

Park District honors Biancalana and Rangers

by Maureen F. Deasy

The Niles Park District presented plaques to the Rangers of Niles Hockey Association and to Julie Biancalana for recognition of community service at the Feb. 21 meeting.

The Rangers of Niles Hockey Association is a volunteer parents group that not only promotes and supports the hockey teams, but also coaches the various teams for the in-house

youth hockey league. According to park district president Elaine Heinen, the Rangers are "critical to the success of our entire hockey program."

MG Electoral Board calls it 'hard decision'

by Nancy Keramias

In Lewis Greenberg's words, rejecting Henry Szachowicz' election petitions was a 'hard decision' based on conflicting legal precedents cited by both factions involved in the Morton Grove Village Board election.

Greenberg, along with President Richard Hohs held that Szachowicz' petitions were not valid because the trustee did not specify which office he was running for, a two-year or four-year

Citizen and officers to receive special commendations

Niles police nab Crain-Carol burglar

by Nancy Keramias

Additional burglary and weapons charges have been brought against a Park Ridge janitor who was arrested Valentine's Day by Niles Police acting on a citizen's tip. Gregory Donatelli, 23 years old, remains in custody because, as a parole violator, he is not eligible for bond. The suspect had admitted to at least 12 home burglaries in Park Ridge, Niles, Glenview and other Maine Township areas.

Niles Police Officer Anthony Fidenza was one of the officers responding to a dispatch message that two men were running between two houses on the north side of the 8500 block of Crain St. where police had been conducting a surveillance due to a rash of burglaries in the area. Fidenza initiated a traffic stop on a suspicious vehicle near Crain Street and Greenwood Avenue and noted a marijuana pipe on the front seat of the car. The officer ordered the driver out of the car and noted he matched composite drawings made by police in connection with burglaries, including a Glenview composite drawn from a homeowner's description of a man who had threatened the homeowner with a

Many years ago a Niles police chief was ordered to pull Henry Miller books off the bookstalls in town because of the suggestive material in the book. The Bugle yelled. The ACLU jumped on the case. And the books were soon placed back on the shelves.

There was a fundamental issue at stake which involved the freedom and liberty of every person in the community.

We now have a scenario which is world-wide which should be addressed by every thinking person. The book, Satanic Verses, by author Salman Rushdie was pulled off the shelves in Canada and France because of death threats to the author by Iranian leader, Ayotallah Khomeini.

Can you imagine France, which is celebrating its 200th anniversary of the 1789 French Revolution this year, being intimidated by such a threat? And Canada, whose heritage gave all democratic nations the ground rules for future democracies with the creation of the Magna Carta, bowing to fear in stopping the sale of this one book.

Here in the United States B. Dalton and the 1200-store Waldenbooks chain have followed suit by eliminating the book from their displays in deference to the Khomeini death threat. Since both

Morton Grove Officer, Gil Cadrecha, incurred minor injuries while arresting a fleeing drunk driving suspect on Feb. 18. Cadrecha, age 32, observed the driver of a 1989 Ford Ranger truck as he exited a parking lot in the 8700 block of Lincoln Ave. around 1:40 a.m. The Ranger headed south and east and stopped in the middle of the intersection to obey a stop sign at Lehigh and Lincoln avenues.

Cadrecha followed the truck as it went north on Ferris Ave. at Dempster St. and when the officer noted the sudden appearance of a passenger in the rear of the truck, the suspect was signaled to pull over. According to reports, the passenger advised the driver not to run, but the 21-year-old Buffalo Grove driver reportedly ran along the tracks with Cadrecha in pursuit. Cadrecha tackled the driver, who managed to extricate himself by kicking and struggling free. Cadrecha and Officer Wrasala of Morton Grove subdued the driver near the forest preserves.

District 67 plans Hynes School sale

by Maureen F. Deasy

The board of Golf School District 67 gave the administration the go-ahead on developing a proposal with detailed plans addressing the sale of the Hynes school property.

The proposal states that the Hynes school, located at 9000 Belleforte Ave., in Morton Grove be closed and that an addition to Golf Junior High School, 9401 Waukegan Rd. be built. The development of a kindergarten

through eighth grade facility on the Golf site would cost an estimated \$94,000. Superintendent Harry Trumfio stated that this would be the cheapest notion. According to a brochure put out by the district, the single school

Couples with a plus team up to lend a hand

by Nancy Keramias

While some retirees complain about their spouse being around too much, many husbands and wives team up to volunteer their efforts to help area residents.

Bob and Lois Held are a Park Ridge couple who are regular volunteers at Bethany Terrace Nursing home in Morton Grove. The pair, who will celebrate their golden wedding anniversary next August, are spending their golden years by helping the home's residents and staff members.

Lois wears a pin on her pink uniform coat indicating she has been assisting at Bethany Terrace for 18 years, almost a quarter of her life. The slim, attractive woman is also active in First Methodist Church in Park Ridge and designs linoleum block greeting cards.

Bob Held began volunteering at the home eight years ago, after retiring from a payroll accountant position at United Airlines.

"I've stood on both sides of the bed," said Held remembering how he felt as a relative with a

loved one in residence at a nursing home. Both indicate the need to "return a favor", knowing the reassurance they experienced when a caring volunteer was involved with an incapacitated relative.

Lois runs the gift shop and Bob assists with various clerical responsibilities. In addition, the pair make the rounds visiting with residents. Their devotion to the home and to each other seems limitless.

Morton Grove residents Chris and Helen Seyer are also active volunteers whose contributions complement rather than overlap each other's. Last October, the couple celebrated 52 years of marriage, the past 21 as Morton Grove residents. Helen's special area of concern is with educational programs. After active involvement with her children's schools, she began participating in activities of the Philanthropic Educational Organization when her two sons grew up. The Evanston-based chapter of PEO

which Seyer belongs to is involved in a variety of scholarship and charitable functions. Locally, Mrs. Seyer participates in the Children's Safety Day programs.

Both indicate the need to "return a favor," knowing the reassurance they experienced when a caring volunteer was involved with an incapacitated relative.

The Seyers share a home, Glenview, Wilmette, Winnetka, and Evanston organize similar programs. Alert to innovative ideas, Seyer adapted a "red light" warning system for use by home-bound adults which uses a garage-door opener type mechanism to activate the flashing strobe light in a home's front window. A disabled individual wears the transmitter in case of emergency. An avid golfer, Seyer quit one country club because he'd rather walk than use an electric cart. The

Aging, Chris Seyer organized the Senior Income Tax Program which annually prepares nearly five hundred tax returns for Morton Grove seniors, at no charge.

Senior citizen nutrition center plans

Plans for a nutrition center that would provide low-cost or free lunches to senior citizens were scrapped for the second time because no location could be found to house the center within Niles Township. The for-profit Community Nutrition Network agency was awarded a bid in September, 1987 to operate a meal site in Niles Township. The Center would serve low-cost or free lunches to any senior over the age of 60. Similar facilities operate in Evanston and Des Plaines. The problem has been finding a place to operate the center. Gary Kenzer, executive director for the Network said that they have had the money set aside for 16 months and have been searching for the optimal location but have decided to give up the search. "It's just been most frustrating. I give up. I really do." Kenzer says he has been looking for a site, preferably on Oakton, Howard or Main streets between Crawford Avenue and about 5500 west. The site must have at least 2,500 square feet, be handicap accessible and have good access to public transportation. Skokie officials amended the village's zoning ordinance to add nutrition sites as a permitted use in all except industrial zoning districts. Kenzer said "We can open up a nutrition center here. It's just trying to find a facility." At a public hearing held by the Suburban Agency on Aging, some residents suggested using a vacated restaurant in Skokie. Kenzer said that renovation costs would use up the entire allocation for operating the facility. Similarly renting a commercial building would cost too much. "We can go to any storefront in the village but we are going to pay a premium price, the money's just not there" he said. According to Kenzer, he has been told by the Skokie Park District that they do not have a facility that can be used. Peggy Gilmour, director of Skokie's office on Human Services, said that

Area fire departments seek young victims for camp

Nine young Illinois fire victims, ages 8 to 18, will be sent to a special camp in Estes Park, Colorado thanks to a coalition of various fireservice, medical and private agencies called the Illinois Fire Safety Alliance. The Illinois Fire Safety Alliance pays for all expenses. This will be the second year.

