Existing home at Dempster and Oketo would be razed for parking

Zoners ok ABT parking lot petition

by Sylvia Dalrymple

A request by ABT TV and Appliances to construct a parking area on a residential lot at 8760 Oketo was approved by the Niles Zoning Board following two rounds of votes and an amended petition.

Approximately 50 residents attended Monday's meeting to voice their concern that a zoning change from residential to commercial (B-1) would be an en-

croachment in their neighborhood. Others cited traffic problems and devaluation of property.

The subject site, which has an existing house on it, is located at the northwest corner of Oketo and Dempster Sts. Purchase of the property is subject to zoning approval.

Hearings continue on new suburban landfill site

The battle between residents and the Northwest Municipal Conference over a proposed refuse site will continue at another public hearing by the Cook County Board of Appeals at Hanover Park village hall on Aug. 12.

In the third of a series of hearings, NWMC executive director Bill Grams is expected to repeat testimony on behalf of the conference's 31 member communities, including Niles, Morton Grove and Des Plaines. At previous hearings, Gram explained why the 300-acre site was selected and why the conference communities need the land fill.

The site in question is at Illinois Hwy. 25 and W. Bartlett Rd. in unincorporated Cook County. According to Grams, at least one more hearing will be held (end of

August) before the board decides to endorse giving the conference the special use permit required to own and operate the landfill.

The proposed balefill (type of compacting garbage) is drawing continuous protests from residents in Bartlett, Hanover Park and South Elgin (closest to the garbage site) who say they don't want the balefill "in their backyards."

Grams, however, maintains the site is located near an in-

dustrial-agriculture area rather than a residential area. "The only residential area is a trailer park in Bartlett several miles away," he said, adding that residents from the individual towns will not be adversely affected.

Niles Fire Dept. calls

The Niles Fire Department answered 24 fire alarms and 58 ambulance calls between Aug. 24 and Aug. 31.

Firemen on July 24 went to Normal and Cumberland on a report a woman was stuck in a tree. On arrival, the woman told firemen she was not stuck, but was trying to retrieve her bird that had been sitting in the tree for three days. She said she would not come down and told the firemen to leave.

Firefighters on July 24 responded to 8357 Western on a report of smoke. The cause was traced to a smoking utility box in the back yard of a resident. Commonwealth Edison was called.

A computer malfunctioned activating the alarm at W. W. Grainger Co., 5559 Howard St. on July 25.

A small of smoke was reported at 8828 Wisner. The cause was traced to a pot smoking on the stove. A smoke ejector was used to clear the apartment and hallway of smoke.

by Sylvia Dalrymple
Niles Police Chief Clarence Emrikson, who announced his intention to retire next May, took time out from his duties to reflect on his 30-year career as a law enforcement officer.

During an interview by The Bugle, Emrikson said he joined the Niles Police Department in 1957 and was appointed police chief in 1961 by Mayor Nicholas Blaise. "I enjoyed being a police officer and still miss the action in solving problems on a daily basis," he said. "Administrative work is very different, in that goals are made and it takes time to get the expected results."

When Emrikson joined the department, the roster totaled 13 police officers. Today, there are 50 full-time police officers, 48 reserve officers, 16 crossing guards and 14 employees working in various departments.

As police chief in the early 1960's, Emrikson recalled it was a period of "exciting times" and many challenges. "I can sum up my years as rewarding ones because I feel a good department has been built up. It's the finest in the country today," he said.

Emrikson graduated from Lincoln School in Park Ridge and Taft High School in Chicago. He did a stint in the Marines and af-

ter leaving the service started working as a carpenter. "But I always wanted to be in police work and took an initial exam at the Niles Police Department."

He then decided to attend police recruit school in San Diego leaving his wife and children in their Niles home. He stayed only a few months because of high housing costs and returned to the village to work as a carpenter until he joined the police department in 1957.

Maine Seniors enjoy patriotic program

John Mosiman of Elgin entertained Maine Township Senior Citizens at their three July luncheons with two of his Musical Paintings - "The Midnight Ride of Paul Revere," and (shown in background) "The Statue of Liberty." At the same luncheons Jay Lewkowicz, Executive Administrator of Oakton Pavilion Health Care Facility in Des Plaines, presented each of the more than 1,000 seniors attending with a blue quill pen and a miniature reproduction of the U.S. Constitution in its original handwritten form.

