At a breakfast meeting attended by 25 of the 30 Democratic township committeemen, chairman Nick Blase stressed the need for unity. The fiasco that visited Illinois elections in 1986 has reared its ugly head again in the form of La Roche candidates on

the Democratic ballot seeking public office, this time in Cook County. "We as members of the Cook County Central Committee must unanimously support our endorsed ticket," Blase stated. Chairman Blase was joined at the dias by George Dunne, chair-

man of the Cook County Central Committee who echoed the sentiments of Chairman Blase. We intend to do a mailing, followed by the distribution of sample ballots and some old fashioned door bell ringing in

## Village Hall renamed Flickinger Municipal Center

# Hohs named Morton Grove mayor

by Joyce Hoyt

After the observance of a moment of silence in memory of the late Mayor Richard Flickinger, the Village Board turned to the business at hand—the election of a temporary mayor to fill out the balance of the term. The new mayor will serve until the municipal elections of April, 1989. The meeting was recessed while the trustees went into executive session to decide upon nominations.

Two candidates were nominated—Neil Cashman and Richard Hohs. The two trustees are the senior members on the council, but there seemed to be some controversy over the nomination of Cashman. Some trustees felt that due to the fact Cashman's son owns a business in Morton Grove that serves liquor, and the mayor is automatically a member of the

## From the Left Hand

by Bud Besser

The selection of Ray Giovannelli as Niles' new police chief was probably a "given". Niles village president Nick Blase and his friends hired a consulting firm to scour the country in search of a new police chief. It was probably nothing but window dressing since several Niles cops were exceedingly well-qualified.

When the Blase-persons announced they were combing the country for Niles' top cop, The Bugle sounded a high screeching note. Why would they go outside the town in pursuit of the top cop when so many of the guys in town were well-qualified? Giovannelli has two college degrees. Others have one or more and one of the top cops is attending law school. It would have been demoralizing had they skipped over the Niles guys in favor of an outsider.

The Bugle reminded Blase he was picked out of the humdrum 27 years ago and given a new life of opportunities which changed his life. Since this once-in-a-lifetime opportunity was at hand, we thought one of the Niles guys who've toiled long and faithfully, should have a similar chance Nick had back in 1961.

A majority of options included clustering students by grades, opening Apollo Junior High or Metzer schools and closing

smaller Stevenson School. Student clusters, for example, could include kindergarten to 3rd graders in one school while 4th to 6th graders attend a different school.

## Maine Beat

by Sylvia Dalrymple

Day in court...the Lawrencewood saga may be going into its final chapter of turbulent history now that the Niles condemnation suit against the 25-year-old shopping center is in the courts. It probably will take months before a decision is made on the case... and it's expected property owner Robert Krilich will put up a big fight to keep the 37-acre property in his domain.

A key issue is the \$5.8 million offered by the village for the property, which Krilich reportedly sneezed at. According to his attorneys, the property is worth in the neighborhood of \$10 million. As the drama unfolds at the trial, it should be interesting to see how the issue turns out in the hands of the jury.

In its heyday, Lawrencewood was a viable, revenue-producing entity and a popular site for Niles Days, as well as other activities sponsored by various civic organizations. Lawrencewood woes began in the mid-1970's when its anchor store, Goldblatt's closed its doors followed with a move-out by Walgreen's National Foods and Jupiter, a subsidiary of K-Mart.

Over the years, the village waged a battle with Krilich to bring the shopping center into compliance with municipal codes via the courts. His apparent inability to assure conformance, or to improve the aging center with outside developers, is believed to be a major factor in the village's move last June to file the condemnation suit. Big celebration...Happy 70th birthday to John L. Krajecki of Niles. His son, Mark (Bugle Newspapers) threw a big surprise party last Saturday evening at House of the White Eagle to honor his dad's big day... with almost 100 friends, relatives and Buglers in attendance to celebrate the occasion.

## Driver killed in Golf Mill accident

Thomas McDonough, 29, of Roselle, died from extensive injuries at Lutheran General Hospital after the car he was driving went off the road and struck a tree in the Golf Mill shopping center last Friday afternoon, Feb. 5.

According to commander Martin Stankowicz of the Niles Police Department, the victim may have had a seizure because of a "medic alert" card found on his person giving information McDonough had a history of seizures. "It could have been a contributing factor in the cause of the accident," Stankowicz said. Witnesses stated McDonough was driving east on Golf Rd. in the right lane, and suddenly left the road traveling approximately 200 feet along a parkway and struck a tree near the Golf Mill shopping center parking lot.

Niles firemen extricated the driver wedged between the seat and the steering wheel and transported him to Lutheran General Hospital where he died at 6:10 p.m., according to a hospital spokesman.

## Niles Fire Dept. calls

The Niles Fire Department answered 17 fire calls and 29 ambulance calls from Jan. 29 to Feb. 5.

...Firemen on Jan. 29 extinguished a small fire in a dumpster behind the Jewel Store at 8730 Dempster St.

...Firefighters responded to a lockout at 8909 Washington St. on Jan. 30. A ladder was used to reach a second floor window to gain entry to the apartment.

...A dumpster fire was extinguished in the parking lot of the Carpet Mart, 7120 Milwaukee Ave. Paint damage on the exterior of the dumpster was estimated at \$50.

...Wires were reported down at 8203 Golf Rd. on Jan. 31. Firemen were on standby until arrival of Commonwealth Edison.

...A smell of smoke was reported on Jan. 31 at 9201 Maryland. The cause was traced to meat burning on a stove.

...Someone maliciously pulled the box alarm at 8333 Wolf Rd. on Feb. 1. There was no cause for

newspaper regarding the AC&W scam," she said. "I then called the company the a man came out to inspect the system. He then told me there was no pump...just a hole in the ground."

O'Donnell added the man informed her nothing could be done to rectify the situation because the company was now "out of business."

Those charged in the scam are Andrew Warf, president of AC&W of Wilmette, Edgar Sewell, Wilmette, and Anthony Hayes, a Morton Grove resident. Hayes was arrested and charged with seven counts of home repair fraud, according to Michael Ditore, chief of the Illinois attorney general's special prosecutions unit. Warf and Sewell are believed to have left the state.

O'Donnell stated she now has to pay for another pump which may cost her another \$800. "I thought I was set for the spring rains," she said. "Other residents who have had such systems installed should make sure everything is in place so they won't be surprised in the event of flooding in the future."

O'Donnell related she contacted AC&W to check the system and after a two-month delay, a salesman came to the house and after an inspection said she needed a new ejector pump.

The salesman contracted for the work in the amount of \$800. "I assumed he had installed the pump until I read a Chicago

**CIRCUMCISION**

To circumcise or not to circumcise: that is the dilemma many expectant parents face as the birth of a child approaches. Jewish boys are automatically circumcised 8 days after birth in a religious ceremony marking the covenant between God and Israel. Moslem boys are circumcised at 13 to emulate the age when Mohammed was circumcised. The USA is the only western nation which extensively practices nonreligious circumcision. If you walk through a male locker room, you'll see how widespread it is. Until recently, few questioned this practice and doctors advocated circumcision for health and hygienic reasons. Most parents followed their doctors' recommendations.

The number of circumcisions is declining because of negative publicity. Magazine articles and books have appeared claiming the health benefits are exaggerated, circumcision is a barbaric mutilation, and even that "many circumcised adults have had bad psychological after-effects caused by a sense of deprivation and a loss of wholeness." The U.S. Army has just released a report supporting circumcision, citing data that a very high percentage of uncircumcised soldiers suffer recurrent, painful urinary infections. Circumcised soldiers rarely have these ailments. The area under the foreskin of a penis is an ideal spot for the accumulation of dirt and the growth of disease-causing bacteria. Proper cleaning reduces the incidence of urinary infections but does not eliminate them. Other studies reveal the wives of uncircumcised husbands have a low incidence of vaginal infections. I urge all obstetricians to read this report and to act accordingly. I hope that expectant parents will consider the long-term interests of their children-to-be when asked "the question".

