## New Niles park garage to be housed at Tam

Niles Park District officials have revealed that the long-awaited new maintenance facility will be housed in an existing building south of Tam golf course, with full operations expected by July 1.

According to Bill Hughes, parks director, the location of the site was kept under wraps because of condemnation proceedings against the property and determining a fair market value.

The park district filed a condemnation suit against Jus-Rite Machine Works, 7530 Oak Park Ave. last December in the Cook County Circuit Court. The building is part of an industrial

## Krilich: 'We have plans to redevelop Lawrencewood'

by Sylvia Dalrymple

Niles plans to take over part of the Lawrencewood shopping center under proposed amendments to TIF (tax increment financing district) may result in a lawsuit by property owner Robert Krilich.

Such litigation would delay improvements to the shopping center, according to Robert Krilich,

Jr., marketing director for the shopping center and son of Lawrencewood owner. "We have already made plans to redevelop the total shopping area," he said.

He noted he has received letters of intent from current tenants at Lawrencewood to renew their leases. They include McClean's Car Wash and Uptown

Federal Savings and Loan, whose lease will expire June 31, 1988.

## Judge denies reversal in water rate suit

Circuit Judge Albert Green refused last Friday, May 1 to reverse his decision dismissing a suburban water rate suit, leaving the door open for a possible appeal in a higher court.

According to Marvin Glink, representing the suburbs, he had filed a post-trial motion requesting the court to reconsider its ruling because of evidence presented at the trial.

"It was not unexpected (Friday's decision), but post-trial motion is the first process in filing an appeal," Glink explained. He will contact suburban officials who will review the matter and decide

whether the case will go to the Appellate Court.

Mayor Nicholas Blase, who spearheaded the suit, said the decision held no surprises. "He's

### Maine Beat

by Sylvia Dalrymple  
**CAUCUS MEMORIES...** East Maine General Caucus recently announced it is seeking qualified candidates for School District 63 and High School District 207, with meetings expected to be SOP in line with other area caucuses. History records that EMGC once had its share of excitement and controversy in the late 1960's and into the 70's, where knock-down-drag-out fights were part of the election game. In discussing the trials and tribulations of the caucus, a former District 63 school board member recalled during that era, candidates came out in force to vie for vacancies on the board. The board hopefuls, including incumbents, often ran as a "team" to win at the polls, and some would go to the extent of dropping a teammate to achieve the end results. One of the victims related that during one board election, incumbents took him to a remote dining spot in "No Man's Land" and between the cocktails and food...tried to persuade him to drop out of the race because he had no chance of winning in a hotly contested election. He did lose at the polls, but gained some insight on political strategy. In its fledgling years, EMGC appeared to have some kind of hangup in selecting board candidates, a simple voting procedure that posed no problems for other caucuses. An outstanding memory was one endorsement session that turned out to be a comedy of errors in the 1975 District 63 board elections. The cause of disension was the interpretation of the bylaws, when only one, instead of two candidates won caucus endorsement. A lively debate followed and at one point, the meeting was suspended in limbo, while a delegate went home for a copy of Roberts Rules of Order to determine the number of delegate votes needed to overrule the "one candidate" decision made by the caucus chairman. He lost the battle when the "Roberts" arrived and was subsequently overruled by the majority of candidates. Meanwhile, back at the ranch, all the candidates were cooling

### Nilesites' pharmacy license revoked

The pharmacy assistant license of Jerome Ehrenreich of Niles, was revoked after he was convicted in U.S. District Court of mail fraud and unlawful distribution of controlled substances. The action was taken by the Illinois Department of Registration and Education during the month of March. Ehrenreich's wife, Geraldine, was sentenced to 30 months probation after she was charged with embezzling approximately \$42,000 from C. Swenson and Co. in Niles over a six-year period. An employee at the store (a retail paint and wallpaper store), was indicted for theft and forgery by the Cook County State's Attorney's office on Oct. 1, 1986.

