State issues capsule warning

Dr. Bernard J. Turnock, director of the Illinois Department of Public Health, today advised consumers to remove all Excedrin Extra-Strength capsules from their medicine chests and either dispose of them or return them to the point of purchase.

"The product, which has been recalled by the manufacturer, the Bristol-Myers Company, should be removed from store shelves and should not be sold," he said. Turnock's advisory was issued

following the discovery at the Federal Food and Drug Administration's (FDA) laboratory in Seattle, of cyanide in a second bottle of the capsules. "Although the second bottle was of the same lot number as that involved in the June 11 death of a Seattle area woman, all lot numbers should be removed from consumers' homes," Turnock said. The lot number involved in the death is 5H 102, with an expiration date of August, 1988.

Unanimous choice of search committee and village trustees

Niles Family Service head appointed

by Sylvia Dalrymple

Niles Village Board unanimously approved the selection of Des Plaines resident John Halverson as the new director of Niles Family Services at Tuesday's meeting.

According to Mayor Nicholas Blase, Halverson, 58, is highly qualified to run the day-to-day operations of the social services agency. "He has a good background as an administrator and will work well with the village," he said.

Halverson replaces former director Larry Renetzky who resigned last February to assume a similar position in New Mexico. Halverson has been ad-

ministrative director for 12 years at St. Mary of Nazareth Hospital Center Community Mental Health Center in Chicago. He has a master's degree in social work from George Williams College and a BA degree from the University of Illinois, Urbana. He also has a law degree from Chicago/Kent College of Law.

Trustee Louella Preston, chairman of the search committee, said the group was seeking candidates with administrative experience and the ability to work well with the agency's personnel and people. "We feel he will be an asset to the com-

During the past week two more people drowned at Beck Lake. It brings to ten the number of people who have met their deaths in the lake since 1980.

The lake is located just west of the 294 tollway at Central Road. It has an island in the middle which has been a lure for several swimmers who drowned attempting to reach the center of the lake. In the case of the most recent drownings a canoe capsized causing its two occupants to drown.

What is frustrating about this death trap is no public official seems to care. Despite all the village officials, whose communities are neighbors of the lake, none have raised the need to take action and curb the lake area's hazards. There are Forest Preserve officials and County officials who could also take action but as of now they have remained silent, or worse, have ignored the problem.

The newspapers in the area are equally at fault. They send out weekly editorial pronouncements but do not take any active interest in an obviously grave problem.

District 63 board names new superintendent

The East Maine School District 63 Board of Education announced the appointment of Eldon L. Gleichman as the new school superintendent at the June 24 meeting.

Gleichman will be replacing Donald Bond who announced his resignation last October. Board president, Norman Padnos, thanked Bond for his time spent in the district and wished him well in his future endeavors.

President Padnos welcomed Gleichman and stated that the members of the board are looking forward to working with him. He was chosen, over 60 applicants, for a three-year period effective July 1, 1986.

Gleichman has been employed by the Champaign School District since 1968. He served as a math and science instructor at Jefferson junior high/middle school for six years before being named assistant principal. He was chosen as principal of Jefferson in 1979 and was appointed director of secondary education for the district in 1981. The following year he was asked to serve as acting superintendent for the district and was appointed to the position in 1983. He has been working as a consultant during the past school year.

District 63 participated with other school districts in a series of studies to determine if entering a joint self-insurance contract would be feasible, the board voted that it is in the best interest of its citizens to become a member of the Athletic Participation Pool for Liability in Education, which allows districts to band together in an insurance pool.

New non-electric hearing aid available

The Better Vision Service at 8680 W. Dempster Ave., in conjunction with Telex Hearing Aids Inc., is pleased to announce it is now distributing the Innovaid 600, the only FDA approved, non-electric hearing aid.

Developed by Dr. Goode, an ear, nose & throat surgeon at

Stanford University, this "resonating chamber" amplifies speech sounds without amplifying background noise by taking advantage of natural amplification offered by the ear canal. The Innovaid 600 offers help to hearing impaired individuals who have difficulty hearing and understanding in noisy situations. It is designed to help individuals who have a hearing impairment who are not yet ready for an electronic hearing aid. The device is made of clear plastic, has no batteries or volume control or any moving parts to wear out. It has been estimated that of the 15-20 million Americans with a hearing impairment, only 3 million wear hearing aids. The Innovaid 600 is designed to fill a need for many individuals.

To introduce this new non-electric hearing aid, free hearing tests are being offered on an appointment basis for a limited time only. To schedule your appointment, call 297-4593.

Harlem Irving recognized for outstanding community service

Harlem Irving Plaza was honored with a Certificate of Appreciation May 29 at an awards assembly of the V.F.W. #2149. The award was given in recognition of outstanding community service for sponsorship of the Spirit of Giving Tree program held during the Christmas season at the center located at Harlem ave., Irving Park, and Forest Preserve dr. Geoffrey Brown, proprietor of the Cedar Box and President of the Merchant's Association, was present to accept the award.

"For three years, the holiday gift-giving program has provided veterans, who are confined to hospital care, with personalized gifts at Christmas", remarked Evelyn Bosbons, V.F.W. Publicity Chairman and director of the gift-giving program. Several other needy organizations in the community have also been annual recipients of the program.

Each Christmas, the holiday giving tree, located at the south end of the mall near Madigans, is an invitation to shoppers to stop and select a gift-wish card bearing the name and wishes of a needy child, adult, or elderly. The shoppers are asked to purchase a gift requested on their chosen wish-list, and return the wrapped gift back to the tree. The gifts are then taken from the tree and distributed to the recipients of needy organizations on Christmas day. "The fruits of our labor show up in the form of smiles and tears of happiness from all those who receive gifts."

First Newsletter outlines Maine Twp. programs

The first issue of Maine Township's newsletter "Mainly News" is expected to be delivered to township residents during the coming week.

Maine Township Supervisor Paul K. Halverson said, "The newsletter will provide residents with valuable information on a wide variety of township programs and services that are available to them. We hope this will help them understand the role of township government and make its services more accessible."