**HONEY VERSUS SUGAR**

Food faddists proudly proclaim they use honey instead of sugar. Honey, they claim, is a natural, nutritious, and healthful food while refined sugar is practically a poison. This is a lot of baloney. These faddists not only deceive themselves, but also reveal their ignorance of nutrition and the chemistry of sugar compounds. Common sugar (sucrose) is a pure, crystalline product derived from sugar cane or sugar beets. The sugar in honey is chemically very similar to sucrose and has identical caloric and nutritional values. Both represent "empty calories", devoid of minerals, vitamins, protein, or fiber. They merely supply energy. If honey had the nutritional attributes claimed, we would have to eat huge quantities to reap the imaginary benefits. This would give us bad teeth and make us fat.

Honey is made by bees from flower nectar. It is a water solution of sugar, colorants, and congeners which produce its pleasant taste, aroma, and color. I'm not knocking honey. But we should enjoy it for what it is and not pretend that by substituting it for sugar we are doing our bodies a favor and prolonging our lives. Nothing beats a nice slice of honey cake. When anyone in my family gets a cold, they always ask me to prepare them a nightcap of honey, lemon juice, and whiskey. Sugar just won't do!

**HINTS FOR BETTER PHOTOGRAPHY**

Photography has been my hobby for 53 years. I have exhibited my work and have been awarded prizes. Whenever I see people misusing their camera, I shudder. I often try to suggest better ways to take pictures. Some thank me, but most resent my advice and don't hesitate to tell me so. Now, I hold my tongue and let them suffer the inevitable consequences. Since you can't directly reply, I can safely present some simple, but effective pointers for better, more pleasing snapshots. So, here goes!

Flash Use - Never take a picture with a built-in flash if the subject is more than 20 feet away. Even with a large, powerful flash gun, 50 feet is the limit. Do not place your subjects directly in front of a mirror, window, or a glass pane. If you can't avoid it, stand at an angle to the lens and produce a burned out spot in your picture.

Indoors - Clear away all objects from the foreground that will obstruct the view. These will also be distracting.

Outdoors - On a bright, sunny day, always pose your subjects with the sun behind you, shining on their faces. Never take a picture with the lens facing into the sun. Avoid pictures where the subjects are in shade and you are in sunlight and vice versa.

QUESTIONS??? Any questions you may have can be directed to Dr. Walter Kramer, c/o The Bugle, 8746 N. Sherman Rd., Niles, Illinois 60648.

Judge Finnegan, a Niles resident, began voluntary work with the Commission after he was appointed to it in 1982. The Disciplinary Commission is responsible for investigating complaints brought against Illinois attorneys, primarily by their clients. Judge Finnegan oversaw the professional staff which conducts hearings to determine whether or not lawyers are guilty of charges filed against them. If the charges are substantiated, a lawyer faces sanctions including disbarment.

Since his appointment to the Circuit Court in March of 1987, Finnegan has earned the reputation of a firm but fair judge. Independent court watchers, private citizens, found Judge Finnegan's courtroom "impressive," "well-run," and rated him a "10" on a scale of 1 to 10. They evaluated him as a "nonsensical man" who is "doing an exceptional job with young people," and they praised him for "taking time and interest in the

defendants." On March 15, Judge Finnegan will be challenged in the Cook County Democratic Primary. In order to retain his position on the Circuit Court, he must receive a majority of votes that day.

number of boxes for the weekend sales. We're bringing Girl Scout cookies, synonymous with Mom and Apple Pie, to the sailors at Great Lakes Naval Base, as well," says Harriet Sarlo of Des Plaines, volunteer chairman of the cookie sale for 11 years.

"Cookie prices remain the same as last year, says Ms. Sarlo. The girls are backed by over 1,000 volunteers throughout Illinois Prairie's 30 communities. The volunteer steering committee includes Judy Neville of Niles.

Written by dietitian Eve Lowry, and food editor Carla Ennis, it includes recipes such as this one for Southern Fried Chicken.

### Happy Valentines Day!

No, it's not the color of your eyes or the way you wear your hair. No, it's not the way you walk or talk that lets me know you care... Yes, it's one special feeling beyond all description, with a meaning I cannot impart. No, there's no possible way to put it in terms, because it comes straight from the heart.

Happy Valentines Day!

## Nilesite, cohort indicted in Medicaid Fraud

A Niles man and a consultant to the Chicago Board of Health were indicted in connection with a \$306,000 Medicaid fraud scheme Monday, Feb. 9.

Indicted were Rogelio Delacruz, 48, of Niles, and Mario Rubinielli, 69, of Chicago, an optometrist and Board of Health consultant who formerly was a consultant to the Illinois Department of Public Aid.

A federal grand jury charged that from August, 1984, to August, 1987, Rubinielli allegedly billed the state for more than \$300,000 in fictitious optometry services and kicked back part of the proceeds to Delacruz for his help in the scheme, according to Asst. U.S. Attorney Mary Hankenrider.

The Department of Public Aid administers the Medicaid program here, but the federal government provides part of the funds, she said.

The federal indictment charged that Delacruz, who is not licensed to work in the state's Medicaid program, allegedly treated patients at health clinics he and Rubinielli opened at two Chicago offices.

Delacruz allegedly provided eye examinations for Medicaid recipients and prescribed glasses for patients even though they were unnecessary, according to the indictment.

The grand jury also charged Delacruz allegedly obtained Medicaid numbers from patients at the clinics and passed the in-

formation to Rubinielli, who then used it in submitting bills for eye examinations and other services he never performed, Hankenrider said.

## Tips for snowbound drivers

After surviving the recent snowfall, many drivers may be asking themselves, "What should I do if I am snowbound in my car?"

Illinois State Police, Captain George Hornyan, Commander of District 15, Tollway, recommends the following:

Stay with your car - it is the best protection you have; Run your engine 10 minutes out of every hour - this will be enough to keep you warm and conserve fuel; Make sure the tailpipe of your car is not covered with snow - this could cause deadly fumes to

back up in your car; Tie a colored scarf or cloth to the antenna or door handle - this will attract attention.

It is very important to keep vehicles in good mechanical condition during the winter months. Captain Hornyan reminds motorists to keep watch on such equipment as the wiper blades, battery, tires, windshield washer fluid, and antifreeze. Finally, Captain Hornyan urges drivers to slow down when hazardous weather conditions exist. This adjustment will make for a happier and safer winter for all.

## Dear Editor:

### Morton Grover seeks sidewalk snow removal

Dear Mayor:

I was recently made aware that some village sidewalks are not cleared of snow due to the inability of some residents to effectively respond to a major snowfall. Such a situation may result in an unintended mishap and liability charged to these residents.

As a fellow resident of Morton Grove I applaud the fine work done by the village when snow is removed from our streets.

However, other municipalities remove snow from their sidewalks as well. This avoids relying on volunteers to solve the

problem. As you know, the village once offered this service but discontinued it. Perhaps the problems which arose at that time can now be overcome.

I therefore respectfully request that the village board of trustees consider reinstating the sidewalk snow removal service. I hope that you would see fit to process this request through the proper channels. Thank you for your consideration in this matter.

Sincerely,  
Larry Goldberg  
9250 Major Ave.

## Capparelli seeks owners of unclaimed assets

State Representative Ralph C. Capparelli (D-13) is trying to locate constituents who may have funds which they have forgotten.

He is working with the Illinois Department of Financial Institutions in a cooperative effort to find owners of unclaimed assets.

"Many area residents have at least \$100 of assets waiting to be claimed," Capparelli said.

"These unclaimed assets generally consist of checking or savings accounts, dividends, uncashed payroll checks and safe deposit box contents, although they could consist of nearly any unclaimed financial asset," he said.

After assets have been abandoned or inactive for seven years, the holder of that property must attempt to locate the owner. If the effort fails, the assets are turned over to the State. The State then holds the assets indefinitely until they are claimed by the owner or heirs of the estate. To date, the State of Illinois has reunited owners with over 12 million dollars.

## State tax forms available

If you need state tax forms, you don't have to go any farther than your telephone and your mailbox.