Following Mosiman's dramatic presentation involving art, music and lights, a number of the seniors came forward for a closer look at the Statue of Liberty painting. Shown (l-r) Lauretta Eck, Des Plaines, Irene Seifert, Morton Grove, artist John Mosiman, Jay Lewkowicz with Sue Neuschel, director of Senior Citizens activities for Maine Township, and behind them Mathilda Scott, Des Plaines, and Ella McKenzie, Park Ridge. In this Bicentennial year of the U.S. Constitution, the luncheon audiences found this patriotic program especially appropriate, said Director Sue Neuschel, who is co-chairing the township's Freedom Fest September 3-6 at Maryville Academy grounds, Central and River rds., Des Plaines, a four-day celebration open to all.

The need for nutritional calories decreases with age, but the need for vitamins and minerals remains essentially the same throughout one's lifetime. The teenager who is growing rapidly can easily consume 3,000 calories without gaining weight, and can afford to have some "junk" food, food that is high in calories but low in nutritional content. Someone over 65, however, needs only 1,000 or 2,000 calories per day. Thus, the older persons cannot afford the "empty calories" of junk food. The diet of an older person must contain good, well-balanced nutrition in order to avoid deficiencies in vitamins, minerals, protein, and iron. Early this summer, the Skokie area community found itself aesthetized and drawn together by the anti-semitic defacement of Skokie's new Holocaust memorial sculpture: and there comes a time when we cannot ignore its presence; and drawn together by the increased understanding that what we really are, what we have, is each other and the love that binds us together. The one conclusive thought that many derived from the incident was the hope, the prayer, that love is stronger than the perhaps inevitable hate which again and now is demonstrated against this group of people.

Good news for Divorced Catholics

Fr. James Fiosi, Founder and Director of the Chicago Archdiocese's Phoenix Ministry for Separated and Divorced Catholics, sees a positive atmosphere of understanding and enlightenment emerging within the church - its real teachings on divorce and family crisis are becoming more widespread, a hopeful sign for Catholics who have felt alienated from their church for too long. Fr. Fiosi was interviewed in the May issue of U.S. Catholic Magazine, and a good deal of his message was the resurgence of grassroots involvement of the church and its divorced members.

WHAT MAKES A GEM VALUABLE?

What makes a gem valuable? Gemstones are valued in part because of their beauty. The beauty of an apparently colorless diamond comes from the way it interacts with light, how it sparkles. For colored gems, beauty comes from color. Desirable color is a matter of taste. Some prefer the green of an emerald, for example, while others may prefer the green of peridot, sometimes described as lime-green. The goal for the cutter of peridot is to obtain the best color from the gem.

How durable a gem is also influences how valuable it is. Some gems need protection from blows and knocks. Peridot is such a gem, more likely to be set in a necklace or earrings, or if set in a ring, likely to be protected by metal. Just as fine silk is treated gently, so is this fine gem.

How much in demand a gem is affects its value too. Peridot, for instance, is a beautiful gem that has remained quite affordable because demand for it is not high. When people think of green gems, they think first of emeralds. Emeralds are generally much more costly than peridot.

The most important factor in determining the value of your gem is the pleasure it brings you. Try on a peridot and decide.

The two offenders gave written consent to search their car and police unloaded all property recovered from the vehicle including merchandise, checks and ledgers, which were inventoried for evidence.

The two men were released on \$1,000 bond each and assigned an August court date.

The offenders were followed to the front of the store at which time one of the offenders placed the camera on the counter then drove out of the parking lot with the accomplice.

A bicycle was stolen from an alley on July 27 in the 8000 block of Grand. Value was undetermined.

A Des Plaines man was issued a petty ticket after he removed three cans of spray paint and attempted to exit the store without paying for the items.

Vandalism...

Persons unknown threw an open gallon of white paint over the fence and into the Niles Park District swimming pool on Milwaukee Ave. on July 24.

Owner of the cat is unknown.

A 14-year-old youth was riding a bicycle on the east side of Milwaukee and as he approached Jonquill struck a sign post bent low over the sidewalk. The bike tipped over and the youth fell into Jonquill St.

A witness came to the aid of the teenager, called his parents and bent the post upright. When the police arrived, the witness had left the area and the victim's father declined services from paramedics, saying he would take care of any medical attention if needed.

Daley files theft charges in furniture store closing

Two former owners of a Near North Side furniture store were charged with theft Friday after they allegedly closed their business without notice and fled with more than \$60,000 in deposits and advance payments, according to Cook County State's Attorney Richard M. Daley.

Daley filed the theft charges against Armando C. Pazmino, 47, and his wife, Loreta, 39, the former owners of C.A. Pazmino & Associates, 220 W. Kinzie St., after receiving complaints from more than 50 consumers who were allegedly cheated.

The Pazminos, who previously lived at 800 W. Rand Rd., Arlington Heights, closed the store on or about April 23 and are believed to have fled the state, Daley said.

