Maine Township tax levy up 4.6 percent

The Maine Township Board Tuesday, Aug. 27, approved a \$1,671,500 tax levy for fiscal 1985-86, a 4.6 percent increase over last year's levy of \$1,597,500.

Township Supervisor Paul K. Halverson pointed out that this year's increase was less than last year's.

"Last year's levy rose \$87,258, a 5.8 percent increase over the 1983-84 levy of \$1,510,242. I am very proud of the fact that with

careful planning we were able to reduce that increase this year to \$74,000," Halverson said.

The Levy includes \$786,900 for the General Town Fund, \$260,000 for the General Assistance Fund and \$625,500 for the Road and Bridge Fund.

The General Town Fund increased 4.8 percent, most of which reflects increased costs for utilities and salaries. A 4 percent rise in the General Assistance

Fund can be attributed to an increased caseload over the past few years.

"We expect this to level off now that the economy has picked up," Halverson said.

A 4.7 percent increase in the Road and Bridge Fund is primarily due to the increased cost of contractual services for road, curb and gutter repair and maintenance, according to

The candidates will run for six-year terms on the board for the two positions left vacant by Goren and Jan Juckett, who has served since 1977 and decided not to seek re-election, according to an Oakton spokesman.

\$50,000 liability insurance provides adequate protection

Insurance hike raises Park tax levy

Formal approval of the Niles Park District's 1985 tax levy was delayed at last week's public hearing because of a recommendation by park commissioners to increase the amount levied for the liability insurance fund.

According to Hugh Hughes, director of parks and recreation, the original figure of \$10,000 has been revised to \$50,000 for liability insurance. "At last week's hearing, Commissioner Mary Marusek alerted the board

that the Park District Risk Management (liability insurance) would be increased by 75 percent. "Insurance costs are rising because of claims. We have to raise the levy for insurance in an effort to cover the expected PDRM increase and to provide adequate protection for the park district," Hughes said.

With the change, the total levy for the 1985-86 fiscal year will be \$1,235,987, instead of the original

The "Illegal Illini" begin their football season Saturday against Southern California. It is being billed as the "game of the year", the "game of the season" and the "game of the century" by the frenzied followers who will begin their weekly tailgate parties alongside Memorial Stadium.

The tab, "Illegal Illini" is an apt description to apply to the orange and blue sports teams. In its desire to fill the stadium the Illinois people have cut a few corners to get a leg up on their competition. They brought in a football coach and associates, some who had questionable credentials before they came to Champaign. They then began importing junior college players, mostly from California, whose academic credentials are at best suspect.

The Illinois basketball team, which has one great player from the Chicago area, was alleged to have had his high school records doctored which enabled him to enter the school as a freshman. It was a tawdry display of manipulation which certainly reflects poorly on one of the top academic schools in America.

Back in the late thirties Robert Hutchins pulled the University of Chicago out of the Big Ten and eliminated the football program. He warned,

OMHC volunteers to be honored

In the past few years, the number of volunteers choosing to give time to various tasks and projects at Orchard Mental Health Center of Niles Township has grown substantially. Volunteers are very special people who are community minded and willing to give their time and skills to serve others. This need has been particularly important to the Center since at the same time that local funding cuts have occurred with subsequent reduction of staff, the Agency's workload has increased.

To show the Agency's appreciation for their dedication and concern, 11 volunteers will be honored at a luncheon on Friday, September 6 at Great Godfrey's Restaurant. Of the group, 5 have given three years of continuous time and are planning to continue. If you are interested in volunteering, please call Olga Kreisberg, 967-7300.

Maine Township electors approve pension plan

It was grass roots government in action Tuesday, Aug. 27, when Maine Township residents at a special Town Meeting overwhelmingly approved a pension plan for township employees.

The township electorate voted 46 to 1 to allow the township to participate in the Illinois Municipal Retirement Fund, a pension program used by more than 2,300 municipalities within the state. A similar proposal was rejected by the township electorate at a Town Meeting three years ago, according to Township Supervisor Paul K. Halverson.

Participation in the IMRF will begin Jan. 1, 1986 and coverage includes all employees who work more than 1,000 hours a year.

The cost to the township for the first year will be \$39,403 or 8.76 percent of its payroll. Employees will contribute 4.5 percent of their earnings.

The plan provides retirement, disability and death benefits. Employees must have at least eight years of service and be 55 or older to qualify for an IMRF pension.

Halverson, who served as moderator of the Town Meeting said, "This action came after a full discussion of the program with township employees and residents. The program has been established by the state legislature to provide a sound pension plan for local government employees. The IMRF provides extensive benefits for participants and, I believe, will help us attract and keep the most capable and qualified employees."

Halverson added, "To the best of my knowledge, Maine Township is the last local government in this area to adopt a pension plan."

