### Noise complaints increase with 'specials'

The new "moonlight specials" created by Eastern Airlines at bargain rates were blamed for the increase in O'Hare jet noise complaints to a whopping 36 percent. The news came from the Chicago Department of Aviation Noise Abatement Office raising

the ire of residents living near the airport and members of the Suburban O'Hare Commission (SOC). In a new strategy aimed at O'Hare Airport, the SOC membership of 17 towns, including Niles, has recently joined other anti-noise groups in the for-

mation of a political action committee (PAC). It will provide lobbying in Springfield and campaign contributions to politicians who are sympathetic with suburban needs to reduce noise and air pollution at the airport. According to one SOC member, Continued on Page 39

### Park moves to condemn property for new garage

Niles Park District Board at Tuesday's meeting adopted a non-referendum bond issue in the amount of \$300,000 that will pay for condemnation of property for a new maintenance building and general park improvements. According to Gabriel Berrafato, the park district will

levy a tax sufficient to pay principal and interest on the bonds at a rate of approximately .167 per \$100 of assessed valuation on property. "The board's goal was to retire the bonds without causing any problems to taxpayers," he said. Continued on Page 39

## Niles Parks get Ballard rent-free

by Sylvia Dalrymple

Niles Park Commissioners at Tuesday's meeting learned the Village of Niles will offer Ballard School rent-free to the park district after the sale is finalized with School District 63. Commissioner Dan Kosiba said he had been notified the village

would also pay for utilities and renovations in the building, as well as asbestos removal where needed. "The next step is to reach an agreement on occupying the former library area and the school's gymnasium," he said. Continued on Page 39

Niles officials have been seeking a way to re-hab the Lawrencewood Shopping Center for the past seven years. After the April 28 meeting at the village hall, the first clear picture of the future of the center may unfold.

In its simplest terms, the village is considering purchasing the center. It would likely be done by condemnation and could be purchased by bonds.

One possibility is the village would seek a developer to plan for the future use of the center. The village could occupy part of the center, centralizing the municipal buildings in the village. The remainder of the center could be sold to be used for commercial use.

The interesting concept of the project is the village has set up a special financial district (TIF district) which freezes the assessed valuation of the property at its 1985 base. It also is allowed to freeze the sales tax in that district at a 1985 base. The difference in sales tax between the 1985 base and the new revenues produced would be

### Attempts futile to save heart attack victim

A 53-year-old Niles man died from an apparent heart attack last Wednesday, April 15, despite efforts by former Chicago Police

Supt. Richard J. Brzezczek and his wife to aid the stricken man. Robert A. Smythe, 7657 Odell, Niles was driving just ahead of Brzezczek in the 7000 block of Devon ave. when his auto jumped a curb, ran over a sidewalk and struck a porch at 7010 Devon at 5:30 p.m.

The Brzezczeks stopped their car to help Smythe, who they found slumped behind the steering wheel. Continued on Page 38

### Library holds computer classes

The Niles Public Library will again be conducting classes for patrons interested in learning how to use the new computer catalog. The new computer card catalog replaces the "card and drawer system" many patrons grew up with.

The computer catalog provides a wealth of information to library users. It can tell what libraries, from a 23 library cluster, have a specific title; if the book is currently "on shelf"; if the book is checked out, when it should be returned. Patrons can access information by selecting title, author or subject headings. Individuals attending our previous sessions enjoyed the opportunity to learn and practice "search strategies" used in finding materials of personal interest. Hour long sessions will be

## Maine Beat

by Sylvia Dalrymple

**JUICY TAX PLUM...** Residential zoning for unincorporated areas of Cook County and some suburban municipalities has been traditional bait for developers who question such zoning under "highest and best use of the land" in their quest for commercial zoning. If the project involves a tax plum for governmental units, the developer usually gets the go-ahead signal.

In the latest zoning battle, residents of Niles, Morton Grove and unincorporated area of Glenview are gearing up to block another commercial enterprise sprouting up near their neighborhoods. The property located on Golf Rd., east of Washington St. is under consideration by Morton Grove officials via a pre-annexation agreement with the developer. If approved, the village will receive a juicy tax plum from the proposed 24-store shopping center.

Residents from the three villages are against the project for the usual reasons...increased traffic density of Golf Rd., possible flooding and safety problems for students attending a nearby school. No doubt, "experts" hired by the developer will shoot their verbal ammunition at Morton Grove officials regarding traffic studies, the commercial aspects of Golf Road and that the property lends itself to the highest and best use of the land.

In past zoning brouhahas, testimony from experts could be written into a sit-com for television. A special target is the traffic expert whose hype is not taken very seriously by battling homeowners. Some years back, an expert was giving the results of a traffic study made in January on a specific day on Golf Rd...when an astute homeowner pointed out that a blizzard had swept through the area on that day resulting in a minimum of traffic. It was a "boo-boo" that won a zoning victory for the homeowners.

The enticing tax plum can sometimes turn sour as the Village of Niles learned from experience in a pre-annexation agreement with developer Morris Suson, known as the mogul of the high-rises in the then unincorporated area of Maine Township, and prime builder of multi-family complexes in the midst of residential neighborhoods. The potential tax plum dangled by Suson in the early 1970's was going to be a shopping center (now Golf Glen) and mid-rise condo buildings at the rear of the shopping center.