"Mainly News" owes its name to the creative talent of 14-year-old Tom Gambill, a recent graduate of Gemini Junior High School. Gambill came up with the newsletter's banner during a contest conducted by Maine Township in local schools. He was rewarded for his effort with a \$50 U.S. Savings Bond. Gemini's parent organization received a \$25 award.

47 District 207 staff members retire

More than a thousand years of service have been given to Maine Township High School District 207 by the 47 administrators, teachers, and support staff members who will retire this year. That service has been provided in a variety of areas. The two principals have provided educational leadership both at their schools and as part of the District 207 decision-making team. In their roles as assistant principal, director of student personnel services, dean, and department chairmen, the five administrators have helped to inspire, develop and sustain the performance of both staff members and students. The 17 faculty members have provided the motivation for achievement, have encouraged inquiry, and have met individual needs as they worked with students each day.

Finally, as they have worked as custodians, secretaries, cafeteria workers, a nurse, a payroll clerk, and a receptionist, the 23 support staff members have freed teachers and administrators to devote themselves to providing the educational program for students for which Maine Township High School District has become recognized throughout the nation.

At the May board meeting, where the 47 retiring staff members were honored, Howard Blassman, board president said, "It is a credit not only to these staff members who gave more than a thousand years of service to District 207, it is a credit to the district because it offers the kind of environment that encourages people to pursue an entire career with Maine." The 1985-86 retirees of Maine Township High School District

Jumps first hurdle in zoning plea

County okays apartment complex on Maine site

Plans for construction of an 84-unit apartment complex in unincorporated Des Plaines cleared a major hurdle when the Cook County Zoning Board of Appeals approved the project.

The matter now goes to the Board of Commissioners for consideration on July 7 at the Civic Center in Chicago. The public may attend and give comments. Plans call for a planned unit development (PUD) for a 4.9 acre site west of the Tri-State Tollway, east of River Road, north of Golf Road and south of the Chicago and Northwestern Railroad tracks.

The developer proposed 84 units in five, three-story buildings and would have a courtyard and a playground for children. The parking plan showed spaces for 168 cars and one large access driveway on East River Road.

The proposed project drew vociferous objections from area residents at a hearing in early March, citing that proposed apartment complex would aggravate existing traffic problems on East River Road. The owner of a temporary crisis intervention shelter for teenage girls cited density, and that the proposed buildings would face the backyard destroying the privacy of the shelter.

NI-GAS Child Watch program in progress

The National Child Watch Campaign, a cooperative public service effort involving American Gas Association members, the National Child Safety Council and the National Center for Missing and Exploited Children (NCMEC), is marking its one-year anniversary this month.

Northern Illinois Gas (NI-Gas) is one of more than 100 natural gas utilities, representing all 50 states and the District of Columbia, participating in the campaign. Also joining in the program are companies from the banking, telephone, insurance, oil and airline industries. Several abducted children have been recovered and numerous public awareness programs developed during the successful first year of the publicity and education campaign, according to NI-Gas.

As part of the effort, many companies distribute photographs and descriptions of missing children with their bills. Through this method, notices reach an estimated 30 million homes across the nation each month.

Summer youth job program

State Representative Ralph Capparelli (D-Chicago) urges area students seeking summer work and job experience to apply for a new youth employment program sponsored by northern Illinois Ford dealers and the Department of Commerce and Community Affairs.

"One of the hardest things for a young person getting into the job market to obtain is experience," Capparelli said. "Every employer wants an applicant with certain skills and experience, but very few are willing to provide the opportunity to gain that experience."

Capparelli said participants will be involved in a number of jobs, including painting, carpentry, landscape maintenance, road clean-up and senior citizen home repairs.

For more information, contact the Mayor's Office of Employment and Training at 744-0666.

Niles Bike Patrol

Bicyclists of all ages better obey traffic rules while traveling on village streets this summer, or face the possibility of getting cited for violations by Niles bicycle safety officers. Sgt. John Katsoulis noted that since the village began patrolling the streets with college age (18-23) youths, both adults and young people have become more aware of Illinois State laws. Violators can be cited for double riding, trick riding, riding four or five abreast, hanging onto cars and trucks and for ignoring regulatory signs.

Social Security info for survivors

Surviving dependents of a deceased worker should apply for Social Security benefits as soon as possible following a worker's death, Paul M. Armstrong, Acting Branch Manager in Des Plaines, said recently.

Applying promptly will allow benefits to start in the shortest possible time. In addition, some benefits cannot be paid for more than one month before the month of application.

Social Security benefits can be paid to these survivors:

- 1) Unmarried children under 18, or 18-19 if full time secondary school students.
- 2) Unmarried children over 18 who were disabled before 22 and remain disabled.
- 3) A surviving widow or

widower of any age caring for a child under 16 or disabled who gets benefits.

- 4) Widow or widower 60 or over.
- 5) Disabled widow or widower 50-60.
- 6) Dependent parents 62 or over.

Benefits can also be paid to a surviving divorced spouse if she or he was married to the deceased worker 10 years or more. Grandchildren can get benefits on a grandparent's record under certain circumstances.

Before any benefits can be paid, the worker must have had credit for a certain amount of work covered by Social Security. In 1986, the amount ranges from 1-1/2 to 8-3/4 years depending on the age of the worker at death.

More information about Social Security survivor benefits can be obtained by calling the special teleservice number, 823-0815.

Resident celebrates 100 years

On Monday, July 14, a party is scheduled at Ballard Nursing Center. Nothing unusual you think, there are always events occurring at nursing centers. But this party is special. It is to mark the 100th birthday of Jane "Alice" Creitz, a resident at Ballard.

Alice is a smiling, friendly woman. She was born in 1886 in Indiana. When she was young, her family moved to the Chicago area, to a farm on 63rd and Western. For 30 years, Alice lived in Prospect Heights with her son and daughter-in-law. Most recently, Des Plaines has been home for Alice at the Ballard Nursing Center.

