## Speedy action by Heinen may have saved GH gym floor

# Roof repairs top Niles Park agenda

by Sheilya Hackett

Quick action by Niles Park District Board President Elaine Heinen may have saved the Park District extensive repair bills at the Grennan Heights fieldhouse. At the meeting of the Park District Board of Commissioners Jan. 16, Heinen spoke of the need for speedy repair of the leaking fieldhouse roof to avoid damaging the gym floor underneath.

After being advised by Park Superintendent Mike Rea of more leaks spouting in the already leaking roof after the December cold snap, Heinen sought the fastest possible solution. She consulted with Board Attorney Gabe Berrafato on the best means to expedite Board action on the problem. She was able to poll

# Area workshop gives tips on revitalizing romance

by Sheilya Hackett

It's a theme as old as Adam and Eve. Maybe today's liberated woman won't agree, but the woman who thinks she's "come a long way, baby," may find a switch to the "Me Tarzan, you Jane" attitude more fulfilling.

That's the philosophy presented by Linda Frost, a consultant who offers workshops on how to bring more romance into your life.

One definition of a "romantic" given in the Random House College Dictionary is "one preoccupied with love or by the idealization of love or one's beloved."

Whether or not that definition was a precise description of the five assembled for a recent work-

shop in her second marriage; two of us were content with our first husbands, and another was in the throes of a divorce.

The auburn-haired Frost, herself divorced, thoughtfully tried to assist with each participant's situation. Her soft accent gave evidence of her Missouri childhood.

As we gathered one recent cold afternoon, Frost advised that a warm, romantic relationship takes more than soft music, candlelight and the scent of incense though these might add to the mystique.

She suggests, romance comes from also analyzing your love on the basis of neural-linguistic clues, determining his type, then

*'We were all present to discover how to put more romance into our male-female relationships.'*

en's workshop, we were a mixed group, hailing from Skokie, Mount Prospect, Wheeling, Elk Grove Village, and Chicago.

Evanstonian Linda Frost was our leader and we were all present to discover how to put more romance into our male-female relationships.

One of the group was a widow tired of the current dating attitudes; another woman was happy

addressing your actions to those characteristics.

Once the type is determined, she said, it's basically accepting your love as he is and catering to him.

The neural-linguistic clues distinguish three male types based on their reactions to sensory perceptions: those influenced by the visual senses, the auditory senses, or intuitive feelings.

Romance consultant Linda Frost suggests searching out patterns in tea leaves as a way for couples to build a story around their relationship. Could that be a boat, a ring or a candy bar?

The visual man may be identified by such clues as saying, "I see what you mean." The visual person responds to what he sees: pretty clothes, attractive surroundings, makeup, a room that is attractive, and dressing in his preferred style, for example, casual or preppy.

The auditory man might say, "That sounds like fun!" The audi-

tory person would react to sounds such as pleasing background music, modulated voices, and warm conversations.

For the man dominated by feelings, the one who might say "I don't feel right about it," Frost suggests wearing silks and velvets and offering a back rub.

Frost sees today's women, characteristically employed, as more

into "doing" than "being." She suggests they take time for activities that stress their femininity and de-stress their lives, such as a manicure.

"Women must find a way to separate work and home by consciously shifting gears and finding time for themselves and their loves," Frost said.

*'A warm, romantic relationship takes more than soft music and candlelight.'*

Romantics should emphasize confidence in their love's ability to provide. They should love unconditionally and never keep score, Frost added.

She builds on the theory that men want to be admired, while women want to be loved. She cautions that relationships fail when partners fail to keep love alive.

New life in a relationship can come from doing the unexpected, Frost said. "For a change of pace, why not rent a limousine for an hour's drive for the two of you?" she asked. Or, pack a lunch and the china and head for the lake shore for a surprise picnic; play hooky and dine and dance at a gourmet restaurant.

Similar changes in routine can add sparkle to romance, she maintains, and if women get in touch with their essential female qualities, men will benefit as well.

As the two-hour workshop drew to a close, smiles spread across the faces of these present and one woman applauded. As we left, we shared ideas for a romantic dinner party.

Linda Frost offers workshops regularly, and with Valentine's Day drawing near, new insight on bringing romance into your life might just turn the February occasion into a day to remember!

by Linda A. Burns

About 260 residents crowded into the Morton Grove Village Hall Monday night to hear about the proposed condominium-townhouse development slated for the Hynes School site at 9000 Bellefort Ave. and to voice objections to it.

Several residents as well as representatives from the Skokie development firm of Bernard Katz and Company were given the opportunity to speak for a limited time at the Morton Grove Plan Commission's public hearing. On Oct. 26 the District 67 School Board approved the sale of Hynes School to the Katz

Company for \$2 million. The development company seeks to have the Hynes School property rezoned from R-2 single-family to R-3 multi-family residential. If the rezoning is obtained, the firm is contractually obligated to go ahead with the project. Ten days after rezoning is granted by the Village Board, the sale can close, Jerry Weiss, vice president of the Katz firm said.

If taxpayers are stinging this year, it's because some local taxing bodies have increased their levies by as much as 44.6 percent. Cook County Clerk Stanley Kusper's office has compiled data showing each tax body's levy since 1987.

Although the Clerk's data shows that public libraries countywide accounted for the largest average levy increases, locally school districts accounted for the greatest increased percentages. Municipal libraries such as in Morton Grove and Park Ridge are supported by village and city levies.