### Niles couple 'having the time of their lives'

### Nilesites join growing crowd of movie 'extras'

by Sylvia Dalrymple  
Retirement years have not slowed down a Niles couple who are enjoying a second career as "movie extras" and are kept busy appearing in various film productions and television series. Evelyn and Arnold "Bud" Felcher, who live in a highrise building on Golf rd. near Western ave. said they joined the growing crowd of 'extras' to experience the thrill of being in major movie productions and television series filmed in the Chicagoland area. Bud's career as an 'extra', which started a year ago, won him a "Sparky Award" for telling the best tale about his trade during an 'extras' convention. The statuette resembles a styled Oscar, except his featureless face sits upon a spindly, body punctured by two large, oblong holes. The 1987 Sparks Award ceremony was held recently in the Marriott Hotel in Chicago. "I was happy to receive the award. I had to make an acceptance speech just like the Academy Award winners in Hollywood," said Bud, laughing. He added Morton Downey, Jr., a talk show host for WMAQ radio, presented the awards. To compete for the award, he wrote a two-page essay concerning his most memorable and humorous experience as an extra. It occurred during a "Jack and Mike" television series, in which he appeared in a severely undersized bathing suit that made his belly stick out. "I also wore a rubber cap and diving goggles as a member of the Polar Bear Club in the scene. It was pretty funny," he said. The couple first got involved in the business when they heard a radio announcement to call the Illinois Film Commission hotline if anyone was interested in becoming an 'extra' for an upcoming movie. Bud registered first with an agency and soon after, his wife joined the roster of 'extras' on the casting rolls. They then began registering with different talent and casting agencies and calls become more frequent in the Felcher household. Getting into the spirit of show business, Bud began taking courses at the Television Actors Studio in Chicago learning the techniques of acting in television commercials. His credentials include four commercial spots for McDonald's Restaurants and has appeared as an 'extra' in an in-

## Competent mechanics needed more than ever

An independent, non-profit group which gives voluntary competency exams to automotive mechanics recently cited the results of a Hertz Corporation travel survey as evidence that good mechanics are needed more than ever. The National Institute for Automotive Service Excellence (ASE) of Reston, Virginia, pointed to figures showing that, last year, Americans traveled 3.22 trillion miles for business, commuting, vacation, and personal trips, or just under 37 miles daily for each person. That's up from the 2.92 trillion miles traveled in 1984. The cost for all this travel was up \$400 per person from 1985.

ASE President, Ronald H. Weiner, concluded, "A good portion of this travel is by personal cars and light trucks, and with both costs and miles driven increasing, good, competent automotive mechanics are more essential than ever to keep America's vehicles moving. There's more wear and tear today, but one proven way of minimizing mechanical failure is through regular, preventive maintenance. I can't think of anything more frustrating than having your car break down on the highway or returning to your car at the airport only to have it fail to start."

Weiner continued, "Luckily for

motorists, much of the guesswork in finding a good mechanic has been eliminated. There are almost 200,000 ASE certified technicians at work in shops, garages, and dealerships all over the country. Because ASE certified auto technicians have passed tough competency exams to prove their skill, motorists are increasingly turning to them for repair and service work. ASE certification provides a nationally recognized credential that can be trusted."

According to ASE, there are 195,000 ASE technicians at work in new car dealerships, independent garages, service stations, volume retailers, and tire dealerships. ASE technicians can be identified by their blue and white ASE shoulder patches and credentials cards, while establishments employing ASE technicians often advertise that fact by displaying the blue and white ASE "outlines" sign and posting technicians' credentials in the customer service area of their shops.

ASE auto technicians can be certified in eight specialties: Engine Repair, Automatic Transmission/Transaxle, Manual Drive Train and Axles, Suspension and Steering, Brakes, Electrical Systems, Heating and Air Conditioning, and Engine Performance.

To make certain that ASE technicians keep up with today's changing technology, the institute requires each technician to recertify every five years.

## Senior Citizen News

### Morton Grove Senior Citizens 965-4100

#### FUTURE GROWTH

The older population is expected to continue to grow in the future. This growth will slow somewhat during the 1990's because of the relatively small number of babies born during the depression of the 1930's. The most rapid increase is expected between the years 2010 and 2030 when the "baby boom" generation reaches age 65. By 2030, there will be about 65 million older persons, 2 and one-half times their number in 1980. If current fertility and immigration levels remain stable, the only age groups to experience significant growth in the next century will be those past age 55. By the year 2030, persons 65+ are expected to represent 13 percent of the population climbing to 21.2 percent by 2030.

#### MEDICATIONS

A special program on prescription and over-the-counter medicines will be presented from 7:30 to 9 p.m. on Thursday, May 7 in the Maine Township Town Hall at 1799 Ballard rd. in the Town Hall, 257-2510.

#### BLOOD PRESSURE CLINIC

Excessive cholesterol in the blood can cause a buildup of plaque along the lining of the blood vessels. This causes a narrowing of the vessels decreasing circulation and increasing blood pressure. The body manufactures cholesterol, but it is also found in large amounts in red meats and dairy products. If told by a doctor to decrease the intake of cholesterol, people should eat more chicken and fish as a source of protein rather than red meat and whole milk products. Morton Grove senior citizens who are interested in learning more about their blood pressure can have a free test from 9-10 a.m. on Tuesday, May 12 in the Village Hall Senior Center.

#### COMMISSION ON AGING

## How young do you have to be to get breast cancer?

Breast cancer strikes women of all ages. But early detection can mean the difference between total cure and a life threatening condition.

Early detection requires an annual check-up, a monthly self-examination and mammography.

We provide the earliest detection possible. With state-of-the-art mammography, lumps can be detected before they can be felt. Mammograms are safe, painless and affordable.

If you're over 35, ask your physician to schedule a mammogram for you, or call 761-6000. Do it today.

