From the Left Hand

by Bud Besser
End O'April Buglebits:
Artistic Trophies' Don Meseth told us some months back about the many drownings which have taken place at Beck Lake. Don, who is a member of a Des Plaines Emergency Unit, said the island in the center of the lake tempts swimmers to swim out to it. Unfortunately, several swimmers failed to make it. Recently, we spoke to Sanitary District Commissioner, Aurelia Pucinski, seeking help from the Cook County Board of Commissioners. She sent us a letter Tuesday confirming she was pursuing the matter with County Commissioner Jeanne Quinn.
In a second matter Niles park director Bill Hughes told us a couple of weeks ago the long-awaited dredging of the river alongside TAM golf course had not yet materialized. Bill said it was okay to mention the matter to the Sanitary Commissioner. She promised us she would pursue this matter with the U.S. Corps of Engineers.

Mr. President, Board of Trustees, to all employees and the people of Niles:
I leave public life with no regrets. I lost an election and I am a much wiser politician because of it.

I wish to thank all who supported me in so many ways.

To the 205 employees, of which a strong bond has been forged, I am truly sorry to leave you.

Ralph Nader to kick-off CUB campaign

Marshalling their forces on the eve of a major legislative battle for utility reform, the Citizens Utility Board (CUB) will hold its first annual meeting Sunday, April 28, with consumer advocate Ralph Nader as its keynote speaker.

CUB members as well as the general public are invited to attend the meeting and rally, which begins at noon at the new State of Illinois Center, 100 W. Randolph, Chicago.

"We like to invite every Illinois utility consumer to help us celebrate CUB's first birthday with a bang," said Howard Learner, President of the 80,000-member group. "Consumers from across the state are eager to hear Ralph Nader, who pioneered the CUB concept," according to CUB Vice-President Mike Boland, of East Moline.

The meeting will mark the official kick-off of CUB's grassroots campaign for passage of the Consumers Utility Bill of Rights, designed to save Illinois consumers over a billion dollars in the next three years.

The CUB legislative package would also simplify and standardize utility bills and reform the structure of rate-setting hearings in order to give consumers greater representation.

Admission to CUB's annual meeting is free.

Further information about the meeting and the Consumers Utility Bill of Rights can be obtained by contacting CUB headquarters: 59 E. Van Buren, No. 801, Chicago, IL 60605, 1 (800) 922-2822.

Only six high schools to be visited in Illinois

Maine East advances in Recognition Program

Maine Township High School East has advanced to the second plateau in the National Secondary School Recognition Program competition. A.K.H. Cochrane, principal, received notification of honor from the Department of Education, Washington D.C., this month.

According to A.K.H. Cochrane, Maine East principal, there are scores of factors at work at Maine East which have led to this honor. "In my view, of particular significance, however, is the fact that over the last several years, the school has tried to respond to a number of challenges," he said.

Declining enrollment in District 207 has had an effect on Maine East. "When the board of education decided to close Maine North in 1981, 70 percent of that school's student body came to East," said Cochrane. "Seventy new teachers - primarily from North - joined the faculty. Several steps were taken to make this time of transition as smooth as possible."

According to Cochrane, clubs had dual sets of officers; teachers had "big brothers"; new communication channels were established to allow people to discuss their concerns and find solutions to their problems. "The administrators' 'open door policy' as well as 'buzz sessions' for all employee groups and students have now become routine parts of the school's day-to-day operation. They serve as vehicles to keep the climate of the school open and relaxed," Cochrane said.

Maine East has also responded to the nationwide call for instructional quality and achievement, according to Cochrane. The school's Pride and Recognition Committee (PAR) has developed several reward and incentive programs for acknowledging student accomplishment and also recognizing quality employee performance. They include the Student of the Month Award, Salute to Excellence, the academic "Wall of Fame," employee recognition days, and a faculty newsletter among others.

In addition, the board of education approved a discipline code three years ago which was designed to put the emphasis on students' responsibility for their actions, close cooperation between home and school, regular attendance, and respect for others. "The code was predicated on the belief that learning and accomplishment only occur in an orderly environment," said Cochrane.

"We believe that these efforts have enhanced the desire of both

Small Business Week to honor small entrepreneurs

The nation's 14.2 million small businesses, which have led the economic recovery and expansion, will be honored during National Small Business Week, May 5-11.

Under the theme, "Small Business: America at Work," contributions of small business owners will be noted at local state ceremonies and at special activities in Washington, D.C.