Because of financial woes, Suson never completed the buildings under the grandiose plan and the village was soon faced with a deteriorating shopping center, lack of tenants and a revolving door syndrome of different owners for the center.

Through the efforts of village officials, the condo buildings which were left in the last stages of construction were completed by a new developer. Under new management, the shopping center received

### Niles Fire Dept. calls

The Niles Fire Department answered 20 fire calls and 39 ambulance calls between April 10 and April 17.

Firemen went to 7900 Milwaukee Ave. April 10 on a report of a gas odor. The cause was traced to a jeweler processing gold in his workshop combined with an odor from roofing repairs coming through the open rear doors.

Firefighters responded to the Golf Mill shopping center on April 12 where they extinguished a fire in a mail box near J.C. Penney's. Damage is undetermined.

On April 12, a fire alarm at MainStreet in the Golf Mill shopping center was activated when a

especially in the substance abuse prevention field. The Youth in Action Conference, now an annual event in its third year, is unique in that young people present their ideas and programs on community service to other youth. JoAnn Ball - youth keynote speaker, Senior at St. Ignatius College Prep in Chicago and Youth Coordinator of the Chicago Children of War Tour - told the audience of teenagers, "Young people can present powerful messages to their peers and when

young people speak out on an issue adults benefit as well."

Dr. Samuel Betances - keynote speaker, and professor of Sociology at Northeastern Illinois University inspired the youth participants with an insightful and humorous speech, motivating the teenagers to make a difference in their city, state, country and world. "Young people must empower themselves with skills and knowledge and cooperate with each other in making a better society."

## Plan now for women's fitness camp

For women only: no children, no husbands, no bosses—one week of freedom from cooking, deadlines and demands.

The Slender Bender camp on Echo Lake near Muskegon, Michigan, sponsored by the Pine-wood YMCA offers one week of exercise, walking on the beach and low-calorie meals for \$150 for Y members and \$165 non-members. The date is June 7-12.

The camp is rustic with dormitory style sleeping arrangements in electrically heated cabins. Campers meet at a large lodge warmed by a fireplace to eat calorie-restricted meals and look out on the lake.

Camp organizers say a typical day begins with an early morning hike and wake-up stretches, followed by breakfast, a slim-nastics class, aerobics, lunch, swimming, boating and canoeing, slim-living discussions on diet and nutrition, volleyball, dinner, hikes and an evening program and relaxing yoga before bed.

Not all campers participate in

the exercise activities, according to Tine Johnson, women's program and camp director. "There are some who come to paint or read or just relax. The painters bring their supplies and spend the day painting. Nothing is forced on anyone."

The women who attend Camp Pinewood range in age from 20 to 70, and include singles, married and divorced women, and widows; career women and homemakers. They come to relax and learn from each other by sharing experience. Though no formal counseling sessions are offered, camp organizers said women spend a lot of time talking.

Y spokesmen warn prospective campers that the facilities are far from chic, and can "most kindly be described as rustic." Yet camping is a way to recapture a piece of childhood—a piece that can't be found at a luxurious spa.

More information on the camping week is available at the Y camp office at (312) 546-8088.

For more information about the group, call Nancy Suhrbur at Parental Stress Services, 427-1161 or the Parental Stress 24-hour hotline, 463-0390.

Carol Zoha Hawk, private practitioner and adoptive parent, and Joanne Volk Zolom, with the Adoptive Information Center of Illinois and adoptive parent, are the presenters of the workshop. Pre-registration is required. Fees for the workshop are \$50 per couple, and \$25 for an individual.

To register, send your name, address, home and work phone, with payment, to Carol Zoha Hawk, Suite 422, 645 N. Michigan, Chicago, IL 60611 by May 8. Include the ages of adopted children, and the ages at which they were adopted. For further information, call 975-1720.

## Beauty care and color class

By popular demand, the Niles Park District is conducting yet another Beauty Care and Color seminar. Participants will be "color analyzed" and matched to an appropriate season. This 3-hour clinic will also teach proper skin care and make-up application. Learn the reason you have clothes in your closet you hardly ever wear. Make the most of your skin tone and facial structure by color coordinating your wardrobe. It will save time and money in the end!

The Niles Park District must keep the class limited to 6 participants and 3 of these spaces are already filled so call the Niles Park District office at 967-6633 to secure your spot! The clinic costs a resident only \$15 and there is no obligation when you put your name on the "interested list" so call today!

## ORT delegates district convention

Miriam Drory and Dena Myers, residents of Des Plaines, will represent the Washington Courte Chapter of Women's American ORT at the Eighth Biennial District Convention May 9 and 4 at the Hyatt Regency Woodfield.

"This is going to be a wonderful affair," explains Mrs. Clark who has been a Lutheran General Foundation board member since 1982. "People are still talking about last year's party and how they are anxiously awaiting for this year's event."

"The committee members are all dynamic, hard working women who are giving generously of their time and talents," Mrs. Clark added. "With their help, I know the event will be a success."

Funds raised through this benefit dinner dance will be used to support a day care program for handicapped children and to help automate Lutheran General Hospital's Medical Library.

Members of the Resurrection Hospital Auxiliary plan a "Rainbow of Fashions" spring luncheon and fashion show Saturday, May 2 at the Chateau Ritz, 9100 Milwaukee ave., Niles.

The afternoon will begin with an 11 a.m. cocktail reception to be followed by a noon luncheon and fashion extravaganza, according to Mrs. Ariene Gastel, luncheon chairwoman (Park Ridge).

