District 63 enrollment up this year

by Bud Besser

We've often mentioned community newspapering concerns reporting about local community happenings. The activities which happen at the community level may not make many headlines but they are newsworthy and deserve to be in print. Similarly, writing about residents in our areas calls to your attention local people whose stories may not be published in the metropolitan newspapers. But these people's efforts and accomplishments are as important as the more celebrated.

A good friend of The Bugle and many music students in the area, Richard Giannone, is quite ill and undergoing surgery today at Skokie Valley Hospital.

One of the most elegant gentlemen ever to pass through the Bugle portals, Richard has had a very noteworthy musical career. He also came from a rich musical heritage.

Richard's grandfather, Giuseppe, came to America and was commissioned to direct the U.S. Naval band. We would guess he received this commission around the turn of the century.

Giuseppe's grandson, Richard, was first taught to play the violin by his father. But when the young boy traded his violin for some em-

In an abbreviated meeting Tuesday night, School District 63 assistant superintendent Don Stetina said there has been a "ripple effect" in enrollment with an eight-tenths of one percent increase this year over last year. While he was guarded in his predictions, he implied there may no longer be a decline in enrollment in the district though

this cannot be determined until a three year enrollment census can be seen.

The significance of Stetina's comments is this is the first turnaround in enrollment in the district since it began declining after 1972. That peak year enrollment was about 7,400 and Stetina reported Tuesday total

Senior Citizen Homestead information

In an unprecedented move today, Cook County Clerk, Stanley T. Kusper Jr., petitioned the Cook County Circuit Court to

allow the extension of the time period for voter registration in certain areas currently affected by the sudden 'Act of God' Cook County residents have been experiencing with the severe weather.

"At present, ten townships within the Suburban Cook County jurisdiction have been declared Natural Disaster areas by Governor Thompson," Kusper stated. "The affected areas are: Wheeling, Northfield, Maine, Elk Grove, Norwood Park, Leyden, River Forest, Proviso, Riverside, and Lyons," Kusper continued.

"We expect that other townships, as yet unforeseen, will undoubtedly be added to the list." "Therefore, it will be impossible for many of the normal registration sites to be open on October 7, 1986."

"Under normal conditions, Illinois Statutes provide that registration conducted in the Offices of the City, Village, and Township Clerks close 35 days prior to the election, when in-precinct registration is in progress," Kusper explained.

"The City, Village, and Township offices have been closed for voter registration since Sept. 29, 1986," Kusper stated. "October 7th was our target date for in-precinct registration."

"However, due to the inclement weather, we will not know how many precincts will actually be able to open," Kusper continued. "Therefore, in order to give every individual in all affected jurisdictions the ability to exercise their constitutional right to register to vote, we have petitioned the Circuit Court to allow us to extend their voter registration at the City, Village, and Township offices to October 11, 1986."

"I am please to announce that the Honorable Judge Wachowski has granted our petition," Kusper continued.

Robbery offender apprehended

Niles Chief of Police Clarence Emrikson is shown presenting Lt. LoVerde (c) and Officer Leavitt with a commendation award. This is the second award Officer Leavitt has received in a two-week period. The other also involving a robbery which led to the arrest of two subjects.

For the second time, within a two-week period, Niles police officers apprehended another robbery offender shortly after the crime took place. Lt. Vito LoVerde, in his personal vehicle, heard on his portable radio that an armed robbery just occurred at a local gas station. Lt. LoVerde, who was near the area, immediately drove to the scene and obtained a description of the offender and his vehicle. After acquiring the information from the victims, he dispatched it to all police units that were patrolling the streets.

Officer Donald Leavitt heard the broadcast, in his squad car, and drove in the direction where the suspect was going. Soon Officer Leavitt sighted a vehicle that matched the description given by Lt. LoVerde. He attempted to stop the vehicle but in his attempt the driver accelerated and Officer Leavitt had to activate his emergency lights and siren in the high speed pursuit. When the offender drove into a dead-end street in Chicago, Officer Leavitt blocked his exit, with his squad and fired one shot at the front side of the offender's vehicle in attempt to stop the vehicle. The driver tried, several times, to run down Officer Leavitt with his vehicle. After another speed pursuit, the driver stopped and jumped out of the vehicle. Officer Leavitt pursued him on foot and observed that the offender had hidden under the porch of a house. The subject was then apprehended with the assistance of two Chicago police officers and subsequently arrested for robbery, attempted murder, and several other misdemeanors and traffic offenses.

Brookfield Zoo run

The AMC/Jeep/Renault Dealers Association of Chicagoland and Northern Indiana will sponsor the first Brookfield Zoo Run Run, a five-kilometer race that will begin and end at the North Gate of the zoo on Sunday, Oct. 19.

In addition to the race, which will begin at 8:30 a.m., there will be a 1/2-mile fun run through Brookfield Zoo, beginning at 9:30 a.m. The 5K race is open to runners in seven age categories, from age 17 and under to age 70 and older. The fun run is for children age 10 and younger, and for young adults with physical disabilities.

All registered participants in the race and the fun run will receive free T-shirts provided by the AMC/Jeep/Renault Dealers Association of Chicagoland and Northern Indiana. The top 100 finishers will receive nylon bags, also supplied by the AMC dealers. All participants also will be eligible to register for a drawing for an assortment of prizes.

More than 1,200 runners are expected for the 5K race, which will be run on a course that proceeds west from Brookfield Zoo into the Village of Brookfield and through the forest preserve near the village. Registration for the 5K race includes free admission to the zoo for the runner and up to two children and one adult, plus free Brookfield Zoo parking for one car.

Registration fee for the 5K race, which is sanctioned by the Athletic Congress (TAC) is \$10, and late registration is \$12. Registration fee for the fun run is \$8, and late registration is \$10. Call 465-0263, ext. 320.

"We are happy to be a part of this event, which we hope will bring not only runners but their whole families to the zoo," said James Russo, president of the AMC/Jeep/Renault Dealers group.

Reporting changes

People who get the Supplemental Security Income (SSI) payments do not have to visit a Social Security office to report significant changes in their situation. Thomas A. Curin, Social Security manager in Des Plaines, said recently. Changes may also be reported by mail or phone.

The important thing is to include all pertinent information. This includes the name of the person about whom the report is being made, the person's Social Security number, the date the change occurred, and the address and phone number of the person making the report. If the report is made by mail, the person's signature should also be included.

For your convenience, a form for making such reports can be obtained from any Social Security office. The telephone number can be found in the white pages of the telephone book under "United States Government."

Flood victims advised to document evidence

Harry H. Semrow, Commissioner of the Cook County Board of Tax Appeals, today advised homeowners who are being ravaged by the flood that now is the time to start documenting evidence of structural damage to their homes if they intend to appeal their 1986 property tax assessments.

