

Tax financing may aid Lawrencewood revamp

The Niles Village Board will hold a public hearing on Dec. 9 to consider adoption of two properties that would be designated tax increment financing districts.

According to Jeff Bell, Niles finance director, the creation of such a district would be an economic tool to encourage de-

velopers to redevelop Lawrencewood shopping center, as well as a parcel of land at Touhy and Central which falls within Niles boundaries.

"AT&T Teletype Corp. and Casting Engineering Co. are vacating the property and would become part of the Redevel-

ment Plan area," he said. Bell explained if the properties are turned into tax increment districts, the present assessed valuation would be "frozen." Redevelopment would take place (by developers) for a certain period of time, after which the

A \$250,000 bond issue was approved by the Niles Park District Board which will pay for a maintenance garage and improvements to park facilities.

Board members at Tuesday's meeting said the bond issue will not result in a tax increase. "We will maintain the same tax rate and bring about needed improvements without passing the burden on park district residents," said Bill Hughes, park director.

Enrollment projected at 2900 level through 1992

District 63 enrollment levels off

At Tuesday night's school District 63 board meeting, Assistant Superintendent Don Stetina said enrollment in the district has leveled off at the 2900 figure. He projected it will remain at this level through the 1991-'92 school year.

In round figures, Stetina said the kindergarten through sixth grade elementary grade levels would average 300 students per grade. At the junior high level the

300 per grade average continues with 600 students projected there at the seventh and eighth grade levels. Special education students at the Oak School in Niles are about 200.

Kindergarten classes are presently between 270 to 275 students and first grade this year is 310.

From the Left Hand

by Bud Besser

Like most of us, we've grown up among very decent people. They've been hard-working. They've reared good families. Most of their kids have received good educations. And most of them have given generously of their time for causes to help those who are less fortunate.

Below this plateau of decency is another picture. Many of these very decent people are willing to cut corners in their every day lives. It disturbs us because several we know have been in the headlines exposing their peccadillos.

A Skokie attorney, who was in a boyhood club with us, was recently sentenced to three years in jail for paying off one of the Greyford judges. In his younger days he had the very best of what this country offers. We were grammar school, high school and Sunday school buddies. His family lived in a very classy, southside building during the depression years. And he went into the military and then went to the finest mid-western university, the University of Chicago. It's law school alumni reads like a Who's Who of important legal people in the U.S.

Martwick appoints new Oakton trustee

Dr. Richard J. Martwick, Superintendent, Educational Service Region of Cook County, announced the appointment of Ralph M. Goren to fill the vacancy on the Oakton Community College Board of Trustees. Goren will replace the retired trustee, Evelyn Rosenzweig.

Ray Hartstein, Board chairman, was pleased with today's announcement.

"Even though I wanted the Board to step up to their responsibility and fill the vacancy, I am appreciative of the thorough and expeditious manner in which Supt. Martwick handled the matter," said Hartstein. "I am pleased that we once again have a full complement of board members to move ahead and handle the important affairs of the College."

"Safety Starts With Me"
"Safety Starts With Me" is the name of the community service program presented at Nelson School on October 8. Sponsored by MainStreet, a division of Federated Department Stores, "Safety Starts With Me" is presented at no cost to elementary schools in the Chicago area. The program was directed at Kindergarten through 4th graders. It strives to teach them to recognize and deal with potentially dangerous situations, and to be aware of strangers. "The Mayor of MainStreet", played by veteran magician and TV performer Billy Bishop, used magic, games, and role-playing to instill confidence rather than fear. Nelson School is located at 8801 N. Ozanam Ave., in Niles, and is one of the four elementary schools in East Main School District 63.

Maine Beat
by Sylvia Dalrymple

BYRNE COMES TO NILES...more than 400 persons attended Our Lady of Ransom Catholic Women's Club meeting featuring Jane Byrne, former mayor of Chicago and a contender in the 1987 mayoral race.

The feisty lady dug into her topic "Women in Politics" tracing the changing role of women in politics and government during the "sweeping changes" that occurred during the turbulent decade of the 1960's. "Along with young people demanding change, women's rights came into play," she said.

Byrne said she first became interested in politics while working in the election campaign for John F. Kennedy. She went on to become the first woman commissioner in Chicago appointed by mayor Richard J. Daley...and the rest is history.

Questions from the audience touched on her mayoral aspirations and issues affecting the suburbs. Byrne said if elected mayor, she would again open communication lines between the city and suburbs on the O'Hare noise problem. She reminded the audience she had formed the O'Hare Advisory Committee and pushed for "no extra runways" at the airport included in the five-year expansion plan.

Spotted in the audience were Gerrie Butler, wife of Park Ridge Mayor Martin Butler, and Elaine Heinen, Niles park district commissioner.

Incidentally, Byrne's brother, Edward Burke, attended the seminary with Father Thomas Dore, pastor of Our Lady of Ransom parish, which she revealed during her speech. And for the fashion minded...Jane wore a designer red and black suit accented by a long rope of pearls.

Biga resigns from Niles Library Board

Frank Biga, who served on the Niles Library Board for three years, submitted his resignation citing "Personal and professional reasons" at the Wednesday Nov. 12 meeting.

In a written statement, Biga acknowledged the accomplishments of the board and the library district, including construction of the addition on the main library and computerization to enhance services in the district.

According to Duncan McKenzie, library administrator, the district will seek a replacement to fill the board vacancy, who will serve until Biga's term expires in April. "Board elections will be held then for both Biga and Board President Harry Postine, whose term is also expiring then," he said.

