgar, Secretary of State, Springfield, IL, 62756.

St. John Brebeuf Catholic Schools' Week

Each year Catholic schools nationwide celebrate Catholic Schools Week to recognize the accomplishments of Catholic elementary and secondary schools across the country. This year St. John Brebeuf School is celebrating Catholic Schools' Week from January 20-26 with the theme of "Catholic Schools: Sharing the Vision's Teaching Values."

This theme reflects the work, purpose and philosophy of Catholic Schools in preparing young people to become responsible citizens whose lives are based on Christian values.

The students, teachers, and parents are proud of St. John Brebeuf School, and the education it provides, as it emphasizes the development of intellectual, spiritual, moral, physical and social values.

St. John Brebeuf School has an enrollment of 585 students, and consists of a Pre-School, now in its fourth year, and also kindergarten through eighth grade. "The twenty-five full time and three part-time teachers are some of the most dedicated people with whom I've ever worked," commented Sister Rita Green, Principal. "They have the total good of the child in mind as they teach, and really care about the children. This care is shown in the extraordinary amount of time and effort they give beyond the regular school day and in their involvement in the many extra-curricular activities provided." Sister Rita continues, "It's a true faith community that's being formed at St. John Brebeuf School."

Some of the activities provided are an active Student Council which provides experience in leadership and democracy. A closed-circuit TV study allows

for experience in the many phases of communication arts. Eight Apple computers plus a printer provide experience in modern technology. An active Scout program provides for further social development. A highly organized Sports program includes both competitive and intramural activities. Cultural extension is presented in the Battle of the Books program, Talent Show, Science Fair, Spelling Bee, Speech contest, the Christmas program, and the sixth grade musical. Private music lessons are also available. A program geared to challenge the gifted is presented to open varied avenues of personal interest.

Students are encouraged to serve their community in the Altar Boy program, patrol and Monitor program, as office helpers and flag-raisers as well as in the Jr. St. Vincent de Paul Society.

sponsors slide presentation

from St. John Brebeuf, Niles, and the Peace and Justice Committees from St. Juliana, Chicago, Lutheran Church of the Resurrection, Niles, Our Lady of Ransom, Niles, and other groups from Park Ridge and Des Plaines.

Mrs. Sabath was a member of a delegation from the National Council of Churches that recently visited the Soviet Union to share ideas about religion and peace with Soviet church leaders and citizens. The slide presentation will allow the audience to hear a first hand account of an American's impressions of the Russians and the way they live. Mrs. Sabath will be open to questions from the audience during and after the presentation. It is hoped that the insights she shares may broaden the basis of our understanding of the Russian people. This understanding is especially important now that Russian and American negotiators are meeting to resume nuclear arms control talks.

On Jan. 24 at 7:30 p.m. Northwest Suburban Citizens Advocating Peace (C.A.P.) will sponsor a slide presentation by Adelaide Sabath entitled, the USSR - A Personal Encounter. July 4th celebration volunteers needed

Spring may seem a long way off and summer even more distant, but according to Jeff Fougousse, planning for Morton Grove's annual July 4th celebration is already underway.

The celebration, including pancake breakfast, parade, entertainment and fireworks display, is coordinated by the Morton Grove Park District.

Fougousse, who is the park district's superintendent of recreation and heads the planning effort, is seeking volunteers to help with all aspects of the celebration as well as for early financial contributions which are vital to support the popular event.

For information on how you may help make the 1985 celebration the best one yet, call Fougousse at 965-7447.

Indoor track takes off at Oakton

Oakton Community College begins its 14th season of Indoor Track and Field under Coach Patrick Savage with the start of the 1985 season.

Coach Savage has five returning letter winners from the 1984 team. Leading the women will be Patricia O'Boyle (Niles West High School) who was the State Champion in the High Jump and Sue Rosenblum (Niles West) who is the defending State Champion in the Mile and Half Mile. Both athletes qualified for the National Junior College Championships in 1984 at the University of Arkansas. Both athletes placed seventh at the National Championships.