Tickets are priced at \$22 each and are available by calling Mrs. Dorothy Spindler at 692-2304, or the volunteer office at 774-8000, ext. 6356.

Fashions to be featured will include something for everyone, according to Mrs. Gastel. "The show will include casual and recreational style, high fashion, special working women's clothing and the latest in spring and summer styles," she promised.

All proceeds from the Rainbow of Fashions will benefit the Auxiliary's \$1 million pledge to expand outpatient surgical services at Resurrection Hospital.

### Constitution quizzes available at Maine Hall

The Maine Township Bicentennial Constitutional Commission is sponsoring a Constitution Contest for township youngsters attending public and private schools.

Most students will be able to obtain copies of the quiz at their local schools. However, youngsters who reside in Maine Township but attend parochial or private schools outside the township can pick up copies of the quiz at the Maine Township Town Hall, 1700 Ballard rd., Park Ridge, from 9 a.m. to 5 p.m. weekdays and 9 a.m. to noon Saturdays. For information call 297-2510.

The deadline for entries is May 15, and winners will be announced by Sept. 11.

Three separate quizzes have been drafted by a committee co-chaired by Eric Edstrom, Maine West High School social science chairman, and David Renz, Maine East social science chairman. The quizzes are directed at three levels of students - high school, junior high school, and elementary grades 5 and 6.

The contest is designed to involve young people in an examination of the United States Constitution. Finalists in each category will become part of a drawing to name first, second and third place prize winners in each age group. First place winners each will receive \$500 U.S. Savings Bond. In addition, winners in all three categories will receive plaques and Bicentennial Medals. Certificates of achievement will be awarded to all those who correctly answered the questions in each category.

The Constitution Contest is one of a number of activities planned by the Maine Township Bicentennial Commission in honor of the 200th anniversary of the signing of the U.S. Constitution. Other events include a four-day Freedom Fest on Labor Day Weekend and a gala Bicentennial Ball Sept. 11.

All donations go to the Catholic Youth Organization to be distributed toward youth activities, teen clubs, baseball (girls and boys), physical fitness, track and many more activities including a drug abuse program. The C.Y.O. program has been successful in helping many juvenile delinquent children with volunteer workers and social workers. We are depending on you. Give not until it hurts but until it feels good. Remember the only wealth which you will keep forever is the wealth which you give away. Fund drive ends on Friday, May 15. Please make all returns before that date.

## I Bet You Didn't Know

By Jim Jennings

Ever wonder why the Kentucky Derby is called a "Derby"? In 1780 a British sportsman, the Earl of Derby, founded a famous horse race in Epsom, England which was named in his honor and called Derby's Race at Epsom or the Epsom Derby. When officials in Kentucky began their race in 1775, they borrowed the English name and called it "The Kentucky Derby".

One of the strangest predictions ever made in sports was by baseball manager Alvin Dark in 1964 when he said that man would walk on the moon before pitcher Gaylord Perry would hit a home run in the majors. Incredibly, on July 20, 1968, just 24 minutes after Neal Armstrong became the first man ever to walk on the moon, Perry hit his first major league homer in a game at San Francisco.

How many golfers have been able to win both the Masters and the U.S. Open in the same year. Surprisingly, only 4 golfers in history have ever done it—Craig Wood in 1941, Ben Hogan in 1951 and 1953, Arnold Palmer in 1960, and Jack Nicklaus in 1972.

If you mention this ad after your deal is consummated (but before delivery) Jennings Chevrolet will deduct \$50 from the purchase price of your new or used car. One deduction per customer. One deduction per transaction.

### Oakton Raiders beat Truman; split double-header

It was good news and bad news for the Oakton Community College Baseball team last weekend. The good news is that the Raiders won a double-header against the strongest team in the conference, Truman College, with a score of 6-0 and 7-2. The bad news is that the Raiders no longer hold a perfect record after splitting a twinbill with Northern Illinois University. The season record for the Raiders now stands at 13-2.

Oakton's George Hickey (Antioch) was the star of the first game against Truman. This winning pitcher, who had a no-hitter through one sixth inning, gave up his only hit in the last inning. "This is one of the best games George has had this seasons," said Oakton Coach Rich Symonds. "Under the conditions of cold and heavy wind, I felt that our execution was very impressive," said Symonds. "They played excellent defensively, when needed, and executed the suicide-squeeze attempt very well."

### Niles Pee Wees hockey

The Niles Rangers continued their march towards the championship game with a convincing 8-3 victory over Glenview #2. The game started out with no scoring by both sides, but many chances by Niles were stopped. Finally the Rangers put the puck in the net on a goal by Bill Rourke with an assist going to Tim Spillman. Shortly after this goal, Jim Murray lit up the goal on an unassisted goal to make the score 2-0. Tim Spillman ended the period with a goal, assisted by Jim Fitzgerald and Tim Migon.

The second period was all Niles as the defense took over and completely dominated Glenview. The score increased with an unassisted goal by Alex Zechow. Steve Bosco upped the score to 5-0 with an assist going to Gary Falk. Alex Zechow quickly scored

again, with Andy Chlopek getting an assist. The Rangers showed balance as all players helped in keeping Glenview off the scoreboard. The period ended with the score 6-1.