"I am very concerned about the plight of the flood victims," said Semrow, "and want to let them know that the Board of Appeals has been in the past, and certainly will be in the future, receptive to property tax appeals based on documented evidence of flood damage to homes."

Semrow strongly advised Cook County flood victims to take photographs NOW of structural

damage to their homes -- such as that to foundations, floors, and walls. He also advised flood victims to save their forthcoming bills for structural repairs because such evidence is very helpful at an appeal hearing.

The Board of Appeals is a two-person agency which hears taxpayer complaints about unfair or inaccurate property tax assessments in Cook County.

Semrow said that property tax reductions are not automatically granted to flood damaged homes. However, where there has been convincing evidence showing structural damage to homes, the Board has in the past granted assessment reductions which result in lower property taxes.

Ballard residents enjoy show

On Sunday, Sept. 28, 13 Ballard Nursing Center residents attended Cloud Gate's performance of "Legacy" at Centre East. The residents said they enjoyed the show. Elfrieda Luft commented, "It was very, very lovely." Bill Hatting described it as a "Good time," and Orland Senne said it was "fun." Everyone commented on the beautiful colors, especially the red ribbon flying during a dance. "I enjoyed the whole thing," Elfrieda said. "Especially when they did the action, the tumbling and such. I like to be active myself, guess that's why I like the action."

Ballard Nursing Center was presented with the tickets compliments of the Centre East. The performance was of "Legacy" by Cloud Gate, Taipei Contemporary Dance Theatre. The Ballard Nursing Center extends our thanks to the Centre East for providing us with such a generous (and fun) gift.

Volunteers must be 18 years of age or older and will receive a full laboratory workup and an EKG. The study extends over a twelve week period and all costs are covered by the program. For more information or to volunteer, please contact Barb Atkin R.N., nurse coordinator of the program at 696-7694.

"United We Stand"

Larry Arft (c), General Campaign Chairman for the United Way of Skokie Valley's Campaign, expresses appreciation for the progress of the Campaign to Edward E. Bothfeld, President of the United Way and Executive Vice President of Synchro-Start Products, and Henry Shillington, Executive Director of the United Way. To date, more money has been contributed than a year ago. The goal is \$251,350, the amount raised is \$81,065.

United Way of Skokie Valley contributions already exceed \$81,000 toward a goal of \$251,350 according to Larry Arft, General Campaign Chairman and Village Manager in Morton Grove. Participating villages include Skokie, Morton Grove, Lincolnwood and Niles. This year's campaign theme is "United We Stand!" With falling assistance for domestic social programs it's truly wonderful the way people are standing united, pulling together and working for the best reason possible: to give help and comfort to neighbors in distress.

We are now in the middle of a campaign to raise \$251,350 to benefit 14 local agencies. The United Way is the oldest and most successful combined appeal in the U.S.A. Because the United Way relies on volunteer solicitors and other workers, the overhead is one of the lowest of any fund drive in the country. About 95% of every dollar contributed goes into programs - health care, senior day care, family counseling, legal aid and workshops for the handicapped.

This year's goal of \$251,350 is the highest in Skokie Valley history, but so is the need for help. Cuts in federal aid are straining the budgets of social agencies. The need is so widespread that last year about

Tools lost in Sears

A Skokie resident reported he lost about \$4,000 worth of tools he had stored in Sears basement. He was a part-time worker at Sears. While seeking other employment, three boxes of his tools were moved in the basement to another area. One box was missing as well as other tools from the other boxes. He was unsure whether or not Sears' insurance or his homeowners' insurance would cover the loss.

Assault at motel

Sunday, a Glenview man said he was standing in front of Room 11 at the Vegas Motel when an assailant came up to him and hit him over the head with a beer bottle. He had no explanation for the assault and claimed the window in his room was also broken and assumed it was by the same man.

Price switcher arrested

October 10, a man had to post a \$1,000 bond after he switched the price of a Marty Hogan tennis racket from \$99.94 to \$14.84. A second and similar incident occurred when a customer switched an accudarts item, seeking to save \$12.87.

Attempted entry

A slim man in his late twenties was seen leaving apartment building on Milwaukee Avenue after a young woman reported her lock was tampered with and foreign objects were found in the lock. She said part of the door was also chipped away.

Fuzz buster stolen

A Cobra radar detector was removed from a car's dashboard in the 7300 block on Greenleaf.

Man sprayed with chemical

A twenty-five year old reported he was abused Saturday night in the parking lot at Doc Weeds, 8832 Dempster. He was followed to his car and after he was asked, "Did you ever see one of these, nigger?" He was then sprayed in the face by a chemical which may have been mace. The assailant's name was identified in the parking lot and police will follow-up and determine whether the man was the assailant. The driver of the car said he will sign a complaint.

Shoplifter apprehended

A Des Plaines resident was picked up by Niles police Sunday after she concealed a child's coat and a rear view mirror taken from the K Mart store. The value of the items was \$24.97. She had a previous Skokie record.

Pocket picked in Golf Mill

A Park Ridge resident reported \$120 in cash plus credit cards were missing from his pants. He was trying on clothes in a Golf Mill store. The theft occurred when his older pants were left unattended.

Purse snatched

A 34 year old Niles woman reported she was bumped while coming out of a food store on Milwaukee Avenue. A man in his twenties grabbed her brown leather purse and ran across the street toward the McDonald's store. She lost her purse, keys and credit cards. She asked for a watch on her residence until she could change the locks.

Harassment charge

A woman living at the White Horse Inn, 7139 Milwaukee, reported she has been harassed by two women for the past two weeks. While being at various motels on Lincoln Avenue she said the harassment began there. She reported her red Chevrolet had the two front tires slashed.

Auto towed

On Saturday an auto was blocking the driveway at 7242 Crain. It was towed away when the owner could not be located.

Auto theft thwarted by Niles police

An attempted auto theft on Elizabeth Avenue was thwarted Sunday. Niles police responded to a complaint and upon arrival chased two subjects through a yard and into a nearby building. Both suspects were apprehended. One man went into an apartment and was pretending to be asleep on a carpet in the home. His shoes were wet and were covered with grass. A witness identified the men and one made a verbal admission they were attempting a car theft. Returning to the auto, an ignition wire was hanging down below the dashboard and one suspect had a bent fork on his person.

Auto fire

Friday, a Des Plaines woman pulled into the Swenson Paint parking lot after noticing smoke coming from the undercarriage of the car. She parked the car and telephoned her husband. When she returned, the car was engulfed in flames and the vehicle was completely destroyed.

Felon arrested

On Friday a 32 year old Niles man was booked for speeding 52 mph in a 35 mile zone in the 6600 block on Milwaukee Avenue. After a namecheck it was found he was wanted for larceny in Itasca and was shipped to that community.

