## County approves 17-story complex on Dude Ranch site

The 33-story condominium buildings that were originally planned for Fisherman's Dude Ranch, 9600 Golf Rd., will now be replaced by a 17-story apartment complex via approval from the Cook County Zoning Board of Appeals on May 28.

The twin tower structure was turned down last September by the appeals board, and subsequently by the county board. Niles, Des Plaines and Park Ridge, as well as residents of Bay Colony Condominiums (adjacent to the site), opposed the plan

because of high density and the increase of traffic on Golf Rd. In addition, complaints cited the structure were "too high" for the residential nature of the area. Developers approached the zoning board in April to request a

## Suburbs head for Supreme Court in continuing battle

# Airport noise battle heads for top court

Suburban officials fighting noise at O'Hare Airport will take their case to the Supreme Court in a continuing battle to curb expansion, control jet noise and ban new runways at the airport.

The action followed in the wake of a Federal District Court decision in February favoring the City of Chicago (which operated the airport) and the Federal Aviation Administration (FAA). Niles is among communities surrounding O'Hare holding membership in the Suburban O'Hare Commission (SOC) which

has been fighting expansion at the airport for a number of years. "It was a natural step to bring the case to the high court. Hopefully, it will overturn the federal court decision," said Niles Mayor Nicholas Blase.

Blase said the village is not affected "at the present time" with noise problems, but in the long run it would pose problems relating to the health, welfare and safety of the people. "O'Hare can't continue to operate at such capacity without

## District 63 ok's Gifted Resource teacher position

by Debbie Kosak

District 63 School Superintendent Dr. Donald Bond showed enthusiasm when the Board of Education approved the hiring of a Gifted Resource teacher at the school board meeting held June 10.

The teacher will be responsible for reaching beyond the Humanities Enrichment Program (HEP) into areas of Math and Science. The position involves working with principals and teachers in the various disciplines. Dr. Bond thanked the Board for their approval which will "embellish the program tremendously."

Sue Stuart, a Nelson teacher said the position is "unrealistic." "Who has an expertise in all areas?" Teachers at the meeting stirred after the Board's decision to create such a position after little discussion. Board member Alan Hanhart said the position has been under discussion in executive sessions "for about 45 days now." The position will be

## Zuccaro celebrates 99th birthday

The Niles Senior Center Men's Club honored Charley Zuccaro at their May 19 meeting with a surprise birthday celebration for his 99th birthday. Over 100 of Charley's friends were there to help him celebrate.

Charley, who lives alone at the Huntington, comes in daily to play pool at the senior center. In honor of his accomplishments at the pool table, the men's club presented Charley with a mahogany pool cue rack to be placed in the pool room with plaque on it honoring him. In addition, Charley was given a T-shirt from the Niles Police Department and a T-shirt with his name and the number 99 on it. When Charley was asked to make a wish and blow out the candles on his birthday cake, he said the only thing he could wish for was "perhaps more hair."

In addition, Mayor Blase was on hand to celebrate the occasion. He presented Charley with a plaque in appreciation of his years of service to the community. Also on hand were Charley's daughter, Marie

Argyrakis, and his grandson Dennis. Charley lives independently, does his own cooking, cleaning, washing and is truly an inspiration to all seniors at the senior center. He has had a color-

ful past. As a young man, he was involved in boxing and won a pro bout at age 18. He then worked as a candy maker for several years. When he retired in 1977, he was the manager of a city movie theater.

## From the Left Hand

by Bud Besser

A very nice man, Med Greenwald, died the past week. We were at his funeral at Brebeuf Monday morning.

Med is the second member of our Old Bunch on Ozanam Avenue to pass away. A couple of years ago Clarence Culver died after fighting a long bout with a blood disease.

The Monroe-Ozanam Class of '53 was just a bunch of people who could be found on thousands of blocks across the country. Just nice people who never made the police blotter, the society pages and never joined the country club. They weren't political, not particularly intellectual, didn't hide behind silly titles they acquired by staying too long in school. Matter of fact, most of them ended their schooling after 12 years and went out and worked...damn hard.

The Ozanam bunch had one thing in common in 1953. They scraped together the down payment on their homes and joined together Saturday nights for pot and suppers. It saved money by eliminating baby sitters and gave a social whirl to the weekend which would have passed gently had the group effort not been undertaken.

In days before somebody else cut your lawn and

## Maine Beat

by Sylvia Dalrymple

**TOPPING THE GREEN...**...one more highrise will go up on what is left of open space in unincorporated Des Plaines...topping developer Morris Suson's 12-story buildings on Golf rd. built in the 1960's.

At that time, the two-square mile area was mostly farmland, along with sub-divisions of single-family homes...whose owners had realized the American dream of living in the peace and quiet of rural suburbia.

"The days of the white picket fence are over" said then county commissioner Seymour Simon (now a judge). Following that philosophy...the county board gave Suson carte blanche approval to build three 10-story buildings after the developer hyped that Golf Road would be transformed into another "Lake Shore Drive." Although residents protested the project...progress had its way.

