Wendy's gets nod to enlarge Niles eateries

by Maureen F. Deasy

In a continuation of the heated meeting of November 7, 1988, a skeleton zoning board approved two revised requests put before it by a representative of Wendy's

restaurants at the Monday night meeting. Board Chairman John Frick and Commissioner Andrew Przybylo were absent. Secretary

Sydney Mitchel was appointed acting Chairman. The resignation of Commissioner Thomas Boyle was announced. Boyle

Bomb hoax rattles Niles jeweler

A mystery woman driving a blue car delivered a camouflaged bomb to Lampert Jewelers, 8800 Dempster, Niles on December 27. The gift wrapped package was found to contain three cylinders marked dynamite, a clock and

batteries. An explosive technician from the Cook County Special Police Detail determined the "bomb" to be a toy. The dynamite was false and the batteries were used to operate a

Hunt for new manager to begin following budget hearings

Niles begins search for manager

by Nancy Keraminas

Niles' next Village Manager will likely be a different type of administrator than outgoing Village Manager Jack Hodge, according to Mayor Nick Blase. Hodge, who turned in his resignation December 20, will become the Village Manager of Teaneck, New Jersey after February 3. Said Blase, "When we hired Hodge, we had certain priorities and the man did what he thought he had to do." Blase went on to explain that he and the Niles Trustees will now examine the needs of the Village and the direction it will be headed before embarking on a search for Hodge's successor. "We're not desperately looking

for a manager," said Blase. "The Village runs and we have good department heads." Niles is in the process of preparing the budget for the next fiscal year and Blase said this is not an appropriate time for an administrator to begin. Along with a new budget, there will be a new agenda set for the Village. According to Blase it will be at least two months before an active search for the next Village Manager will begin. Once the trustees arrive at a new budget and once priorities are established, the Mayor and Trustees will know the qualities they are looking for in the next person they

Great thoughts we forgot to mention.....

If Sunday's Chicago Bears were at 100% strength and had Dent, Fencik, Gault, Marshall, Payton, The Fridge, Gayle and Wilson playing their best games, they still would have lost to San Francisco. In every sport there are games when one team is playing at the top of its game and become unbeatable. The winning team is not necessarily the best team. But on that given day the winner becomes unbeatable. Last Sunday there wasn't any football team which could have beaten the Forty-Niners.

I'm sure there have been studies in sports psychology which consider the rather ephemeral phrase "momentum". In the World Series certain baseball teams, as well as baseball pitchers, have had a series which they were never able to duplicate, during the rest of their careers. But during that one glorious game or series, they played at the top of their game. In basketball more than most sports, the sudden turning around of a score results from one team suddenly believing they're unbeatable and playing above and beyond their normal gait.

The other great thought about the Bears is their championship season may have been a rare event. The year they won they had everything going for them. It was a

MG Board postpones decision on new eatery

by Nancy Keraminas

The issue of citizen involvement with Morton Grove affairs figured prominently in the first 1989 Village Board Meeting held January 9. A decision on one ordinance was deferred for two weeks when Trustee Lewis Greenberg suggested that citizens had not been amply notified about a special review involving a food retailer wanting to rent space in Highland Square Shopping Center. Citizens objecting to a food retail outlet in that location will have a final chance to voice their concerns January 23 at the next regular Village Meeting. Later, there were some testy remarks between Mayor Richard Hohns and Trustee Henry Szachowicz regarding the issue of district representation in Morton Grove versus the current electoral system. Three other Trustees concurred with Hohns that the citizens of Morton Grove did not want to change their present system.

911 on April ballot The first ordinance passed by Morton Grove in 1989 authorizes a referendum vote on the question whether Morton Grove citizens will agree to a 75 percent surcharge on each of their telephone lines to pay for

installation of an enhanced 911 system. Introduced by Trustee Henry Szachowicz, the authorizing ordinance will allow citizens to be polled on the following question: "Shall the Village of Morton Grove impose a surcharge of up to seventy five cents per month per network connection on telecommunication carriers, which surcharge expense will be added to the monthly bill you

HOBY Ambassador selected

Maine East sophomore Carolyn Choi of Morton Grove has been selected to represent Maine East as an Ambassador to the annual Hugh O'Brian Youth Leadership Foundation Seminar, scheduled for late spring.

The international program began in 1958 when O'Brian returned from Africa where he spent nine days working and talking with Dr. Albert Schweitzer. Inspired from this meeting, the legendary lawyer Wyatt Earp decided to establish the HOBY Foundation in hopes of motivating young people to realize their leadership potential.

MG Mayor, trustee clash over ward vote

by Nancy Keramias

Trustee Henry Szachowicz registered surprise when Acting Mayor Richard Hobs read a stinging criticism of "some members of the local press" who have "pressured and badgered" him about ward representation for Morton Grove. The three page statement, read to the Village Board, reporters and others in attendance at the January 9 meeting, chastized Szachowicz indirectly and asked those in attendance, "Can you truthfully recall any individual or group of citizens, irate or not, clamoring or asking for time on our agenda, to change our form of government? Certainly not."

Responding to implied criticism that he is stonewalling an attempt by Szachowicz group to have the Board pass an ordinance requesting a Village-wide referendum on the matter, Hobs first reminded the audience, "this chair cannot make a motion of any nature." Village Attorney Jordan Kaplan underscored Hobs remarks regarding the Mayor's voting status on the Board.

'Thinking skills' rate high in District 63

by Eileen Hirschfeld

Eight sixth grade students from Mark Twain School in East Maine Elementary School District 63 demonstrated higher level thinking skills developed in a Humanities Enrichment Program (HEP) at a regular district board meeting Tuesday.

Mark Twain school is located at 9401 Hamlin in Des Plaines.

Youngsters defined critical thinking and quickly answered sample puzzles of every-day problems with figurial sequencing and the comparison of similarities and differences. Board members as well as the public sometimes were stumped by similar puzzles handed out by the youths.

Day care programs available in local area

Area after-school programs help working parents

by Nancy Keramias

When a child makes the transition from nursery school or babysitter to elementary school, a parent may experience relief from childcare costs but the advent of kindergarten is accompanied by a new worry—what to do with the child between 3:15 and 6 p.m. The parent of a five year old may even opt to keep their child in a private program when it is impractical to transport a child between daycare to kindergarten and back to daycare each day.

By the time a child is old enough for first grade, parents face the anxiety of selecting a suitable childcare arrangement which will at once be safe, reliable, and stimulating for their child.

Several public agencies have school-based programs to fill the time gap between school and home. Niles has a limited program consisting of dance classes at Niles Elementary School for grades two to four. Niles students lucky enough to attend Nelson School of Washington School are included in a program sponsored by the Morton Grove Park District.

According to Sue Burton, Recreation Supervisor, the MG Park District offers the after-school program at Nelson, Washington, Hynes, Park View and Golf Schools as well as at Prairie View Recreation Center. Children have crafts, snacks, holiday parties and special programs in addition to being offered study time. According to Burton, some of the special programs have been pizza days, movie days, cultural heritage days, cooking and sculpture classes. Parents donate snacks and there is an emphasis on the part of staff to encourage the furnishing of "healthy snacks."

Burton has a special regard for the program based on its important function for working parents. "I want to make this program the best it can be." There are two or more staff members per site who are "on the phone" if a child is late or doesn't show up. Burton says parent response to the "compassionate, qualified staff" is very positive as well as to the program, now in its fourth year.

Two programs, one offered by School District 63 in Des Plaines and that offered by the Skokie Park District, appear to be modeled for those parents in a quandary about what to do with the child before the regular school day starts. According to Mary Ellen Bleden, Director of S.P.A.R.K. (Special Programs Arranged for Kids), District 62's

A caregiver is usually an adult who cares for an ill or infirm older adult. Who are most of these caregivers?

