Kustra to vacate state senate post when inaugurated Lt. Governor

Butler mulls over bid for Kustra seat

by Sheilya Hackett

While it is still undetermined whether Park Ridge Mayor Martin Butler will seek a state senate seat Butler told The Bugle Dec. 26 he is "leaning in that direction." State Senator Robert Kustra (R-28) will vacate his legislative seat when he is inaugurated Lt. governor in mid-January. Butler indicated his "wife is very supportive" of the move, but he will "have to figure out how it will impact my own business and my job as mayor." He said he would be willing to run again in two years, when the area is re-districted, calling that a "pre-requisite."

The five-term Park Ridge mayor or is Maine Township Republican Committeeman and chairman of the Suburban O'Hare Commission. He said he and four other Republican committeemen—Richard Siebel, Northfield; Sheldon Marcus, Niles; Carl Hansen, Elk Grove and Dave Brown, New Trier—had formally organized a committee to seek a replacement for the vacancy. The procedure is required by law. He explained after the Jan. 14 inaugural, Kustra must notify the secretary of state and the senate secretary of the vacancy. The State Board of Elections must also be told.

Butler said the committee will then announce it is accepting applications for the post and it has about a 33 day window in which to act.

Sheldon Marcus elaborated, explaining the township Republican leaders got together to form a political entity and the committee has no other business until the vacancy occurs. When it does, the group will publish information regarding the application screening. Marcus noted applications are open to anyone who presents his credentials.

Carl Hansen, was voted chairman of the group; Martin Butler, the secretary.

Hansen said the group formally filed with the State Board of Elections Dec. 13 and will have an open meeting when they do convene.

Hansen explained anyone who is an active Republican and a resident of the district is eligible to apply. He expects all applicants to meet with the committee and suggested people sometimes start in politics by expressing an interest.

The number and identity of the applicants must wait until the vacancy is formal, but it is known Des Plaines paralegal Rosemary

From the Left Hand

by Bud Besser

Fellow Bugler David Miller sent along the following essay which Bugle readers may find uplifting. It was written by a Samuel Ullman who was born in 1840. It came to The Bugle via Mr. Miller, the Readers Digest and the Washington Post Newspaper:

"Youth" Youth is not a time of life; it is a state of mind; it is not a matter of rosy cheeks, red lips and supple knees; it is a matter of the will, a quality of the imagination, a vigor of the emotions; it is the freshness of the deep springs of life.

"Youth means a temperamental predominance of courage over timidity of the appetite, for adventure over the love of ease. This often exists in a man of 60 more than a boy of 20. Nobody grows old merely by a number of years. We grow old by deserting our ideals.

"Years may wrinkle the skin, but to give up enthusiasm wrinkles the soul. Worry, fear, self-distrust bows the heart and turns the spirit back to dust.

"Whether 60 or 16, there is in every human being's heart the lure of wonder, the unfailing childlike appetite of what's next and the joy of the game of living. In the center of your heart and my heart there is a wireless station: so long as it receives messages of beauty, hope, cheer, courage and power

Dist. 219 study projects enrollment increase

A private study commissioned by Niles Township High School District 219 projects increasing enrollment in the current decade, reversing a steady declining student population trend since the 1970's. According to the demographic report prepared by The Grier Partnership, enrollment in Niles Township's schools was at its lowest point in 1987, with a total student population of 9,555 students in nine township school districts. In 1968, more than 23,000

children in grades K-12 were in the public schools.

Using data compiled from U.S. Census Bureau, Northeastern Illinois Planning Commission, both Dist. 219 high schools, from the eight elementary school districts and information from Niles Township municipalities, the study projects an enrollment increase for Niles North and Niles West of between 1,150 to 1,800 students, or as many as 5,198 students in the year 2004.

Prospective candidates for two trustee positions for the Board of Library Trustees of the Lincolnwood Public Library District may pick up filing forms at the library, 4000 W. Pratt Ave., during regular library hours. Phone (708) 677-5277.

The election will be held April 2, 1991. Any resident of the Lincolnwood Public Library District wishing to run for a seat on the board must file between Jan. 14 and Jan. 22. All Lincolnwood residents are also residents of the Library District.

There are openings for two six-year terms for 1991-1997. The board meets monthly on the third Wednesday to decide library policy.

A candidate for trustee must reside in the district and be a registered voter within the district, have an interest in the Lincolnwood Public Library, its operations and programs and have the time to devote to working with the board, the library director and the Lincolnwood community.

Documents required include a non-partisan statement of candidacy, a receipt of a statement of economic interest and a petition for nomination with a minimum of 50 signatures from registered voters in the district. An additional 25 signatures is recommended in case some are improper.

Pace buses on all major Niles roads

Niles residents can reach shops, schools, hospitals, recreation, and commuter centers by Pace bus.

Pace buses traverse every major road through Niles. The 208, for instance, runs between Golf Mill and Old Orchard along Golf Road, and continues east to the Evanston CTA station. The 250 route along Dempster to the Skokie Swift includes Maine East High School, Lutheran General Hospital, Dempster Plaza, Notre Dame High School and Prairie View Plaza among its stops.

From the Swift in continues east to downtown Evanston. The 226 bus route along Oakton passes Niles West High School and Oakton Centre East, then turns south to the Jefferson Park CTA. Another useful commuter route, the 228, runs north/south along Harlem from the Glenview Amtrak station on the north end to the station on the Cumberland CTA station and east to the Howard CTA Terminal.