The American Cancer Society suggests these guidelines for examination:

Age	Recommendation
20+	Monthly self-examination
20-40	Physical examination by a physician every three years
40+	Physical exam every year
35-40	Baseline Mammogram
40-49	Mammogram every one to two years
50+	Mammogram every year

## What's Cooking at The Bugle Pantry

### Shaking The Salt Habit

LOW-SODIUM BEEF KABOBS

If you're tired of traditional beef dishes, these Grilled Beef Kabobs are an innovative way to please your family and friends. The flank steak strips are lightly seasoned with pepper and NoSalt™ salt alternative, a plus for those who are watching their sodium intake. Interspersed with chunks of pineapple, water chestnuts and flavorful scallions, these kabobs can be prepared on a patio grill, hibachi, or indoors under the broiler. The addition of sesame seeds makes these kabobs really come alive, and the zesty dipping sauce allows you to savor each tender morsel.

#### GRILLED BEEF KABOBS

- 1-1/4 pounds flank steak
- 1 teaspoon pepper
- 3/4 teaspoon NoSalt™ salt alternative
- 2 (8-ounce) cans pineapple chunks packed in own juice, drain and reserve juice
- 1 (8-ounce) can whole water chestnuts, drained
- 6 scallions, cut in 1-inch pieces
- 1 teaspoon sesame seeds
- 1 tablespoon cider vinegar
- 1/4 teaspoon sesame oil

Preheat grill or broiler. Cut flank steak on the diagonal into thin slices. In small bowl, combine pepper and NoSalt; sprinkle over steak. Alternately thread strips of steak around pineapple, water chestnuts and scallions on thin skewers. Sprinkle with sesame seeds. Grill or broil close to heat source, about 4 minutes per side, or until beef is done as desired. Meanwhile, combine reserved pineapple juice with vinegar and sesame oil. Divide into 4 small cups. Serve with grilled kabobs as dipping sauce on bed of Oriental noodles. Makes 4 servings. \*Flank steak is easier to slice if first placed in freezer for 30 minutes. Sodium: 68 mg per serving (without Oriental noodles). Calories: 288 per serving (without Oriental noodles).

#### Heavenly Toasted Almond Brownies

- Brownies
- 1/2 cup (1 stick) unsalted butter or margarine
- 2 squares (2 ounces) unsweetened chocolate
- 2 squares (2 ounces) semi-sweet chocolate
- 1 1/2 teaspoons instant coffee granules
- 1/2 teaspoon vanilla extract
- 1/4 teaspoon almond extract
- 3 large eggs, at room temperature
- 1 1/3 cups sugar
- 1/2 cup sifted all-purpose flour
- 1/4 cup (1 ounce) ground lightly toasted blanched almonds
- Frosting
- 1/4 cup (1/2 stick) unsalted butter or margarine, softened
- 1 cup confectioners' sugar
- 1 tablespoon Coffee Liqueur
- 1 tablespoon Amaretto

Preheat oven to 350°. Butter and lightly flour 8x8-inch square baking pan. In top of double boiler over very hot water, melt butter and chocolate, stirring frequently. Place double boiler top on rack. Let chocolate cool 10 minutes. Stir in coffee, vanilla and almond extracts.

In large bowl, with wire whisk, beat eggs 30 seconds, then beat in sugar. Do not overbeat. Lightly stir in chocolate mixture. Add flour, almonds and salt, stirring only until combined. Pour into prepared pan. Bake 35 to 40 minutes or until wooden pick inserted in center comes out clean. Cool completely on rack.

To prepare frosting, in medium bowl, with electric mixer, beat together butter, confectioners' sugar, Coffee Liqueur and Amaretto until smooth. Frost brownies; let frosting set 1 hour. Cut into 16 squares.

By Jim Jennings

Here's the story of one of the most amazing games ever played in big league baseball. It happened on May 2, 1917 when pitcher Fred Toney of the Reds and Hippo Vaughn of the Cubs EACH pitched a no-hitter AGAINST EACH OTHER. At the end of 9 innings NEITHER team had a run or a hit. The Reds finally scored in the 10th to win-but that game stands as the only 9-inning double no-hitter in major league history.

What score does the average golfer in America shoot? The answer may surprise you. According to a survey by the National Golf Foundation, the average non-pro golfer shoots about 97 for 18-holes. They say only one-third of all golfers regularly break 90, and only 8 percent shoot in the 70s.

Of all the current big league baseball players, which ones have the best chance of making the Hall of Fame? A national news agency picks these men as the best bets. Pete Rose, Mike Schmidt, Steve Carlton, George Brett, Don Sutton, Reggie Jackson, Wade Boggs, Phil Niekro, Ozzie Smith, Don Mattingly and Nolan Ryan.

### Interesting Facts From John Jennings

Oddly enough, 2 brothers once ran against each other in an election for governor of a U.S. state. In 1886, Democrat Robert Taylor defeated his brother, Republican Alfred Taylor, for governor of Tennessee.

