## Enrollment down, building plans up at Oakton

by Anthony DeBartolo

In the face of steadily declining enrollments, with the current spring term total seven percent below last year's level, the Oakton Community College Board of Trustees is considering construction plans for a two-story, 8,600 square foot, \$500,000 student center at the Des Plaines campus.

The Michigan Avenue architectural firm of Loeb, Schlossman and Hackl, presented preliminary drawings for the addition at Tuesday night's meeting.

While encouraging the board to accept the contemplated construction plans, Robert Lawler, Director of Student Activities,

the project "the potential...center of campus life for the college" and highlighted the importance of such an activity center "especially in a commuter institution where opportunities for interaction are limited."

OCC students currently use the cafeteria seating area, to the

## TIP files suit to be reinstated on April ballot

by Bob Besser

In a fight for its life the maverick Maine Township Improvement Party (TIP) filed suit on Wednesday, Feb. 8, to have their candidates' names reinstated on the April ballot.

This follows a 2 to 1 vote by a township electoral board on Feb. 1 to remove the TIP candidates names from the ballot claiming

their papers for filing their candidacy petitions were incorrectly filed.

At issue is whether the TIP candidates correctly filed their statement of economic interest.

Maine Township officials claimed Illinois election laws demanded the statement of

## Village sets public hearing for March 12

# Hearing set on revocation of Cablevision franchise

## LWV meeting on public access television

by Eileen Hirschfeld

"One of the problems encountered by cable television companies is that people do not understand much about public access television and how they can take part in it," Mayor Nicholas Blase told the Bugle at a meeting Saturday, Feb. 9.

The meeting, "Public Access and You", was sponsored by the Morton Grove-Niles League of Women Voters and designed to inform residents about public access television and how they may become producers.

To answer questions and explain their respective stations' public access policies were Linda Ashton, public access coordinator, South region, Cablevision of Chicago, and

Nicolette Ferri, public access coordinator, Continental Cablevision. Also representing Continental was Joe Willoughby, program director.

Both Ashton and Ferri explained their cable television companies have public access channels designated to be used only by residents within the franchise. These residents are able to use the television companies' equipment and facilities upon successful completion of courses in public access TV production.

Ashton said Niles has a new studio with "state of the art" equipment and lessons will begin

Cablevision's of Chicago's poor performance record in Niles officially became a campaign issue of the upcoming April village elections following actions taken by the village trustees this week.

In an unexpected move a public notice was sent this week from Niles to The Bugle announcing that a March 12 public hearing will be held to discuss the "Revocation of the cable television franchise agreement" with Cablevision of Chicago.

Trustee Angelo Marcheschi, Niles' Cable Committee chairman, said during a Monday interview that residents continue to have trouble with calling in to

Cablevision for service and have complained about Cablevision repairmen not keeping their appointments.

Additionally, Marcheschi said Niles residents have said they have had many billing problems including delays in getting credits on their accounts recorded.

The March 12 hearing, which will be chaired by Niles Mayor Nicholas Blase, apparently contradicts threats made by the village board during its Jan. 28 board meeting.

At that time Marcheschi said he had been assured by

## From the Left Hand

by Bob Besser

Whenever our balloon begins flying too high we can be sure one of the natives will come along and bring it back to earth.

Dee Hlava, who is in charge of one of the shows at St. John Brebeuf's Festival 15, called up last week to remind us about a column we had written some eight or nine years ago. We noted the show in the main room at the festival was "too professional". It was so good we were sure the festival people imported professionals to lead the dancing and singing in the show. Dee laughed. She said the "professionals" were amateurs, mostly local people, who happened to be a very talented lot.

This year's Brebeuf show runs Friday and Saturday nights. You can eat dinner there beginning at 6 p.m. prior to the 8 p.m. showtimes. The eats are always great and the shows are excellent.

If you're beginning to experience "cabin fever", you can lose it at least for one night, by heading to Festival 15.

We attended Saturday morning's meeting at the Scheel administration building where

### Parkside Medicare Helpline

Parkside Human Services Corporation has created a Medicare Helpline to assist senior citizens in the community with questions about Medicare.

Many changes have evolved in this government sponsored health insurance program for the elderly and the new provisions are difficult to understand and keep up with.

In 1984, Congress passed legislation calling for 6.6 billion dollars in Medicare cuts by 1987. One of the specific areas of change was to encourage physicians to accept the Medicare assigned reimbursement rate for services as payment in full. This was not legally required of physicians, but they did have to inform the Department of Health and Human Services of their decision to enroll in the program by October 1 of last year. If a physician would agree to accept assignment, it means that he or she would bill the patient for services according to the Medicare approved reimbursement schedule. This fee schedule is based on average costs. Often these scheduled fees are less than the going rate for medical services.

If you are a Medicare subscriber, this could result in a substantial saving to you. Of course, your primary concern should be the quality of your medical care. However, if you do not have a physician you may want to consider this when looking for a doctor.

Parkside Human Services' new Medicare Helpline can help area seniors better understand many of the provisions of this new legislation as well as help you find a physician who does accept Medicare assignment if you need one. Call 696-6478, Monday through Friday, 8:30 a.m. to 4:30 p.m. for help.

Parkside Human Services Corporation is a member of the Lutheran General Health Care System.

### Niles Spend\$ the bucks. . . Morton Grove makes \$en\$e

Morton Grove may not do everything according to the book but they have saved themselves much time and many dollars by observing their neighbor to the west...the village of Niles.

