"Operation Knockout," Gang taskforce, to continue

by Nancy Keraminas

Chiefs of the seven police agencies involved in Operation Knockout, a northwest suburban anti-gang tactical unit, met Nov. 30 to review the operation.

According to Niles Chief Ray Giovannelli, the "tone of the group was positive," and the program will continue. There have been 40-45 arrests involving felonies, misdemeanors, assault, narcotics and weapons charges, Giovannelli said in a Nov. 30 interview.

From the Left Hand

by Bud Besser

Every four years we play a guessing game with the County Assessor's office, the County Clerk's office and the local school districts. We try to guesstimate how much property taxes residents, businesses and industries will be paying for the following four years.

We're not sure but we're suspicious of the powers that be are obtuse. They're trying to obscure the bad news which is coming. On the other hand, many of them honestly don't know what the numbers will be. And because they're not in the crystal ball business, they refuse to speculate how much taxes we're going to be socked during the next quadrennial.

Come along with The Left Hand and we'll try to give you some picture of how much your bill will go up in 1990.

Maine and Niles Township residents will receive their new estimated assessed valuation of their property some time in February. The true assessed valuation should be available in June. You will pay your first installment of your two-part payment based on the estimate.

The comptroller at Maine High School, Mr. Kenney, told us the assessed valuation increased 26%, 24%, and 24.7% during the past three quadrennials (1986, 1982, 1978). We can assume the 1990 increase in both Maine and Niles Townships will go up by about 25%.

Skokie trustee may face primary race

Van Dusen picked for Sutker's seat

by Nancy Keraminas

Democratic committeemen from four townships selected George Van Dusen as that party's nominee for the 56th District seat being vacated by State Rep. Cal Sutker. Van Dusen was one of four hopefuls screened Dec. 5 by Nick Blase of Maine Twp., Don Eslick of Northbrook Twp., Bill Crowley of New Trier Twp., and Sutker, who is the Niles Twp. Democratic committeeman. The selection of Van Dusen was an-

nounced by Crowley Dec. 6 after the committee met in executive session following the public screening in Skokie. Van Dusen's name will appear on the March, 1990 Democratic primary ballot.

The four candidates, all youthful, pro-choice, Skokie residents,

each had 10-minute presentations, followed by questions from the committee members. The 56th District includes all of Niles,

Village water passes tests

Employees of Niles' public services department regularly test samples of village water for chemicals and bacteria, but changes in Illinois Environmental Protection Agency (IEPA)

procedures caused a temporary snafu earlier this year.

According to a public services spokesman, the department did not perform its third quarter trimethylane analysis last fall because it did not receive sample vials from IEPA.

"We didn't notify the IEPA that we didn't receive our samples from them," said the spokesman. He indicated the confusion stemmed from a recent change in sampling rules which require routine samples to be tested quarterly instead of yearly.

The department was required to post a legal notice informing the public that this failure to submit the July 1, 1989, through Sept. 30, 1989, samples was a violation of Illinois Pollution Control Board rules and regulations.

Niles Public Services keeps a close watch on the water supply, collecting samples from public buildings, parks, and restaurants each month. According to the spokesman, the water consistently measures below hazardous levels of bacteria and chemicals as measured by IEPA standards.

Des Plaines man killed in Chicago

A Des Plaines man was shot to death on Chicago's far south side Dec. 3.

Anthony Simmons, 23, 8812 Jody Ln., unincorporated Des Plaines, was shot in the head early Sunday after allegedly being involved in two quarrels.

A bullet from a .38 caliber handgun hit Simmons as he reportedly quarreled on the street at 56 W. 11th St., across from Roseland Community Hospital.

According to Chicago Police Area Two Violent Crimes Sgt. Tim Tidmarsh, authorities have a suspect and are seeking a warrant for his arrest.

Community Focus

Young and not-so-young bridge generation gap

by Nancy Keraminas

When children and adults get together, sparks can sometimes fly. But sometimes the sparks ignite friendships rather than tempers.