An investigation by Daley's Consumer Fraud Unit developed evidence that the defendants took payments over the past 18 months, ranging from \$200 to more than \$6,000, from customers

ordering furniture from samples on display at the Kinzie street store.

"In some cases, the payments were not forwarded to the manufacturer," Daley said. "In others, the merchandise was not even ordered."

Arrest warrants were issued Friday afternoon for Pazmino and his wife. If convicted, they face up to a year in jail on each charge.

Daley said he would also seek refunds for anyone found by the court to have been cheated by the defendants.

Several dozen consumers gathered Friday in a courtroom at Belmont and Western avenues on Chicago's North Side to sign complaints against the Pazminos.

The Pazminos allegedly cheated more than a dozen Chicago customers, as well as residents of Lincolnwood, Arlington Heights, Elk Grove Village, Hoffman Estates, Le-

mont, Palos Heights, Palatine, Bridgeview, Burr Ridge, Glenwood, South Barrington, Schaumburg, Maywood, Wheeling, Lake Forest, Prospect Heights and Park Ridge.

Also filing complaints with Daley's office were residents of Lake Zurich, Midlothian, Algonquin, St. Charles, Naperville, Hinsdale, Glen Ellyn, Lindenhurst, and Bedford.

Daley urged other consumers who may have been cheated by the defendants to file a complaint with his Consumer Fraud Unit at 443-4600.

Starkey, District Director of the Internal Revenue Service for northern Illinois, announced that Samuel McKinley, Jr., of Skokie was sentenced today to 6 months of work release, 5 years probation during which 500 hours of community service must be performed and \$20,000 in fines for filing false and fraudulent Federal income tax returns.

McKinley is a taxicab owner and bookmaker. He pleaded guilty on May 13, 1987 to each of 2 counts of a criminal information filed May 5, 1987, which charged him with subscribing to false and fraudulent income tax returns for the years 1981 and 1982. McKinley also admitted to bribing Cook County vice policemen.

Under existing law, a person convicted of criminal tax offenses, in addition to whatever sentence is imposed, is also required to pay the tax determined to be due as well as interest and civil penalties that may be assessed.

I Bet You Didn't Know

By Jim Jennings

Amazingly, there was once a pro athlete who was a sensation in BOTH major league baseball AND the National Football League in THE SAME YEAR. Ace Parker came off the Duke campus in 1937 and immediately won a job as a shortstop in big league baseball. He got off to a great start, hitting a homer the first time he batted in the majors. Then, later that season, Parker left baseball to try out as a quarterback in the NFL—and all of a sudden he became one of the great quarterbacks in NFL history. He was so good, in fact, that he was elected to the pro football Hall of Fame in 1972!

Of all the current head coaches in the National Football League, which one do you think has the best career winning percentage? Answer is Joe Gibbs of the Washington Redskins. Going into the 1987 season, Gibbs has won 71% of all his games, to rank first.

Here's one of the most incredible records in sports. The New York Yankees won the American League pennant in 1949, '50, '51, '52, '53, '55, '56, '57, '58, '60, '61, '62, '63 and '64. They won the pennant 14 TIMES in these 16 years from 1949 through 1964!

If you mention this ad after your deal is consummated (but before delivery) Jennings Chevrolet will deduct \$50 from the purchase price of your new or used car. One deduction per customer. One deduction per transaction.

LYT has 4 week Water Exercise Programs. Water exercise programs can be one of the most beneficial fitness activities for people of all ages and abilities.

Vigorous water activities can make a major contribution to the flexibility, strength and circulatory endurance of an individual. With the body submerged in water, blood circulation automatically increases; the pressure of the water on the body also helps promote deeper ventilation of the lungs; and with well-planned activities, both circulation and ventilation can be increased.

Flexibility is achieved more easily in water because of the lessening of gravitational pull. A person immersed to the neck in water, experiences an apparent weight loss of 90 percent. Thus individuals and especially older people with painful joints or weak leg muscles will usually find it possible and comfortable to move with ease in the water.

As a summer four week special, the Leaning Tower YMCA will be offering co-ed water exercise programs from August 10 thru September 4; Aquanastics (average to advanced exercises).

Water Works Wonders (for people with joint mobility problems). Call the Leaning Tower for class days and times. Class registration is now occurring. For additional information contact Laurie Guth at 647-1122.

Interesting Facts From John Jennings

Oddly enough, the largest U.S. state-Alaska has fewer people than any other state. Of all 50 states, Alaska ranks No. 1 in size and No. 50 in population.

Contrary to popular opinion, the first words ever spoken from the surface of the moon were NOT the "One step for mankind" speech, but "Houston, Tranquility Base here, the Eagle has landed".

Only one country in the world puts a map of its country on its flag. That country is Cyprus.