When Morton Grove started looking into cable for the village in 1978, they chose a cable company by checking with a number of suburbs that already had cable service. Continental Cablevision was used by the majority of suburbs they checked with and hence, it became the choice of Morton Grove. They signed the franchise in 1979 with Continental and receive 5% of the gross revenue for the village coffers. Their problems with Continental have been minimal and all in all, they are still pleased with their choice of this cable company.

Niles, on the other hand, did everything according to the book. The mayor named a Cable Commission with Carol Panek heading the group. For a year and a half, she and her troupe traveled to other cities attending cable seminars, accumulating piles of literature comparing the features of the various cable companies and sat in on meetings after meeting on cable.

When Carol put all her facts together and presented them to the mayor and the board, they bypassed her recommendation, Cabinet, and settled for Cablevision. Cablevision gave them \$500,000 upfront money and headache after headache since the 1982 franchise signing. These 'headaches' have subsequently lead the village fathers to schedule a public hearing for March 12 regarding the revocation of the Cablevision franchise.

Morton Grove also cashed in on Niles' efficiency when they chose Larry Arft as their village manager. After the death of Ken Scheel, Niles hired an outside firm costing many ducats to conduct a search for a new village manager. After six months and many interviews, they chose Jack Hodge. A short time later, Morton Grove Village Manager Jim Sloan announced his resignation and what did the MG village fathers do? They found out who Niles' second choice was, contacted Larry Arft out in Bolingbrook and hired him for the job. No fuss...No muss...No \$\$\$...and lots of sense.

But you can't knock Niles. They did everything the right way. They spent the bucks, they searched and they studied. But, for some reason, they ended up on the short end of the schtick.

### Hazardous Materials Team

The Board of Trustees of the Village of Niles' recently approved its fire department's cost sharing and participation in training and equipping a 15 community hazardous materials response team. In a resolution passed last Jan. 22, the board agreed to pay \$5,000 per year for three years, as would each of the remaining communities, to provide various levels of training, purchase tools and equipment unique to this ever growing problem and a suitable vehicle. The vehicle, centrally located, would carry the equipment and team to the scene of a hazardous materials emergency. The 15 towns are members of Division III, of the Mutual Aid Box Alarm System, covering most of the north and northwest suburban areas. According to Niles Fire Chief Harry Kinowski, who made the presentation to the board, the cost to any individual department would be about \$300,000. With joint sharing, he said, this cost was reduced to \$15,000 per department, or \$5,000 each year over three years. Chief Kinowski said that Niles has a large industrial complex, using large amounts of extremely hazardous chemical compounds. Additionally, he added, railroad tank cars carrying various chemicals travel along Lehigh ave., and tank trucks carrying similar compounds travel the seven major highways

### Bethesda extends Senior Citizens' Courtesy Program

Medicare patients will be able to continue to save up to hundreds of dollars on health care costs at Bethesda Hospital due to a May 15th extension of the hospital's Senior Citizens Courtesy Program, according to Bethesda's Managing Director William R. Fox.

Under the program, inpatients eligible for Medicare do not pay for their deductible. The cost is absorbed by the hospital. Patients already enrolled in the program have saved up to \$350. "The program worked so well

and there was so much demand to continue, we decided to offer this Senior Citizens Courtesy Program until May 15," Fox said. "We believe this is particularly helpful to our elderly patients who may have difficulty affording health services, even with Medicare."

For more information, call the Senior Citizen's Courtesy Program at 761-6000.

### Medicare enrollment thru April 1

People who failed to sign up for Medicare medical insurance (Part B), or who once had this protection but dropped it, will have a chance to get this important protection during the 1985 general enrollment period, January 1 through April 1, Dennis Randall, acting branch manager, in Des Plaines, said recently.

Medical insurance is that part of Medicare that helps pay for doctor bills, outpatient hospital services, and many other medical items and services, not covered by hospital insurance.

Protection for people who sign up during the general enrollment period will start July 1, 1985.

Medical insurance is financed by monthly premiums paid by those who have the protection and the Federal Government from general revenues. Presently, the Federal Government pays three-fourths of the cost. The basic monthly premium in 1985 is \$15.50.

Generally, people who sign up during a general enrollment period may pay higher premium, Randall said. This is because the premium is increased by 10 percent for each full year a person could have had this protection but did not.

More information about the Medicare medical insurance (Part B) general enrollment period can be obtained by calling the special teleservice number: 823-6815. Free publications are available that gives you more information about medical insurance protection.

#### HEART MONTH

Heart health is the goal of most exercise and fitness programs these days because the increasing frequency of deaths caused by heart attacks. No heart attack is ever sudden. It may seem that way to the patient and family members, but heart disease builds up over period of years, helped along by the person who has ignored the risk factors and failed to heed the early warning signals. These signs may be: high blood pressure, being overweight, daily emotional stress, cigarette smoking, or a sedentary lifestyle.

A heart attack is the sudden blocking of one of the arteries that supply the heart muscle with blood. Although this blockage is sudden, it is the result of the slowly developing process of atherosclerosis (hardening of the arteries, or cholesterol buildup in arteries). In atherosclerosis, the passageway through the arteries becomes roughened and narrowed by fatty deposits of cholesterol.

This Valentine's Day, the American Heart Association encourages people to consider listening to some of their body's warning signals and become engaged in a plan to eliminate them. For more information call the Morton Grove Department of Health & Human Services at 965-4100, ext. 254.

## letters to the editor

### Fine Cablevision for violation of franchise

Dear Niles Residents,

Although my decision to run as an independent candidate for village trustee was consciously made last November, I have, as many of you know, always acted rather directly and independently when it came to supporting your best interests.

Today, if I had to vote again for a cable operator for our community, I again would vote NO for Cablevision of Chicago without blinking an eye. Cablevision of Chicago frequently has had charges brought against them for failing to fulfill their franchise commitments in other communities.