EPA delays shopping center on former AT&T site

Construction on hold for Village Crossing

by Maureen F. Deasy

Construction on the Skokie portion of the Village Crossing Shopping Center, 5555 Touhy Ave. in Skokie and Niles is still on hold according to officials at the Illinois environmental Protection Agency. The site was approved last year for development of a shopping center involving an intergovernmental agreement between Niles and Skokie. The discovery of contaminants halted construction on the Skokie portion although construction was continued on the Niles portion. The site was owned by Teletype and then by AT&T. According to Niles Director of Code Enforcement, Joseph Salerno, it was AT&T who created the problem and they are responsible for cleaning it up. AT&T is continuing to monitor the site and is undertaking clean-up efforts. Stan Block, EPA spokesman said that it has not been ascertained when construction on the Skokie side will begin. The first business scheduled to open is a Subway Sandwich Restaurant located at 5685 Touhy Ave. Site developers, Trammel and Crow and the Taxman Corporation, have said that no more restaurants will be located on the Niles portion. According to Salerno, Wards and an Office World will also be on the Niles side.

Maine Dems to fight for agenda

The Democratic slate for Maine Township Offices in the April 4 Election, have announced they will fight for issues that are important to residents of unincorporated Maine Township, if elected.

"The present Republican Township Officials have continually passed the buck on problems that are important to unincorporated residents," stated Andrew Przybilo, candidate for Maine Township Supervisor on the Democratic slate. "We will fight for their interests, rather than volley around lame excuses as our opponents have."

Przybilo stated the number one issue concerning unincorporated residents is providing them with Lake Michigan water. "The water that the unincorporated area currently has is deplorable," he said. "It is a health hazard with high radium levels that is unfit to take a bath in or even to look at. The present township officials have done absolutely nothing to fight for Lake Michigan water for these residents. When we are elected, we will send our township attorney to the Illinois Commerce Commission to tell that body that unincorporated water is unfit and demand that the utility company should look for Lake Michigan water for the area."

Przybilo outlined that Township incumbents have neglected to take action on other important unincorporated matters as well. "Township officials failed to adequately warn unincorporated residents of sewer cut-off deadlines imposed by the Metropolitan Sanitary District that will result in great expense to homeowners," he said. "They should have been on top of this development and they were not. Also, it currently takes 2 to 3 times longer for police to respond to calls in the unincorporated area than it does in other communities within Maine Township. What have township officials done to cut down this safety response gap? Nothing."

"The Republican Township Incumbents have demonstrated they are unconcerned with matters that affect the safety and quality of life in the unincorporated area. It's time that these residents have people working for them that care about their problems and will work with others to solve them. The democratic slate are these people."

SJB Golden Age Club

We want to thank Polk Brothers for the delicious meal that was served to us in Planagan Hall on Valentine's Day, Feb. 14, it was enjoyed by all.

On Jan. 17, our club received a plaque of appreciation from Mayor Nicholas B. Blase for our efforts on behalf of Little City. It is that time of year when we elect new officers. On Feb. 7, our elected slate was: Henry Piontek, President; Joan Provenzano, Vice President; Steve Bochenek, Treasurer and Margaret Roth, Secretary. Congratulations to all.

Many thanks to our outgoing president, Matt Araszewski for a job well done for the past two years.

We extend our congratulations to Mildred Licitra who was elected president and Sophie Keopke, sunshine lady of the Trident Monday Women's Club.

Every week we have a free "pick a name" raffle from the list of people who register as they arrive at the meeting. One must be present to collect. The winner is called on our last bingo game.

We welcome Katherine Dellinger back from her Hawaiian vacation and Rose and Barney Majewski from their vacation in Florida.

We are glad to see Sarah and Louis Aversano back from their sick leave.

Congratulations to Marie and Rudy Prozek on the birth of a Great-Granddaughter Kelly Louise.

Glad to see Nora Shaw back with us. Pray for Alfred and Carl Farins's son. We wish him a speedy recovery as well as Marie Skutnik and John Gallatz. Please remember them in your prayers.

Happy Birthday and Happy Anniversary to all celebrating this month.

S.I.J. 55 Plus Club

Our Valentine Party was simply magnificent. The delicious food and the music of Mario, Louis and John kept us dancing all day. Our traditional march led by Irene Seifert, Florence Lenconi and Ann Romeo was enjoyed by all. Our Queen, Mildred Bowler and King, Ray Lynch were crowned to reign for the day. The decorating committee really outdid themselves in decorating the hall with red and white streamers, balloons and hearts. The winners of "who had the most red apparel" was won by Sophie Bassi and Frank (Chico) Gioriana. Much fun was had by everyone.

Congratulations to Mildred Licitra, who was elected to President of Trident's Women's Club. We wish you much success in your new venture. At our Valentine's Party Mr. and Mrs. John Valentine Mueller were given a gift for the couple having an anniversary closest to Valentine's Day. They have been married for 56 years.

We would like to express our condolences to Albert Klosowski and family on the passing of his wife, Eva; to Vera Timko and family on the passing of her sister Mary; and to Frank Gioriana on the passing of his sister, Fannie Masell. Your prayers are requested for the recovery of all our sick members and our deceased members. A very Happy Birthday and Anniversary to all celebrating in February. Thank you to the Kitchen Crew, food servers, and clean-up crew at the Valentine party. Couldn't do it without you.

AUTO INSURANCE

Illinois citizens, age 55 and over, who successfully complete a motor vehicle accident prevention course are eligible for a possible reduction on the liability portion of their automobile insurance policy. A motor vehicle accident prevention course is a comprehensive program covering a variety of common traffic situations. Driving defensively, adjusting to adverse conditions, and studying the effects of alcohol, drugs and medication on driving are a few of the subjects discussed during the eight-hour course. The organizations providing the approved courses automatically notify the Secretary of State's office of all individuals satisfactorily completing the course. The Secretary of State's office then issues a certificate of completion of those individuals. The certificate can be presented to an automobile insurance company for a possible reduction. For the location and schedule of a local motor vehicle accident prevention course, contact the Secretary of State's Senior Citizens and Human Resources Department, toll free, at 1-800-252-2904.

HOW MUCH DID YOU LOSE LAST YEAR ON NON-DEDUCTIBLE INTEREST?

UNLESS YOU ACT QUICKLY, THIS YEAR COULD BE WORSE.

As you know, Congress is steadily phasing out interest deductions on most consumer loans. An exception is a loan secured by your home.* Which makes it a great time to apply for a home equity line of credit at First of America Bank.

A Special 20% Interest Rebate Offer. When you sign up for a home equity line by May 31, 1989, you'll receive a 20% rebate for all interest you pay this year. And we'll even waive all closing costs—an additional savings of up to \$400. But you must act by May 31.

Put The Deduction Back In Your Interest. The Federal tax laws allow you to use your home equity line of credit for any purpose you want. And in most cases, on loans all the way up to \$100,000, you still get to take a 100 percent tax deduction.

Take Advantage Of Your Tax Break. Get your tax break with our home equity line of credit. You can use this line instead of other loans that are no longer fully tax deductible. You can also access your credit line simply by writing a check. And the payment schedule is flexible, too. However, using the equity in your home is not something you should do without careful consideration. Furthermore, there are some items—like normal living expenses, for example—for which a home equity line of credit is definitely not appropriate. So stop by your nearest First of America office, or call 1-800-544-6155 for more information. We'll provide you with a free information brochure and an application. We'll also help you determine if a home equity line of credit is right for you. In no time, we can have your good credit working in your favor.

Young funeral director helps children accept death

Death is a frightening subject for many, especially children. That is one reason why funeral director David I. Jacobson devotes much of his time to educating young people about the mitzvah of "Kavod hamet"—honoring and respecting the dead. Jacobson is well-known in religious schools and camps throughout the area for his compassionate instruction on death and dying. "My hope," he explains, "is that the children will understand at an early age that dying is a part of life."

