Arson suspected in OLR church fire

A fire of suspicious origin caused an estimated \$35,000 to \$45,000 damage at Our Lady of Ransom Church, 8300 N. Greenwood ave., Niles, late Friday, May 3.

The fire originated in the choir section near the altar and destroyed the organ, three pews and a large section of carpeting.

The intensity of the flames and heat, estimated at 1500 degrees, blew out a large stained glass window and caused heavy smoke damage to walls and ceiling of the church.

Firefighters from Niles and North Maine responded to the alarm, which was called into the fire department at 10:39 p.m. by

a member of a prayer group which was holding a meeting in the parish school. The church was empty at the time of the fire and no firefighters were injured fighting the blaze.

Gordon Michelson, duty chief for the Niles Fire Department, who was in charge of the fire, continued on Page 34.

Niles attorney and U.S. attorney differ in opinion on use of 60016

Await court decision on postal ZIP

by Sylvia Dalrymple

Northwest Niles residents who have been using a Des Plaines mailing address and being served by the Des Plaines Post Office may have to wait a while before using Niles in their mailing address.

Although Richard Troy, Niles village attorney, contends that Niles won its court suit last month to allow the village designation, "Niles 60016" in their mailing address, the U.S. Justice Department says that the issue has not been resolved in the courts.

Mary Rigdon, an assistant U.S. attorney acting in behalf of the

Justice Department, said Monday that it would be advisable for people to wait until a court decision is made on the matter. "They (residents) are not authorized to use the Niles 60016 designation," she said, adding that a federal court is expected to rule on the case sometime in July.

A lawsuit was filed by the village last November in U.S. District Court. The suit asked the court to require the Postal Service to allow Niles residents to change from the existing "Des Plaines 60016" designation to

Niles Family Service Stop Smoking Clinic

Because of the popular demand, Niles Family Service is pleased to announce another Stop Smoking Clinic. This will be your last chance this spring to stop paying financially and physically for the nicotine habit. Once again, Dr. Ron Martin, clinical psychologist with Niles Family Service, will lead this stop smoking clinic. Dates are May 14 and 21 at 7:30 p.m. at the Niles Trident Center, 8000 Oakton st., Niles. Dr. Martin will combine hypnosis, lecture and motivation to give you that added incentive

to finally quit the habit thereby saving you money and your health. We all know that it is easy to quit smoking. Mark Twain estimated that he quit over 1,000 times. But to stay off cigarettes—that's the hard part. Let us help. Dr. Ron Martin will endeavor to give you that added help you need to quit permanently. The cost is minimal—\$20 for Niles residents, \$35 for non-Niles residents. Spend your money to be healthier, not on cigarettes. In fact, let's be honest. You can't afford not to stop smoking. If the money is still an obstacle, give us a call to discuss what you can afford. The next step is up to you. Our enrollment is limited, so we suggest you call 692-3396 as soon as possible to put your name on the list of healthy people. Stop talking about being healthier. Do something now!

Special tax advice for senior citizens

If you're a senior citizen, be sure you're not missing out on some important tax benefits from the Internal Revenue Service. For instance, did you know that anyone 65 or older is entitled to an extra exemption of \$1,000? And if your spouse is 65 or older, and you file a joint return, you may claim at least four \$1,000 exemptions—two age exemptions and two individual exemptions.

Then there's the "Credit for the Elderly." This could reduce the taxes you owe by as much as \$375 if you're single, or \$562.50 if you're married and filing a joint return. If you think you might be eligible for this credit, ask the Internal Revenue Service for Schedules R & RP of Form 1040.

Are you thinking of selling your home? If you are 55 or older, you can take advantage of a once-in-a-lifetime \$125,000 exclusion on the gain of sale (\$100,000 for sales before July 21, 1981). If you're age 60 or over, free tax counseling is available through Tax Counseling for the Elderly (TCE). IRS trained volunteers help fill out returns and provide tax assistance on a variety of topics of concern to older persons. For more information, call the IRS toll free at 1-800-424-1040. The IRS has more than 90 free publications on a wide variety of tax subjects.

