Local stores remove Tylenol capsules in new scare

by Sylvia Dalrymple

Local chain stores and pharmacies will keep packages of Tylenol capsules...Extra-Strength or regular" off their shelves as a precautionary measure until further notice by state and federal officials.

In a random check of stores that carry Tylenol products in Niles, it was learned the majority voluntarily removed the capsules from their shelves on Tuesday, Feb. 11 when it was reported a New York woman had died of

cyanide poisoning after taking the pain relieving drug. The Food and Drug Administration on Feb. 14 issued a nationwide warning against using Tylenol capsules regarding...

Library studies means to recover \$33,000 in fines

by Eileen Hirschfeld

Reporting on patron fines to be entered into the computer system, library administrator D.J. McKenzie said \$33,000 was owed the Niles Library District for 5,610 books not returned. Also, McKenzie said about 400 patrons owed a total of \$2,000 with

an average fine being under \$5. McKenzie's report was made at the library's February board meeting. Commenting on the larger sum, board president Harry Pestine said new State laws have...

New superintendent hired to replace Tom Lippert

Park names Maintenance Director

by Sylvia Dalrymple

Tom Slack of West Virginia was introduced as the new superintendent of parks at Tuesday's meeting of the Niles Park Board. He replaces Tom Lippert who resigned last fall. The announcement came from Park Director Bill Hughes, who noted that Slack has "excellent" credentials and experience in park and administrative work. "We feel he will do a good job for the district," he said. Slack, 28, who holds a degree in recreation and park ad-

ministration, was among 40 candidates for the post. He was a park superintendent for the city of South Charleston, West Virginia, for four years. Before assuming that position, he was an assistant manager of Shawnee Park and golf course in West Virginia. In other business, the board approved a \$25 contribution to the insurance crisis fund requested by the Illinois Association of Park Districts. According to Hughes...

From the

Left Hand

by Bud Besser

The Dornier Lithotripter, a kidney stone pulverizing machine, became an important part of our community the beginning of February.

Donald Norris, a urologist at the Parkside Center, told us a most interesting story about the \$2,000,000 machine which has already treated 100 patients since the beginning of the month.

Norris, who is co-director of the kidney stone center at Parkside, was in France when he first heard about the German machine. Along with his co-director, Marc Rubinstein, they joined together with 40 urologists in the Chicago land-area in forming a corporation which led to the purchase of the \$2,000,000 machine. Parkside, which is adjacent to Lutheran General Hospital, spent another million dollars building the needed facility where the kidney stone center is located.

In its simplest explanation, the machine has x-ray directed shock waves which pulverize a patient's kidney stones while the patient is immersed in a bathtub filled with water. The x-ray pinpoints the location of the stones and directs the high-speed shock waves through the water and directly through the body tissue until it hits the...

Abandoned autos disappearing off streets

Thanks to Niles' new ordinance passed in November, abandoned cars are being towed from village streets and shopping centers within a week after they are spotted by housing inspectors or police, according to Housing Director Todd Bavaro.

"The ordinance has teeth in it which allows us to tag abandoned cars and trucks on private

property, shopping centers, commercial strips and motel areas," he said. "It's easier to dump cars in these locations. The intention of the law is to keep the village clean and not looking like a junkyard."

Owners of these cars (discovered through the vehicle I.D. number on the vehicle) are usually non-residents or from out of state. Many drive their deteriorating cars here - find out they...

Rajski absence delays board decision

More time has passed without Library board action in regard to a possible dismissal or censure of trustee Margaret Rajski, this time due to the absence of Rajski from the February Library board meeting.

Initial action was taken against Rajski November 13 for her public "conduct" in opposing the annexation referendum as a trustee of the Niles Public Library District.

Board president, Harry Pestine, said the board would not discuss Rajski's "situation" unless she was at the meeting or a special meeting was called for the purpose.

Frank Biga, board member, suggested Rajski may have attended if the matter had been listed on the agenda.

An amendment to board policy regarding individual board members was given a first reading at the February meeting. It reads: "In carrying out its duties, the Board shall always act as a whole, no individual member or committee having power to act except as specifically granted by the board."

Niles couple honored at luncheon

Winning the prize for the couple married closest to Valentine's Day at Thursday's Maine Township Senior Citizens Luncheon were Lucille and Ward Lawrence of Niles, who were wed on February 15,

52 years ago. Behind them are Queen for the Day Marguerite Boedeker of Des Plaines, and her Honor Guard, Bruno Liput of Niles.

Defensive Driving Course for seniors

Whether we want to face it or not its true as the number of candles on our birthday cake increase, our abilities to hear, see and react quickly decrease. The medications we take may further dull our reflexes. And our memory of safety rules learned long ago inevitably fades. These factors lead drivers over 55 to have more automobile accidents per mile driven than their

younger counterparts, those aged 30 to 54, according to the U.S. Department of Transportation.

Older drivers across the country are not letting these facts assign them to the passenger seat. Through an older drivers course offered through the American Association of Retired Persons (AARP), they are looking their limitations straight in the eye and learning how they can overcome them.

The program is called "55 Alive/Mature Driving", the only defensive driving course designed specifically for the mature citizen. Anyone age 50 and over can attend the eight hour class (taught in two sessions) and emerge with a certificate from AARP and one from the office of the Secretary of State of Illinois. The certificate from the State entitles you to a discount on your liability insurance premium.

A course is scheduled in Niles at the Public Library, 6960 Oakton St. Saturdays March 8 and 15, from 9 a.m. to 1 p.m. Other locations and dates are also scheduled in neighboring communities. For registration and information call Vel Durham at 344-4172 or write P.O. Box 272, Melrose Park, IL 60160.

MONNACEP emeritus classes begin

Persons age 50 and over returning home after spending the winter away can take advantage of four MONNACEP adult continuing education Emeritus classes scheduled to start the week of March 17 at Oakton East, 7701 N. Lincoln Ave., Skokie.

Learn about basic investments through the stock and bond markets in "Basic Investing" (BUS 598), scheduled for Tuesdays, from 5 to 6 p.m. Instructor Robert Lewis will discuss fundamentals of effective investment evaluation, criteria for evaluating equities, fixed income investments and mutual funds.

An ongoing evaluation of investments and discussion of economic and political implications of investing are covered by Rosemary Aitken in "Effective Investing for Knowledgeable Investors" (BUS 599). This class meets on Wednesdays, from 5-6 p.m. "Current Issues" (HIS E27), scheduled for Wednesdays, from 1 to 3 p.m., includes an exchange of viewpoints on local, national and international current events. The instructor is Bernard Strickler.

Basic drawing skills are taught Tuesdays, from 10 a.m. to noon, in "Drawing Anything" (ART 509), with Instructor Beverly Ellstrand.

Old Orchard plans \$30 million expansion

Plans for a multi-phase expansion of Old Orchard Shopping Center in Skokie, at a cost of more than \$30 million, have been disclosed by Urban Investment and Development Co., developer and manager of Old Orchard. The first phase, subject to approval by the Village of Skokie, will be the construction of a 100,000-square-foot building connected to a 2-level parking deck. It will be located at the northwest portion of the mall west of Saks Fifth Avenue and near the Professional Building. The facility will include eight cinema screens to be operated by Cineplex Odeon/Plitt Theaters, a festive food area and retail space. It will be composed of white brick with copper roofs to tie in with the existing architecture at Old Orchard and will feature a 2-story glass-enclosed atrium lobby, which will connect the food area to the theatres and offer access to the new parking deck.

Michael Levin, Urban's vice president for property development and project manager for the Old Orchard expansion, said that construction could begin in summer 1986 with the facility completed in the fall of 1987. Other improvements planned for Old Orchard, one of Chicago's first regional shopping malls, developed by Urban's predecessor company in 1956 include:

-A specialty department store as a new major anchor tenant at the south end of the mall.

Niles Historical society meeting

The Niles Historical society will hold its next meeting on Monday, Feb. 24th at the Trident Center, 8060 Oakton St., Niles, at 8 p.m.

The speaker of the evening will be Dr. Frank Fonsino of Oakton Community College.

Dr. Fonsino will bring us back a hundred years to the incident referred to in history as the "Memorial Day Massacre."

That day, May 4, 1886 was the fourth day of a national general strike for an 8 hour work day. With slides and a film, he will recreate for us the events that led up to, and, the results of that tragic confrontation.

In a shabby neighborhood called Haymarket is where it happened. Everyone is welcome to attend. Light refreshments will be served after the program, and as usual, it's free.

About 35 preschool children - most of them from low-income families - pass through the doors to Northwest Suburban Day Care Center each weekday.

For them it is a secure home away-from-home in a stimulating environment. For their mostly single female parents, it offers something more - an opportunity to support their families. Parents who do not already have jobs are encouraged to enroll in job-training programs to learn the skills that will help their families stay off the welfare rolls.

Like a mother hen, the center's Executive Director Joan Volberding worries about her chicks and their parents, as well. And right now she is deeply concerned about the impact of the proposed curtailment of federal revenue sharing funds on her non-profit center's programs.

About 30 percent of her budget comes from revenue sharing funds allocated by Maine Township and the city of Des Plaines. To meet her \$145,684 budget this year, she is requesting \$10,000 from Maine Township and \$12,000 from Des Plaines. Other monies come from a \$50,000 Title XX grant, contributions from United Ways and individuals, and tuition fees paid on a sliding scale.

"Furthermore, renewal of revenue sharing for 1987 is in question. I just don't know where I can get that amount of money. I have approached the private sector with written proposals and have had very little success."

Volberding's plight is not unique. Last year, Maine Township allocated nearly \$465,000 in revenue sharing funds to 21 non-profit agencies serving Maine Township residents. This year, the township has received 30 requests totaling \$691,592.