Crossing town from the northwest to southeast corners is Route 270 along Milwaukee. While all trips on this route run between Golf Mill and the Jefferson Park CTA station, certain weekday trips continue north to Glenbrook Hospital and to the Allstate offices.

The Pace 220 bus goes to O'Hare airport for a \$1 fare. The best place for a Niles traveler to board Pace Route 220 is at the Golf-Mill shopping center. This route originates near the downtown Glenview Amtrak station, and also serves downtown Des Plaines.

Beginning in February, a special Pace bus will carry passengers from Niles to Bell Laboratory in Naperville. To date, 85 AT&T employees in the Niles area have indicated interest in riding the new bus Route 1002.

Monday through Friday, the coach will make a once-a-day run between a park-and-ride site on Milwaukee Avenue, Niles, to the Bell facility and back. Pace spokesperson Trish Mahler would not reveal the park-and-ride location since negotiations are still underway.

A prepaid charge of \$80 a month guarantees a seat on the bus that has a washroom. The coach, contracted from Rider Transportation Co., seats only 47, but Mahler noted Pace expects a smaller number that indicated interest would eventually sign on.

Pace currently operates Route 1001 on a similar basis, with a bus leaving Naperville in the morning to travel to the Sears catalogue store, 900 Old Orchard Rd., Skokie.

All basic fares for Pace buses are \$1 plus 10¢ for a transfer - 50¢ if transferring to the CTA. Senior citizens, the handicapped, and children from seven to eleven ride for half fare, while children under seven ride free when accompanied by an adult.

Further enhancing this system are two free PACE bus routes operated by the Village of Niles. Bus #411 serves the entire Niles community, running from Golf Mill through the neighborhoods along the north end of town, past Notre Dame High School, circling through downtown Niles past the Civic Plaza to the Learning Tower, YMCA, then snaking north and west back to Golf Mill. A second free PACE bus route, #412, provides service between the major shopping centers including Golf Mill, Four Flags, Venture and Golf Glen. Buses run every half hour and will stop when signaled at any safe intersection along the route.

Bus schedules are available at Village Hall, the Niles Public Library, or from any bus driver, or call the RTA Travel Information Center at 1-800-972-7000.

Christmas trees may be discarded with garbage

Christmas trees in Morton Grove will be collected along with regular garbage just as in past years.

The state has ruled that Christmas trees are part of the Christmas season "household waste." Special yard waste bags will therefore not be necessary for discarded Christmas trees.

Please note that this program applies only to Christmas trees used in homes. Trees or shrubs which are pruned or cut will not be taken until the yard waste collections resume after March 1, 1991.

Seniors discuss Persian Gulf crisis

Residents of three Chicago area retirement communities will launch a year long "Senior Opinion" program on three consecutive days in January. On Monday, Jan. 7 The Benchmark of Hoffman Estates initiates the series followed by Hawthorn Lakes of Lake County on Tuesday, Jan. 8 and the Oak Park Arms on Wednesday, Jan. 9. All discussions begin at 1:30 p.m.

The first discussion will allow seniors the opportunity to voice their opinions on the Persian Gulf crisis.

Seniors at all three communities attend discussions of current affairs and are concerned about local, national and international issues. "Senior Opinion" offers residents an additional forum. Panels of six will meet three times a year to explore one or more topics.

In addition, the community and media can participate in a question and answer session after each discussion.

The initial discussion, centered around the Persian Gulf, will be moderated by Ralph Cianchetti a resident of Highland Park. Cianchetti, a 65-year-old "retired" English teacher has an ex-

tensive background dealing with community as well as senior issues. For more than 14 years, he has held the position of commissioner on the board of the Park District of Highland Park. He is a Northeastern Illinois University planning commissioner and represents American Association of Retired Americans as AARP/VOTE coordinator.

In October, Cianchetti represented Lake County at the Illinois White House Conference on Aging. The three-day meeting, sponsored by the Illinois Department of Aging, in cooperation with the Governor's office of Senior Involvement, gave 450 delegates the opportunity to hear state and national leaders address issues and possible solutions.

Interested seniors, community members and media are invited to participate and observe any of these unique discussions.

For more information on "Senior Opinion" call, (708) 564-9922.

Stevenson Swing Ensemble performs

The students visited the Abington in Glenview, the Breakers and Glenridge in Niles, St. Matthews and Summit Square in Park Ridge, and Oakton Pavilion in Des Plaines.

Jay Alan Smith, principal, described the Swing Ensemble as follows, "The vocal quality of our students' voices is exceptional, the choreography and staging for elementary students is impressive, yet the sweet and caring manner in which our students interacted with the elderly folks was even more significant." Students also performed for their parents on Wednesday evening, Dec. 12 and for the entire school on Friday, Dec. 14.

Seniors share Christmas memories

There is a very special place in Des Plaines filled with holiday memories of Christmas past. Some of these memories date back to the early 1900s, when the world was a different place and Christmas was celebrated in simpler ways.

At Holy Family Health Center, residents share Christmas memories. Rose Rotunno, 87, recalls the "good old days." One of eight children, her fondest memory is receiving a new pair of shoes on Christmas. Waking up to a stocking full of nuts, nickles and coal was the highlight of Christmas morning. The holiday evenings were spent singing songs with family members or playing cards and dice.