Equipment removed

Juice dispensers were removed from the Four Doves and Salad Delites Restaurants, valued at \$1,200 and \$1,500. A representative of the companies involved said they would not be returned subject to their lawyers counsel.

Nilesite dies at home

Casimer Zientik, 72, 8461 Olcott, collapsed in his home in the presence of his wife and daughter Sunday and was pronounced dead at Lutheran General Hospital.

Nursing home resident missing

Last Saturday a 71 year old man with a history of mental problems was reported missing from the Miranda Manor Home, 8333 Golf Road. He returned to the home four hours after he was reported missing, returning at 8:15 p.m.

Cigarette machine robbed

Friday, it was reported the cigarette machine at Butera's Foods was pried open and \$178.50 in quarters were taken from the machine.

Petite theft charges

A retail theft charge was made against a woman Friday who removed \$4.41 of foodstuffs from Osco Drugs. Also, an 18 year old Chicago man was charged with petite retail theft after changing the price on a Bears' shirt from \$29.95 to \$14.96. A petite theft charge is offered the accused for lesser value thefts where the accused pays a \$50 fine and is given a ticket rather than being tried in court. Thus a record of the theft is not recorded.

Shoplifter arrested

A woman had to post a \$1,000 bond last Friday after she walked out of K Mart without paying for silk flowers and other items found on her person. They were valued at \$152.20.

Safety belt use saves lives

July 1986 automobile occupant fatality figures released today are dramatically lower than July figures for the past five years. "It shows promise that the year-long effort to save lives through compliance with the safety belt use law is gaining momentum," said Lois Robinson, executive director of the Illinois Coalition for Safety Belt Use. The Illinois Department of Transportation (IDOT) released provisional figures showing that

there were 68 occupant fatalities in July, 1986, compared to 88 in July, 1985. The 1981-1985 five-year average for July is 89.

According to Robinson, the dramatic decrease in fatalities is particularly encouraging because it occurred during July, a summer month with a major holiday, traditionally a time of heavy traffic.

"Our goal is to save lives, and our greatest hope is that these figures are just the beginning for safety belts as just the beginning of the second year of the safety belt use law," Robinson said.

To achieve these dramatic life savings throughout the year we must continue to educate and remind the public about the life-saving value of safety belts; the police must continue their efforts to increase compliance; and the courts must ultimately uphold the law," Robinson added.

UNDER NEW OWNERSHIP

I Bet You Didn't Know

By Jim Jennings

Here's an interesting fact about one of college football's immortal coaches—Bear Bryant. As great a coach as Bryant was, the amazing thing is that his record got better and better with age. When he was in his 30s, he won 85% of his games. In his 40s, he won 79%. In his 50s, he won 78%. And in his 60s, he won 86% of all his games!

Surprisingly, a touchdown in football was not always worth 6 points. Back at the turn of the century, a TD counted for only 5 points. Touchdowns weren't worth 6 points till 1912.

Something new... A college football team this year is playing on a BLUE football field. Boise State University of Idaho installed new AstroTurf on their field and made it blue instead of green to match their school colors. It's reportedly the first blue football field ever.

Conlon seeks support for Cosentino's credit plan

Dear Editor:

We in Illinois pay the highest credit card finance charges in the nation. Among the handful of banks issuing credit cards, 19.8 percent is the common rate. Sears and several other large retailers charge 21 percent annually for their in-store charges. Rates as high as nearly 22 percent are not uncommon in this state.

In the late 1970s this country's economy suffered from difficult times, resulting in the prime rate reaching 20 percent. The Illinois General Assembly reacted to such high rates by repealing its usury ceiling.

But now the times have changed. Interest rates other than credit card charges are at their lowest level in nearly a decade. The Federal Reserve Board has reduced its discount rate four times this year and it now stands at 5.5 percent. Unfortunately for us, Illinois banks and retailers issuing credit cards have conveniently chosen to ignore this obvious economic upswing.

As a candidate for the Cook County Board, I feel strongly that an interest rate ceiling is needed in Illinois. Consequently I support the Cosentino Fair Credit Plan.

An open letter to Niles officials
Honorable Nicholas B. Blase, Mayor; Clarence Emritson, Chief of Police; Joseph Salerno, Director of Code Enforcement and members of the Planning Commission and Zoning Board of Appeals:

I, with my neighbors, attended a meeting on a proposed change in our zoning laws to allow a new carry out pizza restaurant in the small shopping center on the northeast corner of Milwaukee and Oakton. The franchise representative presented his case with a beautiful store front (I have never seen a beautiful store front pizza parlor), free pizza for the mayor and all the officials, and the members voted, three "against", three "for" and one absentee.

I opposed this zoning change vigorously. This corner cannot accommodate the increased traffic. The accident rate on this corner of Milwaukee and Oakton is probably the highest in Niles. A proposed change from 80 legal parking places to 113 legal

parking places is impossible. One member suggested the use of Seward, a dead end street if business is brisk. I called to their attention the traffic hazards of this parking lot. No left turn east on Oakton, no left turn south on Milwaukee, no true traffic, no truck traffic and a stop sign that is violated a thousand times a day. They recommended I notify the police. Now that is humorous, police cars park in these lots for a coffee break and do their paperwork. I have never seen a ticket issued, or even a warning. The bottom line is, do we need another pizza restaurant in the area, we now have three within three blocks, all looking for business. Niles now holds the prestigious claim of having more restaurants than any other northwest suburb.

I think the mayor should change our village signs to "Niles - the pig-out capital of Illinois".

Which candidate can best remember where he's from?

Dear Editor:

When I go into the polling booth on Nov. 4 to vote for State Representative of the 66th District, I will keep only one question in mind: Which candidate can best remember where he's from?

It seems that Cal Sutker, our self-appointed Representative, has forgotten that our district is not in Chicago.

Some examples:
* He voted against our interests by opposing legislation that allows suburban school children to make field trips into Chicago on our buses. In spite of his and the Chicago machine's opposition, the legislation passed easily.

* He voted against our interests by supporting legislation that moves education funds from the suburbs to the City of Chicago.

* He voted against our interests by supporting Chicago in its drive to maintain entire control over O'Hare Airport, despite the fact that the airport's noise and air pollution affect hundreds of thousands of suburban residents.

What can we conclude from these votes? The poor man obviously has forgotten that our district lies outside the boundaries of Chicago. Need someone remind him that Morton Grove, Skokie, Des Plaines, Park Ridge, Glenview, Wilmette and Niles are

independent of Chicago and have their own priorities and concerns?