A special toll-free telephone number, 1-800-624-2459, has been set aside for persons who want any tax forms from the Illinois Department of Revenue. The familiar "assistance" toll-free number, 1-800-732-8866, is still available for taxpayers who have questions about their taxes or require assistance in completing their returns.

In addition to the conveniences of ordering forms by phone, having a special dedicated number means your call usually will be answered more quickly.

The wait on the line for assistance can be as long as two to five minutes. Most calls to the forms number go through immediately.

Both toll-free numbers are in operation from 8:30 a.m. to 5 p.m. weekdays. Hours will be extended as the April 15 filing deadline nears.

## Coin Collector's Show

The next date for the Chicago Coin Bourse will be held at the Learning Tower YMCA, 6300 Touhy, on Sun., Feb. 14, from 10 a.m. to 4 p.m. Admission is free and there is ample free parking. Eighteen experts will have exhibits on display and will be available to appraise and identify any coins, medals, tokens or paper money presented. All persons interested in coin collecting are cordially invited to attend.

# I Bet You Didn't Know

By Jim Jennings

Here's an amazing basketball fact. Despite all the great players in recent years, nobody has ever topped the major-league record for most rebounds in a season set by Walter Dukes of Seton Hall back in the 1952-53 season. He got 734 rebounds that season to set the all-time record—but it's incredible that no one has ever bettered that record in all the years since then.

Here's an interesting question that even a lot of experts have trouble answering. Which RIGHT-HANDER in big league baseball history hit the most home runs in one season? The answer can't be Babe Ruth or Roger Maris since they were lefties, and it isn't Hank Aaron because the most he ever hit in any one season were 47. Answer is Jimmy Foxx and Hank Greenberg. Each hit 58 homers in one season—Foxx in 1932 and Greenberg in 1938.

Did you know that when the first Olympics were held in the town of Olympia, Greece in ancient times, there was just ONE event—a running race that lasted less than a minute!

## Mite House League

In a game that saw many offensive chances for both teams in the end it was strong goal tending and fine defensive plays from both the Blues and the Hawks that was to determine the final outcome.

The Blues opened the scoring midway through the first period when Jim Lubinski scored an unassisted goal and goalie Tony Turner made it stand up.

The Hawks came back to tie the game moments later as Brendan Dalton also scored an unassisted goal and when Larry Waxman likewise played outstanding goal, the defensive battle was on.

After a well played but scoreless second and third period the game ended in a 1 to 1 tie and both teams are to be congratulated for their fine play.

## St. Harry's Cagers take first place

St. Harry's Greek Orthodox Church of Niles defeated St. Demetrios of Chicago 58-42 to capture first place in the St. Andrews Holiday Basketball Tournament. St. Harry's attack was led by George Dilles (22 points), John Sotos (14 points, 14 rebounds), and Pete Demetrios (9 points). The rebounding and defense of Spyro Demetrios and Nick Drivas also played an important part in the victory.

St. Harry's advanced to the championship game with a 55-25 victory over Holy Trinity of Chicago. Dilles paced the winners with 16 points, while Sotos added 10. St. Harry's also defeated St. George of Chicago 58-38 in a first round game as Sotos scored 19 points and grabbed 9 rebounds.

The championship is the second tournament won by St. Harry's as they also took first place in the St. Peter & Paul Thanksgiving Basketball Tournament in November.

## Interesting Facts From John Jennings

Of all the U.S. Presidents in history, how many were NEVER members of Congress or governors of a state before they became President? Surprisingly, there have been only 6 Taylor, Grant, Arthur, Taft, Hoover and Eisenhower.

The reason pretzels are shaped as they are is because they were originally made by monks in Europe as a reward for children who learned their prayers-and the shape simulated hands folded in prayer.

In what famous movie was a man's mother 15 years younger than he was? Rosemary DeCamp, who played James Cagney's mother in "Yankee Doodle Dandy", was actually 15 years younger than Cagney.

The biggest airport terminal building in the world is Atlanta's airport building with floor space covering over 50 acres.

And, here's another interesting fact...

## Golf Mill'ing Around The Mall

by Linda Zachow

Greetings from GOLF MILL. Valentine's Day is almost here. Even in a huge mall where the emphasis is on material goods, the valentine spirit of love is everywhere. We would like to share some valentine vignettes on the multitude of ways love is alive at the mall.

We spoke with pretty NBA Love-a-Bulls, LORI ALLEN and DEBBIE LESLIE, at the NBA EXHIBIT last weekend. Their valentine message: "The Love-a Bulls wish all of Chicago love and happiness all year."

Shakespeare wrote, "For thy sweet love remembered such wealth brings. That then I scorn to change my fate with kings." MARLA VALEE, manager, and EDA JACOBSON, assistant manager, of ARMSTRONG DIAMOND CENTERS are witnesses to this kind of love often and especially around Valentine's Day. Most of Armstrong's business is wedding rings. Marla told us an average of about 50 couples a day seeking engagement/wedding ring sets are common for this time of year.

One doesn't have to change their fate with kings to purchase a diamond at Armstrongs. Their interest-free, 10-month charge account allows couples to concentrate on the emotional aspects of the most important commitment they will make. Marla told us, "Getting engaged is a highly emotional thing. Couples who come in are floating on a cloud. Women and men alike get teary-eyed as that special ring is chosen. Some couples get so excited they give the ring in the store. We've made many jokes about calling in the preacher on the spot at these times."

Armstrongs is also featuring heart-shaped diamonds and a three-piece heart necklace and earring set for a very reasonable price. Let Armstrongs help you select a diamond that will reflect the fire of your love and the sparkle of your joy.

While we're waxing poetic we thought we had better visit WICKS 'N' STICKS. "How Sweet It Is To Be Loved By You" (Motown) aptly describes the pungent, perfumed aroma emanating from scented candles and potpourri mixtures made of flower petals and spices. The shop is laden with beautiful accessories from frilly lace, flowers, and porcelains to gleaming brass.

Customer MARIA GOTTFRIED was in the process of having a large heart shaped candle personalized in gold by manager DARLENE WERTANS. Mrs. Gottfried told us that she really loves this store not only for their selection but also for their personal attention. The irony of the situation is that this candle is a gift for a daughter-in-law in Sweden, a country noted for fine quality candles. Mrs. Gottfried told us, "WICKS 'N' STICKS has such unique gifts that I try to buy a few items every year and ship them to Sweden. I don't want to give away too many of our secrets even though they produce some of the best candles in the world."

Darlene's impeccable taste and eye for beauty have made Wicks 'N' Sticks a place where every item exudes a distinctive beauty of its own...There's a million ways to say you care with a unique gift from Wicks 'N' Sticks.

FREDERICK'S OF HOLLYWOOD is a store that not only epitomizes romantic love but a love that extends to customers and employees alike. Last visit, manager JOY JACOBS (whose first name is quite apropos) told us about the delight and joy she and her employees feel when a customer walks out feeling beautiful after a pep talk and purchase of one of their frilly feminine garments.

"Love thy neighbor as thyself" (The Bible) also befits Joy. She shared with us how much her young employees SHERRIE SCOTT, MICHELLE MC INTOSH, ANDREA HAAZ, and MISSY VAN GEERTRURY mean to her. Their feeling was mutual. Michelle, who makes a long trek in every two weeks from college in De Kalb, said, "This is the only job I've ever loved. I come in purposely to work." Andrea commented, "It's not like going to work. It's like a fun visit to someone's home."

Joy told us, "My girls are great! I'm like their Jewish mother." That she is. She scolds them for not dressing warmly, listens and gives sage advice, and lectures them on the dangers of junk food. Fredericks recently took first place in district sales and Joy won a diamond ring. Not content to share the glory herself, she bought each of the girls a diamond and gold #1 charm. "Without the girls, I wouldn't be number one manager," she said.

Fredericks is the place to buy some of the most romantic gifts for yourself and your loved one all year—frilly lingerie, gorgeous penoir sets and laughable gag gifts for love that doesn't have to be serious all the time. For men, women, and loving service, get over to Fredericks where every day is Valentine's Day.

