\$250,000 book allotment in limbo

by Linda Zachow

At the April 8 meeting of the Niles Library Board of Trustees, outgoing Board President Harry Pestine embarked on a lengthy explanation of the budget. He was unsuccessful in convincing board trustees that monies were available to finance the \$250,000 allotment previously passed by the Board for the purchase of books and materials. In the aftermath of a Finance Committee meeting held March 25, unattended by Pestine, at which time the library's assets Continued on Page 46

School district 63 had its Monday Night Massacre a couple of weeks back. It was not dissimilar to Richard Nixon's Saturday Night Massacre, when he fired special prosecutor Archibald Cox.

In the East Maine school district, Superintendent Eldon Gleichman redefined job classifications for administration personnel which will downgrade some personnel and eliminate others.

What has been a problem in the district for several years came to a head with Gleichman's re-classifying jobs at the top level of the district's administration.

While the district has had a decrease of students from 7,345 to about 3,000 during the past 18 years, administrative salaries have continued to spiral. While schools were cutback from eleven to five and teacher personnel scaled Continued on Page 38

Niles plans fourth Beautification Contest

Niles village officials are reminding residents to enter the fourth annual Property Beautification Contest which gives recognition to those who have made their homes and landscaping the most attractive in the village.

Niles trustee Peter Pesole, beautification committee chairman, said the village-sponsored event will not only enhance property values and help attract new families to Niles, but give participants an opportunity to share in the prizes. "About 150 residents participated last year and we hope to get more this year," he said.

Pesole added that judging of all property will be targeted to the front and side portion of the yard that is visible from the street. A team of judges from the Gardens Club of Illinois will inspect every home entered in the contest and judging will be on the basis of beauty, originality and general appearance of the property. The following prizes will be awarded to the winners: first 10

prizes - \$100 in cash and a \$100 gift certificate redeemable at Amling's Flowerland, 7025 Dempster, Niles. Next 50 prizes will be \$100 gift certificates redeemable at Amling's.

According to Pesole, Amling's has been getting inquiries about the village contest from other suburban towns. "I think the word has gone around it's a good program and they are interested in starting a similar one in their villages," Pesole said.

To enter the contest, persons must complete an official entry form which is available at the Niles Administration Building, 7601 Milwaukee Ave. Deadline for entering is noon, Saturday, June 27. Judging will take place in August.

Niles plans All American Festival

The Niles Events Committee is in the process of organizing this year's festival. The dates for this year's festival are, Wednesday, July 15 through Sunday, July 19.

Two additions which everyone is very excited about are, a Taste of Niles, featuring delicious food from the excellent restaurants in our area, and the other is daily continuous bingo with cash awards. The Niles Events Committee feels these will be welcome additions to the events planned for this year.

The Village of Niles will be helping us celebrate the Bicentennial of our Constitution on Sunday, July 19. We have some wonderful things planned for this celebration, things that remind us of the ideals and laws on which this great country of ours was founded. That is what the Niles All American Festival is all about, helping each one of us in celebrating community spirit, not just in our wonderful town, but the spirit of people everywhere.

At this time we are looking for restaurants which would like to be a part of the Taste of Niles and also sponsors for the Festival. You may call Niles Events President, Elaine Heinen, at 966-9884 for more information about the Festival. Elaine will be able to direct you to the contact person for the area you are interested in. Mark the Festival on your calendars now. You won't want to miss any of the fun we have planned for the five day Festival! Remember July 15-19.

Niles Fire Dept. calls

The Niles Fire Department responded to 18 fire calls and 28 ambulance calls between April 3 and April 10.

A fire alarm was activated at Hesco, Inc. 6633 Milwaukee Ave. on April 3. The cause was traced to a malfunction in both the fire and police alarms which management said was causing trouble earlier in the day.

On April 4, firefighters extinguished a fire which started in the engine under the dashboard of a vehicle. Damage was estimated at \$1,100.

The City of Chicago tried to levy a one percent sales tax on suburban merchants in 1981 after former Mayor Jane Byrne initiated the measure subsequently passed by the City Council. A short time later, more than 20 businesses in Niles joined the village in a class action suit to prohibit the collection of sales tax by merchants. As a result of the suit, the sales tax was dropped in an out-of-court settlement between the village and Chicago.

"Now they are trying another tactic by attempting to impose a sales tax on all merchandise purchased in the suburbs and delivered to any resident living in

HAPPY HOOFERS

Can walking make a person as fit as running? Yes, but not as fast. Walking programs need to be done for a longer period each day, a minimum of thirty minutes. Daily walking should increase fitness about as rapidly as jogging for fifteen minutes three times a week. The Morton Grove Happy Hoofers, a group of youthful and enthusiastic walkers, tour the avenues and paths of the village each Monday and Wednesday starting at 9 a.m. in the Village Hall Senior Center. All are welcome and no membership dues are collected.

PLANNING FOR THE LATER YEARS

A special program for seniors, families, and professionals serving seniors, "Planning for the Later Years: The Right Time, the Right Place," will present the issues and challenges of long term care and the independence of older persons. The program begins at 1:30 p.m. on Tuesday, April 21 in the Skokie Public Library.

VISUALLY IMPAIRED MOTIVATORS

Morton Grove's support and self help group for people who are blind or visually impaired, invites people with impairments and their families to their next meeting at 10 a.m. on Tuesday, April 21 in the Morton Grove Village Hall. For information or transportation call the senior hotline at 470-5223.

The Morton Grove Senior Citizen Chore Program returns beginning May 1st for residents age 65 and over. The Chore Program provides seniors with youth workers from the community who can do lawn mowing and other minor odd jobs. Landscaping equipment must be provided by the senior citizen and contributions for this service are asked for at \$2 an hour. For more information, call the Village Hall at 965-4100, ext. 254.

Senior Citizens Club Membership cards are available by calling Donna Olsen at 673-6222, ext. 1181. Membership will allow free entry to all fine art and athletic events.

EMERGENCIES

The brilliance of an airplane wing light can be seen frequently during nightfall almost any time in the Chicago skies. To see that same bright light coming from a home on a dark avenue in Morton Grove would be an unusual sight indeed, a sight that if witnessed, should be immediately reported to the Morton Grove Police Department. A red, 500,000 candle power light, when lit indicates that a disabled or infirm resident is experiencing an emergency situation in their home. The emergency flashing light system has now been installed in several village homes and consists of the light, a portable transmitter that is carried with the person at all times, and a receiver that can be activated during any of a number of emergency conditions the resident may need help with. The entire system costs \$25. For more information, or to order a light, call the Morton Grove Senior Hotline at 470-5223.

EMPHASIZING THE ABLE

The Skokie Public Library will host a program entitled, "Emphasizing the Able: Widening Opportunities for Disabled Persons." The free, day-long series of presentations begins at 9 a.m. on Saturday, May 2. U.S. Senator Paul Simon, the Ray Graham Singers, James De Jong of Dors, and Dr. Robert Winn of Hadley School for the Blind will be featured.