It seems hard to believe, but Los Angeles, Calif., is farther east than Reno, Nev.

The biggest doors in the world are at the Kennedy Space Center, where 4 doors are each about 40 stories, or 460 feet high.

St. John Brebeuf Spanish classes

It's a hot summer, and would you believe that some St. John Brebeuf students are saying "Me encanta trabajar" which means "I love to work" in Spanish! The eight students, five 5th graders, and three 8th graders are studying Spanish under the direction of Mrs. Olena Solodyna who is a regular Spanish teacher at Resurrection H.S. The students are also learning expressions like "llueve" and "Hace calor" which describe our weather this summer as "raining" and "it's hot". In addition to learning conversational Spanish they are also learning Spanish culture which involves Spanish songs, the making of "Ojos De Dios" - "god's eyes", and their biggest project, making a "Pinata," which is made of paper mache, shaped into an object or animal decorated with colorful art tissue and filled with candy.

Shown above exhibiting their finished pinatas are (l to r): Brian Rademacher with his airplane and Heidi Lapin with her unique creation. On the final day of class, the students had the excitement of breaking a pinata the teacher had made as a surprise for them.

Crusade for Education awards aid to students

Over \$83,000 in financial aid was awarded to college and graduate school students by the Crusade for Education on July 19 at the Second Annual Award Presentation Ceremony held in Chicago. Although the Crusade for Education has been awarding financial aid to students since 1973, this is only the second year that a formal award ceremony has been held to honor the student recipients. Speakers at the function included Chester Wajda, President of the Knights of Dabrowski which sponsors the Crusade for Education, and Mrs. Elizabeth Simpson-Fucinski, a former Dean at the University of Wisconsin, who gave a special message of encouragement to the students and their families. Presenting the awards to students were Lucja Sliwa, co-host of the Bob Lewandowski Show, and George Migala, radio personality and manager of WCEV Radio.

The recipients are: Robert Audycki, Adam Augustynski, Gail Bien, Anna Chyla, John Cichon, Janet Collins, Dawn D'Amico, Mary Derbas, Renee Drodowski, Patricia Fox, Joseph Herba, Sherrill Hlavaty, Paul Jagielo, Ted Jagielo, Thomas Jaworski, John Kaminski, Margaret Kolodziej, Robert Kreczner, Vincent Krydycki, Maureen Lowery, Janet Mazurek, Edward Montwill, Sharon Mossion, Mark Palusis, Nancy Jo Przybylo, William Sepeta, Marek Skol, Bozena Strzelecka, Boguslawa Swiech, Michael Tabernacki, Gerry Trzubeck, Deanne Wachel, Robert

Wolski and David Ziellinski. After the presentation of awards, students were interviewed and they consistently expressed their gratefulness and sincere appreciation to the Crusade for Education supporters who made it possible for these students to receive financial help so they can obtain a higher education and then return to the community as a professional. Most of the students are studying medicine, law or engineering, while others are studying international relations, music, business or mathematics. The Crusade for Education relies wholly upon the generosity of local supporters whose donations to the Annual Crusade for Education Telethon have enabled the distribution of this financial aid among these deserving and needy students. This year, as usual, the Crusade for Education Telethon will be held on Channel 26 on Thanksgiving Day from 9:30 a.m. to 3:30 p.m.

Kustra Scholarship signed into law

Illinois college students will be able to qualify for student loans to attend out-of-state colleges, as a result of a measure proposed by Sen. Bob Kustra (R-28) and signed into law by the Governor. SB 443 permits the Illinois State Scholarship Commission to be guarantor for student loans made by out-of-state banks. "This was necessary because of Congressional action last year requiring all guarantors to allow banks in other states to participate in their loan programs," Kustra explained. At least 19 state guarantors already have this authority to operate at a national level. "This legislation opens up the loan program to many students who previously could not qualify because they chose to attend schools in other states," Kustra said. "Now they can apply for loans from banks where they are enrolled, up to the same limits that are permitted for students who borrow from in-state banks

to attend Illinois' public and private colleges and universities." Kustra said present loan limits are \$2,025 a year for freshman and sophomores and \$4,000 for upperclassmen, to a maximum of \$17,250. Graduate and professional students may borrow up to \$7,500 a year. Their aggregate maximum is \$54,750 for both undergraduate and graduate work. The present interest rate for student loans is 8 percent. "The guaranteed student loan program is making it possible for thousands of Illinois students to obtain a college education and achieve their career goals," Kustra said.

Pro-Pak aids with college transition

Traveling to college via any mode of transportation may be the first time, except for camp or vacation, that this young person has been away from home.