From horse drawn street cars to space shuttles, Alice has experienced first hand the modernization of transportation; her eyes twinkle when she talks about traveling. Having worked for the Santa Fe Railroad for over seventeen years, Alice took advantage of their excursions. Her favorite trip was to the Grand Canyon. She describes it as "the most beautiful site I've ever seen in my entire life."

When asked to divulge the secret for her longevity, Alice laughs and denies any secrets. She does admit to "keeping busy all the time". We wish Alice continued good health for her 100th year. Happy Birthday Alice and Many More!

Church & Temple News

Jews and Christians share knowledge

Many Christian and Jewish religious symbols are exactly the same in appearance, yet very different in their meanings. When and why do Jews and Christians use candles, wine, bread, and incense? This is one of the questions to be explored in a series of four interfaith investigations to be held jointly by Spertus College of Judaica and

Mundelein College at Mundelein on four Sunday evenings starting June 29.

While interfaith dialogues usually feature political and social issues, this program series, entitled Windows is designed to give Jews and Christians an opportunity to discuss and compare notes on each other's rituals and beliefs.

Niles Community Church

On Sunday, June 29 during the 10 a.m. worship service, Dr. D. Douglas Seelen will preach his final sermon as pastor of the Niles Community Church (Presbyterian). Concluding 34 years in the Gospel ministry, Dr. Seelen and his wife, Leila, will then take up residence in their retirement home on Nippersink Creek near the Village of Fox Lake, Illinois.

Born in Minnesota but growing up in Colorado Springs, Colorado, Dr. Seelen served as a minesweeping officer in the U.S. Navy during World War II. Completing his undergraduate studies at Macalester College in St. Paul, Minnesota, he received his Master of Divinity degree from McCormick Theological Seminary, Chicago in 1952. He returned to McCormick in 1974 to obtain a Doctor of Ministry degree.

The Seelens have three grown children: William, who is married and lives in Green Bay, Wisconsin; Charles, who is also married; and Leila Claire, who lives in Palatine. They have four grandchildren. Mrs. Seelen will continue her work as a fourth grade teacher at Niles Elementary School, South for the time being.

On Sunday, June 22 the Niles congregation expressed its appreciation for Dr. Seelen's long ministry during a well attended Luncheon/program at Hackney's in Glenview.

Currently, a search is underway for an interim Pastor who will serve the congregation until a permanent minister is called (a process which normally takes 12-15 months).

The first program is The Music of the Spheres, an exploration of the traditional musical forms, their historical development, and contemporary significance, taught by Sister Dorothy Dwight, Director of The Mundelein Liturgical Music Ensemble and Cantor Abraham Lubin, of Rodfei Zedek Synagogue.

Visiting professor at Spertus and at the University of Chicago, Mayer Bruber, Professor Sister Carol Frances Jegen, and dancer Venetia Shifer, will discuss and demonstrate the fascinating subject, The Choreography of Prayer, on July 20. The seminar will raise the question, what is the meaning of body movements in prayer.

On July 27, Feasts and Fasts, the sanctification of food, and the prayers attending food, will be discussed by Rabbi Herbert Bronstein, of North Shore Congregation Israel Synagogue, and Gabe Huck, Director of the Liturgy Training Program of the Chicago Archdiocese.

The final program in the series - a discussion about candles, wine, bread and incense, with brief Christian and Jewish services using those symbols - will be conducted by Rabbi Yechiel Eckstein, founder and president of Holyland Fellowship of Christians and Jews, and Gorman G. Sullivan, of St. Mary of the Lake Seminary.

Information about Windows can be obtained from L. Simon, Spertus College, 922-9012.

Adoption Registry matches parent with child

On January 1, 1985, the Illinois Department of Public Health took on a new responsibility of coordinating an "Adoption Registry" which gives both biological parents and adult adoptees an avenue to seek information on one another.

According to State Representative Ralph Capparelli, D-Chicago, the first "match" under the provisions of that program was accomplished on June 4th when both a biological mother and her adult son, whom she had given up for adoption as an infant, exchanged addresses.

"The Illinois Adoption Registry is handed on a purely voluntary basis," Capparelli explained, "while 24 adoptees and 28

biological parents have sought information, both the biological parent and the adopted child must be interested in locating one another before a "computer match" can be made."

Biological mothers, fathers and adoptees (over the age of 21) interested in attempting to locate one another can obtain information and Registry forms by contacting the Illinois Department of Public Health, Adoption Registry, Division of Vital Records, 605 W. Jefferson, Springfield, Illinois 62702.

Adoptees between the ages of 18 and 21 can participate in the Registry, but they must have the written permission of an adoptive parent.

Special 86th birthday

The children of the 8200 block of Merrill St., in Niles attended a very unusual birthday party April 26th. For years, one of the senior citizens on the block, Mrs. Leta Diltz, has invited the children over, talked to them, treated them to candy and cookies and just loved them. For her 86th birthday the children decided to return some of the friendship and love she has shown them for so many years.

Almost all of the younger children on the block came to the party and several in their 20's who still remember Mrs. Diltz even though they are long past the cookies and candy stage. Proving she has not lost her touch for endearing herself to the youngsters, Mrs. Diltz scooped one of the youngest girls into her lap and told her she would love to have a daughter like her and she would give her ice cream every day and they'd have lots of fun.

About 35 children and neighbors watched Mrs. Diltz blow out the candle on each of the two birthday cakes she received. She wouldn't tell when she had wished for but confessed she wasn't wishing for another husband, because she'd already had one good husband and she was grateful for that. She enjoyed matching the parents with the children she has known so well and visiting with neighbors she hadn't seen for a while. The children gave her a hand made card, a mum plant for her yard and a birthday cake.

There have been a couple of generations of children on the block who have felt that Mrs. Diltz was someone very special to them. On her 86th birthday they got a chance to tell her so and thank her and wish her many more happy birthdays.