Part of his approach includes tours to acquaint children with the function of a funeral chapel. The tours are conducted at Piser Weinstein Menorah Chapels, where Jacobson is a funeral director. When he is not lecturing and teaching, he can be found conducting programs on "Death or Dying" for the Board of Jewish

Education or as a youth advisor for USY on a regional level. He is an active member of the board of directors of Ezra Habonim and of Skokie Valley Traditional Synagogue. He also conducts services and is on the board of directors of the Friday Emet Group which meets at Anshe Emet. He has compiled a brochure: "Guide to Support and Crisis Assistances".

At 24, Jacobson is already a veteran in the funeral home profession. Born and raised in Utica, New York, he acquired much of the knowledge about his future occupation while working in his parents' funeral home. He attended Xavier U. and the Cincinnati College of Mortuary Science. Upon graduation he was offered a position with Piser Weinstein Menorah Chapels.

According to Joseph S. Roth, a managing member of the firm,

David I. Jacobson

"David's comprehensive knowledge of the funeral profession, his family background, and his sincere involvement with the Jewish community makes him an important addition to our firm."

Check Social Security number on W2

It's that time of the year when you should be receiving a Form W-2 from your employer for income tax purposes. Here's an important tip: Be sure to check your Social Security number and the name on the W-2 to see if they are correct. They are likely to be correct, but if they are not, it could mean trouble for you later since the information is the key to collecting Social Security benefits.

You should not trust your memory when you check the W-2. Match the number and name on the W-2 with those on your Social Security card. You should also check your pay stub at the same time. All the numbers and names should be the same as the one on your Social Security card.

If you find differences in your name or Social Security number, you should bring the discrepancy to the attention of your employer. You should also report it to the nearest Social Security office.

Over the years, Social Security studies have shown that about 5 percent of the wage reports it receives from the Nation's employers contain errors, usually a wrong number. A wrong number can result from a single transposed digit.

When a discrepancy in the wage reports occurs, the Social Security Administration must check with the employer for a correction. If the person is still working for the employer, there is generally little problem correcting the wage report. However, if the person is not, reconciling the earnings with the correct record can be difficult.

Such errors can happen at any point in a person's working life and are sometimes not caught until he or she applies for benefits. When that happens, it can mean problems. This is because the number and name on the Social Security card must be the same as that on your Social Security records. If your employer has been reporting your earnings under a different number and it is not caught, then you may be missing those earnings from your record. The earnings on your Social Security earnings record is

the basis for eligibility for benefits and the amount of benefits.

We urge people to check their earnings records at least once every 3 years. Over one's working life, things can happen that can result in errors. This is especially true for people who change jobs frequently or who hold more than one job at a time. Each time the name and Social Security number is recorded, there is an opportunity for error. Also, many women forget to change their name when they marry, and this shows up as an error in the records.

To check your earnings, all you have to do is call Social Security. They'll send you an application for this purpose. The nation wide toll-free telephone number is 1-800-248-SSA. Call 24 hours a day, 7 days a week.

Shoe collection for homeless persons

Dr. Robert Raley, Niles area podiatric physician, has begun a campaign to collect new and used shoes for distribution to homeless persons in Illinois.

"When the winter weather is most bitter," Dr. Raley said, "the need is great for proper footwear for the thousands of men, women and children who live on streets. This program is attracting the participation of hundreds of Illinois podiatrists and their patients to meet this basic human need."

The national podiatric association adopted this program, because of a resolution introduced by the Illinois Podiatric Medical Association to which Dr. Raley belongs. "We want to see this program develop nationwide, because the need is so great." All types of shoes are needed, the doctor said, especially heavy duty, gym shoes and children's shoes. Donations can be brought to the office at Niles Foot Specialists, 6763 N. Milwaukee in Niles. Call 647-2345 for the office hours when shoes will be received. All shoes will be inspected and processed for distribution through social service agencies in the Chicago metropolitan area.

Much of the information has been reorganized and rewritten to reflect current practices, policies, code requirements and terminology.

THINK OF THEM AS BIG BROTHERS FOR YOUR KIDS.

It's sad. We can't take it for granted anymore that our children will make it to school, or the store, or the movies, and back.

We can't be sure it's safe for them to play in the park, or the schoolyard, or even the front yard, alone.

Until we can again, until they're finally out of danger, we're turning every Edison employe into family. To give kids in trouble or lost someone to turn to, someone who cares, when there's no police officer close by.

It's not a solution to the problem by any means, but it's a start. A team effort that all of us at Commonwealth Edison take very seriously. Especially the hundreds of crews we have working out on the streets.

Your kids can spot our trucks a long way off. When they see that big E in our logo, or the E-team emblem, they'll know they're among friends.

Please, tell 'em to look for us.

First Colonial announces record quarter

First Colonial Bankshares Corporation (NASDAQ/FCOLA), today announced that its fourth quarter performance was a record \$39 per fully diluted common share, up 25 percent compared to \$31 one year earlier. C. Paul Johnson, chairman and chief executive officer, commented that performance was strong in all facets of the company's operations.

For the full year First Colonial's net income was \$10.7 million, a 9 percent increase over 1987. On a per share basis the 1988 results were up 10.5 percent to \$1.26 compared with \$1.14 before a special credit of \$0.06 per share in 1987. (The special credit resulted from the changeover during the first quarter to the new accounting method for the income taxes mandated by the

Financial Accounting Standards Board.)

Johnson said, "We are especially pleased with an upward trend in net interest margin which reached 5.02 percent in the fourth quarter. Although this figure was enhanced by cash basis interest on nonaccrual loans amounting to approximately .08 percent, a substantial increase in lending activity has added to the margin increase. Net interest margin for the full year was 4.72 percent compared to 4.84 percent in 1987.

Johnson also noted, "By the end of January, First Colonial will close on the purchase of DuPage County Bank of Glendale Heights, our first DuPage County location, and we intend to open our second bank in DuPage by the end of the year."

Golf Mill'ing Around The Mall

by Linda Zachow

Greetings from GOLF MILL. After visiting the enormous variety of stores in the mall for two plus years, we've been witness to some of the finest retail specialists anyone could imagine. J.C. PENNEY, one of the original anchor stores, was our only stop this trip.

Penney's has always been one of the top of the line department stores whose purpose is to serve middle America. Walk into any department and you will get the distinct feeling no detail is overlooked. With eye-catching displays, fashion forward styles and great service, you can feel as pampered and important as if you were shopping on the Magnificent Mile. And all of this is in your own backyard geared for middle America pocketbooks.

We visited two departments this trip—the styling salon and furniture department. The extent of what Penney's refers to as "people intensive service" was apparent. A few years back, Penney's trimmed their services. However, the object behind the cuts was to upgrade already successful departments to near perfection.

We spoke with Dottie Majerus, manager of Penney's Styling Salon. Dottie told us the salon employs 21 experienced stylists, both male and female. Their customers span all age ranges and include both genders.

Penney's customer intensive service transports you to a world of luxury as soon as you enter their state of the art salon. Dottie explained, "It's more than having your hair worked on. We want you to have a stylist who understands you needs and who makes the experience comfortable. If you're tired, the stylist should be sensitive to your need for a restful experience. On the other hand if you're in the mood to chat, Penney's stylists are always delighted to develop a rapport."

Penney's stylists are real pros under fire. They dare to do total transformations after fashion shows at the mall. In the midst of huge crowds watching their every move, Penney's stylists operate with the confidence of an artist. The final product, your appearance, has earned such wide acclaim that the salon is always packed. Last year four stylists received national attention and became recipients of all-star sales awards...From professional private consultations, the latest techniques in style and color, to your child's first hair cut—Penney's can handle it all.

Paul Tochim, senior merchandise manager for Penney's Furniture Department, has undertaken a big task for himself. The assortment of furniture, accessories, and options on the selling floor are complemented by the sales expertise available. You can choose a look to rival any interior design magazine. Penney's also provides individual interior design consulting to help you combine the finest wood and upholstered furniture in a wide variety of fabulous looks.

The finest names in top quality furniture are in stock and ready for quick delivery—Broyhill, Barclay, and Bassett. Famous furniture from manufacturers such as Flexsteel and Lane can also be chosen from the floor displays.