The third opened with Glenview getting a quick goal to cut the lead to 6-2. Tim Migon scored a goal, assisted by Bill Rourke to put the Rangers back up to a 5 goal lead. All the Niles players began checking and covering the Glenview players as many scoring chances were stopped by the Ranger. Alex Zechow got his "hat trick" in the third period to make the final score 8-3.

Sunday night the Rangers will play for the championship against Glenview #4. This should be a very good game as both teams have not lost in the playoffs.

### Discount pool tokens on sale May 1

Niles Park District 1987 pool tokens are officially on sale as of May 1 and if you purchase them before May 16, you pay last year's early prices! A resident family of four can swim the entire summer for as little as \$55! But hurry, because token prices go up as of May 16 and there is another increase as of June 14. Due to the rising costs of maintaining clean, safe swimming

pools, pool token prices must be increased this year, however the Niles Park District is giving residents a chance to purchase the tokens for last year's early prices.

Even though Niles Park District pools don't open until Sat., June 13, tokens can be purchased as of May 1 at the Rec. Center office, 7877 Milwaukee Ave. Mon.-Fri. 9 a.m. to 5 p.m.

### CEL team in Special Olympics

The Center for Enriched Living is "going for the gold." On May 9, members on the CEL team will compete in the Special Olympics during the day, and at night a fund-raising auction will be held to raise \$100,000 for the center for mentally disabled young adults.

The members are practicing for the Olympic events for weeks in advance. Practices are from 7:30 to 9:30 p.m. on Wednesday nights and from 1:45 to 3:15 p.m. on Sunday afternoons at the Center.

The directors and volunteers are hard at work on the fund-raising auction which will start at

6 p.m. on Sat., May 9 at the Hyatt Regency O'Hare, 9300 W. Bryn Mawr, Rosemont.

The first auction in 1986 raised \$50,000 with a sell-out crowd, so this year the committee doubled the goal and sought bigger space for the wildly successful event. The Board, only three years old, has doubled its fund-raising results each year.

The evening includes the silent auction and a sit-down dinner before the live auction. Tickets are \$50 per person. For information about tickets, call the center, 433-6001.

### Interesting Facts From John Jennings

Although it's no surprise that Texas has more counties than any other state, it is surprising that Georgia (which is only the 21st biggest state) has the second-most counties. Georgia has 159 counties.

The first U.S. President to wear long pants was the 4th President, James Madison. The 3 previous Presidents—George Washington, John Adams and Thomas Jefferson—wore breeches or knickerbockers.

Which city—once the 3rd biggest city in the U.S.—voluntarily gave up being a separate city and became just a part of another city? Answer is Brooklyn, N.Y., which ceased to be a separate city in 1898 and became merely a borough of New York City.

Oddly enough, although "g" is the most used letter in the English language, more words begin with "s" than any other letter.

And, here's another interesting fact...

## Peer Counselors meet with P.R.I.D.E.

Thanks to a generous grant from the Forest Hospital Foundation in Des Plaines, 14 Loyola junior trainees in the Peer Counseling and Leadership Program attended the PRIDE (National Parents Institute for Drug Education) International Conference on Drugs in Atlanta, Georgia, March 18-22. The conference workshops were divided into high school, college and adult sessions. Adults workshops discussed Schools without Drugs, Community Action, Prevention Planning, Parents are the Answer and Drug Impact on Learning.

Student workshops covered such topics as Positive Peer Pressure, Drug Use and Treatment Update, What Happens when you say yes to Drugs, Drugs, Alcohol and Athletics, Alternative Activities, and Harmless! Are You Riding? Youth Leadership and Training certificates were given to those students who completed the required 8 hours of training in drug prevention programs.

First Lady Nancy Reagan, Attorney General Edwin Meese III, Governor Joe Frank Harris of Georgia and rock performer, Larry Gatlin headed the long list of conference speakers.

Loyola students' reaction to the convention was positive: "A weekend full of learning and clean fun is a weekend with P.R.I.D.E."

"If all the kids today got to experience this convention, I think many of them would choose not to drink or use drugs. One can't just avoid using drugs, they must

fight to make our world drug free. The experience of working with peers from around the world on one common subject and with such enthusiasm is exhilarating, enlightening and motivating. Drug free - the way to be!"

## Martha Washington appoints Head Nurse

Keith Lynne Heikes, R.N., has been appointed Head Nurse of the medical-surgical unit on the 3-11 shift at Martha Washington Hospital.

Keith Lynne Heikes

Heikes has a bachelor's degree in the science of nursing from Marycrest College, Davenport, Iowa, and an associate degree in nursing from Blackhawk College, Moline, IL. His experience includes medical/surgical nursing, critical care nursing and inservice education at the University of Iowa Hospitals and Clinics. He has also been a member of the adjunct faculty at Kirkwood Community College, Cedar Rapids, Iowa.

"I came to Martha Washington Hospital because I wished to apply my clinical experience in a community hospital environment," says Heikes. ## New procedure for pediatric cardiac patients

Lutheran General Hospital, Park Ridge, now offers Balloon Valvuloplasty, a new, non-surgical procedure for pediatric cardiac patients whose heart valves are obstructed. Lutheran General is the only hospital in the northwest suburban area and one of four hospitals in metropolitan Chicago to offer this procedure for pediatric patients.