Veterinary Hospital Design contest

Two students, natives of Illinois, won top prize in the 1985 Veterinary Hospital Design contest sponsored by Hill's Pet Products, Inc. of Topeka, Kansas. The prize was open to veterinary students at campuses where there was also a school of architecture or environmental design. The winning design, model above, had several unique features, among them, provisions for examination and care of pet birds. Center is Peoria native Zachary Church, a 1985 graduate (M.A. in Architecture) from the University of Illinois. At right, hailing from Niles, is Richard Weaver, a student of veterinary medicine at the University of Georgia. Both men met through their fraternity Phi Sigma Kappa. The team won a \$2,000 prize in the national contest, and a share of the \$2,000 which Hill's also donated to the competition at the University of Georgia. The American Animal Hospital Association convention in March at Orlando, Florida was the setting for the award presentation.

Legislation which exempts the handicapped from acquiring a doctor's signature before voting absentee was approved unanimously in the House Elections Committee this week, according to State Representative Cal Sutker (D-Niles), chief sponsor of the measure. Under House Bill 100, temporarily disabled persons would no longer be required to submit an affidavit from their physician, certifying that they are physically incapacitated, before receiving an absentee ballot. "The current law poses a special problem for the handicapped and deters them from exercising their right to vote," Sutker said. "This legislation

deletes the need to secure a doctor's signature and wipes out an inconvenience for many older and disabled citizens." "Anyone who is physically incapable of going to the polls, is obviously in no better position to go and get a doctor's signature," he added. Sutker noted that a recent Supreme Court ruling makes it appear that the current state law is obsolete. "This bill erases any uncertainty and will guarantee that any aged or disabled person who wishes to vote is not saddled with this extra burden." Having cleared Committee, House Bill 100 now moves to the full House for consideration.

NI-Gas issues warning on imposters

Northern Illinois Gas (NI-Gas) cautions customers to be alert for persons posing as utility employees.

Most service calls are made only at the customer's request. Occasionally, employees may need admittance to obtain a meter reading, exchange a meter, relight pilots, check gas appliances or turn service on or off during a main construction.

When this occurs, customers are encouraged to ask for caller's identification card to confirm the person is a NI-Gas representative. Each employee carries a card with a photo, name and signature. Since any charges are included in regular bills, employees never collect money from customers for service work performed.

Sheriff warns homeowners of repair scam

Sheriff Richard J. Elrod today warned Cook County residents to be cautious of door-to-door maintenance and repair persons who prey on homeowners, especially during the spring cleaning season.

Teams of persons approach the homes of elderly persons, in particular, and offer to do such repair work as black topping a driveway, roofing, repairing a chimney or waterproofing a basement.

In some instances, the repair persons will ask admittance to a home under the pretext of getting a drink of water or using the bath facilities and use the opportunity to steal items from a home.

In other cases, the "scam" maintenance persons will suggest that a perfectly good roof is in poor condition, should be repaired and will charge an extremely high price for the work.

The work is frequently done poorly and, if a guarantee is offered, the repair persons have disappeared when additional work should be done.

Sheriff Elrod said homeowners should beware of persons who require a large downpayment to cover costs of materials before starting the work.

Sheriff Elrod said that in selecting a person or persons to make home repairs, homeowners should rely on persons well established in their local community, persons who depend on referrals for their work and who have a vested interest in the community.

To a youngster with muscular dystrophy, summer camp was once a dream. Now it's a fact of life, one sustained only by hundreds of volunteers.

This year the Chicago-area Muscular Dystrophy Association camps will serve more than two hundred patients. Male and female volunteers are needed for each camp.

Spend a week of your vacation at camp...an MDA summer camp. Help a wheelchair bound patient participate in normal recreational activities, including swimming, boating, horseback riding and arts and crafts.

With the help of your arms and legs, a camper can do almost anything. Without your assistance, he may be unable to attend.

You can sign up for either camp session: June 15 through June 22 or June 22 through June 29. No previous experience is necessary.

If you are over the age of sixteen and want to volunteer, please call 965-8900.

Dudycz bill requires fingerprinting of voters

Illinois voters would be required to leave their thumbprints along with their signatures in order to obtain election ballots, under legislation proposed by Sen. Walter W. Dudycz, R-Chicago.

The purpose of the measure, SB 1099, is to help eliminate election fraud by preventing the casting of votes for absent registered voters. It received the approval of the Senate Elections Committee Tuesday and will be placed on the Senate calendar.