Maine Beat

IN THE SPOTLIGHT... Lawrence Weiner, attorney for the Niles Park District board, is representing Ruth Love who is involved in a civil rights suit in Federal court. Weiner's list of well-known clients include Jeanne Eckmann whose story will become the subject of a television docu-drama produced by Norman Lear ("All In The Family" etc.).

According to Weiner...Jeanne, who was a novice in the late 1970s decided to change her career and subsequently was hired as a teacher in a Morengo public school. Keeping faith with her religion, she made retreats on an annual basis and on the way back from a retreat in 1980, Jeanne picked up a hitchhiker who raped her.

Weiner said the school board claimed she was an unwed mother and gave her the option of submitting her resignation or giving up the baby for adoption. After she refused the proposals, Jeanne was dismissed for immorality...and then became the subject of media attention when she filed a civil rights action suit. Weiner, one of the attorneys in the case, said that Eckmann was recently awarded \$3.3 million by a Federal court jury in Rockford.

The two-hour docu-drama flick will star Ann-Margaret. The script is in the process of being written with input from Weiner...who will not appear in the movie. Noted for his sense of humor, Larry said he would like to see Robert Redford play the attorney's role... "or Paul Newman because he's half-Jewish."

Larry's wife, Terry Temper, also plans to write a book on the Eckmann story. No notice as an author, "Terry penned a book last year titled "The New Entrepreneurs," which did well at the bookstands.

BOYS OF SUMMER...last year's Niles Village-Park softball team romped all over the Niles Chamber Codgers by a score of 15 to 5. But there's always another season...this year the Chamber team came back and whipped the NYP team 14 to 11. It wasn't all fun and games...hizzoner Nicholas Blase twisted his knee while pitching the game and ended up on crutches.

ON THE BEAT...the new Wildflower Restaurant had wall-to-wall people at its recent grand opening. Sipping champagne and enjoying gourmet hors d'oeuvres were political figures, village officials and well-wishers including Ed Hanson, sales rep for the Bugle Newspapers...looking dapper in a ruffled white shirt accented by a red bow tie. The beautiful restaurant on Milwaukee Av. which boasts two bars and a menu that ranks with the best at moderate prices...is a copy of the Wildflower eatery in Boca Raton, Florida. It's an asset to Niles and should draw people from the outlying suburbs when the word gets around. Owners are John Wittmus and Virgil Di Nicola.

ON THE BOARDS...The Center of Deafness in Des Plaines...which sponsors a children's theatre featuring the Traveling Hands Troupe invites special hearing impaired persons to audition for roles in "Sound of Music." Auditions will be held at 7 p.m. Sept. 18 at the former Apollo School, 10100 Dee Rd., Des Plaines. Rehearsals will be every Wednesday from 6:30 p.m. to 8:30 p.m. beginning Sept. 23.

Area residents can audition for the following character roles in the play: the Rev. Mother, three nuns, governess (Maria), Capt. Von Trapp, seven children ranging from 5 to 16 years of age, Baroness Von Schrader, Max Det Weiler, Rolph, butler, housekeeper and two German soldiers.

A trip is planned to perform the play in Southern Illinois March 31 through April 26. The traveling Hands Troupe recently worked at the Jerry Lewis MD Telethon at the Hamilton Hotel near Woodfield.

WORTH MENTIONING...Whitey Daniel, trustee of the North Maine Fire Protection District called the Bugle office to say the total amount of the broker's fee he received for setting up the district's new health and life insurance in January...is in the neighborhood of \$900. A fellow board member last month estimated the amount between \$2,000 and \$4,000 in a statement to a community newsie. The case is currently under investigation by the State's Attorney's office to determine whether a possible violation exists.

Firemen extinguish kitchen fire

A kitchen fire at 7614 Waukegan Rd. was quickly extinguished by Niles firemen Wednesday, Aug. 28, resulting in damage estimated at \$1,000.

Rate of 9.9 percent for first time homebuyers

Niles gets \$1.1 million for Home Mortgage funds

by Sylvia Dalrymple

The Village of Niles was allocated approximately \$1.1 million for the Cook County Single Family Mortgage Purchase Program which allows qualified first-time homebuyers the chance to purchase homes at a below-market interest rate of 9.9 percent.

The county is going into its fourth year in selling bonds and making the low-interest rate mortgage loans available.

A total of \$74.9 million is available in more than 100 communities through 18 participating banks and 22 participating builders.

Under the program, qualified buyers must not have owned or had partial ownership for three years prior to the date of the mortgage loan. They also must have an acceptable credit history and sufficient income to be accepted. The buyer cannot have an annual adjusted income exceeding \$31,400, according to county officials.

The loans may be used to purchase single-family residences, including condominiums and townhouses. Purchase price cannot exceed \$120,500 for new homes and \$101,090 for existing single family homes.