Singled out for special honors will be small business men and women chosen by their peers as outstanding examples of success, advocacy and community leadership. These highly successful entrepreneurs will represent each state, the District of Columbia and Puerto Rico. From among them will be chosen the "small business person of the year."

The state winners, and the national winner, will be honored during Small Business Week at Washington, D.C. events coordinated by the U.S. Small Business Administration (SBA). Also to be honored in Washington will be men and women chosen for distinguished service as small business advocates.

National Small Business Week has been held annually for the last 21 years.

Studies by the SBA show that from October 1982 through October 1984 employment in industries dominated by small firms rose 11.4 percent, compared to a 5.3 percent job growth in industries dominated by large corporations.

SBA studies also show that

small firms proved a moderating force during the 1981-82 recession; during that period, small businesses produced a total of 2.65 million jobs, while large businesses were cutting employment by 1.7 million. Thus all the 984,000 new jobs generated in 1981-82 came from small businesses.

NICOR reports first quarter net income

NICOR Inc. today reported first quarter net income of \$50.0 million, or \$1.71 per share, compared with \$38.9 million, or \$1.36 per share, in the corresponding 1984 period. A twelve-month-ended loss of \$171.2 million, or \$3.57 per share, reflects \$236.9 million in after-tax asset write downs in the fourth quarter 1984. Excluding these write-downs, the twelve-month net income and earnings per share were \$65.7 million and \$2.16 per share compared with last year's \$54.3 million and \$1.79 per share.

Chairman C. J. Gauthier attributed the first quarter increase to higher gas distribution income and lower depreciation and depletion charges in the oil and gas and contract drilling segments following the 1984 year-end nonutility asset write-downs.

Taking the mystery out of money
One in a continuing series

What's the best way to finance your home?

Fixed rate mortgages... adjustable rate mortgages... what is the best deal for you? Here are some guidelines to help make your dream home a reality for your family.

If you like knowing that your monthly payments will not increase over the years, consider a fixed rate loan. You'll pay a higher rate than with an adjustable rate mortgage, but you will know ahead of time how much you will pay over the entire life of your mortgage.

Many people automatically think first of a 30-year fixed rate mortgage. But you can usually get a lower rate on a 15-year mortgage, and there are other advantages.

For monthly payments that are only a little larger than with a 30-year mortgage, you own your home free and clear 15 years sooner, and you may be surprised to see how very much money you can save. It's substantial.

If you want to start out with a lower interest rate, with lower, more affordable initial monthly payments, then consider an adjustable rate mortgage. It can be a big help to younger families who expect their incomes to increase as their payments increase.

If you expect interest rates to go up a lot, you are probably better off with a fixed rate mortgage. However, if interest rates go down or stay the same,

an adjustable rate mortgage is probably better for you. This depends, of course, on whether your income actually increases as your adjustable mortgage rate increases, and on the kind of adjustable rate mortgage you choose.

You will find many kinds of adjustable rate mortgages on the market. These are some points to consider.

Is the adjustable rate mortgage convertible? Can you switch to a fixed rate, if interest goes up?

Is it assumable? It will be easier for you to sell your home later on, if the buyer can simply assume the mortgage. This can be important if you are transferred or outgrow your home.

What index will be the basis for increases in your rate and monthly payments? An index that is especially advantageous to you is the Federal Home Loan Bank's cost-of-funds index. It moves in gentle curves, without the more pronounced ups and downs of many other indexes that are used to determine rate changes.

Is there a cap on the short-term increase of your rate and monthly payments? A ceiling on the maximum interest rate that can be charged over the entire life of the loan? This can protect you from very sudden, steep increases in interest rates.

What is the highest rate you might have to pay, under the worst circumstances?

What is the actual cost of the adjustable rate mortgage? Often, you can get low rates by paying a number of points. This means you should compare the actual dollars required for upfront payments.

If you are considering one mortgage that requires four points and has better terms than a mortgage that calls for one point, you should understand that you are paying quite a bit for those better terms.

How does this cost compare to a fixed rate mortgage? The interest rate should be at least 1% less expensive if you are getting a really good deal.

We present this information to help you in your decision-making, and we add this good news.

Home buyers are welcome here. Norwood has in excess of \$15 million dollars ready now for mortgage lending, at competitive rates. Our primary purpose is to foster home ownership, and we invite you to let us help you own the home you want.