How do I love thee? Let me count the ways. (Browning) Try chocolates from RIVERSIDE, so beautiful they are works of art...WALDENBOOKS hottest love book: A book on Couples (Prather) and a whole selection on the topic...Top love songs at TAPE WORLD: I Live For Your Love (Cole), Say You Will (Foreigner), I Want to Be Your Man (Roger) and many more.

Until next time see you at the mall.

## Become a family day care provider

Persons who are interested in working with children in their own homes and who would like to make child care a profession are invited to learn about becoming family day care providers. Introductory coffee meetings, sponsored by the Day Care Action Council of Illinois and Wesley Day Care Center of Glenview, will be held on Monday, Feb. 29, at the Glenview United Methodist Church, 727 Harlem, Glenview from 7:00-9:00 p.m. and on Tuesday, March 8 at the Niles Township Community Center, 5255 Main St., Skokie from 9:30-11:30 a.m. A FREE 10-hour training program for new providers, Foundations of Family Day Care, will begin in late March. For further information call Cass Wolfe of the Day Care Action Council at 561-8363 or Dolores Hermann of Wesley Day Care Center at 729-0184.

There is an urgent need for quality child care providers. In the north suburban communities of Cook County there are only

3,407 licensed day care openings, enough to satisfy only 19% of the demand for child care. Wesley Day Care Center in Glenview, in cooperation with the Day Care Action Council of Illinois, has developed a recruitment and training project to help meet this need. The project is funded by a grant from the Illinois Department of Children & Family Services and is intended to both increase the availability and improve the quality of family day care, especially for infants and toddlers.

Wesley Day Care Center and the Day Care Action Council will provide: 1. Training of new providers including information on setting up a small business in the home, working with young children, and child development.

2. A lending library including equipment and toys for infants, toddlers, preschoolers, and school age children.

3. A support group, the North Suburban Providers Association, for ongoing professional training.

Wesley Day Care Center is a not-for-profit, non-denominational, community-based organization which has served the Glenview area since 1972. The Day Care Action Council of Illinois was formed in 1969 and is a not-for-profit organization comprised of day care centers, social service agencies, and family day care providers. Both organizations are concerned with quality child care.

For more information call: Cass Wolfe at 561-8363 or Dolores Herman at 729-0184.

## Israeli Summer Exchange Program

Registration is underway for the Jewish Community Project's Israeli Summer Exchange Program, sponsored by the Jewish Community Center's (JCC) Metro Teen department, Zionist Youth Foundation and the Jewish Federation of Metropolitan Chicago.

The 1988 program offers two trips to high school juniors and seniors. One group will tour Israel for five weeks and enjoy activities such as hiking, camping in the desert, snorkeling in the Gulf of Eilat and climbing Masada.

The other group will tour Israel and participate in an additional five-day tour of Poland, where the once-flourishing Jewish culture has been almost completely destroyed. The Poland will include stopovers in Treblinka, Auschwitz and the

Warsaw Ghetto and will be led by Rabbi Yehiel Poupko, director of Judaica for JCC.

Each tour will include 26 students from the Chicago area and 26 Israeli students.

"Our teens will tour the entire country and see all aspects of Israeli life in the company of Israeli teens," said Nina Kavvin, the project's coordinator.

Both trips begin at the end of June. Cost for each trip is approximately \$3,000. Scholarship information and payment plans will be available to participants. Interested students must complete application and set up interviews to be considered for the tours. The application deadline is March 1.

For more information and to sign up for an interview, call Kavvin at 675-2200.

## There are 100,000 acres in Colorado waiting for you!

Apachi's program features two summer sessions said Price. Session I is from June 20 through July 15, 1988, Session II is from July 18 through August 12, 1988.

JCC Apachi Day Camp will offer an optional, extended day program in which children can be dropped off, as early as 7:30 am and picked up as late as 6 pm., from Apachi Day Camp, Bernard Horwich/Mayer Kaplan JCC sites in Skokie and Chicago.

Programs include Junior Camp for four-year-olds; Explorer Camp for kindergarten through third graders; and Pioneer Camp for fourth graders.

Transportation is provided by a bus company in Apachi's service area which includes north and northwest suburban areas and Chicago's north side.

According to Price, Apachi is designed to offer an exciting day camp experience at a top quality facility in an atmosphere of Jewish enrichment. All interested families are invited to participate. All food service is strictly kosher and snacks are served daily, added Price. Families may arrange for lunch service or provide lunch from home.

JCC Apachi Day Camp has two heated swimming pools, a craft workshop, game room, dining facilities, tennis courts, playgrounds, boating pond, recreation hall and dance studio.

Junior Camp has a staff-to-camper ratio of one staff member for every five campers.

"This popular program is already filled, but we are taking names for a waiting list," said Malvin.

For more information about Apachi Day Camp call Gayle Brown Malvin, camp director, or Carolyn Sigall at 272-7050.

You could spend another summer doing the same old thing, or you could spend an action-packed, fun-filled summer in the wilds of Colorado—among the evergreens and aspens. It's a region rich in lore and legend, where Indians once hunted and eagles still soar, where the majestic Rockies reach up to the sky and the White River lives up to its name.

White River is anything but your ordinary camp. It's more like several camps in one—lots of sports (leagues and clinics) and loads of fun, in truly awesome surroundings. Our camp site is four hours west of Denver, along an eight-mile stretch of unspoiled river, surrounded on all sides by the 100,000 acre White River National Forest. You can hike

and camp on flat top mountain trails or explore Spring Cave.

Sports include tennis, kayaking, soccer, white-water rafting, baseball, a Red Cross swimming program, basketball, riflery and skeet shooting, hockey, archery, and more.

Recreational activities include jeep rides above the tree line, mountain hiking, nature walks, and overnight camping trips.

Creative activities include rocketry, arts and crafts, acting, musical theater, computers, cooking, and a TV production workshop where you'll actually write and film a piece of video.

There's also a 4-H-type program where you'll get a chance to work with an animal, such as a sheep or goat, for four to five weeks, and then show your

animal at a county fair.

White River Camp activities aren't restricted just to camp. There'll be trips to fairs, rodeos, and sporting events, too.

Since most growing boys and girls think food is mighty important, we take food seriously too. Not only do we serve humungous portions of home-cooked food in our dining rooms (where you can have all the food you want)—but there'll be plenty of picnics and barbecues too. Plus there's a "saloon" where you can drop by during the day for snacks and a cold sarsaparilla.

We may look young, but we have a world of camping experience. The average age of our enthusiastic White River Camp staff is 23, and many of us have worked in summer camps from 5 to 15 year.

Our camp director, Tony Zanin, has had over 30 years experience in camping.

When we say this camp feels like family, we're not kidding!

## Brickton Montessori School's summer theatre program

This summer, Brickton Montessori School is working with Michael Bacarella, a local Chicago actor, to run a Summer Theater Program for children, age 6 and older.

Mike has been a professional actor for nine years and has appeared in movies, TV shows and commercials. Besides acting, Mike has a wealth of experience which includes animation, improvisation, puppeting, clowning, make-up and special effects.

Under Mike's directions, the Brickton Players would produce a play to perform at the end of the session. While working on the play, the children will be exposed to various facets of the entertainment industry that will enable them to be better judges of the material they see in movies and on TV.

Brickton Montessori is located at 5200 N. Cumberland Ave. in Norridge. Call 496-0444 for more information.

## Free referral service for summer camps

A free advisory and referral service, to help parents select the right summer camp for their children, has been instituted by the American Camping Association (ACA), the national accrediting body for camps in the U.S.

The referral program is available by calling ACA consultants who will help determine the right camp selection for your children, including type, cost, location, length of stay, specialty and camp philosophy. Counselors

will match criteria with accredited camps and send parents the names of three or four summer camps which meet the criteria. Parents also receive a list of interview questions to ask in the final selection process. An interview with the camp director is the most important aspect of the camp selection. It can help assure that the summer will be a special time in a child's life.

For the free American Camping Association referral service call 332-2499.

## North Central to offer MBA

North Central, a 127-year-old independent college of the liberal arts and sciences, will introduce a master of business administration degree program next fall as it expands its efforts to meet growing demands for graduate-level, business-related courses by employers and employees in and around the Illinois Research and Development Corridor.