The buzzwords are "intergenerational programs" but they are pure and simple social exchanges between senior adults and young children. They may be sponsored by agencies or nursing homes such as Morton Grove's Chore program, but often they are part of a school's yearly schedule, as with three Niles schools.

"There are similar situations that children and older adults face."

Dist. 63's Stevenson and Niles Schools both sponsor an annual Grandparents Day each November where senior relatives are honored guests of the school during National Education Week. Nelson and Dist. 71's Niles Elementary School South both have yearlong programs, forging friendship bonds with area nursing homes to promote the joy of sharing to the children and to stimulate the older adults.

Nelson's Friendship Program,

Kindergartners from Viola Nelson Elementary School in Niles have been participating in an intergenerational exchange with residents of Resurrection Nursing Center in Park Ridge, visiting back

and forth. Mary Nangle and Michael Platt prove that two sets of eyes are better than one when it comes to playing bingo during the children's most recent visit to the facility.

The residents love children," Ewen said of the intergenerational contacts. It's always positive and real spontaneous. They feel like they're helping and are needed." She indicated employ-

ees bring their babies for visits from time to time but she'd like to see a baby brigade at the home, such as the group of Stevenson school welcomes grandparents

Grandparents of the Stevenson School student body recently joined teachers and children to celebrate Family Day. A special tea was held and nearly 100 grandparents, parents, and other relatives visited with school personnel during the afternoon.

The celebration of family life and Grandparent's Day was a final activity of the Stevenson School P.R.I.D.E. activities. P.R.I.D.E. stands for Personal Responsibility in Daily Effort and represents the student goal of the school. The P.R.I.D.E. week activities of Nov. 13 represent the first of three such weeks to be celebrated throughout the 1989/90 school year.

Niles Elementary School South has guests week-long from nearby St. Andrews Home for the Aged who read to children assembled in the school's media room. The "Rockin' Readers," as the St. Andrews people are called, choose special books to entertain the young listeners. After one recent November session, the children gave readers Anne Eichmann, Justine Barns, and Sylvia Kosmeja a preview of their Thanksgiving

program.

South School also sends carolers at Christmas and costumed children at Halloween, to both St. Andrews and St. Benedict's homes.

"They feel like they're helping and are needed."

The children and adults have so much fun, they don't seem to notice the activities are also therapeutic, according to Mary Kay Morrissey, a social worker and director of senior services for the Rockin' Readers.

Negotiations on the proposed purchase of the shuttered North-West Community YMCA, 1515 Touhy Ave., Park Ridge, continue. On Nov. 28, Park Ridge Park Director Steve Meyer and Park Board members Mary Hester, Tom and Bob Hamilton met with officials of the Chicago Metropolitan YMCA on the possible purchase.

The YMCA building, boarded up in August, has long been viewed by Park District personnel as a desirable addition to Park properties because of its proximity to Centennial Park and its central location in the suburb.

From the onset, Director Meyer spoke of the District as being "land poor" and in need of meeting rooms and an enclosed pool. Park Ridge Mayor Martin Butler and City Manager Gerald Hagman gave their full support to the Park District venture.

In October, the Park District obtained the ability to issue \$6.8 million in bonds to aid in the pur-

IDOT offers tips on alcohol use

The Illinois Department of Transportation offers suggestions to party guests so they may enjoy themselves yet not abuse the alcohol use.

Know that guests may choose not to drink and can say "no" to alcoholic beverages for any reason.

Measure the alcohol used in mixed drinks. 1-1/2 ounces of distilled spirits in a mixed drink is about equal to the alcohol in one 12-ounce beer or 5 ounces of table wine. Diluting spirits with water or fruit juice will slow absorption down.

Those who decide to drink alcoholic beverages should be particularly cautious about using alcohol when they are going to drive, when other drugs are taken, or when they are depressed or lonely.

Drink slowly and avoid gulping a drink; remember that alcohol is a drug.