Cragin accepts record mortgage loan application

Breaking all previous records, Cragin Federal S&L's five Regional Lending Centers accepted a staggering 422 mortgage loan applications worth over \$30 million in March.

"Many of the applicants chose our 30-year fixed-rate loan which was offered for 12.5%," said Richard Jahns, Cragin Federal's First Vice President of Lending. Although this rate has since increased to 13.25%, customers receive the rate effective at the time of their application.

Loan officers at all Lending Centers—in Chicago, Mt. Prospect, Itasca, Schaumburg, and Wheaton—spend about 45 minutes with each applicant, explaining Cragin's loan options and completing applications.

Jahns praised the "experienced and industrious loan staff which handled the increased volume in stride." Mortgage demand shows no sign of diminishing either, since spring

New Illinois ruling helps job seekers 62 or over

An important way Illinois decides on who is eligible for free job training and job search help under the Job Training Partnership Act (JTPA) opens up earning opportunities for those who are now receiving Social Security retirement benefits.

This new State of Illinois regulation disregards Social Security income when determining eligibility for JTPA programs. In effect, this will permit many job-seekers 62 or older to take advantage of government funded job-search programs.

Those workers who want employment and who want to see if they qualify for free (JTPA) job-search assistance should contact Operation ABLE, North Subur-

ban Cook County residents should call Barbara Ganan in Evanston, 864-3070, or Hortense Nelson in Mt. Prospect, 253-9680.

ABLE can help Social Security recipients find jobs in which they will not lose any of their retirement benefits.

Operation ABLE is a not-for-profit agency dedicated to providing job finding help to the mature worker 50 and over. Job counseling, skills assessment and training are part of this free service that is offered to unemployed or underemployed applicants. Also included are programs such as job clubs, support groups, and short term classroom training to teach new work skills to eligible applicants;

an applicant may upgrade job skills such as typing or word-processing or learn new career skills and obtain certification credentials for jobs such as security guard.

Job Club is offered to those older job seekers who have employment skills but need help and support in finding work. Job Club is a group that meets with a counselor up to four times a week to learn how to look for a job, prepare a resume, complete applications, and find job leads.

Operation ABLE is a not-for-profit agency dedicated to providing job finding help to the mature worker. Under the guidance of Executive Director Shirley Brussell, ABLE works with 50 community based placement organizations. Last year, ABLE and its network of agencies helped 5,000 applicants find full-time, part-time, and temporary employment.

St. Paul Federal offers new Certificate IRA

St. Paul Federal Bank For Savings has introduced a Zero Coupon Certificate. These certificates, similar to zero coupon bonds, are purchased at a discount well below face value, with a minimum deposit of \$250.

According to Thomas J. Rinella, senior vice president, Zero Coupon Certificates, which are FSLIC insured to \$100,000, are a protection against volatile interest rates because the purchaser is guaranteed face value at maturity.

He emphasizes that Zero Coupon Certificates should be particularly attractive to those persons who have not yet made their 1984 IRA contribution. Taxpayers have until the date they file their 1984 income tax return, but no later than April 15, to do so.

"A customer who combines his or her 1984 and 1985 IRA contributions can buy a \$100,000, 30-year Zero Coupon Certificate for \$4,000," he says.

Zero Coupon Certificates purchased for \$2,000 will have a face value of \$4,000, or twice the initial deposit, in about seven years; \$6,000, or three times the initial deposit in approximately ten years; \$10,000, or five times the initial deposit in about 15 years; \$20,000, or ten times the initial deposit in approximately 22 years; and \$50,000, or 25 times the initial deposit in about 30 years.

The Zero Coupon Certificate incorporates a redemption schedule providing an option to redeem the certificate prior to maturity.

Low interest mortgage applicants

The Illinois Housing Development Authority Affordable Mortgage Program made money available for qualified home purchases through 77 financial institutions throughout the state of Illinois.

Applications from over 400 potential home buyers were filed for the lottery-type drawing of the \$750,000 offered at the First National Bank of Skokie. This mortgage money, at a fixed rate of 10.78 percent, will be used by qualified first time home buyers to purchase single family houses or townhouses. There are restrictions as to location and income of the buyer that make the benefits fairly selective.

Shown above (l-r): Al Rigoni, Assistant Village Manager; Edward T. Borus, FNBS senior vice president; Norm Solomon Jr. and Jeanette Porter, assistant vice presidents hold the box of IHDA applications from which Al Rigoni drew the name of the first time home buyers who will share in the \$750,000 of 10.78 percent interest mortgage money made available through the First National Bank of Skokie.