Sen. Dudycz explained that the bill is based on a concept suggested by the Special Grand Jury on Vote Fraud. "Requiring a thumb print on every ballot application would be a tremendous deterrent to vote fraud because these prints could be checked easily," he pointed out.

"Precinct captains, election judges and others would be less tempted to cast ballots in the names of persons who did not appear at the polls if the prints were required along with signatures," Sen. Dudycz said.

"Unfortunately this is one of the most common types of vote fraud in Chicago."

The senator said he believes voters would not object to leaving thumbprints with their

Illinois Bell establishes late payment charge

Illinois Bell customers who pay their telephone bills late will be charged an additional fee, effective next month.

The new 1.5 percent late payment charge is part of today's Illinois Commerce Commission order granting Illinois Bell's request for additional revenue to replace and modernize equipment.

"Annually, nearly \$1.5 billion in payments are received after the due date," said Fred K. Konrad, Illinois Bell assistant vice president. "It costs all Illinois Bell customers when we extend credit at no charge to those who don't pay on time."

Also approved were changes in directory assistance charges and increases in some service connection charges.

The new charges cover increased depreciation expenses authorized by the Federal Communications Commission in 1984. The order will increase company revenues by \$47 million annually.

"Most residence customers who pay their bill on time won't see an increase in their monthly bill," Konrad said. "That's because most of the increases are for optional services that are priced below our cost. Basic local rates and calling charges will remain unchanged."

The two-call directory assistance allowance for business and residence customers will be eliminated. However, charges for calls to directory assistance will remain 30 cents each. Persons making calls from hospitals and hotels will begin paying directory assistance charges.

"Customers who choose to use directory assistance service will be the ones paying for the service," Konrad said. "Since approximately 90 percent of directory assistance calls are for numbers listed in the directory, most customers can avoid the charge."

Disabled and blind customers unable to use phone directories will continue to be exempt from directory assistance charges.

Charges for establishing telephone service also will increase. The residence service order charge will increase to \$34.50 from \$28. The business service order charge will increase to \$64 from \$54. The line connection charge for business and residence

customers will increase to \$20.50 from \$16.50.

"Our present charges to install service are still below the actual costs," Konrad said. "Today's decision recognizes the need to base our rates more on the costs of providing service."

The monthly charge for Call Waiting service will increase to \$3 from \$2.52, and Speed Call 30 service will increase to \$5 from \$4.85.

As part of the order, Illinois Bell is allowed to sell specialized telephone equipment on a detariffed basis for persons with hearing, speech, vision and mobility impairments.

The company requested the revenues in November 1984 to cover increased depreciation expenses that recognize the need to replace existing equipment with newer, more efficient technology.

Ward ordained to Permanent Diaconate

Richard Ward, Sr. of St. Isaac Jogues parish, Niles, was ordained to the Permanent Diaconate by Joseph Cardinal Bernardin during a special liturgy at Holy Name Cathedral on Saturday, May 4.

The liturgy was concelebrated by Rev. Edward P. Salmon, vicar of the Diaconate Community, and Rev. Peter Reardon, O.P., a missionary serving in Bolivia and brother-in-law of Mr. Ward.

May is Bicycle Safety Month

by Sec. of State Jim Edgar

Beautiful weather arrived early this year and bicycle riders came out in droves.

May is Bicycle Safety Month. Statistics indicate that more than 1,000 bicyclists die each year in accidents throughout the United States. Children under age 15 account for almost half of those deaths.

Bike riders must obey the same traffic safety laws as automobile drivers and must yield the right-of-way to pedestrians. Please observe the following bicycle laws and safety tips:

1. Make sure every bicycle is the correct size for the person riding it. If a bike is too large or too small, it may be unsafe to ride, especially for children.
2. Always ride in the same direction as other traffic. Stay close to the right edge of the road, except when passing or making a left turn.
3. Doing "wheelies," the art of balancing on the rear wheel with the front wheel up in the air, is dangerous and can cause a serious accident.
4. Never ride more than two abreast, except on paths or parts of the road set aside for bicycle riders.
5. At night, wear protective and/or light-colored clothing, or apply reflective tape to your clothing or your bicycle's handlebars, frame or fenders. This will help motorists to see you.