A letter has been sent to Cablevision, putting them on notice either to correct their

customer service policies by the middle of March, or the Village of Niles will be forced to file a law suit to revoke the franchise.

But the Village of Niles could impose a stiff fine like the city of Evanston did for other violations and possibly avoid a costly law suit. What we don't need in our village is another law suit paid for with taxpayer's money.

This is only one issue, and just one reason why I am running for Re-Election for the office of Village Trustee as an independent candidate.

Please remember to support me with your vote on Tuesday, April 2.

Sincerely,  
Carol E. Panek  
Village Trustee

### Firefighters express thanks to thoughtful Nilesite

Dear Editor:

Recently the Niles Fire Department responded to a house fire at 8257 Elmore st. After the fire was under control and all of the high priority tasks were accomplished, the initial response companies were given a break. It was at this time that we noticed that a nearby resident, Judie Biancalana was supplying freshly brewed hot coffee to the firefighters. When you are cold and tired, it is amazing how a simple cup of coffee can make your conditions more bearable. Judie, each of the firefighters present greatly appreciate your gesture of making us the coffee and wish to publicly thank you.

Sincerely,  
Black Shift Niles Fire Department

### Commends Bergquist for community service

Dear Editor:

"All we need to lose our Democracy is for good men to do nothing." I have known Roy Bergquist for twenty years as an honest lawyer and responsible political opponent. More important, Roy and his family have donated countless hours for volunteer community service.

It is reprehensible that Committeeman Raffé, Supervisor Halverson and Clerk Stolten have attacked Bergquist's personal integrity. The Raffé, Halverson and Stolten attempt to remove Bergquist and the Township Improvement Party from the ballot is contemptible.

We complain that good people won't run for office. We get a good man like Roy Bergquist and

watch political bosses drag his name down into the gutter. We watch in silence as a man's twenty years community reputation is destroyed. Hell No! I won't remain silent. His Republican friends should not accept this character assassination either.

I would urge Republicans to pack the next Republican Party meeting and demand an explanation. Make Raffé, Halverson and Stolten defend their actions. Give Roy Bergquist and his family the opportunity to defend themselves. Don't desert this honest man for the ilk of Raffé, Halverson and Stolten.

Sincerely,  
Thomas W. Flynn  
Niles

### Open Letter to Residents of Maine Township

Contrary to articles recently circulating in the various area newspapers, I am in excellent health.

I have always had a strong determination to serve my country as a true Republican in whatever capacity I was called upon to do, a trait inherited from my father, a Republican

Legislator from the State of Michigan.

I have been a staunch Republican precinct captain, Congressional Representative, Maine Township Committeewoman, Cook County Township Committeewoman, Committeewoman of the Year, Trustee of Maine Township Board, and con-

trary to other reports Founder along with the late James A. Parks of the Maine Township Council on Alcoholism, the first Council of its kind maintained by Township Government in the United States.

## Harlem Irving "Giving" tree

Over 3,000 gifts were distributed to the needy in area institutions thru the Spirit of Giving Tree Program sponsored by Harlem Irving Plaza located at Harlem Avenue, Irving Park, and Forest Preserve Drive. The result tripled last year's figure of approximately 1,200 gifts received.

The Spirit of Giving Tree held cards with the names and gift-wishes of area orphans, elderly, and underprivileged children and adults who were without immediate families at the holidays. Harlem Irving Plaza shoppers participated in the Giving Tree Program by purchasing one or more of the gifts requested on the gift card and returning the gift-wrapped presents to the tree.

Volunteers from the staffs of various participating organizations manned the S.O.G.T. from Nov. 23 thru Dec. 24 and also assisted in the gift delivery.

"Thanks to the generosity of so many wonderful people, many less fortunate individuals received a Christmas gift which they asked for," commented Ken Daubenspeck, Holiday Project volunteer. "If you could have seen their expressions of joy! It meant so much to them to know that someone actually took the time to remember. One recipient whispered... 'there really is a Santa Claus!' I personally would

There isn't much in the world that smells as good as fresh baked muffins on a cold winter morning. The pre-package frozen types never come near to the fresh sweet smell of homemade. Muffins are quick to make with very little fuss. Just remember to never over stir your batter. If you do, your muffins will come out tough and soggy. The following recipes are for Easiest—BEST—EVER MUFFINS and some variations, Banana Bran Muffins, and Coffee Cake Muffins, which are an excellent choice for a Sunday brunch.

### EASIEST—BEST EVER MUFFINS

- 1/2 cup oil or melted shortening

Sift dry ingredients together in a bowl. Make a well in the center. Combine wet ingredients. Add all at once to the dry ingredients. Stir quickly just to moisten. Fill tins 3/4 full. Bake at 400 degrees for 20-25 minutes.

After getting a description of the Chicago car the Niles Police apprehended the driver in her car near Sherman Ave. and Golf Rd. about 8:15 p.m.

The Chicago woman was reported to be sick and needed to be carried from her car. Niles Police officials later had the woman taken to Lutheran General Hospital for an examination because she was so sick.

The policeman stopped the Niles car when he saw it did not have a vehicle sticker. Also, it was learned the Niles man's driver's license had earlier been suspended.

At the Niles Police Department he was processed and released after posting a \$100 bond.

He will appear in court in March.

## Safety features installed

There were 99 collisions - and 53 persons injured - one year at the intersection of Des Plaines River Road and Golf Road in Des Plaines.

Two years later, the number of collisions had dropped to 27 and the number of persons injured had plummeted to 13.