The city of Park Ridge handed

its taxpayers an 8.75 increase, raising its levy from \$6,337, 151 in 1988 to a request for \$6,891,801 in 1989. The Village of Skokie filed an additional 8.04

## Charitable students at St. John Brebeuf

Collecting food, preparing gifts for the needy, making presents for parents and singing Christmas carols were some ways the students at St. John Brebeuf School prepared for Christmas. Writing letters to Santa and whispering wish lists in his ears might have been important, but for first graders, not as outstanding as the dramatizing of the real meaning of Christmas. While some students acted out the nativity, other students narrated the speaking parts completely by

memory. Pictured are Eric Hirtzig as the Angel and Deanna Greco as Mary. Other angels were played by Cherie Tymkiw, Barbara Bohling, Samantha Williams, Cathy Perry, Milena Nitti and Ursula Swiergula. The shepherds were Matthew Glon, Joey Ausmann, Richard Pozo and Ryan Ullrich. The innkeeper was played by Darek Morawa, while Joseph Merkel was St. Joseph.

In a disaster, such as a tornado, flood, or aircraft accident, ESDA coordinates necessary emergency services for village departments and outside agencies. For information on joining the Morton Grove ESDA unit, call Frank Selzer at 965-4100.

### MedClaim, Inc. opens for business

MedClaim, Inc., a company that helps people file medical insurance claims, has opened for business in Chicago.

"There's a lot of paperwork involved in dealing with insurance companies, and many people are confused by all the bills and forms," said MedClaim Vice President Lucy Brundage.

"That's a reason why many reimbursement benefits go unreported every year. MedClaim fills a definite void in health care delivery by helping patients file their insurance claims."

Brundage pointed to a recent survey conducted by the American Association of Retired Persons, which found that two-thirds of the 37 percent who were Medicare-eligible had submitted claims. Of those, 22 percent reported having to submit the claim more than once to get reimbursed; 42 percent were dissatisfied with the payment; and 34 percent were unsure about how much they had to pay.

Prior to starting MedClaim, Brundage worked for several medical practices and dealt with insurance companies daily regarding paperwork necessary to file claims.

She noted that the company's staff has 32 years of experience in administering and managing claims on behalf of thousands of patients.

A company representative is available to answer any questions and can be reached at (312) 348-3334.

**SCIENCE OF GEMS**  
You know scientific discoveries affect your health, but did you know they also affect your gemstones? Just as scientists experiment and explore to make discoveries that help doctors help you, research gemologists experiment and explore to learn more about fine gems. Scientific studies focus on data or findings which are not fully understood. In the world of gemology, for instance, gem-quality garnets have been somewhat hard to classify because the garnet is chemically complex. In the end of the 1960s, garnets began to be mined in East Africa. These garnets did not fit the standard classifications which had been used until then.

You probably don't need to know that a new way of grouping garnets was recently proposed in a professional magazine by researchers at the Geological Institute of America. You do need to know that the properties of garnets, (including chemical, physical, and optical properties) are used by our professional jewelers to your benefit.

Understanding the gems we work with means we can order well to make fine quality gems available to you. Because we are your professional jewelers, we follow the advancements in our field. We know the complexities of garnets, and we can show you some simply beautiful gems. Drop by to see our garnet collection.

These academically selected students are bright, curious, and anxious to learn about the U.S.A. through living as part of a family, attending high school and sharing their own culture and language with their host family.

Students should be between 15 and 18 years old and be interested in living with a host family, attending school and learning about the lands and people of Scandinavia, France, Italy, Spain, Germany, Holland, Britain, Switzerland, Canada, Mexico, Australia, or New Zealand.

Students should have a good academic record and desire to experience another culture and language through living with a volunteer family.

### Tax check-off can help homeless

Illinois taxpayers have an opportunity this year to help persons who are homeless. Acting Public Air Director Kathleen Kustra said,

"At least 50,000 Illinois residents are in need of shelter right now, and that need multiplies during the winter months," Kustra said.

"This coming year, Illinois taxpayers can help by designating a contribution to the Assistance to the Homeless Fund on their Illinois tax returns."

The Assistance to the Homeless Fund is listed on all Illinois income tax forms. Persons wanting to donate any amount over \$1 to the fund should enter the amount on line 11d.

### An open letter to the families of Angelo Marcheschi and Peter Pesole:

Dear Editor:

The trustees and members of the Golf Mill Homeowners Association wish to extend to you our condolences on the passing of Angelo Marcheschi and Peter Pesole. Whenever Ang or Pete was invited to one of our Sunday evening meetings in Courtland Park he would promptly respond and willingly appear.

Each of them listened to our complaints and responded to our problems. In an era when many of our experiences with government seem to be impersonal and even abrasive, Ang and Pete brought a human touch to our local government. They will be missed.

Sincerely yours,  
Benjamin H. Cohen, Secretary for the trustees and members of Golf Mill Homeowners Assn.

### Protest Saturday Skokie Swift closing

Dear Editor:

The other evening I represented the Village of Skokie before a public hearing held by the CTA to strongly protest the proposed closing of the Skokie Swift on Saturdays.

One thousand riders use the Swift on Saturdays. Closing this important service will severely cut available public transportation for our community, hurting both commuters and businesses.

If you share my concern get in touch with the CTA and register your complaint by calling 312-664-7200. Your voice needs to be heard.

Sincerely,  
George Van Dusen  
Trustee

### Safety tips for driving on snow, ice

Recent snowfalls in Illinois have caused hazardous driving conditions for many motorists. One of the most important safe driving techniques is to "squeeze" the brakes when stopping on ice and snow.

Pumping the brakes can cause them to lock, resulting in steering loss and possibly causing the vehicle to spin out of control.

To avoid spinning out, squeeze the brakes with a slow steady pressure until just before they lock. Ease off the pedal until you feel the wheels rolling easily and then squeeze the brakes again.

This technique works equally well with both front- and rear-wheel-drive vehicles.

Practice this technique on secondary roads until squeezing the brakes becomes automatic. You should also practice shifting into neutral when stopping or turning on ice or snow.