Kids in trouble told to "Look for the E-Team"

Under the banner, "Look for the E-Team," Commonwealth Edison and System Council U-25 of the International Brotherhood of Electrical Workers (IBEW) today began a program to assist lost or threatened children, particularly if police assistance is not immediately available. The program has the endorsement of the Illinois Association of School Boards.

The E-Team consists of all 18,000 Edison employees, but its most prominent members are the crews of the more than 1,800 radio-equipped Edison trucks. If a child is in trouble, an Edison employee may assist by calling his dispatcher or supervisor and requesting the police, medical help or other assistance. In addition, Edison service representatives in about 1,650 cars are working throughout northern Illinois, and 22 different Edison office buildings will open their doors to any child in trouble.

The E-Team program reminds

children that a police officer is the first and best person to help them if they encounter trouble. But the police can't be everywhere, and Edison employees are on the streets and in the neighborhoods. They can act as a friend to a troubled youngster until help arrives.

The E-Team program is directed to the 850,000 kindergarten through sixth grade children who live in Commonwealth Edison's service territory. Edison representatives will offer the program to schools by contacting school boards and administrators. A booklet on child protection will be distributed at school for children to take home. The youngsters are asked to review the safety tips with their parents, then return a pre-addressed post card to Edison. Upon receipt of the card, the Company will send the child a free set of 36 E-Team stickers and a booklet of electrical safety suggestions.

"Miss Illinois" chooses her dolls wisely

The telephone rang and when we answered the voice asked if we had dolls. Dolls, of course, was the answer - we are "Gigi's Dolls and Sherry's Teddy Bears" at Oak Mill Mall so we have lots of dolls.

The voice asked for a Follies Girl. Well we have many lovely dolls such as - Dolly Parton, Marilyn Monroe, Mae West, etc. Please come in and see. She did and was amazed at the wide selection - she focused in on a special Marilyn Monroe made in England of wax by doll artist Paul Crees with a sequined red dress and a feather boa. A magnificent "Follies Girl" and so ideal for the presentation. What presentation?

The voice on the phone and the lovely burnette customer with sparkling eyes, radiant personality and who is absolutely gorgeous was none other than Laura

Bach, "Miss Illinois" and Marilyn will be her presentation gift during the Miss America contest to be held in Florida this week. She gave us her card and on it wrote "Dreams Do Come True". Help make your dreams come true by coming to Gigi and Sherry's fantasyland of dolls and teddy bears, 7900 N. Milwaukee, Niles.

Cook Electric employees produce a "Musicfest"

The rites of spring were celebrated musically this past weekend at a MUSICFEST held at Niles West High School in Skokie. The festival was developed and produced by Northern Telecom's Cook Electric Division, in Morton Grove, in cooperation with the Niles West High School Music Department.

In a break from jobs related to manufacturing telecommunications products, employees of Cook Electric Division put together twenty-one musical acts that included country, rock, jazz, soul and classical selections. Also, several pieces were performed by the Niles West Jazz Band. The program included several special acts such as breakdancers and a performer doing the "Hambone".

The Musicfest provided several relaxing hours of entertainment for the families and friends of the Cook Electric Division and the Niles West Music Department.

Bob Denley, Northern

Telecom's Human Resources Manager, was impressed by the enthusiastic response to the program. "We have many talented people working in our division and it is great to have the opportunity for them to share their talent with others," commented Mr. Denley. "We are grateful for the cooperation and participation of our neighbors at Niles West."

Northern Telecom's Cook Electric Division, located in Morton Grove, is a leader designer and manufacturer of a broad range of products used by the telecommunications industry. The Cook Electric portfolio includes

Kustra sponsors school reform package

State Senator Bob Kustra (R-Des Plaines) is sponsoring legislation proposed by Governor Thompson to improve the quality of public education in Illinois. The Illinois Better Schools program is a package of bills designed to adopt and enforce new measures to reward our outstanding teachers, improve our curriculum, provide a safe learning environment, and make our schools accountable and efficient in the delivery of educational services.

Kustra announced his support of the Governor's reforms early in the session after the Governor addressed a special session of the General Assembly on the need for school reform. Commenting on his role as chief sponsor, Kustra said, "I am honored that the Governor asked me to shepherd his legislation through the General Assembly. There is a strong resolve in Springfield this year to improve the quality of education and these bills will move us in that direction."