Dr. G. Sullivan Read, assistant professor of microbiology at Loyola University Medical Center, has been awarded a three year competitive renewal of his grant from the National Institute of Allergy and Infectious Diseases to study the "control of mRNA stability in herpes simplex virus infected cells." The amount of the award is \$329,720.

Thomas M. Baffa, Marine Pfc. Thomas M. Baffa, son of Frank J. and Signe J. Baffa of 481 Beau Drive, Des Plaines, has been promoted to his present rank while serving with 2nd Force Service Support Group, Camp Lejeune, NC.

Preparing for this transition means getting all of one's clothes together in order to pack and/or ship—a task most students and many parents do not relish.

Pro-Pak of Northbrook has helped to overcome the hurdles of going from here to there—a logistical ordeal that blunts the emotional upheaval. Costs run from approximately \$100 for 4 18"x18" boxes to \$1100 for the "whole thing" to University of Geneva in Switzerland. For budget-conscious customers, owner Dan Kravitz can provide estimates and equipment for do-it-yourselfers.

Pro-Pak, a company soon to become franchised, can give advice on how to pack items for travel by car and what kinds of cartons, size, etc. can be sent through UPS, Greyhound and on airline tickets.

Pro-Pak has patented boxes to transport stereo, computers, bicycles, art work, skis, 200-pound weight boxes for ski boots and "custom designed cartons for just about anything," maintains Kravitz. "We've been put to the test from big businesses to small households with success for the past 10 years."

Out-of-state readers who want to order or inquire about services that may warrant special designs (there have been requests for rubber hose crimped on to cartons for handles) of any type can call Kravitz at Pro-Pak, 272-0406/9.

Pro-Pak is the officially designated packer and shipper for millions of dollars worth of art for the International Art Expo, Antique Expo and New Art Forms Exposition.

From the most fragile to the most sturdy items, Pro-Pak packs them all—most carefully.

Travel industry positions abundant

There is an abundance of positions available in the travel industry ranging from counseling travel - leisure, corporate, and groups - to positions in sales, accounting, secretarial, and management and supervisory positions.

Most travel agencies offer part-time and full-time work, and a variety of travel benefits. According to Travel Weekly, an industry trade journal, a travel agent with three to five years experience is earning from \$19,000 to \$23,000 per year.

There is a dearth of qualified agents. In times past, agencies preferred to train their new employees. With deregulation

and computerization, the business has now become very complicated and very competitive. Now, travel agencies have to utilize every minute for sales. They don't have the time to devote to training. Travel schools are the only answer for the travel agencies.

Adams Institute of Travel, located in Schaumburg near the Woodfield Mall, is approved by the Illinois State Board of Education. Adams offers a comprehensive travel training program consisting of five weeks of classroom study and seven weeks of hands-on computer training. Computer training is essential to enter the job market and Adams is equipped with the two most widely used systems - United Airlines' Apollo and American Airlines' Sabre computer systems.

Classes begin August 10. Call Adams Institute of Travel at 884-8140 for more information.

Marillac selected an exemplary high school

St. Louise de Marillac High School, Northfield, has been selected an exemplary high school in the Secondary School Recognition Program sponsored annually by the U.S. Secretary of Education. The Recognition Program for private and public junior, middle and high schools, nationwide, "is intended to give visibility to distinctive and strong schools."

Marillac High School is among nine Chicago-area high schools and 11 Illinois schools to receive the honor for excellence. Marillac won recognition only after participating in a rigorous process that included application, an evaluation for nomination, and review by a National Review Panel to determine whether the school would be granted an on-site evaluation. The two day, on-site visit was conducted by evaluators who determined how well Marillac met Recognition Program criteria and the school's stated goals.

Marillac High School currently numbers 500 students. The school was established in 1967 by the Daughters of Charity, whose foundress St. Louise de Marillac was an extraordinary 17th century Frenchwoman, who was a wife and mother, and served as teacher, nurse and social worker in a society similar to today's society in its great economic extremes of wealth and poverty.

Older Adult Services need volunteers

Older Adult Services' adult day care centers for impaired senior citizens need volunteers to help out with various activities at any of their locations in Des Plaines, Glenview, or Mt. Prospect. Volunteers can donate as few as one hour each week or several days per week. These opportunities are flexible and interesting, and make use of a volunteer's interests and talents.

Older Adult Services' professionally staffed centers offer seniors such diverse services as nursing care, medication monitoring, personal care and counseling, group exercises and recreational activities, as well as opportunities for companionship they might not have elsewhere. Adult day care enables seniors to continue living at home with their families by providing supervision during the day.

Volunteers are needed to assist the staff with everyday programming, to lead small group activities and discussions, to lead games such as bingo or cards, to help prepare and serve lunches, and to socialize with the older adults. Experience is not necessary - just care and reliability.