- 75 percent are female
- their average age is 46
- 66 percent are married
- only 37 percent share a household with the care recipient
- approximately one third of caregivers became caregivers because they live in close proximity to the older person; eight percent because they have a closer relationship with the older person and 16 percent "because no one else would do it,"
- 31 percent of caregivers have the added responsibility of caring for children under age 12 and 23 percent care for children ages 12-17

This group of people are typically described as the sandwich generation, where they are sandwiched between a younger and older care recipient. Two local organizations that specialize in working with such people are: "Caregivers" home health, 792-5019 and "Kellogg Respite Care Project" of Evanston Hospital, 492-6410. 1989 MEDICARE CHANGES

Significant changes in benefits and premiums for Medicare enrollees for 1989 include:

-Hospital care: Medicare will pay all allowable charges for hospital stays for an unlimited number of days after a \$500 deductible.

-Nursing home care: Beneficiaries will pay \$25.50 a day for the first eight days in a skilled nursing facility. Medicare will then pay all allowable charges through 150 days.

-Hospice care: The 210-day limit is removed for terminally ill patients.

-Spousal impoverishment: The spouse of a Medicaid beneficiary who receives care in a skilled nursing facility can keep half of the couple's assets or \$12,000, whichever is greater, up to \$40,000, plus a monthly income of at least 122 percent of the federal poverty level for a couple (\$786 a month).

-Premiums: Optional "Part B" coverage increases its premiums by \$3.10 to \$27.90 plus \$4 for catastrophic care, bringing the monthly premium total to \$31.90.

Supplemental Premium: Medicare enrollees with a federal tax liability over \$150 will be taxed \$22.50 for each \$150 tax liability.

POSITIVE THINKING

People who habitually see themselves positively may be healthier, happier and more successful than their more pessimistic peers. According to Dr. Shelly Taylor, psychologist at UCLA, many people who have an "unrealistically positive view of themselves, exaggerated perception of control over their environment and unrealistic optimism over their situation" work longer and harder than their less positive counterparts. And they are often rewarded for their perseverance. Said Dr. Taylor, "The strategies for success we see in business publications today are tactics for developing positive illusions."

Legion Auxiliary feted by past commander

The Morton Grove American Legion Auxiliary Unit #134 recently held a meeting after which refreshments were served to them at the Memorial Home, 6140 Dempster, by past commander Tad Kimura.

This was Kimura's method of saying thank you for all the physical assistance as well as culinary dishes prepared by the women for the various blood drives and dinners which the Legion Post sponsors.

Kimura, blood drive chairman for the American Legion, has long been active even in the village, initiating the Legion blood drives after he was instrumental in helping begin the Morton Grove blood program.

The ladies of the Auxiliary are always happy to help serve and prepare the food for these after-blood drive meals.

Past commander Joe Schmidt and past commander Don Huber assisted Kimura in presenting the report of wine, mozzarella, hot beef on bread, salad, etc. Schmidt is Kimura's co-chairman in the blood donor field.

Like lines that meet in the distance

most Jewish people, from traditional to the most secularly oriented, return at the time of death to their common heritage.

Why? Because the Jewish funeral ritual is a profound expression of our common heritage, a magnet that draws us together. It honors life and gives purpose to the indomitable Jewish will to survive.

And, because we are Jewish you are assured of our commitment to follow Halachic standards and our acceptance of responsibility to those we serve as well as the entire Jewish community.

St. John Lutheran anniversary service

The oldest church in Niles, St. John Evangelical Lutheran Church (Missouri Synod), 7429 Milwaukee Avenue, will celebrate its 130th anniversary on Sunday, January 15 with special Anniversary Services at both of the Worship Services that morning at 8 and 10:30 a.m. Holy Communion will be celebrated at both services. On January 12, 1859, the German Evangelical Lutheran St. John Congregation of Niles was formally organized and that date is therefore regarded as the official birthdate of the church.

Three daughter congregations were founded by St. John members during the years: St. Matthew in 1855; St. Andrew,

Park Ridge, in 1909; and Our Savior, Norwood Park, in 1921. On January 12, 1959, St. John celebrated its centennial. One week later, a fire destroyed the interior of the 57 year old landmark and the current house of worship was dedicated November 19, 1961. The Reverend Thomas Stoebig has been St. John's pastor since March of 1984.

The guest speaker will be the Reverend Theodore Laesch, President of the Northern Illinois District of the Lutheran Church-Missouri Synod. We invite the community to join us for this festive day.

Sister Clara Frances, C.R., director of Pastoral Care, noted the prayer service is an opportunity for community members who have lost loved ones to be supported in their grief.

"We are giving family members in the community a chance to come and join us in prayer, and understand, support, and encourage those people who have lost loved ones," she explained.

For more information and registration, please contact Marian Capek, 774-8000, Ext. 5952, 8 a.m. - 4:30 p.m.

Niles groups extend a helping hand

While there are not the number or kind of problems in Niles and the neighboring affluent suburbs as there are in the city, there are some of the same problems everywhere. A sudden job loss, illness family breakups happen everywhere and at every time of the year.

This Christmas season the parishioners of St. Michael's Orthodox Church, the men of the Niles North American Legion, the Niles Women's Club members and the members of the Niles Community Church, went to special effort to identify and reach out to individual people in crisis during the holiday season.

Organizations with a personal touch, an individual approach, a community concern, are hard enough to find and the greater area around Niles can be grateful that there are so many groups and individuals in this area who understand that a crisis can happen to anyone at anytime and that it hurts just a little more during the holidays. These groups are aware and for several years have made a difficult time a little easier.

A special appearance of Ronnie Rice in Concert will be held at the Synagogue on Saturday evening, February 26 at 8 p.m. No tickets will be sold at the door. For further information call the synagogue office at 965-0900.

Northwest Suburban Jewish Congregation Men's Club will have a used book sale on Sunday, February 5, 9:30 a.m. until 4 p.m.

It's a family affair at Traeger Furs

Not only is Traeger Furs owned and operated by two generations, Arnie Traeger and son Barry, but they have served more than two generations of obviously satisfied customers. Traeger Furs is located in Skokie at 7941 Lincoln Ave.

Their pride in quality and workmanship is equalled only by their determination to create the "perfect" garment suited to the customer's needs.

The personal touch is what puts Traeger Furs in a class by itself. We're "quietly" becoming the most talked about furrier on the North Shore. Why?

Because we discount year round. Our reputation is growing from word of mouth because we sell top quality furs at real prices, have a service department that is second to none, and carry a selection of furs...hand-picked by Arnie and Barry Traeger that is incomparable.

Anybody can sell the "cheapest furs in town" but it takes a special person—a furrier—designer-buyer-fashion expert.

Our policy is this...we will not sacrifice our reputation by selling cheaply-made, poor quality furs that are not the latest fashion designs. We will, however, continue to sell our now "almost famous" lines of beautiful, practical, toasty warm furs at discount prices, far below what you would expect to pay for furs of this quality. We speak softly, but carry a large reputation.

People are talking...where does one go to buy a fur today? You can go to a warehouse or factory and buy one right off the rack...at a very low price. Low price...ditto for quality and service.

Or you can go to Traeger Furs...a family of real furriers, with an incomparable selection of top quality furs, expert service, professional alterations, remodeling and custom-made fur garments...priced to sell...realistically. For further information, call 673-5078.