Buyers who have signed a purchase contract for a home on or after Aug. 9 can contact one of the participating lenders by telephone beginning Sept. 9 at 9 a.m. Only telephone reservations are being accepted and applicants should have the following information: name, current address, adjusted gross income of borrower and spouse, property address and mortgage amount. Loans are on a first-come, first-served basis.

Area participating banks are First National Bank of Skokie, 8801 N. Lincoln Av. (673-2500) and Talman Home Federal Savings and Loan, 2454 W. Dempster St., Des Plaines (296-1914).

Jeff Bell, Niles finance director, sees the program as a way to attract young families to Niles. "It's a tremendous vehicle for our community because they are first-time homeowners," Bell said. "The below market interest rate and a 30-year term fixed mortgage plan is more attractive to young families than conventional financing."

LWV plans program on child abuse

The Niles-Morton Grove League of Women Voters' Fall Kickoff is featuring two experts who will jointly address the topic of "Prevention of Child Abuse." Both Sgt. Katsoulias and Officer Borucki have been working on the I-SEARCH program of Morton Grove-Niles. The police departments of both villages have copies of the videotape, Strong Kids, Safe Kids, produced by Paramount Pictures and starring Henry Winkler. John Continued on Page 30

Sapphires

The name Sapphire used to be used for many different stones. As late as the middle ages, the name sapphire was understood to mean, what today is called Lapis. Around 1800 it was recognized that sapphire and ruby are gem varieties of corundum. The blue variety was called sapphire and corundums of other colors (except red) were given special, misleading names, such as "Oriental Peridot" for the green variety or "Oriental Topaz" for the yellow type. Today corundums of all colors, except red, are called sapphires. Red varieties are called rubies. The most desirable blue sapphire is the medium blue color with a lot of luster (sparkly) and are the more valuable stones.

Add-A-Crunch Adds Fiber Deliciously

We have all heard about the health benefits of eating high fiber foods. With little or no calories, dietary fiber supplies roughage and bulk that help satisfy the appetite and keep the digestive system running smoothly. But what about variety? Is bran the only answer? You have many more fiber choices than you may think. And breakfast isn't the only meal for adding fiber to your daily diet. Fill up on fiber with a cool barley salad for lunch. Follow your dinner-time bean burritos with an apple-ot crisp for dessert. Snack on dried fruits and nuts in the evening. Leave the peels on fruits and vegetables. Keep a canned assortment of high fiber beans—kidney, red and pork and beans—to add to soups, stews, casseroles and marinated salads. Here's a fun way to add fiber to your diet. You won't become bored with Cinnamon Add-A-Crunch, a versatile topping you'll enjoy finding new ways to use. Sprinkle this tasty treat over any food where you might normally use nuts...on puddings, ice cream, oatmeal, fruits and fruit salads. It's easy to prepare and can be stored tightly covered in the refrigerator up to 3 months. Take a small plastic bag of Add-A-Crunch to work and stir into your lunchtime yogurt.

Cinnamon Add-A-Crunch
Makes About 2 Cups

- 1 1/4 cups Quaker Oats (quick or old fashioned, uncooked)
- 1/3 cup firmly packed brown sugar
- 1/3 cup butter or margarine, melted
- 1/3 cup wheat germ, unprocessed bran or chopped nuts, if desired
- 1/4 teaspoon cinnamon

Combine all ingredients; mix well. Cook in 10-inch skillet over medium heat, stirring constantly, 5 to 7 minutes or until golden brown. Spread onto ungreased cookie sheet to cool; store in tightly covered container in refrigerator up to 3 months. Serve as topping over fruit salad, fruit, yogurt, frozen yogurt, ice cream or pudding.

Free Fiber Recipes
Adding fiber to your diet doesn't mean subtracting good taste. The Quaker Kitchens have developed delicious recipes which help you add fiber to breakfast, lunch, dinner and snacktime. The recipes start with oats, a whole grain that's one of the very best sources of water-soluble fiber. That's the kind of fiber that research is showing can actually reduce your cholesterol level. All of the recipes in Quaker's Food, Fiber & Fitness pamphlet have been developed for persons on low-cholesterol, low-sodium, glucose metabolism, weight reduction and healthy eating diets. Full nutritional information and diabetic exchanges are provided for each recipe. Doctors and dietitians across the country are providing this pamphlet to their patients. Carroll seeks crackdown on passengers with drunk drivers