Although squeezing the brakes will help you stop on a slippery road, take your foot off the brakes

### Georgia students thank correspondents

Dear Editor,

I wanted to thank you personally for your response to the letter my students sent to you. The response from the people around the country has been very heart warming and inspiring. We have not only received hundreds of post-cards, but we have received hand written letters, books, food, buttons, bumper stickers, pins, and magazines.

We are doing reports about each state, and the information has been an excellent resource for the children to use. This activity has also created so much enthusiasm in the classroom and in the families of my students. I have also used the post-cards and letters in other subjects.

I wish we could write a thank you note to each and every person that took the time to respond to our requests. Each of my students is extremely grateful, and we want you to know how much we appreciate the kindness that has been sent our way. Every one of my students will have fond memories of learning about the fifty states. In a time when everyone thinks education is weak, you have helped make it come alive for my students and for this I am eternally grateful.

Yours truly,  
Dawn Neukirch  
Teacher, Wheelers Road  
Elementary School

Following is a letter from one of Dawn Neukirch's students:

Dear Editer

My name is Jess Hollins. I'm the student that wrote you from Augusta, Georgia. Thank you for your reply. We have received over six hundred peices of mail! We are so excited and grateful for all the mail we have received!

Two reporters came to our classroom. They asked us questions about the states we have received mail from.

P.S. Thank you for all the stuff you sent me!

### Thanks for helping Township

Dear Editor:

On behalf of the Maine Township Board of Trustees, I would like to thank all the people whose time, energy and resources helped make Christmas a lot brighter for so many of their neighbors.

Words cannot express our gratitude to Sandra and Paul Brigante who hosted an extraordinary Christmas Eve party and dinner at Banquets by Brigante for nearly 400 Maine Township residents. Family, friends, township staff members, and community volunteers joined the Brigantes to help make this celebration a huge success.

A very special thanks to PlainsBank of Illinois for its very generous donation of 165 Gund stuffed bears and to the many other individuals and businesses who contributed food and gifts

for the party.

We would also like to extend our deepest appreciation to the individuals and organizations whose donations of food and grocery store gift certificates made it possible for the township to maintain its emergency food pantry throughout the year and to distribute 200 food baskets to needy residents for Thanksgiving and Christmas.

Maine Township is truly fortunate to have so many caring, generous people who are willing to share their blessings with others. We are proud to be a part of this exceptional community.

**Kid food taste tested by kids**

When was the last time you ate taco boats, fish nuggets, hamburgers, Salisbury steak and croissants all at one sitting?

Fifteen students in grades four to eight did just that at St. John Brebeuf School during a taste test sponsored by the Chicago Archdiocesan Food Service Program.

St. John's was selected as one of the sites for the taste test, so on Dec. 14, Edith Zumwalt, manager of recipe development, menu planning, and product evaluation, and her assistant, Betty O'Kray, conducted the taste test.

The purpose was to get children's ideas and opinions in order to serve food children want. The students could eat as much of or as little of each item in order to rate each of the foods.

They would also give written comments but could not discuss the foods with each other before giving their personal opinions.

All fifteen students enjoyed being on this panel and would do it again, if given the chance.

Participants in the taste test were Colleen McDonagh, Christina Hoegan, Brent Wallace, Tom Gizynski, Tony Tranchita, Mari-go Delis, Frances Hanna, Chris Sioll, Jennifer Giffredi, James Veikos, Amy Sullivan, Jennie Doczekalski, Marty McDonagh, Kris Jung and Brian Kalinowski.

The Archdiocesan Food Service Program serves 4,000 breakfasts daily and 43,000 lunches daily in 210 elementary Archdiocesan schools.

### Breakers residents win awards in ceramics

The works of residents of the Breakers active senior communities brought home six ceramics awards during a recent multi-state arts and crafts contest. Proudly showing their works of

art are residents (left to right) Ruth Morrison, Fritzi Berman, instructor Dianne Schmitt, Maggie Cunningham, Ida Zuckerman and Reba Platt. Not pictured is resident Mildred Lewison.

And the winner is...the arts and crafts classes of the Breakers. Residents of the Breakers at Edgewater Beach and the Breakers at Golf Mill took home a total of nine top awards, including first place trophies in the senior citizen division for creative ceramic sculptures entered in a recent multi-state arts and crafts contest. The annual arts and crafts competition attracted hundreds of entrants from Illinois, Indiana and Wisconsin. Artists of all ages, experience and skill levels competed at the three-day show.

Among the many winners, Maggie Cunningham of the Breakers was awarded the grand prize for her handmade ceramic necklace. Each bead was individually sculpted by Cunningham during weekly arts and crafts classes offered at the Breakers.

According to instructor Dianne Schmitt, also a trophy winner, arts and crafts can be an effective way for the elderly to relieve tension, have fun and even

discover a hidden talent.

Eight additional Breakers residents received awards at the competition, including Ruth Morrison, Fritzi Berman, Ida Zuckerman, Reba Platt, Mildred Lewison, Ruth Daensing, Minette Schoenfeld and Esther Lazar.

A variety of arts and crafts classes are offered weekly at both of the Breakers communities. Current favorites among residents are pottery, jewelry making, and, of course, ceramics. Additionally, t-shirt painting, needle craft, and plant clinics have proven to be popular activities pursued by residents either individually or within a class setting.

Senior Lifestyle Corporation's flagship operation is the Breakers at Edgewater Beach, located at 5333 N. Sheridan Rd., Chicago.

### Maine Township helps meet senior needs

Maine Township has one of the largest senior citizen population in Cook County, numbering about 20,000.

A wide variety of services and programs are available to these senior citizens through the Maine Township government. Supervisor Joan B. Hall said, "They are an important part of our community, and we try to provide a wide range of services to meet their needs."