Of course, such memory lapses by the candidate are no big surprise. His past record shows that in his two years as self-appointed State Representative, he has also forgotten to vote on over 300 bills - far more votes than were missed by any other Freshman Representative. I must point out that he may have considered many of the issues unimportant and, thus, easily forgettable - issues such as education reform and tax incentives for business and child abuse and criminal prosecution.

On second thought, I will have a couple other questions when I enter the polling booth Nov. 4: Is Cal Sutker's voting record the product of a poor memory? Or is it the product of arrogance?

There is a candidate who has done a good job of serving our community in the past and will continue to do so in the future. His name is Sheldon Marcus. Marcus has spent twelve and a half years on school boards in our area, and his record proves that he places the concerns and priorities of our district at the top of his agenda, where they belong.

Geocarri commends performance of Judge Zimmerman
Dear Sir:

It is essential to our judicial system that we respect the opinions of the Bar about the qualifications of Judges. I know how sensitive our lawyers pursue this role. However, even the most well thought out methods of periodic evaluation must rely upon input from persons whose knowledge is often single faceted. This can lead to well-meaning errors. I respectfully suggest this may be the case with the evaluation of the case of Judge George J. Zimmerman.

In my role as Presiding Judge of the Third Municipal District, I have observed the work of Judge Zimmerman over a period of 10 years. I am also in regular professional contact with the Chiefs of Police, Village Prosecutors, State's Attorneys, private attorneys, clerks and citizens of the Third District. I also observe the workload of our Judges and their work product in great detail on a regular basis.

I have, therefore, had an opportunity to see and hear of a Judge's performance from many different viewpoints. Judge Zimmerman's honesty and integrity have never been questioned. His personal character is above reproach. Judge Zimmerman is prompt and diligent. He is always ready to take on the most physically demanding calls. In fact, he regularly hears high volume calls and never asks for respite.

Judge Zimmerman is a quiet, compassionate and decent man. Judge Zimmerman is decisive but not arrogant. He is calm, gentle and even-tempered. I think we can agree that these are indicia of judicial temperament.

Judge Zimmerman has been a credit to the judiciary and the Bar throughout the years I have known him. Judge Zimmerman is well regarded by his fellow Judges, our court personnel, police officers and attorneys who come before him.

Sincerely,
James A. Geocarri
Presiding Judge

Gump's prison sentence too lenient
Dear Bud,

I normally do not write letters in response to newspaper editorials, however, this particular item deserves a response. I refer to your comments in the "Left Hand" from Sept. 25, 1986 regarding Ms. Jean Gump. I have a few simple comments:

1. I, too, am concerned with the severity of the punishment. I feel 8 years is a slap on the wrist for damaging property which taxpayers have paid millions of dollars for. If taxpayers wish this property dismantled, the voting booth is the proper place to make your feelings known.

2. The simple fact that Ms. Gump has been arrested five times shows that she has more concern and time for any other activity instead of rearing her twelve children.

3. Marching in civil rights protests or any other legal action is correct. Criminal damage is incorrect. The "specious" reason of acting on the bishops report is no different than "the devil made me do it" reason offered by Flip Wilson. You apparently concur on this matter by your choice of words.

In closing, the severity of the punishment disturbs me too and was the major reason for my reply. It is this lenient trend by judges and do-gooders that pushes us closer to anarchy. You did ask for opinions and thoughts, so I hope you listen to both sides carefully.

Yours for better justice,
Don Kobylski

Free Flowering Trees for Fall planting

Ten free flowering trees will be given to people who join the National Arbor Foundation during October, 1986.

The Foundation will give two White Dogwood, two American Redbud, two European Mountainash, two Washington Hawthorn and two Flowering Crab trees to members joining during October. The free trees are part of the Foundation's efforts to improve the quality of life in America by encouraging tree planting.

"The Foundation is encouraging more people to plant trees in the fall, which is an excellent time for tree planting," John Rosenow, the Foundation's executive director, said. "So we're giving these free flowering trees to people who make a \$10 membership contribution during October."

"These trees were selected because they will give a colorful flowering of pink, white, and red blossoms throughout the spring," Rosenow added.

Spirit Week at Res

At Resurrection High School, 7500 W. Talcott Ave., Spirit Week collided with the worst flood in Northern Illinois history. But the Res Student Council did not let a little rain dampen their spirits for Spirit Week.

Sunday, the Battle of the Generations pitted the parents against students in a variety of contests from volleyball to tug of war.

On Wednesday, Restes showed they cared by donating a "gift of life" - a pint of blood to the Red Cross. The goal was 66 pints but Restes delivered 72 pints.

The student-faculty softball game was washed out, but crowds managed to fill the house Friday night at the seasons first Student Council Dance - "The Res Rock Cafe."

President Monica Szewdo noted that "Spirit week brought out the spirit in all of us."

The purpose of Spirit Week as summed up by Treasurer Kathy Heinlein: "The Student Council sponsors Spirit Week but the purpose is to have everyone involved. Our goal is to have each girl feel and know that Res is her school, and that she can be proud of it."

District 207 receives art grant

A grant provided by the Illinois Arts Council and the National Endowment for the Arts will pay for an artist to spend eight weeks working with advanced art students in the three Maine Township high schools beginning Oct. 20.

Kenneth Burg, sculptor and painter, will spend 20 hours a week working with Art III and IV students to further stimulate their interest in art and add a new

dimension to the current curriculum in art education, according to Dennis P. Dreesen, coordinator of planning and special projects. The program is part of the on-going District 207 Horizons program and the new Artist-in-Residence program. The Park Ridge Art League and the Des Plaines Art League are also cooperating in the project.

A major concept I convey is the creative relationship between

the sciences and arts and the existence of creativity in all areas of life," said Burg. "My personal role as an artist is not only to create an object, but also to make my viewers aware of their own creative sensibilities and potential."

Burg is a founding member of Eclectic Fusions, a non-profit creative research center that promotes the use of creative expressive arts in therapeutic and educational settings. He has several sculptures on display at the University of Wisconsin.

The program will include community involvement and conclude with a public exhibit of student-created art work that will be displayed throughout the district.

Sohn cites need for curbing drug abuse

As a physician, Dr. Herb Sohn, Republican Candidate for Congress in the Ninth Congressional District of Illinois, has been concerned about the increase in drug use in his district and in the country.

At Louis A. Weiss Memorial Hospital where he is an attending surgeon, Dr. Sohn sees the results of drug abuse on a daily basis. He sees the many deaths and tragedies that befall the users of hard drugs as well as the suffering their families must endure. Sohn feels that working to stop the spread of illegal drugs has become a major domestic problem. There is no greater threat to our children than the threat of the drug abuse problem we face today. According to two polls in U.S. News and World Report and the New York Times, 86% of the American public believes stopping the spread of illegal drugs is higher a priority than stopping crime and reducing unemployment.