Oakton will be hard pressed to defend their second place finishers by both the men and the women's teams in the NCAA Regional Championships in 1985. However, Coach Savage is predicting a good season for 1985.

OCC's Raiders invited to invitational

The Third Annual Bally Track & Field Invitational will be held at the Rosemont Horizon on Sunday, Jan. 27. Already committed to this prestigious meet are many of the 1984 Olympic Games Gold Medal Winners.

For the third year in a row the Mile Relay Team from Oakton Community College in Des Plaines has been invited to compete. OCC will be competing in the Chicagoland College Mile Relay Event. This will be event #10 on the Meet Program.

Coach Pat Savage has not definitely decided on the order that the athletes will run. The five athletes that Coach Savage has picked to complete are Tony Paul, a sophomore from Maine West; Kevin Kingston, a sophomore from Maine South; Tony Vodka, a freshman from Morton West; Dan Kuhn, a sophomore transfer student from the College of Lake County; and Tom Polak, a sophomore from Maine East.

THE GARNET GIFT
Some people assume that gemstones are too expensive to fit into their gift giving budget. Garnets, however, are available in a wide range of prices which start at a very modest figure. The term "garnet" means "having many seeds." The red crystals reminded the scientists who named it of the dark red seeds of the pomegranate. For most people garnet brings to mind the reddish-brown stone grandma wore. But it also is available in violetish-red, orange and brilliant shades of green. Some red garnets approach ruby in color, while green garnets sometimes resemble emerald or translucent jade. Green garnets are a colorful surprise for those who think garnets are dull brown stones. A fine green garnet is much more valuable than its red or brownish cousins. Red and brown garnets are perfect accents for the businessperson. Set with gold, such garnets look rich yet subtle in cuff links, tie tacks and rings. A strand of polished garnets spaced with gold beads or pearls is a classic accent for a woman's suit. Garnet is the traditional birthstone for January. When we discover customers born in January or who are shopping for a January birthday, we love to surprise them with the wide variety of choices they have in the garnet gift. Stop by Rand Jewelers for a first-hand look.

The Pavilion Players, a troupe of actors and actresses who donated their time and talent to Alexian Brothers, portray the characters in the play.

Following the performance, counselors from Alexian Brothers' Alcoholism Treatment Center will be available to answer questions and discuss individual problems.

Niles West Invitational scheduled

Thirty-four of the top high school gymnastics teams in Illinois, from Addison to York, will participate in the 1985 Niles West High School Girl's Gymnastics Invitational. According to meet director and assistant West gymnastics coach, Jodi Nebbia,

NRA award winner

George Boznos, of Morton Grove, recently received a Distinguished Expert Rating, the highest qualification award offered by the National Rifle Association.

Combining hard work and hours of practice, Boznos advanced his rifle shooting through three levels to achieve this impressive award.

The NRA's Qualification Program enables individual shooters to measure marksmanship proficiency through competition against oneself. Four ratings are available and each rating has a set of marksmanship requirements which must be completed by an individual and submitted to the NRA for approval. The Distinguished Expert Rating requires supervision by an instructor or club leader.

The program is designed for individuals to test their marksmanship skills. While these ratings are not NRA shooter classifications, they provide an opportunity to measure one's skill level and to advance marksmanship accuracy through individual competition.

Commentary...Continued from Page 3

Instead, there is no physical evidence of the alleged rape, and in court all that will be presented is the fleeting glimpse recalled by a fellow employee which will be told in court in this employee's halting English.

Because there was no physical evidence the charge had to be downgraded from Criminal Sexual Assault—rape—to Criminal Sexual Abuse, a misdemeanor.

If Paramo is convicted, which officials think doubtful, he faces a maximum sentence of one year in jail and a possible \$1,000 fine. With good behavior he would be back on the street in six months.

By the time the police were brought into the case it was too late to collect evidence to prove rape.

Had Paramo been convicted of Criminal Sexual Assault he faced a mandatory prison term of four to thirty years.