Traffic Hints

by Secretary of State Jim Edgar

Many Illinois motorists agree that the right turn on red law is one of their favorite traffic laws. The law moves motorists through intersections quickly saving valuable time. However, when motorists fail to stop and yield the right of way before turning right on red, accidents can result.

The right turn on red law permits a right turn at a red light only after you come to a complete stop. Look for traffic on the street you are entering and yield the right of way to any vehicles or pedestrians in the adjacent crosswalk. Then make the right turn cautiously.

Before turning right at a red light, stop sign or uncontrolled intersection, look down the sidewalk and past parked cars for pedestrians and cyclists. Pedestrians and cyclists can help to ensure their own safety by watching for drivers who are turning right. Even if you have the walk light, look for cars that are preparing to turn before stepping off the curb.

Motorists also can turn left at a red light after stopping if they are turning from a one-way street to a one-way street heading left.

A 72 year old Wheeling woman was struck by a car at Golf Mill Shopping Center December 20 at 1:27 p.m. The driver of the vehicle, a 52 year old Northbrook man, claimed he was blinded by

homes was gained when thieves broke basement windows with a hard object. One of the major articles stolen was jewelry. The last break-in occurred in the first week of January.

The situation is under investigation by police at this time.

Harassing phone calls...

A female resident of the 8100 block of Monro reported an anonymous caller harassed her numerous times in the middle of

the night. The caller also left unpleasant messages on the victim's answering machine.

Winter motoring requires change in driving habits

Because winter weather often makes driving hazardous, motorists must adjust their mental and physical driving habits when adverse weather conditions prevail, according to the AAA-Chicago Motor Club.

During the winter, motorists often have to drive at slower speeds due to the hazardous road conditions and must increase the gap between their car and the vehicle in front to allow more stopping distance, AAA-CMC advises.

Using cruise control, a popular accessory on many cars, can result in a skid on slippery roads, according to Phil Arendt, AAA-CMC's manager of automotive information. "Cruise control does not allow you to ease off the gas pedal to slow down when approaching a slippery spot," Arendt said. "If the cruise control is on, and the vehicle loses traction, a dangerous skid could result in the time to turn off the cruise control."

A constant safe speed should be maintained on slippery roads, especially those that are snowpacked or icy. Sudden stops

or quick acceleration should be avoided to lessen the chances of a skid.

Roads are most treacherous when the temperature hovers near freezing and the road surface has a nearly invisible coating of ice. Overpasses and hills are dangerous spots when ice covered road surfaces often prevail.

"If a skid occurs, don't panic and don't touch the brake pedal," Arendt said. "Keep a firm grip on the steering wheel, ease off the gas pedal and steer the vehicle in the direction you want the car to go. This technique applies to both front and rear-wheel-drive cars." During the winter, a snow brush and ice scrapers should be kept in the vehicle for use as needed. AAA-CMC urges motorists to remove snow and ice from all windows for maximum visibility and make sure all exterior lights are not obstructed.

Motorists also are advised to stock an emergency kit including extra clothing, windshield washer fluid, a shovel, rock salt or sand, jumper cables, and a basic automotive tool kit.

Squirt White Rangers

The Squirt White Rangers traveled to Wilmette and completely overwhelmed the Wilmette #2 team by the score of 12 to 2.

For all intense and purpose the game was never in doubt when the Rangers scored five times in the first period and led 5 to 1 after one. They added four second period goals. The score went into double digits with a three goal third period.

The Rangers scored in just about every way possible, even strength, power play, shorthanded by one and an incredible two goals while short handed by two men.

The offense which had ten of the fourteen Ranger players score at least one point was led Jimmy Sikaras who played an outstanding game scoring 6 goals and adding 1 assist. Brother Peter Sikaras had 2 goals and 1 assist while Sean Barrett registered 2 goals with David Zawadzki scoring the first goal off a fine second effort backhander and Lambros Tragas also had a goal.

Jim Lubinski, Anthony Coletta and Gus Drivas had 2 assists each while solo assists went to Larry Waxman and Dan Frankfort.

Campus visit day at North Central

North Central College will host a campus visit day for high school students Jan. 16, and students are encouraged to visit the campus on that Monday.

The campus visit is part of a program which was introduced six years ago to give prospective students the feeling of attending an institution which U.S. News & World Report cited as one of "America's Best Colleges" in its 1988 rankings and which editors of The New York Times continue to call one of "The Best Buys in College Education" today.

Prospective students, their parents and others who are interested in North Central are asked to first come to Fireside Lounge in the Harold and Eva White Activities Center on campus. Registration will begin at 8:30 a.m. Rick Spencer, vice president for admissions and financial aid, will welcome visitors at 9:00 a.m. with an audio-visual introduction to the College.

Visitors may then choose to attend classes, tour the campus, or meet with staff members and

SJB trip to museum inspires students

The Christmas trees of the World exhibited at the Museum of Science and Industry were the main attraction on a field trip the third and fourth grade students of St. John Brebeuf took on Monday, December 5.

Sister Carol Ann and Mrs. Ellen Obirek, two of the teachers that accompanied the students, both observed the trees were better situated than last year.

The students were in awe of the decorated trees that reflected the varied cultures. Some children even pointed out the tree of the country their ancestors originated from, but the favorite was the beautifully decorated American tree, which was twice as large as all the others.

Sister Carol Ann said, "I like to make every field trip a learning experience," as she demonstrated with answers to questions at the birth of a baby exhibit along with the petroleum automobile, doll and the Heart-

students to discuss academic, admissions, athletic and financial aid questions or learn more about special programs and student services at North Central.

Faculty members will be available in the White Activities Center to discuss specific questions with prospective students from noon until 12:30 p.m., and lunch will be served in Kaufman Dining Hall at 12:30 p.m.

Daily walking tours of campus, escorted by student guides, are available throughout the academic year when classes are in session, and prospective student can call to schedule appointments on weekends or during Spring Break.

North Central began its 128th academic year on Sept. 12, 1986, with a record enrollment of 2,343 students. That total included 319 new freshmen, and applications for the Class of 1993 are up more than 25 percent over the comparable time last year.

For further information about a campus visit on Jan. 16 or at another time, contact the Office of Admissions - 312/420-3414.

SJB students enact Christmas story

On the last day of school before Christmas, the students at St. John Brebeuf School participated in an Advent/Christmas liturgy. The school choir and the first graders led the beautiful singing, as all the students participated. The "gifts" or resolutions of the first and second graders were put into the huge gift box for Jesus, after some of them were read aloud, as Russell Duszak played the drum. Pictured are the first graders who so beautifully enacted the Christmas story: Agatha

Karas as Mary and Nicky Chalupa as Joseph; Joey Stolz as Innkeeper; Jason Krynski and Vito Marchese as Shepherds; Mary Vavouliotis, Erin Sheehan, Nicole Klemendt and Laura Weibel as the Angels; and Tommie Schneider and Unkour Nath as Shepherds. Thanks to all the first grade teachers, Sheila Harrington, Colleen Moran and Sandie Lindquist, and music teacher Beverly Collins, who prepared the students so well.

Loyola to honor Towner, Wang at commencement

Loyola University of Chicago will confer honorary degrees on Lawrence W. Towner, Ph.D., former librarian and president of the Newberry Library, the Gung-Hsing Wang, former diplomat and housing expert, during the Saturday, Jan. 14, commencement ceremonies in Medinah Temple, 600 N. Wabash, Chicago.

More than 1,000 Loyola students will receive undergraduate and graduate degrees at the 11 a.m. commencement. A welcome will be extended by President Raymond Baumhart, S.J.; and Alice B. Hayes, Ph.D., vice president for academic affairs, will offer the invocation. James L. Wiser, Ph.D., dean of Loyola's College of Arts and Sciences, will give the commencement address.