Arthur Lilla, 86, also remembers the excitement of taking down his stocking filled with lumps of coal, apples and oranges. "As a special treat, all of our stockings were filled with walnuts," Arthur comments.

One of his fondest memories is hooking a rope from his sled onto a moving horse and buggy and going for a ride. "That was before the time of automobiles. I even hooked up my sled to automobiles, once they came into existence, because they only traveled about 20 mph," he recalls.

Christmas was a time spent mostly outdoors for Arthur. "Each Christmas, there was snow as high as our second story window. There must have been 10 feet of snow. My mother had a difficult time getting me indoors."

Receiving a doll and buggy was what Anna Kawa, 72, remembers of her favorite Christmas. "I was so surprised to get that gift," she recalls. "Most other years, I received a stocking full of candies, fruits and coal."

Christmas Eve at her home was spent listening to the radio and decorating the tree. "We used candles to decorate the tree and we took turns being the 'watchdog' to make sure the tree didn't catch on fire," Anna reflects.

When asked what her memories of the Christmas holidays were during economic hardships and war time, she recalls that although the holidays were simple, "I cherish those memories of Christmas past, no matter what gifts I gave or received."

HYPERTENSION

Hypertension is directly related to the use of sodium in the human diet. Studies with infants have shown that the taste for salt is completely learned. The salt appetite is somewhat habit forming, people who have not been exposed to salt do not desire it, but may develop a craving for it once it has been introduced. Salt preference, however, is reversible, the taste will diminish once the dietary salt level has been reduced. Some high sodium foods do not taste salty or are not thought of as such. For example, fast food french fries actually have less sodium (115 mg) per serving than fast food cherry pie (450 mg). The Flickinger Senior Center will conduct its monthly blood pressure screening clinic from 9 to 10 a.m. on Tuesday, Jan. 8.

COMMISSION ON AGING

The Morton Grove Advisory Commission on Aging will hold its next monthly meeting at 1 p.m. on Tuesday, Jan. 8 in the Prairie View Community Center. The commission provides an arena for discussion and planning of services and programs to benefit Morton Grove's senior citizen population. All interested residents are welcome to attend.

The Northwest Symphony Orchestra will perform selections from Grieg, MacDowell and Schumann at 8 p.m. on Saturday, Jan. 12 at Maine West High School, 1755 S. Wolf Rd. in Des Plaines. For ticket information call Linda Wardell at (708) 940-8709. Also, the Harper College Symphony Orchestra presents the "Mid-Winter Pops Concert" at 8 p.m. on Friday, Jan. 25 and "Celebrate America" at 3 p.m. on Sunday, Feb. 24 at Harper College, 1200 W. Algonquin Rd. in Palatine. For ticket information about these concerts call the Harper Box Office at (708) 397-3000 ext. 2547.

CARIBBEAN CRUISE

The Prairie View Senior Travel Club will sail the MS Caribe beginning on Feb. 2, 1991. The ship will leave Miami and make stops at Puerto Plata, San Juan, St. John and St. Thomas. Fine dining, outstanding evening entertainment, superior recreational facilities, and of course the romance of the tropics promise to make this an unforgettable voyage. Ronce Brenner, Senior Adult Supervisor from the Morton Grove Park District will escort this cruise and be there to make it as hassle-free as can be. If interested call her at 965-7447 as soon as possible.

WINTER CARE

When outdoors on cold days, older people should cover their mouth and nose to avoid breathing problems. Gloves and boots are important because several common health problems of the elderly cause poor circulation in the extremities. A hat contributes added warmth. Those using a walker with metal legs and those with arthritis need to be extra careful not to slip and fall. Autumn is a good time for older people living alone to link up with various community resources such as meals-on-wheels, home health services and volunteer services that can keep tabs on the homeowner's well-being. This can be especially important as cold weather, snow or ice make outdoor trips undesirable or even dangerous.

COMMON SLEEP DISORDERS

(article from Senior Health published by the Chicago Medical Society)

The following are some common sleep disorders. If you are experiencing any of the symptoms, consult your physician for guidance.

Sleep apnea and snoring: Snoring may be a symptom of obstructive sleep apnea, a disorder known to strike middle-aged, overweight men. The disorder is caused by an obstruction in the throat that causes the person to stop breathing several times during the night. When breathing stops, sleep is interrupted and the individual wakes up the next day feeling tired.

Insomnia: The inability to fall asleep or stay asleep is often caused by an underlying condition such as depression, anxiety, breathing problems, a change in sleep patterns, external noise or pain.

Abnormal sleep/wake patterns: When the regular pattern of sleeping and waking is disturbed, some people find it difficult to resume a normal schedule that fits their needs. Symptoms include insomnia and daytime sleepiness.

Stevenson sponsors 'Thank-A-Yank'

The Stevenson School Student Council is currently sponsoring Project "Thank-A-Yank" as part of its American Education Week activities.

The idea for this project came from the Ann Landers article about how important receiving mail is for our armed forces in the Persian Gulf. The letters will be distributed to men and women in Saudi Arabia.

Students are including personal information, feelings and facts

that include how at the time of Thanksgiving we are thankful for the service these people are doing for our country.

Student Council advisors, Mrs. Sandee Schor, and Mrs. Melanie Gustafson, believe the project will serve our children as much as it will benefit our servicemen overseas.

Stevenson School is one of four elementary schools in the East Maine School District No. 63, Des Plaines.