Legislation that would make a passenger bear responsibility for knowingly riding in a car with a driver under the influence of alcohol or drugs was introduced today in the Illinois Senate by Senator Howard Carroll (D-1st District). Senator Carroll said his bill amends the Illinois DUI law, giving judges the discretionary power to order passengers riding in a car at the time of a DUI offense to do community service work. Passengers could be ordered to do community service upon the conviction or plea of the driver to a DUI charge, but no fine or other sentence could be imposed on them. The order would not appear on the person's arrest record, or count as a moving violation against his driver's license. "This bill spreads some of the responsibility for drunk driving to those who know or should have reason to know that the driver is intoxicated, but get into the car anyway, thus contributing to a potentially dangerous or deadly situation," Senator Carroll said. The senator noted that despite law enforcement efforts throughout the state to crack down on drinking and driving, the drunk driver continues to be a problem, suggesting the need for different approaches to curb such behavior. "This measure will force a passenger to think twice before getting into a car with a drunk driver, and that peer pressure could go a long way toward stopping a potential disaster. 'If you can't talk a friend out of driving while he's drunk, then don't ride with him. Maybe that kind of pressure will keep him from driving, especially a teenage driver,' Senator Carroll said. He said the idea for his bill was inspired by programs developed by Chicago restaurateurs who offer free non-alcoholic beverages and sometimes food to those who abstain from alcohol as the "designated driver" for their dinner party. "Gene Sage and other restaurant owners who have made such offers are to be commended for the concern they have shown about the problem of drunk driving. Programs like their's and a law that makes passengers share the responsibility for drunk driving would beef up our efforts to stop this crime," Senator Carroll added.

Tire blow out safety tips

Sudden shocks caused by tires running off the edge of the pavement or blowing out may cause drivers to panic and result in a serious accident. Staying calm is the first step in handling these situations safely. If your vehicle accidentally runs off the edge of the pavement, do not panic. Grip the steering wheel firmly, take your foot off the gas pedal and use the brakes carefully. Slamming on the brakes may cause the vehicle to skid out of control. And most important, do not attempt to turn back onto the pavement immediately. Wait until your speed has been greatly reduced, check the traffic behind you and turn your wheels sharply enough to get back on the road safely. Watch for sharp drop-offs from the pavement to the shoulder. When turning back onto the pavement, drive slowly enough to avoid crossing the centerline into oncoming traffic or traveling across the road into the opposite ditch. If a tire blows out, do not apply the brakes. Hold the steering wheel firmly, take your foot off the gas pedal and let the car coast to a stop. Do not turn onto the shoulder of the road until the car is almost stopped.

Chiropractic care aids seniors in staying active

As growing numbers of senior citizens learn about chiropractic care, many are discovering that they need not continue to suffer from nagging pain and stiffness from simple day-to-day activities. According to James Walsh, of the Parkway Chiropractic Center, 835 B Touhy ave., Park Ridge, chiropractic consultation "is helping many patients stay active and vibrant, and keep them feeling younger longer."

A common-sense approach to health care and treatment, Dr. Walsh said, has helped alleviate chronic problems that have persisted for many years in some cases.

Misalignments of the spine can pinch nerves and cause muscle spasms, often aggravating chronic conditions such as arthritis, stiffness, and circulatory disorders. As a result, Dr. Walsh

said, older people often experience discomfort during everyday activities such as gardening, shopping and even getting in and out of bed. Daily stress compounds these problems.

"We also see a lot of new patients who have been taking multiple painkillers which haven't been doing the trick," he added.

Dr. Walsh and his colleague, Dr. Robert Peck, in addition to extensive educational backgrounds, both participate in monthly seminars to update their expertise in chiropractic techniques. The Parkway Clinic employs a comprehensive, holistic approach to health care, incorporating manipulative therapy to correct misalignments, proper stretching, exercise, and nutrition.

"In this way we promote a natural healing process, and let the body heal itself. We have found that this method produces excellent results," Dr. Walsh stated.

Dr. Louis Sportelli, in his book *Introduction to Chiropractic: A Natural Method of Health Care*, writes, "The chiropractic profession has always focused a high degree of attention on the senior citizen, (on) making the older person better able to function as a vital member of society. Remember, 'youth is a age.'"

Dr. Walsh agreed that a change in mental attitude is an important result of treatment that accompanies physical healing. "We stress the positive," he said, "because when you smile, the whole world smiles with you; but when you cry, you cry alone."

It's sad. We can't take it for granted anymore that our children will make it to school, or the store, or the movies, and back.

We can't be sure it's safe for them to play in the park, or the schoolyard, or even the front yard, alone.

Until we can again, until they're finally out of danger, we're turning every Edison employe into family. To give kids in trouble or lost someone to turn to, someone who cares, when there's no police officer close by.

It's not a solution to the problem by any means, but it's a start. A team effort that all of us at Commonwealth Edison take very seriously. Especially the hundreds of crews we have working out on the streets.

Your kids can spot our trucks a long way off. When they see that big E in our logo, or the E-team emblem, they'll know they're among friends.

Please, tell em to look for us.