Towner will receive an honorary Doctor of Letters degree in recognition of his 24 years of service to the people of Chicago as head of the Newberry Library from 1962 until his retirement in 1986. Under his leadership, the Newberry became a world-class research library housing 1.4 million books, five to six million manuscript pages, and 60,000 historic maps.

Gung-Hsing Wang will receive an honorary Doctor of Laws degree. Born in China, he earned a B.A. degree in social sciences from the University of Shanghai and a master's degree in American constitutional history and political science from Tulane University in New Orleans.

Res editors compete in Washington

Resurrection High School's yearbook and newspaper editors and staff recently traveled to Washington, D.C. to compete at the Journalism Educational Associations' national write-off.

Ms. Tamara Bernardin, Journalism Teacher who accompanied the group, related, "Our students enjoyed the trip, finding it rewarding and educational. The competition challenged them and showed them just how much they are capable of accomplishing under pressure."

Special recognition was given to the following students: Liz Pawelko who earned an honorable mention in theme page design; Jenny Schmidt who earned an honorable mention in inside page design; and Stephanie Kartofels who earned honorable mention in cover design.

Senior Jennifer Schmidt, summarized her feelings on the trip by saying, "Shadowing a Congressional Press Aide was the most exciting part of the trip for me. I had the opportunity to see both government and professional journalism in action."

Congratulations to all the girls on a job well done.

Australian exhibit at Skokie Library

An illustrated exhibit of New South Wales, Australia, will be appearing at the Skokie Public Library, 5215 Oakton, through Jan. 15, according to Secretary of State and State Librarian Jim Edgar.

The exhibit is part of a "Bridging the Distance" program sponsored by Edgar's office, the Illinois Center for the Book, the Australian Consul General in Chicago, and the State Library of New South Wales, Australia.

The exhibit, which portrays the history and social and political life of New South Wales, will be displayed at over 30 libraries throughout Illinois. It contains a pictorial display, illustrated informational books and a collection of 100 books chosen by the New South Wales State Library as representative of Australian literature.

Other features of "Bridging the Distance" include an exchange of authors and a twin libraries program that matches approximately 60 public libraries in Illinois with counterparts in New South Wales. The twin libraries share information and exchange literature, photographs, video tapes and newspapers.

Edgar said, "The aims of 'Bridging the Distance' are to broaden our knowledge of other countries and cultures and to generate interest in other services of local public libraries. 1988 is the bicentenary of Australia and a good time for Illinoisans to learn about a fascinating continent-nation."

LETTERS to EDITOR

Maine Township thanks holiday food donors

Dear Editor: On behalf of the Maine Township Board of Trustees and our staff, I would like to take this opportunity to thank the people of Maine Township for their generosity to those in need.

This holiday season many people donated thousands of dollars worth of food, including turkeys, hams and grocery store certificates as well as toys to be distributed to needy people in the community. Their generosity provided nearly 150 Christmas and Thanksgiving food baskets and 600 toys.

We were also able to provide Thanksgiving and Christmas dinners for about 30 clients of Maine Center for Mental Health's residential and day programs.

No crossing guards invited to village party

Dear Editor: Wanted to have you print this in The Bugle. This is in regard to the Village of Niles Christmas party for all employees held in December. Found out thru a neighbor that the Village of Niles crossing guards were not invited to the party this year. There are I'm sure not that many of them that the Village could not afford to invite them.

I've lived in Niles many years and I'm truly upset about that matter. It doesn't really affect

All of the unused food will be used to stock the Township's emergency food pantry for the coming winter. Additional donations of nonperishable food items are always welcome so that we can help residents in times of crisis.

The appreciative responses to our food program are extremely rewarding, and we want to share them with this very generous community. We hope to continue serving our neighbors in need and know that we can count on you, the people of Maine Township to help us.

Very truly yours,
Paul K. Halverson
Maine Township Supervisor

me but it upsets me that our Village Staff would stoop so low. They are just as dedicated employees as any of the others. They only are part time employees, not by their choice, but by the time schools are open. If school was all year they would be full time. They are looked down upon and their jobs are very important in my opinion. They have benefits as other village help.

Name withheld by request.

Annunzio announces academy nominations

Congressman Frank Annunzio (11th Dist-III) today announced the names of the young people from the 11th District he has nominated to compete for appointment to the Air Force Academy, the Military Academy, the Naval Academy, and the Merchant Marine Academy, for the classes beginning in July 1989.

Annunzio explained that there are three methods of making appointments to the Service Academies: (1) naming one principal and nine competing alternates, and (2) naming ten equal-rank nominees and letting the academy choose the best qualified.

Local nominees for two vacancies to the Air Force Academy include Brett David Youstra, 7

Smithwood Drive, Morton Grove. Local nominees to the Military Academy include Kenneth Edwards Raska, 7537 North Oketo Avenue, Chicago.

Local nominees for two vacancies to the Naval Academy include Eric Carl Fliszar, 7620 Kildare Avenue, Skokie.

Congressman Annunzio explained that Merchant Marine Academy appointments are made as a result of state-wide competition for 15 appointments for each state, rather than competition for individual Congressional appointments. On this basis, each Congressman from Illinois is permitted to make up to ten nominations which included Eric Carl Fliszar, 7620 Kildare, Skokie, and Brett David Youstra, 7 Smithwood Drive, Morton Grove.

Although engaged couples often find that the selecting of the florist, caterer, photographer, band, and all the other details that go into the planning of a wedding is exciting, they frequently are unaware of the multitude of last-minute problems that can

Planning your wedding

ANNOUNCING YOUR THREE MONTHS BEFORE THE WEDDING

Announcements should be sent to the newspapers, both in your home town and your fiancé's, if he lives elsewhere. Type or print all information. Indicate the date when you would like the announcement to appear. Allow plenty of time. Be sure your name, address and telephone number are on the upper right hand corner.

Many papers and some photographers have forms on which to fill in your name, your fiancé's name, names and residences of both sets of parents, background material on you both, and the expected date of your wedding. Society editors decide how much of this they can use. You may send along an 8" by 10" glossy photograph.

AN ENGAGEMENT PARTY

Often the bride's family wishes to celebrate the official announcement with a party for the couple. If the bride's family lives a great distance away, the groom's parents may do this, if they wish. It is absolutely essential that both the bride and her fiancé be in attendance. If this is not possible (military separation, school separation, etc.), the party must wait.

The engagement party usually includes relatives and close friends and is given in the form of a cocktail party, dinner or even a summer barbecue. Informal printed invitations should read: first line, your parents name (or his, if they are hosts); second line your name (or his); third line "To meet Thomas Johnson (or Jane Jones)." Handwritten or telephone invitations are also correct.

Determine your budget with your parents and decide whether your wedding will be formal or informal and where the ceremony will take place. Visit your clergyman with your fiancé and set the date. Plan the reception, reserve all the services you'll need. Decide which friends you wish to have for attendants. Draw up your invitation list and have your fiancé do his. Enroll with the Bridal Consultant of your favorite store and select your wedding dress, veil and accessories. Choose attendants' dresses and men's formal wear. Select the photographer. See your florist. Plan your music. Plan your home furnishings.

TWO MONTHS BEFORE THE WEDDING

Plan recording and display of wedding gifts. Finish addressing the wedding invitations. Decide upon gifts for your attendants. Select the wedding ring, if you have not already done so. Go with your fiancé to get the marriage license.