Did you know that the second digit of EVERY telephone area code in the U.S. is either a zero or a one.

The bagpipe didn't originate in Scotland, as is popularly believed. Bagpipes originally came from the Middle East.

4 U.S. Presidents had the same last name as 4 other Presidents. Can you name the 4 sets of Presidents with the same last names? Answer: Lyndon and Andrew Johnson, Franklin and Theodore Roosevelt, William and Benjamin Harrison and John and John Quincy Adams.

### Pee Wees hockey

The Niles Rangers opened the 1987 Northshore playoffs with a 4-0 shutout of Wilmette #2. The opening period was a very close checking one with not too many scoring opportunities by either side. The defense dominated the period as Niles allowed only 1 shot a goal by Wilmette. Steve Bosco finally scored on a rebound shot off of Alex Zechow to make the score 1-0 at the end of the period.

The second period opened up quite a bit as both teams started to play more aggressive hockey. Again the Niles defense was up to the occasion. The score went up to 2-0 when Keith Brand put the puck in the net on a nice close angle shot. Eric Jesse then kept Wilmette off the scoreboard the rest of the period.

As the third period started, Niles continued to play very aggressive hockey. Two quick goals finished off any hope that Wilmette had of winning this game. Chris Falkiewicz made the score 3-0 with assists going to Steve Bosco and Mike Jesse. Tim Migon finished the scoring by blasting a slap shot past the Wilmette goalie. Another fine effort by the Rangers defense limited Wilmette to only 9 shots on goal for the entire game.

## LETTERS to EDITOR

### Grateful to Niles blood donors

Dear Editor:  
To all Niles donors...for every drop of blood...we thank you sincerely.

On April 13 Stan passed away due to a blood disorder termed "Refractory Anemia." For the last two years of his life he received over 90 units of blood...type AB Positive, the second rarest blood type, it was always available.

Our deepest appreciation is extended to all Niles residents who have and will continue to donate blood. Be at peace knowing that there are many who are grateful for your donation. Perhaps they

do not write a public letter of thanks, however they are full of gratitude.

To all who donate...continue to do so...to all who receive blood, or a loved one who receives blood...express your thanks openly for there is absolutely no donation in this world that can possibly compare that of giving of one's own blood.

Again, our heartfelt thanks and prayers are extended to all blood donors.

## Hospital lobby against Medicare cuts

Hospital administrators from around Illinois and the nation spent the first week in February in Washington, D.C., lobbying against a proposed fiscal 1988 budget that would cut \$50 billion from the Medicare and Medicaid programs. The latest round of reductions came on the heels of \$30 billion in cuts to those programs over the past five years.

Hospital administrators, along with staff of the Illinois Hospital Association, met with members of the Illinois congressional delegation to explain the devastating impact the cuts would have on Illinois hospitals and the people they serve.

In the past five years, Medicare and Medicaid have been cut nearly double their share of total federal expenditures. Further cuts would mean less care available to those in the most need, a reduction in funds for life-saving technology, more pressure to restrict access to hospital care, and higher out-of-pocket costs for everyone.

The Illinois congressional delegation has been instrumental in delaying a transition to national Medicare rates that would mean a loss to Illinois hospitals of some \$200 million, money that would become windfall profits for hospitals in other states where the cost of doing business is less than in Illinois.

## Brochures on college tuitions

Informational brochures entitled "Paying for College" are now available in the District office of State Senator Walter W. Dudydz.

"It's never too soon to begin planning for your children's college expenses", Senator Dudydz stated. "College tuition is climbing each year - in 1986, the average cost for a year at a private college was \$5,500 and at public colleges it exceeded \$10,000. At these prices, many parents cannot afford to pay all their children's college expenses, and it is important to know what other sources are available", he further commented.

The State of Illinois and the U.S. Government provide a variety of grant and loan programs to narrow the gap between the actual costs of college and what parents can afford to pay. How to obtain some financial assistance is described in this brochure which may be obtained at 5946 West Lawrence, the Senator's District office.

Working in tandem with CNN's news productions staff, educators from Teachable Tech, an Atlanta-based consulting firm, prepare weekly curriculum materials with lesson plans and activities. The materials are transmitted to participating schools electronically through "Edline" and the National School Public Relations Association.

## New Health Insurance plan to benefit uninsurable

Illinois Attorney General Neil F. Hartigan said today that the state's new Comprehensive Health Insurance Plan Act (CHIP) "makes Illinois a leader in providing for the basic needs and human dignity of all its citizens."

The Attorney General spoke at ceremonies in the Chicago State of Illinois Center during which the new Act, drafted by Hartigan's office was signed into law by Governor Thompson. Illinois is the first large industrial state to enact such legislation. CHIP creates a health insurance pool for an estimated half million Illinois citizens who have previously been uninsurable or had to pay exorbitant premiums because of diabetes, arthritis, heart disease, sickle cell anemia, cancer or other conditions considered "high risk" by the insurance industry.