Know that the calorie content of alcoholic beverages varies considerably. For example, four ounces of wine contains about

**TAX REFUNDS
MAY BENEFIT
CHILD CARE**

A bill allowing taxpayers to donate funds to the Child Care Expansion Program has been signed into law, State Rep. Calvin R. Sutker (D-56) has announced.

Persons may contribute to the program in two ways: they may check off what portion of their tax refund they want to be donated, or if they are not receiving a refund, they may send their contribution in with their tax payment.

The Child Care Expansion Program is a pilot program which allows individuals interested in starting day care programs to apply for grants, Sutker stated. "These are one-time-only grants which may be used for starting day care centers or for improving and upgrading existing programs."

"The Child Care Expansion Program is an example of how people can participate in improving day care programs and services for our children," Sutker said.

Letters To The Editor

Reader likes Baer for governor

Dear Editor:

The chief problems faced by Illinois in the coming years are clearly education (we have the worst urban schools in the nation) and jobs (our state is driving businesses away every day with our outlandish taxes). So, naturally, what we need for a new governor is a candidate whose specialties are education and the business climate.

Who do we have, so far? Until last week, our choices were Jim Edgar, whose specialty is traffic issues, and Neil Hartigan, who has thus far exhibited no discernible specialty at all.

Finally, however, a candidate has entered the race for Governor, on the Republican ticket, whose specialties are education and tax and business climate issues.

Steve Baer, co-author of "We Can Rescue Our Children," Illinois' only blueprint for real public school reform so far, and the head of the "Just Say No To Tax Increases" lobbying efforts, has announced his candidacy for Governor of Illinois.

As the Executive Director of one of the Midwest's foremost pro-consumer, pro-business lobbying organizations, the United Republican Fund of Illinois, Steve Baer has proposed and developed an array of solutions to the problems faced by our state. As Governor, he can further the kind of reforms in both the schools and the tax codes that the people of Illinois have demanded and deserved for years.

We need significant tax re-

**KIWANIS
Peanut Day
a success**

Dear Editor:

Once again, thanks to the generosity of the people of Des Plaines, this year over \$25,000 was collected in the annual Kiwanis Peanut Day.

It becomes obvious each year that the winning team approach between the community and Des Plaines Kiwanis Club gives everyone a great feeling in providing funds to be used for local help to those needing help.

Every cent collected (other than the wholesale cost of the peanuts) goes to many projects mainly in the youth, handicapped and senior citizens area. Over the past thirty years, the club has raised and distributed locally over a quarter of a million dollars. Last year the club was number two in the country and this year it is trying to retain that position and even go for the number one spot.

It is a wonderful feeling to be a member of a service club that the community recognizes as being worthwhile in making Des Plaines a community that cares.

Acknowledge Skokie blood donors

Dear Editor:

It is heartening to know that the residents of Skokie have given spirit throughout the year. In fact, a gift of life was given by LifeSource is able to meet the blood needs of our hospitals 24 hours a day; 365 days a year. If you would like information about how to donate blood, please call Donna Mohlein of the Skokie Health Department at 673-0500, ext. 228.

The Skokie Community Blood Program hosts 12 drives a year at G.D. Searle and works with other organizations on 12 additional drives. These organizations include Niles North High School, Niles Township Jewish Congregation, Niles West High School, Rand McNally, Skokie Traditional Synagogue, St. Lambert, St. Peter Catholic Church and Temple Beth Israel.

In 1989, over 1,400 pints of blood were collected at the 24 Skokie drives. These units were broken down into components

form to lower insurance rates, cuts in utility taxes to reduce our energy costs, and most of all, a complete overhaul of the property tax system that has financially strained both homeowners and renters for years.

Steve Baer is the only candidate willing to take these strong measures, the only candidate with the creativity and courage to state the fact that Illinois needs fundamental actions to move forward and improve the lives of our present and future citizens.

I support Steve Baer for Governor, and I encourage all voters to listen to his proposals and support his candidacy. He's a great guy, and he'll make a great Governor.