Satellite office at Edison Park Lutheran

Parkside Pastoral Counseling has occupied many different spaces in Edison Park Lutheran Church over the past four years, from the "cry room" at the back of the church to the former youth office, and then a little used classroom. In mid-September, the PPCC staff moved into a newly remodeled suite of offices with a waiting room on the second floor of the church education building.

Bea Eichten, who has served as pastoral counselor at EPLC since the office was opened in 1986, expressed appreciation for the fine remodeling work done by members of the EPLC congregation. "Our clients have expressed a sense of comfort and 'at-homeness' in the new space," said Eichten, "and we certainly feel like an integral part of the ministry of the church."

The partnership in ministry between PPCC and EPLC enables Parkside Pastoral Counseling Center to offer pastoral counseling in a church setting, emphasizing the integral connection of the spiritual, psychological and moral, dimensions of the process of personal growth. It also helps PPCC provide quality counseling to persons regardless of race, religion, or ability to pay.

Eichten, along with two pastoral counselor interns, provides individual, marital and family counseling at the church offices, 6626 N. Oliphant Avenue, Monday through Friday. In addition, they provide consultation services for area pastors and educational offerings to local community groups. Persons seeking further information about the services provided by PPCC, can call (708) 696-6023.

MG Legion Auxiliary concludes successful year

President Dodie Connelly of the Morton Grove American Legion Auxiliary Unit #134 reports the large patriotic women's auxiliary happily is looking back upon a most successful year.

Under the direction of last year's ways and means chairman, a very festive Valentine Party was held and both turkey and ham giveaways were sponsored at the two Post fish fries closest to Thanksgiving and Easter.

Connelly thanked immediate past president Arlene Rook for all her help and the ease with which the changing of the guard of offices took place following the June election and September installation held jointly with the Legion Post.

The members in turn, publicly thanked Connelly for her individual efforts to make meetings

more interesting and in presenting the membership with games, prizes and other offerings such as special gifts to each present at the last Christmas meeting.

The final session of the year also enabled the Auxiliary membership to look back upon a beautiful dialogue with Karen Hughes, their candidate to the summer Girls' State session on the campus at Jacksonville, Ill. Karen and her mother attended a Unit meeting and Hughes gave her impressions of the week stay emphasizing the learning of the political side of our government.

The next to the last meeting was hosted by post past commander Tad Kimura, blood donor chairman. Once a year he furnished the refreshments, and cooks and services to thank the ladies for their help at the various blood drives/dinners which the Post sponsors and where the Auxiliary Unit furnish physical help in registering the donors as well as supplying salads, desserts, etc. for the meal to the donors as their special way of assisting.

Kimura was aided in his culinary presentation by past commander Don Huber and member Al Abuja.

The Auxiliary will continue with their rehabilitation program under the direction of past presidents Alyce Campanella and Josephine Lange. The women visit the VA Hospitals on a monthly basis, playing bingo with the former servicemen and distributing gifts, serving refreshments and generally assisting wherever possible in this vital hospital field endeavor.

Bavaro represents state in pageant

Photo by David Miller

The Niles Chamber of Commerce contributed \$1,000 to help 16-year-old Nina Bravaro with pageant expenses. Bavaro will be competing in the "Miss Teen of the Year Pageant" this April. Presenting the check to Bavaro (c) are (l to r):

Bob Wordel Jr., Niles Chamber executive director, J. Robert Christensen, president of Chamber board, Dr. James McCool, incoming president of the Chamber and Don Meseth, second vice president and treasurer of the Chamber.

Sixteen-year-old Nina Bavaro of Niles will be representing our village and the State of Illinois in the "Miss Teen of the Year Pageant" this coming April in the nationally-televised competition from Honolulu, Hawaii. If Bavaro wins this competition, she will then go on to represent the entire United States in the international pageant.

The second runner-up of this past year's competition, Vickie Kravitz (Miss Illinois 1990) will be helping to coach Bavaro (Miss Illinois 1991) for the upcoming April contest. Bavaro is currently a senior at

Niles West High School in Skokie and the daughter of Mr. and Mrs. Nick Bavaro of Niles. She is deeply involved, along with her family in the annual 2-week "Cancer Camp" charity through the Optimists Club, as well as the "One Step At A Time" program with Children's Memorial Hospital in Chicago and the Ronald McDonald House for children.

Bavaro has pledged to donate 10 percent of all monies received in contributions for her "Miss Teen of the Year" endeavors to these charitable organizations. Bavaro was presented with two checks Dec. 13, one from the Niles Chamber of Commerce for

\$1,000 and another from the Niles/Morton Grove Rotary Club.

Bob Wordel Jr., executive director of the Niles Chamber of Commerce, is hoping that other organizations and businesses in the area will follow this lead with other donations to Bavaro's pageant expenses. Competitions of this magnitude now require large sums of expense monies.

For sponsorship or donation information, please contact the Illinois State Pageant Director, Eileen Taylor at P.O. Box 51368, Indianapolis, Indiana 46251 or telephone (317) 924-5349.

Fischer, a Morton Grove resident and professional violinist, brought his trio to the Library for the 7th time, and they strolled around the room, playing requests and telling colorful stories.

During the month of January, the work of Morton Grove resident Sam Gollay will be on exhibit in the Baxter Room.

Toll plazas under surveillance system

The Illinois State Toll Highway Authority, Board of Directors, voted unanimously to approve testing of a closed-circuit television surveillance system for unattended toll plazas.