Another way of looking at it is like this. Paramo would have had to post at least \$2,000 bond just to get out of jail had he been charged with rape. Instead, being charged with the lesser crime meant bonding himself out with \$500. (By the way, officials said Paramo never spent a single night behind bars following his belated arrest.)

Now, let's add salt to the public wound. That Paramo was charged in less than "two or three months" following the incident is considered mighty fine work by the Cook County State's Attorney's office.

Said press spokesman Terry Levine of the one month, "That's not a long time...it is not unusual (for cases like this) to take two to three months...I won't apologize for this."

And, so much for the public being protected, for when Mr. Paramo was fired after being suspected of raping a mentally retarded patient at Miranda Manor what would have prevented him from walking down the street to the Golf Mill Plaza 1 nursing home for another offender's job?

Nothing, of course.

Press spokesman Levine says he... "hopes any nursing home would check" before hiring Paramo again.

Equally ludicrous, Sykes said that the way to prevent Paramo from being rehired is, "Diligence on the part of nursing homes to fully inform (other) nursing homes that certain employees have been fired for certain offenses."

When pressed about whether Paramo could, in fact, now be working at another nursing home, Sykes finally said, "We cannot protect against this."

Return to the fact that by the time the police were brought into the case it was too late to collect evidence to prove rape. For we have a few thoughts about those ever-so-clever Assistant State's Attorneys who are doing their best to avoid this inconvenient issue.

When asked if Paramo raped the patient press spokesman Levine said, "There was no evidence of rape."

Of course there was no evidence of rape—since no evidence was able to be collected.

But will it hurt the case against Paramo if there is no physical evidence of rape?

Here's what college-educated Sykes says in his best effort to skirt the issue, "If you assume there was evidence (of rape) and that evidence was not collected that certainly is correct."

Or, when asked if there was any evidence of a rape occurring Sykes said, "There could have been evidence (of rape) and that evidence existed in the first place."

Got that?

To restore your faith in the public sector here's what Niles Chief of Detectives Giovannelli says, "We can't say with certainty that rape did not occur." (Had Giovannelli gone to law school he probably would have been tossed out for speaking in English that is understandable. You know, he would have flunked Legal Deception 101.)

Take away all the legal jargon, take away all of the "circumstances" which combined to keep this man, who was seen molesting a retarded woman, on the streets, and what it all boils down to is that we are, simply, not being protected.

And keeping that in mind, how does the State's Attorney's office react to this entire tragedy? They turn it into a minor media event to illicit some good public relations for themselves.

For the first time in recent memory this and other local newspapers were called before going to press to be notified that State's Attorney Richard Daley himself had a quote he would provide the newspapers about this unspeakable crime.

What it all boils down to is that we are, simply, not being protected.

Said Daley, "The victim in this case was completely helpless because she was incapable of understanding what was being done to her. It is particularly sad when an individual is charged with attacking someone he has been hired to protect."

Well, throw those three-piece-suit advisers out of your plush office and, for just a moment, listen carefully, Mr. Daley.

Those of us in this community are also victims of this alleged crime and we are feeling completely helpless. We also fail to understand what is being done to us; and in the name of law and order!

And you bet it is sad when an individual, namely you, is unable to do your job; which is to protect us from the kind of lunatic who is reported to have molested a mentally retarded woman and now remains free to walk the same streets and breathe the same air as our loved ones.

Youth in Action

Let's shatter a negative stereotype. As a group, teenagers are not the "me generation."

A recent Chicago Area Poll on Youth Volunteerism demonstrates that young people deeply care about their communities. Three-fourths of all high school students would volunteer their time and energy if they were only asked. Many already do volunteer in their communities.

You can meet some of these concerned and caring teenagers at a March 2 conference, entitled "Youth in Action: Tomorrow's Energy Today." The "Youth in Action" conference is the first official event of International Youth Year and is only one of many activities scheduled for March, Youth Participation Month.

