#### Moving ahead on Milwaukee Ave. improvements

### Niles negotiates for greenhouse

Niles officials are in the process of buying a second parcel of land at the south end of the business district in line with Milwaukee Ave. improvements. According to Village Manager Jack Hadge, county officials recently released \$82,500, via the Cook County Community Block Program, for the purchase of the Ridgewood Garden Center, 6545

Milwaukee Ave. Hadge explained the officials of the county's planning and development department approved the transfer of money originally targeted for commercial rehabilitation and pedestrian walkways to the property acquisition fund to allow the purchase of the garden center. Hadge said the funding is part

of a community block grant to upgrade the southern portion of Niles, which includes development of an open landscaped area at Milwaukee Ave. and Albion St. which would provide an aesthetic entranceway to Niles. He went on to say the village had used \$129,000 from the acquisition fund to purchase the

### Kitchen grease fire causes \$25,000 damage

A pan of frying chicken left unattended in a kitchen apparently was the cause of a fire in Niles last Wednesday, May 8.

Dorothy Gatsacos of 8460 Chester was frying chicken for dinner at 5:45 p.m. when she left the kitchen to go to another room. When she returned a short time later, Mrs. Gatsacos found the cabinets and area around the stove in flames.

According to a Niles Fire Department spokesman, she attempted to beat out the flames with a piece of carpeting, but was unsuccessful and sustained first and second degree burns to her face, neck and arms in the attempt.

Being a relatively new resident to the Niles area, she then attempted to call the fire department

#### Zoning sought for two buildings on Dude Ranch property

## Suburbs plan objections to 33-story units

by Sylvia Dalrymple

A proposal to construct two 33-story residential buildings in unincorporated Des Plaines is expected to draw heavy objections from village and city officials of municipalities bordering the site.

The ambitious plan calls for the twin high rises to be erected on the site of Fisherman's Dude Ranch on Golf Rd., bounded by the Tri-State Tollway on the east and Potter Rd. on the west.

Mary Ann Redding, owner of the property, and the First National Bank of Des Plaines are petitioning the Cook County Zoning Board of Appeals for a change in zoning from the existing R-7 general residence to R-8 multi-family planned unit development (PUD). The zoning board will conduct a public hearing on the request at 3 p.m. May 24 in the Park Ridge City

### District 63 recognizes aides' bargaining agent

A bargaining agent for teachers aides in East Maine School District 63 was voluntarily recognized by board members of East Maine School District 63.

Recognition took place at an early May meeting.

In action on a previously discussed item, board members approved an expenditure of \$6,478,170 for life-safety work.

The work will be mainly on asbestos encapsulation and playground upgrading. To receive the State's permission to do life-safety work, board members voted no schools were to be considered for sale for three years.

Board members discussed with the architect which life-safety work was to begin this summer but no decision was reached.

Bids for the work probably will not be awarded until July which is too late to begin lengthy asbestos work.

Board members approved rental fees for space in area schools now closed to students because of declining enrollment. Fees will be \$4.55 a square foot at both Ballard and Oak schools and \$4.86 at Apollo school.

## Niles Beautification Contest

For the second straight year the Village of Niles will sponsor a Property Beautification Contest, for all residents in the Village of Niles. The contest will be held to give recognition to those residents who have made their homes and landscaping the most attractive in the village.

Once again, Village Trustee Peter A. Pesole (pictured) will oversee the program who stated, "We are very pleased with the acceptance of the contest last year and we are anticipating even more interest will be generated this year. We expect more entries in the second year as more of our residents are showing more pride in the appearance of their property." Judging of all property, front and side portion, where your home is seen by people passing by, by car, will be made by a non-biased beautification committee.

## Unincorporated Glenview wins vote right on library annexation

According to legislation now before the Illinois Congress, residents of unincorporated Glenview will be able to vote on any referendum affecting their annexation to the Niles Library District.