FOOT SCREENINGS

Screening for foot problems in persons age 65 and over is being provided at no charge by Dr. Lawrence Rubin & Associates, Foot Health Care Center, 5744 Dempster in Morton Grove. Call 965-6323 for an appointment.

Years of wear may have taken the luster and initial enjoyment out of your jewelry. Fortunately, there are many ways to rejuvenate your fine jewelry wardrobe and renew your pleasure in it.

If your engagement ring no longer looks up to par, it may need a little cleaning. Diamonds have an affinity for grease, so they tend to cloud over after a few days' wear. Clean them often to renew their superior sparkle. A simple home-cleaning recipe to use is one part detergent, one part ammonia and three parts water. Most jewelry can be cleaned in this mild solution with a soft brush and a lint-free towel.

However, certain gemstones such as fragile opal and emerald should be treated with extra care or they can be permanently damaged. For expert advice on spring jewelry cleaning trust any of our staff. Special jewelry deserves special care.

Cleaning your jewelry may be only half the problem. You may want to change the overall look of your jewelry. Re-setting your stones or customizing your jewelry may be the answer. For example, you may choose a more modern setting over the antique setting you already have or transplant the diamonds and sapphires set in your elegant choker into a sporty brooch.

A change in your setting could be the way to bring spring to your jewelry or you may opt for a completely new design. Whatever you choose, bring in the jewelry you want to renew and discuss your options for making your jewelry better suit your current style.

'Little World', a haven for miniaturists

Caroline Vetromila, a Hoffman Estates woman who designs and makes miniature items of all sorts, has a shop to display and sell her tiny wares in Niles. She formerly operated her business from her home studio, but is now open for business at 7940 Oakton st. in Niles. Her shop is called "My Own Little World."

"There are thousands of pretty and ingeniously contrived miniature novelties in the shop. I get a lot of people in here just to browse. Some of the children want to learn how to make little things themselves, so I'm glad to give them advice from my experience," said Caroline.

I Bet You Didn't Know

By Jim Jennings

Of all the teams in pro sports, which one do you think has the best winning percentage of all time? ... Taking every current team in major league baseball, the National Football League, National Hockey League and National Basketball Association since they came into existence, the team with the best winning percentage of all-time are the Raiders of the NFL who've won 65% of all their total games.

Next come the Browns of the NFL (64%), the Celtics of the NBA (63%), the Dolphins of the NFL (63%) and the Cowboys of the NFL (62%).

One of the most amazing jinxes in baseball is what happens to pitchers after they win the Cy Young Award as the best pitcher in the American League.

Each of the last 6 winners, from 1980 through 1985, surprisingly, had LOSING seasons the next year. ... The 1980 Cy Young winner was Steve Stone; in 1981 it was Nolan Ryan; in 1982, Pete Vukovich; in 1983, Laker Hoyt; in 1984, Willie Hernandez; and in 1985, Bret Saberhagen. ... All those men lost more games than they won the following season. ... It'll be interesting to see if the 1986 winner, Roger Clemens, can break that jinx this year.

Oakton Raiders have perfect record

The Oakton Community College baseball team won a double-header last week to raise their season record to a perfect 16-0. The Raiders scored 14-7 in the first game and 4-3 in the second to beat Illinois Benedictine College.

Freshman George Hickey (An-tioch) was the winning pitcher for Oakton in the first game. The leading hitters for the Raiders were second baseman Dave Federowicz (Libertyville) with three runs and two RBI's; catcher Rob Heybrock (Chicago) with two RBI's; and outfielder Mike Mischevich (Chicago) with a triple and a RBI. Pitcher Paul Dannenhauer (Park Ridge) had nine strike-outs in the second game to lead the team to a 4-3 victory.

"This was his best outing so far this year," said Rich Symonds, Oakton Coach. "The team average is .384 with five starters hitting .450 or better."

Going to the first conference game next weekend against Truman College, Symonds feels his chances are quite good. "Our pitching is very solid and our hitting is a definite strength," Symonds stated. "We are averaging 10 runs a game which is a real confidence booster for our players. Based on what we are doing so far, I have to say that our chances of winning look very bright."

Drivers satisfied with seat belt law

A recent report by the Chicago Area Transportation Study (CATS) finds that 64 percent of northeastern Illinois motorists approve of the Illinois mandatory seat belt law although only 53 percent claim actually to use their belts on a regular basis.

The figures are based on a survey of over 1,500 people taken at the 1987 Chicago Auto Show in February. CATS performed the survey in conjunction with the city of Chicago's Traffic Management Task Force.

A similar survey was undertaken by CATS at the 1985 Chicago Auto Show. There has been a slight increase in those who favor the law (from 61 percent to 64 percent). The percentage of motorists who use their

seat belts has remained constant at 53 percent since before the law went into effect.

Safety appears to be the main reason motorists support the law, as 82 percent of the respondents said that they feel that using seat belts can save lives.

Women responded more favorably than men to the seat belt law, as 74 percent of female respondents favored the law, while only 60 percent of the men did.

Some states have recently rescinded their mandatory seat belt laws, citing lack of compliance and motorist antipathy. The results of this CATS survey show that these are not problems in northeastern Illinois.

State gives tips on motorcycle safety

by Secretary of State Jim Edgar

Both new and experienced motorcycle riders must have many skills to operate motorcycles safely. Following are safety tips to practice when turning and braking to help keep control and avoid an accident.

Reduce your speed before entering a curve, and lean with your motorcycle. New riders often try to take curves or turns too fast, and skid out of control. Some are afraid to learn how to lean. The sharper the curve and the faster you ride, the more you must lean with your motorcycle.

To make a quick turn, the motorcycle must lean quickly. To do this, push on the inside of the handlebars in the same direction you want to turn. If you want to turn right, push on the inside of the right handlebar. This causes the front wheel to move slightly to the left as you and the motorcycle continue straight ahead. As a result, the motorcycle will lean to the right.

Use both brakes every time you slow down or stop, and apply them at the same time. The sooner you apply the front brake, the sooner you will start slowing down. You can also use both brakes in a turn.

To stop quickly, apply both brakes. Do not be shy about using the front brake, but do not "grab" it, either. Squeeze the

brake lever steadily and firmly, applying the front brake as fully as you can without locking the front wheel. Apply the rear brake hard at the same time.

Car Care Clinic

Tips for more Safety, Economy, Convenience

by Bob Miller

Brakes - a careful choice

Knowing your car needs a new set of brakes is only touching the very tip of a problem. Now you have to decide whether or not business A has a better brake job and actually gives you more for your money than business B.

Business A advertises almost \$250 for a complete front and rear brake job. Business B tells you they can give you new brakes on the front or rear for \$49.95 each. That shouldn't seem like a hard decision for anybody to make. Looking deeper into what you actually get for your money is something that's beneficial for not only your pocketbook, but also for your safety.