No one was more surprised than county board officials when the building turned out to be not 10...but 12 stories in height. But that's the way it was in the building boom of the 1960's where green open space became a thing of the past in the unincorporated area via action by the county.

Soon to disappear is Fisherman's Dude Ranch on Golf rd., a popular fishing resort that opened in 1956. In its place...will be a 17-story building that will overlook what long-time residents call "Suson's monument" to posterity.

The original plan called for two 33-story towers which was revised by the county board. When developers came back with a revised plan (17 stories)...all that was needed was a variance to fit into the property's R-7 multi-family zoning status.

With open land now at a premium in the area...Suson's dream of a Lake Shore Drive may be a problem.

**VIETNAM PARADE NOTES...**Tom Davidson of Niles, a Vietnam veteran, is planning to participate in the Vietnam Veterans Parade this Friday to be held in Chicago. A Maine East High School grad, Davidson joined the Navy in 1965 and served on the aircraft carrier U.S.S. Franklin Roosevelt...whose planes flew missions into Vietnam. He is a member of the Niles VFW Post 7712.

The parade will include a float honoring two Vietnam vets who died in the Challenger disaster...astronauts Francis Scobee and Michael Smith, both highly decorated Navy pilots in the Vietnam War, according to a parade committee official.

**LOCAL TIDBITS...**Maine South High School graduate George Chaconis of Niles was named the Outstanding Athlete of the Year at the school...and was also presented with the Outstanding Goodwill Student Award via votes from faculty and students.

His proud mom, Carol Chaconis, coordinator of Niles Youth Service says her son played with the U.S. Hockey Team during the past year...and would like a career in pro hockey.

## Maine Township allocates funds to local agencies

With federal revenue sharing funds in jeopardy, the Maine Township Board May 27 allocated \$226,750 to 20 community services for the first half of fiscal 1986-87.

The allocations came from moneys already received from the federal government. The township expects about \$215,000 more from Washington and plans

to allocate those funds later this year.

Maine Township Supervisor Paul K. Halverson said, "Although we have tried very hard to convince Congress to continue this program, we must plan for the worst-case scenario and try to stretch these dollars as far as possible."

The agencies awarded revenue sharing funds were warned that prospects for continued funding beyond this fiscal year are dim and were urged to explore other sources of funding.

The following allocations were approved:  
-Blare House (autistic adults), \$3,750;

## Homestead Exemption reminders for seniors

Niles Township Assessor, Robert P. Hanrahan would like to inform Senior Citizens who are or will be 65 in the year 1985 to file for the Senior Citizens' Homestead Exemption. To qualify for this valuable benefit you must be:

- 65 years of age or older during the year for which you are applying;
- As of January 1st of the year in question you must either own the property or have a lease or contract which makes you responsible for the Real Estate Taxes;
- As of January 1st of the year in question the property must be your principal residence.

If you have a question contact the Niles Township Assessor's Office at 5255 Main Street, Skokie or call Assessor Robert P. Hanrahan's Office, 673-9300.

summer jobs for Niles youth could be at an all-time high this year, according to Carol Chaconis, of the Niles Youth Service.

As youth coordinator and founder of the job program, Chaconis seeks employment opportunities for students between 13 and 25 years old. Those under 15 years old perform a variety of house and yard chores for area residents while jobs for older students are concentrated on business and industry.

More than 550 young people were placed in job positions last year. "The economy is good, so we expect some increase over last year's figure," she said. "We are moving along with a lot of applications from junior high, high school and college level students who want full or part-time jobs."

Students (13-14 years old) in area elementary schools are expected to apply in numbers now that they are out of school. Youths in this age category usually help the elderly in the village, such as running errands, washing windows, cutting bushes, babysitting...things they can handle," Chaconis said.

The youth job program has won wide acceptance from village businesses because it carefully

matches a worker's skills and interests and the needs of the employer. Neither applicant or employer pays any fee for these services.

They are interviewed by Chaconis who attempts to match the applicant with one or more openings which have been reported by business and industry to the youth service agency. "If second and third year college students want a job applicable to their major, we try to make a match with a company."

She added many of the college students seek full-time work to earn money for tuition. "A pre-med student is now making good money working full-time in a light assembly plant. We place them according to their wants, if possible," Chaconis explained.

She recognized the need for a youth job program in 1976 while she was working for the Niles Youth Commission. "I felt this was an area where young people could learn about the workplace and responsibility."