The legislation, as described by Margaret Rajski, board trustee, at the May meeting would be an amendment to the Illinois Public Library District Act. Rajski said the legislation, introduced by Rep. Margaret Parcells, has passed the House as H.B.739, and is scheduled to come before the Senate.

Rajski told the Bugle that present law, the Illinois Public Library District Act, is "unclear" as to whether voting for annexation should be by residents of both a Library District and contiguous unincorporated areas or only residents of the District.

In the latter case, residents of an unincorporated area would not have any input as to annexation. The Library District Act became effective July 1, 1984.

Controversial annexation proceedings were begun by the Niles library after initiation of a program to provide services, through grant funds, to residents of unincorporated areas of Des Plaines and Glenview. The grant, "Project Plus" provides funds for library cards to residents of areas unserved by either a district or, municipal library.

The Medigap program will take place at the Niles Senior Center. Reservations are necessary and can be made by calling 967-6100, ext. 376. There is no charge for this program.

## Frindt refuses to turn in senior records

# Board hears requests for revenue sharing funds

A capacity crowd of senior citizens attended the Maine Township Town Board hearing on May 7, where four organizations made their request for a portion of \$85,000 in revenue sharing. The organizations requesting funds were: The Des Plaines Senior Center, The Park Ridge Senior Center, The Center of Concern and the Maine Township Senior Citizens.

The first testimony was given by Julie Tortorelli of the Des Plaines Senior Center. She stated that the Des Plaines Senior Center has been in existence for eight years and is an independent, non-profit organization. Most funds are received from private donations and seniors. Much of the fund-raising is done by volunteers. The Des Plaines Senior Center is currently receiving no funding and is requesting \$10,000. Ms. Tortorelli emphasized that the Des Plaines Senior Center did not want to take funds away from existing programs but was seeking funds to help meet expenses and continue to expand services.

The Des Plaines Senior Center is opened 7 days a week and all seniors are welcome to use its services. There is no membership fee although there is a \$2 cost for the newsletter.

The next testimony was given by Teresa Grodski, Director, and Bob Kuntz of the Park Ridge Senior Center. They stated that Park Ridge Center had a very successful year and had 135 separate programs offered in May. The core of the center is its volunteer program but it was stated that the programs have continued to get bigger and the services have increased.

The Park Ridge Center is open 7 days a week. Membership is \$7 a year for single and \$10 a year for a couple. Dues for those out of the area are \$10 for a single and \$15 for a couple. Seniors living out of the area must be affiliated with some other local organization such as a church. There are several programs that are offered at no cost to the members such as health screening and tax preparation assistance. There is a charge for social activities. "I feel that trips and other pleasurable activities should not be tax supported," stated Kuntz. The Park Ridge Senior Center is seeking \$10,000 in revenue sharing funds.

The Center of Concern is run by

**IMITATIONS OF GEMSTONES**  
Attempts to imitate natural gemstones have been made for a long time. The first to fake valuable stones were the Egyptians with glass and glazing. All the early imitations that were made had similar color, but none of them had physical properties, especially hardness and brilliancy. It became the dream of scientists to make stones that were the same as the genuine gemstones. At the end of the last century a French chemist, A. V. Verneil synthesized gemstones at a commercial price. Synthetically produced stones are not classed as imitations by the gem trade, but rather as a separate group, in addition to natural gems. In the gemstone trade they must be titled "synthetic." The Verneil process first produced rubies, then sapphires, spinels and alexandrite-like. After that came another synthetic stone named "Chatham." They have created the emerald, ruby, sapphire and the "Padparadscha" which is a brilliant orange with a pink tint. The word "Padparadscha" is spelled many different ways and means Lotus Blossom.

## Summer electricity rates

Commonwealth Edison reminds its residential customers that higher summertime electricity rates went into effect between May 15 and June 15.

In 1979, the Illinois Commerce Commission directed Edison to create a two-tier rate structure for the summer and non-summer months. For the average customer, the total annual cost of this two-part design should be about the same as under a year-round system.