First, let's take into consideration what function the brakes on our car really serve. We always take them for granted when they're working properly. Remember the time you were driving down the street, approaching an intersection, and someone started to make a left turn in front of you. You slammed on the brake pedal, listening to the ear piercing squeal and breathed a sigh of relief as you barely avoided a serious accident. What about the time, while trying to find a space in the grocery store parking lot, somebody started pulling out without looking first. Bet that was another close one.

Unfortunately, there is no cut and dried definition of what a complete brake job should consist of or cost. With a higher price tag comes much more work. If your front brakes are disc, the mechanic will rebuild the calipers, machine the rotors, repack the wheel bearings and replace the brake pads. With the rear drum brakes, he will replace the brake shoes, rebuild the wheel cylinders and machine the brake drums. This is a total and complete brake job. A lower priced discount brake job covers the bare minimum of new disc pads on the front and a new set of brake shoes on the rear. This type of job does not include any work done on the calipers or the wheel cylinders. It seems a little silly not to rebuild these two important parts since they do all the work in actually applying the brakes.

Over the years a brake job is something that has become very price competitive. There is nothing wrong with you, as a consumer, asking the owner of a business just how extensive a job he is going to perform. Older cars, especially, need more of a going over in the brake department to insure you a safe vehicle.

The new cars have what is known as metallic brake linings. This means there are numerous metal particles in the asbestos that make up the brake pads and shoes. If metallic pads are replaced with the older style semi-metallic pads, there is a chance you could experience a fading pedal when the brakes are hot. The life expectancy of the brakes is also cut in half. Make sure you ask for the same brakes that came on the car from the factory.

Most brake manufacturers have added a feature to their disc brake pads known as a wear strip indicator. This is nothing more than a small piece of thin metal attached to the disc pad that will touch the brake rotor when your brakes are about ninety percent worn. When this piece of metal touches, it causes a high pitched squealing sound that sometimes goes away when you step on the brake pedal.

With the introduction of front wheel drive cars, a new problem has arisen with the brake system. They only last about half the miles of your old rear wheel drive car. Front wheel drive cars have the engine and transmission both under the hood. This means double the amount of weight on the front section of the car. For this reason the front disc brakes are working harder than ever to perform their job properly. The heat build up within them is twice as much as before. It's a good idea to have them checked at least once a year.

Brakes, like cars themselves, have changed over the last ten years. The old saying of "No reason a set of brakes shouldn't last at least 40,000 miles" has become a thing of the past. A spring and fall safety check of your car should be done by your mechanic every year. This procedure will include a complete inspection of the brake system. This way we can all stop on a dime if the situation presents itself.

Bethany Methodist offers direct line on older adults' care

Bethany Methodist has instituted a program which is a primary source of information for those caring for older adults. The program called Silverline offers a direct line to families who are caring for an elderly person. Silverline, in addition to creating this source for information, also acts as a support group for these families.

Questions commonly answered by this informative service include:

...Is there a service that can give me a break from caregiving so I can go shopping or get away on a weekend?

...Is there transportation available for my father who uses a wheelchair?

...Who is there to listen to me?

...Where can I find an adult day care program for my grandfather?

...Can meals be delivered to my mother in her home?

For answers to questions such as these and many more, call the Bethany Methodist Silverline at 271-9600.

In addition to the Silverline service, a national publication entitled *ADVICE* is available exclusively through Bethany Methodist. This publication, written especially for people who are caring for older adults is available through subscription for just \$3 a year (6 issues). If you wish to receive a free issue of this very informative publication, fill in the coupon on Page 23 in the Senior Seasons section of The Bugle. You will then receive your free copy in the mail.

Bethany Methodist takes pride in being a primary source of information on the care of older adults. After all, they have been caring for these people for almost a century.

GROWING TO SERVE

Norwood Park Home is "growing to serve"

"Longterm Care Facilities," "Nursing Homes," "Homes for the Elderly," and "Retirement Communities" are, in many cases, wonderful places to spend the rest of your life, without pain, hassle, loneliness and total disregard for your well-being.

Take Norwood Park Home for example, founded in 1898 by a Dr. Niles T. Quales and operated by the Norwegian Old Peoples Home Society of Chicago, the Home has been caring for the elderly in both sheltered and intermediate level capacity for over 91 years. And, doing a fine job I might add.

Too often the public forgets that a facility for the elderly is a 24 hour, seven days a week, never ending operation. The beauty of Norwood Park Home remains undaunted in its mission to serve and care for individuals in independent and dependent stages of their life with sensitivity and concern 365 days of the year.

According to James E. Herbon, Administrator for the Home, "There is the rest of the world and then there's Norwood Park Home." Residents in the sheltered areas eat all their meals in the dining room with the staff which encourages interaction and gives the Home a family atmosphere. Parties at the Home range from small to large and involve everyone. In milder

weather a Western Day is held in the Courtyard (built in the Spring of 1985 from funds raised by the Employees and the Women's Service League of the Home). Residents and staff, dressed in western wear, enjoy ranch style cooking complete with good ol' foot stomping country music.

The six star flag represents the highest award possible in the Quality Incentive Program (QUIP), offered voluntarily by the Illinois Department of Public Aid to all long term care facilities in the State. The program stresses family participation, resident satisfaction, community involvement, care management,

and structure and environment of facilities. Once achieved the Norwood Park Home has had to maintain this high level of care and pass inspection every six months.

With the current emphasis in the media on the negative aspects of long term care for the elderly it's nice to know that Norwood Park Home stands proud as if to say to the public... "There's the rest of the world and then there's Norwood Park Home."

For further information on Norwood Park Home you may call 631-4856 or write: Norwood Park Home, 6016 N. Nina ave., Chicago 60631.

Foot screening program for seniors

Screening for foot problems in persons age 65 and over is being provided at no charge by Dr. Lawrence M. Rubin & Associates, Foot Health Care Center, 5744 Dempster in Morton Grove. Call 965-6323 for an appointment.

"The screening program was developed because persons age 65 and over suffer more from painful foot problems than any other age group and usually receive little information about preventive care," says Rubin. This often leads to neglect and potentially serious complications of untreated minor problems, he says.

Screening consists of a brief evaluation by a podiatrist and an explanation of what measures can be taken to prevent and relieve any problems found. Printed materials describing care for many common foot problems are also available without charge.

The screening program is sponsored by the non-profit Community Health Information Services Corporation and is made available through participating podiatry offices.

Maine Township panel studies senior housing

A wide variety of services and programs are available to senior citizens through the Maine Township government.

Maine Township Supervisor Paul K. Halverson said, "Maine Township has one of the largest senior citizen populations in Cook County numbering nearly 20,000. They are a valued part of our community, and we attempt to provide a wide variety of services to meet their needs."