Before this method was developed, treatment for congenitally obstructed heart valves involved major, open heart surgery and an extensive hospital stay. Balloon Valvuloplasty is less expensive than surgery and requires less than two days of hospitalization. "The procedure also is not as traumatic for patients than open heart surgery. Balloon Valvuloplasty requires only two small punctures in the upper thigh area where a balloon and other catheters are inserted,"

comments Peter Sott, M.D., associate director, Pediatric Cardiology. "The balloon catheter dilates obstructed valves, allowing for better and increased circulation."

Potential candidates for Balloon Valvuloplasty include pediatric patients who have a heart valve deformity or obstruction. This includes infants and children with a valve deformity that currently may not cause significant problems, but will eventually result in long-term complications in their early, adult life," adds Dr. Sott. Balloon Valvuloplasty is performed in Lutheran General Hospital's Pediatric Cardiac Catheterization Laboratory, one of the newest and most advanced in the Chicago area. More than 1,000 cardiac catheterization procedures for children and adults are performed each year at Lutheran General.

## Facelift for Lincolnwood Newsletter

The 20-year-old Lincolnwood Newsletter has a new face, the result of a cooperative effort between the city, three students and a professor at Oakton Community College. According to Tim Freitag, mayor's assistant, this move will benefit both the community and the students.

"This is an opportunity for Oakton's journalism students to get some hands-on experience working on a professional publication," said Freitag. "The new format also allows us to stay close to the Village residents and inform them about various community events and highlight special people."

After consultation with Dr. Beverly Friend (Lincolnwood), professor of English/Journalism at Oakton and advisor to the student newspaper "Occurrence," Mayor Frank Chulay decided that the quarterly Journal needed a new design and fresh writers. Three editors of "Occurrence" soon began working on the project: Paulette Wittenberg (Skokie), editor-in-chief; Doris Folki (Wilmette), copy editor; and Jim Calloway (Evanston), staff reporter.

Even though Wittenberg and Folki are used to writing for the

school newspaper, they agreed that writing for the Newsletter was a new experience.

"I am delighted to be associated with such a professional publication and hope this will be a stepping stone to a career in freelance writing," said Wittenberg. "Personally, this gave me some insight into the workings of a Village government which I did not have before even though I have lived in the area all my life.

Folki, who already has a degree in English, sees this as an opportunity to use her skills which she says haven't seen much action in a long time.

"I only started at Oakton last January, so this was the best thing that could have happened to me to update my writing skills," commented Folki. "When I look for a job, I have something now that I can show them. It also makes me feel very good to be able to write and get paid for it."

Calloway stated in the article in "Occurrence" that "writing stories was a valuable experience. I learned about Lincolnwood history and I talked with area residents who shared a part of their lives with me."

The editors of the Oakton Community College student newspaper, OCCurrence, and an Oakton professor gave a facelift to the 20-year-old Lincolnwood newsletter. Shown above are Paulette Wittenberg of Skokie (l) holding the old newsletter, Beverly Friend of Lincolnwood showing off the new newsletter and Doris Folki of Wilmette.

Freitag noted that the restyled newsletter has brought nothing but praise from the community residents. With compliments in

their pockets and with added confidence, the students have already started working on the summer newsletter.

## Maine East Thinkathon set for May 1st

In an unprecedented undertaking, the Class Councils and Mothers' Club of Maine East High School will pool their fund raising efforts in the upcoming Thinkathon. On a voluntary basis, all Maine East students will have the opportunity to participate.

The Thinkathon will feature sixty general knowledge questions which are suitable for all levels of the East enrollment. Students will seek monetary pledges for the number of questions they answer correctly on the "test" which will be given May 1. Students also may solicit flat donations. Money raised by the pledges will benefit the Mothers' Club Scholarship Fund

which provides money to graduating seniors in need of funds for their educations after high school. It will also go into class treasuries to help finance class activities.

Maine East Principal Carol Grenier was very enthusiastic about the Thinkathon. "This is a wonderful project," she said. "It's the first all school effort of this nature, and teachers and students are really enthused about it. The Thinkathon will give our kids the opportunity not only to raise money for their activities, but also to learn the joy of service and giving in helping their less fortunate friends who need help to continue their educations."

Fifty different classes are available in the areas of Advertising and Graphic Design, Computer Graphics, Fashion Design, Fashion Illustration, Fashion Merchandising and Management, Illustration, Interior Design, and Photography. Most courses involve instructional lectures blended with hands-on studio projects. Portfolio classes also are available for students who wish special assistance with portfolio projects or who wish to improve specific skills with in-

dividual instruction. High school students and June high school graduates also have the opportunity to take college-level freshman courses in art, design, fashion, or photography. All summer school classes run for nine weeks, starting the week of June 22.

Ray College of Design offers a Bachelor of Arts degree in all its major programs, as well as two-year Associate in Applied Science degrees.

## Summer registration open at Oakton

Registration for the Oakton Community College summer credit courses is in progress now at Oakton's campuses in Des Plaines and Skokie. Classes will begin Mon., June 8.

Students may register by using the touch-tone registration system or in person. According to John Gagin, director of Registration and Records, the touch-tone system is most convenient to students who are away at school.

"They can call from their dorms and register," noted Gagin. "They must have an Oakton Report which has the information and instruction to register by telephone. Parents can call our admissions office to request the schedule be sent to their children who are away at school."

The system, open more than 60

hours a week, is available to new, readmitted, continuing and transfer students. Students who have attended Oakton last summer or fall need not re-apply.