Sidney Yates, the incumbent and Sohn's opponent in this election, has proven to be considerably derelict in helping to curb the drug problem. Yates voted in the negative in nine key anti-drug votes occurring in the 99th Congress. Most of these were bills that would have transferred funds from other less-significant programs, to the more important programs that combat the drug crisis: drug interdiction at U.S. borders being chief among them.

Sohn believes that the only real advancement that can be made in the effort to stop the drug problem is through education and by stopping the supply of drugs at its source.

Senior Citizens are now eligible for a Homestead Exemption during the year in which they turn 65. They no longer have to wait another year as was the situation with the Homestead Act prior to 1984. The Homestead Exemption has also been increased from \$1500, which it was prior to January 1st, 1984, and is now \$2000. However, this benefit was not reflected on a Tax Bill until the Second Installment was due in the Summer of 1986. Therefore, the 1985 Homestead savings was not received until the 1985 Tax Bills were paid in full with the Second Installment in the year 1986.

The Senior Citizen Homestead Exemption provides tax relief by reducing the equalized assessed valuation of an eligible residence by \$2000 which can result in a tax savings of as much as \$200. This savings is in the form of a deduction on the Second Installment of the Real Estate Tax Bill. If you forgot to file a Certificate of Error can be requested. To be eligible for this exemption you must fulfill the following requirements:

1. You must be 65 years of age or older during the year for which you are applying.
2. As of January 1st of the year in question you must either own the property or have a lease or contract which makes you responsible for the real estate taxes.
3. As of January 1st of the year in question the property must be your principal residence.

You may file for this Valuable Exemption at the Niles Township Assessor Hanrahan's Office, your documents indicating the following will be examined, copied and returned to you at the time you file.

You must provide us with: 1. PROOF OF AGE: Birth Certificate, Baptismal Certificate, Naturalization Papers, or Social Security Form SSA-2458 showing date of Birth. NOTE: Married women submitting a document with their maiden name as proof of birth must also include a MARRIAGE CERTIFICATE to show the change of name.

2. PROOF OF OWNERSHIP: Warranty Deed, Quit Claim Deed, Torrens Certificate, Trustee's Deed, Deed in Trust with Trust Agreement, Executor's Deed, Owner's Title Policy (Schedule A), Proprietary Lease with a Tax Clause, or Article of Agreement to Purchase with a Tax Clause. NOTE: Trust Deeds (Mortgages) and Release of Trust Deeds are not acceptable.

3. RECENT REAL ESTATE TAX BILL. This will verify the Permanent Index Number of the residence for which you are seeking the Exemption. If you have any questions, please call the Niles Township Assessor Hanrahan's Office at 673-9300 or visit us at 5255 Main Street, Skokie, Illinois.

Panek endorsed for State Rep's seat

Republican State Representative candidate Carol Panek has won the support of the Illinois Action Committee (IPAC), an affiliate of the Illinois State Chamber of Commerce, and the Illinois Small Business Men's Association, a voice for one million small businessmen in Illinois, in her bid for the 13th district State Representative's seat against Democrat Ralph Capparelli.

In supporting Panek, Lester Brann, President of the Illinois State Chamber of Commerce, noted that "the people of Illinois need more legislators who understand that actions by the General Assembly have a significant impact on the ability of businesses in this state to prosper and grow."

"Capparelli", Panek's opponent, "has the eleventh worst voting record in terms of absences, in the Illinois General Assembly, voting against Illinois businesses an unbelievable 62 percent of the time during the 84th General Assembly, including voting with anti-business factions on ten key issues considered important by the Illinois State Chamber of Commerce," said Panek.

"To receive over 80,000 dollars (salary and expenses) a year with such a terrible voting record is insulting to the taxpayers of this state," Panek charged. "In contrast, my honorary campaign co-chairmen vote for business in Illinois. State Senator

Walter Dudydz (R-7th) had a pro-business voting percentage of 91 percent, State Senator Bob Kustra (R-28th) voted pro-business 79 percent of all role call votes during the present General Assembly, and House Minority Whip Penny Pullen (R-55th) agreed to help business in Illinois 78 percent of the time," according to Panek.

When asked what she plans to do to assist Illinois' business climate, Panek responded, "To create new jobs for workers in Illinois we first must bring new industry to the state. High levels of unemployment insurance benefits, sixth highest in the nation, and astronomical Workers' Compensation payments, second highest in the country, have been major drawbacks in attracting and maintaining industry in Illinois."

Panek was an elected Village Trustee in Niles for ten years and

is manager of R.C. Industries in Chicago. She is a board member of her local Chamber of Commerce and the Leaning Tower YMCA, and active as an Oakton Community College Affiliate and member of the League of Women Voters and Illinois Women in Government.

Panek, a twenty-nine year resident of the district, is married with six children.

Comm Ed readies 'Hard Rock East'

A new Commonwealth Edison substation building, next door to Chicago's famed Hard Rock Cafe, may earn the nickname "Hard Rock East." The existing substation building, a fixture on the southwest corner of Ontario and Dearborn Streets since 1924, will be replaced by one designed by Stanley Tigerman, the architect who conceived the plans for the Hard Rock's quarters.

The new, enlarged substation is expected to begin operating in the summer of 1989. "The kinship between the cafe and the substation has come full circle," according to Edison Vice President Donald Petkus. "Mr. Tigerman appreciated the architectural significance of our substation when he was designing the Hard Rock Cafe, so he produced a plan that would be compatible with out building next door."

Tigerman says he designed the new substation building to complement another famous neighbor, as well—the building designed by Henry Ives Cobb, better known as the Limestone Club.

The new, two-story, Georgian red brick and limestone building will be approximately 60 feet in height and contain four transformers for converting electrical energy from 138,000 volts to 12,000 volts for distribution through the existing grid system in the River North area.

The schedule calls for construction to begin in March 1987. The existing building has not been operated as a substation since 1963, after the direct current (DC) it supplied no longer was utilized by customers. Since then, the facility has served as a dispatching center for work crews.

New law attacks missing children, teen suicide, youth unemployment

Teen suicide, missing children and youth unemployment are the targets of a comprehensive newly signed state law, according to State Representative Cal Sutker (D-Skokie).

"The legislation contains the tools needed to control three of the most critical problems facing our children and youth today," Sutker said. "Together, they will work to step up teen suicide prevention, streamline the recovery of missing children and provide temporary jobs for young people."

The Adolescent and Teen Suicide Prevention program is designed to foster public sensitivity and research into the problem and provide special training programs for parents and teachers to help identify suicidal tendencies in youth, he said.

Sutker, who was the original sponsor of the measure, said the prevention program will be administered by the Department of Mental Health and Developmental Disabilities.

"The program will also be coupled with state grants to local groups to help support teen suicide hotlines and other community intervention efforts," he said.