The "Youth in Action" conference is sponsored by Sheriff Richard J. Elrod, the Cook County Sheriff's Youth Services Department, the BEST Project, and the Coca-Cola Bottling Company of Chicago. The conference will feature over thirty youth groups that are providing excellent and much needed community services, ranging from peer counseling to home help for seniors to radio and television programming.

Groups from the north suburbs that will be presenting at the conference will include: Maine Township High School's Demon Guard, and Baha'i District Youth Committee.

Youth and adults are invited to attend the all day conference at the University of Illinois' Chicago Circle Center. Costs for the conference range from \$3 to \$5 and include parking, refreshments, lunch, and conference materials. For a registration brochure, call the Cook County Sheriff's Youth Services Department at 865-2900.

Crisis Hotline adds 24-Hour Service

Immediate clinical intervention, allowing a telephone crisis caller to make an immediate appointment with a therapist regardless of the day or hour, is a new feature of the 24-hour crisis hotline offered by the Seven Springs Health Resource Center and its affiliate, Forest Hospital. Both facilities are located in Des Plaines.

Under the new service, a professional therapist will be on call throughout the night and weekend hours to meet at the hospital with any crisis caller requesting an immediate, in-person session.

The new service augments the existing crisis program at Seven Springs Health Resource Center, which has always had available immediate, in-person as well as telephone-crisis counseling during its business hours. After-hours calls requiring telephone counseling only (with clinical follow-up where necessary) will continue to be handled by Forest Hospital supervisory personnel.

"In some instances, immediate intervention in a crisis situation can be crucial," said James Soukup, Psy. D., coordinator of the 24-hour program. "Some callers will benefit far more from prompt clinical attention, rather than having to wait for an appointment during the next business day," he said.

The Seven Springs Health Resource Center crisis hotline number is 635-4224; charge for an after-hours, in-person clinical session is \$50.

Permanent Index Numbers required by Recorder

Cook County Recorder Harry "Bus" Yourell announced that effective Monday, Feb. 4, 1985 all documents to be recorded or registered with regard to property in Cook County must have the permanent index number of the property and the property's address on the document.

The permanent index number is the tax identification number assigned to individual property. Those persons whose documents do not have the number will be assisted at the newly created Mapping Section, adjacent to the cashiers in room 230.

It will be incumbent upon all Title officers in room 120, including Title Company employees, not to file documents without tax numbers and addresses.

The Torrens Survey Department will be used to pick up the proper number when necessary. This administrative order is being implemented in anticipation of the computerization of the Recorder's office and must be strictly adhered to.

Yourell also wishes to remind the public that an additional fee of \$1 is being charged for all documents recorded, effective

IRS tips to speed processing

Many simple errors that may cause weeks of delay in the processing of federal tax returns can be avoided if taxpayers follow some simple guidelines from the Internal Revenue Service.

The peel-off label containing the taxpayer's name, address, and social security number is designed to speed processing. It is important that taxpayers verify the accuracy of their mailing labels. If corrections are necessary, taxpayers should make them directly on the label.

Math errors, using the incorrect tax table or schedule, wrong line entries, failure to attach all necessary schedules and failure to sign the return are the most frequent problem areas which cause delays in refunds.

Taxpayers should carefully read the instructions and review their returns before sending them to the IRS. Starting early can be beneficial. Not only would taxpayers receive their refunds earlier, but they would also have the time to double-check the returns before filing. Returns filed late in the filing season are often completed hastily and under pressure, dramatically increasing the chance of errors.

scheduled appointments. Marcheschi said following the survey he contacted Cablevision general manager Tom Baxter. Marcheschi said he told Baxter these problems "... must cease as quickly as possible, or we as a village would be forced to file suit to revoke the franchise (with Cablevision)."

Marcheschi told the board that Baxter said Cablevision was installing a new computer to handle customer billing and service and this would speed up telephone inquiries allowing Cablevision operators to handle more calls and hopefully cut down on the waiting time residents currently have to endure.

According to Marcheschi, the computer is supposed to be installed in Cablevision's Oak Park headquarters by March 18.

Marcheschi added, "I made it clear we won't put up with extensions (of the March 18) deadline."

