Village approves further engineering study and sewer easements

Niles acts to alleviate flooding

by Nancy Keramias

Two Niles residents of the 7600 block of Kedzie appeared before the Niles Village Board Tuesday evening, Feb. 28 to complain about flooding conditions in their area. One homeowner told President Nicholas Blase, "We feel like we're told tough luck, go away, drop dead, don't come back." One resident and Blase had exchange resulting in an impasse. Blase told the citizen the village would keep its promise to regrade the block's alleys to direct water flow away from back yards by April 1 but said the citizen is responsible for install-

ing necessary anti-flooding devices on his own property. "Our engineers will work with you", promised Blase, but admonished him by saying, "I had to pay for my own overhead sewers, so should you." The citizen stated he has had as much as 4 feet of water in his basement. The second citizen had installed two flood control systems but expressed doubts about the efficiency of the measures in the light of continued flooding of Kedzie Avenue when rainfall exceeds one half inch. From the Left Hand

by Bud Besser

Just west of Dempster and Harlem there's a huge billboard blasting the Maine Township Republicans. The blast is coming from the Maine Township Democrats who quadrennially attempt to oust their erstwhile counterpart, the Republicans.

The colloquy between the Maine Dems and Republicans is fair game, and may be the best party win. But what are the Dems doing polluting Dempster and Harlem with that awful billboard?

For years now we've been ranting and bellowing about that billboard. A Morton Grove politician periodically comes into our office and reminds us about that board. He once brought along papers from State Senator Bob Kustra which proved to him that sign could be eliminated. But Niles officials contend the sign is on a state highway (Dempster Street) and Niles has no authority to restrict or eliminate the sign.

The obvious irony about the billboard concerns Niles' effort to control all signs in its village. After extensive study businessmen spent tons of money conforming with the Niles' rigid sign ordinance. They were restricted as to the size of the sign in front of their business. And the location and placement of the sign was all part of Niles' sign ordinance.

The boys and girls down at the "hall" whipped all the

Niles Park announces increased pool fees

The Niles Park District announced that the cost of family pools will increase \$2 per family member after the first person. This is the first increase in three years.

According to Niles Park District Director Bill Hughes, "the cost of operation goes up every year. Though the revenue goes up, so do the expenses."

In the proposed budget of this year, the pools will be subsidized

between \$10,000 and \$15,000. Adding to expenses this year are several capital projects such as the addition of a volleyball court at the Recreation Center and the extension of deck areas. Although last summer showed a record increase in attendance compared to previous years, Hughes warned not to expect that every year. Continued on Page 38

Gift for earthquake victim

A welcoming gift is given to Armenian earthquake victim Alla Darchianian (right), 7, by Lucy Meguerdichian, 8, of Des Plaines. The two were attending a pizza party, held recently by the Armenian Relief Society for Alla and several other Armenian children who, like Alla, lost arms in the disaster and were treated at Children's Memorial Hospital in Chicago. Alla later received

plastic surgery at Children's to repair her facial wound. She now will be fitted for a prosthetic limb at the Rehabilitation Institute of Chicago.

More than 100 members of the Chicagoland Armenian community attended the party, hosted by the Armenian Saturday School at 1701 Greenwood Ave., Glenview.

Temporary service for retirees

A curious irony has been created by new trends taking place in today's economy: now the number one problem in the job market is finding workers, not finding employment for them.

One of the first industries to feel the effects of this labor shortage is temporary services. To combat the problem, many temporary service firms are making a special effort to recruit older employees or "mature workers".

"Mature workers are retired or semi-retired people who have the flexibility to work on a temporary basis," said Nada Marie Brzovich, District Manager of DCI Temporary Services, Inc., a leading North American temporary services firm, with offices in Des Plaines and downtown Chicago. "And since many mature people were either full-time employees or homemakers for many years, they have valuable skills to offer."

All of DCI's special services are offered free of charge to anyone who is interested. DCI Temporary Services specializes in providing temporary business services for office, marketing, and light industry.

HOW MUCH DID YOU LOSE LAST YEAR ON NON-DEDUCTIBLE INTEREST?

UNLESS YOU ACT QUICKLY, THIS YEAR COULD BE WORSE.

As you know, Congress is steadily phasing out interest deductions on most consumer loans. An exception is a loan secured by your home. Which makes it a great time to apply for a home equity line of credit at First of America Bank.

A Special 20% Interest Rebate Offer

When you sign up for a home equity line by May 31, 1989, you'll receive a 20% rebate for all interest you pay this year. And we'll even waive all closing costs—an additional savings of up to \$400. But you must act by May 31.

Put The Deduction Back In Your Interest.

The Federal tax laws allow you to use your home equity line of credit for any purpose you want. And in most cases, on loans all the way up to \$100,000, you still get to take a 100 percent tax deduction.

Take Advantage Of Your Tax Break.

Get your tax break with our home equity line of credit. You can use this line instead of other loans that are no longer fully tax deductible.

You can also access your credit line simply by writing a check. And the payment schedule is flexible, too.

However, using the equity in your home is not something you should do without careful consideration. Furthermore, there are some items—like normal living expenses, for example—for which a home equity line of credit is definitely not appropriate.

So stop by your nearest First of America office, or call 1-800-544-6155 for more information. We'll provide you with a free information brochure and an application. We'll also help you determine if a home equity line of credit is right for you.

In no time, we can have your good credit working in your favor.