During that period, the Illinois Department of Transportation made it safer to make left turns and installed new traffic signals at the busy intersection north of O'Hare International Airport.

Ralph C. Wehner, District Engineer for Northeastern Illinois, detailed the intersection improvement project today and said:

"We believe that this is a prime example of how effective use has been made of the increased revenues that came to the Department from the recent motor fuel tax increase."

"The public's money," Wehner said, "is being well spent on such safety improvements."

During the 1970's, department officials explained, it was recognized that the intersection of Des Plaines Road (Rte. 45) and Golf Road (Rte. 58) was experiencing a large number of collisions - mainly because of high approach speeds, the lack of left-turn bays and the lack of left-

turn arrows for heavy turning movements.

As part of the Spot Safety Improvement Program, the Department recommended that the intersection be channelized and the traffic signals modernized.

Complicating the proposed improvement was the factor that the Des Plaines River crosses under the Golf Road immediately east of Des Plaines River Road and the Golf Road bridge had to be widened as part of the improvement.

Work got under way Feb. 1, 1982, and the permanent traffic signals were placed in operation Dec. 1, 1982.

The cost of the project was \$1,197,000.

"Considering the drop in the number of collisions and persons injured," Wehner said, "it was most certainly money well spent."

Contrasting the year before the improvement with the year after it, there was a drop in the number of collisions at the intersection from 99 to 27 - a decrease of 72 accidents, or 72.7 percent.

And during the same period there was a reduction in the number of persons injured in accidents at the intersection from 53 to 13 - a decrease of 40 injured, or 75.4 percent.

## Shoplifter charged with battery

A 30 year old Chicago man was arrested for shoplifting and striking a security guard at a Niles store on Monday, Feb. 4.

The Chicago man was reportedly shopping at Sears Roebuck and Co., 400 Golf Mill, when he was seen placing a pair of bolt cutters into his pants and attempt to leave the store.

When a security guard stopped the man in the store he reportedly pushed the guard and ran outside

the store.

Another security guard apprehended the man in the Golf Mill east parking lot.

After being detained he was brought to the Niles Police Department where he was charged with shoplifting and battery.

The Chicago man was assigned a March court date and released after posting a \$100 bond.

## OCC cager does the job quietly

When Bill Valenta took off his Maine East uniform for the final time last season, he figured it would be the last time he'd ever play competitive basketball.

The quiet, mild-mannered Niles resident finished Maine East High School with the rest of his peers, received his diploma and thought about entering Illinois State University and life as a college freshman.

Valenta currently is experiencing life as a college freshman, but he's doing it at Oakton Community College where the 6-foot 5-inch, 165-pounder has been an important part of a basketball team that has accumulated a 5-4 Skyway Conference record after going all of last season without a conference victory.

Playing at a forward position, Valenta has developed into one of the team's most consistent performers. He's averaging more than 15 points a game in conference action, scoring in double figures in every contest. In addition, he's among the team's leading rebounders with seven per game. Valenta also leads the Raiders with an average of approximately 35 minutes played each game.

"We knew about him from his high school coach," said OCC basketball coach Tom Jorndt. "Although he saw limited action on the varsity level, his high school coach saw a lot of potential." Valenta received the award for most improved player on his team last year at Maine East.

"I started on the junior varsity team," Valenta said. "We took it pretty seriously, though. I had a pretty good season, but I never thought I'd play again."

Jorndt contacted Valenta about playing basketball at Oakton. When Valenta's plans to attend Illinois State changed, he found himself back playing basketball.

"He's really improving," Jorndt assessed. "His shooting has improved and he takes the ball to the basket better than he did. He is a quiet person, but he's developed a lot more confidence in himself and gets along with everyone."

In addition to his scoring and rebounding, Jorndt said he believes Valenta has helped the team a lot with his defense play.

"He helps out on defense very well," Jorndt said. "If an opposing player gets by his man, chances are good that Bill will be there to help out. He's a smart player and he's got a good sense about things when he's out on the court."

Valenta said he needs to "play smart" in order to compete. Most of the players he guards are taller and almost all of them outweigh him.

"I take a lot of pride in playing defense," he said. "Anyone can take the ball and shoot it, but there aren't that many people who really play good defense. I just try to get good position and keep hustling."

Valenta said "playing smart" has also allowed him to score a lot of "garbage baskets."

"They count just as much as anything else," he said. "I try to hang around the basket when we have the ball and sometimes you have to outsmart the other guy. If I see something that allows me to get an easy basket, I'm going to try it."

Valenta has visions of being named as an All-Conference player this season, but it isn't something he often thinks about.

"It would be a nice honor - especially being selected by the coaches in the league," he said. "It's not something, though, that I'm going to worry about. I'll just keep playing the best I can and let the rest take care of itself."

## Kuhn leads Oakton Running Raiders

The Running Raiders recently competed in a six team college Track and Field Meet at the College of DuPage in Glen Ellyn. Dan Kuhn, a recent transfer from the College of Lake County, won the 1000 Meter Event with a very respectable time of 2:39.7. Kuhn led from start to finish and held off a challenge by Illinois Benedictine and College of DuPage athletes. This was Kuhn's first individual college track meet win!

The Two Mile Relay broke the school record for the fourth week in a row but lost a very close race

to the foursome from Wheaton College. Running on the relay were Tony Paul, Dan Kuhn, Kevin Kingston and Tony Vodicka. Don Hennessy placed fourth in the 55 Meter High Hurdles while Tony Paul placed fourth in the 800 Meters.

Tony Vodicka led a slow paced race in the Two Mile Run and then was outkicked in the last 400 meters, to place second overall. Savage, Track Coach at Oakton, excused Vodicka's race strategy to the carelessness of being a college freshman!