"If the matter is not resolved by March 18 I will ask the Village Board to take action to revoke the franchise agreement (with Cablevision)," added Marcheschi.

Marcheschi also told the board that the cable company is also trying to correct the problem of servicemen not keeping their appointments at residents' homes.

Marcheschi said he expects that also to be cleared up by March 18.

Niles Mayor Nicholas Blase added, "I made it (Cablevision) should be convinced that we will take this action."

Marcheschi also said he was told that Cablevision will be installing computer terminals in their Niles office allowing area residents to receive all billing and service assistance at the

Niles Cablevision office. Marcheschi also told the Village Board that the long-promised Niles cable studio, located in the Scheel Administration Building, is currently "99 and 400 completed."

Within the next two weeks Marcheschi said village employees will begin training to learn how to use studio equipment.

Following that, training classes will be available to residents and organizations wishing to produce cable television programming.

Annunzio announces progress in North Branch River clean-up

Forest Institute names Gruber acting president

Morris B. Squire, chairman of the Forest Hospital Foundation, has announced the appointment of Dr. John P. Gruber as acting president of the Forest Institute of Professional Psychology (FIPP).

Currently Vice President of Educational Services for Forest Health Systems, Inc. (the umbrella organization which included Forest Hospital in Des Plaines, FIPP, and Lovellton Treatment Center in Elgin) Gruber formerly was chairman of the Sociology, Anthropology, Social Work and Criminology Departments of Chapman College in Orange County, California, and Dean of Chapman's Graduate Studies Division. He has also served on the Western Association Schools and Colleges accrediting teams and as an educational consultant.

The Forest Institute of Professional Psychology, which was recently accredited by the North Central Association of Colleges and Schools, offers two graduate programs in psychology, awarding the degrees of Doctor of Psychology (Psy. D.) in Clinical Psychology and a Master of Arts (M.A.) in psychology. Located at 1717 Rand Road in Des Plaines, FIPP was founded in 1979 by the Forest Hospital Foundation.

Under the Annunzio-authored legislation, up to \$150,000 is provided by the Federal government, so long as the State or local government agency contributes 25 percent of the cost. The Metropolitan Sanitary District is the local sponsor of the North Branch clean-up project,

Low Cost—Short Stay Maternity Program at Holy Family

Officials at Holy Family Hospital, Des Plaines, have announced a new service designed to reduce the cost of maternity care by reducing the time mothers and their new babies spend in the hospital.

The new program, entitled "Here Today...Home Tomorrow" is a short-stay maternity program offering low-risk mothers the option of choosing a 24 hour or 36 hour stay at a cost savings of 60% below normal hospitalization charges. The average cost of an uncomplicated labor and delivery, recovery room, post partum care and newborn nursery for a three day stay is \$1800. Holy Family Hospital's Short-Stay alternative will cost only \$749 for a 24 hour stay and \$849 for a 36 hour stay.

The Short-Stay patient will use the Alternative Birthing Center, an attractively decorated, home-like room for labor and delivery, staffed by highly skilled nurses. Mother and baby remain in this room until their doctor sends them home. Once at home, a follow-up phone call and a visit from a Home Health Care Nurse assures the safety and comfort of the mother and her new baby.

With the rising costs of hospitalization, Holy Family Hospital is concerned with keeping maternity care affordable while still offering the security of a fully-equipped hospital and professional medical staff. This is a pre-paid program

which is subject to change if mother or baby need additional services. Since most births are low risk, it's needless for patients to pay higher prices than necessary.

According to Sister Patricia Ann, President of Holy Family Hospital, "The 'Here Today...Home Tomorrow' program provides expectant parents with an alternative to traditional maternity charges. We are responding to the changing needs of our maternity patients by offering a low cost, convenient program tailored to their individual needs. Holy Family's commitment to quality, personalized care is further enhanced by this service, and we feel that residents throughout the Northwest Suburbs will greatly benefit from it's implementation.