LOW SODIUM CARROT BREAD

When we first begin to cut down on our sodium intake, among the types of foods we learn to avoid are prepared baked goods and packaged mixes. But we all enjoy the flavor and aroma of muffins and quick breads as they come from the oven. The solution is to make them from scratch using NoSalt Salt Alternative instead of salt. For example, the Quick Carrot Bread suggested here takes only a few minutes to prepare and is full of flavor.

QUICK CARROT BREAD

1 3/4 cups all-purpose flour
1/3 cup brown sugar
1/2 cup shredded carrot
1 1/2 teaspoons baking powder
1 1/4 teaspoons ground cinnamon
1/4 teaspoon grated orange peel
1/4 teaspoon NoSalt Salt Alternative
1/4 teaspoon ground allspice
1 egg
1/4 cup low-fat milk
1/4 cup orange juice
1/4 cup melted, cooled, then measured unsalted margarine
2 teaspoons vanilla extract

Preheat oven to 350°F. In medium bowl, combine flour, brown sugar, carrot, baking powder, cinnamon, orange peel, NoSalt Salt Alternative and allspice. In separate bowl, thoroughly mix egg, milk, orange juice, margarine and vanilla. Quickly stir wet ingredients into dry mixture, stirring only until dry ingredients are moistened. Turn into 8 x 4-inch loaf pan that has been sprayed with a non-stick cooking spray. Bake 55 to 60 minutes or until surface is dry and starts to pull away from sides of pan. Cool 10 minutes; remove from pan and cool completely on wire rack. Makes 16 1/2-inch slices

What To Bring On Vacation

The AAA-Chicago Motor Club says the familiar advertising slogan, "Don't leave home without it," applies to more than travelers checks for the millions of Americans expected to be discovering the U.S. this summer.

Several days before departing on a driving vacation motorists should begin assembling needed items and emergency supplies. To help you be prepared, AAA-CMC offers the following checklist:

- A first aid kit including personal prescriptions.
- An emergency kit including

tools, tape, flares and a fire extinguisher.

-Packaged towelettes, napkins, eating utensils, can opener, trash bag and a pocket knife.

-Items to entertain young passengers such as notebooks, colored pencils (no crayons - they melt in the sun), games and toys with soft edges.

-A cooler to keep soft drinks and snacks cold.

-Maps and other travel materials.

-Important papers including driver's license, auto registration, insurance company phone numbers, identification for

all family members traveling and relevant medical information.

-Wear comfortable easy care clothing and keep sweaters, blankets, pillows and sunglasses nearby.

Vacation safety tips

Summer means vacation time for many of us. But for criminals, it can also be a time to victimize unsuspecting travelers or burglarize their empty homes.

To help Illinoisans learn to protect themselves and their property while traveling this summer, the Illinois Criminal Justice Information Authority is offering a free brochure called "Going Away? Got a Minute to Talk about Protecting your Home, and Safety while Traveling?" This publication contains dozens of safety tips from McGruff, the spokesdog of the National Crime Prevention Council.

The brochure includes a checklist of items for securing your home before you leave. It also offers tips on keeping safe in transit, during motel stays and while sightseeing. And the brochure contains a form for keeping a list of important numbers with you while you're on vacation.

Brochures are available in limited quantities to community groups, law enforcement agencies and citizens throughout Illinois. To order them, call the Authority's toll-free number, 1-800-4-McGruff, or write to McGruff, 120 S. Riverside Plaza, Chicago, 60606-3997.

The vacation safety tips are the latest publication of Governor James R. Thompson's statewide crime prevention campaign, which is administered by the Authority and is funded by a grant from the U.S. Department of Justice.

letters to the editor

Cites waste of taxpayers' money

Dear Editor: Based on conversations I've had lately with Morton Grove taxpayers, the mood is one of contempt for our village fathers.

Can you imagine the blatant waste of taxpayers money in the new budget? Specifically, we are a very mature village today, in fact our population is DOWN again since the 1980 census.

But not as far as the village board is concerned. What do they do? Just go out & hire 5 more people, that's all. Oh, don't worry about that, we'll just increase the homeowners taxes, that's all!! Other surrounding villages are actually reducing their personnel needs, but not Morton Grove!!

Can you imagine the gall, when every day you pick up the newspaper & see hundreds, even

thousands of people being fired or laid off because companies need to tighten the cost of running the ship. In fact, a Niles company is laying off some 300 people shortly.

But not here in Morton Grove. Trustee Dick Hobs was 100% right when he tried to stop this abuse but was voted down. We need to tighten our ship here too, folks!! If you run for mayor, Dick, you've got my vote. Maybe we can clean house & again become responsible representatives of the taxpayer.

This trend started in 1978 & is getting worse every year. It's got to stop!!

Sincerely,
John Hilkin
Former Trustee

Panek cites need for third major airport

The recent near-collision at O'Hare International Airport of a U.S. Air DC-9 and an American Airlines 727 underscores the pressing need for improved safety at the world's busiest airport. If safety concerns continue to be ignored, a preventable tragedy might likely occur.

Though he claims otherwise, state Rep. Ralph Capparelli, whose district is affected by aircraft operations, is doing little to promote airport safety. House Bill 3632, sponsored by Capparelli, merely codifies as state policy a federal consent decree that has been in effect since 1982. Everyone affected by the problem will agree that this decree has done little to address airport problems in four years.

Mr. Capparelli's bill, which was sent to the Senate on a largely partisan vote, has been called a "sham" and "political window-dressing" by several responsible legislators who live near O'Hare. Not only does his bill have "no teeth", it actually delays immediate solutions by

calling for a cosmetic health study.

The National Transportation Safety Board is concerned over the recent near-collision, as is the Federal Aviation Administration. Because of the near-miss, the FAA temporarily reduced the number of hourly landings and takeoffs at O'Hare.

Although the FAA's action is a step in the right direction, a permanent long-term solution is what is really needed. Mr. Capparelli's bill does not offer a long-term solution. In fact, it would further congest air traffic by allowing additional runways to be built.

As I see it, the only real solution is to create a third major airport and a regional airport authority to oversee aviation operations for the six-county area. This solution is unlikely to materialize if lawmakers like Rep. Capparelli continue to support proposals which look good on paper but do little to offer real relief.