Students, registering through the touch-tone registration line, can revise their class schedule, hear the list of classes they are enrolled in and find out about tuition cost and the payment due date.

The registration hours are 8:30 a.m. to 8 p.m. Mondays through Thursdays; 8:30 a.m. to 5 p.m. Fridays; and 8:30 a.m. to noon Saturdays. In-person registration will be accepted in the Student Services Center at Des Plaines and Skokie.

To request an Oakton Report, call 635-1700. For registration assistance, call 635-1741 (Des Plaines), or 635-1417 (Skokie).

After winning first place in the Area Contest and second place in the Regional Contest, Nancy competed against thirty other contestants at Pontiac. It took 5 1/2 hours to eliminate the other thirty participants. When it finally got down to the last three contestants, the judges finally gave up on using the final list of words sent to the participants, as they couldn't stump them. ## State rep seeks welfare reform

Dear Editor:  
As a state representative, I often hear my constituents complain about the welfare system in Illinois. Our taxpayers say this is an expensive system which does not work and has too much waste, and welfare recipients say they can't get by on the benefits they receive. Both express a genuine concern about a system that clearly needs reform.

This year I have introduced legislation I believe can provide that reform. The "LEARNFARE" bill, House Bill 193, requires public aid recipients to have a high school diploma, its equivalent, or be working toward one. Those 18 and over who don't meet the requirement would be prohibited from receiving welfare unless they could show proof of a physical or mental handicap preventing them from meeting the regulation. Those who live in areas that don't offer adult education opportunities would also be exempt.

I firmly believe that the best way to reform the welfare system is to educate welfare recipients. People who aren't educated can't get jobs. Without jobs, they stay on welfare rolls. The cycle goes

### Comm Ed reiterates details of rate freeze plan

As the Illinois Commerce Commission ponders Commonwealth Edison's unprecedented rate freeze alternative, the time seems right to re-examine a few significant developments that didn't receive as much notice as some other aspects of the plan. First, if the plan goes into effect July 1, as proposed, residential electricity costs will actually decrease. So, too, will the monthly customer charge. And finally, the Reagan Administration's approval of the supercollider station smasher program has placed even greater importance on northern Illinois' need for a modern reliable electric generating system.

Under the Edison proposal, small consumers of electricity, particularly those who do not use air conditioning and use less than 400 kilowatt-hours per month, would see the artificially higher summer rate disappear completely. Most other residential

customers would see electricity costs decrease this summer.

Between May 15 and June 15, the higher summer rate will be phased in for all residential customers, as it has been in the past. Thus, all residential customers will be on the high summer rate by July 1 when the new rate freeze alternative is proposed to be effective.

Most residential customers would then begin seeing a decrease on their next summer bill, including a lower customer charge. Customers who use no more than 400 kwh in a month will experience a decrease of about 20 percent including the fuel savings of two new nuclear generating units to be passed on to customers through the fuel adjustment clause. Customers using more than 400 kwh per month but less than 900 kwh per month will experience smaller decreases than 20 percent. Only customers using more than 900

kwh per month will experience a higher summer bill.

The residential rate restructuring is intended to be "revenue neutral" to Edison compared to a uniform 13 percent rate increase. Non-summer charges would be increased to make the seasonal differential more balanced. However, the plan would provide instant relief to residential customers long unhappy with artificially high summer rates.

A little known, but vital part of Edison's proposed rate freeze settlement agreement is a significant decrease in the monthly customer charge. Currently the charge for one and two unit dwellings is \$11.24. When the rate plan goes into effect this charge will be reduced by 13 percent, to \$9.10 and again in January 1989 to \$8.86. The current charge for customers in multi-unit dwellings, that is, three or more units, is currently \$6.65, and would decrease by 38 percent, to \$3.50, with the implementation of the rate plan and decrease again to \$3.45 in January 1989. The monthly customer charge covers the cost of meter reading, billing, installing and maintaining a meter and conductors connecting the

customer to the nearest distribution facility.

The Reagan administration's announced go-ahead for the supercollider raises the question of where this mammoth project will be sited. The collider is expected to cost \$6 billion and create, 2,500 new jobs on-site. A site adjacent to Fermilab, near Batavia, is considered a frontrunner for several reasons. In addition to the presence of Fermilab itself, the site's proximity to Argonne National Laboratory, the high-tech corridor along the East-West Tollway, and some of the finest universities in the country enhance its appeal. Another prime consideration of government planners will be an abundant supply of reliable electricity. The supercollider could become one of Edison's largest customers with a power demand the equivalent of a city of 60,000-95,000. With three new generating units coming on line, Edison would be able to meet the demands of the supercollider and still have enough energy to support additional growth. Other parts of the country which are competing for the project cannot make this claim. Advantage, Illinois.

### Top salesman at ERA Callero & Catino

Basil (Bill) Paoulos was recognized as the top salesman for the month of March at ERA Callero & Catino Realty. He accomplished this during a very busy month in the real estate business, complicated by an acute shortage of homes for sale.

Basil is a graduate of the Illinois Realtors institute and holds the designation of Certified Residential Specialist from the National Association of Realtors. He has received numerous Million Dollar sales awards from both the Northwest Chicago and Suburban Real Estate Boards. He has been actively engaged in the real estate business for 20 years, 17 of which have been with ERA Callero & Catino. In addition to residential sales activity, Basil manages two shopping centers, has a wide variety of real estate knowledge, and speaks fluent Greek and Romanian.