The MBA program at North Central will be offered only on weekends, but students will be able to complete the program in as few as one and one-half years of study. All courses will be offered on campus in Naperville.

The program is open to qualified students from all undergraduate majors. It is flexible in design to meet the special requirements of both the recent baccalaureate graduate and the career professional who is enrolling in business courses for the first time as he or she attempts to move into or up the management

structure. Sixteen courses comprise the MBA program and elective emphases are available in business, financial, marketing, and information management. Special attention will be given to the development of leadership, communication, and critical thinking skills through individual and group projects.

## Nelson students help less fortunate

Nelson School Student Council recently sponsored a food drive for needy families of Maine Township. Cans of food were brought to school to be given to these families to help them celebrate a nicer Thanksgiving.

For its December project, the Student Council again participated in the United States Marine Corps "Toys for Tots" program. A representative from the Marines came to speak to the Council members about the collection of toys for the needy children. Student Council members then reported back to their homerooms about the program.

The Student Council will sponsor a Brown's Chicken lunch on Feb. 24. The money collected will be donated to the Alan Brin Leukemia Foundation in memory of Alan Brin and Sharon Hellbrain who were students at Nelson School.

Nelson School is one of five schools in East Maine School District 63 and is located at 8901 N. Ozanam Ave., Niles.

## Scholarship applications

Applications for Illinois General Assembly scholarships are available at State Senator Walter Dudyecz's (R7) district office until March 1, 1988.

The eight scholarships will pay tuition and activity fees for the 1988-89 school year. Four will be awarded to 7th District students attending the University of Illinois at both Chicago and downstate campuses. The other four will be given to constituents attending other state schools, including Chicago State, Northern Illinois State, Eastern Illinois State, Southern Illinois State, and Southern at Carbondale.

"Rising costs are forcing many students to cut back on the amount or quality of higher education they pursue," Dudyecz said. "These scholarships will help eight people who might otherwise not be financially able to attend or finish college."

Applications will be reviewed by a citizens committee appointed by Dudyecz. Scholarships will be awarded for undergraduate or graduate studies based on financial need and scholastic ability.

The necessary forms are available at the district office, 5946 W. Lawrence Avenue.

## Winter enrollment up at North Central

When Fall Term classes for the 1987-88 academic year started at North Central College last September, 2,196 students - the largest number ever in the 127-year history of the independent college of liberal arts and sciences - had enrolled.

And when official figures for Winter Term were released by the Office of the Registrar on Jan. 20, that steady pattern of record-setting enrollments which has characterized the College's growth in the last decade had continued.

Total enrollment for Winter

Term is 2,162 students, up 6.6 percent over last year. Included in that total are 2,005 undergraduates and 157 graduate students who are enrolled in the College's master of science in computer science program.

North Central's student body is composed of 1,100 men and 1,062 women. Sixty-one percent of the 2,005 undergraduates attend classes full-time, but just 30 of the 157 students enrolled in the graduate program in computer science are registered as full-time students.

## Girls in Graphic Arts classes

Graphic arts classes aren't just for guys anymore as three Maine East girls can successfully testify.

Senior Jennifer Arndt of Park Ridge is enrolled in Graphic Arts Processes, which meet 4-5A, and after graduation she plans to go on with graphics at Triton, with one of the top small graphic arts programs in the state. Where did her interest in graphics come from? Well, an aunt in California publishes a neighborhood newspaper, and this was a major influence in pursuing a career in graphic arts.

January graduate Jo Ellen Skoke of Park Ridge took a graphic arts class because her boyfriend is a professional printer, and she wanted to gain a better understanding of what he does for a living.

Senior Ramona Minkley of Morton Grove is in her fourth year of graphic arts. Some of the things she is learning about are how to design and prepare artwork and make a negative into a plate and run it onto a press. Like Jennifer, Ramona will attend Triton next fall, majoring in darkroom photography.

"The girls have been conscientious in class and interested in the field," said graphic arts teacher Ron Rathberger, noting "more women enter the field every year because they face few restrictions to hinder their advancement and promotion."

Felician College fine arts programs are now listed under the title Montay Fine Arts Center of Felician College. The center adopted this name in honor of Sister Mary Innocenta Montay, founder of Felician College, in Chicago. While the center remains part of and operates under the authority of Felician College, the new name provides an opportunity to give recognition to the person whose vision served as the cornerstone of this institution. The center has grown from a single teacher instructing nineteen students to fourteen faculty teaching the fine arts to 170 students of all ages.

New instructors include James Lyons, Jr., who leads the newly formed Montay Community Chorus.

## Community colleges celebrate College Month

More than four million students took credit classes at America's community colleges last year, representing over 41 percent of all undergraduate students and 55 percent of all first-time freshmen in the United States. Nearly 9,000 students were enrolled at Oakton Community College. Oakton will join with more than 1,300 other community, technical and junior colleges nationwide to celebrate National Community College Month in February. It is a celebration of past success and future achievements of their students.

"More and more Americans are choosing community colleges for their educational needs," said Oakton President Thomas TenHoeve. "Our ability to provide diverse programs and specialized services makes community colleges an affordable option for everyone."

TenHoeve said the role of community colleges has expanded in the past 50 years to keep up with the nation's changing needs. In this time, the number of community, technical and junior colleges had grown from 553 in 1937

to 1,222 in 1987. "Because we are community-based, we are responsible to meet the needs of our specific district," explained TenHoeve. "Through educational partnerships with local business and industry, and with elementary and high schools, we are able to keep up with the changing educational and technical demands of our residents and provide them with the education they need to succeed."

"The community college's ability to respond to change and initiate programs to meet the needs of business and individuals has given the institution the opportunity to broaden its educational scope. "We literally have something for everyone at Oakton," said TenHoeve. "We offer quality programs including liberal arts, transfer, pre-engineering, data processing, hotel-motel management, electronic technology, plus hundreds of non-credit continuing education and community service programs."

Oakton's programs attract a cross-section of the community. Men and women, young and old,

attend classes during day and evening hours. Students include women who are returning to school after raising their families, recent high school graduates, industrial employees interested in upgrading their job skills, retired adults, and persons preparing for a second career. In addition to credit classes, nearly 10,000 students attend the adult and continuing education program, MONNACEP.

"People come to Oakton for several reasons," TenHoeve said. "While our low tuition cost, smaller class sizes, experienced faculty and convenient location attract some, others find our broad range of programs and pleasant learning environment appealing."

"We are proud of our students and our service to the community," said TenHoeve. "We invite all community residents to join with us in celebrating National Community College Month at Oakton during Showcase '88, a college and career fair from 6 to 9 p.m. Tuesday, Feb. 16."

## Nilehi Schools among top AP schools

For the second year in a row, both Niles West and Niles North High Schools are among the top 50 midwestern schools in the number of Advanced Placement (AP) tests their students took in 1987. Niles West ranked seventh and Niles North 27th in AP participation according to the College Board, which prepares and scores the AP examinations.

Niles West also ranked 42nd among the top 50 midwestern schools when AP participation was related to the size of the 1987 senior class. It was the only Illinois public high school to be named on both lists.

In the 13-state Midwest Region, more than 40,000 students from 1,542 high schools participated in the 1987 AP program. They wrote almost 56,000 examinations. The College Board's test results for the Nilehi schools show that last year Niles North's 128 participants wrote 233 examinations, of which 91.4% received grades of 3 or higher. Niles West's 206 students wrote 386 AP examinations, of which 91.4% received grades of 3 or higher.

The Student Council of Mark Twain School held a bake sale recently and raised a substantial amount of money. At the PTA Open meeting on Jan. 11, 1988, they presented a check in the amount of \$50.00. These funds are to go towards the purchase of new playground equipment.

Mark Twain School is located at 9401 N. Hamlin, Des Plaines and is one of four elementary schools in East Maine School District 63.

Traditionally, students prepare for the AP exams by following a sequence of instruction that can include Honors level and Advanced Placement level courses. These are designed to challenge students of outstanding ability. Subject matter is broader and deeper than in regular classes, the pace of instruction is faster, and critical thinking is emphasized.