Maine Township Supervisor Paul K. Halverson said, "I cannot overemphasize the urgency of this issue. We already have been notified of an 8.35 percent reduction for the last quarter of fiscal 1986, effective Oct. 7. And now, the administration has proposed rescinding the entire fourth quarter allocation and cutting the third quarter by 8.35 percent. This could decrease our revenue sharing funds for this year by close to 40 percent."

Touhy/Lehigh reconstruction to begin March 31

The intersection of Touhy and Lehigh Aves. in Niles, will undergo a massive \$742,000 canalization and traffic signal modernization during the spring and summer months, announced State Rep. Ralph C. Capparelli (D-13th).

"Those of you who have experienced long traffic delays at this intersection during the morning and evening rush hours will welcome these improvements either as shoppers in the area or as commuters travelling to and from work," he said. "The project is expected to start March 31, depending on the weather, and should be completed by the end of August according to the information given to me by the Illinois

Department of Transportation." The intersection itself will include installation of new traffic signals that will be extended over the streets on masts, and another set will be attached to ground-mounted poles at the four corners. Widening of the railroad crossing will be funded and completed by the Chicago and North-western Railroad.

Improvements on Touhy Ave. will include the addition of left turn lanes to ease traffic flow in easterly and westerly directions. This will require widening of the roadway from 42 feet to 63.5 feet for the length of the left turn lanes.

"Cops for Kids" Bowling Tournament

For the second consecutive year, members of the Niles Police Department will be participating in the fifth annual Cops for Kids Bowling Tournament to benefit Big Brothers Big Sisters of Metropolitan Chicago. Sheriff Richard Elrod of the Cook County Sheriff's Police will be hosting this tournament on March 2, at the Super Bowl bowling alley in Melrose Park.

According to Sergeant Katsoulas, activities coordinator for the police department, Niles will be entering two teams this year. Katsoulas has brought this opportunity to participate in this event to the Optimist Club of Niles. The club officers, Board of Directors and committee chairman, agreed it would be a worthwhile and ideal opportunity to support a youth benefit program such as the Big Brothers Big Sisters of Metropolitan Chicago.

Gem Talk

By Gabriele Doerner
Graduate Gemologist & Jewelry Designer

To discuss antique jewelry, we must define what is "antique jewelry". The British Antique Dealers Association defines antique jewelry "as that jewelry which was made between 1830 thru 1920". Even though simple machinery was used to manufacture jewelry, it was basically handcrafted.

Styles during the Georgian period consists entirely of designs of nature with a fine sense of color. It was delicate and light in appearance. They were also set with precious gemstones, it was entirely handcrafted and individualistic in design. There was no mass production of pieces as today.

As a result of the French political system, at the end of the 18th century the apprenticeship system for the arts was destroyed, as the high standards of craftsmanship were on a downward slope. Today, there are only a few who take enough time and pride in oneself to still try to achieve the high standards of craftsmanship, in a growing mass production industry.

Thick, bulky and irregular describes an OLD MINE CUT. Round, thick and bulky describes a EUROPEAN CUT. They are defined to have little value; that is fiction. They can be easily recut into MODERN CUTS. So think twice before regarding a stone to have little value, you might be surprised.

Gemstones, whether in antique or modern styles, all differ in structure. So, be careful when cleaning your jewelry and if you're not sure, bring it to a reliable jeweler; they will be more than happy to offer to clean and check the mountings and advise you of the best way for you to take care of your jewelry.

St. Pat and St. Joseph dinner dance

North American Martyrs Knights of Columbus plan to hold their annual "Corn Beef and Cabbage Dinner", on Saturday evening, March 22 in celebration of St. Patrick's and St. Joseph's Day.

The Corn Beef and Cabbage Dinner will again be prepared by Harrington, and by popular demand, entertainment provided by the danceable music of Johnny Bomba.

Dinner will be served at 7 p.m. at the St. John Brebeuf gym on March 22. Tickets are \$35 a couple, and includes beer, set-ups, party favors and more.

Send your ticket request early, as they were in great demand last year and many people had to be disappointed. Tickets are now available on a first come, first serve basis.

Co-chairman—Ron Pukal and Robert Litz, both of Niles. For reservations or more information, phone chairman Ted Bieniek at 965-2925.

Social Security annual earnings reports due

Working beneficiaries who earned over the annual earnings limit in 1985 should begin thinking now about preparing their annual earnings report which is due to Social Security by April 15. The earnings report is used to determine if benefits were correctly paid in 1985 and what benefits are payable in 1986.

The earnings limits are \$7,320 in 1985 and \$7,800 in 1986 for people 65 through 69 and \$5,400 in 1985 and \$5,760 in 1986 for people under 65. The limit does not apply to people 70 and over.

The earnings report is the key to preventing overpayments. It requires beneficiaries to report how much they earned the past year and how much they expect to earn the coming year. Earnings over the limit reduce the Social Security benefit \$1 for every \$2 in excess earnings.

Most working beneficiaries will receive an Annual Report of Earnings form in the mail the first week of February. Beneficiaries who do not receive a form in the mail should contact the Social Security office and request a reporting form. The telephone number is 823-0815.

DETECT COLON DISEASES
A Hemocult Test is a simple and convenient method for individuals to test themselves for diseases of the colon. The test will detect blood in the stool before it can be seen and is very helpful in identifying the onset of colon cancer. Early colon cancer is highly curable, often by removal of a polyp or affected tissue. Kits and instruction for usage can be picked up from 9 to 10 a.m. on Tuesday, Feb. 25, from geriatric nurse, Laurie O'Reilly in the Village Hall Senior Center. An appointment will also be arranged to evaluate test results. Kits and test evaluations are free of charge to Morton Grove residents. For more information, call the Department of Health & Human Services at 965-4100, ext. 254.

WATCH OUT
Mr. Tim Patton, social worker from the Senior Division of the Illinois State's Attorney's Office will be discussing "Crimes Against the Elderly" at a free lecture at Bethany Methodist Terrace. The lecture will begin at 2 p.m. on Tuesday, Feb. 25 and all seniors and senior supporters are invited.

CENTRAL AMERICA
The Oakton Community College lecture series, Culture's Connection to Foreign Relations is a fascinating study of the relationship between nations' cultural values. This spring, the Older Adults Program will present a lecture series on these relationships for Central American nations. Central America has been chosen to present a background of the on-going international conflicts in this area. The lecture series will be Thursdays beginning March 13, 1 to 2:30 p.m. at Oakton East, 7701 Lincoln ave. in room 112. For March, topics include "Central America's Culture and Geography" on the 13th, "Central America's Changing Economic Structures and Their Impact" on the 20th, and the art film, "Lucia" on the 27th.

HELP WITH YOUR TEST
The Rules of the Road Review Course will help senior citizens prepare to pass the written portion of their driver's license renewal test. The Course is offered from 12:30 to 3 p.m. on Tuesday, March 4 in the Village Hall Senior Center.

FREE TEST FOR DIABETES
Free screening for blood sugar will be held from 9 to 10 a.m. on Tuesday, March 4 in the Village Hall Senior Center. Those who wish to be screened must fast from dinner the night before and must not be known diabetics.

MOBILE MEDICAL CARE
This doctor still makes house calls. St. Francis Hospital's Mobile Medical Care unit consists of a physician, nurse, and van equipped to perform and interpret comprehensive blood and urine testing on site. Patients will then be referred back to their original physicians or if they wish, a physician on staff at St. Francis can continue to visit at the home. All services are covered by Medicare, and Medicare assignment is accepted. Anyone can call or make a referral by telephone, Monday through Friday, 8:30 a.m. to 4:30 p.m. Telephone 866-2787.

TAX FILING ASSISTANCE
Avoid confusing paperwork and headaches by having federal and state income tax forms filled out at no cost, by trained Morton Grove senior citizen volunteers. Morton Grove residents should call the Senior Hot Line at 965-4658 (weekday mornings from 9 a.m. to noon) to arrange for an appointment on any Monday, Wednesday, or Friday between now and April 15.

For additional information about these and other senior citizens services, call Ralph Birmingham at the Morton Grove Senior Hot Line weekdays, 9 a.m. until noon at 965-4658, or Bud Swanson, Director of Senior Services at the Village Hall, 965-4100, ext. 254.

K.C.'s honored for donations

At the volunteer banquet for the Maine-Niles Association of Special Recreation, a special gift was given. In addition to the traditional gifts for volunteers, the Knights of Columbus North American Martyrs #4336, presented two checks, one to M-NASR to help fund their Day Camp Scholarship program, and one to Area 21 Special Olympics. Tad Lesniak, Tootsie Roll Drive Chairman, accompanied by Elaine Heinen presented the checks to M-NASR Board President, Mary Hester-Tone, M-NASR Executive Director, Lynn Parfitt, and SCASO Area Coordinator, Kathy Torrey.

Over the past two years the Knights of Columbus North American Martyrs #4336 have generously dispersed all the money raised by volunteers and staff who helped on Tootsie Roll Day. This program offers volun-

teers the opportunity to help raise money for their favorite agency by providing a greater incentive for their efforts. To compensate our volunteers for their time on Tootsie Roll Day, the Knights of Columbus increased the overall donation to the volunteers agency as part of their total contribution to the agency.

It is a wonderful opportunity for local agency volunteers and service clubs to work together. M-NASR and SCASO will be looking for many volunteers to help in this years drive. In addition, throughout the year, M-NASR and SCASO need caring volunteers to help with many programs. Even if you have only an hour a week, it could be a valuable asset to the handicapped residents of our community. For more information call 956-5222.