ERA Callero & Catino has set new home sales records in both 1985 and 1986, and for the first three months in 1987 are well on their way to a new record. ## Maine Township honors past officials

Ten former Maine Township officials, including three past supervisors, will be honored at the Maine Township Annual Town Meeting Tuesday, April 28. The Town Meeting will be held at 7:30 p.m. in the Maine Township Town Hall, 1700 Ballard Road, Park Ridge. It will be preceded at 7 p.m. by a public hearing on the 1987-88 Budget and Appropriation Ordinance.

Past officials to be recognized for their contributions to Maine Township include Supervisors William C. "Bud" Ziehn, Milton H. Tuttle, and James J. Dowd; Clerk Philip Baffa; Highway Commissioner Ed Koehler; Assessor Roy Bergquist; Trustees Kay Korff, Margaret Wirsan and Harvey Frindt; and Collector Art Lyons.

Maine Township Supervisor Paul K. Halverson said, "Maine Township owes a great debt to these dedicated public servants who contributed so much time and effort to township government and the community at large. We are very pleased to have an opportunity to publicly express our gratitude to them."

The Annual Town Meeting provides an open forum for all registered voters in Maine Township to help set public policy by voting on resolutions affecting township services and voicing their opinions on township issues. Among topics to be considered at the Annual Town Meeting will be a proposed revision of the Road and Bridge Fund levy procedure. Township services and programs also will be reviewed at the meeting, and local social service agencies will report on their services to Maine Township residents.

used for improvements, and the paying off of the project. Up to 4% of the state sales tax plus 1% of the village's sales tax could be used for this project.

For many years Niles officials have considered such an effort. Many times we'd sit in former village manager Ken Scheel's office and listen to him tell us about how great Lawrencewood would be for Niles municipal buildings. Putting them in one central location was the dream he shared with Niles' officials. By the end of this month what seemed like a fantasy may become a reality.

Tuesday, I prepared to drive to work but was slowed down by a tire which was deflated. I headed for the nearest gas station and sought the air pump. I was shocked, flabbergasted, dismayed and depressed by the meter on the pump which

required a 25¢ piece be deposited before it was activated. Can you imagine having to pay for air?

I told my number one son about the cost of air at the gas station and he told me about some of the new charges I'm not aware of. He said in a hotel in Florida he was charged a dollar a day for the telephone in his room, whether he used it or not. When he complained, he asked the motel people how much they charged for the toilet and the bath tub. He said at another motel in Des Moines, the Holiday Inn charged 75¢ for phone calls even though they were 800 number calls.

This year, 1987, we're celebrating the 200th anniversary of the U.S. constitution. Somewhere in the document, or in the attendant Bill of Rights, it denotes our inalienable rights. It seems to me free air should be one of them.

## Social Security services improved

A continuing objective for Social Security is to better serve the public. Listed below are some improvements the agency has made in recent years according to Thomas A. Curin, District Manager in Des Plaines.

- The average processing time for retirement claims has been reduced. Most retirees get a check within 2 weeks after applying.

- A person applying for a Social Security number can be issued one in about 11 days, as opposed to 6 weeks a few years ago.
- A mid-year reminder to beneficiaries on reporting work activity is saving \$200 million a year in overpayments and reducing post-entitlement workloads.

- Modernization of computer systems is speeding up processing of changes in beneficiary actions (such as change of address).

- The new continuing disability review process insures fair and compassionate treatment of disabled persons. Cases are more carefully and completely documented, and decisions are more accurate and uniform nationwide.

- Major improvements have been made in the quality, design, and readability of notices to the

The homeowner quickly called for an ambulance, while Brzeczek's wife, Elizabeth, a former registered nurse, gave Smythe mouth-to-mouth resuscitation. Brzeczek massaged Smythe's heart until paramedics arrived. He was taken to Resurrection Hospital where he was pronounced dead. ## Maine Township senior service providers benefit

On Saturday, March 7, a group of volunteers representing four organizations that serve senior citizens in Maine Township, visited over 100 elderly residents in Park Ridge and Des Plaines.

They asked for advertisements for the printed program which will be handed out at a very special event coming to the Maine South High School auditorium on May 16.

The Bryant Players, a group of primarily Maine Township residents, directed by Betty Bryant, will perform two benefit musical reviews for senior service agencies in Maine Township.

There will be a 2 p.m. matinee and 8 p.m. performances on Saturday, May 16. The proceeds from this all volunteer effort will be totally provided to five agencies who serve Maine Township seniors: The Center of Concern, Park Ridge Senior Center and PRC-Paratransit Service in Park Ridge, Des Plaines Community Senior Center and Parkside Older

Adults Services in Des Plaines. All proceeds from the ad book sales and ticket sales will go directly to these agencies.

The Bryant Players have performed for groups of seniors and the disabled. Producer Ken Young stated, "We want to do something for seniors in Maine Township during May, which is Older Americans Month and on the last day of National Nursing Homes Week."

The Suburban Cook County Area Agency on Aging is coordinating this local effort. The Area Agency plans, coordinates, funds and advocates for services for older persons in suburban Cook with funds provided through the federal Older Americans Act and the Illinois Department on Aging General Revenue Funds.