### Capparelli seeks owners of unclaimed assets

State Rep. Ralph C. Capparelli (D-13th) is trying to locate constituents who may have funds which they have forgotten.

He is working with the Illinois Department of Financial Institutions in a cooperative effort to find owners of unclaimed assets.

"Many area residents have at least \$100 of assets waiting to be claimed," Capparelli said.

"These unclaimed assets generally consist of checking or savings accounts, dividends, uncashed payroll checks and safe deposit box contents, although they could consist of nearly any unclaimed financial asset," he said.

After assets have been abandoned or inactive for seven years, the holder of that property must

attempt to locate the owner. If the effort fails, the assets are turned over to the State. The State then holds the assets indefinitely until they are claimed by the owner or heirs of the estate.

"We are attempting to rejoin the owner with his or her last assets before the State takes custody. If you are on the following list, Write to the Department of Financial Institutions, 421 E. Capitol, Room 205, Springfield, IL 62706, include your name, address and county of residence and they will put you in touch with the holder of your property who will then provide you with the specific information about the amount or type of asset being held," Capparelli said.

### Bergquist: Let's set the record straight

Maine Township Assessor, Roy H. Bergquist who is seeking reelection as an Independent Candidate, stated today that it was time to set the record straight regarding his background and his past administration of the Assessors' Office.

In 1972 Bergquist stated, "I started my career in Township government as Collector, a non-salaried position. I served in this capacity until February 1981, when I was appointed to the position of Township Assessor after the death of the late James Parks." With that, Bergquist began assuming full duties and responsibilities of the Assessors' Office. "Back then, I believe the Assessors' salary was \$13,500," Bergquist added. "But I'm not sure," he explained, "because I never received anything near that amount. The Township Board suspended that salary for

most of my appointed term due to certain legal uncertainties." "I suspect," Bergquist added, "that it is a little known fact that I performed the full responsibilities of my office that first year, even while not being paid."

Throughout 1981, the law firm of Bergquist & Rossi, in which Bergquist is a partner, continued to serve, as they had since 1972, as Township Attorneys and as Attorneys to the Commissioner of Highways and Roads, Ed Koehler. For their services Bergquist stated that the firm had received a total retainer fee of \$400 per month.

"It was quite an active time," Bergquist recalled. "We were involved in numerous legal matters both for the Board and for the Commissioner."

However in December of 1981, in anticipation of assuming the office of Assessor as an elected official, Bergquist's law firm resigned as Township Attorneys to avoid any conflicts of interest. But, at the special request of Mr. Koehler, Bergquist's law firm continued to act as legal counsel for the Highway and Road Commissioner. "We worked for nothing," Bergquist pointed out, "because of our close personal relationship with Mr. Koehler. Our involvement ended when Mr. Koehler resigned in late 1983."

In January, 1985, Bergquist began his first full term as the elected Assessor. "But at a much lower salary," Bergquist noted.

"For whatever reason, the Township Board cut the Assessor's salary to \$9,600 from \$13,500 while increasing the salaries of all of the other Township officials. I don't know why that happened." "As for my administration," Bergquist stated "I can list the many services my office has provided over the past four years, and the many that have been expanded." "I understand my opponents call this office "a facade," but I believe the thousands of people we've assisted through this office would disagree.

Just as an example, Bergquist said, this office is the nearest liaison to the Cook County Assessors' Office. Our job is to provide professional help, to all Maine Township residents, on Real Estate Assessments, Tax Bills, Homeowner Exemptions, Assessment Complaints, Board of Appeals filings, State Circuit Breaker Aid and for those in need of the many other functions of this office. As Township Assessor, I personally appear at the County Assessors' Office 2 or 3 times every week performing the various services Maine Township residents request of our office," Bergquist said.

"I am proud of the services provided by the Maine Township Assessors' Office and pledge my continued personal effort and I will extend services to the fullest extent the law permits."

### TIP calls for dramatic tax reforms

James A. Mahoney, Jr., Township Improvement Party Candidate for Supervisor, today announced his plan for tax reforms for Maine Township residents. Mahoney stated that his first order of business after the April 2 election will be to "initiate a major tax-cut program for Maine Township taxpayers."

Mahoney stated that, "the basis of this tax cut will be the sale of the million dollar Township Hall on Ballard rd., the reduction of unnecessary paid Township staff employees and the elimination of extraordinary fringe benefits for elected officials."

Mahoney went on to denounce the current Maine Township Government for its 68% increase in taxes that they have collected over the past three years. He further stated that this exorbitant tax increase is both "ridiculous and unbearable for the average citizen and should be reduced and brought into line with the tax

rates of surrounding communities." Mahoney criticized the 68% tax increase as being both "a waste and misuse of tax money to glorify the Township officials with their extravagant Town Hall and large numbers of unnecessary Township patronage employees."

Mahoney also called for the elimination of the thousands of dollars paid for the insurance benefit package for elected officials. He stated that this is, "an abuse of power and an unusual practice not seen in surrounding communities and should be abolished." He pledged the elimination of tax money for the private phone bills of the Maine Township Officials and the payment of personal automobile expenses, which now goes on.

Mahoney concluded his remarks by stating that, "only by dramatic and immediate steps can tax reforms be accomplished in Maine Township."

### Dudycz on 3 Senate Committees

Freshman Senator Walter Dudycz, R-7, has been named to serve on three Senate committees during the 84th session of the Illinois General Assembly.

Senate Republican Leader James "Pete" Philip, R-23, has appointed Senator Dudycz to the committees of Appropriations, Judiciary and Elections.