The first step was to put youth and employees in touch with each other. Chaconis visited the schools to discuss the program and distribute applications. Businesses offering jobs to high

**TURKEY RAVIOLI CASSEROLE**

Serves 6-8

1 10 ounce package bow-tie macaroni  
3 tablespoons (divided) olive oil  
1 pound ground turkey  
1-3/4 cups onions, chopped  
2 cloves garlic, pressed  
2 teaspoons dried basil  
2 teaspoons dried oregano  
1 cup canned mushrooms (or 1-1/2 cups fresh)  
1 16 ounce can tomato paste  
1 16 ounce can tomato sauce  
1 cup canned mushroom liquid or water  
2 teaspoons salt  
1/8 teaspoon pepper  
3/4 teaspoon sugar  
1 10 ounce box (1 cup) frozen, chopped spinach, cooked and drained  
1/2 cup fresh, chopped parsley  
1/2 cup fresh bread crumbs  
1-1/4 cups (divided) Parmesan cheese, grated  
2 large eggs

In a large saucepan, heat 4 quarts of water and 1 tablespoon salt to boiling. Cook macaroni, simmering until just tender. Drain and mix with 1/2 tablespoon olive oil. Heat additional 1 tablespoon olive oil over medium-high heat in the same saucepan. Add ground turkey and cook, stirring, just until the turkey turns pale in color. Remove with a slotted spoon and set aside. Heat remaining 1-1/2 tablespoons of olive oil in saucepan. Add onion, garlic, oregano and basil; cook, stirring, until onions are translucent. If using fresh mushrooms, add and saute until soft. Stir in tomato paste and sauce and cook for 3 minutes. Now add 1 teaspoon salt, pepper and water or canned mushrooms and their liquid if they are being used. Simmer for 30 minutes, stirring occasionally. Remove from heat and mix in ground turkey and sugar.

Mix spinach, parsley, bread crumbs, 1 cup Parmesan cheese, remaining 1 teaspoon salt and eggs. Oil a 2-quart casserole. Spread half of macaroni over bottom of casserole. Layer in half of spinach mixture and half of turkey sauce. Repeat layering once more.

Sprinkle with remaining 1/4 cup of Parmesan cheese. (Casserole may now be covered and refrigerated or frozen for future baking.) Bake in preheated 350° F oven for 40 minutes or until heated through.

### Job help for youth

It's not easy for a young person to find a job. Today's youth account for approximately 40% of all unemployed. The situation is not expected to improve in the near future.

However, you can help youth secure meaningful work experiences. First, Cook County Sheriff Richard J. Elrod's Youth Services Department encourages individuals, businesses, and social service agencies to help find or create job openings for teenagers. "If you know jobs," said Sheriff Elrod, "call the agencies listed below."

Second, clip out this article and give it to a teenager you know who is searching for a job. Young people need to know all the resources and services available to them.

Agencies that offer job placement services to young people in the north suburbs are listed below:

-Catholic Charities Job Development Center, 721 N. LaSalle.  
-Niles Youth Service, 8060 W. Oakton, Niles, 692-7430 (Niles only)

-Park Ridge Youth Job Clearinghouse, 505 Park Place, Park Ridge, 823-0470 (Park Ridge only)

-CEDA Northwest, 111 N. Arlington Heights Rd. Arlington Heights, 392-2332.  
-Des Plaines, 297-4706 (Maine, Wheeling, and Elk Grove Townships).

-Neighbors at Work, 2010 Dewey, Evanston, 328-5166 (New Trier, Niles, Evanston, and Northfield Townships).

### Traffic Safety hints

The average vacation trip by auto in the United States is 160 miles from start to destination, according to the National Safety Council. Fatigue can be as big a problem on a 160-mile drive as on a longer trip.

Guard against fatigue by taking a break at least every two hours on the highway. Do not risk an accident by stopping on the shoulder of the road. Even an hour in the driver's seat can bring on "highway hypnosis," drowsiness caused by the monotonous sounds of the wind, tires on the pavement, and steady hum of the engine.

If you are planning to drive on a long vacation this summer, allow plenty of time for unexpected delays and drive a comfortable number of hours or miles each day.

Emotional stress can also be very fatiguing. If you are irritated by traffic or road conditions or angry with someone, take a break or let another person drive until your mood improves. In addition, some medications cause drowsiness. Ask your doctor how a medication you may be using can affect your driving.

Finally, do not drink and drive. Alcohol, a depressant, impairs vision, hearing, judgment, reaction time, awareness and coordination. Once you have had a few drinks, you may feel less tense and inhibited but, behind the wheel, you will become tired rapidly, especially at night. If you have been drinking, let someone else drive.

## LETTERS TO THE EDITOR

### Orchard Health Center thanks Bugle

Dear Editor:  
I take this opportunity to express my appreciation in behalf of the Board, staff, and recipients of Orchard Mental Health Center's services for the very fine article that appeared on the front page of the May 1, 1986 copy of The Bugle.

Since our loss of \$180,000 in township funds began in 1985, Orchard Center has gone to varied sources in hopes of gaining funds for maintenance of local services. From the villages of Lincolnwood and Morton Grove, we found immediate support. The Village of Niles is willing to hear our statistics-based arguments for crisis funding support. The report and request in Skokie is pending since July, 1985.

The assistance of the media in factual presentation of Center services and worth to the people in this community is very important. Anyone in need of our care must know that we are here and you make that knowledge more available.