The initial test is expected to begin in early 1991 at currently undetermined locations. The system will operate with two video cameras, one focused on the license plate of the vehicle in the unattended lane and the other focused on the driver of the vehicle at the coin hopper. By using a video splitter, both pictures are recorded split frame on a VCR with a constant overlay of the plaza number, lane number, date and time. If a violation occurs, the VCR marks the recording and saves the previous frames.

The technology is expected to aid the Authority in identifying chronic violators, as well as specific patterns of toll violations. The information could then be used by the Authority to collect the unpaid toll or by District 15, State Police, for prosecution of the violator.

Lady Demons finish in 6th

Pictured above are, sitting (l-r) Mary Thomas, Ella Burgarin, Bina Patel; (kneeling) Reiko Morino, Donna Sanno, Erika Bell, Jennifer Rajski. Standing: Paolo Perez, Elizabeth Carey, Coach James Garvey, Jennifer Delhaye and Bauchau Doan (captain).

The Lady Demons placed sixth at sectional competition, and the Niles West Invitational the majority of Demon runners cut time off of their personal best this year. In addition, at the Maine East hosted conference meet in mid-October the varsity finished in third place.

Maine East Demon Squad performs new routines

Demon Squad at Maine East is known for great dancing, with those attending last month's V-Show performance seeing for themselves; however, the girls are best known for strutting their stuff at the football and basketball games as a way to rev up school spirit.

What many people do not know about pom pon is all the hard work and effort that go into the routines. The squad practices 8-9 hours weekly, and during football and basketball season daily practices are held. In fact, since Demon Squad does take up so much time each week, many of the girls don't have time for other extra-curricular activities. The exception is in the spring when the squad is not as busy; then some of the girls go out for softball.

But all this hard work pays off. When Demon Squad went to the Just for Kicks camp last spring, it won a trophy for home routines and for being the most spirited. Fifteen schools participated at the camp, held at the Illinois West-

ley campus. The camp wasn't just for fun-it too was a lot of hard work. The girls practiced 5-6 hours daily for four days. The girls were also asked to participate in the Hall of Fame Bowl, a national competition for pom pon squads, and Laura Kosnoff of Glenview will be participating in the competition held in Florida.

If Demon Squad wants new pom pons or uniforms or to travel to camps, it has to support itself so the girls do hold fundraisers each semester. Proceeds are used for costumes/uniforms, pom pons, and the end-of-the-year banquet.

During the basketball season Demon Squad tries to have a variety of routines as there are differences in routines during the football and basketball seasons.

For example, during the football season the girls must rely on their pom pons so the audience can make out the moves. Since football is an outdoor season the squad must rely on more visual effects. The basketball season is a

little different with spectators indoors and closer to the squad's performances; therefore, the squad doesn't usually use the poms. There's also a difference in routines because the girls make the routines in different groups.

Demon Squad seniors include: Kim Baim of Morton Grove/Northwestern to major in English, Nicole Bangiorno of Glenview/Oakton to major in psychology, Onelia DiBartolomeo of Park Ridge/University of Illinois, Circle to major in liberal arts, Lia Baubin of Niles/Triton to major in theatre arts, Heidi Brill of Glenview/University of Illinois to major in physical therapy, Sue Ellen Derdzinski of Niles/University of Illinois to major in mathematics, Aileen Dichoso of Glenview/Illinois State to major in business administration, Lori DiPaolo of Niles/Northern to major in environmental health, Brandi Ericson of Morton Grove/Kansas to major in advertising, Corie Hirschlick of Des Plaines/University of California in Santa Barbara to major in broadcast journalism, captain Lynn Ottinger of Glenview/University of Illinois to major in liberal arts, Ann Sarmonpal of Niles/Northern to major in business management, captain Jenny Sebastian of Park Ridge/Purdue to major in advertising, and Debbie Serna of Glenview/Northern to major in psychology.

Other Demon Squad members are juniors Su Chang of Niles, Lisa Gallo of Niles, Jenny Lim of Morton Grove, and Cathy Yanong of Des Plaines as well as sophomores Laura Kosnoff of Glenview and Sandra Sarmonpal of Niles.

Correction

An article appearing in the Dec. 13 issue of The Bugle misstated that Cragin Federal Bank for Savings' Family Financial Center in Morton Grove at 9330 Waukegan Road, would open its doors in late February. The office has in fact been open and in operation since February 1990.

Business

Computerized mortgage approvals can be expensive

"Be wary of computerized loan programs that promise fast mortgage approval," warned William Smigiel, president of Liberty Bank for Savings.

"The apparent convenience of decreased waiting time can cost the borrower \$16,000 over the life of a 30-year loan because the interest rate is generally higher than that normally available through other institutions," he continued.

"Although many computerized firms promise fast approval time, the approvals are really conditional upon credit checks and appraisals. Final approval may take weeks," Smigiel noted. "At Liberty, we can usually give final approval within 14 days."

Two consumer groups, Citizens Action and Illinois Public Action, support Smigiel's view.

Christmas contribution

A Christmas tree is considered a luxury when you are underprivileged. "This year, however, throughout Chicagoland, those less fortunate woke to the sight of a Tannenbaum of their own."

Hinsdale-based Amlings Flowerland, donated nearly 70 artificial trees to various organizations which in turn dispersed them to needy persons. The average retail value of the trees was approximately \$150.