"Our counselors do an excellent job of encouraging students to participate in the Advanced Placement Program," states Niles West Principal Don Ring. "And our teachers provide the kind of academic challenges students need to earn AP grades high enough to be eligible for advanced college standing or college credit," adds North Principal Tom Giles.

### Gottlieb fundraiser

George S. Gottlieb, candidate for U.S. Representative, 11th Congressional District, will be honored at a dinner-reception at Nancy's Banquet Hall, 4256 N. Central Ave., on Feb. 11 from 6:00 to 10:30 p.m.

"The opportunity for Republicans in Cook County to win is greater than ever before," Gottlieb said. "The primary will prove that working, middle-class families want voices in government that will stand up for their causes and not merely go-along for self-serving interests. These hard-working citizens are tired of paying an unfair share to make up for the deadbeats who don't pay, make no effort to pay, and won't pay. Voters today are looking for candidates who will stand up to the issues. That is why," Gottlieb predicts, "the Republican Party will gain a substantial amount of new and cross-over voters."

Gottlieb said that he would be glad to discuss specific issues of concern at his fundraiser on February 11. Tickets are \$25 per person and are available by calling Citizens for Gottlieb at 792-2769.

### Democrats unite behind Aurelia Pucinski

The campaign of Aurelia Pucinski, candidate for clerk of the Circuit Court of Cook County in the Democratic primary, received a major boost this week as Cook County's top Democratic leaders joined to endorse her.

Among the leading Democrats joining the election committee of Aurelia Pucinski were House Speaker Michael Madigan; George Dunne, president of the Cook County Board; Chicago Mayor Eugene Sawyer; Cong. Dan Rostenkowski (D-8th); State Comptroller Roland Burris; Hispanic leaders Gloria Chevere and Ben Reyes; County Com. John Storger; Chicago Treasurer Cecil Partee; former Ald. William Singer (43rd); Ann Stepan, 43rd Ward Committeeman; and State Rep. Jesse White Jr. (D-8th).

Also on the Pucinski committee are: Cong. Frank Annunzio (D-11th), Ald. William Banks (36th), Niles Township Committeeman Nicholas Blase; Nina Busse, Judy Calder, James Caldwell, Howard Carroll, Jerome Cosentino, Ken Cortesi, Maria Domico, Bernard Hansen, Neil Hartigan, Mary Hegarty, Irene Hernandez, Maria Behily

and Ben Reyes; County Com. John Storger; Chicago Treasurer Cecil Partee; former Ald. William Singer (43rd); Ann Stepan, 43rd Ward Committeeman; and State Rep. Jesse White Jr. (D-8th).

In a letter sent to Sutker on Jan. 18, Schoenberg challenged Sutker to four debates, all to take place well before the March 15, 1988 primary election. He proposed that debates be held in each of the townships within the district. Though Sutker was challenged for his House seat in 1986, he did not debate his opponent during that campaign.

"Cal Sutker represents the old political school of thought that once you're in office you have no obligation to represent the needs of your constituency. He may think that that's OK, but I think it's a reprehensible attitude," he added.

With three years in office, Schoenberg said, Sutker "has failed to take initiative to introduce substantive legislation. He has missed important votes on key issues—perhaps because he didn't realize that they were the very issues that 56th District residents care about."

Schoenberg said he expects the debates to force Sutker to "come out into the open and at least tell the voters where he stands" on issues such as utility costs, pay equity for women and economic development.

The 56th Legislative District includes Niles, Northfield, Maine and New Trier Townships and the villages and cities of Skokie, Des Plaines, Park Ridge, Niles, Morton Grove, Glenview and Wilmette.

### Schoenberg challenges Sutker to debate issues

Jeff Schoenberg, Democratic candidate for election to the Illinois House of Representatives from the 56th Illinois Legislative District, has challenged incumbent Cal Sutker to debate "issues important to the district's voters."

In a letter sent to Sutker on Jan. 18, Schoenberg challenged Sutker to four debates, all to take place well before the March 15, 1988 primary election. He proposed that debates be held in each of the townships within the district. Though Sutker was challenged for his House seat in 1986, he did not debate his opponent during that campaign.

## Irish Dance competition

Kellyann Brennan, a junior at St. Scholastica High School, has been a member of Mark Howard's Trinity Academy of Irish Dancing of Chicago for four years, although Kellyann has studied Irish dancing for 10 years.

Kellyann recently discussed her love for Irish dancing and her interest in the culture of Ireland with another Irish lass, singer and harpist, Mary O'Hara. Mary O'Hara was here to make plans for her concert to benefit St. Scholastica High School to be held on Saturday, February 20th, at 8:00 p.m. in the school

auditorium.

The Trinity Academy of Irish Dancing competed in the World Championships of Irish Dance in Salthall, County Galway, in Ireland this past year. They were the only United States team in the competition after qualifying in competitions here. The Senior group, of which Kellyann is a member, won 1st place in the Senior Drama division which requires a story told in dance. The participants were aged 16 years and over. The Trinity Academy Junior Drama Troupe (16 and under) took 2nd place in their division.

## Arroyave Academy teaches 13 languages

In today's shrinking world, nations are increasingly dependent on one another, and this includes the United States. Isolationism is past history. We see an increasing need for Americans to become proficient in another language. This is particularly true among those being trained for overseas assignments in government, business, educational or religious missions; or to head up a foreign executive post. International understanding and cross-cultural communication are essential skills.

Whether one travels to soak up the sun on Mexico's sunny coasts or to negotiate a contract in Japan, knowledge of a foreign language is needed for good public relations, besides being a plus for any post with an international flavor. Japanese companies in Illinois alone have billions of dollars invested.

Basic communication is the pass-word for improved relations between countries and corporations at the conference table.

It is not uncommon to hear stories of U.S. executives—and, at times, scores of American personnel—being sent abroad with no knowledge of the language, geography or customs of the country in which they will live and work.

Guillermo L. Arroyave, director and founder of the Arroyave Academy of Languages, cites the case of an international lawyer from a very large company, who

for several years postponed the needed study of Spanish in his job and who started learning the language only after his 20th trip to Puerto Rico, without counting his trips to other Spanish-speaking countries.

He also points out that many factors illustrate the increasing internationalization of marketing and trade. In recent years, the number of Americans working abroad has increased dramatically. In addition, many of them are now employed by foreign-owned companies in the U.S.A.

Elementary and high schools should offer foreign language instruction, and colleges and universities must raise their standards by requiring knowledge of a second language for graduation.

There has been little support for foreign language or geographic study in this country's schools. "In Illinois public grade schools, geography is not taught on its own...and it's possible to be certified in social studies without ever taking a course in geography."

The North Shore is fortunate to have the Arroyave Academy of Languages, located in Highland Park (433-3190), and Arlington Heights (392-5350). Arroyave welcomes telephone queries about the 13 languages his staff teaches, and insists that they are not afraid to quote fees over the telephone.

## DeVry offers BS degree in telecommunications

LOMBARD - DeVry Institute of Technology in Lombard has a program in Telecommunications Management that leads to a Bachelor of Science degree.

The eight-semester program is applications-oriented and incorporates fundamental business principles with voice and data communications, quantitative analysis and computer applications. The program is designed to prepare graduates to become immediately effective in entry-level business positions in both service and manufacturing industries and to enhance their potential for a career in telecommunications management, according to Jerry Dill, president of DeVry Institute of Technology.

"The breakup of the giant Bell System and rapid advances in voice, data and image transmission have created a growing demand for professionals who can manage all aspects of a company's telecommunications operations. Increasingly, operations will rely on managers who understand the interaction of evolving technology and business, and who know how to design and manage a complex communications network," says Dill.

"The program provides students with an understanding of both the practical applications and the theoretical background needed to plan and design voice/data telecommunications networks, develop budgets for telecommunications equipment and services, purchase new systems, monitor equipment installation, and analyze and improve office information flow," Dill added.