One of the key programs offered by Maine Township is an information and referral clearinghouse to help senior citizens and their families obtain information on housing, medical services, social and mental health services, nutrition, home-delivered meals, employment, energy assistance, social activities, and a variety of other services.

You can reach the information and referral service by calling the Social Services Department at the Maine Township Town Hall, 297-2510.

The senior program is partially supported through grants awarded to Maine Township by the Suburban Cook County Area Agency on Aging. To date, the township has received eight awards from the Suburban Cook County Area Agency on Aging to continue providing information and referral services.

Senior citizens can also find fun and companionship through

the many activities offered by the Maine Township Seniors, a social group sponsored by the township.

The group offers frequent day trips, theater outings, bingo parties, workshops, educational opportunities, and monthly luncheons at a nominal cost to members. It also sponsors popular mini-vacations and longer trips.

More than 2,800 Maine Township seniors belong to the group. Activities in most cases are limited to members. Applicants must be 65 or older and provide proof of residency.

The township also sponsors OPTIONS 55, a social program for preretirement adults, aged 55 through 65. Trips, theater programs and special events are scheduled evenings and weekends for the convenience of members.

Membership in both groups is free. For information and membership applications call Sue Neuschel, 297-2510.

Maine Township also provides RTA special users passes and handicapped parking cards through the clerk's office; and it participates in the Paratransit Resource Center to provide transportation at special rates to seniors who are unable to use public transportation.

For information on any of these programs, call 297-2510.

### Center of Concern matches homesharers

Many people, young and old, cannot afford to live alone. Rising rents and increasing costs for utilities and home repairs make it difficult for many people to pay their bills and have money left over at the end of the month.

Home sharing makes housing more affordable and provides the family-like support system many people need.

The Center of Concern, Suite

223, 1580 Northwest Hwy., Park Ridge, is pleased to announce continued success in matching homesharers with home seekers. The office is open from 9 a.m. to 5 p.m., Monday through Friday, to help coordinate shared housing for those in need of a place to live with those who have extra room in their homes. Please call 823-0453 and ask for Eva.

The show will present 100 years of fashion with music and narration to match the time period. The cast of approximately 20

volunteers consists of models, narrators and pianists.

After the show, guests can enjoy tea and pastries in the atrium lounge and are welcome to take a grand tour of the Benchmark.

The vintage clothing fashion show is one of many events on the Benchmark's calendar.

an escrow account towards the purchase of the site, the balance to be paid upon the sale's closing. If the site is not used for multi-family residences, the property reverts back to the school district. The school district has a 2-year lease on the property after the closing date.

One of the chief complaints of residents was how an area zoned for single-family residential use could be rezoned to accommodate high-density, multi-family housing.

"The whole concept of zoning is jeopardized," Harold Cohon of 9237 National Ave. said. "Please deny request for spot zoning," he told the planning commission, meeting with applause from the audience.

Another National Avenue resident said the purpose of zoning is to maintain the integrity of a neighborhood. "We all moved two blocks from commercialism. Commercialism moved into our back yards. Our integrity has been breached enough, don't rape us another time," she said.

The firm also requested a text amendment be added to a village ordinance allowing for 3-story building construction instead of the current 2 1/2-story limitation as long as the building does not exceed 35 feet in height. This amendment would reduce the ground space needed for the project and free up more space for landscaping purposes, according to Daniel LeNoble, architect for the project.

One resident noting the proposed amendment change in the child seat area of a shopping cart, and fled the store. The owner, a 36 year old Des Plaines woman, shouted as she ran after him. A 22 year old Jewel employee joined her, as the offender left the store.

The victim managed to pull Russell to the ground, falling herself, outside the store and the handbag fell several feet away. Russell got up and ran east toward K Mart with several store employees in pursuit. The 22 year old employee managed to stop Russell at the east end of the parking lot as Niles police arrived to place him in custody.

village ordinance questioned, "What other projects do they (the development firm) have in mind?"

One senior citizen and Marion Ave. resident said, "We're now at an age we're retiring. We have a lovely, quiet neighborhood. Don't change our neighborhood with a two or three story building."

LeNoble elaborated on plans for the 136-unit project. He said the site plan includes condominiums on the west end of the property and townhouses at the east end. A recreation facility would be in the center of the complex equipped for a swimming pool, meeting rooms and game rooms.

The complex would have front yards on National Avenue and Sherman Road and side yards on the north and south, all of which would meet village space requirements, LeNoble said. The buildings would cover about 26 percent of the site and the 266-car parking facilities, sidewalks and walkways would cover another 20 percent, leaving the rest of the land open.

Residents are also concerned about water and sewer problems from the project, potential traffic problems and a decrease in property values.

Helen Page of 7017 Church St. questioned how long it would be before requests start coming in to make Church St. and Sherman Rd. wider. "Who will get assessed to make sewers wider?" she added.

Prior to the incident, Russell was seen by a witness talking to his accomplices in a black Toyota in the parking lot. The witness recognized the Toyota driver as a school acquaintance and gave police the license number of the vehicle.

Police interviewed the 23 year old Des Plaines driver and his girlfriend after Russell implicated them. Despite their admission that they were involved, the States Attorneys Office said there was insufficient evidence to charge them and they were released.

AREA CODE **708**

As you now know, a new area code has been introduced to serve the Chicago Suburbs. Area code 312 continues to serve the City of Chicago. The transition period, from Nov. 11, 1989 to Feb. 9, 1990 is nearly over.

We hope you're getting used to dialing "1" plus the proper area code before the telephone number when calling between the suburbs and Chicago.

Even though calls between the city and suburbs will require dialing "1" plus the area code, the addition of 708 will not cause a change in rates. As the new year begins, please remember...