Penney's specializes in contemporary, traditional, and early American (both rustic and colonial) styles. One of the newer looks traveling eastbound is the western or desert look in furniture. Penney's has the pieces and accessories to create a room so western you can almost feel the heat. Authentic original sand arts vases and wall decorations are real pieces of American art. Using natural colored sands, these works are painted by Navajo Indians.

Sculptures and vases produced by Austin artists add drama to contemporary and traditional styles. Cozy country and sleek Eurostyle offer a never-ending galaxy of choices to suit any taste. The sofa or chair customer can select from over 300 swatches of material shown on the floor alone to customize the style...From classic Queen Anne to mixtures of contemporary with original, Penney's furniture department affords middle America with quality, service, and great prices.

Until next time, see you at the mall.

Ravenswood Financial posts earnings gain

Ravenswood Financial Corporation announced that 1988 fourth quarter earnings rose 28% to \$1,734,000 or \$1.39 per share in the same period a year earlier. Net income for 1988 was up by more than 17% to \$5,443,000 or \$4.35 per share from \$4,636,000 or \$3.70 per share in 1987. The in-

crease was attributed, in part, to a sharp rise in loan volume, particularly consumer loans, and the enhanced net interest margin experienced during the year.

Ravenswood Financial Corporation is the parent company of Bank of Ravenswood.

Niles Public Library after hours service

Would you believe that you can use the Niles Public Library even though the lights are off and the librarians have gone home? Thanks to two recently added services, it is possible to use the library even when it is closed. Residents of Niles Public Library District can search the library's on-line catalog, which lists all of the library's books, audio, and video recordings and they can also call the library for answers to reference questions outside of normal business hours.

"We know that people come up with questions they need answers for at all hours of the day and night, not just when the library's open," said Duncan J. McKenzie, library administrator. "Students doing homework in the evening after the library is closed need answers in order to complete assignments. They may need to know the population of Argentina or the length of the Mississippi River. Someone else in the family may have a sudden craving for a flourless chocolate cake and need a recipe. Or perhaps a heavy bet is riding on which film won Best Picture Oscar in 1982. The answers to all of these questions can

be found by calling the library's Night Owl Reference Service.

Night Owl Reference Service is available Monday through Friday from 9 p.m. until midnight and Saturday and Sunday from 5 p.m. until midnight. Night Owl Reference can be reached by calling 967-8608.

The second late-night service is access to the library's computerized catalog. "Our catalog is available every hour the library is open as well as several hours late into the evening," McKenzie said. "The hours may vary slightly since database maintenance is performed in the late evening, but we suggest that interested callers give it a try." Anyone with a personal computer and a modem can call the library's computer catalog and find out not only which of the 23 cooperating libraries has a copy of Eudora Welty's "Losing Battles," but they can also determine which of the libraries has it on its shelf and, presumably, available for immediate check-out when the library opens the next day.

To reach the library's computerized catalog with a personal computer and modem, dial 459-8375 for 300 baud rate or 459-4878 for 1200 baud rate transmission. The communications settings are Full duplex, Odd parity, 7 databits, and 2 stopbits. For further assistance when using the computer catalog with your personal computer, the library has a brochure available with details about procedures. Copies are available at the library's circulation desk.

Ronald H. Johnson

Marine Cpl. Ronald H. Johnson, son of Robert H. and Donna J. Johnson of 1143 Marshall St., Des Plaines, IL, has been promoted to his present rank while serving with 13th Marine Expeditionary Unit, Camp Pendleton, California.

Computer catalog classes

During March the Niles Public Library will be offering its monthly computer catalog classes on Friday, March 3 and Saturday, March 4 at 10:30 a.m. and on Tuesday, March 7 at 7 p.m.

The classes introduce library users to the computer catalog and demonstrate how its works. A reference librarian will show you how to search the catalog for materials you are interested in finding. Searching can be done by selecting title, author or subject headings. Class participants will also be able to practice what they have learned under the guidance of the class instructor.

Remember, the Library collection has been computerized for over two years. The Library still houses the "card catalog," but none of the new materials have been filed into it for almost three years. The Library continues to purchase new materials such as bestsellers, mysteries, current topics, travel guides, etc. These materials can only be found in the computer catalog.

Classes usually last 1 to 1½ hours and are offered free of charge to interested users. Anyone interested may register by calling 967-8604 and asking for the Reference Desk, or just sign up at the Reference Desk the next time you are in the Library.

Illinois Bell's new '976' service messages and prices

Callers to Illinois Bell's '976' Public Announcement Service now can listen to longer messages and take advantage of interactive programs as many program producers expand their offerings.

The program producers, known as information providers, now can offer programs of unlimited duration at prices ranging from 25 cents to \$3. The information providers, not Illinois Bell, determine program content and set the prices. This new 976 service replaces a 21 month trial program where messages were limited to 60 seconds and prices were capped at 50 cents.

"This opens up the entire 976 service by making longer messages possible, and enabling callers to not only listen to the pre-recorded messages, but to interact with them," Sharon Vanecsek, Illinois Bell product manager, said.

With interactive programs, callers are instructed to press specific touch-tone buttons to hear messages targeted to their interests.

Fifty pre-recorded announcements can be reached by dialing numbers with the 976 prefix, including time, weather, sports, and lottery information. Interactive programs include a daily horoscope line, with new programs expected shortly.

Is your will up to date?

Many people do not realize that having a will is just as important to those in modest circumstances as to those people who are more affluent. Also, many people do not know just how to go about getting a will written up.

A program of Wills for senior citizens is co-sponsored by the The Center of Concern, Suite 125, 1580 N. Northwest Highway, Park Ridge, and the bar association. A lawyer from the Chicago Bar Association's reference Plan is assigned to The Center the first Wednesday of every month.

To expedite the lawyer's work, a Will Information Form can be picked up at The Center, located in Suite 125 of the 1580 N. Northwest Highway Building. Information provided by the applicant is kept in strict confidence. There is no charge for the first meeting with an attorney. Wills for lower or medium income older adults are available at reduced fees, namely, \$50 maximum for one individual and \$75 maximum for two people.

The Center for Concern also sponsors a Legal Assistance Program which provides legal advice. Attorney Abe Linderman counsels residents of all ages each Saturday morning by appointment.

Appointments for further information may be obtained by calling Mary at The Center at 823-0453.

An open letter to MY SON,

Dear Son - A mother knows when her son is worried about her. I could tell when I visited that you didn't like my living alone. Yes, son, I don't like living alone but I know that you have your own family and your own life. That is why I couldn't even think of living with you. I only wish that I could live some place where I won't be lonely, and where I could be near you and the children. Love is ever Mom.

Dear Mom: I'm glad you put into words what has been on all of our minds. Now it's time we did something about it. Why don't we look into the North Shore, an American Plan Hotel for Retirement Living. It's located in the heart of Downtown Evanston so you'll be close by - near shopping and good transportation. You'll have your own beautiful apartment with maid and linen service. There's also 24-hour your age living there. With folks your interests with you so you'll have plenty of new companions as well. There's well-planned cultural and recreational activities, a heated pool, patio and gardens, and you'll enjoy 3 fine meals a day. I think it's worth looking into. Living at the North Shore will certainly solve a lot of worries for me and for you. Love, Bob

"Ethics and Aging: Whose life is it anyway?"

For the past eleven years, the Metropolitan Chicago Coalition on Aging (MCCoA) has conducted an annual forum series on an important aging issue. This year's chosen focus is on some of the ethical issues of concern in the aging arena.

The Herrick Forum series, named after educator Mary J. Herrick, is highly respected in the Chicago metropolitan area by human service professionals and seniors alike. This year we have decided to have more than one speaker for each forum to emphasize the different aspects and viewpoints of the issues discussed and to stimulate debate about these ethical issues.

The forums are scheduled monthly from January through May.

This month's forum will be held on Feb. 24 and is entitled: "Rescued From Death: Is More Life Less?"

This forum will examine the ethical dimensions inherent in medically based decisions to extend or terminate life. Issues to be looked at include the influence of medical/technological capabilities on decision making, heroic measures, the tensions between the individuals, the family and the physician, and/or the question of quality of life versus quantity of life.