District 63 Kindergarten Registration

East Maine School District #63 will hold kindergarten registration on Thursday, March 20, 1986. Children registering for kindergarten must be five (5) years of age on or before November 1, 1986, and those entering first grade for the first time must be six (6) years of age on or before December 1, 1986.

A certified copy of the birth certificate must be presented at the time of registration or the child cannot be enrolled. For children born in Cook County, a certified copy of the birth certificate may be obtained from the Cook County Clerk's Office, Birth Records-Lower Level, 118 N. Clark Street, Chicago, Illinois 60602.

All children entering kindergarten for the 1986-87 school year must have a physical examination and immunization for measles, German measles, polio, diphtheria, tetanus and pertussis. The evidence of such examination and immunizations must be brought up to date and verified by school officials before a child will be admitted to school in the fall.

First graders who did not attend kindergarten must also present evidence of a physical examination and immunization. Forms will be available for all parents on the registration date. Any refusals because of religious beliefs must be accompanied by a written statement from the parent or a religious affiliation administrator. This request conforms with the law now in effect concerning such examinations. Questions concerning registration may be directed to the East Maine Elementary School Principals listed below:

letters to the editor

Roses for Niles postoffice

Dear Editor,
I sent a letter and had the wrong address, so it came back to the Niles postoffice. They opened it up and found a check. They took the address on the check and sent it back to me. I had no return address on the envelope because it was a Christmas Card.
So don't always complain about the postoffice. They do good work too. Niles postoffice, you have good and concerned workers.
Mrs. J. Mrozinski

Second Lt. David M. Hoffman, son of Sidney M. and Paula E. Hoffman of 4726 W. Russet Ln., Skokie, has graduated from the U.S. Air Force aircraft maintenance officer course at Chanute Air Force Base, IL.
He is a 1985 graduate of Illinois Institute of Technology, Chicago.

Who are the best people for the job?

Dear Editor:
The media have been paying a lot of attention to the upcoming election for the Cook County Board—for the wrong reason. It may be interesting to speculate as to who is backing whom, but the important question, "Who are the best people to fill these posts?" is not being asked.
The 17 members of the Cook County Board, ten elected at-large within the city of Chicago and seven elected at-large from the surrounding 30 suburban townships, oversee a budget of approximately one billion dollars! All of it coming, in one form or another, from the taxpayers.

Cook County covers 956 square miles, of which slightly under 200 are unincorporated. These unincorporated areas, having no other elected governing bodies, fall under the direct jurisdiction of the Board; however, all of the County's 5,250,000 residents are

affected by the Board's decisions. Under the jurisdiction of the Cook County Board is the operation of Cook County Hospital and the other county hospitals, the public health system, the county highway and forest preserve systems. The Board has budgetary control over County elections, the Sheriff, Assessor, Treasurer, and the Office of Public Instruction. It has the authority to levy and collect the taxes it deems necessary.

These are serious responsibilities (and it's certainly serious money!). The people we elect to the Cook County Board will have to make hard choices during their term of office. It is the quality of the individual candidates, not their sponsorship, about which the media should be concerned.

Phone call to village could solve your problems

To Whom It May Concern:
After reading the "Letters to the Editor" in the Bugle of the February 13, 1986 edition, page 7, I wish to respond to the letter for your benefit and all residents of Niles.

The Village of Niles has a Housing Department whereby complaints such as yours are handled by merely a phone call. If you have any questions regarding the various services in the Village, I suggest you phone the Administration Building and request that you be put in touch with the proper departments.

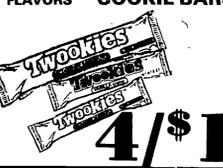

The Housing Department's phone number is 967-6100, ext. 339. I assure you that we will resolve your problem if you just phone.

Sincerely,
Todd Bavaro

Free breakfast program for clergy members

Members of the clergy often are approached by people in their congregations for help with intimate problems. Sometimes knowing how to counsel and guide a person under stress can be difficult - particularly if the question involves an intimate health problem.

Bethesda Hospital, 2451 W. Howard in Chicago, will be hosting a free breakfast program for members of the clergy at 7:30 a.m., Tuesday, March 4. The program, designed to assist clergy people in counseling their congregants on impotence and related problems, will feature a presentation on educational and medical issues surrounding sexual dysfunction.

Dr. Charles Feinstein, co-director of the hospital's Urinary Continence and Dysfunction Center, will discuss current treatments, physical and psychological, now available.

In addition, Rev. Don Bailey,

chaplain at Bethesda, will introduce the program. A question and answer period will follow Dr. Feinstein's talk.

Dr. Feinstein is a graduate of the University of Bologna in Italy. He interned at Maimonides Hospital in New York and served residencies at Beth Israel Hospital in New York, at Cook County Hospital and at the University of Illinois Hospital.

Rev. Bailey, who has worked in the health care field for nearly 30 years, has served for the past 18 years as chaplain at Bethesda Hospital. He is a teacher at the South Park Church in Park Ridge, a graduate of the Moody Bible Institute, Calvary College in Kansas and the Arizona Bible College. Currently he is completing a doctorate at Trinity Evangelical Seminary in Deerfield.

For further information or to reserve a place at the breakfast, call 943-9395.

Concert Choir to appear at E.P.L.C.

The Midweek Lenten Services will be held at Edison Park Lutheran Church, 6626 N. Oliphant ave., Chicago, on February 26, at 7:30 p.m. The Lenten Meditation will be "Christ Who Loves Children", third in the Midweek Lenten Series based on the theme, "The Christ Who Loves." There will be special music by The Maine South High School Concert Choir, under the direction of Mr. Walter Flechsig.

At the service, the church's Senior Choir, directed by Mr. John K. Christensen, will also be heard. Visitors are cordially invited to be present at this and the remaining Midweek services: March 5, "Christ Who Is Man"; Bjornson Male Chorus; March 12, "Christ Who Heals"; The Chicago Swedish Glee Club; March 19, "Christ Who Transforms"; The Medinah Chanters.

Immediately following the Service, a Coffee Hour will be held in the church parlors hosted by members of the church's Lutheran League.

John S. Carter

Marine Sgt. John S. Carter, son of Clyde W. and Joyce D. Carter of 1461 Walnut Ave., Des Plaines, has graduated from Drill Instructor School.

A 1979 graduate of Maine West High School, he joined the Marine Corps in November, 1977.

Edison Park Lutheran's 59th anniversary services

Members and friends of Edison Park Lutheran Church, located at 6626 N. Oliphant Avenues, Chicago, will celebrate the 59th Anniversary of the church on Sunday, February 23rd. Services will be held at 7:45 a.m., 9:00 and 11:00 a.m. The guest speaker will be Rev. Dale C. Trautman, Director of Evangelism for The American Lutheran Church. Mr. Arlen Holman of Green Wing Bible Camp will give the Children's Sermon and be a part of the opening of each of the Sunday School class periods at 9:00, 10:00 and 11:00 a.m. Everyone in the community is invited to come to these special Anniversary Services. If you are unable to attend, the entire 9:00 a.m. service can be heard on Radio Station WBAW-FM, 1330. New member classes are being held on Sunday at 10:00 a.m. and will continue through March 9th. These classes will cover the basic tenets of the Lutheran Faith and will be conducted by Pastor Duane Pederson. New members will be received at E.P.L.C. during services on Sunday, March 16th.

Also, on this special day, Miss Susan Volden will be installed as Director of Youth Ministries. Susan was born and raised in Edison Park and attended Ebinger School and Taft High School. She received her B.A. degree from Valparaiso University and will receive her M.A. degree in Pastoral Care and Counseling this Spring. Susan is the daughter of Mr. & Mrs. Marvin (Alice) Volden of Oketo Avenue.

Later in the day, at 4:45 p.m., a Friendship Hour will be held. Mr. Rex Miller, who has lived in both India and Australia, will show a special slide program on India. Light refreshments will be served afterwards.

The Senior Fellowship Group of E.P.L.C. will meet on Thursday, February 20th, at 12:00 Noon, in the North Hall of the church. The program is "Show and Tell." Members will bring an antique, an item of hobby-craft, or a sample of their handicraft. This is a happy, fun-loving group who look forward to getting together on the third Thursday of each month. New members or visitors are always welcome. Bring a bag lunch, and coffee and dessert are provided.

For more information on events at Edison Park Lutheran Church, please call the church office, 631-9131.

Contract to resurface Canfield Road

Resurfacing of Canfield Rd. from Higgins to Devon ave. in Chicago is expected to begin March 31 at a cost of \$173,000, announced State Rep. Ralph C. Capparelli (D-13th).

The contract was awarded by the Illinois Department of Transportation (IDOT) to Monarch Asphalt Company, of Skokie, the low bidder with \$172,968.50.

Capparelli, after conferring with IDOT engineers, was informed that the bituminous resurfacing will include a minimum of three inches of asphalt, as well as some road patching, and curb and gutter repair. The work is expected to be completed by June 15.

"While the roadwork will inconvenience some motorists during construction, it will be a welcome improvement that will enhance the safety and efficiency of the roadway that serves so many of our far northwest wide residents," said Capparelli.

New state law could lower long distance prices

State Representative Penny Pullen (R-Park Ridge) said today that legislation passed during the 1985 session of the General Assembly could result in lower long distance telephone rates for all Illinois customers.

According to Rep. Pullen, House Bill 1814 which created the Universal Telephone Service Protection Act of 1985, took effect Jan. 1.

Rep. Pullen says the purpose of the new law is first, to maintain and foster universally available, widely affordable, high quality telephone services for the people of Illinois; and second, to initiate

CORN KERNELS ADD CRISPNESS AND FLAVOR TO TACO FILLING

A cross between a main dish and a salad, tacos are a spicy change-of-pace meal that can easily be prepared in less than 20 minutes. Tex's Tacos, a variation of the typical south-of-the-border dish, features a slightly spicy filling of cooked ground beef, corn, onion and chopped tomato, spooned into heated taco shells. A can of corn combines with the ground beef mixture to add a delicate, crisp texture. Topped with shredded lettuce and cheese, this flavorful meal is served with taco sauce.