One of the key programs provided by the township is an information and referral clearinghouse to help seniors obtain information on housing, medical services, social and mental health services, nutrition, home-delivered meals, employment, energy assistance, social activities and a variety of other services.

This program is partially supported through grants awarded to Maine Township by the Suburban Cook County area Agency on Aging. Senior citizens and their families can take advantage of the information and referral service by calling Grace Duffy at the Maine Township Town Hall, 297-2510.

Senior citizens can also find fun and companionship through the

many activities offered by the Maine Township Seniors, a social group sponsored by the township.

Among events coming up are the theatre/lunch outing to the musical "South Pacific" at Maine West High School, Thursday, April 30; an exciting week-long trip to Washington D.C., and Williamsburg, Va., April 30 through May 7; and a "sentimental journey" to the Rosemont Horizon Wednesday, May 6, for four-star show featuring Frankie Laine, Kay Starr, Margaret Whiting and Al Martino.

To receive a membership application and obtain reservation information, call Sue Neuschel or Helen Jung at the Maine Township Town Hall, 297-2510.

Edgewater Hospital, 5700 N. Ashland ave., in cooperation with the American Cancer Society, will be reducing the cost of a mammogram to \$50 during the months of April and May. Mammography, a low dose breast x-ray, is a fast, simple, relatively painless procedure. It detects breast cancer in its early, curable stages before a woman or her doctor can feel a lump. According to the American Cancer Society, most of the mammography-discovered cancers were very early cancers, curable in up to 90% of cases.

The American Cancer Society provides guidelines for mammography and breast examination. Women age 20 and older should perform a breast self-examination monthly. Between ages 35 and 39, an initial baseline breast x-ray should be taken, and additional x-rays every one or two years between the ages of 40 and 49. Women 50 or over should have a mammogram every year.

More than 50% of all cancers can be controlled with early detection.

Edgewater Hospital's Cancer Screening Program.

Edgewater Hospital's Cancer Screening Program is approved by the American Cancer Society and provides a comprehensive program for the early detection, prevention and treatment of cancers. Edgewater Hospital with its facilities and physicians offers the following quality care:

- A thorough history is taken with special attention placed on family history of cancer and life-style.
- Affordable, comprehensive and detailed physical examination—proctoscopy and mammography for selected persons.

People should know when to contact Social Security

It is important for the people in the local area to know when to contact Social Security, Thomas A. Curtin, Social Security manager in Des Plaines said recently.

A person should contact Social Security:

- Before getting his or her first job, because a Social Security number is required to get proper Social Security credit for earnings. Employers are required to examine a person's Social Security card. Be sure to apply for a number at least 2 weeks before it will be needed.
- After a death in the family to see if survivor benefits can be paid.
- When someone in the family is disabled, to find out if disability benefits can be paid.
- At retirement—at 65 for full rate benefits or as early as 62 for reduced benefits. Sign up for Medicare 2 or 3 months before 65 even if there are no plans for retirement.
- Any time there is a question about Social Security.

When a person calls Social Security, the people there can tell him or her:

- How much work credit is needed to be insured for benefits.
 - Who can get benefits.
 - How to replace a lost Social Security or Medicare card.
 - How to apply for monthly Social Security benefits.
 - How to get a free statement of the earnings reported to a person's Social Security record.
 - What documents a person applying for benefits needs.
- For more information about Social Security, contact any Social Security office. The address and telephone number of the nearest Social Security office can be found in the telephone directory.

Edgewater Hospital, 5700 N. Ashland ave., in cooperation with the American Cancer Society, will be reducing the cost of a mammogram to \$50 during the months of April and May. Mammography, a low dose breast x-ray, is a fast, simple, relatively painless procedure. It detects breast cancer in its early, curable stages before a woman or her doctor can feel a lump. According to the American Cancer Society, most of the mammography-discovered cancers were very early cancers, curable in up to 90% of cases.

The American Cancer Society provides guidelines for mammography and breast examination. Women age 20 and older should perform a breast self-examination monthly. Between ages 35 and 39, an initial baseline breast x-ray should be taken, and additional x-rays every one or two years between the ages of 40 and 49. Women 50 or over should have a mammogram every year.

More than 50% of all cancers can be controlled with early detection.

Edgewater Hospital's Cancer Screening Program.

Edgewater Hospital's Cancer Screening Program is approved by the American Cancer Society and provides a comprehensive program for the early detection, prevention and treatment of cancers. Edgewater Hospital with its facilities and physicians offers the following quality care:

- A thorough history is taken with special attention placed on family history of cancer and life-style.
- Affordable, comprehensive and detailed physical examination—proctoscopy and mammography for selected persons.
- Complete diagnostic evaluation, referral and educational information for cancer prevention.
- Experienced on-staff physicians trained in the diagnosis and treatment of cancer.

Maine Township helps meet senior citizens' needs

The need for affordable senior citizen housing heads the list of topics to be explored by the newly formed Maine Township Senior Citizen Advisory Committee.

Chairman Jay Lewkowicz, executive director of Oakton Pavilion, said the committee targeted housing first because it is one of the most critical issues facing the elderly.

The committee is assessing the housing needs in Maine Township, looking at model programs in other communities and attempting to develop creative solutions.

"But to make our effort successful, we need to hear from senior citizens, concerned residents and business people who can help us identify specific needs and share their ideas for workable solutions," Lewkowicz said.

Anyone who would like to voice concerns on housing or other senior citizens needs may write to the Maine Township Senior Citizen Advisory Committee, Maine Township Town Hall, 1700

Senior citizens pharmaceutical assistance program

Senator Dawn Clark Netsch (D-4th District) has introduced legislation in the Illinois Senate that would more than double the kinds of prescription drugs senior citizens may obtain free of charge through the Circuit Breaker Pharmaceutical Assistance program.

Netsch said Senate Bill 102 would expand the program for qualifying senior citizens and the disabled to include coverage of all prescribed drugs, except those that alter mood.

"SB 102 would help thousands of senior citizens faced with rising costs for such life-saving prescriptions as antibiotics, hormones, topical solutions and creams; and ulcer and cancer medications," she added.

Netsch noted that cardiovascular, arthritis and diabetes "drugs" now covered under the program account for 20 percent of all prescriptions that are written in Illinois, according to the Department of Public Health. Drugs that would be brought into the program by SB 102 account for 55 percent of written prescriptions, the department says.

The pharmaceutical assistance program, which was created by legislation sponsored by Netsch and Rep. Woods Bowman in 1985, is operated as part of the Circuit Breaker program for senior citizens and disabled persons. The General Assembly over-

whelmingly voted for legislation they sponsored last year to expand the program to cover diabetes and arthritis medications.

Under the program, eligible recipients may choose to receive free covered medicines in exchange for the \$80 additional grant available through Circuit Breaker.

To qualify for Circuit Breaker or pharmaceutical assistance, applicants must be 65 years of age or over 16 and totally disabled, an Illinois resident and have household income of less than \$14,000 a year.