Avenue Bank Northwest holds grand opening

Avenue Bank Northwest, Dempster at Greenwood, Niles, celebrated their Grand Opening as Avenue Bank Northwest on Friday & Saturday, March 29 and 30.

The Grand Opening included a drawing for a free 25" Color TV plus balloons and surprises both days. We introduced our new and innovative account called the Avenue Bank Master Account. This account has unlimited check writing, accidental death insurance, pays interest rates up to 10% and much, much more. It is truly the only bank account you will ever need. The bank has been completely remodeled and now presents a pleasant atmosphere in which to conduct both business and personal banking.

*In reviewing 1984, we experienced a year of significant progress and change for Avenue Bank Northwest. On Aug. 31, 1984, a change of ownership occurred and we became part of the

Avenue Bank Group. This affiliation with four other very strong and profitable Chicago area banks allows us to offer improved services and a combined lending limit of over 3 million dollars. Together we are over \$275,000,000 strong. On Dec. 1, 1984 we officially changed our name from Dempster Plaza State Bank to Avenue Bank Northwest. We realized an increase in both our asset size and our earnings in 1984. Year-end assets increased to \$27,338,780, an increase of 5% from 1983 assets of \$25,950,551. A steady growth in assets is envisioned as we continue to expand our capabilities to employ funds profitably.

Net income rose dramatically to \$207,775, an increase of 77% over the 1983 figure of \$117,256. Increased loan demand, better funds management and more effective control of expenses are the major reasons behind the improved earnings performance.

\$40 million real estate career

Joseph M. Des Parte just recently was honored and presented with a beautiful desk set in celebration of his forty million dollar real estate career.

"JD", as he is called by his fellow associates, was born in Chicago and began his "selling" career with his father who immigrated to this country from Palermo, Italy. In 1934, JD joined the Chicago Motor Coach and remained with them until 1971. However, back in 1954, Des Parte decided that perhaps "sales" is where he wanted to be, so he slowly, on a part time basis, sought a career in Real Estate sales.

In 1971, when he decided to be in real estate on a full time basis, he chose to come with ERA Callero & Catino Realtors. "We feel quite fortunate that Joe chose to come with our firm. Men of his integrity, ability and expertise are certainly an asset to any corporation, and Joe certainly is an important cog in the wheel of our organization," said W.C. Walters, President of ERA Callero & Catino Realtors.

"While I have enjoyed my

Joseph M. Des Parte

career with the Chicago Motor Coach, owning race horses, travel, bowling and golf, I have to admit that real estate sales has always been my favorite," said Des Parte.

Married to his lovely wife Betty for a short 51 years, Joe resides in Prospect Heights, Illinois.

Chapter 1 celebrates 20th anniversary

East Maine Public Schools, District 63, is celebrating the twentieth anniversary of Chapter 1 with a series of events this spring. The Chapter 1 remedial reading program operates at Stevenson School, 9000 Capitol Dr., Des Plaines, and Mark Twain School, 9401 Hamlin, Des Plaines.

April 11 marked the twentieth anniversary of the signing into law of the Elementary and Secondary Education Act of 1965. Title I, now Chapter 1, was one of the programs which came into existence at that time. Throughout these twenty years, the primary intent has remained the same - to expand and improve educational programs to meet the special education needs of economically and/or educationally disadvantaged children.

During March, parents were able to see their children participating in actual Chapter 1 classes on Class Visitation Days. They observed what reading skills their children were learning and what materials and methods are used to teach reading.

"The Learning Team," a new parent booklet is the focus of the May 3 parent advisory council meetings at the two schools. At these meetings, parents and staff will also discuss the accomplishments of the Chapter 1 program.

"Summertime Activities," a calendar of fun reading and writing activities will be featured at the May 17 district parent advisory council meeting.

cluded us on his newly-formed Industrial Council. At our first meeting last month Niles Director of Code Enforcement, Joe Salerno, reviewed building and zoning problems which the village has been confronted with.

Salerno noted in 1937 Niles original zoning code had no parking requirements for residential, commercial or industrial areas. Not until January 10, 1961 did Niles create a new comprehensive zoning code which included parking requirements for the first time.