Employers and insurance companies concerned with the rising cost of health care will surely benefit from this cost-effective birthing alternative. Unlike an emergency situation, most aspects of maternity care can be anticipated. Prospective parents considering their health care options will find Holy Family Hospital's Short Stay Maternity program will satisfy their desire for low cost, quality maternity care. For further information call Holy Family Hospital in Des Plaines at 297-1800, Ext. 2160.

A second funeral closer to home was for Marty Hodes, a longtime member of Niles Library Board. Marty was a man to be admired. He was greatly involved in Niles as well as in his synagogue in Morton Grove. Despite his illness he kept a pace which few men of greater health could have kept. He was a man of much good will who did much good for his community and family.

The third funeral we attended last month was for Leo Silverman, longtime owner of Ann's Foods. Leo had a business reversal which forced him to start all over again at a relatively late age. Yet, in the brief time he went to work in the wine business he became an expert who was respected by representatives throughout the world.

As a human being Leo was something special. He cared and he gave and he was compassionate and he was tough and he was a thoroughly good man. All of us who knew him are the better for his having passed our way.

From the Left Hand

Continued from Page 1

trustee Pete Pesole suggested Niles should look into a gun ban law similar to Morton Grove's. We're afraid it was what we might call "typical Pesole rhetoric". He tosses out a proposal and lets it drift away without any follow-up.

Since 1985 is an election year you can be sure Mr. Blase and his rinky dinks won't touch this issue before the election. Because there seems to be little concern for the matter it isn't likely to be broached.

Just as we noted Pesole's past comments are "typical Pesole rhetoric" the head man, Blase, has a similar inclination. When the subject was in the headlines two or three years ago Blase said Niles would wait until after Chicago took some action. Chicago has taken action but Blase and the "Dinks" remain silent. No need to show leadership when the troops are not stirring.

Nick Blase's "old boy" network is slowly expanding. In last week's Bugle we reported former trustee Ralph Bast was hired as a "Business and Industrial coordinator" for Niles. Mr. Bast, late of San Diego, will be contacting industrialists and businessmen, in pursuit of keeping the local areas flowing with business.

Mr. Bast is the second "old boy" Blase has made a place for. Santo Bruno, another former trustee, is Niles assistant liquor commissioner. It was a job created for Sam after he retired from his longtime job with Blue Cross.

It is compassionate of Nick to hire friends who may be in need...either of jobs or building up a new pension. But if such jobs are essential why hasn't he sought the best qualified people from the community. There are many Nilesites who are no longer employed who would be highly qualified to fill these positions. Since they pay the taxes it seems they deserve an equal shot at these jobs as Blase's "old boys".

Board member Norman Padnos asked how the 15 minutes would be allocated in schools where there is team teaching. Bond said the school's principal and teachers would decide to use the time where it is needed.

The report was presented to board members only for discussion and no action was taken.

Also in regard to a possible change in the school day, a petition signed by nine "working" parents was submitted to board members protesting a 15 minute earlier dismissal of junior high school students. The parent presenting the petition said she thought parents would be willing to meet with the administration to discuss alternatives.

In another written question to board members, a parent asked how the morning music program in elementary schools would be re-organized if school began 15 minutes earlier.

Barbara Korb, a Gemini teacher, said some music teachers told her it would be difficult to make adjustments in the program.

their 1984 federal tax returns this spring. The deduction for the utility tax is not built in to any chart in the income tax book, so it must be listed among other tax deductions, he pointed out.

Taxpayers who itemize deductions may deduct the actual amount of state utility taxes they paid in 1984, if they have kept records. Otherwise, Sen. Kustra said, they may calculate the additional deduction by adding 10 percent to the amount of sales tax deduction allowed for their category and income in the sales tax chart.

Sen. Kustra said more than a third of Illinois taxpayers, about 1.8 million, do itemize their deductions and can benefit from the deduction. Those who do not itemize will not be affected.

"Now that we have the right to take this deduction, I certainly hope Illinois taxpayers will take advantage of the ruling," Sen. Kustra said.