In other business, the board canvassed votes on the recent library referendum, indicating that 4,334 favored the tax rate increase and 5,749 were opposed. According to McKenzie, one-third of the voters going to the polls failed to vote on the referendum.

During a discussion on the failed referendum, the board directed McKenzie to hold public hearings in the future to get input from business people, representatives from school districts, the public, and senior groups. "They can give suggestions on the direction of the library should be

Niles Fire Dept. Calls

The fire department responded to 26 fire calls and 30 ambulance calls from Nov. 8 to 14.

On Nov. 8, a small fire of undetermined origin was extinguished in a dumpster at the rear of Jewel stores at 7900 Milwaukee Ave. The fire did not cause any damage.

A fire in a truck at 8526 Ozark, started in a pile of smouldering rags and was quickly extinguished. No damage estimate was made.

Fireman responded to a call Nov. 10 on a person stuck in an elevator on the first floor of an apartment at 9128 Terrace. Firemen used a key to let the passenger out.

On Nov. 11, firefighters went to Imperial Cleveite Company at 6300 Howard St. after a report that water was coming from a rear storage building. The exterior sprinkler test valve was shut off, as well as an interior valve which also was found open. Firemen noted it was the second time in a week that someone

Interest is growing among Niles residents and local groups to learn about local programming via training courses held in the village's Cablevision studio located at the northwest corner of the Administration Building, 7601 Milwaukee Ave.

Niles is served by Cablevision of Chicago, which built the studio approximately two years ago in line with the franchise agreement.

"In the last three months, we have seen more people participating in training sessions for public access programming," said Angelo Marcheschi, village trustee and chairman of the Cablevision committee.

Marcheschi explained a Cablevision technician trains people on how to use portable television equipment, learn production skills, edit film, and produce a five-minute film on an individual basis. "Once certified by the Cablevision staff, they can use the equipment, free of charge, and produce their own show at the studio," he said.

The studio gives channel access to village residents, to educational facilities and government agencies.

"Attendance has grown at the training classes which meet on Tuesday and Thursday (minimum class size 9-10 people), according to Marcheschi. Also, many local events have been recorded for cable, including St. John Brebeuf's annual festival, the farewell party for former pastor Father Edward Duggan and the political debate sponsored by the Morton-Grove-Niles League of Woman Voters.

"We feel that local programming will continue to draw interest in the future," he said, "the value is in local use of cable TV. We are not trying to be NBC or ABC major networks...it's local people broadcasting to local viewers."

On a question as to whether village meetings are destined to hit the cable air waves in the future, Marcheschi said, "Only if there are enough people interested in viewing this kind of format. At this time, there is little interest."

Carl Fox, cable coordinator for the Village of Niles, agreed that local programming is becoming popular in Niles. He noted a group of teenagers from Niles

Niles adds to Historical displays

Niles village Clerk, Frank C. Wagner, Jr. (seated) and Niles Trustee James A. Mahoney, Jr. have turned over to the Niles Historical Society President, Marilyn Brown, some of the official Village board meeting minutes from the early days of Niles. The original and official board minutes date back to October of 1899 and go through the year 1929.

The board minutes in these early years of Niles were handwritten in a ledger type of bound book. All of the minutes taken appear to be very thorough and detailed and are surprisingly well written, both in composition and in a script like handwriting.

Stated Clerk Wagner, "We have microfilmed these ancient official minutes which will not be destroyed and feel the Historical Society can put the original copies on display in their new quarters for all visitors to peruse. It is a vital part of Niles history and should be available for viewing by our present and future generations. We know the Historical Society will find an appropriate space to house these historical documents and we are pleased to present it to them."

Cinnabon brings sweet aroma to Golf Mill

Consider the striking combination of state-of-the-art bakery equipment; gleaming, stainless steel fixtures with Italian Crema Marble countertops, white ceramic tile and cobalt blue accents; hot made from scratch oversized cinnamon rolls and the result is Cinnabon. Cinnabon is the name of these bakeries where these cinnamon rolls are made from fresh natural ingredients and imported Korintji cinnamon. The rolls are mixed, rolled, baked and frosted in full view of our mall shoppers. It's a fast paced show designed to entertain while emphasizing the fresh homemade nature of the cinnamon rolls.

Every aspect is first class including the coffee made from a blend of four beans that are ground fresh for every pot.

The cinnamon rolls (each weighing approximately one-half pound) sell for \$1.25 each. They are baked in batches of six so that each bakery guest receives a perfect roll every time. Larger orders are just a phone call away or a short 15 minute wait.

Cinnabon at Golf Mill Mall will open on Nov. 19. Make sure you add Cinnabon to your mall shopping list.

DUI driver apprehended by police

A Florida resident was arrested for drunk driving and being under the influence of drugs, improper lane-usage and wearing no seat belt. Police observed the offender traveling westbound in the 8700 block of Dempster at a speed of 52 mph and weaving from lane to lane.

They observed a strong odor of alcohol on the offender's breath and noted he was incoherent under questioning. He was taken to the police station where he refused to take a chemical test. He was released after posting \$3,000 bond and assigned a Dec. Court date.

Price switchers released on bond

A security man from Sears observed via television monitor two Des Plaines women switching price tags on various merchandise and paying the lower price on Nov. 11.

According to police reports, the Niles woman removed tags on a pair of boys gloves and allowed her six-year-old boy to wear them out of the building paying \$7.98 for the item instead of \$9.98. She also switched price tags on a sweater from \$13 to \$9.77 and a shirt from \$11 to \$6.99.

The Des Plaines woman, while in company of her two children, switched tags on a girl's coat from \$59.99 to \$24.99 and children's sleepwear from \$11.99 to \$4.99.