Auchliches, Squirts outscore Evanston

Led by the explosive goal scoring of Rich Auchlich and the goal-tending of Nick Auchlich the Squirt Blue Rangers crushed Evanston by the score of 5 to 2.

The brother act went to work early. Older brother Rich who scored all of his team's five goals, notched his first, an unassisted tally at 5:43 of the first period. At 3:46 of the second period Auchlich scored his second with the assist going to Pat Cline. Evanston cut the lead to 2 to 1 as the second period ended.

Squirt Rangers shell Skokie

The Squirt White Rangers bombed the Skokie #2 goalie with 30 shots on goal including 12 shots in a six-goal third period explosion enroute to a 9-to-1 victory at Skokie.

The Rangers, behind goaltender Nick Hynes' first career shutout as a Squirt, received all the scoring they would need when Russ Duszkal scored unassisted at 9:18 of the first period. The Rangers scored once more in the second period to lead 3 to 0 before their third period outburst.

The Rangers were led in scoring by Jim Lubinski's three goals and one assist while Brian Gagliano also registered a hat trick.

Among the third period highlights were short handed goals notched just seconds apart by Peter Sikaras and Jim Tragis. Sikaras also added two assists and Kevin Switala added a solo assist with a pass that helped Lubinski score the lone goal of the second period.

BOWLING

St. John Brebeuf Catholic Women's Ladies Bowling

The Mite House League season got under way in wild fashion as 10 goals were scored in the season's first game.

The Blues broke out on top of the Hawks at 6:32 of the first period as Joey Patterson skated end-to-end for an unassisted goal. Just 20 seconds later, Todd Marks fed Patterson who scored the game's second goal.

Eight seconds later, the Hawks bounced back when Gino Ori took the faceoff and raced to score the first of his three goals. Ori then converted on a pass play from Mike Kalas and Derek Cwik to tie the score at two-all. The Blues' Patterson scored his third goal on an unassisted play, and the first period ended with the Blues leading 3 to 2 and a Mite House League record shattering five goals in just 1:38 scored by two teams.

Patterson scored three unassisted goals in the second period giving him five in the contest. The Hawks' Ori scored his third with just eight seconds remaining in the period and the Blues led 6 to 3 after two.

The lone goal of the third period was a brother act as Joe Ori scored on a fine pass from brother Gino, and the final score read Blues 6, Hawks 4.

Hawks, Blues battle to tie

In a game that was a far cry from the season opener, the Hawks and Blues tangled in a tight defensive duel.

While brother Thad was doing an outstanding job in goal for the Blues, Alex Mrowiec got his team out in front midway through the first period when he took a pass from Joey Patterson and the Blues led 1 to 0.

Brother Nick Auchlich turned back 21 shots in the game including 14 in the second period.

Squirt Rangers shell Wilmette

The Squirt Blue Rangers took on the Wilmette Number one team in a tight defensive battle led by the solid goal tending of Nick Auchlich.

Though Wilmette finally scored with just 3:49 left to play in the first period, it took the Hawks' Joe Ori also was doing a fine job as he stopped many shots and pounced on any rebounds.

The Blues, however, refused to quit, and Alex Mrowiec scored the game-tying goal won he was set up beautifully by teammate Todd Marks. The second period ended tied at 2 all and, thanks to great third period play by goalies Mrowiec and Ori, the game ended in a 2 to 2 tie.

Carroll scored his second goal of the game at the 6:06 mark of the third period and it proved to be the game winning goal.

All Chernin's stores will be drop-off locations for people wishing to donate sturdy, used shoes and boots to the campaign.

"We estimate this year about 25,000 Chicago streetpeople will need better shoes to help them through the winter," said Dr. George B. Geppner, president of Scholl College. "Having five area Chernin's stores as collection points in addition to our college, makes it more convenient for people who wish to donate sturdy shoes and boots still in good condition. We'll then sort and distribute the footwear to the shelters we serve."