"I am very pleased to have been appointed to these committees," said Senator Dudycz. "Each of these committees will play an important role during the upcoming legislative session. I feel my background will be an

asset to serving my district, and the rest of the state, on these committees."

Philip commented: "As a freshman legislator, I feel Senator Dudycz has a great deal to give to the Senate. The committee appointments I have made for him should be a good way to give Walter well-rounded exposure to the many facets of Illinois government."

Dudycz was elected to the Senate last November, unseating an incumbent Democrat in this Chicago district. He was sworn into office in January.

## New clinic at Swedish Covenant

A weekly breast clinic at the Family Practice Center of Swedish Covenant Hospital was announced by Walter J. Baba, M.D., chairman of the Department of Family Practice. The clinic will be open from 10 to 12 a.m. each Monday.

"Our desire is to provide this specialized service for our patients and for the community," said Miguel A. Oviedo, M.D., who will conduct the clinic with the assistance of the resident physicians from the Family Practice Center.

"When a patient comes to the clinic a complete history and a physical examination will be done, and if indicated a mammogram will be taken," said Dr. Oviedo, a general surgeon with a special interest in the treatment of breast disease and the early detection of breast cancer.

He emphasized that new techniques in administering mammograms, a special x-ray study of the breast, have reduced radiation exposure so that when properly utilized mammography offers no real threat of causing cancer. Indeed, if a malignancy is discovered, it is likely to be in its early stages and to be curable in a high percentage of cases.

"Our job is to treat not just cancer, but all breast diseases, such as fibrocystic growths or mastitis," he explained. He went on to say that nine out of ten biopsies taken are diagnosed as benign. Another function of the clinic, he said, is to teach patients the proper techniques of breast self-examination.

Dr. Oviedo said he hopes the clinic will be utilized by the community and cited the guidelines set forth by the American Cancer Society for

people who are at least 50 pounds over their recommended body weight.

According to one of the clinic directors, Stuart Oserman, M.D., the weight loss clinic is a comprehensive package with medical, educational, psychological and nutritional components. "A person cannot just come in and purchase Optifast without participating in the clinic," says Dr. Oserman. The clinic is based at the Nesset Health Center and will meet weekly.

Basic to Parkside's clinic is the product Optifast, a nutritionally balanced, high quality supplement. Participants subsist on an Optifast-only diet, drinking one of the four differently flavored products five times a day. The powdered substance is mixed with water or other liquids and contains 100 percent of the daily requirements for protein, vitamins, and minerals necessary for good health and well being during a modified fast. Weight loss averages a minimum of two pounds each week. This is not a program for fad dieters or for people who are trying to lose those last five pounds. It is for

mammography and breast examination: women 20 years of age and older - breast self examination monthly; 20-40 years, a physician breast examination every three years and an initial mammogram between ages of 35-40; 40-50 years of age, periodic mammography every year or two as determined by one's personal history and a doctor's recommendation, and an annual physician breast examination; over 50 years of age, annual mammography and an annual physician examination.

The Family Practice Center of Swedish Covenant Hospital is a facility designed to offer full-service medical care at a reasonable cost. Medicare assignment is accepted. Questions about the clinic or requests for appointments should be directed to 989-3806.

## Niles West Pops Dinner Concert

Feb. 14 may be some people's favorite date this month, but others prefer Feb. 23, the date of this year's Pops Dinner Concert at Niles West High School. It is a way to spend a relaxing evening with family and friends close to home, while helping the Music Parents Association raise funds for its activities on behalf of the students in the music program.

The delicious food being served continuously from 6:30 p.m. to 8 p.m., and the entertainment continuing until 9:30 p.m., as well as the atmosphere make this annual event a memorable one. And the low \$6.50 per person cost also makes it affordable.

The menu includes salad, spaghetti, Italian bread, dessert and beverage.

For the entertainment, the music students will play and sing their best. The vocal groups, under the direction of Sheri Owens, will perform a "Best of the Beach Boys" medley, "Body Electric" from "Fame" and other

favorites. William Koch will direct the jazz band, the concert band, and the symphonic band in a variety of music from pop to rock. And members of the concert orchestra, directed by Ted Kaitchuck, will do their best to round out the entertainment.

The dinner concert takes place in the Niles West-contest gymnasium, which for that one night becomes a romantic cafe, thanks to the planning and work of the Music Parents Association members. "We enjoy bringing this event to the community each year, because we've been told how much those who attend enjoy it, and it helps us to help the music department," said Carol Kellman, Music Parents Association vice president and the chairperson of the pops concert committee. The concert is the organization's major fundraiser of the year.

To make reservations, or for further information, please call 966-3800, ext. 1147.

The Board of Student Affairs at Oakton Community College has arranged for the celebrity robot, FUBAR D. ROBOT, to make an appearance at the February 19 Career and College Fair at OCC/Des Plaines, 1600 E. Golf rd. FUBAR (Futuristic Uranium Bio Atomic Robot) has appeared on such television shows as "Good Morning America," "Silver Spoons" and "Merv Griffin Show" in addition to having been featured in US Magazine and Playboy Magazine.

During his visit to OCC, FUBAR will help direct Career and College Fair visitors to areas of interest. The Fair is scheduled from 6 to 9 p.m. Admission is free.

Persons attending the Fair will be able to visit Oakton's state-of-the-art data processing facilities, in addition to laboratories in areas such as automotive technology, word processing, radiological technology, physical therapy, nursing, science and building energy systems technology.