DeVry Institute of Technology is part of the DeVry Inc. network of private postsecondary education campuses. The institute also offers a master's degree in Project Management; undergraduate degrees in Com-

puter Information Systems and Electronics Technology; a Digital Electronics Technician diploma; and a Telecommunications Installer certificate.

For further information about the Bachelor of Science in Telecommunications Management program, contact the Admissions Office at DeVry Institute of Technology, 2000 South Finley Rd., Lombard, (312) 953-2000.

Seniors can choose one of two performances on Wednesday, Feb. 17, or Wednesday, Feb. 24. Both performances will be preceded by lunch at nearby Niko's Restaurant in Summit. Cost of the trip, including deluxe motorcoach transportation is \$27. Guest reservations at \$32 will be accepted after Feb. 4 on a space-available basis.

The intergenerational cast will perform musical routines from vaudeville to World War II in an extravaganza featuring elaborate costumes, sets and special effects. The song and dance numbers will provide an opportunity for the school children to learn American musical history first-hand while

returning the favor with love, kisses and a few new steps of their own.

Maine Township Seniors can enjoy the musical review at one of two luncheons to be held at noon Wednesday, Feb. 3, and noon Thursday, Feb. 11, at Brigante's Banquets, 2648 Dempster, Des Plaines. Cost of the luncheon is \$7 for members. Guest reservations at \$8 will be taken on a space-available basis for Feb. 11 only.

The show's 12 song and dance numbers include an all-male Can Can, "Singing in the Rain" accompanied by choreographed umbrella antics, and an all-cast ride on the "Chattanooga Choo Choo" towing a children's caboose. ## Children's Ballet at Skokie Library

Inesse Alexandrovich, ballet teacher and choreographer, brings A Ballet Valentine to Skokie on Sunday, February 14 at 3 p.m. This production, an original piece, is part of the ongoing celebration of Skokie's centennial year.

Ms. Alexandrovich is a graduate of the Bolshoi Ballet School in Moscow and teaches ballet dancers using the Bolshoi and Kirov teaching methods. These techniques were used in the training of such outstanding dancers as Rudolf Nureyev and Mikhail Baryshnikov.

A performance by Ms. Alexandrovich's troupe has become almost a yearly tradition at Skokie Public Library. Judging from the number of Alexandrovich-trained students who are currently soloists, prima ballerinas and dance teachers, the audience may well be seeing future professional dancers on stage on February 14.

Free tickets for the performance will be distributed one hour before show time on a first-come, first-served basis. Recommended for all ages. The Library is located at 5215 Oakton Street in Skokie.

## "Ben and Me" at Field School

Face to Face productions will present the performance of "Ben and Me" at the Field School, 707 N. Wisner, Park Ridge, February 22, at 10:30 a.m. and 1 p.m. "Ben and Me" is the intriguing tale of Ben Franklin and his pet mouse Amos.

Inspired by the practices of the ancient storytellers, Face to Face productions strive to bring the audience into a dramatic encounter with historical and literary figures who have become a vital part of our heritage.

The Field School P.T.A. is sponsoring the production as a part of their continuing Cultural Arts program.

## From the Left Hand

Continued from Page 1

The appeal we made on behalf of Niles' finest was a bit schmalzy, a bit emotional. But, despite the years of bumping heads with Niles Mayor, we've been aware Nick has a heart. And when you can't appeal to Nick through cerebral channels, you go to that soft spot just below his left shoulder.

The selection of Giovannelli completes a Daily Double which is strictly by league. Blaise and friends did themselves proud when they chose Harry Kinowski to head the first department. Now, with the new police chief choice, they made two excellent selections which should give Niles great leadership well into the 1990's and perhaps into the 21st century. It's likely both men will still be heading their departments after Blaise and his friends have retired from public office. Hopefully, they will stay

in place when the new politicians take over.

The passing of Morton Grove's mayor, Dick Flickinger, saddens everyone who knew him. Despite his previous bouts with illness he remained actively in office. Dick was a fighter who bucked the old-timers in town in bringing Morton Grove into a more progressive era.

While Morton Grove's overall efforts are no more significant than their neighbors, nevertheless, their gun ban ordinance gave the community a bit of national recognition. Monday, The New York Times, the newspaper of record in the United States, had an article about the passing of Flickinger, noting he led the town's efforts as one of the first in the U.S. to ban handguns.

## Gleichman... Continued from MG Niles-E. Maine P.1

The list of 15 options was released verbally but not in writing either to the public or press at this time because of its preliminary nature, said Gleichman.

In presenting the list, however, Gleichman said he is not retracting an original recommendation to house 6th grade students from crowded Nelson and Stevenson schools at Gemini. To date, 7th and 8th grade students attend Gemini which is the district's only open junior high school.

Under Gleichman's original plan, 6th grade students from Mark Twain and Washington schools will remain at their respective schools. Also, all special education students who are to be mainstreamed, or placed into a regular academic setting, will be sent to Washington and Mark Twain.

Apollo, the district's second junior high school, was closed in 1981 due to declining student enrollment but, according to Gleichman, provides the financially ailing district with needed revenue from two tenants, Northridge Preparatory Academy and the Center on Deafness.

It is probable the district will lose both tenants if they are forced to move, he said. Both parents and teachers seem to be united in opposing Gleichman's first plan which many termed "educationally unsound" in dividing 6th graders and a "band-aid" approach to district problems. About 50 persons attended Tuesday's meeting and approximately 200 parents protested Gleichman's recommendation at a February 1 meeting.

## Daley to attend Seniors Meeting

Cook County State's Attorney Richard M. Daley is scheduled to attend the Feb. 23 meeting of his Senior Advisory Council beginning at 10:30 a.m. at Maine Township Hall, 1700 Ballard Rd., in Park Ridge.

The council was created by Daley to advise him on the needs and concerns of senior citizens in the judicial district, which includes Des Plaines, Niles and Park Ridge.

defray such costs as traffic lights, sewer extension and road improvements. The arrangement allows for money to be repaid through future sales tax revenues from the shopping center.

According to Niles Village Trustee Abe Selman, chairman of the finance committee, Niles can sell bonds to defray the cost of improvements and then retire the bonds through sales revenue from the project. Skokie's portion of the site is 70 percent and 30 percent is on the Niles side. Niles allocation under TIF is \$5.5 million for the AT&T property, he said.

Selman explained construction costs for the development are the burden of developers who do their own financing for the project. TIF is restricted to improvements only (traffic signalization, public utilities, road and sewer improvement, etc.). "Any unused funds under TIF may be utilized for other property in Niles as long as it is within the financing district," Selman said.

He added village officials will meet with developers in the near future to discuss "reasonable expenditures" for improvements on Niles portion of the property. The finance committee will then make a recommendation to the village board for final approval, he said.

The villages must also agree on how to provide such services as fire and police protection and public utilities. "There is a tentative agreement to have joint coverage for the entire site to avoid confusion in the event of a fire or police problem," Karshna said.

Seymour Taxman, whose Taxman Corp. is developing the center with Trammell Crow Co., said the first phase of construction is scheduled to start on the Niles side this spring.

The project cannot begin, however, until AT&T gives both villages required documentation that any hazardous waste has been removed from the site.

alarm, and the system was reset. Firefighters on Feb. 3 went to 8213 Golf Rd. on a report of a transformer fire. A check showed an arcing power line, but there was no hazard. Commonwealth Edison was notified.

On Feb. 3, firemen reported to TheHuntington, 9201 Maryland where they found the building was without power because of a power failure in the area. Firemen shut off both elevators and then went to the 9th-floor to let out an occupant by using an electric key. The elevators were then secured and residents were advised about the power failure.

On Feb. 4, firefighters extinguished a fire of trash and a mattress in a dumpster at 7120 Milwaukee Ave.

Firemen on Feb. 4 responded to Imperial Eastman, 6300 Howard St. where they found a sprinkler head had been knocked off by a broken overhead door on the building.

A fire alarm Feb. 4 at the Regency Nursing Home, 6631 Milwaukee was attributed to an overheated vacuum cleaner. A check showed no fire hazard.