The other major thrust for education reform comes from the Commission on the Reform of Elementary and Secondary Education. Kustra also is supporting their efforts and has joined as a co-sponsor.

Kustra pointed to the early childhood education proposals as one of the key components of the legislative package. Included in the proposals are model pilot programs which establish preschool education learning centers for three and four year olds and planning grants for alternative schools for students with serious discipline problems. According to Kustra, "It's time that schools

systems and devices related to information handling, central office, protection, transmission, and outside plant.

Northern Telecom Inc. is the world's largest manufacturer of fully digital telecommunications systems, and a significant supplier of integrated office systems. The U.S. company, Northern Telecom Inc. has its headquarters in Nashville, Tenn. Northern Telecom employs more than 20,000 people in the U.S. in 15 manufacturing plants, 15 research and development centers and in marketing, sales and service offices across the country.

start investing taxpayers dollars in more effective ways: One dollar invested in early childhood education will bring a return of seven dollars for the school district's taxpayers by the time the student reaches high school.

The legislation also includes additional monies to provide reading specialists and personnel to improve reading skills in public schools. Kustra pointed out, "Students cannot learn if they cannot read. One of the most serious problems in our schools and society in general is illiteracy. The reading emphasis will help retool our educational system to create a learning society."

Kustra also offered legislation to encourage school consolidation. Illinois has more school districts than all states except Texas and California. According to Kustra, "It is time to reduce the number of our school districts and thereby cut costs so our scarce resources can be used more effectively."

Taking the mystery out of money
One in a continuing series

Will your money last as long as you do?

If you have been thinking about retirement... if you are already retired and living on a fixed income... or if you are simply planning your investments, it can be important to know whether you will have enough money to live comfortably for the rest of your life.

You cannot foresee, of course, how long you will live, or whether the economy will bring recession, inflation or prosperity. But here are some questions to help you see whether your money will last as long as you need it.

How long will you need the money? If you retire at 65 in 1985, you might estimate a life expectancy of 15 years beyond that. To be safe, you might figure on 1-1/4 times this life expectancy, or extend your expectancy further if you come from a long-lived family.

How much money will you need each year after you retire? Depending on circumstances, you may need about 60% to 80% of your yearly income before retirement.

How much money can you expect each year from pensions, social security, investments and other sources of income? Take this amount and subtract it from the amount of money you'll need each year.

If you are lucky, you may expect enough income to cover

your expenses. If not, you may have to draw on your capital for the amount you fall short.

Many people are afraid to draw on their capital, for fear it will run out. They skimp and save, sometimes when it isn't necessary.

Fortunately, you can make a good estimate of how far you can safely go into your capital. Simply take the amount you'll need to withdraw each year and divide it by the amount of your capital... your bank deposits, investments, life insurance cash value, and I.R.A. and Keogh balances.

This gives you the percentage of capital you'll need to withdraw each year.

Now, look at the left column of the chart for the percentage of capital you will need each year. Suppose, it is 12%.

The columns across the top show the interest your money could earn. Suppose you figure 10%.

This table shows that if you withdraw 12% of your capital each year, and it's invested at 10%, your money will last 19 years.

If you need your money to last longer than this, you may have to increase your yield or cut down the amount you take out every year. If you are not yet retired, you may plan to save more to increase your capital.

(An X on this chart means that your money will never run out.)

Percent of capital withdrawn annually	Number of years capital lasts if invested at this interest rate:			
	8%	10%	11%	12%
8%	X	X	X	X
10%	21	X	X	X
12%	15	19	24	X
14%	12	14	15	18
16%	10	11	12	13

Where can you be sure of yields like these? If you choose to invest in stocks, your money is subject to market fluctuations.

With mutual funds, even if you withdraw a fixed amount each month, the ups-and-downs of the market will determine how long that money will last.

With a fixed return investment like certificates of deposit, you can predict your income.

Allgauer matriarch going strong at 81

Kathe Allgauer, the matriarch of the famous Chicago area family, will celebrate Mother's Day working.

The Allgauer name has been on a restaurant marquee over the past 50 years.

Gus, probably was the best known of the Allgausers, having made the Fireside Restaurant famous in the Chicago area. He died in 1972 leaving his widow Kathe and their son Frank to carry on the tradition.