TWO WEEKS BEFORE THE WEDDING

Record each gift as received. Check on attire for everyone in the wedding party. Plan how to handle traffic and parking for guests. Arrange a seating plan for the reception. If you plan to have a bride's table at the reception, bring out place cards. Go over personal trousseau. Send your typed announcement and glossy photograph to the newspaper. Arrange for name change on social security, etc. Arrange to move belongings to your new home.

ONE MONTH BEFORE THE WEDDING

Have your hair styled as you would for the wedding. Attend parties in your honor. Make transportation plans for the wedding party. Have the final fitting on your bridal gown. Arrange for the Bridesmaids' gowns to be fitted.

Order your wedding cake and the package of groom's cake for guests to take home to "dream on."

Arrange for your rehearsal dinner if you plan to have one. Plan accommodations for out-of-town guests. Mail your invitations. Plan bridesmaids' luncheon. Prepare the newspaper announcement of your wedding. Make a household check.

ONE WEEK BEFORE

Have final consultations with caterer, photographer, florist. Give bridesmaids' luncheon. Have hair done. Plan the rehearsal and inform attendants.

Bouquet And Boutonnieres

Early bridesmaids' bouquets were made of pungent herbs like thyme and garlic—not flowers. The smell was supposed to scare away any bad fairies eyeing the bride. Even the groom wore a few sprigs. Your groom, though, will sport white stephanotis in his lapel, or a flower from your bouquet. And you will carry the traditional flowers. Why not adopt another old idea? Tuck one non-flowering thing in your bridal bouquet to plant—maybe some myrtle or ivy.

Windjammer offers tips to honeymoon planners

Prospective brides and grooms are wise to take advantage of experienced travel consultants when planning their honeymoon trips. Travel agents are qualified to recommend destinations and accommodations to suit individual couples and their budgets. They also pass along invaluable travel tips for newlyweds.

Windjammer consultants advise planning a Monday departure if your wedding is on a Saturday. The week preceding a wedding is an exhausting and stressful time, especially for the bride. The couple that keeps the day following the wedding free for packing and final arrangements, will enjoy their reception fully to the very last dance.

A very popular 7-day honeymoon package is the Cruise and Disney Week offered by Premier Cruise Lines. This includes a 4-night cruise to the Bahamas departing on Sunday or Monday, followed by a 3-night vacation at Disney World. Your stay at Disney World includes free hotel, 3-day Passport to the Magic Kingdom and Epcot Center, free tour of Kennedy Space Center,

and free Hertz rental care for 7 days. You can opt to take the Disney vacation before the cruise, if you choose. You also have the choice of cruising for 3 nights and spending 4 nights at Disney World. Either way it adds up to 7 full days and nights. Passengers stay at new modern accommodations near the Disney resort. If you make reservations 6 months in advance, you can stay at one of Disney World's own on-site resorts.

Another popular destination for honeymooners is Hawaii. Since

The Bridal Shower

At one time, marriage was a business proposition between parents of the bride and groom. Love was not important. What was? The price the groom's family paid for the bride. And the size of the bride's dowry. The first shower? A poor dutch miller fell in love with a maiden whose father forbade the match and refused to provide a dowry. The miller's friends came to the rescue and showered the bride-to-be with enough gifts to start housekeeping.

Hints for Brides-to-be

Best wishes! Wedding days can bring happy memories that you may want to keep alive forever with photographs. How to choose the best photographer for your wedding? How should you prepare for a formal bridal portrait photo session? Here are some tips and suggestions from the experts that may help you look your very best in your wedding photographs, while saving you trouble and money.

• Proper planning is important, so get in touch with your prospective photographer, as soon as you have set your wedding date to discuss your wedding photographic coverage, both formal and informal. Make an appointment to visit his studio to see samples of his work and discuss the number of photographs, sizes of prints and other aspects which will determine the final cost.

• Schedule your formal bridal portrait as early as possible before your wedding. Your schedule will be less hectic then, so you will be more relaxed and able to look your best. It will be one less thing to worry about later.

• If you come to the studio for your bridal portrait, bring the same underclothes you will wear on your wedding day, as well as the shoes, gloves, necklace, earrings, etc.

• If friends or relatives recommend someone who has pleased them, and this person displays the seal of the Professional Photographers of America, you have double assurance. The symbol means that this photographer subscribes to the Code of Ethics for Wedding Photography. It designates a professional who will be sensitive to your needs and wishes and dedicated to pleasing you with the quality of his work.

• Your hairstyle should complement your wedding gown and headpiece. It should never be extreme or fussy. An extreme or elaborate hair style will draw attention away from your face and will date your portrait.

• No amount of makeup will substitute for plenty of rest. However, do make yourself up several times until you achieve the natural look you want in your color portrait. Eye makeup is a must when you sit for your portrait because eyes without it all but vanish.

The Bride's Handkerchief

Early farmers thought a bride's wedding day tears were lucky and brought rain for their crops. Later, a crying bride meant that she'd never shed another tear about her marriage. Why not start your own bridal tradition. Embroider your initials and wedding date on a hanky, then give it to the next woman in your family to marry; she can do the same for another bride. Or maybe even do two hankies--one for your mother, another for his...wedding day keepsakes for their tears of joy.

Men's bracelet more popular

Bracelets were once an indispensable part of every well-dressed man's attire, worn by everyone from King Tutankhamun to Shakespeare. Now that men are rediscovering their jewelry heritage, bracelets are back in a big way. Wrist chains with bold, interesting links are among the most popular styles. The identification bracelet, introduced by World War II G.I.s, continues in popularity. A modern variation is the heavy chain linked to equally bold letters spelling out a man's name or initials. New kinds of wrist action for men include cuff and bangle bracelets in shiny or textured finishes, as well as wire and clamp-on styles.

The bride may choose to give her groom a wedding day present also. Her gift is entirely optional but most brides do take this opportunity to convey their love in this way.

The bride & groom exchange gifts

On their wedding day, the groom gifts his bride with a very special present that tells her of his love and his joy that she has consented to become his wife. The gift she usually wears to the altar.

The custom of a gift exchange between the bride and groom traditionally centers around gifts of jewelry. Jewelry is appropriately significant and properly sentimental for commemorating the wonderful day of their wedding. The jeweler has many winsome treasures that are exactly right as timeless keepsakes for both the bride and groom.

When planning your trip, start with a good travel agent. She can be a big help by arranging ground transportation, sightseeing tours, theater tickets and providing information about currency, passports, good restaurants and points of interest.

Whether you'll be enjoying country comforts or big city living, there are many considerations when choosing a place to stay.

•How far from the airport is it and how will you get there?

•Does the place you've chosen offer any special honeymoon packages?

•Are there sports facilities available that coincide with your interests?

•Be aware of what papers may be needed (passport, visa). Are immunizations needed?

Wedding invitations

Choosing the right invitation style for your wedding is among the most important tasks a couple must undertake before their wedding.

Order invitations three months before your wedding day to allow time for printing, addressing, and mailing. Visit your department store, local printer, jeweler or bridal salon to order them. Be sure to request a sample to check for mistakes before your order is printed.

Inviting your favorite people to celebrate your wedding is a big part of the day's fun. If you're having a larger wedding (100 or more guests) you'll want to send formal wedding invitations.

Word formal invitations the traditional way. And do write out what you want before you order. Or ask your printer to show you personalized versions. If all your guests are being invited to both ceremony and reception, consider the "combination" invitation, below.