Vice-President Doug Aniballi explained "We could have sold the trees this year, however, we felt an obligation to the community that has supported us for the past 100 years."

Among the groups that received the donations were Chicago alderman Bernie Hansen's office, Chicago radio station WLUP, Hinsdale's The Wellness Community, Rolling Meadows' Northwest Special Recreation Association, Naperville's Crescent Counties Foundation for Medical Care, and Chicago's Holy Family Church and school.

Eighteen task force members representing more than a dozen hospital departments work together to identify and meet the needs of patients with HIV, Davis said.

They also provide support and resources for patients' families, friends and caregivers.

The award was presented by Mary Ann Childers of WLS-TV at an Oct. 29 benefit for the HIV Coalition and Better Existence for People Living with HIV.

Weekly codependency group forms

A Codependency Outpatient Group is now being offered through the Forest Hospital Outpatient Clinic.

The weekly group meets Thursdays from 7 to 8:30 p.m. at Forest Hospital, 555 Wilson Lane, Des Plaines.

The group will address ways of healing from the effects of growing up in a dysfunctional family and/or involvement with another person's destructive attitude, actions and lifestyle.

Codependent behavior can include being overly concerned with the feelings and problems of another and taking on these problems as one's own. One of the worst aspects of codependency is the likelihood that, if left unchanged, the pattern of dysfunction is passed on to the next generation.

Fee for the weekly sessions is \$30. In order to assure an environment in which participants feel safe and comfortable in exploring the issues of codependency, a one-month commitment to the group is requested.

For information, contact Julie Vertnick, Certified Addictions Counselor, (708) 635-4100, extension 224 or 225.

Maine Town Board ignoring taxpayers' opinions, trustee says

To the editor:

Maine Township Town Board missed yet another chance to give voice to its constituents. Maine Township Town Board missed another chance through sheer inertia to give voice to its employees-the Taxpayers/Voters of Maine Township. My colleagues on the Town Board cared so little for the opportunity of hearing the taxpayers of Maine Township that they would not even discuss the possibility of moving "Public Participation" from next to Adjournment to midway in the Business Agenda. Public participation translated means - the place on the agenda of business during which the taxpayers of Maine Township can give voice to their problems, complaints, compliments or otherwise.

Here is an example: during the meeting of Tuesday, Dec. 17 called to order at 7:45 p.m. the opportunity for Public Participation finally arrived at 10:20 p.m. The reason for the late hour was not because of taxpayers' concerns, but because, as per usual, Maine Township Town Board was discussing its own concerns - forgetting that the building we sit in, the lights that illuminate it, the heat that heats it are all paid for by the taxpayers of the township. The specific concern discussed was how and if township elected officials and township staff should defer portions of the salaries paid to us by you, the taxpayer. That subject is interesting to everyone on a personal level, to be sure, but were I a taxpayer waiting my turn to speak, my eyes would have long since glazed over.

The first time I brought up the possibility of moving "Public Participation" from just before adjournment to the midpoint of the meeting, one of my colleagues noted to me that if we give "them

a chance to talk, we would never get to "our" business. I remind my colleagues on the Town Board that taxpayers' problems, complaints, compliments, and otherwise are "our" business. And in fact, we would not be sitting in that beautiful and warm building were it not our employees, the Taxpayers/Voters of Maine Township.

Supervisor Hall allowed Mike Yesner, president of Golf-Maine Park District, to cool his heels until the time that "Public Participation" finally arrived about 9:30 p.m. at that meeting - a hopelessly partisan political discourse. Courtesy was not extended to the leader of a governing/taxing body in unincorporated Maine Township. When the president of a governing/taxing body is treated in this manner, what does the taxpayer in unincorporated Maine Township for which the Township Board is his only government, expect? Mr. Yesner had pre-scheduled his appearance, and brought a positive message.

The "Resolution to Alter Maine Township Town Board Order of Business Agenda" stated "Resolved, That Maine Township Board alter the Agenda so that Public Participation appears after the last Report."

It is apparent that my colleagues on Maine Township Town Board do not consider themselves employees of the taxpayers. I remind my colleagues that election to Maine Township Town Board is not a royal right but rather it is a privilege bestowed upon each one of us by the Taxpayers/Voters of Maine Township - unincorporated Maine Township included!

Sincerely,
 Bonnie B. Lindquist
 Maine Township Trustee

Mucci thanks those involved with his election campaign

Dear Editor:

I would like to thank everyone who contributed in my campaign for state representative and supported me through the November election; the voters, workers, friends, and my wife and family who sacrificed much during the race.

Special praise also goes to the students of Maine East, Maine South, Maine West and Oakton Community College whose enthusiasm, hard work, and exemplary personal conduct directly contributed to the excellent showing I received at the polls. These students are truly a credit to their parents and the community.

Lastly, I wish to thank the media for fulfilling their obligation in providing fair and objective coverage of the campaign, for without this role, not only would the electorate be underinformed, but newcomers would be shut out from public exposure and deterred from seeking office. I sincerely appreciate your professional journalism and encourage it to continue.

Again, to all of you, my deepest thanks and best wishes.

Robert R. Mucci
 Democratic candidate for state representative 55th district

Letters To The Editor

Maine Township supervisor responds to Lindquist's proposal

Dear Editor:

Once again Trustee Lindquist is attempting to grab media attention, this time by maligning the actions of a board which has an outstanding record of providing opportunities for the public to be heard. She persists in bringing partisan politics into an arena where her fellow board members are devoting their attention to doing the best possible job in a non-partisan, cooperative manner.