In celebration of School Nurse Day last Wednesday, the South School faculty and staff in School District 71 pooled their resources to honor their school nurse, Mrs. Rosemary Pattison. All classes, grades K through 4 joined in the surprise celebration for Mrs. Pattison. A singing clown from Ballons "N More in Arlington Heights was hired to perform for Mrs. Pattison in the all-purpose room. The clown presented Mrs. Pattison with a certificate, card and a huge bouquet of balloons. The children, staff and faculty joined the clown in singing tributes to Mrs. Pattison.

Cost to attend the Ramble is \$250 per couple and includes cocktails and hors d'oeuvres, a four-course gourmet dinner served by D'Masti Custom Caterers, an opportunity to bid on all items in the Silent and Oral Auctions, and a midnight breakfast served at the close of the festivities.

Eleven Niles West High School seniors were inducted into the school chapter of the National Honor Society Jan. 11. They have become eligible for the honor since last spring when other members of their class were inducted either by bringing their grade point averages into the required top 15% range or by earning more or different teacher recommendations. Typically, they would have been inducted this spring with the current juniors. "But, we wanted the seniors to be contributing mem-

bers of the Society, and they can't participate when they're not inducted until the end of their senior year," explains Jack Lorenz, the administrator in charge of the program. "Also, Honor Society membership is a nice addition to their transcripts." The seniors inducted are Constantine Atsaves, Soja Anthony, Dennis Bains, Sheryl Ferdman, Robert Gershbein, Anna Karalis, Bonnie Kim, Jiann Kim, Rachele Krakow, Jana Margolin, and Melvin Speisman.

Residents and Abt Appliance representatives attempted to iron out the parking problems there.

I believe it was either Fran Romano or Florence Jazinski who told Bobby Abt his business has "exploded" in recent years resulting in the parking problems there.

Despite some fairly harsh rhetoric we thought everyone was quite conciliatory. The residents weren't bouncing off the wall with "Hey, you're a cur" dialogue and Abt people were amenable to solving the obvious problem.

We've always been conscious of the need to support the business community which is an important part of any village. Abt's noting his business generates \$250,000 annually to Niles is a fact to be considered. But the other side of the coin cannot be forgotten. Many businessmen take the money and run. They make their buck here, live outside the area and spend the money they've made here somewhere else.

Contrast the businessman to the homeowner who has the burden created by the business. The homeowner has spent a lifetime working for money he puts in his home. Not only does he invest much of his savings in his home but he invests 24 hours a day in his home community. He invests his children's early lives in the community. And the homeowner invests much effort in working in the schools, churches, scouts and civic groups which creates a positive atmosphere for businesses.

The attorney for Abt said

### Hazardous material...

In Niles each day. The Niles water pumping station, the two park pools, the YMCA, and a large pool distributor and many home pools represent a further chlorine hazard. The Niles Fire Department presently owns two encapsulated acid suits for this purpose, but various other protective clothing would be needed for the ever-growing stock of dangerous materials.

Chief Kinowski said that it will take almost three years to complete the training and put the equipment in place. Several department members have already started initial training programs. The training program consists of three levels: the first responder, to identify and control the hazard; the Command Responder, to develop the necessary strategies and tactics; and the Response Team itself to develop the skills and usage of the specialized equipment to handle rescue, containment, extinguishment, decontamination and environment protection.

Saturday afternoon we dropped over to the Trident Center where the local League of Women Voters hosted a meeting on public access cable television.

After the discussion by local cable people MG-Niles League members showed their prize-winning video tape titled, "Grandma Was A Suffragette". The ladies won first prize for public access production in the Chicago area.

Local League members who took part in the taping are Barbara Blonz, Joan Goldberg, Eileen Hirschfeld, Marilyn Kramer, Sue Kravis, Monalu Meyers and Karol Verson.

It was a very professional production and we were proud of the recognition the local ladies received. The 30 minute video took about three months to produce.

The story is a drama of the American woman's fight to gain the right to vote beginning with a plea from the letters of Abigail Adams and ending with formation of the League following successful passage of the 19th amendment in 1920.

### Abt... Continued from Page 3

Residents at the meeting asked Abt why he hadn't "done something before" regarding the parking problem. Residents complained trucks block Oketo St. preventing residents exiting from Oketo and neighbors said they have been blocked in their driveways unable to exit onto Oketo St.

Other complaints from neighbors include employee and customer parking on Oketo and Carol Sts.

Niles trustee Carol Panek complained of the hazard at the corner of Oketo and Dempster where the snow is piled so high a car driver cannot see into Dempster St.

Other complaints included semi-trailer trucks parking on the median strip on Dempster St. impairing the traffic there.

Abt said "you people are asking us to ruin our business" and threatened several times to move from Niles. In a previous correspondence with the village Abt reminded Niles his business contributes \$250,000 to the Village in sales tax and real estate tax money.

In Nov. 17, 1983 a letter to Mayor Blase, David Abt wrote the next door Struebing property was in the final process of being bought and Abt trucks would be parked there and the buildings would be used for storage. Saturday, Mr. Abt said buildings would be demolished.

### Old Orchard Merchants install officers

Sue Slider, manager of Marshall Fields was installed as president of the Old Orchard Merchants Association at its annual meeting held in January at the North Shore Hilton in Skokie.

Other officers for the 1985 year are Laura Taylor, Totes, vice-president; Jill Galea of Lord & Taylor, secretary; and Jim Kline, Crystal Suite, treasurer.

Installed as directors of the association are Nancy Andretch, Charles A. Stevens; Helen DeWitt of UIDC Management, Inc.; Mitchell Feldman, UIDC Management, Inc.; Tim Galda of Ben Franklin Savings; Robin Silver, Whitehall Jewelers; Michael Solzman of Saks Fifth Avenue and Laura Tomkins of Benetton.