Skokie Trust smoke alarm giveaway

During the first month of a seven-week fire safety program, Skokie Trust & Savings Bank and other banks in the Cole-Taylor Financial Group have distributed over 1,000 free smoke alarms to their customers.

The campaign, which begins July 15, was part of an overall fire prevention program to make customers and the community aware of the seriousness of home fire hazards. Each of the Cole-Taylor banks presented

customers with a Lifesaver smoke alarm for depositing \$500 in a new checking account or \$500 in a new or existing savings account.

According to the National Fire Protection Association, statistics show that 65% of deaths in home fires are caused by asphyxiation, not flames. By giving away smoke alarms, Skokie Trust hopes to reduce the number of deaths caused by smoke in home fires.

Wesley Day Care recognized for excellence

Wesley Day Care Center, 727 Harlem Ave., Glenview, accepts children 2½ through 6 years of age in a program recognized by local educators for its excellence. A great deal more than a baby-sitting service, Wesley incorporates a complete child development program into the day care. All activities are under the direct supervision of staff with degrees in education or early child development and, with a child-faculty ratio that exceeds state requirements, Wesley offers each child in its program the opportunity for the greatest possible personal attention from an interaction with a nurturing adult. Noteworthy, too, is the stability of the Wesley staff, most of whom have been with the 11-year-old program since its early years.

Each day offers children opportunities to take part in a wide variety of activities, according to their interests and needs, including creative arts, scientific "experiments," and other cognitive and motor activities designed to nurture the child's physical, intellectual, social, and emotional growth. These activities take place in bright, comfortable surroundings designed and furnished specifically for preschoolers. Two large, fenced-in playgrounds are available for outdoor play and there is a full-size gymnasium for inclement days. A nutritionally-sound breakfast, hot lunch, and afternoon snack are provided.

The Wesley Day Care Center is open 6:45 a.m. through 6 p.m. Monday through Friday throughout the year, except for eight major holidays. For detailed information about registration, tuition, and scholarship assistance, or to arrange a visit, call 729-0184.

Pre-School at Golf Maine

The Golf Maine Park District is currently taking registration for this fall's Pre-School program. The park district offers two separate classes, one for those who will be 3 years of age by December 1, 1985 and one for those children who will be entering Kindergarten in the fall of 1986.

The 3-year-old class meets on Monday, Wednesday and Friday mornings from 9 to 11:15 a.m. The morning session is designed to aid the child's socialization process while providing a pleasant atmosphere for individual growth.

The 4-year-old class meets on Monday, Wednesday and Friday afternoons from 12:30 until 3 p.m. The objective of this class is to develop and refine learning skills in preparation for elementary school while continuing to emphasize the socialization process. Session I for both the morning and afternoon program starts on Wednesday, Sept. 4 and continues

Training workshop on communication skills

Do you feel uneasy in social situations? Do you often feel put down or cheated? Would you like to improve your communication skills and feel better about yourself?

A three week training workshop on Assertive Communication Skills will be offered in the offices of Medical and Surgical Associates of Park Ridge, 112 S. Northwest hwy., Park Ridge. Pamela Schulz, MSW, Social Service Consultant in the office and licensed social worker in Illinois, will conduct the workshop which will meet from 7:30 to 9 p.m. on three consecutive Wednesday evenings beginning September 25 and continuing October 2 and 9.

Topics to be discussed over the three week period will include: assertive communication as it varies from passive and aggressive patterns, the consequences of non-assertive patterns and things which promote them, the advantages of assertive patterns, situations in which people typically have difficulty being assertive, criteria for assertive behavior and reinforcers of assertive behavior. Participants will have an opportunity to complete an assessment of

their present assertiveness level, evaluate their reactions in social situations, and establish their own specific assertiveness goals. A step-by-step model for assertiveness communication will be presented with participants having opportunities to practice these new skills and techniques. The charge of \$25 for the workshop includes all instruction and materials. Because of the practical nature of this workshop, space is limited to the first 15 people. For more information and reservations contact Pamela Schulz at 696-3370.

Meanwhile, if you are of legal age you can have fun and frolic the bounds of good decorum at FRANKIE D'S epic and span English type Pub. And now they're open at 8 a.m. every Sunday mornings and you can get FREE food both Saturday and Sunday from noon until the supply runs out.

Yes, and all unescorted ladies drinks on Wednesdays evenings from 6:30 'til 4 a.m. ARE HALF PRICE.

But FRANKIE D'S PUB has many more things going for it. Why don't you drop in and find out for yourself? Like their wonderful sandwiches of corned beef, Polish ham and savory roast beef. Believe me, they're a meal in themselves.

I said to Fabulous Frankie D the other night, "Hey Frankie, how come your attractive girl bartenders don't check my I.D.?"