## One-man show at North Central College

An exhibit of acrylic and oil paintings by Chicago-area artist William Hatendorf will be on display in the gallery of the Oesterle Library at North Central College through Feb. 16.

The one-man show, which includes more than 20 of the artist's canvases, incorporates objective and non-objective art. According to the artist, it runs from realism to abstractions with a few things in between.

"I'm showing all kinds of different styles in this show," said Hatendorf. "It is an exploration into the styles that have been developed since the beginning of modern art."

"There are a few pieces that go together," he continued. "But the unifying force in this show is the change from one piece to another. A lot of different faces of the artist are revealed."

Hatendorf is a 1983 graduate of North Central College. He has studied at The School of the Art Institute of Chicago, and his works have been on display at the Upstart Gallery and Rush-Presbyterian-St. Luke's Hospital in Chicago.

### Legion aids in disaster relief

The Morton Grove American Legion Post No. 134 recently made donations to assist other Legion Posts in areas hit by disaster.

Financial aid was made to assist those Legion posts on the west coast hit by the recent earthquake.

Also damaged were many American Legion homes in the Hurricane Hugo area, and the local Legion also aided them with a cash contribution.

The primary purpose of Post No. 134 besides assisting veterans and their families and the widows and children of deceased ex-servicemen, is community service. They lead in contributing flags, sponsoring parades, assisting scouts, and helping the handicapped in the village.

Commander this year is Karl Falter.

### Historical Society to see Niles slide show

New and old scenes in the Niles area captured by two young residents, Brian Farrell and John Matusek, will be featured at the Niles Historical Society's regular meeting Monday, Jan. 22 at 8 p.m. at Museum Headquarters, 8970 Milwaukee Ave., Niles.

The public is invited, and refreshments will be served.

Brian and John started their collection in 1977, and since then have added new scenes of improvements, and also some of old buildings since torn down.

Join the historical society for a trip down memory lane and see some of the latest exhibits.

Society members are currently getting ready for their card party and table games event to be held at the Trident Senior Center, 8060 Oakton, Niles, on Friday, Feb. 16 at 7:30 p.m.

Donations are \$5, refreshments and prizes are included, and reservations may be made by phoning 390-0160.

### Financial seminar on \$ and sense

"What Every Person Should Know About Money" will be Thursday, Feb. 15 from 7 to 9 p.m., offered by North Lex, Waddell & Reed Financial Services.

The seminar will deal with the "ho-to's" of organizing personal finances to make dollars and "sense."

It will be at DePaul University, 2324 N. Seminary, Room 224. It is free and open to the public. Call (708) 647-1360 or (312) 248-9593 for more information.

### Two local students join business frat

Two area youths are among the 27 University of Illinois undergraduate students who have been initiated into the Epsilon chapter of the Alpha Kappa Psi professional business fraternity.

The students included Laurie Doherty of Des Plaines and Robert Toton of Park Ridge.

Alpha Kappa Psi is the nation's oldest and largest professional business fraternity. To apply for membership, a student must have a major or minor in a field of commerce and maintain at least a 3.5 grade-point average.

### Morton Grove Library

The beautiful Oriental watercolors of artist Masako Van Leijenhorst are on display in the Baxter Room of the Morton Grove Public Library during the month of January.

Masako was born in Osaka, Japan and studied art in Europe, then in the Philippines and Thailand. She basically follows the traditional style of Oriental painting, but combines it with the bold colors and forcefulness of European art.

Masako lives in Evanston and has won various awards in the Midwest area since she began exhibiting in 1984.

A special travel program will be presented at the Library on Tuesday, Jan. 30 at 11:30 a.m. The subject will be Mississippi and the Old South and the speaker will be Rosemarie Madden, who will show slides of Jackson, Vicksburg, and Natchez, and will give information on tours of the beautiful old plantations there.

Free coffee will be served and admission is free.

### M.G. American Legion thanks workers with party

As is their tradition, the Morton Grove American Legion Post No. 134 annually holds a huge party as a thank you for those members, families, and friends who assisted in "working" at one of the regular functions during the year.

Those invited guests were the hearty souls who worked at the weekly Friday fish fries, the regular Wednesday bingo games, and the yearly summer carnival.

A highlight, in addition to the regular door prize awards, is the cash prizes offered an incentive for the highest ticket sellers at the annual Krazy Daze carnival.

The Niles Chamber presents a Recognition Dinner Dance at Przybylo's House of the White Eagle, 6839 Milwaukee Ave., Niles, on Jan. 19 at 6 p.m. The admission is \$45 per person.

There will be music, dancing, a silent auction and installation of officers and board members.

For reservations, call 635-0303.

### Edison files "least cost" plan

Commonwealth Edison recently filed a comprehensive plan with the Illinois Commerce Commission (ICC) which commits Edison to identify and meet its customers' electrical needs at the lowest possible cost.

Known as the Least Cost Plan, Edison's plan calls for meeting future electricity demands through a combination of conservation, co-generation, load management, inter-utility power purchases, new generating stations, and other methods.

Based on current projections, the company said it does not anticipate the need for additional baseload generating capacity until the end of this decade.

The Least Cost Plan, which will be updated every two years, attempts to identify future customer electricity demands and the most effective manner in which Edison can meet those demands.

"Our company is firmly committed to continue working with consumers, the Commission and other interested parties to successfully meet future demands for electricity at the least cost possible," Hill declared.

### Yates honored for human rights stand

Lauded as "an unwavering champion of human rights and justice for all people," U.S. Rep. Sidney R. Yates (D-9th), left center, received the United Hellenic American Congress (UHAC) human rights award at a recent Greektown

luncheon. UHAC Executive Committee members, from left to right, Frank Kamberos, John Marks and Thomas Athens, commended Yates for his continued support of Greek-American policies.