The need for shoes by the homeless was discovered by School College volunteers when they began providing free podiatric care at shelters. Feet that were treated and bandaged were placed back into the filthy, worn-out dilapidated shoes that often were the cause of the foot injury or ailment. Obtaining adequate shoes was necessary according to the college team of podiatrists and student doctors.

Restaurateurs stress need for designated driver

Secretary of State Jim Edgar and the Illinois Restaurant Association today called on restaurateurs and their customers to encourage every group of partygoers to designate one non-drinking driver whenever they go out for holiday season celebrations.

"Drinking and driving is a year-round problem, but the holiday season is a good time to encourage people to adopt good safety habits," Edgar said. "Too many car crashes begin with a few friends getting together for drinks. Hundreds of lives can be saved if people think about their evening transportation before rather than after -- they go out for the night."

Edgar praised the Illinois Restaurant Association for its efforts to protect the safety of its customers. "Restaurants, taverns and other businesses are training servers to discourage over-consumption," he said. "Private industry and government are working together to prevent drinking and driving. What we need now is a more responsible attitude among people who drink."

Recruit a volunteer from the group of friends who is willing to be the designated driver.

Take turns by volunteering to abstain one time if a friend or spouse will volunteer next time.

Arrange for a taxi or other alternative means of transportation home.

Ask to be picked up by a friend after a social event.

Ask the waiter or server if the establishment offers free drinks or food to designated drivers.

"We are making progress against drinking and driving," Edgar said. "Drunk driving arrests have been on the decline since 1986. But we still have a long way to go before we prevent the hundreds of needless deaths that still occur every year on Illinois highways."

Psychologist offers tips on holiday enjoyment

"The key to enjoying the holidays and seasonal parties is moderation," warns Vincent A. Pisani, Ph.D., clinical psychologist and consultant to Resurrection Medical Center, 7435 W. Talcott Ave., Chicago.

"This is the season when there is a tendency to 'overdo it,'" he adds. "Drugs, alcohol and driving can become a deadly combination."

During National Drunk and Drugged Driving Awareness Week Dec. 10 to 12, Dr. Pisani and other healthcare professionals hope to help create an awareness of the nationwide problem and offer holiday revelers a few lifesaving tips.

"We want people to enjoy the holidays and at the same time make them aware that alcohol and drugs alter perception, coordination and vision," he says.

Statistics indicate that nearly 50 percent of all fatal accidents involve alcohol use and more than 25,000 people are killed yearly in alcohol-related motor vehicle accidents.

According to Claire Anderson, a counselor at Resurrection's treatment acute care alcoholism treatment unit, the holidays also symbolize a serious "down time" for those suffering depression.

Dr. Pisani agrees, adding that holiday depression frequently occurs due to high expectations associated with the festive season.

"Even though the season is supposed to be happy, fun and family-oriented, some people find that concept difficult to accept," he explains. "It's sad, but many people come from dysfunctional families and often spend the holidays alone and have no place special to go. Depression can result from 'happy' expectations not becoming reality."

For those hosting a special holiday extravaganza, or planning seasonal parties this year, Dr. Pisani offers a few "lifesaving" tips for would-be hosts and hostesses.

The fresh wreaths are 24 inches and are decorated with bows and berries. Wreaths cost \$11 and bows \$3.

To place an order call 1-708-698-3405.

Dr. Vincent Pisani

Serve food at parties...food tends to slow down alcohol absorption.

Use a bartender--a bartender can measure drinks and "cut off" those who indulge too much.

Offer nonalcoholic beverages. Close the bar early...offer "last call" well before the party ends.

Watch for intoxication...if guests do drink too much, give them a ride home, call a cab or offer them a place to stay for the night. Take away their car keys and do not let them drive drunk.

"Encourage your guests to eat, pace their drink intake and to taper off," Dr. Pisani warns. "It may be a good idea to encourage guests to select a designated driver."