For the eight non-summer months, rates are lower than they would be if a year-round rate were in effect. These lower non-summer rates should offset the summer rates for the average user.

Present residential rates are 11.561 cents per kilowatt-hour during the summer months and 7.282 cents per kwh during the eight non-summer months, for the first 400 kwhs of use, (4.32 cents for kwh over 400) plus or minus the fuel adjustment charge.

Summer rates begin as early as May 15 or as late as June 15 depending on when the customer's meter is read. Likewise, the rates can end as early as September 15 or as late as October 15. However, the period will never exceed four billing months.

A customer can determine the approximate beginning of his or her summer rate period by looking at the time covered by the May bill. If the period ends May 15 or later, that ending date will mark the start of the first month of the summer rate billing. For example, if the ending date is May 25, the bills for the periods ending on or about June 25, July 25, August 25 and September 25 will be billed the summer rate.

Edison recommends maintaining summer indoor temperatures at an energy saving 78 degrees to minimize the work of air conditioners. Customers planning to buy an air conditioner are advised to select a machine with an energy efficiency ratio (ER) of at least eight. Customers should have their air conditioners and filters serviced periodically to maintain their efficiency.

## of Interest to Women

### Bethesda Hospital opens Diagnostic Breast Care Center

No woman thinks twice about spending hours on her hair, skin, fingernails and body. But many neglect one of the easiest, quickest and most helpful expenditures of personal time - breast self-examination and mammography.

No woman likes to face the thought of breast cancer. But the fact is that breast cancer, after lung cancer, is the biggest cancer killer of women.

What many women don't realize is that a simple monthly self-examination, in combination with mammography screenings

at suggested time periods after age 35, will not only reassure the majority of women, but will assist in the early diagnosis of any abnormally or lump in the breast. With the newest, state-of-the-art technology, this early detection will increase a woman's chance of survival of breast cancer. Without this early detection, survival rates are dramatically lower.

The Diagnostic Breast Care Center at Bethesda Hospital, 2451 W. Howard st., has been created to provide a private, personalized atmosphere in which women can learn about breast self-examination and receive a mammogram, which is a low dose x-ray.

Robert M. Steiner, M.D., diagnostic radiologist, is one of eight radiologists on staff at the Diagnostic Breast Care Center.

Dr. Steiner emphasizes the importance of early detection. "Breast cancer develops very gradually," he said, "over a number of years. By the time a patient or a doctor can feel a lump, the cancer could have had a chance to spread and the patient's chances for long-term

survival are substantially reduced."

Mammography uses less radiation than a dental x-ray. The guidelines for breast care used at Bethesda's Diagnostic Breast Care Center are set by the American Cancer Society.

Unless there is a family history of breast cancer, a woman should have her first mammogram between the ages of 35 and 40. This "baseline" mammogram is then used as a basis for comparison for subsequent mammograms, done more frequently as a woman grows older.

In addition to mammography, Bethesda Hospital's Diagnostic Breast Care Center offers a Physician Referral Service and on-going educational programs including Breast Self-Examination and Cancer in Women. Future programs will address topics such as Pre-Menstrual Syndrome, Osteoporosis, Nutrition/Diet, How to Stop Smoking, Stress Management and more.

For information or an appointment, call Bethesda Hospital's Diagnostic Breast Care Center at 761-6000.

**FACT:**  
Every 15 minutes a woman dies of breast cancer.

## A trip to the Diagnostic Breast Care Center could have saved many of them.

If detected in its early stages, breast cancer is virtually 100 percent curable. Unfortunately, 90 percent of all breast cancer is discovered after a lump can be felt. Since most lumps that can be felt have been there for as many as ten years, it may be too late to improve survival chances.

#### Early detection is the answer.

Early Annual Detection = Checkup + Monthly Self-Examination + A Trip to the Diagnostic Breast Care Center for a Mammogram

#### Mammography is safe and affordable.

Mammography is a safe low dose x-ray technique and costs no more than a trip to the eye doctor for a pair of eyeglasses. Its benefits far outweigh any risk from radiation. The radiation required for a mammogram is even lower than for standard dental x-rays.