In response to the particular subject at hand, Trustee Lindquist's proposal is basically 1) to reschedule "Public Participation" earlier in the meeting, 2) to establish a time structure for residents' statements, and 3) to require written statements from residents who wish to be heard. Trustee Lindquist's proposal was presented to the board both Nov. 7 and Dec. 17, 1990 and was rejected both times.

Our board has routinely been willing to amend the agenda at any given meeting to hear residents' concerns first. We have also allowed residents to raise questions or make comments during the regular course of our business. We have not set a time limit for presentations. We have never required written statements as a prerequisite to addressing the board. Setting time limits and requiring written statements hardly seem to facilitate public participation.

I hope we can all work constructively together to continue to serve the residents of Maine Township. Should it ever be necessary to amend our procedures to better meet the needs of our residents, we are willing to do so.

Yours truly,
 Joan B. Hall
 Maine Township Supervisor

Bugle advertiser commends service

To my friends at the Bugle:

I just wanted to take a minute to tell you how pleased I am with the service I am getting from all of you at the Niles Bugle. As a professional starting out in Niles, I really can appreciate the attention I have received from both you and the people in Niles. My advertising representative, Laverne Bell, has been both generous and helpful in my endeavors and the results from her service have been overwhelming.

My first look at the Bugle was when I began scanning the sports pages for my name in the Niles Baseball League reports. Now that I have grown and begun to use the services of the paper, I can see the work that you put into the publication.

Many thanks to you and happy holidays,

Pianist to perform with Northwest Symphony

The rich and melodic music of Chopin, Liszt, MacDowell and Mendelssohn fills the home of Dr. and Mrs. Tal Yong Kim of Glencoe, as their 17-year-old daughter, Minna, intensely practices the piano for her upcoming performances.

Kim is preparing for the Northwest Symphony Orchestra concert that will be held on Jan. 12 at 8 p.m. in the Maine West High School auditorium in Des Plaines. As the featured guest soloist, she will play "Piano Concerto No. 2" by the late 19th century composer, Edward MacDowell.

At the age of five, Kim began playing the piano. Kim's piano talents were recognized from the beginning.

"I knew she was extremely gifted from the start," said Eloise Niwa, Kim's piano teacher. Niwa has been working with Kim for all of Kim's 12-year piano career. Niwa serves on the faculty of the music department at DePaul University and is a second keyboard player for the Chicago Symphony Orchestra.

Niwa describes Kim's style as spontaneous and passionate. "She is very reliable technically, but Minna does not play like a machine. When she performs a

Board members approved the purchase of a 1991 Ford Taurus station wagon through the state. The vehicle replaces the district's 1984 Chevy wagon and costs \$12,258.

The board also agreed to use the grant consulting services provided by Charles H. Schrader & Associates for 1991. The district has used this firm for two years.

Gabriel Berrafato was appointed the park district's attorney for 1991. He has been with the district for over 10 years.

"Hit-the-Button" and "Odds 'N' Ends" Square Dance Club. Administrative Manager Gary Balling briefly reflected on last year's highlights.

He said neighborhood meetings were held to discuss park renovation plans, the district received a \$200,000 grant for the Harrer Park Renovation project, Morton Grove held its first Arts and Craft Fair, the Historical Museum was repainted, an intergovernmental agreement was adopted between the park district and village and 25 new recreation programs were offered.

"We should feel good about the accomplishments we did as a team," Balling said to the board thanking them for their "help, cooperation and vision this past year."

expansion and Edgar has said he wouldn't back more runways unless the people surrounding the airport want it.

Lane said "For the record, Jim Edgar has the reputation for not making promises he doesn't keep. We believe him, we trust him, we're counting on him."

Butler urges a cap on the number of flights from O'Hare and concentrating on getting a new airport in operation in six or seven years. The Lake Calumet site backed by Chicago's Mayor Richard Daley could require 20 years before it's operable, Butler said. He prefers the so-called Greenfield plan—literally building on farmland—as a quicker solution.

He noted creating a buffer zone to be non-residential would prevent the problems typical of O'Hare and the buffer could be put to industrial use. Butler said the proposed Lake Calumet site is only 7,000 acres and construction would take longer, since the initial stages could take ten years, with ten more needed for completion.

To shore up its legal fund, the 12 communities in SOC are assessed \$1 per year per capita.

around the corner, spoke out against the plans as well as other patrons of businesses in the Riverbank Plaza shopping center, which houses a tavern, convenience store and other small businesses.

"It's going to increase the problems," commented attorney Carl Graf, representing Maxwell's, which currently has parking monitors on its payroll.

"On several occasions, we've been gracious enough not to tow cars," said Paula Leibbrandt, one of the Studio's owners. (Since Pat's Place opened up) there has also been increased speeding and littering on Lincoln Avenue.

Referring to the proposed pool room, Leibbrandt said, "I don't think this type of business is good for our area." The restaurant is also considering installing a speed bump in its lot to confound autos trying to circumvent left turn bans from northbound Lincoln Avenue onto Dempster Street by cutting through Studio property.

Attorney Gabriel Berrafato, representing the petitioners, told commissioners that the 10 parking space variance requested would be made up by the petitioners installing nine additional parking stalls on the public way along Lincoln Avenue.