To facilitate the recovery of lost, missing and runaway youth, the new law sets up a state-wide tracking system and calls for the "flagging" of all vital records of children declared missing.

"Under the tracking program, anytime a child is reported missing all his or her birth certificates, school records and other important documents will be specially coded or flagged," the lawmaker said anytime school administrators run across a child's flagged records, they will alert law enforcement officials to begin a prompt investigation into the matter.

To help broaden job opportunities for teens, the new law creates the Illinois Youth Recreation Corps (IYRC). The teen employment program will award grants to local recreation centers who in turn hire youth for a variety of summer programs such as lifeguarding or teaching tennis, swimming or baseball.

George S. Gottlieb, Republican candidate for U. S. Congress, 11th District, spoke out today against the problem of illiteracy. Some estimates have indicated that there are over 20 million illiterates in the United States.

"I find the illiteracy problem deplorable," said Gottlieb. "In a country of such wealth and resources, no one should be unable to function in the very basic skills of reading and writing."

"The true tragedy of this situation is that help is available, but is not being fully utilized," added Gottlieb. "Thousands of volunteers are available to assist adults in tutoring. Thousands more are asking for help through the illiteracy hot-line. But we must reach millions, not just thousands. The Federal government can do more to promote the available programs and provide facilities."

Illiterate adults include people who are illiterate in the sense that they can identify the letters of the alphabet, but are non-readers. They may also be functionally illiterate in the sense that their reading abilities are not sufficiently developed to read texts which are written for adults and extract meaning from them.

"Give a person a fish and they eat that day," continued Gottlieb. "Teach them to fish and they eat for life. That analogy fits very well with teaching someone to read. But adult learners must be treated like adults, not herded into a classroom and offered chairs meant for ten year olds. One-on-one tutoring of adults is the only way this problem of illiteracy will be eradicated. I am committed, both personally and professionally, to this goal."

Those wishing to participate in the illiteracy program are urged to call any library in the country or the toll free number 800-228-8813.

Gottlieb speaks out on illiteracy

State Representative Cal Sutker (D-Skokie) has joined state and local officials in calling on President Reagan to declare nearby flooded regions a "federal disaster area" so victims can begin receiving emergency aid.

"Now that the state has swiftly deemed the flooded portions of Lake, Cook and McHenry counties a disaster area, the President should act accordingly so efforts can begin to compensate the flood victims," Sutker said.

Sutker said he will closely monitor federal investigations into the flooding damage to ensure that a speedy decision is reached and a federally funded disaster plan is set in operation.

"I plan to do everything in my power to ensure that victims are put in touch with the appropriate agencies and help facilitate the emergency aid program to residents and can get the relief they need as quickly as possible," he said.

Representative Sutker can be reached to discuss individual problems that relate to the flood disaster by calling his district office at 673-1219.

Blaming yourself is natural. Impotence is not.

Many men don't want to talk about impotency. And still more do nothing about it. They accept it as a natural fact of aging, or as a consequence of other medical problems. Worse yet, they resign themselves to a life without sexual potency. In reality, they don't have to. The truth is, there's nothing natural about impotence. In the majority of cases its cause is medical. And the fact is, with advancements in treatment made in the last decade, it can be successfully treated. At the Bethesda Hospital Urology Center, we help men recover from impotence through professional medical care. If you are one of the over 10 million American men who suffer from this sensitive condition, contact the Bethesda Hospital Urology Center and find out how we can help you lead a fulfilling life. Social Security services

A continuing objective for us at Social Security is to better serve you, the public. Here are some improvements our agency has made in recent years:

- 1) The average processing time for retirement claims has been reduced. Most retirees get a check within 2 weeks after applying. 2) A person applying for a Social Security number can be issued one in about 11 days, as opposed to 6 weeks a few years ago. 3) A 3-year backlog of earnings postings has been eliminated. And about 95 percent of 1985 earnings should be recorded on individuals' Social Security earnings records by Oct. 31. 4) A mid-year reminder to beneficiaries on reporting work activity is saving \$200 million a year in overpayments and reducing post-entitlement workloads. 5) Modernization of computer systems is speeding up processing of changes in beneficiary actions (such as change of address). 6) The new continuing disability review process ensures fair and compassionate treatment of disabled persons. Cases are more carefully and completely documented, and

decisions are more accurate and uniform nationwide. 7) Major improvements have been made in the quality, design and readability of notices to the public. 8) An increasing number of employees are responding to our encouragement to report earnings by magnetic media rather than on paper. This results in faster, more accurate reports and saves both employers and the government money. In coming months and years, we at Social Security will make every effort to serve you more effectively and efficiently. Meanwhile, you can help us to help you in several ways:

- 1) If you receive benefits, promptly report any changes that may affect benefits such as change of address, work activity, medical improvement (if you are disabled), and other events. 2) Learn as much as you can about Social Security. For example, inquire before you retire so you will be prepared with the necessary proofs and information when you apply. 3) Make more use of your phone. Most Social Security business can be handled this way. The best times to get through to us are in the latter part of each day, week, and month.

JCC names Director of Adult Services

Adina Torchman, Chicago, has been named Director of City-Wide Adult Services of the Jewish Community Centers of Chicago (JCC). According to Jerry Witkovsky, JCC general director, City-Wide Adult Services, JCC's department for services to adults over 50, is headquartered at the Horwich site of the Bernard Horwich/Mayer Kaplan Jewish Community Center, 3003 W. Touhy in Chicago. Laurie Lieberman, Highland Park, JCC's Adult Services Committee chairman, said that Adina Torchman's "extensive experience with JCC, her intense commitment to our older Jewish communities and her dedication to the JCC's mission of service will enhance the programs offered by City-Wide Adult Services."

Torchman has been the coordinator for City-Wide Adult Services since January of 1985. In her new position as director she will supervise three JCC-affiliated centers that are devoted exclusively to older adults - The Devon-Sheridan Senior Adult JCC, 6400 N. Sheridan, the Harry M. Fisher Senior Adult JCC, 5821 N. Broadway, and the B'nai Zion Senior Adult Center, 6759 N. Greenfield, as well as six Chicago-area clubs where older Jewish Russians participate in Yiddish and Russian choral and drama groups.

Romeo A. Hormillosa

Osteopaths kick off fund drive

Governor Jim Thompson's official proclamation of Osteopathic Medicine Week at the end of September, began a fund drive—now in full swing—to help needy students get enough money to complete their medical education.

Osteopathic professionals also use the fund-raising campaign as a vehicle to inform the public about the difference between D.O.s and M.D.s.