TEX'S TACOS

- 1 lb. ground beef
- 1/2 cup chopped onion
- 2 garlic cloves, minced
- 1/3 cup catsup
- 2 tablespoons chili powder
- 1/2 teaspoon cumin
- 12-oz. can Green Giant Niblets golden whole kernel corn
- 1 medium tomato, chopped
- 4 1/2-oz. pkg. (12) taco shells
- 4 (1 cup) shredded Cheddar cheese
- 2 cups shredded lettuce
- Taco sauce, if desired

Heat oven to 250°F. In large skillet, brown ground beef with onion and garlic; drain. Add catsup, chili powder, cumin, corn and tomato. Simmer uncovered for 10 minutes, stirring occasionally.

Heat taco shells in oven at 250°F. for 3 to 5 minutes. Spoon about 1/3 cup meat mixture into each shell. Top each with cheese and lettuce. Serve with taco sauce. 12 tacos.

A ROUNDABLE DISCUSSION WITH THE MICROWAVE EXPERTS

I have heard that frozen foods taste better when they are microwave-reheated rather than reheated in the conventional range. Is this really true?

Many people have "taste-tested" the difference and are strong believers in microwave-reheating. The microwave oven defrosts and cooks rapidly, so foods retain their original flavors. Convenience is another big advantage of microwave reheating. Prepare dishes when you have time and freeze them; microwave-reheat just before serving. Meals can be ready in minutes; there's no lengthy defrosting time.

The most convenient containers, such as new Reusable/Disposable™ from Nordic Ware®, go directly from freezer to microwave oven. Included in this line of ovenware/storageware are a loaf pan, bowl, divided tray, dinner plate, oval casserole and bacon/meat rack.

Here's a recipe from the Microwave Cooking Library™ that's great for microwave-reheating; after cooking spoon mixture into several Reusable/Disposable Oval Casseroles.

- Tomato-Mushroom Chicken**
- 1 cup sliced fresh mushrooms
 - 1 medium onion, thinly sliced
 - 2 tablespoons olive oil
 - 1 clove garlic, minced
 - 1 can (16 oz.) whole tomatoes
 - 1 can (6 oz.) tomato paste
 - 1/4 cup dry white wine
 - 1 small bay leaf
 - 1 teaspoon dried basil leaves
 - 1/2 teaspoon salt
 - 1/4 teaspoon pepper
 - 3 whole boneless chicken breasts, skin removed, cut into 1 1/2-inch pieces

In 4-qt. Nordic Ware Stew Pot combine mushrooms, onion, olive oil and garlic; cover. Microwave at High 5 to 8 minutes, or until onion is tender, stirring once. Stir in remaining ingredients; cover. Microwave at High 10 to 15 minutes, or until chicken is no longer pink, stirring 2 or 3 times. Spoon into Nordic Ware Reusable/Disposable Oval Casseroles; cover and label. Freeze no longer than 6 months. Serves 4 to 6.

To serve, microwave one covered Oval Casserole at High 12 to 17 minutes, or until hot, breaking apart with fork and stirring 1 or 2 times. Serve over rice or spinach noodles, if desired.

For more tips on microwaving or the Microwave Cooking Library™, send for "Microwaving with Nordic Ware," Nordic Ware Micro' Round, Dept. NE, P.O. Box 2008, Hopkins, MN 55343. Include 25¢ for postage and handling.

Women in Communications

Writers with a Social Conscience will be the topic of the Feb. 27 program of Women in Communications, North Shore Chapter, at their monthly meeting to be held at the Allen Center on the Evanston campus of Northwestern University (entrance at 2121 Sheridan Rd.).

There will be two guest speakers for the evening: Jack Fuller, editor of the editorial page of the Chicago Tribune and author of three novels including Fragments about Vietnam. Fuller's latest work, Mass, deals with a nuclear attack. Joining Fuller will be Susan Weston, a former professor of English and now a full time novelist. Fuller has written Children Of The Light, a humane vision of how a colony of survivors live after a nuclear holocaust. The two authors will read pertinent passages from their works—the program will be moderated by Liane Clorfene Casten and audience views will be welcome in a dialogue exchange.

The meeting will begin with a networking session and social hour at 6:45. There will be a cash bar. The program will begin at 7:30. Attendance is \$3 for members, \$5 for guests, \$2 for students and retirees. For further information please contact Lynn Miller, 491-7530.

Obnoxious patron apprehended by police

A Niles resident was arrested for criminal damage and disorderly conduct after he was involved in an incident at a restaurant in the Dempster Plaza shopping center on Feb. 10. According to police reports, the offender walked up to two women and began using foul and abusive language. When security men asked him to leave, he started fighting with them knocking over several tables and glasses in the process. After he was escorted to the lobby, the offender again started fighting with security, slapped a woman standing nearby, and then fled to the parking lot. He was apprehended by police at Ballard and Greenwood. He was released after posting \$1,000 bond and assigned a March court date.

Well attired shoplifters

Two women were arrested for retail theft in the Golf Mill shopping center on Feb. 10. They were observed removing \$320 worth of women's dresses from the store with one of the offenders concealing the items in a booster dress she was wearing. The women were apprehended as they attempted to leave without paying for the items. Police investigation revealed that the offenders also removed various items of lingerie valued at a total of \$188 and placed in the back seat of their car. An additional \$10.38 worth of women's clothing from another store was also found in the car. The offenders were released after posting \$5,000 bond each and assigned a Feb. court date.

Drunk driver arrested

A Chicago man was arrested for drunken driving and improper parking on a roadway on Feb. 13. Police found the offender at the wheel of his car with the engine running stopped in the center lane northwest bound on Milwaukee at Touhy. After the offender exited the car he appeared confused and had difficulty standing. Police also detected a strong odor of alcohol on his breath. He was released after posting \$1,000 bond and assigned a March court date.

Drunk speeder

A Buffalo Grove man was spotted by police driving northwest on Milwaukee Ave., speeding at 55 mph in a 35 mph zone on Feb. 11. After he was stopped, police observed a strong odor of alcohol on his breath. He was released after posting \$1,000 bond and assigned a March court date.

Home break in

A Niles homeowner reported his house was broken into during the night of Saturday, Feb. 8. The resident, who lives in the 7400 block of Lawler St., said unknown persons forced open the rear door of his house and damaging the door jamb. Damage was estimated at \$300. Nothing appeared to be taken from the house.

Stolen hubcaps

A Glen Ellyn man reported Feb. 11 that someone removed four hubcaps worth \$400 from his car parked in a parking lot at 806 Oakton St.

Theft from parked auto

A resident in the 7700 block of Nordica reported Feb. 11 someone gained entry to his car parked in the street and removed several pairs of shoes worth \$300 and various liquor and food items contained in a paper bag.

Driving Safety Hints

Driving a motor vehicle safely involves many skills, not the least of which is being able to see clearly. According to the American Optometric Association, 90 percent of all driving decisions depend on good vision. Vision can and often does change significantly in a three- or four-year period. Therefore, a vision screening is required at each driver's license renewal because we recognize that good vision is critical to safe driving. The screening at driver services facilities consists of both far vision (looking straight ahead) and peripheral vision (the ability to see "out of the corner of your eyes"). Screenings help to ensure traffic safety by restricting some drivers to wearing glasses or contact lenses, using outside mirrors, or driving in daylight only. Good depth perception is another important vision skill. Having the ability to judge the distance between another vehicle and yourself, especially when both are moving, can help avoid rear-end collisions. Regular vision checkups are recommended because many drivers do not realize that their vision deteriorates in time. Drivers license renewal notices are mailed 45 to 60 days before the license expires, so if you fail the vision screening, you can have your vision corrected by a professional before your license expires.

Sheriff's Police test new TV system

Cook County Sheriff's Police are testing a new miniaturized television system that will record traffic stops. Sheriff Richard J. Elrod announced that the system is being tested as a deterrent combat the increasing number of officers being attacked while stopping cars. The new camera is installed on the squad cars light bar, with the signal being fed to a miniaturized recorder housed in a safe, similar to an airplane's flight recorder mounted in the trunk. The camera is a miniature all solid state, CCD color camera capable of operation from very low light to extremely bright light. The camera can operate from -50° to +150° F under normal conditions and is mounted in a special tamper-resistant 3/8" metal case. The recorder is a miniaturized

Business burglarized

The manager of an oil change facility in the 9400 block of Dempster reported Feb. 13 that persons unknown gained entry through a large bay window by unknown means. Taken were \$300 in currency and miscellaneous tools.

Gemini student receives first place DAR award

by Eileen Hirschfeld

For his essay on the ratification of the United States Constitution Steve Callas, Gemini school, Niles, received a first place region award in contest sponsored by the Daughters of the American Revolution. Steve was one of the 230 contest entrants and the only seventh grade youngster in the region to receive an award presented in a February 14 ceremony at Gemini school.

The region consists of 32 D.A.R. chapters in Mt. Prospect, Park Ridge, Morton Grove and Niles. Youngsters from eight schools took part.

The award, a bronze medal, was presented by D.A.R. officials Myra Steinbrink, regent, and Genevieve Jakle, historian.

Also honored at the ceremony were about 80 other seventh and eighth graders enrolled in a Humanities Enrichment Program, a program for "gifted" youngsters, and their instructor, Geri Siegel. All program youngsters entering the essay contest received certificates and Siegel was awarded a certificate for teaching history.