Anyone interested in advertising or purchasing tickets for this event please contact Gary Gruebnau, Suburban Cook County Area Agency on Aging, 559-0616.

Music Mart, scheduled for October, and also benefitting ALS.

"We're delighted to be sponsoring the race for the fourth successive year," said Skokie Federal President James W. Peters. "The relay aspect, which cuts the standard 10K distance in half, helps ensure this remains a real family event. We're pleased it's popularity keeps on growing and that we are able to donate more funds towards ALS research."

In addition to its main office, Skokie Federal has branches in Barrington, Chicago, Glenocoe, Kenilworth and Woodstock.

Illinois Industries Coalition, and a board member of the North Shore Ecology Center. Brabec also advises the Northeastern Illinois Planning Commission.

Under Brabec's leadership, the Niles Township Reclamation Center has grown from a facility of eight waste barrels to a center that includes specialized equipment for storing and transporting recyclable materials, as well as a complete environmental resource library and community speakers bureau. The center provides a unique learning experience for the Niles Township High School students who choose to work there, according to Brabec. "This operation is not only a symbol of environmental concern, but also a living laboratory teaching many skills," he states.

In his new role on the Governor's Advisory Board, Brabec will promote the Keep America Beautiful program and help to implement it in Illinois communities.

become precious records of days gone by. Now Lincolnwood residents can be keepers of history.

The Historical Collection was begun during the village's Diamond Jubilee celebration with the support of the Illinois Humanities Council and the National Endowment for the Humanities.

Presently in the collection are high school year books from Niles West for the years 1965 to 1983. Also included and catalogued are family photographs showing locations that no longer exist, such as the greenhouses which once flourished in the area.

There are photos of village officials standing on giant pipes for the installation of Lincolnwood's first sewerage system, pictures of Veterans Day ceremonies and kids baseball games. There are programs from prom nights and local social events. Especially interesting is a Boy Scout scrapbook that captures the times, the styles and the attitudes of the '50's.

"The collection is devoted to printed and written times and photographs, not the kind of things which might be found in a museum," Whitney explained.

"We are asking people to check with the Library to see if what they have is appropriate for the collection. What one person may think is not worth saving is worth preserving when seen from another perspective," she concluded.

a facility that subsequently attracted a theater complex and the revenue producing Builder's Square, the center's anchor store.

**MAINELINERS...** Al Lerner from WGN-radio was a surprise visitor at the newly-opened mini-golf course at Jazwiak Park last Saturday to play the nine-hole course with his small son. According to parks director, Bill Hughes, Lerner was visiting relatives in Skokie and decided to treat his son to a mini-golf session. Other visitors included park commissioners Dan Kosiba, Elaine Heinen and some staff.

Kosiba added three tenants are presently renting space at Ballard and their leases are being studied by village officials. "More space could be available to the park district in the future," he said. "I think this is a tremendous project."

Commissioner Mary Marusek pointed out changes would have to be made in the new budget to meet the needs at Ballard and suggested both board and staff input on park programs at Ballard. "We have to consider what we can afford to spend," she said.

Parks director Bill Hughes noted the board would also have to look into needed personnel to supervise the programs. Tentative plans call for administrative offices, after school programs, senior programs and gym activities. "The best way is to plan the budget around the library area and the gym at this time."

The board agreed with Hughes' suggestion to determine what the park district would be responsible for in taking over the building, in the area of maintenance costs, telephone bills and custodial care. "I think we are only responsible for the space we occupy, but these items can be resolved with the village," Hughes said.

In other board business, Elaine Heinen and Walter Beusse were

sworn in as park commissioners for another four-year term after winning the April 7 board election. In a report, Heinen received 1,725 votes and Beusse, 1,208. A third candidate Richard Plonka, received 578 votes.

In other board actions and reports, Pierski announced the Niles Baseball Leagues opening day will be May 9.

Budget meetings have been set for April 28-29.

Beusse reported the mini-golf course opening at Jozwiak Park on April 18 was well attended and netted \$549 income over the Easter weekend.

Discounts on swimming pool passes will be available beginning May 1. Rates for a family of four will be \$55. After June 16, the rates will go up.

Tam golf course is having a flooding problem in the 7th hole area. A committee meeting will be held to discuss ways to alleviate the problem.

Heinen reported the recent ice show "Ice Alive" was a sell-out during the four-day event because of the professionalism of the performers and beautiful costumes.

The park district's summer brochures are scheduled to be delivered to residents' homes the second week in May.

A photography class for park employees will be held April 29 at the Sports Complex.

with an American flavor served up by local restaurateurs at nominal prices.

Food for thought will add another dimension to the Fest. Visitors will have an opportunity to add their signatures to copies of the Constitution and view a special Constitutional exhibit.

American buffs will enjoy "American Potpourri" - an arts and crafts fair bringing together the best area artisans to display their works.

This is intended to provide an accessible, affordable way for the entire community to participate in a celebration of the freedoms and American values protected by the Constitution, according to Mike Albrecht and Sue Neuschel, co-chairmen of the Freedom Fest (pictured).

A car fire at 8703 Normal had already been extinguished when the firemen arrived. A garden hose was used by the owner to put out a small blaze in the front passenger area of the vehicle. Damage was estimated at \$30.

On April 15, firefighters went to the Niles library where they found the alarm system had malfunctioned for no apparent reason. The alarm company was notified after a check was made for any fire hazard in the building.