Local host families needed for cultural exchange program

Local families can participate in a summer friendship and cultural exchange program with students from France.

A group of 17 teenagers will be coming to the greater Chicago area in early July. They will speak English. They will live as fully participating members of the family, not as guests in the home. It is an opportunity for the American family to share their home, life and culture with someone from a different part of the world and learn something of the language and customs of the homeland of their new family member. The students will spend 3 weeks with their American families.

These homestays are often the beginning of lifelong friendships. They are always interesting learning experiences. If your family would like to host a student, or would like more information, please contact the local program coordinator. She is Mrs. Monica Larson 295-2137.

Lincoln ave., Skokie. A \$1 donation is collected.

Future summer Passages programs include "Does What You Eat Affect The Way You Act?" (July 8), "The Healing Power of Touch" (July 15), "Fitness After Fifty" (July 22) and "Loneliness" (July 29). State offers travel reimbursement for students

Parents or legal guardians who must provide transportation to and from school, because free transportation was not available for their children, may be eligible to receive up to \$50 per child for providing this transportation from the State of Illinois, according to State Superintendent Ted Sanders.

To be eligible, pupils must be under the age of 21 at the close of the school year, be a full-time student in grades kindergarten through 12, and live 1 1/2 miles or

more from the school attended. Parents who wish to file a claim must come to the school in which the child is enrolled within 21 days of the end of the current school year to complete a claim application. If the claim is approved, parents will receive a check directly from the state during November of 1986.

Before coming to file the claim, parents should determine the number of miles the child travels each day, times 21 cents, times the total number of days the student was in attendance for the school year.

ELOQUENT ORATOR

Classical orators were renowned for their eloquent speech before the assembly, their ability to let knowledge shine through in the face of confused politics or crowd hysteria. The reputation of Socrates, of Aristotle, of Cicero speaks of the importance we give to classic orators.

Classic jewelry is every bit as eloquent. Simple geometric lines speak of taste and timelessness. Diamond jewelry is eloquent jewelry. Consider a simple diamond ring, a solitary stone simply set in gold. Its fire catches your eye and you see beauty. If the stone is a carat or more, what could be simpler. Such a ring is always beautiful. From the time you begin to wear it until it seems that you have never been without it, the simple solitaire speaks eloquently.

Add to the ring a bracelet, a bracelet with round brilliants or with rectangular baguettes, with small diamonds or with one marquise shaped stone. Slightly more complicated, yes, but still the simple line of diamonds, the eloquence of taste.

Add to the bracelet a necklace, a fine emerald cut diamond in a center bar of stair-stepped gold. Add to the necklace earrings, marquise again, or round. Yes, the look is ever-so-elegant and, yet, eloquently simple still.

We understand your language-come talk to us for the diamonds which say what you say so simply.

Planning your wedding

ANNOUNCING YOUR ENGAGEMENT

Announcements should be sent to life newspapers, both in your home town and your fiance's, if he lives elsewhere. Type or print all information. Indicate the date when you would like the announcement to appear. Allow plenty of time. Be sure your name, address and telephone number are on the upper right hand corner. Many papers and some photographers have forms on which to fill in your name, your fiance's name, names and residences of both sets of parents, background material on you both, and the expected date of your wedding. Society editors decide how much of this they can use. You may send along an 8" by 10" glossy photograph.

AN ENGAGEMENT PARTY

Often the bride's family wishes to celebrate the official announcement with a party for the couple. If the bride's family lives a great distance away, the groom's parents may do this, if they wish. It is absolutely essential that both the bride and her fiance be in attendance. If this is not possible (military separation, school separation, etc.), the party must wait.

The engagement party usually includes relatives and close friends and is given in the form of a cocktail party, dinner or even a summer barbecue. Informal printed invitations should read: first line - your parents name (or his, if they are hosts); second line - your name (or his); third line - "To meet Thomas Johnson (or Jane Jones)." Handwritten or telephone invitations are also correct.

FOUR TO TWELVE MONTHS BEFORE WEDDING

Determine your budget with your parents and decide whether your wedding will be formal or informal and where the ceremony will take place. Visit your clergyman with your fiance and set the date. Plan the reception, reserve all the services you'll need. Decide which friends you wish to have for attendants. Draw up your invitation list and have your fiance do his. Enroll with the Bridal Consultant of your favorite store and select your wedding dress, veil and accessories. Choose attendants' dresses and men's formal wear. Select the photographer. See your florist. Plan your music. Plan your home furnishings.

THREE MONTHS BEFORE THE WEDDING

Order your invitations, personal stationery and note paper. Make plans for your honeymoon destination. Begin to shop for your first-year trousseau. Have both mothers choose their gowns. Visit your doctor. Check on rubella immunization.

TWO MONTHS BEFORE THE WEDDING

Plan recording and display of wedding gifts. Finish addressing the wedding invitations. Decide upon gifts for your attendants. Select the wedding ring, if you have not already done so. Go with your fiance to get the marriage license.

ONE MONTH BEFORE THE WEDDING

Have your hair styled as you would for the wedding. Attend parties in your honor. Make transportation plans for the wedding party. Have the final fitting on your bridal gown. Arrange for the Bridesmaids' gowns to be fitted. Order your wedding cake and the package of groom's cake for guests to take home to "dream on." Arrange for your rehearsal dinner if you plan to have one. Plan accommodations for out-of-town guests. Mail your invitations. Plan bridesmaids' luncheon. Prepare the newspaper announcement of your wedding. Make a household check.

TWO WEEKS BEFORE THE WEDDING

Record each gift as received. Check on attire for everyone in the wedding party. Plan how to handle traffic and parking for guests. Arrange a seating plan for the reception. If you plan to have a bride's table at the reception, write out place cards. Go over personal trousseau. Send your typed announcement and glossy photograph to the newspaper. Arrange for name changes on social security, etc. Arrange to move belongings to your new home.

ONE WEEK BEFORE

Have final consultations with caterer, photographer, florist. Give bridesmaids' luncheon. Have hair done. Plan the rehearsal and inform attendants.