Our Board worked very, very hard on the Good News Bears Game. Nearly \$3,000 was raised to maintain services for people requiring subsidized care. Your recognition of Board persons and any other people who display a charitable commitment here is most appropriate and wonderful. Your cooperation toward a community caring/ concern is very much welcomed.

Sincerely yours,  
James John Reisinger, Ph.D.  
Executive Director

### No. 1 daughter thanks 'Pops'

Dear Editor,  
People love to complain and criticize, but few like to compliment and say thank you. I'd like to take a moment to thank you for a few things.

Thank you for not making fun of me, when I was little and would run to hide under the covers when it was lightning and thundering outside.

Thank you for walking me to school and holding my hand, those first scary days of first grade.

Thanks for all your cheers when I won...and lost...the ice skating races at Grennan Heights.

Thank you for all your support when I became a class officer, but didn't make the Pom Pom squad at Maine East.

Thank you for those wonderful words of wisdom when you drove me to my college dorm. "Have a good time and be a good girl, but not necessarily in that order!"

Thanks for driving all that way

just to see your-daughter-the-teacher in action. I will never forget one of the kids yelling out in the middle of math, "Teacher! Teacher! Your Dad is asleep in his chair!" (yep, you were!!)

And most importantly, thank you for teaching me how to laugh at life and roll with the punches. Thanks Daddy, I love you. Happy Father's Day.

Pam

# I Bet You Didn't Know

By Jim Jennings

Did you know that in the entire history of the Indianapolis 500-mile auto race, NOBODY has ever won it 3 years in a row.

It seems hard to believe now, but for the first 59 years of big league baseball, ALL games were played in the daytime... There were NO night games in ANY major league park... Big league baseball started in 1876, but the first night game wasn't played until 1935, in Cincinnati.

Here's an interesting fact about the famous football player, William (The Refrigerator) Perry... In his first year of pro ball, his team, the Chicago Bears, won their first Super Bowl in history... and in his first year of college ball, his team, Clemson University, won their first national championship in history... And in his first year of high school ball, his team, Aiken (S.C.) High, made the playoffs for the first time in their history!

## Niles Nuggets baseball team

The Niles Nuggets heard the umpire say, "gentlemen, play ball!" and they came out swinging. The Nuggets won their home opener against the Clippers, 12 to 10. Rob Babikan and Lee Lenderman teamed up to pitch this winner. Every Nugget got a hit, but Jim Berg and Chris McVicker had real hot bats! Jim had 2 singles and a double and Chris had 2 singles and a triple. Mitch Rubin had a single and a double and Dave LeClerc had 2 singles. Lee Newlan, Brian Nawrocki, Len Asquini, Dave Denten, and Bob Gattuso each had a single. The Nuggets wanted to win and win they did! Mr. Vince Ferrari, manager of the International House of Pancakes at Golf Mill and our sponsor, was going to throw out the first ball for the team, but wasn't able to make it. We missed him. We are so grateful for his sponsorship.

The Nuggets played a night game at Meadowhill Park in Northbrook against the Hornets on May 25. The Nuggets lost 5 to 4, but it was a great game. We believe we will be on the winning side next time. Lee Newlan pitched an excellent game, allowing the hard hitting Northbrook team only 6 hits and 2 earned runs. Len Asquini was swinging a mean bat and collected 3 singles. Jim Berg hit a single in the fourth inning, but in the ninth inning he smacked the ball over the fence in left center field with a man on base and brought the game within our reach. Chris McVicker hit a gapper, but we could get him home. Our other hits of the game came from Dave Denten, a double to left field and Mort Schufreider, a single to left center. It was an exciting game, a beautiful night and the Nuggets are back!

The Nuggets played an exhibition game on Sunday, May 31 at Notre Dame against a Park Ridge team. All Nuggets players did their part to see that the team earned a 17 to 4 victory. Lee Lenderman pitched a great game, striking out 10, allowing only 5 hits and 1 earned run. ## Sheriff's Youth Service Medal of Honor

"Young people deserve recognition for the good they do - for the positive contributions they make for the betterment of the community," said Sheriff Richard J. Elrod. Young people donate many hours in services such as tutoring, coaching, peer counseling, senior companionship, community beautification, religious teaching, blood drives, food pantries, drug prevention programs and many other needed services.

In the continuing spirit of the 1985 celebration of International Youth Year, Elrod will be offering the Sheriff's Youth Service Medal of Honor to any person under 21 years of age who has performed 80 hours of voluntary community service within the academic year from September 1, 1985 to August 31, 1986 and whose contributions have been verified by a service supervisor. Many youth may have already completed the required service hours through school projects, religious groups or independently.

Other young people may welcome an opportunity to spend some of their leisure summer hours in providing volunteer services while "earning" their medal of honor.