Homeowners, renters, mobile home dwellers and residents of nursing or sheltered care homes qualify for the program.

Regency continues expansion of care in Alzheimer's unit

To keep up with the increasing need for the care of Alzheimer's victims, Regency Nursing Centre, 6631 N. Milwaukee ave., Chicago, is developing a psychological assessment tool to be given to each resident going into the Alzheimer's unit.

The assessment will be developed by two of the unit's new consultants, psychiatrist Lawrence W. Lazarus, M.D., from Presbyterian-St. Luke's Bowman Center, and psychologist Leslie Graves, also from Pres St. Luke's.

Both Experts will bring a diverse background in working

with the elderly, especially those who have Alzheimer's disease.

The Regency Alzheimer's unit opened in Feb. 1985. Many new programs have been developed since then, serving to maintain each resident's highest level of functioning while minimizing the use of medications.

The new assessment tool will allow for the Alzheimer's staff to determine the programs that would most enhance the quality of life for each resident on the unit.

Kathy Clyde, unit director, looks forward to using the new tool that will educate staff and

families to the current needs of the patient.

Said Clyde, "Especially since the patients are unable to state their needs, the tool will allow us to have some insight into the positive abilities that are still within the patient's reach."

For more information regarding the Regency Alzheimer's Unit, call 647-7444. Regency continues to host Alzheimer's Association and Related Disorders support group meetings at 7 p.m. on the last Wednesday of each month.

Meet the North Shore Press

The North Shore Hotel, 1611 Chicago Ave., Evanston, thinks it's time to "Meet the Press", those hard-working reporters, researchers and writers who turn out the prolific and readable monthly newspaper, "The Tattler".

Editor Milt Flusser and his staff, Sylvia and Lionel Livingston, Bernard Kramer, Frances Everts, Ida Mailhot and Sara Meyers are aided by contributors Bea Schiller, Regina Kaplan, Sadelle Himel, Bess Leviton and Harold Bloch.

Everyone reads "The Tattler" eagerly when it comes out. It's full of observations, reviews, jokes and poetry which are of interest to the 250 retired men and women who call the North Shore Hotel "home". Sometimes there are articles about health, both physical and mental. Other times snippets of history, geography and economics are printed.

There are always bits of whimsy and pieces of philosophy which give the senior readers a lift.

Viewpoints of life and growing old gracefully fill the pages of "The Tattler" and it seems the reporters do a great deal of specialized reading to pull the very best for this in-house newspaper.

"The Tattler" staff at the North Shore Hotel: (from left to right) Ida Mailhot, Lionel Livingston, Milt Flusser, editor, Sylvia Livingston, Sara Meyers and Frances Everts.

In a recent edition of the paper resident Winifred Hapke writes: "How eager we are to grab "The Tattler" and no wonder! It is written by us about ourselves, our neighbors and our home and that makes it the most interesting of all reading. I am sure that if there should be a competition of in-house papers published by hotels similar to the North Shore, "The Tattler" would rank high.

New Oak Mill Dental staff member

Dr. Barbara Laskowski, and the entire staff of the Oak Mill Family Dental Center would like to welcome and introduce our newest staff member Michael D. Fedyna, D.D.S.

Born in February, Dr. Fedyna joined the staff. Dr. Fedyna received his Doctor of Dental Surgery degree from the University of Illinois in June, 1986. He was the recipient of the Kubsack Prosthodontic Award for excellence in the field of crowns, bridges, partial and full dentures. His under-graduate studies were completed with honors at Loyola University. He is active in community affairs, has volunteered time to work with autistic children, and has worked on the neighborhood Eye search program. Dr. Fedyna takes special interest in family dentistry.

Dr. Laskowski is skilled in all phases of dentistry and enjoys the variety and flexibility of treating patients of all ages, from senior citizens to children. In addition to general dentistry including prosthetics, endodontics, oral surgery and restorative and preventative dentistry, Dr. Laskowski is trained in and has tremendous success with the new techniques of tooth bonding. Bonding, a technique which has recently received much public-

Michael D. Fedyna, D.D.S.

ty, is used to reshape teeth, fill in spaces, and to remove discolorations.

As a public service to families in our community, Dr. Laskowski has volunteered to provide, free of charge, diagnostic x-rays or study models as a means of identification to aid the various community associations involving missing children.

Dedicated to the well being and dental health of the members of our community, Dr. Laskowski and her staff welcome inquiries and visits to her office located in Oak Mill Mall at Oakton and Milwaukee ave. The office now has expanded hours, open 6 days a week for your convenience.

Physicians Center open Skokie office

Physicians Centers, responsible for helping thousands of patients stop smoking-and stay stopped-has opened a new medical office at 64 Old Orchard Center in Skokie.

With great success at Chicago's 500 N. Michigan Ave. office and the Professional Building at Oakbrook Center, Oak Brook, now Skokie provides another convenient location where help is available to end the cigarette habit forever.

"Nicotine in cigarettes, like other drugs, has both a physiological and psychological phase in its addition," says Eunice Bailey of Physicians Centers. "That's why our patients are seen by both a licensed medical doctor and a Ph.D., or counselor so all aspects of

cigarette smoking are dealt with," said Bailey.

The one and one-half hour treatment takes effect within minutes. Many immediately experience a diminished desire to smoke and the majority do not experience the side effects of nicotine withdrawal as do those who try to quit on their own.

You can leave Physicians Centers a comfortable ex-smoker, who can stay stopped for the rest of your life.

The fee for treatment is tax deductible and many insurance companies reimburse Physicians Centers patients.

Call the Skokie office for more information and to make an appointment to stop smoking for good. Call 679-5300.

Golf Mill'ing Around The Mall

by Linda Zachow

Spring greetings from GOLF MILL! Everyone and everthing seems to be hopping in child-like anticipation of a fresh, new season and the Easter holiday.

There's a village inhabited by live bunnies provided by DOCKTOR PET CENTERS complete with a Bunny School of Dance, a theater, and large, spacious bunny houses. Despite all the amenities, rumor has it some extra adventurous cottentails attempted to sneak out for a peek at the rest of the mall but were promptly stopped in their tracks and returned to their senses.

The Easter Bunny shared some hare-raising tales... A little boy gave a long testimony about his perfect conduct at home. You could almost see the halo atop his head as he told how cooperative and well-behaved he had been all year. Just as he was about to depart, this "little angel" came back to the Easter Bunny, punched him in the arm and threatened, "And you better bring an Easter basket or else!" ...And then there was the little girl who sweetly presented the Easter Bunny with a beautiful, fresh carrot-gift wrapped. There's been lots of hugs, petting of bunny fur and joy in this part of the mall.