### Former Mayor Smith endorses Van Dusen

George Van Dusen, democratic candidate for state representative of the 56th District, has been endorsed by former Skokie Mayor Albert J. Smith, who will serve as honorary chairman of Van Dusen's campaign.

"We need George Van Dusen in the state legislature," Smith said. "When mayor of Skokie, I looked to George as a creative, thoughtful, responsible voice for the community."

"With his tenure as Skokie trustee and a longtime legislative aide to Congressman Sidney R. Yates, George Van Dusen brings years of experience and an understanding of issues at all levels of government," Smith said.

"George and his family have

lived in this community for many years. His children go to school here. They belong to a synagogue here. They understand the concerns of the 56th District because they share those concerns."

Van Dusen is running for the state representative seat being vacated by Calvin R. Sutker who has been slated by the Democratic party for the office of Clerk of Cook County.

The 56th District includes areas of Skokie, Morton Grove, Niles, unincorporated Des Plaines, Glenview, Golf and West Wilmette.

For more information, call George Van Dusen at (708) 679-4361.

### Circuit Court judicial candidate

Hyman Riebman has been slated by the Democratic Party of Cook County as a candidate for Circuit Court Judge of Cook County in the March 20 primary.

Riebman, a Skokie attorney and resident of Arlington Heights, is a former Assistant State's Attorney of Cook County. He is a member of the Board of Governors of the Northwest Suburban Bar Association and presently the Chairman of the Chicago Bar Association Traffic Laws Committee. He was rated "Qualified" by the Chicago Bar Association Judicial Evaluation Committee for the position of Associate Judge.

Riebman maintains a varied trial and general practice of law involving areas of criminal, civil, domestic relations, corporate and real estate law. He has been an active committee member of the Chicago and Northwest Suburban Bar Associations. His activities have included appearing before the Illinois Supreme Court Committee on jury instructions and as a representative of the Chicago Bar Association committee that has proposed new traffic law legislation before the Illinois legislature.

### Scimeca accounces for state rep

Larry Scimeca, a lifelong Chicagoan and 23-year resident of the 41st Ward announced his candidacy for state representative (13th District) in the Republican primary election, March 20.

Scimeca, who describes himself as an independent, hopes to foster "common sense solutions" to issues facing district voters.

"I will fight to stop the costly and unfair practice of charging for auto insurance and health insurance on the basis of one's zip code," Scimeca said. Both Chicago and Niles residents have been paying 15 to 45 percent more in premium costs only because they share a 606 zip code with Chicago."

In addition, Scimeca has promised to fight for tuition tax credits for parents of private elementary school students and to support a state sponsored catastrophic health plan.

"I strongly believe that Illinois should take the initiative and establish an elder care health plan which would provide for custodial and home health care benefits."

"The senior citizens of our state must be made free from the worry of financial ruin resulting from catastrophic medical expenses. My plan will provide a financial safety net for our people."

### Eunice Conn blasts Big Jim's travel

State Rep. candidate Eunice Conn (R-56) this week said she is "shocked that my Republican primary opponent opened his campaign with an endorsement of the governor's frequent trips to foreign capitals."

"The people of the 56th district were tapped over and over for the governor's lavish trips to Japan, the Soviet Union and mainland China, all in the name of economic development," Mrs. Conn said.

"As a small business owner, I have watched economic development policy in this state for years," she said. "I have seen very little return for the people of Illinois from the governor's frequent travels, and the people of the 56th district have seen no measurable return."

"Yet my opponent says he is very much in favor of Gov. Thompson's trips out of the country and goes on to say, 'In fact, I

### Economy, safety is the issue, Conn says

State representative candidate Eunice Conn this week expressed "surprise" that her Republican primary opponent cited abortion as a leading issue in the 56th district during his announcement of candidacy.

"With property taxes so high and getting higher," Conn said, "I just do not think 'abortion' is the topic most on the minds of the people in our community."

Conn said that the people in the district want a legislator who will

### Booklet explains new mandatory insurance law

State Sen. Walter Dudyycz (R-7) is reminding 7th District motorists that they must have auto liability insurance in effect.

"Motorists need to know their rights and responsibilities under Illinois' new mandatory auto insurance requirement," Dudyycz said. "I have had an informational booklet printed that explains the provisions of this new law. These

### Joseph Claps named Hartigan's 1st assistant

Illinois Attorney General Neil F. Hartigan has announced the appointment of Joseph Claps to be the first assistant attorney general. Prior to his recent appointment, Claps was serving as deputy director of enforcement for Attorney General Neil F. Hartigan. First Assistant Claps has been in the Attorney General's office for six years and formerly spent eight years in the States Attorney Office of Cook County. He is a lieutenant colonel in the U.S. Army Reserves, a graduate of Loyola University and Kent College of Law. Shown left to right are Joseph Claps, Marge Hartigan, and Attorney General Neil F. Hartigan.

### Rep. Pullen for school reform

Illinois House Assistant Republican Leader Penny Pullen (R-55th) this week endorsed "in principle" the Parental Choice in Education plan proposed by State Schools Chief Robert Leininger.

"Educational reform is a critical need in Illinois," Rep. Pullen said, "and a cornerstone of reform must be family involvement."

"I am convinced that parents in every community in our state share a desire that their children 'do better' than they did. That's a basic American trait," she said.

"Superintendent Leininger's proposal offers the promise of reform through parental involvement and, perhaps as importantly, through competition within the public school system."

Rep. Pullen said she understood the proposal would provide parents the right to choose which public school their children would attend within their district of residence.