Planning your wedding day

Wedding date
Time of Ceremony
Church
Address
Time:

-Go to hair dresser.
-Arrange to have going-away clothes delivered to reception location. Lock suitcases, to be taken on honeymoon trip, in trunk of car.
-Have cosmetician apply makeup.
-Bridal party and parents should be dressed in good time for pre-wedding photography session. (Allow 1 1/2 hours before ceremony time.)
-Give list of special pictures to be taken to photographer.
-Before Leaving for Church:
-Groom's wedding band given to maid of honor.
-She wears this on her finger for safekeeping until it is needed at the ceremony.
-Ushers leave for church (arriving 3/4 hours before ceremony time).
-Groom and best man leave for church (arriving 15 minutes before ceremony time). Best man has bride's ring.
-Groom's parents leave for church (arriving 10 minutes before ceremony time).
-Bride's mother leaves for church (arriving 8-10 minutes before ceremony time).
-Bridesmaids leave for church (arriving just after bride's mother).
-Bride and father leave for church arriving 5 minutes before ceremony time).
-Groom's parents seated (front row, right side) - 5 minutes before ceremony time.
-Bridal party lines up for processional. (This is done according to instructions given at rehearsal. Usually the ushers go in pairs, followed by the youngest bridesmaid up to the maid of honor. If there are a flower girl and a ring bearer, these two will immediately precede the bride and her father.) The maid of honor should adjust the bride's train. The bride takes her father's right arm.
-Immediately prior to ceremony: Usher rolls out white carpet (if being used). Head usher seats bride's mother (front row, left aisle). Bride's mother is the first person to walk the white carpet. No late guests are to be ushered to their seats after the bride's mother is seated. They should be asked to wait at the back of church until the bride has reached the altar, at which time they may slip quietly into a back pew. When bride's mother is seated, the groom, best man and clergyman take their places at the front of the church and the processional begins, as rehearsed.
-Wedding ceremony.
-Signing of register.
-Recessional.
-Picture-taking at the church (allow 20 minutes)
-Leave for reception in pre-arranged cars.
-Arrive reception location
-Receiving line: have hostess or friend organize this. Allow at least 1/2 hour to receive 100 guests.

First in line is the mother of the bride, followed by the groom's father, groom's mother, bride's father, bride, groom, maid of honor, best man, bridesmaids and ushers.

After a few words with each guest, the bride's mother then introduces him/her to the next person in the receiving line. Each person in the receiving line does likewise.

Your guest book should be set up on a table near the end of the receiving line. Appoint a friend to see that all guests sign the book. And have a punch bowl ready for the guests when they have

been through the line. Photography session: This will take about 3/4 hour. After the group and family pictures, the photographer will probably take a picture of the bride and groom cutting the cake. This is done ahead of time.
-Dinner processional: When guests are seated, the bridal party lines up according to the head table seating plan, and walks in a single file processional through the dining area to stand behind their appointed chairs. The guests will stand when the processional begins, and while everyone is still standing, the

master of ceremonies will call on the person who is to ask the blessing. (The head table could be introduced at this time, if desired.) Dinner is then served.

I Bet You Didn't Know

By Jim Jennings

Here's an amazing baseball oddity. The 1965 Dodgers, although they won the pennant had such a weak-hitting team that their pitcher, Don Drysdale, had a higher batting average than any of the regular players who started the World Series that season! Here were the averages of the Dodger starters: (1b) Wes Parker, .238... (2b) Jim Lefebvre, .250... (ss) Maury Wills, .286... (3b) Jim Gilliam, .280... Outfield: Ron Fairly, .274; Willie Davis, .238 and Lou Johnson, .259... (c) John Roseboro, .233... Meanwhile, pitcher Drysdale's batting average that season was .300.

Here's a baseball puzzler for you... Suppose a batter is at the plate with 2 strikes... The next pitch comes in, and the batter swings and misses-but, at the same time he swings, the ball hits him... What's the ruling?... Is it a strike out, or is it a hitsman with the batter entitled to go to first base... Even some players aren't sure of the rule, but baseball rules say if you swing and miss at a pitch even though the ball hits you, it's not a hit batsman, but it is a strike.

Working Together For Progress

Izykowski provides accounting expertise

"I've always wanted to run my own accounting practice," said Andrea Izykowski. The opportunity arose after she graduated from De Paul University and had worked several years in the small business division of Arthur Andersen & Co., a major C.P.A. Firm. Today, Andi, a C.P.A. whose practice is located in Niles, is doing just that. Her clients consist principally of small businesses, their owners, and other individuals whose situations require accounting or tax expertise.

While these groups normally require the services of an experienced C.P.A., this is especially true because of the presently changing income tax laws. "The entire structure and relationship between a business owner and his or her corporation will require a close reexamination because of expected changes in both corporate and individual income tax rates. Therefore, what made a lot of tax sense under existing laws may be totally outdated tomorrow." Andi is already analyzing the changes

which her clients should soon be considering. "It's the challenge and dynamics of this profession and the chance to help clients that makes it all so exciting for me," she said, with the grin of a person who obviously enjoys practicing her chosen profession.

NWREB meeting

The second in a series of regular monthly meetings between representatives of the Northwest Real Estate Board and the Northwest Neighborhood Federation took place Wednesday, June 11. Eleven of the Federation's leadership and its Real Estate Committee were hosted by five members of the Northwest Board's Political Action Committee. Held at NWREB headquarters and beginning at 7:30 p.m., the session lasted beyond the previously-announced 9 p.m. adjournment.

The primary topic of discussion was the use of "For-Sale" signs within Chicago residential neighborhoods. The Federation is on record as opposing the use in certain neighborhoods, the Northwest Real Estate Board is in favor of using such lawn signs.

The Chicago City Council recently passed an ordinance restricting the use and appearan-

ce of outdoor advertising, which includes such signs. Signs can no longer appear on a homeowner's lawn. Rather, it must be affixed to the building or face outward through the front window. Maximum size now allowed is eighteen-inches-by-eighteen-inches, the lettering must be dark against a light background and content is limited to the words "For Sale," an address, and a telephone number.