According to Elrod, the Sheriff's Youth Service Medal of Honor is another phase of a Thank Youth campaign begun in 1982 to highlight the value of young people as resources in the community. "Too often only the negative behaviors of young people get any public attention. We need to encourage our young people to be active, concerned and responsible citizens and then to remember to accentuate the

positive," he said. Without the type of recognition, our youth may be led to believe we expect them to be community problems rather than community resources. Their involvement in community services therefore is ultimately one of the best delinquency and crime prevention programs that any law enforcement person can promote.

Application materials for the Sheriff's Medal of Honor Program can be obtained from the Cook County Sheriff's Youth Services Department, 1401 S. Maybrook dr., Maywood 60153, 865-2900.

## "Grooming by Gerri" relocates in Northbrook

Gloria Melford grooms pedigree Bichon Frise Elizabeth.

After 15 years in Morton Grove, Grooming By Gerri has moved to 1820 Frontage Road, Northbrook, Ill.

Since the move about a year ago Gerri has made a few changes, she has enlarged the pet supply and pet boutique departments, the grooming salon and pet shop is housed in the kennel building behind the Glencoe Animal Hospital. There is plenty of room to park and the shops are open for business every Tues. thru Sat. from 7:30 a.m. to 5 p.m.

Gerri and her sister Gloria both groom and run the Pet Boutique and pet shop. They cater to all breeds of dogs, whether large, small, purebred, or mixed. The dogs are fluff dried, brushed, and clipped to perfection. Long haired breeds such as Lhasa Apso, and Shih Tzu's can have braids (something we've been doing for some time now). Bows, scarfs and fancy lace are just added touches to please the owner and their pet. To help new owners, we have a "Puppy's First Haircut" certificate. We distribute these certificates to area Veterinarians, Dog Breeders, or clients whose dog is expecting a litter. We limit the free haircut to puppie sixteen weeks or age or younger. We do simple grooming to associate the puppy with the clippers, dryers, toenail clipping, and ear

cleaning. They carry a wide range of supplies, from collars and coats to unique doggy doorstops, and statues. They can even have a true likeness of your special pet drawn from a photograph and ready for framing. For the pet owner we carry personalized sportswear with the pet's name, picture, and paw prints. Our motto is "If we don't have it, we'll find it." Gerri and Gloria attend seminars and workshops to make sure their shop is always aware of current trends and changing styles.

## Taxpayers can appeal tax exam results

Taxpayers who are not satisfied with the outcome of an income tax examination have the right to appeal within the Internal Revenue Service, through the courts, or both.

According to the IRS, after the tax examination, the first step for a dissatisfied taxpayer is to request an immediate meeting with the examiner's supervisor. If no agreement is reached, taxpayers have 30 days to appeal through the Appeals Division which is independent of the Examination Division. The role of the appeals officer is to bring an unprejudiced and unbiased point of view to the case and to reach a settlement without having to go to court.

If an agreement is not reached at the appeals conference, or if the appeals system is skipped, the taxpayers may take their case to the United States Tax Court, the United States Claims Court or their United States District Court.

Additional information on taxpayers' rights of appeals is available in the free IRS Publication 556, Examination of Return, Appeal Rights, and Claims for Refund. This publication can be ordered by calling your local IRS office.

**PEARLS HAVE FACE VALUE**

Pearls are a beautiful gift for any woman. From the young teen who receives an add-a-pearl necklace to the elegant woman whose pearls are a matter of course, the beauty of each woman is enhanced with pearls.

For the woman whose facial shape is round, an opera length strand of pearls with a pendant enhancer adds pleasing visual length. Baroque pearl earrings break the round line with another satisfying shape.

For the woman whose facial shape is rectangular, a pearl choker shortens and softens the visual line. Mabe pearl earrings add width and rounding.

For the woman whose face is heart-shaped, adding width at the jawline with clustered pearl earrings lends visual strands of pearls or to the classic lines of opera length pearl strands.

For the oval shaped face, pearls in any arrangement are a delight. Princess, matinee, and opera length strands are all well-suited to the oval shape.

Our collection of pearls contains jewelry designs for the woman you are. Come in today to try the shapes best suited to you.

## Lutheran General hosts an extraordinary graduation

High school graduations are always special family times of joy and justifiable pride.

Last Monday evening, June 2, was something even more than that.

As a family friend, I attended a high school graduation at the Walter E. Olsen Auditorium at Lutheran General Hospital that was more beautiful and meaningful than any I can remember, or ever again expect to see.

The fourteen students (five young ladies and nine young men) were graduating from high school while they were still in long term treatment for alcoholism/substance abuse at Parkside Youth Center, across the street from Lutheran General Hospital. They were double winners, graduating while reconstructing their lives from the emotional and physical ravages of drug and alcohol addiction.

There were almost three hundred parents, family members and friends in the audience and the graduates and their teachers, counselors and other staff were on the stage and there was a turbulent mixture of tears and laughter and tense excitement in the air. This was a first—the first graduation exercise of young

recovering patients at this nationally known and innovative Parkside Youth Center.