Frankie laughed, "Ed, You're gonna be 75".

"Yeah, wiseguy. But when I was born they used a different calendar. According to THAT calendar, I'm 19 - but I've led a fast life!"

HOSPITAL NEWS

I BET YOU DIDN'T KNOW

By Jim Jennings

Here's an amusing football fact. A son and his father were BOTH voted "Coach of the Year" in college football the SAME year! Johnny Majors was voted "Coach of the Year" for major-college football in 1972 when he coached Pitt and his father, Shirley Majors, was voted "Coach of the Year" in small-college football for his coaching at Sevenson that same season.

One of the strangest things that ever happened in baseball was when a batter hit a fly ball that NEVER CAME DOWN. It happened at the indoor Minneapolis Metrodome on May 4, 1984 when Dave Kingman of Oakland hit a high fly ball that got caught in the netting of the fabric ceiling of the dome. The ball stuck there and didn't come down. The umpires decided it was a ground rule double.

Incidentally, a team in the National Football League once played a whole game without gaining ANY yardage. Seattle, in a game against the Rams in 1979, had an official total of NEGATIVE 7 yards rushing and passing for the entire day...Unbelievable, but true.

Volunteers honored New addition to Northwest Podiatry

Dr. Gregory C. Bryniczka and Dr. Joseph M. Blair, are pleased to announce the addition of Dr. Gary F. Ochwat to the staff of Northwest Podiatry Center. Dr. Ochwat attended Dr. William Schwat College of Podiatry and recently completed his two year residency at St. Anne's West Hospital in Northlake. He specializes in surgery of the foot and ankle, children's orthopedics and sports medicine.

Steve Wilson, director of corporate services at Swedish Covenant Hospital, 5145 N. California, congratulates Volunteers Doris Anderson of the North Park area (l) and Bea Herrmann of Lincolnwood for each of their 3000 hours of volunteer service. Both were recognized at the hospital's recent Volunteer Luncheon held at Dileo's restaurant.

Rainbow Hospice schedules volunteer training

Rainbow Hospice, a non profit community based program has announced its fall volunteer training session. Classes will begin on Saturday, September 21 from 9:30 a.m. to 3:30 p.m. at Resurrection Hospital 7435 W. Talcott, Chicago. Classes will continue for nine Saturdays from 10 a.m. until noon.

Rainbow Hospice offers supportive care to terminally ill patients and their families throughout the northwest metropolitan area. Volunteers are trained and continually supported by a social worker experienced in the hospice field. The training teaches volunteers empathic listening and offers suggestions on the kind of direct care which eases stress and allows a family the freedom and the time to deal with the immense changes taking place in their lives.

Rainbow Hospice has recently signed an agreement with Resurrection Hospital to provide services to patients referred by hospital personnel. Because of this agreement there is an urgent need to recruit and train volunteers from the area surrounding

Dr. Gary Ochwat Northwest Podiatry is located at 7954 W. Oakton, Niles. With the addition of Dr. Ochwat, Northwest Podiatry will now have a doctor available six days a week for your convenience.

North Side Dental Assistants Programs

The North Northwest Branch of the Chicago Dental Assistants will begin their meetings on Tuesday, September 10. Once again we will be meeting at the Red Lobster, located at 4401 N. Cumberland Ave., Norridge, IL. Starting time will begin with cocktails at 6:30 p.m. followed by dinner at 7. Our meeting will begin promptly at 8 p.m.

Our speakers for the first meeting of the year should be of interest to all. Our speakers will be Dr. Morgan who will speak on "Locating Missing Children through Dental Records" plus, William Werner, M.D. who will talk about "Substance Abuse Among Professionals." This promises to be a very educating evening.

Better Breathers Club meeting

The Better Breathers Club of Swedish Covenant Hospital will meet in the Hospital's Anderson Pavilion Auditorium, 2751 W. Winona, at 7:30 p.m. on Thursday, Sept. 12.

Iraj Delfani, M.D., pulmonary physician on the staff of Swedish Covenant Hospital, will speak on "Pulmonary Emphysema and Chronic Bronchitis."

The Better Breathers Club meets on the second Thursday of every month with programs of interest to people with lung disease and their families.

The meetings are free of charge and open to the public. For additional information, contact Jill Mavrinac, 878-8200, Ext. 5391.

Confirmation classes begin at Messiah Lutheran

Confirmation instruction for 7th and 8th graders begins at Messiah Lutheran Church, 1605 Vernon, Park Ridge, on Sept. 12. Classes will meet every Thursday from 4 to 5:30 p.m. Pastor David Ufkes will lead the 7th grade class and Pastor Gaylen Gilbertson, the 8th grade.

Third year confirmants (those to be confirmed on October 27), will have their first class on Wednesday, Sept. 11, at 4 p.m. At that time a schedule will be arranged for the six remaining sessions.