Kathe is 81 now, but you'd never know it. She's at work every day, helping Frank run Allgauer's Hotel and Fireside Restaurant in Northbrook. Nestled in a forest preserve setting on the banks of the Des Plaines river, this latest fulfillment of the Allgauer dream reflects Kathe's tenacious nature. As she puts it, "You have to put your life into your work, give of yourself, and try to consider everyone."

Kathe was the oldest of eight children and she recalls her own mother's advice: "You can do anything in life if you want it badly enough."

She first met Gus at a masquerade ball in the Knicker-

bocker Hotel in Chicago and knew right away that he was the man for her. The marriage and business partnership that followed lasted almost 40 years.

"We worked together, danced together, had fun together. What I couldn't do, he could do, and vice versa," Kathe says of their life together, and "we had respect for one another."

"Life is only your values. I believe in values. You can beat this world and be a great success if you have values."

"I'm fortunate to have my son Frank who was raised in the

restaurant business and showed the interest and enthusiasm to take over. But our tradition is caring, and that I feel Frank has gotten from Gus and me."

Frank himself puts it very simply: "My mother's energy and spirit motivates all of us at Allgauer's. She still works harder than anyone, and her attention to detail keeps all of us on our toes."

Citicorp Savings student loan package

Citicorp Savings of Illinois has announced a new student loan package that will provide students with financial flexibility, greater day-to-day spending power, and a head start on establishing a good credit rating for the future.

The package includes a low-rate Illinois Guaranteed Student Loan, a Citicorp Savings VISA card with a \$500 line of credit, and a pre-approved checking account. The checking account may be opened with a \$50 deposit and features 50 free personalized checks, no first month service charge, and a complimentary Citicorp Savings Electronic Banking Card.

Customers may use the card to access their accounts at over 460 locations, including many Citicorp Savings offices, Jewel Food Stores, and White Hen Pantries throughout Illinois.

In announcing the new program, Citicorp Savings President John Ream said, "The goal of our new student loan package is to provide Illinois college students with complete financial services. AT Citicorp Savings, we want to be more than just a source for student loans."

Ream noted that undergraduate students may borrow up to \$2,500 maximum in increments of \$2,500 per academic year. Graduate students may borrow up to \$25,000 in increments of \$5,000 per academic year. He also emphasized that loan applicants will receive notification of their status within 5 days of application and that approvals will indicate the amount of funds the student can expect to receive. "We know that delays in processing student loan applications can cause undue hardships for students, and that's why we're committing to a 5-day approval process," Ream added.

Application kits are available at any Citicorp Savings branch office in Illinois, or by mail from its main offices at Dearborn and Madison, Chicago.

With 60 branch offices throughout Illinois, Citicorp Savings is one of the state's leading financial institutions.

Niles West chess team wins sixth place

The Niles West High School chess team won sixth place, its highest ever, in the recent state high school chess tournament held at Rock Island High School. The team actually ended regular competition in a six-way tie for 2nd place with a score of 5-1 among the 69 teams entered in the competition. The system used to break the tie gave the team its ultimate place.

In addition, junior Fred Delphin and sophomore Andrey Pilipchak won enough individual points while competing with the team to become eligible for the individual state tournament held at Glenbard East High School. The rest of the team consisted of Jeff Snyder, Yuri Shvetsman, Nick Karabinas, Hsu Yumin, Dan Chen, & Ghanishyam Patel.

"I'm real proud of the way the team played in this tournament," said faculty advisor Warren Holz, himself an avid chess player, "and we look forward to a good season next year."

Nuf Yad at Marillac

Bring a tot was the prerequisite for Marillac students during last Friday's Nuf Yad (Fun Day spelled backward) as students and tiny friends enjoyed a day of games and fun sponsored by the Inter-Class Council.

Students were encouraged to bring little brothers and sisters or relatives while other students signed up for kids from Chicago's Marillac House, a west side settlement that bused in the tots in time for homeroom breakfasts.

After cartoons in the Marillac Theatre, a "Sesame Street" carnival was set-up in the Student Center. Huge "Bert" and "Ernie" character balloons were given to the children and game booths offered prizes of goldfish, candies and toys.

Nuf Yad began as an opportunity for students to share the "spirit" of Marillac in the day care children of Marillac House and smile the day away.