Siegel taught at Gemini for about 6 months but has 10 years teaching experience of "gifted" youngsters. She formerly taught at Burbank Comprehensive Gifted Center, Chicago. While in Chicago she was nominated for "outstanding teacher of the year" and also received an

award for teaching manual sign language.

She said, "I came here with a wealth of information and experience and am sharing this with my students." Siegel said there are enormous differences between Chicago and suburban schools with more dedication placed here on the individual student. Steve's winning essay will be submitted to the State contest. Other contests are at the regional county and national levels. Seventh graders receiving certificates were:

Kenneth Alpert, Samantha Benson, Heidi Brill, Connie Catuscilli, Linda Friedlieb, Faisal Khan, Peter Kim, Paul Kleinman, F. Lee, Russel Lundberg, Cheryl Martino, Michelle Scott, Keith Sigale, Leslie Weinstein and Lance Wilkison. Also, Carolyn Choi, Matt

Cohen, Anna Marie Dix, Jessica Ferrer, Corie Hirschick, Lisa Jericho, Jason Krajaer, Stacey Lardden, Scott Lazerwith, Shirley Lin, Wendy marker, Joanna Peterson, Jennifer Ricciardi, Karen Simon, Jeff Strauss and Julia Tauber.

Others were Pauline Tingas, Kimbberly Balm, Sung Chang, Monica Chi, Paul Cordell, Michael Dorfman, Inna Flalko, Burt Holzman, Steve Rarkhomoff, Priti Patel, Trilok Pathak, Ariana Stern and Martin Zeidman.

Eighth graders receiving certificates were: Alan Berks, Julie Hirsch, Tanweer Ahmed, Michelle Gail, David Gilley, Thomas Gambill, Tracy Le Vine, Jamie Goldstein, Karnig Kerkonian, Felicia Goldberg, Kevin Gross, Demetra Tingas, Jennifer Talkowsky, Ira Zubkoff, Mary Chung, Chin Dunn, Suzanne Fei and Jeremy

Galfield. Others were Jane Hong, Joshua Lewis, Phil Lin, Christian Lopez, Jason Moss, Brian Smith, Brian Shevelenko, Jovin Lazatin.

TAX SAVING — IRA'S

Opening up the advantages of Individual Retirement Accounts to all employed people is one of the best tax breaks ever given to working Americans. With your own IRA tax shelter, you can save for retirement without paying taxes now. The main advantages of an IRA, of course, are that deposits are tax-deductible and earnings on them are tax deferred. In order to enjoy this tax break in any year, you must make your contribution no later than APRIL 15 of the following year. IRA contribution deadlines cannot be extended by obtaining an income tax return extension.

If you haven't opened an Individual Retirement Account, you're paying more taxes than is necessary! Regardless of your income, an IRA can lessen your tax "bite" and allow you to keep more of what you earn.

Savings accounts and certificates are the most widely used retirement plan investment vehicles. Financial experts agree that they are the most practical and easy to understand investment—the yield is good and PEERLESS FEDERAL IRA accounts are insured by the FSLIC, which is fully guaranteed.

I Bet You Didn't Know

By Jim Jennings

Here's an oddity... Notre Dame stopped the longest winning streaks in the history of both college basketball AND college football... The all-time record for most consecutive wins in college basketball was 88 straight victories by UCLA from 1971 to 1974. That streak ended Jan. 19, 1974 when Notre Dame beat UCLA 71-70... The longest winning streak in college football was Oklahoma's 47 straight from 1953 to 1957... That streak was broken Nov. 16, 1957 when Notre Dame beat Oklahoma 7-0.

Strange but true... There was once a race horse named "Win-Em-All" who raced in various races around the country, and one year didn't win any!

How's this for an amazing fact... The SAME man played in both the hottest and coldest football games in history... Ralph Neely, an All American tackle, played for Oklahoma against Southern Cal in a 1963 game in Los Angeles that experts say was the hottest ever, with temperatures of about 120 degrees... Then Neely played for the Dallas Cowboys in the famous "Ice Bowl" playoff game in Green Bay in 1967 when the wind chill was 80 below zero.

Niles cager stars at Bradley

Jim Les of Niles was recently lauded by the news media as the "bedrock" of Bradley University's basketball team, with the Braves becoming a 13th ranked, 24-1 team. They are tied for longest winning streak in the country for 15 games.

A Notre Dame High School graduate, the 22-year-old senior will graduate from Bradley this June, according to his proud mom, Geri. "Jim is a finance and accounting major. At this point, I don't know if he will pursue a career in basketball," she said. Jim began his athletic career during his student days at Notre Dame playing basketball and was a member of the track team, Geri said, adding that her son made the All-Conference basketball team. "He played guard setting up plays as he does at Bradley."

His brothers, Gary and Tom, also attended Notre Dame with the former involved in cross country track. "Tom was a runner and played basketball, a sport he pursued at Bradley," she said. Tom was named to the Bradley Hall of Fame.

Geri went on to say Jim was recruited by Cleveland State University to play basketball there. "In his third semester, Jim received a stress fracture in his leg while playing and ended up on crutches. He decided to transfer to Bradley and was probably influenced by Tom."

She added Jim was always a "responsible person" since his early youth. "He would shovel snow for elderly residents on the block or for someone who was ill and would not take payment." She noted her son is actively involved in the Big Brother organization at Bradley despite his busy school schedule and playing basketball. "They say he is probably the best ever to play at Bradley. The family is very proud of him."

According to a Bradley basketball program, the 5' 11" player is

a prototype point guard... became the second player in history to achieve the "triple triple"; at least 100 points, 100 rebounds and 100 assists in a single season. He was also named MVC Player-of-the-Week (Missouri Valley Conference) last season and could achieve MVC honors this year.

According to the article, some NBA (National Basketball Assn.) scouts predict he will be drafted despite his size and could be a candidate for the Naismith Hall of Fame Award (honoring the best player in the nation under six feet tall).

Rangers Pee Wee Youth League

Combining great goal-tending, a strong defense and outstanding goal scoring the Pee Wee Niles Park District Rangers put together back to back shutouts over the weekend to remain atop the North Shore Hockey Pee Wee Division standings with a perfect 10-0-0 record.

Northbrook #2 became their ninth victim as the Rangers scored 2 third period goals to break up a great defensive battle. Bill Rourke scored what proved to be the game winning goal while Brian Johnson had a goal and an assist. Mark Kowachek and Peter Wisniewski also added assists while Ranger goalie Eric Jesse recorded his 4th shutout in the 2 to 0 Ranger win.

Patt stars at Regional Meet

Maine East's dynamite Demon gymnast Felicia Patt started out her quest for getting to the State Gymnastics meet on the right foot, as she qualified for the Sectional meet in every event. Patt took a 2nd in the All-Around, with a high 36.20 point total, and won the uneven bars championship with a score of 9.25. The sophomore gymnast also took 2nd on vault with a 9.05, 2nd on Floor Ex with a 9.25, and 2nd on beam with an 8.65. Patt had a real good night, according to coach Betty Axelsson, but "she can do even better, mainly on the beam. The key word is 'on' since if you're going to make it to the State Meet, you have to stay on like glue!" Unfortunately for teammate Lisa Strazzante, Regionals

did not go as planned. After taking 2nd at the CSL conference meet in the All-Around, the Demon gymnast and her coach were very confident going into the first qualifying meet, but a fall on beam and few other breaks in her routines lowered her All-Around finish to a 32.85, putting her in 8th place. The

but not with the high scores needed to qualify. Although she had falls on vault and bars, this tough gymnast still performed well on beam and floor, showing determination all through the meet. Coach Axelsson praised Gershfield for her hard work and dedication to the team, noting that "leadership of a team is an important as scores, and Marsha has been a super leader." Jr. Karen Beefink also competed in all 4 events scoring a 30.25 in the All-Around, and Soph. Linda Giannakopoulos chalked up 28.35 points for her AA total.

The Demons travel to Fremd H.S. in Palatine on Thurs. Feb. 13 for the Sectional Qualifying meet, and hopefully to the State Meet the next weekend.

WHO DO AMERICANS TRUST MORE THAN ANYONE ELSE WITH THEIR I.R.A.'s?

Today you can get an I.R.A. from all kinds of people. From stockbrokers to department store clerks. But many of those I.R.A.'s are not federally insured, nor is your return guaranteed. If that's the kind of security you want for your retirement fund, there is only one person to see: a banker. Industry records show more Americans trust Full Service Bankers with their I.R.A. deposits than stockbrokers, savings and loan people or any others. And now our Full Service Bank offers many I.R.A. options at competitively high rates. Of course, the only place you'll find a banker is the bank. Talk to one at our Full Service Bank.

THE ONLY PLACE YOU'LL FIND A BANKER IS THE BANK.

bers are offered various savings plans (including IRAs), and both secured and unsecured loans. A credit union VISA card program is planned for members' benefit later in the year.

Teletype Federal Credit Union is located at the sponsor's plant at 5555 Touhy ave. in Skokie. Officers are: Julius Richardson, president; Irene L. Montwill, vice president; Lafayette Morrison, Jr., secretary; John Mazzeffi, treasurer; and Eva M. Roby, manager.

YOUR REAL ESTATE QUESTIONS ANSWERED

Joan Smith
Million Dollar Saleswoman

QUESTION: When I sell, how do I know what the right price is?

ANSWER: No one can predetermine exactly to the penny how much your home will sell for. A good realtor should be able to establish a market value range within a few thousand dollars, however. We do so by putting together a Market Analysis on your property. This compares your home with others that are on the market now, and similar homes that have sold recently. These comparisons with the competition help to establish the best available price range for your home.