Hartigan said his office's Disabled Persons Advocacy Division Advisory Council identified citizens with severe health insurance problems as a top priority concern when it met for the first time early in 1984. "Three years later, and after literally hundreds of hours of work, we have the answer to this problem," Hartigan said. "A special combination of

elements came together to make our dream in 1984 a reality today - strong leadership from the bill's sponsors, bipartisan cooperation at all levels, unwavering support from the Governor, and a unique coalition of groups representing disabled citizens, labor, law, business, and the medical community.

"This successful effort exemplifies what grassroots support for a program can do. People from all over the state spoke up in support of CHIP, and members of the General Assembly heard from their constituents over and over again.

"That kind of contact is a better expression of human need than all the statistics anyone could muster. The response was overwhelming, with the bill passing unanimously in the Senate and by 106 votes in the House." The plan will be operated by a eleven-member Board of Directors appointed by the Governor, including representatives from the insurance industry, the Illinois Department of Insurance, the Illinois Health Care Cost Containment Council, the Attorney General's Office and subscribers from the general public. The CHIP Board of Directors will meet July 1, 1987 and have six months to structure the specifics

of the program and set rates. The Act requires the Board to have the program operational and insurance coverage available by January 1, 1988.

Benefits are similar to those under most major medical insurance plans. Premiums will be 135 percent of the average individual rate charged for comparable coverage in the traditional market.

Hartigan emphasized that he and members of his staff will remain closely involved during the period before CHIP becomes operational on Jan. 1, 1988.

"We must assure that the program is on solid fiscal ground and can meet the needs of citizens now and in the future," the Attorney General said. "We also need to be aware of and support any national initiatives that may assist Illinois and other states that have such programs in place."

Hartigan said persons wishing to receive information about the program, which becomes effective Jan. 1, 1988, should phone his office's Disabled Persons Advocacy Division at: (312) 793-5109. Toll-free number: 1-800-382-2000. TDD number: (312)793-2852.

## New hope for arthritis sufferers

Arthritis specialists at Baylor College of Medicine are studying a drug they hope will alleviate the ulcers and stomach pains caused by standard arthritis treatments.

Dr. Edward J. Fudman, a rheumatology instructor at Baylor, said as many as half of arthritis patients suffer nausea, indigestion, stomach pain or ulcers as a result of their treatment.

"If people get severe side effects, they are forced to discontinue therapy and people with arthritis may need their treatment indefinitely," Fudman said. "So we are looking for a way to allow these people to take the medication and minimize their stomach side effects."

Baylor is one of 30 centers in the nation studying the experimental drug misoprostol. Early studies indicate misoprostol may prevent ulcers caused by standard arthritis treatments.

Standard treatments for arthritis usually include aspirin or aspirin-like drugs called non-steroidal anti-inflammatory drugs (NSAIDs), which relieve the pain and inflammation caused by some types of arthritis.

"The non-steroidals treat the symptoms of osteoarthritis, but not the underlying cause of the disease or to prevent the cartilage from deteriorating."

The Baylor study is limited to people with osteoarthritis, the most common form of arthritis. Osteoarthritis occurs when cartilage, the rubbery tissue at the ends of bones, breaks down. This degeneration causes pain and sometimes inflammation in the affected joint. As the disease progresses, it can result in a loss of motion in the joint.

"When osteoarthritis affects joints in the hands, patients can lose the ability to grip. If it's in the knees or hips, the pain can limit the ability to walk," Fudman said.

The study is funded by Searle Pharmaceuticals.

## 'Around the World' at Oak Mill Mall

by Carmie James

As we embark upon another mini-trip Around the World at Niles' own beautiful OAK MILL MALL...let's transport ourselves via some vintage automobiles! These antique treasures are found throughout OAK MILL MALL on display for your pleasure. Across from SALAMANDER SHOES discover a sleek, black Ford convertible - a mannequin in a 1960 Easter bonnet sitting on its running board. One can almost imagine sitting behind the wheel...rolling down a country road of yesteryear. Nearby, a green antique Ford owned by a pretty gal in a red spangled '20's dress has been stopped by a Keystone cop...who is in the midst of writing a summons! Our favorite is the four door Ford found in the North portion of the Mall...complete with a roarin' '20's gangster brandishing a tommy gun, and holding on to the loot! Study these interesting exhibits...allow your imagination to carry you back in time.

The beauty of flowers is timeless - and Kim (from Korea) welcomes you to OAK MILL FLORIST in the center of this Mall. Many customers bring their own containers to Kim who will design a breathtaking floral arrangement for you - using fresh, real flowers, or delicate artificial blooms.