Dr. Gary Karl, president of the Illinois Association of Osteopathic Physicians and Surgeons and chairman of family practice at Bethesda Hospital, 2451 W. Howard in Chicago, explains: "Like M.D.'s, D.O.'s—doctors of osteopathic medicine—are fully trained, licensed physicians. D.O.'s are able to practice all phases of medicine, from surgery to delivering babies. In addition, they are trained in osteopathic manipulation with its special emphasis on the neuro-muscular and skeletal systems and their interaction.

"Osteopathic medicine follows the holistic philosophy. We treat each patient as a complete person, rather than as a group of symptoms or as a disease. The mental and emotional as well as the physical processes are taken into account when diagnosing and treating patients. "Family practice, once a dying art, now is coming back. As doctors and patients knew long ago, a primary care physician, such as a D.O., knows his or her patient better than anybody else. "We try to get as much information as possible from patients. We look at the environment, find out if any situation in the person's life is particularly stressful, make notes on dietary patterns, and suggest changes when necessary.

"I tell my patients what the problem is, and when various therapies are possible, let them decide which they prefer. Sometimes I take a firm stand on a specific treatment. If the patient has doubts, I suggest a second or even a third opinion. I try to establish open communication and build a relationship of trust with my patients."

Dr. Karl emphasizes that the osteopathic fund raising campaign is important because financing medical school is becoming increasingly difficult for students and their families. Students can easily run up a debt of \$50,000 to \$100,000, excluding living expenditures, by the time they leave school. And they are better than the general population at repaying college loans, Dr. Karl adds.

Dr. Karl also heads the internship training program at Bethesda. This hands-on patient care experience for students from the College of Osteopathic Medicine, where Dr. Karl is an adjunct instructor in family practice, has proven beneficial for patients and physicians at Bethesda.

According to Dr. Karl, medicine is an art. Each patient is a distinct individual and treatment cannot be cut and dry, black and white. He adds that osteopathic medicine and Bethesda Hospital share a desire to find doctors looking for a family atmosphere, doctors who are committed to providing complete health care for patients and their families.

St. Andrew residents prove creativity lives on

Creativity can last a lifetime or even blossom in old age, with the right encouragement. That was brilliantly demonstrated by residents of St. Andrew Home for the Aged in Niles, who recently received awards for their handmade art and craft entries in the 12th annual Golden Arts Fair.

The fair is sponsored by Catholic Charities of Chicago and the Catholic homes for the aging, 10 of which participated, sending a total of 270 entries for the 28 categories of competition. Prize-winning entries were on exhibit during September at the Museum of Science and Industry in Chicago.

The Best-in-show gold ribbon for a group went to St. Andrew residents Adelaide Nork, Adelaide O'Brien, Anne Baranowski, Lida Nitto, Theresa Feltes, and Ellie Kott for their single bed geometric pattern quilt in beige, rust, blue and brown calico. In

addition, St. Andrewers won five blue ribbons for first place in various categories: Helene Wagner with her fisherman knit afghan, Theresa Masching with a still life of flowers and fruit, Ann Pemberton for her Mr. & Mrs. Santa Claus figures, Melvina Chamberland with a needlepoint pillow, and a group comprised of Josephine Sachman, Lida Nitto, Mary Sobczak, Nellie Kott and Theresa Feltes with a set of six quilted placemats.

The Golden Arts Fair is held each year to celebrate the creative vitality of residents in Catholic homes for the aging and to recognize excellence in their artistic work. Participants find that the competition fires their imagination and motivation to create and that the results, especially the museum showing, are a source of affirmation and pride.

Sheriff's Youth Service Medal of Honor

Once again Sheriff Richard J. Elrod is inviting all young people who provide volunteer service in their community to become a candidate for the 1987 Sheriff's Youth Service Medal of Honor program. "I believe it is important to let our youth know that we appreciate the valuable contribution they are making," said Elrod. One hundred seventy-five young people will receive the 1986 Sheriff's Youth Service Medal of Honor at an awards ceremony, scheduled for Oct. 18th at the Daley Center. These young citizens have provided more than 26,000 hours of volunteer services in drug prevention programs and hospitals and by tutoring, coaching, religious teaching, and in meetings at other community needs. Any young person under 21 who has performed at least 80 hours of voluntary community service within the academic year from Sept. 1, 1986 to August 31, 1987 and whose work has been verified by a service supervisor is eligible to apply.

Kustra releases information on pharmaceutical assistance program

State Senator Bob Kustra (R-28) today released information regarding the state's expanded pharmaceutical assistance program for "Circuit Breaker" grant recipients.

"Our office has received calls from senior citizens who have read about the new prescription program for arthritis and diabetes patients. Because of those calls, I've contacted the state Department of Revenue to get complete information about the program's administration," Kustra explained. "I've been assured that the state will mail detailed information about the new program to all Circuit Breaker grant applicants within the next several weeks. However, in the meantime, I want to let the public know what the situation is."

Since 1985, senior citizens who receive Circuit Breaker grants have been able to receive heart medicine through the pharmaceutical assistance portion of the program. This year the General Assembly approved, and Governor Thompson recently signed, legislation expanding the program to include prescription arthritis medicine and insulin, syringes and needles for diabetics. The new benefits go into effect in January.

"Since application forms for the following year become available each January and are acceptable by the Revenue Department throughout the year, many senior citizens may have already sent their applications in without knowing that the program was being expanded," Kustra said.

"There may be some folks out there who have arthritis or who are diabetic and could benefit from the pharmaceutical assistance program. Those are the people we want to reach. If you think you may qualify for the program, you really don't need to do anything except watch for a letter from the Revenue Department. The letter will contain the necessary forms to apply for the program."

"If you don't receive the letter in the next few weeks, or if you

pty beer cans the father taught him to play the piano. It was unlikely he would make a similar trade with this larger instrument. Richard's father performed with a philharmonic orchestra and when he died at an early age, other philharmonic members continued to teach the young Richard.

In his young adult years Richard formed his own band. Using his first and middle name, Dick Lewis, he led his orchestra through many musical years.

Giannone became the musical director for Carl Brisson, a singer who was a great matinee idol in England. Carl's son, Fred, was a big star in America and produced Fajama Game among many musicals here in the states. Giannone spent 10 years with the senior Brisson.

In subsequent years Giannone's (Lewis') orchestra

played at the Mayfair Room at the Blackstone Hotel. He was an accompanist, musical director and arranger.

This very dapper, handsomely-groomed man followed his work at the Blackstone by working at piano bars throughout the city and began teaching young students piano instruction. At the age of 83 he still was teaching music until he became ill last month.

In addition to his musical talents, Giannone is also an accomplished painter. He has displayed his works in many shows and is especially proficient in western art.

Richard, a man of much charm and elegance, has made a difference with everyone he has met and we're pleased to say we're included among his many friends.

school enrollment for October, 1986 is 2,946, of which 2,906 attend school within the district's schools. There are four students from other districts attending District 63 schools and 37 District 63 students attending school full-time in other districts. This group includes special education students.