The offenders were released after posting \$1,000 bond each pending a Dec. court date.

Drunk charged with assault

A Chicago man was arrested for aggravated assault after he was refused entry to a restaurant in the 5900 block of Touhy.

Niles man charged with battery

A Niles man was charged and arrested for battery after police responded to a report that a man was tampering with cars in the Milwaukee-Albion area.

Upon arrival, police spotted a man pulling on door handles of parked cars walking east in the 6600 block of Albion.

When questioned by police, the alleged offender became belligerent and abusive to the officers demanding to know why he was being detained. A woman then pulled up and claimed he was the same man who attempted to get into her car parked in front of her house in the 6600 block of Albion.

A pat-down search revealed he had four wrenches in his pocket along with a Walkman radio, but police were unable to determine the rightful ownership of the items. He was released on \$1,000 bond pending a Dec. court date.

Bad credit card discovered

A Des Plaines woman entered into an argument with the manager of a restaurant-bar in the Dempster Plaza shopping center after a credit card was refused to pay a \$17 food bill.

The credit card was rejected by the authorization machine and after a check at the credit center, the manager was advised to rip up the card. The offender, who wanted her credit card back, was advised to contact her bank and subsequently paid the food bill in cash. The incident was a matter of record.

Home break in

A resident in the 8400 block of Greenwood reported someone gained entry to her house by pushing out a storm window in the bathroom.

Taken was approximately \$500. Victim will submit a list of any missing items to police.

Vandals damage auto

A resident in the 8800 block of Washington reported someone used a sharp object to slash his two right front tires and dented the front right side of his car parked on the street.

Damage was estimated at \$200.

Locker theft

A Skokie man reported that while he was swimming in the pool at the YMCA on Touhy Ave., someone removed \$48 from his wallet that had been placed in a locked locker.

Auto damaged

A resident in the 8500 block of Oriole reported Nov. 7 that someone attempted to gain entry to his car by prying the door open, and in the process, cracked the window.

Damage was estimated at \$200.

The incident occurred after employees noted the offender was intoxicated and requested he leave the premises. A fight ensued, in which the offender took out a 6 inch knife, cutting the hand of an employee who was trying to take the weapon.

He was released without bond and assigned a Dec. 12 court date.

Home burglarized

A house in the 8600 block of Ozark was broken into after the offender kicked a door open breaking the lock on Nov. 10.

The offender ransacked the bedrooms and attempted to pry open a jewelry box without success. Taken was a pair of binoculars from a shelf in a closet. Value unknown.

Damage to the door and lock was estimated at \$250.

Autos vandalized

A resident in the 8000 block of Osceola on Nov. 8 reported someone used a B.B. gun to smash the driver's side of the window of his car parked on the street. Damage was \$100.

Similar incidents occurred the same day to three cars in the 8400 block of Olcott, 7600 block of Ottawa, and 8100 block of Prospect, causing \$150 damage each.

Driver arrested after accident

A Des Plaines woman was arrested for no valid driver's license and expired license after she was involved in an auto accident on Nov. 14.

Police observed the offender driving westbound on Touhy in the center lane hit a car which was stopped in traffic.

She was released on 1,000 bond pending a Dec. court date.

Packages left in auto

A resident in the 9000 block of Cumberland discovered five parcels of instant pudding and cake mix that someone put in his car parked on the street.

Police inventoried the items and took the report as a matter of record.

Theft in Golf Mill

The manager of a shoe store in the Golf Mill shopping center reported someone removed \$113 from a cash register between 7 p.m. and 8 a.m. on Nov. 9-10.

According to police reports, the employee opened the gate in front of the store and found the inside lock had been tampered with.

Auto burglary

Someone used a screw driver to pry the handle off the passenger door to gain entry to a parked car.

Once inside, the offender removed a fuzzy buzzer, a recorder, radio and two batteries worth a total of \$2,128.

I Bet You Didn't Know

By Jim Jennings

Surprisingly, no punter in the National Football League has ever been able to kick as well as Sammy Baugh did 46 years ago. Baugh set the all-time NFL punting record when he averaged 51 yards per kick for the season of 1940. And, Baugh was not even a punting specialist (he was primarily a passer)—yet no punter has ever bettered his kicking record!

What's unusual about the helmets worn by the Cleveland Browns of the National Football League? They are the only NFL team that doesn't have a logo or design on their helmets.

Did you ever think how many football stadiums in America seat more people than live in the town where they are located? For example, the town of State College, Pa., has a population of 36,000 but Penn State's football stadium there seats 83,000. Athens, Ga.'s population is 42,000 but the University of Georgia's stadium there seats 82,000. Norman, Okla.'s population is 68,000 but the Oklahoma University stadium there seats 75,000, and so it goes.

Letters to the editor

Kevin Conlon thanks candidacy supporters

Dear Editor:
I am writing to thank those of your readers who supported my candidacy for a suburban seat on the Cook County Board of Commissioners. Although all my running mates and I were unsuccessful, I am most appreciative of their support.
During the course of the campaign I have had the privilege of meeting and working with many wonderful people. I am thankful to have earned the endorsement of many suburban newspapers. Also, I am proud of my endorsement by groups like the Independent Voters of Illinois and the Illinois Public Action Council.
The time has come for suburban and county government to become more representative and accountable.

We must accept the fact that towns like Park Forest and Barrington have different needs and concerns. However, the present system of electing "commissioners at large" fails to recognize these differences. Changing to a system of electing commissioners from single member districts would make county government more representative and accountable. Congratulations to those Republican candidates who were either elected or re-elected to the County Board. I am counting on them to follow through on their campaign promise to support a conversion to single member districts.