#### Examination Guidelines:

The American Cancer Society suggests these guidelines for examination:

Age	Recommendation
20+	Monthly self-examination*
20-40	Physical examination by a physician every three years. (40+ physical exam every year.)
35-40	Baseline mammogram
40-49	Mammogram every one to two years.
50+	Mammogram every year

\*You can learn about breast self-examination from one of the specially trained female technologists at the Diagnostic Breast Care Center.

Women with personal or a family history of breast cancer should consult their physicians about the need for more frequent examinations.

Regular visits to your personal physician are the most important way to protect your health. If you don't already have a personal physician or you are new to the area, we'll be glad to help you find one in the specialty area you request. Just fill out the coupon below and mail it to us.

Help us stop needless breast cancer deaths. Make the Diagnostic Breast Care Center part of your routine health care.

# The President's Perspective

by Eugene J. Rudnik, Jr.  
President  
Peerless Federal Savings

If the recent Presidential election is any indication, Americans today seek a return to a lifestyle that encourages and rewards traditional American values. This bodes well for the savings and loan industry for we were founded in order to encourage two values which set America apart - thrift and home ownership.

The fast pace days of the late 70's has slowed, at least for the foreseeable future. Those days were marked by record inflation, wild speculation, and rising interest rates. Though the pervasive "get rich quick" mentality enabled some to do just that, it resulted in many others getting burned as inflation subsided.

The revitalization of thrift and debt-free homeownership are being manifested today in a number of ways. Shorter-term mortgages have regained popularity and 30-year mortgages are being prepaid. Appliances and other major purchases are being financed through savings plans rather than through 21.6% charge cards. Young people have regained their hope of saving enough for a house downpayment, and new homeowners are entering the marketplace in record numbers. These obvious attempts to save and to reduce, eliminate or avoid debt are marked departures from just a few years ago.

The savings and loan industry is proud of our contributions to America, and we are confident that America will want and need our services for many years to come. If we, at PEERLESS, can help you in attaining your financial goals, please let us know.

# On Your Home Equity

by Martin Lippeth  
Manager, Peerless Mortgage Dept.

If you are a homeowner, the equity you have in your home represents financial liquidity you can use without selling your home or disturbing other investments. Whether you are looking for investment funds, business capital, or money for your personal use, refinancing your present mortgage could supply the funds you need. PEERLESS FEDERAL can structure the new loan in many ways to fit your individual needs, and we would like to discuss your financial requirements with you.

The appreciation in your home is your key to additional financial opportunities. The greater the difference between your outstanding mortgage and the value of your home, the more borrowing capacity you have. This equity can be used for any worthwhile purpose.

Interest is charged only on the outstanding balance. Pay off any portion of your balance at any time and reduce your interest, or pay it off early with no penalty. You've worked hard for your home; now unlock that equity and let your house work for you. Lock in a fixed rate, while interest rates are low. The solution is in your home, and it's easier than you think. Call us for a quote today at 777-5200.

# French students win in National Contest

Seven French students from Immanuel Lutheran School, in Glenview received notice today that the school's North Central Association accreditation has been extended through the 1994-95 school year following the review and approval of its Annual Report at the Association's Annual Meeting. Dr. John S. Kemp, NCA State Director at the University of Illinois, congratulated Immanuel Lutheran School on its continued accreditation for 1984-85. He added, "The school and community should be proud of the accreditation, for this provides assurance that the school meets those minimal yet rigorous preconditions for effective education established by the Association. Through this voluntary membership in the NCA, Immanuel Lutheran School & Church has committed itself to the pursuit of quality in education."

Accreditation by the North Central Association ensures that the school is meeting the minimal conditions for effectiveness.

This year, 2,307 students from 100 schools in the Chicago/Northern Illinois chapter area participated in the national French contest. The regional division includes French students in several states: Illinois, Kansas, Minnesota, Missouri, Nebraska, North and South Dakota, and Wisconsin.