Reverend James Bresnahan, S.J., Medical Ethicist will speak at a program in Ethics and Human Values in Medicine. A film titled "A Matter of Life or Death" will be shown. Pat King, Attorney at Law and Assistant

General Counsel from Northwestern Memorial Hospital will also speak.

All forums are held on a Friday morning from 8:30 a.m. to noon. Registration will be from 8:30-9 a.m. Speaker, panelists, and audience participation will be from 9 a.m. to noon.

All forums will be held at the Northern Trust Bank, 50 South LaSalle St. (corner of LaSalle and Monroe) in the 6th floor Assembly Room. Parking for a fee is available in three parking garages within one block of the Northern Trust Bank. The forums' location is also easily accessible by public transportation. For CTA route and schedule information call 838-7000 in Chicago or 1-800-972-7000 in the suburbs.

Oakton Arms offers seniors housing hope

As the population of elderly and retired persons in the Northwest suburbs grows each year, more and more senior citizens are faced with a dilemma.

On the one hand, they feel they cannot remain in their homes any longer—either because the house has become too expensive for them to keep up, or because they simply don't want to keep that heavy responsibility in their later years.

On the other hand, many don't want to leave the area where they've raised their children, have their relatives and friends, and feel most comfortable.

For many such seniors, the ideal solution lies in the numerous new senior citizen housing developments which are springing up in the Northwest suburbs.

One of the newest such developments is Oakton Arms.

The 102-unit development, located just south of Oakton St., and west of Lee/Mannheim Rd., is the first of its kind in Des Plaines. It was developed in conjunction with the nearby Oakton Pavilion nursing home.

Jay Lewkowitz, executive administrator of Oakton Pavilion said Oakton Arms was designed primarily with Des Plaines residents in mind.

Oakton Arms was created for active, healthy senior citizens who want to stay in the community, but need a simpler living arrangement, Lewkowitz said.

All 102 units in Oakton Arms are 425-square foot studio apartments, designed for one or two people. The monthly rate is

\$1,500 a month for a single person, with an additional charge of \$450 a month for couples.

The cost of living at Oakton Arms also includes lunch and dinners served each day in a cafeteria-style setting; a full-time activity center; and access to a "courtesy car" to get seniors to activity centers, shopping areas, churches, and other popular destinations. Those who have their own cars also have parking space nearby.

And in the event that special medical treatment becomes necessary, local hospitals are just minutes away, and the Oakton Pavilion nursing home is next door.

Lewkowitz said the philosophy of Oakton Arms management is "to provide residents with the most independence possible, yet with an underpinning of security."

Program on aging at Lincolnwood Library

The second program in the free series Aging: "everybody's doing it," will be held at the Lincolnwood Library at 7 p.m. on Monday, Feb. 27. The discussion will focus on how to control and deal with the inevitable changes that aging brings.

Changes for social security benefits

Social Security beneficiaries risk having their benefits suspended when they forget to inform the Social Security Administration (SSA) of a change of address, Thomas A. Curin, Social Security manager in Des Plaines, recently said.

The people who are most likely to forget to let SSA know about a

new address are those whose benefits are going to a bank or other financial institution in direct deposit, Curin said. Even though these benefits are deposited directly to an account, SSA needs current addresses for all beneficiaries in order to send out notices and to fulfill its obligation to verify continuing eligibility.

Every year in January SSA sends Social Security Benefit Statements Form SSA-1099 to each beneficiary by first class mail. If the Post Office returns the SSA-1099 as undeliverable mail, SSA begins a process which may result in suspension of benefits, Curin explained.

First, computer records are checked for a recent change of address and the notices are mailed a second time. If the second notice is also undeliverable, the bank or other financial institution is asked to provide an up-to-date address. If a good address is not found or the person does not use direct deposit, the next step is to ask the Post Office to check its change of address records. Local telephone directory assistance is also checked.

One more first class mail notice is sent stating that benefits will be suspended. If the beneficiary fails to respond to the notice, benefits are suspended until the agency hears from the person, Curin said.

The best way to avoid this inconvenience is to remember to tell us when you move, Curin said. The SSA's nationwide teleservice number is 1-800-234-SSA.

Long term care conference

The fifth annual Governor's Conference on Long Term Care will take place Feb. 27, 28 and March 1 at the Hyatt Regency O'Hare Hotel, Rosemont.

Governor James R. Thompson said, "This year's conference builds on Illinois' commitment to improved care for those residing in long term care facilities and those receiving long term care services in all other settings. This year's theme, 'L.I.F.E.: Living in Family Environments,' illustrates the commitment to providing quality services in the most humane and natural environment possible."

Public Aid Director Susan S. Suter, "The three day conference will help all of us explore new ways of assisting citizens in need of long term care. Academic, governmental and long term care professionals will reaffirm their commitment to innovative programs that can help bring about high quality long term care."

Conference participants will take part in more than 70 workshops and research presentations. Additionally, the latest technology and consumer equipment will be on display.

Cholesterol... A daily concern

by Dennis L. Citrin, MD, PhD

Q: What is cholesterol?

Cholesterol is a waxy substance found in blood and other body tissues. Cholesterol is produced naturally by our bodies and is an essential part of every cell. Some comes from foods of animal origins, such as eggs and milk. Too much cholesterol can be unhealthy and can be a major cause of atherosclerosis—a buildup of fatty deposits along the inner walls of the blood vessels. Atherosclerosis is also known as "hardening of the arteries." Fatty deposits make the passages through these blood vessels narrower, do damage to the vessels—including those to the heart—and may result in coronary heart disease. Each year, 550,000 Americans die of heart attacks.

Q: What is the difference between HDL, LDL, and VLDL?

HDL, LDL, and VLDL stand for High Density Lipoprotein, Low Density Lipoprotein, and Very Low Density Lipoprotein, respectively. All of these lipoproteins contain cholesterol. The total cholesterol in all of these lipoproteins in the blood equals total blood cholesterol.

LDL is commonly known as the "bad" cholesterol. It contains a greater amount of cholesterol than the other lipoproteins. LDL carries cholesterol to the cells that make up blood vessels. When too much cholesterol is deposited in these cells, "hardening of the arteries" develops.

HDL is commonly known as "good" cholesterol and can actually help "sweep" cholesterol out of the body. Current research indicates that HDL may pick-up excess cholesterol and carry it back to the liver, where it is broken down and eliminated from the body.

VLDL is made up primarily of triglyceride but also contains cholesterol. VLDL is changed to LDL in the blood. Persons with very high VLDL are likely to have LDL too, and are likely to be high risk coronary heart disease candidates.

Q: How is cholesterol measured?

Cholesterol levels are measured by a simple blood test that gives milligrams of total cholesterol per deciliter of blood. Generally, a total cholesterol count of below 200 milligrams per deciliter (mg/dl) is a desirable blood cholesterol level. A total cholesterol level of 200-239 mg/dl is a borderline-high blood cholesterol, and a cholesterol count of 240 mg/dl or greater is considered high blood cholesterol. If blood cholesterol is high, it is likely that cholesterol is deposited in the arteries.

90 million Americans have blood cholesterol levels of over 200 mg/dl and 40 million have cholesterol levels above 240 mg/dl.

For persons with borderline-high cholesterol and with any risk factors (history of premature heart disease, cigarette smoking, high blood pressure, diabetes, or severe obesity) or with high cholesterol, further blood tests should be conducted to determine the LDL level. Treatment should then be initiated through a proper diet for three to six months. If this is unsuccessful, drug treatment may be considered.

Anyone with a total blood cholesterol of more than 200 mg/dl should consult with their doctor.

Q: Typically, how much cholesterol should be eaten daily?

The American Heart Association recommends that healthy adults eat no more than 300 mg of cholesterol per 1,000 calories of food and that total daily intake of cholesterol should not exceed 300 mg per day. Equally important is to lower serum cholesterol is to limit total dietary fat intake to below 30 percent of total calories.