Sincerely,
Kevin Conlon

Thanks cop for kindness

Dear Editor:
I would like publicly to thank a kind Niles policeman named Len Olbrisch, who wears star #147 for the courtesy and kindness he showed when my car stalled at Lee & Ottawa sts. on November

6th. He not only tried to start my car, but failing to do so, brought me to get help. Our Niles police are the greatest.
Sincerely,
Mrs. M. Rosenberg

Running a palace at District 219

Dear Editor:
I noted with considerable interest & much more concern the November 2 & 4 articles in Chicago Tribune on the comparison of Chicago area High Schools.

As we all know, New Trier H.S. system has been the scholastic leader in the northern suburbs, perhaps the nation, for many years. The ACT average scores listed shows this to be a fact, with Deerfield, Glenbard West, Wheaton North & Glenbrook North close behind.

Way down the list I note Niles West ranked 63rd, for instance. Local folks tout 219 as being such a good school system. Cause for wonder here?

Looking further, I note Niles 219 spending for each pupil is the HIGHEST in the Chicago area,

\$8357, almost \$2,000 higher than Ridgewood 234 & \$2200 higher than Evanston 202 or Maine 207. New Trier is far below!! Why this big discrepancy??

Also, average annual teacher salaries for Niles 219 are \$45,700, the HIGHEST in Chicagoland, while New Trier salaries are \$5800 lower. Can you imagine this?? Too much tenure??

We seem to be running a palace at 219 & I don't know that we or our children are getting the full value in return. Certainly the taxpayers aren't getting their money's worth, it would appear, when you compare to New Trier, Deerfield or Maine.

Niles 219 taxpayers should become concerned & INVOLVED in the fiscal matters of our school district. Every year they in-

crease their budget & our tax bills continue to escalate.

I believe the High School Board should take a step back & reflect on just how well the district is being run & whether we can afford the highest salaries & highest average pupil expense, in light of surrounding districts doing a much better financial job running their districts, while apparently providing a better education program as well.

Perhaps it's time for the silver spoon to be withdrawn in favor of a more realistic approach to our children's education?? The facts here don't lie. We've got a very serious problem that needs addressing!!!

Sincerely,
John Hilkin

OCC teacher seeks community action

Dear Editor:
Someone must speak up and stand! The community and the students will be effected with an impact far beyond our recent flood, unless someone takes some positive action. I am a concerned faculty member at Oakton. I cannot tell you who I am, but please don't let my anonymity in any way lessen the sincerity and seriousness of purpose in this letter.

It appears increasingly likely that the faculty will go on strike. The "last best offer" of the board is nothing different than the offers which have come before. There seems to be no resolution to the growing conflict. The only thing I know for certain is that in

a strike NOBODY WINS! In this case, if a protracted strike begins at this time of the year, NO STUDENTS WILL BE ABLE TO COMPLETE THEIR SEMESTERS. No grades will be awarded. The entire semester will be a complete waste for every single OCC student. How can we let that happen?

The sense among the faculty at this time, is that the board has given us no choice at all. Most of us are absolutely sick at heart when we consider the personal and professional implications of a strike. The impact on our families, our academic programs, our students, our personal relationships, cannot be anything except disastrous.

Please, someone in the community, take some action! Speak up... find out what is really going on here, with this board that you elected. They are deadlocked on all meaningful decisions. They could not even agree on replacing the vacant board seat.

I am deeply saddened to see that we have come to this point, and I desperately hope that things will progress no farther. I do not see much hope of reconciliation unless there is a strong public outcry.

Someone must speak up and soon!

Death of a beneficiary

Social Security benefits are not payable for the month a beneficiary dies. Thomas A. Curin, Social Security manager in Des Plaines said recently.

The benefit check, which is usually received on the 3rd day of each month, represents the benefit payable for the previous month. Therefore, if a person dies in July, for example, the check that is received August 3, which represents payment for July, should be returned. Curin said. However, if the check is made out jointly to both husband and wife, the survivor should contact a Social Security office to find out whether the check should be cashed.

If a person's benefits were being handled by direct deposit, the financial institution to which the checks were being sent should be notified of the death as soon as possible. The institution will then return any checks that were received after the person's death.

More information about Social Security checks can be obtained from any Social Security office.

Baker delights youngsters

On Wednesday, Oct. 29, the second grade students at Hynes School were treated to a special Halloween goodies decorating demonstration by John (the Baker) Koester from Maier's Bakery. He showed the children how to glaze and decorate large jack-o-lantern cookies. Several children got to try their hand at this art. John also demonstrated cake decorating techniques using buttercream frosting, sprinkles, colored icing, and Halloween ornaments. Two children got a sweet treat when John made icing roses on the ends of their pencils. The highlight of the session was the unveiling of the "ghost" cupcakes that John had made and decorated for the children. The rest of the demonstration was tastefully devoured by those members of the Hynes staff who were lucky enough to attend.

SJB prepares to defend "Books" title

The 8th annual "Battle of the Books" competition, sponsored by the Niles Public Library to encourage reading among 4th, 5th, and 8th graders is underway.

Those area schools in the Battle of the Books competition are: St. John Brebeuf; Our Lady of Ransom; and St. John Lutheran all in Niles; Nelson, Stevenson, Washington (District 63); Culver (District 71); Golf (District 67).

The team of St. John Brebeuf, under the direction of coach Mrs. Christine Ullias, hopes to again fetch their schools' name on the traveling plaque called the Francis S. Allen Reading Award. SJB captured the initial competition in 1980 and again last year.