Last year nation-wide nearly 67,000 students participated in this contest.

not continued, but library board members voted to apply for a second funding of the grant. According to a letter from the Illinois State Library, the following must occur in order for the Niles Public Library District to receive second year funding: • funding areas awaiting annexation. "must have a referendum to determine the residents' desire concerning future inclusion in the Niles Public Library District" and • "the annexation referendum should be held on the next date in which the referendum can be held under the provisions of the Consolidated Election Act."

### Maine Township... Continued from Page 3

Dee Heinrich, Director; Dick Chase, Treasurer and May Schurder, President. It serves all of Maine Township. The Center of Concern has programs that are different from the other organizations. The Center serves mostly home-bound persons and offers visiting services, companions, telephone housing, shared housing and employment counseling for full and part time jobs for seniors. In 1983 the Center of Concern had 3,219 members. In 1984 it was 3,366 - an increase of 66.7%. The Center of Concern expects an increase in membership of 35% in 1985.

The homebound elderly are the core of the users of the Center of Concern and Mr. Chase mentioned that many of the participants of the center were unable to attend the meeting.

There are no annual dues for members of the Center of Concern although there is a \$10 annual fee for the newsletter. The Center of Concern is seeking \$15,000 in revenue sharing funds.

The Maine Township Senior Organization was last on the agenda. The Senior Organization offers three activities per month - a luncheon and a bus trip. Paul Halverson mentioned that to compare the Maine Township Senior Organization to the other organizations was comparing apples to oranges, yet did point out that the social programs offered by the Maine Township Senior Organization was not just recreation - it enabled many people to enjoy a normal lifestyle and that was important.

A belligerent Harvey Frindt began his case for the Maine Township Senior Citizens by supplying the Board with the records the Board had requested nearly one month ago. "I want to be sure my inventory agrees with the Board's," he stated.

"I have betrayed you," he continued, speaking to the members of the Senior organization in the audience. "I have been advised to turn over the records of the senior organization to the town board. I did not want to do this. This list contained confidential information such as unlisted phone numbers that I did not feel I should release."

It was noted that the records that had been in Frindt's possession were the property of Maine Township. Said Trustee Dee Conroy, "No one was allowed to see the Senior Citizens list before Harvey took over the organization. It is still confidential information." Added Trustee Mark Thompson, "The Town Board also has the records for

### ITT... Continued from Page 1

General Assistance and Public Aid recipients. These records are confidential. That is why we're called trustees."

It was noted that under the Freedom of Information Act it would be possible to get some of this information if anyone so desired.

Frindt requested the entire \$85,000 be given to the Maine Township Senior Citizens. "The Maine Township Senior Organization is open to all township residents - not just those in Park Ridge or Des Plaines or Niles. Everyone can come."

There were several questions surrounding the controversy as to why he was not instated as the director of the Maine Township Senior Citizens. Many members of the audience wanted to know why he was no longer head of the organization. Although Supervisor Paul Halverson noted that the purpose of the meeting was to discuss funding of the programs, not personnel decisions, the issue did not die.

"Harvey requested a \$1,700 per month salary," said Halverson. "Under state law this matter has to be taken up at a board meeting. We held a meeting regarding this on April 23. In order to make an informed decision regarding his request we needed the records for the program, which he did not supply. Also, Harvey did not attend the meeting. Without these records and since Harvey did not attend the meeting his request became a demand which we could not honor."

When someone asked Mr. Frindt why he did not attend the April 23 meeting he shouted, "You obviously don't read the papers!" Trustees Mark Thompson, Anita Rifkind and Donna Fitzpatrick have formed the committee that will decide how the funds for the various organizations should be distributed.