Other factors that will help determine exactly how much the buyer will pay, include: appearance, age of improvements, what minor or major repairs are needed, location, and how much the buyer agrees with your taste in carpeting and decorating.

Call me at 967-6800 for a list of home selling hints that will help you add value to your home when you sell.

Black charges Sutker with "too many hats" Illinois Police group meeting

Louis Black, Niles Township Clerk and Democratic candidate for State Representative, 56th District, has thrown down the gauntlet in the race for the Democratic nomination to be decided in the March 18 primary election.

Black hurled the following charges against his opponent,

Calvin Sutker:
1) Sutker helped appoint himself State Representative to fill the vacancy created by the resignation of Judge Aaron Jaffe.
2) During Sutker's self-appointed short term in the Illinois General Assembly he has been an absentee Representative due to his many other commitments.

For example, his voting record as monitored by the Independent Voters of Illinois reflects that on 20 key issues he was absent 5 times and voted present once.
3) When Black was selected as the 1982 State Senate candidate, 28th District, composed of the 55th and 56th Legislative Districts, he appeared before a screening committee of 5 Township Committeemen, along with other prospective candidates. No such screening sessions were held for the State Representative vacancy, nor have any been held for the March 18 primary election. This is the highest form of political demagoguery.

4) Sutker is a 20% State Representative by virtue of the fact that he is also Niles Township Democratic Committeeman, and State Central Committeeman for the 9th Congressional District, and Chairman of the Illinois State Democratic party, and he is a practicing attorney. He has 5 hats to wear, he has 5 different ways to split his time; he is only able to be a 20% State Representative.

5) The 56th District needs more than fragmented representation.

Justice Anthony Scariano (center, 1) of the Illinois Appellate Court, was the chief speaker at a recent meeting of the Illinois Police Federation held on Chicago's northwest side. Shown with Justice Scariano are Chief Ed Bredberg (1), of the Cook County Sheriff's Department, a resident of Chicago's north side; Joseph Cangialosi (center, r), who is retired from the Chicago Police Department and lives in Schaumburg; and Rick Luzzin (r), President of the I.P.F., who resides on Chicago's south side.

Replace Your Old Furnace With A New & Efficient Gas

Conservator III

The rising cost of energy has put winter comfort nearly out of reach for many homeowners. But Lennox has a solution.

The Conservator™ III gas furnace delivers warm, conditioned air at 80% efficiency—a significant improvement over older, less efficient models in the 55-60% range.

Electronic Ignition Saves Gas

Powerlite™ ignition enables the Conservator III to use gas only when there is a demand for heat. There is no standing pilot light, so more of your gas is used to deliver heat.

Sutker earns high marks for labor support

State Representative Cal Sutker (D-Skokie) received a 75 percent favorable rating by the AFL-CIO on behalf of his support for key labor issues in the General Assembly.

Sutker gained the high ranking for siding with labor interests on three-fourth's of the group's top legislative priorities during the 1985 session.

The Lawmaker supported the labor-backed position on a new law granting collective bargaining rights to police and firefighters, an issue which the organization had sought for more than 20 years.

Sutker also earned the high ranking for supporting the "Build Illinois" public works program

"Meet the Candidates" program

More than 40 political candidates for State, County and local government posts have accepted invitations to appear at the "Meet the Candidates" program of the Northwest Action Council, Inc., according to Mary M. Staniec, president.

"Rep. Ralph C. Capparelli (D), Committeeman Gerald Michalek (R), and Attorney T. Ronald Herbert will introduce the Democratic, Republican and independent candidates for a brief statement, questions, and handshakes with the audience," said

Hirsch: Restructure County government

Gordon Scott Hirsch, independent Republican candidate for one of seven suburban seats on the Cook County Board of Commissioners, proposes a restructuring of county government officials.

Hirsch proposes that ministerial offices like the Clerk, Recorder and Treasurer should be appointed as electing them cannot be justified either programmatically or economically. "The County Board needs to be able to determine policies of the County and centralize it, as you would do with any well run business. We must look to eliminating patronage and waste while increasing accountability. The County Board approves of funding for officials of these offices but lacks supervisory controls," Hirsch said.

Additionally, the County Superintendent of Schools should be elected only from the suburbs, according to Hirsch's proposal.

"The Cook County Superintendent of Schools exercises control of mainly over suburban school districts. His involvement in the City of Chicago is minimal. It is unfair that Democrat politicians select and residents of Chicago elect the Superintendent. Many suburban school superintendents have complained about the County Superintendent's interference. We must control our own local school systems," Hirsch concluded.

Hirsch served as one of our nation's youngest elected officials having served as a Member of the Niles Township High School District #219 Board of Education at age 18 and as its President at age 20.

Przybylo blasts merit selection vote

Addressing a group of suburban Cook County voters recently, Andy Przybylo, Democratic candidate for the Cook County Board called the board's January 6 decision to keep a referendum on judicial merit selection off the ballot "a blatant affront to the intelligence of Cook County voters."

Noting that suburban Commissioner Bernard Carey called the issue "much too complex" to be put on the ballot, Przybylo continued, "I don't really believe Carey thinks you're too stupid; I suggest he thinks you're too smart. You might just vote 'yes' and make a lot of politicians nervous."

Characterizing the present method of electing judges as "having more in common with the state lottery than with any rational election process," Przybylo reminded his audience that suburbanites will have to choose among more than eighty candidates for ten judgeships—32 having declared for one seat alone. "We may get lucky," he said, "but I, for one, don't want to depend on it. We can laugh at a television program like "Night Court", in real life, the decisions made by an unqualified judge are likely to be tragic rather than funny."

Przybylo admitted that the proposed referendum would not have been binding on the legislature, "But, believe it or not, our representatives in Springfield listen—at least the ones who like their jobs and want to keep them."

He concluded by urging his audience to vote for a county board that will be more responsive to the voters' needs.

General Assembly scholarships

State Senator Bob Kustra (R-28th) has announced that his office will award eight one-year college scholarships to qualified district residents. Four scholarships are for the University of Illinois and four apply to any of the other nine state universities in Illinois.

Candidates will be judged on financial need, scholastic standing and leadership qualities. Scholarship candidates must

Volunteers from The Willows

A significant tradition of service has been started again during the second semester at The Willows: For high school students that volunteer, a weekly trip is made to Misericordia Home to assist the handicapped in diverse ways. The students who volunteered last semester found the time spent at the Home an experience that was inspiring.

The Junior High students volunteer at the Resurrection Pavilion one afternoon a week. There they visit with the residents, join in their activities, and at certain seasons of the year, sing songs from the schools spring musical.

The parent and faculty coordinators involved in organizing both services hope to increase student participation, heighten the students' awareness of others and instill in them a habit of volunteerism for their adult lives.

The Willows Academy for Girls is located in Niles and is a college preparatory school.

District 207 Project BIG

Maine Township High School District 207 meets the challenge of preparing young people to make informed decisions about careers through Project BIG, a career night held each year at one of the district high schools.

This year, Project BIG is scheduled at Maine South on Wednesday, March 26 from 7 to 9 p.m.

Young people today face a far more complex choice than any generation that has gone before them. The American job market is changing at a speed that confounds even the experts—let alone a teenager. Young people need to make choices in the face of a future that promises even more sweeping economic and technological changes.

At Project BIG, young people—not only from the Main high schools—but from private, parochial and even junior highs can begin to discover what they want to do as their life's work when they talk with the representatives from 200 trade, technical, business, scientific, medical and professional careers. Students and their parents can get first-hand information about a wide variety of occupations from people who know because they work in them every day.

In-depth information about selected careers can come later after a student and his parents

have had a chance to look at everything that is available. Students find out about the skills they need to be employable in a particular occupation. They also learn what aptitudes, training and education are important to job success. By talking to a person who actually works at a job, a student can even find out what he can expect in the way of salary, fringe benefits, and advancement.

Because of the scope of Project BIG, a student has a chance to evaluate and compare the rewards in any occupations which interest him.

Project BIG, the name stands for Business-Industry-Growth, was conceived originally by the district's cooperative education coordinators and the Career Education Advisory Council, made up of representatives from area business and industry. The program was designed to help make students involved in work-study programs more aware of the diversity of career opportunities open to them.

But soon Project BIG was expanded to include the college-bound student as well. Today, Project BIG is designed to meet the needs of young people whether they plan to enter the job market after high school graduation or continue on with their education. Adults who are

considering mid-life career changes can even make use of the Project BIG program.

Success in a career depends largely on whether a person is suited for it. Project BIG can provide the good information that will result in a good decision.

Top merit scholarship winners

The top five private universities inrolling Illinois Merit Recognition Scholarship (MRS) winners this year are: Loyola University (85), DePaul University (77), University of Chicago (73), Bradley University (64), and Millikin University (46) based on statistics from the Illinois State Scholarship Commission.

These students were graduated in the top 5% of their 1985 high school classes. This is the first academic year of funding for the MRS program.

The largest number of MRS recipients are attending public four-year institutions; University of Illinois at Urbana-Champaign (1,518), Northern Illinois University (157), Illinois State University (142), Southern Illinois University-Carbondale (111), and the University of Illinois at Chicago (100).

Based on full-time undergraduate enrollments at all universities in Illinois, public and private, the University of Illinois at Urbana-Champaign has the highest percentage of merit scholarship winners: 6.03%, or 1,518 of 25,168. Millikin University in Decatur is second with 3.13%, or 46 merit scholarship winners out of an enrollment of 1,472. The University of Chicago is third with 2.5%, or 73 of 2,889.

A total of \$2.5 million has been allocated by the Illinois General Assembly for the MRS program.

Seniors currently in the top 5% of their high school classes should check with their high school counselors for information about MRS or write Client Services, Illinois State Scholarship Commission, 106 Wilmot Road, Deerfield, IL 60015.