Students prepare for the competition by reading from a designated list of books over the summer. The students are then questioned, as a four member rotating team, about title, author and specifics.

The first competition for St. John Brebeuf will be December 2nd vs Our Lady of Ransom at 4 p.m. in the Main Branch of the Niles Library. The public is welcome to attend.

Niles West newspaper wins award

A Medalist Award, the highest honor presented by the Columbia Scholastic Press Association, was earned by West Word, the Niles West High School student newspaper. "The intelligence level reflected by the writing in your publication is extraordinary. There is evidence of great care by advisor and staff," commented the judges. The West Word received 943.5 points out of the 1,000 possible to win this coveted rating.

In addition, the publication also earned special All-Columbian citations in three of the five categories in which it was judged: coverage, writing and editing, and business. This honor is awarded to publications which receive very high point totals in the categories.

Credit for the achievement belongs to co-editors Jon Lisco, now attending Harvard University, and Rhonda Bergman, studying journalism at Northwestern University, to last year's western staff, and to faculty sponsor Jerome Orr.

Willows students at Oakton labs

A most unique feature of the structure of The Willows' science program is its high school requirement of three years of both science and mathematics. For those students who show an interest in the advanced sciences there is an optional fourth year both in science and mathematics designed to stimulate and challenge the students and prepare them to pursue a career in science, engineering, computers, and health-related fields or merely science as an avocation.

Through the initiative of Dr. Nedelson, Chemistry Professor, students are performing an experimental part of their chemistry course in the well equipped and organized laboratories at Oakton Community College, where she holds a full time position in the Science Department. Dr. Nedelson was a university professor in Yugoslavia and has been involved in research and publishing in the United States and Europe.

As the science curriculum is further enriched by the students experiences in the lab, Dr. Nedelson will help them to explore deeper into the wonders

of science and research, preparing them for possible college studies in the field.

The Willows Academy for Girls located at 8200 Greendale Ave., in Niles offers a strong liberal arts education as well as a variety of

extracurricular activities. Students come to the Willows from over 20 suburban communities and after attaining their high school diploma they continue their education all over the United States.

Northwest realtors join 'Toys for Tots'

Northwest Real Estate Board President Robert C. Wolf has announced that the 62-year old realty association will once again join with the U.S. Marines in this year's 'Toys For Tots' campaign. The annual effort held between the Thanksgiving and Christmas holidays solicits donated toys for needy Chicago-area children. In addition to the NWREB administrative headquarters at 5946 N. Milwaukee Ave., dozens of local professional realty offices in the city and suburbs - active members of the Northwest Real Estate Board - are acting as local drop-off points for residents wishing to donate new or used toys which must be in safe working condition. Staff Sergeant Randle, of the local U.S. Marines Corps Reserves Training Center, has stated that the city's Department of Human Services will be one agency which will help direct the toys to underprivileged children.

Area residents are encouraged to visit the nearest local drop-off point having a TFFT toy barrel and window poster. Participating offices have a toy barrel receptacle to accommodate donations.

This year's 'Toys For Tots' drive is but one of several charitable efforts sponsored by the Northwest Real Estate Board throughout the year. Residents wishing additional information regarding donations of new or used toys in safe, working condition may call the Northwest Real Estate Board administrative headquarters at 792-1340 or the NWREB's 'Toys For Tots' Coordinator at 625-9282.

Nelson students into 'Great Books'

The 4th, 6th, and 8th grade Reading Club is "into books", that is the Junior Great Books. The whole of this program develops the skill of shared inquiry and assures intellectual stimulation through discussion. This development of the ability to think and read critically has been an expressed goal of Nelson School for many years.

A discussion method is advocated as the best way to accomplish critical thinking. The leaders of the groups are trained in such questioning techniques. Then members of the group are led to explore the author's meaning rather than accept others' opinions. Through his own thinking, a student learns to make his own discoveries about what he has read. In fact, both the leaders and the students together seek a better and/or deeper understanding of the author's ideas.

The goals of the participants of each of the groups are to learn to read more accurately, to think more clearly and independently, to express themselves more effectively, and to listen more attentively. Through an exchange of ideas in the discussion, they arrive at their own understanding of the selection, find that there may be more than one way of interpreting a work, and gain respect for the opinions of others. There is no "right or wrong" answer but the question proposes to elicit multiple responses and sustain a discussion for an extended period of time on a single subject.

Nelson School's Junior Great Books Club meet bi-weekly with their discussion leaders. Mrs. Holzman, a Nelson School P.T.A.

Niles Historical Society

"Prohibition in the 20s" will be the theme at the next meeting of the Niles Historical Society, Monday, Nov. 24 at 8 p.m. at its new Museum headquarters, 8970 Milwaukee Ave., Niles.

The speaker of the evening will be Frank Abderholden, Staff Reporter for the Niles Spectator newspaper, whose interest has been the turbulent years from 1920 to 1933 during which prohibition was the law, and out of which many of today's societal problems may be traced.

Memories of "Joker Joe", Al Capone, Niles' White House built in 1846, the Lone Tree Inn, White Eagle, the Leaning Tower, St. Hedwig's Orphanage, bath-tub gin and the speakeasy, the Dells, Lincoln Inn and other famous roadhouses in the Niles-Morton Grove area will be renewed during Frank's talk.

Frank's background includes graduation from Roosevelt University and previous work for the Chicago City News Bureau as well as the Independent Register in Libertyville, before coming to the Spectator a year and a half ago.

The Chuck Wagon Open House festivities held at the Society recently were successful despite the rainy weather, the winners of door prizes being Dolores Stankowicz, Florence Gies, Irene Ludwig, Margaret Peterson, Marge Leeke, R. Fitch, J. Albert Larson, Cathy Krause, Helen Dahlberg, Jessica Cole, E. Christensen, and Tena Wiegand.