Dr. Pisani also suggests sipping instead of gulping drinks and warns parties and others to avoid drinking when using prescription drugs, or mixing any type of drugs.

HAPPY HOLIDAYS TO ALL!

Nelson students donate to needy

Children from East Maine District 63 Viola Nelson Elementary School in Niles shared holiday blessings with their less fortunate neighbors. Youngsters from Mrs. Geraldine Hurbut's second grade class donated enough filled Jewel Food Stores stamp cards for Maine Township to obtain six turkeys for needy families. Children clockwise from upper left, Cherie Churan, Evan Keraminas, Cathy Steblin, Ricky Lapinski and his younger siblings Katie and Cory presented the cards to Maine Twp. social worker Wayne Lahti.

Christmas safety tips from Com Ed

Sooner or later, many of us will haul out the artificial Christmas tree or start the search for a natural tree. Before you begin stringing lights or hanging tinsel, please consider a few precautions to ensure that the holiday season will be safe as well as bright and colorful.

For starters, it's always a good idea to inspect last year's lighting sets and discard any with damaged plugs or cords. Use only lighting sets and extension cords that carry the Underwriters' Laboratories (UL) label.

Keep tinsel away from electrical plugs and sockets. If you prefer a natural tree, be sure to water it frequently, and keep burning candles, smoking materials or other sources of ignition safely away.

Metal trees have become increasingly popular in recent years. If you prefer this type, never decorate it with lights. Use a floodlight instead, perhaps in combination with a color wheel, to achieve the same festive effect.

If you're decorating outside, check to make sure the lighting sets are approved for outdoor use. And always maintain a safety distance from overhead electric power lines or facilities, especially when using a metal ladder or tools.

Many of the younger family members will be receiving electrical toys for the first time, and proper handling can be a child's first experience with electrical safety. Underwriters' Laboratories helps to ensure safety in toy construction as well as in lighting sets, extension cords and appliances. The UL seal on an electrical toy shows that the item has been tested for the safety of electrical parts.

To receive phone calls, children must be registered at the Niles Park District, 7877 N. Milwaukee Ave. or the Ballard Leisure Center, 8320 Ballard Rd., by Friday, Dec. 15. Parents must fill out a short questionnaire to assist Santa with his calls!

District 64 sets school closing procedure

Heavy snow, unsafe streets or other emergencies may make it necessary to close District 64 schools or limit transportation.

When it is necessary to close schools, the local Parent/Teacher Organization "calling trees" will be used so parents and children can be notified. Information regarding emergency school closings or emergency bus routes will be given to radio stations WBBM-AM 780, FM 96; WGN-AM 720; WCLR-FM 102; WMAQ-AM 670; WLS-AM 890; and WFYR-FM 103.

School closing decisions are made on the basis of District-wide student safety. When schools are open on extremely bad weather days, parents should decide whether or not their children should attend school.

Emergency bus routes, using only streets designated as Park Ridge or Niles "snow routes" have been developed. Each child

who rides a District 64 bus will receive the emergency routing of his/her bus indicating the bus stops.

If the announcement is made that transportation will be "on emergency routes only" for a given day, the buses will follow the designated emergency routes and schedules only.

The trip is for high school sophomores, juniors and seniors. Both they and their parents are invited to attend this meeting where a slide show of past trips will be shown, past participants will speak and questions about the trip will be answered.

The six-week recreational and educational touring program is supervised by adults. The teens visit Poland, where they learn about former Jewish cultural centers and visit concentration camps. After that, the teens enjoy a five-week stay in Israel, where Israeli teens join them in their activities.

CCP is sponsored in partnership with the Jewish Federation of Metropolitan Chicago and the American Zionist Youth Foundation.

Refreshments will be served. To reserve a place for the evening or for more information call Elana Rubenstein at (708) 675-2200, ext. 159.

This new focus, notes Margaret Lee, vice president for curriculum and instruction, is the result of the emerging global economy, interdependent technology, and growing international business and job opportunities.