Ms. Joyce Christenson, Director of Special Education of Maine Township High School Systems, whose contribution to this achievement was considerable, said a few brief, highly charged and wonderfully appropriate things. The Rev. John Keller, one of the innovators responsible for drug and alcohol rehabilitation treatment programs as we know them today and a part of Parkside Medical Services from its beginnings, was there and you could feel this joyful turbulence in his short talk. He believed these unusual young graduates had learned the biggest lesson of all—you cannot deny the problems of living and you cannot solve them by yourself. We need help from others and from God. Two of the graduates, Kevin and Patty seemed to prove this in their brief but powerful valedictories.

It was clearly evident that something remarkable and beautiful had happened to all these graduates; and the rest of us present in that big room were sharing it. To me it was a palpable, almost charismatic and never to be forgotten experience in the joy of living.

## Here's your chance to tour a nuclear power plant.

Ordinarily, nuclear plants aren't thought of as tourist attractions.

So this is no ordinary offer. For some of us, it's the chance of a lifetime. In a few weeks, construction work at our newest nuclear station in Braidwood will reach a stage when many of its more interesting features can no longer be made available for public viewing.

But until that time, you can see it all. Just call 1 800 342-6070 if you live in Illinois; 1 815 727-5647 if outside of Illinois, for reservations. It's that simple.

We'll try to arrange your tour at the time and date most convenient for you. The tour will last about 2 1/2 hours. It includes an introductory video presentation, followed by a question-and-answer session, and a one-mile guided walking tour of the facility.

You'll see inside the reactor containment structure where the walls are steel-reinforced concrete, 3 1/2 feet thick. You'll see the control room, the nerve center of the entire complex. You'll begin to understand many of the principles of electricity and nuclear fission. You'll sense the power, strength and efficiency of modern electrical generation.

Come dressed for the occasion. Remember, it's a construction site. And bring your friends. There's no charge for the tour or parking. But be sure to call first. Reservations are required for admission.

## Osteoporosis program

"Osteoporosis: Bone Loss and the Woman of the '80s" is the title of the free Community Health Education Program sponsored by St. Francis Hospital of Evanston. The free program will be held Tuesday, June 17, at 7:30 p.m. in the Hospital's One South Auditorium.

Dr. Glen W. Sizemore, endocrinologist, and chairman of the department of medicine at St. Francis Hospital, will conduct the lecture. He will discuss high

risk groups for osteoporosis, what methods detect the disease and how it can be treated. Dr. Sizemore is the medical director of St. Francis hospital's new Osteoporosis and Bone Disease Center.

Osteoporosis is a chronic disease characterized by less than normal quantities of bone. Osteoporosis affect ten to twenty percent of American women. Eighty percent of women lack dietary calcium. Bones in a person with advanced osteoporosis become thin, porous and weak. Hips, the spine, and wrists break easily. Osteoporosis has been estimated to cause about one million fractures each year in persons 45 and older.

For more information, or to make a reservation, call St. Francis Hospital Community Relations Department, 492-6170.

## "Stop Smoking Clinic" at LGH

## Weight Control at Parkside

Educated weight control instruction - teaching persons who they overeat in order to teach them how to diet - is available through outpatient nutrition services at Parkside Human Services Corporation, Park Ridge. Parkside Human Services Corporation is a member of the Lutheran General Health Care System.

The weight control sessions are offered in small, personal groups, and meet for ten weeks. The program is introduced through a free orientation on Wednesday, June 25 at 7 p.m. and Thursday, June 26 at 10:30 a.m. Prior to the orientation, those interested in joining must schedule an appointment with one of our registered dietitians. During the appointment, an individualized meal plan is designed to accommodate the lifestyle patterns of the participants.

"Weight control is not as simple as saying, 'I'm going to eat less,'" says Kathy Schmid, registered dietitian in Parkside's outpatient nutrition office. "Food touches all parts of our lives - family gatherings, work, and happy and sad occasions," she adds.

Ms. Schmid believes that eating patterns, which are established in childhood, need to be relearned in order to reduce weight successfully and maintain that new weight. She explains that Parkside's weight control program helps persons identify their eating patterns and problems and helps them work at changing them.

"We give participants general and individualized guidelines to follow, but ultimately they gain a sense of control over their own eating by learning how to make responsible food choices," Ms. Schmid says.

Restaurant eating, diet foods, "fad" diets, exercise and many aspects of nutrition for a healthy life are examined in the course. The program also uses lectures, guest speakers, group discussion, and films to help explain these ideas.

Maintaining new eating habits is also one of Ms. Schmid's goals for participants. In order to assure this, she arranges follow-up sessions once the course is over.

For more enrollment and fee information, phone Parkside's outpatient nutrition services office at 696-6138. Persons also may sign up for individual nutrition counseling without enrolling in the course.

## Bladder control problems need not keep you from being active.

Chicago's first comprehensive center for care of Urinary Continence and Dysfunction is now at Bethesda Hospital.

Incontinence is not a disease; not an inevitable result of aging.

Incontinence is the passing of urine involuntarily. It is a symptom of something else being wrong such as an injury, stress or other illness. It must be evaluated to determine this underlying cause.