Poppy Day... Cont'd from Skokie-L'wood P.1 deceased servicemen. Poppy Chairmen for the three organizations this year are: William Hutchinson and June Czaja, Skokie American Legion Post #320; Walter Motyl and Lena Spahis, Skokie Valley Veterans of Foreign Wars Post #3854; and Norman Feldman and Ruth Pfundstein, Skokie Jewish War Veterans Post #328.

Likewise with Anastasia Mangos. The 12-year-old from Salonika, Greece is Chapter 36 in the book of humanitarian deeds of Chicago. She came to Chicago a year ago suffering from cancer of the left leg. Doctors decided that only amputation could save her life. This done, she returned to Greece and was fitted with an artificial leg that proved too short and clumsy, causing bleeding and pain. Brought back to Chicago and Children's Memorial Hospital because the cancer had spread and chemotherapy treatment was prescribed, her parents and the hospital instituted a search for the funds to purchase a new leg. With only a few hundred dollars raised, Gus Zapas entered the picture and provided the needed \$4,000, guaranteeing a new leg and a new life for the young girl. All this has taken its toll of the Fund. The Clara Zapantis Memorial Foundation could use some replenishing. If you'd like to help out, contributions can be sent to: The Clara Zapantis Memorial Foundation, Post Office Box 5586, Chicago, IL 60680.

brackets, determined by adding the ages of both team members are: 39 or less; 40-59; 60-79; 80-99 and 100 and above.

Entrants may register at any Skokie Federal office or through the mail by calling Linda Sudendorf at 676-5547 or the Les Turner ALS Foundation office, 3325 Main St., Skokie, 679-3311. Skokie Federal Savings which is underwriting the event, is a \$800 million savings association serving the north and northwest suburban area.

Humanitarian... Cont'd from Skokie-L'wood P.1 light by two international incidents.

The part Gus Zapas has played in the saving of countless lives came to the fore when a 30-year-old woman was brought to Chicago from Poland in April of 1984 for open heart surgery, courtesy of Chicago's Alliance of Polish Clubs. Fund raising for the operations of Krystyna Dudzinska (pictured), whose congenital heart defect saps her strength and threatened to shorten her life, fell far short of the considerable funds needed to sustain her long stay here and medical expenses. Then it was that Gus rode to the rescue, providing the necessary thousands of dollars and still helping out, financially and psychologically.

## OCC Acting Up! group

Members of the Acting Up! troupe are (l-r, top row) Margaret Host, Skokie; Fred Abbott, Schiller Park; Estelle Jeral, Skokie; Irv Alberts, Chicago; Dorothy Finkel, Skokie; Paul Giardini, Des Plaines. (l-r, middle row) Birdell Provus, Skokie; Mamie Gertz, Chicago; Flo Echales, Chicago, when the women's "North Shore Harmonizers" chorus directed by Frank Fabian will present their 33rd Annual Spring Show. They will also feature the men's international silver medalists barbershop quartet "Center Stage" from Detroit (pictured) and the men's "New Tradition" chorus of Northbrook, first place champions of the Illinois District.

Acting Up!, an Oakton Community College drama group made up of people all over the age of 60 who write and perform their own work, has been quite busy of late doing just what its names implies.

The 13-member cast believes drama is a good point of reference for audiences of all ages to share in an understanding that growing older can be a time of self-discovery and creativity. The material used is humorous, sometimes outspoken, and always energetic poke at the stereotypes and myths of ageism.

In addition to many performances of their original show, group members have been involved in a number of other activities.

Birdell Provus and Fred Abbott recently appeared on a special interview on active older adults for the NBC-TV program "Today in Chicago." Provus also recently won third prize in a national competition sponsored by the

National Council of Aging for creative writing of fiction, non-fiction and poetry.

Under a grant from the National Endowment for the Humanities, Acting Up! members have been participating in intergenerational programs at four elementary schools in the area: Edison, Morton Grove; Cumberland, Des Plaines; Roosevelt, Park Ridge; and McKenzie, Wilmette.

"The intergenerational programs have been very successful," said Karol Verson, Acting Up! director. "We've been getting inquiries about this program from all over the country, and if we get the grant renewed, we also will be participating in a high school intergenerational program at New Trier and Niles West."