Una Shah and Ines Fernandez won blue ribbons, while Stephanie Powers and Todd Kanotorczyk took home red ribbons. Among the third-year students, blue ribbons went to Jo Anne Lorente, Tom Spahis, and Marilyn Friedman; a red ribbon to Francine Josephson. Though first-year students, Dori Moses and Jordan Sanders earned blue ribbons in the second-year contest.

These students' Spanish teachers, Judy Park and Steve Rosenzweig, encourage their students to enter this particular contest.

every township in Cook County. We can only hope the press will follow suit in sounding the alarm. Each of the candidates is pledged to work for the entire ticket, Blaise concluded.

Guest speaker, Aurelia Pucinski followed that theme in noting the county ticket will be making a city and suburban mailing in concert with a radio campaign to inform the electorates of the qualifications of this blue ribbon slate.

The following candidates have received the endorsement of the Cook County Democratic Party: States Attorney - Richard M. Daley; Clerk of the Circuit Court - Aurelia Pucinski; Recorder of Deeds - Carol Mosley Braun; Board of Appeals - Joseph Berrios; Metropolitan Sanitary District - Joseph Gardner, James Kirie and Harry "Bus" Yourell.

## Morton Grove Historical Society

The Morton Grove Historical Society will meet Feb. 16, at 7:30 p.m. in the Baxter Room of the Morton Grove Library. Mark worked for almost a year on the surprise party, including collecting photos of his father during different phases of his life wedding and family pictures etc. for a pictorial collage that was on view at the restaurant. It can be said...no greater love hath a son for his father.

Wedding belles...Niles Historical Society will go on a nostalgic trip in May with its exhibit of period wedding gowns and christening clothes. Military weddings of the past will be depicted with the gal back home.

Anyone interested in loaning stored-away uniforms (all branches of service) should call the museum at 390-0160. Future brides should take a look at the exhibit to get some ideas for their own big day.

Around the area...Bob and Nancy Bobowski of Niles had a great time vacationing for three weeks in Mexico taking in the sights at Cancun, Porta Morales near Playa Del Carmen and quaint Rio Indio. Joining the couple for a week were Nilesites Ron and Irene Morgan...with Nancy and Ron scuba diving at Porta Morales where they spotted a shark among the reefs. The shark, however, was looking for other fish in the sea.

On the political side...The latest word from Committeeman Nicholas Blaise is that Maine Township Democratic Organization will throw its support behind U. S. Sen. Paul Simon for President. According to Blaise, Maine Dems will support Simon because he is personally likable, well qualified and an Illinois native.

Among the locals to represent Simon at this summer's convention is E. Lillian White of Niles. Birthday greetings...to Bene Stein, former manager of Golf Mill Theatres and now manager of the Morton Grove Theater.

Traditionally, the social is under the chairmanship of the Post Senior Vice Commander.

## District 63, aides reach salary accord

by Eileen Hirschfeld

Following a January impasse in negotiations between a union for teachers aides and East Maine Elementary School District 63, board members approved salaries for 31 aides based on the district's final offer. Salaries were approved at a Tuesday, February 9 meeting.

Following board action, aides will be paid an annual salary ranging from \$9,026 to \$11,343 if they have 30 hours of college work and from \$10,571 to \$12,918 with four years of college credit.

According to Judi Voller, president of the East Maine Teachers' Aides Assn. (EMTAA), union members asked for a 7 percent salary increase for the 1987-88 school year. Voller said a 7 percent increase would be equivalent to that received by custodians and 1 percent less than that received by regular teachers. There are a total of about 31 full and part-time aides in District 63.

EMTAA also asked for inclusion of a "fair share" agreement in contracts between aides and the district. The latter would provide all aides hired by the district be obliged to pay EMTAA dues, she said.

In other action, board members resolved to consider four additions to board policy, including one for students with chronic communicable diseases such as AIDS, tuberculosis and hepatitis.

Other policy additions will be for employees with temporary illness or incapacity, unpaid disability leave and employee inability to evaluate and observe.

Following the second reading at Tuesday's meeting, the items

may be voted on at the next regular meeting which is February 23.

Teacher Rhoda Greenberg, reporting on the district's 1987 summer school, said about 331 students, or about 80 more students than the previous summer, attended four week sessions at Stevenson School.

The summer school staff was "very professional" and school "ran smoothly," said Greenberg. If possible, she suggested courses be instituted for youngsters who will begin first grade the following September.

As a "private citizen," library board member Robert Quattrocchi spoke to board members asking them to support a library referendum this March. He said that without additional revenue, the library may lose the bookmobile and be forced to curtail its hours.

Superintendent Dr. Eldon Gleichman proposed 15 options to relieve crowded school conditions by this September. His original plan to send 6th grade students from Nelson and Stevenson schools to Gemini Junior High School (a 7th and 8th grade facility) met with protests from teachers and parents. However, Gleichman has not retracted the proposal because any other options may force the district into opening Apollo Junior High School as an attendance center thereby losing revenue from the school's two tenants, Northridge Preparatory Academy and the Center on Deafness.

District 63 serves students in Niles, Morton Grove, Des Plaines and unincorporated Maine Township.

Following the second reading at Tuesday's meeting, the items

## Preschool and kindergarten screening at Niles Elementary

On March 1 a screening of children between ages three and five will be done at Niles Elementary School, 635 W. Touhy Ave., in Niles. This screening is a chance for you to have teachers and the school nurse meet your child prior to the beginning of school.

At the screening, teachers will talk to your child, ask questions, do some simple activities and observe how your child responds. Physical growth is checked to see that normal developmental milestones have been reached. Following these activities, teachers will share their comments with you and give you an idea of any activities you should do with your child before the beginning of school next year.

You will be asked to complete advance registration papers for school enrollment. In all, the process takes about 45 minutes.

The screening is especially important for children who may have special needs, such as poor hearing or vision, overactivity, physical needs, or difficulty remembering. Often the school finds it is able to reduce the concern of parents about how their child will fit into the school with the simple assurance that everything is normal. For parents of children with special needs, arrangements can be made in advance of a child beginning school to make these important first days successful.

If you have a neighbor who has a child in this age range, please give them this article. There is no charge for this service. All children about to begin kindergarten should be screened even if the family anticipates moving out of the area.

For more details, please call Niles Elementary School at 947-9752.

liquor commission, there might be a conflict of interest. Cashman strenuously objected to this belief. By a vote of 4-2, Trustee Richard Hohs was elected mayor. He was sworn in by Judge Martin Ashman, former Morton Grove Corporation Counsel.

Formally accepting Trustee Hohs' resignation, the trustees again retired into executive session to nominate a new trustee. Newly-elected Mayor Hohs nominated Daniel Scankler whom the late Mayor Flickinger had often tried to persuade to go out for the Board. Trustee Henry Zachowicz nominated Judy Flickinger for the position. She thanked the Board but said she knew her late husband would have wanted Scankler. Scankler then withdrew the nomination and Scankler was unanimously confirmed. Trustee Donald Sneider made a motion to renege the Village Hall the Richard T. Flickinger Municipal Center which was unanimously passed. Mrs. Flickinger said it was a great honor to her late husband's memory. Flickinger was instrumental in the establishment of the Village Hall, the former Grove School.

Mayor Hohs announced on Thursday, Feb. 28 there will be an Open House for new homeowners in Morton Grove. It will be sort of a giant "welcome wagon" to acquaint new residents with the businesses and services the village has to offer.

departments, according to Marcheschi.

"We have to see what happens at Lawrencewood before we decide what to do with the site," he said. "If no use can be found for the property, it will probably go on the market."

Marcheschi added village officials at the time were also considering the purchase of additional property to the north of the corner for easier access to the site, but the plan has been dropped.

The property, which is located across the street from the police station, would have given the village a fourth corner at the Touhy-Milwaukee intersection, giving it a more hypothetical center of town image.

However, if the Lawrencewood suit is successful, a centralized location for the various departments on a large acreage at the shopping center will better serve the interests of both the village and residents, Marcheschi explained.

Niles filed the condemnation suit in June, 1987 and is expected to go to trial at the Cook County Circuit Court this week.