Counseling to hearing impaired

Jewish Family and Community Service (an affiliate of the Jewish Federation of Metropolitan Chicago), a social service agency which offers professional family, couple, individual and group counseling, and homemaker, financial, and resettlement services, is now providing these services to the hearing impaired.

The services will be provided through the agency's Keshev program and are available to hearing impaired individuals and their families regardless of religious affiliations. Fees for the services are determined on a sliding scale based on an individual's ability to pay. Linda Myers, who holds a Master of Social Service degree, is the social worker on the program.

Health Care hot line

Information about health-care issues and services is available by calling the Illinois Health Care Hotline, according to Sen. Walter Dudyecz (R-7th).

The hotline's toll-free telephone number is 1-800-325-9564. Hours are 9 a.m. to 5 p.m., Monday through Friday.

"There are many kinds of health-care services available, but too often people who need help don't know where to look," Sen. Dudyecz said. "The Health Care Hotline is a valuable source of information."

Equipped with a telecommunications device for the deaf, the hotline offers a variety of information ranging from cost-comparisons of selected medical services available in hospitals across the state to referrals for callers with questions about Medicare, nursing homes or health insurance.

Administered by the Illinois Health Care Cost Containment Council, the hotline has been in operation since Nov. 26, 1985.

From the Left Hand

Continued from Page 1

stones. Since most of the body, including bones, is mostly water, there is no obstruction of the waves until they confront the stones. They are then pulverized by a steady transmission of the waves which takes about one hour.

The patient is then returned to recovery for another hour and returned to the local hospital where his/her local doctor practices. Within three or four days the patient can return to his normal routine.

Doctor Norris told us the procedure costs \$6,400. It includes the local anesthetic which the patient receives prior to being immersed into the tub. He said the price compares to a \$10,000 price tag for removing kidney stones by surgery. Norris also contends the high \$3,000,000 machine plus facility cost necessitates the \$6,500 price tag.

Our calculator told us the 40-doctor corporation grossed \$650,000 during the first two weeks of its activation. Should the 100 patient per two-week count continue for a year the doctors would gross \$16,900,000. We are suspicious the Dornier machine might better be named a money machine for the doctors.

Presently, there is another machine on the Northwestern University medical school campus which is utilized by the Universities of Chicago, Illinois and Northwestern. St. Luke's Presbyterian Hospital also has a unit. Norris claims Indianapolis has one Dornier unit as does Peoria. There are no Dornier machines presently in Wisconsin.

Norris explained a \$250 electrode creates the shock wave which is transmitted through the water. For the hour period it takes two electrodes to complete the pulverizing of the stones. The steady shocks from the waves transform the stones into dust which are then passed through the urethra before being expelled during urination.

In more technical terms the electrode sits in a generator which supplies the electrical energy. The spark gap creates the vaporization of the water which creates the shock waves.

It is difficult to pinpoint the stones accurately. The patient is moved into the water-filled tank by a hydraulic gantry which lowers the patient into the tub. The patient must be positioned to enable the waves to attack the stones. The concentration of the waves are controlled directly by the x-ray.

Norris explained this process is the result of a spin-off from the German space program. Dornier, which manufactures German jet engines, discovered droplets

on super-sonic airplane's bodies resulting from the planes moving rapidly through space. This discovery led to the shock-wave vaporizing hi-tech methods used to send shock waves through water.

Ninety per cent of all cases are successful without a second treatment, said Norris, whose background includes combat medical surgery work in Viet Nam.

Despite the high price tag, Norris said the savings amount to 100's of millions of dollars. He noted this new method requires a one-day hospital stay versus ten days for kidney surgery. Disability insurance can be utilized in four or five days as opposed to six weeks due to an operation.

He said the "morbidity" savings is also substantial. Fevers and illness resulting from surgery are non-existent using this new method. And there is no mortality rate for this safe procedure.

Dr. Norris said three or four stone operations could well result in the loss of a kidney. And the morbidity rate effects from surgery, which cause vomiting and can make a patient "deathly ill", are non-existent when using the Dornier machine.

In addition to the prep, operating and recovery rooms, Parkside had to construct rooms under the facility which house machinery and tanks. The water used in the tub must be degassed, filtered and must be temperature-controlled. Basement rooms house this needed equipment which is all part of the million dollar Parkside addition. Soundproofing and extensive wiring were a part of the construction.

Norris said it takes four personnel to complete the shock wave treatment. The patient is then sent into recovery for an hour and is transported back to his local hospital.

We interviewed a young patient who was in recovery Monday. She said she felt great and was most pleased with the procedure. She laughingly told us while she was immersed in the water during the shock wave treatment, she had her walkman radio connected so she could wile away the hour with music.

It's a revolutionary medical advance. It looks like a money bonanza for the 40-doctor investors as well as a highly-profitable operation for Parkside. It is also a bonanza for patients who no longer have to go through surgery, with its accompanying problems. And the quick return to a normal routine is proof this new hi-tech era we've entered gives incredible benefits to the patient.

ness of strength until further notice. The warning came following discovery of five tainted capsules found in the drug department of a store in New York several days after the first incident.

Paul O'Connor of the Chicago Public Health Department said Monday that the Illinois Health Department (IHD) is watching the situation in New York and the outcome of the investigation.

"The IHD directive orders Tylenol capsules from store shelves... and asks people with capsules in their homes not to use them until the investigation is completed," he said. Fred Minelli of Minelli Brothers Food Store, 7780 Milwaukee Ave., said their Chicago-based distributing company called early Tuesday, Feb. 11, to remove the Tylenol capsule until further notice. "We did it voluntarily as a safety measure, although it was supposed to be an isolated incident at the time," Minelli said.

A spokesman for Osco Drugs (part of Jewel Store Corp.) said Monday the company did not want "to take any chances and removed the capsules the day after the news media reported the death of the New York woman.

Butera Food Store in the Golf Mill shopping center was among the few contacted that removed all Tylenol products from its shelves. "My first concern was for my customers," manager James Michalek said. "It's too bad that Johnson & Johnson (Tylenol manufacturer) have to suffer because of these incidents. It's a good company and has done everything possible to make their products safe for consumers."

Tylenol capsules were implicated in seven Chicago area deaths in 1982. Although there was an investigation, the crime remained unsolved. Johnson & Johnson went on to apply three protective coverings once the product made its reentry into the market, despite a FDA requirement of only one protective layer per item.

Bob Pankau of Pankau Drug Store, (Waukegan and Oakton) voluntarily removed the Tylenol packages early Tuesday. "It was not only a precautionary measure, but some people could play games. Like putting something in a bottle and then claim I sold it to them," he said. "You just never know."

Spokesman from most stores in the random check said they will keep the product off their shelves until they receive an official "okay" from state and federal officials. "The stock will probably be replaced with a new batch after the investigation is completed," said Irv Freidman of Group W...

"The tape we entered represents years of hard work by many people. The nomination is a reflection of the commitment to quality Group W Cable's programming department has for the Skokie community," said Paula Janos, Program Manager.

Janos and former Skokie Program Manager, Joan Etten, will attend the NCTA Convention in March. Along with Michael Lehr, formerly on staff in Skokie, the two will represent the system on its prestigious nomination. Group W Cable is a leader in communications serving more than 2 million people in more than 33 states.

serious jeopardy. The House and Senate authorizing committees are now in the process of sending their suggestions to the budget committees for inclusion in the fiscal 1987 budget resolution, which must be passed by April 15. If revenue sharing is not included in the budget resolution, it may never be debated," Halverson said.

Among other agencies that would be affected by revenue sharing cuts is the Maine Township Council on Alcoholism.

Executive Director Bob McGann said that most of the council's patients cannot afford private treatment.

"We provide services on a sliding fee basis that are not available to patients elsewhere in the community," McGann said. Although the council's costs are \$38 per hour, the average patient pays about \$15 and some pay only \$1.

The Council on Alcoholism was created in 1974, with the close cooperation of township officials, to meet a crucial community need for services not available through other programs.

The council is requesting \$120,000 in federal revenue sharing funds to meet about 72 percent of its 1986 budget.

"If there were a cutback, we might be forced to close our doors," McGann said.

About 45 percent of the council's caseload comes from patients referred by the courts and the Secretary of State's office. Under new state Driving Under the Influence laws, effective laws, effective last Jan. 1, persons convicted of DUI offenses must undergo evaluation and complete a 12-hour education program before they can apply for a hardship license. Meanwhile, they

may lose their jobs because they are unable to work. Despite the fact that the council provides the mandatory program only 12 percent of its budget is funded by the state. McGann said he sees little hope that the state will include its support.

Maine Center for Mental Health, a third agency that serves a substantial number of low-income clients, stands to lose about 15 percent of its \$880,000 budget from federal revenue sharing cuts.

According to Executive Director John Hoffmann, another 15 percent of its budget is also at risk because of possible termination of federal block grant funds funneled through the Illinois Department of Mental Health.

Maine Center, which served 1,200 Maine Township residents in 1985, is requesting \$130,000 in revenue sharing funds for 1986. The agency also is hoping for renewal of another \$135,000 in federal block grant funds that are part of a \$482,020 grant from the Department of Mental Health.

Other funds come from individual contributions and four different United Ways. About eight percent of its budget comes from client fees charged on a sliding scale.

Hoffman said, "There is no way another source of revenue could make up for a loss of 30 percent of the budget. I think service cuts would be inevitable."

Group W names Employee of the Month

Group W Cable of Skokie has named James Madison Employee of the Month, for the month of January, 1986. Jim, a line technician has been with Group W Cable for five years and has missed only one day of work in that time.