The Northwest Real Estate Board is opposed to this latest ordinance, citing - among several considerations - an infringement upon the homeowner's right to properly advertise the property, as well as the individual homeowner's and the industry's right to free speech. Real estate officials are also concerned that the ordinance's restriction on content forces a realty firm to violate Section 450.90 (a) of the Illinois laws governing real estate: this section of the State Statutes mandates that the Broker's business name be displayed in all real estate advertisements.

Possible negotiation between the two groups on the issue of "For Sale" signs is expected to continue into the third meeting, scheduled for 7:30 p.m. on July 30th, at Federation headquarters.

New service in town

A long-time resident of Niles, Pat Salani, has started "Accurate Abstracting Service." This service is mainly for lawyers or consultants who must read and summarize deposition testimony, and may not have any in-house personnel to help them.

Ms. Salani has been abstracting depositions for several years at Polytechnic, Inc., a consulting firm in Lincolnwood, where she worked as an executive secretary.

Her husband, Bob, and sons, Ted and Larry, are very supportive of this new venture. In fact, Ted also works in a consulting firm where deposition abstracting is a necessary job. He feels particularly enthusiastic about this service being a real help to the smaller firm.

Northwest Board volunteers

raise money for hit & run victim

A Northwest Side resident who was struck and seriously injured by an unidentified hit-and-run motorist on Irving Park rd. this past Valentine's Day will receive the proceeds of an ongoing 'medical-expense trust fund' established by a local realty office and endorsed, supported, and publicized by the Northwest Real Estate Board.

Peter G. Ligtenberg, 23, of suburban Norridge, was walking along West Irving Park rd. near the Cook County Forest Preserve District the evening of February 14, when he was struck by a vehicle whose driver failed to stop. Hidden from view in the roadside, Ligtenberg lay unconscious for some three hours before being discovered. An "anonymous caller" alerted authorities to the accident, and an ambulance was dispatched to the general area to find the victim. Rushed to the Intensive Care Unit at Resurrection Hospital in Chicago, Ligtenberg was found to have multiple fractures and, as a result of his prolonged unconscious condition in the extreme weather - suffering from frostbite on three limbs. Following immediate treatment of the injuries, Ligtenberg lay hospitalized, and in a coma, for almost two months. No longer comatose, he has since been transferred to a special institute in downtown Chicago to begin the long process of physical rehabilitation.

Immediately after learning of the February 14 accident, friends of the Ligtenberg family - members of a Northwest Side real estate office - organized several benefits to raise money for their seriously injured friend.

Anthony and Connie Tambarello - of RE/MAX-A.C.T. at 3813 N. Harlem ave. - and Michael Molloy, a Director of the Northwest Real Estate Board, established a medical-expense trust fund to benefit Ligtenberg and his family; the RE/MAX-A.C.T. office also held a special "charity dinner" March 15 to obtain needed funds.

Members of the Chicago's Northwest Real Estate Board also became involved in the charity campaign. At their March and April Northwest Real Estate Board general-membership meetings, donations were solicited by NWREB volunteers to help offset the Ligtenberg family's extensive medical bills.

Friends, neighbors, and other concerned area residents who wish to make a donation to the "Peter G. Ligtenberg Fund" may contact Anthony or Connie Tambarello, Michael Molloy, or Jeff Norberte at RE/MAX-A.C.T. Realty, 3813 N. Harlem ave., Chicago, 60634. The Tambarello's office will be open 7 days weekly to accept donations; additional information may be obtained by calling 775-8333.

Originally founded in May, 1924, the Northwest Real Estate Board has provided continuous, uninterrupted service to the community for 62 years.

UNI operating on four-day week

Northeastern Illinois University is operating on a four-day week during its summer term for the fourth year in a row in order to reduce utility costs.

Almost all university operations, including classes, are being compressed into a Monday through Thursday schedule for a 10-week period between June 23 and August 31. The university's main campus at 3500 N. St. Louis ave. and its Center for Inner City Studies, 700 E. Oakwood, will be shut down Friday through Sun-

day. Monday through Thursday, Northeastern's campuses are open from 7 a.m. to 10 p.m. Most administrative offices are operating on an 8 a.m. to 6 p.m. schedule. The library is open from 7:45 a.m. to 10:30 p.m.

There will be no cooling or ventilation during the closed days which will result in an estimated 20 percent reduction in air conditioning hours during the two peak cooling months.

Students win ecology essay contest

Julie Wattel, an 8th grade student at Golf Junior High School in Golf, was the recipient of a \$50 U.S. Savings Bond in the 1986 Ecology Essay Contest sponsored by the Telephone Pioneers of America, Gateway Council. Judges also decided this year to give an honorary award, which went to Greg Tomczyk (8th grade) of Park View Junior High School, Morton Grove.

Wattel's essay was also submitted to Suburban Chapter 7 of the Telephone Pioneers of

America and was awarded first place in the seven councils represented in the Chapter. She was awarded a \$100 U.S. Savings Bond.

Wattel will receive \$150 in U.S. Savings Bonds on June 3 at Golf Junior High's Awards Day. The presenters will be Joseph Gestic, Gateway Council chairman and Bill Gregory, Suburban Chapter 70 Ecology chairman. Tomczyk will receive his award on June 10 at Park View's Awards Day.

For further information, call 635-1812.

Apply now for Oakton financial aid

Students desiring financial aid for the fall semester at Oakton Community College are urged to apply now for a better chance of receiving money for College studies.

Grants, scholarships, loans and part-time work study jobs are available to students enrolled at least half-time in Oakton degree or certificate programs. Funds may be used to meet the costs of tuition, books, commuting and living expenses. Funds are available to students of all income levels, although some financial aid is based on need. Students may receive funds from a combination of programs. The average award for the 1985-86 school year was \$1,800.

Grants are available for up to \$1,200 a year. Loans of up to \$3,000 a year are available with interest rates starting at five percent. Many of these loans don't have to be repaid until you complete college.