Mayor Barr speaks at hospital dedication

Evanston Mayor Joan Barr was on hand along with residents, families of residents and neighbors of the newly renovated St. Francis Extended Care Center, 500 Asbury Ave., in Evanston, for the center's dedication and open house on Saturday, Nov. 8, at 2 p.m.

"This is a lovely facility, and one in which we can take pride," said Mayor Barr of the 124-bed skilled nursing facility, which was acquired by St. Francis Hospital in March, 1985. Prior to that time, the building housed the Three Oaks Nursing Home.

Medical director recognized

The dedication marked the completion of extensive renovations and remodeling that the hospital has done since purchasing the Extended Care Center. These improvements include the creation of a chapel and the installation of such safety features as a sprinkler system and smoke detectors in every room that have a direct hookup to the Evanston Fire Department.

Commenting on the hospital's commitment to caring for the needy, Mayor Barr told those present at the dedication: "I am pleased to welcome the addition of this Extended Care Center to St. Francis Hospital's already enviable record of community service."

Dr. Arthur R. Peterson (center) was recognized recently by Swedish Covenant Hospital, 5145 N. California, for 25 years of service as medical director of respiratory care services. Seen at the award ceremony are: (l-r) Dr. Wayne Swenberg, senior vice president, who presented Dr. Peterson a plaque on behalf of the hospital, and David Walsh, manager, respiratory therapy. Walsh pointed out that the length of Dr. Peterson's tenure is most unusual. Dr. Peterson also is president of the hospital's medical staff.

Parkside weight loss program

Parkside Human Services Corporation offers a unique, modified fasting weight loss program that can help obese individuals lose weight while improving their outlook for long-term health.

The Parkside Optifast Program is designed for patients who are at least 50 pounds overweight. Participants take a nutritionally balanced, high quality supplement, Optifast, five times a day in lieu of regular meals. This supplement offers a caloric, mineral, and vitamin content that can be safely substituted for their normal diet.

Actual program statistics support the doctor's statement. The average weight loss for men in Parkside's program is 4 pounds per week, and women 3 pounds per week.

Participants in the program see a physician weekly so that their progress can be medically monitored. They also attend weekly group meetings conducted by a psychologist and/or a register dietitian. These weekly meetings emphasize lifestyle changes to ensure weight maintenance, as well as provide support during the fasting phase.

The orientation session will acquaint potential participants with the program. The orientation is free and does not obligate anyone to participate in the program. Call 696-6478 between 8 a.m. and 4:30 p.m. for more information.

Junior Volunteer Awards Ceremony

The Service League of Lutheran General Hospital recently held a Junior Volunteer Awards Ceremony to recognize the devotion of young hospital volunteers. Volunteers received recognition pins for having reached 100, 250, or 500-hours of volunteering. Niles volunteers pictured (l-r) are Audrey Rosenfield and Diane Habryl.

"Welcome to the Hospital" program offered at LGH

Who are all the people dressed in funny, green suits and wearing masks? What are all the medical instruments with all the dials and flashing lights, and how are they used? What actually happens when you go to the hospital?

Children have many questions about being hospitalized. A stay in the hospital can be frightening for a youngster, particularly if he or she has never been a patient before.

Lutheran General Hospital, 1775 Dempster St., Park Ridge, offers the "Welcome to the Hospital" Program, which is designed to ease the fear and apprehension by familiarizing children with the hospital environment and with the people who work there.

Children in the kindergarten through third grade have an opportunity to learn about the hospital before they become a

patient. They will see a slide presentation about Lutheran General and what its like to be in the hospital, as well as learn about tests children often receive as patients. Through play with actual medical equipment, the children learn about the equipment and the people who use them. Emergency Room nurses talk with the children about the Emergency Room and demonstrate first aid techniques that children can perform. A pediatric nutritionist involves the children in a game designed to teach them the elements of good nutrition.

The "Welcome to the Hospital" Program deals with the physical, emotional, social, and spiritual health of the child. It is centered around Lutheran General's philosophy of Human Ecology, which is "the understanding and care of human beings in light of their relationships to God, themselves, their families, and the society in which they live."

The "Welcome to the Hospital" Program is offered on Thursday afternoons throughout the school year. For further information, call Lutheran General Hospital's Public Affairs Office at 696-630.

Check heating system for carbon monoxide problems

Homeowners should have their gas heating system checked for possible carbon monoxide problems, government safety experts have warned.

According to the U.S. Consumer Product Safety Commission, consumers should arrange for a qualified heating contractor to inspect the furnace, chimney and flue pipe for problems. While chimneys are seldom checked during routine furnace servicing, CPSC said it is extremely important to have the chimney inspected for blockages, such as mortar loosening from chimney walls and birds' nests to prevent a buildup of carbon monoxide fumes in the house. Chimney sweeps are equipped to provide the service, if needed.

The government agency said people exposed to carbon monoxide fumes often show symptoms likened to "having the flu," including dizziness, fatigue, headaches, irregular breathing and nausea; cardiac patients may additionally experience angina symptoms. Exposure to continued high doses of carbon monoxide can be fatal. If flu-like symptoms persist, homeowners should consider having their heating system checked.

Apart from routine furnace inspection, CPSC said home heating systems converted from oil to gas can also pose carbon monoxide problems. After the conversion, soot on chimney walls tends to loosen and fall to the base of the flue. If enough soot falls, it could block the exhaust from the gas furnace, thereby causing a buildup of carbon monoxide fumes in the house.