Chicago Northside Diabetes Center offers team approach

The Chicago Northside Diabetes Center of Bethesda Hospital, 2451 W. Howard st., Chicago, offers a comprehensive outpatient educational program for diabetics (both insulin-dependent and non-insulin dependent) that stresses the team approach.

Dr. S.K. Vij

Dr. S.K. Vij, M.D., F.A.C.P., medical coordinator of the Center, says that patients who complete the program are better able to manage their diabetes, and generally have less frequent hospitalizations.

For literature about the Center and information on the programs call 761-6690.

"The first step," says Dr. Vij, "is a thorough evaluation by our endocrinologist."

Important team members include a dietician who helps patients understand their diet, plan menus during illness, and manage traveling or eating in restaurants; a clinical registered nurse who helps patients recognize and manage hypo- and hyperglycemia; a physical therapist who consults with the endocrinologist and plans the diabetic's exercise program; a social worker, podiatrist, and

ophthalmologist.

Patients can come in on their own, or be referred by their doctor. The Chicago Northside Diabetes Center works closely with referring physicians.

Follow-up care and monitoring are provided after the outpatient program.

"We teach diabetics to manage their disease and demonstrate how they can lead normal lives," says Dr. Vij. "With increased knowledge and better management, most diabetics will live a long and productive life."

Nurses' concern for emotional effects of illness

"It is extremely important that nurses treat the emotional as well as the physical effects of being ill," according to Lynn Ryan, Director of Nursing at Bethesda Hospital, 2451 W. Howard st., Chicago.

Her comments, made during National Nurses Week, May 6 through 12, describe the attitude that is fostered by the Primary Care philosophy of nursing.

The primary care approach has only recently become widespread. Yet the idea it is based on, that it is necessary to care for the whole person, is time honored.

"It is a matter of accountability for the outcome of a patient's care," said Ryan. At Bethesda Hospital a patient will often be cared for by the same nurse for the duration of the hospital stay. That same nurse will administer medications, check vital signs, serve meals, handle all special requests and record the day's proceeding. It is this continuity of care, on a one to one basis, that Ryan asserts will benefit the patient both physically and mentally.

Bethesda's program also benefits the nurse. It focuses on the nurse and his or her professional care rather than the

Bethesda Hospital's Nursing care concentrates on person-to-person contact that helps the patient both physically and mentally. Bethesda is located at 2451 W. Howard st., on Chicago's north side.

completion of health care tasks.

"It is a good motivator for our nursing staff," Ryan said. "The nurse and patient develop a relationship and work together in the planning, implementation and evaluation of therapy."

Moreover, family members of the patients also get well acquainted with the nurse. It is

the nurse who is called upon to answer questions about a patient's progress or to detail a procedure for a family member.

"We're happy they can count on our nurses to ease their minds," Ryan added. "Primary Care helps everyone involved. The patient feels better and so does the staff."

Postal ZIP...

"Niles 60016."
The complaint also asked the court to stop the postal service from prohibiting the Niles designation on the mailing address or refusing to deliver mail with the Niles 60016 ZIP code," Troy said.

Attorneys for the Justice Department then filed a motion to dismiss the complaint saying the postal service does not prohibit the Niles designation or refuse to deliver mail with the Niles 60016 ZIP code.

Troy said that since the postal service admitted it would deliver mail with the Niles designation, the issue was "moot" and asked for dismissal of the case.

In subsequent action, the Justice Department filed a memorandum with the court stipulating that the postal service's procedural policy in delivery of mail could not be used as an argument to use an incorrect address.

The ZIP code controversy affects businesses in the Golf Glen Shopping Center, north of Golf and east of Dee Rd. and residents of the Terrace Square condominiums directly behind the shopping center, as well as the Highland Towers apartments at 8801 Golf Rd.

Members and friends are invited to the Lincolnwood Afternoon Clubs' Spring Luncheon, on Wednesday, May 15, at Brigantes Banquets, 2648 Dempster, in Des Plaines.

Although the sites were annexed to Niles in 1972, they still carried the Des Plaines ZIP designation.

Village officials discovered last year that sales tax revenues from two K-Mart stores - one on Dempster St. and the other in the Golf Glen Shopping Center (now closed) - had been unintentionally misdirected to Des Plaines by the Illinois Department of Revenue since 1978.

Des Plaines is reimbursing Niles \$14,000 each month for the

next four years to compensate for \$674,000 in misallocated sales tax revenue.