Daily cholesterol intake can be lowered by eating less animal products and saturated fats, such as whole milk, eggs, cheese, and butter, and increasing the consumption of fresh fruits, vegetables, and whole grains, and fish. Also, choose polyunsaturated and monounsaturated vegetable oils over animal-based oils, such as lard. Some of the fattiest foods include bacon, ground beef, eggs, cheddar cheese, cream cheese, coconut, and ice cream. Lean foods include turkey (light meat with no skin), crab, scallops, tuna (in water), low fat cottage-cheese, skim milk, most raw vegetables and dried fruits.

HDL levels, or "good" cholesterol, can be increased by engaging in regular exercise, keeping weight under control, and by not smoking or quitting smoking.

RETIREMENT/NURSING HOME GUIDE

Resurrection Retirement addition Resurrection outpatient services centralized

Construction is nearing completion and a spring opening is expected for the new six-story, 134,000-square-foot addition to the Resurrection Retirement Community, 7262 W. Peterson Ave., Chicago.

"Our residents are anxious to meet their new friends and neighbors moving into the 125 new apartments and 37 assisted living accommodations in the new addition," noted Sister Mary Paul, C.R., executive director at the Northwest Side retirement complex.

More than 120 people, including new residents already signed to move into the retirement complex upon completion, gathered early this month for a construction update meeting to preview the efficiency, one- and two-bedroom floor plans along with

color boards detailing window and floor treatments.

"Progress is moving along and the contractors report that they will be finishing interiors of units on the top floors first," stated Sister Mary Paul. "We anticipate a mid-March preview of finished apartments and opening yet this spring."

In addition to the 125 new apartments, an additional 37 units are set aside to serve the special needs of those requiring 'assisted living' accommodations.

"Residents opting for our assisted living units will be able to take advantage of a number of special amenities designed to aid them in caring for themselves and their apartments," she explained. "These special amenities will include three prepared meals daily, maid ser-

vice, laundry, an exercise program, chapel services, and planned recreational activities."

The Resurrection Retirement Community currently includes 311 apartment units in addition to a spacious dining facility, community recreational room, greenhouse, library, beauty salon and number of special purpose activity rooms.

Completion of the new addition will bring the retirement community's total units to 473. Located in a park-like setting, the retirement community features easy and convenient access to area shopping, public transportation, churches, and the medical facilities at nearby Resurrection Medical Center.

For additional information on the Resurrection Retirement Community, call 792-0466.

A 240-foot crane towers about the Resurrection Medical Center Power Plant chimney and is being used by the general contractor The George Sollitt Construction Co. to pour the ground floor slab, footings and walls for the new Outpatient facility.

A new three-story outpatient facility presently under construction at Resurrection Medical Center will centralize all outpatient services and is expected to be completed in the spring of 1990. The \$7.6 million addition will create 55,569 gross square feet of space that will include renovated areas of existing facilities as well as those in the new addition connected to the south end of the Resurrection Medical Center complex.

New space in the Outpatient facility will contain registration, pain control and counseling center, cancer center, a women's

center, nutritional counseling accommodations, endoscopic suites, outpatient surgical suites and recovery room facilities.

Renovated areas that are being expanded include laboratory, cardiology, employee health, and other additional outpatient services.

Executive Vice President Sister Mary Gerard, C.R., stated that there has been a dramatic increase in the volume of outpatient services, making it necessary to expand and consolidate those services in a single facility.

A major benefit for today's healthcare consumer will be the new and expanded outpatient surgical suites and recovery areas for the same-day surgeries. Many surgical procedures are now reimbursed only on an outpatient basis and this trend is expected to continue.

Weight loss programs at Resurrection, such as Medi-Fast, have become popular due to the successful record of aiding people with overweight problems requiring physician supervision and monitoring. The present Medi-Fast program can only accommodate a limited enrollment.

Cablevision receives top honors at Awards '88

Cablevision of Chicago recently won four coveted Women In Cable (WIC) Awards for their participation in local origination programming during the calendar year 1988. The Awards Ceremony which was held at the Park West on January 26, toasted the efforts of local programming departments as cable operators vied for recognition in five categories: Advertisements, Promotions, Entertainment, Public Affairs & Sports.

All productions were screened by a panel of television professionals on the following criteria: production quality, originality, and total impact. First, second and third place were given in each category.

Cablevision received first place in both the Entertainment and Public Affairs categories for its submission, "Something In The Park With

George", a one half hour original special, and the promotion category for, "See What's In Your Cable Guide," a humorous, yet informative look at all the Cable Guide has to offer. This is the second year in a row that Cablevision has won first place in the promotion category.

Third place honors were won for "Bill and Bob", also in the promotion category and the live special, "Cablevision's First Annual Spelling Bee," which was entered in the Public Affairs area.

Cablevision serves nearly 63,000 subscribers in thirty suburban Chicago communities. It is affiliated with Cablevision Systems Corporation (ASE/CVC), which is based in Woodbury, New York, which serves over one million subscribers in eleven states.

Winter home work maximizes home value

Catching up on a few household chores during the winter months could pay off for the homeowner who's planning to sell this Spring. According to members of the Society of Real Estate Appraisers, taking the time to spruce up the household will not only make it more attractive to buyers, the improvements alone can have a positive impact on the home's market value.

"Getting a house ready to put on the market doesn't have to require a major renovation or rehab," notes Donald E. Roach, SRA, a residential appraiser from St. Louis, MO. "Putting a thousand dollars of remodeling into a home will not automatically add a thousand dollars to its market value, but using a little elbow grease and common sense can bring a good return on investment."

A good housecleaning can not only impress potential buyers, but equally important, a home that's in good shape can prove to be a plus when the appraiser arrives to estimate its current market value.

Formulating a professional estimate of a home's market value requires the appraiser to make a thorough inspection of the property's interior and exterior, paying close attention to the overall condition of the home, including structural elements, heating and cooling systems, plumbing and electrical wiring.

"Usually the appraiser will conduct an on-site inspection when the financing is being arranged," comments Roach. "However, there are times when sellers want to test the market on their own. Consulting an appraiser first to value the home under the current market conditions can prove beneficial in setting a competitive sales price."

A seller's checklist of basic chores and repairs might include:

Clear out any clutter around the house, in the closets, under the staircase, or in the garage. The removal of unnecessary furniture and knick-knacks can make a room seem larger.

Cleaning walls, floors, and ceilings can minimize signs of wear. A fresh coat of paint goes a long way in brightening a room. Tastes in decorating can vary, but appraisers are quick to point out that white or a neutral color paint are best when trying to attract buyers.

Clean the Carpet and drapes. Repair any damaged doors, windows or fixture, and take care of any wiring problems or leaky faucets.

Replace any loose or damaged tiles in the kitchen or bath. Check the basement for any foundation cracks or water leakage.

Make certain the heating and cooling systems are in good working order.

Keep all improvements - and the quality of the work - consistent with the quality of the home and character of the neighborhood is essential. If you don't feel qualified to do a good job, it may be advisable to contact a professional contractor.

When warmer weather arrives, appraisers recommend tending to the home's exterior - keeping in mind the property's "curb appeal."

Keeping the grass watered and cut is recommended, along with trimming any shrubs or hedges. Sizing up the exterior condition of windows, framing, gutters and trim is also important, along with the general condition of the siding and roofing.

"The real estate industry has found that in a stable or declining market, the 'sharpest' homes - the ones that look good inside and out - sell fastest," comments Wagner. "When estimating the home's market value, the appraiser will look for properties which are comparable. Keeping a house in good repair might allow a more favorable comparison and possibly enhance its value."

To assist property owners in learning more about the appraisal process, the Society of Real Estate Appraisers offers the booklet, "What is an Appraisal?" free of charge. To receive a copy, write Winter Home Work, Society

of Real Estate Appraisers, 225 N. Michigan Ave., Ste. 724, Chicago, IL 60601-7601.

fund in roughly half the time it would normally take? If so, then you should strongly consider filing your return electronically.

Electronic filing is new to Illinois taxpayers this year. Information from your return is transmitted by qualified tax preparers or firms directly to the IRS Service Center in Ogden, Utah by computer instead of processing the regular paper documents you normally send.

There are several advantages to taxpayers. It results in a more accurate return, verifies receipt of tax information by the IRS, and could save you as much as three weeks processing time. You can even have your check directly deposited in your bank account under this program.