Students interested in receiving financial aid must file an Application for Federal Student Aid.

Financial aid forms and program specifics are available through the Financial Aid offices at Oakton, 1600 East Golf Road, Des Plaines and Oakton East, 7701 N. Lincoln Ave., Skokie.

For further information, call 625-1708.

Reimbursement funds for school transportation

Parents or legal guardians who must provide transportation to and from school, because free transportation was not available for their children, have until July 8 to apply for reimbursement up to \$50 per child for providing this transportation from the State of Illinois, according to State Superintendent Ted Sanders.

To be eligible, pupils must be under the age of 21 at the close of the school year, be a full-time student in grades kindergarten through 12, and live 1 1/2 miles or more from the school attended. Parents who wish to file a claim must come to the school in which the child is enrolled within 21 days of the end of the current school year to complete a claim application. If the claim is approved, parents will receive a check directly from the state during November of 1986.

Before coming to file the claim, parents should determine the number of miles the child travels each day, times 21 cents, times the total number of days the student was in attendance for the school year.

brought the Beck Lake problem to her attention she did send us back a letter concerning her follow-up. Unfortunately, the effort was short-lived.

We've been down this road before. Many years ago we were driving West on Ballard Road before there was a stoplight at the Greenwood intersection. There was a near-miss of an accident between the car in front of me and a vehicle heading south which failed to stop at the stop sign on the corner. We ignored the problem and a couple of weeks later two people were killed in an accident which occurred at this intersection. Stoplights were placed there immediately afterwards.

A publisher acquaintance of

ours was killed in a car-train accident last year at a train crossing which did not have crossing gates. Immediately after she was killed the gates were installed.

The Beck Lake tragedies should now result in some public action by local public officials. Before another youngster, with three beers under his belly, shows his bravado by swimming out to the island, someone is going to say, "The community needs protecting". They'll finally take some action and hopefully prevent a future tragedy at the lake.

The preventive action won't bring back the ten people who drowned at the lake. But it may prevent the next ten from drowning.

"The library was very special to him," said Mrs. Zemsky, "because it afforded him the opportunity to get large print books and cassettes."

For a growing number of residents who need these kinds of materials, the Center will be a valuable library resource. Additional contributions to increase the collection in the David Zemsky Low Vision Center will be a great help. Those wishing to donate, may send a check to Linda Wicher, Acting Director, with checks payable to Lincolnwood Library.

In the fall there will be a formal dedication of the new Center.

Mary Ann Millush, assistant vice president consumer relations said each month NI-Gas mails nearly 1.4 million Consumer News bill inserts, featuring information concerning two children, to its customers. In a related effort, the company provides posters containing three photographs to 225 locations throughout Northern Illinois. Besides the two children from the national program, NI-Gas provides a picture and information about a missing Illinois child.

In addition to publicizing information about missing youngsters, Millush said NI-Gas, a brochure, Missing Children: More Than Statistics, was distributed to customers last August. The publication explains the Child Watch program and contains child protection tips from the National Safety Council.

Referendum...

Continued from MG P.1

Park Director Dave Huber announced that Dennis Janhke, Superintendent of Parks, will resign as of June 27. This promoted Huber to express his concern that the district is only a training ground for employees to gain experience to find higher paying jobs. He stated that within the last two years, the district, had 22 positions changes, a figure that is above the normal turnover rate. He stated that it is hard to maintain employees within the district because of the low salary ranges.

Commissioner Eileen Coursey said that the referendum would be hard to pass because the majority of the residents do not want higher taxes. However, she agreed to work for it.

Richard Les said the "whole family" was proud of his son. "Just being selected in the draft was a great honor and a culmination of his hard work," he said. "Jim still has a hard road ahead to achieve his goal of getting into the Braves' roster."

He explained that Jim will go to rookie camp in Atlanta sometime in July and then play summer league with midwest professional teams. "If he is one of the players picked by Atlanta, he will go to another camp and compete against the National Basketball League."

Les said his son pitched the first ball at the Cub's game last week after officials learned about the draft. "It's all very exciting, and we hope he makes it. He realizes the tough competition ahead because of his size," he said. "Jim just wanted to be drafted, if he does not make it, he will have to find another job, I guess."

Father George Kahle, principal of Notre Dame High School, said that Jim Les has brought great honor to his school. "It's a compliment to him and his hard work. You can't imagine the amount of practice he put in during his years here and his determination to succeed," he said.

White announced that a new flyer/poster advertising the Community Center will be available soon. The poster will be posted in area schools and businesses. Also, a logo contest for the club is underway and open to the public. The winner will receive a free membership to the club. For more information, contact the district at 965-7447.

hood streets, including Maynard, Birchwood, Nottingham and Park Ave. because bids were 16-percent higher than village engineers' estimate.

Trustee Peter Pesole argued that costs would be higher if road repairs were postponed, saying that bids were not let out for the project until the 1986-87 village budget was approved (in April). "Contractors were already committed to other jobs, accounting for the high bids," he said. "Residents expected the work to be done and we should do it now."

Trustee Bart Murphy and other board members thought it was more prudent to "save the village \$70,000" by postponing the bids in January when they would be more compatible to village estimates for the road project.

Janette Mates, who is retiring after serving the village's finance department for 22 years, received a plaque in recognition of her long years of service to the village. Blase noted Meclia was the longest tenured female employee in the village. "You have served the community well...we will miss you," he said.

The board passed a resolution to place an advisory referendum on the November ballot limiting finance charges on credit cards to 3 percent over the prime rate.

The action came after Andrew Przybylo of Niles and Renee Thaler of Glenview (candidates for the Cook County Board) requested the referendum, noting that banks charge "21 to 22 percent credit rates. We have to get relief to consumers by reducing those rates, which would also be good for business," the candidates said.

Amended a vehicle license ordinance that will allow residents over 62 years of age to purchase vehicle stickers for a reduced fee of \$5 per driver's license.

Postponed scheduled road repairs (until 1987) to neighborhood streets.