No time to spare? Need a photo in an hour? How about a passport photo, while you wait? Why not take the time to transfer those old film to modern videotape? See Jay at PASSPORT PHOTO...a handy store tucked around the corner from EUROPEAN IMPORTS. A large cardboard display of photos featuring babies, brides, pets and people enjoying themselves is in the window. Inside, you can glimpse strips of drying film...the quality Noritsu machine...and know that all work is done on these premises.

Time for a little fun? Visit OLLIE'S, where 17 year old Larry Elster who attends Notre Dame High School says he enjoys the versatility of working here. The owner, Cindy, is expanding the magic section...that is, when she's not at her Bit O' Magic store in Chicago, advertising "Food, Drink and Super Moon" T-shirts. You can find buttons galore...for a teacher, your mechanic, even your bookkeeper! How about a costume...or an authentic imperial crown? If you have a taste for some good, old fashioned ice cream, it's right here at the counter. If it's FUN...find it at OLLIE'S! Keeping our "young in heart" mood.

Across the way is GIGI'S DOLLS AND SHERRY'S TEDDY BEARS...always a delight for the kid in all of us. Sherry is busy moving to her new home. Agnes says she is still waiting to become a grandmother. (This writer can certainly wait a long time, thank you!) What a world this store is...dolls of all shapes, sizes, colors and costumes - some from the past, and others the latest movie star creations. And tons of cuddly, adorable, realistic animal creatures. A child's wonderland.

To a wonderland coming to EUROPEAN IMPORTS II in the form of a Dickens Snow Village to be displayed in their window soon. Christa says, "Excuse our remodeling...soon you will be able to enjoy our snow village." in the meantime, pick up some lovely imported items.

This is often a busy time of year - weddings, graduations, and other special occasions...and BOUTIQUE UNIQUE is filled with lovely dresses, of chiffon, lace and silk. These creations are guaranteed to impress your friends. Designer hats and unique accessories are waiting to be discovered here too.

At COUNTY CRAFTS AND CARDS, Nancy Stanis says she loves working in this really neat store...because the giftware changes so often. They offer handwork of American artisans with a definite country flavor. Browsing through this delightfully scented shop is fun.

Cops...VIRGIL'S SHOES has moved to their new location across from Shirley Simon's TOE THE LINE kiosk. Shirley is proud to announce that she is a grandmom to Lucas Brice, born on February 21. TOE THE LINE now offers a full selection of Studded T-shirts...guess the Western look is in! This shop is a must to visit before signing up at WOMAN'S WORKOUT WORLD...wait til you see the great accessories.

Hello from the gang at CANDLELIGHT JEWELERS - Mary Kokanis says since they are "like a family", the entire crew was rooting for co-worker Libby Matlin's daughter, Marlee, at the Academy Awards Ceremony. They were truly thrilled with her victory...and admit that it's fun having a "Star" in the family! Congratulations, Marlee!

A last stop to the ISLAND OF TREASURES across the way introduces us to new owner, Karly Czarnik, whose family lives in Niles. Among the treasures are pretty silk screened sweatshirts...and any number of emblems and pictures to choose from for a T-shirt, uniform, team shirt, etc. These are "ironed" on while you wait. Add a rhinestone or other decorative item...and you have a distinctive outfit!

A visit to OAK MILL MALL can be a step into another world, filled with different cultures and treasures. Experience it soon!

## Centel completes Park Ridge switching system

Custom Calling features and "1+" dialing for long-distance services are some of the benefits Central Telephone Company of Illinois customers will receive with Saturday, May 7 installation of a \$6.4 million switching system.

"The new 5ESS (Electronic Switching System), manufactured by AT&T, was put on line shortly after midnight Saturday morning. The system serves approximately 14,000 customers who have phone numbers beginning with 693, 696 and 825 in Park Ridge and a new Des Plaines prefix (803)," said Ron Karr, Metro manager of customer services. "With the new system, Custom Calling features and '1+' dialing for a selected long-distance service company are available to customers with those numbers."

Beginning June 1, and continuing through June 30, Custom Calling features such as Call Forwarding, Three-Way Calling and Call Waiting will be offered to customers on a free trial basis. A letter with more information about the free trial will be mailed later this month.

"The 5ESS switch features state-of-the-art computer processors and internal fiber optic connections for efficient operation," said Karr. The new telephone equipment replaces a mechanical system that has been in place since 1968.

"Just as we offer 'Hello' services to business customers served by our existing digital switching equipment, we offer similar services with the 5ESS,"

Rudy Aranda, a worker in Centel's telephone switching equipment office, performs final tests on the new \$6.4 million 5ESS (Electronic Switching System) Central Telephone Company installed Saturday, May 7. With the new system, customers in Park Ridge with 693, 696 and 825 prefixes may now subscribe to Custom Calling features, such as Call Forwarding, Call Waiting, Speed Calling and Three-Way Calling. Also, "1+" dialing for connection to selected long-distance services and sophisticated business services will be available. The new switch provides service to more than 14,000 customers in the Park Ridge area.