CPSC said homeowners who have converted from oil to gas should have the system checked now. If there is any accumulation of soot at the base of the flue, the chimney should be cleaned immediately. Annual checks should be made at the start of the

Survey sees government back in businesses

Local and federal governments are back in favor among Chicago's northern suburban businesses.

At least that's what 280 businesses in these suburbs said in a survey prepared by Arthur Andersen & Co., the international public accounting firm; the Northbrook Industrial Commission; the villages of Glenview, Northbrook, Wheeling; and the city of Highland Park. The survey sought to uncover the business climate and attitudes of this area.

Respondents to the survey made a complete turnaround from a 1980 survey when asked about the local and federal government's support of businesses. Seventy-seven percent of the businesses gave the federal government a fair to very good rating for fostering a healthy business climate. Just six years ago, 78% said the federal

government was doing a bad to very bad job in this area. Local government also fared better this time around with 74% of the respondents giving it a fair to very good rating.

Other areas of the survey highlighted how businesses perceive the strength of the economy, the availability of financial assistance, the likelihood of future growth, and the accessibility of transportation. In addition, the survey shows that:

- When considering expansion over the next five years, 45% of the respondents will move out of their county and 62% out of their community.

- Seventy-two percent of the respondents believe the economy is stronger or the same as a year ago. However, their expectations for next year are mixed.

- Interest rates are predicted to

either decline or remain the same during the upcoming year by 77% of the respondents.

- The three most critical concerns which businesses say should be addressed by local government within the next five years are taxes, managing growth, and transportation and other services.

"Involvement in the affairs of each of the communities in which Arthur Andersen & Co. offices are located is a tradition of our Firm," says Kalman Weing, managing partner of Arthur Andersen & Co.'s north suburban office. "It is important that we make contributions to the communities in which we spend our professional lives and from which we derive our livelihood. Sponsorship of this survey is our way of saying thank you on our sixth anniversary of the opening of our north suburban office."

Failure of the referendum also stopped plans for installing a new parking area for the Waukegan-Oakton property acquired by the library district. "We were in the process of talking to an architect on specs, but improvements will have to be dropped at this point in time."

Niles Parks

The ordinance for the bond issue will be approved at the board's December meeting. Once issued, the bonds will be purchased by banks, and then paid off over several years by the park district. The bonds are tax-exempt.

A committee meeting will be held in early December to determine priority improvements, to the district such as a maintenance garage, a concession stand at the recreation center, possible expansion of the administration center and general improvements, said Hughes.

A referendum will not be needed since the park district can issue that amount (\$250,000) under its non-referendum bonding power," Hughes explained. "A referendum is required only if the amount is over \$500,000."

Caffe Lucci offers fine food and atmosphere

The description "Italian Restaurant" often brings to mind images of twinkling Christmas Lights and wall murals depicting Venetian canal scenes or towering Roman Columns, but when partners Joe Greco and Chuck Stella opened Caffe Lucci at 609 Milwaukee in Glenview they had a more sophisticated image in mind.

If the fine atmosphere at Caffe Lucci is any indicator of the dining experience awaiting you, the food is the fulfillment of that indication. Though the menu offers a selection of standard offerings such as prime steaks and seafood specials the focus of the kitchen, run by owner Joe Greco, is upon Italian regional dishes. The fare at Caffe Lucci is second to none! Ingredients are always as fresh as can be and each meal is individually prepared as it is

ordered. The pasta is homemade, the sauces are all made from scratch and each meal is completed with a complimentary offering of fresh fruit and Italian cookies.

In addition to their dining room which seats around 95 Caffe Lucci offers a lounge which seats 20 and has a banquet facility upstairs which will accommodate up to 100 people for private, social or business functions. Private parking is available to the rear of the cafe with additional valet parking available on weekends. Business hours are Monday to Thursday 11 a.m. to 2 a.m., Friday & Saturday to 3 a.m., and Sunday from 4 to 11 p.m. Reservations which are a good idea, especially on weekends, can be made by calling Caffe Lucci at 729-2288.

genre in the midwest, and he got zonked for three years for paying off a judge.

We've another family friend whose 31 year old son is likely to be disbarred and may also wind up in jail. He is part of the group of financial whiz kids who were inside traders feeding inside information to investors which resulted in several of them making many millions of dollars on stock transactions. They received advanced inside information on company mergers which enabled them to make huge profits on these tips.

The young man had it all. He was tops in his class at Maine East. He went east and achieved similar recognition at an Ivy league school, on to one of the most prestigious law schools in the country. He became a 30 year old whiz kid at a law firm in California and then he moved east as a top financial consultant in one of the top firms in New York.

Our third acquaintance is in the autumn of his years. He was a former neighbor of ours who also raised a fine family. His kids went to excellent schools and have done well in their specialized fields in subsequent years. The father is a charming man, who's been a successful lawyer for 45 years. He's now in court accused of paying the courts for clients. It's likely the money drifted up to the judge in charge of the court where the payoffs occurred.

The common thread between these three men is they all got caught. We're not in any position to moralize or even make a judgment on the outcome of these three men's sentences. They got caught

and there's a great many people out there who will never get caught.

Is this the way our society works? Cutting a corner, winking an eye? Is this the rule rather than the exception? Before making judgment I wonder how many readers would pay-off a cop rather than go to court? How about calling up the local alderman or trustee to get that ticket fixed?

In Chicago, the Mayor has already served time in prison for circumventing the law. Opponent Ed Vrdolyak made tons of money on several Marina Towers condominiums which he received at bargain prices after the city council graced the Towers' owners with special favors. His brother has made a fortune in six years after starting a security company from scratch. A close friend was made a judge last week and may be in jail before he ever serves a day on the bench.