Any individual or couple who expects to receive a tax refund can file electronically. Forms 1040A, 1040EZ, and 1040 with the most common schedules can be filed electronically.

The Electronic Filing Program now covers 36 states and will be available nationwide next year. Approximately two million returns will be filed electronically this filing season, and savings to the government is expected to be over \$200 million during the next ten years.

For more information on this program, or for a list of preparers and firms offering this service, call 435-1040 if you live in the city of Chicago. All other Illinois residents call 1-800-424-1040.

Kohl's Department Stores will reopen the former MainStreet stores at the Golf Mill Shopping Center in Niles and Harlem Irving Plaza in Norridge on Sunday, March 5.

Kohl's has earned an excellent reputation for retailing competitively priced brand name merchandise to serve middle-income families throughout the Midwest," says Store Manager Colleen Curry. Says Kohl's President Jay Baker, "Families in middle America want fashion and variety along with quality and value. Kohl's carries first-run brand-name clothing and accessories for women, men and children along with housewares, bed and bath linens, electronics and toys."

Hynes mails tax exemption news

Assessor Thomas C. Hynes said his office recently mailed applications to Cook County homeowners for the 1988 general Homeowner's Exemption.

This exemption can save qualified homeowners from \$100 to \$500 in property taxes on bill this summer. The exact amount will depend on their local tax rate.

The total saving last year for the more than 900,000 Cook County homeowners who qualified was over \$250 million.

"We urge all eligible homeowners to complete the applications by signing them and returning them to our office by March 1," Hynes said. "We want to make sure that everyone who is eligible will receive this significant tax saving."

To receive the exemption, Hynes said, a homeowner must reapply each year. He added that, other than seniors, homeowners who have not received an application by Feb. 1 should contact his office.

"Senior homeowners will automatically receive this exemption if they are scheduled to receive the 1988 Senior Citizen's Exemption," Hynes explained. "Those renewal applications were recently mailed. Therefore, those seniors will not be receiving this application because they are not required to apply separately for the general Homeowner's Exemption."

However, if a homeowner turned 65 last year, and has never applied for the Senior Citizen's Exemption, Hynes said they should contact his office as soon as possible.

"The combined saving from both exemptions for an eligible senior citizen can range from \$200 to \$500," he said.

The general Homeowner's Exemption is for owners of single-family homes, condominiums, cooperatives, or apartment buildings up to six units, regardless of the person's age. The property must have been occupied by the current or previous owner as a principal residence as of Jan. 1, 1988.

The exemption reduces the taxable value of a residence up to \$3,500 over what it was in 1977. The resulting saving will be seen as a deduction off a homeowner's 1988 real estate tax bill payable this coming summer.

Hynes initially sponsored the Homeowner's Exemption while serving as Illinois Senate President. Later he worked to increase its benefit to its present amount.

For further information on applying for these property tax exemptions, contact Hynes' main office in the County Building, 118 N. Clark, Chicago 60602 (Homeowner's Exemption Department, Room 301, 443-7500; Senior Citizen's Exemption Department, Room 320, 443-6151), or one of his branch offices at 5600 Old Orchard Rd., Skokie 60077 (Room 149, 470-7237). Office hours are 8:45 a.m. to 4:30 p.m., Monday through Friday.

Assistance is also available at suburban township assessors' offices.

her agency worked with the Community Nutrition Network to find a site. She said, however, every possible location found was either unavailable during lunch or required extensive modifications to make it accessible to the handicapped.

"Most places here have something else going on. It's been a difficult situation. All of us felt very bad about it," Gilmour said. Said Kenzer, "We could do it in a business that would make a facility available to us. All we're asking for is to serve a meal. After trying to find a location for two years either there is no facility available or people just don't want it."

But according to Bud Swanson, Morton Grove senior director, there appears to be a need for a nutrition site in the township. "We

Infrequent Niles complaints about airport noise

Residents of Niles made relatively few complaints about O'Hare airport noise in 1988. According to Chicago's Department of Aviation, only 5 complaints were registered by Niles residents. The Department of Aviation operates a 24-hour hotline (686-2377) to monitor the impact that the airport has on the areas surrounding the airport.

According to figures released by Chicago's Noise Abatement Office, Des Plaines leads the list of complaints. A total of 2,438 Des Plaines residents called the

hotline. The second largest number of complaints came from Park Ridge, 1,664, and Chicago residents made 931 complaints.

This information released to the O'Hare Advisory Committee, was the first time the number of complaints, 12,531, had decreased about 20 percent from 1987.

Director of the O'Hare Citizens Coalition, Matthew Rosenberg, said significantly more 1988 complaints originated in some DuPage suburbs relatively far from the airport than from closer communities.

Visitors at St. John Brebeuf

February is Black History Month, so instead of just studying about Black Culture, the teachers at St. John Brebeuf school have invited students from St. Malachy's School in Chicago to be visitors on Friday, Feb. 24. About forty black students, accompanied by parents and teachers, and Miss Bridget Miller, the Principal of St. Malachy's will ar-

rive during the morning. Two guests will be in every one of the classrooms, and the students will attend classes together, besides having times for visiting and sharing. When this exchange of students has happened previously, and some of the St. John's students visited St. Malachy's classes, it was surprising how much alike the classes and curriculum were, and how the students identified with each other in likes, dislikes and opinions. Hopefully, this will again be an enriching experience for students of both cultures, and an appreciation for each other will grow.

Social Security Handbook

Lawyers, accountants, and others who advise people on their Social Security rights and responsibilities should add the new edition of the Social Security Handbook to their reference library. Thomas A. Curin, Social Security manager in Des Plaines, said recently.

Intended for professional people and others who need detailed information, the handbook explains regulations and rulings to retirement, survivors, disability, and health insurance.

The tenth edition of the handbook contains the major provisions of the Social Security Act, as amended through December 31, 1987. Copies may be purchased directly from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, at \$13 per copy. Order by stock number 017-070-00437-7.

-Easter Bunny Social. March 18 at the Recreation Center is hoped to be a fun time for the children. -Day camp registration begins on April 3 and parents are urged to register their children early.

Taxes and the law library session

The Niles Public Library will host a session on "Taxes and the Law." The Law is the new tax law of 1986. Mr. Phillip Nadel, a CPA, and a CFA, from MAPP Financial Planning, Inc., will present an exhibit and display, "Easter Bonnet Parade," and publicly acknowledge gifts made to it recently from the First National Banks of Niles and Morton Grove, respectively, Chambers Restaurant, One Magnificent Mile, Gloria Angus, Admiral Lamp, Co., Peoples Savings Bank, Arvey's Restaurant, Pizza Hut, China Chef, Chicken Inn, Nicolo's Professional Cleaners, International House of Pancakes, and Avon Products.

From the Left Hand

chains have bookstores in our communities we should all be concerned about having terrorists decide what books we can or cannot read and buy.

The book chains will claim they are warding off any potential violence by banning the sale of the book. But what they are doing is a far greater violence to everyone's basic rights.

If men and women go to war to protect their fundamental rights from being taken away from them, then certainly there should be an unrelenting hue and cry against the countries and the booksellers, who are willing to compromise everyone's freedoms, rather than be in the position of risk. This is so alien to what most of us believe, we would hope the protests against such actions

would be loud and clear.

In Tuesday's Chicago Tribune columnist William Safire suggests readers support independent book retailers. That's a pretty harsh reaction. But both B. Dalton and Waldenbooks should get a firm message from the reading public they are in the front bastions of freedom as are all of us.

The book burnings of the past were symbolic gestures which could be corrected. But the refraining of distributing books has a far greater danger to everyone of us.

We'll personally lodge our protest against the headquarters of these companies. We hope you will let them know about their weak-kneed action.

term. Village Clerk Wilma Wendt voted to allow the petitions after hearing both arguments. Wendt said, "There is a question - there are court rulings on both sides, not one specific ruling. I felt it was better to err on the side of the petitioner."

Wendt, Hohns and Greenberg were unanimous that a ruling by the courts on the viability of Szachowicz' candidacy will be the most clear-cut precedent. Szachowicz filed an appeal of the ruling last week.