Mr. and Mrs. J. John Sampson request the honor of your presence at the Marriage of their Daughter Teresa Dawn to

Mr. Darrell Charles Tucker on Saturday, the Fourth of August at Four O'Clock St. James Church Mt. Prospect, Illinois and Afterwards at Old Orchard Country Club

Request replies with an R.S.V.P., Kindly Respond, or Please Respond in the lower left corner, and make it easy for guests to mail them. Printed reply cards do make it easy for guests. But traditionally, they're reserved for business functions only. If you use cards, why not "code" the envelope with different stamps for your guests and his. It'll make it easier to give an accurate head count to the caterer.

Spell everything on formal invitation - the wedding date, time and all numerals, and names. No

Have your formal invitation printed in black script on the top page of a double sheet of paper in pale ivory or white. It can be paneled or plain. The most popular size 4 1/4" x 5 3/4" fits into an envelope without folding. A larger size 5 1/4" x 7 1/4" is folded once for mailing. It's for very formal weddings.

Add more "personality" to your invitations by choosing a translucent (parchment perhaps) or shiny paper in a pretty pastel or an earthy tone. Use color ink, or even a photograph of the two of you.

Spell everything on formal invitation - the wedding date, time and all numerals, and names. No

One of the first chores of marriage occurs shortly after the wedding when the newlyweds collect all their gifts en masse (after the returns) for shipment to their new home.

Together they take their lovely pieces of glassware and china,

clocks, microwave, computer and art objects to Pro-Pak, 527 Dundee Rd. Northbrook (272-0408), the packing and shipping professionals. Pick-ups are available, too.

Dan Kravitz, 34-year-old President of Pro-Pak assures the couple that all their treasures will be expertly wrapped, cartoned, insured and delivered safely anywhere in the world - from Canton, IL to Canton, China.

Or if the couple wants to use their airplane ticket to take gifts with them, Pro-Pak packages the cartons properly which can then be checked through as baggage.

Pro-Pak also provides creative gift wrapping at their customer convenience packing center for gifts being sent to the bridal couple. "Even if the gift isn't so great, said Kravitz, "everyone enjoys opening a thoughtfully gift-wrapped package - it's part of the entertainment." Boxes and samples of the large variety of gift wraps and stickers are available for ease of selection.

The BUGLE BRIDAL GUIDE

Don't turn reception into 'Wedding War'

SHE GLIDED down the aisle, a vision in white silk and lace. Father smiled. Mother cried. The groom looked smashing in his tux.

No doubt about it, marriage is back in vogue. In the Chicagoland area alone, more than 20,000 couples tied the knot last year.

What's more, the traditional wedding is increasingly popular. Even if the bride and groom are young professionals, even if they've lived together for the past three years, they want a wedding that exudes innocence and love. Romance is back!

BUT A beautiful wedding just

doesn't happen. It takes planning, work and compromise. Alas, there's nothing romantic about planning a wedding. Few social events equal a wedding for generating stress.

The cost alone causes migraines. According to a Skokie-based wedding consultant, many weddings cost \$10,000. "And couples will pinch pennies to keep the wedding at \$10,000," he said.

Money isn't the problem. Each family has a separate guest list, and guests often range in age from children to great-grandparents.

How do you seat them? What type of food appeals to everyone? What

kind of music is acceptable?

BEFORE MAKING the arrangements, the bride, groom and their families should sit down and discuss what kind of wedding they want. If the bride and groom want a small wedding and the parents want the big, splashy wedding they themselves never had, make the compromises before making the arrangements. Otherwise, every decision will be the latest battle in "Wedding Wars."

If talking doesn't resolve the differences, writing may. The couple and the family can make lists of "must have" and "negotiable" items. Looking at a written list usually helps to find where there's room for compromise.

Book the room, arrange for a clergyman, and get the dresses first. The size and color of the reception room help determine the size of the wedding and the color scheme of the gowns and flowers.

Then arrange for musicians, a photographer, a florist, make the guest list, and order invitations.

Couple has bash with party-planning business

"The entertainment is really a big part of all this," said John Belpedio who produces tapes of bands in a studio. "You know a band makes a party," said Merrill, his wife.

Their wedding party services can include any one or more of the following: designing, printing and addressing invitations; selecting a banquet hall; finding a caterer, florist, photographer and video cameraman; finding a travel agent for the honeymoon; selecting gifts for attendants; arranging rehearsal dinner; arranging for limousine service.

"We can do as little or as much as anyone would like," said John. Getting the whole bash planned cost the same as if you would go to each source. Their compensation is provided by the people they represent. Their goal to their clients is to provide them a convenience. A wedding/party

coordinator is available, at an additional charge. Videos of banquet halls also save party throwers a lot of time. Rather than visiting each hall to see if they like it, a host can view it on tape on the Belpedios' 27-inch television tube. The videos, which are done by the Belpedios, show place settings, any view the room might have, the general atmosphere and lighting.

To make certain they have a large selection of entertainers for a variety of occasions, the couple must do a lot of research that involves watching people perform at other jobs.

"On Saturday nights, if we don't have anything to do, we get dressed up and go party hopping," said Merrill.

The Belpedios may be reached at 945-1992.

Father of the Bride

As they stroll proudly down the aisle his mind races to earlier years,

When she used to skin her knees and he wiped away the tears.

Where did those tender days go, is she ready for a new stage of life?

And what about that cavalier young man, is he ready for a wife?

This time he'll give her up for good, not just a Saturday night.

He hopes that all her needs are met and that this bond of love is right.

There's so much that she'll have to learn when the ups and downs get rough.

Like patience and forgiveness and he hopes she'll have enough.

They're almost at the end of the aisle, it went by much too fast.

He needed hours more than this to fondly remember the past.

She's letting go of his arm now and the feeling tugs at this heart.

But he knows that even a husband's love will never replace his part.

He's done his best to let her grow and played the role of guide.

She'll be his daughter forever so today she can be the bride.

Try tossing birdseed at the bride

Birdseed is the ecologically safest stuff to toss at the bride and groom, says a Connecticut lawmaker who has introduced a bill banning instant rice weddings, reports International Wildlife magazine. Innocuous as it seems, instant rice kills birds that eat it by absorbing moisture, causing severe bloating, says Mae Schmdle, the legislator introducing the birdseed bill. She does not advocate policing weddings, but simply wants well-wishers to convert to birdseed.

They recently participated in the 8th International Lithuanian Folk Dance Festival in Ontario, Canada.

International Dinner co chairmen Eileen Samulson of Park Ridge and Irma Rodriguez-Erdmann of Northbrook and committee members Barbara Francois of Deerfield and Ellen Reilly of Northbrook plan to convert the gym into an outdoor cafe for Saturday's dinner, with international flags fluttering from the balconies. Faculty and staff attend the dinner as guests. The International Dinner provides a unique opportunity to celebrate the richness of cultural diversity in the Loyola community.

Since 1974, the Self-Help Center has assisted those suffering from a variety of concerns relating to mental and physical health and family life by offering the help of support groups to overcome isolation and fears. Over 2,000 self-help groups are available in Illinois, covering 350 different needs from cancer to Alzheimers Disease and AIDS. "The Center also produces a self-help directory widely used by health and mental health organizations," said Dr. Daryl Isenberg, Executive Director.

Art exhibit at Oakton

Wisconsin artist Thomas J. Feyrer will exhibit his collection of clay sculptural works at the Oakton Community College (1600 E. Golf Road, Des Plaines) Koehnline Gallery through January 27. Gallery hours are: 7:30 a.m. to 10 p.m. Mondays through Thursdays; 7:30 a.m. to 9 p.m. Fridays; and 9 a.m. to 3 p.m. Saturdays and Sundays. Admission is free. For information, call 636-1640.