The south mall has a petting zoo. Children visiting the mall get to meet, pet, or talk with animals like Joey, the gentle llama, and Caspar, one of the many goats whose gourmet tastes lean toward the plastic flowers on the side of the fence. There's also Gertie, the donkey, a cow, a bull, sheep, chickens, and the exotic Quedamundy, a South American raccoon.

A great place to shop for that special Easter outfit for children and mothers-in-waiting is MOTHERCARE managed by Sue Jacobs. For expectant mothers, the maternity clothes are unbelievably gorgeous!

Gone are the old fashioned expandable panels and dull styling that once characterized maternity wear. These clothes can be worn after the baby is born because they don't look like maternity clothes. MOTHERCARE offers a selection of comfortable, contemporary maternity sportswear and formal suits that equals the inventory in any high quality womens' clothing store.

MOTHERCARE also specializes in children's sizes from infant to 4T and carries a huge selection of kid's accessories—bonnets, jewelry, rhinestone high-tops to name a few. Their boy's dress suits and girl's frilly frocks are adorable. One of the cutest children's items is the Tarzan and Jane leopard-skin swimsuits for infant boys and girls. The girl's swimsuit only covers one shoulder and has that really with-it look...Exercise video cassettes and books on a healthy pregnancy have been quite helpful to customers.

PETITE SOPHISTICATE is another great place for that special Easter outfit or sportswear to herald the new season. Rita Lane, manager, holds a B.A. Degree in Personnel Management from Akron University in Ohio and has 10 years of experience in specialty retailing management. Debbie Sanders and Laurie Rutzky, Rita's capable assistants, plus staff are fully trained to understand and provide the finest service and clothing to the petite woman 5' 4" and under.

In addition to an absolutely fantastic and versatile selection of clothing at PETITE SOPHISTICATE, Rita told us, "We provide very personalized service for customers." PETITE SOPHISTICATE offers wardrobe consultations, fashion shows, and special consultations where a salesperson works one-on-one with the customer to create the perfect look for one outfit or an entire wardrobe.

We also stopped in at ROGERS & HOLLAND JEWELERS, one of the mall's fine family-owned jewelry stores and spoke with Dan Decker, manager, and Pam Gregory, assistant manager. Dan, who has five years previous jewelry retail management experience has the utmost confidence in the ability of himself and his staff to prove to the customer that "Once a Rogers & Holland customer—always a Rogers & Holland customer."

ROGERS & HOLLAND JEWELERS specializes in diamonds, each graded by certified gemologists before mounting in its setting. They also do customized styling. Four times a year they hold Diamond Restyling Shows, the next show being Apr. 22. Expert craftsmen will remount your old diamond in a new setting with special attention to sizing, ultrasonic cleaning, and provide you with a written appraisal based on current market value.

Congratulations to Pam Gregory, assistant manager, for being chosen second place assistant for 1986. Also to super employee Rose Hachigian who won a contest to name an absolutely exquisite ring designed by owner, Jewell Kadoff. The name she picked, "Caresa", is as beautiful as the ring which bears 22 stones at 1/2 carat with 6 marquis and 16 brilliant diamonds in a symmetrical cross-cross design... Super employee Cathe Brenner, getting married in May, is the proud owner of a unique engagement ring acquired through a million dollar estate sale conducted by ROGERS & HOLLAND.

Other mall news...Linda Miller (Caren Charles) was the big winner in the February-March dress contest...Sue Bassie (Caren Charles) tying up loose ends for May wedding...Wickie Perlow (Ups 'N' Downs) on maternity leave expecting next week.

Best holiday wishes for Passover and Easter to you, our readers. Enjoy the festivities at the mall and let's hope spring is here to stay.

ENTERTAINMENT GUIDE

Make room for zesty Caffe Lucci

Every wonder how many Italian restaurants there are in Chicago, in the United States, in Italy? Imagine. If you could put all the pasta in one great pile, it would probably tower above Mt. Everest. What courage it must take to say, "What this old planet needs is another Italian restaurant, and I'm going to open it."

Well, last November two young west-side Chicagoans, Chick Stella and Joe Greco, opened Caffe Lucci in Glenview. They remodeled what had been a high-ceilinged German restaurant (the old Alpine Inn), inserted a new, black tin ceiling designed to make it look like 1910 Chicago, invested in rich, dark furniture (lots of reds in the color scheme), topped it off with art deco fix-

tures and opened the doors. Joe put on the apron and Chick took over front. Word got around and customers came. The banquet room upstairs booked steadily. The secluded circle bar fits nicely into the L-shaped dining room, and there's parking out back. All in all, Chick and Joe seem happy about the whole thing. Obviously, there was room for another Northern Italian restaurant.

Caffe Lucci serves lunch from 11:30 a.m.-3 p.m. and dinner from 3 p.m. until closing. The kitchen is always open.

Lunch prices range from \$3.95 to \$5.95 (for sandwiches and old favorites like chicken parmigiana) to \$6 or \$7 for specialties. Dinner prices are in the \$10 to \$14 area for main

courses with salad included. Caffe Lucci is open Monday through Thursday 11 a.m.-10 p.m., Friday 11 a.m.-11 p.m., Saturday 4-11 p.m. and Sunday 4-9 p.m. The banquet room can handle parties of up to 100 people.

Don't forget the shrimp De Jonghe! Caffe Lucci is located at 609 Milwaukee Ave., Glenview. Phone: 729-2268.

From the Left Hand

Continued from Page 1

down proportionately, the administrative staff's budget has been overstuffed with fat salaries which have not decreased while the school district became smaller. Last fall business manager Jim Bowen told us administrative salaries were in the \$600,000 range. It was difficult to justify such a salary upscale at the administrative level when teacher and principal cut-backs were taking place in the district.

While the administrative system is being reorganized with newly titled jobs, there is an impression some of the personnel may not be back next year and others will fill jobs at a lower salary scale.

Superintendent Gleichman, whose job is in the plus \$70,000 area, is re-shuffling or eliminating the job of assistant superintendent for curriculum and instruction (Lenore Page). It is likely Dr. Page may return to the teaching ranks. It is estimated her salary is in the \$50,000 to \$60,000 category. Director of building and grounds, Joe Irpino, is also having his job eliminated as is business manager Jim Bowen and business manager assistant, Pat Kolvek. Their three salaries total close to \$150,000.

Don Stetina, formerly superintendent of personnel, will fill the new post of associate superintendent. His

present salary is in the \$50,000-\$60,000 area.

Mark Twain principal Walter Siekierski is being removed from the top post at Mark Twain school. It is possible he could return to the teaching ranks.

While Bowen, Irpino, Kolvek, and Page will have to reapply for the newly created positions, only Page is assured of returning to the district next year. Her tenured position assures her a teaching job in the district.

Bowen, who has served the district for 22 years, could seek retirement pay at this time. But he said he needs to work a couple of more years and is uncertain as to his future.

The chopping down of the top-heavy administrative staff was inevitable. It has surprised us how long it has taken the school board to begin the hatchet job.