Verson has been busy outside of group activities, too. She recently presented a two-hour workshop in Boston for the Northeast Gerontological Society convention on

creativity and the older adult, and participated on a panel of Jewish Women in the Arts, called "Women in the Director's Chair."

The fast pace will continue for Verson and Acting Up! members. A performance and two workshops are scheduled for May 20-21 in Milwaukee for Artreach, a very successful arts festival. Group members also are continuing to facilitate workshops in six senior centers on a grant from the Illinois Arts Council to inspire other groups to create their own performances and theater groups.

For persons interested in seeing an Acting Up! performance, the Skokie Public Library has one scheduled for June 7, at 7:30 p.m.

The group is available for bookings by calling 635-1410.

Skokie, Niles, Morton Grove members of the "Windy City" Barbershop chorus from the "Northwest Chicago Metro Chapter" of S.P.E.B.S.Q.S.A. (Society for the Preservation and Encouragement of Barbershop Quartet Singing in America) will be greeting ushers, in formal costumes, for the seventeenth consecutive year.

In addition, sophomore percussionist Howard Windmiller (shown above) was named Outstanding Jazz Soloist of the competition. His was the only individual award presented during the festival. While in Orlando, the North band - having been previously selected - marched in the Disney World parade in front of 25,000 people. North orchestra members served as a flag team for the parade performance.

## 33 story units...

Hall.  
According to Attorney Charles Staley, representing the petitioners, the high rises would consist of 41 units with a mixture of high rental and efficiency apartments. Additional plans call for a restaurant and health club, he said.

Officials from nearby municipalities said Monday that approval of buildings "that high" would have an impact on their towns.

Niles Mayor Nicholas Blase said the village would file an objection at the May 24 hearing. "There is no way we (Niles officials) are going to sit still for a 33-story building. We are not looking for another Chicago here in the suburbs," he said.

Noting the project is located near the Village of Niles, Blase said he is opposed to a building's height that exceeds 12 stories. "That is high enough for this part of the suburban area in considering aesthetics. We don't want something standing there along like some kind of towering monument," he added.

A request by the Boston-based North American Investigators Mortgage Investors to construct two 18-story buildings on the former Greenlakes property (now Golf Glen shopping center) on Golf Rd. was opposed by the Niles Village Board in 1978. Board members expressed concern over the height of the building, density, fire protection and security measure for the development.

Plans called for two "Y" shaped buildings, 18 stories in height, consisting of 400 units each, with a connecting parking facility.

According to Joe Salerno, Niles Director of Code Enforcement, the Mortgage Investors firm eventually sold the property to South Mart Corp. headquartered in Atlanta, GA. "South Mart officials have changed from a high rise concept to a two and three-story residential development on the vacant property adjacent to the shopping center," he said. "They are presenting a petition to the Niles zoning board in June or July."

According to Park Ridge Mayor Martin Butler, city officials will be "out in force" at the county zoning hearing to submit objections to the proposed 33-story buildings. "The proposal changes the basic character of that area."

He noted that county officials traditionally have closed their eyes in maintaining the residential nature of the area. "In my opinion, this is a total exploitation of the area for the sake of satisfying greed," Butler said.

Des Plaines Mayor Jack Seitz said the proposed buildings would pose problems for other municipalities. "I'm concerned about fire and police protection (sheriff's police serves the unincorporated area). Additionally, the project would generate more traffic on Golf Rd. which is a problem now."

"Another concern is if this zoning request is approved by the county, it could set a precedent for other such developments in the suburbs," Seitz said, adding that a Des Plaines official would be present at the county hearing. "The height of the building may also run into trouble with the Federal Aviation Administration (FAA)."

According to Art Smock, FAA air space consultant of the Des Plaines air transportation field office, notice of the proposed height of the building must be filed with the FAA "30 days

Continued from P.1

before construction begins" if the building exceeds 200 feet in height.