Joe cited the dilemmas which were created. He said if an owner had a warehouse, he was required to have one parking space for each 2,000 square feet of building area, or five parking spaces for a warehouse building. If it was changed to a manufacturing building, the requirement became one parking space for each 750 square feet of manufacturing building area or about 13 parking spaces for the 10,000 square foot manufacturing building. But, if the landowner had no room for parking expansion, the dilemma was created. Should the village force the firm to move out of town or should it try to accommodate the manufacturer?

Salerno noted parking changes were made again in May, 1973 in the revised code.

The Salerno presentation was well-received and it is expected future village department representatives will be appearing before the Council.

A member of the Illinois Transportation Department also told Council members about the state money available for training programs and supplemental money for businesses which are creating new jobs in Illinois.

systems and the Stevenson school parking lot.

Final approval of costs could not be made for several reasons. Board members did not receive notice of work necessary on the parking lot and sewers until Tuesday's meeting; playground materials such as bark, gravel, or rubber matting were not decided upon and test samples for asbestos had not been completed.

Board members also approved payment of 10.25 per cent of the work's total cost to the architect for the life-safety repairs, Ray Green & Assoc., Evanston.

Green, present at the meeting, recommended that board members not begin asbestos abatement this summer because of the short time remaining after bids are awarded, probably in July.

He said other projects can be completed in the "narrow window" of time during this summer. Green was directed to discuss projects with the administration and return to the next meeting with recommendations for work to be done during this coming summer.

For a report on a science program instituted last year, administrators of five District

The entire program was enlightening and was well received by everyone present.

An addendum to the Chamber Industrial Council story might include the remarkable progress Niles Chamber of Commerce has made since Curt Hockett has been director. There are now about 300 members, an increase of approximately 85 memberships over the previous year.

In addition to its size, Niles Chamber of Commerce is likely the most professionally-run/organized Chamber in the area.

While we are not one of the world's great joiners, we also serve on the Family Counseling Service of Evanston and Skokie Valley which is based in Evanston. Our personal contribution is negligible but we've been most impressed with the number of social services which are available to the public. Working with seniors and people in need of help is most commendable and those who serve, particularly the professionals, deserve commendation from all of us.

There has to be one bad guy before we wrap-up this column. This week's award should go to the Maine Township officials who turned down Elaine Heinen and her M-NASR group which is seeking funds to replace a van used for the handicapped. The van was destroyed in an accident recently and Elaine was promised \$5,000 from the village of Niles and a likely \$3,000 from Niles Township. Combined with expected insurance company funds, the new van will be available for the M-NASR programs. But the bad guys in Maine Township turned down Elaine because they have a policy of not contributing to any other taxing body.

Art Show...

Cont'd from Skokie-L'wood P.1 general public (n April 28, at 1 p.m.)

According to Tom Giles, a Niles North administrator coordinating the exhibit, "The Show will bring together the finest artists and their best endeavors. In our eyes, the 40 pieces selected from each school constitute a true conference championship," he adds. The exhibit will hang in North's west cafeteria.

The special reception for parents, students and the public will begin at 1 p.m. on Sunday, April 28. At 2 p.m., Certificates of Recognition will be presented to board members of participating schools. Niles North strings will provide background music.

Rape...

Continued from Page 1

The victim told police he repeatedly spoke to her in Spanish and, after approaching her, began hitting her in the face and tried pulling her into a back office.

The Niles woman, who is pregnant, repeatedly stabbed Canales with a letter opener before he fled.

Niles Police Officer Robert Hanna arrested Canales within a few blocks of the area after getting a description of him.

Reports indicated Canales had looked in and entered other Oakton St. shops prior to assaulting the Niles woman.

After being apprehended Canales was identified by the Niles woman as the man who had attacked her.

At the Niles Police Department Canales was charged with attempted criminal sexual assault, attempted robbery, aggravated battery and unlawful use of a weapon.

He will appear in court on April 28.

He is being held in Cook County Jail after a judge increased Canales bond from \$100,000 to \$400,000.

If convicted, Canales could face sentences of three to seven years on each count.

This has had the sponsorship of Senate President Senator Philip Rook, Sangamon State University, Women In Politics, the Eagleton Institute and Rutgers University.

So I don't delay board proceedings any further I would like to wish good luck to Louella Preston as the second woman to be elected to the board.

And now I'll bid you adieu, shalom and so long for now.

MG awards...

Continued from MG P.1

Among the criteria for selection are landscaping, architectural impact, and the attractiveness of the signs used.

Nominations for awards will be made by the appearance commission, village administration, the Morton Grove Garden Club and Chamber of Commerce, said Brim.