The Greylord corruption is nothing new to anyone who knows about the court system in Cook County. Twenty-five years ago reporters covering the courts said they trusted few of the judges. The system has always had built-in rot emanating from its core.

There's no conclusion to be drawn. Most people working 9 to 5 do their jobs honestly and go home to peace and tranquility. But when there's an opportunity to cut a corner to make or save a buck, how many of them would pass by? Based on those who have these opportunities, the answer is not encouraging.

properties would increase in assessed valuation. "The revenue from the increase would pay back project development costs and enhance the village's tax base," he said. The objectives for the village's Redevelopment Plan are: (1) to encourage positive and feasible

reuse of existing properties with vacated or underutilized structures. (2) to preserve and improve the tax base of the village. (3) to upgrade the physical appearance of the redevelopment project area. (4) to rebuild the image of the project area as a viable retail center.

Maine Township seeks food for Thanksgiving, Christmas baskets

Maine Township is seeking donations for food, including turkeys and hams, for holiday baskets to help make Thanksgiving and Christmas a little brighter for needy local families.

Grocery store gift certificates for turkeys and hams as well as canned goods and other non-perishable items may be brought to the Maine Township Town Hall, 1700 Ballard rd., Park Ridge (between Dempster and Pottery) from 9 a.m. to 5 p.m. weekdays and 9 a.m. to noon Saturdays.

To assure proper storage, please call the township offices at 297-2510 before bringing frozen turkeys or canned hams that require refrigeration.

Donations of new toys for needy children also would be appreciated.

Maine Township Supervisor Paul K. Halverson said, "Last year we distributed 135 holiday baskets and more than 300 new toys. Many of the donations came from individuals and others came from community groups, churches and businesses. We hope the community will pitch in again this year to help make the holidays happy for all our neighbors."

The township also maintains an emergency food pantry year-round and welcomes contributions at any time. This food is distributed to needy families in crisis situations and helped to sustain several families during the recent flood.

maliciously opened the valves. There was no significant damage.

Firemen responded to a fire alarm in the laundry room of the Golf Mill Plaza nursing home at 8555 Maynard St. They found the laundry room was not involved in the fire and reset the alarm panel. Investigation of other areas in the building for possible fire proved negative.

Firefighters on Nov. 12 went to Jerry's Fruit Market at 7901 Milwaukee Ave. and found the compartment and cab of a truck on fire which was extinguished. Fire loss was estimated at \$3,500.

was Alex Ratarac, 18, of Glenview, who had a passenger, Kent Garriety, 20, of Glenview. Both were treated and released at Lutheran General Hospital.

All four were transported to the hospital by Niles and Morton Grove fire department ambulances, while Niles' police directed traffic around the accident which occurred shortly after 3 p.m. Wednesday.

According to Bautista, Varkey was cited for failing to yield while making a left turn and noted the two women were not wearing seatbelts at the time of the incident. Ratarac was cited for failure to reduce speed to avoid an accident, Bautista said.

Legion reschedules Fish Fry

The Morton Grove American Legion Post 134 wishes to inform the public that the weekly fish fry will not be held the Friday following Thanksgiving.

The Nov. 28 Fish Fry has been cancelled so members of the community and the Legion volunteer workers may enjoy a long weekend away or with their loved ones over the holiday free from daily work time activities.

A spokesman said the regular fish and chicken dinners would be continuously served then, however, on the regular Friday schedule of 6-8 p.m.

The Legion commander John Slater wishes to thank the public for their continued support and is joined by Corp. President past commander Les Berg in wishing the residents of the area a happy Thanksgiving.

likely to increase enrollment in the immediate future. The static 300 per class average began in 1984-'85 and is projected through 1991-'92.

In a graph presented at Tuesday's meeting, enrollment peaked at 7,345 students in 1969-'69. Beginning in 1972-'73, enrollment decreased to 6,739. In the succeeding years, enrollment decreased to 6,315; 5,964; 5,796; 5,296; 4,900; 4,261; 3,916; 3,573; 3,330; 3,185; 3,067; 2,920 and in 1985-'86 to 2,885.

This year's school attendance went up for the first time since 1971-'72, up 20 students to 2,905. In the succeeding five years, it is projected to be 2,905; 2,903; 2,906; 2,918 and 2,913 in 1991-'92.

In other actions Tuesday, the board approved the expenditure of \$3,600 to Ray Green and Associates for a report utilizing funds for energy conservation. The board also approved accepting a \$31,548 federal grant as part of a 50-50 program for taking these energy conservation measures.

In still other actions, the board approved \$1,377 for replacement of four pairs of drapes and the cleaning of two pairs for the Stevenson school. The thirteen year old drapes disintegrated while being cleaned requiring the new purchase.

Approved participation in an

Illinois grant for the establishment of learning objectives which comes to \$3,779.35. Also accepted grants of \$5,208.84 for teacher stipends for inservice meetings and a \$1,171.80 grant to purchase material for a mathematics grant.

Before the start of the board meeting, students from the fifth grade of Stevenson school presented a brief program showing how they integrate music and art with their studies. It included students depicting Greek, Mexican, Israeli and Indian ethnic customs. Several of the children spoke the native languages of these ethnic groups.

Cable programming

Continued from Page 3

Youth Services (headed by NYS coordinator Carol Chaconis) attended the training program. "We also filmed the recent Halloween Party at Notre Dame High School in conjunction with the village's Child Safety and I-SEARCH programs." I feel we are going to see more of these local events on cable, as well as people participation, on public access channels in the future," he said.