"We (FAA) determine whether safety factors are involved before approving the project. Since a 33-story height building is approximately 512 feet in height, the developer would have to file the notice," Smock said.

Redding said Monday the proposed buildings would have a "luxurious" concept in design and landscaping amenities. "It will be done in good taste, and I think it will be compatible to the surrounding area," she said.

## District 63...

Cont'd from Niles-E. Maine P.1

Empty space in Melzer school will not be rented because the school may be needed temporarily to move in students while work on asbestos encapsulation is being completed. The work, to be done on one school at a time, is planned for a summer break but may run over into September.

Student bus fees will be \$70 for the 1985-86 school year if \$25 of the fee is paid by June. This allows the District all summer to plan bus routes.

If not paid by June, the fee will be increased by \$50 to \$120. James Bowen, business manager, said a former \$10 penalty for late payment was not effective because parents did not seem to care about a \$10 increase.

## Greenhouse...

Cont'd from Niles-E. Maine P.1  
K&F Cock Robin ice cream store at 6600 Milwaukee Ave. across the street from the Ridgewood Garden Center.

The Cock Robin property was purchased last December for \$129,000, an amount set by two different appraisers in line with county regulations. According to Hodge, the same amount is being offered to the Ridgewood owners.

Additional plans call for acquiring an old greenhouse adjacent to Ridgewood, but Hodge said the plan is not definite at this point in time.

He added village officials asked the county to release \$7,000 from the rehabilitation fund and \$45,000 from the walkway fund. "The village plans to apply for another grant next year to replace the transferred funds."

Dolores Zieglski, owner of the old greenhouse at 6545 Milwaukee Ave. lying adjacent to the Ridgewood center said she is resigned to the eventual sale of her property to the village. "We have been here since 1957. I don't want to leave, but we'll probably have no choice," she said.

Zieglski said she understands the village will help merchants relocate and aid with moving expenses, but the owners must negotiate and pay for the purchase of the property. "I won't mind selling the property if I can relocate in this area," she said.

"The major portion of our business is cemetery trade (nearby St. Adalbert's Cemetery). It won't be a viable business if we are relocated in another section of town," she said. "I know this portion of the block will make way for improvements, so it's a question of time having to sell the property which has been in our family for 28 years."

## Niles library...

Continued from P.1  
Margaret Rajski was formerly policy chairman.

A tour of several library rooms took place for board members to determine which rooms were in need of such repairs as carpeting and new ceiling tile.

Board members approved accepting a \$8,716 bid from National Guardian for a burglar alarm system.

They also approved a purchase request for a microfiche cabinet and a computer compatible with a system now installed in the administrator's office.

It was reported that 1,030 library cards were issued under "Project Plus" funding. Of that number, 922 were issued to residents in unincorporated Glenview and 180 to residents in unincorporated Des Plaines.

A tentative annexation of areas served by "Project Plus" was not continued by the Library because of an angered response from residents in unincorporated Glenview. However, a second cycle of funding, if approved by the State, may force the annexation to a referendum.

In regard to a "literacy grant", the library has been funded to purchase software and books for building language skills in adults.

Duncan J. Mackenzie, library administrator, said 92 percent of the books in the main library are now bar coded and the library will probably be prepared to go on-line in August.

## Grease fire...

Continued from P.1  
by dialing 911 which caused a further delay.

According to the fire department, the fire was struck out in 8 to 10 minutes after their arrival on the scene. Damage was estimated at \$15,000 to the building and \$10,000 to the contents.

Mrs. Gatsacos was taken to Lutheran General Hospital for treatment of her burns by Niles Fire Department paramedics.

Helping Stuart in the everyday business of operating a pipe-making, tobacco-blending, everything-you-need-for-your-smoking-pleasure store are his daughter, Bobbe Kanter, and his son, Elliott.

The Cellini Fine Pipes store is world renowned and is listed in a French guide as one of the top five places to visit in the Chicago area.