All but the four out-of-district students are part of the school District 63's student body which receives state aid paid to the East Maine District.

Because the school district has retained many of their closed schools, the indication of a turnaround in attendance would indicate one or more of the closed schools could be re-activated in the late 1980's or early 1990's.

The Stetina fall housing report is a breakdown of enrollment figures which have to be in the hands of the Illinois State Board of Education by October 17.

A breakdown by grades and sex shows: There are 9 boys and 5 girls who are pre-kindergarten special education students in District 63. In kindergarten there are 145 boys and 125 girls. In first grade there are 178 boys and 154

Cont'd from Niles-E. Maine P.1 return home in his personal vehicle Officer Leavitt heard that an armed robbery had just occurred near the area he was in. He immediately went to the scene, obtained a description of the offenders and the type of vehicle they were driving and, moments later, broadcast the information from his portable radio. Sgt. Wilson, also off duty, and in his personal vehicle, heard the broadcast and dispatched the car he had sighted a vehicle containing two occupants who matched the description given by Officer Leavitt. Moments later, the vehicle was stopped by an on-duty police officer and the subjects were subsequently arrested for robbery and theft.

Stated Chief Emrikson, "In all probability the crime would not have been solved without the dedication of Officer Leavitt and Sgt. Wilson who, even though off-duty, made use of the portable radios assigned to them. I commend them both and praise them for their alertness and actions."

District 207 new policy on discipline

A new written discipline policy for Maine Township High School District 207 was approved by the board of education at the September meeting. The new discipline policy will include an additional section on the consequences of public display of affection that was recommended by the board at the meeting.

Developed by a committee of administrators, students, teachers and parents, the new policy grew out of the Illinois educational reform act of 1985 which called for school districts to organize a parent/teacher advisory committee to develop a discipline policy on student discipline with the school board.

The committee was chaired by Robert V. Jacobsen, director of special education and pupil personnel services, and James L. Coburn, Maine West principal, and included seven board members. Other committee members included: From Maine East - Douglas Harrison, assistant principal for students; Alice Davitt, dean; Paul McClelland and Alan Rola, teacher representatives; Judy Masur and Marjorie Cathamer, parent representatives; Curtis Chang, student council representative; and David Renz, social science department chairman.

From Maine South - Kenneth W. Reckiewicz, assistant principal for staff; Clifford Adamo, assistant principal for students; Andrew Bitta, dean; Robert Marra and Keith Robinson, teacher representatives; Charlotte Ogorek, parent representative; Kevin Maden, student council representative; and Philip Lovell English department chairman.

From Maine West - Eldon Burk, assistant principal for students; James Borowski, dean; Jackie Magnone, parent representative; and Ann Collins, student council representative.

Organized in April, the committee has reviewed past discipline practices and procedures in all three high schools in Maine; practices and procedures in other comparable school districts; and current literature on school discipline.

Printed booklets containing the entire discipline policy will be distributed to all students and staff members. Parents will receive a brochure highlighting expectations for student behavior and the consequences for misbehavior in the mail.

"We've opened service centers in River Grove (2621 N. Thatcher), Round Lake Park (507 N. Milwaukee Rd.), and Des Plaines (1150 N. River Rd.). Flood affected families should apply at these centers for emergency assistance such as food, clothing, shelter, household items, medical supplies, or replacement of occupational tools or supplies," McNulty said.

She emphasized that Red Cross caseworkers deal individually with each family's disaster needs.

"All Red Cross assistance is free, made possible through direct donations from the American people and United Way allocations," McNulty added.

During the flood, the Red Cross housed 415 people in six temporary shelters.

Since the flood occurred, the Red Cross has served 23,686 meals to disaster victims and workers on mobile feeding routes throughout the affected area. McNulty said that 2,950 clean-up kits containing a disinfectant, liquid detergent, mop, broom, scrub brush, bucket, and garbage disposal bags have been distributed.

She said that 146 Red Cross disaster specialists from other midwestern states, as well as Connecticut, California, and Oregon had come into Illinois to work with local Red Cross chapters in assisting disaster victims - more than 600 area volunteers have been active in the Red Cross disaster relief effort.

McNulty praised the efforts of organized labor, volunteers, and many business groups who have worked with the Red Cross. "The community involvement has enabled the Red Cross to meet the emergency needs of area families in an effective, timely manner," she said.

McNulty added that those wishing to make a financial contribution to the Red Cross disaster fund could mail a check, designated Northern Illinois Floods, to: American Red Cross 43 East Ohio Chicago, IL 60611

Contributions can also be made through local Red Cross offices.

Upstage/Downstage Theater

Clever Gretchen, a musical comedy in verse, written and directed by Skokie resident Bobby Gaffen, opens October 17 at Upstage-Downstage Children's theater, Inc., 4411 Oakton St., Skokie. Performances will be at 7:30 p.m. on Fridays, Oct. 17 and 24 and at 3 p.m. Saturdays and Sundays, Oct. 18, 19, 25, and 26.

This tale is an adaptation of an English folk story "The 3 Sillies" and is chock full of humor and good advice. Meeting Gretchen, his bride-to-be, leaves our hero discouraged by her lack of brain power. Challenged by her family, he agrees to marry her if he can find three people less intelligent than she. A roving story-teller gives this play an interesting Medieval flavor and invites the audience closely in the tale. Also available is a season ticket for six plays, October through May, for \$13.50. For information, call the Upstage-Downstage Studio at 674-4620.

Res opens doors to area flood victims

Forty-three elderly patients from the Holy Family Health Center, 2380 Dempster Ave., Des Plaines, arrived Wednesday, Oct. 1 at Resurrection Hospital, (7435 W. Talcott Ave., Chicago) after rising flood waters forced them from their northwest suburban nursing home. The hospital remains on alert to accommodate other patients from the Ballard Nursing Center, 9300 Ballard Road, Des Plaines, which also may have to be evacuated.

With flood waters from the Des Plaines River cresting 5'3" over flood stage, many area residents are being forced to seek shelter with friends, relatives and relief agencies.

Ambulatory patients from the two nursing homes began arriving early Wednesday afternoon by special buses from the

flood scene. Others were transported by ambulance to Resurrection Hospital. Nursing staff members met the arriving patients with wheelchairs and assisted in transporting patients to their awaiting room.

The entire staff is to be commended for their efforts in this relief project," said Sister Mary Gerard, C.R.N., executive vice president. "We're delighted we were able to help our neighbors in need and respond in this crisis situation. Our thoughts and prayers are with those families who have lost property and homes to the rising waters."

Resurrection Hospital medical staff members and employees continue to assist in relief efforts as they collect funds for donation to the flood relief agencies.