On August 29, all 7th-9th grade

confirmants met for an orientation session. Their parents also attended. Materials were distributed and an outline of the course of study was presented. Parents are urged to stress the importance of confirmation instruction for their children and to assist them in completing all required assignments.

If there are any 7th graders in the community who wish to begin Lutheran Confirmation instruction at Messiah, they may still do so by phoning the church office, 823-6964, for further information.

Weight Control and Fitness Class

If you've been wanting to shed some unwanted pounds, make plans to attend a "Weight Control and Fitness Class" on Tuesday and Thursday evenings beginning September 10 through November 7 at Holy Family Ambulatory Care Center, 201 E. Strong Ave. in Wheeling.

Each participant will receive an individualized diet plan, supervised exercise program, information on cooking, eating out, calorie counting and more.

"We try to teach people ways to stay in shape by changing long term life habits, not just teaching them short term dietary changes. Some people just need to identify their areas for improvement, like eliminating a snack for example," says Monika Woolsey, R.D. Clinical Dietitian and Class Instructor. "We also include information on how to stay in shape and even lose weight through special events such as a vacation, a wedding or holidays," she added.

The fee for the classes is \$75, \$25 is refunded after attending all sessions. Classes are held Tuesdays from 6:30 to 8:30 p.m. and Thursdays from 7:45 to 8:30 p.m. For more information or to

Morton Grove Woman's Club plan "heel-kicking" meeting

The Patent Pending, A lady all-girl "Hill-Billy" Band with class, from the little town of Happy Hollow, U.S.A., will be heading for the Morton Grove Fireside on September 12, to perform for the first meeting of the Morton Grove Woman's Club for the new year.

These country gals describe their show as a comedy set to music. They have been delivering fun and home-spun humor to all kinds of audiences for the past ten years. They will play and sing oldies, goldies, mountain music and such a variety of ditties as to tickle the fancy and funny bones of all.

They have treated the eyes and ears of audiences in Chicagoland and surrounding communities who have traveled as far as Florida, Tennessee, Washington

D.C., and California, playing a variety of instruments which they laughingly agree includes everything but the kitchen sink. Patent Pending 13804, the group's official name, is taken from the inscription on their washboard.

The new officers of the club will welcome this group for the afternoon meeting for the members. Anyone interested in joining the Morton Grove Woman's Club can write to the membership chairman Marabelle Dinga, 6513 Palma Ln., Morton Grove, IL, 60053.

From the Left Hand

45 years ago, about the unethical conduct of schools whose desire to win compromised the integrity of their schools. Today, there is no greater example than the University of Illinois.

While ranking schools has often been an arbitrary exercise of little meaning, nevertheless the number of individual schools at Campagna have often been among the top five in the United States, and several have been ranked among the top ten Illinois engineering, chemistry, architecture and business schools are among the very best in the nation. It's veterinary school is also tops. In the social sciences, the schools rank among the nation's best. It's academic tradition is one which all Illinoisans can be proud of.

But this great university is compromising itself in creating winning sports teams. While it is teaching its students the values of high ethical society, it is scoffing at these same high deals by importing athletes whose academic credentials are at best sketchy.

What's sad about the whole matter is not many people seem to care. The alumni and the politicians and the students themselves want a winner. And when they get one they fill all the seats every Saturday. It doesn't matter that the team they're cheering for is winning because they cut a corner their competition didn't cut. It only matters that their team wins.

After the games the tailgaters, who are often in a haze before they get inside the stadium, will renew their celebrating well into the night. They'll be celebrating "their" team's winning. No matter that it was done by a bit of cunning, by sliding by the rules. "Their" team won and that's all that matters.

Last year basketball coaches Bobby Knight and

Digger Phelps, from Indiana and Notre Dame, both decried what is happening at schools such as Illinois. There was little doubt Coach Knight was not talking about schools "like" Illinois. He was pointing a finger at Illinois, who he inferred was not playing the recruiting game by the rules.

What is sad about the matter is 70,000 fans every week will be ecstatic over their team's winning. But the students, who the university was created for, will have learned cutting corners makes winners and puts lots of dollars in the coffers. It may be the prime lesson they carry with them the rest of their lives.

The politicians down at Springfield are as much responsible for what is happening as anyone. Many of them are experts at compromising and cutting corners. They see no reason not to apply this same ethic to the university's sports program.

Less than three months from now the football season will be over. Since the school is already prevented from participating in post-season games because of past rules violations, the end results of all this hub-bub will be some fond memories by the boys and girls of all ages who rooted for a winner. The coach will soon move on to another school. One or two ballplayers might move on to the pro ranks. And a great number of the athletes will never finish their curriculum. The athletes' graduation records at Illinois are quite dismal.