The new international focus means that students who earn an associate degree, regardless of their major, will take at least one course that places social, cultural and historical studies within a global context.

Award scholarships to minority students

Ten \$1,000 scholarships, established by the Allstate Foundation, were awarded to minority students who are majoring in accounting, computer and office systems technology at Oakton Community College. Chris Vergara of Glenview. Back row (from left) are: Donna Kratcha of Des Plaines and Danielle Meurk of Wilmette. Not pictured are: Pareshkumar Patel of Niles, Ketan Doshi and Roma Shah of Des Plaines, Ritu Shah of Skokie.

Officers for the 1989/90 school year are Erika Bell of Niles and Rommel De La Cruz of Niles. Co-Presidents: Marilyn Davies of Des Plaines, Secretary/treasurer: David Zawadzki of Des Plaines, Representative at Large, and Heather Anichini of Park Ridge and Ernie Cairo of Niles, public relations representatives. Moderators are Kathleen Novak, third grade teacher and Cathy Hanlon, seventh and eighth grade English teacher. Homecoming representatives will be elected during the month of September.

Oakton prepares students for international economy

Thinking globally, Oakton is taking steps to help students find their economic place in a rapidly shrinking world and an international job market. Opportunities abound with international hotel chains, also in import/export, and the college is preparing students with an international business perspective.

Oakton Community College is preparing its students for the future by injecting an international consciousness into its degree requirements and technical programs.

Another of the factors encouraging the college's international focus is the dramatic change in the region's population makeup. That change reflects growing numbers of Korean, Japanese, Chinese, and Indian students at Oakton, where students already speak some 40 different languages.

Over the last five years, enrollment in the expanded foreign language offerings has surged by 300 percent. In the fall of 1990, Polish and Chinese will be added to the list of foreign languages offered which already includes Spanish, French, German, Japanese, Italian, Hebrew and Russian.

Santa comes to Morton Grove

Santa will parade up and down Morton Grove sidestreets handing out candy to youngsters Dec. 10 from 1 to 3:30 p.m.

The parade, organized by the Morton Grove Days Committee, marks the resurrection of a village tradition some 15 to 20 years ago when Santa visited Morton Grove yearly on the Sunday before Christmas to hand out candy.

The First National Bank of Morton Grove is sponsoring the event and the Georgia Nut Company is supplying the hard rock candy.

Some of the candy will be marked "gift". Those youngsters 12 and under who get a specially marked piece of candy can go to the Harter Park Pool House, 6250 Dempster St., to claim a prize beginning at 2 p.m. There is a limit of one gift per child.

Children are asked to stand on the sidewalks at corners while awaiting Santa's arrival.

From the Left Hand

Continued from Page 1

A couple of weeks ago Maine High Schools increased their tax levy by 18%. Last week East Main elementary District 63 upped its rate by 34%. District 64 approved a 22% increase. It does not mean the school taxes will increase by these amounts. But if the tax levels are approved, and if the assessment remained the same as the previous four years, then you could assume school taxes would increase by these amounts. Because the increase in the assessment plus the unknown state equalizer figure, the taxes for the school districts cannot be accurately determined.

Those are the conclusions we've reached after speaking to a Dell Cesario, a Kevin Harley, a Barbara Gorrell, and a Mr. Kenney, representatives of the county assessor's office, the county clerk's office and Maine High school's office.

Now...let's get down to the bread and butter figures we have to deal with. Last year I paid \$971.75 in taxes to District 63 and \$738.66 to District 207. A 25% increase would raise my District 63 taxes \$243 and the District 207 figures by \$185. Oakton College received \$62.91 so a 25% increase would add another \$15 to my school bill.

My total school taxes would go up \$443 per year for the next four years.

the village of Niles.

"There are similar situations that children and older adults face which draw them together," Morrissey said. Morrissey mentioned the feelings of loss experienced when friends and family members move away or die, as examples of this mutuality.

According to the Nelson teachers, a goal of the Friendship Program is to expand the social horizons of the students as well as the seniors, drawing together two groups of individuals who might not otherwise interact.