"I like to be fair," Hohns said in a Feb. 20 interview. "The two year term in this election makes it difficult. The certification paper that's sent down to the county has a space for term of office and whether or not the person is filling an unexpired term. We take an oath to uphold the law. The rhubarb comes with these two different terms this year. Do we rule against the people who filed properly or do we say he's running for one or the other of the terms?"

With reference to Szachowicz' filing of an appeal, Hohns said, "Let's let the courts decide. I'm willing to accept the decision of the court and then let's get the show on the road." "I'm not an attorney and not knowledgeable in these matters," Greenberg said. "It was a hard decision to make. I am happy to let the courts decide it." Greenberg's seat on the Board will not be contested until 1991. As senior

trustee who is not running for office, he is part of the Electoral Board which is also comprised of the president and the village clerk. All members of the Electoral Board are members of the Active Party, whose entire slate was approved.

Szachowicz filed as an independent, after members of the Active Party rejected his candidacy and selected Morton Grove Chamber of Commerce President Larry Schulte to round out their slate for the April 4 Trustee Election.

Szachowicz has expressed a "sense of betrayal" by Active Party President Joe Alessi, with whom he has served on several committees. Alessi counters by saying, "I feel he's betrayed the Village of Morton Grove." I felt a personal relationship with him until he associated himself with Greg Youstra. Alessi referred to an alliance between Youstra, a former trustee and party member himself, and Szachowicz for district representation for Morton Grove, rather than the current type of board where members represent the village as a whole rather than individual wards or districts.

Alessi equates a love for the community with a desire to retain the current system which he believes serves the community's needs. "All districts receive the same services - snow removal, street cleaning and police and fire protection." Added Alessi, "Larry Schulte is a tremendous asset to this community."

gun. Fidanza searched the driver for weapons and discovered a plastic bag full of suspected marijuana in his front pants pocket. The janitor was placed under arrest and Officer Victor Gramza, who had immediately followed Fidanza, searched the car and recovered a loaded Colt .22 caliber revolver from beneath the drivers seat.

The serial number of the gun matched that of one of two guns stolen in a previous Niles burglary. Jewelry, prybars and gloves were also in the vehicle.

According to Operations Commander Patrick Carey of the Glenview Police Department, the suspect was linked to the Glenview burglary as a result of a gun left at a Glenview residence on Jan. 27 by the burglar who fled after being surprised by the homeowner, who he threatened with the gun.

A check of the gun by Glenview police determined that the hand gun was also one of two stolen from the Niles residence. Further, after the arrest was announced, the homeowner attended a lineup Feb. 17 in Niles and identified him as the burglar who had used the gun to intimidate the occupant.

Police searched the Greenwood Avenue apartment of the offender and recovered gold flatware, jewelry and other items which are inventoried and held by Niles Police, pending identification by their rightful owners. His first hearing was Friday Feb. 17 where he was charged with four counts of residential burglary, one count of cannabis possession, one count of criminal trespass. The Glenview charges are for home invasion, armed violence and residential burglary. As a result of the arrest Glenview has cleared two home burglaries and two other cases are pending.

Gramza, Fidanza and the citizen will be recommended for awards as a result of this arrest.

Cop injured...

Cadreja declined treatment for abrasions and swelling on his lip and hand.

The officers detected the odor of alcohol on the driver's breath and noted his slurred speech and red eyes. Despite his denials, police determined he had driven the truck for the owner, who was the passenger of the vehicle. The man admitted to having some drinks at a nearby tavern earlier. The Buffalo Grove man had been arrested on a DUI charge in 1985 and was driving on a restricted license. He was charged with DUI, resisting arrest, driving with a revoked license, and other related traffic charges and will have a March 27 court date.

In addition to the Buffalo Grove suspect, Morton Grove police arrested six other drivers last week who are charged with DUI. A 32-year-old Chicagoan will face charges on March 22 as a result of a Feb. 12 DUI arrest. In separate incidents on Valentine's Day, a 25-year-old Arlington Heights man and a 36-year-old Chicago man were stopped and will have March 22 and March 17 respective court dates. Another Chicago man, age 29, posted the required 10 percent of a \$3000 bond after a Feb. 16 arrest and will have a March 22 court hearing. Feb. 17, a 25-year-old McHenry man was arrested and given a March court date.

Hynes School...

plan would also save the district money, personnel, asbestos removal, and maintenance costs. The addition is expected to cost the district over \$4 million. Most of that money is expected to be received from the sale of the land at Hynes.

The committee has decided that closing one of the district's two schools would be the best way to plan for declining enrollment. Data from the U.S. Census Bureau and the Northern Illinois Planning Commission predict that the district's school age population will drop from 448 to anywhere from 429 to 316 students by 1995.

The Northeastern Illinois Planning Commission predicts the population in most northwest suburbs will decline up until at least 2010. One of the reasons offered for the decline is the large number of elderly residents. This increase reflects the quick population growth that occurred after WWII. Many of these people

once had children in the school system but they no longer do. As Supt. Mark Friedman put it: "We have a community of empty-nesters."

Trunfio said that the Golf addition plan had educational benefits as well as being economical. Trunfio, though also said that closing Hynes is the only financially viable option.

"We cannot keep a building open because emotionally people want it," he said. "We are not financially in the position to keep it open. The board is trying to do what is best for the community and give the students better facilities and better opportunities."

The school district board directed that the proposal, when submitted, should contain plans regarding educational programming, financial information and answer any concerns brought forth at earlier community meetings and meetings of the Board of Education.

skating, gymnastics, story time and arts and crafts. Avis Meade, the elementary physical education teacher who is running the program said when asked about turnout for the trial offer, "This time we have 22 children, maybe next time we will have 44."

The next day the program is scheduled is March 6, Kasimir Pulaski Day. Although there is no

limit to the number of children, parents are encouraged to register as soon as possible. Brochures are available at the Recreation Center at 7877 Milwaukee Ave, or at Ballard Rd. Information is also available regarding spring break activities.

GOP candidate owns house in Skokie

Herb Sohn, one of the three Chicago GOP mayoral candidates, has a home and family in Skokie but says that he was not trying to mislead Chicago voters. Sohn, who has been endorsed by the Cook County Republican party, says that six days a week he lives in an apartment next to his office at 5100 N. Sheridan Rd.

Sohn said in a taping of "City Desk" for WMAQ-Channel 5, that he spends all the nights during the week in Chicago and only one night in his Skokie home where his wife lives full-time.

Sohn said that he is registered to vote in the city and that his driver's license now carries the city address, although "on and off" it has carried the Skokie address.

"It's not only legal, it's a fact...I live in the city. I vote in the city. I pay taxes in the city. But my wife lives in Skokie."

Sohn, a urologist and a lawyer, said that if he is elected, his family will move to the city and he will sell his Skokie home.

NWAAR advocate openings

A 40-hour training is provided free of charge and will begin in March. For further details and information, please call 253-0220.

Pulaski Day observance at Polish Museum

The Polish Roman Catholic Union of America and the Polish Museum of America will hold its third annual Pulaski Day Observance. The ceremonies will take place on Monday, March 6, at 1 p.m. in the Great Hall of the Polish Museum, 984 N. Milwaukee Ave. Chicago.

Computerized tax preparation at Library

The Niles Public Library District now has MacInTax. This software allows users to prepare their taxes with the easy to use Macintosh interface. MacInTax includes 74 IRS forms and schedules and displays full reproductions of each on screen. All you have to do is type in the numbers, and MacInTax will do the rest.

The program links, forms automatically to reduce input errors, provides a thorough audit trail and, among other things, prints actual IRS-approved tax forms. MacInTax is an award winning tax preparation software. Last year, 27 percent of SoftView's MacInTax customers were professional tax preparers. This year Arthur Young & Co., one of the world's largest accounting firms, has bought a large number of MacInTax programs. This program is truly a master piece and the Niles Public Library District is proud to offer this type of tax preparation application and to be the first and the only library in the area to offer the program.

Anyone with a valid Niles Public Library District card and who is a qualified Computer Lab user can use MacInTax in the library's computer lab. The library also has hundreds of other programs available. For questions and/or reservations to use a computer call 967-8554 and ask for the computer lab.