The adult day care centers are located in the former Nathanson School, 9375 Church in Des Plaines, in the Avoca West School, 235 Beech Drive in Glenview, and in the former Busse School, 101 N. Owen in Mt. Prospect.

For more information about becoming a volunteer, please call Gwynne George-Chovanec at Older Adult Services at 696-5559.

Older Adult Services is a division of Parkside Human Services Corporation, a member of the Lutheran General Health Care System.

FREE DIABETES TESTING

Call for specific times and days, program ends 8/15/87.

5,000,000 Americans have diabetes and don't know it.

One in every 20 people in the United States is now affected by diabetes. It's the third leading cause of death. These facts probably come as a surprise. Because most of the people you know who have diabetes lead normal lives. They go to work, laugh and cry right along with the rest of us. It's that kind of disease. Appearing to be subtle. Unobtrusive. And yet, if it's left untreated, diabetes can also be dangerous. That's why we're offering free diabetes testing. From July 15 through August 15. Take the time to be tested. Because not knowing you have diabetes, can be worse than the disease itself. Call today for an appointment.

Friendly Visitors needed for outreach

A Friendly Visitor can mean a great deal in the life of a Shut-in Senior Citizen with no family or friends. Leaning Tower Senior Adult Center has an Outreach Program with the purpose of visiting lonely seniors in Nursing Homes in the Niles Township area and to provide companionship on a weekly basis to isolated or handicapped senior citizens in their own homes. Friendly Visiting is rewarding in many ways. Just the look on the face of a lonely shut-in is gratifying in itself. Sometimes the Friendly Visitor is the only visitor a nursing home resident has.

There is room in Leaning Tower Senior Center's Outreach Program for additional Friendly Visitors to provide services to those in the Niles Township area who are in need. Monetary compensation is provided. Have you a few hours a week to spend with an isolated senior? For more information about the Outreach Program, please contact Lois Dickert, Director, at Leaning Tower Senior Center at 647-8222, Ext. 2237.

Nilesites host Pitcairn Island visitor

In mid-July, Kari Boye Young of Pitcairn Island paid a visit to the home of David and Suzanne Miller, long-time Niles residents. Kari, a Norwegian born woman but full-time resident of Pitcairn Island, was on her way back to Pitcairn from a visit to her homeland in Norway. She was able to stop in Chicago for several days and to spend a night at the Millers in Niles. Kari left Pitcairn last spring to visit her elderly mother and family in Norway aboard a Norwegian scientific research vessel that had been in Antarctica and had stopped at Pitcairn Island on its way back to Norway from New Zealand. The ship was heading non-stop from Pitcairn to Oslo, an extremely rare opportunity indeed, so Kari, with the urging of her husband, took the opportunity to visit her homeland and family.

Kari is the wife of Pitcairn's Magistrate, Brian Young, who traces his ancestry back to mid-shipman Edward Young of the HMS Bounty. Pitcairn was settled in 1790 by the mutineers of the Bounty and their Tahitian wives, being led to the misnamed island by Bletcher Christian and his first mate, Edward Young. The island has flourished over the last two centuries but is now troubled by too many of its young people being attracted to the "outside world" such that

Shown above (l to r): Suzanne Miller, Kari Young from Pitcairn Island, and Dave Miller. Kari was able to visit the Millers at their home in Niles on her way back to Pitcairn in the far South Pacific.

there is fear that soon not enough able-bodied islanders will be left to maintain Pitcairn's lifestyles of self-sufficiency. Resurrection Hospital has embarked on a program to assist in bringing emergency medical aid to Pitcairn's population via satellite radio link. This will help ease one of the biggest anxieties of the island, i.e., what to do when emergency medical situations arise with no doctor within hundreds of open ocean miles. Kari also visited the Emergency Room at Resurrection and was able to speak with the hospital's staff who will be providing help to the Pitcairners when needed. Kari wrote a book several years ago in Norwegian called

The Last Mutineer. It was very popular in Norway and is sold out at this time. She recently finished an english translation and hopes to see it published in Britain and New Zealand in time for Pitcairn's Bicentennial in 1990. It is hoped that a U.S. publisher will also take an interest in publishing it as the first two chapters that we've seen are fascinating. Kari set sail back to Pitcairn on Sunday, July 26, on the last leg of her journey back to her adopted home and to her husband, Brian, and two children, Timothy, 8, and Anette, 5. Kari enjoyed her visit to the Niles area but commented that "it was a bit too hot at times, and not very hilly."