In other business...the board approved an ordinance granting the village's fire and police board greater power and flexibility in handling discipline problems among their departments' staff.

In introducing the measure, Village Attorney Marty Ashman said the ordinance will allow a reduction in pay or rank as a possible disciplinary move, instead of a 30 day suspension or firing, as provided by current state law.

Niles budget...

Cont'd from Niles-E. Maine P.1

The Village Board automatically approved the signing of a lease to take over the vacant Cook County Sheriff's building on Milwaukee Ave. near Ballard Rd. The 99 year lease call for Niles to pay \$1 per year to occupy it.

Niles Historical Society members will occupy the three story building using rooms for meeting and others for displays.

The Village Board unanimously approved the purchase of a new automatic locator system which would show police dispatchers exactly where all patrolling squad cars are at any time.

Niles Fire Department's 1985-86 appropriation is \$1,802,500 which includes a \$148,000 increase over last year.

Additional money will be used for maintenance on fire department vehicles.

The public works budget is \$4,616,325; the largest allocation of any village department.

While this represents a \$1.1 million increase over last year, this money will be spent on the costly partial re-roofing of the court chambers and police department as well as the purchasing and installation of a new turbine water meter which can handle a larger volume of water for village residents.

Other appropriations included: General Government at \$585,480; Finance Department at \$2,464,620; Code Enforcement at \$288,275; Family Services at \$247,800 and the Senior Citizen Fund at \$129,000.

In other business, Niles Village Clerk Frank Wagner swore in reelected trustees Abe Selman and Pete Pesole as well as Village President Nicholas Blase.

Also, newly elected trustee Louella Preston took the trustee's oath.

Outgoing trustee Carol Panek, who was defeated as an independent candidate during the April election, gave a short farewell speech thanking the other trustees, village employees and residents of Niles. Mrs. Panek served as trustee for ten years.

The Village Board unanimously approved an ordinance requiring nursing home operators in Niles to report any physical or mental abuse suffered by a resident to the police.

This follows two recent incidents in which Niles nursing home employees were charged with criminal sexual abuse after molesting residents. In both incidents, because of delays by the nursing home administrators in reporting these crimes to police, detectives were unable to collect important physical evidence which would add weight to the prosecution of the employees.

Niles new ordinance calls for the suspension or revocation of the operating licenses of a nursing home which does not immediately report to Niles Police a molestation or other criminal acts inflicted upon a resident.

MG Park...

Continued from MG P.1

According to Swann, means "if changes are needed for our software, chances are another park district will need changes, which means we both share the cost."

As for the current computer system, Swann feels it is undependable. "For one thing, half of the system is manual which means it takes a long time to hunt for information. The present system is also inflexible. Recently, two simple changes cost us \$1,000. That should not be."

Swan is also concerned about the security of the present computer. "There are few passwords, so with little security control anyone with computer knowledge can get into it," he said. The new system would allow only a select few to have the password for the computer.

Even if the new computer system is installed, the old one won't be sent to the junk yard. The board plans to use it as a card printer and word processor and the board feels it can be used for training new employees instead of putting them on a more complex system right away.

"As evidence of that fact, we were able to list several single spaced pages of awards received by our students and faculty members as individuals and group commendations which have come to our departments, teams, and organizations on our application."

In mid-June the site visitors will meet with a review panel in Washington to discuss the findings. Reviewers will make the final selection of schools to be recognized.

These schools will be presented with a special plaque and flag symbolizing their progress toward excellence in education.

In early fall, the principal and two other school representatives will participate in a national recognition ceremony.

The committee that coordinated and prepared the application for Maine East's participation in the program was chaired by A.K.H. Cochrane and included Kenneth Faulhaber, Douglas Harrison, Sherman Roth, Alice Davitt, Dr. Roy Howarth, and David Renz.

owner Robert Krillich. "Dealing with Mr. Krillich has been a much more arduous task (than Inland expected)...," said Troy.

Troy further said Inland officials "have serious doubts whether (the sale) will come to fruition."

Just last month Niles trustees had assured Inland they would receive all village assistance in acquiring industrial revenue bonds for the purchase and rehabilitation of the neglected Lawrencewood Shopping Center.

Niles is currently suing Krillich and Lawrencewood and the sale of the center to Inland appeared to have been the means to end the suit.

Troy announced that as a result of Inland's apparent decision not to purchase the center, he would now ask to the courts to take over the day to day operations and administrative decision making of the center.