The village of Morton Grove has sponsored its Chore program for ten years with the practical goal of matching seniors with able-bodied teens in need of part-time work. Seniors who want help with lawn mowing and raking and snow shoveling

Gang taskforce... Continued from Page 1

The task force is comprised of members of the Niles, Des Plaines, Mt. Prospect, Glenview, Wheeling, and Elk Grove Village municipal police departments and Cook County Sheriff's Police Department (CCSPD). The departments have a mutual aid agreement and operate as an area task force unit relative to gang activity. The group was formed this fall in response to a growing number of incidents attributable to gangs, believed to be trying to establish a base in the area.

Capt. Bob Sturini, Des Plaines department, heads the task force. Sturini told The Bugle Dec. 5 that Cook County became part of Knockout 30 days ago as a result of task force intelligence indicating a higher incidence of gang crimes from members residing in the Prospect Heights area. Prospect Heights does not have its own police department

and has a contract with CCSPD for protection.

"They (gang members) may live there, but it's not just Prospect Heights problem," Sturini said. "They know no boundaries," Giovannelli asserted, adding that gang members are "close enough" no matter where they actually live.

Golf students design quilt

The fifth grade students at Golf Junior High School are participating in a unique reading activity. All the fifth grade students are working together to make a reading quilt which consists of individual squares that represent each student's favorite book.

Capt. Sturini noted that not all crimes committed by gang members are considered gang crimes. He gave the example of a known gang member apprehended by Des Plaines officers investigating pallet thefts from the Jewel Food Store at 1500 Lee St. While awaiting bond for this misdemeanor, the man scribbled gang graffiti in his Des Plaines jail cell. The criminal damage charges that will be levied against the man would be categorized as gang related, whereas, the pallet theft charges would not, Sturini said.

Windows and doors at Lenore Plaza, corner of Shermer Avenue and Dempster Street, Niles, were peppered with BB pellets Nov. 30, causing \$7,000 in estimated damage. The broken glass

has been boarded up until replacement can be made. The shopping center developer is offering a \$1,000 award for information leading to the arrest of the vandals.

Brown estimates window replacement costs at \$7,000.

Meanwhile, construction continues on the new 36,000 sq. ft., L-shaped shopping center that will face Dempster Street and

Harlem Avenue. The present shopping strip in front of the new plaza containing a laundromat, video store, food pantry, electric shop and shuttered restaurant, is expected to be razed before the end of December, according to construction foreman, Jim Mafia.

Recently, burglars entered the closed restaurant on the site and took \$3,000 in stored contractor's supplies.

Police said Simmons had gone to the area to visit friends but got into a fight over money and suffered an injured jaw. He sought treatment at Roseland Community Hospital but left before it could be initiated. The fatal shot hit him when he got into another argument after he left the hospital, police said.

The body remains at the medical examiner's office pending family identification.

Seminar on Crohn's disease

"New Research in Crohn's Disease and Ulcerative Colitis" will be the topic of an educational seminar to be held at the Northwest Community Hospital in Arlington Heights on Dec. 13 at 7:30 p.m.

Sponsored by the midwest chapter of the National Foundation for Ileitis and Colitis, the program will feature Drs. Stephen Hanauer and Eugene Chang, both noted for their work in this field and both associated with the University of Chicago.

The program is open to the public and is free. Further information may be obtained at 708/696-4293.

Over two million Americans suffer from Crohn's Disease, formerly known as ileitis, which is an inflammatory bowel disease for which no cure has yet been discovered.

Photographer exhibits at Skokie library

For the past 25 years, Rosalie Blonder has been expressing herself through her camera. In recent years, she has been using a macro lens to capture the patterns and designs of nature. Recent works demonstrate an interest in reflective surfaces such as those created by liquid surfaces or by man-made materials.

An exhibit of the recent work of Rosalie Blonder will be on view at the Skokie Public Library to Dec. 22.