Among the attending guests enjoying the festive evening were officials of Skokie including Mayor Albert Smith, Village Manager, Robert Eppley; Marlene Williams, Village Clerk; Chamber of Commerce Manager, Karl Schmidt and Mrs. Max Schmidt; Police Chief, William Miller and Mrs. Carol Miller; and Fire Chief, Thomas Quillin and Mrs. Cindy Quillin. Newly elected president of the Skokie Chamber of Commerce, Michael Gotkin and Mrs. Diana Gotkin were also in attendance.

knocked down and the entire area would be used for parking.

Dan Jasinski, 8728 Oketo, asked his neighbors to give Abt six months time to solve this problem. He said since the trucks will now be parked at Milwaukee Ave., Abt guarantees additional parking will be created within six months on the Struebing property and employees will park elsewhere, Abt should be given time to resolve the problem.

Niles building code states one parking space shall be provided for each 500 square feet of floor area. Abt has approximately 4,800 square feet. About 10 parking spaces are provided in the rear of the store. Under the warehouse and storage building section one parking space shall be provided for each two employees plus one space for each vehicle used in the conduct of the enterprise. Abt has 60 full-time and part-time employees.

Joe Salerno, head of Niles code enforcement, said Abt came into Niles when the code read one parking space for each 2,000 square feet. Salerno said there was a misprint in the code and it should have read one parking space for 200 feet. However, under the newer code, passed in 1973, retail stores are supposed to have one parking space for each 200 square feet of store space and appliance stores have one parking space for 500 square feet.

### Maine Township fights welfare fraud

The Maine Township Board is fighting back in two suspected cases of welfare fraud. Last month the board initiated legal proceedings against a general assistance recipient who allegedly collected \$2,355 in township welfare funds at the same time he was collecting unemployment compensation.

### Niles Library...

Cont'd from Niles-E. Maine P.1 place on any day Monday thru Thursday, the library will be open from 5 p.m. to 10 p.m. Should the move take place on a Friday, the library will be closed. The library will observe regular hours of 9-5 on Saturday and 1-5 on Sunday should the move stretch across a weekend. The move is expected to take three to four days.

The special hours of 5 p.m. to 10 p.m. represent an hour past the library's regular closing hour of 9 p.m. "With students needing to complete their school assignments, we wanted to assist them as much as possible. Knowing that we would have to be closed during the day should the move take place during the week, we are scheduling the library for an additional hour in the evening," said Pestine.

The township board also is considering a proposal to place liens on the homes of general assistance recipients who have been on the rolls more than six months. The liens would enable the township to recover aid payments made after the first six months of relief if the client's home is sold.

Halverson said townships throughout the state are adopting this practice.

### Cablevision...

Cont'd from Niles-E. Maine P.1 Cablevision representatives filed the statement and receipt with the county and by-passed the township officials.

The electoral board agreed with township officials that the TIP candidates had then incorrectly filed for positions on the April ballot and were not qualified to run during the April election except as write-in candidates.

By bringing the issue to the Circuit Court, TIP candidates hope the court will reinterpret the law regarding filing the statement of economic interest and allow their candidates to have their names on the April ballot.

### Oakton...

Continued from Page 1 south of which the construction is to take place, as their informal meeting area.

Also being considered is the development of the east wing's basement into a 9,700 square foot conference center. At a cost of \$250,000, the facility would accommodate nearly 250 people. Both construction projects are to be further considered in future board committee meetings.

In other business, the board approved a new academic organization plan for the college, replacing the interdisciplinary cluster system developed by the college's founding president William A. Koehnline. The college's new divisions are: Science/Allied Health, Communications, Humanities/Math/Technology, and Social Sciences/Business, with a Special Services Division to oversee the Skokie campus.

Replacing the sole dissenting vote, Trustee Ralph Goren called the new organization "a change for the sake of change" which would do nothing to enhance the quality of education while depriving Oakton of its uniqueness.

derneath that, we could go out and re-issue bonds without going to referendum to do repairs," said Park Director Dave Huber. "It's the first time the Park District's been in a position to do this in ten years."

In other business, the Morton Grove Park Board discussed plans to possibly install a new filtering system for the pool.

The filtering system discussed is an electronic chemical analyzer, a square device that, through an electronic sensor, reads the chemical content of the water and automatically feeds disinfectant chlorine into the swimming pool.

Explaining the filtering system to the board, Jack Barclay of Barclay and Assoc., Architects, said, "The electronic chemical analyzer saves water. By saving water you will also retain the heat since you won't have to replace the outgoing water with cold water."

Barclay's firm, which has previously done work for the Morton Grove Park District, would work on the proposed project.

The Park Board which has been writing up specifications for the projects will meet again tonight at 7:30 p.m.

there by the end of March. Ferri said Continental has been giving classes at its Elmhurst studio for some time and will soon begin lessons at a Morton Grove studio.

Other officials present at the meeting were Niles trustees Carol Panek and Angelo Marcheschi and Morton Grove trustee Art Snyder.

Snyder told the audience that Morton Grove has appropriated funds to be granted for public access programming.

A highlight of the meeting was the first public showing of the League's prize-winning public access production, "Grandma Was A Suffragette."

In this first lengthy public access production by League members, they had guidance from Ferri and a Continental assistant, Patti Hiller.

Several League members had taken Continental's series of classes on public access production as part of a study on cable television.

Testing their abilities, they entered a contest sponsored by Women In Cable, open for the first time to public access users and having the theme, "Made In America."

From entries throughout the Chicago area, League members won first prize of \$150 in the public access category.

Village holiday hours Niles Village Clerk, Frank C.