Last fall we wrote about the gas station owner who breaks his butt 12 hours a day to earn a living and then comes home and finds a \$700 increase in his property tax bill. A large part of that tax bill goes for maintaining the schools (about 60%). There was an obvious discrepancy in asking this man for more money while District 63 was paying over \$600,000 for administrative salaries. It was unwarranted and unfair. It left the impression the people who were running the district were asking everyone in the district to cut-back teachers and schools but protected themselves from any reduction. They were getting salary increases at the same time they were cutting every other area in the district.

There is a Catch 22 element in the system. Many of those in administration have been there for many years. They grew through the district receiving commensurate salary increases through the years. When the early 1970's cutbacks began, schools were closed and principals losing their schools moved back into the teaching ranks. Many first and second year teachers lost their jobs. But because the administration personnel had

been there for many years, they remained. While all other areas were cutting back, the administration monies were increasing. No one faced the problem and tried to rectify it. Until now.

Superintendent Gleichman said the new job descriptions include associate superintendent, which is being filled by former superintendent of personnel, Don Stetina. Other new job titles which have not been filled include coordinator of special services, director of data processing, director of curriculum and director of finance.

Dr. Gleichman said the director of operations has been filled by an outside company. It will be paid more than \$80,000 monthly which will include the use of its equipment and supplies. It will manage the buildings, and grounds operations. That figure includes salaries for 34 present custodial and maintenance personnel.

Gleichman noted the director of data processing is a new position. He said, "We could speed up a lot of work if we just got the computer to do what we are presently doing on paper. There isn't anyone who knows how to run the 36 IBM computer or program it. It gets very little use in the district."

While the education people, Page, Siekierski and Stetina, will likely stay in the district, Bowen, Irpino and Kolvek might not be here in the fall. Bowen told us last week he was told he could apply for the new job of director of finance. But he was less than optimistic about receiving the appointment. He said it would have been simple for Gleichman to have offered him the new job rather than suggesting he apply for it. It implies he's being kicked neither up or down, but out the side door.

Like any massacre, toppling people from their jobs is never pleasant and leaves many scars. That the new guy in town, the ten month old superintendent, was given the nasty job, reflects poorly on the past years' district policies. It was long overdue. And some very nice people are being wounded in the process.

Bike rider assaulted and robbed

A Niles resident told police that he was beaten and robbed while he was riding his bicycle through the parking lot of a hamburger restaurant in the 9600 block of Milwaukee about 9:30 p.m. on April 10.

While riding through the parking lot, the victim passed a parked vehicle with two men standing outside and another sitting in the car. One of the offenders struck him on the left side of the head with a pair of nunchucks (martial arts weapon) knocking him to the ground.

The other two men took his radio, kicked him in the stomach and then told him to get out of the area. The three offenders then got into their car and fled the scene.

Labor violation...

Continued from Page 1

library board attorney, said he had looked into the matter several months ago after library officials received a letter of complaint from a resident on the monthly pay for part-timers. "My opinion was that since we are a governmental body and under federal law, we were in our rights to set wage schedules for both part-time and full-time employees. However, if there have been any changes, we will comply," he said.

According to Peter Sylvestri of the Illinois Department of Labor, the library had been exempt from a state statute that required employers to pay every employee on a semi-monthly pay period. "However, an amendment passed by the state legislature stated that library districts are not exempt after Jan. 1, 1986 and they must comply with the state law," he said.

A spokesman from the U.S. Department of Labor confirmed Sylvestri's statement, saying a library district must comply with both state and federal laws. "If a

state law has higher or more rigid standards, federal law does not supersede," he said.

Duncan McKenzie, library administrator, said the policy for paying part-time employees existed before he came to Niles as administrator. "The policy continued because there is less bookkeeping involved, and less cost in setting the monthly wage schedule," he said. "Not one part-time employee has ever approached me to complain about the pay schedule. We received a legal opinion on the wage policy, but we are certainly going to look into this matter," he added.

Dan Macken, library business manager, also agreed it was more cost-efficient to operate on a monthly part-time wage schedule. "We have many problems with time cards because of the difference in hours works by part-timers. Some work eight hours a week and average hours range from 18 to 20 hours a week," he said, adding Weiner would advise the board on any changes in the wage policy.

Morton Grove Park summer volunteer program

Residents of Morton Grove, between the ages of 13 and 15, may apply to be volunteers at the Park District. Candidates will be evaluated as though the position were a paid one. There is no guarantee that all applicants will be accepted although each applicant will have an interview. Once a volunteer has been accepted, he/she will need to sign a contract guaranteeing to work certain hours with the program assigned. Every effort will be made to assign volunteers to the program of their choice.

'Lonesome' intruder reported

A woman in the 7900 block of Caldwell reported April 7 that she had just returned home with her daughter when she heard someone pulling on the locked screen door to her apartment. She then opened the inner door and the alleged offender said he was her neighbor and wanted to "sleep with her". She ordered him to leave and shut the door.

In her call to the police, the victim said she detected a strong odor of alcohol on his person and wanted the incident to be a matter of record.

Finger bitten in fight

A Niles man was bit on the finger when he tried to stop an argument between two men at a restaurant bar in the Dempster Plaza Shopping center on April 4.

According to police reports, the offender bit the victim's left index finger drawing blood and then ran from the restaurant.

Another female was struck in the ribs during the shoving match. Both refused medical treatment.

Dog bite

A Niles resident was bitten in her right little finger when she picked a dog up that had strayed in her back yard on April 6. The owner of the dog was cited for no rabies tag on the dog, dog at large and no Niles tag.

Sales tax suit...

Continued from Page 3
Chicago, Blase said.
Niles Village Attorney Richard Troy said Chicago may "back off" enforcing the ordinance now that city officials know there may be a possible lawsuit by suburban municipalities. "Unless they (suburban retailers) have a branch or office in Chicago, they are not liable for the sales tax simply because a delivery is made into the city," he said.

A spokesman for the Chicago Department of Revenue disputed Troy's claim, contending it made no difference whether a business had a branch in the city. "Chicago considers these trucks crossing suburban borders into the city as assets and can be charged the sales tax," he said.

However, a suit filed by a suburban car agency challenging the ordinance could make a difference in similar cases if the ruling favors the suburbs. "The outcome could set a precedent on certain provisions in the sales tax law," the spokesman said.

Chicago officials also tried to levy a service tax on the suburbs in 1981, but an Illinois Supreme Court decision favored the suburbs. The service tax ordinance placed a 1 percent levy on business conducted by professionals inside Chicago.

Village holiday hours
Niles Village Clerk Frank C. Wagner, Jr., wishes to remind residents that the Niles Administration Building offices, 7601 Milwaukee Ave., Niles, will be closed Fri. and Sat., Apr. 17 and 18 in observance of the Easter Holiday. Regular business hours 8:30 a.m. to 5 p.m. will resume Mon., Apr. 20.