Karr continued. Hello services allow businesses to have advanced telephone features without investing in a telephone system on their own premises, according to Karr.

The planned 1988 installation of advanced signaling equipment and other upgrades will further expand 5ESS service offerings. Customer needs will largely determine which services are offered.

Central Telephone Company of Illinois provides telephone service to customers in 40 communities with more than 200,000 lines. Central Telephone Company is a subsidiary of Centel Corporation, a major communications company. Centel's telephone operations provide 1.3 million lines to customers in nine states.

# ENTERTAINMENT GUIDE

## "Man of the Hour"

Among the first to congratulate "man of the hour", Bud Solk, Chairman Sid Port (l) and Little City President Alec Gianaras (r).

An overwhelming and gratifying response for Bud Solk, saw a record turnout gather at Arnie's for the 1987 Little City Annual Dinner kick-off luncheon. Hosted by Chairman Sid Port, members, friends and associates got together to make plans for the Testimonial Dinner honoring advertising exec. Bud Solk as "Board Member of the Year" by Little City for mentally retarded children on Tuesday, June 16 at the Guildhall of the Ambassador West. A longtime supporter of Little City, Solk has given both his time and financial resources to the national, non-profit, non-sectarian residential community for mentally handicapped, developmentally disabled and blind retarded individuals. Nancy Westlake is the dinner coordinator.

## Trip to Stratford Play Festivals

A field study course at Oakton Community College offers theater-lovers of all ages an unique opportunity to see some of the finest productions of William Shakespeare and 20th century playwrights at Stratford and Niagara-on-the-Lake, Ontario from June 23 to 27. This field study course provides a rare learning experience by combining enrichment, education and entertainment. You don't have to be a theater expert to enjoy such classic plays as "Romeo and Juliet," "Cabaret," "School for Scandal," "Mother Courage," "Marathon 33" and "As You Like It." Backstage tours and lectures by actors and professional staff will give additional insight into the art and fascination of the theatre and their interpretations of the plays and the various roles in them. The course may be taken for three college credits or audited. The course instructor is Allen Schwartz, who has conducted over 50 study tours to the Stratford and Shaw Festivals over the years. His literary insight and congenial sense of humor have made his escorted tours most popular. The cost is \$364 which includes round trip by luxury coach, theater tickets and lodging. The coach will leave at 7 a.m. from the Oakton East campus (Skokie) on June 23 and return at 6 p.m. on June 27. For information, call 679-4123 or 982-9888.

their heels in another room waiting to find out who was going to get to wear the white hat. After more rhetoric, a second candidate won endorsement.

In the words of a former school board member who recalled a similar experience, "It was the first time I came out a winner and felt like a loser."

On that note, we close the chapter on EMGC's once colorful and turbulent history that provided a lot of exciting tidbits for the local news media, and which now has become a tame affair.

**CELEB NOTES.** Academy Award winners Marlee Matlin attracted the news media and television crews during her recent appearance at the Center On Deafness in the local area. Some sightings on the actress that did not get into print are: she loves to chew gum and likes Sprite, indulging in both while judging the International Performing Arts contest at the Center. For fashion buffs, Matlin wore a lavender pullover, long black skirt with over-the-ankle studded boots.

In answer to several queries from fans, her current boyfriend, actor William Hurt, did not accompany her on her visit here. However, Marlee was wearing a diamond ring on the you-know-what-finger. A reporter asked her if it was an engagement ring and she said, "Oh, nooo!" For further news, watch the movie tabloids.

**AROUND THE AREA.** Congrats to the winners of the Our Lady of Ransom school board election. They are Loreta Young, Donna Kazmirski and Kathleen Sass, who will serve three-year terms on the 11-member board.

Ditto to Terry Williams who received a master's degree in fine arts at the School of the Art Institute. He will have a showing of his work at the "Lottorium" in Chicago, and a Fellowship exhibit May 14-16 in the Art Institute.

**ON THE CABLE TUBE.** Cablevision's public access channel 21 will air a new local produced show featuring Niles personalities and a short book review segment at 6 p.m., May 8 and at 7:30 p.m. on May 19.

The program called "Here's Looking at You" will feature Niles resident Stuart Gootnick, a miniaturist and a fire memorabilia buff, who creates models of fire houses and Victorian homes. Following this program, viewers can see "Book Beat" featuring reviews of recent books by guest critics from Niles.

house video industrial film and in print media.

The casting and talent agencies usually attempt to put the couple together in films. "We've been 'extras' in quite a few movies and have enjoyed every minute of it, even though it means long hours, low pay and the chance our scenes may end up on the cutting room floor," Evelyn said.

Major films which they have appeared in team are: "The Untouchables," "She's Having a Baby" and "Rent A Cop," with Burt Reynolds and Liza Minnelli. They are currently working in "Poltergeist III" and "Vice Versa" starring Judge Reinhold.