Return of the giant dinosaurs

If you missed seeing the giant robotic dinosaurs at The Chicago Academy of Sciences last summer, or you've fallen for the characters in this winter's animated dinosaur film, "The Land Before Time," here's your chance to meet some prehistoric creatures face-to-face. Dino-Rama!, the blockbuster exhibit of 10 lunging, screeching, munching dinosaurs, returns to 2001 N. Clark St. for an encore January 21 thru March 27.

Once inside the heated tent, you'll walk among such giants as the fierce Allosaurus, the spiked-tailed Stegosaurus, and the pin-headed Apatosaurus (mistaken in the past for the Brontosaurus). There are two baby dinosaurs—a Triceratops and an Apatosaurus—and a couple of prehistoric animals that also lived during the Mesozoic Era: the flying Pteranodon and the spiny Dimetrodon.

Each dinosaur stands in a jungle-like setting of tropical plants and rocks—much like the environment in which these creatures lived some 65 million to 225 million years ago. The models range in size from five feet high (babies) to 15 feet high (fullsize adults). The biggest beast—an adult Apatosaurus—measures 32 feet long from head to tail, which is actually only half its body size.

The dinosaurs were constructed by Dinamation International Corp., a California-based company started by two brothers, Christ and Spiro Mays. Dinamation builds the animal

from its metal skeleton outward, based on fossil records and the advice of scientific experts. A computer—one for each animal—controls the dinosaur's movements by signaling a mechanical pump to blow compressed air through valves implanted in its skin.

The prehistoric robots aren't the only attraction at Dino-Rama! Some of the museum's most popular dinosaur games have been moved into the tent, and new interactive displays have been added. Kids can get "hands-on" experience with the past by digging for fossils, playing dino-identification games, and piecing together dinosaur bone puzzles.

Dino-Rama! is open to the public from 10 am to 5 pm daily. Admission is \$4 for adults, \$2.50 for children and seniors. Tickets can be purchased in advance from TicketMaster (call 312-559-1212), or the Academy box office (located in the museum at 2001 N. Clark Street). For more information, call the 24-hour dinosaur hotline: 871-DINO (3466).

Ticket proceeds from Dino-Rama! go toward The Chicago Academy of Sciences, a not-for-profit organization dedicated to the promotion of science literacy for all ages. Founded in 1887, the Academy sponsors field trips, wilderness expeditions, scientific lecture series, and educational programs for children and adults.

More than 30 six-foot tables (\$30 each) are available. All proceeds from the sale of table space will benefit the Employee Steering Committee's projects at Resurrection Medical Center.

Know The Rules Of Your IRA To Maximize Benefit
 By Amelia Herrera

Dennis Hammer of Lincolnwood has been appointed vice president of operations at Bank of Ravenswood in Chicago. Hammer was most recently first vice president of Devon Bank's general banking division. He has accumulated more than fourteen years of operations management experience in the financial service industry and holds a degree in business administration from the National College of Education in Evanston.

Tax-savings seminar

Talman Insurance Services, Inc. (TISI), an affiliate of Talman Home Federal Savings and Loan Association, will sponsor a "Savings + Interest = 0 Taxes" seminar at Talman's Irving Park office, 4901 W. Irving Park Rd., on Tuesday, January 24, at 7 p.m. A TISI representative will show members of the audience how easy saving more earnings and reducing the amount of taxable income can be. Reservations for this free seminar may be made by calling Marianne Seritella, (312) 434-3322, Ext. 2474. Refreshments will be served following the seminar session.

PCA staff changes

Because of staff retirements and restructuring, the Portland Cement Association (PCA) is making several key management changes effective January 1, 1989. Dr. George Barney will become Vice President for Market Development. Dr. Barney has been with PCA since 1970, most recently serving as Director of PCA's Engineering Services Division. Dr. Anthony E. Florato has been named Vice President for Research and Development. In this newly created position, Dr. Florator will oversee PCA's research programs in both market-related and cement-manufacturing areas. Dr. Florator joined PCA in 1973. PCA also announced two promotions for department heads. Richard K. Schmickle, Director of National Accounts and Field Services, will assume added responsibility for PCA programs in low-rise commercial and residential building.

Individual Retirement Accounts, or IRAs, continue to be a smart way to save for retirement. In fact, as of the end of 1987, consumers had invested more than \$362 billion in this type of savings plan and the number of participants is growing. Whether you already have an IRA or are thinking about starting one, it is important to know the rules concerning IRAs in order to maximize the benefits offered by this worthwhile investment. IRAs are popular because they allow individuals to postpone paying income taxes on retirement fund earnings until a later date. Individuals can contribute an annual maximum of \$2,000, married couples with both persons working can contribute \$4,000, and married couples with one spouse working can contribute up to \$2,250. Today, savings institutions offer a wide variety of IRAs and starting one can be as easy as opening a savings account. Although the steps required to open and contribute funds to an IRA are somewhat flexible, there are rules that govern the withdrawal of funds once you've decided to take money from your account. Under current tax laws, withdrawals, or distributions, from an IRA are allowed any time after the account holder reaches age 59 1/2. A person need not have retired to withdraw funds. If funds are distributed early, before the age of 59 1/2, a 10 percent penalty tax is applied to the money withdrawn. These funds must also be declared as ordinary income for that year and will be taxed accordingly. There are exceptions to Internal Revenue Service rules. Penalties do not apply in the event of death or total disability of the account holder. Also, the law does allow

withdrawals before age 59 1/2 without the tax penalty if you've received a lump sum payment from a pension fund or other qualified plan from an employer and have "rolled over" the payment into an IRA account. These funds can be withdrawn in a series of payments based on your life expectancy, which can be calculated using a table issued by the IRS. Tax rules also require an account holder to begin withdrawing funds after reaching the age of 70 1/2, but the withdrawals can be made in annual payments rather than in one lump sum. The minimum amount that must be withdrawn is also based on the life expectancies of you and your beneficiary according to the IRS table. As you get older and the life expectancies of you and your beneficiary shorten, the percentage of your annual minimum withdrawal increases. There is also a maximum allowable age difference of 10 years between IRA account holders and beneficiaries other than spouses. According to this rule, if you are 75, the law regards your beneficiary as 65 years old, no matter what age he or she actually is. Because of the variety of IRAs available and the ever changing tax laws, you should seek the advice of a knowledgeable specialist at your financial institution to review the options and the restrictions. New Illinois Bell area code checklists in mail

Chicago-area businesses are getting help from Illinois Bell on preparing for next year's area code addition. A year from now, November 11, 1989, a new area code, 708, will begin serving the Chicago suburbs. Residents and businesses in the City of Chicago will keep the 312 area code. "We realize there are a number of things businesses must do to get ready for this change," said Arlene Tuscano, Illinois Bell area community relations manager. "That's why we're sending out letters and checklists, itemizing some of the things businesses need to do and can begin planning to do now." The checklist includes such things as reprogramming telephone equipment, revising printed materials and advertising, updating directory listings and notifying customers/business associates/employees. Tuscano emphasized rates will not change as a result of the new area code. The cost of a telephone call will continue to be based on time, distance, and duration. Customers seven-digit telephone numbers also will remain the same. However, the way calls are dialed between Chicago and the suburbs will change. When calling from the suburbs to Chicago, callers will need to dial 1-312-the seven digit telephone number. When calling from Chicago to the suburbs, callers will need to dial 1-708-the seven digit telephone number. Illinois Bell last year announced its plan to introduce the 708 area code to give its customers time to plan for the change. The second area code is needed because the telephone company is running out of available telephone numbers.

After some discussion, board members approved purchase of a Risograp 3500 copier at a cost of \$9,950 and purchase of a warranty agreement to cost .0023 cents for machinery, parts and labor for 10,000,000 copies. An original warranty extends for 150,000 copies for 90 days.