The night depository at the front of the building is available for your convenience.

Wood River...

proval for PUD zoning to build the condominiums on three acres of land. However, Beaulieu's plans to build 24 additional units on the remaining 1.6 acres of land never materialized and the parcel eventually reverted to the mortgagee (Talmann Federal Savings and Loan).

Petitioner Carl Kupfer told the board he was a contractor-purchaser for the 1.6 acres, subject to zoning approval. "The proposed project will reduce density rather than the one proposed by the former builder of the Wood River Park Condominiums," he said.

Kupfer unveiled plans to construct 11 three-bedroom townhouses with attached two-car garage for each two-story unit. A cedar fence would separate each unit from privacy and the rear of the buildings would face the river on the west and Tam golf course. Cost for a townhouse would begin at \$135,000, Kupfer said.

Subject to board approval, the property would be designated as a sub-division of townhouses under private ownership. Kupfer explained he had met with officials of the Wood River Park Condominium Assn. and worked out an agreement for easements from Wood River for a common area (parking lot and driveways) shared by both projects.

In exchange for the easements, Kupfer said he would upgrade the parking lot with asphalt, put in fenced-in dumpsters for the Wood River condominiums and provide pedestrian access to the river for common use. "We will also landscape the hilly slope that leads from the rear deck of the townhouses to the river for aesthetic appearance."

Zoning chairman John Frick noted Beaulieu had plans to construct a gazebo and extensive landscaping as a recreation area for the development. "It was going to be the garden spot in Niles."

Library books...

Cont'd from Niles-E. Main P. 1
I would really like to see more trees and other landscaping material in that area," he said.

Eugene Filice, representing the Wood River Condominium Assn. said although plans for easements were agreed upon by both parties, he would like documentation of Kupfer's "promises" to upgrade the parking lot and other amenities. "I think Wood River homeowners will then totally support this project," he said.

The board told the attorney the case would go before the village board on May 26 and the two parties would have time to work out any problems before drawing up documents to present at the village meeting.

Board approval was predicated on upgrading the parking lot, putting in the dumpsters, extending a cedar fence on the north side of the river and providing easements for parking and ingress-egress driveways.

were scrutinized with a fine tooth comb, board trustees were still unable to accept Pestine's interpretation of assets.

According to Finance Committee chairperson, Charlene Wagner, "I still see the money is not there and (Pestine's calculations) are like playing a shell game with the budget."

The previously announced May 13 board meeting will be moved ahead to May 6 to invest the newly elected Board member, Robert Quatrocci, and re-elected incumbent, Walter Chmielowski. Election of board officers will also take place. Outgoing Board President Harry Pesine will be honored for his 9 years of service with a coffee reception. The public is invited to attend this function to witness the birth of a new board and honor President Pesine.

According to Trustee Wagner in a later discussion, the new board will function differently from past library boards. It is the hope of incumbent Board members that future issues will be given closer scrutiny prior to presentation at meetings. Board members will work more closely with better access to information, and each member will share more responsibilities for individual issues rather than "specialization" by one or a few members.

In other matters, it was announced the library budget is running on target to date. In the midst of the lengthy budget-related discussion, Administrator Duncan McKenzie announced, "no expenditures were made on the purchase of books over and above the budget to date." The sum of \$168,000 has been spent on books thus far this year.

The purchase of a Macintosh SE computer rather than the original authorization to purchase a Mac Plus for a savings of \$92 was passed.

There will be an increase of \$8 in expenditures for the 1987-88 fiscal year in the 1987-88 Computer Services budget totaling \$839. This includes on-line catalog access, the inventory control system, and catalog check-out.

McKenzie suggested the purchase of special tags for the purpose of inventory control from Capital Equipment. Inventory for a cost of \$725. This would be a one-time purchase to facilitate inventory of chairs, desks, shelves, and other equipment as required by the auditor. This motion was passed.

The Niles Public Library was asked to participate in a "Library Software Sharing" exhibition sponsored by the North Suburban Library System at Oakton Community College on May 19. Seven members of the library staff will demonstrate various software packages used in the library including Duncan McKenzie's award-winning "PathfinderMaker".

The Niles library will be the recipient of a collection of 100 books written in the Hindi language donated by the Hindi Society in conjunction with the Consular General of India.

As a last order of business, a Library Week proclamation issued by Harold Washington, Mayor of Chicago, was distributed singling out the Niles Public Library District for special recognition for its display of "letters from individuals in the public eye for their achievements in various fields."

"Special Songs" recognized for excellence

Lincoln Jr. High School's eighth grade publication, "Special Songs", was recently honored by the National Council of Teachers of English in their 1986 Program to Recognize Excellence in Student Literary Magazines. The competition, now in its fourth year, was open to all middle school, junior high, and high schools in the United States and Canada. The Lincoln Jr. entry was judged as "excellent" and was one of only two junior high schools in Illinois so honored.

"Special Songs", a compilation of student poetry and prose reflecting their innermost feelings and thoughts, represents an outgrowth of classwork in Mrs. Harriet Arons eighth grade language arts course. According to Arons, "Students at this age deeply feel each incident in their lives. They emotionally respond, usually on a secret private level, to both memories of times with family, friends, and the taunts of others and to needs to talk about new sensations, new realizations, and new perceptions of the adult world they are entering."

In English class, students write daily in personal journals. Arons adds, "They take this writing very seriously. In their journals they pour out their anger, their frustrations, their wonderment, and their dreams." Students of all abilities and dispositions worked diligently again and again to polish a private entry for the entire school to read.

"Their writings were so honest and so clearly communicated all their pain and hope", Arons noted, "that we decided to concentrate their feelings in a poetic form." The result, "Special Songs", an exciting literary booklet of poems, essays, and artistry revealing the essence of their age, features 59 written selections and 29 illustrations.

As Arons explained, "I was so excited about their capabilities and wanted the students to realize how really special they are." "Special Songs", she added, "provides a tangible expression of their own inspiration and is something they can keep forever."

Arons and Lincoln Jr. librarian Ardis Conix volunteered their time to be faculty advisors and editors for this project. Art teacher Judy Brice served as art advisor. Student editors for "Special Songs" were Yeon Soo Kim, Taku Kimura and Masha Yelimo.

Sutker announces grant to Niles artist

State Representative Calvin R. Sutker, D-Skokie, has been informed that a \$2,600 ethnic arts grant has been awarded by the Illinois Arts Council to Marie Stachiv of Niles.

Called an Ethnic Apprenticeship grant, the funds will enable Ms. Stachiv to instruct other young artists in her specialty, Ukrainian embroidery.

"I am pleased to see we are ensuring that traditional ethnic culture is being preserved and promoted through this arts program," Sutker said. Ethnic apprenticeships are just one of the artistic categories supported by the Illinois Arts Council at its quarterly meeting in Peoria in February.