"Such a policy would set off a wave of educational improvement in every school, as the teachers and administrators would compete with other independent schools to ensure their school's continued enrollment. Educational improvement through competition and parental involvement; that's what I call reform!" Rep. Pullen said.

### Stop smoking clinic

### Assessor's... Continued from Page 1

will be from 9 a.m. to noon, on the Saturdays of January 20, 27, and February 3 and 10 at the Assessor's Branch Offices located in the Circuit Court Buildings in Rolling Meadows (Room 237, 2121 Euclid Ave.) and Skokie (Room 149, 5600 Old Orchard Rd.).

Homeowners should bring with them their "Notice of Proposed Assessed Valuation." Valuation complaints can also be filed at any of Hynes' offices, 8:45 a.m. to 4:30 p.m., Monday through Friday. The Assessor's complaint deadline is February 14 for Niles Township.

Reachouts have already been held for Elk Grove, Hanover, Leyden, Norwood Park, and Schaumburg Townships, and are in progress for Barrington, Maine, Palatine, and Wheeling Townships. Other townships included in the 1989 reassessment are Evanston, New Trier, and Northfield. Complaint filing deadlines and Reachouts for these townships will be announced as the notices are mailed.

"We want to emphasize that now, not when tax bills come out next summer, is when we can correct assessments," Hynes said.

We urge homeowners to ask questions, and to file complaints if warranted. We want to make sure our assessments are fair and uniform."

Hynes also pointed out that taxing bodies recently approved their levies, which are what will determine how much next sum-

mer's property tax bills will go up. "We are cautioning people to ask their local governments and school districts about these spending requests and decide if the increases, which can still be lowered, are reasonable and justified or not. Large increases will mean bloated tax bills later," he warned.

Hynes has also proposed increasing the Homeowner and Senior Citizen Exemptions by \$2,000 each. This proposal, if passed by the state legislature, would increase the tax savings by an average of \$200 for every homeowner and \$400 for senior citizens.

For more property assessment information, contact Hynes' Taxpayer's Assistance Department in downtown Chicago at the County Building, 118 N. Clark, Room 301, 443-7550, or at any of his branch offices located in Circuit Court Buildings: in Skokie, 5600 Old Orchard Rd., Room 149, 470-7237; Rolling Meadows, 2121 Euclid Ave., Room 237, 818-2444; Maywood, 1500 Maybrook Sq., Room 005, 865-6032; Bridgeview, 10200 S. 76th Ave., Room 237, 974-6451; Markham, 16501 S. Kedzie Ave., Room 237, 210-4100.

Homeowners may also seek assistance at their local suburban township assessor's office.

After the Assessor's filing deadline, taxpayers will have an additional opportunity to appeal with the Cook County Board of Appeals, 443-5542.

### Roof repairs... Continued from Page 1

Board members by telephone and then authorize Rea to obtain estimates on roof repair. After numerous estimates, the White Company was chosen and Berrafato is completing the contract paper work for the job. The fee for the roof repair is \$35,000 and work is expected to begin Jan. 22-23.

Maintenance again took center stage in Commissioner Bud Skaja's report on repair work needed at Golf Mill park after vandals driving a car or small truck crashed into playground equipment. Damage to a cross bar and baby swing caused \$1,000 damage.

Additionally, the ice clearing machine at the ice rink, suffering from age and stress, according to Skaja, required repair over the Christmas holiday. Moving to another topic, he said Tam Golf course equipment is being cleaned, stored and readied for the course opening on schedule in the spring. President Heinen expressed hope Tam's new maintenance building would be open for a Board walk-through by Jan. 23.

Relative to Tam's upcoming season, Board Vice President Walter Bousse suggested Tam officials project next season's golf fees early and publicize them in order to facilitate league registrations. Commissioner James Pierski indicated league requests were beginning to come in and urged business, civic organizations and citizens who fulfill residential requirements to apply by calling 297-8010. Pierski noted the day's 50 degree temperatures, but emphasized Tam was ready for cross country skiing whenever snow fell.

Commissioner Carol Panek contributed to the Board's study of maintenance activities in her report on the condition of the 27-year-old aluminum pool at the recreation center. She said ultrasonic equipment had examined the side walls and floor of the pool in 1,715 test sites. If weather conditions permit, chemical testing will be done also.

Repairs to Jozwiak Park's bat-

ting cages and pitching machines should be addressed soon in order to have them operative for the spring season, according to Commissioner Bousse. In his financial report, Bousse noted the Park District had already earned \$3,741.11 in interest on the \$740,000 in general obligation bonds approved by the Board in December. He said the IBM computer system installed in the administration center greatly facilitated Park District work in finances and programs.

Speaking on revenue facilities, Commissioner Pierski described the Sweetheart Open at the Sports Complex Feb. 14-18; programs at the ice rink such as tob skating, learn to skate and cowboy skating, programs which require registration. Interested persons may call the ice rink at 297-8010 or register at Ballard, Monday through Friday, from 10 a.m. to 4 p.m. He urged resident participation in the open skate hours, scheduled at various times Friday through Sunday.

In other business, Carol Panek, Board liaison to the Maine-Niles Association for Special Recreation (M-NASR) indicated 17 persons had applied for the director's post vacated by Lynn Parfitt Dec. 31. She said that number has been narrowed to three, and they will be interviewed by the M-NASR Board Jan. 27. She revealed M-NASR is scrutinizing its August fee to determine if the annual fundraiser meets its intended goals.

Panek also expressed her opinion that "Nothing is more important than the environment," and urged some recognition of Earth Day April 27 or the National Celebration of the Outdoors April 22-27 or any other program focusing on environmental concerns. President Heinen suggested the Board investigate a National Park Association program geared to kids 6-12 years old.