Troy feels the courts will favor Niles when it rules on the issue. "The postal service said it would not refuse to deliver the mail... so I'm telling residents to use the Niles 60016 designation," he said.

said that preliminary investigation points to an arson-related fire. He believes that someone gained entry to the locked church to start the blaze. "The culprit, at this point we don't know how many persons were involved, removed a large bible and altar cloth from the main altar area and placed the items on the organ to start the blaze," he noted.

According to Michelson, neighbors saw several teenagers running from the Normal St. entrance to the church just before the fire. Police are following up on that lead.

"The fire could have been much worse if the alarm had not been sounded so quickly," he added. "Firefighters were on the scene within minutes which prevented extensive damage to the church. The fire was put out in 10 minutes."

The Rev. Thomas Dore, pastor of Our Lady of Ransom Church, praised the efforts of the firemen in battling the blaze. "We were fortunate that the altar area escaped fire damage. The pews, window and organ will have to be replaced, as well as an extensive paint job for walls and ceiling that suffered smoke damage," he said.

More than 200 parishoners, youngsters and adults, arrived at the church early Saturday morning to volunteer in clean-up chores, Father Dore said. He added that a maintenance crew from nearby St. John Brebeuf Church also helped in cleaning soot from pews and carpets to prepare the church for Saturday evening services.

A parishoner also donated an organ to temporarily replace the one destroyed in the fire. "The people's response in giving of their time and effort was overwhelming... it speaks of the spirit in this parish," Father Dore said, adding that he hopes that church renovations will be completed in time to celebrate the parish's 25th anniversary on Aug. 4.

Now that the library is going to be automated this year, she said: "We saved money by becoming partners in the system with Morton Grove, Deerfield, and Waukegan." She commented that the library has been saving money toward the automation program for years.

Hunter also pointed out that libraries are very much like their patrons in that they are affected by the unpredictable fluctuations in such things as the interest rate. With a lower rate of interest, the library's money is earning less money.

"This hurts because we are so limited in our means of replacing lost revenue," she said. "We waited for the bugs to be worked

Speaking of the library...

by Duncan J. McKenzie Niles Library Administrator

The week of April 14 was National Library Week and libraries all across the country conducted special programs and celebrations to promote library services. The theme for this year's nationwide program was "A Nation of Readers." The Niles Library decided to further explore that theme and promote the importance reading can play in an individual's life.

We wrote to celebrities, authors and noted specialists in their field to find out what role reading has played in their life. We were overwhelmed by the response. Kenny Rogers wrote back telling us that reading is very important in his profession and the Passages by Gayle Sheehy was most enlightening for him. He also wrote that "A good book is a pleasure. It stretches the imagination."

Captain Kangaroo wrote to say that Stone Soup is the one book which comes to his mind because it taught him that "with a little imagination and inventiveness, you can make something from nothing."

Charles Schulz, the creator of the "Peanuts" comic strips wrote that Hans Brinker or the Silver Skates has been most influential in his life; Jim Henson, creator of the "Muppets," wrote to tell us his fondest memories are of the Winnie the Pooh series; and Leo Buscaglia, the "Love Doctor," wrote that he prizes very much the copy of Dante's Divine Comedy which his mother "carried half way across the world, from her village in Italy to Los Angeles."

We learned from the responses that, to many individuals, reading books has a special place in memories of early childhood, that reading helps to understand others and to develop into adulthood, and inspires the reader to go ahead with one's convictions even when confronted with obstacles.

Recognizing the impact that reading has in our lives, isn't it frightening that one out of five adults in our community cannot read as well as they would like to? The Niles Library is one of four libraries in the area which is cooperating in a joint venture to help adults improve their reading skills. The library is putting in place a special collection of books for these adults and teachers have been hired to teach adults to read or improve their reading skills.

Volunteers are needed to help in the classroom. The only degree a volunteer needs is a degree in caring. If you would like to help with this program, call 635-1426. But most of all, if you know of a friend, neighbor, relative or co-worker that has trouble reading, please tell him about this special program. There is no cost involved. Daytime and evening classes are available. Have your friend call 635-1426. It can have a tremendous impact on improving your friend's quality of life.

We want everyone to enjoy reading, and as well learned from our letters, those early memories of sharing and enjoying a good book are memories which we cherish forever.