Social Security disability reviews

If you are 1 of the nearly 5,800 residents of the Northwest suburbs of Chicago who receive Social Security or Supplemental Security Income (SSI) disability checks, you should know that your case will be reviewed periodically. This is to make sure you continue to meet all requirements for benefits.

The timing of your review will depend on the nature and severity of your impairment, the likelihood for improvement, and other factors. A review could be scheduled as early as 6 months after your first month of eligibility if you have an injury or illness that is expected to improve. Or you may be reviewed only every 5-7 years if your impairment is considered more permanent and less likely to get better.

After you get a written notice, someone will interview you in person or by phone to explain the review process and your appeal and other rights. You will be asked how your impairment keeps you from working and about your medical treatment and any work you may have done since the latest decision. Your case then will be reviewed by an agency in your

State that makes disability decisions on behalf of the Social Security Administration. The people there will request medical reports from sources that treated you. If additional medical evidence is needed and it is not available from your sources, you may be asked to take a special examination or test at Government expense.

You will be notified in writing when a decision has been made. Benefits generally will continue unless evidence shows that your impairment has improved and you are able to do substantial gainful work. There are some limited exceptions, but they apply in relatively few cases.

If a decision is made that you are no longer disabled, you can

appeal the decision and request continue payment. You can meet with a decisionmaker during the first appeal step (reconsideration) to explain why you feel you are still disabled. If you appeal within 10 days after receiving the notice, you can request to have benefits continue. You can do this through the second appeal step (decision by an administrative law judge); if you later lose the appeal, however, generally you must repay any benefits that were not due you.

For more information about disability reviews, call any Social Security office. Look in the white pages of your telephone directory under "U.S. Government".

**Fraud lawsuit filed
against solicitors of elderly**

Attorney General Neil F. Hartigan on July 27 filed a consumer fraud lawsuit against a Texas-based mass-mailing firm that solicits the elderly on behalf of insurance companies and agents who want to sell Medicare supplemental insurance policies.

Named as defendants in the suit filed today in Sangamon County are the Senior Citizens Marketing Group and its president, Allen B. Kramer. The company also operates under the names of National Senior Advisory Center and Senior Security Benefit Services. The company is located in Dallas, Texas.

According to the suit, Senior Citizens Marketing Group mass mails thousands of solicitations to the elderly in Illinois each year. The company uses names which imply that it is affiliated with independent senior citizen organizations. The mailings often appear to be official U.S. documents and even include a Washington address. Senior citizens are asked to respond to the company's mailings by returning postage-paid cards.

The names are then sold to insurance agents, who take the purchased cards to the elderly person's homes to make sales presentations.

Hartigan said the solicitations mislead the elderly into thinking that by returning the card they will receive free information about recent Medicare changes and new insurance plans to address those changes. In reality, the information is hand-delivered by an insurance agent desirous of selling policies.

"Medicare was created to spare aging Americans the fear of economic ruin," Hartigan said. "It is outrageous that some individuals exploit these fears and create undue anxiety among our elderly."

The suit seeks temporary and permanent injunctions enjoining the firm from engaging in deceptive direct-mail campaigns.

The complaint also asks the court to fine the company up to \$50,000 per violation of the Illinois Consumer Fraud and Deceptive Business Practices Act, and to pay all costs for investigation and prosecution.

Klay elected to ATM post

Dennis A. Klay, a senior sales/service representative for ICUL Service Corporation, has been elected vice president of the Illinois Proprietary Network Assn., an association of Illinois automated teller machine networks. A Park Ridge resident, Klay joined the service corporation as a sales/service representative in 1984. He holds a bachelors degree from the University of Illinois.

Tax check-offs brought donations of \$615,922

Illinois taxpayers donated \$615,922 of the state income tax refunds they were due this year to help prevent child abuse, research Alzheimer's disease, and protect non-game wildlife, according to Sen. Walter W. Dudyecz (R-7-Chicago). "Because of taxpayers' generosity through the tax form check-offs, Illinois will be able to step up its efforts in those three areas," Dudyecz said. "The fact that all three funds topped the \$100,000 they needed in donations to be listed on next year's tax forms indicates that taxpayers

consider their work very important." Dudyecz said the Alzheimer's Disease Research Fund received \$50,000 more than it did last year, a total of \$165,539 to be used for general research grants and early research grants for persons who plan careers specializing in Alzheimer's disease. "With such strong public support, Illinois could become a leader in the drive to find the cause and treatment for this debilitating ailment," he said. The Child Abuse Prevention Fund drew the most con-

tributions through check-offs - \$257,173. "Now that we have become so aware of the prevalence of child abuse, people are eager to do what they can to protect youngsters," he said. Most of this fund goes into grants to local social agencies working to prevent abuse. The third fund, Non-Game Wildlife, received \$171,291, which will be used for projects to protect habitats of certain birds and animals and for wildlife studies. Dudyecz reported that new funds to help pay expenses for U.S.