Discussion among plan commission members focused on parking congestion as well as restricting the age of patrons, fearing that liquor-carrying patrons might mingle with youngsters. The final vote was 7-0 opposing the plan. Petitioners may appeal the decision to the village board, however.

The theatre department at Niles West High School recently received a Continuous Affiliation Award from the International Thespian Society (ITS). The school earned the award for 25 years of continuous membership with ITS.

Since it was founded in 1929, ITS has served more than 11 million students and 9,000 teachers from 7,000 U.S. high schools. Each year Niles West recommends its talented drama students for Thespian Society membership.

These students are eligible for ITS college scholarships and may attend national and state Thespian Festivals, where they can perform, learn and interact with theatre students from other high schools. Last year, for example, Niles West members performed "The Addict" at the festival in Muncie, Indiana.

Stolen car...

Continued from Page 1
 At 3:05 a.m., a citizen called Skokie police about an intoxicated motorist driving west on Old Orchard Road. Police matched the drunk driver with the missing Des Plaines car and at 3:13 a.m., the Morton Grove officer gave chase when he saw a small grey car enter the I-90 at high speed. He identified the car as the wanted car and pursued as the Subaru driver changed lanes without signaling and left the I-90 at the Touhy Avenue exit. Police stopped the car and a search uncovered a check payable to the gas station in the man's pocket and an open bottle of champagne in the car.
 At 4:45 a.m., Morton Grove police checked the background of the stolen car with Des Plaines police and found it belonged to a 26-year-old Mt. Prospect woman. The driver said the woman was his ex-wife and he had her permission to drive the car, but the owner said she knew the fugitive only as a frequent patron of a Prospect Heights bar. St. Scholastica students create mural

Since late November, art students at St. Scholastica High School, 7416 N. Ridge Blvd., Chicago, have been painting a mural at the Catholic Charities Activities Center Pool, located on the campus of Misericordia Home North, Chicago.
 Misericordia and St. Scholastica are long-standing partners in community-related ventures. This partnership has broadened throughout the years, so that volunteer work at Misericordia has now become part of Scholastica Juniors' theology field experience.
 Alice Tavani, art teacher at St. Scholastica, has made the mural a part of her students' art education. Twenty-five girls in four art classes have been involved in the project. Creative planning and sketching were done in classes. Actual poolside painting was completed over a three-week period. The mural—an underwater ocean scene, spanning an 8x90-foot expanse on each of the three walls surrounding the pool—will be completed over a period of three years.
 Each year's art classes at St. Scholastica will participate in the project and student artists will receive grades for their efforts.
 On Monday, Dec. 17, the mural was dedicated.

Oakton offers International trade courses

Adults who want to pursue careers in the importing and exporting of business or have foreign trade experience can start an international trade program or update their skills by attending courses at Oakton Community College this spring.
 Five courses will be taught in the spring semester beginning Jan. 14: "Introduction to International Business" (ITR 101) provides the necessary foundation for other international trade courses, as well as advanced courses and seminars in world trade. An overview of current world trade activities, practices, and government aids, as well as barriers to trade will be provided in this course.
 "Import and Export" (ITR 205) provides the latest trends in traffic and transportation forms, including foreign country regulations, methods of shipment and rates.
 "International Traffic Management" (ITR 210) will explain the advantages and disadvantages of each mode of international traffic, including cost, reliability, risk, speed, government requirements and control of shipments.
 "International Finance" (ITR 215) is for second year students or persons who have foreign trade experience. The program examines banking, foreign exchange, currency fluctuations, financing, credit, payments and collections.
 Two publications received Awards of Merit: The Niles Township High Schools Study Skills Guide, which was compiled by a committee of teachers to assist students in developing good study habits; and Learning and Growing in A Caring Community, a brochure and map for newcomers, realtors and residents.

LifeSource provides blood for military

For the first time since World War II, civilian blood centers will be providing blood to augment the military blood program in support of Operation Desert Shield.
 LifeSource, the largest blood center in Illinois, was notified Thursday, Dec. 13, that it is one of several selected centers throughout the country that will begin shipping blood to the Armed Forces Blood Program on a weekly basis. LifeSource began shipping blood to the Armed Forces Processing laboratory at McGuire Air Base in New Jersey on Dec. 18.
 During the past year, LifeSource reported, military personnel have donated more than 6,000 units of blood (much of it collected during holiday periods), which were used by patients in the 56 hospitals for whom LifeSource provides blood. "It's now our turn to support our servicemen and women who are involved in Operation Desert Shield," Daniel Connor, president of the blood center, added. Connor stated that, "Historically, during the holiday season blood donations decrease while the need for blood and blood components remains the same as at other times of the year."
 LifeSource's commitment to the military will receive the same priority as its ongoing commitment to provide blood for patients at its 36 affiliated hospitals. We want to emphasize that we will need the support of the public throughout the next month more than ever before," Connor said.
 LifeSource asks people to come forward and donate during the holiday period to support both the local and Operation Desert Shield needs. The blood center emphasized its continuing need for donors; that donors will be needed as much three or four weeks from now as they are today. Therefore, LifeSource asks for blood donations to be evenly scheduled throughout the period.
 For information on donating blood, call LifeSource at (708) 298-9660 or (312) 808-7660 during regular business hours. LifeSource will announce special donation programs to meet holiday and Desert Shield needs early next week.