The Park District Recreation committee, chaired by Panek, plans several events. Two are at the UIC Sports Pavilion: a UIC

### State flooding plan... Continued from Page 1

Transportation, (IDOT) Division of Water resources is Illinois coordinator for the National Flood Insurance Program which is administered by the Federal Emergency Management Agency. Last November the federal agency asked for a draft of Village plans for flood plain management with 60 days.

The January 9 issue of the Chicago Tribune lists Niles among three communities whose reports are pending, but expected. Attorney Troy emphasized the Village replied to IDOT last November and the agency agreed to the concept of a Niles ordinance relating to building on flood ways and flood plains, but asked for engineering details in the form of a map. The map is being prepared and will be submitted in time, Troy said.

Communities which fail to indicate movement toward flood plain management plans by the mid-January deadline could forfeit their right to federal flood assistance, which includes flood insurance, disaster assistance and subsidized loans.

The Village Attorney indicated IDOT is satisfied with Niles' actions. Niles has had an ordinance regulating building on flood prone areas since 1979 and all commercial and industrial building along the north branch of the Chicago river is on high ground. In Niles, all property on the flood way or plain is in the

public domain, belonging to either the Village, the Park District or the Cook County Forest Preserved district.

Troy described a flood way as that portion of the land through which water flows and which, in the event of high water, becomes an expanded creek.

In Niles, Tam golf course serves as a natural reservoir. This is a frequent use of golf courses, according to Troy, who served for 12 years as a commissioner for the Metropolitan Water Reclamation District of Greater Chicago. He noted the Twin Lakes golf course in Palatine was developed as a reservoir and a similar one is planned near O'Hare airport.

to a call at 5:29 a.m.

Paramedics wrapped the newborn in warm dressings and placed the mother on a stretcher to transport her to Lutheran General Hospital, Park Ridge.

The search team included Lt. Ralph Czerwinski, senior paramedic Allen Weinstein and paramedics Rod Steffens and Jim O'Keefe. Lt. Czerwinski said "The mother was very calm...did a great job, handled the situation very well. Everything was rosy, it's the type of job we like to be on."

### Niles youths... Burglary

A female resident of the 7600 block of Davis St., Morton Grove arrived home the evening of Jan. 8 and found her front storm door open at her house. She called police, who determined persons unknown had tried to pick the front door lock but failed. The offenders did succeed in entering by breaking into the attached garage and then kicking open the connecting door to the house. Inside, a lower level office was ransacked and bedroom dresser drawers searched, but the victim could not estimate her losses. Damage to the door window, lock and frame was estimated to be \$350. The home's burglar alarm was not in service.

Three houses in the 8900 block of Olander Avenue, Morton Grove were found to be burglarized the night of Jan. 10. In one, the female resident, 79, returned home to find an inner door window pane broken and jewelry, an undetermined amount of cash and other items missing. Police responded to the call and also noticed a neighboring house storm door ajar and a door window broken.

At a third house on the block, burglars again broke the glass on the inner front door to gain access to the house. The burglars searched dresser drawers in two bedrooms, but may have been interrupted by the returning owner, who also found his rear door and yard gate open.

The Congressmen can be reached at the following addresses: 2303 Rayburn Building, Washington, D.C. 20515; Room 201, 4747 West Peterson Ave., Chicago, Illinois 60646; and Room 3816, 230 South Dearborn St., Chicago, Illinois 60604.

Flames basketball game Jan. 20 and a UIC Flames hockey game Jan. 27. Weather permitting, there will be a ski trip to Wilmont Feb. 3. Another opportunity for cholesterol/blood pressure testing will be available Feb. 21 at Ballard for a \$7 fee. Persons interested may register at Ballard or the Park District Administration office.

President Heinen and Park District Director Tom Lippert praised the recent basketball tournament sponsored by the Recreation committee and the Optimists' club. Lippert noted many Park District workers volunteered to work on their own time to ensure the event's success.

Someone using a half-inch prytool entered a rear door of a business at 6281 Howard St. during the night of Jan. 9. Niles police lifted fingerprints from the premises, where a \$600 27-inch color tv monitor was stolen from a coffee room. Damage was estimated at \$300.

At a third house on the block, burglars again broke the glass on the inner front door to gain access to the house. The burglars searched dresser drawers in two bedrooms, but may have been interrupted by the returning owner, who also found his rear door and yard gate open.

lice program called DARE, an anti-drug project carried out in the schools. In addition, Iverson will be subject to a court-sponsored alcohol screening program.

Iverson was charged with striking and killing police officer Barry Shalin, 42, the night of Oct. 9. Shalin was standing at the rear of his squad car in the 8300 block of Austin Avenue, Morton Grove, talking to a motorcyclist he had just stopped. Iverson registered a blood alcohol concentration of .21 percent. A .10 percent concentration is considered legally drunk.

Still pending is a \$20 million suit filed by Shalin's widow, Iris, against Iverson and Hoffman Enterprises, Limited, operators of the Morton House restaurant, 6401 Lincoln Ave., Morton Grove. The suit charges that Iverson, while a patron at the restaurant, allegedly "became intoxicated." It implicates Hoffman Enterprises because its authorized employees allegedly "sold or gave liquor to... Myron Iverson." The suit also asked for a \$20,000 judgment against Iverson for medical, hospital or other health care and funeral expenses for the deceased officer.

According to a manager of B.J.'s Rolling Meadows store, employees have known for months that Niles was the next site, but an official announcement from Civic Center developer Gerald Biehl was not expected until next week. The manager told The Bugle that store merchandise and operations are superior to nearby competitors.

The rental agent for Civic Center Plaza was not available for comment before press deadline but his office confirmed leases have been signed. B.J.'s will join Omni Super Foods at the development. B.J.'s currently has 21 stores nationwide, including Rolling Meadows, Calumet City, and Hillside.