Olympics teams and provide more services to the blind may be added to the tax forms next year, if they are approved by the Governor. "Tax form check-offs are painless and Illinoisans are showing they like this method of donating." **Honor Roll student** Two hundred and seventy-seven Trinity High School students were named to the fourth period honor roll at the end of the fourth grading period this June. Included from Niles was Karoline Wojtaik.

Anti-smoking bill gets exec backing

With legislation that would limit smoking in public places and offices facing the General Assembly this week, a new poll shows strong business support for a smoking crackdown.

A Crain's Chicago Business poll of 200 Chicago-area firms shows that 71% support legislation restricting smoking in public places. And 41% would favor a bill completely banning smoking.

A surprising 34% already either have restricted or banned smoking on the job, and 20% of companies with no restrictions said they plan to impose them in the future.

The Chicago Business Poll, conducted quarterly for CCB by First Colonial Bankshares Corp.,

surveyed the attitudes of 200 chief executives of small-to-mid-sized Chicago corporations.

"Our position has always been that (it) should be up to the employer to decide if there will be a smoking policy," said Don Hughes, lobbyist for the ISCC. "It is a general philosophical approach that we oppose government intrusion into the employer/employee relationship."

As lawmakers return to Springfield for the last week of action on bills in their house of origin, legislation is pending in both chambers that would set limits to smoking in public places and offices. This is the first time both House and Senate committees have sent bills to the full

membership for consideration. Lobbyists and legislators say both bills' chances are too close to call.

Nearly three-quarters of CCB poll respondents who have instituted smoking restrictions cited concerns about the links between smoking and lung cancer as a key factor in the decision. More than a third of the same firms were aware of the Surgeon General's findings.

Among Chicago firms that said they have implemented restrictions on smoking, 76% said they had made the policy effective immediately.

And only 25% of survey respondents said they would be likely to offer a stop-smoking program for their employees, should

the Illinois Department of Public Health to administer and enforce the act.

Of the 9% of companies that said they had instituted such programs, 61% said the programs were successful.

anti-smoking legislation be enacted. Only 3% said they had offered a cash bonus to employees for quitting smoking.

Of the 9% of companies that said they had instituted such programs, 61% said the programs were successful.

Wells...

Cont'd from Skokie-L'wood P.1

PCB upheld an earlier ruling by the Illinois EPA. Prior to the PCB ruling, two public hearings on the matter conducted by the PCB were held at the Morton Grove Village Hall in July and September, 1986.

The Illinois Appellate Court will be asked to review whether the Illinois EPA and the PCB acted properly in denying Wells a renewal of a permit to operate the specified equipment.

In requesting a reversal of the permit denial, Wells said in its brief the state EPA acted improperly by:

- Effectively reversing the ruling of the Illinois Supreme Court, which affirmed in 1978 that Wells was in compliance with all applicable EPA rules and regulations.

- Failing to inform Wells that its permit application was judged to be incomplete.

- In the absence of adopting any procedures or formats for obtaining the information required to make a decision on permit renewal, requesting a "huge and expensive" body of information far beyond that which is reasonably necessary to determine compliance.

- Using "improper and capricious" procedures in reviewing the Wells application. The company said the permit application was denied on the basis of random conversations between IEPA employees, none of which was documented, a letter which was never justified and the existence of complaints that were never verified, and which may never have even been read.

-Falling to verify citizen complaints. Wells said an IEPA field inspector's observations based on over 30 inspections of the plant and its environs in the past year alone failed to detect anything but mild or moderate odors in the residential area and no odor violations. In addition, there were no detections of phenol or formaldehyde even adjacent to the plant, and no detection of visible emission from the plant, the company said.

The company pointed out that it is located in an area of Skokie zoned for and occupied by heavy industry. Wells and its industrial neighbors are located adjacent to Niles West High School and one-half mile from a residential portion of Morton Grove. There is no zoning or natural buffer area between the industrial zoning and the residential area or school.

The result has been a series of complaints that began in the early 1970's and culminated in the Illinois Supreme Court's decision of 1978. As part of its decision, the Court held that Wells is suitable located.

Wells emphasized in its brief that the Supreme Court has examined the situation thoroughly and has applied the criteria mandated by Section 33(C) of the Act and has found that Wells was not in violation of Section 9 (a) of the Act.

"The state EPA does not and cannot allege a change of circumstances since the Court's opinion. Further, IEPA admits that Wells is in compliance with all rules and regulations stipulated by the Pollution Control Board," the company said.