The most damaging effects of incontinence are not physical but social.

People withdraw from family and friends because of embarrassment and a loss of self-esteem. They alter

their living patterns to keep their incontinence secret.

At the Urinary Continence and Dysfunction Center we strive to cure or to keep the effect of incontinence to a minimum.

No one should accept incontinence as untreatable. Medication, exercise or behavioral techniques and surgery are some ways to cure the problem. And there are other means by which to relieve the anxiety and embarrassment of a possible accident.

Help and support are here. Call the Urinary Continence and Dysfunction Center at 761-6000. A team of specialists which includes a urologist, neurologist, gynecologist, psychologist, nurse clinician and social worker works to bring you back to a full and happy life.

## Adopt-A-Grandparent program

"It's been a real success story," noted Resurrection Nursing Pavilion Activities Coordinator Karen Ewen at a recent gathering of grade school students and their "adoptive grandparents," all residents at the 298-bed nursing pavilion in Park Ridge.

The new Adopt-A-Grandparent program has become a wonderful learning experience for both the young and the young-at-heart," she added. "Last September when the students from St. Andrews Lutheran School contacted us about such a program, they were a bit apprehensive. Many of the students had never known a grandparent and weren't quite certain how to act. However, it's been one complete year since that first visit and now many of the students and their "adoptive grandparents" are inseparable."

According to theology teacher Dennis Durham, his sixth grade class was interested in a community outreach program and the Adopt-A-Grandparent idea seemed popular.

"We made it into a class outing and each month we have visited the pavilion and the students have spent an hour of two with their adoptive grandparents," he explained. "Some play games and talk, while others go for walks. At Christmas many exchanged gifts and some exchange letters and cards between visits." The intergenerational bonding

"Whatever is good for the residents is good for the pavilion," said Paul Crevis, administrator of the pavilion. "We are grateful and appreciative that the students and their adoptive grandparents have acclimated so well to this program. Hopefully, it will be the forerunner of many others, all designed to benefit our residents and our community."

## Dem hopefuls blast GOP incumbents

The seven Democratic candidates for Cook County Board accused the Republican incumbents of "voting against the interests of suburban voters and turning their back on a critical issue" by failing to support putting an advisory referendum on the March 18 ballot which addressed high utility rates.

The referendum, which did appear on the ballot, asked "Should utility companies be allowed to charge consumers and businesses for the costs of building facilities that create unneeded capacity of more than 25% above the peak demand, so as to make a profit on such capacity?"

"Fortunately, the Suburban Commissioners were outvoted," said Joan Murphy. "When given the chance, an overwhelming 93% of suburban voters disapproved of being forced to pay for unneeded power plants and voted no."

Though not specifically named, the referendum is directed at Commonwealth Edison which had idle plant capacity of 36% in 1985 and continues to earn a

## O'Grady Sheriff campaign media coordinator

Jim O'Grady has announced the appointment of Dick Stone as Media Coordinator for O'Grady's campaign for Cook County Sheriff.

Stone brings into the O'Grady campaign an extensive 29-year background in the media. A native Chicagoan, Stone served as Political Editor and News Director of WIND Radio for ten years and as an award-winning News Manager at WCFL Radio for three years. Stone has also served in the Group W Washington News Bureau.

## "Ethnic American Day"

A resolution designating September 21 as "Ethnic American Day" has been adopted by the Illinois General Assembly, according to Sen. Walter Dudyecz (R-7th).

Sponsored by Dudyecz, Senate Joint Resolution 123 notes the "valuable contributions which have been made by those who have come from other countries to settle here and have applied their expertise, enthusiasm and enterprise to make us the finest state we are."

## Panek cites Capparelli for 'do-nothing' aviation bill

Illinois House Candidate Carol Panek today blasted state Rep. Ralph Capparelli (D-Chicago) for sponsoring a "do-nothing" aviation bill that she said ignores safety of residents and passengers at O'Hare International Airport.

"The recent near-collision at O'Hare demonstrates the need for real safety measures," Panek said. "More than 200 people could have lost their lives if these planes had collided."

The near-collision occurred May 17 when two passenger jets were on take-off from intersecting runways. Because of the incident, the Federal Aviation Administration temporarily reduced to 75 the hourly number of takeoffs and landings permitted at O'Hare. Although Panek applauded the temporary reduction in O'Hare flights, she said a long-term solution is needed.

"Airport safety is an issue that demands serious and full consideration," she said. "Unfortunately, my opponent's bill only reiterates federal provisions already on the books. This is a do-nothing measure that has done nothing to alleviate the noise problem in four years and offers little in the way of new proposals."

House Bill 362, sponsored by Capparelli, codifies many provisions contained in a 1982 federal consent decree already in effect. The bill, which was sent to the Senate under a largely partisan vote, also creates a Division

of Noise Abatement within the Illinois Environmental Protection Agency. Panek said the noise abatement provision was borrowed from a 16-bill House Republican package that was defeated in committee by Democrats. Among other provisions, the Republican package would ban new runway construction at O'Hare, create a regional airport authority to address long-term aviation concerns, and would require the state to conduct health and cancer studies near O'Hare.

