NEWSPAPER DISTRIBUTION ACT OF 1980

In May, 1980, Senator Harris Wofford and Representative Barney Frank introduced legislation in Congress to make state Medicaid programs pay for Medicare Part B long-term care. The legislation was introduced as a result of the increased number of elderly patients who are in need of long-term care.

The legislation passed the House but was not acted upon in the Senate. The Senate Finance Committee has yet to take up the legislation, although the Senate has already passed a bill that would provide more money for Medicare.

In June, Senator Wofford introduced a bill to amend the Social Security Act in order to make it possible for states to provide long-term care through Medicaid.

The bill would authorize states to provide long-term care through Medicaid if they meet certain criteria. The bill would also provide for the establishment of a national program of long-term care insurance, which would be voluntary and available to all residents of the United States.

Volunteers needed to deliver meals

In order to meet the demand for meals delivered to elderly persons, volunteers from the Morton Grove Senior Citizens are needed.

Volunteers are needed to deliver meals to the elderly in the Morton Grove area. The meals are delivered to the elderly in their homes and are paid for by the Morton Grove Senior Citizens. Volunteers are needed to deliver the meals on a weekly basis.

MEDICARE COVERAGE

The Medicare program provides coverage for hospital care, physician services, and prescription drugs. The program is voluntary and is available to all residents of the United States who are 65 years of age or older.

Some of the greatest
innovations have suffered from a lack of vision.

Lots of great ideas come and go. Among them, a loan as described as the "future of filmmaking" and "the most revolutionary advance since the industry." Pretty one-dimensional, to say the least.

But it turns out, 3-D did teach us all something. Like, no matter how much fanfare an idea gets, it still has to be a good one.

What we're looking for, at First of America, were committed to the satisfied Customer Guarantee.

And, what that means is that if you have a problem, we'll solve it. Or if you have a question about any facet of our service, we'll answer it.

And if for any reason you're not satisfied with us, we'll do everything we can to reach a solution.

The print being, we want you to be happy with your banking. No ifs, ands, or buts.

So stop by any First of America branch location and pick up a copy of the Customer Guarantee.

Because while some ideas look great at the time, it's much better to put them in the proper perspective.

Letters to the Editor

Seeks healthy MG business climate

Dear Mr. Hoover,

The Board of Trustees of the Millville Public Library Charter on the Second Wednesday of December, which appears on the June 5, 1988 meeting.

I am writing to draw to your attention the need for the Library to increase its revenue in order to meet the needs of the community.

The Library currently relies on a local property tax to fund its operations. However, this source of revenue is not sufficient to cover the increasing costs of providing services to the community.

I would like to suggest a number of ways to increase the Library's revenue. One possibility is to increase the property tax rate. Another option is to seek additional funding from local businesses or organizations.

I believe that the Library can play a vital role in the community and I urge you to consider the need for increased funding.

Sincerely,

[Author's Name]