A Risograp is now being used at Gemini Junior High School, a fact objected to by board member Norman Padnos. He said the machine is "fantastic" and two of them should be placed in the central office where the entire district can use them.

"I don't think, at this point in time, we should eliminate our offset machines," he said.

Padnos also pointed out to board members that the copier's manufacturer intends to build a factory in Downers Grove but, until he does, parts will be more difficult to obtain.

Another board member, Al Hanhart, questioned why such large quantities of copies were run off at Gemini and not the central office.

offering represents a "partnership that helps everyone out." SPARK even as a program for kindergarteners. Said Bleeden, "Kindergarten is a limbo year for mothers." SPARK's extended daycare for these five year olds is at Algonquin Jr. High. The district transports them from their kindergartens.

SPARK offers the children the "kind of things they'd do at home." While this may sound dull, consider what staff members do. "When the children arrive, we talk to them about their day. They want to talk and many want to share an experience immediately." SPARK children have Scout meetings, arts and crafts, cooking, playground time and student initiated programs. SPARK offers the much needed before school program where, for instance, one student-initiated program involved the planning and cooking of a French toast breakfast. According to Bleeden, ten percent of the area's elementary school population is enrolled in SPARK.

receiving for telephone or telecommunications charges for the purpose of installing and maintaining an enhanced 9-1-1 emergency telephone system? YES NO

Village Manager Larry Arft said there are currently approximately 13,000 phone lines in the Village. Collection of the surcharge over the two years elapsing between an affirmative 9-1-1 vote and the installation of the equipment will generate over \$200,000 in revenue to pay for the hi-tech equipment. Arft told the Board he did not anticipate needing to collect more than 50 cents per telephone number or about \$156,000 for installation costs.

Other Village Board Activity
The Trustees granted a special use permit to Mobil Oil to operate a Mini Mart service station at 9544 Waukegan Road and to Public Storage to operate an office, and mini-warehouse development with a caretaker residence on the site of 8625 Waukegan Rd. The Board denied a permit to an applicant who did not comply with required attendance at the Plan Commission to discuss a proposed car-care facility at 5944 Lincoln Avenue. Residents had noted their opposition to the developer.

Both bids were the lowest of those submitted and below the amount originally budgeted by Director of Community Development Charles Schack.

evaluation that Morton Grove is well-run. "We don't run the administrative functions. We set policy for this Village. If the people don't like what we're doing, they can vote us out."

Robert Leavitt concurred with Greenberg, telling Szachowicz the idea of dividing the Village is perceived as "political subterfuge by anyone with common sense." Szachowicz' group circulated petitions in an attempt to get the issue on the ballot but a judge later ruled the petitions needed to be signed by ten percent of registered voters rather than the five percent signatures gathered. Said Leavitt, "They ought to get enough signatures and do it right the second time - put it on the ballot legally."

Trustee Don Schneider told the Board, it would be "hypocritical for me to vote on something, I wouldn't sign." He then addressed his remarks to Szachowicz, "Get the necessary signatures. Neal Cashman did not express his opinion at the Board meeting and Trustee Donald Scanlon was absent."

season which was free of injuries and the team was at the apex of its abilities. The team had three or four years of experience playing together. It was a team which played for a previous league championship and gained additional experience. And it was a team which had several players having the best years of their relatively short professional careers. Contrary to the great thoughts of other sports people, it may be many years before the Bears play in the Super Bowl. The professional football leagues have more teams capable of winning championships than any other sports leagues. It has reached a degree of parity which no other sports leagues can match. In basketball, you can bet the mortgage the Los Angeles Lakers will be in the championship series. And in hockey and baseball the winners are much easier to predict than in professional football. The revenue from television has made the league more balanced. The bottom teams drafting the best college players first also has resulted in a better balanced league. George Steinbrenner can buy better baseball teams year after year. This doesn't happen in professional football.

Keeping with the sports idiom, this is the sports season known as hot stove league time. It's the time when baseball fans sit around the hot stove and jaw away about their favorite baseball teams. The fans make imaginary player trades and puff up the expectations of their favorite teams, two or three months before the season begins.

In local politics, hot stove league fans got to get off their stools and begin to actively get involved in April's upcoming elections.

Niles Police were able to trace the blue car that dropped off the mystery woman and gift box at the store. They trailed led to the owner of the vehicle, a Glenview woman who operates a tavern in unincorporated Cook County.

When questioned about the incident, the woman told police she loaned the car to a friend. Leaving the tavern, police questioned a male subject who approached them in the parking lot.

Upon further investigation at police headquarters, the man revealed he was the owner of the business specializing in gag gifts, including the fake bomb. He had asked his girlfriend, the recipient of the gift, to deliver the gift. He maintained he thought the recipient would easily identify the package as a hoax. The bomb recipient confirmed that he and the male subject were friends and the was was released without charge.

Spring enrollment skyrockets at OCC

Oakton Community College registration officials have reported a significant increase in enrollment for spring semester classes.

"Oakton is experiencing quite a boost in enrollment for spring classes this year. When we compared the numbers, we were up by 21 percent over last year's enrollment at this time," says John Gaglin, director of Registration and Records. "It's important that people know when and how to register as soon as possible, or the class they need may be filled," stated Gaglin.

Students who were enrolled at Oakton within the last year or have an application on file may register before open registration on January 9 and 10. Registration may be done in person at the Des Plaines (1600 E. Golf Rd.) or Skokie (701 N. Lincoln Ave.) campuses or by telephone. Students wishing to register by telephone may call 635-1616.

VFW Auxiliary Post 7712 raises money

More than \$500 has been raised so far this year by the members of the VFW Ladies Auxiliary 7712 for their Cancer Aid and Research Program according to President E. Lillian White. We are especially proud of this program because the funds are used to support research and to help our members who have been stricken with cancer defray their medical costs. Each year that we reach our state goal, funds are donated to Cancer Research institutions within our state to support their efforts to find a cure for this terrible disease. In addition to supporting Cancer Research, the members of the Ladies Auxiliary conduct numerous programs promoting Americanism, Youth Activities, Health and Safety, and Community Service.

speaker was also addressed. A newer speaker will be installed and the positioning of the new speaker will be changed in order to reduce the noise directed at the houses behind the restaurant.

Commissioner Thomas Bondi stated that he thinks "they (Wendy's) are looking out for everybody's best interests and are trying to do what they think is good for the community."

The only point of contention which was left unsettled was the blocking off of the alley with a continuous fence which would prohibit the residents from accessing Harlem Ave. through the parking lot. This settlement was left to the judgment of Wendy's attorneys because of the liability for injury of persons on the property.

hire. Mayor Blase did not rule out the possibility that an executive search firm would be used but did not feel that using such a firm was a certainty.

Hadge's strong suit was widely considered to be his financial expertise. Blase feels the Village is in good financial shape so, based on the course charted by the board in the next few months, the next Village Manager could be someone brought in from the outside or possibly someone from Niles itself. Blase denied any candidate had already submitted a resume and emphatically denied that anyone, including anyone within the ranks of village employees, was currently under consideration for the post.

As Niles enters the 1990's and goes into the Twenty First Century, an administrator would possibly need wide experience as a planner. The population of the Village is aging, as is its housing stock.

Many residents feel there is a need for housing for the elderly, who do not want to move away but need smaller, more easily maintained living quarters. According to U.S. Census Bureau projections, fifty percent of the national population will be over fifty years of age by the year 2010. In Niles, this percentage will probably be greater. The shortage of affordable housing for young families may also be on the minds of the Trustees when they consider the qualifications needed for a Village Manager.