Jim has also been named Group W Cable's Champion of Quality. Responsible for system preventative maintenance and field amplifier alignment, Jim gives the extra effort in whatever task he's assigned. His hard work helped ensure a top rated evaluation for Skokie's recent Quality & Technical Evaluation.

Group W Cable wishes to congratulate Jim on his commitment to high standards of quality.

Group W Cable is a leader in communications serving more than 2 million people in more than 33 states.

The play is set in the late 60s, early 70s and involves a new teacher in an inner-city New York high school.

"With spirited lines, a wonderful assemblage of characters and good humor, this is a play for those who enjoy reliving their school days and certainly is relevant for anyone in school today," said Lucy Meehan of Glenview who is a Marillac Performing Arts instructor and director of the play.

Tickets are \$3; \$2 for senior citizens and information may be had by calling Marillac at 446-9106.

New publication for adults with aging parents

A new publication that provides advice for adults with aging parents or dependent spouses is being launched in the Chicago area February 1. Titled "Advice," the newsletter contains articles by prominent physicians, social workers, and others who specialize in family studies and gerontology. It will be published every other month, six times a year.

"Advice is a concise, valuable and timely resource for people who want to enhance the independence and general well-being of their aging loved-ones," said Dr. Stephen A. Dahl, President, Bethany Methodist Healthcare System, distributors of the new publication.

Ms. Carly Hellen, Program Director for The Care Center for Alzheimer's Disease, a division of Bethany Methodist, said: "The newsletter is useful to those living under the same roof, around the corner or across the country from an aging family member who may need special care. In clear, non-technical language, it will give readers, now in the thick of it, practical suggestions about day-to-day coping mechanisms."

To introduce Advice to Chicago-area readers, Bethany Methodist Healthcare System will mail the premier issue free. (Call the Advice Subscription Center, 271-4800, a 24-hour phone.) While a regular annual subscription of Advice costs \$15, those who subscribe during February and March can receive the special price of \$6.50. In ad-

dition, the first 1,000 people to subscribe will be included in a drawing for an "I Need A Break" respite care weekend. The winner of this lottery will get a free, round-the-clock weekend of nursing care (Friday afternoon-Sunday afternoon) for their aging parent or dependent spouse in their own home by a qualified

home-health nurse (a \$600 value). Bethany Methodist Healthcare System has specialized in caring for the medical and social service needs of older adults for 97 years. The organization's long-standing mission has been service to older adults, and its goal is helping them live independently in their own homes.

A major renovation and upgrading of the existing mall, one of the nation's premier shopping centers.

"Our plans call for eight cinema screens with a total seating capacity of 2,800. The first and second floors, connected by escalators, and would occupy about 45,000 square feet," said Levin.

The food area, which will occupy about 24,000 square feet and provide seating for 350, will be a contemporary design featuring skylights, greenery, and glass walls overlooking the center. In addition to the food vendors, there will be a 3,000-square-foot restaurant with seating for 100.

Designed by the prominent architectural firm of Loeb, Schlossman & Hackl, Old Orchard's original designer, the new building will also provide about 17,000 square feet of ground level retail space, sufficient for about 10 retail tenants, which will be merchandised to complement the new structure.

The new parking deck, which will have direct access to the new building through the lobby, will have space for about 500 vehicles. Estimated cost for the new building and parking deck is \$10 million of the total \$30 million expansion cost.

Levin said the second phase of the long-range expansion and remodeling will be a major improvement program beginning next summer. Details were not immediately available.

"Our expansion plans presently call for the new anchor tenant to open in the fall of 1991," said Oscar Reid, executive vice president of Urban, who

managed the negotiations. "This unique and exciting specialty department store, when added to the roster of existing anchor tenants - Marshall Field's largest suburban store, Saks Fifth Avenue and Lord & Taylor - will help perpetuate Old Orchard as one of the most popular and successful shopping centers in the United States," Reid added.

Urban Investment and Development Co. was founded in 1968 and is one of the nation's largest real estate development companies. It was acquired from Aetha Life & Casualty in December 1984 by JMB Realty Corp., one of the nation's largest real estate investment companies, and is now a wholly-owned subsidiary of JMB.

Other Urban Chicago-area shopping malls include Oakbrook Center, Oak Brook; Hawthorn Center, Vernon Hills; Fox Valley Center, Aurora; Oriand Square, Orland Park; Stratford Square, Bloomingdale; River Oaks Center, Calumet City; and The Atrium Shopping Mall in Water Tower Place on Chicago's North Michigan ave. Urban also manages the Louis Joliet Mall, Joliet, which was acquired by JMB Realty Corp. in 1985.

Urban is also the developer and manager of Copley Place, a highly successful mixed-use complex in Boston's Back Bay area. Occupying a 9.5-acre site, Copley Place is a \$500 million development that includes a 2-level shopping gallery, a Neiman-Marcus specialty department store, four interconnected 7-story office buildings, 104 residences and Marriott and Westin hotels containing a total of 1,951 guest rooms.

the 37 park districts that are members of the Park District Risk Management Assn. (PDRMA) are contributing to the fund.

"The money will help cover expenses in fighting the cost of rising premiums for liability insurance. The IAPD would like to hire a public relations firm to deal with this crisis and find ways of combating it...perhaps by having lobbyists in Springfield," he said.

He pointed out that PDRMA has reduced liability insurance coverage from \$25 million to \$3 million in the self-insurance pool. "We are now limited to \$250,000 coverage for injury claims," he said.

Hughes said the park district tries to keep claims down with its safety and accident prevention program. "Department heads and employees are very safety conscious in attempting to prevent accidents on park district facilities," he said.

In other action, commissioners approved the low bid of \$5,882 by Consolidated Press Inc. for the district's summer brochure.

Board president Jim Pierski noted bids will be opened at the March meeting for Jozwiak Park improvements, vehicle replacement, copy machine, replacement of curbs and sidewalks at the Recreation Center, swimming pool furniture and locker room improvements.

Commissioner Elaine Heinen said swimming pool improvements would include new dividers in the women's shower and washrooms, new lighting and painting of the locker rooms. Cost is estimated at \$47,300 to be paid from refinancing of bonds.

Hughes reported the recent Sweetheart Open competition held at the Sports Complex was a

traveling in an easterly direction will provide a vehicle storage length of 180 feet, while traffic traveling in a westerly direction will have a storage area of 260 feet.

In addition, Touhy Ave., with Lehigh Ave. at the center, will be resurfaced for a total of 1900 feet. A concrete corrugated median will be added for most of that distance.

Improvements on Lehigh Ave. will consist of widening the roadway from 22 feet to 36 feet to accommodate one through lane and one left turn lane in each direction. The roadway will also have new curbs and gutters, as well as be resurfaced for a total of 1200 feet.

The contract of \$742,293.74 was awarded to Monarch Asphalt Company, Skokie, by the Illinois Department of Transportation.

Niles library...

"A lot of teeth to protect libraries in a situation like this."

McKenzie will research fees to be charged by collection agencies and refer the matter back to the policy committee.

Board members agreed to waive the smaller sum of \$2,000 when data is transferred from paperwork to computers.

Toward a probable scaling down of the branch library, McKenzie and the library staff are conducting a survey on services used by branch patrons.

Frank Biga, finance committee chairman, said, "We want to find a site which will accommodate services the people want."

On behalf of the board's planning and development commission, McKenzie said he made numerous calls to East Maine

won't run and leave them here.

About 90 percent of cars are discovered through routine checks by housing inspectors and the balance are calls from residents complaining about abandoned vehicles. "Inspectors usually spot them when they drive through town for work appointments," he said.

Bavaro explained that an inspector is sent to the location, determines whether it is abandoned and then tags it. "He makes his decision based on how long it's been there and the condition of the car such as flat tires, broken windows or expired license plates.

If the car is parked in the same location after 72 hours, the police department is called and the car is towed by Skokie Automotive and parked in its parking lot. "If there is room, the cars are parked above the reservoir adjacent to the police station or parking lot," Bavaro said. "Owners who want their cars returned have to pay Skokie

Automotive \$35 for towing."

If the owner of a tagged car or truck calls the police department or village, the person has seven days to pick up the vehicle from the village pound. If there is no response within 30 days, the car is disposed of.

According to Bavaro, the village has the right to tow cars out of a resident's yard or driveway in line with ordinance stipulations. "The car can be tagged if the vehicle is considered an eyesore or if a neighbor calls in a complaint."

Cars or trucks parked overnight in shopping centers can also be cited. "Police make sure that trucks are not making deliveries or in need of repair before tagging them. The penalty for overnight parking can range from \$10 to a \$200 fine," he said. "I think we've done a pretty good job in cleaning up the town so far in attempting to get ride of eyesores in the village," Bavaro concluded.

School District 63 which have not been returned. District 63 leases space in Ballard school for the Branch library.

Myles Dimard, board member, seemed to disagree with cutbacks on funding which include the branch library. He said the Niles library tax rate is low and there are no lower in the State.

Dimard said a minimum of \$1,200,000 operating expenses will be needed within the next year.

He said, "Before closing the branch library is considered, I think voters should have a choice."

A final decision will be made in Spring.

An output survey of program attendance showed a decrease of about 14,000 to 4,000 persons. McKenzie said the decrease may

have been caused by a reduction of programs to save money. Output surveys are conducted to qualify for per capita funding grants from the State.

In other matters, the library signed a contract to receive about \$6,000 funding from the State for a second year of "Project Plus." Funds will be used toward services in areas annexed by the District. Final approval of the grant is expected by the end of February.

A \$1,000 grant from the North Suburban Library System (NSLS) also will support a second year of funding for "Project Plus."

Board members approved several changes in policy regarding personnel and increased use of computer time.