When you hear the stirring music from Campagna on the coming Saturday afternoons, or if you watch the marching band march out of the stadium and double time down the campus, you can stomp your foot, become stirred by the rich traditions and cheer lustily along with those lovely cheerleaders. But don't take it too seriously. You're rooting for a business, whose colors

Continued from Page 1

are greenbacks, and whose latter day traditions flaunt all the efforts of the good people who made the university attain international fame.

It's sort of like rooting for John Dillinger or old Ma Barker. While they were robbing those banks they had a certain style, a certain bravado. While they were winning they were exciting to read about. When they finally became losers it really didn't matter. It was the romp and the chase and the excitement which was important.

In the coming year the "Illegal Illini" will give a mighty romp, a great chase and will be very exciting.

each of the 1985-86 and 1986-87 academic years, the Sears P.D.F. will award \$300,000 in competitive grants to two-year colleges on a request-for-proposal basis. The purpose of the grant is to encourage the development and strengthening of partnership activities between community, technical and junior colleges; and business/industry/labor, public employers, small business, and high schools.

More than \$3 million was requested by the 186 proposals submitted for the 1985-86 grants. A total of 29 grants valued at \$296,000 were funded. Each proposal was read twice - once by someone associated with a college and once by someone from business, according to Jim McKenney, of the AACJC. The proposals were rated on merit, geographic distribution, and obtaining a balanced mix of projects.

Goren, Feldman and Lipina are attorneys. Hall is a committeewoman for the Maine Township Republican organization and Petroski is a peer advisor at Skokie. Candidates Rosenzweig is a publicist, and Stetson is an assistant provost at Northeastern Illinois University.

Harris, assistant director of the Maine-Oakton-Niles-New Trier Adult Continuing Education Program (MONNACEP), told Bugle Newspapers, he plans to retire from that position within a year, if any conflict of interest poses a problem. "If Oakton's legal counsel would recommend such a move...I'm elected...I would follow that recommendation without hesitation," he said Friday.

\$1,195,987 figure. Final approval of the levy will wait until a second public hearing which is scheduled for 5 p.m., Sept. 12 at the district's administration office, 7877 Milwaukee Av.

The park district's 1984-85 tax levy was \$825,329. This year's increase to the revised figure of \$1,235,987 is attributed to operational costs and park improvements.

Hughes said a tax increase...which he noted would be "minimal" if it occurs...would depend on the new tax rate based on assessed valuation of property. "I don't know if there will be a significant change in the rate because there is a reduction in the bond and interest fund that could offset a tax increase," he said.

Two new funds were levied this year for paving, lighting and police security. Hughes explained legislation was passed in 1984 which allows park districts to levy a tax for those two items. The district has budgeted \$18,500 for paving and lighting and \$35,000 for police, he said.

taining a balanced mix of projects.

"We're very excited about receiving this grant," said OCC President Thomas TenHoeve. "Changes in technology and corporate procedures require constant modifications in college classroom activities and offerings. We want to make sure that people are prepared for the needs of their prospective employers, and we believe this grant will make it possible for us to provide senior faculty members with opportunities to become current in the disciplines they teach. The grant also allows us to assist small businesses with resources and expertise, and to cooperate with the high schools in providing opportunities for students to engage in career exploration."

Boxleitner's parents, Clifford and Diane Boxleitner of Mount Prospect, will be in the car with their famous son, who will have to return to the West Coast soon after the day's festivities to resume filming on his popular series, seen Mondays at 7 p.m. on Channel 2 (CBS). NFS plans workshop

Niles Family Service is excited to announce an end to fights about your children doing their homework, yelling at your kids to do their chores, and nagging them to become responsible! No, we are not going to give you new kids. We will give you a new way to handle these kid problems and a new way to avoid the battles that both of you lose. Dr. James Cisek, a publisher of over nine books and many professional articles, will offer a workshop at the agency at 8060 Oakton st., Niles at 7:30 on September 10. In this workshop he will discuss such important topics as: 1. How to teach responsibility. 2. How to change negative attitudes to positive attitudes. 3. How to turn discipline into an educational and positive experience, rather than a punitive and negative experience.

MG Legion Post blood drive

The Morton Grove American Legion Post 134 cooperate with the village program of blood solicitation twice a year. The next semi-annual Legion Night will be Thursday, Sept. 5. The Legion is asking their members and their families to turn out at the Village Administration Building between 3:30-7:30 p.m. to contribute blood.

Mad Kimura says that the Legion Post will serve refreshments at the Memorial Home, 6140 Dempster, following this particular Thursday drive. The Legion itself still conducts drives, but via the Bloodmobile from the Hines VA Hospital periodically throughout the year. Kimura and his fellow Legionnaires are frequent donors in the village program, however, and continually urge their membership to participate.