The couple said it was their first experience seeing stunt men on motorcycles racing down the Union Station concourse in a film sequence of "Vice Versa," noting it was thrilling seeing the action.

"We think it's a great experience (being extras) for retirees like us. We get to meet wonderful people like the directors, movie crews and camera men," she said. "We don't have much contact with the movie stars, but it's fascinating to watch them at work."

"The food is good, too, which is sometimes like a banquet depending on the movie/budget," Bud said. "Summing it all up, we're having a wonderful life."

serial approach." The negotiating process, expected to take four weeks, originally began April 25 and 26.

The negotiating teams consist of twelve teachers and twelve representatives of the School Board and administrative staff. Issues are initially discussed in full committee after which four subcommittees are appointed to further refine and deliberate the issues.

Contract agreement between the Teachers' Association and the Board is expected to be reached by May 26 or 27. Issues being negotiated include working conditions, fringe benefits, salary increases and employee rights.

The District 207 Board is in the process of forming policies to implement stringent state guidelines for handling situations involving communicable diseases affecting students or district employees.

In addition to the more common infectious diseases such as chicken pox, influenza, mumps and rubella, the sensitive issue of AIDS is forcing school districts nationwide to recognize and deal with implications. Serious considerations must be given to the welfare of the community, safety of students attending the individual school, the needs of the AIDS victim's medical problems as well as the victim's legal right to an education.

The Board, still in the process of discussion on this topic, drafted a letter directed to the parents of District 207 students at the event an AIDS case surfaces. The letter, in essence the Board's policy, will inform parents of the existence of an AIDS case while keeping the student or employee's identity confidential. Parents will receive assurance the situation will be monitored constantly by medical personnel and a team of district staff mem-

bers who will be available to the community to answer all questions.

The letter goes on to state that under advice of the medical consultant, the opinions of the American Academy of Pediatrics, and Central for Disease Control, "the student poses no threat to any student, teacher, or anyone else who comes in casual contact with him." Three exceptions are students who exhibit aggressive behavior, such as biting, scratching, and those exhibiting open skin sores or lesions that cannot be covered.

This policy is based on legal standards that mandate the student may attend class providing the transmission of the disease is unlikely.

If this situation occurs, representatives from the Board, the administrative staff, the district medical consultant, and legal representatives will call for a general meeting to respond to concerns of those in the community. Information on the disease will be included with the letter.

This process is similar to the one used in Wilmette School District 39 where a student recently diagnosed with AIDS was allowed to remain in school and the situation was dealt with calmly and sensitively.

### District 63...

Continued from Page 1

Four board members meeting last Monday to discuss board policy approved tentative school procedure which will require parents of students with chronic communicable diseases to meet with health and school professionals in a multi-disciplinary staffing to plan for the student's schooling and other necessary measures.

Board Member Joan Putterman said the new procedures will be designed to protect the rights of students who are ill.

At present, school policy requires that the administrator be able to decide whether a child with a communicable disease should be required to stay home. District parents are notified if communicable diseases such as mumps or chicken pox are present among the student population. Diseased students are not named.

Board members cited the controversial case of a Wilmette student with AIDS who was eventually readmitted to the school system. They acknowledged that court cases have not defined whether school districts should pay medical costs of AIDS as well as educational costs.

Included in the suggested policy is a selection dealing with procedures for employees with communicable diseases. Board members agreed this portion of the policy should be discussed with the teachers' union. At present, a contract with the union allows the district to require

physical checkups of employees. In addition to policy on communicable diseases, committee members discussed but reached no conclusion on a retirement plan for administrators, or classified personnel. A plan will be presented to the school board by School Superintendent Dr. Eldon Gleichman without a recommendation from the policy committee.

The district has in effect an early retirement plan for teachers, or certified personnel, through the Teacher Retirement System (TRS).

If a retirement plan is approved by the school board, bonuses may be paid to administrators as an incentive for early retirement. District 63 teachers now are paid 117 percent of their last year's salary if they retire early, at about age 55. According to this present plan, regulations stipulate the district pay at least 100 percent of a teacher's salary and teacher pay at least 42 percent of the salary to TRS before early retirement. District 63 pays the teacher an additional 17 percent to defray about half of the teacher's costs.

Board members present at the policy meeting were Putterman, Steve Stone, Norman Padnos and Jim Friedlieb, a majority of the seven board members who will vote on the policy. Also present were District Superintendent Dr. Eldon Gleichman and Business Manager James Bowen.

Part of the redevelopment plan would include a multi-complex theatre, which was denied by the village board a few years ago and was the subject of court litigation. "We are also on a leasing program to attract potential tenants and we expect good results. Niles village officials have proposed amending TIF to acquire a portion of Lawrencewood.

He added the park district has outgrown the maintenance garage at Grennan Heights. In addition, its location near a residential area has posed problems, especially with truck traffic in the area.