Panek, a 28-year resident of Niles, is the 13th District Republican candidate for the Illinois House. She served 10 years as a Niles Village Trustee.

## Halverson fundraiser set for June 13

Maine Township Supervisor Paul K. Halverson will be honored at a fundraiser from 5:30 to 9 p.m. Friday, June 13, at Casa Royale, 783 Lee St., Des Plaines.

The candidates pointed out that Com Ed rates tripled between 1977 and 1985. The residential customer who was paying \$209.88 for 500 kw/h per month in 1977, paid \$705.96 for the same amount in 1985.

"When given a choice between Com Ed and millions of beleaguered consumers, the suburban Commissioners who now seek reelection, chose the utility company," said Andrew Przybylo.

"Our opponents argued that utility rates weren't the business of the County Board. They deliberately turned down the opportunity to make utility rates their business and to do whatever they could to bring them in line," said Reece Thaler.

"We pledge to stand on the side of suburban consumers, to vigorously represent their interests before the Illinois Commerce Commission, the state legislature, the courts and wherever else the battle for fair utility rates takes us," said John Lattner.

Tickets at \$35 each are available by calling 824-7282. Committee chairman is James Radlein of Des Plaines and treasurer is Donald G. Anderson of Park Ridge. Committee members include Harold Ahlbeck, Robert Bernstein, Robert Hansen, Ed Koehler, John Ryerson, Bruce Slagg, George Stillwaugh, Steven Stone and Peggy Wetter.

## Marjorie Beile Dancing School Spring recital

The students of The Marjorie Beile Dancing School present their annual Spring Recital, Friday, June 13 at Center East (For The Arts), 7701 N. Lincoln Ave., Skokie.

This event marks the thirty-fifth year of operation of the dancing school at 5319 W. Devon Ave., in Edgemoor. Among the thousands who have passed through the doors over the years are several who have made successful careers in the entertainment business. Others have made their careers in teaching, as airline stewardesses, in business and as mothers and home makers. Many return from time to time to say hello, and they never get away without a hug and a kiss, and they leave behind them a feeling of pride.

An important objective at the dancing school is to make that initial contact with group learning a successful and pleasant experience for the very young child. Maintaining a friendly atmosphere within the class and the fun of moving to music, also helps the child develop good relationships with peers.

Marjorie Beile is a Life Member and Vice President of The National Association of Dance and Affiliated Artists. The Association provides annual conventions at which Master Classes for the teachers help them keep their material up to date and maintain high standards of teaching.

Bunny Luberd and Ethel Clifford are the slim, attractive assistant teachers and are popular with the students. Bunny has had ten years experience teaching dancing, and Ethel has been the assistant on Saturdays for three years.

It is always a special pleasure when a mother brings her child to the dancing school and says to her, "This is Mrs. Beile. She was my dancing teacher too."

## Take your plant problems to Botanic Garden

Why are all the leaves falling off my favorite ficus tree? When is it safe to plant summer annuals and vegetables outdoors? What can I plant in my yard to attract birds? And where can I find a red maple for my yard?

Sound familiar? These are just some of the over 8,000 inquiries received each year by the experts at the Plant Information Service at the Chicago Botanic Garden. Staffed by full-time horticultural specialists, the Plant Information Service provides advice on a wide range of plant-related problems. The service is free and available to the general public.

Gardening novices and pros alike use this valuable horticultural resource center particularly during the spring and summer months. To accommodate the increased demand for services, the Plant Information Service relocates each spring to the Fruit and Vegetable Island at the Botanic Garden. This central location makes it easy for visitors to stop in and ask questions like "Can I grow that tree in my yard?" and "How do you get those shrubs in such great shape?"

Specialists Meegan McCarthy and Cathy Walker encourage visitors seeking help with a particular problem to bring in a leaf, stem or branch so they can examine it. They can tell you how to battle garden pests, treat common plant diseases or simply prescribe a basic care routine for an ailing plant. The Plant Information Service also produces a series of "Fact Sheets," inexpensive brochures containing valuable advice about selecting and caring for plants. Ranging in price from twenty-five to seventy-five cents, the Fact Sheets cover a wide range of topics from "Growing Garden Chrysanthemums" to "Vegetative Propagation of Houseplants" to "Best Deciduous Shrubs for Chicago."

The Plant Information Service is open seven days a week (beginning May 18) from 9 a.m.-4 p.m. weekdays and 10 a.m.-5 p.m. weekends. Stop in for a visit or call the Service at 835-0972. Inquiries are also handled by mail; send your questions with a stamped, self-addressed envelope to Plant Information Service, Chicago Botanic Garden, P.O. Box 400, Glencoe, 60022.

If it grows, the horticulture specialists of the Plant Information Service can tell you how to propagate, plant and care for it.
